LEGISLATURE CALLED IN EXTRA SESSION

Speaker Fuller Will Convene the Body August 1st for Impeachment of Governor Ferguson

The following report of the call of an extra session of the Texas Legislature is taken from Monday afternoon's issue of the Houston Chronicle:

A call was issued late Monday afternoon by Speaker F. O. Fuller for a special session of the house of representatives to convene in Austin on Wednesday, August 1.

In the closing paragraph of the call Mr. Fuller states that purpose is "to consider whether or not the house of representatives will present a bill to impeachment against the governor of Texas; the charges to be thereafter tried by the Texas senate."

Speaker Fuller at the time that he issued the call made public an affidavit in connection with the location of the West Texas Agricultural and Mechanical College. In this affidavit he says:

"Haskell being my first choice, I cast my first vote for that city."

On the second ballot Mr. Fuller swears that he voted for Snyder, "for the reason that Snyder was my second choice."

Occasion For the Call.

Mr. Fuller recites the provisions of the constitution for the establishment, maintenance,

support and management of the university. He then details the action of the last session of the legislature in appropriating money for the university for the next two years, and says:

"The governor has at no time advised the legislature that he considered the appropriation excessive, or improper, but has made some objections publicly to what he considers its misuse, and has vetoed the entire appropriation except one salary of \$3,500 per annum * * * He has charged the faculty generally with being grafters, liars and traitors, and in my judgment, without reason. He has sought to substitute his own will for the judgment of the board of regents, demanding of them that members of the faculty be dismissed, even without a hearing, thus seeking to override the law"

* * * *

Other Charges Made.

Other charges made in the call are:

"He has removed members of the board of regents without good and sufficient cause.

"By section 28 of the Bill of Rights no power of suspending laws is lodged in the governor, but he has sought to suspend them and to have them set aside to suit his own desire."

In connection with the statement of the governor, giving the result of the vote locating the West Texas Agriculture and Mechanical College Speaker Fuller says:

"That statement was based on absolute misrepresentations by the governor to at least two members of the committee who would not otherwise have signed.

If the governor was not guilty of fraud in the original meeting to locate this school his acts in refusing to reconvene the com-

mittee are a fraud on the people of Texas and upon the committee."

Fuller also calls attention to the legislative investigation of the governor's official acts when the governor testified that he would refund to the state any money which the courts might decide he had taken without lawful authority, and says:

"He has failed to do so, and the courts have long ago decided against his contention."

The friends of Mr. and Mrs. J. O. Cox will be pleased to learn that their children are convalescing.—Sour Lake Daily, Saturday.

American Army of One Million Men is the New Idea With the War Department

Washington, July 24.—An American army of 1,000,000 men for service abroad at once, instead of the 500,000 contemplated for the first draft, is foreshadowed by the government's request for an additional \$5,000,000,000 made to the senate finance committee Tuesday.

The first million men are to be made up of the first draft army of 500,000, the national guard and the regulars.

It is improbable that the first draft will be increased, but the government is arranging its finances for other drafts without the necessity of going to congress again for money.

Estimates for revenues in the war tax bill provide only for the first 500,000 men for eight months, beginning July 1. The new estimates are designed to provide for the first army of a half million for an entire year, and, in addition, for 12 months' expenditures caused by the sec-

ond call of 500,000 men, because it would be necessary to buy their equipment before or soon after they are drafted.

POSTMASTER DONEGAN GETS RE-APPOINTMENT

A dispatch from Washington appearing in the state papers gives a long list of Texas postmasters who have been re-appointed in reward for the good records, and the postmaster of this city, Mr. A. Y. Donegan, is included in the list.

This news will give universal satisfaction to the people of Nacogdoches who have every reason to be well pleased with the service they are receiving.

Mr. Donegan is one of our most worthy townsmen who carries with him the respect and esteem of all. Always in a good humor, always ready to serve the public in any way he can, and identified with the best interests of the city, he is an ideal man for the place, and The Sentinel repeats that the people of Nacogdoches are entirely satisfied.

2000 FARMERS EXPECTED TO ATTEND INSTITUTE

Austin, Texas, July 24.—Delegates to the number of two thousand or more will assemble in Austin Wednesday to attend the seventh annual session of the State Farmers' Institute. Of these delegates, about 100 are boys and 250 are girls, representing the junior farmers institutes.

The sessions of the institute will be held in the hall of representatives at the capitol, where a program of the farmers will be given. Much of the program

will be talks by members of the institute, it being the opinion of Fred W. Davis, president of the institute, and the committee on program that discussion of their problems by themselves would be advisable.

These delegates are from every portion of the state.

Mrs. J. N. Thomas arrived home last night from a pleasant visit to Mrs. Terry at Sour Lake. Her daughter, Miss Eleanor, and Miss Jeffie Murph, who accompanied her to Sour Lake, remained for a more extended visit.

FARMERS!

We have money to loan to help you to make a "bumper" crop of Corn, Peanuts and Cotton. The real farmer is going to "clean up" this Fall. If we can help you, come to see us.

KEEP ON BUILDING.

This is a copy of a bulletin which is being distributed throughout the country. It ought to be of interest to every business man:

About that improvement you are planning—

Why not go ahead with it?

Every reason in the world says you should.

At no period in our history have we been so sure of the future. The eastern world's stomach is feeling the pinch of hunger, and its demands on the products of America's broad acres and American industries are growing with every passing hour. A great market is opening wider and wider. Honest and fair profits in all lines of legitimate effort are certain.

There should be no curtailment in building and road construction. Let both public and private useful construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the building industry with cars needed to transport materials. Government, state, county, and municipal authorities should encourage the continuance of all kinds of building. Roads and street improvement in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone and other building materials industries are basic. Neither Government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

The right thing to do is to keep building.

The question of the hour is: Did they get your number?

So far as The Sentinel can learn, the fine rain that fell last night was general over the country, and will be worth thousands of dollars to the growing crops. It will be especially valuable to those who wish to plant out more sweet potatoes, and plant fall crops of Irish potatoes.

The people of Nacogdoches should, and those of them who are familiar with the condition do, appreciate the liberality the Shreveport Times has shown us lately in giving freely of its space to mentions of the Normal and other features of vital interest to this city. In the "Texas Press" column today there are five separate editorials about the Normal, and there is seldom a day in which this column does not carry something about Nacogdoches. This is especially refreshing, since some of the big papers have been so brief with us in reporting matter which we feel are important.

NORMAL ECHOS.

It seems that there was no juggling of votes when it came to selecting Nacogdoches as the town for the Stephen F. Austin Normal.—Livingston Enterprise

Hon. John McLendon, editor of the Tenaha Messenger, congratulates The Sentinel for the part it took in the fight for the Normal, and makes the following other observation: "It is the logical location for the school, and all of East Texas should rejoice in the knowledge of the fact that service and efficiency and patriotism have governed this matter, and politics cut no ice whatever."

