SECRETARY BAKER CALLS FOR SUPPORT

(By Associated Press)
WASHINGTON, April 17.—Secretary Baker called on the American people for renewed support in the war, today.
"The best way," he said "is to buy Liberty Bonds.
Mr. Baker expected to report to President Wilson some time during the day.

TO PROHIBIT HORSE TRADING

(By Associated Press)
DALLAS, April 17.—"First Monday" and Stray sales day will soon be a memory in Dallas. At the request of a number of residents and property owners along the streets where the horse-traders and farmers have gathered to dicker in horseflesh, the city commissioners have prepared an ordinance which will prohibit them from trafficking in horses, mules, cows, etc., on the streets.

CYCLONE WRECKS THREE HOUSES

PLANKS AND BOARDS BLOWN A MILE WHEN CYCLONE HITS GARRISON

(Special to The Sentinel)
GARRISON, Texas, April 15.—A cyclone visiting this city this morning at 11:30 o'clock, took three houses in its wake, together with much fence, and gave the inhabitants of the town quite a fright.
The houses wrecked included a warehouse belonging to Garrison & Patterson, an outhouse belonging to C. T. McLemore, and a small house belonging to L. C. Jopling. There was some other damage which had not been checked up at the time this report was prepared.
Particles of the houses that were wrecked are reported to have been blown a mile distant, falling indiscriminately as they were released from the winds.
No persons were reported injured.

LAST DRAFT MEN ARRIVE CAMP LOGAN

(By Associated Press)
HOUSTON, April 17.—The last of the 6,000 draft men have arrived at Camp Logan, and the Twenty-Third Division is now up to war strength, but only temporarily, as about 700 aliens who have not been naturalized will have to be transferred from this command to a non-combatant arm of the service under a recent ruling of the war department. The last 6,000 men are, on the average, a much better class than the previous, sent the division from Camp Grant. There are fewer who will have to be discharged for physical or mental disability, among them and the men apparently are more cheerful.

A Word to Our Farmer Friends

Never since you were born has the welfare, not only of our nation, but of the entire civilized world, depended upon American farmers as it does today. Thoughtful men at home and abroad realize the Great War can be won for Democracy and Civilization only in case the farmers of this country produce unusually large crops of food and fibre during 1918.

Nobody doubts that American farmers will do their level best to "stand behind the man behind the gun" by producing the increased yields that will be sorely needed during the coming year and the year after that; but the problem that confronts farmers is, how can they raise larger crops with a reduced supply of farm labor? It can be done in one way only—by substituting upto-date implements for human muscle wherever possible.

Improved farm implements not only make the farmer's work easier but they enable him to do better work, and more of it, at less cost. They represent a more profitable investment now than ever before because the yields they produce are selling, and will continue to sell, at unprecedented prices. Up-to-date implements are easier for the farmer to buy now than in the past, because their purchase price represents less corn, cotton, peanuts, and livestock than in the year preceding the war.

We sell many types of upto-date "Farmers Helpers" including Plows, Harrows, Planters, Cultivators, Gasoline Engines, Hay Presses, Mowers, Rakes and numerous other "farm necessities." Let us know what farm implements you or your neighbors need and we will gladly send full information and quote lowest prices possible.

We sincerely hope the products of American farms during 1918 will establish a record both in size and in money value to the producers and that Nacogdoches County farmers "will stay behind the men behind the guns."

BOLO PASHA SHOT THIS MORNING

(By Associated Press)
PARIS, April 17.—Bolo Pasha, the famous master traitor and German spy, who was recently sentenced to death by the French authorities, was shot by a French firing squad this morning.
Pasha was one of the most notorious international spies the war has produced. He has handled large sums of money in the interest of Germany, as well as serving German interest in other ways. He handled enormous sums of money in the United States in the interest of Germany.
Bolo maintained a calm front to the last, and went to his death without a struggle.

WILL TEST ZONE LAW

(By Associated Press)
AUSTIN, April 17.—A Habeas corpus suit to test the constitutionality of the ten-mile zone law has been filed in the court of criminal appeals by attorneys of Fort Worth.

The suit is the outgrowth of an arrest, yesterday of G. H. Hollinsworth, charged with selling a quart of whiskey within the Fort Worth ten-mile zone.

A hearing of the case is set for April 24.

Capt. Frank Garrison was among the Garrison visitors to the city today, looking after some business interests and shaking hands with his many friends.

15,000 SALOONS CLOSE TONIGHT

(By Associated Press)

DALLAS, Tex., April 15.—Approximately 15,000 saloons will close their doors tonight in compliance with the ten mile zone law, passed by the recent legislature. Tonight at 9:30 o'clock (sun time) every city and large town in the state becomes dry. There are still in operation however about 1,100 saloons in smaller towns, but under the statutory statewide prohibition law they will be compelled to close their doors on June 26.

Seven breweries, located in Galveston, Houston, San Antonio, Fort Worth and Dallas are expected to continue operation until the state wide law becomes effective. Already some are engaged in the manufacture of non-alcoholic drinks and it is believed that all will follow with the closing of the saloons.

When the ten-mile was first proposed and introduced in the legislature it was expected to apply only to those towns in which cantonments were located. Later it was altered to include every district in which there is a fort, arsenal, aviation field or school where soldiers, sailors, marines or aviators are quartered or where ships are being built under government contract. Under a ruling of the attorney general the ten-mile zone law includes all regular landing fields for aviators. This ruling placed in the "dry" column a number of central and south Texas towns which would have remained open until April 26.

The original prohibition move in Texas was made in 1876 when the new state constitution was adopted. Article 16 of section 20 gave the citizens the right to vote on the local option provision. Shortly after that the Texas local option association came into existence. Prof. H. A. Ivy of Sherman was secretary and general manager and campaigns were waged resulting in several counties voting out saloons. Rockwall county is said to have been the first county to go into the dry column. In 1896 the Texas anti-saloon league was organized with Dr. B. F. Riley as superintendent. This organization began a systematic campaign on Texas saloons and has been active in all local option contests. For the past several years Dr. A. J. Barton has been superintendent of the league with offices in Dallas.

The big drive by the dry forces was launched last summer in Dallas when a local option election was called for September 10. Much to the surprise of many the largest town in Texas voted dry by a big majority and on October last about 200 wholesale and retail liquor establishments closed their doors. Waco next voted the saloon out, followed by Marlin and Austin and a number of smaller towns.

The ten-mile zone law was recommended to the special session of the legislature by Governor W. P. Hobby at the suggestion of the secretary of war in view of the fact that there are cantonments or training camps of some kind at practically every large point in the state.

In the main Texas saloon men expected to quit business. A few intended to move to Louisiana or other nearby wet states but the majority are arranging to engage in other occupations. When the saloon was voted out of Dallas and Waco many of the proprietors who had been engaged in that business converted their establishments into restaurants and cafes, using to a great extent the fixtures that had been installed in their drink emporiums. Domino, reading tables were decorated with white linen and became dining tables and bars cut down, became counters for hungry office men at noon.

One of the peculiar phases of the local option law until the new laws were adopted at the special session of the legislature, was that while a brewery located in Dallas county might manufacture beer, it could not be sold in Dallas county. A man living a few blocks of the brewery sent his order to Fort Worth for a case of Dallas beer, he was shipped thirty-two miles to Fort Worth, a new shipping tag attached and in a few minutes it was on its way back to Dallas billed to the man who lived within the shadow of the brewery.

