## Annual Report of Secretary-Treasurer

REPORT CONSTITUTES FINANCIAL ACCOUNTING OF HIS STEWARDSHIP.

(By Associated Press.)

WASHINGTON, Dec. 4.—

The financial history of America's part in the war is set forth by Secretary McAdoo in his annual report drafted before his resignation, and made public today by the Treasury. It is the history of how the American people aid billions in taxes, raised four great liberty loans and created a tremendous pool of credit with which the Treasury through its many war agencies paid the bills of the army and navy, the shipping board and other government departments, loaned billions to the allies and millions to war industries, helped support the families of soldiers and sailors and aided farmers over periods of financial stringency.

"The payment into the treasury of vast sums in war taxes and from bond sales," said Secretary McAdoo, "and the transformation of our varied and complex economic life to the supreme task of winning the war have been accomplished without shock or financial disturbance. strong. The results of the four liberty loans are a tribute to the patriotism of the American people and to the economic strength of the nation."

The report constitutes Secretary McAdoo's final accounting of his stewardship before retiring as the nation's finance minister. Throughout the report, Mr. McAdoo refers repeatedly to the remarkable achievements of America's civilian population in providing the money and materials for war, and acting as the "eager second line of defense."

Commenting on the showing of financial arrangements in great detail by the document, treasury librarians recalled that the financial history of the civil war is buried in a great stack of musty ledgers, and probably never will be officially compiled.

For the fifteen months ending last June 30, Secretary McAdoo estimated that the actual cost of the war, with allowances for the governments ordinary expenditures in ordinary times, amounted to \$13,222,000,000.

Out of respect to Chandler McLain, a former student of the school, the students of Walden's Business College will attend the funeral of Mr. McLain this afternoon.

MUST INCREASE FOOD EXPORTS

America Called on by End of War to Supply Added Millions.

ECONOMY STILL NEEDED.

Over Three Times Pre-War Shipments Required—Situation in Wheat and Fats Proves Government's Policy Sound.

With the guns in Europe silenced, we have now to consider a new world food situation. For there can be no hope that the volume of our exports can be lightened to the slightest degree with the cessation of hostilities.

With food the United States made it possible for the forces of democracy to hold out to victory. To insure democracy in the world, we must continue to live simply in order that we may supply these liberated nations of Europe with food.

Last year we sent 11,820,000 tons of food to Europe. For the present year with only the European Allies to feed, we had originally planned ourselves to a program that would have increased our exports to 17,000,000 tons.

At this moment Germany has not alone suffered the loss of her resources from these years of hostilities, she has left behind her a total wreckage of social institutions, and a mass of people is now confronted with absolute anarchy.

If we value our own safety and the social organization of the world, if we value the preservation of civilization itself, we cannot permit growth of this cancer in the world's vitals.

Famine is the mother of anarchy. From the inability of governments to secure food for their people grows revolution and chaos. From an ability to supply their people grows stability of government and the defeat of anarchy.

Washington, D. C.—With the subsidence of the epidemic of influenza the attention of health officers is directed to pneumonia, bronchitis and other diseases of the respiratory system which regularly cause a large number of deaths, especially during the winter season.

"The present epidemic," said Surgeon General Blue, "has taught by bitter experience how readily a condition beginning apparently as a slight cold may go on to pneumonia and death. Although the worst of the epidemic is over, there will continue to be a large number of scattered cases, many of them mild and unrecognized, which will be danger spots to be guarded against."

SUGAR RESTRICTIONS REMOVED.

To the public:

Owing to the congestion of sugar in the beet producing and the Louisiana cane producing districts it is necessary to relieve this situation in every way possible. Therefore, effective December 1st, the certificate plan in the distribution of sugar, governing manufacturers and dealers, is rescinded and they will be permitted to buy sugar according to their requirements and demands without restrictions.

It is no longer necessary for retail merchants to keep a record of their sugar sales, and they may sell to the consumer in reasonable quantities and no definite amount is named.

