## Germans Pay The Price In Gaining

(By Associated Press)

PARIS, June 12.—The battle continued last night between Montdidier and the Oise river with little change. The French made progress on the left, east of Mery in the Senlis wood. Near the center the French repulsed a violent attack. The French are holding on the right, and south of Chevrincourt. South of the Aisne between Soissons and the Marne the Germans attacked this morning. The fighting rages between the river and Villers Cotterest Forest, and on the front of Domiers Cutry, south of Ambley, according to the French official statement.

The fighting is drawing to the southwest, between the Oise river and Villers Cotterest forest. Villers Cotterest is about 45 miles north-east of Paris, with a main line railroad to that city. The fighting has now extended to the south of Noyon and the Oise.

### ALLIES REGAIN GROUND AND CAPTURE 1,000 HUNS

With the French Army in France, Tuesday night—French counter attacks today were invariably successful. The allies regained ground and took a thousand prisoners. The battle ground is literally covered with the German dead.

An entire division of the famous Jaegers has been cut to pieces at Reims sur Matz.

### AMERICAN ARTILLERY AIDS FRENCH

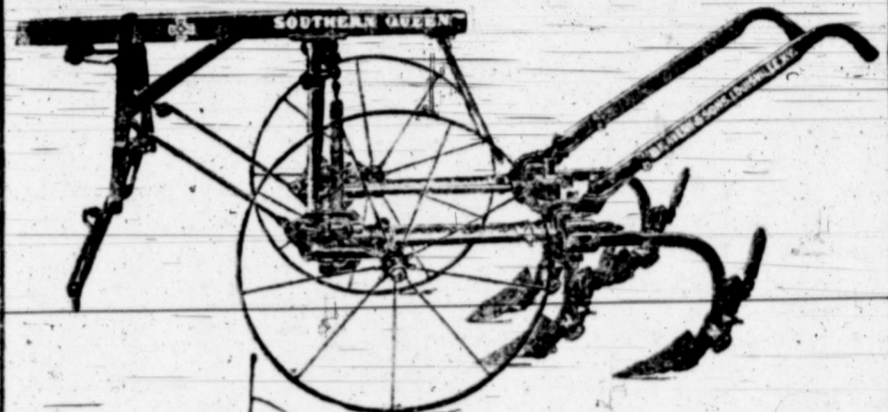

With the American Army in France, June 12.—The American artillery aided the French counter attacks southwest of Montdidier, with a harassing fire.

### GERMANS SAY FRENCH ARE BEATEN

AMSTERDAM, June 12.—“A great part of the French army has been beaten,” General Von Stein, Prussian war minister, has told the Reichstag. “The so-called Foch reserve no longer exists,” he says.

WASHINGTON, June 12.—Director General McAdoo has asked congress to extend the time in which the government may take over the short line roads to January 1 instead of July 1, as now provided.

## OUTPUT GREATLY EXCEEDS LOSSES

(By Associated Press)

WASHINGTON, June 12.—Since the German submarines raided the American coast the output of the ship yards building for the shipping board has exceeded the sinkings of American ships by a hundred thousand and dead-weight tons.

## ARREST DALLAS MAN FOR SMUGGLING

(By Associated Press)

DALLAS, June 12.—Silliman Evans, a former attache of the American legation at Copenhagen, is under arrest here today, in charge of officials of the U. S. Customs service. Local authorities say that he is held in connection with a smuggling charge against a man named Conn, of New York. Conn and Evans were recent fellow passengers from Europe. Evans is a local newspaper man.

LATER, 3:45—Evans was arrested in connection with the alleged plot to smuggle the so-called Russian crown jewels into the United States. A box, bearing the seal of the legation at Copenhagen has been found in his rooms. Evans’ counsel says that an attache at the legation asked him to bring the box to America to be left at Washington. He says that Evans did not know then and does not know now what the contents are. The jewels are said to be worth many thousands of dollars. The customs service officers decline to comment either on the arrest or regarding the box and contents.

(By Associated Press)

LONDON, June 11.—Twenty-one enemy planes have been destroyed by the British on the Italian front, says an official statement.

## COURT MARTIAL MOTHER AND SON

(By Associated Press)

PARIS, June 12.—A Court martial resulted in the sentence of death, charged as spy, of Madame M. and her son Noel sixteen years of age, accused as an accomplice, was ordered to the penitentiary until he became of age. It was charged that she furnished information to enemy agents in Spain. The son was about to enlist as an aviator when arrested.

## GERMANY LODGES NEW COMPLAINT

(By Associated Press)

AMSTERDAM, June 12.—Germany has lodged a complaint with Washington and asked safeguards to prevent excesses, such as the lynching of Robert Prager, an Illinois German. She calls on America to take action regardless of the alleged state of Illinois preventing prosecution, says the Wolff News Agency.

Messrs. W. Y. and G. F. Garrison and R. B. Walthall of Garrison were visitors to the city yesterday afternoon.

## WILSON ORDERS SENATORS QUIET

(By Associated Press)

WASHINGTON, June 11.—President Wilson has ordered quiet the controversy of the senators. His statement on “open diplomacy” he said meant an advocacy of the publication of treaties after their ratification, but did not refer to senate executive discussion of treaties.

# The Sentinel

WALTON & GIBBS, Publishers  
TELEPHONE 94

Yesterday's issue of the Lufkin News didn't have a single thrust for The Sentinel and the good old mother town of Nacogdoches. We hope it is genuine reformation and not for "strategetical" reasons.

From San Antonio, Marshall, Dallas and other places came messages in the mails this morning commending the stand of The Sentinel and its efficient service to the community and the government, and also praising in the highest terms the efforts of the leaders to secure a county-wide and unanimous agreement for all the moral and religious forces to work together in the interest of religious ideals and patriotic enthusiasm.

They have coined a new name. It is not "bushwhacker" or "jayhawker" of the civil war period. We understand that it was made by a young soldier who is "over yonder," and it is to stick. The man who was born in this country, who is prosperous, and yet who knocks the government, refuses to help with War Savings, Red Cross and other arms of service is called "Yellow Dog." And a nation-wide hunt is being instituted, according to the daily papers, in which Boy Scouts, Junior Y. M. C. A.'s and other patriotic organizations are asked to assist in locating and listing all the "Yellow Dogs." What a title for an American to wear for all time, and then to shame his children after he is dead.

As was to be expected, the American boys are winning the admiration of the world on the fighting front, and are scoring victory wherever they go. It is expected that they will be put to the supreme test within the next few days with the Germans attempting to break them down before they get their organization perfected, and in this test the Germans are going to find a force that they had not hitherto seriously contemplated. Our boys have not journeyed so far for play; they love the land of freedom which they volunteer to protect from autocracy, that threatens world-wide independence, and they will stand up to the last man on the firing line. Pin your faith to the Sammys, and in the meantime you may listen for the break of some big news.

We came near forgetting to say that we have an Angelina County man who can throw any man in Nacogdoches County in a wrestling match. The proceeds go to the Red Cross.—Lufkin News.

If this is a man trained in the art offered for the event, his "case" must be attended to if we have to send for Bob Jordan to come back. If, however, the challenge is offered by the author of the above lines, The Sentinel editor is amply sufficient and ready to journey to Lufkin for the feat as soon as the "referees" can be obtained and other details arranged. Come clean, John, and tell us what you mean, to the end that we may understand all we know about it.

While the people of the United States are quibbling over the expensive soliciting, collecting, delivery and amusement system including profiteering and high prices, short hours and short production in the need for 5,000,000 soldiers in France is apparent. Too many men in the United States are not doing enough labor to help save this country, and a man who will profiteer now—well, he deserves punishment. The situation is too grave for the present conditions in this country to continue without adequate punishment for these crimes and misdemeanors.—Georgetown Commercial.

And it is manifest that there "is a negro in the woodpile" somewhere. Everything we purchase is double the price that prevailed before the war. If there was not a wholesale spirit of monopoly in existence, which reaches from the smallest errand to the largest contract, and takes advantage of the limited supply in all lines, there would not be such an inflation.

## COME ALIVE.

Come alive, oh Christian nation  
Come alive,  
When the awful war is raging  
Come alive,  
Hark! the nation now is calling,  
And its pleadings loudly falling  
To the ears of every people,  
Come alive.

Come alive, oh Christian nation  
Come alive,  
When the enemy bands are  
raiding  
Come alive,  
This is no time for slackers,  
We must all be faithful backers  
And stand behind our soldiers,  
Come alive.