THREE KILLED MANY INJURED

(By Associated Press)

DALLAS, Texas, April 15.—Three people were killed and many were injured in storms over North Texas yesterday and last night.

The worst destruction wrought was in Wise and Denton counties, where many houses were demolished. Bud King of Roanoke, Denton county was killed. A white woman on the Parker county farm, and a negro woman in Denton county were killed.

"Save Animal Fats. Use Vegetable Fat. Substitution will do more for food conservation than the strictest economy."

U. S. Food Administration

YOU have probably been told of the world's shortage in fats—animal fats particularly. Has the force of this condition come home to you?

Our fighting men need fats for their energy. Our Government needs fats for munitions. Millions of devitalized women and children abroad need fats for life itself—does this appeal fall on deaf ears?

Does so much as an ounce of lard or butter steal its way into your cooking? If so, there is not the slightest necessity or excuse for it.

Do you realize that this country produces vast quantities of pure, nutritious cooking fats

derived from vegetable sources?

From these fats we make Cottolene.

When you use vegetable fats in place of lard and butter, you are doing a patriotic duty. You are sacrificing nothing in wholesomeness, economy and good eating. You are simply making an easy change in the way you cook—for your own good and the good of your country.

"Every pound of vegetable fat used in place of butter or lard is as sure of service as a bullet."

Get on the firing line in your own kitchen today with Cottolene.

SIX MEMBERS OF THE FAMILY U. S. SERVICE

(By Associated Press)

CLEVELAND, Ohio, April 13.—Six members of the Brett family of Cleveland are in the war service of Uncle Sam. Four of them are in the army (two in active service in France) while two more are working in civilian lines.

W. H. Brett, chief librarian of the Cleveland public library, is the head of the patriotic family. He wears a little service pin with four stars, which, he explains, means that he has three sons and a son-in-law in the army.

Librarian Brett's two sons at the front are Lieut. Colonel Lewis Brett and Major George H. Brett. The former, of the ordnance arm of the service, has been acting as aide to Secretary of War Baker in his inspection tour of the American expeditionary forces in France, while Major Brett is at aviation headquarters in Paris.

Lieutenant William H. Brett, Jr., recently received his commission at the Fort Myer training school and is at the Rock Island arsenal. The son-in-law, Captain Ralph Spangler, is at Watertown, N. Y. arsenal.

Mr. Brett has been temporarily as-

signed to the library war service board of the American Library Association to supervise a group of camp libraries at Norfolk, Va., and the librarian's second son, Allen Brett, is giving his time to the work of the Cleveland library war council.

COTTON CONSUMED

(By Associated Press)

WASHINGTON, April 13.—The cotton consumed in the United States during the month of March was 571,202 running bales, exclusive of the linters, the census bureau has announced.

For an eight month period the cotton consumed by the nation totalled 4,400,233 bales, exclusive of the linters, says the announcement.

TO PROTECT HISTORIC PARK

(By Associated Press)

AUSTIN, Tex., April 15.—To protect the historic San Jacinto Park, in Harris county, a concrete wall at a cost of about \$5,000 will be erected in San Jacinto Bayou. The contract for the work already has been awarded by Bruce W. Bryant, superintendent of public buildings and grounds.

UNEMPLOYED ARE TO BE DRAFTED

(By Associated Press)

PIERRE, S. D., April 15.—The idle and unemployed in South Dakota probably will be drafted for work on farms in the state, under authority given to the state council of defense in a bill adopted at the recent special session of the South Dakota legislature. The measure gives the council of defense power to register and conscript "any person who, in its opinion, are unemployed and idle and whose services may be required and are necessary to carry on or increase the production of food and supplies of all kinds for the purpose of winning the war." Penalties ranging from fines of from \$5 to \$1,000 and imprisonment in jail for 90 days are provided in the act.

The measure was adopted as emergency war legislation in an effort to assure the farmers of the state an adequate labor supply in planting and harvesting crops. Although the measure confers on the council of defense broad authority in deciding cases involving the status of men who may fall under the unemployed classification, the operation of the law is not directed against men engaged in useful occupations. No system of registration has yet

been organized by the council to carry out the provisions of the law.

THIRTY SEVEN BOYS PERISH IN FLAMES

(By Associated Press)

NORMAN, Okla., April 13.—Between thirty and thirty-seven boys between the ages of ten and fifteen years of age, patients at the state hospital for the insane burned to death in a fire of unknown origin today.

The fire destroyed three wards and the dining room of the institution. The fire started at three o'clock this morning.

Officials of the institution said that the exact number of deaths is not known and may be even greater than thirty-seven.

DRAFT QUOTA BASIS ADOPTED BY HOUSE

(By Associated Press)

WASHINGTON, April 13.—The senate resolution embodying war department plan to put the draft quota basis on the number of men listed in class one instead of estimating by the state population, was adopted by the house today in a vote of three hundred and twenty-five to three.

DENOUNCE GERMANS AND CHEER WILSON

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine.

DOES BUSINESS ON OTHER MAN'S CASH

Capital of the Mail Order House
Is Furnished by Its
Customers.

WORKS ALWAYS ON 'VELVET'

Buyers Supply Money to Support En-
terprises Competing With Those
in Which They Are
Interested.

(Copyright)
It is a mighty nice thing to be able
to do business on the other fellow's
money, but there are few people who
can do it. Probably the only busi-
ness men who, as a class, are able
to do this, are the mail order men in
the big cities.

Did you ever stop to think—who
who have ordered goods from a mail
order house and those are probably
few who have not done that at some
time or other—that you are supplying
the cash upon which the mail order
man gets your order, accom-
panied by the cash, of course, he can
take a part of your money and go to
the manufacturer or the wholesaler
and buy the article that is wanted. The
rest of the money he can put down in
his pocket after paying his operating
costs, which are light when compared
with those of the merchant who must
carry a large stock of goods to meet
the demands made upon him.

The majority of mail order houses
do not carry large stocks of goods.
They do not have to. When the mail
order man gets your order, accom-
panied by the cash, of course, he can
take a part of your money and go to
the manufacturer or the wholesaler
and buy the article that is wanted. The
rest of the money he can put down in
his pocket after paying his operating
costs, which are light when compared
with those of the merchant who must
carry a large stock of goods to meet
the demands made upon him.

In Class by Themselves.
There is absolutely no other class
of men who do business on the capital
furnished by their customers. Even
the retail store which sells for cash
only cannot do this for he must carry
a large stock and in most cases must
pay cash for it in order to get prices
that will enable him to make lower
prices to his customers than can be
made by the merchant who gives credit
to his customers.

The mail order man doesn't need to
have any of his own capital invested
in his business—or any large amount
of it, at least, in proportion to the vol-
ume of the business which he does. He
does not have to pay interest to the
banks on money borrowed to help him
finance his business. The mail order
man figures that about one-half of the
amount he receives on any order goes
to the wholesaler or manufacturer in
payment for the goods ordered. Of
the remainder a part goes for postage,
printing, maintenance of office and
plant, insurance, etc. What is left,
which is by no means an insignificant
part of every dollar received, goes into
dividends to stockholders in the mail
order corporation. All this has been
done without any capital other than
that which may be required to pay of-
fice expenses.

Suppose, for a minute, that you did
business with the local merchants on
the same plan. Suppose that they did
not carry any goods in stock, that
when you wanted to buy something
you should go to one of your home
merchants, look in his catalogue and
pick out an article that seemed to be
similar to the one that you wanted,
hand over the price as shown by the
catalogue and tell him to order it for
you. The merchant would take your
money and you would wait for your
goods until they arrived from a dis-
tant city.

