## Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. \_\_\_\_\_ had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

# CARDUI

The Woman's Tonic

She writes further: "I am in splendid health. . . I can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health like Mrs. Spell. Give Cardui a trial.

## A Fight For Life

It has been fight or die for many of us in the past and the fight people are those who are now well because they heeded nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "An-a-ric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges or rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as stone in the bladder.

To overcome these distressing conditions take plenty of exercise in a open air, avoid a heavy meat diet, drink freely of water, and at each meal take Doctor Pierce's Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm indorsers of Anuric as are many of your neighbors.

TYLER, TEXAS.—"I am 53 years old, and for the last three years I have been afflicted with kidney trouble; no relief from the medicines I took. At last I took one small package of Dr. Pierce's Anuric Tablets and the very first dose helped me, and I continued to improve. I took in all six packages, I am very glad to testify." DAVID VINCH, 411 E. Social Street.

YOKUM, TEXAS.—"After using different medicines for kidney and bladder troubles will say that I have given Dr. Pierce's Anuric Tablets a fair trial, and as a result, my kidneys and bladder are fully restored to normal and do hereby cheerfully recommend Anuric to all persons suffering from kidney and bladder troubles." HENRY ROTH, Route 4, Box 151.

Ask the druggist for Anuric 50c, or send Dr. V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package.

FOR SALE—My entire ginning outfit. Good stand and good neighborhood. Would not want the gin moved away. Will sell at a bargain. L. A. Legg, Eden community. dlwt

The county contains no more worthy young people than this happy couple, who belong to two of our best families, and a great host of friends enter into congratulations and good wishes.

BARN BURNED.

The Sentinel gets the information from the sheriff's office that the barn of Mr. Wayne Crawford, residing in Black Jack community, burned Sunday morning about four o'clock, together with 125 bushels of corn, a considerable quantity of hay, twenty-five gallons of syrup, a good wagon, buggy and harness, a fine mare for which he had been offered a handsome price, and other stuff, altogether entailing a loss estimated at about \$1000.

Sheriff Prince and Deputy Spradley went out and made an investigation, and Mr. Spradley is of the opinion that the fire was from some accidental origin, as no tracks of any kind were to be found about the premises.

Mr. Crawford is very highly esteemed by his neighbors, and Mr. Spradley says that they made up a purse of \$125 for him together with the offer of the use of a horse to finish his crop and feedstuff.

The people of Nacogdoches had the pleasure of witnessing a real, genuine cavalry parade Saturday afternoon when Capt. Thomason's new cavalry troop rode up and down the various streets of the town. Horses could not be secured for all the members, but some sixty-five participated, and made a most interesting parade.

Since the troop will get initial training here, meeting once a week for the purpose, the people will have opportunity to witness the event again, and it is needless to say that it will be witnessed each time by a large crowd of people.

EDWIN WESTBROOK

MADE GOOD SHOWING

In the spelling contest at Austin Edwin Westbrook, the small son of Rev. and Mrs. C. A. Westbrook of this city, is reported to have stood up for an hour and a half, and only went down when they quit the book and the words adopted by the state and adopted foreign words, on which the little champion had never had any experience.

This is a remarkable showing, and gives hope that Nacogdoches is rearing a Daniel Webster in her midst.

Cause of Headache

By knowing the cause, a disease may often be avoided. This is particularly true of headache. The most common cause of headache is a disordered stomach or constipation, which may be corrected by taking a few doses of Chamberlain's Tablets. They are easy to take and mild and gentle in effect. dw

The complaint comes from the country districts that the cotton crop is very backward, and that in many instances it will have to be planted over. The wise man will observe the sensational slump in prices that have been in evidence lately, and plant his lands in peanuts or some staple food crop.

## MANY STILL LOVE TO BE HUMBUGGED

Seem Not to Mind Having "Some-  
thing Put Over" on Them the  
Least Bit.

### PINK PAJAMAS FOR SHIRT

Mail Order Houses Find It Easy to  
Make Substitutions Because of  
the Cost of Making  
Exchanges.

(Copyright.)  
It was a famous American showman  
who declared that the American people  
love to be humbugged. That saying is  
many years old now but sometimes it  
seems that there is about as much  
truth in it now as there was when it  
was first uttered.

People as a rule do not like the idea  
of having "something put over" on  
them, but from the way in which the  
great mail order houses in the big  
cities flourish it seems that a great  
many people do not mind it a bit.

The business man who, when he gets  
a call for an article which he has not  
in stock, attempts to substitute some  
other article of a similar nature with-  
out telling the buyer of the substitu-  
tion, is "putting something over" on  
his customer. Few retail merchants  
nowadays attempt to do a thing of that  
kind. The great majority of merchants  
do not do this for two reasons. One  
reason is that they wouldn't do it if  
they could and the other is that they  
couldn't do it if they would. The man  
who buys an article over the counter  
and sees what he is buying before he  
pays for it, is pretty sure to get what  
he wants.

Ordered Shirt, Got Pajamas.  
But there is another class of mer-  
chants, of which the same thing can-  
not be said. A man who has been closely  
connected with some of the big mail  
order houses is authority for the state-  
ment that the heads of the various  
merchandise departments of many  
mail order houses have standing orders  
to substitute with the greatest thing  
they have if the articles ordered are  
not in stock and available for delivery.  
It is related that in one instance as a  
result of these instructions, a man who  
ordered a dress shirt from a mail order  
house received a pair of pink pajamas  
instead.

It is easy for the mail order house to  
get away with this substitution of an-  
other article for the one that is or-  
dered for the reason that to exchange  
an article received from a catalogue  
house is a costly undertaking.  
Exchanges Are Costly.  
If a mail order buyer is disappointed  
in his purchase, as he is very apt to  
be when he compares the article upon  
its arrival with the picture and flowery  
description which appeared in the  
catalogue, the wisest plan is to take  
what he gets and make the best of it  
for every time he sends an article back  
to be exchanged, he is piling up the ex-  
press or freight charges and even if  
the article is exchanged as requested,  
the buyer is not apt to fare much bet-  
ter on the second attempt.