Nacogdoches was awarded the Stephen F. Austin Normal School Saturday by the locating board, the same going to our sister city on the second ballot. Nacogdoches offered 205 acres of land in the city limits, free lights, water and sewage and an elegant home for the president of the school.—Such public spirit deserves to win, and we that glad that since San Augustine could not be so fortunate as to receive the plum that the magnificent city of Nacogdoches received it.—San Augustine Tribune.

The Stephen F. Austin Normal College was located at Nacogdoches. Longview made a good fight, and we are not satisfied yet that it is not the best town in East Texas for the location of such an institution, but we believe that the Locating Committee followed the dictates of their consciences and we extend to Nacogdoches our congratulations and assure them that Longview stands ready to assist them in every way to make the Normal of East Texas the best in the state.—Longview Times-Clarion.

Nacogdoches was selected as the site for the Stephen F. Austin normal. Nacogdoches made a splendid showing in the brief submitted, she kept up the fight for the normal from start to finish, and her offers to the school were exceedingly liberal. Of the twenty-five towns which applied for the school not one made a more persistent, stronger campaign than Nacogdoches. Her people were united and pulled together in every step taken to win.

We congratulate Nacogdoches not only on her victory but on the splendid fight she made for the school.—Carthage Register.

Judge C. D. Mims, a former citizen of this city who now resides at Tyler, in a letter to The Sentinel in a business matter, makes the following observation about the Normal: "I notice that you landed for your city the Stephen F. Austin Normal College, and wish to congratulate you, Chas. Hoya, and others on your splendid work that resulted in securing it. I was in Abilene at the time the selection was made by the committee, and learned of it while on the train on my return home, and would have wired you congratulations had it been convenient, and being denied that convenience, I am writing you this letter."

Nacogdoches people are feeling good over the success of securing the State Normal, and they have a right to feel that way. There was a large number of good towns in contest and to think that the committee selected the Stone Fort city is indeed a worthy compliment, to her people. While we haven't a thing against the other places we are not at all displeased because Nacogdoches

was the lucky place. Here's our congratulations and may you handle the institution in a way that it will rebound in much good for the whole of East Texas as well as your immediate section in particular.—Jacksonville Progress.

The Times congratulates the old Stone Fort city in its securing the location of the Stephen F. Austin Normal School for East Texas, a prize indeed to be proud of an institution that will cause the city to grow as most nothing else would. Henderson of course would have enjoyed this distinction and no doubt our progressive citizenship would have measured up to all the requirements—but Nacogdoches is the winner, the choice of the locating board and we are now for Nacogdoches, to help in the building of one of the greatest normal schools of the state.

This favored city is truly an ideal location for such an institution. Its railroad facilities are the best, its water supply is bountiful, it's not far from the geographical center of the district, its lands are rich loam, it has a progressive citizenship and a town sufficiently large to take care of the hundreds who will doubtless turn that way for the high school training. These things coupled with the fact that old Nacogdoches is one of the pioneer towns of the great West and that it sheltered in an early day the illustrious man for whom this institution is named, it is then but fitting that she be given the Stephen F. Austin normal school.—Henderson Times.

The Silsbee Signal, J. B. Pover's good little paper, makes the following observation about Nacogdoches capturing the Stephen F. Austin Normal: The locating committee voted last Saturday evening giving the Stephen F. Austin Normal to Nacogdoches. While there were many towns and cities asking for the school, one thing can be said: no other town would appreciate it more than Nacogdoches.

The town is most beautifully located between the sparkling Banita and LaNana creeks and surrounded by the most beautiful scenery and fertile soils. The historic interests of the city are unsurpassed in the state; the town is truly a town of homes—beautiful homes—her streets are shaded and cool and inviting; her citizenship is made up of people who stand for high ideals of character. But the fact that every man, woman and child in Nacogdoches county wanted the normal, talked normal, wrote normal, connected with the very best school and school spirit in the town and county, had more to do with the selecting than her beauty or historic lore.

Now that Nacogdoches has the school she will do just like she does with all things; she'll make it go, and make it go good.

There was great rejoicing at Nacogdoches Saturday night when it was learned that the Stephen F. Austin Normal locating committee had accepted the offer of Nacogdoches and awarded that place the school. The citizens certainly had every reason to celebrate because that means that Nacogdoches will grow by leaps and bounds, and the class of people the school will attract will be the very best. The citizens in this end of the county congratulate the good people of Nacogdoches on their splendid achievement and rejoice with them.—Garrison News.

Discussion of the topic of the war is getting a little more serious now.

POSTOFFICE DOORS BRING PROTEST

When the plans of the architect were received for the new Federal postoffice, and it was discovered there would be only one entrance, Mayor Matthews took the initiative in an effort to induce the department to change it and give an entrance on at least two sides. Letters and petitions were forwarded in the matter, but the final answer was nothing doing and no change could be made.

From this final correspondence we rested until it was discovered that there would be but one narrow three-foot door on the front, and this has brought another storm of protest from the people, and as a faithful representative of the people the mayor is again interesting himself in an effort to at least get a decent front door if we must submit to one entrance. The mayor prepared the following petition, which was signed by himself and a number of other citizens, including the postmaster, and forwarded to Congressman Dies:

"The door in main entrance of public building is only three feet wide, with two little windows on each side, and doesn't look well, and not enough room for ingress and egress. Take up with Treasury Department at once and see if they won't change so as to have larger doorway."

This message was sent to our congressman by wire, and he gave the answer next day:

"Your telegram to hand with reference to proposed change in plans for Federal building, and I have requested the supervising architect to wire instructions for change in doorway at once. With best wishes, etc."

The supervising architect seems to have ignored the matter, as nothing has been done to relieve the situation, and it seems that we will have to bear it. Save for this defect, the building is assuming the shape of a most elegant structure—one of which we can well be proud, but the convenience of the public, and the civic attractiveness are seriously impaired with the lack of sufficient doorway.

POTATO CURING PLANT MEETING THIS MORNING

A goodly number of farmers and several business men met at the city hall this morning for the purpose of discussing the matter of building a co-operative curing plant in Nacogdoches.

Mr. Fontenberry, a representative of the Extension Department of Agriculture, was introduced by Hon. W. E. Thomason, and addressed the crowd in the matter, offering the assistance of the department he represents in the matter, both in the organization of the company, building of the warehouse and assistance in finding a market, etc. He told of different experiences had with the improved methods, both in conserving the crop and the better market price, and urged the farmers to take hold of the matter.

At the conclusion of the visitor's address, Mr. Bob Sullivan was elected temporary chairman with W. W. Lee temporary secretary, and committees were appointed to call on the farmers and offer them stock in the matter, and if enough can be sold, organization will be gone into and permanent officers will be elected.

