## THE MASS MEETING WELL ATTENDED.

A Large Crowd of Nacogdoches People Met at Court House In Telephone Matter

Pursuant to call of Mayor Matthews, a large crowd of Nacogdoches citizens met at the court house last night to discuss the matter of the Southwestern Telephone Company having raised the rates on residence telephone service.

Messrs. Geo. J. Todd and E. J. Pike, officials of the telephone company, were also present.

Many addresses were made pro and con, and many different ideas were advanced, some advocating the idea of a boycott while other favored the idea of legal regulation, still others offering the suggestion that a new company be formed. Growing out of this discussion a resolution was finally adopted referring the whole matter to the city council for settlement, empowering the council to take such legal action as might be deemed necessary to settle the matter amicably, with authority to employ legal counsel if necessary.

The resolution adopted was as follows: "Moved and seconded that it is the sense of this meeting that the city council take up the matter of adjusting the rate with the telephone company, and follow legal suggestions offered by Judge S. W. Blount, and settle the matter amicably if possible. If the council finds the rates too high, it is the sense of the meeting that the council employ legal counsel and proceed in a legal manner to have the rates reduced." Unanimously carried.

It is the advice of attorneys that the council can go into the district court and restrain the company if it is making more than ten per cent on its investment, and the council will proceed at once with an investigation of this feature. The telephone people who were present were very courteous, and gave assurances that they would supply any information desired.

We have everything in the Latest Labor Saving Farm Tools. w-2 Cason, Monk & Co.

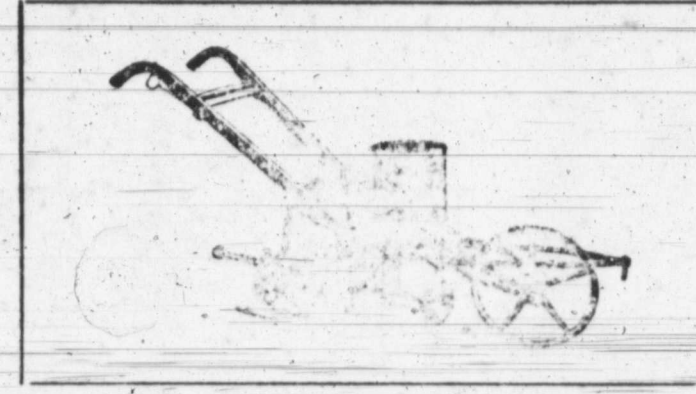

## CELEBRATED BIRTHDAY.

Mr. W. H. Wood celebrated his sixty-ninth birthday yesterday with an informal six o'clock dinner to which fifteen guests were invited.

The dining room was beautifully decorated with pot plants and ferns, the table laden with many good things to eat, and the hospitality of the evening in this good home was much enjoyed by those present who wish for him many happy returns of the day and trust that he will live to celebrate many more anniversaries of his birth.

A few days ago a nicely dressed, prosperous looking man introduced himself to Houston oil men as an oil man from Mexico. From this acquaintance grew rapid intimacy in which the stranger was invited to dine at fashionable cafes and paraded as "somebody come." Yesterday he was locked up in jail charged with ten different thefts at different residences in the city.

Crop mortgages, chattle mortgages, and notes on sale at the Sentinel office.

## EVERY'S SHAWNEE, JR.

EVERY planters are guaranteed to give satisfaction. Use an AVERY 6 days then bring it back and get your money if you had rather have it than the planter.

A big, safe proposition for you—no chance for you to lose—but it's just as safe for us. We know from experience that you will keep the planter for it will give you satisfaction just like it does for hundreds of other AVERY PLANTER users.

Look at the illustration above. Built entirely of steel (no cast iron) which makes it very strong yet light and easy to handle. See these lugs on the rim of the driving wheel and those two pitmans (one on each side) that make the planter "Plant" when you want it to plant. With this positive "Locomotive Drive" construction there can be no "skid or jumps" and besides it is so simple that nothing can get out of order.

Plates for planting anything can be had with the AVERY planter and the "Sure-enough" Peanut Planting Attachment should be of special interest to anyone wanting to buy a planter. You can't expect too much of an AVERY and we can't say too much for them. Nothing is perfect but then AVERY planters are next to it. Come get an AVERY and try it.

## Cason, Monk & Co.

We have a cultivator for you. Come and see it.

## THE TIMPSON SUSPECT A NOTED CRIMINAL

Was Once a Companion of Frank Hallway, Noted Yegg, and Other Bad Characters.

The Timpson Times received a telegram from the Fort Worth Star Telegram yesterday, with reference to the bank robber suspect wounded in Timpson the night previous, which states that L. V. Wallace first came into prominence in 1912 through his acquaintance with Frank Hallway, a confessed murderer, and noted yegg, who escaped after being sentenced to seven years for robbery of the bank of Harold, in Wilbarger county. Hallway was arrested in Memphis, Tenn., by detectives when they raided a house and shot and killed "Kinney" Burg, a yegg, and arrested Hallway and a woman claiming to be his wife. Hallway then confessed; he had gathered the gang to rescue the famous "Deggs" Nolan, bank robber, who was to be brought through there at that time in custody of federal officers from Savannah, Ga., to Omaha, Neb. Wallace was also arrested and fined \$75 for vagrancy in Memphis. He later returned to Fort Worth. He bought a saloon here, but sold it recently. He has admitted seven murders including a number of the famous Sorr gang at Oklahoma City about eight years ago.

From the Times we learn that Wallace had been getting supplies from the negro restaurant in which he was apprehended several days, and that officers and a posse of citizens had surrounded the house upon his entrance. When he came out Officer Dick Whitton commanded him to halt, which he refused to do, breaking to run, whereupon the officer fired upon him, and the fleeing man shot back at the officer as he fled. The man ran some distance before having to give down with his wound and the officers thought he had again made his escape when they were notified from Mr. Langhorne's home that a wounded man had made his appearance there. In company with Dr. Whiteside, the officers went at once, and Dr. Whiteside ministered to his wounds, in the meantime endeavoring to get him to make a statement, which he refused to do, but admitted having a confederate and throwing his pistol

away shortly before falling with his wound.

He was shot through the breast, and is very seriously wounded. He is a young man, possibly not more than thirty years old, and talks freely, but is cool. He promised to make a confession if he finds that he cannot survive his wounds.

Two white men and a woman have been camping in the vicinity lately, and it is believed that this party and his confederates are the parties. From the restaurant each time he would carry a lunch away with him, and the officers believed that they have the right party to the bank robbery and that he has tarried in the community to nurse his confederate who was wounded and possibly not able to travel.

Wallace's wife, in company with a trained nurse, arrived in this city over the T. & N. O. yesterday afternoon and took an automobile for the bedside of her wounded husband. Detectives from different places will also visit the wounded man, and in the meantime the country is being combed by officers in an effort to find the other party who is believed to be somewhere in the country.

## NEWTON D. BAKER WAR SECRETARY.

Cleveland, Ohio, March 6.—Newton D. Baker, formerly mayor of Cleveland, today, received notification that he had been appointed Secretary of War by the President.

His name had been mentioned in connection with the position several times. He was offered a place when the cabinet was formed, but declined.

Mr. Baker has accepted the position and is arranging affairs in Cleveland preparatory to going to Washington to take up his new duties.

D. C. Mast, an old settler and highly respected citizen of the Melrose country, was a pleasant caller at The Sentinel office yesterday afternoon. Mr. Mast is a surveyor as well as farmer, and in the course of his work as a surveyor he has been over much of the land in this county, and is familiar with the headrights and surveys.

## DISTRICT COURT

From Thursday's Daily: The jury in the case of Pete Valdez, which was on trial when The Sentinel gathered its report yesterday, brought in a verdict of not guilty.

The case of Charley Forney was taken up this morning. This is a companion case with Valdez, being jointly charged with the theft of goats, but being tried separately.

