### SWEET POTATOES.

Just now while the people of this section are being aroused to the importance of the growing of sweet potatoes for commercial purposes, the following review of the subject from the Galveston Tribune will be interesting:

The fact that one thousand carloads of sweet potatoes were brought into this state last year ought to make every farmer in the state blush with shame. That they were brought to Texas indicates that a demand existed for these vegetables, and that they were disposed of at a price warranting a continuance of the venture or the total would have never reached the tremendous quantity indicated by the statement made by Dr. Harkey of the Agricultural college, who is just now engaged in an endeavor to increase the acreage of this tuber.

A thousand cars is equal to something like 40 million pounds, and when to this is added the quantity of tubers grown in the state, it will give some faint idea of the quantity of sweet potatoes required each year to satisfy the appetites of the people. There is solid foundation for the protest uttered by Dr. Harkey against the unwarrantable condition that sends the people of Texas into other states for something which they are not only capable of producing in sufficient quantity to supply every home demand, but also to have a surplus for other people who are not so highly favored by providence with climate and soil peculiarly adapted for the production of this delicious vegetable.

It has not been so many years since Texas was sending both Irish and sweet potatoes in carload quantities to other sections of the country, but of late years it appears that the acreage has been curtailed until we are now dependent upon the generosity of our neighbors for a sufficient quantity to meet our needs. The reason for this decreased acreage is probably suggested by the A. & M. College professor, who is now urging the installation of curing plants as an aid to the farmer in securing better prices for his yield of sweet potatoes. Like everything else placed upon the market, the sweet potato is cheap at harvest time, and the quantity thrown on the market breaks down the price, and very naturally the farmer becomes

discouraged and concludes that there are other things he can raise with better results, but there comes times, later in the season, when the price of the article seeks the higher level, where they pay magnificently, provided one has them on hand to sell at that particular time.

Dr. Harkey points out that with the curing plant, which is operated at a small cost, the sweet potato farmer can carry his yield into the months when the price will bring him most gratifying results, and it is his mission to point this out with a view of having the state again supply its own needs and keep hundreds of thousands of dollars in Texas that are now sent outside for something we can easily produce ourselves. It is pointed out that the sweet potato is easily cultivated and yields tremendous returns for a little care and labor; that it is not more largely used is because we have never let its good qualities become more widely known, we have been content to enjoy one of nature's most delicious gifts to man, careless or indifferent as to whether the balance of the world ever partook of its goodness or not.

### BERNARD DEFEATS

JACK HERMAN

Although the crowd was small, the wrestling match last night proved to be one of the best ever witnessed in Nacogdoches.

Those who were under the impression that Tony Bernard was going to have a walk away had their minds changed as soon as both men hit the mat and up until the first fall was gained. It was hard to pick a winner. More than once Herman had Bernard in tight places only to have him do his famous shoulder hop and out he would come. Then Bernard would get Herman in tight places but was not able to pin his shoulders to the mat under one hour. Both men pulled and toughed at each other, then both would break loose and stand on their feet. Finally Bernard got a cradle lock and pinned the shoulders of his opponent to the mat. Both men were aggressive throughout the match. The second fall was also gained by Bernard with an arm cradle lock in twenty-one minutes.

Cyclone Mitchell has challenged the winner and Bernard has accepted for a bout next Wednesday night.

### RESIDENCE BURGLARIZED HERE LAST NIGHT

The Home of B. M. Isaacs Was Entered and Number of Articles Were Taken.

From Wednesday's Daily: Some time between eight and ten o'clock last night a burglar entered the home of Mr. B. M. Isaacs, up North street, and took a gold watch belonging to Mrs. Isaacs, \$3.75 in money and some underclothing and a shirt belonging to Mr. Isaacs.

Mr. and Mrs. Isaacs went out for a little visit with friends after supper, and the burglary was committed while they were away. Upon their return Mrs. Isaacs discovered that some one had been going through a dresser drawer, and further investigation revealed the losses noted.

Entrance was gained through a window on a side porch where the intruder cut a sufficient hole in the screen wire to permit him to get his hand to the latch. Tracks leading away from the place indicates that a large man was the burglar, as the track is large. Sheriff Spradley made an investigation of the tracks and such other clues as he could obtain from the premises this morning, and is on the job working out such clues as he can get to apprehend the guilty party.

### THE NEW CITY DADS ELECTED YESTERDAY

From Wednesday's Daily: Considerable interest was aroused in the city election yesterday, as a result of which 398 votes were polled.

The result of the election was as follows:

For Mayor—Geo. H. Matthews, 214; Jno. B. Nelson, 175; Matthews' majority 39.

For Aldermen—Zeno Cox, Jr., 259; R. W. Murphey, 139; G. H. King, 190; Marcus Smith, 180; Cox and King receiving the largest vote were elected to fill the vacancies on the board.

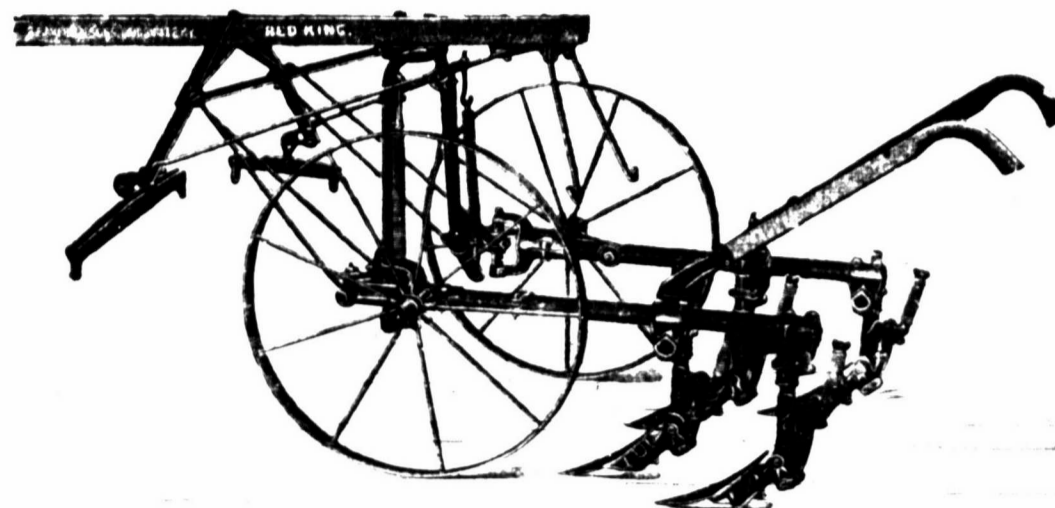

The City Council will meet at one o'clock this afternoon and make the official canvass of the returns and declare the result.

Capt. O. C. Dotson of Garrison was a pleasant caller at this office today. Mr. Dotson has been engaged in business in this county many years until some two years ago when he retired, and no business man of East Texas was better known or more highly esteemed. Of tender sympathy and chivalry, and progressive along all lines, he has ever been identified with the front ranks of progress, and at the same time loved and esteemed by the most lowly. The writer has been the beneficiary of this good man's friendship and it would take many columns to express the love and esteem which we have for him. Truly, he is in our garden of "flowers for the living," and looms up as one of the most beautiful and fragrant in our appreciation.

### MRS. W. R. WALKER WITH THE DEAD

From Wednesday's Daily: Emery Ray received a message this afternoon bearing the sad news that his sister, Mrs. W. R. Walker, (nee Miss Deedie Ray) died in Shreveport at 12:45 this afternoon.

It will be remembered by those who have kept up with reports, that Mrs. Walker had an operation in Shreveport some days ago, which was followed with an attack of blood poison, since which time she has battled bravely for her life, in the meantime everything known to medical skill and good nursing being administered to her.

Mrs. Walker is survived by her husband and a little son five years old, together with her parents and other relatives. She was about twenty-eight years of age—just reaching mature life, and the blessings that will attend one in her home-making at this age, and it is a sad condition of the fates that would call one away as she has been taken.

Previous to the removal of the family to Shreveport, Mrs. Walker resided in this city where she spent the greater portion of her life, and she was loved and admired by the entire citizenship, whose hearts are made sad with the news of her untimely death.

Among the Beaumont women who will attend the meeting of the Eastern Texas Presbyterial which convenes at Nacogdoches Wednesday evening are: Mrs. L. J. Davis, Mrs. J. G. Kerr, Miss Cornelia Taylor, Miss Lalla Bert McClamrock and Mrs. F. E. Robbins. The meeting will close Friday night.—Beaumont Journal.