For some reason the farmers present did not seem to become much aroused in the matter, either because they did not understand all the details of the matter, or prefer to give away, hoping for the erection of private enterprises.

To make this statement better

understood, the government will not assist private enterprises, insisting that the majority of the stock shall be taken by farmers, and owned and controlled by them. Many would prefer a private enterprise with sufficient capital to buy the crop in the fall on the one hand, while on the other those who would put capital into it would prefer to have control, and the two have not been able to arrive at an understanding in the matter.

If the farmers will go ahead and organize the company, the business men of Nacogdoches will doubtless be glad to give them any help they can. If they do not intend to do so, there are several citizens who would make the investment with the assurance of proper support, but do not want to get in the way of the farmers if they decide to build. This seems to be about the size of the situation, but it is a confusion that should be unravelled as quickly as possible so that sufficient warehouses and kilns can be erected in time to care for the new crop.

There is no denying the practicability of the new enterprise, and its desirability as an investment. It is also a fact that no enterprise to the amount of the investment would be worth so much to the community and the Sentinel has confidence in the judgment and integrity of those who now have matter in hand, to work out a solution to the problem which will give us the warehouse without further delay.

BUSINESS COLLEGE, NEXT.

A prominent business college of the state is now making inquiries about Nacogdoches, with a view to establishing a branch or companion school in this city in time to be ready for the fall term.

This would be a good addition to the educational interests of Nacogdoches, in line with the special work the new Normal School would do, but not in competition with it.

Every young man should take a course of stenography and bookkeeping when he finishes his literary studies, regardless of whether or not he expects to engage in business. He will find use for his knowledge in any pursuit in which he may engage, and nothing would contribute more to his success. A college of this kind, located right in our own town, would bring these advantages to us, enabling the many who go away to get the training more cheaply by reason of the facilities being at home, and many others would take advantage of the opportunity. Added to this good feature, a live business college would bring many boarding students, and contribute a big part in making Nacogdoches the great school and college town into which it is rapidly developing.

In answering the inquiry The Sentinel has given an outline of what we are doing and what we are planning in the educational line in Nacogdoches, and urges that the college send a representative to the town for the purpose of making such investigation as he would care to make. As the college would want to inaugurate its advertising campaign immediately for opening of fall term, it's not unlikely that a representative will come next week, and if he does, it will be well for Nacogdoches to give him such encouragement as he may ask. As we understand it, he will want any bonus or financial help, but our moral support will have much to do in interesting him.

Edgar Morris of Livingston is visiting with relatives in the city.

THE NORMAL.

They have located the East Texas Normal

After searching the country 'round;

And they have all decided with one accord,

That Nacogdoches is the town The neighboring cities ask in awe,

However could it be;

That anything good should come our way?

But old 'Doches replied, "Come and See."

For Silsbee was sure of her prospect

As she told it 'round about;

That Beaumont and Nacogdoches,

Would make faces at her, and pout,

Because, of course it would be her lot,

To get the college grand—

For Silsbee is a noted place Her fame's known all over the land.

And Lufkin was not at all afraid But that she'd win over all—

If the committee stopped over in Lufkin,

Nacogdoches would receive no call.

But old 'Doches just kept quiet and cool

And she knew 'twas not too late—

For all things good and pleasant, Come to those who wait.

And Stephen F. Austin shall live again,

In the history of our state; For the Normal college that bears his name,

Will make old 'Doches great.

THE EAST TEXAS PROGRESSIVE CLUB

Denton, Texas, July 18, 1917.

To The Sentinel: We have an East Texas Progressive Club organized in the N. T. S. N., in which Nacogdoches is among the counties.

Nacogdoches, Shelby, Sabine, Polk and San Augustine are the counties included. The officers elected were: From Nacogdoches, Mr. H. H. Welborn, President; Ruth Weaver, Secretary; Edna Gaston, Corresponding Secretary. The Social Committee is composed of Mr. Kelley, Chairman; Misses Bernice Brantley, Legget and Peters.

The students here from Nacogdoches county are as follows: Mr. Welborn, Nacogdoches; Miss Ruth Weaver, Nacogdoches; Miss Lerley Birdwell, Trawick; Miss Cassie Russell, Nat; Mr. J. Coker, Mrs. Barrett, Mrs. Ratcliff, Miss Edna Gaston, Nacogdoches; Miss Bernice Brantley, Chireno; Mr. J. H. Day, Nacogdoches; Miss Arrington, Cushing; Miss Fenilla Spivey, Appleby.

The Club enjoyed an outing to Club Lake Saturday evening. We have all heard the good news that dear 'Doches has the Normal, and of course we have already been enlisting students from all over the state to be with us at the S. F. A. N. next year. N. T. S. N. is one of the best normals in the South, but we expect to have the best at Nacogdoches.

EDDIE ALDERS DIED SANITARIUM LAST NIGHT

The Young Man Accidentally Shot Thursday Night Succumbs to Wounds.

From Saturday's Daily.

Eddie Alders, the young man shot by his frightened sleeping companion, Jim Price, at the home of Mr. A. T. Stallings Thursday night, died at the hospital in this city last night (Friday) at 12:45, and his remains were prepared for burial and shipped by Cason, Monk & Co., to Woden this morning. The funeral will occur this afternoon at Jacobs Chapel.

The Sentinel is informed that both balls from the gun discharged at him passed entirely through the body, and there was never any chance for him to survive but that everything possible was done for him, and he made a brave fight for his life.

Mr. Alders was about twenty-two years of age, and those who know him say that he was a most excellent young man, highly esteemed by those who know him.

The young man who mortally wounded his companion is distressed over the result, and is said to be almost ready to collapse himself in his grief.

The sad affair is deeply regretted by the friends of all concerned.

MR. AND MRS. SEALE HOME FROM ATLANTA

Mr. and Mrs. Arthur A. Seale have arrived home from Atlanta, Ga., where they went to attend the national convention of the Women of the World, and report a most interesting trip, but are somewhat fatigued and indisposed.

Mr. Seale says that an epidemic of la grippe broke out in Atlanta while the convention was in session, and that very few escaped contracting it, and that two Circle ladies died with it.

The most important new legislation enacted by the Sovereign camp was the assessment of ten cents on each member to meet the emergency of the war instead of putting the whole assessment on those who are called to the service. It was also elected to loan money on real estate collateral, plans for which will be worked out, and a measure was adopted to meet the act known as the "Mobile Bill" which has hitherto kept the order from doing business in several states.

Mr. Seale had the honor of presiding over a session of the Sovereign camp while it was in session, the only member from Texas enjoying this distinction.

