MARRIED IN HOUSTON.

The many friends of Mr. and Mrs. Hency C. Fuller, in Nacogdoches county, will be interested in hearing of the marriage of their eldest daughter, Miss De Eva Eddings Fuller, to Mr. Richard Charles Cade, in the city of Houston, Monday evening, February 19th, at 8:00 p. m., in the presence of a few select friends of the bride and groom. The wedding took place at the parish rectory and the ceremony was performed by Rev. Thos. J. Windham, rector of the Clemens Memorial Church.

The bride is a most estimable and accomplished young lady. The groom is a man of sterling qualities, and is a conductor of the Southern Pacific system.

There is a story concerning the bride which may be of interest to many people in Nacogdoches and Angelina counties, especially those of the Eddings family and their relatives, in the Harmony community. Twenty-two years ago when the father of the bride was teaching school at Harmony, and Eva De Ette, as her name was at that time, was six months old, she was taken seriously ill. She grew worse from day to day, and finally death seemed only an hour or so away. School was dismissed and arrangements made for the journey to Swift, and the funeral. At this juncture, "Granny" Eddings whose

PARTIN-DENNIS.

By having misplaced the date, The Sentinel has failed to note sooner the marriage of Mr. Clarence Partin, son of C. A. Partin of the Needmore community, and Miss Zodie Dennis of this city, which occurred last Sunday morning, Esq. Frank Huston officiating.

The fair bride is a daughter of

Mr. John Dennis, residing in the Western part of town, and is a lovable young lady with a large circle of friends.

CAN PAY WARRANTS.

County Treasurer W. Y. Hall authorizes The Sentinel to say that he can pay all warrants of the general fund up to date, and road and bridge warrants up to Register No. 1312.

dear name will always be cherished by those who knew her, took the dying child, went into a room with it, and by ministrations that nobody but she and God Almighty understood, gradually restored her to life and health. In honor of her memory, over what appeared to be a momentous circumstance, the parents dropped the first name of the child and gave it the name of "Eddings" as its middle name.

SHIPPERS MUST FURNISH WRITTEN ORDER

The Interstate Railroad Commission has recently made a ruling that shippers must furnish a written order for each and every car wanted, which must show kind of car, commodity to be loaded, and full routings. Heretofore the people have enjoyed the convenience of being able to call the agent up over the phone and make requisition for whatever number of cars needed, but they can't do this any longer as every agent has positive instructions to obey the order.

DEATH AT MAUL.

News has been received in the city of the death of Mrs. Edmund Hogan, Sr., which sad event occurred at her home in Maul yesterday afternoon at 2 o'clock. Her remains are being laid to rest in the Bog graveyard this afternoon, Rev. F. M. Richards officiating.

Mrs. Hogan was sixty-six years of age, and is survived by her husband. Previous to her marriage she was Miss Ida Spivey, and was reared in this county. She was a consecrated christian lady, and was loved and admired by those who knew her.

FATHER DIES.

Mr. J. W. Kennedy, proprietor of Kennedy's drug store, received a message last night announcing the death of his father at his home at Queen City, near Texarkana.

Mr. Kennedy, with his sister, little Miss Marie, left last night to be present at the funeral.

The Sentinel is informed that the old gentleman had been in failing health for some time, and his death was not unexpected.

The many friends of the surviving members of the family in this city will enter into profound sympathy with them in their hours of grief.

What is an "overt act," anyhow?

News comes up the line to the effect that chicken thieves are causing trouble in Lufkin. We refuse to believe the report.

An old brood sow, with a litter of seven pigs, properly cared for, would pay a big store account next fall.

The Sentinel has assurance that a considerable amount of nice sidewalk will be put down in Nacogdoches this spring. Bully! Let's connect the belt.

There may be some news value in the statement that today is a most beautiful specimen of spring weather, undisturbed with ground hogs or country editors.

We could make the old clothes tide over another year, but the larder must be replenished if we survive a food panic. Let us have a little more feedstuff and foodstuff, please.

A later dispatch from Austin announces that the senate has voted down the proposition to make an investigation of the official acts of Governor Ferguson, there being constitutional barriers, and the accusation being based solely upon idle rumors.

Col. Geo. Bailey of the Houston Post makes the timely observation that "no man who shortweights a customer has right to believe that he is any better than a horse thief." And he isn't stealing both his customer's confidence and his money.

The dispatches would indicate that the Mexicans are about to beat the Germans in the commission of an "overt act." In fact, the people of the neighboring republic have been a little too "overt" in their relations with the United States all along.

The sheriff of Nacogdoches County has placed an order for a pair of thoroughbred bloodhounds. Hereafter it will be a dangerous practice for Angelina County citizens to stray across the boundary line, for there is no way of telling what time one of these new dogs will pick up the trail and give them the chase of their lives.—Lufkin News.

The Sentinel is informed that the contract has been let, and work will be begun next week, in tearing away the old court house to make room for a magnificent three-story building, report of which has previously been made in this paper. This improvement, with the three-story postoffice building, will add much to the appearance of the city in the vicinity of the public square.

Elsewhere in today's paper, and for the next month, will be found an advertisement for the Holland Texas Hypotheek Bank of Port Arthur, offering to loan money on land notes, or extend old notes. This bank is as old as Port Arthur, and is principally owned by Holland investors who are bringing large sums of money from that country to this for investment. It works with a capital of \$600,000, and gives good reference for fair, square dealing, and ability to handle all satisfactory business offered it. Anyone in this section interested may write the institution direct at Port Arthur.

The Nacogdoches oil mill is now having its first experience in grinding peanuts, and is finding it a profitable occupation. About one gallon of oil is obtained with each bushel of peanuts, and since this oil is superior to cotton seed oil for all practical purposes, it is easy to reason that peanut oil has come to stay.

The little city of Marlin has a connected belt of sidewalk, extending to all parts of the city, which was financed with revenue derived from the royalty on the public hot well, the city defraying half the expense and forcing the property owners to put up the other half. Let us hope that the municipal enterprises of Nacogdoches may be able to give us some help and follow the good example in the near future.

A citizen inquires of the writer why Uncle Sam withdraws relations from Germany for trespass upon our nation honor and still allows Mexico to heap indignities upon us, and murder American citizens. While the legislature is in session, and ambitious members are looking for every "worthy" cause with which to make a "bill" and immortalize themselves, we suggest that an "embargo" be put on questions in these troublesome times.

The mud slinger on the Nacogdoches Sentinel has a grouch. He's all peeved up because this Thinkographer reported that the Sentinel reported that a fellow went into a Nacogdoches drug store to buy a soup bone. He very vehemently denies the report. We'll transfer the effect of the squib to Lufkin, because we believe that Lively will be willing to admit that Lufkin has a drug store. Rack!—Port Arthur Record.

Since you have to send the "morsel" away from home for accommodation, Lufkin is welcome to it. Will you be good?