From Friday's Daily: In the case of Charley Forney, on trial when The Sentinel gathered its report yesterday, the jury returned a verdict of acquittal.

E. M. Birdwell, Coker Johnson, Pete Reagan and Albert Fenton plead guilty to petty theft and were fined \$25 and one hour in jail, each.

These cases grew out of the parties having killed some hogs which were intruding upon a bank of seed cane, and later using some of the meat.

In the case of Sam Glenn charged with the murder of Frank Forney, an instructed verdict of not guilty was rendered.

The case of Charley Johnson charged with killing another negro by the name of Ned Whitaker went to trial about middle of the morning, and will likely consume the remainder of the day.

From Saturday's Daily: The jury in the case of Calvin Johnson returned a verdict of guilty of manslaughter with five years in the penitentiary, with suspended sentence upon good conduct.

The next case to engage the attention of the court was Mary Lazarine, charged with assault

and attempt to murder Joe Manshacca. It will be remembered that the defendant had an altercation with Manshacca in the drug store of Stripling, Haselwood & Co., during the last term of court. The jury brought in a verdict of acquittal.

The case of Dock Johnson, a negro from the northern end of the county who is charged with perjury, was taken up this morning and will likely be all the business the court will attend to today.

From Monday's Daily: The jury in the case of Dock Johnson, charged with perjury, brought in a verdict of not guilty late Saturday afternoon.

When the reporter visited the court house this morning the court was making an effort to get into trial with the case of Walker Smith, a negro charged with criminal assault.

From Wednesday's Daily: The jury in the Walker Smith case brought in a verdict of guilty, assessing the punishment at ten years in the penitentiary.

When our report was gathered this morning, the court was making an effort to get into the trial of Henry Bush, charged with assault with a deadly weapon. This charge grows out of the killing of Bud Lewis a few weeks ago in which a pistol was used.

Since the above was put in type a verdict was rendered in the Bush case, assessing his punishment at two years in the penitentiary with suspended sentence.

Having nothing else available for trial this week, Judge Guinn has excused the jury for the week.

BALTON & GIBBS, Proprietors  
G. M. HALTOM, Manager  
V. GIBBS, Editor

Dabney White calls a meeting to be held at Dallas April 20 to start a fight against the repeal of the warehouse law. Mr. White is secretary of the State Ginner's Association.

A dispatch from Independence, Mo., says that a leap year mother, born Feb. 29, 1888, had given birth to a leap year baby, from which we presume that the leap year habit "runs in the family."

The story is going the rounds that a certain town offers a railroad ticket to any citizen who boasts of the knowledge of a better town. The idea is a good one and the investment one that will be fruitful of returns.

Says the Temple Telegram: "A man gets all worked up when he finds that his name is Mud." Why not let him to the Sud and make it rhyme, a supplement that would give you another line.

The Longview Times-Clarion has no fear of the stock in its "munitions plant" being "watered," offering the following explanation: "Our iron proposition is too solid for even a thought of water."

Charley Chaplin, the noted "funny" actor of the movies, has signed a contract for a year's work for a consideration of six hundred and seventy thousand dollars. A pretty good roll, but we would want as much for acting so silly before as many people.

Bank robberies are getting uncomfortably near to us, and it would be well for the citizens and officers to be on the alert. If you should hear an explosion in the dead hours of the night don't go back to sleep until you have either ascertained what it is or notified the officers.

In the affairs of life, nothing is more certain or practical than the scriptural injunction that "no lives to himself, alone." In the exchange of products and service with each other we make our own support, and when we realize this great truth we will feel a greater interest in the prosperity of our fellow-man.

To properly safeguard the interests of the people of the community, and protect them from what now seems an injustice, Mayor Matthews has called a mass meeting of the patrons of the telephone exchange, to be held at the district court room Monday night, at which time the matter of the raise in rates will be discussed and such action taken as may seem wise. Every patron who feels that an injustice has been done him should be present and give the mayor his moral support.

And now the lawyers are after State Press. Two of them, one from Nacogdoches and one from Cisco—East and West—have written in to set S. P. and everybody else right on "Cotton-Eyed Poe." Each of these attorneys at law sends what he decides to be the only authorized version of the song, and each of these versions is different from the other. The Nacogdochean says his version is right, because he heard it before the war. The Ciscoan says his own version is right, then, is State Press heist between the resolute recollection of a valorous old soldier and the no less positive assertion of a lady, younger, but no more to be disputed. What can S. P. do? Where can he fly? Is there balm

in Gilead, and if so where is Gilead? There seems no escape possibly by retiring to his trench and breathing a gas bomb—"State Press," in Dalas News:

There is one kind of "preparation" over which there can be no controversy—a sweet potato dry kiln with suitable warehouse room, and a peanut oil mill. But possibly this is the reason we find it so hard to arouse interest in the matter. If so, please let some one take issue at once.

A negro murderer at Houston entered a plea of guilty and was given a life sentence. He chose between admitting guilt and being proven guilty because the death penalty has recently been assessed against criminals of his class. When the death penalty is regularly allotted as the portion of murderers human life will increase in value. For even a murderer hesitates to give his own life for that of another.—Temple Telegram.

Elsewhere in today's paper will be found a communication from the pen of Hon. Geo. H. Matthews, mayor of Nacogdoches, in which he makes the announcement for re-election and reviews the work done under his administration. Since Mr Matthews has been at the head of this municipal government of Nacogdoches, many improvements have been made in the city which commends him to the careful consideration of the voters in the forthcoming election.

A bulletin from the department says: "Under the Federal Food and Drugs act, eggs, in common with other articles of food, are adulterated if they consist wholly or in part of a filthy, decomposed or putrid substance. Section 2 of the Act prohibits the shipment in interstate commerce of foods which are adulterated, and it is plain that this prohibition applies to the shipment in interstate commerce of foods which are adulterated, and it is plain that this prohibition applies to the shipment in interstate commerce of current receipts, or of rejects from culling rooms, or any other grade of eggs in the shell unless the filthy, decomposed or putrid eggs have been removed."

There are two cotton seed oil mills in Grimes County that will crush peanuts this year. Both will add the necessary equipment and of course be competitors for the peanut crop. The strong competition for the cotton seed crop last fall ran the prices sky high, and The Star predicts that the competition this year for the peanut crop will be as strong and that good prices are certain to prevail. Mills all over the country are making the necessary change to crush peanuts. In our estimation, the growing of peanuts is no longer an experiment for a money crop, but thousands of farmers this year will realize money from this crop. Plant several acres in peanuts.—Grimes County Star.

Some stores are content with business that drifts to them unsolicited—satisfied because they are existing. Live, wide-awake merchants employ original, trade compelling advertising methods and literally cull fortunes out of the air. A Maine furniture dealer watches the newspapers for leads which he couples with modern advertising to pull business from the mail order houses. Don't believe in the myth, "mail order competition." The secret of the mail order merchant's success is real salesmanship on paper. Put the proposition up to your prospect—use modern advertising—salesmanship on pa-

per—and you beat the mail order houses at their own game. Spasmodic, slop-dash advertising gets but scant attention, while a definite, specific campaign gets results in cash dividends.

Noah Dundy, a farmer living near Arcola, Illinois, is mourning the loss of \$2650 in currency which he had folded away in a mail order catalogue, and which was subsequently burned by his wife. But it is good enough for him. In the first place, the money should have been deposited in a bank which is insured against burglars and fires; and secondly, he shouldn't have had the mail order catalogue in his house if he wanted to save his money, for if it hadn't secured his savings in this way it would have taken them by installments.

The two greatest industrial enterprises to which Nacogdoches could give attention just at this time are a big potato dry kiln with suitable warehouse facilities, and facilities for making peanut products. The peanut and the potato are the best adapted to this section with which we could make our lands equal in value of production, per acre, the rich black lands of West Texas, and with the increased production of wealth would follow an increase of business in all lines. "Come on, 'fellers;" we need the business.

