PLANS READY FOR BRINGING LABOR ACROSS

THE UNITED STATES EMPLOYMENT BUREAU ANNOUNCES THAT LABORERS FOR AGRICULTURAL PURPOSES MAY BE IMPORTED.

Brownsville, Tex. Complete instructions covering the admission of farm laborers from Mexico have been received by the immigration station and the local office of the United States Employment Service. The employment services will, under the new regulations, import laborers as fast as they can be obtained. For the need of them is pressing. Just now 1,500 cotton choppers are wanted in the Texas cotton fields, and an urgent call has been sent to all employment stations to secure them. When this need is supplied a heavy draft will be made for harvest hands. The rules under which labor may be admitted have been carefully drawn and the interests of the laborers have been carefully guarded. The admissions are only temporary and are for a period not to exceed six months, unless the importer can show a need for the extension of this period and the alien shows a willingness that the period be extended.

Only such aliens may be imported who in all other respects would be admissible under the immigration law, with the exception of the literacy and contract labor features. Aliens must be imported only for the purpose of accepting employment in agricultural pursuits with pre-arrangement for his employment. In other words, the person desiring such labor shall come to or send to the border employment stations to receive such aliens. Before he can secure the importation of such aliens the person desiring to import them must show to the immigration inspector in charge his plans for the employment of such alien, the wages, which shall be the current wages paid for this class of work, nature of work, and housing and sanitary conditions. The employer of such labor shall keep the officer in charge of the port through which it is imported advised of any changes in his plans regarding the employment of the labor, of the leaving of his employ of such laborer, and will furnish all possible assistance to the officers in ascertaining their whereabouts, and whether or not he has entered non-agricultural pursuits.

During the time such contract laborer is employed the employer shall withhold from his wages twenty per cent during the first two months, fifteen per cent during the second two months, and ten per cent during the third two months. These wages shall be deposited to the credit of the alien in a United States postal savings bank with the understanding that the sum will so remain on deposit until the alien is about to leave the United States, whereupon the postal savings certificates shall be converted into a postal money order payable to the alien, such money order to be transmitted by mail to the immigration officer at the port of entry, for redemption into money at the time of the alien's departure. If the alien is continued in the United States after the first six months the wages accumulated during the first six months shall be paid him by redemption of the postal savings certificates with accumulated interest—the arrangements for the withholding of percentages of his wages to be recommended.

Aliens applying for admission under this act, or some one in his behalf, shall furnish two unmounted photographs of the applicant and a complete personal description of such applicant shall be taken.

FOOD ADMINISTRATION HAS NO POWER TO REGULATE PRICES IN EATING PLACES.

The Food Administration announces that it does not favor the general adoption of table d'hôte meals in hotels and restaurants. Neither has the Food Administration attempted to regulate prices charged in hotel dining rooms or other public places—a power not conferred upon it by the Food Control Act. A recent announcement to the effect that the Food Administration would endeavor to curtail hotel menus was construed as meaning that the Food Administration was recommending the abolishment of a la carte meals, and the general establishment of table d'hôte service.

The Food Administration believes that table d'hôte service encourages waste unless very carefully supervised. Its desire to limit the choice of food to be obtained was solely that American eating could be increased.

THE NUMBERS FOR THE NEW REGISTRANTS

Following is the list of the order and serial number of the new registrants. In reading proof we discover that we let our order number slip back 10 from 33, to correct which we would have to set the whole list over, which was discovered too late to permit today. A BUSINESS CHANGE.

Mr. D. E. Hughes, the jeweler who has been located with the Kennedy Drug Store for some time past, has purchased the Post Office Drug Store from the Mast Brothers, and the work of taking stock will be begun Monday, preparatory to the delivery. After taking possession Mr. Hughes will move the stock to the building recently vacated by the Stone Fort Bakery, next door to the Queen Theatre, which is now being overhauled and put in shape for the convenience of this particular enterprise.

Mr. Hughes came to us from Timpan some months ago, and during his residence with us has proven a good business man and a good citizen who will make a good addition to the business circles of the city. He will keep this popular drug store up to the high standard it has maintained in the past, and contemplate some improvements which will be possible with his attractive new location which will doubtless make it a very popular and attractive drug store.

Mr. Adlai Mast, one of the retiring owners of the store, volunteered for service in the war some time ago, and Mr. Henry Mast, the other member of the firm will give his attention to his automobile and tire business. The Post Office Drug Store has been a flourishing business enterprise under the management of these progressive young business men, and the new owner inherits an attractive line of trade, with his purchase, while Mr. Mast Mast will doubtless enjoy an increased volume of business with his new line when he devotes his whole time to it.

