HAVE EQUIPPED DEMONSTRATION ROOM

Miss Bess Mason, who has been engaged in teaching domestic science in the rural schools of the county the past several months, and who has aroused much interest in this most worthy branch of educational work, with the assistance of the patriotic business men of Nacogdoches, has fitted up a room in the court house in which demonstrations in cooking, canning, jelly making, home conveniences, labor-saving devices, etc., will be exhibited each Saturday with one of her classes.

Each school will in turn be given a day, and the exhibit room being located at the county seat, it is estimated that more people can be served, and better equipment provided for the work. The room is next door to the county superintendent's office, and Miss Mason would be pleased to have all interested in the work to call any Saturday after the coming Saturday, from which time she will keep open house.

Miss Mason is so appreciative of the help extended to her by the progressive business men of the city that she requests the list published that each may have due credit for his patriotism. The subscription is as follows: Commercial Guaranty Bank, \$5.00; Stone Fort National Bank, \$2.50; Tucker, Hayter & Co., \$1.50; Farmers & Merchants Bank, \$1.00; Cason Monk & Co., Latest Improved Perfection stove; Mayer & Schmidt, towels and sugars; Lee Variety Store, four mixing bowls, three bakers, one salt box, rolling pin; Crain Furniture Co., kitchen table; Tucker & Sitton, waffle irons and food chopper; J. F. Summers & Son, set of cups, saucers and plates; Branch & Goldsberry, flour and coffee.

The list is still open and if there are others who would like to subscribe something more to the good enterprise, the contribution will be thankfully received.

Mrs. Daisy Frazier of Alice, Texas, district agent of the domestic science work, spent the first three days of this week here with Miss Mason and is very loud in the praise of the splendid work she found in progress. She recommends that the schools should if possible, keep Miss Mason at work six months, instead of four months, which would

make the work far more thorough and lay a better foundation for next year.

TELEPHONE COMPANY IN OPEN HOUSE

From Wednesday's Daily: With its decorations, and perfect arrangement of everything in the office, the telephone office is the prettiest place in town today, and people who wish to visit it will find it a very pleasant retreat with most hospitable hosts and hostesses to show them over the plant and the many things of interest in its operation.

In addition to the local manager and his helpers, Mr. E. G. Pike, district commercial superintendent with headquarters at Houston; Mr. Geo. J. Todd, district commercial manager with headquarters at Beaumont; Mr. N. D. McCullough special equipment man of Houston; Miss Eskilson, district instructor, are present at the office assisting with the entertainment of the visitors, and take great pleasure in showing people the many different features of service and the machinery and equipment that it takes to produce it.

One who has never enjoyed this inspection has but little idea how much machinery and equipment is employed in this service, and will enjoy the visit.

Open house will be kept again tomorrow afternoon, and if you fail to get around this afternoon, the telephone people will be glad to entertain you tomorrow afternoon.

A RETURN MATCH.

Tony Bernard and Young Zebyscko, who held a most interesting wrestling match in this city a few nights ago, which was interrupted in the conclusion by one of the participants getting slightly crippled, have agreed to have another bout in which they will have a match to a finish, not quitting until one of the participants surrenders, at the old court house next Friday night.

These men put up one of the most interesting matches ever witnessed in this city. They are evenly matched in weight, training and physical endurance, and barring an accident of some kind a great wrestle will follow in this battle for supremacy.

Mrs. L. L. Munsell has moved to one of Pat Jinkin's cottages, near the new Christian church.

PROMINENT CITIZENS IN LONGVIEW TODAY

Went Up this Morning to Inspect Sweet Potato Dry Kilns and Get Information

From Tuesday's Daily: Capt. I. L. Sturdevant and Messrs. W. U. Perkins, D. K. Cason, F. H. Tucker, John Schmidt, R. W. Haselwood, Chas. Perkins and Henry Matthews left this morning at six o'clock, in automobiles for Longview where they go to inspect the potato dry kilns and get such information as may be needed in establishing a plant in this city. It is one hundred miles to Longview, but the party expects to arrive at their destination by noon and will spend the afternoon in their investigations, returning home tomorrow.

The gentlemen are representative of the most substantial and progressive citizenship of Nacogdoches, and when they undertake anything they make a success of it. And they are always ready to undertake anything that offers a safe investment and the upbuilding of Nacogdoches, insuring that if they find the new process for handling potatoes a logical proposition—as they will—that our city will have a similar enterprise with sufficient capital behind it to handle any amount of business in this line that may be available.

Those of our citizens who have learned anything about the operation of these plants are very favorably impressed with them, believing that they will solve the problem of gradual market for this great commodity by furnishing both a place of concentration and a place where they can be kept secure against any kind of damage.

When the committee returns The Sentinel will gather a report of their findings and the plans they have for the future. In the meantime Nacogdoches has cause for congratulation that she has a progressive citizenship who are ready for what their hands find to do for the agricultural, industrial and commercial development of the country.

DISTRICT COURT.

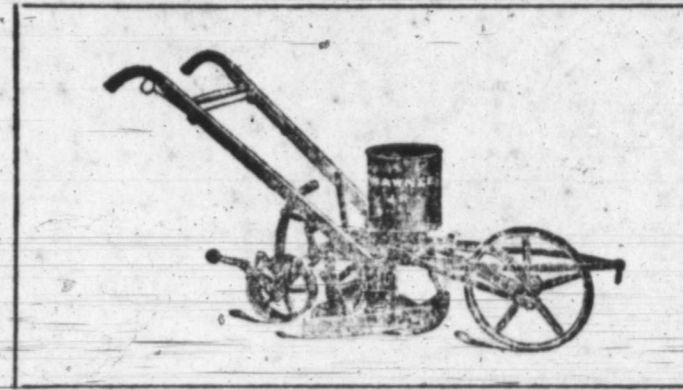

From Monday's Daily: The case of Wash Irwin, charged with murder and set for today, was continued to March 28th on account of absence of an important witness and illness of leading counsel in the case. The venire appearing today was summoned to return March 28th.

FOR COMMISSIONER.

The Sentinel is authorized to announce Chas. H. Baker as a candidate for county commissioner of Beat No. 4, subject to the action of the democratic primaries.

Mr. Walker has been a citizen of the county all his life, and is well known to the voters of his precinct as a good, honest, capable man, combining those elements of character that would make a worth public servant if the commission should be given into his hands.

Messrs. Frank Bates, Walter Daniels and T. E. Carter of Cushing, and J. L. Winder of Mahl, were visitors to the city today, coming down in Mr. Bates' car this morning.

EVERY'S SHAWNEE, JR.

EVERY planters are guaranteed to give satisfaction. Use a EVERY 6 days then bring it back and get your money if you had rather have it than the planter.

A big, safe proposition for you—no chance for you to lose—but it's just as safe for us. We know from experience that you will keep the planter for it will give you satisfaction just like it does for hundreds of other AVERY PLANTER users.

Look at the illustration above. Built entirely of steel (no cast iron) which makes it very strong yet light and easy to handle. See these lugs on the rim of the driving wheel and those two pitmans (one on each side) that make the planter "Plant" when you want it to plant. With this positive "Locomotive Drive" construction there can be no "skid or jumps" and besides it is so simple that nothing can get out of order.

Plates for planting anything can be had with the AVERY planter and the "Sure-enough" Peanut Planting Attachment should be of special interest to anyone wanting to buy a planter. You can't expect too much of an AVERY and we can't say too much for them. Nothing is perfect but then AVERY planters are next to it. Come get an AVERY and try it.

Cason, Monk & Co.

We have a cultivator for you. Come and see it.

ALL WRONG

The Mistake Is Made by Many Nacogdoches Citizens.

Look for the cause of backache To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right. A Nacogdoches citizen tells you how.

Mr. John H. Cox, merchant & farmer, N. Fredonia St., Nacogdoches, says: "LaGrippe left my kidneys in a bad fix. I had a dull ache in my back until I was almost exhausted. I used Doan's Kidney Pills only a short time before I got fine results. I steadily became better and haven't had to use them since."

Price 50c at all dealers. Don't imply ask for a kidney remedy—get Doan's Kidney Pills—that Mrs. Cox had. Foster-Milburn Co., Props., Buffalo, N. Y.

MARRIAGE LICENSES.

The following licenses to wed have been issued since last report:

Fred Williams to Etta Pendleton (col).

Henry Robinson to Miss Lucy Sanders.

R. F. McKnight to Mrs. Oda Lyons.

WATCH YOUR FIRE.

A member of the fire department requests The Sentinel to warn the people that there is much danger of fire now while it is so dry and the wind so high, and every one should be especially careful until this season passes.

Mrs. R. F. Davis received the sad news of the death of her brother, Rev. Harland Ellington, which sad event occurred at his home in Hughes Springs Monday night following a short illness with black jaundice. Mrs. Davis was not well at the time she received the news and was unable to attend the funeral.

Messrs. L. M. Rozelle, W. C. Germany, J. H. Durant, Blake Palmer, and H. D. Power, all of Alto, came through the country in a car this morning, and are attending district court in the city. They made The Sentinel a pleasant call, coming in to see the linotype machine work and pay their respects to the force.

Dr. W. R. Sivley, of Nacogdoches, was in the city Wednesday, shaking hands with his many friends and attending to business matters. — Cleveland News.