While restriction are entirely removed, with reference to the distribution of sugar, the consumers are requested, by the United States Food Administration, to bear in mind the necessity for conservation in sugar and all other food products. Public eating places should also bear this in mind and not permit extravagant use of sugar or any other food commodities.

Yours very truly, W. S. DAVIS, Nacogdoches County Food Administrator.

**An International Service Built on Tiny Profits Per Pound**

Some industries have been able to get in step with war demands more quickly than others.

In many cases mighty plants have sprung up—but at a prodigious cost.

The packing industry was able to adapt itself to unheard of demands more quickly, perhaps, than any other industry. And this was because the vast equipment of packing plants, refrigerator cars, branch houses, etc., had been gradually developed to its present state of efficiency, so that in the crucial hour it became a mighty international system for war service.

And how had this development taken place?

Not by making vast inroads into the capital wealth of the country, but largely by using, from year to year, a portion of the profits, to provide for expansion.

Swift & Company's profits have always been so tiny, compared with sales, that they have had practically no effect on the price of meat (amounting to only a fraction of a cent per pound).

And yet the owners of the business have been content with reasonable returns on their capital, and have been able, year after year, to put part of the profits back into the business to provide for its expansion.

These fractions of tiny profits have been repaid to the public many fold in the form of better service, and better and cheaper meat, and made it possible for Swift & Company to meet, undaunted, the sudden cry for meat for overseas.

Could any other method of financing a vital industry involve less hardship to the people of the country? Could there be a better instance of true "profit-sharing" than this return in added usefulness and in national preparedness?

Swift & Company, U. S. A.

## PROVED SPIRIT OF DEMOCRACY

Voluntary Basis of Food Saving  
Showed Heart of America  
Beat True for Freedom.

To the voluntary service and sacrifice of the American people must be attributed the continued health, strength and morale of the Allied armies and the civil populace.

Upon this spirit of service and sacrifice will depend Europe's fate in the months to come. In the past year we have carried out an export program, the magnitude of which is almost beyond comprehension. But with the new demands that have come, with the liberation of nations freed from German oppression, our exports must be almost doubled. Instead of 11,820,000 tons, we must ship twenty million tons of food to Europe in the coming year—as much as can be pushed through our ports.

If the Allies had not been fed by America, it would have been impossible for them to maintain their defense against Germany.

Meeting this world need on a purely voluntary basis, the American people have conclusively proved that democracy is a success and that in time of need it will rise to its own defense.

If there were no other accomplishment to its credit the very fact that it has shown the strength of democracy has in itself more than justified the existence of the Food Administration in the eyes of the world.

Less than four months after the United States declared war the United States Food Administrator expressed his determination to meet America's food problem on a basis of voluntary action and re-iterated his confidence that awakened democracy would prove irresistible.

"Many thinking Americans," said Mr. Hoover, "and the whole world have been watching anxiously the last four months in the fear that democratic America could not organize to meet autocratic Germany. Germany has been confident that it could not be done. Contrary proof is immediately at our door, and our people have already demonstrated their ability to mobilize, organize, endure and prepare voluntarily and efficiently in many directions and upon the mere word of inspiration aside from the remarkable assemblage of our Army and finances."

## KEPT PLEDGE TO SEND BREAD

American Nation Maintained Allied Loaf Through Self-Denial at Home Table.

## AVERTED EUROPEAN DESPAIR

Since the advent of the latest wheat crop the only limitation upon American exports to Europe has been the shortage of shipping. Between July 1 and October 10 we shipped 65,000,000 bushels. If this rate should continue until the end of the fiscal year we will have furnished the Allies with more than 237,500,000 bushels of wheat and flour in terms of wheat.

The result of increased production and conservation efforts in the United States has been that with the cessation of hostilities we are able to return to a normal wheat diet. Supplies that have accumulated in Australia, Argentina and other hitherto inaccessible markets may be tapped by ships released from transport service, and European demand for American wheat probably will not exceed our normal surplus. There is wheat enough available to have a white loaf at the common table.