Cold Settled In His Back

"Foley Kidney Pills always give me prompt relief."—Ed Velson, Rogers, Neb. "I have used Foley Kidney Pills for backache, the result of catching cold which settled in my back. Foley Kidney Pills always give me prompt relief and I can cheerfully recommend them." The reason Foley Kidney Pills act so satisfactorily is because they neutralize and dissolve the poisonous waste matter that remains in the blood because the kidneys do not do their work properly in filtering and casting out from the system uric acid and other poisons. Relief usually follows in a few days and such symptoms as pain in the sides or back, stiff joints, sore muscles, rheumatism, too frequent action of the bladder at night, and other painful and annoying ailments disappear. Foley Kidney Pills contain no harmful ingredients. They are safe as well as quick acting. Stripling, Hazelwood & Co.

SETS FORTH THE HUN PEACE TERMS

PARIS, July 1.—Count Ruz, a member of the Prussian house of Lords, set forth new German peace terms today, says a Havas dispatch. The terms provide that England turn over its fleet to Germany, restore Egypt and the Suez canal to Turkey. England, France and America must pay Germany a forty-five billion dollar indemnity. Belgium and French territory must be surrendered to Germany.

FRENCH CAPTURE STRONG POINT

PARIS, July 1.—South of the Ourcq, the French last night improved their positions near Dassy En Valois. A German counter attack near Mosloy, on the Marne front failed. Taking the aggressive south of the Aisne, the French captured a German strong point near Cutry, southwest of Soissons, says the official French statement made today.

THE W. S. S. DRIVE GETS GOOD RESULTS

From Saturday's Daily. In the War Savings Drive held over the county yesterday, several of the communities went over the top, others hover around the assessments, while some have not come up to expectations and will be called upon for further effort.

Another feature worthy of note is that several communities were saved by their colored people going over with their part, and the general response of the colored people was good. The managers hope to soon publish the list of the patriots of the county who have done their duty in the matter, and are delaying the matter for a few days to give all a chance so there will be no delinquents listed.

Following is a partial list of the returns so far as reported up to noon today. Several places had no reported, some others did not have all their returns by reason of the colored assessments being handled separately, and only one report being in, but it gives a general idea of the progress that is being made, and gives hope that the county will go over the top when all have done their duty and the official report is made up. The first number listed is the quota, and the second number the amount subscribed:

The Port Arthur Record is alarmed with the way the women are taking matters in hand, and wonders what will come with next Leap year. Let us hope that it will not be a "leap in the dark."

Eugene V. Debs, the great socialist leader, has at last been put in the cooler for his manifest disloyalty. The government has had no worse enemy lately than this man has proven in his open rebellion of every worthy enterprise, and if he doesn't draw a long term in the Federal prison he will not get all that is coming to him.

Some mighty big profiteering has been exposed lately, and it is to be hoped that those thus engaged will be punished in accordance with the enormity of their crimes. While the masses are bending every energy and doing everything in their power to help the government in its hour of trouble, there is no room for the profiteer who would prey upon their patriots in an unsuspecting moment. The slacker is an angel in comparison and the spy is no worse.

The new ruling requiring that all men of military age must pursue some useful occupation which has to do with production is now in force, and is a good measure so far as it goes, but the rule should be applied to all men who are able to work. Many of the states have joined the Federal government, notably among them being New York, requiring that all men from eighteen to fifty must be engaged in some productive occupation, and the idlers, both rich and poor, have been put to work. There is no greater nuisance any time than an idler, who does nothing himself and disturbs others, and the lines should be tightened.

MRS. MURPHEY REMAINS IN SHREVEPORT HOSPITAL

The injuries sustained by Mrs. Murphey in the automobile wreck last week were of such a nature as to prevent her coming home Saturday night, and as a result of same she will not be able to return until the latter part of the week. Mr. Murphey, accompanied by the two little girls, Louise and Elizabeth, came in Saturday night, and the two latter will leave for Nacogdoches to spend such time with their grandmother, Mrs. Doughtie, until the return of their mother, it being the intention of Mr. Murphey to return to Shreveport just as early as possible.—Lufkin News.

A NATIONAL EMERGENCY.

The United States is in Great Need of Walnut Timber—Help Locate It.

We have received an emergency call from the government saying that there was a pressing need of walnut timber to make propeller blades and other things for airplanes and for gunstocks. The task of making a catalogue of all this timber was given to the Boy Scouts. I am taking the liberty of asking all the War Savings Chairmen and Committees to help us. Let all patriotic citizens in the county do the following things: First give the number of trees 12 to 19 inches in diameter, the number of trees 20 to 24 inches in diameter, and the number of trees 24 inches and up that is on your land or the land of people you know. Take the measure of the trees four feet above the ground. Then tell us what school district you live in, your correct Post Office address, and the nearest railroad or tramway shipping point. You can mail this information directly to me, or give it to the chairman or any member of the War Savings committee of your district.

We want every walnut tree above 12 inches in the county listed. Flying squads of the Boy Scouts will start out on next Monday and visit the various school districts, going first to the chairman of the War Savings committee and gather any data that does not reach us by mail. The eastern part of the county will be visited first, then the west. Look out for the Boy Scouts and render them any courtesy or entertainment you can, for they will be in government service and are working without hope of fee or reward except to aid the great cause of liberty.