Not So Anxious.
But the people who make up any
community are not nearly as anxious
to furnish capital to the home mer-
chant—the man who helps "make" the
town—as they are to the mail order
man in the far distant city, who does
nothing and cares nothing for the peo-
ple who furnish him the money on
which to do business. They insist that
the home merchant shall carry a large
stock of goods from which they can
select what they wish, when they think
it is to their interest to buy from him.
They insist that he shall stand back of
the goods he sells and make good any
defect that may appear in them. They
insist that he shall sell them what they
wish and wait for the money until they
get ready to pay it. They insist that
he shall sell goods at the same prices
or lower prices than the mail order
houses charge for goods of poorer qual-
ity. And finally, they insist that the
home merchant shall furnish the large
amount of capital that is required to
conduct a business on this plan.

The mail order buyer may say that
he has the right to spend his money
anywhere he pleases and he has, legal-
ly. But he probably has never stopped
to reflect on the fact that he is supply-
ing the capital for the operation of a
concern which is in direct competition

CHIRENO MERCHANT TRIED YESTERDAY

WAS UNCONSCIOUS VIOLATION
SAYS MR. FALL, OF CHIRENO,
BEING TRIED FOR VIOLATION
OF THE FOOD LAW.

Yesterday a court of inquiry was
organized at Chireno with Judge S.
W. Blount presiding, County Food
Administrator Walthall—presenting,
and Phil Sanders as court stenogra-
pher, in which R. H. Fall, a well known
merchant of the neighbor town, was
tried for violation of the Federal
food law on a charge of selling an ex-
cess of flour to different parties.

A transcript of the testimony and
proceedings of the trial was made by
the court stenographer, which will be
approved by the trial judge and sent
to State Administrator Peden, at
Houston, who will in turn make such
disposition as the facts warrant, as
we understand it.

Mr. Walthall informs The Sentinel
that other parties were incriminated
in the course of the trial, and that the
testimony against them also goes for-
ward.

The law firm of Marshall & Mar-
shall of this city defended Mr. Fall in
the trial.

The Sentinel is informed that Mr.
Fall said that if he had violated the
law in the matter it was done uncon-
sciously, not being familiar with the
provisions of the law in which there
has been several changes in operation.

FOOD CONSERVATION MEETING DREW LARGE ATTENDANCE

Pursuant to the call of County
Chairman Walthall, a large crowd as-
sembled at the court house Thursday
afternoon to attend the food conser-
vation meeting. In the crowd were
business men and others from all parts
of the county and all were enthusiastic
in the mission that brought them to-
gether.

Mr. Walthall, presiding over the
meeting explained the objects, and was
followed by an eloquent and logical
address by Hon. Beeman Strong, who
impressed his hearers with the enar-
restness of his patriotism and inspired
all present to greater zeal.

After the discussion pro and con,
in the course of which the idea was
developed that the people at home
would have to undergo greater sacri-
fice in the consumption of flour to
serve the boys and their allies on the
firing line, a resolution was offered,
and unanimously adopted offering the
government every pound of flour in
Nacogdoches county and agreeing not
to purchase any more until the strain
was relieved.

If this offer is accepted, all flour now
on hand will be loaded on the cars and
shipped to the place designated by the
government, and the old county will go
on record as 100 per cent loyal.

NACOGDOCHES COUNTY RED CROSS HEADQUARTERS

The store owned by Jno. P. Davidson
at the South-West corner of the pub-
lic square has been secured for the
use of the County Chapter. All sup-
plies for the county will be found here
and finished work from the branches
in different communities will be as-
sembled here for inspection and pack-
ing for shipment to divisional head-
quarters at St. Louis.

The Nacogdoches City Branch will
use a part of the space for sewing, al-
lowing the other work room to be
used exclusively for gauze and surgi-
cal dressings. Mr. Davidson has very
kindly donated the use of his building.

CYCLONE DID MUCH DAMAGE

(By Associated Press)
DENTON, Texas, April 15.—A
severe storm, which assumed cyclonic
proportions, did much damage in Den-
ton county last night. Two houses,
and three barns were overturned in
Rosokke, injuring J. H. King and wife
and three children.
The town of Aubrey, is reported to
have suffered badly. All wires are
down today, and it is impossible to
learn the extent of their injuries.
Owing to a soft track fifteen freight
cars and the engine of the Katy went
in a ditch between here and Aubrey.

The Sentinel commends the spirit
of loyalty and patriotism that was
manifested by the people of Nacog-
doches county in mass meeting assem-
bled Thursday in which they voted to
surrender all the flour in the county,
and purchase no more for the duration
of the strain in supply. As Prof. Dav-
is would say, "It is the Nacogdoches
way," and it is the Nacogdoches spirit
in all matters.

FAMILIES WARNED BY GEN. ALLEN

(By Associated Press)
SAN ANTONIO, Tex., April 15.—
Families of soldiers in the 90th divi-
sion stationed at Camp Travis here
have been warned by Major General
Allen, commanding officer, to not
come to San Antonio with the idea of
living near the men enlisted in the ser-
vice. Troop commanders have been
commanded to call attention to the rel-
atively high cost of living in San An-
tonio, the crowded condition with re-
ference to housing visiting families
the relatively high cost of living in
San Antonio as compared to the towns
from which the families come and
the fact that it is undesirable, both
from the standpoint of the soldier and
the family, that such family be left
alone in San Antonio upon the trans-
fer of the soldier therefrom.

Some silent people are most interesting than some of the most fluent talkers.

The man who esteems an advantage he has secured with his broken word does violence to his self-respect.

Liberty carries with it a responsibility that must be preserved—and we get our enjoyment in the preservation.

Little things are considered trivial but it is the multiplicity of little things that go to make up life, and we should not despise them.

Whoever will be free must make himself free. Freedom is no fairy's gift to fall into a man's lap. What is freedom? To have the will to be responsible for one's self.—Stirner.

The sensational slump in the prices of cotton yesterday, which followed the rains over the country, should be a warning to farmers of what will happen if they grow a surplus crop while excited over the high prices that have been prevailing. It is a recognized fact by all authorities on the subject, that we can not grow too much feedstuff and foodstuff, but as certainly as we grow a surplus of cotton, which we would do with a good crop, the bottom will fall out of the price, and the farmers caught with a lot of cheap cotton and the prevailing high prices for other things, will be up against a combination that will bring hardships to him.

It is becoming more manifest each day that America must furnish the reserve force with which to win the war, and that the "flower of our manhood" will be pressed into service before the end. This in turn forces us to a re-adjustment of all lines of industry, for new labor must be furnished with which to take the place on the farms and in the factories of these fine young men who will be taken away from us for a season. The time has arrived when no idlers can be tolerated, and if men—and women, too—will not work of their own accord, pressure must be brought to bear to force the issue. It is no longer a question of being able to afford servants—this labor is needed for the useful occupations of the country, and it must be put to work in these channels. Every person can do some useful service, and if we preserve our prosperity, everyone must do something. We must produce, and conserve in consumption at home to sustain ourselves and our boys on the firing line, and when this spirit becomes universal, as it is doing rapidly, we shall succeed against any and all odds.