The Sentinel is delighted to learn that local dealers are coming to an agreement to use Nacogdoches ice cream exclusively the coming season. The first essential to community growth and community prosperity is home support. We should give preference to Nacogdoches cigars, Nacogdoches cream, Nacogdoches butter, Nacogdoches oil mill products, Nacogdoches bottled beverages, Nacogdoches hair-tonics, and everything else manufactured at home, and give to the local merchant our patronage for the things that we have to have shipped in. We all live and prosper upon the prosperity of each other, and when we stick exclusively to each other we contribute to the community wealth in which we have a share.

In speaking of the difference of this spring and last, a farmer of this community gave a most tangible explanation in the presence of two or three bystanders yesterday afternoon. Last spring he had no feedstuff save what he bought, that his horses and mules were poor and weak, and that the men on his place were having a hard "rub" to get through, as a result of which he could not push work. This spring he has fat stock with plenty of feedstuff; plenty meat, bread, syrup and other things raised at home, and the men are in the field by daylight each morning whistling as gay as larks and doing almost twice as much work as they did last spring.

Some Denton county peanut growers were displeased this year at the low prices and a few threatened to stop growing the crop. But a cold calculation has proved to virtually all of them that the peanut even at 55c or 60c a bushel is a more profitable crop in the sandy land than corn or cotton at top prices, and the prospect is now that the 1916 peanut acreage will be the largest in the history of the county, which has shown a steady increase in the acreage since the first experimental crop was planted six or seven years ago. And once a fairly stable permanent market for the oil and cake is secured we may expect to see the prices climb to around 75c a bushel, at which there is a very satisfactory profit.—Denton Record-Chronicle.

## Puff your way into the joys of Prince Albert!

Go ahead, quick as you lay in a stock of the national joy smoke! Fire up a pipe or a makin's cigarette as though you never did know what tobacco bite and parch meant!

For Prince Albert is freed from bite and parch by a patented process controlled exclusively by us. You can smoke it without a comeback of any kind because P. A. is real tobacco delight.

### PRINCE ALBERT

the national joy smoke

will do for you what it has done for thousands of men, not only in the States but all over the world! It will give you a correct idea of what a pipe smoke or a home-rolled cigarette should be.

Get this Prince Albert pipe-peace and makin's-peace message, you men who have "retired" from pipe and cigarette-makin's pleasure; you men who have never known its solace! Because you have a lot of smoke pleasure due you quick as you pack-your-pipe or roll-a-cigarette with P. A. and make fire!

Buy Prince Albert everywhere tobacco is sold; in tins, red bags, 5c; tins, red bags, 10c; handsome round and half-pound tin humidors and in that clear pound crystal glass humidor with sponge-moistener top that keeps the tobacco in such fine shape.

On the reverse side of this tidy red tin you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

#### CHRISTIANITY WILL WIN.

The past year has been one of bloodshed and carnage. In all parts of the world men, women and innocent children have been murdered by the tens of thousands, but yet Christianity is advancing, is rolling on and it is going to warm the hearts of all nations and all nations will bask in its light. Men may shut the window blinds so they cannot see it, or they may smoke the pipe of speculation until they are shadowed under their own vaporing; but the white light of the gospel made up of all the beautiful colors of earth and heaven, violet plucked from amid the spring grass, the indigo of the southern jungles, the blue of the skies, the green of the foliage and the yellow of the autumnal woods, the orange of the southern groves and the red of the sunset, all the beauties of earth and heaven are combining to keep the ball of Christianity rolling. Great Britain is going to lead all Europe to the foot of the cross; the United States is going to bring all America to God, these two great countries will combine and take Asia for God and then there with their combined strength bring Africa into the fold and the world will be redeemed. The good homes of our land are the little yeast cakes that keep the moral influences working. Infidelity and atheism are receiving their death blow from clubs in the hands of the good mothers in the land.—Knox Hall.

#### SAVE WOOD ASHES.

Ordinarily unleached ashes from soft woods, such as pine, contain from 4 to 5 per cent of potash, while those from hard woods like oak and hickory, contain from 8 to 10 per cent. In the ashes there is a small amount of phosphoric acid, usually not exceeding 1 per cent. The percentage of lime will usually range from 30 to 35 per cent. This lime in freshly burned ashes is in the caustic form.—C. B. Williams, in The Progressive Farmer.

#### CUT DOWN COTTON.

Farmers, if you increase the cotton crop this year, you need not think that you can profit on your own folly and on the intelligence of your brother farmers. Disaster will follow, both to you who increase the cotton crop and to those who have followed proven economical laws and cut down this crop. Don't let either your own or some local merchant or banker's greed lead you to this business and ecological suicide. Raise more food stuffs and feed stuffs, so that you and your family and farm help, as well as every live thing on your farm will have all things needed to eat. This will assure you such small expense for store accounts—cash—that success beyond your experience will follow such a course. With meat, bread, fruits, vegetables, eggs, poultry, milk butter, etc., (both canned and fresh where food may be put up) you will absolutely be masters of the situation regarding the price of cotton or strictly surplus or cash crops. Otherwise, you will absolutely remain a slave to those who furnish you necessities at the enormous profits they have always exacted for these things.—Farmer's Fireside Bulletin.

A few days ago a nicely dressed, prosperous-looking man introduced himself to Houston oil men as an oil man from Mexico. From this acquaintance grew rapid intimacy in which the

stranger was invited to dine at fashionable cafes and paraded as "somebody come." Yesterday he was locked up in jail charged with ten different thefts at different residences in the city.—Nacogdoches Sentinel.

Isn't it funny how people will take up with a man just because he is from somewhere else. But we didn't know this was practiced in the larger cities. Let a little old "dolloed-up" specimen of humanity drop into a small place proclaiming that he has been off to a two-bit college, traveled all over the country and shakes hands like he has the rheumatism, he is accepted readily by society and "carried the rounds." There is another sorry specimen—the fellow that edges into society through the churches; he attends service regularly and soon he is also taken into the homes of good people—and fed with a silver spoon, so to speak. Then after awhile their true worth is discovered, and in many instances it would take an adding machine to estimate the bills they failed to pay before leaving town. We are always willing to welcome strangers, but we do not "go wild" about them.—Timpson Times.

Dora and Orton Davis, children of W. B. Davis of Cushing, and grandchildren of J. G. J. G. Orton of this city, entered Nacogdoches High School this morning.

## GALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Galomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Galomel is mercury or quicksilver which causes necrosis of the bones. Galomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous, I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of galomel because it is real liver medicine; entirely vegetable, therefore it can not salsivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile—and excremented waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

O. M. GIBBS, Editor

The peanut crop is as certain in East Texas as you plant and cultivate it. Such a thing as failure has never been recorded against it. Its enemies are few, and its ability to resist drouth and stand excessive moisture is equal to cow-peas. Thousands of farmers in the "old southern states are getting rich in the business of growing peanuts."—Rusk County News.

Up at Longview the sweet potato crop was stored last fall and since the first of the year they have been getting as much as one dollar and thirty-five cents per bushel for much of the crop. More than one hundred thousand bushels will be shipped from there. There are other sections where sweet potatoes have been kept through the winter by being stored in warehouses and we hope that our farmers will give the proposition a thorough test.—Jacksonville Daily Progress.

In speaking of the difference of this spring and last, a farmer of this community gave a most tangible explanation in the presence of two or three bystanders yesterday afternoon. Last spring he had no foodstuff save what he bought, that his horses and mules were poor and weak, and that the men on his place were having a hard "rub" to get through, as a result of which he could not push work. This spring he has fat stock with plenty of feedstuff; plenty of meat, bread, syrup and other things raised at home, and the men are in the field by daylight each morning whistling as gay as larks and doing almost twice as much work as they did last spring.—Nacogdoches Sentinel.