SAMMIES MAKE GOOD GAINS

CAPTURE MUCH TERRITORY AND MANY PRISONERS.

(By Associated Press) PARIS, July 2.—The village of Vaux, west of Chateau Thierry, and the height west of Vaux, was taken by Americans co-operating with the French on the Marne front. Three hundred Germans, including five officers were captured.

In addition to Vaux, Pershing reports the capture of a large slice of Paris highway and two patches of wood by the Americans. He says the Americans took 275 prisoners, guns and equipment.

In the Vaux region the Americans took the Germans by surprise. Most of the prisoners were taken in cellars and dugouts. How many Germans were killed is unknown, but from those in sight the number is believed to be considerable.

The Americans went over the top at six o'clock yesterday evening under protection of a machine gun barrage. When the Germans saw that a formidable attack was under way the outposts yelled and ran to the rear, American automatics cutting them down.

GASOLINE IS STRICTLY REGULATED

(Correspondence of the Associated Press)

DUBLIN—Gasoline is the most strictly rationed article in Ireland today. The use of automobiles for private purposes is hedged out with the most rigid restrictions, and elderly women are prosecuted if they go shopping in motor cars.

Under these strict regulations regarding the use of gasoline, one of the perpetual mysteries is how the Sinn Feiners are able to get apparently as much as they like without leave or license from the Petrol Commissioners. In a recent raid for arms on a castle in Baronscourt, the Sinn Feiners arrived in twenty motor cars, all abundantly supplied with gasoline. The rural police are constantly reporting the confiscation of gasoline from cars which are being operated without proper permits.

According to insiders in Dublin, this is to be explained by the fact that considerable quantities of gasoline have washed ashore along the Irish coast from torpedoed ships, usually in cans, barrels, or large drums. Legally, all such finds are the property of the State, but the State seldom gets it, for the rewards paid to honest fishermen who turn over such treasure to the government are insignificant, while the fisherman who picks up a drum or two of petrol out of the Atlantic perhaps at some personal risk, can always dispose of his find surreptitiously at a large price.

FRENCH ATTACK IMPROVES LINES

(By Associated Press) PARIS, July 2.—French last night attacked Germans north of Mouslin Sous Troutent, on a front three kilometers long and improved their positions.

West of Chateau Thierry a German attack near Vaux failed, as did German attempts to advance north of Moncel and upper Alsace. Two hundred and twenty Germans were taken prisoners in the Moulin Sous operation.

MURDER WILL OUT

All over this state the political liars are telling the political lie that I used \$5,600 of the state's money with an intention to appropriate the same to my own use and benefit.

The charge grew out of the fact that \$5,600 was erroneously charged to my account as governor in the Temple State Bank, when it should have been charged to my individual account. As shown by the attached affidavit, I knew nothing of the charge for nearly two years afterwards, and the money of which this amount was a part was paid by me to the state from my account at Austin nearly two years before the legislature sought to impeach me upon that ground. This transaction in which neither the state nor anybody else ever lost a cent is being distorted as a matter of cheap politics in an endeavor to make some honest man believe that I had stolen \$5,600 from the state. It now develops that Mr. C. A. Hughes, who was cashier of the bank and was thought not to be my friend on account of his close relationship with those who were conspiring to encompass my defeat, offered to tell the facts in the whole matter to old Crane who was getting the people's money to develop the truth and not to suppress the truth but deliberately suppressed the evidence which clearly showed that I was guilty of no wrong and had committed no wrong. A man who will suppress the truth is just as bad as the man who will prove a lie.

Step by step facts are developing every day to show to what crooked ends and means this crooked crowd at Austin went in their desire to do the bidding of the University aristocrats who want to fasten on the body politic of this country a vicious autocracy. The affidavit of Mr. Hughes herewith attached fully and completely corroborates my statement before the legislature in every instance. Mr. Hughes' affidavit is as follows:

HUGHES' AFFIDAVIT

The State of Texas, County of Bell:

I, C. A. Hughes, being duly sworn upon my oath, depose and say: That until the month of April, 1917, and for eight years prior thereto, I was cashier of the Temple State Bank; that since Jas. E. Ferguson became Governor of Texas he has not held any official position with the Temple State Bank and that during the time Jas. E. Ferguson was Governor of Texas he carried with the Temple State Bank an official account known as the "Jas. E. Ferguson, Governor" account, an individual account and several other accounts connected with his business. That I was the cashier of the Temple State Bank at the time the \$5,600 item was charged to the Jas. E. Ferguson official account. I am entirely familiar with all of the facts and circumstances surrounding and connected with that item. The charge slip was made by me, and is in my handwriting. Mr. J. H. Davis, Jr., the governor's assistant secretary, called me over the phone from Austin, stating to me that the governor owed a note of \$5,000 with accrued interest to the First National Bank of Temple, telling me to pay the same. He gave me no specific instructions as to what charge to make, merely stating to charge it to the governor. I requested the First National Bank over the phone to send the \$5,000 note, which with its accrued interest, amounted to \$5,600 through the bank clearing, which was done. When the item came in through the clearing it was handled by me, personally. I made the charge and erroneously charged the item to the governor's official account instead of charging it as I should have done to the governor's personal account. The mistake was made entirely upon my part, for which I take entire responsibility and now state that neither Governor Ferguson nor his secretary nor anyone for him by writing or verbally ever instructed me to charge said item to his official account as Governor of the State of Texas, and I know that he knew nothing of it and had no knowledge concerning the same at the time the charge was made.