The mail order houses are well  
aware of the fact that the majority of  
their customers will not go to the trou-  
ble and expense of returning an ar-  
ticle if it does not come up to their  
expectations and as a result they can  
work the substitution game to their  
heart's content.  
The home merchant, however, cannot  
do business in this way and, as has  
been said, the majority of them would  
not do it if they could. The home mer-  
chant, if he has not the article called  
for, may offer another with the expla-  
nation that it is of the same quality  
as the one for which the customer  
asked. Good merchants nowadays even  
hesitate to offer something "just as  
good" to the customer especially when  
the article called for is one that has  
become well-known and popular  
through the advertising done by the  
manufacturer, but to attempt to make  
a substitution without the knowledge  
or consent of the customer! Well, it  
isn't being done by the local merchants  
today.

Substitution Made Easy.  
Substitution is made easy for the  
mail order houses, also, by the fact  
that they do not sell much of what is  
known as "advertised" goods—that is,  
goods that have been thoroughly ad-  
vertised by the manufacturers and  
have become nationally known through  
such advertising. A large part of the  
merchandise which the mail order  
houses sell purports to be manufac-  
tured by them—although in most cases  
little of it is made in their own plants.  
Much of this merchandise bears only  
the name of the mail order house and  
it is easy to substitute one article for  
another without the customer being  
any the wiser.  
The methods of the home merchant  
naturally are different. With the great  
development of advertising in recent  
years much of the merchandise carried  
by the retail merchant is "advertised"  
goods. These goods are of familiar  
brand, the names of which have been  
made famous by the national advertis-  
ing of the makers. This advertising is

### DRAFT AGE MECHANICS CALLED FOR TRAINING

AUSTIN, Texas, May 2.—Five  
hundred grammar school grad-  
uates of draft age with some ex-  
perience along mechanical lines  
today were ordered sent to the  
commanding officer at the Uni-  
versity of Texas May 25 by Pro-  
vost Marshal General Crowder,  
in a telegram to Major J. C.  
Townes, in charge of the select-  
ice service in Texas. A course  
of training will be given at the  
government expense.

The order instructs that volun-  
teers be urged to present them-  
selves to local draft boards prior  
to May 8. After that date the  
draft boards will be instructed  
to select enough men to make up  
the quota, in the event there are  
not enough volunteers.  
Supplementing the above, the  
Draft Board of Nacogdoches  
authorizes The Sentinel to say  
that they will take applications  
as noted above for any coming  
under their jurisdiction who may  
wish to apply.

### PRESIDENT WILSON REFUTES SENTENCE

### THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and  
beautiful—Get a small bottle  
of Danderine.

If you care for heavy hair that glist-  
ens with beauty and is radiant with  
life—has an incomparable softness and  
is fluffy and lustrous, try Danderine.  
Just one application doubles the  
beauty of your hair, besides it im-  
mediately dissolves every particle of  
dandruff. You can not have nice, heavy,  
healthy hair if you have dandruff. This  
destructive scurf robs the hair of its  
lustre, its strength and its very life,  
and if not overcome it produces a fever-  
ishness and itching of the scalp; the  
hair roots perish, loosen and die; then  
the hair falls out fast. Surely get a  
small bottle of Knowlton's Danderine  
from any drug store and just try it.

### FREEDOM OF SPEECH—DIS- LOYAL REMARKS.

(Houston Chronicle)  
Freedom of speech must al-  
ways be limited, but especially  
on occasions like the present. It  
forms no exception to the rule  
that an individual can not exer-  
cise unrestricted personal lib-  
erty without interfering with the  
personal liberty of others.

The right to speak involves  
the right to listen, for ears are  
entitled to their day in court as  
well as the tongue. One man's  
privilege to say what he likes is  
eternally qualified by other men's  
privilege to hear what they like,  
and any man who defies the senti-  
ments and convictions of his  
auditors takes some risk.

Particularly is this true when  
such profound feelings as pa-  
triotism are concerned, and  
when the average man is con-  
vinced that his country's pres-  
ervation depends upon positive un-  
animity and concerted action in  
its behalf.

Words are not half so cheap  
as they have been made to ap-  
pear by careless and superficial  
use, and there comes a time, in  
spite of the customary unimpor-  
tance we attach to them, when  
they must be chosen with care  
and circumspection.

We have arrived at such a  
time in these United States—  
have stumbled upon a situation  
so grave, so fraught with conse-  
quence, as to make us peculiarly  
sensitive to anything which ap-  
pears to add to our burdens and  
difficulties.

For the first time in half a  
century, and perhaps more  
poignantly than ever before, we  
realize what this republic means  
to us, and to the world at large  
and how essential united en-  
deavor has become to safeguard  
its standards and ideals, not to  
say its very existence.

We realize also that behind  
the guns—our own as well as  
the enemy's—there are beliefs,  
hopes and aspirations which  
are largely the product of  
words, and we have become con-  
vinced that expression has its  
part in building up a structure  
even of physical force.

So we look with disfavor on  
unpatriotic utterances, and we  
shall take leave to suppress  
them. The issue is too clearly  
defined, and our fate as a nation  
is too gravely committed to the  
outcome for us to adopt any other  
course.

We can not afford to take any  
chances, even with lip treason,  
not because of its direct injury,  
but because all history warns us  
where it may lead.

We have beheld the awful trag-  
edy of Russia's collapse—a trag-  
edy conceived in street corner  
oratory and the tongue cam-  
paigning of empty-headed agi-  
tators.