### QUICK REPAIR BY TELEPHONE COMPANY

Paris, Texas, April 4.—With the resumption of local telephone service by the Southwestern Telegraph & Telephone company eleven days after the great fire which made a clean sweep of 120 city blocks including almost all the business section, the brakes upon the work of raising Paris from the ashes have been released.

Until this service was resumed all was confusion. It was impossible to organize for any concerted effort. The most ordinary business was subject to a long delay. Because of the fact that 200 brick business buildings and 1200 residences were destroyed even the use of messenger boys was futile. Those sought could not be found.

Recognizing that telephone service was the first requirement if Paris was to be rebuilt, the Southwestern Telephone company put 200 men to work immediately after the fire. Two hundred and fifty poles were set to carry telephone cables in the burned area. Twenty thousand feet of overhead cable was placed. At the same time 2,300 feet of underground conduit was built to supplement the subway system already in use. A complete switchboard was shipped in two full cars all the way from Chicago by express, set up in the only vacant store building in the unburned section of Paris, and wired for 1400 local telephones.

All this was accomplished in 11 days. Records were broken for quick telephone construction and installation work, but it was necessary before anything else of importance could be accomplished. Paris found out what it was to have "a giant out the wires."

### MUCH NEW SIDEWALK.

Mr. B. R. Wagley, the expert concrete worker who has been with us some weeks, has lately put down much new sidewalk in Nacogdoches—and is still busy.

In the list of work lately done on this line is a nice concrete walk in front of the homes of Messrs Lee Hardeman and Tom Summers which adds much to the civic attractiveness and appearance of these beautiful homes. From this work Mr. Wagley moved to the pretty new home of Hollis Mast where a nice lot of concrete work was done which corresponds with the pretty new house, and other new premises lately erected by this gentleman.

Mr. Wagley is now busy putting down a nice concrete sidewalk from the foot bridge below the Bainat Hotel up this way connecting with the premises of the hotel, Dr. Sweetland and Judge Perritte, and covering a considerable distance of the walk to town, which will doubtless be followed with an extension of the work on up to the public square, enabling pedestrians to make connection from town to the graveled roads leading to the depot over this street dry shod.

Nothing adds so much to the civic attractiveness and convenience of a town as an abundance of concrete sidewalk, and it is encouraging to note that many Nacogdoches people are becoming aroused along this line.

We have a nice, new fresh stock of Millinery, dress goods, trimmings, underwear, hosiery, shoes, etc., that we want you to call and see. The prices are the very lowest to be had for good goods. Every article is just as represented. Don't fail to come to the Texas Store. d&wt

HALTOM & GIBBS, Proprietors  
G. M. HALTOM, Manager  
O. M. GIBBS, Editor

There are in Mexico Villistas, Carranzistas, and all other kinds of istas, but the worst of the lot are Rumoristas, who seem to infest the border.—Longview Times-Clarion.

Industrial enterprises, intelligent market systems, and patriotic, progressive business houses make towns and cities. Nacogdoches has a good supply of each—and she is growing.

We would not put our judgment against those who have the matter in charge, realizing that they know best, but our inclination would enjoy a report to the effect that Gen. Pershing had taken charge of the railroads and such other advantages as he needs in Mexico in the class of the bandits, and would discuss the matter with them.

It is clear that Carranza is blocking operations to a limited extent for no reason save that of jealousy, and the friendship of such an ignoramus is not worth the pains.

A "promoter" is working East Texas, organizing the towns into development companies and collecting a fee with which it is proposed to advertise the particular section in a certain bureau, and in motion picture slides in the East. Such advertising profits only the promoter, and the town that invests in it throws its money away. A list of prospective buyers can be obtained from the railroad at any time, to which individual advertising, which would be far more effective, can be sent direct, or space can be contracted for advertising in groups of papers, wherever desired, at a very low rate.

With the increased cost of living, which is growing more serious each day, the day is not far distant when those who fail to produce such things as can be grown at home will have to do without them. With over half the world in war, with people who have to be fed the same as those engaged in more peaceful pursuits, the supply of everything is running very low, and suffering will follow in the wake of those who are too shiftless to take advantage of the opportunity to provide, as far as possible, against the impending calamity. On the other hand, it is the opportunity for the frugal farmer of East Texas to get rich if he will take advantage of it. Every horse, cow, hog, and other livestock he can grow will be in demand at a fancy price, and all kinds of feedstuff, including many grasses and stuff that will grow wild, will be needed. These are facts which will be sustained by the best authorities of the country, and should engage the very serious attention of every farmer and business man in this section.

It is against the ethics of the medical profession to advertise, or make any display of the work of the profession. In some instances we believe the ethics are too exacting, depriving the public of knowledge it should have, but the matter is not given to our making or alteration, and we shall have nothing more to say along this line. The point we wish to get up to in this article is the fact that the Tucker Sanitarium and the Nacogdoches Surgical Hospital of this city are doing much to put Nacogdoches on the map, and are among our most meritorious enterprises. People are brought here from all parts of the country for different operations and treat-

ment for different troubles, and if their afflictions are of such a nature as will respond to treatment or surgery, they are given relief here as quickly as can be enjoyed by the more noted sanitariums of the large cities, a fact that is being realized over the country more and more each day, and bringing an increased number of patients to them. Greater still is the advantage the people of Nacogdoches enjoy in these institutions where their loved ones can be treated at home and visited each day.

A majority of the merchants of the city have signed an agreement to close their places of business at six o'clock each afternoon during the summer, except Saturday, beginning next Monday. A copy of the petition will be found elsewhere in this paper. This is done to give the clerks a chance for a little rest to which they are entitled, and the trading public can render good assistance by doing their trading or "phoning" in their orders early in the day, and when once the habit is acquired it will be just as convenient as the old method. And remember that the new order becomes effective Monday.

Let reverence for the law be breathed by every American mother to the lisping babe that prattles on her lap; let it be taught in schools, in seminaries, and in colleges; let it be written in the primers, spelling books, and in the almanacs; let it be preached in the pulpit, proclaimed in legislative halls, and enforced in courts of justice. And in short, let it become the political religion of the nation; and let the old and young, the rich and poor, the grave and the gay of all sexes and tongues and colors and conditions, sacrifice unceasingly on its altars.—Abraham Lincoln.

It will work. A real estate man of another city who has been in the city several days, and who has become very much interested in the peanut crops being grown in this section, gave an example that looks pretty in theory and will work with facts and figures. The gentleman offers the idea that a man could purchase a piece of this East Texas land, have it cultivated to peanuts and the hay would pay for the cultivation while the nuts would pay for the land, possibly with one crop, and certainly with the second. With this method the land would accumulate to the man as a clear profit for his frugality. With a more extended crop, and more time for payment of the land, on the same plan a man could make a living for himself and family and accumulate a home.

The Confederate veterans and Sons and Daughters of Houston, in meeting yesterday, set the race that will be followed in many places by denouncing Congressman Cyclone Davis for his unwarranted attack upon the life of the illustrious Jefferson Davis, and the cause of the Confederacy, both of which are sacred in the memory of every Southern man. The people of the South made honorable settlement of the causes involved in the conflict between the states, the "hatchet was buried," and the spirit which would enter into severe criticism of anything thus settled, on either side, is anarchistic. It is far more glorious to engage ourselves with measures and issues that renew and build up the ties of friendship with a united people, encouraging them to be united in spirit as well as in fact, and the cool-headed, sensible man of today resents anything to the contrary, a fact that will be more fully attested the next time the people get a chance to express themselves at the ballot box.

## TECHINAL TROUBLE PANOLA COUNTY

The legislature seems to have gotten Panola county in a "peck of trouble" in the matter of placing it in one of the new districts, as the following dispatch from Austin, of recent date, explains: "A question of importance that has arisen is what supreme judicial district contains Panola County. Panola is listed in the counties of two districts—sixth and ninth. The duplication is found in the general laws of the thirty-fourth Legislature, page 122.

"The Court of Civil Appeals for the sixth district sits at Texarkana and the ninth at Beaumont. Panola is on the dividing line. Harrison, adjoining Panola on the north, is in the Texarkana district, while Rusk and Shelby, on the east and south, are in the Beaumont district. As a result Panola is now isolated by being placed in either district. Formerly it was in the Texarkana district.