But last year the rate was different. Only by the greatest possible saving and sacrifice were we able to keep a steady stream of wheat and flour moving across the sea. We found our selves at the beginning of the harvest with an unusually short crop. From the east of us, the statisticians reported that we had a bare surplus of 200,000 bushels. And yet European demand for bread was by far the most important article in the diet.

All of this surplus had left the country early in the fall. By the first of the year we had managed to ship a little more than 50,000,000 bushels by prioritizing the utmost economy at home—by wheatless days, wheatless meals, heavy substitution of other cereals and by sacrifice at almost every meal throughout the country.

In January the late Lord Rhonda, then British Food Controller, called that only if we sent an additional 75,000,000 bushels before July 1 could he take the responsibility of assuring his people that they would be fed.

The response of the American people was 85,000,000 bushels safely delivered overseas between January 1 and July 1. Out of a harvest which gave us only 20,000,000 bushels surplus we actually shipped 141,000,000 bushels.

Thus did America fulfill her pledge that the Allied bread rations could be maintained, and already the American people are demonstrating that, with an awakened war conscience, last year's figures will be bettered.

## "FATS AND STILL MORE FATS" IS SAVING PLAN OF THE FOOD ADMINISTRATORS AND PUBLIC

Fats of all kinds and all descriptions take the limelight in the conservation of foodstuffs under the direction of the U. S. Food Administration. Prior to his return to Texas Mr. Peden was told by Mr. Hoover that "butter and condensed milk are also two of our greatest world needs now."

Winter, and especially the bleak winters of mountainous and central Europe, makes great to keep the bodies of human beings in health. Europe has a dearth of all foodstuffs. Chilly and cold days may only be "discounted" by the body fuel of fats, and the goal of the Food Administration is to send sufficient fats abroad so that there will be a minimum of deaths from a lack of it.

With this especially in mind, and with a view to securing the minutest control of all fats and oils which enter into human diet, the president's proclamation of November 2 extends the power of the Food Administration over all persons, firms, corporations and associations not already so licensed, engaged in the business of importing, manufacturing or distributing:

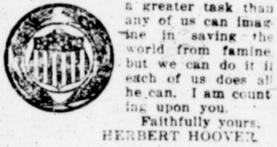

- Chinese vegetable tallow
- Cocunut tallow
- Cocunut olein
- Cod oil
- Coburne oil
- Fish and marine animal oils
- Lard oil
- Lard stearine
- Linseed oil
- Mustard seed oil
- Mutton tallow
- Neatsfoot oil
- Neutral lard
- Stearine
- Stock
- Sunflower seed oil
- Sesame oil
- Shea nut oil
- Sunflower seed oil
- Tallow

And all other animal or vegetable fats and oils, including hydrogenated fats or oils, which are in whole or part edible, or which may be made edible.

## IF EACH OF US DOES ALL HE CAN, TO THE GIRLS AND BOYS OF AMERICA:

Now that the terrible war is over you must be glad that you helped to win it by saving food for our soldiers and our unhappy friends across the sea. But our work of feeding hungry people is now to be greater than it has ever been. Many millions of people have been made free by our victory, but they are in the greatest danger of death from starvation. They look to America for food until the next harvest.

We must go on saving and sharing with them as faithfully as ever. And of course you will want to do your part as you have been doing. We have a greater task than any of us can imagine in saving the world from famine, but we can do it if each of us does all he can. I am counting upon you.

Faithfully yours,  
HERBERT HOOVER

## SAVE 16,000,000 BUSHELS OF WHEAT THAT FORMERLY WAS LOST IN THRESHING

Farmers, Urged by Food Administration, Provide Seven Extra Loaves of Bread for Every American.

By adopting cleaner threshing methods and by literally combing harvest fields to gather grain formerly wasted, threshermen and farmers of the United States this year saved fully 16,000,000 bushels of wheat, estimated as equivalent to about seven one-pound loaves of bread for every person in the country. This result, accompanied by corresponding savings of barley, oats, rye and other grains, is shown by reports from 33 grain states to the U. S. Food Administration. Other states, although not prepared to furnish definite figures of conservation in the grain fields, report greatly reduced harvest losses.

