## German Army Make Supreme Effort To Break British Line

(By Associated Press)  
LONDON, April 10.—In their new attack on the front north of the Somme battlefield yesterday, the Germans forced their way into Givenchy. Later, however, in a counter attack, the British recaptured the town, the British war office announces. Fierce fighting continued during the night, north of the Labassee canal.

The British are standing on a line with the rivers Lawe and Lye, and are engaged in heavy fighting with the Germans at the river crossings at Estaires and Bac St. Maur.

The Germans extended their front today. Early this morning they began bombarding the British positions from Armentieres as far north as the Ypres Colines Canal.

On the southern part of this front infantry fighting has been reported as begun. The battle which was begun yesterday between Lebassee and Fleubaix is continuing today with unabated violence.

The artillery duel has extended northward to Arras, while the Germans are attacking between Armentieres and Mersines.

The enemy is throwing great masses of infantry into action. The writer says that the Germans are plainly making another great effort to break through the British positions.

"On the Messines front the enemy's attack today was repulsed," announced Major General A. B. Maurice, chief director of military operation, this afternoon. "The enemy has obtained no footing on high ground anywhere."

## PATRIOTIC BUSINESS MEN COMMEND THE LIBERTY LOAN

The patriotic business men of Nacogdoches have this week bought 12 pages of each of the weekly papers of the city with which to help carry the message of the third Liberty Loan to the people.

It is doubtful if another in the state will approach the patriotism thus manifested on the part of these live business men, and their earnestness in the matter should impress the people of its importance.

The business men realize that in the led the matter closely, and are therefore more fully realize the seriousness of the proposition that this big campaign of advertising has been launched, and it is to be hoped that it will be received in the spirit in which it was promoted, and that every one will rally to his duty in the premises.

Somebody said that hell would be a good place if it had plenty of water and good society, and now since our fine well has come in, we expect the dear old Nacogdoches Sentinel to be mean enough to say that Lufkin is a good place after all.—Lufkin News.

The Beaumont Enterprise sees in the controversy between the Lufkin and Nacogdoches editors a spirit of good fellowship running "between the lines." Indeed, yes. Did not The News offer up the fervent prayers that kept the "Foul Killer" away from Nacogdoches on April 1st?

Another thing we might mention is that the flower yard around our court house has got the Nacogdoches flower yard skinned a million miles.—Lufkin News.

Isn't that a lot of skin for one court yard? Surgeons who practice skin-grafting will take notice.

The Lufkin News of yesterday had the good fortune to make its appearance with the Associated Press reports a feature which is to be appreciated by every reader of that splendid daily. This service will put the latest news before the Lufkin readers in the evening of the day it happened and there is probably no doubt but that Lufkin citizens will greatly appreciate the efforts put forth by the management of the News in making this addition to their already splendid publication. The Sentinel is busy making arrangements to add this feature to our afternoon publication.

Men who are not physically and mentally fit to fight in the great war should be engaged whole time in some of the useful industries or commercial enterprises. And that man, be he white or black, who holds a job for a few hours a day or week to evade the vagrancy law should be made to come across with whole time. Many loafers can be seen about town at almost any time, and in view of the labor shortage over the country, and the great necessity for the production of more foodstuff and feedstuff for the loafers as well as those who work, creates an emergency that justifies outspoken protest and rigid measures if need be.

Gradually and substantially the American people are awakening to the importance of keeping up production, and the industries, together with all lines of business, as one of the fundamental supports in winning the war. If we raise plenty foodstuff and feedstuff for all purposes, there will be no suffering in our midst or with our soldiers abroad; if business is prosperous, as it logically will be with present prices for all kinds of produce and manufactured products, we are able to buy more liberty bonds and help sustain the government in a financial way. Last, but not means least, when the war ends we are better prepared for any conditions that may come to us with the new adjustments, and the prosperity of our country and her people will go forward. While simple in a way, no plan was ever more wise and just, and every person should do his bit for its continued success.

The Lufkin News, Nacogdoches Sentinel and Jacksonville Progress have recently added the Associated Press service to their already good papers. This service will make these papers much better and will enable the people of those towns to get all the important news "right off the reel." The Times would like to add this service, and will only be too glad to do so if the business men here will do as they did in the above named towns. The publishers appealed to the business men to buy more advertising space and received a hearty response. The Times is now carrying a nice line of advertising from a few of Timponson's merchants, but the revenue is not enough to justify the expenditure for Associated Press reports. If we can get enough new business we'll add this splendid feature and give the people of Timponson news, also other news just as fast as it happens from every section of the world.—Timponson Times.

It has leaked to us through our special grape-vine telegraph service that the government will, in all probability, abolish the Nacogdoches postoffice and serve the patrons of that village from Lufkin with a double-daily rural auto-service, beginning just as soon as the gravelled road to the river has been completed. We congratulate Nacogdoches. All things come to those who learn to labor and to wait—and that good little town has waited long.—Lufkin News.

The Lufkin News and Nacogdoches Sentinel are, on paper, the deadliest

of enemies. One not conversant with the facts might look for bloodshed should the two editors meet. But we know better than that, and we know that the News editor was performing an act of kindness when he wrote the foregoing paragraph. He knew that he was making a predicate which would justify The Sentinel editor in admitting the allegation and saving the change was being made for the reason that the government had discovered that there wasn't enough business at the Lufkin postoffice to continue it under the present plan, and that, therefore, it had been found advisable to have the mail destined for Nacogdoches, a live town, to be routed through the stand-pipe city. When the Sentinel editor makes this acknowledgment and accusation, that in turn, will give The News editor something to write about. The old fight between these two is interesting and we don't think it is in the slightest dangerous to either editor or paper or town. The two editors are good men, the two papers are excellent and the towns are among the best to be found. There is one reason for the feud; each town is so good that the other is jealous of it.—Beaumont Enterprise.

## ANNIVERSARY

From Saturday Daily

War has spread its mantle over the world. Today marks the first anniversary of the entry of the United States into the terrible conflict. Just one year ago today Congress passed the resolution that entered this country as an ally in the bloody fields of battle.

Since this time many conflicts have been waged and struggles have been carried on. Lives have been offered upon the altar of sacrifice for democracy and hearts have been saddened as results have been gathered from the scenes of struggle.

Some have prophesied that the war would not last a year, others that the struggle would be long and hard.

With a review of the past and a review of the future, to us, the results are yet uncertain as to the time of the end. Surely, we know that our great country has, as yet, hardly begun its part in the battles against the foe. The only thing of which we may be sure is that war shall not cease nor armies be withdrawn until democracy in all of its fullness shall have been established in every nook and corner of this great big world.

As we press on fighting for God, for country and for home, we are not fearful of the final outcome, but we do hesitate when we try to know when the time of finalities shall be.

Today, on the anniversary of our war period, the Third Liberty Loan Campaign has its beginning. Loyal citizens are asked that they lend their means that this war be carried to a successful prosecution. Fathers have given their sons and mothers the pride of their hearts as an offering for democracy and for right. Some may have done nothing at all, so far, but the question now is, what will you do? Let's have a rallying now, and let this campaign not end until a mighty blow has been struck when the tell-tale shall sound out strong for America and against Hohenzollern.

Line up for the Third Liberty Loan.

## "DEAD WHILE SHE LIVETH"

Sometimes we are at a profound loss to account for the indifference of some people in the time of great national peril. History is replete with instances of this kind. The chief business of statesmen, philosophers and prophets, in all ages of the world, has been to arouse the people to a wise and faithful performance of their religious, civil and political duties. The old prophets of the bible lamented and wept over the lethargy, indifference, thoughtlessness of their people.

Since the United States entered the war the task of the government has been to arouse our people to the gravity of the situation. Ears we have and hear not; eyes we see not. What a fearful condition! What patience and forbearance and charity we must endure while appealing to this class of our fellow citizens!

But the saddest condition of any human being is to be cursed with a living death. A dead human being moving about on the earth! Dead to all human plans for betterment of the world. Dead to the cries and distress of millions of people in foreign lands with whom our own nation is allied in a war, the end of which will either mean liberty or despotism to our children's children. Dead to every movement to carry on the struggle to a successful ending. Dead, worst of all to the comforts and lives of the noble young men who now with their faces to the most cruel foe since the reign of Attila, surnamed the "Scourge of God" and who boasted that no grass ever grew where his horse trod. "Dead while they liveth." May the Lord pity such people! To them the Lord referred when He said: "Let the

dead bury their dead." It would seem that the trouble and time and expense required to bury one of this tribe should not be taxed upon the living. Let this dead crowd, when one of their number ceases to breathe, be buried by one of his own kind. Do not bother real live men and women with him. Let that crowd dig the grave, and make up the whole funeral, let it not take the time of living humans. Let those who are so damnably sorry that the Lord calls them dead, while they liveth look after their own dead crowd.—R. T. Milner in Rusk County News.

## "OVER THE TOP"

Special to The Sentinel:

Over the top, civilians, over the top with the Liberty Loan. These are our orders. They come from headquarters. They are passed on to us by our officers. The fiercest battle in all history is being fought. The situation is critical. Success depends upon every man and woman in Uncle Sam's army carrying out the instructions. The man who argues, who holds back is a traitor, the boys in the trenches when ordered "over the top" do not say "I went last time" or "let someone else do it" the boys go. Arguments and excuses by civilians just now are as sensible and as patriotic as such things would be in the trenches. The boys who have come back from the trenches say that inaction is their worst trial over there. The word to go "over the top" finds them more than willing. It should be so with every red blooded civilian, who cannot serve at the front. The thought of this great big man's job being done by others, should make every civilian strain at the leashes that hold him. Here is your chance. After months of waiting the word has come "over the top civilians," over the top with the Liberty Loan.

It is with the most profound confidence that, as agents of the government we issue this appeal and command. We know that the Liberty Loan will be over subscribed, but we want it done quickly. Let the news go forth to the world that the people of the southwest were the first to subscribe their quota. The government has given us thirty days in which to raise the loan. The southwest does not want time, it only wants the opportunity. As good soldiers let us spring forward at the command which rings sharp and clear in our ears. Over the top, civilians: "Over the top with the Liberty Loan."

J. W. HOOPES.

Mrs. Clara P. Blake of Appleby, came in today on a visit to her son, Claytor Blake.

## FOR REPRESENTATIVE.

The Sentinel is authorized to announce Hon. W. E. Thomason as a candidate for re-election to the office of representative in the State legislature from Nacogdoches county, and his record is such as to commend him to another term.

With his first term Mr. Thomason's greatest work was in the cause of education, a service that comes direct to our homes. He served as chairman of the Educational committee, one of the largest and most important committees of the house, and he was both efficient and untiring in the service, winning for him the recognition of the educational leader of the legislature. It is a matter of record that much brilliant legislation, giving help to the schools of the state, both independent and rural was enacted, and the record along this line is one that he may well feel proud of. In the course of this work he introduced and championed the bill through the lower house, giving Nacogdoches an appropriation for a great normal school. He also secured some valuable help for Garrison, which had the misfortune to lose its building by fire.

Mr. Thomason was also a member of the Appropriation committee, which is one of the most important committees, and in which he took a leading part. He was a member of four other committees, and withal he was a very busy man while at Austin, shirking nothing and disposing of everything that was entrusted to his care in a creditable and statesman-like manner.

It is not likely that Mr. Thomason will have any opposition in his race at this time, and it wouldn't be right for him to have. He has been faithful to every trust with a brilliant line of service, his recognized integrity guarantees that he would continue in the same faithful service, and the people of Nacogdoches county are too responsive with appreciation to fail to recognize his merit.

## BITTER FIGHTING BEING RESUMED IN BIG BATTLE

After several days of comparative inactivity along the battle line front in Picardy, bitter fighting has been resumed along the western sector of the salient in the lines of the Entente Allies. Attacks by the Germans against the British and French are admitted to have yielded some gains to the invaders in the critical sectors just to the east of the city of Amiens.

The fighting, according to latest reports, has been heaviest in the neighborhood of Hamil, where the British were forced back slightly, and in the triangle formed by the Rivers Luce and Ayre, farther to the south, where the French were forced to give ground.

Nothing is known as to the details of the battles in these sectors, but the fact that the Germans have been, in a degree successful, would seem to indicate that they have succeeded in bringing up some of their heavier cannon and new divisions with which to continue their attempts to capture Amiens.

Reports from the British and French fronts have mentioned heavy rains which would mean that the Germans have been working under a severe handicap in bringing guns and munitions to the front. The battlefield over which the Allies have retreated was

left in a devastated condition, the roads and bridges being mined by the retreating forces. The lull in the battle for the last few days probably was caused by the inability of the Teutons to move their heavy supply trains over these roads, together with the necessity of reorganizing the shattered divisions which bore the brunt of the fighting after they had passed the first field of fire of their heavier guns.

The British since first taking Ayette have not resumed their offensive operations, so far as reported from London, but the German official statement says that four attacks by the Entente forces against the heights southwest of Moreuil were repulsed with heavy losses.

## TO THE WOMEN OF NACOGDOCHES COUNTY

From newspaper reports of the new suffrage law, it provides that every white woman 21 years of age and subject to no other disqualification, who shall have registered as a voter with the County Tax Collector, between June 27th and July 12th, this year, will be entitled to vote in the primaries of July 27 and August 10, and they may vote this year without the payment of a poll tax.

The men opposed to woman suffrage have used as one of their strongest arguments against the constitutional amendment, allowing women to vote, that the women themselves did not want to vote.

If the women go to the polls this year and vote in the primaries, they will show by their acts that they are in favor of woman suffrage, and it will be the best answer against the argument that they do not want to vote.

Since given an opportunity, I believe the women will vote, and vote for clean, moral men and for good men and for good measures. I trust they will vote for men who are in favor, as I am, of making clean and keeping clean our county court house, so that it will at all times be decent for a woman who may go there to attend court or transact other business.

Believing that the women will see the importance of going to the polls and casting their ballots, I am,

Respectfully,  
J. M. MARSHALL.

J. P. Landers of Harmony, came in today and will stand an examination Friday and Saturday before the county board of examiners, who will be in session here for a first grade teachers certificate. During his stay here he is visiting Lonnie Shoemaker on South Fredonia street.

## GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grownups.

## LOYALTY BASIS OF ALL CIVILIZATION

Every Citizen Owes Moral and  
Legal Obligation to His  
Government.

### SAME IN COMMUNITY LIFE

People Have Duty to Their Home  
Town Which is No Less Bind-  
ing Because It Is Not  
Fixed by Law.