"What could prove an embarrassing situation is presented by candidacies for the bench in the sixth and ninth districts. Judge A. G. Brook of Panola County is a candidate to the Beaumont court. Judge R. B. Levy is standing for re-election in the Texarkana district over which he presided as district judge. He might need the votes of his old district and, having that desire, ask to have his name placed in Panola County. Judge Brook is sure to file his name for place on the ticket in Panola County. In such event there would be applications for place for two separate districts. That would at once bring issue to a point."

## TRAINING YOUNG PEOPLE.

Our problem in the Southwest is to train our young people for service and help them serve. No time need be wasted in urging boys and girls to stay on the farm. Rather we should make country life more attractive, with more interest and greater opportunities for those who wish to stay.

Some of the young people now on farms would succeed far better in the towns and cities. Many boys and girls now in cities would find greater opportunities for a competence and comfortable living on farms. The open country is conducive of good health, vigor and longevity and those who appreciated the liberty and freedom of farm life have great opportunities of citizenship.

The country can ill afford to lose its most useful young people but it can and should train and otherwise assist others to take the place of those who leave. The country's loss in ambitious industrious young people is the city's gain. But let us not forget that neither the country nor the city is independent. The one is largely dependent upon the other. Our concern should be for moral, efficient citizens.

From the towns and cities boys and young men are coming to enjoy the open country; to give rural society the touch of business activity and to unite with rural thought to build up society. College boys and girls are now finding "the fields already white unto harvest" in the open country; rural life is being influenced by the schools, boys and girls clubs, by farmers institutes, good roads, automobiles, etc. The problem is to see that our schools and rural society train the boys and girls who stay on the farm because they believe it affords an opportunity for service. It is the duty of every community to enrich country life and make it worthy of the young people. Every individual has responsibility.—Farm and Ranch.

## You've hit the right tobacco

when you fire-up some Prince Albert in your old jimmy pipe or in a makin's cigarette. And you know it! Can't get in wrong with P. All day long you'll sing how glad you are you're pals with

It's an easy job to change the shape and color of unsalable brands to imitate the Prince Albert tidy red tin, but it is impossible to imitate the flavor of Prince Albert tobacco. The patented process protects that!

## CALL FOR A REPUBLICAN COUNTY CONVENTION

By the authority vested in me as County Republican Chairman of Nacogdoches County, Texas, I hereby call a Republican County Convention to be convened in the Mayor's office of the city of Nacogdoches, Texas, at 1 o'clock p. m. on Saturday April 15th, 1916.

All presents are hereby notified to elect on such dates as may suit their convenience such delegates as they may desire and also such alternates as they may elect to said County Convention.

Each precinct is entitled to one vote in said Convention but they may elect such number of delegates and alternates as they may see fit but under the laws of the State of Texas no precinct in Nacogdoches County is entitled to more than one vote in the County Convention.

The County Convention will be called promptly at 1 o'clock p. m. on said date for the purpose of electing delegates and alternates to the Congressional and State Conventions.

I sincerely hope that every precinct will have at least one delegate and one alternate at the said convention.

G. W. EASON, Chairman Nacogdoches County, Texas.

## VALUABLE COTTON SEED.

Jas. D. Greer, county demonstration agent, has originated a variety of cotton which brought \$15 per bale more than other varieties last season, and to encourage the farmers in growing the better variety he has divided up the seed with the four commissioners beats of the county, to be given to the farmers in small lots that they may get a start with it. The consignment for Nacogdoches precinct has been left with Mr. McNeess at the Station where farmers who want them may call and be supplied with an allowance.

This is a very patriotic move on the part of Mr. Greer, and the farmers will doubtless appreciate it.

Dr. and Mrs. Henderson are entertaining a fine, new baby boy.

In 1888 James E. Ferguson was a bell boy in a Denver hotel and also a waiter in a Denver restaurant. He must have been a good waiter, one who always hurried an order for "ham and" and never spilled hot coffee on a guest—we know this because it is a matter of record that he once received a ten-dollar tip from a prize fighter. Slow, slovenly service is never rewarded by such princely tips. Twenty six years later we find James E. Ferguson rich and Governor of the greatest state in the union. Don't cuss your luck, boys, because you haven't a bank account and a "high-up" job. There's a chance for all in this great democracy of ours. The kid who shines a fellow's shoes today may, twenty years hence, sign a pardon that will release the same fellow from the penitentiary.—J. H. Lowery..

## Young Man, Young Woman, Be a Chin Upper

You do just four things and no more. You think; you remember; you imagine; you act. When you learn to think better, remember better, imagine better or act better, you are increasing your efficiency, and, therefore your income. Our way feel you are very successful now. Suppose you are; it isn't a question of what you know, but of how beneficial a practical business education will be to you in addition to what you already know. Did you ever stop to think that eighty-five per cent of the men of this country are only earning \$15 per week or less? That ninety-two per cent fail in business between the age of 40 and 50? That ninety-five per cent have no money at the age of 60? You will agree with us that to violate a part of the laws of business means partial failure, and to violate all the laws means complete failure. You are also aware that to observe part of the laws of business means partial success, and to observe all of the laws of business means complete success. Our aim is to help you observe a higher per cent of the laws of success, and therefore, enable you to be nearer the maximum success. The late Prof. James, of Harvard declares that

the average man only uses ten per cent of his brain power. Suppose you are twice as capable as the average man? Even that would mean that you are only using twenty per cent of your maximum possibilities. The purpose of our course is to produce a maximum of proficiency with a minimum effort. The business world wants thinkers and doers. There's a famine of high priced men today; there are thousands of men worth a thousand dollars a year, but only a few worth ten thousand a year. Be the latter kind of man, you can if you will. We know that a man is worth only about \$2.00 a day from the chin down, selling muscle, but as high as a hundred thousand dollars a year from the chin up, selling brains. Be a chin upper and sell the higher type of brains; you can't afford to be a chin downer; there's no room for such a man in the high salaried class. We have been marvelously successful in raising salaries, as is conclusively proven by the letters in our catalogue from former students. Take our thorough practical course of Bookkeeping, Business Administration and Finance, Shorthand Stenotypwriting, Cotton Classing, or Telegraphy. Learn how to think, to remember, to imagine and act. Our large catalogue is free for the asking, if you will only fill in and mail the following blank giving your name and address.

### TRUSTEE ELECTION.

Only forty-six votes were polled in the election for three trustees for Nacogdoches Independent School District, held Saturday, but the verdict was unanimous, so far as expressed, each name receiving the same number of votes.

The gentlemen elected for these positions are C. A. Hodges, W. S. Beeson and R. C. Monk.

J. P. Blanton of Melrose was a pleasant caller at the office yesterday afternoon, and while in told us of a narrow escape his mother had in this city Sunday afternoon. While driving a horse hitched to a buggy, the animal became frightened at an automobile and wheeled around, throwing her out of the buggy, but fortunately did not hurt her seriously. A little girl was riding in the buggy with her, but she, too, escaped injury. The horse was stopped before running far and what was an exciting experience for all concerned did not result in much injury.

A prudent mother is always on the lookout for symptoms of worms in her children. Pale-ness, lack of interest in play, and peevishness is the signal for WHITE'S CREAM VERMIFUGE. A few doses of this excellent remedy puts an end to the worms and the child soon acts naturally. Price 25c per bottle. Sold by all Druggists.

### AMERICAN TROOPS PUT VILLA TO FLIGHT

Colonel Dodd With a Small Detachment of Soldiers Engaged Bandit in Fight.

San Antonio, Texas, March 31—Villa's force, estimated at five hundred, was severely defeated at Guerro on March 29 by Colonel Dodd, according to a report from General Pershing to General Funston sent from the Son Geronimo ranch.

The Villa loss was placed at thirty killed and the Americans at four wounded. Among the Villa wounded was an officer named Pablo Lopez, who led the band that murdered seventeen Americans at Santa Ysabel, and who afterwards was erroneously reported killed in the fight at Columbus.

General Eliseo Fernandez was among the Villa dead.

None of the American wounded was seriously injured.

Villa was not present at the fight. General Pershing said that what was regarded as confirmation of the report that he was suffering from a broken leg had been received. His exact whereabouts had not been learned.