ORGANIZING DEMOCRACY

Resenting the broad and extravagant statement of the kaiser who recently announced that he would be able to control the political destinies of the United States through the German-American National League of the United States of America, prominent Germans of New York have started a movement for the organization of a "German Democracy" in the United States, through which they can give their support to this country, and assist their people in the "Fatherland" to tear down autocratic military machine which is endeavoring to over-run the world. Following is a copy of the resolution that is being sent broadcast over the country for signatures of the German people:

"We, the undersigned citizens of the United States, do fervently declare our belief in the great principles for the defense and victory of which this Republic has drawn the sword, and we pledge ourselves to do all in our power to further a vigorous prosecution of the war until the just cause of country has triumphed.

"Though we are of German descent we yield to none of our fellow-citizens in our detestation of the German autocracy which has wrought so much ruin and havoc in the world, which threatens to perpetuate and increase the causes of national animosities, and which is the chief obstacle to a just and democratic peace.

"We believe, with President Wilson, the chief spokesman of our country, that this is a war for democracy and against autocracy; a war for the universal triumph of the principles which are the very basis of our Republic, and which have assured us liberty and well-being; a war against the autocracy which dominates the German people and desires to enslave the world.

"We assure the people of Germany that it is this profound conviction which has unified us as a people, and

which gives unyielding strength to our resolve.

"We assure the German people that American people, though they may loathe the military autocracy of the German Empire, do not hate the German people, that racial hatreds have no place in the hearts of a nation composed of all the races of the earth.

"We assure the people of Germany that they hope in vain to attain peace before their military autocracy has been destroyed.

"And we urge the German people to assert their rights as freemen and rid themselves of the autocrats in order to establish a democratic Germany, the best guarantee of a just and peaceful world."

TEXAS GOING ON.

NO WHEAT BASIS

The eagle has screamed in Texas, and its scream has rung from the Valley of the Rio Grande to the Llan Ecstacado—for Texas has gone on a voluntary wheatless program for the next 45 days, and longer still if there is a need. The act is the biggest single accomplishment of the United States food administration, and word of what Texas has done is now on the cable to cheer the armies of France, England, Belgium and Italy in their days of trial, and our own gallant army withstanding German fire on the western front.

Saturday afternoon Food Administrator Peden wired to Herbert Hoover, United States food administrator:

"Based upon unsolicited voluntary resolutions unanimously passed in numerous counties and at various meetings and assurances received from wholesale and retail grocers, I feel safe in assuring you that the great State of Texas, effective April 15 goes on a wheatless basis until June 1, and longer if necessary. Please consider this as Texas' contribution toward helping win the war, and winning it speedily. Retail stocks on hand will be carefully conserved for babies, young children and invalids during the abstinence period.

"Please cable General Pershing, whom I knew well in Texas, of Texas' action in giving up flour for the American soldiers."

NACOGDOCHES SPEAKERS IN SHELBY COUNTY

Nacogdoches patriots have not only responded to every call and every opportunity to promote the success of the Liberty Bond sales and other enterprises of the war in their home county but some of them have gone beyond the confines of the county and have been doing some good missionary work in other counties. Notable among these speakers we take the following report from the Timpan Times, which tells of the assistance rendered to Shelby county Sunday by gentlemen from this city:

"Last night at the Methodist church Hon. Steve Blount of Nacogdoches delivered an address in behalf of the third Liberty Loan. All of the churches of the city called in their evening services and came to the Methodist church for the speaking. Mr. Blount was introduced by Dr. J. B. Bussey of this city.

"The speaker required about an hour to deliver his message, and every second of the time was filled with splendid argument in behalf of the third Liberty Loan. Mr. Blount is a forceful speaker, and the attendance last night should have been much larger; those who stayed away would have heard a message that should sink deep into the hearts of every American citizen.

"We understand that every town in Shelby county was visited by able speakers Sunday. At Center Hon. Beeman Strong delivered an address; all the churches calling in their regular services for the occasion. Shelby county is making a determined effort to go over the top."

SPRINGDALE—The R. E. Mims stallion will make the season at my stable on home place at Melrose.
W. H. Hatton.

To the people:

My name is on the ticket as a candidate for congress. Sane, wholesome, effective, progressive democracy is old in wisdom and justice, and yet so much alive that its principles apply to the present and will apply to the future as well as they applied to the old times and conditions. Truly democratic statesmanship studies and honors the fathers and their deeds works in the present and faces the mighty future with confident faith and a will to do constructive work.

Oppression and demagogues, and ignorance are triple evils causing the main economical, industrial and political woes. These can be avoided by restraining the strong, protecting the weak, and doing justice to all, and by promoting general intelligence.

Labor, on farms, in mills and factories, on railroads, and everywhere, constitutes the mass of the people, whose freedom and prosperity and intelligence meet the best purposes of government and will protect the country against the wild vagaries and unrest, which tend to disorder and chaos.

I am a "forward-looking" democrat, a prohibitionist and an advocate of woman suffrage.

I am not a "new convert" to either the cause of prohibition or woman suffrage.

I shall unflinchingly support my country in its war struggle against the menace of Germany's ambition for world domination.

I shall not try to BUY my way into public service.

It would be ungenerous, unjust and unwise for the southern end of the district to seek to monopolize its congressional honors forever.

If the people investigate and find me unworthy I will not expect their support. If they investigate and elect me I shall devote mind and strength to their service.

OUR BOYS AND GIRLS

"A robe with all its sweetest petals yet unfolded."

Young friend! With your future before you, what will you make of it—success or failure? With your youth and health you have the power within you to possess the blessings of practical knowledge, the joy of achievement, the content of success, but only through intelligent effort. If you have within you the love of higher things and better days; if you have ambition, energy and determination, we can train you in business methods, Bookkeeping, Stenography, Cotton classing, Business Administration and Finance, Telegraphy, etc., and secure for you a good position. You have no time to lose. The spring and summer months should be used in securing a practical knowledge that you may accept a good position when the busy fall season starts. In our years of experience in teaching, we have helped many young men unfold and blossom into superior manhood, and womanhood awakened to the responsibilities of business life, and crown labor with success. What we have done for others we can do for you. The business world is seeking everywhere for young men and young women who are able to do the work the business office demands. Let us impress upon you in the language of Narado, a Hindoo sage, "Study to know." Develop your judgment. Young friends, use your youth in the pursuit of knowledge. We can give you no better advice than to join our industrious band of students; they are here from many different states, and are going out daily as graduates into splendid positions secured through our free employment department.

Our large catalog containing the statements of young people who have traveled the road we are advising you to travel will be interesting reading to you. The letters from business firms with whom they are now engaged will be encouraging to you, and our low tuition rates and credit plans together with the short time taken to complete the course will be a pleasant surprise to you. SAYS W. R. WADE
Overcome Troubles in a Week's Time Taking Tanlac and is Back on Job.

"It's the honest truth before I had taken this Tanlac a week I was well and strong enough to go back to work" said W. R. Wade, a well known resident of Winfield, La., the other day.

"I had a very bad case of stomach trouble and rheumatism," he continued, "that knocked me out so I simply had to quit working. My stomach was in such a fix everything I would eat disagreed with me and made me miserable all the time. My limbs and joints would ache so I could hardly stand it and, in fact, for a whole month before taking Tanlac I wasn't able to put in a full day's work at all.

"One of my friends had been taking Tanlac and told me it had done him a whole lot of good, so I got me a bottle to try. Well, sir, it sure surprised me for I began to feel better right from the very first dose and before the week was out I was back on the job and have been working right along ever since like nothing had ever been the matter with me. I never saw anything in my life before to give such quick relief as this Tanlac, and I haven't had a single symptom of my trouble since I started on it."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby Weatherly Bros., in Sacul by A. J. Beck, in Douglas by Campbell & Watkins and in Chireno, in Nat by E. M. Jarrell.