When every farmer in the South shall eat bread from his own fields and meat from his own pastures, and disturbed by no creditor and enslaved by no debt, shall sit amid his teeming gardens and orchards, and vineyards and dairies, and barnyards pitching his crops in his own wisdom and growing them in independence, making cotton his clean surplus, and selling at his own time, and in his chosen market, and not at a master's bidding, getting his pay in cash and not in a receipted mortgage that discharges his debt, but does not restore his freedom, then shall be breaking the fullness of our day.—Henry W. Grady.

Speaking of the weather, how did this morning suit you? Wasn't it about the "bummest" stroke upon the part of the weather man that you ever saw? To tell the truth, conditions were such that even a snow was averted, although for hours it seemed that nothing else would serve the purpose. Perhaps the weather man will untangle his wires by tomorrow and come to himself; but it is a settled fact that he has things in a demoralized condition today. Even the editor of the Nacogdoches Sentinel will no doubt agree to this statement without argument.—Lufkin News.

Yes, we remember, but the sun is shining brightly this morning, the birds are singing and the "goose is hanging high." Let us again take hope.

Nacogdoches will have a potato curing plant sufficient for the needs of this section, full report of which will be gathered for tomorrow's paper. Increase your sweet potato acreage.

STATE RUNS WILD ON LAWS, SAYS W. B. SCOTT

"I have never been quite able to understand why every session of the Texas legislature is more or less characterized by pronounced anti-railroad measures, either attempted, or passed by our lawmakers," said President W. B. Scott of the Southern Pacific lines in an interview yesterday.

"One would imagine," he continued "that sooner or later there would be a cessation of these attempts and the Texas roads permitted to develop their earnings and their possibilities without the unfortunate hindrances which are frequently interposed between the management of the properties and the fulfillment of their obligations to the people.

"It is safe to say that the railroads are endeavoring to serve their patrons honestly and efficiently, and at the same time look out for the welfare of their thousands of employees. Large sums are annually being spent in both directions, and particularly in the direction of making operation safe and regular, and in providing adequate facilities for the handling of business. Shops and terminals are being extended; tracks ballasted; heavy rail taking the place of light; new steel cars added to our equipment, and other needed improvement provided wherever possible.

"The Texas lines from 1907 until quite recently have had difficulty in making both ends meet. The courts are operating several important lines today, and few others are quite in position to lay just claim to a profitable operation. We have hopes that the abnormal conditions which have restricted earnings for nearly 10 years will give way permanently to progress and prosperity as to the transportation lines, but the present is no definite index as to what the future will bring forth.

"The railroads of the state are entitled to, and should have, the friendly co-operation of the public. There is no demand on the part of the people for the legislation I have referred to. Then why should our lawmakers give heed to the few organized legislative boards of lobbies and put up for passage measures which, while not reflecting either the demands nor interests of the whole people, make successful operation by the carriers difficult, distasteful and for the benefit of the few, and these few, largely augmented from the ranks of the very few men whose future is indissolubly bound up in the success of the roads, yet who are striving by every means at their command to add to their individual profit or comfort at the expense of everybody?

"Again, there is no necessity nor demand for the passage of laws which are designed to punish the roads for doing what they are compelled to do. Frequently the lines, and this largely in the matter of rate adjustments, are between the devil and the deep sea. They are damned if they do and damned if they don't. Public duty is overthrown because of personal resentment and the roads threatened with punishment because they are trying to conserve their constantly reducing net earnings and to carry out their obligations to the public at the same time.

"At present there is before the legislature, among others, the following railroad measures: Blacklist law; car shed bill; a bill requiring the roads to give 15 days notice before reducing shop forces; another providing an eight-hour day for track men; one providing four days' rest for telegraphers; a bill requiring crossing bells at all grade crossings; limiting length of trains;

forcing standards for shops and factories; prohibiting the breaking up of strikes in industries. "And then the Hudspeth measure which provides that the railroads may be taken from the possession of their owners, and their charters forfeited if they fail to carry out the mandates of the Texas commission, although believed to be invalid and in advance of their validity being determined by the courts.

"This very dangerous measure takes away the right of eminent domain and the right to borrow money. Receivers may be appointed and take charge of railroads without notice and in any county, and the right of appeal to the Texas courts denied.

"I do not believe the people of Texas are in sympathy with this character of legislation, and I hope their voice will be raised vigorously against their passage after they have investigated the provisions of the several bills. The railroads have some right to the sympathy and support of the public and I believe will get it."—From the Houston Chronicle, February 11th.

THAT LUFKIN EDITOR.

The Sentinel will frankly admit this morning, that the hardest job it ever tackled is keeping that Lufkin editor, who is known all over East Texas and some parts of Arkansas, as Doc Lively.

Like the eel he is, he will twist out when one gets him securely fastened, and show up in a new place, grabbing at a new "bait."

In the following paragraph, coupled with the treachery of the weather, he puts The Sentinel out of business in further discussion of the "ground hog," and for the sake of peace we will submit. Listen to the imp:

"The editor of The Sentinel is in better position to name the party who made the 'mistake' than any one we know of, after a careful checking of the list of weather prognosticators. If he is the man we think he is, he will 'back up' and disown any knowledge of 'ground hog day'—present, past and future."

Neither will he submit to being carefully "stored away" in the basement of our new post-office in times of wrath, making the following exactions for his patronage of the institution:

"The Timpson editor may be depended upon to manage his own affairs; as for the postoffice editor of The News, he refuses to be stored away in the basement of any building, but would not mind walking about in the corridors, and on the verandas outside, more especially if band music will be furnished out on the lawn; and an occasional sandwich served by the ladies to appease the appetite. There now!"

These two objections and modifications would seem enough for one day—but it is not all. The nerve of the man seems to have no limit, and it is now apparent that there is no compromise or anything "neutral" in his makeup. We are also impressed with the potent fact that he is suffering with a serious impairment of vision, to which all Nacogdoches people will agree when they read the following "overflow" of home zeal exposition:

"Your surcease from pain, brother, is of but short duration. Now that the rush of advertising is out of the way, we again assert that 'Lufkin is THE best town in East Texas,' and can prove it any day in the year, to any living man, be he, from New York, Nacogdoches or some place in Arkansas. With the admission that he is one of the "old blue hen's chickens," roaming the "landscape" (Lufkin) o'er, we shall have to give it up as a bad job and send the contemporary's mail to him over a rural route.

THE AMERICAN SPIRIT.

"This war will end war," they say. And we all hope so. But we forget that man has a poor memory. Every generation fights a war for itself, as if no other way could it learn what war is like.

War, to most men, means personal heroism, to be undertaken according to option.

Because men can never remember the sum of war's devastation, but always consider it a fresh adventure, some are quick to criticize an enlightened national policy which endeavors to keep the United States out of war.

"We are pressed out of measure," runs a line of II Corinthians 1-8.

In this month of February, 1917 we are pressed out of measure to keep our portion of the earth's acres sacred to peace.

It is not a pressure upon our resources which we feel, nor one upon our genius. It is a pressure upon the patience, upon the very soul of the nation.