Come alive, oh Christian nation  
Come alive,  
When the country needs our  
wages  
Come alive,  
Don't be afraid to give your  
quarters,  
While our boys are 'cross the  
waters  
You'll be glad when we are win-  
ners,  
Come alive,  
Come alive, oh Christian nation  
Come alive,  
While our flag still floats so  
gaily  
Come alive,  
This is no time for sleepers  
We must all be busy reapers,  
We must sure support our sol-  
diers,  
Come alive,

## BURYING THE BONES.

The dog buries his bone against the day when there may not be sufficient provisions for his support. There is a great lesson in this that many of us should get.—Nacogdoches Sentinel.

We shouldn't bury our bones nowadays. We should invest them in thrift stamps. If we buried them some strange and alien dog—probably a daschund—might come along and dig them up and appropriate them for his own use. If we invest them in thrift stamps they are safe. And when the time comes for us to claim our bones we shall have additional bones given to us as interest.—Beaumont Enterprise.

## MR. WHITE WITHDRAWS.

Nacogdoches, Texas, June 6th, 1918.  
To the Voters of Nacogdoches County:

Since announcing for the office of District Clerk, I have received much encouragement from all parts of the County. I want to thank those who have been interested in me and in my race and I assure them of my grateful appreciation for same.

The District Clerk's office, being an office that can be filled as well by a lady as a man, and the great need of our country for men in various lines of work during this world crisis, I feel it my duty to withdraw from the race.

Being in the draft age, I will probably be called to service by my country, and even if I am not called into service, being an able-bodied man, I am willing to serve anywhere my services may be needed. I feel that women may take the places of many men, thereby releasing the men for more useful work in behalf of our government.

Thanking the people again for the interest manifested in my behalf, I beg to remain,  
Gratefully yours,  
D. WHITE.

One of the most important movements in years, and which is calculated to bring all classes of people and all sections of the county into the closest fellowship and good will, indeed, and into a higher efficiency of work and a most Christly spirituality, is that which many of the churches are undertaking under the supervision of a committee of business men from all the denominations, with the frank purpose of reaching every community in the county with a religious and patriotic message. It is in no sense to interfere with the denominational work of the various churches, its purpose being to secure the spiritual and practical co-operation of all who really love God and man in service to God and country.

## SUMMONED TO SERVICE.

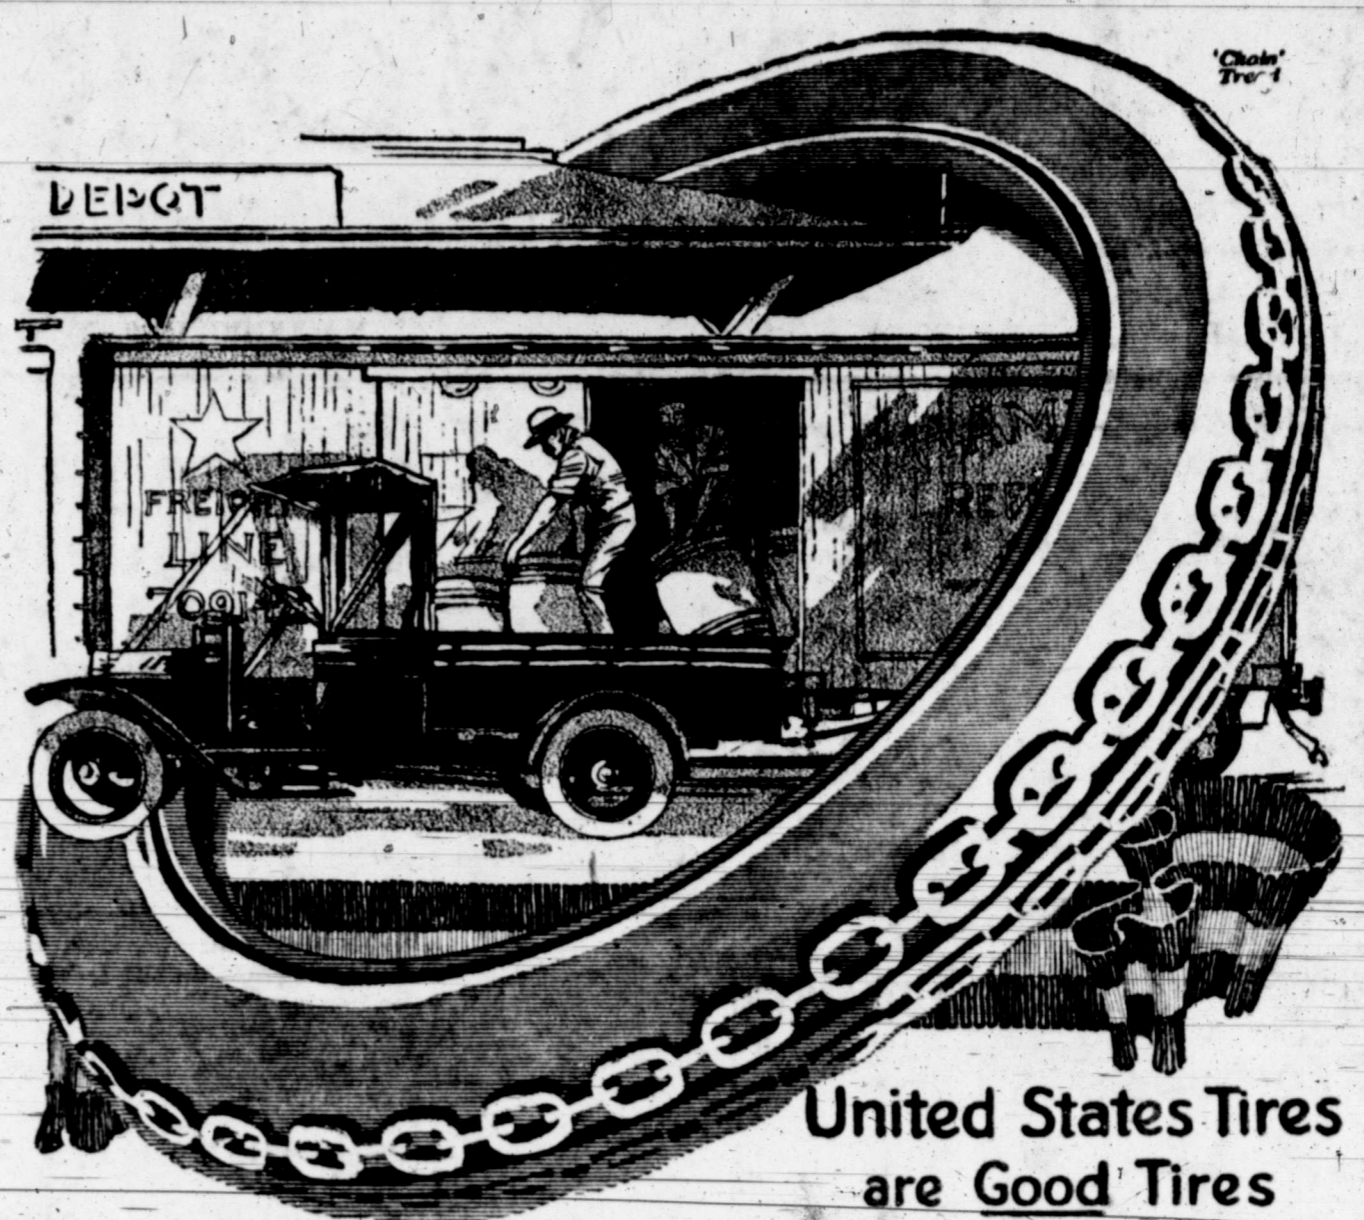

Every citizen of this great nation should be proud of the American soldiers in France. They are among the bravest, cleanest and most efficient of all the allied forces. It is gratifying to note that England, France and Italy all unite in saying that the United States is the saving factor in this struggle for liberty throughout the world. Even the military experts say that these soldiers outrank the confederated nations, and are dazzling the world by their personal initiative and organic precision and dash. Perhaps to them the future historian will refer as the redeemers of civilization. What an honor!

But the average citizen, in his way and sphere, will have the same chance to show his unselfish devotion to the civil and religious liberation of the world. President Wilson will soon issue a proclamation to all the people, and the lawful authorities will send a summons based upon this proclamation to every man and woman in the county, in which they will be commanded to meet on June 28th and unite to carry out the War Savings work of Nacogdoches County. This work is as essential to success, in its place, as is the answer of the men to the draft laws of the army. No loyal citizen will fail to respond to this summons. The roll will be kept, and all absentees will be noted and called upon to give a reason for failing to respond to the call of their country.