For Your Child's Cough

If your child has a cold, nose runs of coughs much get a small bottle of Dr. Bell's Pine-Tar-Honey syrup, just what children like and just the medicine to soothe the cough and check the cold. After taking children stop fretting, sleep good and are soon entirely well. Insist on Dr. Bell's Pine-Tar-Honey. 25c at your Druggist. dw

It's asking too much of mere man to keep track of women's styles and earn enough money to provide them.—Albay Journal.

Sign of Good Digestion.

When you see a cheerful and happy lady you may know that she has good digestion. If your digestion is impaired or if you do not relish your meals take a dose of Chamberlain's Tablets. They strengthen the stomach, improve the digestion and cause a gentle movement of the bowels. Obtainable everywhere. dw

How to Prevent Croup.

When the child is subject to attacks of croup, see to it that he eats a light evening meal, as an overloaded stomach may bring on an attack, also watch for the first symptom—hoarseness, and give Chamberlain's Cough Remedy as soon as the child becomes hoarse. Obtainable everywhere.

When a man awakens to the fact that he has also married several of his wife's relatives, the divorce lawyer sits up and listens.—New York American.

The many friends of Walter, the adopted son of Mr. and Mrs. Gillette, will regret to learn that he is very ill with pneumonia.

The Sentinel

HALTOM & GIBBS, Proprietors
G. M. HALTOM, Manager
O. M. GIBBS, Editor

A two-hundred-pound porker is now worth \$18.00 and offers more real profit than could be realized on a bale of cotton. Plant hogs.

Co. Bailey of the Houston Post is authority for the statement that the president is not only opposed to bloodshed if it can be avoided honorably, but is also opposed to "Gore" in any form.

An acre of peanuts, grown on thin, sandy land, will net the producer more profit than an acre of rich bottom land cotton, giving us a crop for all lands of this glorious country of ours.

With a sure market system worked out for peanuts and potatoes, as Nacogdoches will have at the next gathering time with the peanut oil mill and suitable potato dry kilns, a new day is dawning in the industrial and commercial life of old Nacogdoches county.

No one has ever challenged the statement that a peanut oil mill and a potato dry kiln would be profitable enterprises for this section—and no one, so far as we know, has made a move to promote either. We must have both in time for the harvest of next crop.

If the prices of products used by printers continue to soar much higher, the art will have to return to "tablets of stone" used in ancient times, and let history repeat itself. The latest sensation is a quotation of \$8.00 per pound for ink that formerly sold for \$2.00 per pound.

The Sentinel does not like this "reciprocal" business with Carranza, believing that he will turn on us at the first opportunity, but Uncle Sam will doubtless keep close tab on him. Since the United States suffers both the injury and responsibility of having to run down the outlaws who are terrorizing both countries, it would have been more becoming in Carranza to have offered help without so many strings attached to it.

At a dinner given by the Gridiron Club at the Rice Hotel in Houston Saturday ex-governor Colquitt severely criticized the national government for its tardiness in getting into Mexico, and Gov. Ferguson who was also present called his hand, making reply to his address, in which he severely rebuked Mr. Colquitt for disloyalty to the administration at this time when co-operation was needed. It was apparent that the governor was voicing the sentiment of those present, and Mr. Colquitt made no final reply or retort.

While the Longview Times-Garion has been working for a munitions plant, the Lufkin Daily News trying to develop oil and gold fields, the Timpson Times clamoring for a new depot, The Sentinel has been directing its batteries in the agitation of a peanut oil mill and a potato dry kiln, and it is with supreme joy that we announce to the world that our dream in both instances is to be realized. The glory of it is in serving a responsive citizenship who are willing to engage in anything that offers profitable development of the town and surrounding country, and this is but the beginning of great things for the glorious old Stone Fort City. Come to Nacogdoches.

The report appearing in the press yesterday to the effect that the administration was seriously considering the idea of the purchase of the northern part of Mexico, and that Col. E. M. House had been sent to Europe to confer with the heads of other nations in the matter, is strenuously denied by both Col. House and the Washington government.

Now that American soldiers have been forced to again include Mexico, to protect American life and property, The Sentinel hopes that Uncle Sam will make a good job of it. Had the United States finished the job when she landed at Vera Cruz she would have performed a righteous service to a suffering people, and the possibilities are that the stricken republic would be enjoying peace and prosperity today. The unpleasant task will ultimately fall to our lot if the job is not already on our hands, and delays are expensive and dangerous. The president voices the sentiment of all patriotic Americans in not wanting a protectorate or control of the republic, and has been patriotic in keeping out as long as possible, but the time has come when patience loses its virtue and the interests of humanity demand action.

Noah Dundy, a farmer living near Areola, Ill., is mourning the loss of \$2,650 in currency which he had folded away in a mail order catalogue, and which was subsequently burned by his wife.—Nacogdoches Sentinel.

It seems remarkable that a man with that kind of thinking apparatus could have owned as much as \$2,650 in real money. He must have inherited it. Paper money is exceedingly perishable wealth, and to keep a considerable sum of it stuffed into flimsy concealments around one's home is to invite loss either through thievery or accident. Why is it that there is even one man in Illinois today who doesn't know what banks are for? But, come to think about it, there may be a shadow of excuse in Illinois. There are said to be a considerable number of fake banks banks in that state, mostly in Chicago. These prey principally upon newly arrived foreigners, and some of them have simply stolen whatever sums that credulous and trustful depositors left with them. New York which like Chicago, is big enough to be ashamed of itself, has gone on for years permitting men of neither capital nor character to hang out bankers' signs and invite the deposits of whomsoever would trust them, only in scores of cases, to rob their dupes. Texas, thank goodness, isn't as callous in some respects as the two foremost states of America.—Galveston News.

Two new industries are growing up in Texas—the production of sweet potatoes and peanuts. Both now are money crops. Processing plants for the storage of sweet potatoes and cotton oil process for crushing peanuts have lifted these crops out of huckster wagon selling to wholesale markets and rising commercial importance, which contributes handsomely to Texas prosperity. In the instance of peanuts and sweet potatoes the marketing problem seems to have been solved right at home. Wherefore the thought occurs that perhaps other markets problems may be satisfactorily adjusted at the same place. Anyway, the notion that surplus production must be speeded to outside markets, literally reeled out of Texas, is not good business. Let's study home conditions and home possibilities more. Meantime, Texas must increase the variety of its factories and its mills. And to help this along: Buy it Made-in-Texas.—Fort Worth Star-Telegram.

PROPOSED PRESIDENTIAL PRIMARY

In a Post special from Dallas, Paul Waples, chairman of the State democratic executive committee, voices the opinion that the State supreme court will not sustain the action of the lower court in the case filed against members of the Texas democratic executive committee to compel the committee to hold presidential primary elections.

The case came up before the higher court on appeal yesterday, and while the action of the court at this writing is not known, it is believed that the court, appreciating the importance of a speedy hearing, will set an early date for its disposition so as not to complicate party action in what may be determined is the law governing the case.

In the event that the action of the lower court is sustained, Chairman Waples says that the executive committee will be convened immediately and a call for the primary election issued.

The cost of holding this election would amount to between \$250,000 and \$500,000, which cost would have to be borne by the counties of the State respectively.

As the The Post has heretofore stated, this involves an unnecessary burden of expense upon the taxpayers—an expense which they will unwillingly assume, especially under the prevailing conditions with no candidate for the presidency against the present incumbent to be voted on and hence, no issue to bring about division in the selection of delegates.

The situation forcibly emphasizes the unwisdom of the State's action in attempting to take control of party affairs from the party organizations themselves, where they rightfully belong and vesting such control in itself through a system of confusing legislature enactments that in their operation have shown no improvement over the old party system of making unhindered its own nomination of those to represent the councils.—Houston Post.

LEAVES WILSON FREE TO WORK.

Washington, March 8.—With congress standing squarely behind him, President Wilson is prepared today to go ahead with the submarine negotiations with the central powers.

After an all-day contest, the house last night answered the President's demand for an expression of congressional sentiment on the armed ship issue. By vote of 276 to 142 the house tabled the McLemore resolution to warn Americans off armed ships.

This action, together with that of the senate in killing a similar resolution, has freed the President from the bonds of embarrassment forced upon him by the dissensions in congress.

His victory is complete after a long and sensational fight is regarded by the President and his reports circulated in Berlin inflicting a number of cuts and bruises, but fortunately no serious injury. That he is making demands on Germany in direct opposition to the sentiment of the elected representatives of the people.

The president is much gratified with the overwhelming support accorded him. He is receiving between Appleby and North Church the car ran into a tree, throwing the occupants out and many congratulations.

Lieutenant Governor Hobby has announced for re-election, and will likely be re-elected without opposition. Governor Hobby has made a brilliant record, and is good "timber" for the next position higher up.

THE UBIQUITOUS TELEGRAPH MESSENGER.

When the telegraph messenger, hurrying in answer to a city call, found the mistress of the mansion marooned and trembling on top of the dining room table, he valiantly engaged her assailant in single combat and straightway slew him, carrying off the mouse triumphantly by its tail. He collected his fee from the grateful princess and returned to the telegraph office, convinced that there was no life to be compared with that of a messenger boy. When, late in the day, he pushed his wheel five miles through mud, rain and dark to deliver a death message in the suburbs of the city, he was not so sure about the desirability of his job.

These are but two incidents in the varied life of a telegraph messenger—a life which calls in to play whatever stock he has of tact, quickness, perseverance, courtesy, honesty, pluck, indeed all the qualities the ownership of which spells "Success" for any boy or man.

Is this life of the telegraph messenger a desirable one? Is it a school in which he is to be made or to be marred? These are important questions for many parents, for there are thousands of lads thus employed and the messenger school is turning out hundreds of graduates each year.