THE LAW GOVERNING SQUIRRELS, TURKEYS, ETC.

On page 59 of the General and Special Laws of Texas, which was signed by the governor Oct. 2nd, 1917, will be found a law which carries a penalty, and upon conviction, of a fine in any sum not exceeding fifty dollars, for the killing of wild turkeys during the months of May, June, July, August, September, October, November, December, January and February of each year in the county of Nacogdoches and a group of other neighboring East Texas counties. And it shall be unlawful for any person to kill more than two wild turkeys during the months of March and April each year, and it shall be unlawful for any person to kill a squirrel in the months of January, February, March, April, May, June and July each year. This act also includes fur-bearing animals except rats, and is in full force and effect.

The Sentinel publishes the above review of the law at the request of our representative who says he has been informed that many people are not familiar with the law, while others are inclined to dispute its existence. The law was made to protect this game, which is rapidly diminishing, in raising season.

NAVAJO INDIAN JOINS SERVICE

(By Associated Press)
EL PASO, Texas, April 17.—The Clerk at the local recruiting station was busy writing when the individual presented himself, and did not look up.

"What's the name, please?" he asked.
"Adolph Maloney," was the reply. "Another Irishman wants to get in the service," mused the recruiting station man as he raised his eyes and beheld a brown-skinned youth standing close by.

Adolph Maloney is a full-blood Navajo Indian and came from Platero, N. M. Charles Platero, another Navajo, came from the same place. Maloney was assigned to the cavalry and Platero chose the quartermaster's corps. Both were excellent physical specimens and were educated in the United States Indian school at Santa Fe, N. M.

SOME GOOD TERRACING ON HENRY MILLARD FARM

In company with County Agricultural Agent, Jas. D. Greer, a representative of The Sentinel visited the farm of Henry Millard, north of the city Wednesday evening and was shown some recent terracing work that had been done on the farm. This terracing was some of the best work of its kind the reporter had ever seen. Twenty-six to twenty-eight foot terraces had been laid across the farm and between the terraces were brakes built up to stop gully washes. The terracing was of the re-inforced idea and any person who views the work will immediately become convinced that it is indeed a land builder.

The re-inforced terracing work is a product of Mr. Greer, who personally measured off the terraces and grades on this piece of work. At his suggestion the terracing was carried to the ditch just outside of the land and slow water will, of course, run into the ditch and away from the land thus preventing it breaking through and washing out gulleys below the terracing.

On this land Mr. Millard expects to plant a heavy crop of cotton and will no doubt obtain a good yield, while at the same time the land will fill up to a level in places where washes have been affecting it. Work of terracing washed farm lands is among the greatest work now being carried on by the department of agriculture, and Mr. Greer has been doing a good work along this line in our county.

FOR NEW PUPILS

MR. WALDEN

Advises new pupils to see or write him at once. They should do some "Home Study" under his direction, while the coming term is being organized.

No charge will be made for the help in this preliminary study at home—but it will be very helpful to the pupil. Date for opening of next term will be announced soon—Energetic pupils should get ready for a position in three months. You save one-half and get the best by entering Walden's Summer School.

Mr. Walden will be in school room from 9 o'clock to 10 a. m., Thursday, Friday, Saturday and Monday, to issue books and show new pupils how to study. All who are interested should call if possible, or write.

War's Battle Now On

(By Associated Press)

LONDON, April 17.—The Battle in Flanders today is raging with incredible intensity, Reuter's British headquarters correspondent reports.

As far as the latest reports have enabled the correspondent to judge, the battle is going in favor of the British.

Notwithstanding desperate German attacks, they have been unable to make further gains from the British since Tuesday, and apparently they have lost some ground.

The correspondent says that he has never heard such terrific fire in three years on the battle front.

Among numerous enemy attacks Tuesday, on the northern front in Flanders, one in great force in the Zillebeke sector was disastrous to the Germans. The massed grey waves of the Germans were shot down at close range.

The British were apparently ordered to retire, and then the British gunners got the German's flank and the slaughter was appalling.

Counter-Attacking the Huns, British Make Telling Drive

(By Associated Press)

WITH THE BRITISH HEADQUARTERS IN FRANCE, April 17.—It was reported this morning that the British were fighting magnificently, and that they had regained the much contested town of Wytschaete, although it was not confirmed at the time this dispatch was filed.

LONDON, April 17.—The Greater part of Wytschaete and probably all of it is in the hands of the British, Major General Maurice, chief director of military operations at the British war office announced today.

Counter attacking successfully at Meteren and south of that place, the British have driven the Germans back half way to Bailleul. The British have advanced and improved their lines also, in the direction of Nueve Eglise.

Germans Make Gains

(By Associated Press)

LONDON, April 17.—The German attacked the British positions in front of the city of Ypres, late yesterday, and the Tommies have been forced to withdraw their positions to a new battle line.

South of Arras, one of the most important objectives of the German drive, the Huns succeeded in penetrating into the British trenches, where fierce fighting ensued, and the British succeeded in driving the enemy out.

An exchange telegraph dispatch from Paris says that the Germans have advanced as far as Steloi, and also have a grip on the southern slopes of Mount Kemmel. Mount Kemmel is north of Bailleul, where the most heavy fighting has occurred the last few days.

There seems to be no danger of a British retrograde movement on the northern and Franco-Belgian line. This line appears holding very well. The railway communications supporting the British army at this place are still intact.

The Germans are still hammering Bailleul, but from the reports saying that the German attacks were repulsed, the British seem to be able to deal with them here.

Reuter's British headquarters correspondent on the front, says that the British at dusk last night were advancing in the neighborhood of Wytschaete, which is south of Ypres. The British are reported again to be holding the ground that they had previously lost there.

Early this morning the German artillery became very active, shelling the British positions south of the Somme.

On the northern battle front the London war office announces that the British have recaptured Meteren, by a successful counter-attack.

The British army has made a successful counter attack in the neighborhood of Wytschaete, on the northern battlefront.

Repeated German attacks to the north of Bailleul were repulsed by the British, the Germans suffering heavy losses.

ONE ARM MAN IN CLASS ONE

(By Associated Press)

FORT WORTH, Texas, April 16.—The Tarrant County Exemption Board has placed a one-armed man in class A1, at the request of the registrant.

Brice Bird, of Denver, Colo., lived near Fort Worth until a few weeks ago. His questionnaire filed with the exemption board disclosed the fact that he had only one arm. He was placed in Class G5, but that didn't suit him and he wrote to the board saying:

"I want to go to France as a messenger or anything else. Do you think I will be called? I hope so for I sure want to go."

In all Bird has sent four letters to the board urging them to call him for service. They expect to find a place for him shortly.

WOMAN'S WORK IN SOUTHWEST

(Special to The Sentinel)

"Why should we American women be shielded and kept from doing the work that French and English women have done?" is the question being asked by Miss Grace Parker who was sent to Europe to investigate woman's war work on the other side of the Atlantic. Miss Parker points out that one million English women are making ammunition. That several hundreds of thousands are working on the farm. That they are performing every kind of labor needed to build a battleship. That ten thousand are working in France behind the firing line. That twelve thousand are acting as motor drivers. That within ten days of the declaration of war sixty thousand nurses were enlisted. At her meeting in Dallas recently Miss Parker's question was applauded vehemently. This was to be expected of southern womanhood. Yet we would ask both Miss Parker and the women of this district to remember that the difficulties of transportation and other purely physical features explain to quite an extent the reason why American women are not asked to do the same kind of work as their European sisters. There is a work, however, into which the women of the Southwest can throw all those energies which they would gladly extend in more arduous and dangerous tasks they can secure for the government a huge oversubscription to the liberty loan. This will build ships, help crush Germany and so achieve the object of every true American woman. Do the duty that arises clearly defined before you and the same credit will be due as to the overvalued, dirt stained sister on the other side. In the army of democracy some must go "over the top." Some must make ammunition, some must engage in the prosaic work of mule-driving. Others again must divide the money. All are necessary. Do your part and you will share equally in that glorious triumph which one day must be ours.