Colonel Dodd led his Seventh and Tenth cavalry in a smashing ride from the north towards Guerro when he learned of the presence there of the Villa force, covering the fifty-five miles intervening in seventeen hours. General Pershing said that he arrived there at six o'clock, going to action immediately, but whether it was six o'clock in the morning or in the afternoon the report did not indicate.

It was a complete surprise to the Villa force which had entered in a celebration of its victory over the Carranza garrison the day before. Soon after the action began the Mexicans were breaking for cover and beginning to disappear along the trails that lead to the mountains north-east of the railway. For ten miles the running fight that began at Guerro was continued, and abandoned only when the division of the retreating force into small bodies made pursuit impossible.

Colonel Dodd reported that he had captured two machine guns and a considerable number of saddles and rifles. The fleeing bandits left behind several of Carranza's soldiers who said they had been held by Villa for execution. They were released by the Americans.

General Pershing said that it was not improbable that Villa would endeavor to reassemble his force somewhere along the head waters of the Santa Marie River. He is moving his forces in such manner as to prevent if possible new concentration or to reengage any force that does make a stand. He regarded as probable the elimination from active developments of Villa for some time on account of his injured leg.

### NACOGDOCHES TRADITIONS

The fact that trees are of such importance to human happiness is not always appreciated. Their utility in building is recognized by the manufacturers of lumber. Their beauty is highly regarded by admirers of nature, and by lovers of civic adornment, and their value is rated high by fruit dealers.

Trees are rated in many degrees, for varied purposes and reasons. But yet, trees are not overrated, and they are not generally credited with their true value.

Trees are mentioned in holy writ in divers places and connections. In Genesis the tree of life and the tree of knowledge are symbolically named. Again, the Savior spoke of the vine and fig tree, and the tree that bore no fruit, and so on. The poet wrote "The Trees Were God's First Temples." The sainted Mrs. Mary Dana Shindler, remembered and loved by all the old-timers of Nacogdoches, herself a most accomplished writer and poet, wrote:

Plant ye a tree that shall wave over me

When I am gone,  
When I am gone.

This was the first verse of a song that was designed and used as her funeral dirge.

Our lamented native Texan, Governor James S. Hogg, left a dying request that his grave should be marked by a pecan tree and a walnut tree, doubly suggestive of utility and memorial sentiment.

A writer in a late number of Holland's Magazine, under the heading: "Memorial Trees For Highways," states many forcible facts and one of these is that George Washington set out an elm in the capitol grounds at Washington, which is now more than a century old, and has become as noted as the fable of his cherry tree.

The noted Liberty Elm of Nacogdoches is gone, but its memory and name are perpetuated by the W. O. W. Liberty Elm Camp of Nacogdoches. It figured as the center and shelter of numerous noted local historical events.

It was "a thing of beauty and a joy forever." There are others here like it in form but not in spirit.

The planting of trees as memorials and landmarks, to say the least, can not be too strongly advocated. For illustration of the civic effect that could be thus advanced, how would our pretty North street look if there were a row of fine pecan trees growing on both sides of it from the court house out to any limit, north or south?

Or how would a regular row of big pecan trees show up along Main street, east and west, ascending the grand hills and crossing the picturesque valleys away out into the country and extending on indefinitely?

If one man who owns land along the public road would start the move the next man would more than likely join in, then another, and so on, until all would be in line. Try it and see. Use any tree preferred. An uncommon tree would attract more interest and attention than a familiar one. How many live oak trees are there in this county? Is there a mesquite or buisache? But these are too scrubby. The pecan is large, sturdy, fruitful and beautiful.

The marking of the famous old San Antonio road called The King's Highway with stone monuments at every prominent point and at every five miles is well enough as far as it goes, but trees planted along the line would add to the effect. Judicious selections and locations are important, but anyway beats none.

# TAKES THE PLACE OF DANGEROUS CALOMEL

New Discovery! Dodson's Liver Tone Acts Like Calomel But Doesn't Grip, Salivate or Make You Sick—Don't Lose a Day's Work—Harmless Liver Medicine for Men, Women, Children—Read Guarantee!

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes in contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated, or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight. Here's my guarantee—Go to any drug store and get a 50-cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you

right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine, entirely vegetable, therefore it can not salivate or make you sick.

I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

### est coming generations.

In the old city of Mexico, which was there long before a white man ever trod the soil of America, there are two noted trees that are very sacredly preserved and observed by the people, as objects of interest that are shown to tourists, and their history is enchanting. One is a huge cypress tree, called the tree of Montezuma, at the foot of the mount called Chapultepec, the "white house" and the "west point" of "The City" on which the ill fated Montezuma had a residence. Another is called "The Tree of Noche Triste," the tree of the sad night, because Cortez spent one night under it after he was vanquished by Montezuma. Such trees are memorials of endless interest for future generations. They are examples to emulate.

Battlefields and historic roads and land points that witnessed events that are never to be forgotten should be marked, by stones and also by significant trees.

Deafness Cannot Be Cured. by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

### NEGRO LYNCHED.

Idabel, Okla., April 3.—At the conclusion of testimony at the preliminary hearing of Oscar Martin, negro, charged with assault, a mob of 500 stormed the court room, seized the prisoner and hanged him from a back balcony at 11 a. m. today.

Ineffectual attempts to seize the negro had been previously made.

Martin was arrested Friday in connection with assault on Edna Murphey, 13, of a mill employe at Bismark.

The lynching happened during a lull in the preliminary hearing before Justice Williams. All evidence had been put in and the court was engaged in reviewing it at the time the rush upon the court room was made.

### Spring.

Spring is looked upon by many as the most delightful season of the year, but this cannot be said by the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere.

Governor Ferguson has given out a statement to the effect that he will go before the convention and fight for the senatorial runoff law, intimating that he believes it is being strangled by the politicians rather than any inconvenience it might impose.

### Watch Child's Cough.

Colds, running of nose, continued irritation of the mucous membrane if neglected may mean Catarrh later. Don't take the chances—do something for your child! Children will not take every medicine, but they will take Dr. King's New Discovery and without bribing or teasing. It's a sweet pleasant Tar Syrup and so effective. Just laxative enough to eliminate the waste poisons. Almost the first dose helps. Always prepared, no mixing or fussing. Just ask your druggist for Dr. King's New Discovery. It will safeguard your child against serious ailments resulting from colds.

### TELEPHONE COMPANY PAYS BIG TAX

John C. Casler, president of the Dallas Automatic Telephone Company, called at the office of City Finance Commissioner Manning B. Shannon yesterday and turned over to him a check for \$9,568.66, covering the annual gross receipt tax paid by the company.

This is the only public service corporation paying a gross

receipts tax to the city. In addition to the tax, by the terms of its franchise, the company furnishes the city sixty-three free telephones, allows use of its poles for the police and fire signal system wires and pays other considerations, aggregating a total of \$50,000 per year.—Dallas News.

### Why Constipation Injures.

The bowels are the natural sewerage system of the body. When they become obstructed by constipation a part of the poisonous matter which they should carry off is absorbed into the system, making you feel dull and stupid, and interfering with the digestion and assimilation of food. This condition is quickly relieved by Chamberlain's Tablets. Obtainable everywhere. dw

DRILL NEW WELL  
AT HUNTINGTON

Mr. A. G. Lesterjette, the well known driller who has been engaged in drilling wells at Huntington for some months in the hope of bringing in an oil well, was in the city today, and while here informed The Sentinel that he had succeeded in organizing a new company with Dr. Falvy of Postoria and Dr. Falvy of Humble, giving him plenty of means with which to go ahead in the drilling of a new well, which he will start next week.

Speaking of the field, Mr. Lesterjette says that he struck a good oil showing in his former well, which he is confident could have been developed as a good producer, but was so anxious to get a gusher he drilled on and struck a flow of water which he could not control. In his new adventure he expects to develop every showing as he comes to it, and is very optimistic in the belief that he will bring in a good oil field at Huntington.

Mr. Lesterjette has been very enthusiastic in the belief that oil in paying quantities abounds in East Texas, proving his faith in continued effort to develop a well, and his friends in the city trust that he may yet be richly rewarded.

It is the history of most new fields and new drillers that many wells have to be put down before a paying well is finally brought in. Mr. Lesterjette has exercised great perseverance, and you do not talk with him long before you are convinced that he is not "all in" yet.

Come to see us, we have something to show you.

O. M. GIBBS, Editor

The dispatches announce that more troops will be sent into Mexico, from which it is inferred that Uncle Sam anticipates more service before reaching the object which attracted him thence.