Several events in our own  
country have shown us to what  
lengths disturbers, malcon-  
tents and heretics would go if  
permitted to have their way, and  
we have made up our minds that  
we want no suggestions or ad-  
vice except from those who  
feel sympathy for our flag, our  
government and our present pol-  
icy.

The chatterbox, the haranguer  
and the nail keg spouter are no-  
where nearly so dangerous as  
the spy in immediate effect, but  
they do irritate the public mind,  
stir up discord, and in the end  
might cause even more trouble.

Whoever is not for us, even  
by so much as saying so, is  
against us, and the existing  
emergency is too critical not to  
warrant a definite line-up.

Whoever is against us, even  
though by no more than say-  
ing so, is that much of a men-  
ace to our success in the present  
struggle, and should not only be  
identified, but should be placed  
where he or she can do us and  
our cause no further harm.

We cannot accept the theory

Luzianne to your kitchen just the same

### CAUGHT A DESERTER

Sheriff Prince informs The  
Sentinel that his deputy this  
morning caught John Lewis, col-  
ored, at Saoul, who was a deser-  
ter from the training camp.

Lewis was sent out with the  
first increment of colored sol-  
diers, and escaped from the camp  
some weeks ago, since which  
time the officers have been on  
the look-out for him.

Lewis is being brought to  
town, where he will be confined  
in jail until he is carried back  
to the camp.

to the city today, and made this

### GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit-Laxative" can't harm  
tender little Stomach, Liver  
and Bowels.

Look at the tongue, mother! If  
soiled, your little one's stomach, liver  
and bowels need cleansing at once.  
When peevish, cross, listless, doesn't  
sleep, eat or act naturally, or is fever-  
ish, stomach sour, breath bad, has sore  
throat, diarrhoea, full of cold, give a  
teaspoonful of "California Syrup of  
Figs," and in a few hours all the foul,  
constipated waste, undigested food and  
sour-lime readily moves out of its little  
bowels without griping, and you have a  
well, playful child again. Ask your  
druggist for a bottle of "California  
Syrup of Figs," which contains full  
directions for babies, children of all ages  
and for grown-ups.

## WILSON ORDERS AN INVESTIGATION

(By Associated Press)  
WASHINGTON, May 6.—President Wilson today ordered an investigation of the graft charges in the aircraft production by Gutzend Borglum, a sculptor.

Borglum's charges of pro-German influence are also to be investigated. A demand for criminal investigation was made in the senate recently.

President was asked to order the investigation by Howard Coffin, formerly chairman of the aircraft board, that innocent men might not be ruined by the charges that have been made.

Borglum had made an investigation of the aircraft production, but the president in an official letter last month told him that he was not considered an official investigator.

## KILLING AT GRIGSBY OCCURRED LAST FRIDAY

In a difficulty between Edwin Booth and Will Tindal, Friday, both residing in the Grigsby community, Tindal received a pistol wound that resulted in his death Sunday afternoon.

Immediately after the difficulty Mr. Booth telephoned Sheriff Swanzy, who went there and placed him under bond on a charge of assault to murder, and after the death of Mr. Tindal, he came here Monday and was placed under bond for murder. ## LUFKIN COMMISSIONERS WILL GET BUSY ON ROAD

The Lufkin News reports the meeting of the Lufkin Highway Commissioners, and in the course of the report makes the following statement which will be of interest to the people at this end of the line:

"The superintendent reports that the Manning cut-off will be finished, sometime next week and that the survey is being made of the Nacogdoches road. It is his desire, he says, to get this piece of road completed before the heavy fall traffic sets in, and will work with all diligence to that end. When completed this road will bring a great deal of trade to Lufkin that is now going to Nacogdoches on account of the almost impassable condition of the river bottom in rainy weather."

## A GARRISON CITIZEN FOUND DEAD YESTERDAY

News has been received in the city that Mr. A. O. Thacker, a well known citizen of Garrison, was found dead at the mill of Garrison & Kindred yesterday afternoon.

Mr. Thacker had been night watchman at this mill lately, and when some one went to wake him yesterday he found him as noted.

Mr. Thacker served his precinct as constable for a number of years, during which time he ranked as a very proficient officer. He was a good honest man, well liked by all who knew him, and the community of his residence has been made very sad by his tragic death. He is survived by his widow, a daughter and a son.

## PROVIDING FACILITIES FOR WOMEN TO REGISTER

County Tax Collector J. C. Melton received his supplies for the registry of women who desire to participate in the forthcoming primaries, authorized by the new law, and informs The Sentinel that he will visit himself or send a deputy to the various voting boxes of the county to give the women who desire the opportunity. He will notify the various communities in advance of his coming, and those who wish to register should meet him promptly on the day designated. The collector receives no compensation for visiting the various voting boxes, doing so for the convenience of the people, and he should therefore have the cooperation of all who wish to participate in the service.

## MR. SELF WITHDRAWS.

The Sentinel is in receipt of a letter from Mr. G. W. C. Self, candidate for Commissioner in Beat No. 2, in which he says:

"Please say for me that I have withdrawn from the race for Commissioner of Beat No. 2. After mature consideration I think I could not stand the work to do it as it should be done, and there are other reasons satisfactory to myself that do not need a further explanation. I am sincerely thankful to those who have so heartily entered into the campaign in my favor, and have nothing but the kindest of feelings for those who would have voted for me."

Mr. B. K. King was among the Douglas visitors to the city today.

## UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

## CLEAN UP DAY PROCLAMATION.

At the request of the clean-up committee, appointed at a meeting of the citizens at the City Hall yesterday, I hereby designate Thursday, May sixteenth as General Clean-Up Day for the city of Nacogdoches, and urge that every owner or occupant of premises in the city, enter heartily into the work of making a clean city in the back as well as the front portion of their premises, and all streets adjoining. I request that business houses close on that day from 3:00 o'clock p. m., and devote the balance of the day to the work.