Women of the Southwest, we look to our men to subscribe the liberty loan quota. We look to you to double it.

J. W. HOOPES,
Deputy Governor Federal Reserve Bank.

WAGE COMMISSION WILL REPORT

(By Associated Press)

The report of the commission says that the employees of the railroads that are now receiving the smallest pay will receive the greatest increase in wages.

ISSUE WOMEN TAX RECEIPTS AT HOME

(By Associated Press)

AUSTIN, Texas, April 16.—Hundreds of women who expect to vote in the coming primaries will be spared a trip to the courthouse of their county for the purpose of registering if numerous tax collectors carry out their announced intentions.

The attorney general recently held there is no objection to tax collectors in making their tax collection trips issuing registration receipts to the women in their homes. Many tax collectors have indicated their intention to do this.

SECRETARY BAKER ARRIVES IN U. S.

(By Associated Press)

AN ATLANTIC PORT, April 16.—Secretary of War Newton T. Baker, arrived here today from his trip to the battlefields of Europe, where he has been some weeks in an effort to better acquaint himself with the conditions, and become more familiar with the actual workings of the war machine in France.

Mr. Baker announced that he would go to Washington at once.

Mr. Baker arrived at this port at 8:31 o'clock this morning, on a large steamship, which formerly flew the German flag but which is now in the service of Uncle Sam.

"I return with a sense of pride and confidence in the achievements of the United States and the allied troops abroad, that would justify many trips across the water," he said stepping aboard the train for Washington.

This is the only statement he would make until he returns to Washington. When he arrives in Washington he promises to make a broad review of his voyage and its results.

Mrs. A. Stewart was here today from Timpon, en route to Sacl on a visit to W. E. Cooper and family.

TO PREVENT WASTE AT CAMP TRAVIS

(By Associated Press)

SAN ANTONIO, Texas, April 15.—Suggestions for the prevention of waste at Camp Travis have been called for by Major General Henry T. Allen in a memorandum issued to the members of his command. The suggestions are to be submitted to the Reclamation Officer, discussing the prevention of waste General Allen said:

"It is imperative that no waste material of any description which has any salvage value shall be burned, abandoned or destroyed, but collected and conserved from every source and avenue of waste and converted or reclaimed by the most practical method."

He called special attention to rubber, woollens, cotton, hurlap and canvas. Leather, paper, bottles, electric light bulbs, all metals, baling wire are also on the list as articles which should be saved from the garbage pile.

CHECK UP FUEL OF MESS RANGES

(By Associated Press)

HOUSTON, April 17.—The war department has begun a check up on the fuel consumed in the mess ranges of the various cantonments in Texas. At the headquarters of the Prairie Division here orders have been received to make a daily report of the amount of coal or other fuel needed. Accompanying the order was a set of instructions as follows:

"See that the range is thoroughly cleaned out every day.

"Open the drafts when the fire is built.

"Close the drafts as soon as the proper combustion is secured.

"Use as little coal as possible to keep the fires going.

"See that all the heat is used, and not driven up the stovepipe as is customary in all cases, where no attention is paid to the amount of fuel consumed.

LIKE AN ELECTRIC BUTTON ON TOES

Tells why a corn is so painful and says cutting makes the grow.

Press an electric button and you form a contact with a live wire which rings a bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezone is harmless and never inflames or even irritates the surrounding skin.

A few nights ago the drug stores of Stripling, Haselwood & Co., and Swift Bros. & Smith were broken into and some money taken. Since then a boy has been arrested at Shreveport, charged with the crime and brought back to the city and lodged in jail. Owing to the youthfulness of the boy, and the distress suffered by his good parents, The Sentinel refrains from publishing his name.

SUGAR REGULATION.

In view of the fact that there are many who still do not seem to understand the instructions on the sale and consumption of sugar, The Sentinel secured an interview with County Administrator Walthall in the matter

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak."

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

TO THE BOYS OF NACOGDOCHES COUNTY.

Boys are patriotic just like men. Some of them are more so. They want to help Uncle Sam and the allies win the big war for liberty all over the world. President Wilson knew that he and the nation could depend upon all the boys both in the towns and in the country to do their bit. And the boys are responding by the thousands and even hundreds of thousands. Nacogdoches county boys are just as reliable as all the rest of them and I believe more so. Don't you say so, boys? But to say so is one thing, to make good is another. Now let's prove it.

President Wilson asks all boys up to 18 to help in war service by making a war garden, raising some sorts of food product, and by investing in Thrift Stamps. Well we boys can do both. Here is the plan: Let each boy in Nacogdoches county, whether in towns or the country, plant cotton or peanuts, then sell them and with the money buy the thrift stamps. Parents in the country should give their boys an acre if possible, town boys can spare up and plant a few rows in gardens and back yards. When the crops are gathered, if a boy has not enough to make a bale of cotton, or has just a few bushels of nuts, weigh their product then let a committee or local manager gather it with others, then sell on the markets and give each boy his proportionate part for his thrift stamps.

We want to make an HONOR ROLL of every boy and girl in the county who will agree to work a patch, say from a few rows in back yards to an acre or two, planted in cotton or peanuts, and who will pledge themselves to spend the produce receipts in thrift and war savings stamps. We will have a "Big Book," in which every name will be recorded, the amount you raise by your work, and when the "Big Book" campaign is closing we want the Boy Scouts to give a rally and barbecue to which all the boys and girls who have helped in the work will be invited. Now boys and girls let us all get busy and help Uncle Sam win the war for liberty. If you will help in this glorious work, write me a letter and tell me that you will enlist as a helper, sign your name plainly, and I will place your name in the "Big Book." We want every boy and girl in the county who is not a slacker to help. Send in your names at once.

M. C. JOHNSON, Scoutmaster.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

The news comes to The Sentinel that Mrs. Charley Long, who had the misfortune to get her arm broken in two places by being thrown out of a wagon some weeks ago, is recovering nicely from the injury. The accident happened by the team making a jump when an automobile approached too near. The Long family are mighty good people of the Cold Springs community, and the friends of the estimable lady will rejoice to learn that she is recovering from the injury.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mother can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gets moved out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

A WOMAN'S BURDENS

are lightened when she turns to the right medicine. If her existence is made gloomy by the chronic weaknesses, delicate derangements, and painful disorders that afflict her sex, she will find relief and emancipation from her troubles in Doctor Pierce's Favorite Prescription. If she's overworked, nervous, or "run-down," she finds new life and strength. It's a powerful, invigorating tonic and nerve which was discovered and used by an eminent physician for many years, in cases of "female complaints" and weaknesses. For young girls just entering womanhood; for women at the critical time of life; in bearing-down sensations, periodical pains, ulcerations, inflammation, and kindred ailments, the "Favorite Prescription" is the only medicine put up without alcohol—ingredients on wrapper. All druggists. Liquid or tablets. Tablets, 60 cents. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10 cents for trial package.

