HAPPY NEW YEAR

Swift Bros. & Smith

MARRIED AT PARSONAGE.

Chas. E. Dean of Chicago and Miss Lillian Patrick of Rusk were married at the Methodist parsonage in this city this morning, the pastor, Rev. Hotchkiss, officiating.

The happy couple were young people of good appearance, and after the ceremony went their way rejoicing.

J. Thomas Hall, the insurance man, with the adjuster, went to Garrison yesterday to inspect the loss of W. G. King, who lost his residence a few days ago and on which one of Mr. Hall's companies carried some insurance. Mr. King returned to the city with them and received his settlement this morning, with which he was highly pleased and volunteered the statement that he was never treated better.

SAYS VILLA WILL STICK TO MEXICO

San Antonio, Texas, Dec. 22.—Gen. Francisco Villa's last word to his wife, Mrs. Luz De Villa, two weeks ago, as he bid her goodbye in Chihuahua City, was:

"I shall never go to the United States. I would die sooner than go to the United States where they hate me. I shall spend the remainder of my life in my home mountains with my faithful friends, where my enemies cannot reach me."

That, anyway, is what Mrs. Villa told the Associated Press reporter who awakened her from her berth in a special Pullman car last night. Mrs. Villa, accompanied by Mrs. Hipolito Villa and ten others, is en route to New Orleans. From there she may go to Havana; Cuba.

"Gen. Villa does not expect to go to Los Angeles, then?" Mrs. Luz Villa was asked. "No, he will stay in Mexico."

"Then he will have to remain in hiding?" "Gen. Villa does not need to hide in Mexico; his enemies are afraid of him, not he of them. Gen. Villa is a soldier, not a coward. My husband is a great man," said she in affectionate but sad tones. "He is not the bad man you Americans think. I know; I have lived with him for twenty-seven years."

A Good Stalk Cutter Will Save You Money Every Year

Are you one of those farmers who burn all your stalks and then buy fertilizer? Why don't you stop that foolishness? You know that there is fertilizer in every stalk that grows. You know that if you cut the stalks into short pieces and "turn them back into the soil" that you put that fertilizer right back into your land.

It means better land, larger crops and more money to you if you will use an AVERY CYCLONE STALK CUTTER. THE CYCLONE is built entirely of steel and iron. The wheel boxes and spindle bearings have dust-proof self-oiling caps, making the machine easy running and very durable. The springs send the knives down every time with a "hack" that cuts and these same springs also take up the "jolt," making it easier on the driver. The blades are made of true temper, best grade steel, with sharp-cutting edges on both sides.

There are many other things about the AVERY CYCLONE but we want you to come in and see for yourself. Come in and talk to us.

THRONGS GREETED WILSON AND

Hot Springs, Va., Dec. 22.—President Wilson and his former Mrs. Norman Galt, arrived here shortly after 9 o'clock this morning to spend their honeymoon. They were met at the station by a crowd of several hundred people, who applauded as they alighted from their private car.

The couple went immediately to their hotel in an automobile.

COL. HOUSE GOES TO EUROPE FOR WILSON

New York, Dec. 22.—Col. E. M. House, confidential adviser of President Wilson, stated late yesterday that he will shortly sail for Europe at the request of the President.

Col. House declared that the sole purpose of his trip would be to deliver to certain American ambassadors information regarding this government's attitude on various international matters now pending. He denied emphatically that his trip will in any way be a peace mission.

Col. House said he expected to sail from here within the next two weeks and probably would be in Europe about six or eight weeks.

"I am going to Europe at the request of the President and the secretary of state for the purpose of taking information to some of our ambassadors," he said, "in order that they may have a more intelligent idea of this government's attitude concerning certain international questions and in order to obtain from them their point of view on these matters."

"It is not advisable to bring home at this time any of our ambassadors from the belligerent countries. It has been found impossible to convey or obtain in a cable or correspondence quite the correct atmosphere."