There has been some prejudice in the past against this form of employment, due to a misapprehension as to the character and conditions of their work. On the other hand, in the past few years the newspapers have found worth printing the multiplying instances—and sometimes, amusing, sometimes grave—where these boys have been called upon to perform curiously unique services and other services of trust and responsibility, in all of which they have rendered a good account of themselves. The fact is that in all walks of business life, and particularly in the telegraph companies, the ranks are full of men, even in positions of the highest responsibility, who began their careers as messenger boys. Distinguished and well known examples are Andrew Carnegie and Thomas A. Edison.

The telegraph companies point to the opportunity which this employment offers to the boys—opportunity to show the stuff they are made of and opportunity to secure by merit better employment, for they constantly come in contact with employers on the lookout for bright boys. The telegraph companies are often asked to supply messengers to fill temporarily the places of unskilled employees away on vacations, and to perform services on special occasions. In their daily duties the boys are brought into personal contact with business and professional men, and when these men have permanent positions to fill they frequently pick messengers who have come under their observation or ask the telegraph manager to recommend bright boys. Indeed, the telegraph companies complain that it is impossible to keep for any length of time their best boys, for these are quickly taken from them.

Thus there is no doubt about the opportunity. Now what about the training? The telegraph companies are employing boys and young men to do work that the community must have done. Only active, strong youths are fit for the service. Can it fail to be good for such boys to be thus engaged—earning an honest living, exercising their buoyant brains and muscles in the active world of affairs and gaining a practical education such as few occupations are open to them?

What are they learning? They are learning that honesty, indus-

Helping You Out

No wash day is a pleasant day. But your next wash day can be made easier. You can eliminate most of the hard rubbing.

TEXWAX WILL HELP.

A cupful of TEXWAX shavings dissolved into your boiling wash, will work on the dirt and loosen it. Then, hot rinsing, and only slight rubbing, and you will have a clean, white, wash. TEXWAX loosens the dirt without injuring the finest linens. A little TEXWAX added to the starch produces that desired finish on your linens. As an ironing wax, it is incomparable—makes the iron glide easily over the clothes. TEXWAX is odorless. TEXWAX is sold in one-pound packages, with full directions on each package. It is one of the Quality Products made by The Texas Company. There is a Texaco dealer near you. He will tell you about other Texaco Products for home use.

TEXACO
THE TEXAS COMPANY
General Offices - Houston, Texas.

try, courage, energy and resourcefulness are necessary qualities for success; they are learning independence and happiness that comes from steady employment, from self support. They soon realize what qualities they must cultivate to win out in the race. It is an interesting and exciting occupation. If the boy must work for a living at an early age, where can he find a better or more rugged school in which to test and build his character? The messenger's day is full and active. He is largely in the open air, getting the physical exercise, the variety of scene and the variety of occupation that appeals to the youthful imagination and is so necessary for his best development.

The companies who employ these boys have their welfare very much at heart. They do not knowingly suffer any boy to be exposed to bad influences through his employment. Suitable and sanitary quarters and baths are furnished them, club rooms and libraries; educational classes; encouragement to join the educational and physical development classes of the Young Men's Christian Associations throughout the country; personal instruction by the managers—in all kinds of ways are the companies striving to improve the standard, moral and physical of this branch of their service, for it is a highly important branch. It is the connecting link between company and the public; the boys by their conduct make friends or enemies for their employers, and the latter, if actuated by no other than a purely selfish motive, are bound to train these boys to serve the public courteously and honestly.

Our schools and colleges are striving by organized athletics to

fill up the idle hours of their students' lives with a kind of training which will develop the fearless resourceful man. The messenger boy gets this training as a part of his days work.

The public will learn, if the subject is intelligently investigated, that the messenger boy is not only a very useful person, but one who is entitled to the respect and confidence of those who employ him. His is an exacting job; it does no wait on fair weather and it requires accuracy, quickness and tact, besides the common virtues of honesty and industry. It is a matter for congratulation that such a large proportion of the boys meet these requirements, and that they do meet them is the reason that so many of them climb to a high place in all walks of business life.

A town, to be beautiful, attractive, and a good place to call home, need not be a town of wealth. But people must love their town; love their homes. Love is the mother of pride, and pride strengthens the will and the arm to keep things clean and to plant vines, flowers and shrubs. Just because one rents a home is no excuse for dwarfing the soul with ugliness, and impairing the body with disease because of uncleanness. Just a few beauty loving people cannot make a pretty town—everybody must be determined to have a clean and a beautiful city. We wonder sometimes if a lot of people who take no pride in their homes and yards, or in the beauty of the town, realize that God played on one of the strongest strings of human nature when he gave John a glimpse of the New Jerusalem.—Hamilton Record.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tone" Will Clean Your Sluggish Liver Better Than Calomel and Can Not Salfate.

Calomel makes you sick, you lose a day's work. Calomel is quicksilver and it salfates; calomel injures your liver. If you are bilious; feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of harmless Dodson's Liver Tone instead of using sickening, salivating calomel. Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful; full of energy, vigor and ambition.

Your druggist or dealer sells you a 50 cent bottle of Dodson's Liver Tone under any personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick, and you can eat anything you want without being salivated. Your druggist guarantees that each spoonful will start your liver, clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tone because it is pleasant tasting and doesn't gripe or cramp or make them sick. I am selling millions of bottles of Dodson's Liver Tone to people who have found that this pleasant, vegetable, liver medicine takes the place of dangerous calomel. Buy one bottle on my sound, reliable guarantee. Ask your druggist about me.

AS A SUPPORT for exhausted, nervous, overworked women, nothing can do as much as Dr. Pierce's Favorite Prescription. It regulates and assists all the natural functions, never conflicts with them, and it strengthens and builds up the female system in a way of its own.

Nursing mothers and women generally, will find it exactly fitted to their needs. It lessens the pains and burdens, and ensures healthy, vigorous offspring.

Mrs. LIZZIE EPPERSON, of 1220 Gould Avenue, Fort Worth, Texas, says: "I can recommend Dr. Pierce's Favorite Prescription to any woman suffering from female trouble or nervousness. I was very nervous and losing weight so fast I became alarmed over my condition. I could not do any housework. A friend told me about 'Favorite Prescription' and I tried it and began gaining in weight at once."

Dr. Pierce's Medical Adviser (100 pages) cloth binding sent for 31 cents. Address Dr. V. M. Pierce, Buffalo, N. Y.

JOHN EDGAR BUTT WITH THE DEAD

From Friday's Daily: Mr. J. E. Butt, who is well known to the people of Nacogdoches, among whom he had many friends, died at the home of his brother, C. W. Butt, in this city at 3:00 o'clock this morning. Funeral services will be held from the residence of C. W. Butt, on Orton Hill, at 3:00 o'clock this afternoon, followed with interment in Oak Grove Cemetery.

Mr. Butt was a son of Rev. John F. Butt and his wife, Mrs. Rozilla Butt, and was born in Charlotte, N. C., Dec. 24, 1865. He is survived by two brothers, Arthur L. Butt of Charlotte, N. C., and Charles W. Butt of this city. He has been in failing health for several years, and for the past several weeks had been growing weaker and confined to his room.

Mr. Butt was a tinner and plumber by trade, and was a good workman, and a good honest man who was well liked by those who knew him. He never had a family of his own, but was very much attached to the family of his brother of this city, who were equally fond of him, and who had the sweet privilege of caring for him in his last illness.

How to Prevent Croup.

When the child is subject to attacks of croup, see to it that he eats a light evening meal, as an overloaded stomach may bring on an attack, also watch for the first symptom—hoarseness, and give Chamberlain's Cough Remedy as soon as the child becomes hoarse. Obtainable everywhere.

Frank Sharp has had an exhibition today, in front of the Commercial Bank, a shipment of Longview kiln dried sweet potatoes which many people have viewed and which have attracted much attention since a similar enterprise is being agitated for this community. Mr. Sharp visited Longview recently, and while there went around to see the potato plant. In speaking of the plant, he says it solves the problem of making a commercial crop of sweet potatoes, as a similar enterprise would do with peas, and is also enthusiastic in his endorsement of the idea. Mr. Sharp is also enthusiastic in the belief that peanuts, peas and sweet potatoes are the best crops for this section, and that with the improved facilities for handling them, as now contemplated, that they would be the most profitable and lead to a rapid development of the agricultural resources of East Texas.

10 GENT "CASCARETS" FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A small box from your druggist will keep your liver and bowels clean; it will sweeten and head-clear for you, and keep you well while you sleep.

PEANUT OIL MILL IS NOW ASSURED.

Likewise We Will Have Potato Dry Kiln, and Nacogdoches Is Coming Into Its Own.

For some weeks The Sentinel has been agitating the idea of a peanut oil mill and a potato dry kiln for Nacogdoches, believing that these two enterprises would be of material assistance in the development of the agricultural resources of the county, and in turn bring much new business to the town.

In this campaign we have gathered all the data we could find in support of the proposition, and it has been a subject which has grown in interest with research, each new feature adding support to the theory, and the whole demonstrating a most inviting proposition. For a time it seemed that public interest would be hard to arouse—but when business men begin to think and examine a proposition in earnest they do not talk much, and they have been doing both in this city lately.