(Copyright, 1917, Western Newspaper Union)  
Loyalty is the foundation upon  
which the whole structure of civiliza-  
tion rests. Loyalty to one's country,  
loyalty to one's state, loyalty to one's  
city, loyalty to one's business asso-  
ciates, loyalty to one's friends; Loy-  
alty is essential to the ordinary prog-  
ress of the world. Without it the world  
must be chaos.

There would be no stable govern-  
ment in the world were it not for the  
loyalty of the people to their gov-  
ernment. There would be no success-  
ful business enterprise on the face of  
the globe were it not for the loyalty  
of the men and women who are con-  
nected with it. No church could ex-  
ist for a month were it not for the  
loyalty of its members. The sacred-  
ness of the home would be a myth  
were it not for the loyalty of the  
members of the family group.

The loyalty of a people to its gov-  
ernment is based partly upon senti-  
ment and partly upon the recognition  
of an obligation that a people owes  
to its government. A people that has  
the benefit of good government owes a  
duty to that government. Those who  
do not recognize this duty and per-  
form it voluntarily are compelled by  
law to do so. The man or woman who  
is protected by the government in the  
pursuit of life and happiness, must  
contribute in money and service toward  
the support of the government. The  
man or woman who, under the protec-  
tion of his government which pre-  
serves law and order, is able to ac-  
cumulate property, must pay taxes on  
that property to help maintain the gov-  
ernment which has protected him or  
her. In time of war the government  
has the right to call upon its citizens  
to take up arms in its defense.

**Loyalty Moral Obligation.**  
In governmental affairs these things  
are regulated by law and the man  
who receives the benefit of orderly  
government is required to fulfill the ob-  
ligation which that entails, but in the  
ordinary affairs of life loyalty is a  
moral rather than a legal obligation.  
There are laws which prevent a man  
from stealing from his employer or  
his business associates, but there is  
no law that requires him to be loyal  
to them. The success of a business  
institution, however, depends more  
upon the loyalty of its employees than  
upon the laws which prevent them  
from stealing its money. Likewise the  
stability of a government depends  
more upon the loyalty of its people  
than upon the laws which compel them  
to fulfill their obligation to the gov-  
ernment.

It is equally true that the prosperity  
and growth of every individual com-  
munity is dependent upon the loyalty  
of the people who live in it. Every  
citizen owes an obligation to his com-  
munity, and the obligation is a moral  
as well as a legal one. The good citi-  
zen pays his taxes cheerfully and  
willingly. He serves upon the juries  
which administer the laws of the com-  
munity. He fulfills every legal ob-  
ligation that is imposed upon him by  
his government, but there is a moral  
obligation which is of still greater im-  
portance to the community. This  
moral obligation consists in doing  
everything that is in his power to  
promote the prosperity and happiness  
of his community. The man who is  
enabled to make his living in any com-  
munity is under a moral obligation to  
spend his money in such a way as to  
help his community.

**Prosperity Worth Protecting.**  
Anything worth having is worth pro-  
tecting, and if the prosperity of a  
community is worth anything to the  
people living in it it is worth protect-  
ing. If the chance for a man to earn  
a good living, to live well, to give his  
children a good education, is worth  
anything, it is worth protecting.

There is just one way to protect  
the prosperity of a community, and  
that is to keep the community from  
being drained of its cash—working  
capital. The only way to do that is  
for the people of the community to  
keep their money at home. Every  
time the citizen of a community sends  
money away from home to a mail or-  
der house instead of spending it in  
his home stores he is disloyal to his  
community. It is disloyalty to the mer-  
chants only indirectly. It is disloyalty  
to the community of which the mer-  
chants are only a small but a very  
important part.

This is the moral obligation that  
every citizen owes to his community,  
just as the payment of taxes and the  
loyal support of his government are  
his legal obligations. Disloyalty of

## You Can't Make an Omelet With- out Breaking Eggs

To win the war it is unavoidable  
that the rights of the individual  
be infringed. It is unavoidable that  
his personal comfort be temporarily  
ignored, his personal property tem-  
porarily conscripted, his personal  
fortunes temporarily impaired.

fully the questions of individual  
equity. The big job, the one job, is to  
win the war. There will be plenty of  
time to talk about it and adjust  
grievances afterward.

All arguments aside, we've got one big job on at the moment—to

### PEOPLE ARE URGED TO USE MORE POTATOES

Houston, Texas, April 5.  
Hon. Gen. H. Matthews, Mayor,  
Nacogdoches, Texas.  
Dear Mr. Matthews:  
The federal food administration for  
Texas is on trial and it asks that you  
be one of its advocates. The case is  
2,000,000 pounds of potatoes vs. ar-  
dour and consumption; and the facts in  
the case show that there are now on  
sidings in Texas 50 carloads of good  
potatoes, which if not absorbed by  
Texas homes will go to waste.  
These potatoes are cheap. The price  
is 1 1/2 to 2 cents a pound. Last year  
during April the retailer got 5 to 6  
cents a pound. We have cut down the  
wheat ration as a fine sacrifice for the  
allies. It is not a hardship when we  
can shift our appetites from the gear  
of potatoes, and not lose any speed  
or any patriotism.

The obligation rests with Texas  
not to have it go abroad that we de-  
liberately permitted anything like 2,  
000,000 pounds of potatoes to waste  
when Belgians starve; and France,  
England and Italy, who stand between  
us and the Hun, are facing conditions  
of want.

Please by personal example adopt  
a two meal ration of potatoes a day  
in your home and having gotten into  
the right and acceptable mood; then  
ask your neighbors, for what means  
your whole city to do likewise. If you  
will go the whole way with us—please  
issue a proclamation making April a  
potato consuming month.

We must absorb potatoes during  
April and we must get busy at once.  
This is a serious matter and I ask your  
good graces and good will in chang-  
ing an embarrassing situation into a  
matter of State and National pride.  
Yours very truly,  
E. A. PEDEN,  
Federal Food Administrator For Tex.

### SCHOOL TRUSTEE ELECTION SATURDAY VERY QUIET

The election for school trustees which  
was held last Saturday passed off very  
quietly, there being only a total of 39  
votes cast. As the results would show  
no special interest was shown in the  
election. There were only three  
names on the printed ballots and  
trustees were to be named, Messrs  
E. C. Monk, W. S. Beeson and C. A.  
Hodges were elected to serve as trust-  
ees. The votes cast were as follows:  
E. C. Monk 39  
W. S. Beeson 39  
C. A. Hodges 37

Messrs I. L. Sturdevant and Bob

been visiting relatives here from  
Camp Travis, returned to San Antonio  
today.

The War Department has called me  
into the service and I leave for Fort  
Sam Houston between now and Sun-  
day, the 13th of April. I am making  
a sacrifice to do this, but I am glad  
to do so, for we must all make such  
personal sacrifices at this time, for  
our country. I must ask that all those  
who are indebted to me to come this  
week and pay their accounts. If  
any one has an account against me,  
please bring it, that I may pay it. I

DECIARES RESULT HAS BEEN AMAZING

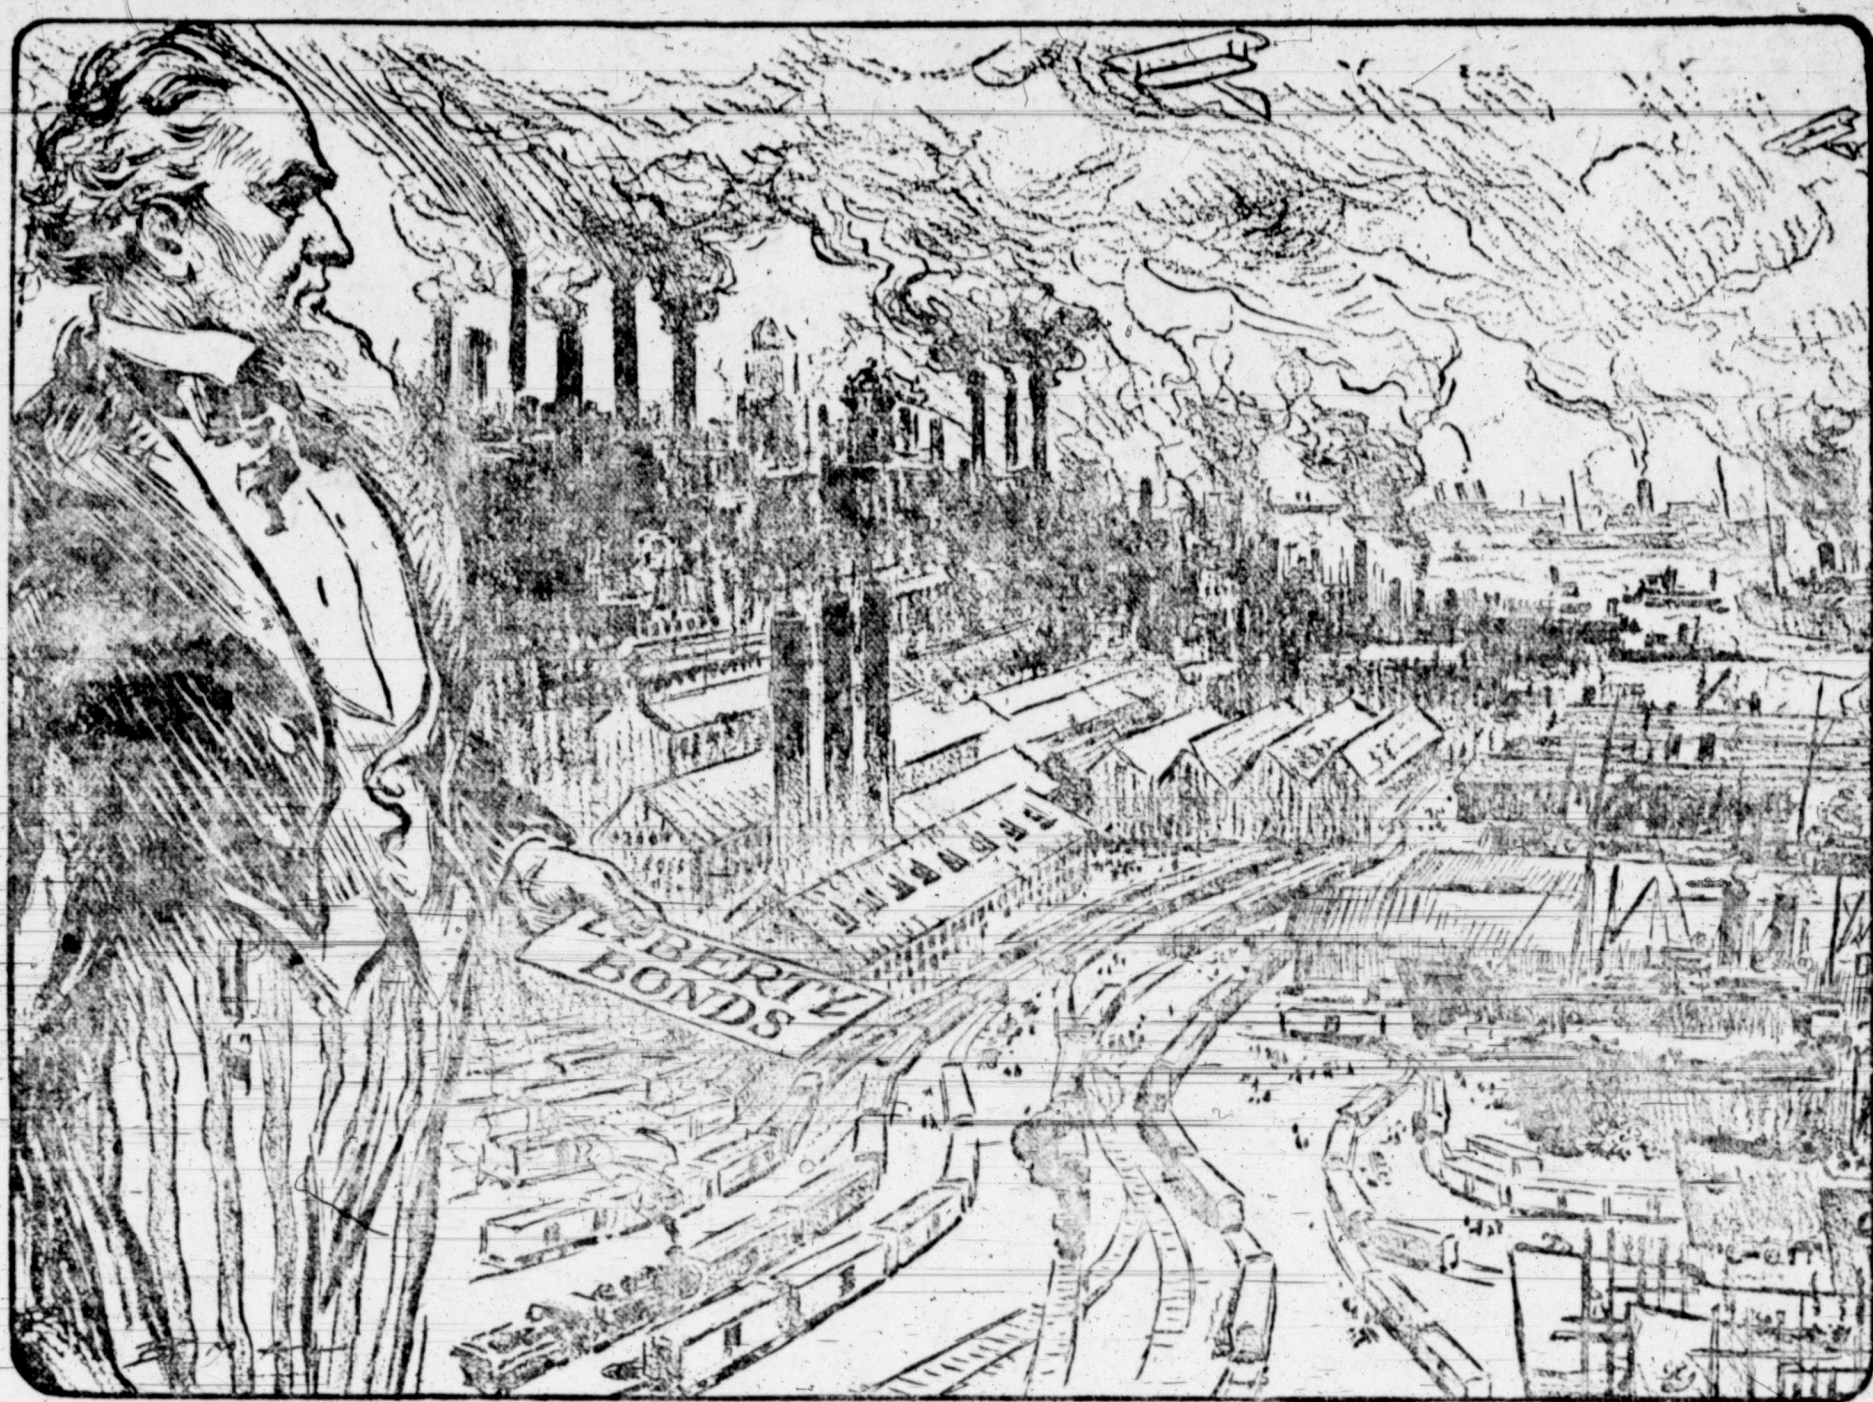

Gained Eleven Pounds on Tanlac—Troubles are Gone Now He Says

It is not what the manufacturers claim for it, but the testimony of the multiplied thousands who have been benefited by it that has made Tanlac the most famous medicine in the world today. A. Palmer of 534 South Pearl street, Denver, Colorado, a well known tailor who has been a resident of that city for six or seven years, in relating his experience with Tanlac said:

"For several years I have had an awful lot of trouble with my stomach. Everything disagreed with me and after meals I would get that puffed up, bloated feeling and belch up my food sour and undigested. I got to the point where I was almost afraid to eat anything because of the suffering I knew it would cause me. I was constipated because of the suffering I knew it would cause me. I was constipated, had terrible headaches and my sleep was very poor. My system seemed to be all run-down. I was losing weight and felt tired and worn-out all the time. I was losing ground all the time and felt that unless I could get the right medicine my troubles would soon become serious.