Miss Geneva Harris, who has been attending the State university, and Miss Jennie June Harris, who has been attending the Whittis college, are at home with their parents, Hon. and Mrs. J. C. Harris. The young ladies had a most unfortunate and trying experience just before returning home, as a result of which they will not likely return to Austin. In the dead hours of night,

while they and another young lady were asleep, a burglar entered their room and when one of them made an outcry he grabbed one of the girls by the throat and threatened to kill her, swearing vengeance that if he didn't get her then he would do so later, and made his escape. As a result of the experience both girls are almost on the verge of nervous collapse. Mr. Harris is righteously indignant over the sad affair and says that he is going to Austin in person and make a thorough investigation of it as soon as the holiday season is over. The Misses Harris are most talented, charming young ladies and have a host of friends who rejoice to have them home and who sympathize with them in the trying experience which so unjustly came to them.

BARN BURNS.

From Wednesday's Daily:

Between 1 and 2 o'clock this morning H. Hatch's barn, with most of its contents, was consumed with fire.

The reporter saw Mr. Hatch this morning and when questioned about his loss, he said the barn building was worth about \$400, and that in addition to this he lost a good surry, \$65 to \$75 worth of feedstuff, a buggy top and many tools and other stuff that he had been accumulating many years. He said he had no idea whatever how the fire originated, but thinks it caught in the upper story of the building. Insurance to the amount of \$450 was carried on the building and contents.

The fire department made a quick response to the alarm and did good work in saving other property, but the fire had gained too much headway before being discovered to save the barn.

IN OLD INDIA

ALTHOUGH the railroads run up and down the length and breadth of India, and autos are not unknown, the rough cart drawn by the sacred bull is still a common sight.

Occasionally we are obliged to call upon one of these picturesque primitive conveyances to deliver TEXACO Oils.

Our business in India includes not only the sale of large quantities of burning oils to the natives, but the supply of lubricants to the big cotton mills and other industries, and a great many other oil products.

This distant business is a specialty of TEXACO Products. They must pay their way in such markets by their economy.

That is why TEXACO Petroleum Products are in demand the world over. That is why your neighbors ask for them and why you should use them.

There is a TEXACO Agent near you. Let us serve you through him.

EAST TEXAS JOBBERS SUFFER BY RULING

Austin, Texas, Dec. 16.—The railroad commission today issued an order cancelling what is commonly known as the Texarkana rate adjustment, which has been in effect for the past fifteen years. This adjustment applies between points in Northeast Texas, east of the Houston & Texas Central railway and north of the Texas & Pacific railway. At the present time this adjustment operated as a 20 per cent reduction under the regular tariffs. By its cancellation the adjustment is wiped out and in the future regular tariff rates will apply, which will be 20 per cent higher than the rate has been for the past fifteen years under the adjustment. This is considered a serious blow to the jobbers in the territory covered by this adjustment. The order of cancellation will become effective Jan. 3, 1916.

The commission granted a petition to require issuance by Texas lines of interchangeable excess baggage books.

SINGING CONVENTION.

The Nacogdoches County Singing convention will convene at New Bethel school house Friday night before the first Sunday in January, which will be the first Sunday in December, and remain in session to the second of January. New Bethel is situated four miles west of Chireno and sixteen miles east of Nacogdoches. Everybody invited to come and bring books.

COMMITTEE.

AND CENTER DID PLUCK THEIR PLUMES.

The basket ball team from Chireno came here Saturday, with a record of having won every game, but they lost it on the school campus Saturday afternoon at 3:30, when the score was called and closed in a score of 50 to 15 in favor of Center.

It was a very clean game and the Chireno boys were a very clean bunch of husky youngsters but they were not enough for the Center team.

Center also has a good record, having lost only one game last year and none so far this season.—Daily Optimist.

NACOGDOCHES IN LINE FOR ONE STATION

To Establish Stations for Teaching Dairying—Nacogdoches Is Favored.

Messrs. J. L. Thomas and R. L. Pou, with the United States Department of Agriculture, were arrivals to the city yesterday afternoon, coming to look over this section in the matter of establishing a branch of the dairying service here.

As we understand it, two stations will be established in the state, and the department looks with favor upon Nacogdoches for one of these stations. In the event of the decision upon this place, one of these gentlemen will spend a week out of each month teaching the people dairying in the way of caring for stock, the handling of dairy product and all features of the work that go with this line of service, and the service will be of inestimable value to the community.