In April, 1917, I was discharged as cashier of the Temple State Bank. I believed I was wrongfully discharged then, and I still believe that I was wrongfully discharged. During the impeachment trial of Governor Ferguson I was summoned as a witness by the prosecution. I went to Austin under process and at General Crane's request submitted to an interview with General Crane as to the facts within my knowledge. In that interview I told General Crane that I did not feel kindly towards Governor Ferguson, but that I would not let my personal feelings, because of the wrongful discharge which I have mentioned above, keep me from telling the truth. I told General Crane in that interview of all the facts substantially as I have stated them in this affidavit. After talking to me about the facts to which I would testify, General Crane told me I might be excused and to go home, which I did.

During the impeachment trial I did not discuss any matters within my knowledge or anything to which I could testify with Governor Ferguson or with his attorneys.

I make this statement freely and voluntarily because it is true and because I feel in my own heart and conscience that the people ought to know the truth about this transaction; and since the facts are peculiarly and wholly within my knowledge, I feel it my duty that I should state the facts. I, myself, having been wrongfully charged, I think I know how the full effect and injustice of a suppression of the truth or the failure of those who know the truth to speak it.

Subscribed and sworn to before me this 29th day of June, A. D. 1918.

(SEAL) E. H. SWINK,

Notary Public in and for Bell County, Texas.

If Mr. Hughes was a good enough witness to be summoned by the impeachment crowd last year, they certainly cannot complain when he now tells the facts, unsolicited, but in order that justice may be done.

PRESIDENT WILSON'S LETTERS AND TELEGRAMS PROVE THAT FERGUSON GAVE LOYAL AID
While charges are being made that Governor Ferguson was disloyal and antagonistic to the selective draft proposed for raising an army, it is well to consult the correspondence, by wire and mail, that passed between President Wilson and Governor Ferguson at the identical time that he is alleged to have been disloyal. Here is the record of letters and telegrams and they tell their own story:

(Copy)
Austin, Texas, March 29, 1917.

Dear Mr. Wilson:
Permit me, in this hour when grave responsibilities are resting upon you, to reaffirm my confidence in your wisdom and patriotism; and to say to you with all seriousness that the people of Texas stand ready to the last man to aid you in carrying out your plans and purposes for the protection of the honor of the nation.

Hon. James E. Ferguson, Governor,

(Telegram)
Austin, Texas, April 14, 1917.

President Woodrow Wilson,
Washington, D. C.

Have just extended conference with General Pershing. In order that I may not be misunderstood, I desire to say that my position is that conscription is not necessary so was Texas is concerned and that if our men are commanded and officered by Texas officers they will rally to the colors without any conscription and will fight as long as the war continues.

While this is still my view, I fully realize that this is no time for continued arguments and I desire to earnestly assure you that I am ready and anxious to have heretofore been, to aid you in every way possible to secure the adoption of any plan which you may think best for the protection of the country. Command me same date that President Wilson delivered his message to congress asking them to declare that a state of war existed with Germany.)

My dear Governor Ferguson:

I thank you from my heart for the generous assurance which you give me in your letter of the 29th of March. Such messages do much to help and sustain me.

Cordially and sincerely yours,
WOODROW WILSON

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.

BLACKLIST SHATTERS GERMAN PLANS

(By Associated Press)

CHIHUAHUA CITY, Mexico, July 1.—The American blacklist has shattered one of the German plans for the commercial conquest of Mexico. Before the United States entered the war and prior to the last Mexican revolution German business organizations scattered throughout northern Mexico gave evidence of the German intention to exploit the Mexican markets.

One German wholesale hardware firm started to establish branches throughout the state more than 40 years ago, and at the outbreak of the revolutions, had branches in operation in Jaurez, Casas Grandes, Santa Rosalia, Ojinaga and other places with a parent store here.

While these houses were conducted on business lines, it is considered here as a significant fact that all the German consuls and vice consuls for this part of Mexico were appointed from among the managers and assistant managers of this concern. In Jaurez, Casas Grandes and Santa Rosalia the branch managers were also German vice consuls, the consul in Chihuahua City also being one of the managers of the parent store here. The vice consul in Jaurez was decorated by the German Emperor for services rendered Germany on the border.