"My wife who had been keeping up with the Tanlac testimonials persuaded me to try it and it has not only relieved me of my troubles but has built me up amazingly. I have taken three bottles and my stomach is now in good shape. My appetite is fine and I can eat what I want without feeling a sign of indigestion. My constipation and headaches and all that tired feeling is gone and I have gained eleven pounds in weight, besides. Tanlac has been a great thing for me and I don't think anybody suffering like I did can make a mistake by giving it a trial."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby Weatherly Bros., in Sacul by A. J. Beck, in Douglas by Campbell & Watkins and in Chireno, in Nat. by E. M. Jarrell.

WE are now building more naval and merchant ships than we have constructed in the last generation.

From the shipyards of the Pacific to those of the Atlantic; on our farms and in our mines, mills and factories in every State in the Union; back of the firing lines in France, where men are training, camps are being erected and railroads built, billions upon billions are being expended for labor, for transportation, for materials and supplies of every description.

We are building a vast fleet of airplanes, and enormous supplies of artillery, motor trucks, machine guns, rifles and ammunition. We are feeding, clothing and training an army of a million men, and preparing for a million more. We have loaned billions of

The mind can hardly conceive the sums of money required for our war preparations. Yet these expenditures are absolutely essential.

We must win the war quickly if possible; we must carry it on for years if necessary. We must do the job with American thoroughness, let the cost be what it may.

READ WHAT OTHERS SAY "I mastered shorthand under L. R. Walden, in nine weeks—secured a desirable position, and have satisfied my heart's desire to be a stenographer."—Nora Barrow, Eagle Lake, Texas.

"Three months under L. R. Walden is worth more to the pupil than six or eight months at other business colleges. I learned the combined business and shorthand course in three months and take satisfaction as a stenographer."—J. W. Beaman, Houston, Texas.

"L. R. Walden's methods and courses are unequalled. I have attended his shorthand and business college under him in half the time it would take at other schools. I took a course during my afternoon vacation from one of the largest commercial colleges in the state, but I learned from experience."—Henry J. Koehn, Cairo, Texas.

"One of my sons learned more in eight weeks in Walden's Nacogdoches Business college than another son learned in several months in another school." "His the best thing that ever came to our city." The pupils of this school are making good. "Some have gone to Dallas, Houston, Oklahoma, Louisiana, and other cities and states. Many are filling positions in this city."

A leading citizen of Austin in speaking of Walden's pupils said: "Every one of his graduates is in a desirable position. He gives them the training that makes them successful." "He has no superior in his line." "Many of his pupils accept positions in eight, ten and twelve weeks." "I know a brother and sister each of whom mastered shorthand in eight weeks, accepted positions and gave satisfaction. They are now earning \$1200.00 per year, each of them. If you can say: "Walden trained me," you have the best endorsement."

# This War Must Be Fought On European Soil

If the peoples of the earth are not to become toiling millions for the Prussian Junkers and the Prussian Krupps, if they are not to be terror-ridden slaves at the mercy of a German Kaiser's will, Prussianism must be driven back within its own borders and kept there.

Not only English freedom, French freedom is at stake. Our own cherished institutions, our free government, all that our fathers fought for, all that free peoples prize, is threatened by an enemy that would impose his own hateful Kultur on every free institution in every liberty-loving land.

That is why the war must be fought on European soil. We are fighting in Europe now that we may not have to fight in America, on the very thresholds of our own homes, later.

We are fighting for the safety and liberty of our children, our homes, our country. No price is too great to pay for Victory.

Americans, you are called upon to back our armies in France, to furnish them the guns and shells and ships and airplanes, the enormous quantities of every sort of supplies that they must have to defeat the Prussian armies and drive them back across the Rhine.

## Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:

"From the time I entered into womanhood... I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. Nothing seemed to help me until, one day, I decided to

## TAKE

# CARDUI

### The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

### EDUCATORS WILL GET MORE SALARY

AUSTIN, April 3.—County school superintendents have been granted a substantial increase in their salaries by the act passed by the last called session of the Thirty-Fifth legislature, which measure has just been approved by the governor. The act does not become effective until June 26, as it failed to pass in the house by the necessary number of votes. While the increase granted is not as much as was originally designed in the bill as introduced by Senator Bee of San Antonio, still state Superintendent W. F. Doughty, who advocated it, is pleased with the increase.

The new act provides that in counties having a population of 2000 and less than 3000 the salary of the county superintendent shall be \$1200 and less than 4000, \$1400; 5000 population and less than 6000, \$1600; 6000 population and less than 7000, \$1700; 7000 population and less than 9000, \$1800; 9000 and less than 10,000, \$2000; 10,000 population and over, the salary is fixed at \$2100. The bill as originally introduced reached a maximum salary of \$2400.

### MAIN STREET RED CROSS CIRCLE BUSY

The East Main Street Red Cross circle met at the home of Mrs. Geo. Meisenheimer Tuesday afternoon at 2:30 o'clock, and worked on ten bed shirts.

Fourteen members and three extra ladies were present and assisted in the good work; Mesdames Rosa Black, Faifer and Deolittle being the visitors, who also will willingly help the workers each week.

During the month of March, twenty-six shirts have been finished and sent to the main office for shipment. Mrs. Chas. Hoya has been cutting out shirts for next week and cut a dozen Monday. Mrs. Meisenheimer will cut some before next Tuesday and we are hoping to finish up several dozen this month. On an average we have from twelve to sixteen women present, and unfinished shirts are taken home and returned the next meeting finished.

These women are anxious to do all they can weekly, or even daily if necessary.

### AUSTRIA READY FOR PEACE

#### SAYS COUNT CZERNIN

AMSTERDAM, April 3.—Count Czernin, Austro-Hungarian foreign minister, made a declaration to the Vienna city council, which waited on him Tuesday in connection with what the burgomasters termed the aggravated distress of the population, which is closely connected with the general political situation. He said:

"With the conclusion of peace with Roumania, the war in the East ended. Therefore turning to individual peace treaties and discussing them in detail, I would like to refer to the declaration of the president of the United States, in which he replied to the speech delivered by me on January 24, in many parts of the world. President Wilson's speech was interpreted as an attempt to drive a wedge between Vienna and Berlin. I do not believe that, because I have too high an opinion of the President of the United States and his rank as a statesman to believe him capable of such a way of thinking. President Wilson is more able to ascribe dishonorable action to us than we to him."

### Best For Children

Experience proves that Foley's Honey and Tar is the best family medicine for children for coughs, colds, croup and whooping cough. Mrs. M. E. ### Don't Let it linger.

A cough that "hangs on" wears down the sufferer, leaving him unable to ward off sickness. Jos. Gillard, 148 Filmore St., Nashville, Tenn., writes: "I was suffering with a dry hacking cough and a pain in my chest, but since taking Foley's Honey and Tar Compound I have been relieved. It soothes, heals and cures. Stripling, Haselwood & Co. dwl"

### This Woman Found Relief.

"Backache, sore muscles, stiff or swollen joints, rheumatic pains, dizziness, and like symptoms are caused by disordered kidneys and bladder. Mrs. Thos. H. Davis, Montgomery, R. F. D. 3, Ind., writes: "I doctored for months without relief. I commenced using Foley Kidney Pills and got relief. Eight bottles cured me." Stripling, Haselwood & Co. dwl"

### INFANT OF J. M. BROWN OF MARTINSVILLE DIES

Death resulted from measles, from which she has been sick the past two weeks, following an attack of pneumonia.

The Sentinel joins in an expression of condolence to the bereaved and heart-broken loved ones.

### GIRLS' LEMON JUICE IS SKIN WHITENER

#### How to Make a Creamy Beauty Lotion For a Few Cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white make a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

The April showers have arrived with a season to save the growing crops and gardens, and prosperity is "smiling on the vine." Buy some more war stamps and take a big chunk of liberty bonds.

### He Can Rest Fine Now.

"I suffered greatly from kidney and bladder trouble," writes F. R. Fairbank, 55 Grand River ave., W. Detroit, Mich. "Had to get up six or seven times during the night. Foley Kidney Pills have worked wonders and I can recommend them as the best medicine I have ever taken." Tonic in action; quick sure. Stripling, Haselwood & Co.

### BOLES-WILDER.

Mr. Edgar A. Boles and Miss Eula Wilder, a popular young couple from Rusk county were united in marriage today in the office of County Judge Perritte at the Court House, Rev. Tolbert F. Weaver, Minister of the Christian church performing the ceremony which made them man and wife.

### Do You Sleep Well?

To be at his best a man must have sound refreshing sleep. When waked and restless at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose of these tablets and see how much better you feel with a clear head and good digestion.

### THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderin.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderin. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderin from any drug store and just try it.

### FROST-JOHNSON LUMBER CO. TAKE 10 PER CENT OF QUOTA

Mr. F. H. Tucker, cashier of the Commercial Guaranty State Bank, gives The Sentinel the interesting information that the Frost-Johnson Lumber company, which has a big mill at this place, and is allied with the best interests of our community, has taken more than ten per cent of the county's quota of the three liberty loans, and thus helped the old county "go over the top" each time.

In the first loan the Frost-Johnson Co. subscribed for ten thousand dollars for itself, and this was supplemented by generous subscriptions from employees in the mill. In the second loan the company took fifteen thousand dollars, and employees of the mill ran the subscription up to approximately twenty thousand dollars. In this, the third liberty loan, the company takes twenty thousand dollars, and Mr. Tucker informs us that the employees are coming along with characteristic generosity.

If other big enterprises of the community will respond with similar patriotism, and the people at large will rally with their part as quickly as possible, it will not be many days before our county chairman can wipe the headquarters that the old county has "over the top" and is again buying war saving certificates and war stamps faster than the postmaster can get them.

### DESERVES A GOLD MEDAL FOR THIS

Cincinnati authority tells how to dry up any corn or callus so it lifts right off.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender, aching corn-stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezeone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If you wife wears high heels she will be glad to know of this.

### ALL NEUROSES MUST WORK

Lufkin, Texas, April 4.—The grand jury, now in session, has subpoenaed every negro in this vicinity to appear before that body, and 41 said that they are being told in very plain language that there are to be no idlers in this county and that all those able bodied men who are not at work within twenty-four hours or enlisted for service in the army will be arrested for vagrancy. One of the men examined by the grand jury was found to be evading the draft law and was immediately arrested and placed in jail and will be turned over to the federal authorities.

### Whooping Cough.

### WOODMEN UNVEILING AT NORTH CHURCH YESTERDAY

A splendid crowd was in evidence at the Unveiling exercises held in the cemetery at North Church Sunday afternoon, when the Red Oak Camp of the Needmore community unveiled monuments over the graves of deceased sovereigns, Tol and Jim Grimes.

Consul Commander Woodham of the Red Oak Camp, presided during the exercises, and Hon. Audley Harris of this city delivered the address, which was a splendid one, and was delivered in the church after the unveiling exercises were completed.

A good size delegation from Liberty Elm Camp No. 210 of this city attended, and participated in the exercises. Accompanying them was quite a number of visitors from Nacogdoches who report the occasion a success and are complimentary in their remarks of the address of Mr. Harris of the Liberty Elm Camp.

## DELCO-LIGHT

### The Complete Electric Light and Power Plant.

San Augustine, Texas, July 20, 1917

Mr. J. R. Dickerson, Delco Light Dealer, San Augustine, Texas.

Dear Sir: You ask me how I am pleased with my Delco Light Plant. Will say that I am highly pleased with it. It makes so fine light—the very best. Simple in operation and the cost of running expenses is practically nothing compared with the service it gives. I have run my lights, fans and iron for 3 days and nights on one charge of the batteries without running the engine, with good lights and I could have run a week. Anyone will make no mistake when they buy the Delco Light. I would not take twice what my plant cost me if I couldn't get another like it. You can use my name for reference.

Yours very truly, I. E. ROBERTS, Tax Assessor.