This morning Mr. W. U. Perkins, manager of the Nacogdoches Oil Mill, called up the editor over the telephone and said that you may announce that we will install suitable machinery for handling peanuts this summer and will be in the market for all the peanuts we can get this fall, for which we will pay the highest market price. Arrangements are also being made by people of the city to put in the potato dry kiln you have been advocating, and I think you will be safe in saying that that enterprise will also be in operation in time to handle the next crop.

The writer never received more joyful news, and never appreciated the response of a patriotic citizenship in any matter more than he does in this. As we regard it, no two enterprises, of any magnitude, could contribute so much to the agricultural, industrial and commercial development of the community as these. Our lands are especially adapted to these crops, and both grow to perfection, giving better returns for the labor than any other crop, and being surer crops by reason of their ability to stand drouth better. Another great feature is the fact that we have much land, particularly in the sand flat section, which will make good crops of these commodities but which would not grow anything else to profit, thus enabling the cultivation of a greater acreage of land in the county. Last, but by no means least, we have the market which can handle the raw product and work it up right at home.

No greater news has ever gone out from this old town, and a new era of prosperity is dawning which we shall continue to review from time to time as opportunity affords.

Prickly Ash Bitters cures disease of the kidneys, cleanses and strengthens the liver, stomach and bowels.—Stripling, Haselwood & Co., Special Agents.

Hon. E. C. Branch arrived in the city last night from his home in San Antonio, and will spend a few days here visiting with his brother and other relatives and friends.

Take Po-Do-Lox in Spring.

In winter our blood gets thick, our pores close, we feel tired and dull when hot days come. What we need is a spring liver tonic, something to rid our systems of winter's accumulated waste. Po-Do-Lox will do it. It stimulates the bile, empties the bowels. The organs become more active and in a little while you feel like new. Don't neglect cleaning out your system. Take Po-Do-Lox and you will feel fine. 50c at your druggist.

DR. S. P. BROOKS.

From Friday's Daily: As per previous announcement, Dr. S. P. Brooks, candidate for the United States senate, addressed a Nacogdoches audience at the court house last night.

The crowd was not as large as it should have been, due doubtless to the big show and other events in the city which claimed attention of many people, but a representative attendance of ladies and gentlemen greeted the speaker and listened to the eloquent, logical address he made with rapt attention and received it with fond appreciation.

The speaker of the evening was introduced by Prof. R. F. Davis, superintendent of Nacogdoches High School, in an eloquent presentation speech in which he paid tribute to the "school master" now at the head of the nation, and the "school master" who would assist him in guiding the "old ship state" in the future. And we digress here to say that some good elements of statesmanship are combined in Prof. Davis, and if we had our way about it we would let him go to congress and keep that house in order while Dr. Brooks is putting some of his good ideas into practice in the senate.

Dr. Brooks began his speech with a compliment to the hospitality he had always found in evidence in Nacogdoches. Getting to the meat of his address, he said that he comes as a new man in the political arena, having never solicited office before, and therefore has no political endorsement, with no political friends to reward or punish. Being thus untrammelled, it is his expressed ambition to champion the cause of the masses of the common people, and would rely on his practical knowledge and study of life to support him in the work. In reviewing his career in life, he said that he was reared on a farm in Johnson county, had worked on railroads, and through this early experience was in sympathy and better understood the cause of the laboring man. This statement was qualified with the supplemental statement that did not press this experience as a claim for votes, but mentioned it to sustain him in his claim of a practical knowledge of the affairs of life with which all classes had to do. Entering the professional world, he has continued to keep in touch with all classes of people through the school room, conventions and association with people in the various stages and avocations of life. Along this line, he stated that he was financing his own campaign, and carried his "campaign committee" with him wherever he went. Just here the speaker made a very pretty point in the statement that "the government is the people in action, and we can get no more out of it than we put into it." Reasoning along this line, he said, in substance, that in the evolution of time conditions change, and he would take the lessons of the past to improve the present and future.

In discussing affairs of national interest, Dr. Brooks said that

the government can give protective help to the people in the way of treaties, but that the government can not overcome the law of supply and demand. Here were many good ideas advanced in the matter of handling the produce of our country.

In discussing the present pension system, the speaker noted many glaring flaws in its operation in which much graft is employed, stating that many thousands and people were on the pension roll who never rendered any service to their country. He does not believe that the system can be entirely abolished, but believes that loyal Southerners can do much to hold it in check. Another graft that came in for notice and criticism of the speaker was the mileage graft in which congressmen are allowed twenty cents a mile for railroad fare. He is also opposed to the promiscuous use of the franking privilege in which congressman ride the mails with so much matter designed especially for their political interests, and believes that if this could be checked penny letter postage would soon be a reality. Many other methods of graft now being employed were reviewed, together with the corruption of the ballot box practiced in many sections, and all severely condemned.

Looking to matters that will engage attention in the future, Dr. Brooks went on record as favoring the idea of constitutional prohibition. In arguing this point, the speaker said that some politicians have voted against interstate transportation of cattle with ticks, had put the ban on opium, and yet would raise the issue of state rights in the matter of whiskey traffic. He also favors some system of rural credits which would enable worthy people to borrow money on long time at a low rate of interest with which to purchase homes. He favors the government building its own warships and favors a merchant marine. He would add two new departments to the president's cabinet in a secretary of education and a secretary of health, through which these two great institutions could get direct government help. He favors a bill regulating child labor, and believes that national banks should be subject to the state usury laws. He commended righteous corporations, but thinks they should make an equitable distribution of profits with their labor. Favors federal warehouses by which receipts could be standardized, and favors the government taking over the express business and operating it in connection with parcel post business. He would also work in a measure by which the market quotations of the world would be posted in the post-offices of the country daily. The last recommendation of statesmanship offered was a recommendation for a peace conference in which the nations of the earth could come together and form treaties of peace for universal, world-wide peace.

Throughout his address, Dr. Brooks refrained from any reference to his opponents or other candidates, and his talk throughout was of the dignified nature characteristic of the gentleman. He displayed great depth of thought, clothed in rhetorical beauty, and we will not exaggerate to say that his address was a masterpiece that could not fail to be appreciated, even though the hearer may differ with the gentleman in some of the features of his reasoning.

EUCALINE

You will not have the best if you fail to get EUCALINE for Malaria, Chills and Fever. It acts on the liver and bowels and relieves the system of the cause, pleasant to take. FIFTY CENTS BY YOUR DRUGGIST Stripling, Haselwood & Co.

POST OFFICE MATTER.

N. G. Roberts, one of Nacogdoches' progressive citizens who has been interesting himself in the matter of a new postoffice for this city, for which government appropriation has been made but not available for some reason, has the following letters which explain themselves: Washington, February 26, 1916.

Mr. N. G. Roberts, Nacogdoches, Texas.
My Dear Sir:

In further reply to your recent letter in reference to the Federal Building at Nacogdoches, I send you herewith a letter from the Assistant Secretary of Treasury which explains itself.

As soon as I am advised in regard to the matter, I will write you further.

With all good wishes, I am,
Yours very truly,
MORRIS SHEPPARD.

Washington, February 25, 1916.
Hon. Morris Sheppard,
United States Senate.

My Dear Senator:
In response to your request of the 21st instant, for information in regard to the public building project at Nacogdoches, Texas, you are respectfully advised as follows:

The Act of May 30, 1908, authorized a site at Nacogdoches within a limit of cost of \$5,000, and title to the same was acquired by the Government on August 17, 1915, at a cost of \$4,500. A building was authorized in the Act of March 4, 1913, at a limit of cost of \$55,000, of which amount \$25,000 has been appropriated and an item for a further sum of \$5,000 has been submitted to Congress for inclusion in the Urgent Deficiency Bill. It is also expected that the Sundry Civil Bill for 1917 will also make available funds for carrying on the work.

It is not possible at this writing to give you any dependable information as to when the work of this building can be advertised for proposals, but note has been made of your desire for such information and as soon as the Department is in a position to do so you will be duly advised in regard to the matter.

Yours very truly,
B. R. NEWTON,
Assistant Secretary.

Nervous weakness or palpitation of the heart indicates disorder in the stomach and indigestion. Prickly Ash Bitters is a wonderful remedy in such cases. It cleanses, strengthens and regulates the stomach, liver and bowels, removes the cause of the heart symptoms and builds up a strong and vigorous body.—Stripling Haselwood & Co., Special Agents.

Waste no time. Use improved Farm Tools from Cason, Monk & Co. w-2 Cason, Monk & Co.

HOME FROM MARKET.

Mr. S. Mintz, one of Nacogdoches' progressive merchants, has returned from his visit to the Eastern markets, and says he secured a nice line of spring and summer goods for his house. Mr. Mintz says that the mar-

kets are very unsettled now, with a tendency to run everything higher, and that in consequence he spent more time than he intended, taking his time to make his selections, and accepting nothing that did not come to him right, in both quality and price.

THORNTON-PHIPPS

From Saturday's Daily: Mr. Fred Thornton, a promising young business man of Sherman, was married to Miss Leola Phipps, a charming and accomplished young lady of this city yesterday afternoon. The ceremony was performed at the home of the officiating minister, Rev. E. L. Thompson, and witnessed by several relatives.

The happy couple left immediately after the ceremony for Sherman where they will make their future home.

The bride is a daughter of Mr. R. M. Phipps, and is a charming young lady who is loved and admired by those who know her, who rejoice in her new-found happiness.

Where can you invest money more profitably than by buying a bottle of Prickly Ash Bitters—you get four for one. A kidney medicine, a liver tonic, stomach strengthener, and bowel cleanser. Four medicines for one dollar.—Stripling, Haselwood & Co., Special Agents.

