It may be all right, but it is peculiar that Lufkin, our neighbor down the line, never suffered a water famine until the government began to restrict the sale and manufacture of beer and booze. How about this, Brother Watford?

The information is gleaned from the Cherokee county papers that Col. W. J. Bryan, the great American orator, will lecture at the Presbyterian Church at Ross next Thursday afternoon. This will be an opportunity for any who have not heard the great orator to do so at a nominal cost and very little trouble.

Lufkin, our neighbor across the creek, seems to be getting up against it in the matter of water supply, and the people are holding mass meetings to devise ways and means to overcome the difficulty. If she is put to the extremity, she may run a pipe line up and attach to Nacogdoches' inexhaustible supply of the best water in the world and have no more worry.

The news breaking in the late dispatches indicate that preparations are being made for active participation by Japan in the war, the plan being to give that nation the task of saving the Siberian railway and with it the rich food raising and mineral bearing districts of Siberia from the German invasion now being pushed through Russia. Japan would work in alliance with the United States, and if the two nations can work out a program that will not conflict with any present or future operations, old Europe will receive an awakening with these new forces that will have great bearing in bringing the war to a more speedy close.

Any business man will tell you that he is having trouble now in getting shipments of the goods he orders by reason of the traffic congestion of the railroads of the country. Many business men have practically been put out of business for this reason, and more will suffer for the government must give right of way to war supplies and foodstuffs with which to feed the soldiers and take the allies. It is the responsibility of our government and authorities to the soldier that this condition will grow worse for the reason that there will be increasing traffic in the matter of handling the supplies to and from the training camps, and altogether it does not take a very great mind to understand that we cannot hope for relief for a long time when may come under the class of necessities. This being true, the people of the South should grasp the idea before it is too late that the next cotton crop will be left in the communities in which it is grown to this season, and with such a situation there would be a panic in the cotton market is conceivable.

One of our correspondents has been informed that the city of Nacogdoches has been planning to construct a large addition to its water works, which will increase the capacity of the plant to supply the city with water for the purpose of irrigation. This was promised by the city council in a recent session. The city council has also been informed that the city of Nacogdoches has been planning to construct a large addition to its water works, which will increase the capacity of the plant to supply the city with water for the purpose of irrigation. This was promised by the city council in a recent session.

The number of food crops may prove to be a serious proposition to the people of this section, unless President Hoover's plan to have the whole of the United States planted to food crops for the home people, who are going to be made to feel the shortage of food supplies in case the weather should prove unprofitable for crops. There is no necessity for a man in the city to be without garden truck for his table, be he rich or poor, young or old. Practically every town of any size has a good water system, and this being a fact, moisture can be obtained in these towns sufficient for citizens to raise their gardens and this may prove to

The U. S. Food Administration says: "Save Fats"

AND IT ADDS: "To save does not mean to do without. Use vegetable fats instead of lard and butter in your cooking."

THAT is the direct appeal of your Government. It calls for no sacrifice on your part.

No sacrifice of nutriment because vegetable fats are rich, wholesome and pure.

No sacrifice in economy because vegetable fats cost less than butter or lard.

The only change you are asked to make is a slight change in the way you cook—the shortening you use.

Fortunately, the country has right at hand an abundant supply of nutritious vegetable fats—of which Cottolene is a well-known and dependable example.

The change from lard and butter to vegetable fats is both simple and patriotic. Cottolene meets the needs of wholesome cooking, the requirements of economy, the wishes of the Government.

And what is the reason for the Government requirements? Simply this:

"Pork, ham, bacon, lard, condensed milk and butter can be shipped in concentrated space"—to feed the under-nourished women and children in stricken countries—to feed our own fighting men and the men of our Allies who are fighting in our defense.

WITH these compelling facts in mind, is it not a clear duty to put patriotism above cooking customs and use the nutritious, economical vegetable fats which nature has abundantly supplied?

Make your kitchen a patriotic kitchen and remember as you cook—every ounce of vegetable fat you use instead of lard and butter may mean saving the life of someone somewhere in the world.

CITY COUNCIL ACCEPTS THE SEWER SYSTEM.
At a meeting called for the purpose held Thursday night, the city council accepted the new sewer system of the contractors, finding that the contractors had complied with all conditions and stipulations.

The council now insists that all citizens subject to the service have connections made with the sewer system at once that the service may be inaugurated fully and completely as intended and the best results be obtained. Any not familiar with the provisions and requirements may consult with the city engineer appointed for the purpose, or obtain a copy of the ordinance by calling at the city hall.

With this improvement the city of Nacogdoches has a sewer system which would do credit to a town of several times the size of this, and of which we may feel proud, as no single improvement could be worth more to the city. Added to the convenience afforded, nothing could contribute more to the health of the people of the town, and while it imposes a burden at first, this will not equal the doctor's and drug bills that would have to be borne in its absence, and this burden will soon pass away, the council having wisely arranged the matter in a way that the burden would be automatically lifted when the system

is paid for, and giving service in return while we are paying the bill. As there is no means of escape from it and should not be—let every one connect up with the system at once so that the city can be put in perfect sanitary condition before the approach of the warm weather to the end that we may enjoy all the blessings that good sanitary regulations can bring to us at the earliest possible moment.