Col. Bailey of the Houston Post utters a great truth in the statement that "the men who make it a practice to lay all their misfortunes in the Lord rarely give the Lord credit for the blessings they enjoy."

In perusing the columns of the Lufkin Daily News this morning we glean the information that the district court is in session, likewise the grand jury, and that the editor of the aforesaid paper is a good fisherman. Of course, this is a synopsis of different reports, and have no bearing to each other further than they occupy in filling up the day's paper.

A report was sent out from Lufkin a few days ago to the effect that a negro, nearly one hundred years old, had extinguished the fire in a burning bridge, which had already burned several ties and bent rail with the heat. The vessel employed with which to carry water to the flames was a bait can. This last explanation was too much for the "fire editor" of the Lufkin News who brands it as an "April fool" report.

Col. Cecil A. Lyon, a prominent politician of republican persuasion in Texas, is dead at Sherman where he had been dangerously ill some days. In the death of Col. Lyon the republican party has lost one of its most active and efficient members in this state. He was a great admirer of Roosevelt, and was lined up with the Bull Moose faction last year, but that wing of the party now being practically dead, he would doubtless have marshalled his forces back into republican ranks. Col. Lyon was also a scholarly, polished gentleman, and prominent in the business affairs of the state.

An intelligent farmer remarked to this writer the other day that the average man has not yet realized the terrible condition of agriculture in the South. He contended that any system of farming that required mortgages to the extent existing among the farmers of this country is contrary to sound economics; that no business is solvent whose existence is due to mortgages; that no merchantile or banking business is safe conducted on the principle which obtains on a majority of the farms; that credit is indispensable in the commercial world and that it is wise to use it on the farm as the wise merchant uses it, but when it is the only condition upon which a business exists is dangerous; that it should be used as a profit maker and not as the sole support of the business; that no farmer should borrow money at the bank or use credit at the store except for profit, and not for existence. He stated that calamities unforeseen might force exceptions to this rule.—Col. Milner in Rusk County News.

This from the Nacogdoches Sentinel: "A promoter is working east Texas, organizing the towns into development companies and collecting fee with which it is proposed to advertise the particular section in a certain bureau and in motion picture slides in the east. Such advertising

profits only the promoter and the town that invests in it throws its money away. A list of prospective buyers can be obtained from the railroads at any time, to which individual advertising, which would be far more effective, can be sent direct, or space can be contracted for advertising in groups of papers, wherever desired, at a very low rate." The money that has been thrown away on worthless advertising and other schemes by the people of Texas would have built a railroad from the Red river to the gulf. Supposedly good business men who could not in any circumstances be induced to invest a dollar in a local industrial enterprise seem to have a mania for handing money to every sooth-tongued itinerant "promoter" who approaches them, no matter how transparently "fakey" his scheme may be. It seems impossible for them to realize that the best way to advertise a town is with products turned-out by local factories, and that the most profitable use they could make of their loose change would be to drop it into a fund to be used in helping along struggling local industries or contribute it with a view of making up capital for new ones.—Beaumont Enterprise.

## THE HELP APPRECIATED.

Miss Jane B. Cushman, one of the contestants in the Houston Chronicle contest, writes the Nacogdoches party who is assisting her a beautiful letter of appreciation.

The help being extended unsolicited, and from a town she knew nothing of, makes it doubly interesting to her, and makes her doubly anxious to win.

Votes mailed to 201, S. P. Building will reach her.

# INDUSTRY IS SUFFERING FROM LEGAL BLACKMAIL

GOVERNMENT HARKING BACK TO TORTURE-RACK METHODS.

Legal Trusts Have Texas By the Throat.

(Editor's Note—The following is the fourth of a series of articles by J. S. Cullinan, Chairman of the Texas Economic League, on the Administration of Justice, to which subject the League is now addressing itself.)

By J. S. Cullinan.

There is scarcely a business of any proportion in Texas that has not felt the blight of legal blackmail in one of its many forms. Many good citizens as ever lived in this or any other State have plead guilty to business crimes and paid fines. Most of these citizens were as honest as the members of the Legislature who placed the laws upon the statute books, as capable of understanding right as the lawyers who wrote their confession, and as conscientious as the government officials who interpreted the law and imposed the fines. There is no greater tragedy in civilization than for an innocent man to confess guilt in order to escape prison or for a good citizen to pay his government a ransom in order to save his property from confiscation, and a government that tolerates such a procedure will soon wither and die, and it deserves to do so. A man who is a thief ought to be sent to jail and a business that is dishonestly conducted ought to be destroyed. But honesty should never be penalized by law, and a government that does so is organized anarchy, and the men responsible for such a condition are incompetent servants and undesirable citizens.

The methods of torturing people into a confession of guilt were tried out in the Thirteenth and Fourteenth Centuries, when the thumb-screw and pillory were instruments of law, and the records of that day show that almost every one whose flesh was peeled or whose bones were bent by these legal influences confessed to nearly any crime demanded, and one public official in the Fourteenth Century advanced as a reason why he should retain office, that he had wrung nine thousand confessions from as many suspects. These legal implements, reinforced by the torch were used in a limited way in this country until prohibited by Congress in 1839. They have been condemned as unfair, inhuman and criminal, and ought not to be revived either through ignorance, accident or design in any disguised form today. The substitution of the laws' delay for the thumb-screw, and the threat of tremendous penalties for the pillory bring about the same sort of pain to property as these torture racks visited upon the people in the days of the Spanish Inquisition, and will as quickly produce confessions, equally as horrible.

A Citizen's Duty.

Texas never faced a more serious situation. There is no escaping the conclusion that either the business fabric of this State is rotten, legal counsel immoral, or government is tyrannical. It is for the people to determine where the evil lies.

I fully realize that a large per cent of the leading business men of Texas stand before the world today confessed outlaws, and a few of them justly so, for the per cent of delinquents in business is no less than that of any other class, but I do not believe it is any greater. It is not my purpose to pass upon the guilt or innocence of business convicts; those who prefer to wear stripes have my permission to do so. The League's only concern is in the system of Administration of Justice that enforces and tolerates injustice. The subject is a monumental one, and no one mind can hope to fully grasp it. Having had considerable experience in business affairs, and having been instrumental in bringing to the State considerable capital, I have formed very definite opinions and I shall now present one of the causes which has seriously impressed me as contributing largely toward defeating Justice.

Lawyers Strangle Industry.

In my opinion the business interests of this State have been victimized by a ring of corporation attorneys and politicians. To be more specific, some of the leading corporation lawyers have Texas by the throat, and are strangling the life out of industry and of government, and menacing the liberties of the people. It is not the corporations or the business men, but dishonest and ambitious lawyers who are throwing society into convulsions and threatening the life of the nation. In this conclusion, I am sure I have the endorsement of the worthy members of the bar who feel keenly the reproach brought upon their profession by the immoral conduct of their disreputable brethren. The professional ethics which some of the leading corporation attorneys, who have formed legal trusts, practice, are reflected throughout almost the entire legal profession, and the merchant, the farmer and the laborer who come in contact with the law oftentimes get a taste of what some of the large corporations must put up with all the time, but the legal ethics are made by the men at the top—not at the bottom—and to correct the evils we must begin with the "higher ups."

In a future article I shall endeavor to expose some of the methods which these powerful law firms employ in their dealings with their clients, the people and with government.

**TIMPSON HAS A BROOM FACTORY**

If the theory is correct that "a new broom sweeps clean," Timpson, our neighbor up the line, ought to be a clean town now. Following report of a new broom factory in that town is taken from yesterday's issue of the Timpson Times:

Perhaps you have heard the "pop-pop" of a gasoline engine in the Hairston building on South First street lately, if not listen for it—it sounds good. In this building is located the Timpson Broom Factory, an industry that is growing by leaps and bounds. New machinery has been added to the amount of several hundred dollars, and in the very near future Timpson will have a broom manufacturing plant equal to any in the state of Texas. With the new and modern machinery

**TREASURER'S QUARTERLY REPORT**

IN THE MATTER OF COUNTY FINANCES IN THE HANDS OF JNO. C. FALL, TREASURER OF NACOGDOCHES COUNTY, TEXAS.