It is great to live at home and be independent. This idea has at last taken hold. Many men have tried it and found it to be all that is claimed for it.—Temple Telegram.

On last Monday a Marlin man, despondent over financial reverses, committed suicide. He left a wife and nine children to fight the battle of life as best they can. The suicide route seems to be a favorite one for cowards to travel when they have taken upon themselves burdens which are pretty heavy to bear, and which leave no time for selfish indulgences or pleasures. It seems to us that for a man to commit suicide to escape the responsibilities and painful experience of beating the wolf from the door behind which are huddled a trusting, dependent wife and a family of little children brands him, though dead, with the stigma of arrant cowardice. He robs his children of that most precious inheritance, an honorable name, founded on the courage, honesty, and intelligence of the father who gave them that name. He robs them of the chance to meet the world in an even bout. They must work for a living to the exclusion of their rightful privilege of attending school, and thus his act assigns them, however bright the intellect, to a place in the ditch. Besides this, these children must forever bear the brand the father has seared upon them—that of being the offspring of a suicide. In meeting reverses, people need to know more the Bible more thoroughly that they may have the faith that strengthens to renewed effort gained from such instructions and promises as "Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you."—Hamilton Record.

## WASHINGTON PARK.

The formal purchase of fifty acres of land at Old Washington-on-the-Brazos, for the establishment of a State park in commemoration of the ancient town's great historical importance, was made Independence Day by Governor James E. Ferguson, for a consideration of \$3,000, and the acreage was bought from the Smith heirs and from Mrs. Gus Stoiz. As the bill introduced by Hon. Sam D. W. Low, carried with it an appropriation of \$10,000, this leaves a balance of \$7,000 to be used for the improvement and maintenance of Washington park. Captain Joe Owens, commissioner of public grounds and buildings, will have charge of this work under the direction of Governor Ferguson.

Governor Ferguson favors a huge boulder of Llano granite, of the blue-gray grade, suitably inscribed, to mark this shrine of Texas Liberty. Trees indigenous to Texas will be planted, and walks will be laid out even to the river's edge. Captain Owens suggested the construction of a pavilion, similar to the one that he is having built at the present time on the San Jacinto battle ground for the State of Texas. The funds will be judiciously expended, and Washington Park will indeed, be a playground for the people of Texas. While Washington county is custodian of this historic spot, the people of the entire Lone Star State are co-equal in its ownership, and it will always be their blessed privilege to place the flowers of appreciation on this altar of Texas Independence.—Brenham Banner.

We are authorized to state to the farmers of this section that the Henderson Cotton Seed Oil Mill will pay the highest cash price for peanuts that may be delivered there during the next season. The mill will be prepared to manufacture them into the various products for the market.—Rusk Co. News.

Score another victory for progress. Peanut oil is in eager demand at a good price. The Henderson Cotton Oil Mill is getting ready to make peanut oil. All it will need will be peanuts, and it will have to depend on neighboring farmers for them. The market is at hand, the demand unlimited, and cash will be paid for all the peanuts offered. There at Henderson—and at several other places in Texas—is an assured local market for a profitable money crop. Many farmers stated last fall, when they were getting high prices for cotton seed, that they wished there was some cheap way of raising cotton seed without raising lint at the same time, for with a ton of cotton seed to each acre they could get rich raising them. State Press doesn't pretend to know what the peanuts bring at the mill. But certainly an acre of peanuts affords more oil than a ton of cotton seed, and the everage outrun of cotton seed is not more than a fourth of ton per acre. Surely here is opportunity for those farmers who wish they could raise cotton seed without raising cotton.—Galveston News.

## HON. W. P. LANE

### WITH THE DEAD.

Hon. W. P. Lane, former state comptroller of Texas, and prominently identified with the prohibition forces in the Democratic party of the state, died at his home in Fort Worth yesterday morning following an illness of several months duration. Previous to his tenure of office as comptroller, Mr. Lane served in the state legislature, and made a creditable race for governor in the last campaign.

## PRAISES WORK

### OF MISS BESS MASON

Miss Amanda Stolfus of the Extension department of Education who recently visited this county with Prof. Davis, with which readers of the paper are familiar, contributes the following report of the work being done by Miss Bess Mason in this county:

While taking part in the recent educational campaign in Nacogdoches county, we found there the inauguration of a valuable work that other Texas counties will do well to emulate. We refer to the classes in housekeeping and home-making for girls and their mothers, which are being conducted in eight different district schools in the open country, where there are no available funds to pay for the necessary equipment or for the special teacher's salary.

This work is the result of Superintendent J. B. Stripling's idea to bring remote schools in his county some of the things that make for better and more attractive rural homes. The young woman who has undertaken it is Miss Bess Mason, recently graduated from the College of Industrial Arts. With a desire to be of service and with sympathy for country life and country people, she is, in a happy, tactful way, spreading the gospel of how to cook balanced and more wholesome meals; how to use the needle in making neat, serviceable garments; and how to keep the school and home more hygienic and sanitary.

An occasional trip by railway and miles of travel by private conveyance are necessary to make this teacher's bi-monthly visits to each school.

Her laboratories are installed in some room or corner of the school house, or in a neighboring home. At first Miss Mason's entire equipment was carried to each school in a suitcase, and her cookstove was the common box heater found in so many of our rural school houses. But soon enthusiastic and appreciative groups of women rose to the occasion and are now installing in the school houses by private subscription, oil stoves or small cook stoves similar to those used in the farm homes. Other necessary equipment as well as the material for class use is brought from the farm homes. "When there is no double boiler, one is improvised from utensils at hand," says Miss Mason.

Bulletins especially prepared by the State University, department of extension, for the use of Parent-Teacher's clubs, and for the community meetings at the school house are being used by Miss Mason's classes and clubs.

In spite of the notion that "we can't breathe when the windows and doors are shut in with wire or cloth nets," the prevention of malaria and typhoid by screening farm homes against mosquitoes and flies is being emphasized in each of these schools. The prevention of hookworm disease and many germ diseases through the building of sanitary toilets, and the study of a sanitary supply of drinking water are other phases of this most interesting work.

Each school assisted by its mother's club is paying its share of Miss Mason's modest salary by individual contributions, entertained in the homes of each community visited. It is in these homes that she finds additional opportunity for further practical demonstrations of lessons given in class. "Well," said a kind hostess, "I have never before thought of measuring the things to make biscuits with."

For many years we did not think it necessary to give women any training for her work in life. We expected her to do it without

# Walking Cultivators Riding Cultivators Disc Cultivators

There are all very useful in making larger and better crops. One man can cultivate so much more, thereby saving the extra hired help.

You can go over your crop much quicker, keeping the soil in a better state of cultivation and hold the moisture better.

We have a very complete line of all of these and will make it to your interest to see us if at all interested in any of these.

We also have a complete line of Gee Whiz Harrows, Section Harrows, Shawnee Harrows, all of which are very necessary in making the best crops and will make you more money.

We invite your attention to these lines and will appreciate a visit from you. We are always glad to show you our goods.

## Tucker-Sitton Hardware Co. The Quality Store

training, we thought she could do it by instinct. But today we know that trusting to instinct has killed more babies, shortened the lives of more women and driven more husbands to indigestion and drink than any other one thing, and we are beginning to recognize that women must have definite training and education for their great work, just as men do for man's work.

### PLAN FOR VOTE.

Washington, March 1.—House leaders today drafted for consideration of the house a measure proposing that congress express its confidence in the President's handling of the armed controversy and recognize that it is not a matter of legislative but of executive concern.