**FRONT LINE OF DEFENSE**

is a moment of tense nerves—ready  
lip out of the trench at the word of  
mand—and at the enemy. Our men  
the firing line are physically fit for  
stary service because only about one  
out of five was chosen to endure the  
handships of this fearful war. But  
must not be content with 25 per  
t. in physical health of our American  
th. We cannot afford to lose four  
out of five because of physical un-  
ness. Such weaknesses can be cured,  
ny times the kidneys are to blame.  
if the kidneys are clogged with toxic  
sons you suffer from stiffness in the  
es in the morning on arising, your  
seem "rusty," you may have rheu-  
atic pains, pain in the back, stiff neck,  
achaches, sometimes swollen feet, or  
uragic pains—all due to uric acid or  
ic poisons stored in the blood and  
hich should be swept out.  
Then procure at your nearest drug  
re Anuric (double strength). The cost

abets. Am nearly 75 years of age. I  
uffered from backache, weak back, rheu-  
atism, and could not control the kidneys.  
can say that "Anuric," the latest  
iscovery of Dr. Pierce, has done me more  
good than anything I have ever taken  
for these ailments.—Mrs. N. M. FLEM-

QUAY, OKLA.—My bowels were con-  
stipated, joints were stiff, ankles  
red, swollen, and I had pain in hips and  
knees. I realized that I had uric acid  
in the system and sent for a trial package  
of Anuric. I then got three or four  
packages of the Anuric Tablets and im-  
mediately started taking the "Pleasant Pellets"  
regularly. Now I am free from pain, the  
joints have limbered up and I am enjoying  
very good health for an old man seventy-

"One of the most beautiful and im-  
pressive services ever held at Garri-  
son was the annual Easter Service of  
the Knights Templar, Nacogdoches  
Commandery No. 55 at the Methodist  
Church Sunday afternoon.  
"The sermon by Sir Knight M. C.  
Johnson, B. D., G. P., was most elo-  
quent and impressive and the music  
was beautiful. Rev. Johnson ranks  
with the ablest ministers in Texas, and  
it is earnestly hoped that he will visit  
this place again in the near future."

lunches and went to the Cassio creek  
for a picnic. We left the school  
house about 11:30, and reached the  
creek at 12, and spread our lunches  
which were relished and enjoyed by  
all.  
One of our candidates, sheriff Prince  
happened along in time for dinner,  
which he enjoyed very much, and we  
were real glad to have him with us.  
As there was no water to fish in,  
the afternoon was spent in playing  
different games, until time to come  
home. After telling our old play-  
mates good by we returned home,  
feeling good over our picnic.  
Our principal, Mr. Wellborn, will  
soon be in the service of our coun-  
try, and we hope him safety and a  
sure return to his homefolks and  
friends.

**TWO GERMANS ARRESTED FOR DISLOYAL CONDUCT**

They Are Now in Jail Awaiting Pre-  
liminary Trial Which Will Be Held  
Next Thursday.

Hen. Beeman Strong, chairman of  
the county Peace League, the county  
attorney and the sheriff are very  
mpeh in earnest in breaking up all  
manifestations of disloyalty, and they  
made a good start yesterday by land-  
ing two in jail and investigating rum-  
ors about others.

News reached the gentlemen that  
B. Gldmeir, a well known and substan-  
tial farmer living out seven miles  
north of the city on the Appleby road  
had been talking in a very disloyal  
manner, and had hung on the walls of  
his home a picture of the Kaiser.  
Yesterday (Thursday) they motored  
up to Mr. Gldmeir's home to make an  
investigation, finding the picture on  
display as reported, and upon engag-  
ing him in conversation also getting  
a response with some very disloyal  
talk, all sufficient to authorize a war-  
rant for his arrest under the new law.  
Mr. Gldmeir has a wife and several  
children. It is said that two of his  
sons are in Class A-1 in the military  
registration, and another will soon be-  
come of age and is ready to go when  
his time comes. The sons are said to  
be loyal to this government and offer  
no protest to entering the military  
service.

The other party arrested is Sam  
Cook (Koch in German) who lives on  
Mr. Avey's place up North street. He  
is said to have been exulting over the  
reports of German successes in the  
war, and rather outspoken in his dis-  
loyalty, so much so that he had be-  
come unbearable with relatives loyal  
to this country.

Still other reports are being inves-  
tigated, and the gentlemen pursuing  
it say that they are going to leave  
nothing undone to clean out Nacogdo-  
ches county and suppress every dis-  
loyal manifestation, for which they  
are to be congratulated.  
A preliminary or investigating trial  
of Gldmeir and Cook will be held next  
Thursday.

**BADLY BRUISED SOLDIER TAKEN FROM TRAIN HERE**

Last night a soldier by the name of  
Price, who was traveling on the H. E.  
& W. T. was taken from the train here  
in a badly bruised condition, having  
been beat up by some unknown party  
near Diboll.

From the best information obtain-  
able the Sentinel learned that the sol-  
dier was a passenger on the north  
bound train and was occupying a seat  
in the chair car. As the train pulled  
out of Diboll the News butch on  
the train discovered the soldier lying  
on the floor attacked by some unknown  
traveler, the only description of whom  
he was that he wore a light suit of  
clothes. The "butch" looked up the  
conductor who immediately began an  
investigation but could not locate the  
stranger, and it is presumed he had  
left the train immediately after hav-  
ing attacked Price.  
Price was taken care of on the train  
with the best first aid the crew could  
master, and was put off here and con-  
veyed to the Tucker Sanitarium where  
he was given medical assistance and  
where he is now confined until his  
wounds are healed and he is able to  
resume his journey.

**DRILLING FOR OIL ON MARTIN CREEK**

Reports reach the city that Messrs.  
D. A. Swarthout Brothers are drilling  
for oil on Martin Creek between Swift  
and Melrose. This well has been  
sunk to a depth of about 300 feet and  
every indication is that oil will be  
trucked there in paying quantities. The  
drillers engaged in sinking the well  
come from the Humble field and are  
practical experienced men in the work.  
Much has been said about the oil  
fields of this county and there is  
hardly any doubt that there is oil in  
good paying quantities if the promo-  
ters will go down deep enough to get  
it. From the reports reaching this of-  
fice, it seems sure that these gentle-  
men will sink deep enough to prove the  
fields.

## Lend Him a Hand!

*Here Is YOUR Boy*—going over the top, his gun in hand, his jaw set, his heart on fire. It is the most dramatic moment in the life of this soldier—and in the life of this nation.

*His heart and mind are set on one thing—VICTORY*—victory over an enemy who stands for acts and ideas which this soldier despises—which he is ready to give his life to destroy.

*We here at home hate these things, too.* We are pledged to their destruction—to our last dollar and our last man. But this soldier can *actually—get-his-hands-on-them—and root them out of the world forever—if we will lend him a hand.*

## This Boy Is the Symbol of Fighting America

He stands for the aspiration, the conviction of a hundred million people translated into *action*. He is *doing* what the rest of us are *dreaming*. Only through him can we win the Victory.

*But He Can't Do It With His Bare Hands!* He asks you to back him up with guns, shells, tanks, airplanes. Let's lend him a hand by lending our dollars. Then no power in the world can prevent him from winning the Victory.

*The long fighting ages of the world have never seen a better soldier than this boy of yours—your son—your husband—your brother—your friend. He stands for the sons of America, hundreds of thousands strong, soon to be millions. He is doing his part—we must do ours!*

# The Great Question

When the power and resources of this country can be applied effectively, the war will be won. Are you doing your share?

It has been reserved to the producer of today to feel the satisfaction derived from patriotism and personal profit at one and the same time.

It is not money, but goods and service that will win the war. But as goods and service must be bought, the government sells Liberty Bonds. Be doubly a patriot by producing, making money and buying Bonds.

What is my duty; what is the most sensible and profitable course for me to follow in my private and business affairs during the continuance of the war?

This is the great question confronting every American citizen.

Here is a common sense reply. Before we can settle the matter in detail, we must grasp those elementary principles which govern national affairs.

This does not involve great learning or research, for economic knowledge is little else than common sense applied to big subjects.

The war will be won by the nation which can place the greatest number of men, the greatest amount of material in the field, and produce the greatest amount of food-stuffs to supply its military and civilian forces. This fact is so generally recognized that it is not necessary to bring forth elaborate arguments to prove it.

We are a wealthy nation, and the question arises as to whether or not we can win the war by throwing our surplus wealth into the struggle.

We cannot. Why? Because our savings, as a nation, amount to about 5 Billion Dollars annually before we entered the war, and our war estimates for the first year's operations call for an expenditure of about Eighteen Billion Dollars, or

over three and a half times as much as we have saved ever before in one year.

Now, there are three courses open to us. We can endeavor to produce 3 1/2 times as much wealth this year as we ever did before. We can endeavor to save 3 1/2 times as much money as ever we did before. We can lie down on the whole proposition, and let Germany win.

Having described this little treatise as a common sense reply to a great question, we will eliminate the last named possibility. We cannot produce 3 1/2 times as much wealth this year as ever before. It will take several years to adjust our affairs so as to produce such results.

To save 3 1/2 times as much as ever we have before is quite possible, but would mean actual hardship for millions of our people.

The most sensible solution of the problem is to aim at a combination of production and saving which will find us at the end of a year at least 3 1/2 times wealthier as a nation than ever before.

The good indicated has been followed by our Allies with results that have astonished the world. After 2 1/2 years of physical and financial strain, England raised recently a loan of five Billion Dollars, equivalent to Ten Billion Dollars in this country, with the fact that we have about double the population. England has speeded up her production of wealth, denied herself so abundantly that despite the fact that millions of her finest specimens of human material are fighting, despite the fact that she has raised previously about a like amount of Five Billion Dollars in loans, and is paying two and a half Billion Dollars yearly in taxes, she was able still to produce this enormous amount in a thirty-day campaign.

Germany is speeding up her production along the most scientific lines and is starving herself. That is the sole reason Germany exists today.

Are we super-men that we can do things differently from others? Let us forget this talk of "Uncle Sam soon cleaning up the Germans when he gets there." The Germans will not be "cleaned up" by talk, or even by bravery alone. They must be fought with their own weapons, hard work and self-denial—the things that win wars.

Again, the man who cries, "Let the rich man pay," has not grasped the elementary facts of the situation. The rich man is paying, and WILL pay, for the Government already is calling for as much as 50 per cent of his profits in the shape of income and War Profit Taxes.

It is true that the Government is not taking away the rich man's capital, but neither is it asking the less wealthy producer to part with his capital. All alike must save their capital in order to run factories, farm the land, build ships, equip armies, and provide war.

It would be an utterly mistaken policy to attempt to raise the standard of living of the country to finance the war. What you need, what the Government needs, what the whole world needs, is an increase, a very great increase, in the INCOME of rich and poor alike. You farmers must produce more, you workmen must produce more, you must work harder; the uncultivated land of this country is a standing reproach to us.

You men must work over time. You women must economize and save in the home. You wealthy automobilists must curtail your extravagances and let the automobile manufacturer be free to make trucks and cars for the Government. You society women must realize that it is vulgar and almost treason to keep an air of workers' making your clothes when they could be doing useful work for the Government. Your children—help with the housework and free men and women to fight and produce goods needed by the country.

We must get together for greater efficiency.

We must save or perish.

PART II. We will assume that you have agreed to the conclusions in Part I, and have resolved to produce more wealth, to work harder, and to deny yourself in the matter of food and luxuries.

Soon after adopting yourself to these measures you will find yourself growing richer, accumulating money at a much greater rate than ever before.

Your duty and your common sense demand that you lend this money to your Government.

By doing this, you will make a very definite contribution to the success of the war. The additional crops you grow, the additional hours you put in at your work, the little hardships you endure as you economize, will feed soldiers, will buy guns and ammunition, will build air-ships, will crush Germany, will make the world safe for business and safe for democracy.

How can you best lend your wealth, the product of your labor and self-denial, to your country?

By buying Liberty Bonds.

"But," you say, "the campaign for the Second Liberty Loan is over."

Yes. The flags have ceased to wave, and the bands have stopped playing, but have you a Bond? Or if you have, have you purchased to the limit of your ability?

If those sections where people were indifferent to the loan, the bankers came forward, shouldered the responsibilities of their customers, and bought bonds for them in excess of their share, because they believed that sooner or later their customers must see reason, and would be anxious to purchase bonds. If you have no bond, purchase one from your banker just as soon as you are able. You will be doing a man's part, doing your bit, shouldering your own responsibility, instead of allowing the banker to do your duty for you.

Some men seem to regard the purchase of bonds as a mysterious business, and feel that they are sinking their money forever in the purchase.

A bond looks like a great big \$50.00 or \$500.00 bill and is wonderfully like one in its uses. There is one great difference, however, a \$50.00 or \$500.00 bill bears no interest, whereas a Liberty Bond bears 4 per cent interest.

How easily can a bond be turned into money?

Almost as easily as a bill of large denomination. While you buy your bond with the idea of lending to the Government your money, there are thousands of people ready to relieve you of your responsibility, should you find such a course necessary.

Millions of dollars worth of Liberty Bonds change hands every week. Everywhere, commercial firms are beginning to advertise that they will accept Liberty Bonds in payment of accounts.

Why, you say, "I might as well own Bonds as money."

Better, far better.

Because, when you buy these bonds, the Government has the use of your money, can use it to win the war. If you from failure to understand the situation, insist that your money shall not be used by the Government, you are assuming a selfish attitude, lacking in both common sense and patriotism.

It may be your money was not available when the last campaign was in progress. It may be you intended to buy a bond, but allowed the lists to close before you got around to it.

Here is your chance. Go now to your banker, ask him whether this little booklet contains the truth, ask him whether he has the bonds on hand, or will obtain one for you—then buy to the limit of your ability.

Whatever you do, whoever you are, and whatever your business, start working, saving, economizing now for future Loans.

There will be others in the near future, for the end of the great struggle is by no means in sight.

The writer of these lines has nothing but the good of our beloved country at heart—no one makes one cent out of your Liberty Bonds but yourself. Earnestly, sincerely, as one American to another, he bids you remember this message and warning.

"We must get together for greater efficiency."

"We must save or perish."

## Your Bond May Bring Him Home in Safety

The supreme tragedies of war are not enacted on the battlefield, but in the home.

Above the shouts of command and encouragement, the roar and shock of the great guns, and all the swelling tumult of battle which bear the husband and father to a hero's grave and a martyr's glory, there rise the weeping of the bereaved wife and the cries of little children deprived of a father's love and care.

American fathers are now on the battlefronts of France. Many must fall; how many depend upon us who remain safely at home.

A single Liberty Bond will help to save a soldier's life, your soldier's life, and bring him home in safety to those who hold his life far more precious than their own.

## What Does "War Time" Mean To You

Are you complaining because "war time" means coal shortage; less sugar in your coffee; bad business; less money than you think you ought to make?

What about the boys who are fighting for you in France?

For you—a little economy and deprivation. For them the trenches; the pitiless storms of rain and sleet; the ceaseless deafening bombardment of the guns; hunger, cold and fever; wounds and death.