The "less" days have been extended to crime and Fort Worth now has a "crimeless week". Let the good work go on, brethren.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED
Look, Mother! If tongue is coated, cleanses little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

MUST GET PERMISSION TO ORDER NORTHERN CORN
March 1.—Federal Food Administrator for Texas, E. A. Peden, was notified today by the United States Food Administration that to provide a sufficient amount of corn for allied purposes the next three weeks to withdraw from five hundred thousand to seven hundred and fifty thousand bushels of corn per day out of the market receipts which are estimated between a million and a half to two million bushels per day and the food administration has arranged for the appointment of committees in the grain exchanges of Chicago, Minneapolis, Duluth, Milwaukee, Omaha, Kansas City and St. Louis to secure this needed corn.

This means if it becomes necessary to ship any of this corn to Texas permission must be secured from Mr. Peden, Mr. Hoover's telegram received today says:

"In order to secure the minimum amount of corn which present transportation affords where it is required from the above markets the food administration will co-operate with dealers to secure cars and you will receive applications from dealers." Every War-Savings or Thrift Stamp you buy brings the end of the war closer.

MUST HAVE LICENSE.
The Sentinel is in receipt of a communication from County Food Administrator Walthall in which he says: "Any one who handles chickens and eggs by the coop and case must obtain license from Washington, D. C., Mr. Collins also says that it is certainly a violation of the spirit of the rule prohibiting the killing of hens and pullets for any person to kill a hen or pullet prior to April 30th."

Mr. J. C. Anderson and son, Hollis, of the Red Oak community, were Sunday visitors in Nacogdoches.

TAKES OFF DANDRUFF, HAIR STOPS FALLING
Save your Hair! Get a Small Bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and itchy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair. Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

**THE FARMER—ONE OF UNCLE SAM'S DEFENDANTS**

Written for the Texas Food and Feed Production Campaign by D. B. Osborne

**Mr. Farmer:** The above picture exemplifies the vital importance of your position in the World War—the fight for freedom and democracy against German autocracy.

Upon you is placed the grave responsibility of producing abundant crops with which to feed and clothe our army and navy; the armies and navies of our Allies—our own people at home and the peoples of our Allies in Europe.

Failure would bring disaster to our army and an untimely and unnecessary death to many of our boys who have gone forth to battle in defense of our liberty.

But, Mr. Farmer, we know that under the great responsibility placed on you by our Government, that there is no such word as "fail" in your vocabulary and that nothing short of insurmountable providential causes could prevent your answering fully to this responsibility.

However, maximum crops can only be had by the judicious and intensive use of fertilizers, good seed, thorough cultivation, and labor-saving machinery.

One of your most pressing problems and one to be solved upon without delay, is the matter of obtaining your fertilizer.

In spite of the best efforts of the manufacturers and the Government, materials for making fertilizers are scarce and high in price. Therefore, it is all the more necessary that what fertilizers are to be distributed, should be used upon soil that has received the very best preparations the farmer is capable of giving.

The mobilization of our army, requiring a maximum movement of troop trains and supply trains, has over-taxed the capacity of our railroads as never before, and in order for fertilizers to be distributed this season, the movement must be accelerated, and the unloading of cars at destination be done with utmost despatch. Every car must be loaded to capacity.

Today fertilizers are cheaper than farm crops or farm labor. A bale of cotton, a bushel of corn, oats or wheat, will buy more pounds of fertilizers now than ever before, hence to assure the performance of a patriotic duty, with great profit to yourself, order your fertilizers promptly so that you may be sure to get them—and when you get them, use them with the greatest degree of intelligence.

Satisfactory results are bound to follow—both to you and to the Government.

**A MESSAGE TO THE NATION**

Nature has implanted in every human being a sense of justice. This sense of natural justice does not emanate from any religion or creed; it is the common possession of humanity. It constitutes the one great distinguishing mark between man and the animal. And the more highly educated, the more highly refined a man becomes, the stronger is his sense of natural justice. We condemn a violation of natural justice, not because we learn from a man or a book that such an action is worthy of condemnation, but because it violates that conception of justice which was born in us.

We do not have to be told that it is wrong to torture a helpless child. We do not have to be told that it is wrong to go to a farm house and burn it to the ground, torture its inmates, and then throw them into the burning ruins of their own home. Such things are repugnant to our sense of natural justice.

It is this elementary attribute of humanity, this quality which distinguishes man from the beast, which has been violated by Germany. Not only has natural justice been violated, but its violation defended by emperors, preachers, philosophers, teachers, and that mass of individuals who sympathize with the German cause.

While the most enlightened teachers of humanity are telling us that man by aspiration and effort can raise himself to partake of the Divine nature, Germany is teaching and practicing the doctrine that man should invert the theory and take his place amongst the lowest types in the animal world. They hold forth as the goal of human ambition, after centuries of upward struggle, the figure, type and mentality of a beast rather than that of a God. The animal which lives on the flesh of others, whose right to existence is based only upon its strength and its ability to crush its prey, would appear to be the German ideal.

It is largely because the German idea is so repugnant to us as enlightened Americans, because their practices send a shudder through every fibre of our bodies and produce such nausea in our souls, that we are at war with Germany today; and it is because of these conditions that every decent, honorable, thinking man must pledge, if necessary, his fortune, his life, his all, to eradicate this unspeakable thing which has fallen like a curse upon the sons of men.