This rural food saving achievement, accomplished in scarcely six months time, was in direct response to requests by the Food Administration, which asked farmers and threshermen to reduce harvest losses from about 34 per cent.—the estimated average in normal times—to the lowest possible minimum. Country grain threshing committees carried into every grain growing community the official recommendations for accomplishing the results desired.

In numerous instances drivers of ricks with leaky bottoms were sent from the fields to repair their equipment and frequently had order threshing machines were stopped until the cause of waste was removed. But in proportion to the number of persons engaged in gathering the nation's grain crop, cases of compulsion were comparatively rare. The Food Administration freely attributes the success of the grain threshing campaign to patriotic service by farmers, threshermen and their crews. Incidentally grain growers of the United States are many millions of dollars "in pocket" as a result of the grain saved.

## NO ONE SUFFERED HERE.

The marvel of our voluntary food-saving, now that we are "getting results," is that no one ever actually suffered any hardship from it; that we all are better in health and spirit and better satisfied with ourselves because of our friendly self-denial.

Food control in America held the price of breadstuffs steady, prevented vicious speculation and extortion and preserved tranquillity at home.

In no other nation is there so willing a sense of voluntary self-sacrifice as in America—that was shown in the abstinence from wheat.

SINGULAR LIGHT THROWN ON PROPOSAL TO INVESTIGATE WAR ORIGIN.

PARIS, Dec. 3.—The German foreign office was destroyed by fire, and all damaging documents in the archives of the German government at Brussels, and all documents in Berlin which might be useful in placing the responsibility of the war on the German government, were destroyed.

Herr Melkenbuhr, a former socialist member of the Reichstag, made the above statement in a speech at Berlin.

The revelation of Melkenbuhr throws a singular light on the proposal of Dr. Solf to have a neutral commission inquire into the origin of the war.

## SEARGENT "CLIFF" DIGS DEEP DOWN

RETURNED VETERAN CONTRIBUTES TO S. A. AND URGES EVERYBODY TO HELP.

Chicago—A tall young veteran of the great war in the khaki of the American Army walked up to the county building booth here of the Salvation Army. A service brigade on his right arm indicated at least six months' service "over there." On the right sleeve a wound badge showed why he was not "there" now. And on his left breast triumphantly showed the croix de guerre.

"Dough for doughnuts for the doughboys" asked Mrs. Philip Brogstone a social-woman of prominence who is a volunteer overseas fund gatherer for the Salvationists, as she extended her hand in a friendly way.

"I know—hollole—hollole—hollole. And if everybody knew they'd be heading out money to keep every man in France supplied with doughnuts, pie and coffee. That is only a little of what they do. Why the army can't go along without them over there."

The young man was Sergt. "Cliff" Lewis, son of Policewoman Anna Lewis, recently invalided home after the war.

Sergt. "Cliff" told his story. It was the story of thousands of other doughboys. Fourteen hours of a winter's day and night he spent in a shell-torn trench, near Chemin des Dames. Relief came after dawn. Sergt. "Cliff" staggered back to the line. As he came out of the trench the first to greet him was a serene young woman with a Salvation Army khaki uniform and steel helmet. She tendered him not coffee and fresh doughnuts.

"Oh man," said Sergt. "Cliff," "talk about turkey and plum pudding to a starving kid! Why, that coffee and doughnut layout made a Christmas dinner look like a hashhouse meal. And what they did for me they do for every other soldier they come in contact with 'over there.' They certainly are the real thing and they can have anything I've got."

## S. A. WORKERS SENT TO FRANCE

TWENTY-FIVE OR MORE GOING ACROSS EVERY MONTH TO ARMY'S HUTS WITH AMERICAN SOLDIERS.