Washington, March 1.—Germany's latest assurances on the conduct of submarine warfare, presented Monday by Count Von Bernstorff to Secretary Lansing, are not so broad as the United States desires. It is indicated no further steps will be taken by this government until the administration is certain its action will not be embarrassed in congress.

### FROM THE LUFKIN NEWS.

Mr. W. D. Tartt, manager of the telephone exchange at Garison and candidate for the affections of one of Lufkin's pretty and popular young ladies, spent Sunday in the city very pleasantly.

Mr. J. S. Moore told a News reporter Saturday that he was getting along splendidly with his railroad grading over in Nacogdoches county, and that all he could hope for was a continuation of the pretty weather which has been prevailing here lately.

Not everybody from Lufkin visited Nacogdoches yesterday,

but the great majority of citizens who owned and still own machines, motored in that direction, many of them completing the journey without any trouble, and looking over the town to their heart's content. One fellow said that he saw Mr. Oscar Matthews and that he looked just as natural as ever. One of these days there will be a better road between the two towns mentioned than the one which exists today, and all the people will take pure delight in it; but the happy time has not yet arrived.

### A ROBBER SUSPECT CAPTURED AT TIMPSON

A man giving his name as Wallace, and his home in Fort Worth, was very seriously wounded and captured last night in Timpson, who is thought to have been connected with the recent bank robbery committed in that city.

The alarm was raised when the man showed up in a negro settlement and made application for something to eat. A posse was quickly formed who went in pursuit, and when the man saw the crowd coming he fled, and refusing to stop, was shot, the bullet penetrating its way through his body.

So far as we can learn no statement has been obtained from the man, and no definite clue is had as to his identity save his actions last night.

Officers this morning telephoned to the chief of the detective agency representing the banking fraternity who made the statement that the fellow is a bad character and requested that he be held.

The prisoner is said to be very seriously wounded, and but little hope is entertained for his recovery. It is also reported that

his wife is en route from Fort Worth.

### HISTORIC TREES.

Mrs. W. W. Creswell, 226 Pecan street, San Antonio, Texas, is seeking information concerning any historic trees in this vicinity, and would be glad to have pictures of any such trees. She says: "There is little in print on Texas trees, and I must depend on the goodness of those who know to assist me in research for data."

A copy of the Sentinel containing the article written by Dr. Mayfield along this line was sent to her and she writes him thus:

"226, San Antonio, Texas, Feb. 29, 1916. Dear Sir: I want to thank you so much for your article on the Lierty Elm and other trees of interest in Nacogdoches. Could you in some way kindly supply me with a picture of this tree? I sincerely appreciate your courtesy. Mrs. W. W. Creswell."

Who will send the photograph?

### MRS. BOWERS HONOREE.

Mrs. Walter Gintz entertained Friday afternoon in honor of Mrs. Bowers of Shreveport, who is a guest of Mrs. E. A. Blount.

Several tables of Bridge was the fortunate number, all taken from the close friends of the honoree. Mrs. John Baker made high score and was presented with a beautiful pin tray, but Mrs. Pratt Matthews won every game and sat at the head of the table throughout the entire afternoon, a very unusual display of scientific playing. The honoree's souvenir of this delightful social function was a handsome Russian leather purse.

The afternoon closed with a dainty course of refreshments.

# The Spring Merchandise and Style Trend

There is so much change in the new Spring modes, that the new showing will arouse exceptional interest to our patrons. The garment styles, its values in particular, are so diversified as to make an unusually broad appeal to women. You are welcome to visit this store and inspect the new styles.

## SPRING DRESSES

Taffeta Dresses are very much in demand. We are showing an extensive line. Regular value \$15. **\$10.95** Special  
Better dresses at \$15., \$16.50, 18.50 and up.

## SPECIALS OF WAISTS.

New waists through a special purchase we are enabled to offer you a lot of \$1.00 Waists at **59c**

## NEW SPRING COAT SUITES

Embrace a dozen diversity of styles. Something different from former season. The New Suits are of Gaberdines, Serges, Poplins and Taffetas. Every wanted spring color is represented. Prices range from \$15.00, \$16.50, \$18.50 and up. Ask to see them.

## SPECIALS OF SKIRTS

Made of Gaberdines, Serges, Poplins and Sheppard checks; all new models. Regular \$5.00 values **\$3.95** Special

## THE NEW SPRING SILKS.

Prices? You can't find them more reasonable or more in keeping with your ideas of real values anywhere. If it is new we have it. Popular prices \$2.00, \$2.50, \$3.00, and \$3.50.

Write for samples of New Spring goods stating what particular kind of materials you desire.

# Mayer & Schmidt, Inc.

We solicit your mail orders and guarantee satisfaction.

## LAUNDRY IMPROVEMENT

The Bonita Laundry of this city is installing a collar moulding machine of the very latest make and the best that money will buy, which will insure great improvement in this class of work. This machine will not break collars, gives tie space and finishes the collar with a smoothness and gloss that delights its customers. Nothing superior can be found in the larger cities, and Mr. Murphey, the proprietor, is to be congratulated for his enterprise.

Many other improvements have been made in the equipment and service lately, and the plant, while not so large, will equal in quality of equipment the laundries of Houston, Dallas and other large places, and the enterprise is supplied with experienced, competent help who know how to get the best results from the good machinery, and are giving to the customers a class of service that can not be beaten in the south.

A good laundry is one of the most necessary utilities of any community, and Nacogdoches has cause for congratulation for the splendid enterprise she has in this line, owned and operated by a man who will continue to keep it up to the very highest standard and give his people the best in his line in reward for their patronage.

## PROTECT COTTON AS WELL AS TOURISTS

Fort Worth, Texas, March 1.—The Texas Farmers union today went on record opposing an open sea policy unless such a policy it apply to cotton and other farm products.

In a telegram to Texas members of congress Henry N. Pope, president of the union, outlined

the position of his members as follows:

"The organized farmers of this state are opposed to keeping an open sea to travelers and tourists unless we can also keep an open sea to cotton and farm products. The farmers of this country want a flag that will protect the man in the furrow as well as the man in the ship. We favor an open sea, but object to any policy that discriminates."

In defending the position taken by the union, Mr. Pope said: "The farmers of the South are smarting under the failure of our government to render any assistance whatever in holding or marketing the cotton crops of 1914 and 1915, where the cotton producer lost something near a half billion dollars. The cotton fields of the South have been as much a battleground for the European conflict as they have been for the civil war. The peace and dignity of this nation is as much offended when European battleships destroy the value of cotton by closing a market as if they destroyed the cotton with guns. The farmer of the south had as well be shot as starved, and one is no greater crime than the other. Let the sea be open or closed."

## FAREWELL RECEPTION.

Upon the eve of their departure for this city, to which place they have come to make their home, the officers and teachers of the Methodist Sunday School of Lufkin held a social meeting at the home of Dr. and Mrs. J. C. Van Nuys in honor of Miss Edna Evans and Mrs. J. L. Dent.

At the conclusion of the entertainment, a delicious salad course was served, and those assembled bade their departing friends good-bye, coupled with the expression of many good wishes and assurances of tender recollection.

## THURSDAY'S LOCALS.

Claude King of Dauglass was in the city today. He came yesterday.

W. B. McCray of Cushing was registered in the city last evening.

Isaac Lawler of Jacksonville was registered in the city last night.

C. C. Poplin and wife of Charlott, N. C. were registered in the city last night.

Mrs. R. W. Haselwood is spending this week in Rusk visiting with her sister, Mrs. E. J. Bateman.

Rev. and Mrs. Guy L. Ament of Lufkin were among the Lufkin visitors to the city yesterday afternoon. Mr. Ament is pastor of the Christian church at Lufkin.

Mrs. R. N. Johnson, and Mr. and Mrs. Charley Watkins of Douglass spent last night in the city, guests at the home of the Mr. and Mrs. Vondersmith.