Conceive, if you can, the condition of this world if we allowed such doctrines to prevail. Property would go to the man with the strongest arm and the most unscrupulous mind. Liberty would die a shameful death. Freedom would shriek as Justice falls. Religion would perish from the earth and a false God—one of blood, iron and beastiality, would be set up for the worship of a cringing, cowering humanity.

There are indifferent ones who say that such things can never happen in this country. These people do not realize that one of the penalties—the greatest of all penalties—which we should pay for defeat would be the Germanization of our people. One of the terms of our defeat would be the privilege of Germany to trade, teach and colonize freely in this land of ours. One of the things coveted most by the German mind is the souls of men, for when they have these they have their bodies, their wealth their all, and if during the course of the next generation the Germans could capture or even deeply influence the soul of America they would consider that they had won the greatest victory in the history of their Nation.

As citizens of an enlightened democracy we must fight by every means in our power this menace which would steal our souls and those of our children. No greater tribute was ever paid to a human being than that paid to one of the old

kings of England of whom it was said:

"His life was gentle, and the elements so mixed in him That nature might stand up and say to all the world 'This was a man.'"

It is for such an eulogy we all yearn, unconsciously, if not consciously, and those who would lay restraining hands upon us as we aspire are our mortal and immortal enemies.

There is a practical side to every question, however great and spiritual that question may be. The warfare on behalf of your better self, for your higher interest, and that of your children, is being waged by brave men who have the profoundest claims upon your sympathy and assistance. It seems a pitifully small and totally inadequate thing that you can do, but yet if that is all you do, and do it to the limit of your ability, place on record your purchase of a Liberty Bond when the Government calls upon you in the very near future.

**TO THE OLD WOMAN AND THE NEW WOMAN**

Greeting. The best kind of men, the men who count for most in the world, the men who have "done things" almost without exception have been inspired by women. Dante was inspired by Beatrice whom he saw only once; Socrates was inspired by a lady of whom he saw and heard too much. Henry VIII of England made history at the instigation of a number of ladies. Shelley wrote some of his best work under the influence of Mary Wolstonecraft—before she became his wife. But these women never did anything. They stood on pedestals and radiated inspiration.

Times have changed, and apparently women have changed. I do not know today of a single woman of my acquaintance, nor do I read of one in contemporary history, who is willing to be a silent partner in the business of a man's life, whether that business be running a kingdom, writing poetry, thinking great thoughts, or running a business.

The influence which women now exert and the inspiration which they offer to the male of the species comes from their leadership in human activities.

Those of us who are interested in the raising of the Liberty Loan in this section gladly accept the new order of things and call upon the new order of women to inspire and influence the men of the district by their actions and their example rather than by any attempt to stand on a pedestal and let somebody else do the work.

Woman today is claiming equal rights with man, and cannot expect to enjoy these unless she is willing to take her share of the responsibilities which rights and privileges always carry with them. The woman who believes in the equal civic right of the sexes is bound to take at least as active a part in the war as do the men. She can do no less unless she wishes to violate her own creed.

Let no one suppose for one moment that the writer of these lines imagines that the modern woman is less approachable on the grounds of her womanhood and her motherhood than the old-fashioned woman who was content to knit socks, wash the children, and inspire her husband; but it is permissible to point out that the newer type of woman should help in the Liberty Loan Movement because she is a woman, a wife and a mother, and because in addition to all these things she is bound absolutely by the creed of the new womanhood to vie with men for supremacy in the realm of initiative and action.

It seems not unlikely that the women of the Eleventh Federal Reserve District will be the determining factor in campaign work during the Third Liberty Loan Campaign, and these remarks are addressed to the women of the District in the hope that they will take in this important work the position which they have claimed as their own; namely, that of comrade, co-worker, even leader, in all matters in which both men and women are jointly concerned for the national good.

**MISS ANNIE LOU SUMMERS**

**WAS MARRIED YESTERDAY.**

From Saturday's Daily.

The great host of friends of the young lady will be surprised to learn that Miss Annie Lou Summers was married to Dr. Ivan E. Hicks at Fort Worth yesterday afternoon at 1:00 o'clock.

Dr. Hicks left immediately after the ceremony for Washington, D. C., to resume his duties with the medical corps and Mrs. Hicks will return to this city Monday.

The bride is a daughter of Mr. and Mrs. J. F. Summers of this city, and is one of Nacogdoches' fairest and most worthy daughters, possessing all the accomplishments and sweet traits of character that go to make up the most gracious type of Southern womanhood. She is universally loved by all who know her, and richly merits the high esteem in which she is held.

Dr. Hicks, the bride groom, belongs to a prominent family of Fort Worth. He will be remembered by many of our people as having held the position of bookkeeper for the firm of Mayer & Schmidt of this city for several years, leaving here eleven years ago to take up his studies in medicine. He was among a few of his class who graduated with the required grade to admit him to appointment to a place with the medical corps of the United States for service in Panama, taking up his duties in this work some six years ago. He was called back to the United States some months ago, and has been doing service in New York, Washington and other places of the North, and there is so much demands upon his time that he could not obtain an extended furlough for his wedding, hence the pre-arranged meeting at Fort Worth and the hasty return to service. In his service with the government he has made a bright record, ranking with the best of the fraternity.

The courtship, which ripened into true love, started between these young people while the young man was sojourning with us, and has endured with unflinching fidelity all these years, insuring that it is pure gold which will endure throughout the life of each.

The Sentinel joins the many friends of the happy couple in congratulations and good wishes.