That you may dwell in peace, plenty, and security, they sacrifice everything, give everything, brave everything, and face a nameless grave with a smile and a song.

What are you doing, or giving, or sacrificing for them?

## The Third Liberty Loan

is your opportunity to prove the patriotism that is in your heart and on your lips.

Your opportunity to show yourself worthy of the heroism, the devotion, the self-renunciation of your soldiers and sailors.

Your opportunity to share, in some small degree, the sufferings of those who stand ready to make the supreme sacrifice for you.

All you can do is little enough. You simply lend your money. Do it, and be glad that you can do so much and sorry you can do no more.

# Will You **HELP** Bring Back The Boys of This Community?

Our boys, the boys from this town and this county and this state, are fighting the Huns. They are in the trenches in France, they are sailing the U-boat-infested seas, they are going "over the top" in the face of German cannon and machine gun fire.

Many, many more of our boys are now training and will soon be in France, and more are yet to be called.

And, remember, these are our boys; those who are near and dear to us. They are doing their **ALL**. They are giving their **ALL**. They are prepared to make the extreme sacrifice that our homes, our town, our nation, may escape the ravages of the Hun.

We want them—one and all—to come back to us—

## *Will You Help to Bring Them Back?*

Will you help to provide them with the things they need, with clothes and food and munitions, that they may complete as quickly as possible the terrible task assigned to them?

Will you support our boys while they are fighting for us, fighting the German autocracy that seeks to destroy our ideals of liberty and justice?

Compared to their heroic sacrifice our part is but small—that of providing the funds to keep them equipped; to build and man the ships that will transport their food, their clothes, their guns and their ammunition, and to pay for these things.

Yes, we, the people of this community, will support our boys.

**We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this. That will be our support for Our Boys.**

**FIRST WOODEN SHIP NAMED "NACOGDOCHES"**

The first wooden ship to be built for the emergency fleet corporation at Houston was launched last Saturday and christened "Nacogdoches." The ship is a 3,500-ton vessel and was named by Mrs. Woodrow Wilson. The name Nacogdoches, however, was chosen without the knowledge of anyone living here and the first knowledge that the city's name had been chosen for the new ship came a few days ago.

Mrs. Wilson was asked to select names for a large number of ships which the government is building to help lick the Hun and the list which she announced was made up of Indian names. Among these were Nacogdoches and it is likely that she chose the name "Nacogdoches" because it was an Indian name rather than with the intention of doing honor to our city.

The fact that the ship was the first to be launched in Houston caused that city to make it an event of considerable ceremony. Mayor Matthews accepted the invitation and represented the city in the ceremonies. The ship was christened by Miss Nina Cullinan daughter of J. S. Cullinan, a wealthy Houston man who is president of the Houston Chamber of Commerce.

Mayor Matthews spoke on the occasion as follows:

Ladies and Fellow Countrymen: It is indeed a pleasure for me to be present on this occasion and have the honor of representing the oldest and most historic little city in the Lone Star State, which I feel has been fittingly and much honored in selecting her name to be placed on the first ship built by Texas, of Texas material, to enter the service of our country in this, her hour of need, in the most gigantic struggle for liberty, freedom, humanity and democracy in the world's history.

Nacogdoches, whose name shall hereafter float in the breezes of the sea, from the mast-head of this ship, has been the home of patriots from her infancy, patriots who fought and died to free our great state from the Mexican yoke which at last set its single star of statehood among the clustering jewels of the American diadem of states.

This noted little city has existed under five different governments which links our time with that of the Aborigines, the Nassonites, founded by De Soto and La Salle, which occupation lasted until 1821.

After the battle of San Jacinto it

became a republic. Annexation made it a part of the United States. Secession brought it beneath the Confederacy, and the spring of 1865 once more placed it in the Union. This covers a great number of years with many notable, historic events. In fact, there is only one other city in Texas that boasts of such a history as that of Nacogdoches.

In its location the aborigines showed their knowledge of woodcraft. It is situated on the highest elevation between the streams Banita and La Nana, both small but inexhaustible during the hottest and driest summers.

Many of the noted heroes, who live and will always live in the memory of all true Texans and Americans, from time to time have called Nacogdoches their home. J. Jinkney Henderson, the first governor of Texas lived and practiced law with Thomas J. Rusk, secretary of war of the Republic of Texas there. Sam Houston lived many years in Nacogdoches; it was there behind the grated windows of the old stone fort that David Crockett took the oath of allegiance to the new government of Texas. Milam, Travis, and many other noted heroes were numbered among her citizens.

While she has been the abiding place of many celebrated characters, notorious for other things than heroic virtue, Tom Ochiltree hailed from Nacogdoches, but for the sake of truth and Texas, he was born in Alabama, and quite five years old when he landed in Nacogdoches, notwithstanding the greatest city in Texas, your own Bayou City has claimed him as her own on some occasions.

Nacogdoches kindled in her infancy the fires of liberty, patriotism and loyalty which have been kept steadily burning during all these years, and in these troublous times are now burning brighter and fiercer than ever before, whose flames are fed by a citizenship whose character and reputation for liberty and love of country is unexcelled by any city large or small in Uncle Sam's broad domain, and as before stated, Nacogdoches, the name selected by the first lady in the land and helpmate of our own Woodrow Wilson, whose name and fame will be heralded by generations yet unborn as the greatest statesman, patriot and leader and whose name will honor the pages of the entire world's history, both ancient and modern, save that of the meek and lowly Nazarine, who died on the Cross of Cavalry more than two thousand years ago, to atone for and redeem a sin-cursed world, who is now the one to whom our much loved president asks for guidance, is particularly fitted for this ship—a Texas product, to bear, and we all know that

the Americans who carry her across the water to the front will never permit the Stars and Stripes she flies to be trampled upon or stained with dishonor or defeat.

While these statements of ancient history I have made might possibly carry the inference that Nacogdoches is a little old and antiquated I want to assure you this is not the case now; while she still owns and holds sacred the honored ancient history of which we proudly boast, and value as priceless jewels, she now, with her beautiful landscapes, clear, sparkling artesian water to quench the thirst of man and beast, generous soil, genial and health-giving climate, modern buildings, paved streets, public utilities, public buildings, stately churches, splendid railroad facilities, factories, business enterprises and all other requisites, is a modern little city, second to few in this great commonwealth, with more 5000 loyal, patriotic, liberty loving freemen who are bending their every energy in the aid of America and her allies in this world war for freedom and democracy, who each bid me tell you they feel honored for the distinction of having this ship, the first to be built in Texas—launched and christened with the name of Nacogdoches.

**BE A CHIN UPPER**

You know that men are worth only about three dollars a day from the chin down, selling muscle, but as high as a hundred thousand a year from the chin up, selling brains. There is no room for chin-downers in high salaried class; be a chin upper. The business world wants thinkers and doers. There is a famine of high priced men today; many men are worth a thousand dollars a year, but only a few are worth ten thousand or a hundred thousand. The late Prof. James of Harvard University declared that the average man uses only ten per cent of his brain power. Suppose you are twice as capable as the average man; you are using only twenty per cent of your maximum power, only one fifth of your greatest possibilities. Eighty-five per cent of the men in this country are earning only fifteen dollars or less a week. Ninety-two per cent of those in business fail between the ages of forty and fifty. Ninety-five per cent have no money at the age of sixty. The measure of your success or failure is to the extent to which you obey or violate the laws of business. Our business is to take you out of the eighty-five, the ninety-two and the ninety-five per cent class. **CALOMEL DYNAMITES A SLUGGISH LIVER**

Crashes into Sour Bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nauseating.

If you feel bilious, constipated and all knocked out, go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel toady you will be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

# Why Buy Liberty Bonds?

By **DARWIN P. KINGSLEY**  
President, New York Life Insurance Co.

Why do you save to build a home? It is usually cheaper to pay rent.

Why do you plan to give your children a good education? Will you get any money-dividends from that?

Why do you pay fire insurance premiums and life insurance premiums? You personally will get little if anything from that.

Why do you call the doctor quickly if the children are ailing? You don't stop to think whether you can afford it. Do you?

None of these expenditures are what we call good investments. They don't pay in money, yet all pay the finest of dividends.

*Liberty Bonds represent the home, the school, the children; they represent all the great deeds of our fathers and grandfathers; they represent Bunker Hill and Yorktown and Gettysburg; they represent the blessed freedom under which we all live and they also represent the ORDER that makes freedom blessed.*

They represent the boys "over there," they represent devastated Belgium and homeless Serbia and murdered Armenia:

They are the defense that shall keep from our shores the monster criminals who outraged the women of Belgium and Northern France and made the men slaves;

They represent the strength that shall restore Belgium and rebuild France and avenge Serbia,

They are the voice of those who are too young or too old or too weak to fight; they are the sword of the women and the cannon of the children; they are the voice of a free people calling to cruelly wronged, freedom-loving men and bringing them succor.

*Buy them? Of course you will buy them. You'll borrow to buy them.*

You don't need to be urged. You would be ashamed to go home to your children if you did not buy them.

The rate of interest is important but not of first importance. They would pay, they would appeal to you, if they bore no interest whatever.

Add to the rate of interest the dividends they pay in self interest, in safety, in public order, in liberty and law and you have a larger return than you receive from any other thing that you own.

*They will never become "scraps of paper." They are the best secured investment in the world.*

### WAKE UP

In a little town in Southern England a local newspaper reported recently that every house on a certain street in that town bore the sign of mingled grief and pride, signifying that a member of that household had given his life in the great war.

A French newspaper reported recently that a soldier on being given leave refused it, saying: "My wife and only daughter have met shame at the hands of the Germans. I do not care to go home."

Think of these things, you prosperous farmers, you, who are making high prices today because of war conditions. The life blood and misery of others is being coined into money for you; you people who have been educated, protected, and shielded by our government until you are in danger of losing your sense of gratitude.

Think of these things, you well fed Americans, while you make money out of war conditions, then go home to a meal which is not stunted by the necessities of other human beings, spend your evening with your children, and pass a dreamless night, imagining that you have done your duty as an American citizen.

Contrast the stories outlined with your own enviable condition and then try to realize that you are as truly and as fully committed to the purposes of this war as are those English widows, facing life anew without the bread winner; just as truly pledged to win this war as the French soldier, suffering agonies of mind which it is difficult to fathom. These people are bearing more burdens than human nature should be asked to carry. And what are you doing? Taking things comfortably, subscribing, it may be, of your surplus wealth to the Liberty Loan, and talking about "Uncle Sam cleaning up the Germans."

Wake up! Wake up! Get out of that dream in which you are indulging.

If the first jolt has not awakened you, think of the man you knew, who had a good job, or may be a good medical practice,

who threw it up, left wife and friends, and went to France to fight beside the now dead Englishman and the Frenchman who never smiles.

If you are not awake yet think of the girls of the department stores, and the telephone and telegraph operators, who bought a \$50.00 Liberty Loan bond of each issue out of their \$10.00 to \$14.00 a week.

In charity, we will now assume that you are now awake.

All that you are asked to do is to speed up production in your business, contribute to the national wealth, work harder, economize in the household, cut out senseless pleasures—even pleasures that in themselves are harmless, can still be done without. Save every cent you can. If you have not bought a Liberty Bond, go and get one now at the bank, in order that you may not be branded "slacker." And what ever you do, remember that early next year you will be called on to subscribe to another Liberty Loan.

What do you say? Are you awake now?

### ABOUT THOSE CHILDREN OF YOURS?

One word to the women of America who live peaceful lives in happy homes.

Let us draw a picture for you of a scene at Evian, in France. Six hundred and eighty Belgian children are leaving a train—thin, sickly, from four to twelve years of age—children of men who refused to work for the Germans, and of mothers who let them starve. They are pouring off the train, little ones clinging to the older ones, girls all crying, boys trying to cheer. They have come all the long way alone. On the platform are the Red Cross workers to meet them. Those children who can walk at all march along crying, "Meat, meat, we are going to have meat." Their little claw-like hands are significant.

Two such trains pull into Evian every day. Another picture—it appeared in the illustrated papers recently. It showed an English widow with her eight children and the wording underneath ran as follows: "If the mother recovers from her injuries she will have six less mouths to feed—a bomb smashed their poor little home to pieces."

Do you care to see a picture of Italian life where women and children are marched in front of the German army in order that the Italian soldiers may kill them if they fire?

Would you care to think of such scenes as are described in these words:—"All along the Piave River (in Italy) last night we could hear the screams of women in the hands of the Germans?"

Women of America, it is to save your children from such a fate that you are asked to economize and save and loan to the government all the money you can.

We hope our brave boys and our allies will prevent the Germans from ever reaching our shores, but even so, don't you want to help fight for the poor children of Belgium, France and Italy. Does not your mother's heart cry out to you to do your share.

# The Victory of The Ages

Belgium saved the world while knowing that she could not be saved. She saved it by flinging herself in the path of the oncoming barbarians, by allowing herself to be trampled to death in order to give the defenders of Justice time—not to rescue her—for she was well aware that rescue could not come in time, but to collect the forces needed to save civilization from the greatest danger that had ever threatened it.

There is nothing in history approaching in grandeur such an act as this.

King Albert and his Belgians knew full well that in barring the invaders' road they were sacrificing inevitably their homes, their wives and their children.

Cardinal Mercier, one of the best loved and most high-minded men in Belgium, after having seen his country ruined, her brave men lying dead by the thousands, her women and children maimed, outraged and starving, her churches razed to the ground, found it in his heart to say: "God will save Belgium." Nay, rather he is saying it, which of us would have the heart to cancel this last page of our national history? Which of us does not exult in the brightness of the glory of this shattered nation?

Down within us all is something greater than personal interests, than personal kinships, than party feeling. This profound will in us is patriotism and the religion of Christ makes patriotism a positive law. There is no perfect Christian who is not also a perfect patriot.

Speaking of our entrance into the war, President Wilson said:

"The world must be made safe for democracy. Its peace must be planted upon the tested foundations of political liberty. We have no selfish ends to serve. We desire no conquest, no dominion. We seek no indemnities for ourselves, no material compensation for the sacrifices we shall freely make. We are but one of the champions of the rights of mankind. We shall be satisfied when those rights have been made as secure as the faith and freedom of nations can make them."

The thought of such deeds and the expression of such high sentiments seem to lift us into a world other than that in which we live our daily lives.

Yet there is a practical side to the magnificent bravery of the Belgian people and the exalted attitude of our president.

Patriotism is enlightened selfishness.