Salvationist hument workers for service in the battle zones of France with Pershing's forces, are now being sent from Chicago, alone, at the rate of 25 a month, and this quota is expected to be maintained to the end of the year, according to announcement by Lieut. Col. J. T. Flynn of territorial headquarters who is handling recruiting for the front.

Because of the dangers of ocean travel, as well as the tremendous demand for Salvationist workers immediately in France, the system of sending workers "over" has been changed. Instead of dispatching the workers in parties, they are going as individuals, being sent forward as soon as necessary papers are received from Washington, as well as commissions which make them a militarized part of the American forces.

As soon as the workers touch French shores, they are met by officers from Paris headquarters and assigned to positions in the battle zones. It is not unusual that workers are wearing gas masks and have tasted of the shell fire within a week from the time of their arrival over there.

### CHANDLER McLAIN DIED FORT WORTH TUESDAY

Chandler McLain, son of Mr. I. W. McLain, of this city, died at Fort Worth Tuesday afternoon at 3:00 o'clock, following an illness of about two weeks with pneumonia. His mother was with him at the time of his death. He was 15 years and 4 months of age.

His remains were shipped to this city yesterday, where he will be buried in Oak Grove cemetery this afternoon at 3:00 o'clock, Rev. T. F. Weaver, of the Christian church officiating. Casen, Monk & Co., have charge of the obsequies.

The pall bearers are: Noel Roberts, Jack Burrows, Joel Henson, Dwight Thrash, Raymond Hagan and Navarro Cox.

It will be remembered that Chandler had pneumonia last year, after narrowly escaping being drowned while bathing at a lake near the city, and had not been very strong since.

He went up north in company with other boys of this city upon the misrepresentation of a man coming through here purporting to be a government agent, to work in the ship yards, or other government work, and was returning home when he took ill at Fort Worth.

Chandler has many friends in the city who are pained to hear of his death. The entire community deeply sympathizes with his family, as this is the fourth member to be called to their reward in the past few weeks.

### ASK CITIZENS TO CONTINUE LEGAL AID

(By Associated Press)  
DALLAS, Dec. 4.—Joseph Hirsch of the State Council of Defense, is in receipt of a telegram from Adjutant General Harris in which field divisions are requested to ask their states to continue the legal aid committees to give legal aid to soldiers returning from the army, under the civil relief act. The telegram states that legal aid in the demobilization of the army is far greater than it was in the period of mobilization.

Under the civil relief act, soldiers are protected from litigation only so long as he is in the military service. In the eyes of the law, he becomes a civilian two months before he is required to cease wearing the uniform all must act promptly in order to secure the full protection of the civil relief.

Many soldiers who enlisted at the beginning of the war, or who were ordered to camp under the selective draft, were compelled to leave their communities while debts were hanging over them. There could be no legal action taken against them while in the service, and those returning will need the aid of legal advice in getting back into the regular channels of civil life.

It is the duty of the people to the soldier to aid him in every way possible in getting over any legal difficulties arising from former obligations before his entrance into the service.

Trouble Extending to West of Jaroslav and South to Drchobyc.

(By Associated Press)  
VIENNA, Dec. 2.—Hundreds are homeless at Lemberg as the result of outbreaks against the Jews in that city. It is reported that many people have been killed and wounded.

Three churches and eighty houses were burned and wholesale looting has taken place. The trouble is said to be extending west to Jaroslav and south to Drchobyc, as well as many towns in western and eastern Galicia.

Jewish reports say that the disorders were not attributed to Bolshevism, but was the outcome of an effort to prevent the Jews from carrying out the principle of self-determination according to Wilson's program.

## BOLSHEVIKI TO INVADE BALTIC

HELSINGFORS, Nov. 29.—The commander of the Bolsheviki army in Northern Russia has exhorted his followers to invade the rich Baltic provinces to obtain provisions. It is reported that German troops have partly abandoned the Karva front, and are asking that they be returned to Germany. German forces who have been at Dunaburg are leaving.