This rule will also apply to all phases of duty in all lines of work for universal liberty. No man, no party, and no organization should for one moment fail to respond to the calls and enter the work in any line asked by our national leaders. This is a time when party differences, the middle walls of denominational separation and all other affiliations which divide forces and citizens should be laid aside for the larger good. Our great President, Congress and the army are all giving us a fine example of how godly men can and do lay aside every difference, and, in the time of the world's supreme need, emphasize the fact that we and they are all Americans, fighting in a common cause and for the good of all nations. The war will be won. There is no doubt of it. But the war is not half of the world's job before us. The depletion of the nations, both in men and materials, in moral ideals and educational facilities, has been such as to offer the hardest task in matters of reconstruction since the creation.

One of three things is before the world: First, if the Hun wins, we will have a religion that is barbarized and mammonized and unhumanized, and the individual will be ignored for the state or empire; Second, the world will be nominally liberated by victories coming to the allies, yet, because of the differences which keep apart the forces of religion and education and hinder co-operative work similar to the plan upon which all allied armies now fight, the absence of "Preparedness" will cause a lack of spiritual and moral leadership which may cause the peoples to become the prey of the fanatics like Russia after they have escaped the armies of the Hun. Third, if the religious organizations, preachers and teachers of every name and order, will magnify their agreements and try to ignore their differences in the face of this great crisis the reconstruction of the nations and the ensuing spiritual revival should be the greatest in Christian history.

As I see it, we should allow nothing to interfere with the duty of becoming "workers together with God." Nor is there any excuse for our failure to work together as Christian people in the matter of sending a gospel and patriotic message to every community in the County each week, in all the States of the nation, to every command in the army and even to the armies of our allies. If we love God and our fellow men there is no reason under the sun why we cannot pray together, plan together, work together and teach together the less fortunate. Indeed, as I see it, America would have committed the crime of all ages if, having the means and the men, she had refused to enter this war for the freedom of the world. And as I see it, any man or organization who refuses to co-operate with the men who

## UNCLE SAM SAYS TO YOU.

Don't take interest money from your government at this critical time if you can avoid it. If the government owes you money, put it right back into other government securities.

Liberty Loan interest will be due on the 15th of this month. Several thousand dollars will be payable in Nacogdoches.

It is not likely you need this interest to live on. If you take it you will probably spend it in luxuries.

LEND this interest right back to your government by purchasing War Savings Stamps IMMEDIATELY. Buy the stamps right at the BANK where you cash your coupons.

Nacogdoches has Thirty Thousand Dollars per annum in Liberty Bond interest. Most of this should go back into WAR-SAVINGS STAMPS.

Mrs. Annie Paine of Werooka, Okla., is in the city visiting her sister, Mrs. W. B. Parrish, and brothers G. H. and R. T. Weaver.

## IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

## A SPECIAL CALL.

The president has issued a special call to the Boy Scouts of America to assist the government in locating every walnut tree in the United States from 12 inches in diameter up. Boys of Nacogdoches city and county will help in this great work, because the walnut timber is badly needed for airplanes and for gunstocks. Experts say that dominance in the air fighting will eventually win the war. Let every boy, girl, man or woman who knows of a walnut tree which measures not less than 12 inches through four feet from the ground, send in writing to me, or any Scoutmaster or Boy Scout, the following data:

First: Tell of the tree, their owners, what school district the owner lives in, what public road is nearest to the timber, and what is the nearest railroad shipping station. This is a very important matter, and I appeal to every patriotic citizen in the county to help us, as the nearest of

ships in the South American service makes it impracticable to secure timber for propellers for airplanes and gunstocks. Again Washington asks that no small walnut tree be destroyed, but allowed to grow, and that wherever possible the nuts be planted this fall for future use. This matter is so urgent that the department is asking for the information without a day's delay. Help us by writing plainly and at once.

M. C. JOHNSON.

Hon. F. A. Henning, night editor of the Dallas News, dropped off here yesterday afternoon, upon his return from a visit to his sister at Huntington, and remained over until this afternoon renewing acquaintance with old friends. Mr. Henning was at one time a citizen of this city, during which time he was publisher of the Plaindealer, and in this service he distinguished himself with a line of service that has called him up higher. He not only gave his readers one of the best papers that was ever printed in East Texas, but he was a useful citizen in all the affairs of community interest as

well, and is one of nature's noblest, of a rustic, unassuming nature whom to know is to love. It has been the privilege of this writer to know the sterling personal character of this good man, and in knowing this to find the secret of his great worth in public service. Truly can we say, that the world has been made better for much of the service of this good man—a service that has been given solely for its public worth with the benefactor hidden in the background, and knowing this we love him for his true personal as well as his public worth. And we rejoice that his worth has been recognized by an institution that is able to give him the opportunity for development of his full capacity.

## TO ENFORCE THE LAW.

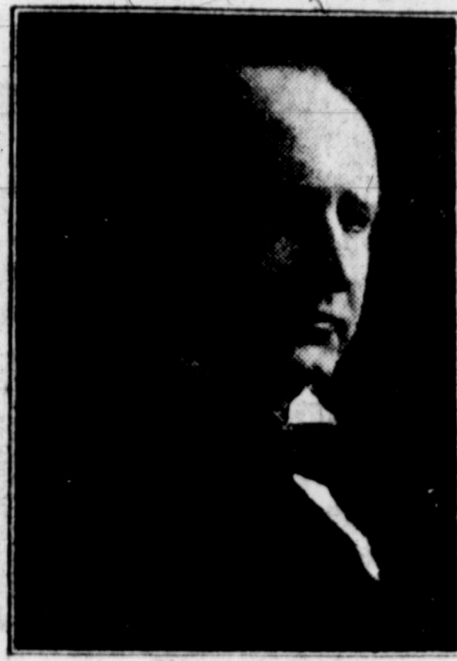

To the General Public: After reading the article of Attorney L. G. King in Saturday's Sentinel I wish to say that I endorse same, and will ask our other officers to help us to enforce the law, for if there ever was a law that needs to be enforced, it is the law to prohibit the speeding of automobiles, as our streets are very narrow, and if we should let cars continue being run as they have been in the past, it will be only a short time until we will have to attend some funeral from the effects of same.

Now, I, at this time, wish to give all automobile owners warning to be more careful as I have taken my oath to discharge my duty as I see it, and this one particular thing should at this time be looked after.

I beg to remain,

Your servant,  
J. L. PRINCE, Sheriff.

**CLARENCE E. GILMORE FOR RAILROAD COMMISSIONER**

Clarence E. Gilmore, of Willis Point, Van Zandt County, announcing his candidacy for Railroad Commissioner of Texas at the Democratic primary, says he is entitled to be considered as a candidate for reelection. That the Supreme Court of Texas held in the injunction proceedings instituted by him that the name of his opponent had no lawful place on the ticket as the nominee of the Democratic party, the committee had no authority to make the nomination and that he had the lawful right to make the race as a Democrat opposed by such unlawful conduct. He calls attention to the fact that the opinion of the Supreme Court was not rendered until Saturday before the general election on Tuesday and that in contempt of the injunction his opponent's name had been certified to the various counties as the Democratic nominee, the tickets printed and distributed. Since but two days intervened, only fifty-two counties corrected the error, giving the voters a legal ballot and in these he received nearly two votes to his opponent's one, carrying practically all of them. He says he is sure the Democracy of Texas will not stand for such unlawful conduct and such contempt for the constituted authorities.

Mr. Gilmore is forty-five years of age, born and reared on the farm, owned and edited the Willis Point Chronicle for eighteen years and for the last six years has been actively engaged in the practice of law. He served three terms in the Legislature, during which time he was chairman of the penitentiary investigating committee, which made a searching investigation of the penal institutions of the state and aided in the enactment of wholesome prison reforms.

His practical business experience, his untiring energy and thorough study and understanding of every problem he deals with, and his study of problems which confront the Railroad Commission, equip him, he says, for the duties of this position.

His home people, who have known him longest, vouch for him absolutely.

To Automobile Owners:  
I have today written to the Highway Department at Austin asking permission to cancel all licenses which are in the hands of parties here who persistently violate the laws with reference to the operation of motor vehicles. This would, of course, deny such one the right to operate a motor vehicle in the state.

This will apply to speed, lights, open "Cut-out," and any and all other violations. If I get this permission, I expect to apply it every time I see a person violating such laws.

**SENATOR COLLINS' SPEECH**

Before a gathering of some three hundred representative citizens of our town and county Saturday afternoon, June 8th, Senator V. A. Collins opened his campaign for Congress in this end of our district.