Let everybody commence at once with the work. The City will have its wagons take off all trash and garbage ready on Saturday, May 11th, and will put them out Thursday for removing the balance. Put all your trash in boxes, barrels or sacks and place on street in front of your place, ready for removal, Saturday, May 11th, or Thursday, May 16th, 1918. 2td-1w

## SCHOOL CLOSING AT DOUGLAS LAST NIGHT

One of the most interesting and brilliant school closings of the spring occurred at Douglas last night, when the annual term of public school of that good community was brought to a close.

Among the features of the exercises of the evening was a great educational address by County Superintendent Layton, who inspired the community with the importance of progressive educational work, followed with another able address by County Food Administrator Walthall who told the people present what was being done in the conservation and production of food, and the importance of a strict observance of all the rules and requirements of the Food Administration. In conclusion the people of the community were very responsive, and the business houses agreed to close up at 6:30 in the afternoon in furtherance of the plans.

Another interesting feature of the evening, which best attests the patriotism of the community, was the sale of a quilt which was made and donated to the cause of the Red Cross by the ladies. The quilt was sold at auction, and was finally awarded to Dr. George Campbell for something over seventy dollars. Judge Perritte served as auctioneer.

## A YOUNG SOLDIER IS KILLED WHILE DOING AN ACT OF CHARITY

(By Associated Press)  
PARIS, May 4.—Radiating strength, vigor and health, filled with exuberance through the sheer joy of living, a young soldier was walking in the beautiful spring sunshine one afternoon recently.

On a street corner was an old man with shaggy hair, a few rays covering his emaciated body, holding out a greasy hat in an unwashed hand, the picture of uselessness. The youth dropped a copper coin into the old beggar's hat.

Then, suddenly, without warning, one of those abominable German shells burst with an ear-piercing shriek and the young soldier was instantly killed.

The beggar escaped untouched. He is holding out his hat to passers-by on the same spot today.

W. J. Fountain, a former citizen of this city who has been employed with the West Lumber Company down the country for some time, was in the city today en route to Jacksonville, where he goes to accept employment with a mill at that place.

## WILL OPEN CAMPAIGN AT CENTER MONDAY

(Center Champion)  
A notice from his campaign headquarters authorizes the announcement that Hon. Steve King, candidate for Congress, will open his campaign here on Saturday, April 11, the speaking being on the court house square at 1:30 o'clock.

Mr. King is a fine speaker and while his address will be in behalf of his candidacy, it will be interesting and entertaining.

Mr. L. A. Legg of the Eden community, was a visitor to the city today, and when seen by The Sentinel man said that quite a storm or cyclone visited his community Sunday night, doing much damage. Among the sufferers of the storm was Mr. Pressy Harrison, whose house was wrecked and the household effects scattered over the place, much of it being ruined. A freak of the wind at this place was notable in the fact that the sills of the house were found on top of the floor after the storm. Mr. Legg's gin house was also wrecked, and he sustained much other damage on his place which he estimates will amount to several thousand dollars. Fortunately Mr. Harrison and family were away from home on the night of the storm, which doubtless saved their lives.

Good news spreads rapidly and druggists here are kept busy dispensing freezzone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

FROM MR. VAUGHT.

To the Good Ladies and Gentlemen Voters of Nacogdoches County.

I honestly believe that you will help purify the conditions that now prevail in our county by voting your honest conviction. If there ever was a time when the law should be enforced without fear or favor it is the present time. I only ask for a fair consideration. Your verdict will be mine.

I was forced by circumstances to spend several hundred dollars to defend myself in district court recently, tried for false imprisonment.

This money I spent to make Nacogdoches county cleaner and enforce the law. My enemies spent more to make our county uncleaner. I WON, they lost—who spent the money in the best cause?

The law breaker is not supporting me. "Who will they support?" Judge the tree by the fruit it bears. If I am elected it will be my object to conduct myself as a public official that you will never have occasion to regret that you voted for me.

It was my intention and desire to make a thorough canvass of the county, as my opponents are centrally located, and the voters go to the county site to transact their business affairs, in Nacogdoches. I being 20 miles north, cannot see you, and take this method of asking you to fully investigate my official record as a peace officer.

Sincerely,  
T. G. VAUGHT.

Our good friend, Mr. J. W. Millard sends in a remittance for all arrearages and a year in advance for his daily. Many other good subscribers are doing likewise, and this is the most substantial evidence that the paper is appreciated in its efforts to become a newspaper indeed. Watch it grow.

**"WORTH THOUSANDS OF DOLLARS TO FEEL LIKE I DO," HE SAYS**

**After Twenty Years Suffering He Finds Relief at Last—Gains 11 Pounds.**

"It's worth thousands of dollars to feel like I do now, since Tanlac has taken away the trouble that kept me in misery for the last twenty years," said Mr. B. Daniel, a well known farmer living on route No. 2, out of Abbeville, Georgia, a few days ago.

"Whenever a man suffers as long as I did, he gets to the place where he feels like he's no more good in this world," he continued, "and that's just the way I had begun to feel. Long ago I got so weak I couldn't carry on my work, for spells of stomach trouble I had, wouldn't let me sleep at all. Many a night I have sat up until morning, so shaky and nervous I couldn't even doze off. My heart would flutter and act queer until I was afraid it would stop and I got blue and discouraged I felt like I didn't much care if it did."

"I'd been well enough satisfied just to have my sufferings relieved, but that's not all Tanlac has done for me—I have gained eleven pounds in weight since I started taking it. I can eat as hearty a meal as if I had never had stomach trouble at all and my strength has come back so I can do as much work in a day as I ever could before I took sick. I just feel like a new man all over, and will be glad to tell anybody who wants to know, if they will write me, just what this wonderful medicine, Tanlac did for me."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co. and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by Weatherly Bros., in Sacul by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

**ANNOUNCEMENT**

I take pleasure in announcing to my friends, patrons and the general public that I will have with me again, Friday and Saturday, May 17th and 18th, G. Ward Sheller who comes to my drug store regularly making a specialty of refraction, fitting spectacles and eye glasses. Many good people of Nacogdoches, this county, and East Texas have been using glasses fitted by Dr. Sheller for years with best results. Be not deceived by peddlers. Phone us for appointment and come in as early as you can.