Pressure implies resistance. And pressure produces power. We are steadfastly resisting

dignity of a people who will not be forced into any line of conduct by any foreign government. And this is well. But the greatest ultimate good is the power in the soul of the nation with every new form of outside pressure which is brought to bear upon it.

Whether the event proves to be for war or for peace, a hundred hostile interests will have been reconciled and scores of the alien-minded will have been amalgamated with the most patriotic.

The spirit of true Americanism is born again—as "we are pressed out of measure."—Shreveport Times.

Editor Whiteley of the Jacksonville Progress is making the mistake of his life in a contest for a place on the board of aldermen in his city. A good editor, of which he is one, needs to be untrammelled—and the voters never fail to "untrammel" an editor.—The Nacogdoches Sentinel.

That's exactly what our wife told us, Brother Gibbs, but we just went ahead over hep protest and made the race anyhow, and we got what you said we would. But we ain't complaining about it, 'cause we were in the race with four fine fellows and we knew that two of us were sure to be defeated, and we were willing to take our medicine and say nothing about about it.—Jacksonville Daily Progress.

MARRIED IN LUFKIN.

The following report of the marriage of well known and highly respected young couple of this city is taken from yesterday's issue of the Lufkin News, and Nacogdoches people will unite in congratulations and good wishes for them:

"Mr. Theron Rusche and Miss Maggie Matthews of Nacogdoches were married at the Methodist parsonage in this city last night by Rev. H. M. Timmons. The groom is a well known and highly respected young man of Nacogdoches. The bride is the sister of Mr. Clyde Matthews of Lufkin, and has made both Lufkin and Nacogdoches her home, where she has many friends who wish for her a long and happy wedded life. The News extends congratulations."

The information is gleaned from the Woodville correspondence to the Beaumont Enterprise that Hon. W. B. O'Quinn, district attorney of this district, is sitting as special judge of the district court at Woodville this week. If he makes as good judge as does a district attorney we vouch for him.

GENERAL FUNSTON CLAIMED BY DEATH

Commander of Border Troops Drops Dead in Hotel Lobby at San Antonio.

San Antonio, Texas, Feb. 19.—Gen. Frederick Funston, commander of the Southern department since February, 1916, died suddenly at the St. Anthony Hotel here tonight, a few minutes after he had finished dinner. He collapsed while seated in the lobby of the hotel talking with friends and was playing with little Inez Silverberg, of Des Moines, Iowa, a guest with her parents at the hotel, when he fell unconscious.

Death was almost instantaneous.

General Funston was 51 years old. Ever since March, 1916, when he was placed in command of all United States forces on the Mexican border, General Funston had worked at an unusual pace. At critical times in border developments he frequently remained on duty 20 hours of the 24. The handling of regulars disposed of at various stations on the border, the Pershing expedition and, of late, rearrangements of regular troops, while providing for the return of national guardsmen, have entailed an enormous amount of detail work, probably exceeding that which fell to a general commanding the United States army since the Civil War. Only today General Funston completed orders for the return of the last of the guardsmen. Because of the amount of work which has fallen to him, General Funston's only recreation or relaxation for nearly a year has been an occasional dinner party with a few friends.

MRS. M. B. LAWSON IS NOW AT REST

The sad news was received in the city this morning to the effect that Mrs. M. B. Lawson died at her home in North Church community last night, and her remains will be laid to rest in the cemetery at North church at 4:00 o'clock this afternoon.

Mrs. Lawson was seventy-three years of age, and is survived by her husband, two sons and two daughters. Her sons are Elbert and Elmo Lawson, and her daughters are Mrs. Eugene Turner and Mrs. Dock Watson, all well known and highly respected citizens of the county. The Sentinel is informed that the lady united with the church early in life, and lived a consecrated christian life—a sainted old mother who was loved and admired by all who knew her. She belonged to the well known Barnely family of the county.

The Sentinel joins the many friends of the family in a feeling of profound sympathy.

DON'T "PEDDLE" IT.

Editor The Sentinel:

A few days ago I ran a foul of Mr. Joe Birdwell, who lives in the Needmore community, and he seemed to be tickled about something; so I asked him what the fun was. He said he had been watching a man trying to sell a little lard bucket full, or half-full, of butter and as he could not get anything for it he has fooling his time trying to "peddle" it. "Maybe that fellow," said he, "likes to spend his time trying to sell his homemade butter and maybe, too, he is tickled to have his folks labor, day in and day out with the milk and churning; never a minute his wife can call her own." And I said all people did not think alike. "But," said he, let's figure on the matter. Just for argument, suppose his cow gave a pound of butter every day for 300 days and he got 20c a pound for it; that \$60. His time and trouble to peddle it is worth a dollar a day and if he only goes to town once a week he makes forty-three trips and his folks have worked every day over the milk and butter. The creamery is now paying 34c a pound for the fat and doing the churning and peddling; then again, not half a dozen people in the county wear their calves, so there goes at least one-fourth of the fat; many of those pretending to be dairymen have no separator, so there is another fourth of their fat gone. I can't see how some farmers ever break even. They buck to cotton, year after year, and every bale they haul off is a part of their land. They spend their time and the whole family has to help him do it, on cotton when a few cows, well tended, would put money in their pockets every day of the year. You know it as well as I do that my cows have made me about \$2000 since you started the creamery. While Professor Martin may not have fancy cows he has one cow that made him \$18 net profit last month and he got \$69.50 for the cream from seven cows. I say it is a strange thing to me that a man with only three or four cows will be contented to fool with strippings and home-made butter when a little attention and a separator will pull him out of debt and feed him and his family better." Joe was wound up. Mr. Editor, and he has the proper angle to the whole situation. East Texas abounds in natural

advantages for the man who loves cows; it's the home of Bermuda grass, there's plenty water, the winters are mild; peanut hay is the finest feed for milk production and they are the easiest crop made, the hay alone pays for the work of making, and I'm like Joe—can't see why so many good men are overlooking such a good bet as the dairy business.

Yours truly,
H. H. COOPER.

MYSTERIOUS PAINS AND ACHES.

Make Life Hard to Bear For Many Nacogdoches Women.

Too many women mistake their pains and aches for troubles peculiar to the sex. More often disordered kidneys are causing the aching back dizzy spells and headaches. Kidney weakness becomes dangerous if neglected. Use a time-tried kidney remedy—Doan's Kidney Pills. Hosts of people testify to their merit. Read a Nacogdoches case:

Mrs. H. M. Reid, 412 S. North St., Nacogdoches, says: "Backache hindered me at my work and sometimes was so intense as to keep me awake at night. My kidneys were irregular in action. I tried many medicines and finally took Doan's Kidney Pills. They gave me relief."

Prof. Jas. Cook, president of Rusk Academy, was an arrival to the city Saturday afternoon and remained over until Monday morning. He came to the county to fill an appointment at Martinsville. Prof. Cook is an able educator and minister, and is developing a great educational institution with Rusk Academy which will ere long take its place with the leading colleges in prominence as it now does in service.