An Avery is guaranteed to please you. w-2 Cason, Monk & Co.

BLACK LEG IN COUNTY.

Jas. D. Greer, county agricultural agent, says that he has recently found some black leg among young cattle of the county, and that prompt measures should be taken to check the disease before it spreads.

Mr. Greer recommends vaccination as a preventative.

ELKS ELECTED OFFICERS.

At its regular meeting this week, the Elks elected officers as follows:

Austin W. Baxley, Exalted Ruler.

J. R. McKinney, Esteemed Leading Knight.

T. Tilford, Esteemed Loyal Knight.

E. F. Summers, Esteemed Lecturing Knight.

F. R. Penman, Secretary.

I. L. Sturdevant, Treasurer.

Albert Brewer, Roy Buchanan and Luther Swift, Trustees.

Albert Brewer was elected delegate to the Grand Lodge which meets in Baltimore in July, with Eugene H. Blount alternate.

Population considered, the Elks Lodge of this city is one of the strongest in the state, and has quarters that would rival the best in the large cities. In some subsequent issue, when we have more time and space, The Sentinel will have more to say of the good appointment of the building, and the good features of the Lodge supporting it.

If you want labor-saving tools, come to us and be satisfied.

TEACHERS' COTTAGES.

Teachers' cottages, erected by the community in or near the schoolhouse, and used not only as the teacher's residence but also as the community center, are advocated in a bulletin prepared by R. S. Kellogg and distributed by the Department of the Interior through its Bureau of Education to county superintendents and other officers in charge of rural schools. The bulletin describes the movement for teachers' residences in rural districts and gives plans for cottages of various sizes and types.

Lack of suitable boarding accommodations is one of the most serious difficulties in the way of securing suitable teachers for country districts in the United States and over 16,000,000 children of school age who live in the country or in towns of less than 2,500 population, yet it is impossible because of the living conditions to get teachers of the highest type to remain in the country.

Mr. Kellogg says: "Many farm houses have no accommodations whatever for a teacher, and often kitchen, living room, and dining room are combined in one, with no heat in any other room in the house. The farmer and his family spend most of their time working indoors or out, eating and sleeping. Their occupations and hours of labor in no way correspond to those of the teacher, which increases the difficulty of fitting the teacher's necessary habits to those of the farmer with any satisfaction to either. A good teacher must spend a considerable amount of time almost every evening upon school work, for which a quiet, comfortable room is essential. If she insists upon such a room when she goes to board in the country she is likely to be considered 'stuck up' and exclusive. If she gets a room by herself it is often unheated and too uncomfortable for study in cold weather.

"On the other hand, if the teacher is forced to spend her entire time in the living room with the rest of the family, she has no opportunity to prepare properly for her school duties, and is also very likely to be drawn unavoidably into neighborhood gossip and factional disputes to the detriment of her teaching influence. Many of the better situated families in the country districts who have the facilities, do not care to take a steady boarder, so that if the teacher gets a place to board at all she may be forced to go to farm houses where only the barest accommodations can be secured."

It is because of these conditions that the teachers' cottage movement has developed rapidly in the past few years, until, according to an investigation by J. C. Muernan of the Bureau of Education, recorded in the bulletin, there are now one or more teachers' cottages in every state, and in the State of Washington, where the movement has been fostered by Mrs. Josephine Preston, State Superintendent of Public Instruction, there are now 108 of these cottages.

TELEPHONE BUSINESS.

Some idea of the vast amount of business transacted by the American Telephone and Telegraph Co., and the earnings received in return, can be gathered from the following dispatch sent out by the Associated Press, and appearing in the state papers: New York, March 13.—An in-

crease of more than \$18,900,000 in the gross earnings of the American Telephone and Telegraph Company last year over 1914 was shown today by the annual report of President Theodore N. Vail. Total gross receipts of the company, not including the connecting independent companies last year were \$239,900,000. The company's net earnings were \$41,117,487, and dividends amounted to \$29,100,591.

The Bell System, President Vail reports now connects 9,151,221 telephones. It is estimated that \$57,000,000 will be spent in new construction this year. The company added 1,029,951 miles to its system, making a total of 33,505,545 miles.

The report declares that the engineering department has done "important and confidential" work with representatives of the army and navy to work out a system of communication "unequaled by any other nation," in connection with national defense plans.

BUILDING NEIGHBORHOOD

If you, Kind Reader, would like to spend your days in the Happy Valley, if Friendship Neighborhood appeals to you, if there is a response in your heart to the idea of a group of comrades neighbors bearing one another's burdens and sharing one another's pleasures, then there is a far better thing for you to do than to try to move to some neighborhood where such conditions already exist. Rather the thing to do is to make such conditions exist in the neighborhood where you are. What we need in the South indeed is more of the spirit of genuine love for the communities we live in—the spirit so beautifully expressed by Gilbert Chesterton recently in speaking of his own little English town of Pimlico. Let us study his language.

"It is not enough for a man to disapprove of Pimlico; in that case he would merely cut his own throat or move to Chelsea. Nor certainly is it enough for a man to approve of Pimlico; for then it will remain Pimlico, which would be awful. The only way out of it seems to be for somebody to love Pimlico; to love it with a transcendental power. If there arose a man who loved Pimlico as mothers love children, arbitrarily because it is theirs, Pimlico in a year or two might be fairer than Florence."

And then Mr. Chesterton concludes with one memorable and magnificent sentence: "Men did not love Rome because she was great. She was great because they had loved her."

This is indeed the sort of spirit of local patriotism that we need. Let a man love his neighborhood as a mother loves her child—arbitrarily because it is hers. Because it is our neighborhood we must love it, and if it has imperfections we must not desert it, but honestly yearn and strive to mold it month by month and year by year into the ideal that we cherish for it in our heart. And if but one man in your neighborhood set out with faith and patience to work out such an ideal, others will come to his aid and the power of light over darkness, of good over evil, will sooner or later lend him a strength and a victory that the thoughtless man might never suspect. As the poet has well said:

"Be noble and the nobleness that lies

In other men sleeping but never dead

Will rise in majesty to meet thine own."

—The Progressive Farmer.

Uncle Cal Fall, county treasurer authorizes the Sentinel to say that he can pay all registered warrants up to March 1st.

TIMPSON BANK ROBBERS HIDING PLACE FOUND

From yesterday's issue of the Timpson Times the following items will be of interest to people who have been keeping up with the news of the bank robbery and the subsequent wounding of a suspect in that city:

The wounded bank robber suspect, "Tex" Wallace, is rapidly recovering from his injuries. He was able to sit up awhile Sunday and seems to be in exceptionally good health. His wife and the trained nurse are still at his bedside.

Officers are still at work on the bank robbery case. Sometime Sunday they found where the robbers had evidently made camp and it is believed they had deserted the place only a short while before it was discovered. Up in the ceiling of the North Side Baptist church was found a lot of stuff that no doubt belonged to the robbers, and everything indicated that one of the men had been wounded. Part of a shoe was found with a hole shot through the toe part; medicated cotton bandages and empty bottles of peroxide were also found. Then, too, a shot gun with the barrels sawed off, together with a lot of shells were found in the camp. Entrance to the ceiling of the church was made through a hole that leads up to it through one of the back rooms. Rev. J. P. Daniel, the pastor, saw a man come out of the church Saturday night, and the next day informed the officers, whereupon an investigation was made with the result as above stated. The officers are firm in the belief that the robbers made the church their headquarters while in the city.

The Center Daily and Weekly Optimist have merged into a semi-weekly, and will hereafter be published on Tuesdays and Fridays. The editor of the Optimist has made a brave fight to sustain his daily, running it many months at a loss, and we hope he has found the end of the lane of adversity and will turn up the curve of prosperity in his new venture.

FROM THE LUFKIN NEWS

Rev. O. T. Hotchkiss, pastor of the First Methodist Church in Nacogdoches, and well known to many Lufkin people, having at one time served as pastor here, spent a short time in the city today, and complimented the municipality very highly upon the splendid improvements that he saw.

Mr. W. G. Barron of Nacogdoches was here yesterday. He is a contractor and is well known in Lufkin.

District Attorney W. B. Quinn made a sort of a wide detour Saturday afternoon in an auto, and when he returned to the city alighted from his car with a nice string of fish. Whether that gentleman is as successful with the rod and reel as he is with the official position he holds, the fishing editor of this paper does not know—we did not see him catch the fish.

Miss Maude Moss of Llano and Miss Willie Cason of Nacogdoches departed yesterday at noon for the latter's home, after a short visit here with Miss Finch, one of the teachers in the Lufkin High School.

RAISE PUMPKIN YAMS.

Farmers who expect to raise sweet potatoes for commercial purposes this year should grow pumpkin yams exclusively.

Business men of this city who have been making inquiry about the market prices of potatoes lately, and investigating the matter with an eye to the future, say that they can get no quota-

Walking Cultivators Riding Cultivators Disc Cultivators

These are all very useful in making larger and better crops. One man can cultivate so much more, thereby saving the extra hired help.

You can go over your crop much quicker, keeping the soil in a better state of cultivation and hold the moisture better.

We have a very complete line of all of these and will make it to your interest to see us if at all interested in any of these.

We also have a complete line of Gee Whiz Harrows, Section Harrows, Shawnee Harrows, all of which are very necessary in making the best crops and will make you more money.

We invite your attention to these lines and will appreciate a visit from you. We are always glad to show you our goods.

Tucker-Sitton Hardware Co

The Quality Store

tion on anything but pumpkin yams, and recommend this variety for a commercial crop.