When the revolutions started these German stores were the first to suffer because they were well stocked with wagons, harness and other supplies needed by the revolutionists. The Jaurez and Casas Grandes branches were looted and burned and now only the parent store here remains in business.

What the revolutionists failed to do to wreck these German stores the American blacklist completed at the beginning of America's war against Germany. Now it is almost impossible for the German firms to obtain supplies and Mexican buyers fear to buy from the blacklisted firms for fear of being placed on this blacklist and denied the privilege of importing from the United States.

MRS. COKE MURPHEY IN AN AUTO ACCIDENT

While returning from a visit to the lady's brother in Monroe, La., last Friday, Mr. Coke Murphey and family were caught in an automobile accident ten miles south of Shreveport in which Mrs. Murphey received some very severe injuries, and had to be carried back to a hospital at Shreveport for treatment.

The accident was caused by a collision with another car, and in the crash Mrs. Murphey was thrown through the windshield, suffering a broken nose, injury to her jaw and other injuries which are very painful and serious.

As is known to many of our people, Mrs. Murphey is a daughter of Capt. and Mrs. Jno. S. Doughtie of this city, and has a great host of friends here who deeply sympathize with her in her misfortune and join in the hope that she may have a speedy recovery from her injury.

I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."

WATCH OUT FOR IT!

DALLAS, June 27.—Watch with suspicion for lack ribbons with narrow white edges for watch fobs, lockets or other similar article of jewelry. It is the warning issued by the bureau of jewelry fashions, New York, in a bulletin. "The Iron Cross is always hung on a ribbon of this kind," says the bulletin, "and to anyone in France or England wearing of this ribbon with watch, locket, etc., signifies German sympathy. This fact has just been called to the attention of New York brokers and every effort is being made to give the matter publicity. A black ribbon with a narrow white edge is significant of German propaganda."

Investigation among Dallas wholesale and retail jewelers indicates that no such ribbons have so far appeared in this section of Texas.

THANKS OF THE W. S. S. COMMITTEE

The chairmen and members of the Nacogdoches County War Savings Committee desire to return sincere thanks to all loyal citizens who helped in the nation-wide campaign on June 28. In such work where thousands of names are invoiced and hundreds of workers are enlisted, it is very hard to particularize. In every community where the government instructions were followed by the school district committees the quotas were raised with cheerfulness and dispatch. A few districts only owe it to themselves to do the work over, because no loyal community can afford to go on record as failing in such a cause.

We wish especially to thank the patriotic bankers, business and professional men who at great sacrifice of time, money and work helped us for days and even weeks. In the name of Nacogdoches County boys at the front of the government and county committee we thank you one and all.

I am Sincere! Stop Calomel! I Guarantee Dodson's Liver Tone

Listen to me! Calomel sickens and you may lose a day's work. If bilious, constipated or headachy read my guarantee.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle

costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe all the next day like violent calomel.

W. H. Hill, J. P., Detroit, Tex., writes: "I used Foley Kidney Pills and say unhesitatingly that of all I have used they are the best, and have done the work where the rest failed." Backache, rheumatic pains, sore muscles, stiff joints and too frequent bladder action are symptoms of kidney trouble.

SCOTT & BOWNE
BLOOMFIELD, N. J.

IRELAND IS NOW PRO GERMAN NATION

DUBLIN, June 28.—"Ireland is not pro-German," declare all the Irish leaders, but there is a considerable element in Dublin, Cork, and other Irish cities, that is ready to cry "Up the Hun" at every opportunity.

During the week following the arrest of De Valera and the other Sinn Fein leaders, the strains of "Watch on the Rhine" were frequently heard on Dublin streets, sung by small crowds of Sinn Fein sympathizers. It has been frequently recorded that Irish hoodlums at the moving picture-theatres have hissed pictures of British and American soldiers and sailors, and a letter in a Dublin newspaper recently stated that a moving picture audience cheered a picture of the medal cast by the Germans to commemorate the sinking of the Lusitania.

One of the most remarkable scenes which The Associated Press correspondent witnessed in Dublin was the enthusiastic offering of a ship-load of German interned prisoners, who were being taken from a camp in Ireland to a camp on the Isle of Man. A crowd of several hundred persons, mostly wearing Sinn Fein colors and waving Sinn Fein flags, stood on the quay and sang the Sinn Fein "Soldiers' Song" to the departing prisoners. Many of the members of the crowd were relatives by marriage of the interned aliens.

The train with the German and Austrian travellers arrived in the station across the road from the river, and was cheered by the crowd outside the gates. Handkerchiefs were waved by the women, and the prisoners waved back out of the train windows.

Sinn Fein scarfs and ribbons were worn by most of the women in the crowd. A similar crowd quickly collected on the south bank across the river, where the men and women sang over and over the Sinn Fein song, and cheered themselves hoarse as the deportees were brought onto the decks of the steamer.