It was the unspeakable dread

the horror, of living under German domination, of becoming slaves—instead of free men, of having to labor and sweat through long weary years to build up armies and huge engines of destruction to be used against their fellowmen, which caused the Belgians to make the epic sacrifice of the ages and our great-souled president to announce to the world that the might, the treasure and the life of America should be thrown into the great struggle.

Contract such heroic deeds and noble thoughts with the attitude of those men who, to our sorrow be it said, still remain in small numbers in this country, who say this is not my war. Let someone else pay for it. "I cannot lend my money to the Government, I might need it at any time."

The contrast between the two mental attitudes is so deep, so vast that one wonders whether the gulf can be bridged.

It can, it must be. Selfishness, unenlightened selfishness, is the common enemy of humanity. It was present in the hearts and minds of the Belgian people when they were attacked; it prompted them to stifle their pride, to become an accessory to the crimes of Germany, and to let the Hun go by. As the Frenchman sprang to the defense of his country, unenlightened selfishness prompted him not to court what appeared to be inevitable defeat. This same evil influence pulled at the very heart-strings of the rulers of the British Empire in those tense days when Germany craved that England stand by and allow the German Government to rob and murder at its unholy will. It was in our own beloved country that unenlightened selfishness made its last stand and it is here that it has received its death blow.

The civilized world has won the victory of the ages—selfishness is dead and is no longer a power over the hearts and minds of nations. Yet, like all bad things, it has left traces and signs of its malign influence, and there are still just a few men left today who are saying, "This is not my war."

These men know in their hearts that this is "their war." They know that the war is being waged to keep the Germans from their homes, their farms, their wives, their children. They know that the German Fleet would be in our harbors within a week if we failed in this war. They know that success means the keeping open of their best market—Europe; that failure means slavery to the German masters.

These men who have made more money last year than ever before in their lives—and all on account of the war—pretend that they would see starvation facing them should they loan some of their extra profits to the Government. Such excuses do not deceive even themselves, let alone their neighbors or their Government.

These men must make up their minds whether they will offer to their country and our allies, a mass of excuses or a great big subscription of money, with the message: "This is our war." "We know it." "We are behind our Government." "We are real Americans."

Let us all, those of us who have been thrilled by the sacrifices of our allies and our own brave boys, those of us who have been led by the hand and voice of our beloved President from the darkness of indifference to the light of understanding, hand ourselves together for a double purpose.

Let us set aside every dollar we can spare, which is not actually needed for our business or our personal needs, and place that money at the disposal of our Government which it calls upon us in the very near future to subscribe to the Liberty Loan.

Let us also make it our duty, our solemn duty and our privilege to spread the faith which has been vouchsafed to us. As long as we have a friend, a neighbor, a countryman, who says, "This is not my war," let us with firmness but in all charity plead with such a man.

The road from the valleys of unenlightened selfishness to the mountain heights where dwell liberty, truth, justice and lasting happiness, has been made for us. It has been made by the feet of brave Belgians, heroic Frenchmen and liberty loving Englishmen, and last but not least, by the firm tread of our own sons. It has been watered by the tears and blood of countless thousands and dried again by the glow of a God-given enthusiasm. We cannot but follow such a road. There is no choice. Our consciences, our fellow-men, urge us forward. We must follow to the end.

### In Memoriam.

Whereas, it has pleased the Almighty to take from our midst one of our oldest, and most highly esteemed members of Liberty Baptist church, Bro. E. M. Weatherly, more commonly known as Uncle Mitch.

Uncle Mitch was born Jan. 11, 1831, and has lived in Nacogdoches county since 1849. He was married to Miss Sarah E. McCriston in 1853, and unto them were born nine children, five of whom survive him. They honored their parents and have made good and useful citizens.

Bro. Weatherly was always alert to the needs of his community and country, having volunteered his services as a soldier in the Civil War, and fought heroically for principals that he believed to be right.

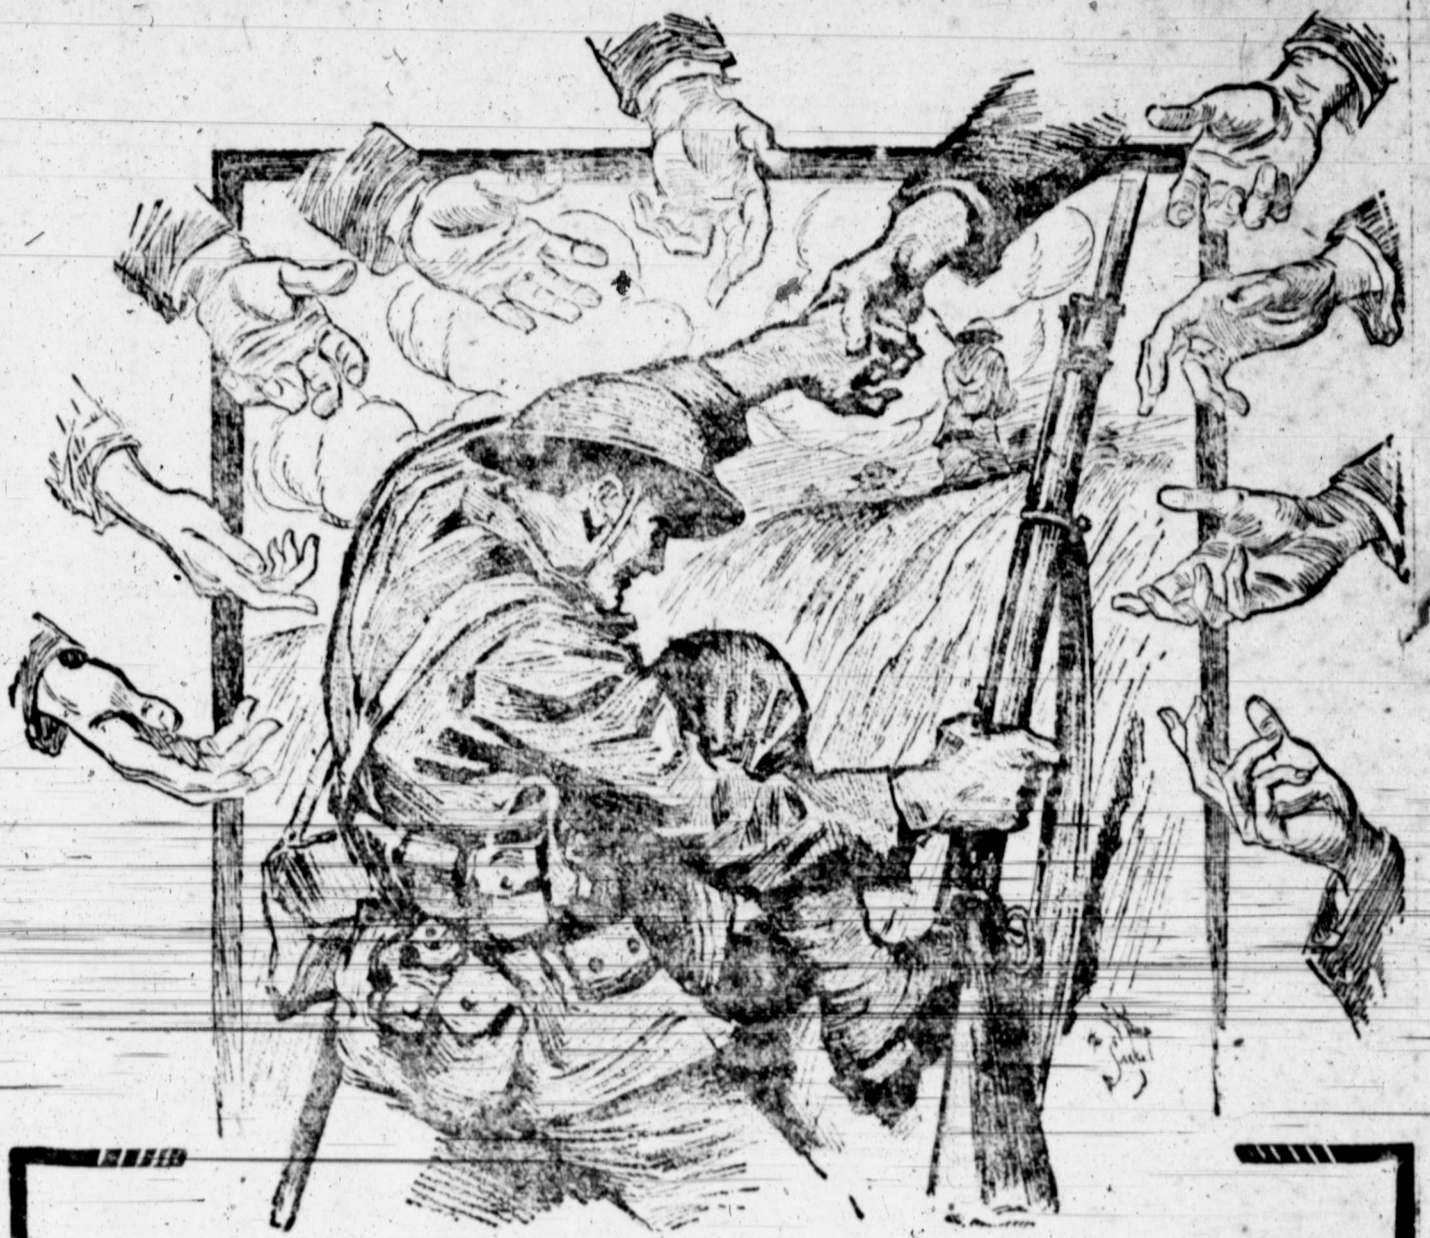

He united with the Missionary Baptist church in Sept., 1887, and has been a consistent member; always consistent in his Christian duties as far as his health and age would permit.

Bro. Weatherly departed this life, February 19, 1918. In his death the church has suffered an irreparable loss, the community a good and useful citizen. The church offers its sincere sympathy to the bereaved ones.

Signed, Committee.

"It is a sacred duty of every citizen and it should be regarded as a glorious privilege by every patriot to uphold the government's credit with the same kind of self-sacrifice and nobility of soul that their gallant sons exhibit when they die for us on the battlefields of Europe." Secretary McAdoo has issued no stronger call upon the American people to support the Liberty Loan. The third liberty loan has now opened. Behind every American soldier in France, back of every American sailor on the seas, there should be a worker and a bond buyer at home. There is a braver part, but we who remain at home can be no less useful if we exhibit that self-sacrifice that they demonstrate in risking their lives. Plainview News.

This is a war of national resources, and everyone must add his share to America's fighting strength if we are to make our superior resources count. Every hand in the land must be stretched out to help our boys if we would send them over the top to early and certain victory.

# “Keep the Home Fires Burning”

Tonight there will be American boys in lonely listening posts far out in the desolation of No Man's Land, American boys in the darkness and the mud and cold of the trenches under the ceaseless thunder of guns and the scream of shells, American boys tramping along the pitch-black, shell-torn roads.

Through the long, dreary hours, as they wait and watch in the dark, while dangers lurk on every hand, their thoughts turn to the homes they have left behind, homes on distant farms, in scattered villages, in great cities, and they see in imagination the pleasant home lights shining out into the night.

## *They Are Fighting to Keep Those Home Fires Burning*

You, back here in the peace and safety of the homes they love, can help in the bitter struggle that our boys must face tonight, and tomorrow night, and every day, and every night, until the final VICTORY is won. You, too, must work to keep the home fires burning—for our sons in France.

They need guns and more guns, shells and more shells,

they need tanks and transports and airplanes, good food and warm clothes and medicines and hospital supplies—an ever increasing abundance of all the vital materials of war, if they are to drive the ruthless German invaders back within their own borders, and establish for all time the sacredness of American liberty and the safety of America's homes—their homes, our homes.

For these lads that are fighting and dying for you—do your share to send them to VICTORY. Invest today in Bonds of the Third Liberty Loan—ALL the bonds you can. Keep the home fires burning.

**HOW MONEY GOES  
ROUND IN A CIRCLE**

"There won't be any money left in the country if they keep asking for these loans."

"How many times do you hear such a remark made about the Liberty Loan? Perhaps you may have even thought something of the sort yourself."

To a man not used to finance the thought is a very natural one. Let us thing this thing out.

In the first place, practically all the money subscribed to the Liberty Loans stays right here in the country, and a good deal of it stays right in the locality from which it is originally subscribed. So that this talk about "draining the country" and about there "being no money left in all the country," is sheer nonsense.

We will suppose that you are a farmer, or a cotton grower, that you have purchased a Liberty Bond and you are paying by installments spread over several months. Now, until the government actually needs your money it leaves it on deposit at some local bank which is acting as a your own bank.

Now, by the time you have paid the LAST installment on your bond, it is quite likely that the money paid in as your FIRST installment has been used by the government to pay for your own cotton or grain, and you will be returning this very same money to the bank to be paid once again to your account, or to apply on your purchase of another Liberty Bond.

"But," you say, "how about these millions and millions of dollars loaned to our allies? Does not this money go out of the country?" It does not. Practically all of the money which goes to our allies is lent with the clear understanding that it is to be used for the purchase of goods in this country. Thus you will see that seldom do we actually loan our allies any money at all, but we loan

them goods which you produce and for which you are paid. **IN SUBSCRIBING TO THE LIBERTY LOAN YOU ARE PRACTICALLY PUTTING CAPITAL INTO YOUR OWN BUSINESS.**

Fears have been expressed by some that the government of this country will place such enormous taxation on the public that it will be almost equivalent to taking their capital and their savings from them. The government of this country desires above all things that you keep your capital and keep it working. It wants your cotton and it wants your foodstuffs and is not foolish enough to take away the capital which you need to run your business. This would be "killing the hen that lays the golden egg." The government wants you to get richer so that you may be in a position to lend some of your increased wealth to carry on the war.

For its own good, the government is trying to make you richer, wealthier than ever you were before.

Have you any "kick" coming?

**If I Were a Farmer.**

If I were a farmer I would keep at hand a few reliable medicines for minor ailments that are not so serious as to require the attention of physicians, such as Chamberlain's Colic and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds and croup.

Chamberlain's Liniment for sprains, bruises and rheumatic pains.

Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow. Stripling, Haselwood & Co.

Break your Cold or LaGrippe with a few doses of 666.

**LET'S GET THIS  
THING STRAIGHT**

"Why don't the government arrange short term loans? People don't care to tie up their money for ten, twenty or thirty years."