WE, THE UNDERSIGNED, as County Commissioners with and for said Nacogdoches County, and the Hon. J. F. Ferritte, County Judge of said Nacogdoches County, constituting the entire Commissioners' Court of said County, and each one of us, do hereby certify that on this, the 14th day of March, A. D. 1916, at a regular quarterly term of our said Court, we have compared and examined the quarterly report of Jno. C. Fall, Treasurer of Nacogdoches County, Texas, for the quarter beginning on the 8th day of November, A. D. 1915, and ending on the 28th day of February, A. D. 1916, and finding the same correct have caused an order to be entered upon the minutes of the Commissioners' Court of Nacogdoches County, stating the approval of said Treasurer's Report by our said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since his last report to this Court, and for and during the time covered by his present report, and the balance of each fund remaining in said Treasurer's hands on the said 28th day of February, A. D. 1916, and have ordered the proper credits to be made in the accounts of the said County Treasurer, in accordance with said order as required by Article 367, Chapter 1, Title XXV, of the Revised Statutes of Texas, as amended by an Act of the Twenty-fifth Legislature of Texas, at its regular session, approved March 20, 1897.

And we, each of us, further certify that we have actually and fully inspected and counted all the actual cash and assets in hands of said Treasurer belonging to Nacogdoches County at the close of the examination of said Treasurer's Report, on this the 14th day of March, A. D. 1916, and find the same to be as follows, to-wit:

**DEATH AT LINN FLAT.**

Mr. J. R. Cunningham died at the home of Hugh Weatherly, a relative, at Linn Flat at 2:00 o'clock yesterday, and his remains will be laid to rest in the cemetery at that place this afternoon. Mr. Cunningham was a son of Dr. and Mrs. Cunningham, pioneer

settlers of the Linn Flat community, and was about forty eight years of age. He was never married, and leaves no family, but has many relatives and who are made sad with his death. He was a good man and a good citizen and enjoyed the respect and esteem of all who knew him.

J. M. Koonce of the Swift community called in to see us today and had his name added to the large family of Sentinel readers in his community.

## HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equaled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way.

If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion to-day. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

## TWO BOOTLEGGERS AND ONE FORGER

Two paries charged with unlawfully selling whiskey and one charged with forging endorsement to a check have been arrested by Nacogdoches County officers during the past few days. Saturday Constable Perritte of Chireno caught a man named Louis Davis of San Augustine county, and brought him to jail here charged with selling whiskey in that town. It is charged that Davis had been coming to Chireno to ply this illicit vocation for some time, and the county attorney assisted in laying a trap for him Saturday which proved effective.

On the same day County Attorney Wade and Constable Burrows caught Frank Whitmore and landed him in jail on the same charge. He, too, was watched and is said to have been caught in the act. Both these parties are white men, and were still in jail this morning.

Yesterday Sheriff Spradley picked up Robert Rhodes a young negro, who is charged with forging an endorsement of a name to a check. He had an examining trial this morning and was bound over to the grand jury in \$300 bond.

## ENGLISH ON FIRE PREVENTION.

Spasmodic efforts at reform immediately following disasters and conflagrations, such as have recently occurred in Texas, are not sufficient to place our house permanently in order for the prevention of similar visitations. Each city and town in Texas should adopt and rigidly enforce a building law prohibiting the erection of combustible structures, particularly in or adjacent to the heavy value districts, and one that will permanently banish from the corporate limits the tin and brick-on-edge flue, and the wooden shingle roof—State Fire Marshall English.

## FARM FINANCE FACTS.

The farmers of Texas borrow approximately \$80,000,000 per annum, chattel and other forms of credit, and the land mortgages total \$225,000,000.

The farmers of Texas pay for the use of money approximately \$55,000,000 per annum.

One-third of the farm lands of Texas are mortgaged and one-half the growing crops are encumbered.

The tenant farmers of Texas pay \$60 each per annum for credit, over the customary interest rate.

There are 39,000 farms in the State that are rented on the basis of a third and a fourth by speculators, and bonuses are charged the tenants—Texas Farmers Union Estimates.

"The Anvil" is the name of a new magazine which has made its appearance among Texas publications. The magazine is the official organ of the Texas Economic League and will be used as a medium of discussion of all subjects which come before that body for consideration. The initial number is devoted to a series of discussions on Citizenship, Administration of Justice and Preparedness by men of State and National reputation and other subjects of economic importance will be taken up in future issues of the publication.

## VILLA'S MOVEMENTS PUZZLE PERSHING

Track of the Sly Bandit Seems to Have Been Lost, and it is Denied He is Wounded.

San Antonio, Texas, April 2.—Unless Francisco Villa is definitely located within the next day or two it is believed here that General Pershing will begin a dogged search for him in the mountains west and south of Guerro. Since the defeat of Villa's force March 29 in and near Guerro, he has lightly equipped mobile detachments of cavalry sweeping whirlwind fashion through the district about the headwaters of the Santa Maria river in efforts to locate the elusive bandit reported to have gone in that direction after being desperately wounded.

General Pershing did not get a report through to General Funston today, but his chief of staff reported, indicating that the line of communication was maintained, and no mention of news of Villa was made.

There is increasing belief that General Pershing may have been deceived in regard to the direction taken by Villa and even concerning his injuries. Some information taken by Villa and even concerning his injuries. Some information has been received indicating that he was not injured at all and that instead of going northwest of Guerro he had moved into the hills to the south and east, a direction army officers had expected him to take.

## VISITED OIL FIELD.

Messrs. Taylor Nichols, Turney Rusche, J. M. Weeks, L. M. Senac, Carl Monk, T. L. Cornelius of this city, and J. C. Nelson, who has been visiting in the city some days, and possibly others whose names we did not get, took advantage of the excursion rates and visited the big oil field at Humble Sunday.

Messrs. Nichols, Senac and Monk went on over to Houston as guests of Mr. Nelson, and report a most enjoyable trip.

The visitors were charmed with the evidence of industry and life they saw in evidence in Humble. Hundreds of drills are in operation continuously—day and night, and Sunday too—and new wells are constantly being brought in there. Hundreds of prospectors are constantly in attendance, and with the bringing in of each new well a thrill of joy is in evidence. One of the visitors says his attention was called to one spot of land on which seven good producers were brought in out of eight holes drilled.

Some of the visitors also inspected the proposition being offered to people of this community by Mr. Nelson and found it just as he represents, the land being located near producing wells.

MORT REPRIMANDED. San Antonio, Texas, April 3.—After reviewing the papers in the case of Lieutenant Mort, who was tried by court-martial on charges arising from his leading two junior officers and a small detachment of enlisted men across the Rio Grande into Mexico near Brownsville to recover two soldiers who had been detained by Mexicans on the south bank of the river, General Funston announced that Lieutenant Mort had been found guilty and sentenced to be reprimanded.

He will be released at once and restored to duty. He is now held at Mercedes, Texas, but has been ordered transferred to the Second Field Artillery, now in the Philippines.

P. H. Belzer, an experienced tailor of Paris, Texas, has taken a position with the City Tailors.

## HUSBAND SUFFERED.

Dear Editor: "I sent for a box of Dr. Pierce's 'Anurie' Tablets for my husband, and he has been greatly benefited by them. He suffered from lame back and weak kidneys, kidney excretions being too frequent. After giving 'Anurie' a trial we are convinced that it is the best kidney medicine made. Will be glad to recommend it." (Signed) Mrs. E. D. MIXER.

Note.—Dr. Pierce, who is director and chief physician at the Invalids' Hotel, and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers from rheumatism, lumbago, etc., has been so satisfactory that he determined to place "Anurie" with the principal druggists. "Anurie" is not harmful or poisonous, but aids Nature in throwing off those poisons which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia. Send 10 cents for large trial package.

## WOOTUS SMITH DEAD.

A. H. (Dock) Smith of the firm of Swift Bros. & Smith, received a message Saturday night announcing that his brother, Wootus Smith, was dangerously ill at Crockett, and left at once for his bedside. A later message came announcing the death of the sick man.

Mr. Smith made his home in this city for a number of years, during which time he was engaged as prescription clerk, in which work he is said to have been very proficient. He was also a man of pleasing personality, and made a host of friends during his sojourn with us who will be pained to hear of his death.

## COMFORTING WORDS.

Many A Nacogdoches Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Nacogdoches readers.