BREAKS A BAD COLD IN A JIFFY! TRY IT

You can end gripe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Foley's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sore throat, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling. Breathe your throbbing head—nothing else in the world gives such prompt relief as Foley's Cold Compound, which costs only 25 cents at any drug store.

POTATO CURING PLANT IS NOW ASSURED

Mr. Robert Lindsey Will Erect One in Connection With Big Public Warehouse.

The Sentinel has long urged the importance of a big potato curing plant in this city. Observing the great success that has been achieved to both the owners and the farmers supporting it, with sweet potato curing plants at Longview and other places, we urged the people of this vicinity to get busy in the erection and promotion of the enterprise, and the new industry that goes with it, here last spring, but new industries and new enterprises are, as a rule, plants of slow growth and sufficient interest could not be aroused in time for last year's crop.

But in the language of an old adage "all things come to those who wait." The Sentinel has never doubted that Nacogdoches would soon have this industry fully developed, and we are now happy to announce that the time has arrived, and the dream is coming true.

Mr. Robert Lindsey, one of the best known and most progressive citizens of this community, has secured a long lease on a large plot of ground near the H. E. & W. T. station on which he will erect a large public warehouse, and a large sweet potato curing plant. Material has been purchased for these enterprises, and he hopes to have the actual work on construction under way within the next few days.

Mr. Lindsey informs The Sentinel reporter that the warehouse will be used as a public institution for the storage of such things as may demand the facilities he will offer, while the curing plant will be operated as an individual enterprise. He will buy sweet potatoes this fall, paying the farmers for their product when he receives them, and cure and sell them at his own pleasure. This arrangement will be more satisfactory to a great majority of the farmers who prefer to sell at gathering time, and it will also be more satisfactory to the operator of the plant, who takes his own risks and is not confused with conflicting opinions.

Bully for Mr. Lindsey! And bully for Nacogdoches! Plant sweet potatoes.

STOP COUGHING

The simplest and best way to stop coughs, is to take **Foley's Honey and Tar**

You get the curative influence of the pine balsam together with the mollifying effect of the honey, and other healing ingredients. It leaves a soothing coating on the inflamed tickling throat, raises phlegm easily and puts a quick end to hard wearing coughs.

The people of Nacogdoches county who understood and appreciated the great work done by Miss Mason while she was in the service will rejoice with her in the good position she has received, and will watch her career in the new field of labor with much interest.

SCHOONER FLYING U. S. FLAG VICTIM

London Feb. 14.—The American schooner Lyman M. Law was sunk by a submarine on Monday, according to a dispatch from the Stefani Agency of Rome. The crew, including eight Americans, is reported to have been landed.

New York, Feb. 14.—The Lyman M. Law carried a crew of nine men in addition to her captain, all Americans, and was loaded with lumber material used in Italy for manufacture of lemon crates, according to the schooner's agents here, the Maritime Transportation Company.

The Lyman M. Law, Captain Chatfield, was last reported on her departure from Stockton, Me., for Palermo. She was owned by the Benedict-Manson Marine Company of New Haven, Conn. Her gross tonnage was 1300. She was built in 1890 at West Haven, Conn.

Bangor, Me., Feb. 14.—The schooner Lyman M. Law, reported sunk on Monday by a submarine, sailed from Penobscot Bay on January 6 with 60,000 bundles of lemon-box shooks, taken on at Stockton a week earlier. There was no contraband aboard, according to the T. J. Stewart Company of this city, the shippers of the cargo. The schooner was to go direct to Palermo, without touching at any other port. The cargo was valued at \$31,200 and was insured.

FORGET IT.

"If you see a tall fellow ahead of a crowd,
 A leader of men, marching fearless
 and proud.
 And you know of a tale whose mere
 telling aloud,
 Would cause his proud head to in-
 anguish be bowed,
 It's a pretty good plan to forget it.
 "If you know of a skeleton hidden
 away
 In a closet, and guarded and kept
 from the day
 In the dark; and whose showing,
 whose sudden display,
 Would cause grief and sorrow and
 life-long dismay,
 It's a pretty good plan to forget it.
 "If you know of a thing that will
 darken the joy
 Of a man or a woman, a girl or a boy,
 That will wipe out a smile, or the
 least way annoy
 A fellow, or cause any gladness to
 cloy,
 It's a pretty good plan to forget it."

The editor of the Lufkin News admits that Lufkin has two drug stores. He tells us to "chalk up and break 'em again." The editor of the Nacogdoches Sentinel asks us if we'll be good now, following a nonsensical squib. And it was all caused by a soup bone.—Port Arthur News
 May we inquire which "dog" got the "bone" after The Sentinel refused to receive it?

The body of Major General Frederick Funston, idol and hero of the American army, rested in state in the Alamo at San Antonio until time for departure to the last resting place in California. It was deemed fitting that the Alamo, the cradle of Texas liberty against the same people this general has been guarding and the scene of one of the most historic events of all times, should shelter the body of our greatest and best known military leader of the United States.

It may be said that there is a dearth of dogs in the city of Lufkin, due to the late "mad dog" scare. It may also be said that more dogs have been killed in Lufkin according to law in the past few weeks than were ever killed before. Not only so, but more muzzles have been sold in this city than were ever sold before, and more dogs are wearing them. If your favorite dog is yet without a muzzle, be sure to make this provision for him—to the end that he may live long in the land and prosper.—Lufkin News.

The Sentinel will not venture to "fuss" with Doc Lively of the Lufkin News any more. We have had many battles with the gentleman, and we can say to his credit that in the past he has "fought" fair and in the open like a good "Irishman," but with the approach of spring when "young men's fancy turns lightly to love," he has broken into poetry, and we here and now quit the game. Good-bye, Doc. We felicitate you, and trust that your troubles may all be little ones.

Some time ago the manufacturer of flashlights offered three thousand dollars for a better name. At the close of the contest 530,000 names had been filed, which swamped the postoffice with mail, necessitating the employment of big trucks to deliver the excess, and everybody of any clerical experience in the vicinity, including the college students, have been engaged in the great work of classifying the mail. The contest closed Nov. 17th, and the manufacturers announce that it will be April 5th before the new name can be chosen and announced from the mass of matter received, at which time the dealers everywhere, and the press will be advised. Verily, it pays to advertise—for even a name.

WORLD'S URGENT NEED.

Dallas, Texas, Feb. 17.—"The world's urgent need today is for a greater food supply; its surplus is exhausted," said Mr. J. A. Kempt, of Wichita Falls, today in discussing food conditions in this country and abroad.

"The European war has withdrawn millions of men from productive labor," continued Mr. Kempt, "but they must still be fed; Poland is desolated; the people of Belgium and Northern France, partially supported by charity, are starving; Germany, Austria, France, Italy, England are all on short rations; with more than one-fourth of the world's population engaged in battle and with productive agriculture at a standstill, Europe is facing famine, and for an indefinite time must look elsewhere—and chiefly to the United States—for its food supply.

"This country, also, is feeling acutely these conditions; the high cost of living has become an actual burden to thousands of our own people; no relief can be expected until this year's crops are harvested, and not even then unless weather conditions are favorable and our farmers bend all of their energies to the production primarily of foodstuffs.