In his brief but eloquent introduction of Senator Collins, Judge S. W. Blount sounded the keynote of the speech that followed. "I present to you," said Judge Blount, "a man who needs no introduction to the people of Nacogdoches county. He has been your able representative in our State Senate for a period of almost six years. 'By their fruits shall ye know them.' Never was a Scriptural reference more aptly applied, for your senator comes to you now with a legislative record that clearly entitles him to address you with assurance in the matter at issue." For integrity, consistency and unswerving adherence to the highest ideals of Americanism, his senatorial record is above criticism, and I commend him to you as unqualifiedly the one candidate best fitted by character and experience to acquaint himself with honor to himself and you, my friends, in the capacity of your next congressman.

The Senator spoke for more than an hour. "By their fruits ye shall know them," repeating Judge Blount's very appropriate quotation Senator Collins devoted some time to his long and commendable record in the State Senate. "Having served the people of my district for a number of years as their servant in the senate of Texas, I have come to render unto them an account of my stewardship. Whether or not I have discharged my obligations to you is for you to say. Upon my record and in the full consciousness of duty well performed, I am here to ask of you promotion to a wider sphere of usefulness." Here the senator went into his record of definite accomplishment at some length, referring to the prominent part he played in writing and placing upon the statute books of Texas as the first eight-hour day law, the first law fixing a working day of nine hours for the working girls of Texas, several admirable amendments to the child labor laws of our State, the law requiring sanitary inspection of factories where women are employed, and the original Workmen's Compensation law of 1913. He discussed at some length the Compensation law for the tremendous boon it has proven to the working men of the state. "This law was written by me," said the senator, "with the sanction and cooperation of the labor interests of the state, and is now recognized by both employer and employee as the most beneficial measure ever placed upon the Statute Books of our state in the interest of all the people, employer, employee and taxpayer alike. It has effectually put out of business the ambulance chaser and damage-suit lawyer. It has relieved you, my fellow taxpayers, of the financial burden formerly imposed upon you by a vast amount of expensive litigation. It guarantees to an injured workman for an injury sustained, or his beneficiary in case of resultant death, compensation for such injury or death without the necessity of their dividing the amount of a judgment with a lawyer. It places upon industry the burden of paying for injuries sustained by its employees."

"I wrote the Statewide Prohibition Bill, also the Woman's Suffrage Bill, and managed the passage of both in your State Senate. They are now laws of the sovereign State of Texas. You all hold as priceless the integrity and purity of your homes. The women of Texas now have a voice in the conduct of public affairs, although a limited voice. I would it were unlimited, and I here and now pledge myself to the cause of National Prohibition and National Woman's Suffrage, and in publicly pledging my support to these great causes, I do not deviate a hairsbreadth from the course I have ever pursued."

The Senator continued, "I further pledge my best effort to the cause of good roads and the extension of our rural mail delivery and telephone systems. I shall concern myself, if through your suffrage I am elected to congress, with one piece of constructive legislation that I believe is now imperatively needed, both as a war measure and as a peace measure. In the face of shifting conditions and the existing worldwide turmoil and stress, it is the only measure of constructive legislation that I would now attempt to formulate. The measure I refer to concerns itself with the conservation and protection of the agricultural interests of our country. We must have better national marketing conditions, and in my humble opinion, it is the

duty of our government to devise and put into operation a system of marketing that will enable our farmers to secure a proper return for the things they produce. The speculator and commercial buccaneer must be put out of business. The rural population of our country is the bulwark of our American Democracy. It is to the farmers of our country, in times of national peril like the present, that we turn for the real saviors of war. They are the chief cornerstone of our grand old Republic, and they must be protected in securing the things that are properly theirs. Their lot must be improved and their lives made brighter and happier."

The Senator in closing said, "Above all, my friends, I want my position clearly understood upon the one supreme issue of the present. I here and now solemnly pledge every ounce of my strength and all the ability that I possess to the support of that great American who typifies to me the grandeur and nobility of the Democratic party, our peerless President, Woodrow Wilson. If I go to Congress, I shall support him and his Administration to the last ditch; vote to give him every cent that in his estimation the exigencies of the occasion demand. If he needs for the destruction of the Hun and his devilish teachings every dollar of our national wealth, every pound of American man power, our all in all, I shall vote to give it to him. Our present mission is a mission of Destiny, Divinely appointed, and I shall assist our President to the furthest limit to maintain the rule of righteousness. If this policy is not in accord with your wishes, it is your privilege to send another man to the halls of our National Congress. I thank you."

## BIG PARADE.

of Woodrow Wilson's Willing War Workers, Brass Band Boosters, County Cavalry Company, Canning Clubs, Corn Clubs, Women Workers, and Sprightly Stepping Scouts

Nacogdoches, Saturday, June 15, 1:30 p. m.

The War Savings Parade to be held at Nacogdoches on Saturday, June 15, at 1:30 p. m. should be attended by every patriotic citizen and organization in the city and county. It is intended as a demonstration of the fact that every citizen, industry, society and organization of this great county is unanimously standing behind President Woodrow Wilson and our incomparable army and navy in an effort to win the war for the freedom of all mankind. Let all the stores close for an hour, and their proprietors and employees join in the parade. Every man and boy should bring a hoe and every woman and girl should bring a broom with red, white and blue ribbons tied around them for use in the parade. The parade will form at the High School, marching down Mound street to Main, thence to the Court House, countermarching to the square, where, after "The Star Spangled Banner" by the Nacogdoches Concert Band, the entire citizenship will salute Old Glory as it flies from the staff on the Federal Building.

The following is the order of parade formation:

Head of Procession: The Colors, and County Chairmen S. B. Hayter, and Hon. Bepman Strong, accompanied by County Demonstration Agents Jim D. Greer and Joe R. Day, also the county vice-chairmen and the county War Savings Committees.

Military Section: Nacogdoches County Cavalry Company, led by Captain Edgar Thomason, followed by the Women's Home Guards.

War Savings Section: Women's School, Fraternal Church and Business War Savings Societies; followed by the District School Chairmen and their committees.

WAR work section: Canning Clubs, Corn Clubs and four troops of the Boy Scouts of America.

Colored People's Section: County Chairman, members of committees and War Savings Committees.

After the parade all War Savings Committees will meet in the District Court room, members of boys and girls clubs and the Boy Scouts will meet in the county court room. At these meetings interesting speeches and announcements will be made. The list of prizes will also be announced for the boys and girls of the county in conservation and war savings work, and the summer and fall program outlined. The colored people will meet at a place to be selected.

Let all the good people of the county help to make this the greatest practical war demonstration in our history.

As attention is so much centered on Hobby and Ferguson in the governor's race, the average voter doesn't know anything about the other two candidates. Of one of them the Tyler Morning Tribune says: "Hon. W. V. Grubbs of Greenville, Texas, is a candidate for governor. He is a patriot, a friend to the common people, a prohibitionist, an orator and a grand old man; but he has never stood well with the politicians."

The attorney general, who has recently reviewed the new law, rules that all saloons doing business in Texas must close at 9:30 on the evening of June 25th. Laws prohibiting the interstate and intrastate shipments of liquor also become effective at the same time, the opinion says, and thus the time is drawing near when the dream of statewide prohibition will prevail in Texas. And with the trial it is a safe prediction that it will become permanent, and that we will never again be afflicted with the evils of the saloon and its traffic.

## V. A. COLLINS ANNOUNCES FOR CONGRESS

I am authorized to announce the candidacy of Senator V. A. Collins for Congress from this, the Second Congressional District.

It is a source of gratification to all friends of clean, safe government that Senator Collins has decided to make the race for Congress. The reasons are clear to those who are informed, and will become readily apparent to those who will investigate his record, and the claims of his opponents. We can judge a public servant's future course only by his record of past achievement. Among the several candidates who have announced for congress, Senator Collins possesses the unique distinction of having an unimpeachable public record, a record of unwavering loyalty to the highest ideals of true American Democracy. In our State Senate he has been a positive, rather than a negative force. His support has been extended freely, openly and consistently to every measure bearing the approval of enlightened public sentiment. His conscience, and it is a conscience in good working order, has ever been his guide. This fact is attested by the official Senate Record, and by his oft repeated public utterances.

He has championed the cause of Woman's Suffrage throughout his entire public career until, largely through his management in the state senate, the bill was enacted into law. He has consistently fought for the advancement of labor and the consideration to which it is entitled. His prominence in the great cause of prohibition, past and present, is a matter of common knowledge. The cause of prohibition owes much to his unceasing activity in its behalf. Space limitations prevent further citations to his splendid record of definite accomplishment.