Holloway Muller, after a visit to the homefolks in the city, has returned to his military duties at Galveston and Mrs. Muller has returned to her studies in the Tyler Commercial College.

**OLD LADY DIES.**

Mrs. J. W. Stacey, aged seventy-two years, died at her home one mile west of town last night, following a lingering illness, and her remains will be laid to rest in the cemetery at Decoy this afternoon, Rev. W. A. Rowlett officiating.

Mrs. Stacey is survived by her aged husband, three sons and three daughters. She was a member of the Baptist church in which she had lived a consecrated christian life, and died in the sweet faith in which she lived.

The Sentinel joins the many friends of the family in a feeling of profound sympathy.

Sheriff Luther Prince has addressed a letter to County Administrator Walthall offering the services of himself and his deputies at any time needed in the enforcement of the food regulation, and in conversation with the reporter says that he is willing to do all in his power to help the government in any way he can in all branches of the war work.

**S. W. BLOUNT DELIVERS**

**A SPLENDID ADDRESS.**

From Saturday's Daily.

Much disinterestedness was shown yesterday afternoon in the attendance of Nacogdoches' citizens to the food production meeting held at the Queen Theatre at two o'clock, there being only about half an audience to greet the speaker.

Judge S. W. Blount, in an eloquent and able manner, presented the address of the day, delivering a splendid message, full of logic and patriotism, setting forth the probable results of the war if America should not arise to the needs of the world, and encouraging strongly the production and conservation of food stuffs in the present hour. The message was most timely and held the audience in rapt attention, bringing forth many series of applause as the speaker proceeded, and in justice to the uplifting and truly timely remarks, The Sentinel is indeed sorry that the whole town was not present to hear this very capable address.

In the opening exercises Judge Blount stated the purposes of the meeting and announced the absence of Hon. W. B. O'Quinn, district attorney, who was at his home in Lufkin unable to attend because of sickness, Judge L. D. Guinn, who was absent from the city, and Hon. Chester B. Collins, who was unable to be here because of an engagement elsewhere, all of whom were to participate in the speaking.

The matter of food production is of much concern in this section just at this time; so much so that the holiday of yesterday was deemed as essential, that meetings might be held and general interest brought to bear to bring about a larger production. Overlooking the fitness of the occasion, those who failed to hear the splendid address missed a great and rare treat.

Mrs. Wilson of this city is in receipt of a letter from her husband, advising that he has received orders to sail for France at an early date, and that he will make a little visit home before leaving. It will be remembered that Capt. Wilson has been stationed at Waco for some months, where he has assisted with the work of training soldiers in the camps. He has been in active service before, and is therefore a trained soldier capable of the task that has been assigned to him.

## I am Sincere! Stop Calomel!

### I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results. Take a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle

costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe all the next day like violent calomel.

#### COLORED RED CROSS MOVEMENT ACTIVE.

Nacogdoches, March 1, 1918.

A number of colored ladies met at the Colored Baptist Church, Friday, March the first in a permanent Red Cross meeting.

Members on roll, 21; eight dollars and seventy-five cents collected in cash.

The colored people in the town of Nacogdoches will line up in this war question. The colored men and women are looking forward to better days; we will do our bit.

The next meeting will be at an early date.

H. HALL, Secretary.

#### Forgot What He Needed.

From the Republican, Mt. Gilead, Ohio. The editor had an interesting experience some time ago, when a young gentleman came to this office and asked for a copy of the Morrow County Republican. He scrutinized it carefully when a copy was handed him, and then said: "Now I know." "What is it you are looking for," we inquired. "My wife sent me after a bottle of Chamberlain's Cough Remedy, and I forgot the name. I went to several stores and the clerks named over everything in the line on the shelf except Chamberlain's. I'll try again, and I'll never go home without Chamberlain's Cough Remedy." The Republican would suggest to the proprietors of stores, that they post their clerks, and never let them substitute. Customers lose faith in stores where substituting is permitted, to say nothing of the injustice to makers of good goods and the disappointment of customers.

The Daily Sentinel's good friend, Mr. W. B. McKnight, residing out a few miles from town in the Blake community, was in to see us this afternoon (Saturday) and exhibited some very pretty Irish potatoes which he says were raised in a fall crop on his place the past season. The potatoes were of perfect development and a pretty size for domestic use. He says that seed for the spring planting this year was obtained from this crop, which is quite an item at present prices of the commodity.

## LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadorville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Theodor's Black-Draught a standard, household remedy. Every member of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose all druggists.

#### NEGRO LOSES HIS BARN BY FIRE

The Sentinel learns that a negro farmer, Willis Johnson, who lives by two Douglas and Nat, lost his barn by fire, losing 300 bushels of corn, a buggy and harness and a large crib of peanut hay, the loss amounting to about \$900.00.

The cause remained a mystery for a couple of days, and Sheriff Prince was asked to come and locate the cause. The fire started late one night while the men folks of the community were gathered in the home, engaged in a game of dominoes, and it was known that the fire could not have started of its own accord. Mr. Prince states that after examining the place and questioning the visitors who were present on that particular night he found that one Ed. Johnson, a nephew of Willis Johnson, had accidentally knocked some ashes out of a pipe he was smoking which later on caused the conflagration.

The loss comes rather heavy just at this time and is unfortunate when the commodity of corn is so much needed.