Prof. L. B. Tindall was down from Tenaha yesterday, coming down to visit his wife who is taking treatment here.

Commissioner C. R. Brown spent last week in San Antonio. He went to carry a patient to the insane asylum, and took advantage of the trip to visit with his brother who is engaged in business in the Alamo city.

J. E. Ranshack of Marshall was an arrival to the city yesterday, coming down to get some delinquent taxes on property he owns in the county settled and look after some collections. He says

that he succeeded very nicely in the adjustment of both, and returned to his home in Marshall today.

Dr. J. M. Rogers of Attoyac was in the city last evening.

W. L. Lowery and son, Lindel, and G. L. Whited, good farmers of the Etoile country, were in the city today buying supplies.

Mesdames G. F. and J. D. Garrison, Miss Olena Day and Keefer Garrison of Garrison were in the city yesterday afternoon doing some shopping. They came down in an automobile and returned home late in the afternoon.

Adlai Mast sold a five-passenger Buick automobile to Buck Moss of San Augustine this morning. Mr. Moss phoned him to have it in readiness, which he did, and the owner left with his new car soon after arriving in the city.

L. T. Blake of the Attoyac country was a pleasant caller at the office this morning. He came up after Mrs. Blake who had been visiting with her mother, Mrs. R. A. Hall since last Thursday.

Miss Willie Cason, who has been visiting with relatives and friends in Dallas the past three weeks, returned home today accompanied by her friend and former college chum, Miss Maude Moss of Llano, Texas. Miss Moss will be Miss Cason's welcome guest for some weeks.

Mrs. N. H. Jarrett of Garrison has been visting with friends in the city this week.

Subscribe for The Daily Sentinel. Price 35¢ per month.

## SATURDAY'S LOCALS.

R. H. Yarbrough, candidate for sheriff, is in the city this afternoon shaking hands with the voters.

Miss Mary Weatherly of Garrison is in the city visiting with relatives and friends for a few days.

Messrs. J. W. and AD... Frank Williamson and Leslie Harrison have been among the Cushing visitors to the city today.

Messrs. W. C. and Reese Lee and R. L. Akin of Garrison have been spending the day in the city coming down in the former gentleman's car this morning.

Miss Christie Patton of Melrose was an arrival to the city yesterday, coming to attend her brother's wedding, and will visit with relatives and friends before returning home.

J. D. George of Chireno was registered in the city last night. Prof. Homer Blackburn left last night for Austin where he will re-enter the State University.

J. W. Shotwell, a prominent citizen of Center, has been spending the day in the city. Previous to his removal to Center, Mr. Shotwell was a citizen of Lufkin where he served as postmaster for a number of years.

Miss Jewel Sparks of Nacogdoches came in last Saturday to accept the position as milliner and sale lady for J. W. Carriker & Co. She was accompanied by her sister, Miss Jonnie Mae, who assisted her in securing a boarding place.—Cushing Enterprise.

Mrs. Louis Matthews of Galveston arrived in the city yesterday for a visit to her parents, Mr. and Mrs. J. J. Bowden, and other relatives and friends.

Dr. Geo. H. Turner, Joe Cardwell, Matt Parrott and Lee Fulghum of Garrison are in the city. They came down in a car this morning, and will return home this afternoon.

Mrs. C. D. Power and Miss Daisey Balzarette of this place, with Miss Leola Chancellor of Cushing, honored The Sentinel with a pleasant call yesterday afternoon, coming in to see the machinery in operation.

W. E. Hayden of Mt. Vernon is in the city today, looking into some land titles in which he is interested. Mr. Hayden married Miss Myrtle Pullen, daughter of Dr. Pullen, who formerly lived at Chireno before moving to Jacksonville.

## STOVE REPAIRING

## HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas. "After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it whenever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

### A VALUABLE SUGGESTION.

Collective action brings results. The Nacogdoches Sentinel observes: "The Athens Daily Review is advocating the idea of the organization of the newspaper men of East Texas whereby the editors may come together and make plans and work in harmony and concert of action for the development of this grand and glorious country of ours. The idea is a good one, for 'in the multiplicity of counsel there is wisdom' and 'in unity there is strength.' Banded together and working with a unity of purpose we could accomplish much, both for the country and ourselves, and the Sentinel is in hearty accord with the proposition."

United in support of a well defined program the press of eastern Texas could work wonders. There are many changes that must be brought about before this region can come into its own; changes that its newspapers could undoubtedly compel in reasonably short order, should they make sustained joint effort to do so, with understanding.

There is no longer a reason why eastern Texas should lag behind. Agriculturally speaking, it has been freely endowed by nature with the elements that make for the success of farming enterprises as any portion of the south. In the matter of raw material it has been lavishly supplied with products, the exploiting of which brings wealth to the manufacturer.

Individual effort will hardly suffice to excite general interest in the development of this region as a whole, however. Community of action in that respect will come only as a result of co-operative newspaper prompting.

The Athens Review's suggestion should not be allowed to fall in barren ground.—Beaumont Enterprise.

Miss Eva Case of Logansport is in the city visiting with Mrs. Bennie Burrows.

### SOUR, ACID STOMACHS, GASES OR INDIGESTION

Each "Pape's Diapensin" digests 1000 grains food, ending all stomach misery in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no distention, floating, foul breath or headache.

Pape's Diapensin is noted for its speed in regulating the stomach. It is the surest, quickest stomach remedy in the whole world and besides it is harmless. But a recent stomach trouble forever by getting a large quantity of Pape's Diapensin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the easiest, surest and most efficacious stomach cure.

### REMINISCENCES.

In writing of Texas Independence Day, a Waco paper has the following reminiscences which will be of interest to Nacogdoches people, as much of the matter pertains to the early history of the town and people who made it famous in their day:

March the 2nd is Texas Independence Day, a distinction which no other American commonwealth can singly lay claim to.

Bearing the date Nacogdoches, December 27, 1831, is a document signed by Moses Austin, a citizen of Missouri, "as civil and military commander of the colony forming on the Brazos and Colorado rivers, in the province of Texas, under the government of New Spain." That gives us the starting point of Anglo-Saxon settlement in Texas. Colonization was encouraged by law.

The prosperity of Austin's colony, and the favorable provisions of the general colonization law, induced a number of persons to apply for empresario grants. On the 15th of April, 1824, three applications were filed for contracts.

Frost Thorn proposed to introduce 400 families; Robert Leftwich, 800; and Green DeWitt 400. During that same month S. F. Austin took an additional contract for the introduction of 500 families. In the six succeeding years many such contracts were entered into. In 1834, Santa Anna, the president of Mexico, sent his trusted lieutenant, Almonte, to examine Texas and report upon its progress, and Kennedy says of this report: "The statistics of Almonte form the proudest testimonial to the labors of those fearless and preserving spirits who first rendered the golden globe of Texas tributary to the enjoyments of civilized man."

In 1830 the Mexican authorities prohibited further immigration into Texas from the United States, and with this decree began the effort for the complete subjugation of the colonists. There were numerous conflicts. On the 5th of October, 1834, Santa Anna convoked a meeting to consider the Texas question, and Stephen F. Austin was a participant. Austin accepted Santa Anna's declaration that he would "sustain the federal representative system, as it now exists." But Santa Anna went right ahead making active preparations for the military occupancy of the province. Texas was threatened with invasion by a government to which it had a right to look for protection. A general plan to disarm all citizens of Texas soon became apparent. The Texans began to organize.

It was not long until there was a volunteer army, of which General Edward Burleson was commander-in-chief. In the early part of December, 1835, this army under Burleson stormed the Mexican garrison at San Antonio, and was successful after days of fighting—"which will, I trust," said Burleson in his report to the provisional governor of Texas, "prove the downfall of the last position of military despotism our soil of freedom."