How often do you hear these words. Sometimes people say these things because they really don't understand the situation, and sometimes they say them because they think it forms an excuse for not subscribing to the Liberty Loan.

In either case they are wrong. It is just as easy to get at the money invested in Liberty Bonds when the term for repayment is thirty years, as when ten years.

Very few of the bonds sold today will be held by the original purchaser when the Bonds are redeemed by the government. Many purchasers will die, many will deed away their bonds, many will sell at a profit, if only they will hold their bonds until the war is over.

When you buy a bond you do it with the idea of lending the money to your government for just as long as you can conveniently without hurting yourself or your business. When you cannot lend this money any longer, then sell your bond to some one else.

Remember just two things—as long as you hold the bond and the government has the use of the money, you are doing a sensible patriotic act, and drawing 4 per cent interest. When you pass the bond to some one else, you have ceased to help your country, you have placed your responsibility as an American citizen upon somebody else's shoulders, and have given up the safest investment in the world.

Your banker still has some Liberty Bonds on hand which he can sell you. Go and talk it over with him. He will tell you that you could not possibly do as well with your money, as by purchasing these bonds.

**YOU AND I AND CO.**

The government of the United States! Do you think of it merely as some great big machine up in Washington that levies taxes and eats up a great deal of money keeping its machinery moving? If you do you are wrong.

The United States government is a business corporation run for the good of the citizens, who are its shareholders. Its head officer is at Washington. You and I hired some of the cleverest men we could find to run this business for us. Now, when you hire a man to do a big job for you you must give him your support, both in money and good feeling. You know what it would mean if you were to hire a man to run your farm, or your store, and then went about amongst your neighbors grumbling about him and "cussing" him. Would you get good results? Would the business be a success?

These fellows that we have hired to work for us up in Washington are real human beings. Take our President. Read some of his speeches. Read what people say who have talked with him constantly. They will tell you that he is the most human man in the world with a great big sympathy for everyone, whatever his position in life. By the way the President is a Southerner. Take the Secretary of the Treasury, too, who is asking you to buy bonds—a boy from Georgia, growing up among the people of the south, having to work hard at an early age for a living, he studied law and became a lawyer whom everybody trusted because he was straight. He knows just as much of your conditions and is just as much your friend today as he was when he was a lawyer in a country town.

These people need your support in the biggest job that any men ever tackled. They want your friendship, your good will.

Quit "cussing" the government if you ever did this, and shake hands with our "boss foreman," good fellows, every one of them.

**Worth Fighting For**

**S**HALL this little girl grow up in the sort of American home we know, healthy and happy? Shall she have the advantage of living and learning in a free land, under free institutions? Shall such children develop into the Liberty-loving citizens that a free America may be proud of?

For over two hundred years Americans have fought valiantly, and died gallantly, to win for themselves and hand down to their posterity the blessings of liberty, justice, self-government and equal opportunity. This precious heritage, bought at so great a price, is now threatened.

**The question which today confronts America as a nation, and you as an individual, is whether or not a free America is worth fighting for**

Are American children in this and all future generations to receive unimpaired the legacy of freedom of which we are now the custodians, or shall their country be turned over bodily to the brutal, rapacious, power-mad enemy which has forced us into this war?

This question cannot be answered by word of mouth, but by deeds alone.

# Weekly War News Digest

Stories of Activities and Conditions Throughout the United States and on the Battle Fronts, from Washington, D. C.

## Course Prepared to Train Men for Technical Employment.

A war emergency course to train men for machine-shop occupations, blacksmithing, sheet metal working, and pipe fitting, has been prepared by the Federal Board for Vocational Education and will be distributed to the schools throughout the country. It is known as Bulletin No. 8. The board is acting with the War Department in preparing these courses of study and in dealing with state authorities in charge of the school work.

## Australian Farmers May Put Their Cattle in Wheat Land.

Recently there has been considerable discussion through the press and in public meetings in Australia concerning the advisability of producing more beef cattle and sowing less acreage to wheat, according to a report to the Department of Commerce.

## New Card Record to Expedite Pay of Men in Service.

There is being prepared in the Adjutant General's office a new "pay card" which will be kept by the personnel officer and will show the pay status of the men at all times. Should a man be transferred or detached from his company he will carry his card with him. This is expected to eliminate the many causes for delayed payments of men so transferred, and do away with many of the annoyances that have heretofore existed.

## Weekly Examinations to Fill the Positions in Civil Service.

So urgent is the government's need for bookkeepers that civil service examinations to fill positions of this character will be held throughout the United States each Tuesday until further notice. Women as well as men are eligible.

Two classes of examinations are announced. A grammar school education or its equivalent is required of applicants for either class, with the further stipulation that those who wish to take the bookkeeper-typewriter examination must have had at least six months' experience in bookkeeping, and those who would undertake the clerk-bookkeeper examination, one year's experience in clerical work, six months of which must have been in bookkeeping. The vacancies to be filled from the register obtained from these examinations are in the depart-

mental service at Washington and offer entrance salaries of \$1,000 a year.

These examinations are open not only to all citizens of the United States but also subjects of allied nations who are otherwise qualified for the positions offered.

More than 70,000 acres of land in this country has been planted in castor beans to provide oil for aircraft.

During 12 months the army hospitals increased from 7 to 63 in number and from 5,000 to 38,400 beds; 30,000 more beds are being added.

There are now four times as many vessels in naval service as a year ago. The estimated pay of officers and men in the navy for the first year of the war was \$125,000,000.

The air personnel in the first year of the war was increased from 55 officers and 1,120 men to 100 hundred times that number. Eleven kinds of schools have been installed.

Several hundred submarine chasers, built since the war, have been delivered to the navy by 31 private concerns and 6 navy yards. Many of these boats have crossed the Atlantic, some in severe weather.

Among the purchases of the Quartermaster's Department are 1,300,000 pounds of prunes and dried beans; 40,000,000 yards of mosquito bar, 75,000,000 yards of five-rab; 3,000,000 blankets; 50,000,000 pairs of heavy stockings; 31,000,000 pairs of woolen drawers; 11,000,000 wool coats. The Ordnance program includes the purchase of 23,000,000 hand grenades, 725,000 automatic pistols, 250,000 revolvers, 23,000,000 projectiles for heavy artillery, 427,246,000 pounds of explosives, 246,000 machine guns, and 2,481,000 rifles.

Congress has authorized \$2,034,000,000, of which sum \$1,135,000,000 has been appropriated for the United States Shipping Board and Emergency Fleet Corporation; on March 1, \$353,247,955.37 of this sum had been expended. The Emergency Fleet Corporation had requisitioned March 1, 425 steel vessels and contracted for 720 steel vessels, making a total of 1,145 steel ships, of an aggregate dead weight tonnage of 8,164,508 tons; it had let contracts for 490 wooden vessels, aggregating approximately 1,715,000 dead weight tons; it had repaired

and put in operation 780,000 dead weight tonnage seizer from Germany and Austria. On March 5 the building program of the Emergency Fleet Corporation was being carried on in 151 plants.

## YOU MUST DO SOMETHING.

If you are an American Citizen you must do something to help win this war. You cannot stand idly and selfishly looking on while your neighbors are giving their lives.

You realize all this, but perhaps you are not clear as to exactly what you can do to help.

If you own farm land, see that it is used for the purpose God intended it—for the raising of crops. You will be providing food for our armies and making profits for yourself.

If you manufacture goods, economize in time, labor, and material, in your factory or shop. Work harder and more efficiently. Above all, stop waste. Again, see that you secure the business of your home town in your line of goods. This leaves the Eastern Manufacturer free to make goods for the army, and for our allies, and cuts out needless transportation expenses. Incidentally, all these things will bring you greater profit.

If you are a clerk in an office or a store, work harder—it will bring you more pay. Cut out some foolish extravagance, and so save money.

If you are a house-wife, follow out Mr. Hoover's advice. Again, teach your children thrift, and the value of money. The task will repay you many times over in satisfaction and actual wealth.

What shall you do with the money you save by this means? Why, loan it to the United States Government at 4 per cent interest. Buy a Liberty Bond. The banks have some Bonds on hand right now, and there will be another Liberty Loan Issue early next year.

Imagine, if you will, that you are sitting at a table with our great President, talking this matter over, and he is asking, "What are you prepared to do to help me, to help our Country? Surely you will do something; what shall it be?"

The Officials of this bank, as Agents for the United States Government, ask you this question on behalf of our revered leader.

Answer the question in your own heart and mind, and start to act upon your decision TOMORROW.

As you are an American, you will.

## Give Your Little Ones An Interest in the Future

They are your hold on the future, and America is fighting to make their future safe. They are too little to realize this now—but some day must learn to reverence the traditions of America, the ideals of America, the great cause for which the men of their father's day gave their lives.

Be ready then to put in their

hands bonds of their government. They will be for them inspiring evidence that their fathers planned sacrificed and invested for their sons' future. Liberty Bonds will mean more to them than money. They will make them proud of the fathers who in America's day of great need proved themselves true American patriots.

**EXPENSES OF WAR ARE BILLION PER MONTH**

Washington, April 4.—Nine billion dollars is the approximate cost to the United States of one year of war.

More than one-half has gone in loans to allies and will be repaid eventually. Over one-third has been spent for the army and military establishments, one-tenth for the navy and one-fifth for shipbuilding.

Just one-sixth of this big war cost has been raised by taxation and other ordinary sources of revenue and the balance has come from the sale of liberty bonds and certificates of indebtedness.

Enormous as the expenditures may seem to a country whose government in peace times costs between \$700,000,000 and \$800,000,000, they are less than Great Britain's and are only about two-thirds of estimates made by officials less than a year ago. Slow progress of the shipbuilding program and the retarding of the outpouring of war supplies are regarded by officials as the chief reasons why expenses did not equal estimates.

Governmental expenses are now running about a billion dollars a month, with somewhat less than half going to allies who spend the greater part of their loans for war supplies in this country.

Since the declaration of war April 6, 1917, the government's actual expenditures have been more than \$9,800,000,000, but about \$800,000,000 of this sum would have been spent for normal activities even if the United States had not entered the war. Ordinary expenditures, under which the treasury classifies all outlays for operation of the governmental machinery and war enterprises, since the declaration of war have been approximately \$5,084,000,000. Actual payment to allies amounted to about \$4,743,000,000.

Income from internal revenue, most of which is represented by war taxes, and from customs and miscellaneous sources was run up to about \$1,585,000,000, and two liberty loans have brought to the treasury a little less than \$5,800,000,000. Small collections

from war savings stamps or thrift stamps in the last four months amount to \$140,000,000.

There are a number of other minor receipts and expenditures, but they do not materially affect the condition of the public coffers. Outlays for redemption of certificates of indebtedness, although appearing large on paper actually mean little to the government in the long run, since certificates represent short-time loans, public borrowings which are repaid within three months.

About \$3,200,000,000 of certificates of indebtedness are now outstanding and will be redeemed at various times within the next few months. This means that the treasury has received this amount to cover running expenses, but will have to repay it soon out of receipts from taxes due in June and from the third liberty loan.

Financial experts of the government calculate that the war has cost in dollars even more than the formal treasury figures show on account of increased expenditures of many states and local governments under war conditions. They do not venture to estimate the aggregate of these expenditures, however. On the other hand, the war has resulted in unimpaired economies, public, private and personal, partly by rising costs and partly by organized economy movements.

Sixteen applicants for school teaching certificates were examined before the County Board of Examiners here last Friday and Saturday. Messrs. H. P. Caveness of Cushing, and F. A. Beall of Nacogdoches, acting as the Examining Board.

Of the latter Miss Gladys Mitchell of Trawick, passed the examination and was given a second grade certificate. The State certificates will be awarded from Austin, where the examining papers have been sent for grading.

**MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED**

If Cross, Febrish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, Mother! If coated, or your child is listless, cross, feverish, bad breath, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailments, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleaning" is oftentimes all that is needed. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups, plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Co." 53

**In Days to Come.**  
By H. Addington Bruce.

Here are a few facts worth thinking about:

Probate court records show that over 85 per cent of the people who die in New York city die penniless or next to penniless.

Of the remainder, 4.3 per cent leave less than \$4000, and 7.4 per cent leave less than \$10,000.

Only 3.3 per cent leave estates worth more than \$10,000.

As with New York so with other American cities.

Some time ago a survey was made of the estates of 43,337 people dying in eight typical cities situated in widely separated parts of the country. It was found that of the 43,337 as many as 41,329 (or more than nineteen out of every twenty) left less than \$5000.

Nothing could indicate more plainly the unevenness with which wealth is distributed in this country.

But also nothing could suggest more strongly the thoughtlessness of hundreds of thousands of our people.

Most of the persons who die leaving nothing have not been paupers all their lives.

On the contrary, most of them, in their prime, have been wage earners, often drawing good pay for many years. Not a few have been high salaried men.

But they spent as they received. They gave no thought to the days to come when they would be too infirm to work.

Hence their dependence on others in old age, and their death as virtual paupers.

What happened to them will happen to you unless, in these days of your money-making activity, you practice thrift.

And today there are some special means by which you can practice it, to the safe-guarding of your happiness in later years, and also to the safe-guarding of your interests in the immediate present.

Your country is in war, forced into conflict with a savage, ruthless enemy.

Only victory over that enemy can leave free to work and earn and enjoy life as you have been doing. Defeat will mean your ruin as well as your country's.

In this war crisis money no less than men is needed for victory. To obtain money the United States government calls upon all citizens to contribute from their earnings, not gifts, but loans.

It urges the purchase of Thrift Stamps, War Savings Stamps and Liberty Bonds, all guaranteed by the government and later to be redeemed in full and at good rates of interest.

Here is your chance.

By lending to the government you will not only be doing a patriotic act, but will be helping to insure yourself against poverty and want in the twilight of your life.

You will be helping to keep yourself out of the ranks of the 85 per cent who die with scarcely a dollar to their name.

Don't miss this opportunity. Begin today through patriotism to benefit from thrift.

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out.