J. D. Roberts, farmer, 120 Bailey Ave., Nacogdoches, says: "Kidney troubles had annoyed me for six years. The kidney secretions were too frequent in passage, causing me to get up so often at night that my rest was broken. They were also highly colored and contained sediment. My back pained when I stooped or lifted and when I got up mornings, I was stiff and lame across my kidneys and found it difficult to move quickly. I took five boxes of Doan's Kidney Pills and my back was rid of the pain and my kidneys became normal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Roberts had. Foster-Milburn Co., Props., Buffalo, N. Y.

## EAST TEXAS PIONEER VISITING NACOGDOCHES

Mr. J. A. Jinkins from near Rusk arrived in the city yesterday afternoon for a visit with his son, J. P. Jinkins, and family, and has been meeting with many of the old settlers today.

Mr. Jinkins is eighty-four years of age, but is as well preserved in mind and body as men half his age. He has but very few gray hairs and wrinkles, his eyes are clear and his hearing good, and he moves about with a steady step, all exhibiting wonderful vitality for a man of his age. In commenting upon it, he says that his great age and strength is due to regular habits in life, in which he has taken things as they come, never suffering himself to worry too much, lived in the open and worked at manual labor for his living.

Mr. Jinkins came to Nacogdoches county from Alabama when seventeen years of age. He made his home in this county seven years when the country was full of Indians and wild game, and recounts many interesting incidents of pioneer life here. From Nacogdoches he moved to Cherokee county, settling seven miles from the town of Rusk where he has made his home continuously since, and where he has reared ten children of his own and fourteen orphan children.

Like all the grand old East Texas pioneers, Mr. Jinkins is a most interesting, elegant old gentleman, and we hope he will be spared to make us many more visits, and that his present sojourn with us will be one continual round of pleasure.

## Safe Medicine For Children.

"Is it safe?" is the first question to be considered when buying cough medicine for children. Chamberlain's Cough Remedy has long been a favorite with mothers of young children as it contains no opium or other narcotic, and may be given to a child as confidently as to an adult. It is pleasant to take, too, which is of great importance when a medicine must be given to young children. This remedy is most effective relieving coughs, colds, and croup. Obtainable everywhere. dw

"Some times," remarked the man on the car, "I feel that the married fellows who continually knock matrimony, instead of boosting the grand institution, are afraid that they will have to buy wedding presents for their young friends.—Toledo Blade.

A bill has been introduced in congress appropriating \$100,111 for a site and postoffice at Lufkin, which will give the inhabitants of that town something to talk about for awhile—possibly a considerable "while." A bill was introduced in congress several year ago for a postoffice in Nacogdoches, passed and the appropriation made for it, but we haven't been able to get our hands on the money, or get our mail from the new building yet.

## FUNERAL THIS AFTERNOON

From Tuesday's Daily: The remains of Mr. E. S. Baxter arrived over the H. E. & W. T. from Henderson on the noon train, accompanied by the widow and several children and friends, and will be laid to rest in the local cemetery by the Woodmen fraternity this afternoon.

Previous to his removal to Henderson, Mr. Baxter made his home in this city some years ago, at which time he was in the employ of Ireson Bros, and he is remembered by some of the old settlers as a good man and a good citizen.

Some substantial improvements have lately been made in the civic attractiveness of Kennedy's Drug Store in which a cozy department has been cut off and fitted up for lady customers of the soda fountain, new lenoleum has been placed on the floors, and the whole arrangement of the house has been put in attractive shape.

Messrs. J. L. Tibbott and J. S. Nelson of Houston have been here a day or two, offering for sale, stock in an oil company being formed for the purpose of putting down a well in proven territory in the Humble field. The new company is only wanting \$10,000 for this work, which will make it an inviting proposition, and being in proven territory where a failure is seldom recorded now, the stock is being readily taken. Mr. Nelson is a college chum of the Schmidt boys here, and has been having a good social visit with his business mission to the community. He is charmed with East Texas, and says that not many years hence this section will take its place with the leading sections of the state.

## LIFE IN THE CITY.

(Written by Oth Akin, 12 years.) We couldn't 'till tired out at noon, I couldn't reach home any too soon; Down on the table my books did flop, Down in the swing I did drop. How far away my mind did wander, Of friends and loved ones far-off yonder, To think of farmers in the fields, Of soiled men in the war trying to use their shield. While Christians are at war in the fields Boys in the city are trying to do harm, As I heard a voice say wake up For when you are wanted you are always asleep— But the worst of all it was only a dream.

## COW HIDES WANTED.

The hide market is strong and prices are high. Until further notice we will pay 14c per pound for all weight, sound, green hides branded included. We advise you to salt the hides heavily as soon as you get it. Put the hide in a sack. Write your name, address, route and box numbers on two tags. Put one tag inside of the sack and one on the outside. Ship by express to A. Golenternek & Co., Tyler, Texas. We remit the day that the shipment is received.

At prevailing high prices for hides, it will pay for every community to organize a "Fresh Beef Club" and enjoy good, fresh meat. The hide will almost bring as much as would your surplus yearling or cow.

We also handle wool at the highest market prices. Horse hides bring from \$1.50 to \$3.00 each, according to the size. We furnish shipping tags on request. A. Golenternek & Co., Tyler, Texas. 3-23tf

Indigestion nearly always disturbs the sleep more or less, and is often the cause of insomnia. Eat a light supper with little if any meat, and no milk; also take one of Chamberlain's Tablets immediately after supper, and see if you do not rest much better. Obtainable everywhere. dw

# ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 45 and had the Change of Life, a friend recommended it and it gave me such relief from my bad feelings that I took several bottles. I am now well and healthy and recommend your Compound to other ladies."

A Massachusetts Woman Writes Blackstone, Mass.—"My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well."

—Mrs. PIERRE COCHRAN, Box 239, Blackstone, Mass.  
Such warning symptoms as sense of suffocation, hot flashes, headaches, back-aches, dizziness, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

## IS HE A NACOGDOCHES MAN

The following dispatch appearing in yesterday's issue of the Dallas News couples the name of Nacogdoches with the report of a man killed by a train in Dallas, and is reproduced in this paper to the end that if he has any relatives in the county they may get the notice:

Fort Worth, Texas, April 1.—Sergeant Fant of the Central Police station said today that he is of the opinion that the unknown white man killed in the Texas & Pacific Yards at Dallas was in Fort Worth last week. On March 25 the police investigated a man charged with trespassing on the railroad right of way. He gave his name as Tom McKnight and said he resided at Nacogdoches. He was about 30 years of age, five feet ten inches high, had dark hair and eyes and weighed about 165 pounds. He wore the garb of a laborer and told the police that he was an ironworker by trade.

## CARRANZA YIELDS

Washington, March 29.—General Carranza has agreed to permit the movement of supplies to the punitive expedition in Mexico over the Mexican Northwestern railroad. The supplies will go as commercial freight to concerns in Mexico, with which the army has contracts.

The success of the expedition depends largely on getting men and supplies behind Villa quickly and to portions of the country where the army motor trucks cannot go.

It is indicated that General Carranza has agreed to the use of the road, yielding to urgent representation of the American government in advance of the perfection of the formal protocol for joint operations.

Prof. G. M. Hale, superintendent of the school at Woden, has been in the city today visiting with relatives and friends. Prof. Hale and his co-workers are building up a great school at Woden of which the Sentinel will have a more extended report at an early date.

Judge F. B. Guinn, brother of District Judge L. D. Guinn, and a prominent attorney of Rusk, has been a business visitor to our city for the last two days. Judge Guinn, after having been shown over the city expressed great surprise and delight at the growth and advancement of Nacogdoches during the past few years.

## NACOGDOCHES TRADITIONS

Land titles in this county date back further than anywhere in Texas. Possibly San Antonio may have older deeds or land conveyances on record. The oldest land records in our county clerk's office are files of yellowed old papers called "archives." They are queer documents in form and feature. They are manuscripts written in the Spanish language with a quill pen, goose quill, called, in that language, la pluma, literally the feather or plume. The chirography itself is a wonder, because it is scholarly and graceful. The letters are quite plainly written, but some few letters of this line are not shaped like the English script.

A detailed description of these old Spanish title papers as they now appear is equal to the real object or original paper itself. In the first place a certain peculiar official form of paper was required by Spanish law to be valid. It had to be officially stamped and authenticated, and it was sold by officials who signed their names to its authentication.