Nacogdoches, Texas.

**VITAL STATISTICS.**

The County Clerk's office is making its report of vital statistics for the month of April, which shows that there were twenty-three deaths and thirty-one births in the county during the month, from which it will be seen that we are holding out with a substantial increase.

**A LOAD OF CHICKENS**

**BROUGHT FANCY PRICES**  
Yesterday a load of chickens, thirty-three in number, 2 geese, a pound of butter and a dozen eggs were contributed to the Red Cross by the people of the neighborhood out several miles from town, up the Tyler road, and brought in and sold at auction—and it proved a most profitable enterprise, the lot bringing a total of \$107.00.

The first hen brought \$4.00, the second \$2.75, the third a contribution of \$1.00 6 for \$9 and given back, re-sold for \$6, one hen \$11.00 and given back, one hen \$1.00, pair geese \$4.00 and given back, one hen \$2.50, one hen \$1.75, one hen \$5.00 and given back, two hens \$2.00, 19 chickens \$20 and given back with the request that they be re-sold and the proceeds given to the Bay Scouts, re-sold for \$15, donation, \$1.00, pound of butter, \$1.00, dozen eggs re-sold five times, bringing \$5.00, and the lot finally sold to a dealer for \$13.00.

The bidding was spirited, participants being infatuated with the spirit that brought them in and desiring to encourage the donors in the good work.

The auction was started by Mr. M. G. Hazle and finished up by Capt. Jno. S. Doughtie.

The people of the community are to be congratulated for contributing what they could to this worthy enterprise, the business men, showing appreciation of effort are likewise to be congratulated, and the whole was a most commendable enterprise in the interest of the most worthy cause before the American people today.

**KEEP YOUR STAMPS.**

Postmaster Donegan is in receipt of the following communication, which is very timely, and which should be read by those purchasing thrift stamps and war saving certificates:

"I am deeply concerned over the reports that are coming to me that people who have just bought war savings stamps applying to the postoffice to cash them.

"I wish you would discourage this in every possible way. There is no earthly use in our selling war savings stamps one week if the person buying is going to cash them the next week or the next month.

The Treasury Department always cashing of stamps in order to encourage people of small means to buy them, because the purchaser has the knowledge that in case of dire necessity he can get his money back promptly.

It is foolish in the extreme for anyone to buy stamps with the expectation of cashing them, and it only involves the government in expense and instead of being a help is an actual hindrance.

Won't you please talk to every person who proposes to cash War Savings Stamps of any amount, ascertain the exact reason and if it is a miscalculation on the part of the purchaser; or real necessity; or a condition which is unusual, the treasury department would want them to have their money back cheerfully and promptly, but this is no time for foolishness or insincerity. Any person who buys War Savings Stamps in order to get credit for so doing in public opinion, and has the mental reservation that he will cash these stamps quickly, deserves to be tarred and feathered. I cannot make it too strong. I want every possible avenue used to prevent the cashing of War Savings Stamps.

England prides herself on the fact that in eighteen months \$650,000,000 of Victory stamps were sold and less than one-fifth of one per cent were cashed. Are they more loyal and patriotic than we? I shall depend upon your co-operation."

**WHAT TO USE TO PREVENT APPENDICITIS**

Nacogdoches people should know simple buckthorn bark, glycerine, etc., as mixed in Adler-ika relieves ANY CASE of sour stomach, gas or constipation because it removes ALL foul matter which clogged and poisoned your system. The INSTANT action surprises both doctors and patients. Stripling, Haselwood & Co.

**GET SEASON TICKET FOR THE CHATAUQUA**

Is a Chatauqua ticket worth two dollars?

That's the question we want every person to answer for himself; and in answering it to consider a few facts.

We will have ten high-grade, but distinctly different attractions in our full five-day program. They will consist of musical companies, entertainers and lecturers, all of top-notch quality; in fact, the very best the Chatauqua affords.

In this statement we are asking you to consider but three of the ten or more attractions. They are of an entirely different type, doing an altogether different work, and about the only respect in which they are similar is in the fact that they are all making good in a very big way. Here are their names: Alfred H. O'Connor, C. W. Wassam and Dr. L. G. Herbert.

A. H. O'Connor is a soldier-lecturer, one of the handful of survivors of England's Senior Regiment of First Life Guards.

We have no delivery, our expenses are small and we will sell for small profits. Give us a trial.

E. R. GIBSON, Manager.

He saw continuous service in France from the beginning of the war, taking part in practically all the important battles on the Western Front from the Marne to the Battle of the Somme.

He was desperately wounded at the Somme, suffered atrocities at the hands of the Germans, was left for dead in No-Man's Land, was rescued by a raiding party, spent many months in a hospital and had to be invalided home.

O'Connor's lecture is entitled "Twenty-Two Months in the Trenches." He is a very able speaker, has a rare gift of genuine Irish wit which serves to lighten somewhat the awfulness of the story he tells. O'Connor was decorated for bravery by King George and has a pension for life from the British Government.

As a whirlwind popular lecturer, C. W. Wassam of Iowa is in a class all by himself. Whether lecturing to his classes at the University of Iowa, or speaking to great popular audiences, as he has for the past few years, he shows the same marvelous gifts of the born orator, and wields the same influence over his hearers.