Then suddenly the strains of a brass band, playing a medley of German airs, floated out on the water. It was the alien camp band in action. As they played, the boat started, cheers were raised again, the steamer gained headway, the cheering died down and the crowds began to disperse.

CLOSE BOOKS TODAY FOR FIRST WAR YEAR

WASHINGTON, June 29.—The government today closed the books for the first fiscal year of war. The expenditures reach a total amount undreamed of a decade ago. The actual outlay was more than \$12,600,000,000.

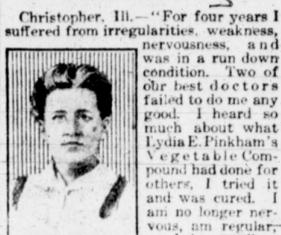

In peace times the government spent less than a billion annually. War activity is now draining the treasury at a rate of about \$50,000,000.00 a day.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

MANY INDUSTRIES ARE PROFITEERING

WASHINGTON, June 29.—A careful investigation by the Federal trade commission leads to the conclusion that profiteering exists with American industries at the present time. According to the report today this is due "partly to war pressure for heavy production, partly for 'ordinate greed and barefaced fraud.'" The report finds "heavy profit by low cost concerns under the government fixed price for the whole country."

The second heavy profit is made by meat packers, allied industries and flour millers. "Third, the trade tendency to increase and maintain prices against cost competition."

The report says "the average profit under government fixed price for one mill for six months shows two dollars a barrel." The report named five big meat packers and says they preyed upon the people unconscionably during the last three years.

It says enormous profits were made by the oil and gasoline industry, due to spreading false reports regarding supplies. Steel concerns, also made unusual profits.

Abnormal salaries are also paid executive officers of many concerns.

RUMANIA IS BARREN COUNTRY TODAY

(By The Associated Press Correspondent from Jassy)

LONDON.—Rumania is a desolate and barren country today—an awful object lesson of the cost of war. Two years ago it was one of the garden countries of the world; teeming with agricultural wealth and prosperity. More than 750,000 Russian soldiers lived in it and on it for nearly a year, and they left very little behind them.

Anyone who has known Rumania as she was when peace was forced upon her by the Central Powers, must be convinced that it will be years before Germany can draw from her fields and orchards any very valuable tribute.

Nor is the German control of Rumania's petroleum production likely to be a very profitable investment for some time. In the so-called "occupied territories," the destruction of the oil fields was so complete that Germany after fifteen months of effort, is able to measure her supplies from this source in quarts.

In the rest of Rumania, it is doubtful if production can be much increased beyond that of the past year, and during the past year petroleum has been one of the scarcest articles in the country, obtainable only under personal and special license from the government.

During the middle of the winter, The Associated Press correspondent made a tour of inspection around perhaps a score of the frontier towns where the largest proportion of refugee population had been dumped in the hurried retreat before the German hosts. Conditions were serious beyond description, but the major part of the suffering was due to famine rather than exposure.

The shortage of food was such that in many instances refugees were seen in the fields eating—or attempting to eat—grass.

Terrible as was the plight of the people of these refugee districts in war time, they can hope for little alleviation with the coming of a forced peace. Practically no harvests can be expected this year in these districts, for no seed will be available, and moreover, there are no agricultural implements left, nor any horses or draft animals of any kind. Thousands of Rumanian horses died of starvation during the winter, for the peasants were too exhausted in caring for their own needs to make any attempt to provide for their beasts.

In France the horses would have been put to good use as meat for human food, but the Rumanian peasant has an abhorrence of horse flesh as meat.

Mr. J. D. Gaston has received a card from his son, Albert Gaston, stating that he had landed in France. He left Nacogdoches last April.

AMERICAN SAILORS ARE PICKED UP

(By Associated Press)

HALIFAX, June 28.—A boat load of American sailors from a vessel sunk by a submarine landed by a fishing vessel near here today. The men were picked up in the gulf of St. Lawrence. They have been drifting eight days. The men, numbering 24, were from the steamer Dwinsk, sunk June 18th.

WED THIS MORNING.

Mr. G. W. Lyles, a well known insurance man, working with the credit and loan department of the Southland Insurance Co., and in which capacity he has spent a good portion of his time in this city for the past several months, and Mrs. Lora Kelley were married at the home of the bride's mother, Mrs. Kelly, on Church street this morning. Rev. C. A. Westmore officiating.

Immediately after the ceremony the happy couple left for Lufkin in an auto at which place they will take the train and go on to Houston for a little wedding trip.

The bride is one of Nacogdoches' fairest and most useful daughters. She is a young woman of natural beauty and grace possessing all the sweet traits of character that go to make up the most lovable type of Southern womanhood, and added to these virtues she is a good business woman, and was very popular with her associates, and the trade of the store, Mayer & Schmidt, where she has been employed the past several years.

During his sojourn with us Mr. Lyles has proved himself a worthy young gentleman, as well as a good business man, and has won a number of friends who joins the many friends of his bride in good congratulations and good wishes.