"This is a problem that concerns us all, and Texas, which led her sister states last year in the value of her agricultural output, should now set them an example by leading in the mobilization of our agricultural resources.

"It should be the first concern of every citizen to secure in every way the production of food crops to the greatest possible extent. The farmer should be encouraged, first of all, to provide for a living at home, and, next, to produce an excess of food and feed crops for the market. Foodstuffs of all kinds, vegetables, fruits, poultry, hogs and cattle are of the first importance.

"Cotton should be strictly a surplus crop, and the farmer should be urged to use the best seed of standard varieties, only, avoiding the short staple "half and half" cottons, which cannot be sold to the spinners and which are injuriously affecting Texas cotton grades in foreign markets.

"It is at once the opportunity and the duty of the business men to lead in agricultural preparedness which has received but little attention in the public mind, but which is the very foundation of the general welfare of our people.

"Commercial organizations can render no greater service at this critical moment than by planning the agricultural activities of their communities for the production of food crops to meet an extraordinary demand.

"The business man is the logical agency for putting these plans into execution. It is a patriotic duty that he should loyally discharge by getting into touch personally with the farmer and advising and counseling him in this emergency.

"If our agricultural efforts are not properly planned and directed to the production of food for our people and a surplus to supply the pressing demands of other countries, there is every reason to fear serious consequences. In 1837 when flour advanced from \$5 to \$11 per barrel and corn from fifty cents to \$1.15 per bushel there were bread riots in New York. During the Civil War, the South, with plenty of cotton, but no market for it, suffered for foodstuffs, and food riots marked its close.

"But one-sixth of our non-agricultural population, as compared with fifty per cent now was then in cities of twenty-five hundred or more. The farmer must feed them all, and himself as well."

Keeping Yourself Well

HOW YOU GET SICK

Sometimes you overload your stomach with rich foods. Your life may be an active one, and thus you may care for all you eat. But a few days of inactivity show your system does not call for so much. You awake in the morning tired. Your body feels heavy; you know you are not up to the mark. Your digestion has not cared for the overload. Part of it remains. It generates gas that inflames the delicate linings. They fail to pour out the digestive fluids and neglect to absorb the life-giving elements. You know something is wrong. Your body gets weak, and soon opportunity is offered for some severe illness.

Taken in time, the indigestion would not become serious. First remove the overload; then soothe the sore membranes; then build up the weakened body. It's simple to say, but not too easy to do. You need help. A tonic that will quicken digestion, help remove waste, soothe the soreness and arouse the system—that's just what you need.

Peruna has an enviable record in this respect. It has aided many thousands in the last century overcome just these conditions, and thereby prevent serious sickness. The tablet form is convenient for regular administration.

Manilla Tablets are the ideal laxative and liver tonic. They have no unpleasant effects and no bad habits. The Peruna Co. Columbus, O.

THE PLAYGROUND AS A CHARACTER BUILDER

Our hours of leisure, recreation, and play are the hours of life that have the most to do with the making or marring of human character. The playground has been called the laboratory of democracy. Truly it is. It was the playground that gave the Greek boy his best training for citizenship. It is on the playground in the competitive sports that the American boy first learns in a practical way the lessons of compromise, give and take, and respect for the rights of the other fellow. The American playground is a very potent factor in teaching the American people how to govern themselves. Note the difference in Mexico. There the competitive element does not enter into the national sports. The Mexican bull-rings and cock pits stimulate a different type of character to that developed on the American tennis courts and baseball diamonds. That there is at least some relation between the inability of these people to govern themselves and the character of their national sports can not be doubted.

How about the playground at your school or on the vacant lot in your town? Each is possessed with wonderful powers both for good and for evil. Which is in the ascendancy? Are your playgrounds at school centers for the formation of right habits of language and conduct? Is the teacher or some other responsible person on the ground each morning before the children arrive, and does this person remain on the ground until all the children are gone in the afternoon? Do the children of your school have a desirable place to play? Have the mothers of your community co-operated with the teacher in improving the playground? Do you have any play apparatus for the little children?

Unfortunate is the child without the privilege of a good playground and a sufficient number of play associates to make play interesting. Possibly no other one cause contributes more to ill-temper and disagreeableness among normal children than inadequate facilities for play and play associates. You are inflicting an unpardonable injustice on your own child and on all the children of your community when you fail to provide and supervise a well-equipped playground for them at the school they attend—Division of School Interests, University of Texas.

IN MEMORIAM.
 Sarah A. Power, nee Sarah A. Legg, was born in Limestone county, Alabama, December 29, 1829. She came to Texas in December 1849, and during all the years, with the exception of two years that she resided in Angelina county, she has lived in this county. "She came to her grace in a full age, like a shock of corn cometh in his season," and was loved and honored by all who knew her. She was married to W. F. Power Jan. 7, 1847. To them were born five children one of whom, William C., died at the age of twenty-three. One son and three daughters survive her. They are: E. H. Power of Nacogdoches; Mrs. Mary L. HAS NOW LAID HIS CRUTCHES ASIDE

Rheumatism and Kidney Troubles of 8 Years Standing, Have Disappeared, He Says.

"Yes sir, it's a fact, this time last month I was one of the sickest men you ever saw," said Frank Jinks, who lives on the Martin Mill pike, South Knoxville, Tenn., "and today I feel as well and strong as I ever felt in my life.

"I have been suffering from kidney troubles for the past eight years and the pains in my back at times would almost kill me. When I had these spells I would have to quit work. I have lost as high as three weeks at a time. I also suffered a great deal with rheumatism. About six weeks ago, I had it so bad I couldn't even put on my shoes. My suffering was terrible and once or twice it got so bad I cried.

"The doctor seemed unable to give me any relief and his medicine seemed to tear my stomach all to pieces. You do not have to take my word for what I'm telling you—there are twenty people who knew my condition who will tell you the same thing. My case has been the talk of the neighborhood, and everybody is praising the medicine.

"Tanlac has done me so much good I hardly know how to praise it. Only two weeks after I began taking it I was able to lay my crutches aside and I can now walk as good as anybody. Only a few days ago I walked from the race track to the South Knoxville Macadem Company, a distance of about four miles. I am now back at work again and can go about as good as anybody. It has not only driven away the pains in my back and the rheumatism, but I feel well in every way. I simply can't get enough to eat and everything seems to agree with me. My strength has returned also, and I have gained ten pounds in weight. When I go to bed at night I sleep like a child—something I haven't done for months.

"If anyone doubts what you tell them about my case, just tell them to call new phone 1923-B and I will be more than glad to tell them about the wonderful benefit I have received from it. Tanlac is worth its weight in gold and I will always feel grateful for what it has done for me."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Garrison Drug Co., in Appleby by Weatherly Bros., and in Sacul by Akron Crawford.

A New Year to leave the old with a burst of songs,
To recall the right and forgive the wrong;

To forget the things that bind you fast,
To the vain regrets of the year that's past;

To have the strength to let go your hold,
On the "not worth while" of the days grown old.