We are sure you never heard anyone speak quite so fast or say so much as Dr. Wassam. He's the kind of speaker you listen to with mouth and eyes open, balancing yourself on the edge of your seat—all ears and attention—so as not to lose a single word. Wassam has the dynamic energy and the pile driving oratorical force of Billy Sunday, but in a manner and style peculiarly his own. It makes no difference what Wassam's subject is: "The Stuff That Wins," "The Boy Problem," or whatever he decides to talk about, there is something doing every minute, and not one word would you be willing to miss.

Dr. L. G. Herbert has done so many big things in the American lecture field that it is difficult to "cover" him in a single paragraph. A headliner lecturer on nearly every large Chatauqua circuit in the country at one time or another he is probably not surpassed as a popular speaker in the country today.

Dr. Herbert has lectured in various cities all the way from one to thirty times, he knows big business, understands the working man and his point of view, His acquaintance with men and events is large. With a son and a son-in-law now in France, he is intensely patriotic, is giving freely of his time and services to the government. His subject here will be "The Crisis and the Call," a patriotic master-piece—one of the very finest things being given on the platform. Herbert is one of the men that make the Chatauqua worth all the time and trouble it costs.

This is less than a third of the program! And the cost is about 60 cents.

Is it worth the price? Then get your season ticket today of Mr. J. R. McKinney, the Chatauqua secretary, or some other member of the Chatauqua Association. We'll look for you there—you and your family too.

## ITEMIZED REPORT WAR SAVINGS SOCIETY

Below is a statement of work accomplished during the month of April by the Woman's Committee through War-Savings Societies. Though the committee feels that this is not a bad showing, inasmuch as the Liberty Loan had the "right of way" during April, it also feels that it might have been better. May MUST be better if we come up to what the Government has a right to expect from War Savings.

We must keep before us the fact that our quota is \$588,180., approximately \$50,000.00 per month. It is not enough that we have gone "over the top" in Liberty Bonds. We MUST also go "over the top" in War Savings!

## KNITTING REPORT

The following knitted articles have been completed and turned in during the month of April by the Nacogdoches Red Cross branch:

- 25 sweaters
- 8 helmets
- 7 pr. socks
- 4 pr. wristlets

The following articles were sent in by the Garrison branch during April:

- 4 sweaters
- 9 pr. socks

A new shipment of wool has just arrived, and all knitters who are ready for more yarn are requested to telephone Mrs. Parnell, No. 274. If you do not know how to knit, Mrs. Parnell will also provide a teacher. Let us not think that because it is summer here these garments are not needed. The aviators and the men in the navy know no summer weather, and it will require our most serious and united efforts to keep them provided for, and also to see that when another winter begins in France, we have supplies already across and ready for it.

## DEMAND LABORERS FOR COTTON FIELDS

### DEMAND FOR 1,000 LABORERS FOR COTTON AND CORN FIELDS MADE

(By Associated Press) AUSTIN, Texas, May 7.—Demand for 1,000 laborers to work in the cotton and corn fields of the state has been made upon T. W. McClellan, state farm specialist for the federal department of agriculture, and the only relief comes from the importation of Mexican laborers into Texas. This announcement is made by Mr. McClellan, who also is connected with the state department of labor. Federal restrictions over importation of Mexicans into this country also makes it difficult to employ Mexicans, Mr. McClellan said. Many of them fear they will be drafted into the army after they get into the United States, and refuse to accept assurances to the contrary. Believing that some of these restrictions can be removed without hurt, the state council of defense plans to send a committee to Washington to confer with authorities.

## OLD DOCUMENT

### IS UNEARTHED

(By Associated Press) WACO, Texas, May 6.—Dinged with the dust of many years, yellow, charred and crumbling with age, an interesting document dated 1856-7 has been brought to light in the minutes of this city. This relic was found in the archives of the city clerk's office and is a small ledger of 100 pages.

It covers the proceedings of the city council of October 11, 1856 and was during the administration of J. A. McMillan, the second mayor ever elected here, the town having been organized in 1854 just two years previously. Though the minutes were dated before the civil war, the negro question was even then a matter for consideration by the law makers and was discussed at length at the meeting recorded.

The spelling too, showed interesting changes from the present date, the word committee appearing throughout the record as committty.

## NEW ACHIEVEMENTS AVIATORS RECORDED

(By Associated Press) DALLAS, Texas, May 7.—New achievements in endurance and altitude tests at the Texas aviation camps have been recorded frequently this spring. Some of the latest are reported from Ellington field at Houston, where on a single day new camp records for both height and endurance were set. An army flyer whose name is withheld by order of the executive authorities at the post, climbed to 20,800 feet, only a little less than four miles in the air. On the same day, a civilian demonstrator for an eastern motor company remained in the air, with a passenger, for nine hours and 53 minutes and descended only when his last drop of gasoline had been consumed.

The type of the machine used in the test for altitude, was withheld by the Ellington Field authorities. The result, they said, was gratifying and of great value in demonstrating the utility of certain innovations and improvements that have been under consideration for some time. The climbing quality and power and speed developed exceeded expectations.

## MR. HOOPELS DELIGHTED WITH THE RESULTS

The Sentinel received the following message from Mr. Hoopes of the Federal Reserve Bank late yesterday afternoon, which is self-explanatory:

The Liberty loan figures today for the 11th district were \$96,682,800.00. Allow us a mere expression of thanks and good will to the organizers, committeemen, the press, and the body of Liberty Loan workers in the eleventh Federal Reserve District. This mere expression is inadequate.

To point to our success is the finest compliment we can pay every co-worker. The officials of this bank are endeavoring to communicate with all those Liberty Loan workers whose names are registered with us. The main object of this message, however, is to congratulate that huge army of salesmen and helpers, men and women, who made the victory possible. Our own efforts at and those of our country organizers would have been of no avail had it not been for the services of those splendid workers, who, looking not even for recognition went out and actually made the sales. These people do not need our thanks, for such patriotic duty is its own reward. We do not offer them however, an unstinted recognition of their efforts.