The prime need of the hour in our national congress is for men who can be depended upon to support our beloved president and his administration in vindicating the cause of righteousness and protecting the lives of our sons. The need for dependable men of force, character and conscience is imperative. Senator Collins fills this bill of particulars in every respect. After we have won the great war for humanity, our next congress will be confronted with an enormous volume of reconstructive legislation. Steady hands and clear minds will be needed as never before. In the matter of selecting our next congressman cast aside personal and sectional bias, and let your conscience and intelligence guide you. On this basis I present to you with perfect assurance the name of Senator V. A. Collins as the congressional candidate best fitted by all proper standards to uphold our interests and reflect credit upon our district, state and nation.

ANGUS T. RUSSELL,  
Chairman for Nacogdoches Co.

## CAVALRY OFFICERS VISIT SAN AUGUSTINE

Capt. W. E. Thomason, accompanied by First Lieutenant W. W. Lee, Second Lieutenant E. W. Spradley and Sergeants Hall and Williamson, visited the cavalry officers of Capt. Doak's Troop L, at San Augustine yesterday, and report a pleasant visit.

The visitors were entertained with lunch at the Moss Hotel, where an address was delivered by Capt. Doak, followed with an address by Capt. Thomason, and the boys say that both were very interesting and inspiring, reflecting the patriotic spirit of the men.

## CO. RED CROSS NEWS

Mr. Ben Tucker took Mrs. Tucker, Mrs. J. J. Baker and Mrs. Atwell to Harmony Friday afternoon June 6, to instruct them in the making of bandages of various kinds. The people of Harmony are very enthusiastic and we are sure to have a live and flourishing auxiliary.

Owing to the bad weather Sunday the appointment Mr. Atwell had for Nat had to be postponed until a future date.

We have had some splendid reports sent in this week from the branches and they show an increase of workers and also of work turned out. Encouraging, indeed when there is such need of articles of all kinds now that we have so many men in the war zone and more are being sent all the time. That means that every ship that takes men must take more supplies for the Red Cross. Let's show our boys that we can give up some of our unnecessary pleasures and give more time, more money and more of ourselves to help free the world and to help our boys and everyone's boys in the hour of need. "He who hesitates is lost" is the saying but we will change it and say "If we hesitate lives will be lost." It is a duty and a privilege to do all we can to help our boys. "Come across" with work, just as Nacogdoches county boys have "gone across" for us.

## COUNTY REPORTS

### Nacogdoches.

Report of garment room for week ending June 8. There were 78 workers present during the week. There were 26 helpless case shirts, 68 many-tailed bandages, 61 triangular bandages and 2 bed jackets made.

Gauze room report ending June 8. There were 85 workers present, and there 2160 compresses made. A new kind of work was started and the amount of compresses made is larger than was expected. Next week the report, we hope, will be still larger when the workers have had more experience in the making of these things.

Thousands of these wipes and compresses are used every day in the hospitals in France. They need more and more. If our output does not increase what will the result be? No wipes, when a severe operation is to be performed and it might be the wipes or compress you should have made that is missing, and costs the brave man his life. It might be your son, your brother, or husband, but whoever it is, he is fighting for you and maybe giving his life for you, if you don't do your part.

The East Main St. Circle reports 14 present at their meeting June 4th. Six bedshirts and 15 triangular bandages were made.

I have not received the colored circle report, but it will be published next week.

### Douglas.

Douglas sends a splendid report, as usual. 8 helpless case shirts, 3 pajama suits, 12 many-tailed bandages, 12 triangular bandages and 3 bed jackets were made last week. Cut 8 bed jackets and 4 helpless case shirts.

### Cushing.

Cushing also sends a fine report and their junior circles are doing such nice work, now that school is out they will probably do still more. The women met this week and made and folded 54 triangular and 34 many-tailed bandages and finished 1 shirt with more cut and started. The junior circle No. 1 made and folded 22 triangular bandages.

### Maytown.

Mayo reports a great increase in attendance. They met Wednesday, June 5th, and there were 35 white ladies and 20 colored present. This is an increase in work as well as attendance. They made 60 bandages and completed six shirts, cut 2 dozen tapes.

### Sacul.

At Sacul they have been out to earn some money. May 25th they had a rummage sale and cleared \$49.65 for material for the Red Cross. This is a good way to earn Red Cross money, as it is profitable to all who partake in it. They also sent in a fine work report. Their work meeting was held June 5th with 10 members present. The following work was done. 72 triangulars cut, 12 many-tailed bandages made, 16 helpless case shirts turned in. Six ladies are making sweaters.

### Caro.

Caro also sends a fine work

report. They met Thursday afternoon June 5th with Mrs. V. L. Perry. Eleven ladies were present. 56 triangular bandages were cut, 31 of which were finished and 10 many-tailed bandages were finished. The attendance was larger than it has been before too and they hope it will continue to get larger.

### Swift

Swift reports a fine lot of work done this week. 34 many-tailed bandages and 24 triangulars and 6 helpless case shirts.

### Mahl.

Mahl sends a good report with only 4 members present they made 9 triangular and 7 many-tailed bandages, one hospital shirt and 100 gun wipes. This is a splendid report and needs special mention.

### Shady Grove.

Shady Grove is up and moving too. With 17 members present at their meeting this week they cut 20 helpless case shirts and made 8 of them, made 38 many-tailed bandages and cut 1200 gun wipes. This report is one that shows an increase in workers and articles turned out.

### Melrose.

The Melrose meeting this week was attended by 10 members. They made 12 triangular and 13 many-tailed bandages and cut 4 helpless case shirts. The reports from this place grow at every meeting and they are doing splendid work.

### Oak Ridge.

The Oak Ridge auxiliary held their meeting Thursday, June 6 with 14 members present. They made 6 helpless case shirts and 6 triangular bandages. More work was prepared for the next meeting. They had a fine attendance and turned out good work at their meetings.

## LOOK WHAT YOU CAN DO IN THREE MONTHS TIME

San Angelo, Texas, April 12 1918  
Tyler Commercial College  
114 E. Texas.

Gentlemen:  
In May, 1905, I entered your school a raw recruit, just off the farm. In a little more than three months after that time, was doing court reporting in the district courts of Texas, and have been engaged in that business ever since, using solely the Byrne Simplified Shorthand, of which your president is the author. It has been my privilege to report as difficult cases as are recorded in the Texas courts. The Byrne Shorthand is sufficient for all the demands for shorthand.

My purpose in stating these facts at this time is with an aim toward helping those who desire to become efficient shorthand writers in a short time, that the government may have their services as soon as possible.

Yours very truly,  
Tom J. Cunningham, official shorthand reporter, 51st Judicial District of Texas.

This young man realizes the need of the government for efficient help, and the opportunities it opens to those who are ambitious to succeed. The success of commercial employees has always depended largely on the demand for their services, and this demand has now reached a new high mark.

The closing of the school year for the summer vacation will allow many teachers and pupils to enter the Tyler Commercial College now and be engaged in helping Uncle Sam by the time the school opens again. The pay is so good and the work so pleasant that it is doubtful if any will quit this to resume the school duties in the fall. Fill in blank for free catalogue.

## A Sly Old Thief

IS HE AFTER YOU?

You have often heard it said that "prostration is the thief of time," and in no other way is this saying more true than in the neglect of one's health. If Bright's disease, or any fatal sickness could come to us in its full grown form, we would watch and not be overtaken. But since it is little by little that dread diseases lay hold upon us, we get used to their minor annoyances and forget them. After a while our system is undermined, then

"THE THIEF IS AT YOUR DOOR"

The causes that lead to Bright's Disease are the most sneaking and deceptive of all the symptoms that point out human ailments. Don't take chances on anything that looks like Kidney Trouble. You can neglect your liver and stomach and still not forfeit your life, but he who plays with time while Bright's disease slowly but surely fastens upon his vitals makes a mistake that carries a price he cannot afford to pay. If you have reason to suspect Kidney or Bladder Trouble call on your druggist and procure a bottle of the Hoho Kidney and Bladder Remedy—a medicine made on ly for the treatment of Kidney and Bladder Troubles.

# SEND COLLINS TO CONGRESS

## The Women of Beaumont Give Their Reasons For Supporting Senator V. A. Collins for Congress

We, the undersigned women of Jefferson county, with due appreciation for the services rendered by Senator V. A. Collins for the betterment of Texas and especially the womanhood and childhood of this state, hereby pledge ourselves to support him for congress. We urge the women of this district to support Sena-

tor Collins in order to show him our gratitude for his efforts in securing the passage of the law giving us the right to vote. Among the things which he has done to merit our support, we name the following: He is the author of the Woman's Suffrage Bill and the Statewide Prohibition Bill, and led the fight for factories where women are employed. He is the au-

thor of the law which reduced the hours of labor for the working girls of Texas to nine hours a day. He is the author of the bill requiring sanitary inspection of factories where women are employed. He is the author of the first eight-hour law in Texas, giving those who work on public works an eight-hour day. During this time of war we want a man to rep-

resent us in congress, who "does things." The things which Senator Collins stands for, and the things which he has accomplished in the way of legislation are directly in line with what the present administration stands for. Therefore, we heartily recommend him to the voters of this district for congress.

# CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Killman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

# FORTY FIVE AT CAMP REFUSE TO WEAR UNIFORM AND GET LIFE TERM

(By Associated Press)  
SAN ANTONIO, June 10.—Forty-five "conscientious objectors" at Camp Travis today were sentenced to life imprisonment in Leavenworth for refusal to wear the uniform. The sentences were later reduced to twenty-five years each by Brigadier General J. P. O'Neil, who reviewed the record. The case is the first in the army where conscientious objectors were court-martialed who refused to obey military orders. Nearly all sentenced are from Oklahoma, and are of the Mennonite faith.

# MINIMUM GRAIN RULE REMOVED

(By Associated Press)  
WASHINGTON, June 10.—The interstate commerce commission has ordered that all railroads operating in Texas, Arkansas and other western states to remove the prejudicial rules fixing thirty thousand pounds as the minimum on grain products, as compared with forty thousand interstate.

# BLACK SMALL POX AT ESSEN WORKS

(By Associated Press)  
LONDON, June 10.—A dispatch to the Times, from the Hague, quotes that neutral as saying that an epidemic of the black small pox is raging at the Krupp works in Essen. The outbreak is attributed to underfeeding and the unsanitary conditions prevailing there.

# Inactive Kidneys Cause Disease

"I shall not soon forget the benefits I derived from the use of Foley Kidney Pills."—Al. A. Godfrey, Forest Grove, Oregon.

Too much work and too little work seem to have about the same effect on persons past middle age. Proper action of the kidneys is necessary to good health. They act as a filter and remove from the blood poisonous waste matter which if permitted to remain in the system leads to many complications.

Many nervous, tired, run-down men and women suffer from pains in the back and sides, dizzy spells, bladder weakness, sore muscles and stiff joints and fail to realize that rheumatism, diabetes or even Bright's disease may result.

If you have cause to believe that your kidneys are weak, disordered or inactive you should act immediately. Foley Kidney Pills have been used by young, middle aged and old with complete satisfaction. They act quickly and surely and have given relief in cases of ten years standing.

# AUSTRALIANS CLAIM TO HAVE KILLED VON RICHTHOFEN

LONDON, June 10.—The official Australian correspondent at the front in France gives the following account of Australian machine-gunners' claim to have participated in the shooting down of Baron von Richthofen: "About 11 o'clock on the morning of April 21 the troops along the Somme and Ancre had heard distant popping from two fleets of British and German airplanes which had been fighting high over the German lines, when a German plane was seen diving after a British plane.

"These two, detached from the fight, came so low that they were temporarily hidden by hills from the sight of the Australian gunners and troops around them. Presently the sound of approaching engines was heard, and low over the crest of the hills by the river came the British plane, making directly towards a position where there were two Lewis guns.

"Behind his plane could be seen the wings of the German plane pursuing. The German was pressing the English plane desperately close and firing short bursts from a machine gun.

"When about a hundred yards away from the nearest Lewis gun, the German plane, which at first had been obscured by the British plane, was now sufficiently clear to enable the guns to fire on it without risk of hitting the British machine. Both guns fired a burst.

"The German plane the next instant wavered unsteadily to one side, banked up and veered in a sharp circle to the left, then shot in a line sheer down a steep long angle to the ground about 400 yards from the Lewis gunners."

# Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make bad matters worse. Chamberlain's Tablets are easy and pleasant to take and most agreeable in effect. Give them a trial.

# HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well.

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARY BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—even if a woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

# War Savings Meeting.

The first gun in the Grand June Offensive was fired Saturday morning at ten o'clock at the court house.

Responding to the call "To Arms," of Chairman S. B. Hayter and Secretary M. C. Johnson, there came from every quarter of Nacogdoches county, the newly appointed chairmen of the sixty-eight school districts, the presidents of the Women's War Savings Societies, committees from the colored people—all ready for the real work of the coming campaign.

Up to now, War Savings has been holding the trenches, while the heavy guns of the Third Liberty Loan have been pounding at the enemy. Now, we are in the front lines a mighty army of savers and lenders backing our gallant army of fighters.

Chairman S. B. Hayter called the meeting to order, explaining with thoroughness the purpose of same. Mr. Johnson gave a succinct plan of work as outlined by the Treasury Department at Washington, carefully detailing the duties, responsibilities and obligations of those specially enlisted, between now and the 28th.

Roll call showed a gratifying attendance. Particularly so was the large proportion of women chairmen present at this meeting. It certainly was not easy for these busy women to come—many from great distances and under great difficulties—at the early hour named in the "summons."

Out of thirty of the senior societies called, at least twenty-five responded. But, when did women ever fail in their duty?

Mr. F. H. Tucker made a practical talk on War Savings Stamps from the view point of the banker. He clearly demonstrated that the more we lend, the more we have, which is logical. Authoritatively, he made the statement, that though Nacogdoches County now owns approximately a million dollars in Government securities, there is more money in the Nacogdoches banks than there has ever been.

In his characteristic and forceful manner, Mr. Moss Adams left no doubt as to our duty in supporting our fearless soldiers, now in the very thick of battle, with our cash and our credit, with our hearts and our souls. "Miracles of mobilization, equipment, transportation and supplies have been wrought by the First, Second and Third Liberty loans." But, the greatest needs, the most IMPERATIVE, must be met by War Savings Stamps.

So, organization complete, every "soldier" carefully and thoroughly drilled, each one ablaze with a single compelling purpose, a spirit of Do or Die, is there any doubt that we will "GO OVER THE TOP" on the 28th of June, and go over with a flourish?

# EVER SALIVATED BY CALOMEL? HORRIBLE

Calomel is quicksilver and so like dynamite on your liver.

# Calomel loses you a day!

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist set for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

"Don't take calomel!" It makes you sick the next day; it loses you a day work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

W. D. GORDON, CANDIDATE FOR STATE SENATE.

W. D. Gordon, in announcing as a candidate for State Senator for this district, gave out the following statement of principles upon which he will make the race:

The one supreme issue is the war. I therefore support unequivocally those measures adopted by the state and national administrations to win the war and conserve the resources of men and materials to that end.

Any weather vane politician who panders to the prejudice of the people to get office, instead of giving support to his country in this time of need, is unworthy of public trust or the respect of his fellow citizens. Therefore I have nothing in common with any politician at this hour who seeks to coin the prejudice of any class into votes for himself instead of devoting his energies to the common struggle in which we are all, of every class and type, engaged.

This struggle is leveling class distinctions. Young Marshall Field of Chicago, many times a millionaire, is a volunteer private in the ranks, while a driver of a delivery wagon of his store is the colonel of a regiment. This is only a type which characterizes the entire service. Many men are receiving military orders from their former employees. This is the way of a free people in the greatest republic in the world. The demagogue who would subvert this free nation by breaking down the constitution and laws which cement the rich and poor in a common citizenship devoted to individual liberty is not a democrat but a bolshevik. He would abolish our liberty and put in its place the anarchy of Russia. Liberty under law is the only safeguard of rich and poor alike.

I therefore stand upon the war measures recently enacted by the legislature which surround our soldiers with safeguards against drunkenness and vice. The man who does not should no more be allowed to go to public place and power than a known agent of the Kaiser.

I am also in full sympathy with that enlightened sense of justice which has recognized the equal rights and privileges of women.

My policy if elected to the senate will be to deal fairly with everybody. Governments are instituted for the protection of the weak against the strong through the medium of law. Those who earn their living by labor are entitled to first consideration at the hands of law makers. Just so long as capital combines to get the most for the least, just that long will it be necessary as a matter of prudent defense for labor to unite its strength. Hence in the present state of human society union labor is not only a sound theory but a desirable condition. The just demands of labor have always found in me a friend and sympathizer, and if I should represent this district in making the laws at Austin that idea will characterize my service.

I also recognize the rights of property and its claims to just and fair treatment. There is a common ground of justice and fairness upon which both labor and capital can meet and co-operate. It is an inspiring thing to see patriotic men like Samuel Gompers and Bob Lovett, representing both labor and capital, and the army of workers behind them working side by side for the common good of all.