And then the wording and formality of such documents was quaint and formal. One of the oldest of these archives was a title to Jose de la Bega, dated 1822. Perhaps the oldest Spanish land grant in this county is known as the Nepomuceno de la Cerda grant, dated May 2, 1792. This is a very large survey or grant of land lying southeast of town. It comes within a mile of town, and extends down to the Angelina river, which is about twelve miles southeast of town. The domicile of the original old Mexican owner was located five miles southeast of town at a spring of fine sparkling, everlasting water, near the present road to Poe. The spring became known later as the Stivers spring, and the only traveled road passed by it, and it was a luxury to people passing on hot days. The shady woods around it and the dense forest of long leaf pines of that day are now no more, but the rippling waters, like Tennyson's "The Brook," flow on forever.

Parenthetically, it is not out of place to say that the landlord of the broad wilds later moved to Louisiana in the Natchitoches section where French was the dominant lingo, and there his descendant family became frenchified into Delacoso. Some of his descendants whose Spanish name here was Garcia, pronounced Gar-see-ah, are there called Garcee. These people do not know how this occurred, or even their own ancestry. They are of high class too, and this leads to the reflection that Texas has been under six flags; the French, though Louisiana, the Spanish from Mexico, the Mexican, the Texan, the U. S., the Confederate, and the present stars and stripes. And thus the nationalities and names became mixed—and mixing in Mexico still prevails in a number of ways.

When Gil Ybarbo landed in Nacogdoches in May 1778 there was not a legal land owner in the county, nor a domicile or homestead in the county. Any person was welcome to all the world around here. The lands were public property. Some of these lands remained thus until after our civil war, even up until late in the 60's. The Orton premises were so impart, and were patented with a land certificate in the name of Fonton Fuller. There was such a tract just north of present home of W. U. Perkins on North Street. Another included Dick Hall's present home. The Sam Houston grant included the present city park on the La-Nana, and there were other vacant lands in town. But Sam

THE SOUTHWESTERN TELEGRAPH AND TELEPHONE CO. DALLAS, TEXAS

HOUSTON NEVER OWNED A HOME HERE, OR HAD A RESIDENCE IN THE WAY OF A HOME.

He was a single man and lived as much at San Augustine as at Nacogdoches until after Texas Independence in 1836.

There was a firm of men here in the 20's named Barr and Davenport, who became large land holders. They had some kind of connection with the noted old Durst family of three brothers, John, Jim, and Joe Durst, and they succeeded him as owners. They had large grants about Douglass and Linwood, known as Barr and Davenport surveys, or otherwise as the John Durst grants. John Durst lived on this side of the Angelina river and his two brothers on the west side. Linwood ought to be called Durst. The Durst crossing and Durst lake are not equal to the case. The Durst family was a ruling power in this section.

And here arises the thought of things gone by, or people of by-gone days. No one here bears the name of Durst, or Starr, a most prominent family of Roquet, Arnold Hotchkiss or Vorgt, who were the leaders of the land and the country. It seems like the irony of fate, this extension of those who figured in the long ago, and they are many. This calls to memory a verse of an old song on the famous Napoleon Bonaparte: Shade of the mighty! Where now are the legions That rushed but to conquer When thou ledst them on? Alas! they have perished in far hilly regions, And all save the fame of this triumph is gone! Though nations may combat and was thunder rattle, They heed not, they hear not, they are free from all pain; They sleep their last sleep, they have fought their last battle, No sound can awake them to glory again." ## A SUMMER RESORT FOR NACOGDOCHES

It has long been a custom for many people, who are able, to visit some summer resort and while away a vacation in amusement, to return feeling refreshed and more satisfied with the routine of home. A little vacation and little diversion is necessary in the makeup of human nature to relieve the monotony of routine and make us love life more.

To meet this demand, and save the expense of going away, Ed. Blount is working out plans that will bring a summer resort to our own community, and is building a home for himself on the premises where he can give the enterprise his personal supervision and see to it that it is conducted on a high plane where the best people, including children, may attend and be protected from anything that would be objectionable.

This new enterprise is located on the property known as the Dr. Campbell place, on Virgiana avenue. A branch has been dammed up, giving some two or three acres for a bathing pool. This pool is supported with eight strong springs which will give a constant supply of fresh, pure water. The banks have been covered with white sand, danger bars have been provided, and a rest-station has been placed in the middle of the pool over which is suspended an electric light, altogether making of it an ideal bathing and swimming pool.

On the bank of the pool is being erected a large pavillion 40x80 feet where dancing and skating may be employed as desired, and underneath this pavillion is being erected a large number of dressing rooms for the bathers. Everything connected with the enterprise will be worked out in modern style, and nothing left undone to make of it a first-class pleasure resort where those who wish may while away a few hours as they desire.

As soon as the work is finished, and everything put in shape, Mr. Blount will have an "opening day," at which time he hopes to have the people of the city visit his enterprise. Watch for his announcement.

There is a rainy day a coming, so buy your field and garden seeds and have them ready.

## SAN ANTONIO IS CONVENTION CITY

Dallas, Texas, March 31.—The democratic state committee, in session here today, selected San Antonio as the city in which the democratic state convention will be held May 23.

A settlement of the argument over the primary election of a United States senator from Texas was the principal business before the state democratic executive committee at a meeting here today. If it is found that the senatorial primary election should be held unconstitutional, as was the presidential primary election, it is probable the senatorial primary will be held on July 22.

Argument on this question occupied almost the entire morning session. The question was introduced by Chairman Paul Waples, who asked that it be discussed thoroughly and a definite program of action adopted by the committee at this time, in order not to have another committee meeting.

Calls were also issued for pre-convention meetings on May 6 and county conventions on May 9, when delegates to the state convention will be selected.

At noon adjournment of the meeting, it was decided that another session would be held at

# HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescues.

Patron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good."

Hillsboro on Friday, April 7, to thresh out the problem growing out of the senatorial primary question. All candidates United States senate from Texas will be invited to attend the meeting. Possibility of contest by republicans in the nomination of a senator under the primary form was admitted.

Our advice is buy more seed, raise more feed and not be in need.

## "CARELESSNESS" CAUSE OF FIRE AT PARIS

Austin, Texas, March 28.—In an official report submitted today on the Paris fire, State Fire Marshall Wallace English says as to the origin of the conflagration: "The fire had its origin in a frame warehouse situated in the southwestern portion of the city, and while the department's data gathered to this time would not warrant a positive statement as to the cause of the fire, it is reasonably certain that its origin will in the final summing up be traced to carelessness."

It is shown that the area covered by the burned district was 264 acres; that 1140 buildings were destroyed, 1051 of which had combustible roofs, or 73 per cent of the total number of buildings lost; 90 per cent of the buildings destroyed were of frame or ironclad construction. The total loss is estimated at from \$10,000,000 to \$14,000,000, and that the sound insurance in force will cover at least 50 per cent of the property loss sustained.

## PRISONER HANGED SELF.

Woodville, Texas, March 31.—Sheriff Young on entering jail at 2 o'clock this afternoon discovered one of his prisoners, Ivy James, hanging by the neck dead. He was in jail on suspicion of having killed another negro in Doucette several days ago. He hung himself with his leather belt, and a towel. He was found hanging to the iron cage. He no doubt was strangled to death, as the fall was not sufficient to have caused his death or break his neck.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

## HUMBLE IS BOOMING.

Houston, Texas, March 27.—Humble has doubled its population within six months, according to the conservative estimate of D. L. Lun, postmaster of the oil city. He now estimates the population at 10,000.

Hundreds of carpenters are rushing to complete buildings, while many families are compelled to live in tents until homes can be built.

Peruna**

Thousands of the best women in the world are bearing the burden of backache, headache, dragging pains, a miserable half-dead, half-alive condition, produced by chronic internal derangements. Mrs. Joseph Lacelle, 124 Glenora Ave., Ottawa East, Ontario, Canada, is one of the fair women of America who has had her experience with this sort of a burden. Her experience is similar to the multitude of other women whose letters are recorded in the "Ills of Life." A copy of this free booklet ought to be in the hands of every housewife in the United States. Read what Mrs. Lacelle says:

*"I suffered with backache, headache and dragging pains for over nine months, and nothing relieved me until I took Peruna. This medicine is by far better than any other medicine for these troubles. A few bottles relieved me of my miserable half-dead, half-alive condition. I am now in good health, have neither ache nor pain, nor have I had any for the past year. If every suffering woman would take Peruna, they would soon know its value and never be without it."*