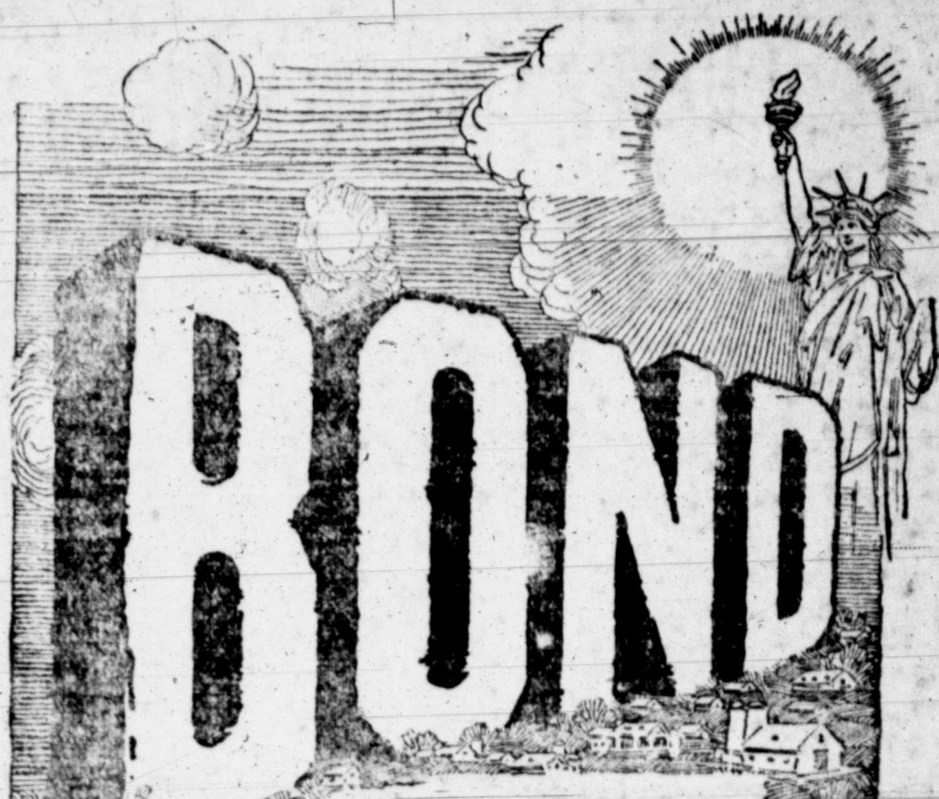

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

**One Hundred and Forty-Two Years of Labor and Struggle**

**THE American people fought their first battles for liberty and the rights of self-government one hundred and forty-two years ago.**

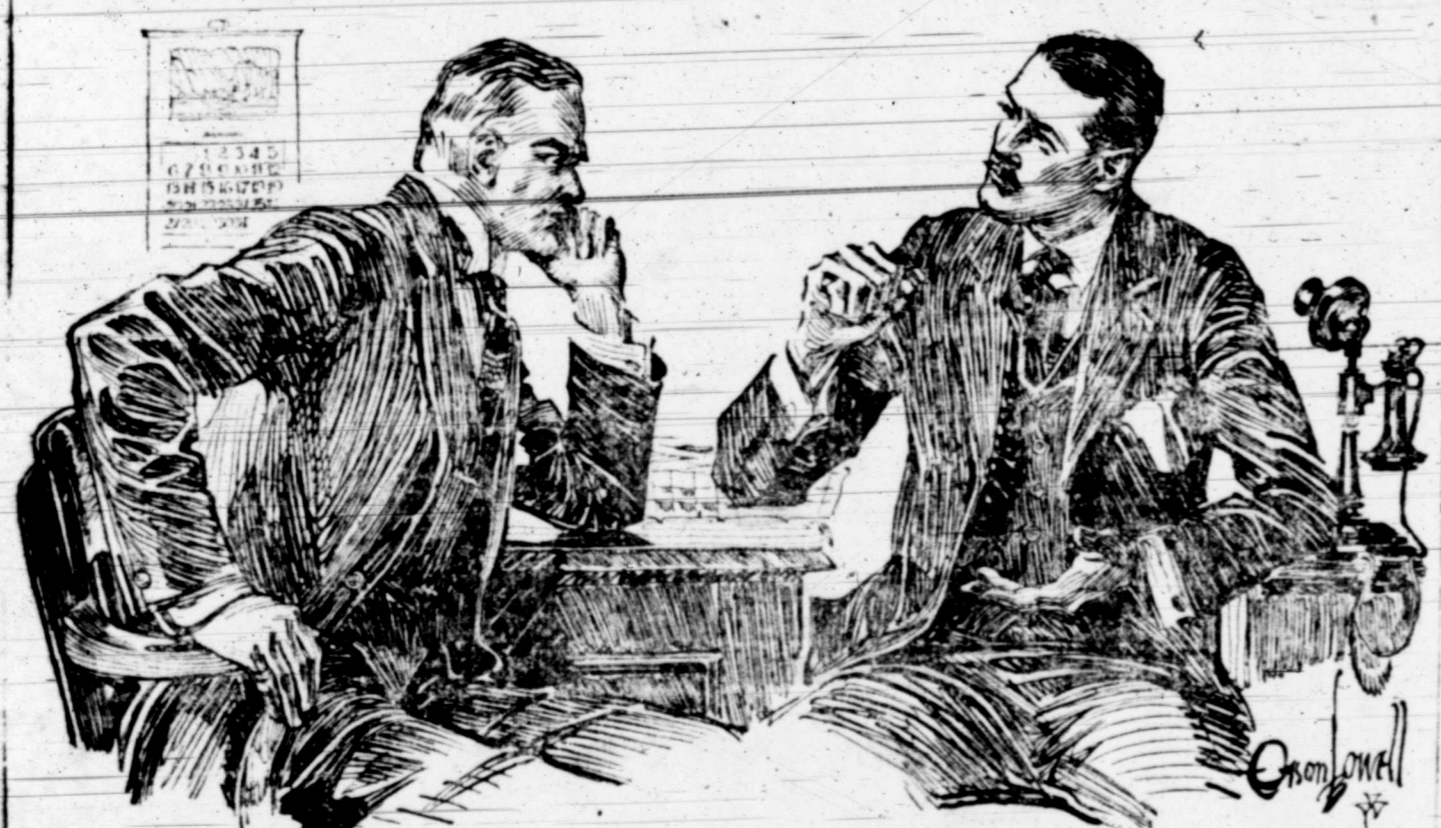

At that time, and for many years thereafter, their realization of their national aspirations and of the goal toward which they were really striving was vague and indistinct. But step by step they struggled onward and upward toward a light which grew clearer as their eyes and minds slowly opened to its significance. Today, as a result of their struggles and their sacrifices, we possess and enjoy our priceless American institutions.

**The immediate need is the investment of our money in LIBERTY BONDS!**

These institutions must be preserved. The structure so laboriously reared in these one hundred and forty-two years will be utterly destroyed if we do not spring to its defense with every atom of our energy and determination. This is not a situation which may be trifled with, or evaded, or put off. It is one which must be met now—today—no matter what sacrifices it may entail, or what the cost may be.

**Mr. Doubtful:** "I don't see how I can buy any more Liberty Bonds. I bought all I could last fall. I'm not a rich man and I don't think it's fair or just to expect me to do anything more than I have done."

**Mr. Right:** "Let's see—your next-door neighbor's boy enlisted, didn't he?"

**Mr. Doubtful:** "Yes, he's over in France now. Mighty fine, stalwart boy, that!"

**Mr. Right:** "Exactly, and some day that splendid boy, the pride of his parents' hearts, may go 'over the top' in a gallant charge, stop a German bullet, and fall in the mud and debris of No Man's Land. Isn't that asking too much of him, and of his family? Is that 'fair'? Is that 'just'?"

**Mr. Doubtful:** "Why, it's awful, of course, but it can't be helped. This is war, and men have to be killed in it."

**Mr. Right:** "You've said it—this is war! To win the war it might be necessary for the government to take your factory away from you, and ruin your business. It might be necessary to take your house and turn you out in the street. What of that? Is that as great a sacrifice as your neighbor makes, or stands ready to make, when he gives his boy to his country? Yet you don't think it's your duty to pinch and save, and borrow if need be, in order to buy Liberty Bonds, and thus help shorten the war, make victory certain, and save the lives of thousands of American boys who will otherwise be uselessly sacrificed."

**Mr. Doubtful:** "I guess that's true, Mr. Right, I have been thoughtless. I'll stop complaining and criticising, and put up my last dollar if need be, to help win this war."

**DIDN'T KNOW WHAT TO DO WITH HIS MONEY**

A farmer came to one of the biggest business men in the Southwest last week and said: "I have done pretty well this season. I've \$500.00 that I can spare. It's earning me nothing in the bank. You know something about investments, tell me what to do with it."

"Well," said the big fellow, "You can put your money into Railroad Stocks, you can buy Standard Commercial Stocks, or you can take long chances and buy stock in some Gold Mine which may or may not make you a Millionaire. Do you know anything about stocks, shares, or investments generally?"

"Not a thing."

"Well, what is your first requirement in an investment, do you want interest, or absolute safety?"

"Absolute safety—no chances for me."

"Why I wouldn't sleep nights and my wife would never quit worrying I took chances."

"Well," was the reply, "I can advise you to buy some good Commercial Stock but I want to warn you that owing to trade conditions being upset of course the Stock might be low just when you wanted to sell. Would you mind that?"

"Yes, I believe I would. Of course I know all Stocks go up and down a little in price, but I must have something that can't go down too low, because I might want my money any time, and I can't afford to lose 5 per cent to 10 per cent of my investment just for the sake of securing 5 per cent to 10 per cent interest."

"So you want something that is so safe it will not cause you one moment's worry, you want something that you can purchase, hold and feel safe about without your having to learn anything about stocks, shares, or market prices."

"That's it exactly."

The business man had known right along what investment this man needed, but he wanted the farmer to see himself first. "Well," he said with a smile, "What's the matter with investing with the United States Government? You won't have to sit up nights wondering whether they are going to fail. You don't have to know one thing about stocks, shares or markets, in order to get in on the proposition, and your little 4 per cent comes around twice a year regularly."

"Oh, you mean buy a Liberty Bond?"

"Yes, why not?"

"Well, I guess I can't do better."

"Better, why man, you can't do as well. It's the only kind of investment for a fellow like yourself who knows

all about farming and nothing about finance. Your bond is the best collateral in the world, you can always sell it if you have to, and believe me there is a feeling of satisfaction about owning one of those bonds that you can't buy with any other security. The bond is Uncle Sam's certificate that you are an American in good standing and you feel that you are helping our boys in the great fight. Look at it anyway you like, it's the finest investment in the world."

**THE FARMERS' WAR.**

Let us think for a while how the war concerns the farmer. We went to war with Germany partly because the rulers of that country refused to let us send to Europe our ships laden with grain and cotton. They sunk the ships and cruelly murdered our sailors. Now suppose we allowed them to stop all our shipping, where would you be? None of your goods would be sold in foreign countries, with the result that you would get nothing like the prices which you get today. This war is being waged partly that you may obtain fair prices for your goods.

What is going to happen if we lose this war? Prices of farm produce will drop; the Germans will impose taxation upon you which will cripple you for the next twenty years. Worse than that, if the Germans get over here, they will treat you in just the same way as they have the farmers of France, Belgium and Italy. In these sections farm houses have been shot to pieces, crops wasted and burned; even fruit trees chopped down, the cattle stolen, the men sent into slavery to work for German masters, their women ill-treated in ways that cannot be talked of in print, their little children have had their hands chopped off in order that they may never fight or do any more useful work again.

You may say "such things will not happen here." They said this in France, in Belgium and in Italy. Such things will happen here just as sure as you are alive, unless we smash the Germans so utterly that they are unable to reach this country. The German fleet and the German army will take just one week to get here if we are beaten. They have made up their minds that America shall pay.

Is there a farmer who will stand forward now and say, "This war does not concern me."

You have money that you do not need at present. Loan it to the government at good interest; when you want the money back again, you can borrow on your bond, or sell it. Un-

**Lend Him a Hand**

**Five Hundred Thousand American Soldiers in France**

We dare not delay the VICTORY now. American lives are at stake, our own safety, the safety of the whole world. If we are not to prolong the slaughter and the suffering, if we are not to risk defeat or an inconclusive peace, we must act quickly; we must put forth our every effort now.

The army is doing its part. Five hundred thousand American soldiers are in France today. There will be more tomorrow. And more the day after. We are going to send an army large enough so that when we strike, with our Allies, we can drive the German hordes back across the Rhine—so that we can win the decisive VICTORY that will make American freedom safe, and establish a just and lasting peace.

But the whole nation must take part. Our armies in France are looking to us to furnish them in ever greater abundance, the ordnance, the munitions, the supplies that will make their VICTORY possible. We must not fail them.

The Third Liberty Loan is our share in the winning of this war. Upon it depends the safety and success of five hundred thousand American soldiers in France.

**IT MUST BE KEPT ALIGHT.**

Upon America devolves the sacred duty of keeping alight the torch of Liberty and upholding justice and democracy throughout the world. Let us not falter or count the cost, for in the freedom of the world lies our only safety, and the preservation of our American liberties and institutions.

Uncle Sam will take care of your money until you need it and pay you interest on it.

Go and buy a Liberty Bond tomorrow.

The Banks have some Bonds on hand, they are holding them for people like yourself.

Don't be a slacker, and don't fool yourself with the idea that you are too far away from the war for it to hurt you. Remember 1914, when the Germans upset the world's shipping, and you took what you could get for your products.

Think of the twenty years starvation prices ahead of you, in case we are beaten.

This is your war, and if you won't get in it you deserve to lose your American Citizenship.

Call in at the bank tomorrow, and talk it over.

**Land For Sale.**  
We have four or five splendid tracts of land for sale. They are going to be sold and if you are in the market see us.

## The Destruction of Civilization

This is in grim reality what we are fighting this war to prevent. The club pictured above—from an actual official photograph—might be the weapon of a savage cave man of five thousand years ago. It is in fact the weapon with which German soldiers finish off the enemy wounded who have fallen on the battlefield—on the battlefield on

which American boys are fighting.

There is only one answer to make to such methods the defeat of the German Armies. America has taken up the sword to give that answer. Our Army is in France to help win this war on the battlefield—that civilization may be safe, that America may be safe.

## You Can Have Your Share in America's Answer to German Savagery

The Third Liberty Loan is your opportunity. It is the most direct blow that can be struck at German military supremacy. It is the most powerful aid that can be given our soldiers in France. It means rifles and helmets and gas masks—the best

protection for our men from German brutality. It means big guns and shells and airplanes—and VICTORY.

Invest TODAY in bonds of the Third Liberty Loan, and save the lives of American soldiers.