COUNTY ORGANIZATION COUNCIL OF DEFENSE

There has recently been organized in Texas an organization known as the "Texas State Council of Defense," which has for its purpose to give assistance in all matters pertaining to the war. Among those duties it will devolve upon the organization to encourage and give assistance in the matter of food conservation, the growing of more feed and food crops, assistance in getting recruits for the army, the flotation of the next liberty loan bond issue, etc., and the war department will work through this channel in a campaign of education. The state organization has appointed a committee for each county to work in conjunction with the state committee the county committees being appointed on the recommendation of the various county judges. The committee for Nacogdoches county is as follows:

O. M. Gibbs, Nacogdoches.
Mrs. W. S. Davis, Nacogdoches.
R. B. Walthall, Garrison.
H. P. Fall, Chireno.
S. H. Watkins, Linn Platt.
Jas. D. Greer, Nacogdoches.
R. R. Loy, Nat.

The county committee will get organized and map out a plan of work at an early date, and will be entitled to the earnest co-operation of the people of the county for the reason that the bulk of its work will be beneficial in a material way to those at home as well as to the war department.

Doing Good.

Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Jantzen, Delemy, Sask., says of it, "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being exceptionally fine preparation."

Dave Greer, a well known cotton dealer who has been spending the summer vacation with the homefolks at Appleby, was a visitor to the city today. Mr. Greer is contemplating joining the force of Nacogdoches cotton buyers this fall.

GOETHALS MAKES TENTATIVE OFFER

Washington, July 22.—General George W. Goethals, general manager of the Emergency Fleet Corporation, yesterday refused to either deny or affirm the report that he had written President Wilson and suggested his resignation. Members of the shipping board refused to discuss the matter. It is known that several members doubt that General Goethals made any such offer.

At the White House it was admitted that a letter had been received from General Goethals, but it was stated positively that it had contained no direct tender of a resignation. As to whether there was any inference that the canal builder stood ready to resign if the president thought it best for the speeding up of the shipping program, the White House maintained silence.

The consensus of opinion was that although General Goethals stood ready to resign the president would not accept his resignation at this time.

It is understood that within the last two days contracts for a large number of both steel and wooden ships have been signed, and that contracts for the two yards for the construction of fabricated steel ships have been put into shape for submission to contractors. It is expected that these contracts will be let some time early this week. It is understood that all points of variance on these terms have been compromised.

The plan for commandeering ships will be announced today or tomorrow.

Mrs. R. C. Gramling and daughter, Miss Willie Gramling, have returned from a very pleasant visit to the family of Charley Clark at Logansport. Mr. Clark formerly resided in this city and is known to many of our people.

Chamberlain's Colic and Diarrhoea Remedy.

Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.

LITTLE CHANCE TO ESCAPE THE ARMY

Washington, July 22.—Uncle Sam's not going to take any chances on his first drafted soldier boys faking physical disability. And you will have to be a mighty poor specimen physically not to be called on.

With the fateful lottery complete, the government yesterday issued special warning to examining physicians.

Not a loophole is left for a man to escape by fraud.

When the examining physicians or the local board, or both, are in doubt as to a man's physical fitness, the law is that he must be declared physically fit and held.

No drafted man will ever be given the benefit of the doubt.

Even if two physicians declare him physically unfit, the local board may, at its own discretion, may set aside both opinions and hold him.

No drafted man can escape by being sick in bed.

The examiner will be sent to his home. If convalescent, the board will wait till he is well, then examine him.

Every precaution is taken to prevent a drafted man having a "pull" with the doctor.

No examiner can pass on his drafted relatives.

Because your feet are flat don't think you can escape on that ground. You may not have "flat foot," the disease at all.

"A broad, flat foot," said the surgeon general, "is common among laboring men and negroes, and is in no way disabling. Flat foot disease is entirely different and the examiner can easily tell it."

A few of the things you might escape on:

Lack of moral understanding, abrupt depressions in the skull, curved spine, bridges and crowns involving more than half your teeth, pronounced goitre.

Tobacco heart won't exempt you.

Chronic rheumatism may let you out, as will webbed fingers, paralysis of one or more fingers, loss or serious mutilation of either thumb, total loss of index finger of right hand, total loss of any two fingers on the same, or loss of the second and third phalanges of either hand.

These conditions must be acute and unfit you utterly for military service or they won't bar you.

Are You One of Them?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. R. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

Mrs. Lola Fuller of Attoyac spent Saturday and Sunday with her friend, Mrs. E. D. Williams, in the city.

Cause of Despondency.

Despondency is often caused by indigestion and constipation, and quickly disappears when Chamberlain's Tablets are taken. These tablets strengthen the digestion and move the bowels.

Old Folks Saved From Suffering

Mrs. Mary A. Dean, Taunton, Mass. In her 57th year, says: "I thought I was beyond the reach of medicine, but Foley Kidney Pills have proven most beneficial in my case."

Mr. Sam A. Hoover, High Point, N. C., writes: "My kidney trouble was worse at night and I had to get up from five to seven times. Now I do not have to get up at night and consider myself in a truly normal condition, which I attribute to Foley Kidney Pills, as I have taken nothing else."

Mrs. M. A. Bridges, Robinson, Mass., says: "I suffered from kidney ailments for two years. I commenced taking Foley Kidney Pills ten months ago, and though I am 61 years of age, I feel like a 15-year-old girl."

Foley Kidney Pills are tonic, strengthening and up-building, and restore normal action to the kidneys and to a disordered and painful bladder. They act quickly and contain no dangerous or harmful drugs.

TO BE CALLED BY SEPTEMBER 1

Washington, July 22.—Before September 1 thousands of men sifted from the top of the draft list will be in khaki, it was officially predicted last night.

The war department notified Provost Marshal General Crowder that the first men would be placed in the ranks of the regular army and National Guard as soon as picked.

Disquieting reports of members of exemption boards resigning or refusing to serve reached the war department. But no delay by these evasions will be brooked.

Veiled threats to deal harshly with them were made by officials.

The draft law provides that any inexcusable evasion of their duty by exemption officers is punishable by fine or imprisonment.

Many of the resignations are tendered because the members fear to take "political risk."

As soon as the printed "master lists" for each district reach the boards they are ready to begin the sifting process. At first they will summon from the tops of the lists a number equal to twice their quota.

Owing to the large number of exemptions for dependency and physical reasons, this number will be insufficient in most districts and the boards will summon the next men on the list.

Official estimates are that exemptions will average more than 60 out of every 100 men.

Forces of clerks in the provost marshal general's office labored throughout the day to check the lottery lists and the first proofs of the printed "master lists" for the boards. The lists are being mailed special delivery to the 4557 boards.

Men on the lottery lists are barred from enlisting in any branch of the army or navy after their names have been posted.