THE "YELLOW PERIL" IS EVIDENT IN PERU

(By Associated Press)
LIMA, Peru, June 29.—The newspapers of Peru are much concerned with the rapid increase of what they call "the peligro amarillo" or yellow peril in Peru.

It is said that in Peru today there are no less than 300,000 Peruvians who have Chinese and Japanese blood in their veins to such an extent that the Oriental characteristics are prominent in their features and many Peruvian girls attempt to hide this trait by wearing dark glasses.

Formerly the Chinese exclusively overran the country, but during the last few years the Japanese have been arriving in numbers that alarm Peruvians.

The newspapers point out what they describe as a dangerous situation arising from the Asiatics forcing the native Peruvian out of almost every trade, by working much cheaper than the Peruvians.

The Japanese own and operate the majority of barber shops, the Peruvian carpenter has given way to Japanese, and Japanese servants are rapidly replacing the diligent Andine servants. Dr. Parlo, the president of the republic, has thirty Japanese servants in his mansion, a fact that has been much commented upon in recent newspapers.

The Japanese also have forced the native workers out of the small trades and minor industries, such as laundries, dairies, tin shops, news stands, messenger services, mall cafe, etc.

El Tiempo of Lima is one of several newspapers which have opened their columns for discussion as to how the Peruvian laborers can be protected against this invasion, in view of the fact that the invaders appear to be perfectly contented to work just as hard as the native for half his wages.

WAR SAVERS, ATTENTION.

The War Savings Committee is getting ready to tabulate and list the pledge cards signed up on June 28th. This, preparatory to sending the original cards to Washington in accordance with the plan of the Treasury Department.

There are some, both in Nacogdoches proper and in the county who have not signed up these pledge cards. There are others, no doubt a large number, who own war savings stamps purchased prior to the 28th, and who also had pledged on the old form prior to that date, who have not filled out and signed up on the new pledge cards.

To both, we make the request that you come to the War Savings office in the Federal building AT ONCE and fill out the new pledge cards. This is IMPORTANT in justice to YOURSELVES, as well as to the cause, and we urge you to do this without delay, as we shall begin the work of tabulating and listing immediately.

M. C. JOHNSON, Secretary,
War Savings Committee.

NEW SUGAR RULING.

On account of the unexpected serious shortage, by reason of many sugar factories in France being destroyed in the recent German drive, direct losses through submarines, and shortage of crops, it is now necessary to put all public eating places, manufacturers of bakery products, and wholesale and retail dealers, handling sugar, on a certificate basis, and it will be necessary for all those mentioned above to obtain from the Houston office, certificates before they will be permitted to purchase sugar.

These certificates will only be issued upon receipt of sworn statements, blank forms for which will be furnished by the administration.

Public eating places includes places serving regularly ten persons or more, regularly, known as a hotel, boarding house, etc.

The statement must reach the Houston office before July 15th.

R. B. WALTHALL,
Nacogdoches County Food Administrator.

WAR SAVINGS NOTICE.

All the citizens of the city of Nacogdoches are hereby notified that the process of checking up the "Pledge Cards" for War Savings securities is now going on. The city is about \$15,000 short of its quota. There are enough people who have not subscribed, and many who have undersubscribed and are abundantly able to take more, to more than make up this deficit. If circumstances demand and the County Committee so orders, the delinquent list will be published. We are asking the patriotic people to help us secure these pledges and additional subscriptions and thus save the good name of the city.

M. C. JOHNSON, Secretary.

SUGAR PRICES.

The Houston Chronicle makes the following report on the prices of sugar:

Retailers who have been charging 10 cents a pound flat for sugar are risking punishment for profiteering, according to an announcement of the federal food administration for Texas.

Reports are coming from over the state to the effect that many retailers are ignoring the fact that sugar profit is limited to 1 cent a pound. In Houston, for instance sugar is selling bulk to the retailer at .0799 a pound, which allows the prescribed profit for the wholesaler. The retail price at no store should be more than 9 cents a pound, and it can be sold on a cash and carry basis as low as 8 1/2 cents a pound.

Instead of paying 20 cents for two pounds of sugar no housewife should pay more than 18 cents; while if trading on a cash and carry basis she should be able to buy her sugar at two pounds for 17 cents.

WILL PRESENT MINISTER WITH FORD AUTOMOBILE

The people of the Libert community, among whom he lives and where he is loved for his sterling worth, assisted by friends of Nacogdoches, will present Rev. G. W. C. Self with a brand new Ford automobile this afternoon—and no present will ever more worthily bestowed, or will be more highly appreciated.