The visiting gentlemen inspected the creamery here yesterday afternoon, and speak in great praise of the enterprise and its wonderful possibilities of future development. They also speak in great praise of this section as a dairying country, and are optimistic in the belief that a great dairying enterprise will be worked up here.

It is quite a distinction for Nacogdoches to capture one of these stations, and when the service is installed the farmers from all sections of the county should take advantage of the good features of instruction it will bring to them, and profit by it.

And here we digress from the report to say that the splendid work being done here by Messrs. Greer and McNess is arousing interest that is statewide and bringing many of these good things to us.

EMBARGO ON MORGAN LINE NOW LIFTED

Austin, Dec. 17.—W. R. Smith, general agent of the Sunset-Central lines, with headquarters at Austin, has just been advised by C. K. Dunlap, traffic manager of this system, that the embargo at Galveston with the Morgan line for east bound freight had been raised and that they will soon accept freight tendered them to New York and Eastern points.

WELL REPRESENTED.

Nacogdoches county is represented at the University of Texas this year by the following students:

Ruth Elizabeth Barham, Horace Newton Cunningham, Daniel Ferguson, Geneva Harris, Alma Houston, George I. Lewis, Edna Juanita Munsell, Mary Garrett Price, Mentis Clementine Price, Eugene Thompson, Harrison Boliver Tucker, Stephen Blount Tucker, Nacogdoches.

Ruth Elizabeth Barham and Daniel Ferguson are candidates for degrees and will probably be graduated next June.

The university is now in its twenty-third session and has registered a larger attendance than at any previous time in its history. Twenty-three hundred students are now enrolled at the Main University at Austin (810 girls), and 300 at the medical department at Galveston. It is likely that the total registration before the end of the session will exceed 2,800. Of course, these figures take no account of the 1,200 students taking work in the university by correspondence.

Texas thus has, easily, the largest registration of any university in the South.

GEN. VILLA ASKS FOR GUARANTEE

El Paso, Texas, Dec. 29.—At a conference of United States military officers, state and city authorities and representatives of the Carranza and Villa governments, held here secretly today, it was requested by the Villa delegation that Gen. Villa and his brother, Hipolito Villa, financial agent of the Villa government, be permitted to cross the border unharassed by legal, criminal or civil action.

In return for the immunity of the Villa brothers the Villa delegation promised that a new chief would be selected to head the Villa movement and pledged the leader, when selected, and as yet unnamed, but believed to be Gov. Avila, to turn over the entire military and civil organizations of Villa controlled territory to the Carranza government. Should the guarantees of immunity not cover all persons affiliated with the Villa movement, the pledge would be withdrawn and the fight against the de facto government of Carranza would be continued.

HOUSEHOLD EFFECTS BURNED THIS MORNING

From Tuesday's Daily:

While northbound freight train No. 12, was standing in the yards here this morning, fire broke out in a car of household effects, and had gained such headway before anything could be done that the flames consumed all the effects, consisting of household goods, a fine horse and some sixty bales of sorghum hay.

The burning car was hurriedly pulled up to the water tank, but arrived too late to save it, burning not only the load but the car as well, leaving nothing but the frame.

The contents belonged to E. L. Bogue, who was moving Alto to Timpson. Mr. Bogue was with the train, but happened to be back in the caboose when the fire broke out.

The debris was removed this morning and the horse carried down the line and buried.

I. C. Oliver, Center, Route 2, has rented his farm to Messrs. Frank and Herbert Cook for another year and he has moved his family to his farm near Nacogdoches. The new tenants move to this county from Nacogdoches county and are said to be splendid citizens. Mr. Oliver has resided in this county for many years and his removal to the neighbor county is not because he has fallen out with Shelby county or its people, but it is on account of business matters that are to his advantage. Before moving away he came in and paid his subscription in advance and said "be sure and change the paper in time that I may not miss an issue, for I have been reading the Champion for thirty-eight years and don't expect to ever quit reading it so long as I am permitted to stay on this earth."