To dare go forth with a purpose true,
To the unknown task of the year that's new;

To help your brother along the road,
To do his work and lift his load;

To add your gift to the world's good cheer,
Is to have and to give a glad New Year.

Let us strive for a faith like Abraham's faith,
A patience like Job's patience;

A virtue like Joseph's virtue;
A courage like Joshua's courage;

A steadfastness like St. Paul's steadfastness;
A love like John's love.

Throughout this coming year, let us cultivate the spirit of LOVE and compassion, practicing self denials that we may be able to contribute something to the comfort and happiness of others. Let us practice the broader view of life and get into closest sympathy possible with the people outside of our little self.

Let's learn what we can about the thought, desire and aim of those of whom we know but little, and have cared for but little. Let's enter into the life about us, carrying purity in our hearts, help in our hands, and kind words upon our lips. Above all things, let us look to the Lord Jesus Christ and strive to follow HIM with true devotion and unselfish love. Let us learn to overcome evil with good with the help of the Holy Spirit. Let's be patient to all men.

May God grant us strength to do this in the year of 1917.

YES! LIFT A CORN OFF WITHOUT PAIN

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

We Can't be Beat on Tire and Tube Prices

Not only now but every day in the year, and we have the quality too.

See Us Before You Buy Tires!

It will mean money in your pocket and less tire trouble, and that's the kind of a tire deal you are looking for.

Our Stock of Tires and Tubes

is larger and more complete by far, than the combined stocks of all other tire sellers in Nacogdoches county, with more enroute. We can please you, suit you, fit your needs no matter what your preferences are, and give more miles for less money. We have all sizes and types of tires, everything in tires and tubes except those cheap in quality.

You Want Mileage--Freedom from Tire Trouble--Not Adjustments

We sell nothing but standard guaranteed tires and tubes, several makes of them. We back that guarantee to the limit, as well as the manufacturers. But more important than that to you, Mr. Car Owner, we sell only good tires with the mileage--the service--built into them. You want service, mileage, freedom from tire troubles--not adjustments. We have very few adjustments to make.

But to return to the ground hog, we are awake, ready, willing, anxious to serve you, to meet your EVERY automobile need EVERY DAY in the year. Not just at waking up time in the Spring.

FORCES UNITED AGAINST WOLVES

Petrograd, Jan. 15.—A wolf hunt in which both Russian and German soldiers joined, is described in correspondence from the Polish front. Parties of Russian and German scouts met recently and were hotly engaged in a skirmish when a large pack of wolves dashed on the scene and attacked the wounded. Hostilities were at once suspended and Germans and Russians instinctively attacked the pack, killing about fifty of the wolves. After the hunt the soldiers separated, each party returning unmolested to its own trenches. Along some sections of this front hungry wolves have been particularly bold this winter, constituting a real danger to outposts of both armies, and repeatedly the combatants have had to send out hunting parties against the common enemy.

While at this sort of work sniping is suspended by a sort of tacit agreement among opposing forces.

For a Bilious Attack.

When you have a severe headache, accompanied by a coated tongue, loathing of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a bilious attack. While you may be quite sick there is much consolation in knowing that relief may be obtained by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere.

11 MILLIONS FOR METHODIST FUND

Chicago, Feb. 15.—Of \$676,000,000 given to all benevolences in the United States in 1916, the largest single amount was \$11,000,000 which went to the pension fund of the Methodist-Episcopal Church. Dr. Joseph B. Kingsley, corresponding secretary of the board of conference claimants, made this statement today at a session of the board at its annual meeting here.

Lingering Coughs are Dangerous

Get rid of that tickling cough that keeps you awake at night and drains your vitality and energy. Dr. King's New Discovery is a pleasant balsam remedy, antiseptic, laxative and promptly effective. The Best Recommendation.

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendations of those who have used it that makes Chamberlain's Cough Remedy so popular. MUST CLEAN UP.

The following information, which is taken from the Home and Farm, will be of interest and should engage the attention of those expecting to have dealing with the Federal Farm Loan Board:

"One of the most important rulings announced by the Federal Farm Loan Board is that no loans will be made on farm property which is not in a satisfactory sanitary condition.

"Details as to the sanitary requirements have not been announced, but it is understood that dwelling houses must be screened, privies and outdoor closets protected from flies and insects, wells and springs protected from contamination by seepage so as to insure a supply of clean water, and other precautions taken to insure tidiness and healthful conditions.

"In some respects this is a rather extraordinary ruling. A man who is so slovenly that he will not observe the most simple rules for preserving the health of himself and family does not deserve the aid of the farm board, and his neighbors in his local association should be spared the embarrassment of telling him to mend his personal habits before they assume any responsibility by admitting him to their loan association."

A Woman's Experience With Grippe.

When a cough or cold hangs on, and you have aches and pains that are hard to define, it is likely that grippe is taking hold of your system. Mrs. J. A. Rodgers, Switzer, S. Mrs. Ella Swift and Mrs. Z. T. Mast of this city and Mrs. Thomason of Melrose were called to Huntington Saturday by the death of their aunt, Mrs. Traywick, who died Saturday morning, and was laid to rest Sunday. They returned Sunday afternoon. Mrs. Traywick was the grand-mother of Miss Bernice Traywick, who made her home with Mrs. Swift for a number of years previous to her marriage to Mr. Blount. She was known to a number of the older settlers of this county, and was a noble christian woman.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look! Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mother's can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children need't be coaxed to take this harmless "fruit laxative." Millions of mothers sleep in happy peace they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

ALL STATE TROOPS ORDERED RELEASED

Washington, Feb. 18.—Demobilization of the entire National Guard force remaining in the Federal service on the border, including troops from Texas, New Mexico and Arizona, was ordered today by the War Department. General Funston was directed to send all guard organizations home for muster out as soon as he can complete arrangements for the movement. All details are left to General Funston.

The order affects about 50,000 Guardsmen who were not included in previous order, which recalled about 25,000 men. At the time that order was issued it was understood it would be followed as soon as possible by the withdrawal of the remaining troops, with the exception of those from Texas, New Mexico and Arizona. It was thought troops from those States would be kept in the Federal service as long as General Funston had need of them to supplement the regular forces along the border. General Funston now has approximately 50,000 regular troops distributed along the line, as he believes the regular forces sufficient for patrol duty and to face any probable emergency.

Department officials expect all the Guardsmen to be back in their State mobilization camps, or at their armories inside of 3 weeks.

Secretary Baker emphasized that the withdrawal of the State troops was in no way connected with the crisis with Germany, but carries out a policy determined long ago by the administration. The order was issued after General Funston had reported that with the new disposition of rebels he felt that he had enough men to meet any exigencies that might arise.

Prof. Duff is a West Texas man, being raised on the plains. In conversation with the reporter he said that when he first came to East Texas he did not feel that he could remain until until his contract expired, but that before his time was out he liked the country better. His love for our hills and rocks and rills has grown, and he has been with us three years, and now sings the praises of this country like an old-timer.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderrine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderrine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderrine from any drug store. You surely can have beautiful hair and let of it if you will just try a little Danderrine. Save your Hair! Try it!