Bro. Self is a poor man in this world's goods because he has given his time and talents almost solely to dependent loved ones and his country. As a minister he has labored faithfully and zealously for the spread of the gospel, and as a neighbor and friend he is ready for any service he can perform. In a recent issue of the paper The Sentinel took occasion to pay tribute to the worth of this good man and an extended comment at this time would be a repetition close enough to transgress the bounds of propriety. Suffice it to say that we rejoice with him in the recognition he is receiving from appreciative friends, and as he journeys over the country in the discharge of his ministerial duty may he understand that this is but a faint expression of the great love and respect the people who know him entertain for him.

Link Summers, who has been stationed at the training camp at Fort Worth the past several months, came in last night to enjoy a few days furlough with the homefolks. Mr. Summers is among the young business men of Nacogdoches who left business, loved ones and everything to answer the call of his country; and no further proof is needed of his sterling patriotism—the kind that makes our country secure and glorious.

Mrs. Allie Smith and Mrs. Mattie Teutsch were among the children visitors to the city this morning coming over to register and do some shopping.

AUTOMOBILE GARAGES HAVE CONSOLIDATED

Baxter Garage and Nacogdoches Garage Combine Capital For Greater Business

The Nacogdoches Garage Co., and the Baxter Garage, both large automobile enterprises individually, have consolidated under one management, and the new firm will be known as the Baxter Motor Supply Co.

The new company retains both buildings and lots, giving them over 5,000 feet of floor space. In addition to this they have some large lots in the rear which are convenient for parking purposes. On the front one opens on the court house plaza and the other opens on North street, both having attractive frontage and of easy access to all parts of the city.

The firm of J. H. Garrison & Son, well known capitalists and progressive business men of Garrison, have purchased a large block of the stock and will be associated with the business. Mr. O. F. Baxter, the former manager of the Baxter Garage, will have the business management of the new concern, and Mr. C. A. Miller, the well known automobile mechanic, will have charge of the mechanical end. The firm will handle Overland, Oakland, Nash, and Chevrolet automobiles, and Republic trucks and will possibly carry the largest supply of accessories for the different makes of automobiles to be found in East Texas.

DESERVES A GOLD MEDAL FOR THIS

Cincinnati authority tells how to dry up any corn or callus so it lifts right off.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this

DANGER IN THE TRENCHES

American Boys Bravely Uphold National Honor in France

The American Expeditionary forces in France meet death face to face every day in war fare and yet it is reported that only 5 per cent are actually killed each year in battle. Death by illness of different kinds takes as severe a toll as bullet; although the death rate in the army is no higher per thousand than in civilian life. Thousands die each year in the United States that could be relieved if properly treated. For instance kidney trouble and Bright's Disease demand a heavy toll. Here, however, is an example of how one man was saved from kidney trouble.

This is what Mr. G. C. Anthony of Shreveport, says:

"I was troubled like hundreds of others with kidney trouble, but apparently could obtain no relief. After suffering for four years I took four bottles of Hobo Kidney and Bladder Remedy, which entirely relieved me of any trouble of that nature. I unhesitatingly recommend it to any one who is similarly affected, thinking it will also do for them what it did for me—IT SAVED MY LIFE—this was in 1912 and I am still well on this 3rd day of May, 1918. Col. W. Y. Garrison was among the Garrison visitors to the city yesterday coming down to assist with the reorganization of the consolidation of the garages reported elsewhere intoday's paper, and in which he has taken a large stock. Mr. Garrison is a very progressive business man and his connection with the enterprise will add his well known "push" and financial strength and insure that it will become a great concern for the city.

CAN'T DO THE WORK.

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

Mrs. H. M. Reid, 412 S. North St., Nacogdoches, says: "I recommended Doan's Kidney Pills before and am pleased to again say a good word for them. Backache hindered me at my work and the pain was so intense it kept me awake at night. My kidneys acted irregularly, too. I tried many medicine but got no relief until I took Doan's Kidney pills, procured at Mast's Drug store. They gave me the desired results."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Reid had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

GIRLS YOU CAN AFFORD

From \$125 to \$150 pays for a complete life scholarship, including books and board, in bookkeeping, shorthand, telegraphy or business administration and finance in our school. When one or more of these courses is finished, we will place you in a position where your first two months salary will reimburse you for all necessary expense of the course. Earn \$3.00 where before you could earn \$1.00; you will admit that if you had to borrow every cent of the money it was the best investment you ever made.

Traffic is unusually heavy on all railroads, which means additional help in all departments. All the railroads, as well as the U. S. government, is urging young men and women to learn Telegraphy. They are calling on us daily. We are unable to fill them owing to the great demand for help.

With the famous Byrne Shorthand and practical bookkeeping, and our practical way of teaching telegraphy and railway station work, we give the student a more thorough training, in half the time and at half the usual cost of a course in other schools teaching other systems. This is conclusively proven by the endorsements in our catalogue from those who have attended other schools and studied other systems. We conclusively prove every statement we make, and that is why we have the largest business training school in America. Our catalogue is free for asking, and it will give any parent or young person just the information they desire in helping them to make up their mind as to the school to patronize, the course to take, the cost, the increased earning capacity, etc.