## MORE DAYS LEFT FOR HUNS TO EVACUATE LEFT BANK OF RHINE

(By Associated Press)  
PARIS, Dec. 2.—Eight days remain for the Germans to evacuate the left bank of the Rhine from lower Alsace to Holland. The French and allied forces which crossed the German frontier yesterday have received strict instructions as to their attitude toward the German population in the occupied territory. The French will be represented by contingents in all enemy territory.

# Plot Discovered to Restore Imperialism

(By Associated Press)  
LONDON, Dec. 2.—A plot to restore imperialism and secure the return of Emperor William has been discovered in Berlin, according to a dispatch from Amsterdam to the Express.

The chief men behind the plot were Field Marshal von Mackensen, General von Born and count Sixt von Arnin. It is stated that they instructed the Prussian officers corps to carry on the pro-emperor agitation, beginning immediately after the demobilization of the troops was completed. Large sums of money are said to have been placed at the disposal of the leaders by munitions makers.

The plot collapsed owing to the fact that secret service agents overheard a telephone conversation. Many arrests were made in Berlin in connection with the case. No direct evidence of William Hohenzollern's connection with the plot has been found. Von Hindenburg refused to join the plot.

The plan was to form a provisional government under von Mackensen or other military leaders, and then urge the former emperor to return. It is stated that the whole Prussian court was in sympathy with the plotters.

# Wilson Speaks To Congress Today

(By Associated Press)  
WASHINGTON, Dec. 2.—President Wilson in speaking before a joint session of congress today announced his intention to attend the peace conference, as he felt it his paramount duty to attend, in view of the fact the allies had accepted the principles enunciated by him. He stated that he will be in close touch by cable and wireless so that congress will know what is going on on the other side.

Much of the address was devoted to railroad problems, for which the president said he now has no solution to offer. He recommended careful study by congress, saying it will be disservice for the country to permit the railroads to return to the old conditions of private management without modifications.

He declared he stood ready for the release of the railroads from government control whenever a satisfactory plan for the adjustment had been worked out.

Paying tribute to the people's conduct during the war, President Wilson spoke particularly of the work of the women, and again appealed for woman suffrage by federal amendment.

## IN REGARD TO THE MATTER OF CASHING WAR SAVINGS STAMPS.

There is a tendency among some people to wish to cash War Savings Stamps. This is very wrong, as it does not carry out the agreement implied when they were bought. It is like lending money to a friend and then going to him the next day and get the cash back.

This money is loaned to the government for a term of years, and the fact that an armistice has been signed, does not release the obligation to the government and to the county.

The quota that Nacogdoches county has pledged can only be secured when on December 31st, the total amount of stamps held equals the amount assigned by the Treasury Department. In other words, if a man buys \$100 worth of War Savings Stamps and cashes them in ten days, it does not help the quota of Nacogdoches county one bit. It not only does not help Nacogdoches county; it does not help the government. In fact, it is a positive loss to the government, involving as it does a great deal of work and expense in the handling of the stamps.

Remember this, please, when for a trival reason, you wish to cash your War Savings Stamps. Of course, if you really need your money, the government will cash your stamps in accordance with their promise to do so, but think twice before you ask your postmaster to redeem them. dw

### SOLDIERS OBSERVE THANKSGIVING DAY

AMERICAN HEADQUARTERS IN FRANCE, Nov. 30.—The victory won by the American soldiers in hard fighting and at the cost of great sacrifices was the Thanksgiving Day gift to the American nation and the American army, General Pershing declared in his Thanksgiving Day address at General headquarters.

General Pershing said that the debt of gratitude to Lafayette has been paid, and that the invader has been driven back. He paid a tribute to the dead and wounded, and urged the soldiers to thank God for the victory, and declared that a new vision of duty to God and country had come to all.

"American mothers," he said "await with loving hearts the home-coming of their gallant sons."