MOORE, TEXAS.—I gladly recommend Dr. Pierce's Favorite Prescription and the Lotion Tablets. I believe I would be in my grave if I had not used these medicines. I was so nervous I was a wreck, was not able to do my housework. Dr. Pierce's Favorite Prescription was recommended to me. I had taken it but a day until my nerves were quieted down and I could sleep at night. I had not taken more than half a bottle before I noticed a marked improvement so I continued. I then got stout and did as much work as any other woman. I had a hurting in my side and was wearing down, but the medicine put a stop to that. I am glad to recommend Doctor Pierce's medicines. Mrs. GEORGINA BERRY.

A PRETTY TAILOR SHOP.

Mr. John Greene has been busy all this year adding something new to his tailor shop, which would add to its appearance, and efficiency, until he has worked out a shop that would do credit to a city much larger than Nacogdoches. The latest improvement is a glass front, set in after bank fashion, and the premises are so inviting that the passer-by is inclined to pause for a call.

Mr. Greene made his plans and investments when he thought the Normal was coming soon, and says that he has rather overdone himself in the matter, but a progressive move never fails to bring its reward and his business will grow to it.

Best For Children.

Experience proves that Foley's Honey and Tar is the best family medicine for children for coughs, colds, croup and whooping cough. Mrs. M. E. Schlarb, 556 Oakland Ave., Ashland, Pa., writes: "When my little girl gets a cold I give her a dose of it, and it always relieves her. I cannot praise it too highly." Stripling, Haselwood & Co.

THE WOODMEN CIRCLE ORGANIZED W. S. SOCIETY

The Woodmen Circle of Nacogdoches is reported to have had a great meeting Saturday night, with a large attendance present.

Among the features of the meeting Judge Perritte delivered an address in the interest of the War Savings Stamps, which was followed with the organization of the "War Savings" Society of the Woodmen Circle of Nacogdoches, and voted that fifty dollars of the funds of the order be invested in War Savings stamps. Every member present joined the Society, and The Sentinel is assured that this auxiliary is going to put on a vigorous campaign and do its bit in the great enterprise.

The Circle has recently been granted a special dispensation for new members, and is waging a vigorous campaign now to increase the membership, hoping to double the number within the next two months. Six new applications were received Saturday night, which makes a good start.

FORM TO OBTAIN SUGAR FOR CANNING

County Food Administrator Walthall submits the following form for merchants to use in the sale of sugar for canning purposes:

"This is to certify that I require _____ lbs. of sugar at this time, to be used by me, for preserving purposes exclusively, and if same is not used by me within the next twenty days after purchase, I agree to return same to the merchant from whom purchased."

Hon. A. J. Spradley, who is giving his attention to his farm this year, sends in his check for \$5.00 on advance subscription to the Daily Sentinel, with the encouraging compliment: "I feel like the benefit of getting the daily dispatches is a great treat to the people of Nacogdoches, and you are entitled to a thousand cash subscribers, as I understand it."

Private Newell F. Parks of Battery F, 64th Division, Galveston, is in the city visiting the homefolks today.

CAMP TRAVIS.

There was much of interest at the Y. M. C. A. auditorium last Monday evening for the new recruits. The following men of Battery C, 345th Field Artillery attended: Recruits, August L. Tubbe, Ernest King, George W. Kimmy, David E. Husband, E. M. Kelley and C. H. Hunt, all of Nacogdoches county.

"There has been no ground glass found in the food served to Camp Travis soldiers. No Mennonite preachers are under arrest at Camp Travis on charge of disloyalty." This is the statement of Major General Henry T. Allen, commanding the Ninetieth Division at Camp Travis.

General Allen emphatically denies the rumors to the effect that many soldiers and their families have become ill as a result of eating food in which ground glass has been added presumably by alien enemies. Rumors had been current of the action of aliens in placing ground glass in food in all sections of the United States, but direct charges alleging detection of such work at Camp Travis had never been made until recently when an officer, formerly connected with the camp military police was given authority.

Every instance reported to the Ninetieth Division Headquarters has been thoroughly traced down, but report was carefully traced down, but absolutely no grounds were found to warrant belief that ground glass had been placed in foods, nor has there been attributed to such a cause.

Parents of the thousands of soldiers in Camp Travis have been misled in believing that the soldiers were being fed food that contained ground glass. As a result numerous letters and telegrams have been received asking confirmation of rumors. In order to put at ease the minds of all persons of any of the statements made either as to ground glass or the detention of Mennonite preachers within the camp on the grounds of disloyalty.

The officers responsible for the rumors is now in the hospital. He is suffering with a nervous break down.

He Can Rest Fine Now.

"I suffered greatly from kidney and bladder trouble," writes F. B. Fairbank, 55 Grand River ave. W. Detroit, Mich. "Had to get up six or seven times during the night. Foley Kidney Pills have worked wonders and I can recommend them as the best medicine I have ever taken." Tonic in action; quick sure. Stripling, Haselwood & Co.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back. Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work. Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

DELCO-LIGHT

The Complete Electric Light and Power Plant.

San Augustine, Texas, July 20, 1917

Mr. J. R. Dickerson, Delco Light Dealer, San Augustine, Texas.

Dear Sir:—You ask me how I was pleased with my Delco Light Plant. Will say that I am highly pleased with it. It makes a fine light—the very best. Simple in operation and the cost of running expense is practically nothing compared with the service it gives. I have run my lights, fans and iron for 8 days and nights on one charge of the batteries without running the engine, with good lights and I could have run a week. Anyone will make no mistake when they buy the Delco Light. I would not take twice what my plant cost me if I couldn't get another like it. You can use my name for reference.

Yours very truly, I. E. ROBERTS, Tax Assessor.

ENLISTING THE BOYS.

Rev. M. C. Johnson of this city has been chosen as county chairman of an enterprise which has for its purpose to enlist every boy of the county in a movement to grow an acre of cotton or an acre of peanuts this year, the proceeds to be invested in war savings certificates.

No greater enterprise could be offered the boys for the reason that it will teach them a great lesson of thrift and patriotism, and the men of the county should co-operate with the boys in the matter, giving them an acre of ground for the purpose and encouraging them to cultivate it energetically.

The plan does not exact any contribution or gift from the boys, but urges them to help produce more wealth and loan it to the government at a rate of interest that will make a snug sum for them by the time they are grown, or which they can cash in sooner should necessity require.

And no better man could have been selected for this purpose than Mr. Johnson. He is a great friend of the boys as he has proven in his service at head of the Boy Scout movement, and the boys would do well to get in

touch with him at the earliest possible moment.

Every boy who can engage in this enterprise should get busy at once. Let him write Mr. Johnson, giving his name and the address and location of the farm on which he will grow his acre, and his name will be recorded as one of the patriots who is trying to do his bit to help win the war and preserve the prosperity of the country at home. If the majority of the boys of the county will rally to the call, it will add several hundred acres to the growing crops of the country, and teach the boys the most valuable lessons that could be brought to them.

FERTILIZERS.

As all kinds of fertilizers are scarce and hard to get, including cotton seed meal, we call your attention to ground whole pressed peanuts as a fine fertilizer for all purposes where cotton seed meal is called for. FOR COMMISSIONER.

The Sentinel is authorized to announce Edwin H. Tillery as a candidate for Commissioner of Boat No. 1, subject to the action of the Democratic primaries.