Willie Bowden, one of the jewelers at Stripling, Haselwood & Co., arrived home yesterday from New York where he went to meet with the representatives of the New Edison Company, and reports a great trip. While in New York he met with 1200 hundred representatives of the company as a guest at a banquet at the Waldorf-Astoria Hotel. After his sojourn in the great city, he made a trip through a portion of Canada, and returning visited Niagara Falls, Orange, N. J., getting a glimpse of the famous Edison at this place, but not getting the opportunity to make his acquaintance. The whole trip was one of pleasure and interest, and the young man returns much refreshed for the outing.

Rev. Horace Cunningham of Sour Lake has been in the city several days being called up by the serious illness of his father, Rev. J. N. Cunningham.

Mrs. J. J. Lilly of Tyler is visiting her daughter, Mrs. W. R. McLain, in the city.

Whenever we read that somebody has been hit by a "moving train," we always wonder how the heck it would feel to be hit by a train that was not moving.—Beaumont Enterprise.

And when we read that a man has a "bright future before him," we wonder how he would feel with the thing behind him.

The Federal Land Banks are offering some more stock for sale, and the investment is looked upon as a most attractive one by many investors. The twenty-year bonds bear 4 1/2 per cent interest, payable semi-annually, and are exempt from taxation. The exemption from taxation brings the interest up to a good rate and the security is the best in the world, having the government back of it. The bonds are in denominations from \$25 up.

The indications now are that the value of the crop growing in old Nacogdoches county will be worth twice as much as any previous crop ever grown in the county, and a season of prosperity such as we have never known is bound to follow. Farmers will pay any store accounts that they happen to owe, finish paying for their homes if they are not already clear, and still others will buy more land, and business in all lines will be correspondingly increased. Come to Nacogdoches.

In his "Wise and Otherwise" column, John McLendon of the Tenaha Messenger observes: "If it should turn out that there is no such place as a burning hell, I know people who will be worried throughout eternity about what has become of old John McLendon." This would be "something to worry about," John, but why should you care if only those familiar with the interior workings of this infernal region are disturbed? I would be more disturbed in answering the inquiry of some sainted old mother in glory, if, perchance, I should be missing.

The program committee will meet in Nacogdoches Saturday to arrange a program and fix a date for the September meeting of the association at Henderson. So far this has proved to be a very valuable organization, and with the results so far obtained every newspaper man in East Texas should become a member and strive to be a member at the Henderson meeting.—Lufkin News.

The above refers to the program committee of the East Texas Press Association, whom we will be glad to have with us for this day.

The Nacogdoches Sentinel hasn't quit bragging about that city having been selected as the location for the Stephen F. Austin Normal School. And why quit bragging about such a proposition as that? It is a fine thing for Nacogdoches and well worth bragging about. It will mean the expenditure of many hundred thousand dollars, yearly, by pupils after the school is open. Tyler made a strong fight for the school, but lost, and it went to Nacogdoches. Tyler people are glad Nacogdoches got the school. It is to stay in East Texas, and the people of this section will receive the benefits that go out from the school which should, and doubtless will be, made on of the greatest normal schools in the entire Southwest.—Tyler Courier-Times.

G. N. WEAVER, Committee.

RESOLUTIONS—EDDIE ALDERS.

The following resolutions of respect were adopted for the deceased Eddie Alders by his teacher and Sunday School class of Fairview church, July 21, 1917:

1. Resolved, That we as a class realize the great loss we now sustain and are deeply grieved because of the departure of this member and friend.

2. That we greatly miss his presence, cheerful disposition, and willingness to share his part in social gatherings as well as in Sunday school.

3. That as a class and Sunday school we tender to the bereaved family and friends our deepest sympathy in this time of sorrow and pray that the Good Father may give them grace to sustain in this sad bereavement.

4. That a copy of this be sent to the bereaved family and that a copy be sent to The Sentinel for publication. Sunday School Teacher and Class.

The Sentinel wishes Texas could have been spared the mess and stir that will be caused with the special session of the legislature. It is seldom that any immediate good ever comes from such proceedings and now while the country is so much engaged with the great war which is stripping the country of its young manhood, and we need to conserve all our resources, it is extremely unfortunate that we kick up a family row of such magnitude. With this idea in view, The Sentinel is not going to have much to do with the "row" and hopes that the press of the state will do likewise, for in the absence of agitation the matter can be more quickly and adequately settled.

LONGVIEW, TEX. MAN CAN NOW WORK AS GOOD AS ANYBODY

Writes Tanlac Co. that he is now Gaining 5 Pounds a Week—Only Weighed 130 lbs.—Now Weighs 155

One of the strongest evidences of the rapidly growing popularity of Tanlac and of the wonderful results it is accomplishing is the large number of letters that are being received daily from well known men and women throughout the South:

Scarcely a day passes that scores of letters are not received from grateful users of Tanlac and their statements are indeed remarkable. Among the number recently received is the following letter from William Breed, of Longview, Tex., which is published word for word, just as it was written.

Longview, Texas, January 13, 1917.

To Whom it May Concern:

On November 25, I bought one bottle of Tanlac and commenced taking same according to directions. I weighed only one hundred and thirty pounds. In ten days I gained seven pounds and I am gaining at the rate of five pounds a week and weigh one hundred and fifty-five pounds at the present time. Tanlac beats any medicine that I have ever taken to build up a run down system. I would not take \$100 for what it has done for me. It is the best medicine that I have ever taken for catarrh of the head and I have tried several different kinds of catarrh medicines. My catarrh is nearly gone, also my stomach trouble of which I have been suffering for more than twenty years has almost disappeared, and I give all praise to your great medicine. When I commenced taking Tanlac I could not do a day's work but now I believe I can do as much hard work as any man.

Very truly,
William Breed.

R. F. D. No. 7, Longview, Texas.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros & Smith, in Garrison by Garrison Drug Co., in Appleby by Weatherly Bros. and in Sacul by Arkan Cranford.

A bumper crop of feedstuff with which to help feed the people, and cotton with which to make ammunition, is coming along in old Nacogdoches county. Truly, we are doing our bit in good old 'Doches, and a kind providence is smiling upon us.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make this beauty lotion for a few cents and see for yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine colth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very small cost and the grocer has the lemons.

WOULD YOU LIKE THE BEST?

Here are a few extracts from letters of prominent business men who have had the proof as to the ability of our graduates:

"Having employed several of your graduates, I think your institution the best of its kind in this country."

"We have had six of your graduates in the past few years, they were all good; send us another."

"There is such a scarcity of business colleges who fit their students for real business that we cannot refrain from writing and indorsing your college, since several of your students have proven competent in our office."

"As you all know, I have had a number of your students in my office. I take this opportunity of saying that every student that I have had from your school shows superiority of training over students that I have had from other schools."

"I have given your graduates a thorough test, and have found them accurate and quick with their work. The thorough and practical training you give fits them for any kind of a position."

"We have one of your graduates as stenographer in our legal department at a handsome salary, giving entire satisfaction. The work is extremely difficult, requiring the greatest skill and accuracy, reads her notes like print. We wish to commend your school for turning out such excellent graduates."