A MEMORIAL DAY FOR SAM HOUSTON

Austin, Texas, Feb. 16.—The governor this afternoon issued the following proclamation designating Friday, March 2, as Sam Houston Memorial Day:

"In obedience to the provisions and directions of a joint resolution of the legislature of Texas, I James E. Ferguson, governor of Texas, do hereby designate and set apart Friday, March 2, 1917, the one hundred and twenty-fourth anniversary of Sam Houston and the eighty-first anniversary of the adoption upon his motion of the Declaration of Texas Independence, as Sam Houston Memorial Day, and do earnestly call upon the people of Texas to observe and celebrate the day by ceremonies in harmony with the sentiment associated with the historic and doubly hallowed anniversary.

"On behalf of the state, a special appeal is made to the public free schools and all the state institutions of learning to celebrate the day by the reading of this proclamation and the Declaration of Texas Independence, and in such other manner as may be deemed proper.

"It is deemed most fit that on said day contributions be made to the fund for erecting in the city that bears the name of the patriot and statesman, Houston, and which was once the capital of the republic established by his patriotism and valor, a memorial to his memory, and the people of Texas are asked to make such contribution to the end that a debt of gratitude long due him may be discharged at the earliest possible day.

"In testimony whereof, witness my hand and the great seal of the state this 16th day of February, A. D. 1917.

"Signed Jas. E. Ferguson,
"Governor of Texas,"
"T. J. Bartlett,
"Secretary of State."

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.
Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old."
— Mrs. O. M. RHINES, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.
Tennille, Ga. — "I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited."

NEW DEVICE TO SAVE LIVES OF CO-WORKERS

Eugene N. Yeamans, former newspaper man and native Texan, has recently placed on the market one of the most practical and simple safety devices known to the railroad engineers, according to the reports of investigations of several prominent men in railroad mechanical circles. The new device is called the "Automatic Fountain Valve," and has been adopted by the Gulf Coast Lines and installed on all their locomotives, after a six months' test.

The principal feature of the new device is a simple poppet valve, placed at the main connections to the boiler of a locomotive, which will automatically shut off all power as soon as any part of the mechanism goes wrong. Thus in the case of a wreck, as soon as the engine leaves the rails or is hit by another engine the valve immediately shuts off the power and confines the steam to the boiler.

More than 25 per cent of the deaths of railroad employes in the wrecks of the past have been caused by steam and hot water escaping from the boiler of the engine, scalding or smothering them. This the new appliance is designed to prevent.

Mr. Yeamans is at the present time a fireman on the Gulf

CALOMEL DYNAMITES A SLAGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to the druggist and get a 50 cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow, besides, a man salivates you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

Coast lines, having been in their employ five years. He was for some time editor and manager of the Robstown Reporter, a weekly newspaper published at Robstown, Texas, leaving the newspaper work to go to the railroad. Since his initial trip Mr. Yeamans has been studying every possible method by which he might add to the safety of himself and other employes, and as a result completed his recent invention.

"I have given the device to the Gulf Coast Lines for their use," said Mr. Yeamans, "and I hope it may be the means of protecting the lives of every engineer and fireman, as well as other employes on the road."

ANOTHER OLD MOTHER GOES TO HER REWARD

From Saturday's Daily. News has been received in the city of the death of Mrs. John Lowery of the Symrna community. The funeral will occur at the family burying ground in the same community this afternoon.

Mrs. Lowery was seventy-six years of age, and has lived on the same place the past sixty-two years. She is survived by five children, Mrs. Texana Sowell, and Messrs. T. J., Jeff, C. E. and George Lowery, all well known citizens of the county. She has three children dead, who are remembered as Messrs. Norwood and Jno. W. Lowery and Mrs. J. F. Perritte. She united with the Christian church when a child, in which she has lived a consecrated christian life, and those who know her say that she was one of the most lovely, sainted christian characters they ever knew, living, it would seem, solely for the comfort and happiness she could render for others, and never manifesting a selfish purpose.

GRAND JURY RESTS.

The grand jury adjourned this afternoon to meet back again Tuesday of the 6th week. Up to this close twenty-seven bills of indictment were returned, sixteen of which are for felonies and eleven for misdemeanors.

DEATH AT CUSHING.

The following report is taken from this week's issue of the Panola Watchman:

"At Cushing, Thursday, February 8, the life of Mrs. A. B. Pickens came to an end at the advanced age of eighty-six and one-half years.

"For many years Mrs. Pickens was a favorite old citizen of our city, her presence on our streets, her visits in our homes, her Godly living among us will not soon be forgotten, but will be felt deeply in the years that are to come. Her memory did not go with her body—her Christian influence will live far beyond the years of her body.

Her independent life and her motherly interest in others are the characteristics that imprinted themselves on us since our early childhood, and we cherish those thoughts as thoughts that are foundations for true character building.

"We all have our peculiarities and she was not an exception; but if one can say of us when we, too, pass away, that we have served any good purpose, we will be glad for the living.

"When Mrs. Pickens died, our city lost a friend, a neighbor, a Christian.

"To Mr. Packer, her son, and his wife, and her other relatives, we extend our truest sympathies in the death of one so near and dear to them.

"The funeral services were conducted by Elder Beckler of Longview, at the Christian Church, Saturday, 10:30 a. m., and then the remains were tenderly laid to rest in the City Cemetery beside those of Mr. Pickens, who preceded her several years.

"Jane Nettles was born in Monroe County, Ala., Aug. 8, 1830, and died at Cushing Texas, Feb. 8, 1917, aged 86 years and 6 months.

"In 1845 she was married to Dr. Wm. J. Packer. To them were born three daughters and one son. The three daughters have all gone before, the son, Percy W. Packer, is our townsman.

In 1859, Dr. Packer died at Galveston, Texas.

"In 1878 she was married to Mr. A. B. Pickens; in 1896 he died in our city.

"In 1877 she with her family, came to Texas and since 1885 Carthage has been her home, until about one year ago when she removed to Cushing, where she passed away.

"When a young woman she became a Christian, uniting with the Baptist church; in 1889 she united with the Christian church. Through all the years she lived a consistent Christian life.

"Those (of her family) who survive her and mourn her loss are her son, Mr. P. W. Packer, of our city; Mrs. J. L. Cleveland, of Alvin, Mrs. Jesse Morrison, of Cushing, and Miss Mary Leslie, of Georgia, her granddaughters; and eight grandchildren."

SUICI ENEAR LUFKIN

The following report of a suicide is taken from yesterday's issue of the Lufkin Daily News.

"E. L. Thompson was a married man, lived with his wife and three children only four miles from the city of Lufkin on the Eason Lake road. He was a member of the Masonic lodge, and attended a meeting of that body last Saturday night. He was 57 years old, and had recently sold his farm for something like fifteen hundred dollars, intending to move to New Mexico. He was one of the representative citizens in Angelina County for about thirty years. He was a brother of Nimrod and Finis Thompson.