#### Try This For Sour Stomach.

Eat slowly, masticate your food thoroughly. Eat but little meat and none at all for supper. If you are still troubled with sour stomach take one of Chamberlain's Tablets before going to bed.

Mrs. J. W. Hill of Sour Lake, who has been in attendance at the bedside of Mrs. Alders in Woden, to whom she came in response to a telegram, announcing the serious illness of Mrs. Alders several days ago, returned home Sunday afternoon, Mrs. Alders' condition having been very much improved.

A pain in the side or back that catches you when you straighten up calls for a rubbing application of BALLARD'S SNOW LINIMENT. It relaxes the contracted muscles and permits ordinary bodily motion without suffering or inconvenience. Price 25c, 50c and \$1.00 per bottle. Sold by Stripling, Haselwood & Co.

The news was received in the city several days ago that Mrs. R. T. Weaver of Cedar Hill had died of pneumonia and that three of the children are not expected to live. It will be remembered that several days ago Mrs. A. M. Inglet and Miss Katy Weaver left in response to a message stating that Miss Weaver was not expected to live.

Take Herbine for indigestion. It relieves the pain in a few minutes and forces the fermented matter which causes the misery into the bowels, where it is expelled. Price 60c. Sold by Stripling, Haselwood & Co.

More than 6,000 women are engaged in the battlefields of Europe salvaging everything. No, not everything; millions of souls have taken their departure for the unknown world in defense of country and cause, to be salvaged only by their Maker.

For a Bad Cold. Take Chamberlain's Cough Remedy. It has stood the test of time and can be depended upon.

#### FLOUR PURCHASES NOW LIMITED TO 12 POUNDS

The Sentinel is in receipt of a communication from District Food Administrator Collins, enclosing a telegram from State Food Administrator Peden, which reads as follows, and which is self-explanatory:

"Until further notice retail sales flour is limited to twelve pounds to town customers, and twenty-four pounds to country consumers, regardless of distance, farmer or ranchman, from business point. Give wide publicity and enforce observance."

The former rule requiring an equal amount of substitutes also still prevails.

The ruling means, as it says, that people residing in town can now purchase but twelve pounds of flour, with an equal amount of substitutes at a time, while the farmer and those residing at greater distance can procure double the amount.

It is announced that there is a great shortage of available flour in Texas, and that it will take the most strenuous measures to make the supply meet the requirements of the most economical distribution.

Hon. L. D. Smith and Dan Melton were in the city today doing some trading, and honored this office with a pleasant call while here. Mr. Smith is a great student of the economical affairs of the country and foresees a great food famine if the people do not rally and make sure of the production of enough for home consumption this year, and his idea is borne out by all the best students of the matter in the

#### THE MEMORIAL SERVICE AN IMPRESSIVE EVENT.

Monday's Daily

The memorial service, held at the auditorium of the High School building last evening in honor of the soldier boys who lost their lives at sea while in defense of our country, was one of the most beautiful and impressive services of its kind ever held in this section, and every one who attended went away not only feeling greater sympathy for the bereaved ones who are related in ties of blood, but a greater love for country and his fellow-man as well.

A large crowd was present. The lower part of the auditorium was filled, and a goodly number took seats in the balcony. In the crowd were a number of relatives and friends of the boys from the other towns and communities.

At the appointed hour, Rev. M. C. Johnson, acting as chairman of master of ceremonies, announced the object of the meeting to be for the purpose of doing honor to the soldier boys who gave up their lives in defense of our country and world-wide democracy. This announcement was followed with the singing of "America" and an impressive invocation by Rev. C. D. Atwell. Rev. T. F. Weaver read an appropriate passage of scripture, followed with the singing of "Lead, Kindly Light" by Messrs. T. E. Baker, C. A. Atford, Capt. I. L. Sturdevant and Prof. Lynn Davis. Rev. M. C. Johnson led the audience in a fervent prayer, followed with a beautiful solo, sung in a rich, sweet clear voice by Mrs. C. C. Clifford. In the course of the preliminary exercises the curtain of U. S. Flags was drawn in the manner of an unveiling exercise by two small girls, bringing to view the printed names of the heroes for whom the crowd assembled to do honor.

After the preliminary exercises Prof. R. F. Davis was introduced as the first speaker of the evening and responded with a most able and eloquent address, in the course of which he reviewed the history of our nation and how it had fought for and championed the cause of liberty, in the past, bringing his remarks to a close with the happy climax of a review of what we are doing today not only to protect our own liberty, but to help the world throw off the yoke of oppression and make it world-wide. Prof. Davis was followed by Dr. Massey of the Methodist Church in like vein, who inclined more to the spiritual significance of our struggles, and the two combined a review so complete and impressive that the audience sat in rapt attention throughout and the people went away not only with greater sympathy for those who have been bereft of their loved ones, but with greater love of country and greater determination to cooperate in every matter that will lead to the achievement of the glorious ends to which we have set our mark.

Before the close of the exercises of the evening the audience was treated to another rich solo by Mrs. Clifford, and the whole combined a program that was replete in every detail.

The committee who planned and put into execution this most timely and excellent program is to be congratulated, as is each member who participated in the exercises, and it can truly be said that the community will be better for the occasion while the bereaved ones have the best assurance that we could extend to them of the genuine sympathy of the people of this community.