J. W. HOOPELS, Deputy Governor, Federal Reserve Bank.

REV. M. C. JOHNSON PRESENTED WITH HANDSOME CAR SUNDAY

Sunday morning after Rev. M. C. Johnson had concluded his preaching services at the Main Street Presbyterian church, of which he is the beloved pastor, and with his family, had started home in the one-horse surrey in which they were accustomed to riding to church, he was induced with different excuses to change his course and pass out through the public square.

Arriving on the public square he found a great throng of people, with cars parked on each side of the street, leaving an open passage-way. Long before he arrived at the spot designated for his interception and halt, confusion was manifest upon his countenance, and when the city marshal caught his horse by the reins and brought it to a standstill, the good minister and his family were indeed bewildered.

Upon being ordered to get out, he did so without protest and wended his way through the crowd up to the postoffice steps where he doubtless expected to find the aftermath of some great tragedy in which he was expected to minister in some capacity. Mrs. Johnson and daughters were directed to the same spot, while the son riding in front, was directed to take the horse and buggy home.

After the minister and his wife and daughters had arrived at the place where desired, Hon. Eugene H. Blount in a most eloquent burst of oratory, made a happy presentation speech, in the course of which he quoted what the great authors and poets had said about giving, reviewed the pleasure of Nacogdoches people in bestowing some useful token of their appreciation upon this minister who had proven himself so worthy in all the affairs of useful christian citizenship, but he left a trace of confusion for the moment by not stating what the present was. When the minister gave expression to his appreciation, but orally admitted his confusion by not knowing what was being given to him, a handsome 5-passenger Buick car was pointed to with the assurance that it was his property, with the compliments of admiring friends of Nacogdoches.

By this time the minister was too overcome for many words, and to save him embarrassment, he and family were loaded into the new car, and with a competent driver at the steering wheel, carried home, the great crowd of people clapping their hands as they departed.

This substantial token of esteem was presented to this good man in the spirit expressed by the author, Fuller, who said: "Give freely to him that deserveth well, and that is a way of giving to thyself."

Mr. Johnson has not only been a good minister to his church and the congregation that compose it, but he has made himself useful in all affairs of community interest, never tiring when he could be of service in any capacity, and halting with no creed when his mind and hands found anything to do. No individual organization has had any monopoly on his good works, but to the contrary he has been a benefactor for all that is good and uplifting in all affairs of community life, and all agencies bid for a share of his time. The people of all churches love him and the people of all classes admire and respect him. His life is a sweet benediction in this community, and the token presented to him on this occasion is but a faint expression of the appreciation in which he is held in Nacogdoches.

## RED CROSS CAMPAIGN.

The response to the initial efforts in organizing the county for the second Red Cross war fund campaign has been most gratifying. The Campaign manager made a trip to Garrison, Maytown and Appleby last Friday afternoon and says that everywhere he stopped he found local managers taking up the campaign as directed.

Douglas has sent in word that her quota would be ready by the time the big rally day is held in Nacogdoches. Appleby says that she will have her quota ready without any doubt. Maytown reports that she may be depended upon to go over the top long before the opening day and seemed to think that her quota should be larger. But Maytown is going to make the same kind of showing that she did in the Liberty bond campaign if possible.

Garrison is entering the campaign with much enthusiasm. The committee there reports: "We will be in Nacogdoches on Red Cross day 400 strong with a brass band and you can depend on us bringing along with us our part of the county's quota."

Campaign Manager Naman says he is much gratified at the reports, which are coming in from various parts of the county. Every community is getting ready to carry out the campaign according to schedule. Sunday, May 12th the ministers of the county have been asked to preach Red Cross sermons and help give notice of the campaign. Saturday, May 18 is the big Red Cross day at Nacogdoches, the feature of which will be a parade of the women relatives and sweethearts of the boys in service. Sunday, May 19th, there will be speaking over the county at which time it is expected that whatever amount remains to be collected to put the county over the top will be secured.

Mr. Chas. Perkins, who was chosen to act as treasurer in the second Red Cross war fund campaign, asked the executive committee to relieve him of this duty because he feared that his health would hardly permit him to give as much time to the work as he thought would be necessary. Mr. F. B. Sublett has been elected to serve as treasurer. The duties of the treasurer in the second Red Cross war fund campaign are very exacting. He is made custodian of all receipt books and they are issued only on his authority. They are all made in original and duplicate and numbered. Every receipt must be accounted for by the party to whom the book is issued. The treasurer's records are audited here and are then sent to the War Department where they are checked up.

The cleanup campaign being inaugurated by business men of the city and the city council is very timely and should be pushed with all possible diligence. The health of the people of the community depends upon good sanitary regulations, and it is the one instance in which we are "our neighbor's keeper." And while we are at it, the creeks and water courses of the community should be oiled again, an investment that would pay large dividends. With the dry winter, we have less standing water than usual, and less mosquitos, making it a good time to perform this service.

There is more catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy. It is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. ## SHORTAGE TEACHERS IS GETTING SERIOUS

(By Associated Press)  
DALLAS, Texas, May 6.—A pressing question that this and other cities now are facing as a result of the war is the shortage of school teachers. In this city, many of the most valuable teachers have resigned during the year to take up work allied with the war, some frankly for the purpose of bettering their financial condition others attributing the change to their desire to give some service to the government. Many have gone to Washington to perform clerical work, and others, after studying at the commercial schools have entered the local business houses.

The annual supply of normal school graduates receiving their first certificates permitting them to teach is smaller than in previous years, and there will be a decided scarcity, school officials say when school opens in the fall after the approaching summer vacation.

The industrial positions as a rule pay more salaries than the teachers say, offer more attractive working conditions with the sole exception of hours to work, and above all pay salary for twelve months of the year instead of seven or nine.