Stephen F. Austin, who was in New Orleans to effect a loan for Texas, wrote to the provisional government advocating a declaration of Independence which he had all along opposed. Accordingly a general election was held on the 1st of February, 1836, and the Convention authorized thereunder met on the 1st day of March. On the following day a committee reported the draft of a declaration of Independence, and General Sam Houston introduced the following resolution: "Resolved, That the Declaration of Independence, reported by the committee, be adopted, that the same be engrossed and signed by

### Getting over the old stile

Clear skies, green fields, full barns for the farmer who realizes that the old order of things has passed. To be modern is to have a Bell telephone. To have a telephone is to live.

Apply to our nearest Manager or write THE SOUTHWESTERN TELEGRAPH & TELEPHONE CO. DALLAS, TEXAS

the delegates of this convention." And the question being put, the resolution was unanimously adopted, and so we have March 2nd as Texas Independence Day. Just one year later, the 2nd of March 1837, the Congress of the United States passed the bill recognizing the independence of Texas.

### A "WILD ANIMAL" AT FORT WORTH

The following taken from this morning's issue of the Fort Worth Star-Telegram, calls up recollections of a "mysterious wild animal" which visited this city some time ago:

"What hundreds of people in the vicinity of Evans avenue and Magnolia thought was a bear turned out to be a big-black woolly dog, when Lee Weatherford, 1201 Evans avenue, and several others lassoed it Tuesday. With this development, women and children in the neighborhood felt safe for the first time in a week, since the mysterious 'bear' began prowling around their houses after dark.

"A negro at East Oleander and Missouri avenue proved to be the owner of the dog. "Anybody would take it for a bear after dark," declared Weatherford, the captor. "We could never get a full view of it, and when it would scamper off it ran exactly as a bear would."

### FOOD RIOTS OVER SPAIN.

Madrid, March 2.—Strikes and disturbances have occurred in most of the provinces of Spain as a result of the increased cost of food. A general strike was proclaimed in Valencia, where serious rioting took place, one person being killed and many injured. There is a general demand that the government take steps to start public works in order to provide labor for the unemployed and thereby avoid a serious crisis.

Find out the "cause" of your failure and you will have the "secret" for success.

### GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of his little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

New Orleans, March 5.—The fight against flood waters in the district which includes Vicksburg Miss., was today regarded as practically ended. Maj. J. R. Slattery, government engineer in charge of that district, declared that conditions were now in good shape and that the rising waters had been fought at a cost of \$85,000 this year, as against \$172,709 in 1912, and \$576,000 in 1913.

Relief workers expect to receive additional reports of distress from the inundated sections of Northern Louisiana. Communication with the inhabitants of the flooded areas along the Black river had not been established last night, but efforts were reported being made to reach some of the districts where relief measures are thought to be seriously needed.

Relief committees in Natchez and Vidalia, La., today sent out by boats a small supply of provisions and hay for the relief of flood victims and their livestock in the Black river section, where the need for assistance apparently is most urgent. Small contributions were being received for this work.

Water from the Buck Ridge crevasse was falling around Newellton, but a rise was recorded in Concordia parish, especially at Clayton and Ferriday. A report from Ferriday stated some of the streets had risen more than two inches in the last 24 hours there.

### TELEPHONE EARNINGS.

While the people of this city are discussing telephone matters, the following dispatch from Dallas, of recent date, will be of interest:

"Gross earnings amounting to \$9,048,173.30, as against operating expenses of \$6,830,236.30 for the last year, are shown in the annual report of the Southwestern Telegraph and Telephone Company and the Bell system, for Texas and Arkansas, filed yesterday in Dallas. The company has capital stock amounting to \$35,000,000 outstanding. It owns \$46,733,349.72 worth of property and has debts amounting to \$6,837,812.43.

### YEGGMEN AT TIMPSON.

From Monday's Daily: Sheriff Spradley of this city received message from Timpson this morning from which the information is gathered that an attempt was made to rob the Cotton Belt Bank in that city at an early hour this morning.

Someone heard the explosion and phoned to City Marshal Booth who quickly showed up and foiled the attempt, taking several shots at the would-be robbers.

The intruders are reported to have left a pistol in the bank on which was found some blood, and it is thought that one of them was wounded.

Sheriff Spradley has received another message since the above statement was put in type, announcing that the robbers did get some money, and that when he begun shooting at them they dropped \$600 in silver they were trying to make way with. We did not get information as to how much money they got away with.

While the writer was on his rounds this morning he overheard an argument between a group of men which is somewhat out of the ordinary, but which contains some thought that would take more than a passing reflection to digest. One man in the crowd was rather severely condemning the practice of fishing on Sunday when his "hand

## Saved Girl's Life

I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

## THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

was called" by a man who put it up to him to decide whether or not it was any more sinful for a man to go out to a lake and catch a half dozen white perch for dinner than it was for his wife to catch, kill and dress a couple of chickens for the same purpose. The discussion waxed warm, but there being no recognized tribunal present who could hand down an immediate decision, the crowd finally dispersed, each of the same opinion still.

**STAND BY PRESIDENT IS ADVICE OF TAFT.**  
Boston, March 5.—"Stand by the President," said former president Taft in commenting this afternoon on the present international situation.

Professor Taft met the state house reporters when he made a social call on Governor McCall, and when asked if he cared to say anything about the action of the United States senate on the Gore resolution, replied:

"I should have voted to stand by the President if I had been a member of that body."

"Do you think President Wilson is right in the position he has taken?" Prof Taft was asked.

"This is an international question he said. "On all international questions of this kind we should stand behind the president."

Sometimes when we read the splendid tributes paid dead men and women by friends and newspapers, and read about the magnificent floral offerings, we find ourselves hoping that from somewhere their spirits are looking on, and that they can somehow see and know. And wouldn't it be great to come back to life in the midst of these demonstrations of affection, when all one's faults have been forgotten? Wouldn't you just love to see some henpecked husband or rooster pecked wife suddenly wake from the supposed long sleep and enjoy the fruits of the sorrow their going had occasioned? And how about all the other people of the everyday world, including the editor? Let's all join the "Flowers for the Living Club," and see folks erase the wrinkles with a glow of self-pride. There is nothing makes the world

"Buffalo Bill, where do you get saddle at no. 1 for your Rou..."  
"From Waco... made by Tom... —forty-eight year... business—th ev don't h... your horse."  
(Padgett's ad has been carried by the Haltom papers 40 years.)

## TUESDAY'S LOCALS.

W. H. Gray, Jr., of Chireno, was registered in the city last night.

Mrs. E. L. Thompson went to Garrison this afternoon to visit with relatives.

Harvey Seymour made a business trip to Nacogdoches Friday, returning Saturday.—Jacksonville Progress.

When better planters are made we'll have them. We have the best now.  
w-2 Cason, Monk & Co.

Rev. E. L. Thompson went to Timpson this afternoon to attend the protracted meeting tonight.—He will return on the night train.

Rev. L. V. Aldridge, pastor of the Baptist church of Garrison was in the city today, looking after some business matters.

Mart Griffin, a substantial planter of the Garrison country, was in town today, coming down to purchase some mules for his farm.

I Foist, who has been connected with the Eichel store here the past three years, left yesterday for Cincinnati, Ohio, where he will engage in business for himself. During his residence with us, Mr. Foist proved a good business man and made many friends who regret to lose his citizen.

A. W. Harrison of Center is in the city today.

Rev. T. C. Mahan, formerly pastor of the Baptist church of this city who is now making his home in Huntsville, arrived in the city this afternoon and is being extended the glad hand by his many friends.

Rho Cox, who has been engaged in the west for some weeks, has returned to the city and taken a position in the store of his brother, Zeno Cox, Jr. Mr. Cox is a good salesman, and will be a good addition to the service of the new store.

Mrs. T. W. Blount, Miss Ophelia Burrus, Miss Ella Sharp and Mrs. Frank Blount, prominent people of San Augustine, were arrivals to the city this morning, coming through the country in a car.