"If all your graduates are as proficient as the three young men we have in our office you are certainly doing a great work for not only the young people but the business men as well."

A large firm of Cotton Buyers of East Texas says:

"We predict much success for your Cotton Classing Department. It is thorough and up to date and is in charge of capable instructors."

"It is indeed a pleasure to use one of your Steno operators. He takes dictation so easily and when called upon to read back,

The above three items are being run this week on our bargain counter, and they seem to all be popular, so we have decided to continue them another week.

THE SELECTIVE DRAFT LIST

Following is the selective draft list for Nacogdoches county as best we can deduct it from the newspaper reports, and is not official. It is approximately correct, but the official list may make some changes, and the Board will not be governed by this list in making their call, getting their instructions direct from the war department, which have not yet arrived.

The quota for Nacogdoches county is 245. The Board will be instructed to call for double this number, or 490, in the order in which they come, from which to get the quota, and if they do not get the full number in this call the double number will be disregarded, and they will continue to draw from the list above the gross number until the call is filled. In other words, the whole list is subject to their disposal, in the order in which they come in their numbers until they fill the list, but it is estimated that they can fill it in the double number, and that number is therefore picked out of the list as best we can arrive at it from the information at hand and published below for the information of the readers who have appeared anxious to get the first news they could obtain in the matter:

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

NEW HIGHWAY LAW IS DECLARED VALID

Austin, Texas, July 17.—Up-holding the constitutionality of disputed portions of the state highway commission law, Judge George Calhoun of the Fifty-third district court denied the application for an injunction to prevent the collection of automobile registration fees by the department. The judgment entered by the court in the case of P. S. Atkins against Curtis Hancock, chairman, and other members of the highway commission, follows:

"Under the law and evidence in this case, it appearing to the court that under the caption chapters 190 and 207, acts of the regular session of Thirty-fifth legislature, that the acts in question, attacked herein as being unconstitutional, deal solely and alone with the highways of the state and that there is no other purpose expressed either in the title or in the acts themselves than the construction and maintenance and regulation of the highways of the state and to regulate the operation of vehicles thereon.

"And it further appears to the court that it is one of the functions of government to establish and maintain public roads, and that over said roads the state by and through the legislature has absolute control and that, in the absence of national legislation covering the subject the state may rightfully prescribe uniform regulations necessary for public safety and order in respect to the operation upon its highways of all motor vehicles, and to this end it may require the registration of such vehicles and charge therefor a fee graduated according to the horse power of the engine and charging of an annual sum for the use of the highways by automobiles for the purpose of raising revenue to be applied to the building and upkeep of the public roads of the state.

"And it further appearing to the court that the acts attacked herein by the plaintiff as being unconstitutional are not violative of the constitution of the state of Texas, but come within the police power of the state, and that therefore in passing the laws attacked in this suit by the plaintiff as being unconstitutional the legislature of the state of Texas was acting under the exercise of police power uniformly recognized as belonging to the states and essential to the preservation of life, health, safety and comfort of citizens of the state of Texas.

"Therefore, the application for a temporary injunction as prayed for by the plaintiff, is refused."

To which judgment the plain-

tiff excepted and gave notice of appeal.

Different—But Satisfactory.
Indigestion causes worry, sick headaches, biliousness, bad breath and constant distress. W. A. McRae, Raleigh, Ga., writes: "Foley Cathartic Tablets cleanse my system thoroughly and do not gripe or hurt at all. I find them entirely satisfactory and wonderfully different and more pleasant than any other pill." Stripling, Haselwood & Co. dwl

TEXAS FARM LOAN BANK LEADS ALL.

Washington July 18.—Texas leads all states in the volume of farm loans being made by its Federal Land Bank. A tabulation by the Farm Loan Board up to and including all business to July 15 shows that the Houston bank is far ahead of its nearest competitor. Texans loans total \$2,112,313.50, and loans in California, the second state, totals \$1,774,224. In all 432 farm loan associations have been chartered with total loans of \$20,699,337.45. Farmers are receiving 5 per cent money at the rate of half a million a day, the board announces.

Just What She Needed.
When women complain of weariness, dull headaches and similar ailments, they accept those troubles as their lot because they are women, when the ailments may be the results of disordered kidneys. Mrs. Mary V. Bunker, Milton-on-the-Hudson, N. Y., writes of Foley Kidney Pills: "Just what I needed"

News has been received in the city that two of the children of Mr. and Mrs. J. O. Cox are seriously ill with typhoid fever at their home in Sour Lake. This good family were reared and have spent most of their lives in Nacogdoches, moving away a few years ago, and have many friends here whose hearts will be made sad with this news, but who join in the hope that the children may respond to treatment and soon recover.

Has Had Beneficial Results.
A man is not treating himself fairly when he neglects backache, rheumatic pains, dizziness, stiff joints, sore muscles, or other symptoms of kidney or bladder trouble. Isaac B. Turman, 1277 Washington Ave., Ashbury Park, N. J., writes: "I used Foley Kidney Pills and had the most beneficial results from same." Stripling, Haselwood & Co. dwl

NACOGDOCHES TRADITIONS

Among the numerous personalities that might be mentioned as belonging to the list of "Nacogdoches Traditions," there is one not heretofore mentioned in these writings. This one may be represented or designated by the big letter "I." In other words, I, myself, ego, or me, the writer hereof.

I landed in the good old town of Nacogdoches on the 18th day of December, 1848. I was a light-haired lad of six years. My father had lived here before, in a log cabin near where Dr. Pierce now lives, and then on the road going south towards Procella crossing. By strange coincidence he afterward, in 1858 and till 1866, owned the same land, and his dwelling is now the John P. Davidson place. He was sheriff and district clerk while I was plow boy, school boy and Confederate soldier.

The Mayfields came from Pulaski, Tennessee. They are not responsible for others like Sam Houston, Davy Crockett and Judge Reagan being from Tennessee. There are other older residents far more important. And it seems that those early pioneer patriots were of a peculiar and superior type of humanity. Their names are such as Sterne, Taylor, Hoya, Voigt, Starr, Forbes, Edwards, Whitaker, Crain, Raguet, Arnold, Hotchkiss, Blake, Barrett, Rusk, Kaufman, Roberts, Garrett, Skillern, Sparks, Watkins, Thorn Irion, and the list could not be much longer. "There were giants in those days," heroes and patriots.