Mr. Tillery was reared in the community, and is well known to the voters of the precinct. He also made a most creditable race for the position two years ago, and encouraged with the good vote he received then, is offering again. He says that if he is elected that he will give special attention to the roads and bridges, seeing to it that nothing but first-class material goes into the bridges, and giving special attention to their upkeep as well as their building. He also believes in a better upkeep of the roads, believing that when a good road is built it is good economy to keep it up. Another promise that Mr. Tillery makes is that each road shall have its pro rata part of the work and money, and that the best available road men will be selected for overseers.

Mr. Tillery is a man of sterling integrity who will endeavor to faithfully carry out every promise he makes, and if elected would doubtless make the people of the beat a good public servant in the capacity in which he offers himself.

WOMAN WORKS 15 HOURS A DAY

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind. "I suffered from a displacement with backache and dragging down pains so badly that at times I could not be on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing but an operation would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at four o'clock, do my housework, then go to a factory and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. ANNA METERIANO, 36 West 10th St., Peru, Ind.

Women who suffer from any such ailments should not fail to try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound.

THE COMMUNITIES WHO WENT "OVER THE TOP"

County Chairman Harris requests that the following communities have honorable mention for the ready and enthusiastic response they have given to the Third Liberty Loan Campaign—and they richly deserve it: Appley's quota was placed at \$7000. The people of the community have already subscribed \$20,000, and say they are going to \$21,000 to make it three to one. This is the biggest showing so far made by any place in the county.

Grand Pfelate M. C. Johnson, in company with Sir Knights C. A. Westbrook W. F. Gintz and V. E. Simpson, left today for Austin to attend the Grand Commandery of the Knights Templar of the Masonic Lodge in session in that city Wednesday and Thursday of this week.

Prof. Walden, superintendent of the Nacogdoches Business College, came in yesterday for a visit to homefolks in Austin. He says that Mrs. Walden has been sick lately and was not able to come with him, as planned, but will come later.

Leo Vaught of Garrison was in the city today, returning from Garrison where he went to take the civil service examination. Mr. Vaught recently graduated from the Tyler Commercial college, and if he passes the examination, and is exempt from the military draft, he hopes to enter the government service as a stenographer and typist.

Senator V. A. Collins of Beaumont, our representative in the state senate, and a candidate to serve us in congress, was in the city yesterday meeting with the voters. The editor did not have the pleasure of meeting the gentleman while he was here. Senator Collins has a good record of service to his credit, and is a very pleasant gentleman who wins to himself many friends wherever he goes or is known.

LIBERTY LOAN TRAIN DREW LARGE CROWDS

Several thousand people gathered around the Third Liberty Loan train in this city yesterday afternoon to view the relics carried by the train, which are being shown over this section of the state in the interest of the campaign of the big Liberty Loan drive.

Many of these people came from a great distance and began to arrive early yesterday morning, spending the day here. The crowd was so large that many did not get to view the relics, and those who were fortunate in getting through the train had to keep moving, in order that the crowd could be handled and in time to allow the train to keep its schedule.

Before the opening of the train to sight-seers, Hon. Eugene Blount of this city, introduced Lieutenant C. D. Roblin, of the 27th Canadian Infantry, Winnipeg, Canada, and Hon. Dwight Lewelling of Dallas, addressed the audience from one of the cars in behalf of the Liberty Loan, and subscriptions were taken for the loan, the total amounting to \$45,100.

Following the speakers the cars were opened for inspection and fully an hour a quarter were taken up in passing the crowd through. Officials in charge of the train said the crowd in Nacogdoches far exceeded any crowd handled through the day, this being the fifth stop the train made yesterday.

In charge of the train were: Prof. H. L. McKnight of the Extension Service, A. & M. College; Dwight Lewelling of Dallas, John A. Lomax, of Chicago; Chester T. Crowell, staff correspondent of the Dallas News; R. M. Hoover of the S. P. Ry., Houston in charge of the movement of trains; Wallace Smith of Dallas, in charge of exhibits; Lieut. C. D. Roblin 27th Canadian Infantry; G. R. Thompson of Lufkin; A. R. Atkinson, Sup't. H. E. & W. T. Ry., S. P. Coughlin and F. W. Rentzel, Assistant Sup'ts J. H. Harris, conductor; Engineer Hottle; Fireman Murphy.

From here the train left on schedule time, going to Timpon where they stopped for the night.

MILITARY COMPANY BEING ORGANIZED

Messrs. Robert Lindsey, Wallace Lee, Link Simpson and others are taking the initiative in the organization of a military company of "overs" and "unders" in Nacogdoches.

By "overs" and "unders" it is meant those who do not come within the military draft age, of twenty-one to thirty-one, or exempt from the draft for good reasons.

It is the plan of the promoters of the new company to drill each morning from six to seven o'clock, and Messrs. Lee and Simpson have had military training which will fit them for giving the instructions needed.

With the proper organizations, the new company can get guns, uniforms etc., when it meets the requirements, and thus become a full military company, equipped for home duty or trained for military service abroad should the age limit be changed, and with the present tension there should be no lag or lack in filling the list quickly. Every community needs a home guard of this character and those who can not render service in the regular army can serve their country patriotically in this way.

In addition to this feature, the drill practice each morning will be very advantageous to the health of those thus engaged, and will be beneficial in every way.

The list will be started this afternoon, and the promoters hope to announce the names of the full company within the next day or two.

TO THE LADIES OF NACOGDOCHES CO.

In my estimation President Wilson is the grandest man in the world today. And he says you should have the right to vote, and the last legislature granted you that privilege.

I am a candidate for sheriff, and respectfully solicit your vote, and if I am elected will assure you that you shall never have cause to regret your first vote for sheriff.

Respectfully,
MATT MUCKLEROY.

REPORTS SALE OF THE CLAIBE ALDERS PLACE

Mr. A. G. Edens reports the sale of the Claibe Alders place 5 miles South of Nacogdoches to Mr. Jeff Mondy of Hopkins county.

This is among some of the best properties in this county and consists of about 210 acres of good farming land. It is not known whether Mr. Mondy will occupy the place as a homestead or has purchased it as an investment.

Whooping Cough.

Give Chamberlain's Cough Remedy to keep the cough loose and expectoration easy. It is excellent.

BREAD MADE OF PEAS.

Mr. Boy Taylor brought a sample of bread to this office today, which is entitled to honorable mention for its excellence and the new material from which it was made.

The bread was made from pea meal with small amount of corn meal by Mrs. Crisp. The peas were ground at the mill after the manner of corn. It could not be distinguished from any of the other good substitute breads, and since it can be made so cheaply, it should become very popular in this section.

For Bilious Troubles.

To promote a healthy action of the liver and correct the disorders caused by biliousness, Chamberlain's Tablets excel. Try them and see how quickly they give you a relish for your food and banish that dull and stupid feeling.

NOTICE.

We, the undersigned banks of the city of Nacogdoches, wish to notify our customers and friends that on and after this date our banking hours will be from 9:00 o'clock a. m. to 4:00 o'clock p. m. government new time. This is in accordance with our government's wishes, to help "Win the War," and trust that you will arrange to do your banking business between these hours. And do not ask us to isolate this rule.

Do You Sleep Well?

To be at his best a man must have sound-refreshing sleep. When wakeful and restless at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose of these tablets and see how much better you feel with a clear head and good digestion.

Mr. H. B. Latsom of Cushing, was a pleasant caller at this office Tuesday afternoon.

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Chamberlain's Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Catarrh Free. All Druggists, 75c.