Today he lies buried in the Old Union cemetery in that neighborhood, friends of the deceased having attended the last sad rites and paying their respects to the departed dead. As a News reporter gathers the story, Mr. Thompson lived on well kept premises; there were plenty of milk cows, hogs and chickens, and possibly also an orchard; there was fallow ground for the planting many field crops. No doubt there was a spring branch purling along its grassy banks at the back side of the field; little children romped and played around the door of the home, and around the family altar plans were perfected for days and days ahead for the members thereof.

"But yesterday at noon all this palled on Mr. Thompson and while the ladies of the household were busy preparing the noon-day meal, removing pots and replacing kettles, Mr. Thompson took advantage of the opportunity, and locating the old family pistol, he walked out on the front porch and gave it a trial. The gun worked all right, the bullet entering his forehead over the left eye. Friends hastened to his relief, and doctors were hurriedly summoned, but everybody arrived too late—Mr. Thompson had accomplished his purpose.

"An inquest was held, Magistrate Sam R. Sayers and Sheriff W. L. Evans being present, and the verdict arrived at was that the deceased shuffled off this mortal coil of his own volition, and that he is now marching up and down Canaan's happy shore with a song in his mouth and a harp in his hand."

Mr. and Mrs. W. Y. Hall are entertaining a fine boy, born a day or two ago. This is the first boy for the family, and the parents are proud of the little fellow.

Tom Johnson, a former citizen of this county who is now making his home in Southwest Oklahoma, arrived in the city day or two ago for a visit with old friends and relatives.

NOTICE TO FARMERS.

Nacogdoches, Feb. 12, 1917.

To our Farmer Friends and others using wagons, other vehicles and stock: Saturday was the last day that wagons and other vehicles, teams and stock, can be left on the public square, the government today beginning work on the postoffice building to be erected on the same.

The City has provided ample room and accommodation for this, having purchased two lots, one on Pillar street in fifty yards of the square, and the other on Main street only a short distance west of the square. These two lots give four or five times the space used on the square, both being easily accessible to persons with wagons, teams, stock, etc. It is our purpose, as early as possible, to put the lots in good condition, supplying them with water, hitching posts, etc., and do all we can for the convenience and comfort of the public.

We trust that little inconvenience will be occasioned by this change, and that it will be mutually advantageous to the people and the city.

Very respectfully,
Geo. H. Matthews, Mayor.

COLONIAL RECEPTION.

The C. C. Reception, held at the home of Mr. and Mrs. Marcus Smith Tuesday afternoon, was "the best yet" pulled off by even this coterie of entertainers.

Met at the door by the daintiest of tiny tots, little Jane Stripling, with her pretty basket of callers' cards, and ushered into the hall where a delightful receiving line, each dressed in the beautiful colonial costume, powdered hair, panniers; "beauty spots," all received us in the dignity of this yesterday.

But we began to feel this is indeed a dream of "ye olden tyme" when into the parlor we passed and there stood a perfectly beautiful Martha Washington in dainty silken draperies, and the elaborate coiffure of the day, and other dames just as becomingly gowned. Into the dining room, decorated in the flower of the hour, the yellow jonquil with tulle bows and butterflies, made dainty as Junetime, an entertaining committee made the hour fly fast while we were refreshed with the loveliest cream and cake. Passing into the next room we stopped in wonder and admiration at the pretty picture that met our eyes. In a pretty corner of the room Miss Lillian Davidson and Mesdames Roy Kent and Ulric Wilson, all "daughters" of the club, in the pretty costumes of the day, dispensed delicious punch.

This was one of the prettiest entertainments we have ever had and we want to thank the C. C.'s for it. The only regret one could possibly have is that it could not have been in the evening so that our husbands and sons might have enjoyed it with us.

For driving out dull bilious feeling, strengthening the appetite and increasing the capacity of the body for work, Prickly Ash Bitters is a golden remedy. Stripling, Haselwood & Co., Special Agents.

MINISTER IS COMING.

At a conference of the official board of the Christian Church Sunday, an invitation was extended to Rev. E. W. Sears of Sulphur Springs to visit this city and preach at the church next Sunday. The clerk was instructed to telegraph the minister so he would have time to arrange for the visit.

A message has been received announcing that Mr. Sears will come as requested, and will preach at the Christian Church next Sunday morning and evening.

Among others, the church is negotiating with this minister for his services as pastor. He is recommended to be a strong and forceful minister deeply consecrated in the cause of his Master, and the probabilities are that contract will be closed with him on the occasion of this visit.

The Board is especially anxious that all the members of the church be present Sunday, and a cordial invitation is extended to the general public.

FIRE AT JOAQUIN.

Joaquin, Texas, Feb. 20.—Tuesday, about 12 o'clock a. m., the residence of M. M. Carroll was destroyed by fire caused by sparks from the flue or fire in kitchen stove. The roof was in flames before discovery, hence very little of the household effects were saved. The furnishings were nice and complete.

Mrs. J. R. LaGrone, mother of Mrs. Carroll, saved most of the things in her room. Mr. and Mrs. Hugh Jones, who boarded there saved their trunks. The piano was burned after being gotten out of the house. Insurance was carried on both house and furniture, but not sufficient to cover the loss.

MARRIES HIS OWN NIECE; ARRESTED

Shreveport Times.

Southwell Havard, a white man, is under arrest at Lufkin, Texas, charged with false swearing on obtaining a license to marry Miss Minnie Havard, said to be his niece, from the district clerk of Caddo parish on December 22, 1915, will be returned as requisition papers applied for by Sheriff Hughes Saturday can be obtained, honored by Governor Ferguson of Texas and served. Deputy Sheriff R. E. L. Huckaby, will be sent to Lufkin to bring Havard to Shreveport.

The license was issued on December 22, 1915, and shows the entire: "Southwell Hardwick, age 42, Manning, Texas, and Miss Minnie Havard, age 28, Manning, Texas. Relationship of contracting parties, not first cousins." The marriage ceremony was performed on the same day by Rev. George S. Sexton.

About the time the license was issued the district attorney said, the couple left Manning for parts unknown, and relatives of Miss Havard, who were opposed to the marriage, were unable to discover where the marriage license was issued or whether the couple were ever married until a short time ago, when they found the records in the Caddo clerk's office.

J. A. Poland and W. C. Weaver signed the affidavit on which the warrant for Havard's arrest was issued.

The prosecution is the first of its sort in the history of Caddo parish as far as present officials are aware, and is, in any case, one of very rare occurrence. Havard is formally charged with false swearing to obtain a marriage license contrary to Act 9, of 1902, which prohibits the marriage of collaterals of half or full blood relationship, brothers and sisters, uncles and nieces, aunts and nephews or first cousins, whether they be legitimate or illegitimate children. The same act provides a penalty of imprisonment for not less than six months or more than two years.

Pure high life that has not been "monkeyed with" at Stripling, Haselwood & Co. The price is the same.