The first house this writer was in stood on the lot where the Boy Scouts recently erected a flag pole. It was the original old two-story Simpson house where many notable events occurred. From the front porch of this noted hostelry the angelic Miss Helena Rusk presented a flag to Bill Clark's Company G., in a most pathetic style that brought tears to all eyes, and inspired the fullest fire of patriotism in the hearts of the brave soldiers. Clark's company, and Voigt's were in Young's regiment. They first walked to Navasota, afterwards, from Tyler to Arkansas, and all over Louisiana, too. John Lewis, Fritz and Tille Hoya and other living witnesses were in it, but most of them have crossed over the river and are resting under the shade of the trees with the immortal Stonewall Jackson, who so expressed it, Bill Clark, Dock Simpson, Bill Harris, Fred Voigt, Sterling Smith, Maroney and others who have joined the ranks over there, and the few who are left will soon gather at the river. The will of God is accomplished; so mote it be.

Good For the Little Ones.
Every year sees a big increase in the demand for Foley's Honey and Tar Compound for coughs, colds and croup. J. A. Parger, Lundgren, La., writes: "I gave my children, aged two and four years, Foley's Honey and Tar for severe colds, which gave almost immediate relief. I also took same with good results." CITATION BY PUBLICATION.

To the Sheriff or Any Constable of Nacogdoches County—Greeting:

You are hereby commanded to summon G. R. Greene by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Nacogdoches County, to be held at the Court House thereof, in Nacogdoches on the 1st Monday in Sept., A. D. 1917, the same being the 3rd day of Sept. A. D. 1917, then and there to answer a petition filed in said Court on the 11th day of July, A. D. 1917, in a suit numbered on the docket of said Court No. 448, wherein Mrs. Della Greene is Plaintiff and G. R. Greene is defendant, and said petition alleging: Plaintiff and Defendant were lawfully married in the year of 1910 and continued to live together as man and wife until March, A. D. 1916. That during their cohabitation Plaintiff made defendant a loving and true wife, discharging all duties of a dutiful wife. That during said relationship there were born to Plaintiff and Defendant two children, a boy and a girl. Alma, a girl of 5 years of age, and Marvin, a boy 3 years of age. That said children are now with Plaintiff and she is caring for them. That notwithstanding her discharge of all wifely duties toward said Defendant, he in total disregard of his duties as a husband and in violation of his marriage vows, and obligations in the month of March abandoned this Plaintiff and in illicit companionship with another woman left his house and wife and their children, and in criminal relations with her, fled the country to parts unknown to Plaintiff, since which time she has never heard one word from him nor learned his whereabouts.

That the conduct of Defendant constitutes such cruelty towards Plaintiff as to render their ever living together again insupportable.

Therefore Plaintiff prays for judgment for divorce from said defendant and for the custody of the children and for general relief as she may be entitled to receive in law and equity.

Heberin Fail not but have before said court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and Seal of said Court, at office in Nacogdoches, this the 11th day of July, A. D. 1917.
N. B. HALL, Clerk,
District Court, Nacogdoches County.

MEXICAN COUPLE WERE MARRIED LAST NIGHT

Simon Solise and Miss Mary Buster, a young couple of Mexican people living out a few miles from town, were married at the Stone Fort Bakery last night, Esquire Frank Huston officiating.

Scott Chadwick returned to Marlin last night for a further treatment of the hot baths. He came home about a week ago from Marlin where he had been several weeks taking treatment for a rheumatic trouble with which he suffered, and from which he received much benefit, making the trip at the advice of the physician treating him who advised that a week's rest would be good for him. He hopes to be entirely rid of his rheumatism with this second treatment.

Women's Minds are Cleaner.

People's Home Journal. "Of course women should vote," he said. "Women deserve the suffrage as much as men—more, because their minds are purer and cleaner." "Cleaner?" cried the sweet young thing he had taken in to dinner. "Of course they are, ever and ever so much cleaner. But how do you know that?" "Because they change them so much oftener," said he solemnly.

WOMEN OF MIDDLE AGE

Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headache and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache of pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take." —Mrs. MARGARET QUINN, Rear 259 Worthen St., Lowell, Mass.

Other warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dizziness, palpitation of the heart, spots before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness.

If you need special advice, write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

SPIDER OIL WELL PRODUCING ICE

Mansfield, La., July 18.—About a year ago a well was drilled for oil in the Spider field, seven miles southwest of Mansfield, and while oil was not found in paying quantity a very strong pressure of gas was encountered, and at one time there was quite a gas blowout, but the well was abandoned after being capped and has thus remained all this time. Wednesday morning while W. N. Nelson of this place was driving by, he heard the noise or rumbling of the well and on going closer noticed something on the end of the cap, where there was a tiny gas escape hole, which he discovered was ice. The ice had formed around the head of the pipe where it was capped and had formed a round shaped piece as large as a man's head. Mr. Nelson broke off a big chunk and brought it to Mansfield, and exhibited it to a number of people. The ice smelled very strongly of oil or more like gasoline, but was as cold as the regular manufactured ice.

A. C. Lesterjette has returned from Center where he has been some days drilling a water well for the ice factory for that place, and says that he succeeded in bringing in a very fine well.

BITTEN BY RATTLER—CHOPS OFF FINGER

San Antonio Texas, July 18.—Rare presence of mind was displayed by J. A. Baker, roadmaster for the Southern Pacific railroad at Uvalde, Texas, Wednesday morning when he was bitten on the middle finger of his right hand by a rattlesnake. Seizing the finger with his left hand and compressing it to stop the flow of blood he called to his daughter to bring an ax and placing the wounded finger on a block, ordered her to chop it off just below where the fang marks were visible. Two blows were necessary.

Mr. A. Tubbe, one of Nacogdoches county's most stirring and progressive farmers, was in town yesterday afternoon looking after some business interests. When seen by the newspaper man Mr. Tubbe said that his crops were fine, that he would have plenty of corn to do him, and fine crops of other stuff.

HENRY C. FULLER REJOICES WITH US

Editor Sentinel: I was glad, indeed, to know that Nacogdoches had secured the location of the Stephen F. Austin Normal School. It is fitting that Nacogdoches, more than any other place in the district—more than any of the other towns that were candidates for the location of the school—should have the location and in saying this I admit and know that all the other towns are most worthy. Nacogdoches is connected with the name of Stephen Fuller Austin in more than one way. History says that had it not been for the kindly advice of Austin, the Spaniards would have followed and killed the Americans of the unfortunate Fredonian Revolution, a revolution that still sounds very near and dear to many old timers because its leader, Col. Haden Edwards, was a man whose name and fame is intimately connected with the early history of Nacogdoches. It was Austin who accompanied the Mexicans on their march to Nacogdoches when they had set out to destroy the Fredonians, and he came for no other purpose than to protect the Americans and save their lives.