#### MR. W. G. FOXWORTH BRINGS HIS WIFE HERE FOR BURIAL

Monday's Daily

Mr. W. G. Foxworth and children arrived in the city yesterday afternoon from Katy, Texas, bringing with them the remains of Mrs. Foxworth who died at that place last Saturday. Mrs. Foxworth was 24 years old at the time of her death and leaves a husband and two children, one being a 2 day old infant.

Deceased was formerly Miss Bertha McKee, and was the daughter of Mr. and Mrs. Madison McKee of Attoyac and was born and raised in this

#### ENGINEER AT MAYO ACCIDENTLY KILLED SATURDAY

From a passenger through this city yesterday, The Sentinel obtained the information that an engineer whose name was Knox was killed Saturday afternoon in the mill at Mayotown.

The particulars were said to be as follows: Knox and a fireman were under the engine in a pit close to the mill, doing some repair work, when a car loaded with lumber, broke loose and came rolling down the track. A small boy standing near saw the tramp car approaching at a rapid gait and hallowed for the workmen to look out. Seeing the car coming, the imprisoned men caught hold of some pieces underneath the engine, presumably by the intention of riding with the engine when the car gave her a start.

The car hit the engine with such a jolt that Knox was shaken off by the force of the impact, the wheels passing over his body.

Knox was said to have been a married man, leaving a wife and six small children.

Miss Leah Spinks left yesterday afternoon for Port Arthur on a visit to her uncle, Mr. Marshall Spinks.

Mr. Arch Caraway, a prominent mill man of Durant, was here yesterday.

Dear Sir:— You ask me how I was pleased with my Delco Light Plant. Will say that I am highly pleased with it. It makes a fine light—the very best. Simple in operation and the cost of running expenses is practically nothing compared with the service it gives. I have run my lights, fans and iron for 3 days and nights on one charge of the batteries without running the engine, with good lights and I could have run a week. Anyone will make no mistake when they buy the Delco Light. I would not take twice what my plant cost me if I couldn't get another like it. You can use my name for reference.

## INSTRUCTIONS CONCERNING CERTIFICATES GIVEN

There has been much discussion, pro and con, about the filling out and submitting certificates in the sale of flour and substitutes. Since the first ruling, there has been many features arising regarding the same, and The Sentinel has endeavored to furnish information covering every phase of the situation, just as soon as opinions were given on the different features.

One phase which until now has been standing without any light having been thrown on the subject was the department's opinion regarding the sale of flour without substitutes by the wholesaler or miller to a merchant who was required to furnish the farmer flour when he showed a receipt from a grist mill that he had plenty of substitutes on hand. Or, in other words, as the matter stood, a farmer could have his corn ground at a grist mill, present the miller's statement to the grocer, who could furnish him flour upon his affidavit that he had the required substitute on hand.

There the matter rested, as the merchant, in purchasing the flour from the wholesaler or miller, was compelled to buy an equal amount of substitutes, thus resting the burden upon the retailer.

Hon. Chester Collins, clears the matter for this county in a telegram to County Administrator Walthall, saying that when the retailer furnishes the wholesaler or miller with a certificate given the merchant by a farmer, showing that the farmer had the necessary amount of substitutes, on the strength of which he had sold him flour, the miller or wholesaler could then sell to the retailer an amount of flour equal to the amount which the retailer had sold his customer.

"Lufkin, Tex., 2-27-18.

"R. B. Walthall, Food Administrator, Nacogdoches County.

"When the retailer furnishes the miller, wholesaler or jobber with the certificates furnished the retailer by the farmer, the miller, wholesaler, or jobber is permitted to sell the retailer an equal amount of flour as shown in the certificates given the retailer by the farmer without substitutes. The miller, wholesaler or jobber should endorse upon the face of these statements that an equal amount of flour had been sold without the substitute and retain the certificate for their files.

"C. B. COLLINS."

## NEXT LIBERTY LOAN COMING APRIL SIXTH

Washington, March 1.—On April 6 the first anniversary of the United States' entry into the war, the third Liberty Loan will open. There will be a campaign of three or four weeks.

In announcing the date tonight, Secretary McAdoo said the amount of the loan—the interest rate, and other features, such as convertibility of bonds of previous issues, maturity and terms of payment are yet to be determined, and that new legislation will be necessary before plans can be completed.

WILL BE FOR MORE THAN \$3,600,000,000.

The fact that the amount of the loan is dependent on further legislation, indicates that it will be for more than \$3,600,000,000, the remainder of authorized but unissued bonds, and the fact that certificates of indebtedness now being sold in anticipation of the loan bears 4 1/2 per cent affords some indication of the interest rate.

How large the loan shall be depends largely, however, on the fate of the pending war finance bill, carrying an appropriation of a half billion dollars and action on the railroad bill with its appropriation of a similar amount.

The war department announces that they will extend the area of certain aviation fields. We don't know whether this is to give the student aviators more room to fall in or not, but it seems that there has been quite a large number of deaths in training for this particular line of the service.

## END STOMACH TROUBLE. GASES OR DYSPEPSIA

"Pape's Diapessin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-ache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapessin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

## NACOGDOCHES TRADITIONS.

The recent removal of the post office of Nacogdoches into the fine new federal building located in the center of the old original main plaza of the Spanish born city, brings up memories of the past—memories that have a sacred local interest.