I have practiced law for many years in this district, untrammelled by corporate or other contracts, and if elected to office I propose to continue my independence, for thereby alone can I render faithful and just service to all alike.

One of the wrongs which afflict the common masses of this state is the judicial system whereby a man of small means is practically deterred from appealing to the courts in redress of grievances, because of the interminable delays incident to our system of practice and procedure. The justice of the cause is frequently lost sight of in the red-tape of technical process.

The Supreme Court of this state is now more than seven years behind with its pending cases. Powerful litigants can endure such delay, but the weak, even if successful, are finally worn out and exhausted thereby.

Some six months ago I published a paper pointing out the defects of our present system and prescribing its remedy. Most lawyers are familiar with this article as it was given wide circulation in Texas and met the approval of a large majority of the judges of our appellate courts, from whom I have received personal letters endorsing my position. I know without doubt the most clumsy and from actual experience in both the state and federal court practice what the bad points are of our judicial system and how to correct them, and that is one of the reasons why I am desirous of going to the senate at this time.

We have one trial and one appeal in criminal cases, and a man's neck can be broken legally with three men passing in review upon the verdict of the court below. But where property or money is involved, under the present system, three different appellate tribunals have a "whack" at it; and they are generally busy with overruling each other, resulting in the litigant and his case being made a football bounced from one end of the field to the other. If one trial and one appeal is enough to take a man's life, his liberty away, why should there be three appeals in a civil case as is now allowed by law whereby the court of civil appeals becomes a way station, for, and not an end of private controversy?

I propose to correct, as far as possible, this anomalous condition of things so that a poor man is not facing bankruptcy if he is forced to carry his rights before the courts of his country. The present system in Texas is responsible in large measure for the loss of respect of the people for the law and its administration. I regret to say it, but it is an indefensible legal system in the United States.

I shall also support a constitutional amendment prohibiting the manufacture and sale in this state of intoxicating liquors, thereby putting an end to one of the most dangerous and troublesome questions which have set the people of Texas so often one against the other. It will not be long before there will be adopted by the states of the American union such an amendment to the federal constitution. Of the states which have voted upon the question to this date twelve have adopted it and none have voted against. Twenty-four more states will make it effective.

We must prepare for the new era which is about to dawn upon us when the storms of war have cleared away, and there will be no reversal of the activities which are now speeding toward a higher and better government in the nation and in the state.

It is my ambition to aid in an humble way in this service.

**Food Administration Aiding The Farmers To Market Produce**

The Food Administration is utilizing every opportunity to assist the farmer in marketing his products, and Administrator Peden has called into service some of the most expert and experienced handlers of perishable products in the country. He is urging compliance with the rules and regulations pertaining to handling, grading, packing and loading of all perishable products. It is only by their enforcement that the Food Administration can render maximum service. Careless sorting, grading and loading of perishables has caused heavy losses to the producers and shippers. The Food Administration is attempting to minimize these losses by requiring the elimination of all inferior products from all shipments, as these products become a burden on better grades and contribute to the demoralization of markets. The conservation of car space, time, energy and inferior cull products is an important factor in the successful marketing of fruits and vegetables.

Mr. Peden is receiving many letters expressing approval of the course he is pursuing to secure good grades and grades and secure loading in the care of all products going out to the market. The observance of these rules by the producers and shippers enables the Food Administration to protect them against refusals on farms, protests at the point of destination.

**PRICE OF ICE AT HOUSTON REASONABLE SAYS FOOD DEPARTMENT**

Houston's Method of Arriving at Increased Costs Establishes a Precedent for Summer Ice Over Texas.

Under date of April 26, Herbert Hoover, U. S. Food Administrator, wired Administrator Peden for Texas that the Food Administration was concerned that there should be no profiteering in ice, and especially that cost of ice to those elements of the community who are least able to protect themselves should not be increased over last year unless absolute proof could be given by ice companies for its necessity.

Promptly upon receipt of this telegram, Administrator Peden started an investigation to ascertain the cost of manufacturing and distributing ice in Houston this season compared with the cost of last season in order that he might determine from this comparative cost whether the higher prices charged by the manufacturers and distributors this season are justified.

The investigation made under R. F. Crow, head of the ice division for the Texas Food Administration, disclosed the fact that the selling price of ice is practically controlled by the wages paid to employees, the cost of horse feed and the fuel or power cost.

It was found that of the delivery expenses, labor represents over 50 per cent of the total cost, and horse feed and auto truck expenses 25 per cent. The balance of the delivery cost consists of expenses which are not subject to great increases and can be kept within a reasonable limit by proper management or war-time economy.

In the factory expenses, fuel represents from 50 to 60 per cent of the operating cost and wages from 25 to 30 per cent. The schedule of prices in effect this season compared with last season shows a maximum increase of 33 1/3 per cent for ward deliveries in small quantities down to an increase of 25 per cent at the platform on sales in small quantities.

In view of the fact that the increased cost of wages shows a minimum of 25 per cent and the increased cost of fuel is as high in some instances as 100 per cent, the Food Administration considers the increased selling prices this season over last season as reasonable.

Below is given the schedule of prices the Food Administration considers reasonable at Houston:

Manufacture to charge at platform—	
Maximum per 100 pounds.	22 1/2
Wholesale in large quantities.	22 1/2
Retail in any quantity.	25c
Delivered—	
Wholesale.	30c
Retail.	40c

**A HOLY WAR**

Scarcely a year ago America had no army! Scarcely a year ago we were organized for peace! Scarcely a year ago had the average Texan been told that a year hence he would be not only assisting but heartily participating in a voluntary army. Scarcely a year ago had the Texan which restricted him to: Bread without wheat! Three pounds of sugar per month! Two pounds of meat per week! He would have laughed it off as preposterous.

TODAY and tomorrow and all the morrows hence until the WAR is won the marvelous quality of adaptation, the eagerness to serve, will make the Voluntary System of Rationing quite as simple as the raising of a finished army of one and a half million men in less than a year.

Texas has set the pace in a measure—for the U. S. Food Administration.

The SPIRIT of OBSERVE THE RULES and regulations governing Food Commodities has entered into the very blood of Texas men and women and children. They want to give a tangible service; they want the grime and misery and honor of war to be suffused with a something vaster than even Victory. They would clothe their days and their nights with HOLYNESS.

The spread board has again become the altar of finer things; the self-imposed fasting reflects the abnegation of men and women who fought the victories of the fresh white animalism sought to deprave the world when Christian ideals sought flowering and propagation in the world.

When men give their lives on the Western front and homes give up their sons—the mere giving of bread and meat and sugar to sustain others who ARE ABOUT TO DIE that American homes may survive—is so noble, so true when compared with the greater LOVE that it seems terribly inadequate.

And this alone explains why Texans so readily accept to the last degree of self-denial any program that will win the war; and make of it, increasingly, a Holy War.

Any other view is mere sophistry.

**NEGRO ADJUNCT NAMED FOR FOOD ADMINISTRATION**

With the designation of Rev. E. J. Howard, pastor of the African Methodist Church of Houston, as chairman of the Executive Board of the Colored Branch of Food Work in Texas, Administrator Peden has taken the first steps toward organizing the colored people of Texas into a definite group as food workers, with their own organization and officers. The colored section is linked with State headquarters in being a department of the Educational Division.

The Colored Section provides for a State Executive Board with headquarters in Houston, and Dr. Howard as chairman and W. L. Davis as secretary; a State Advisory Board consisting of the heads of colored colleges and Fraternal Organizations; and county deputies in all sections of the State where there is a considerable colored population.

**GERMANS RAZED HUNDREDS CHURCHES**

(By Associated Press)  
 PARIS, June 8.—The Bishop of Soissons in describing the havoc wrought in his Bishopric in the recent offensive, said that the Germans had razed hundreds of churches, pillaged and partly demolished hundreds of others. The famous Soissons cathedral suffered severely. The Bishop said that the Germans knew neither faith nor law and were methodically stripping and carrying everything away.

**TAKES OFF DANDRUFF, HAIR STOPS FALLING**

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—the awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and fall—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine on your hair! Try it!

Albert Garrison of Garrison was a pleasant caller at The Sentinel office this afternoon.

Miss Fay Hamilton has gone to Huntsville to attend the summer session of the Sam Houston Normal.

Hon. Chester B. Collins and Prof. Stegall of Lutkin are visiting in the city this afternoon. Prof. Stegall has been elected superintendent of the schools at Garrison and will move to that city soon.

Mr. Adlai T. Mast came in Sunday from Austin, for a little visit to the homefolks, and will probably leave tonight. Mr. Mast passed his examinations in the ground school work at Austin, and now goes to Kelly Field, where he will more actively enter into the real service.