LUFKIN VISITORS.

From Friday's Daily: There is always considerable travel between Nacogdoches and Lufkin, and the people of the two towns visit with each other at frequent intervals as well as come together in many business relations. A Lufkin firm of contractors has been engaged with the erection of a school building in this city lately, and in turn a Nacogdoches contractor is engaged with buildings in Lufkin. Nacogdoches drummers visit Lufkin, and Lufkin drummers visit Nacogdoches. Another relationship that brings us closer together is the fact that many of the Lufkin men have come here to marry, as a result of which relatives visit each other as well as the vast amount of social visiting that is employed. We mention these facts leading up to a large number of Lufkin names we found on a local hotel register this morning, which is no unusual occurrence: Sam H. Kerr, J. C. Adams, Mrs. J. T. Moore, Mrs. Chas. Dodd, W. D. Price, M. V. Wynne, W. R. McMillan, M. R. Miller, Bryan Berry, Mrs. Snow, W. P. Berry. These are people who possibly came up on one of the trains, and had to remain over for a return train. Many come up in cars of whom we get no record.

SINGING CONVENTION.

The Nacogdoches County Sacred Harp Singing Convention will convene at Cedar Bluff School House on Friday night before the first Sunday in April, 1916. MISS MAGGIE BRANDON, Sec. WILLIE BARR, Pres.

MRS. W. L. CHRISTOPHER WITH THE DEAD.

The home of Mr. W. L. Christopher was made sad Saturday morning about nine o'clock March 4, by the visit of a Death Angel, who carried away the beloved wife and mother, Mrs. W. L. Christopher.

Mrs. Christopher was born in Tyler county December 19, 1851, and came to this county when quite young and remained in this county until death. She united with the Baptist Church about thirty-five years ago of which she was a faithful member at the time of her death. She was well known throughout the county and was loved by all who knew her.

She was ever ready to lend a hand to her friends who were in need. Her desire was to have all her friends and relatives about her bright and cheerful and did all in her power toward doing so.

She is survived by an aged husband, four daughters, one son and twenty grand-children to mourn the loss. Two sons and two grand-children have preceded her in going to the great beyond.

Weep not, dear friends, for the parting is not final. Let us all be prepared with bright and cheerful faces to meet her one the other shore. May the relatives have the sympathy of their friendship in their bereavement.

The remains were laid to rest

at Gravel Ridge cemetery Sunday evening at 2:30 o'clock, Bro. Gerrard conducting funeral services.

Written by her granddaughter, Minnie Baugh.

ATTEMPTED BURGLARY.

Last night while a citizen was passing the home of Mr. F. R. Penman he observed what appeared to be man entering the sleeping porch from the outside. He did not think much about it at the time, thinking it Mr. Penman coming in from the outside, but going further down the street he met the entire family and then knew that something was wrong.

The city marshal was notified, who responded immediately and made an investigation, but could find nothing wrong save that the door where the man was seen was left open.

NAT CELEBRATED.

Mr. Jas. D. Greer informs The Sentinel that the Mothers Club of the school at Nat celebrated Arbor Day by beautifying the school grounds and putting out shade trees, in which they were assisted by men of the community.

Mr. Greer says that this is one of the most progressive communities of the county, with a fine school interest, and commends very highly the work being done by the good women of the community.

What Have You to Trade for

One 6-room house and 3 lots in Houston Heights. Cost \$3000.
One 6-room house and 3 lots in Ft. Worth. Close in. Cost \$2300.

Both houses new. Will trade together or separate. Come on with your proposition.

ALLAN SEALE

The Supremacy of Peruna as a Household Remedy

44 Years of Leadership

Returned to His Work.

Mr. Julian Gardner, Dubuque, Ia., afflicted with catarrh of the stomach. He did not know what the trouble was. He was unable to work. He could hardly eat. He was in bed for some time. A short time is now in perfect health. He says: "I am now doing all my work. I am confident that any one suffering as I was could be cured by Peruna."

Every Change of Weather.

Mr. E. Arnold, Western, R. Ia., contracted a severe cold. The cold spread in his side and produced a condition that was thought to be pleurisy. Every change of weather would bring a return of his trouble. After taking Peruna all his ailments have vanished.

Pain in the Stomach.

Mr. Henry Knox, Box 850, No. 1118 S. Vista Ave., Janesville, Wis., writes you about four weeks ago that I had a pain in my stomach. I followed your advice, and used three bottles of your Peruna, and I am all right now. I am very thankful for your advice and your medicine.

Three substantial men, heads of families, made efficient once more by Peruna. These housewives restored to their families. These are only samples of what Peruna is doing every day, everywhere. Surely, this is a splendid work. Anything that conserves family life and makes the home more desirable and comfortable, nourishes the heart root of civilization. Peruna is a great civilization.

A Housewife Restored.

Ms. E. Eber, 20 Grant Ave., East near Falls, Iowa, was once a chronic invalid. Several years ago she had taken the medicine that had been recommended to her. She had been unable to begin the use of Peruna. She says: "After taking five bottles of Peruna I am happy to say that I am now cured. My digestion is perfect."

Once a Chronic Invalid.

Ms. E. Eber, 20 Grant Ave., East near Falls, Iowa, was once a chronic invalid. Several years ago she had taken the medicine that had been recommended to her. She had been unable to begin the use of Peruna. She says: "After taking five bottles of Peruna I am happy to say that I am now cured. My digestion is perfect."

Expresses Her Gratitude.

Ms. E. Eber, 20 Grant Ave., East near Falls, Iowa, was once a chronic invalid. Several years ago she had taken the medicine that had been recommended to her. She had been unable to begin the use of Peruna. She says: "After taking five bottles of Peruna I am happy to say that I am now cured. My digestion is perfect."

JOE ZEVE

JUNIOR AID

The Junior Aid Society had another great meeting Saturday with Misses Maude and Beulah Linthicum as hostesses.

There were twenty-four present. Each girl carried a lunch, and after the business of the meeting was disposed the girls repaired to a nearby woods where they enjoyed their refreshments in picnic fashion.

The next meeting is to be with Miss Moorer Saturday, March 11, at 3 o'clock. Subject: "Joys of Religion."

Mr. Carl Filson of Guthrie, Okla., is visiting with Mr. and Mrs. H. F. Gillette.

NEW GROCERY STORE

I have just opened up a new Grocery Store in Connection with a Bakery Shop and solicit a share of your trade.

I have a new, fresh stock of all kinds of groceries and will appreciate any business you give me.

You will find me in the Hardeman building next door to Tucker-Sitton Hardware Co.

All goods cash at lowest possible prices.

FRANK FEAZELL

COMMISSIONERS' COURT.

Commissioners' Court met in monthly session Monday, March 13 and transacted the following business:

Will Thorn, petition for hog law, granted.

R. W. Townley, resignation as constable precinct No. 5, accepted.

Application of J. H. Heaslet for constable of precinct No. 5, granted.

Willie Martin et al., road petition continued.

J. E. Jacobs, petition for road exemption with petition of physician attached, granted.

J. J. Fulmer et al., road petition granted.

J. W. Boatman et al., trustees Linn Flat School District, application to sell land granted.

Jno. C. Fall, county treasurer, reported registered indebtedness for February 1916, approved and ordered published.

W. T. Orton, county clerk, monthly report, approved.

J. F. Perritte, county judge, monthly report, approved.

J. H. Heaslet, official bond, approved.

J. M. Dennis et al., road petition granted.

G. W. Long and Mike Goldsberry, hog law, petition, granted. It is hereby ordered by the court that the county treasurer be, and is hereby instructed, to transfer two thousand dollars from the general fund, and place said three thousand dollars to credit of road and bridge fund.

MELROSE LOCALS.

Most of the farmers in this locality are just about up with their work until it rains. Some few have planted corn; but the most of them are waiting for a good rain before planting.

The piney-woods down toward "Oil City" have been burning for several days, and the smoke has been almost unendurable.

The health of our community is very good with only a few exceptions.

Mr. and Mrs. Geo. Hendricks are reported as being on the sick list.

Bro. McQuarry filled his regular appointment at the Christian church Saturday and Sunday.

Our school will close next Tuesday, March 21st.

The young people were entertained with some excellent music at Mr. Denson's, Saturday night.

Messrs. Ellis Haltom and Elton Lambert went to San Augustine Friday and returned Sunday. They report having had a delightful time.

Miss Eva Ray is the guest of Miss Helen Hademan.

Success to the Sentinel.

B. R. N.

FAIRVIEW CLIPPINGS.

The health of our community is very good at present with the exception of Miss Jeffie Smith, who is on the sick list.

We are glad to learn that little Martha Haltom who has been very ill with pneumonia lately is reported able to be back in school again.

Some of the farmers are very busy with their tomato crops at present and are needing rain bad.

A crowd of young people attended a singing at Mrs. Ed. Skillern's Friday night and all report a nice time.

The Sunday Schools of our community are progressing nicely, the attendance being very good.

Mr. and Mrs. August Hill have returned from Mayo and will make their future home in Fairview community.

Rev. Helpinstill filled his regular appointment at Fairview Sunday, March 13th. A large crowd was present.

X. Y. Z.

LIBRARY ASSOCIATION.

The executive committee of the Library Association met at the home of Mr. and Mrs. T. T. Tilford last evening. It was a "Thanksgiving" meeting to express the joy each member of the committee felt over the splendid prospects of having in the near future, a library that will fulfill the long-felt need. This exuberance of joy was occasioned by the recent action of the city council in offering to help, in a financial way, to build up a good library in Nacogdoches. A resolution, thanking the "City Fathers" for this timely aid was passed.