One of these memories which may be verified by Mr. F. H. Hoya, who was born about 1839, or by Uncle Sam W. Reid, who lived here ever since about 1837, is that F. Voigt, later known as Captain Fred Voigt, was post master for several years just preceding the war of the Confederate State, otherwise called the Civil War, also called the war between the States.

He was the father of Mrs. Amelia Muller and Mrs. Jennie Moore. Many recollections of his career, of a most interesting type, could be related. He was one of three brothers, Fred, William and Henry, who came from Germany with their parents, via Houston about 1840. They all sleep now in Oak Grove cemetery, but while the Voigt name has vanished from the land of their election, they have left descendants, and yet their works live after them. The brother familiarly known as Bill Voigt, was county treasurer here, and Henry Voigt operated the first bakery here. It was located in the rear of where Taylor Bros. store now is, in a wooden structure, but it used a brick built oven. He also sold a drink called ginger pop. The Voigt homes were all located near Josh Henson's present home on South North St.

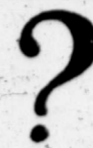

The first Voigt post office was in a small wooden building, located in a space between two larger store houses, one being on the corner where Kennedy's drug store now stands, then known as the Burkin store house, and the other being the old Shepherd store, on the east. Mails were then carried together by horse power. The biggest mail was by the stage line, running a four horse coach, from Alexandria and Natchitoches, La., via San Augustine, on the noted old San Antonio Road, going out west via Alto, Crockett, etc. The mail was locked in pouches or sacks. There was rarely more mail on this line than a small boy could have carried on his shoulder. Horse-back mails and hack lines were also operated to points like Shelbyville, Mt. Enterprise, New Salem and Henderson. One went via Zeeseland and Shook's Bluff to Colharp and Randolph. These horse-sack routes were "ridden" by big boys in thrice a week trips. The greatest newspaper then was the Nacogdoches Chronicle, the New Orleans Picayune and the New York weeklies, and the Louisville Courier Journal were favorites. They were from a week to a month old on arrival. Peterson's and Harper's Magazines were then leaders. The N. Y. Day Book was widely read. Our mercantile markets were Shreveport, Jefferson, Grande Ecore and New Orleans, via steamboats.

The next post master was Col John Forbes, a remarkable character of merit and patriotism. He was born in London, England, and when quite young he came to Cincinnati, Ohio, where he was married to a Miss Mayo. Mrs. Wells, who was the mother of Clifton Wells and Mrs. Cora Lee, was a daughter of Col Forbes. So was Mrs. Edwards, mother of Judge Peyton Forbes Edwards. Col. Forbes was a San Jacinto hero, and like all true foreign born citizens who lived here, he was a true Southern patriot. He was once district clerk, and for years he held the post mastership, the office being in what was known as the Edwards store house located about where the striping drug store now stands—a wooden structure of primitive type, the larger timbers used in it being made by hand without a saw.

After the war Billy Voigt only son of Henry Voigt, became post master, and he served several years and died. His sisters helped him. One of them is now Mrs. John Schmidt. Another became Mrs. A. Olfenbuttel, of Tyler. They were trapped in the P. O. The building then occupied the space about where the Wells-Fargo office is. Clifton Wells afterward served several years as postmaster, following the line of his distinguished grandfather, Col. John Forbes. The office then was in a small wooden building about where the Candy Kitchen now operates. Here, too, W. D. Peevey, associated as postmaster, H. H. Sawyer, H. H. Cooper, W. B. Pearson and their locations as postmasters are more modern, though none the less important of mention. J. E. M.

The United States' guard recently made a petition to the department that they be allowed to wear the regulation army olive drab, in preference to the blue uniforms now worn by them, saying that they were being classed in the "stay at home" crowd. We won't comment on the justice of the petition, but rather wonder if the fellows who class them as such are doing even this much for the cause.

## HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well.

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."

—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

## AMERICANS REPULSE HEAVY GERMAN ATTACK

Paris, March 1.—German troops, especially trained for raiding operations, attacked the American salient last night and this morning, but the Americans maintained their entire line everywhere and in addition caused heavy casualties among the enemy. The Americans also took prisoners on both positions attacked. The foregoing is contained in the French official communication made public tonight.

With the American Army in France March 1 (by the Associated Press)—American troops repulsed a strong German attack this morning in the salient north of Toul. There were many American casualties one of the killed being a captain who was graduated from West Point in 1917.

The raid was a complete failure, three German prisoners remaining in American hands. The ground in front of the trenches was strewn with German dead.

A driving wet snow was falling this morning when the Germans opened fire on the American salient with every weapon at their command. Seventy-seven heavy shells and gas shells fell in a perfect whirlwind on the American trenches for half an hour. At the same time other enemy shells in great numbers were dropping on the American battery positions.

Placed several tablespoonsful of salt in a fine cloth and tie it up like a bag (the bag will remind you of the old time baby pacifier.) With this little bag of salt "grease" your griddle. Your cakes will have a fine brown color and can be easily turned over. Try this and you will never use grease again, or have a smoky kitchen when you cook griddle cakes.

Corn, once upon a time, was always on the table either as a cereal, bread, vegetable or desert, but when wheat came in corn went out. Again corn is king. As a child we remember the humiliation we felt at having to eat corn bread, but how times have changed! In the exclusive tea rooms which formerly served wheat bread, pastries, etc., we find a large demand for corn bread, corn griddle cakes, such, etc., and a little or no call for pastry made of wheat, or wheat bread.