## MR. ALLAN SEALE HAS GREAT CROP GROWING

Our townsman, Mr. Allan Seale, who has a big plantation down the country, had on exhibit in town today a stalk of corn sholder high, a few stalks of oats just heading and some stalks of cotton ready to put on squares, all of which he says are average samples of his crop now growing.

Mr. Seale has 100 acres of cotton like he was showing, another hundred smaller, all chopped out and growing off nicely; 100 corn sholder high, 100 acres corn nearly a waste high, and twenty-five acres oats just beginning to head nicely.

From this crop it will be seen that our townsman is a very busy man with the promise of much prosperity at harvest time.

## WHY HAVE PICNIC.

The Sentinel is requested to say that there will be a Red Cross picnic on the Dock Muckleroy place, three miles from town on the Martinsville road, May 11th, and at night of the same day there will be a play at the Trinity school house between the Martinsville and Oak Ridge communities. The play is entitled "The Dust of the Earth." An admission of 10 and 15 cents will be charged, to be used as a Red Cross benefit.

County Food Administrator Walthall informs The Sentinel that the Food Administration requests people to again reduce their meat supply to a consumption of 1-14 pounds, per week per person. This order calls for voluntary observance, but if the people fail notice is given that it will be made obligatory.

Dan Ferguson arrived in the city yesterday afternoon on a visit to relatives. He is en route from Dallas to Austin, where he will enter the aviation service of the United States.

Mrs. Fuller, wife of Rev. Jerome Fuller, of New Mexico, arrived in the city last night and will spend some time here with her parents, Mr. and Mrs. H. M. Boozer, out a short distance from town. Mr. Fuller has enlisted with the soldier boys and will lend his assistance to his country during its struggle.

## Pains and Aches Caused by Kidneys

Many women attribute ailments and suffering to some disease peculiar to their sex, when often the pain and misery is caused by weak or deranged kidneys. Household office work or factory work may start the trouble, and dizzy spells, puffiness under eyes, sore muscles, stiff joints, discolored or scanty urine, sleep disturbing bladder ailments, rheumatism or diabetes may result. When the kidneys are strong and healthy they filter out from the blood the poisonous waste matter. When they are sluggish or overworked they need a medicine to clean them out and invigorate action. Foley Kidney Pills are prepared expressly for the purpose of dissolving all poisonous substances and uric acid that lodge in the joints and muscles and to cleanse and strengthen stopped-up, inactive kidneys. Thousands of men and women in all parts of the country testify to the wonderfully satisfactory results they have had from taking Foley Kidney Pills.

## DEADLOCK MAY CALL ACTION OF CONGRESS

WASHINGTON, May 6.—A deadlock over mail contracts involving the postoffice department and the Interisland Steam Navigation Company which has a monopoly of transportation between the islands of the Hawaiian group may result in application for congressional action, according to Otto Praeger, second assistant postmaster general. Four-year contracts for carrying the mails between the islands are expiring, and when new ones were proposed in February, the department found that acceptance of the bids would entail an annual payment of more than 100 per cent over the \$10,000 formerly charged for the service.

The islands, scattered over several degrees of latitude and longitude above the equator are still being served, but the government has refused to pay the new price, has offered instead a 25 per cent increase, and the company has refused that.

"As a remedy, the department is considering asking Congress for legislation which will compel transportation companies to accept mail for carriage at the rates made for carrying express," Mr. Praeger said. "The Hawaiian situation is typical of others arising in seaboard sections of the United States. If we had now power to compel the Hawaiian island carriers to accept the mail as express, that situation could be cleared up rapidly."

"Also, the same power, if granted by congress, would operate to get better and cheaper service elsewhere in the United States."

Hawaiian mails are increasing in volume, and in number of points of destination to be served; the department records show. Mail goes by the trans-Pacific steamers to Honolulu, and thence is distributed by the smaller ships making the inter-island passages.

The Nacogdoches Sentinel evidently has a new editorial writer added to its staff, and we have noted the improvement at once. In a whole column of paragraphs in yesterday's Sentinel no mention was made of Lufkin's majestic old standpipe. Thanks!—Lufkin News.

Since the big receptacle has been the biggest thing in the neighbor town so long that the memory of man runneth not to the contrary, and the late assurance that it will remain on the same spot to greet future generations, yet unborn, we abandon the "trench" and repair to a safer retreat. The reason for the abandon is therefore purely "strategical."

NEW EDUCATIONAL BUILDING UNIVERSITY OF TEXAS

AUSTIN, Texas, May 2.—When the first half of the summer school of the University of Texas opens on June 12 the new Educational Building of that institution will be ready for occupancy. It is one of the most magnificent buildings from an architectural and construction standpoint possessed by any educational institution in the United States. The hundreds of students who are expected here to attend the summer school will find the conveniences and comforts of the University this year far better than they have been heretofore.

Besides the inviting feature of having at their disposal the new education building, the summer school students this year will find open to them at the University several courses of instruction not heretofore embraced in the curriculum. Prospective summer students will specially welcome the announcement that the fees will be reduced more than one-half. Heretofore the matriculation fee averaged about \$10 for each one-half period, whereas this year it will be \$5 for the entire summer session. In addition to this, of course, there will be the us-

ual laboratory, medical and library fee.

An unusually strong faculty has been employed for the summer school. Special mention may be made of the fact that one of these will be Dr. Alfred Lawrence Hall-Quest, Professor of Secondary Education in the University of Cincinnati, and formerly of the University of Virginia. He will give a course at the summer session of the University of Texas upon the problem of supervised study, which is a very important phase of the work of high school teaching. Another important feature of the summer school will be the conferring of degrees, which was decided upon at a recent meeting of the faculty of the University. With the present two session of summer school courses amounting to two credits toward a degree may be easily completed.

It is announced that the course in typewriting and stenography, which was recently established at the University, will be continued during the summer school. Special courses in manual training will also be given. An interesting program of athletics, public lectures and other activities has been prepared.