This committee, which has been serving so long and so well in our interest, merits and should receive the help of every progressive, patriotic citizen of Nacogdoches. Plans are on foot to secure a Carnegie Library for this city as soon as all necessary arrangements can be made. At a late hour, after the business session, delicious refreshments were served. You will hear more of the Nacogdoches Free Library in the near future.

MARRIED LAST NIGHT.

From Wednesday's Daily: Miss Katie Belle Weems, daughter of Mr. and Mrs. W. T. Weems, was married to Mr. Hay Meador, son of Mr. and Mrs. A. H. Meador, at the Tucker Sanitarium last evening, Rev. C. A. Westbrook officiating.

The wedding occurred at the Sanitarium at the request of the mother of the bride who has been confined there for some weeks, and who will have an operation today.

The fair bride is a beautiful and accomplished young woman, and is loved and admired by all who knew her. The groom is a tailor by trade, holding a position in the City Tailor Shop, and is an industrious, most worthy young man who will make the city a good citizen in his new life.

The Sentinel joins the many friends of the happy couple in congratulations and good wishes.

SHAW-McLAIN.

From Wednesday's Daily:

Mr. Ambrose Shaw of Kirbyville was married to Miss Eva McLain, at the home of the bride's parents, Mr. and Mrs. I. W. McClain, on South Fredonia street, this afternoon, Rev. C. A. Westbrook officiating.

The happy couple left on the south-bound T. & N. O. for Kirbyville where they will make their future home, stopping off in Beaumont for a visit en route.

The bride is one of Nacogdoches' most worthy daughters, and has a host of friends whose good wishes will attend her in her new home. She has been holding a position at Kirbyville some time where Mr. Shaw met and wooed her. Mr. Shaw is engaged in the telephone business and is a worthy young gentleman who will make a good husband for the fair bride he has won. He also resided in this city, previous to going to Kirbyville, and has a number of friends here.

MARRIAGE AT MELROSE

Mr. Jas. H. Barrett and Mrs. Maggie Miller were married Tuesday, and left at once for Mr. Barrett's home near Oil Springs.

Mrs. Barrett's former husband was killed in a railroad accident near Broadus about two years ago. She is a most lovable, refined lady, while Mr. Barrett is one of well known old-timers, being a member of the pioneer Barrett family of Melrose and Nacogdoches.

The happy couple have many friends who rejoice with them in their new relation, and trust that every good fortune will attend them.

Men and young men; see our store, styles, garments and Tailor-Made suits before you buy.
Zeno Cox, Jr.

AUTOMOBILE ACCIDENT.

From Thursday's Daily: Last night while Reggie Wilson and Miss Rebecca Clevenger were riding in an automobile bedeviled as a sufficient answer. The accident happened by Mr. Wilson reaching down to get his pleyers and losing his balance with the steering wheel, allowing the car to strike the tree a center shot. The car was pretty badly wrecked, and they received a severe shock which dazed them for a brief period, but when their injuries were dressed they were found not to be serious.

The accident was a most dangerous one, and their friends rejoice that the injury was no greater.

Just received a car of re-cleaned cane seed. See us before you buy.
Branch & Goldsberry.

THINK IT OVER?

Young men and women desiring to achieve a success should not waste their summer vacation. One vacation properly spent will protect them against poverty and enable them to earn a respectable living. There is no use idling away the summer months. Business men and farmers alike, work during the summer. Ambitious boys and girls would rather spend their vacation with a large and enthusiastic student body, mastering a course of Bookkeeping, Shorthand, Telegraphy, Business Administration, and Finance or Cotton Clipping that they might use. This practical knowledge in paying their way through some university or with a good paying position in a business office. He who cares more for success than heat, goes a long way ahead of him who waits until cool weather to study.

Many a young boy or girl who at the close of school last year, entered the Tyler Commercial College of Tyler, Texas, to spend their vacation, are either in one of our large universities paying their own way or holding a splendid position, or are in business for themselves. Where there's a will there's a way. Cowardice sits and whines 'I can't.' Courage forces success. If you desire to obtain a knowledge for which the business world readily pays cash, write for large illustrated free catalogue of the Tyler Commercial College, read the advantages of their splendid courses of instruction and what those who have graduated and are now holding good positions, say of the institution; and what the employers of these graduates say of their efficient training. Read how some worked their way thru school, how others borrowed the money and made it pay them big dividends, how others quit jobs at small salaries, completed their courses and went back to the same firm at two and three times their previous salary. Get a salary raising education. It is yours if you are willing to make the effort. Write today for catalogue and make arrangements to enter as soon as your school closes. The U. S. Government has held two examinations here in Tyler this spring enabling our graduates to go into nice civil service positions at entrance salary of from \$900 to \$1020.

The Tyler Commercial College building is one of the largest and most sanitary, best lighted and ventilated, in the State; it is an ideal place for summer work. More than five hundred students profitably spend their vacation there every summer.

Why pay more for your Spring Suits when we can save you money? Returned Tailor-Made suits received almost daily by express. No two alike. They fit and stay fit.
Zeno Cox, Jr.

Men and young men; see our store, styles, garments and Tailor-Made suits before you buy.
Zeno Cox, Jr.

Deputy Sheriff Myers is in receipt of a message from Sheriff Spradley announcing that he is in hot pursuit of the Timpson bank robbers. He wired yesterday that he had a clue, and today announces that he is following a man who is wounded in the foot and a woman, and that he expects to capture them in the next few hours.

We will run thresher at Appleby each Saturday until planting time for the purpose of threshing seed peanuts.
Appleby Threshing Co.

WHY WOMEN WRITE LETTERS

To Lydia E. Pinkham Medicine Co.

Women who are well often ask "Are the letters which the Lydia E. Pinkham Medicine Co. are continually publishing genuine?" "Are they truthful?" "Why do women write such letters?"

In answer we say that never have we published a fictitious letter or name. Never, knowingly, have we published an untruthful letter, or one without the full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write such grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and suffering.

It has relieved women from some of the worst forms of female ills, from displacements, inflammation, ulceration, irregularities, nervousness, weakness, stomach troubles and from the blues.

It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

ESTIMATE OF THE COST.

Washington, March 8.—Approximately a billion and a half dollars for new ships and an annual upkeep charge of \$760,000,000 is what Admiral Fletcher, commanding the Atlantic fleet, estimates it would cost to carry out the navy general board's recommendation that an American navy should equal the most powerful fleet afloat by not later than 1925.

The admiral's estimate was given before the house naval committee. Representative Callaway, who brought out the statement, called attention to published reports that Great Britain had added nearly a million tons to her fighting ships since the war began. He asked if the situation was not "hopeless." Admiral Fletcher thought not, adding that judging by its great wealth the United States could well afford to give its interests the same protection that other nations thought necessary.

EASTERN TROOPS

ROUTED TO FRONT

Palestine, Texas, March 12.—That the United States means business with Mexico is shown by the fact that the International and Great Northern Railway has been requested to move seven troop trains over its line this week.

The troops are all cavalry and will go to the Mexican border from army points in the East.

They will be given right of way over all trains and will move through here Tuesday or Wednesday.

QUARANTINE RAISED

A bulletin from the Department of Agriculture announces that the quarantine which has been in operation over Texas and many other places on account of the cattle which may have ticks, has been raised, and our cattle may be shipped to any place now so far as Federal restrictions are concerned.

END STOMACH TROUBLE, GASES OR DYSPEPSIA

"Pape's Diapain" makes Sick, Sour, Gassy Stomach surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headaches, you can get blessed relief in five minutes. Put an end to stomach trouble forever by getting a large fifty-cent case of Pape's Diapain from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder. It's the quickest, surest stomach doctor in the world. It's wonderful!

THE STAND PIPE IS CLEAN NOW

The management of the waterworks has been very busy this week having the big stand pipe cleaned and put in perfect condition before the approach of warm weather.

To the average person who has given the matter no thought, the task would not seem so large as it is. In the course of a few months some dirt, gathered in very small particles at a time, and some mineral matter gathered in the form of a sediment, will form in the bottom of any water tank. The tank supplied with rain water suffers the same trouble. But very little dirt was found at this time, the standpipe having been cleaned out as needed before. The water was all let out, the bottom and the walls have been thoroughly washed, and are now being supplied with a coat of graphite paint, which will make the sanitary condition of the big receptacle perfect as well as serve its life many years. The workmen hope to get through today, and again fill the standpipe with water tomorrow. In the meantime the town is being supplied with water in a direct current from the pumps.

In company with Carroll Holt, the courteous and most capable superintendent of the system, the Sentinel reporter had the pleasure of visiting the plant and the lake which supplies the water, yesterday afternoon, and it gives us pleasure to note the splendid condition in which we found the system. Not having a practical knowledge of such matters, we are reminded of the slang expression "we don't understand all we know about it," but we found two of the prettiest lakes in the country, located in the hills and supported by springs of pure free-stone water as if nature had provided it for the support of this city. We found a plant equipped with modern machinery, all in fine repair, and we found many ingenious ideas to conserve the water and expense. Notably in this line our attention was directed to a plan which had been employed to bring the overflow water from the lake to the railroad tank, supplied by the system, by gravitation, thus saving many dollars of expense in pumping. Many other similar ideas have been employed to conserve water and expense, and many improvements have been made, as a result of the engineering ingenuity of the superintendent, which are greatly increasing the production of the enterprise and will ultimately make it a most valuable investment for the city.