Romance and tragedy will forever cling to the name of Austin, the Father of Texas, and the student of history in years to come will trace with admiration his heroic and patriotic deeds in Texas, when he and his band of immigrants were struggling to obtain a foothold in the wilderness. The State of Texas ought to buy the spot at old San Felipe where Austin lived and where the first meeting in behalf of Texas independence was held. It is a hallowed place, above all others in Texas, in my opinion, save and except Washington and Independence on the Brazos. Some years ago I spent an entire day at old San Felipe going over the ground and imagining how the place looked in the days of Austin. I could find only one thing that was there in the days of Austin and that was the old well rock in from the bottom. I was shown the place where stood the building in which the famous meeting was held, that called for Texas independence. You will remember that Sam Houston who had been on a mission to the Comanche Indians at San Antonio, stopped at that meeting on his way back to the Indians in Arkansas. It was his first introduction to Texas and

he resolved to cast his lot with Austin and his people.

I do not know just what the program will be, but I would imagine that the Normal will need a permanent home in the shape of a new building. If so I want to suggest that the rock of the Old Stone Fort be used in some way in its construction, and I think as a mark of their appreciation the people of Nacogdoches should every year donate by public subscription money enough to buy two scholarships—one for a young lady and one for a young gentleman in the school and as a further mark of respect and appreciation, when the building is finally dedicated, have a relative of Austin deliver an address.

Very truly,
HENRY C. FULLER,
Editor Southwest.

MARRIED AT MELROSE THIS MORNING

Mr. Brann Fuller, of Houston, and Miss Lois Blakey were married this morning at the residence of the bride's parents Mr. and Mrs. J. D. Blakey at Melrose in the presence of a large number of young people the friends and acquaintances of the bride and groom, the ceremony being pronounced by Rev. John N. Wilson, who said the words that united the father and mother of the groom at Swift, 27 years ago. The groom is the second son of Henry C. Fuller, editor of "Southwest" and was born at Nacogdoches. He is a most estimable young man and gentleman in every sense of the word and holds an excellent position in the passenger department of the International & Great Northern Railway Company, at Houston, Texas. The bride is a splendid young woman, whose friends wherever she is known are numbered by the score. Accompanied by several friends the young couple came to Nacogdoches this afternoon and took the train for Houston by way of Jacksonville and Palestine, and on arrival in Houston will at once set up housekeeping for themselves, their home having already been prepared.

The Sentinel joins in wishing for this young couple all that life holds worth while and without intending to even hint that the Houston girls are not the most worthy, accomplished and beautiful in every respect it cannot help but congratulate the groom on showing his good sense in coming back to his native town and county to select his life partner.

Dr. Keith Simpson, who had been in the city several days visiting with the homefolks, left a day or two ago for Washington, D. C., where he goes to take service for his country with the medical corps.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

STATE UNIVERSITY WILL CONTINUE WORK

The Board of Regents of the University of Texas, at its last meeting in Galveston, on July 12-13, instructed me to announce that adequate financial provision has been made for the maintenance of the institution for the session of 1917-1918, and that the University will open in accordance with the following schedule, as printed in the last catalogue.

September 17, Monday. Examinations for admission begin, continuing through Thursday, September 20.

September 26, Wednesday. Registration begins, continuing through Saturday, September 29.

Candidates for degrees in 1918 may register on any of the four registration days; other former students only on Friday and Saturday; first-year students only on Wednesday and Thursday and the afternoon of Saturday. Students who register after Saturday, September 29, will be required to pay a fine of three dollars.

September 27, Thursday. Postponed examination, examinations to remove course conditions. On or before Thursday, September 20, the student must make application, either in person or by mail, to the dean of his department.

September 27, Thursday. Registration begins in the Department of Medicine, continuing through Monday, October 1, Saturday, 29.

Last day for handing in applications for degrees.

October 1, Monday. Opening exercises of the Department of Medicine.

October 1, Monday. Fall term classes begin.

MARRIED YESTERDAY.

Miss Anna Barron of this city was married to Mr. Gary B. Sanford of Timpson yesterday morning about eleven o'clock. The ceremony was performed at the home of the bride, and the happy couple left immediately afterward for a honey-moon trip to Houston, Austin, San Antonio and other places.

The fair bride has been teaching in the public schools of Timpson for several years past, and the groom is a prominent young business man of that city.

The Sentinel joins the many friends of the happy couple in congratulations and good wishes

Dr. G. P. Campbell and Messrs. W. C. Wisener, W. O. Watkins, J. T. King, Chas. Barnett and C. S. King, all well known citizens of the Douglas country, were visitors to the city today. From Mr. Wisener The Sentinel reporter learns that Mr. Dunk Kelley, who was so painfully injured in an automobile accident at Arlington a few weeks, report of which was made in this paper, was able to be moved home about a week ago and is doing nicely. CLIP THIS OUT AND PIN ON WIFE'S DRESSER

Cincinnati man tells how to shrivel up corns or calluses so they lift off with fingers.

Ouch ! ! ! ? ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says—freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a bottle for you.

Messrs. Bud Campbell and T. L. Blacksher well known citizens of Appleby, were visitors to the city yesterday afternoon.

BE RID OF THAT ACHE.

If you are a sufferer with lame back, backache, dizziness, nervousness and kidney disorders, why don't you try the remedy that your own neighbors recommend?

Mrs. H. M. Reid, 412, S. North St., Nacogdoches, says: "Some time ago I publicly recommended Doan's Kidney Pills and am pleased to again say a good word for them. Backache hindered me at my work and sometimes was so intense as to keep me awake at night. My kidneys acted irregularly, and though I tried many medicines I got no relief until I took Doan's Kidney Pills, procured at Mast Bros. Drug Store. They gave me the desired relief."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Reid had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Messrs. D. M. McDuffie, R. B. Walthall, J. J. Frederick and E. Y. Blount, all well known citizens of Garrison, were visitors to the city today. Mr. McDuffie is taking a live interest in the proposed highway from Tyler to Nacogdoches, as are many other citizens of his town, and reasons that many more people would be served by bringing the line by his town, that it could be constructed cheaper for the reason that it would connect at Garrison with the Shreveport-Houston highway, and that Mt. Enterprise would be given its nearest railroad connection in the event she should ultimately lose her railroad, an unpleasant condition that has been prophesied for that town.

GRAVEYARD WORKING

All parties interested in the cemetery at Old Union are requested to come with tools and dinner, prepared to stay with us until the place is thoroughly cleaned up.

R. J. CHRISTIAN.

Messrs. Homer Dotson, E. L. Ruark, and L. J. Ross, prominent citizens of Mt. Enterprise, were visitors to the city today, mixing business with pleasure and meeting with old friends. When seen by the newspaper man, Mr. Dotson said that the people of Mt. Enterprise were very anxious that the proposed highway from Tyler to Nacogdoches, on which line his town is located, come direct to Nacogdoches over old Henderson road, reciting for reasons that Mt. Enterprise merchants bought the bulk of their groceries, oils and many other supplies from this town, and they want shortest and most direct route to Nacogdoches. In the absence of this direct line, he says, much of this trade which Nacogdoches now enjoys will go to Tyler.