### DESERVES A GOLD MEDAL FOR THIS

Cincinnati authority tells how to dry up any corn or callus so it lifts right off.

You cornpestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If you wife wears high heels she will be glad to know of this.

Sunday evening, March 15th, at 7:30 o'clock, Senator O. S. Lattimore, of Fort Worth, Texas, will deliver a memorial address at our church. The service will be a memorial service for the deceased members of Liberty Elm Camp No. 210, W. O. W.

The committee was instructed to invite all congregations of the city to join in the service.

Seats will be reserved for families and relatives of deceased sovereigns.

Spring is Nice, But—

Lack of fresh vegetable food and interrupted, changing habits make these trying weeks for any one inclined to constipation. Foley Cathartic Tablets are just the thing for indigestion, biliousness, gas on stomach, furred tongue, headache, or other condition indicating clogged bowels. Cause no bad after effects. Stripling, Haselwood & Co. dwl

CAPTURED SLACKER.

Constable Vaught of Garrison reports the capture of Edward Smith, a deserter from Detroit, Mich., who registered on June 5th. Mr. Vaught wired the exemption board of Detroit and received instructions to have the party fill out a questionnaire and release him from custody, which he did.

He also reports the capture of an escaped convict from Garrison, near Alto, and upon being re-captured the convict paid his fine and was released.

"It Sure Does the Work."

Mrs. W. H. Thornton, 3523 W. 10th St., Little Rock, Ark., writes: "My little boy had a severe attack of croup and I honestly believe he would have died if it had not been for Foley's Honey and Tar. I would not be without it at any price, as it sure does the work." Best remedy known for coughs, colds, whooping cough. Stripling, Haselwood & Co., dwl.

MARRIED SUNDAY.

Mr. Donley R. Hood, a young gentleman of good bearing from Jacksonville, was married to Miss Dora Halton, the charming daughter of Mr. and Mrs. Louis Halton of the Melrose community Sunday afternoon, at the home of the bride's parents, Rev. A. T. Garrard officiating.

The happy couple left yesterday for Fry's Gap.

If the bowels are clogged up poisons get into the blood, causing loss of strength, skin eruption, dizziness and vertigo (blind staggers.) Prickly Ash Bitters will open the bowels, drive out the impurities and restore strength, energy and cheerful spirits. Price \$1.25 per bottle, Stripling, Haselwood & Co.

### THE BREAD AND BUTTER QUESTION.

Teaching is a noble, charitable profession, but are you content to work in the charity department of your state when they allow you no pension or protection in old age? Or will you go into the great broad fields of business, where you can lay up something for a rainy day, and provide your own protection for old age? The draft has crippled the teaching profession some but the state has made no provision to increase the teachers' salaries, although the high cost of living has increased between fifty and one hundred percent. All commercial concerns have realized this condition and have increased salaries in proportion to the increased cost of living. Six thousand teachers quit the profession in Texas annually.

Can you blame them when you compare their annual earning capacity with that of any other class of educated men or women? Bookkeepers, stenographers, private secretaries, or operators, as beginners, get from \$75 to \$100 per month, twelve months in the year, and soon receive advances in salary and it is not long if they are made of the right kind of stuff before they are promoted to assistant managers, or managers of large business concerns, or engage in business for themselves and are thereby enabled to lay up a comfortable living for old age. Compare the teacher and the commercial student after they graduate from the high school. The teacher must spend at least one or two years in a state normal, while the commercial student spends only three to six months with us. The teacher spends many times the amount of money in preparation, and must wait several times as long before beginning to earn. Each year the business man increases his earning capacity and soon shows it ahead of the teacher. More evidence on this subject can be had by writing the Tyler Commercial College at Tyler, Texas, for a large illustrated catalogue "giving full particulars of America's largest commercial training school, with more than three thousand enrollments last year, and reading what teachers who have attended this institution say of the advantages it offers to those entering the business world, where they can greatly increase their earning capacity, enabling them to own homes of their own and enjoy the comforts that should rightly be theirs.

Do you have spells of dizziness and everything turning black before the eyes? These are symptoms of torpid liver and a clogged condition of the bowels. Take Prickly Ash Bitters and get rid of the misery. It is the right thing for such disorders. Stripling, Haselwood & Co., Special Agents.

Take Children Out of Danger.

If you saw a child on a railroad track you would endeavor to remove the little one from danger. When a child is "snuffing" or coughing, isn't your duty to get him out of danger of severe consequences? Foley's Honey and Tar gives relief from coughs, colds, croup and whooping cough. Contains no opiates. Stripling, Haselwood & Co., dwl.

LOST—On the streets or between town and home a folding pocket book. Contained \$20.00 gold piece, \$10.00 gold piece and some currency. Also contained four notes. Will pay liberal reward for return. G. W. Shofner, Route 3, Nacogdoches, Texas 4-1dlw

Charley Watkins, a prominent young druggist of Douglas, was in the city yesterday, and reports that his community has been visited by two good rains lately, which has enabled the farmers to go ahead with their work and put much new life in the people.

A Short But Strong Statement.

Women with backache, rheumatic pains, sore muscles, stiff joints or other symptoms of kidney trouble should read this statement from Mrs. S. C. Small, Clayton, N. M.: "Foley Kidney Pills have done more good than all other medicines." They strengthen weak kidneys and banish sleep-disturbing bladder ailments. Stripling, Haselwood & Co., Special Agents. dwl