Another feature that attracted the attention of the writer was the civic attractiveness of the premises. Usually, places in which machinery is operated become very dirty, and unattractive, but not so with the waterworks and light plant systems of this city. Everything is kept as clean as a well regulated business house, and the yards are kept as attractive as are the yards of many homes, with much more improvement contemplated in this line.

Any citizen who is not familiar with these enterprises will enjoy a visit of inspection to them, and return with greater appreciation of the service he is receiving.

DEMAND EIGHT HOURS.

Chicago, March 8.—More than 80 per cent of the 400,000 railway employes of the country favor demanding an eight-hour day with time and a half for overtime when their wage agreed with the roads expires March 31, it was indicated today when union leaders met here to tabulate the referendum vote on the question.

Where There's a Farm There Should be a Bell Telephone

The progressive farmer surrounds himself with modern advantages. He, too, appreciates that convenience ministers to health, happiness, progress and wealth. What does he do? With other neighbors he starts a Rural Telephone line. Enough said.

Apply to our nearest Manager for information or write to:

THE SOUTHWESTERN TELEGRAPH AND TELEPHONE CO. DALLAS, TEXAS

OFFICERS INDICTED.

Austin, March 8.—Seven indictments were returned by the Travis county grand jury Tuesday afternoon after an investigation of state tax collectors. Three of these indictments are against Karl L. Druesdow, tax collector of Harris county. Three are against C. C. Quillen, former chief bookkeeper in the tax department of the state comptroller's office, and one is against L. B. Smilie, who was assistant in that department to Quillen and who was reappointed by Comptroller H. B. Terrell as auditing clerk.

The grand jury is continuing its investigation of the tax collectors and other indictments may be forthcoming.

\$42,000 Involved. The indictments against Collector Druesdow charge misapplication of public funds covering a period of three years. They allege that during that time \$42,000 due the state in settlements due May 1, 1913; May 1, 1914, and May 1, 1915, was misapplied. Druesdow has made bond with the sheriff of Harris county in the sum of \$5,000 for each case.

SCHOOL TRUSTEES.

The Thirty-fourth Legislature enacted a law which provides that the election for all district trustees, both common and independent except those incorporated by special acts of the legislature and providing a different date, and for all county trustees, shall be held the first Saturday in April each year.

It is the duty of trustees to post notice of this election twenty days in advance, and the commissioners' court is required to have supplies furnished. Under the new law the polls will be kept open from 8 a. m. to 6 p. m.

Full information of all the requirements can be found in Bulletin No. 51.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

A "LONG" CONVERSATION.

When the University of the only state which has a history distinctively its own, claimed by itself through the meetings of its alumni, the attention of the nation on March 2, Texas Independence day, something more than the stimulation of college spirit and loyalty to alma mater was achieved.

These meetings were held in many different cities but it was the joint program carried out between former Texas university students in Dallas and New York City which commanded especial attention. Telephone wires connected the banquet rooms, 2,200 miles apart. Speakers addressed audiences composed not only of those within their vision but of old friends and acquaintances of college days, thousands of miles away. And then the university through its acting president, Dr. W. J. Battle, spoke to her children. Austin talked to Dallas and New York. As the words were carried by the wires the spirit of the university and the state, expressed in terms of patriotism, inspired by the anniversary, was communicated, directly and indirectly, over the length and breadth of the country. The newspapers of the United States on March 3 expressed eloquently how this was accomplished.

It was a memorable occasion. While the nation looked on in interest over an achievement in quick communication, it heard the far off tocsin which called the early settlers to arms; it commenced to recognize the glories of southwestern history. It was as if the whole country had been made to hear the roll of guns coming back up through the years which have intervened since the empire on this side of the Rio Grand was won to Anglo-Saxon civilization.

To bring this about The Southwestern Telegraph & Telephone company and the American Telephone & Telegraph companies provides wires and equipments valued at more than \$2,000,000 and loaned that much property for an hour to what was, in truth, a public service.

Such spirit as this on the part of a privately owned utility deserves the same recognition as might be accorded to an independent service of equal value to his country or his state. Certain it indicates a willingness to carry out those public obligations which falls upon either corporations or men who happen to be in places from which great good may emanate or progress claim its inspiration.

WOULD PURCHASE A STRIP OF MEXICO

Philadelphia, Pa., March 12.—Purchase of the northern part of Mexico for a flat sum of \$300,000,000 by the United States is practically assured. This is the statement of the Philadelphia Ledger.

Declaring that it has absolutely authoritative information this newspaper came out with the statement today.

Furthermore, it declares that Colonel E. M. House went to Europe to confer with the heads of the various governments to learn if they would find such a purchase agreeable.

Colonel House reports that they would indorse the transaction. This would give the bankrupt Mexican government money to pay the foreign claims against it.

"This story is authentic, and the Ledger is prepared to stand back of it. The administration may deny it at this time, but our sources are absolutely authoritative," says the Ledger.

The deal is understood to mean the taking over of the five border

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Gardui, the woman's tonic. She says further: "Before I began to use Gardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Gardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill. I wish every suffering woman would give

GARDUI

The Woman's Tonic

a trial. I still use Gardui when I feel a little bad, and it always does me good."

Headache, backache, side ache, nervousness, tired, worn-out feelings, etc., are sure signs of womanly trouble. Signs that you need Gardui, the woman's tonic. You cannot make a mistake in trying Gardui for your trouble. It has been helping weak, ailing women for more than fifty years.

Get a Bottle Today!

COMING ATHLETIC MEET.

The county athletic meet will be held in Nacogdoches next Saturday March 18th, beginning at 10 o'clock and lasting until finished in the afternoon.

SACUL PROGRESSING.

County Agricultural Agent, Jas. D. Greer, with Miss Bess Mason, in charge of the county domestic science work, visited Sacul last week, and give a very flattering report of the life they found in evidence in that thriving town and community.

Mr. Greer says that the citizens have recently plowed and leveled up all the streets and put out man yshade trees which adds much to the civic attractiveness of the town. The town also has a most prosperous school under the supervision of Prof. Howard.

One of the most interesting features of Mr. Greer's visit to the community was Mr. Jno. T. Lucas' farm where he found corn up and growing pretty, and arrangements being made for a really diversified farm on which a large patch of melons for commercial purposes and a large acreage in ribbon cane will be planted. Mr. Lucas is also engaging extensively in the poultry business, and with his new arrangement will doubtless make a great success.

Riley Henson had the misfortune to get knocked off a motorcycle near Timpson last Saturday in which he got the ligaments of one of his arms pretty badly strained. The accident happened by an automobile striking the motorcycle on which he was riding.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

J. W. Lambert.
Chas. H. Baker.

For Justice of Peace Prec. No. 3:
W. H. Haltom.

TUESDAY'S LOCALS.

Editor Walthall spent last night in the city going out to Martinsville today.

Mrs. Hattie Parsons has moved to the family homestead on South Fredonia street.

C. M. Jinkens of Wells arrived in the city yesterday for a visit with his brother, Pat Jinkens.

If in need of Chattel Mortgages call at the Sentinel office.

Dangers of Draft.

Drafts feel best when we are hot and perspiring, just when they are the most dangerous and the result is Neuralgia, Stiff Neck Sore Muscles or sometimes an attack of rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The agonizing pain gives way to a tingling of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c. at your Druggist. dw.

Never overlook the fact that the cub in the old home town may go away and become an efficiency expert.—Toledo Blade.

Take Po-Do-Lox in Spring.

In winter our blood gets thick, our pores close, we feel tired and dull when hot days come. What we need is a spring liver tonic, something to rid our systems of winter's accumulated waste. Po-Do-Lax will do it. It stimulates the bile, empties the bowels. The organs become more active and in a little while you feel like new. Don't neglect cleaning out your system. Take Po-Do-Lax and you will feel fine. 50c at your druggist. dw

You never hear of a man getting rich by attending to other people's business.—New York World.

Colds Quickly Relieved

Many people cough and cough—from the beginning of Fall right through to Spring. Others get cold after cold. Take Dr. King's New Discovery and you will get almost immediate relief. It checks your cold, stops the racking, rasping, tissue-tearing cough, heals the inflammation, soothes the raw tubes. Easy to take, Antiseptic and Healing. Get a 50c bottle of Dr. King's New Discovery to-day. "It is certainly a great medicine and I keep a bottle of it continually on hand" writes W. C. Jessemann, Franconia, N. H. Money back if not satisfied. dw

Every sport imagines he can stand the pace that kills the other fool.—New York American

When to Take Chamberlain's Tablets.

When you feel dull and stupid after eating.
When constipated or bilious.
When you have sick headache.
When you have a sour stomach.
When you belch after eating.
When you have indigestion.
When nervous or despondent.
When you have no relish for your meals.
When your liver is torpid.
Obtainable everywhere. dw

Popularity for the most part consists of being a listener with a laugh.—Nashville Banner.

Rank Foolishness

You occasionally see it stated that colds do not result from cold weather. That is rank foolishness. Were it true colds would be prevalent in midsummer as in midwinter. The microbe that causes colds flourishes in damp, cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effectual and is highly recommended by people who have used it for many years as occasion required and know its worth. dw

Trimethylmethoxyphenol is said to be a germ killer. We accept the assertion without appeal or protest.—Memphis Commercial Appeal.

Adlai Mast, the local dealer sold a fine seven-passenger Buick car to Mrs. E. V. Davidson yesterday.