If you want labor-saving tools, come to us and be satisfied.  
w-2 Cason, Monk & Co.

## WEDNESDAY'S LOCALS.

W. E. Neal of Timpson was a visitor to the city yesterday.

T. M. Norman of Tenaha, a traveling man, made his weekly visit to the city yesterday.

Dr. Campbell and sister, Miss Tessie, of Douglass, were visitors to the city yesterday.

You need the best farm tools and we have them for you.  
w-2 Cason, Monk & Co.

Miss Addie Parrish of the Oak Ridge community is spending the week with the family of G. I. King in the city.

Mrs. Rochester went to Lufkin this morning to join her husband who is engaged with a job of work in that city.

Mr. Arnold, with five helpers from the Jumbo community, in Panola county, are in the city shipping the Byrd old gin outfit to Jumbo, Mr. Arnold having purchased the property.

H. W. Smith, a prominent planter of the Jacksonville country, was an arrival to the city yesterday, coming down on a little business mission.

L. M. Huey returned this morning from a business visit to Timpson and has been kept pretty busy telling about the bank robber capture excitement in that city last night.

Weste no time. Use improved Farm Tools from Cason, Monk & Co.  
w-2 Cason, Monk & Co.

Eli Westfall and son, Fred Westfall, of Garrison, have been spending the day in the city. The young man is a candidate for district clerk, and is meeting with the voters while his father is looking after some business interests.

Mrs. Jno. S. Doughtie had the misfortune to get her ankle sprained very badly a few nights ago by falling over a small dog she was attempting to feed, and has suffered considerable pain and discomfort with the injury.

Hon. H. E. Stephenson, a prominent young attorney of Houston, has been in the city a day or two looking after the interests of some clients. Mr. Stephenson is a son of Judge J. S. Stephenson, a veteran attorney of the Center bar, and is making a bright record for himself in his chosen profession. Returning from the University, he engaged in practice in his home town, Center, where he enjoyed a good practice from the very start, and attracted so much attention with his good work that a prominent law firm of Houston annexed him, and in his larger field of labor he is achieving the same good success that attended him at home.

**FOR SALE**—A good, reliable, work horse. Apply to Dr. P. Pool.

**BRIDGE ENTERTAINMENTS.**  
Mrs. Oscar Matthews entertained with a Bridge party yesterday afternoon in honor of her mother, Mrs. Lloyd Bowers of Shreveport.

A number of close friends were present who enjoyed the interesting game and renewal association with the honoree of the occasion. At the conclusion refreshments were served, and the whole combined a most happy afternoon in this delightful home.

## APPEAL FILED IN PRIMARY CASE.

Galveston, March 1.—The appeal of the state Democratic executive committee from the decision of the district court, which granted a mandamus to hold a presidential preferential primary in Texas, was filed in the first court of civil appeals today.

A motion to advance the case on the docket of the appellate court, which was agreed to by the counsel for both sides, was granted by the court. It is expected that a decision will be handed down tomorrow.

**BRITISH VESSEL SUNK.**  
London, March 1.—The British steamship Thornaby is reported to have been sunk, all the members of the crew having been killed or drowned.

**CELEBRATED BIRTHDAY.**  
Little Miss Doris Millard, celebrated her seventh birthday Saturday afternoon in a most happy manner.

About thirty-four of her little friends gathered at her home, bringing many pretty little presents, refreshments were served, and the evening was one long to be remembered by the honoree and her guests of the occasion.

**A BIG SENSATION IN SAPP CASES.**  
The following report, taken from yesterday's issue of the Beaumont Enterprise, will be of interest to people of this section who know the parties involved, and whose case will be called for trial at Lufkin:

Roy Bonner, who was arrested in Louisiana last week on a complaint sworn out by Sheriff W. C. Jordon of Hardin county, charging him with attempting to bribe J. L. Harmon, one of the chief witnesses of the state in the Sapp case, was released on \$1000 bail yesterday by Sheriff Jake Jones. The bond was signed by B. F. Bonner of Houston and W. H. Bonner of Lufkin, relatives of the accused.

The complaint which was filed in Justice J. B. Synnot's court, charges Bonner with offering J. L. Harmon the sum of \$250 to avoid the services of a subpoena to appear as witness and testify in the case of the state against E. E. and Louis Sapp in the district court of Angelina county.

Bonner was arrested during the month of January in El Paso by City Detective Tom Housenfluck. At Houston Bonner is said to have jumped from the train and escaped from the officer.

He was then located in Louisiana, and Sheriff Clark Jordan swore out a complaint February 28. Saturday, Bonner was located and arrested by Deputy Sheriff Perry Broussard of Jefferson county, at Pawnee, La. He was taken to Lake Charles and placed in jail. He is said to have refused at first to return to Texas without requisition, but after Sheriff Giles went to Lake Charles Sunday and had a talk with Bonner, he consented to return without requisition. At that time Sheriff Giles had secured requisition papers from Governor Ferguson, but the papers had not been signed by the Governor of Louisiana, hence could not be used.

Bonner's preliminary hearing was set before Justice Synnot for Monday, March 13. A large number of witnesses have been summoned.

## Cold Settled in my Stomach.

Lost My Appetite.  
Could Not Sleep.  
All Remedies Failed.

Am Cured.  
Peruna A Great Family Medicine.

Mr. Chas. Sauerbier, 815 Main street, St. Joseph, Mich., a constant friend of Peruna, Uses it in his Family.

## REVOLT GROWS

Washington, March 5.—President Wilson faces an insurgent congress. The revolt Saturday was so open, the party ranks widely split, that it seems doubtful that he would obtain any more satisfactory vote from the house next Tuesday on the McLemore "warning" resolution, than the tabling vote recorded yesterday by the senate.

With Speaker Clark, Floor Leader Kitchin and other influential members openly flouting the President's titular leadership and challenging his forces in the house to a vote on the merits of the question of whether Americans shall be warned off armed merchantmen, the worst parliamentary snarl in the history of the house is presented.

In the senate, Hitchcock, another Democrat, joined forces with Republicans in what promises to be a long drawn out battle of oratory on the submarine issue. McCumber predicted an early vote would be forced on the actual merits of warning Americans off armed ships. The one thing on which all forces in the house finally reached an agreement was that the house should consider the McLemore warning resolution Tuesday. But what is to be done; how the measure can be called up; what procedure shall accomplish it and what will be the final result—all are undecided.

## THE CITY COUNCIL HAD BIG MEETING.

The city council had a most interesting meeting last night with his honor, Mayor Matthews, presiding, and all the aldermen except one present.

The first matter to engage attention was a committee from the Library Association who came before the meeting, and through Hon. Eugene H. Blount, as spokesman, made application for assistance in the support of the library. In the course of his talk Mr. Blount complimented the council on the good financial condition the city now enjoys, making the statement that the city's financial condition was in the best shape now that it has ever been. Mr. Blount was followed with short talks by Prof. Davis and Mr. R. L. Lindsey, and after some discussion of the matter, the council voted an appropriation of fifteen dollars per month to take care of the salary of the librarian.

The usual report of the different officers were filed and approved.

It was voted to retire \$5000 worth of the waterworks bonds.

The appointment of Carroll Holt as city fire marshal was confirmed.

In the matter of the Southwestern Telephone Co. raising the rates on residence telephone service, passed to the council from the citizens' mass meeting, a resolution was adopted requesting the telephone company to correct the matter complained of in twenty days, failure in which suit will be filed to enforce the order.

The usual batch of accounts were examined, approved and ordered paid.

## HOGS WANTED

If you have any hogs to sell see me by March the 17th as I expect to ship by that time.  
Ford Hale, at Sanitary Market. w-1-3td.

Mortgages, with notes, on sale at The Sentinel office.