The commissioners' court has been very busy the past day or two sitting as a board of equalization, and many people are calling on the body for an adjustment of the rendition of their property.

Our appreciated friend, Mr. Jno. T. Lucas of Sacul, sends us some clippings which would make interesting reading matter, but the space of the paper must be used for necessary war work and a report of the big news now, which makes it impossible for us to handle many items of this kind which would be entertaining to the readers. The clippings, however, are of a patriotic strain for the most part.

### WOMEN TORTURED.

Suffer terribly with corns because of high heels, but why care now

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of a drug called freezezone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the tender, aching corn or callus. The soreness is relieved at once, and soon the entire corn or callus, root and all, lifts out without one particle of pain.

This freezezone is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue of skin. Tell your wife about this.

### KING WILL ANSWER COLLINS AND O'BRIEN

Beaumont, Tex., June 10.—During the third Liberty loan drive and the great Red Cross drive which followed, my time was taken up in making speeches for these great enterprises, having been selected by those in charge of each drive to aid our country on the platform in these very necessary campaigns for the winning of the war.

Since that time I have been actively engaged in my campaign for congress, making a number of speeches throughout the district. In these speeches I set out a definite platform of principles upon which I am making my race and contented myself with presenting my own views, and with the idea of seeking the office upon my own merits and not upon the demerits of my opponents.

Mr. O'Brien and Mr. Collins, realizing that their respective candidacies were not receiving at the hands of the people much consideration, were not content with a clean, upright campaign, and began vicious attacks upon me in their public utterances. They each made a speech at Nacogdoches, where they assailed me and my candidacy in the bitterest terms.

This is to advise my friends that at a later date I shall speak in Nacogdoches, where I will give due attention to these gentlemen as I feel justified in view of their unprovoked attacks, in exposing them and their ideas in my speeches hereafter.

### SHERIFF LUTHER PRINCE DISARMED PRO-GERMAN

While over in Cushing a day or two ago Sheriff Prince took a gun from the person of a party residing in that town who had become too noted for his disloyalty in the community.

The party had been doing some talking that did not set well with the loyal citizens of that good town, of which they made a complaint, and when the sheriff visited the town they informed him that they believed he was carrying a pistol. The sheriff immediately investigated him and found a small pistol in his front trousers pocket.

The offender plead guilty, paid his fine, and promised better conduct in the future.

### THE DEAD AVIATOR HAS RELATIVES HERE

A few days ago The Sentinel carried an Associated Press dispatch announcing that Lieutenant Travis-Lee Haltom had lost his life in an airplane accident at Lake Charles, La.

Lieutenant Haltom was the youngest son of Mr. and Mrs. Edmund Haltom of San Antonio, and volunteered in the service immediately after the declaration of the war. He received his commission at Kelly Field, and had been flying at various fields in the country. He has two brothers in the service in France, and another in the training camp.

The young man was related to the Haltom family of this county, being a cousin of Mr. Giles M. Haltom and his brothers. His remains were carried back to San Antonio, where he was given a full military funeral with all the honors the government could bestow.

Mr. and Mrs. Wratten, living out several miles in the country, up the Logansport road, brought a basket of very fine peaches to this office Monday afternoon which were enjoyed by the force and greatly appreciated. From this city Mr. and Mrs. Wratten went on to Chireno to visit their daughter, Mrs. Pack, who is reported to be quite ill with typhoid fever.

Whenever you see a bunch of candidates singling out one opponent it is a strong indication that they realize that that opponent is the strongest man with the people, and that they feel it is necessary to make an effort to destroy him.

I have been over the entire district, and the people of this district are with me, and I venture the prophecy here and now that I will poll more votes in the first primary than O'Brien and Collins combined.

### CHILDREN'S DAY PROGRAM FAIRVIEW NEXT SUNDAY

The Sentinel is in receipt of a letter from a citizen of the Fairview community requesting announcement that on account of the rain last Sunday the Children's Day program was postponed until next Sunday, June 16th, to begin at 3:00 o'clock in the afternoon. Everybody invited.

### MARRIED.

At the Redland Hotel this morning at 9 o'clock, Mr. W. B. Irwin of Cushing and Miss Virginia Johnson, of Laneville, were married, before a select number of their relatives and friends.

The groom is a prosperous young business man of Cushing, and the bride is a daughter of W. D. Johnson, a leading citizen of Laneville. The young couple were accompanied by Mr. and Mrs. Irwin, Sr., of Cushing, who is an older brother. They left for Houston and points on the gulf for an extended honeymoon.

Rev. M. C. Johnson performed the ceremony.

Eugene Sanders, who went to Washington, D. C., some days ago to accept a position as stenographer in the government service, writes that he is well pleased with his position and doing nicely. Leo Vaught of Garrison will leave tonight for the same place to accept a similar position. Both these young gentlemen had the offer of positions with better salary, but give preference to the government's call.

### ITEMIZED REPORT OF WAR SAVINGS SOCIETIES

Below is financial statement of the War Savings Societies for May. The figures will speak for themselves, that is, if they are not too weak. It is a long step down from \$73,354.65 in March, our first month to be depended upon to save first and then invest, so has divided the plan whereby we will "promise to pay," and then work and save in order that we may redeem our pledge.

In addition to the cash subscriptions as shown above, about \$10,000 was subscribed in pledges to be paid "on or before" December 31st, 1918, in Nacogdoches alone. We have no record of what other communities have done in pledges.

Twelve societies were organized in May, bringing the total membership to 1706 for Nacogdoches county.

The sales have aggregated in the three months of active work, \$118,486.30.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

GRAMMAR SCHOOL WAR SAVINGS SOCIETIES OF NACOGDOCHES

The Grammar school boys may be too young to join the army or navy. The Grammar school girls may be too young to join the Red Cross call for nurses. But neither the boys nor the girls are too young to help in "carrying on" the war by working and saving and investing.

Therefore, to encourage and foster the spirit of patriotism manifested in the splendid team work they did during the school terms just ended, several committees of generous women have volunteered to give to the grades making the best, second best and third best showing (in attendance, in general interest and in helping to raise the Nacogdoches quota in war stamps) a treat. Just what that treat will be to be determined later.

The Nacogdoches grammar schools are indebted for this stimulus to the following ladies:

For first place: Mrs. Beeman Strong, Mrs. I. L. Sturdevant, Mrs. George Barham.

For second place: Mrs. T. E. Trigg, Mrs. Frank Sharp, Mrs. Roland Jones.

For third place: Mrs. R. P. Locke, Mrs. B. H. Barnett, Mrs. Arthur Marshall.

### YEARS OF TROUBLE ENDED AND SHE HAS GAINED 15 POUNDS

"My Friends Say I'm Looking Years Younger" She Says—Tanlac Brings Relief.

"When I began taking Tanlac I had been down in bed for three months and just think of it, I'm feeling as strong and healthy as I ever felt in my life," said Mrs. Mollie J. Lord, who resides at the East Denver High School, Denver, Colorado, in an interview recently. Mrs. Lord has lived in Denver for the past twenty-five years, her husband has been in charge of the East Denver High School building for twenty-two years and they are highly respected by all who know them.

"Years ago," continued Mrs. Lord, "I had an attack of bronchitis from which I contracted catarrh of the head and stomach. The trouble got a firm grip on me because for a long time I tried to make myself believe I didn't have catarrh, but at last I realized I was in a bad fix. My nose and throat were feverish and the mucous collecting in my throat would nauseate and almost choke me. My stomach got in such a bad condition I couldn't even eat potatoes or toast. In fact, everything would sour almost as soon as I had eaten it and the gas caused such a burning and fluttering around my heart that I was afraid I had heart trouble. Sleep seemed impossible for me. I would toss and roll in bed and have to jump up every little while so I could get my breath. My kidneys worried me constantly and my back hurt me so bad at times it felt like it would break in two."

"I doctored and took everything I heard of but kept getting worse until I just had to give up and go to bed. I never got any better until I began taking Tanlac and it certainly has been a godsend to me. I can tell from the way my clothes fit that I have gained all of fifteen pounds and I have not only gotten entire relief from the catarrh in both my head and stomach, but my kidneys are also in perfect condition and I don't have any more pain in my back. I go to sleep as soon as I get in bed and sleep soundly all night long. My stomach never troubles me now and, oh, it's such a pleasure to be able to eat what I want without suffering afterwards. And since the gas has stopped forming all the burning sensation and palpitation of the heart is gone. My friends say I'm looking years younger and I can certainly endorse Tanlac in the highest terms, and expect to always have it on hand in case I should need it."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.
