Save your Hair! Get a 25 cent bottle of Danderine right now-Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff-that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die-then the hair falls out fast. A little Danderine tonight-now-any time-will surely save your hair.

CLEPHONE -----94

The Sentinel has had much to say in the past about the fact that Nacogdoches needs some residences. With the war over, and restrictions removed from building, together with the coming relief in the labor situation, the building of rent houses is going to be a very profitable industry in this city. The town can not grow or develop with the present shortage, as it is almost impossible for a newcomer now to secure a place to live in.

A football game played at Nacogdoches Saturday between the team at that place and the Livingston team resulted in a tie, the score being seven to seven. These are two of the fastest teams in East Texas, and the Nacogdoches squad issues a challenge to any likely bunch in this section that feels lucky. It is not thought that the Lufkin aggregation will pay any attention to the challenge.—Lufkin News

With the linotype machine sounding like it is running again the editor is going to venture forth with the assertion that we need some more sidewalks. With the experiences of the recent past it is a wonder to us that no more people than are, are building sidewalks. At any rate we need the walks and we need free mail delivery.

A letter from Sgt. Paul R. Perkins to his father, Mr. Chas, Perkins of this city dated Nov. 9, states that he was well and happy and busy. The will be of interest to many who have had no later news from the men making up Bat. "F" 64th Artillery, C. A. C.

Several conspirators have been arrested.

The Farmer Receives More Than Five Thousand Dollars a Minute From Swift & Company

This amount is paid to the farmer for live stock, by Swift & Company alone, during the trading hours of every business day.

All this money is paid to the farmer through the open market in competition with large and small packers, shippers, speculators and dealers.

The farmer, feeder, or shipper receives every cent of this money (\$300,000 an hour, nearly \$2,000,000 a day, \$11,500,000 a week) in cash, on the spot, as soon as the stock he has just sold is weighed up.

Some of the money paid to the farmer during a single day comes back to the company in a month from sale of products; much does not come back for sixty or ninety days or more. But the next day Swift & Company, to meet the demands made by its customers, must pay out another \$2,000,000 or so, and at the present high price levels keeps over \$250,000,000 continuously tied up in goods on the way to market and in bills owed to the company.

This gives an idea of the volume of the Swift & Company business and the requirements of financing it. Only by doing a large business can this company turn live stock into meat and by-products at the lowest possible cost, prevent waste, operate refrigerator cars, distribute to retailers in all parts of the country — and be recompensed with a profit of only a fraction of a cent a pound—a profit too small to have any noticeable effect on the price of meat or live stock.

Swift & Company, U.S. A.

Batteries Should Never Freeze

If your battery freezes it's your own fault.

There's proof right in the ice that you haven't taken care of it-that you haven't kept it charged.

A properly charged Willard Battery can't freeze, even in the coldest weather.

Come in and we'll tell you why batteries do sometimes freeze, and how you can tell when yours is cold-weather proof.

While you're here ask for a copy of our booklet-"A Mark with a Meaning for You." It tells just what the Willard Mark stands for.

We test, repair and recharge storage batteries, and always carry a full supply of battery parts, new batteries and rental batter-

'I KEPT MY PLEDGE?

The day of reckoning is coming for all. When the victorious "Yanks" come marching home again, we'll all see them as they pass. Patriots, good citizens, slackers and all who will watch them. Most of us will be able to hold our heads in the air and look each man in the eye and say, "I

The slacker, the one who signed a pledge card to save and did not keep that pledge, will be one who would rather drop through the sidewalk and be out of sight. The spectacle of our victory boys with its resultant heart throbs will be too much for the ones who have not done their bit. We have until Dec. 31 to fulfill our War Savings Pledge for 1918.

Let's Keep it---Every one