E. C. Martin of Garrison was a visitor to the city Sunday.

### RED CROSS NEWS.

The county chairman is in receipt of a letter from St. Louis giving the following quotation from a cable received from France: "Every chapter should speed up the making of refugee clothing, for speed in this work may save many lives. The returning prisoners set free after four years of intense suffering are destitute and practically helpless, we cannot fail to give assistance to these suffering ones, weak from starvation and overwork. This is the time for action." The St. Louis letter adds: "We will make out quotas and have the shipments made at once without waiting for chapters to accept quota." In other words we are drafted to do this work. If you have any humanity or sense of justice in your nature you will give your money and your time as a Thank offering that you and yours have escaped the terrible privation and suffering endured by these poor people. If we fail to do this we will receive a just chastisement from on High, for we have no right to sit down in comfort and ease when others are in need of our help.

Mrs. C. T. Monzingo and daughter, little Miss Maxine, are quite sick at their home on North street.

### GIVE 'SYRUP OF FIGS' TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

### HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Some of these are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal. If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

### TO AVOID AND RELIEVE INFLUENZA

By Dr. Franklin Duane. Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed, and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass or two of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat. Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron tonic tablet called "Frontinor" that well known household name, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations. (adv)

### TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle and scraggy hair is mute evidence of a neglected scalp, of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and disengage the hair falls out fast. A little Danderine tonight—no—any time—will surely save your hair.

Get a small bottle of Keweenaw Danderine from your druggist. You surely can't lose by trying it. If it doesn't do it, you will just try a second bottle. Save your hair.

I am sincere! My medicine does not upset liver and bowels so you lose a day's work.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children as well.

**RECEIVES INTERESTING LETTER FROM FRANCE**

An interesting letter from Pvt. Jim H. Power, who is now in France, has been received by his father, Mr. E. H. Power, in the city. Private Power says he has been in the trenches for the last twenty-eight days previous to Nov. 11, when the letter was dated, and that the letter was written in the trenches. He says that he went over the top on Nov. 1, and witnessed hard fighting, getting most of his clothes torn off on German barbed wire entanglements.

The letter was written the day that the armistice took effect, and the young man says that everything was very quiet at the time of writing, with the exception of the celebration of the boys over the end of the war, bells ringing, and the soldiers shouting and everyone being happy.

Mr. Power makes reference to the good work of three divisions that were extensively mentioned in the papers, and says that three Nacogdoches county boys were in them. He says that his division relieved the 90th, which was one of them.

Private Power expresses the hope that he will be home in time to eat Christmas dinner with the homefolks.

**ALLIES WILL PROBABLY GRANT GERMANY AN EXTENSION OF TIME.**

PARIS, Dec. 3.—It appears that Germany will be unable to hand over to the allies all five thousand locomotives stipulated in the armistice agreement by December 17th, and it is probable that the allies will give an extension of time. This will have an effect in delaying the peace negotiations.

Discussions between the allied delegations to the peace conference probably will begin December 20th, with President Wilson taking part personally.

**DEATH AT PISGAH.**

On Monday, November 24th, the Lord saw fit to take from our midst, James Oliver Burt. He was the son of P. C. and Alice Burt. He was buried Sunday afternoon beside his loving mother in the Libby cemetery.

Mr. Burt was 22 years and nine months old. He was a boy of strong character, a boy that believed in justice to all mankind. He was not physically able to go with the boys to France, but answered several calls to help finance the cause of liberty and justice.

He was taken sick at his sister's with typhoid fever. 31 days of suffering brought the end. Despite the skill of fine physicians, a trained nurse, the loving hands of his sisters and friends, the Lord saw fit to cut him down from the walks of men, the cause unknown to us, but we must submit to the will of God, who doeth all things well.

He has a father, two brothers and nine sisters, with a great host of friends who have been made sad by his death, but let us all live obedient to God's commands, believing that in the last day all will be well with us.

While he was in the bloom of life The Good Lord saw it best To take him from this land of toil Into the paradise to rest.

When we come To reap our just reward, There will be a golden starry crown For those that love the Lord.

We know that he is in the hands Of Justice, Truth and Love; In the hands of Him who gave His Son.

That we might have a home above.
