## HOOR FIXED FOR GERMANS SIGN

(By Associated Press)  
The date for signing the peace treaty is undecided, but the hour has been definitely fixed at two o'clock Friday or Saturday is suggested as the probable day, but the peace conference secretary is still without official information of the personnel of the new German peace delegation and the date of its arrival.

## GENERAY SYMPATHETIC STRIKE IN WINNIPEG WAS CALLED OFF

(By Associated Press.)  
WINNIPEG, June 22.—The general sympathetic strike was called off last night, exactly six weeks from the time it was called. The central strike committee came to an agreement and will order all men back to work Thursday at 11 a. m.

## ROEBUCK CASE REVERSED TODAY

(By Associated Press)  
AUSTIN, June 25.—The judgment against Samantha Roebuck, of Nacogdoches, under a thirty-five year sentence for alleged poisoning of her husband, was reversed and remanded by the Court of Criminal Appeals today. The court held that the evidence was not sufficient to support the charge that the woman was a principal in the murder.

## ARREST FAMILY CONNEXION BELL KILLING

(By Associated Press)  
FT. WORTH, June 25.—James Gafford, his wife and sixteen year old son have been arrested at Crowell in connection with the killing of Senator Bell Saturday.

## SENATE FAILS ACT FALL RESOLUTION

(By Associated Press)  
WASHINGTON, June 25.—After 2 hours discussion today the senate foreign relations committee adjourned without acting on the resolution by Senator Fall to declare a state of peace with Germany, although there was considerable sentiment among opponents of the league of nations in favor of bringing about a vote later.

## RUMORS AFLOAT MONDRAGON RETURNED TO MEXICO

(By Associated Press)  
MEXICO CITY, June 25.—Numerous rumors are afloat that Manuel Mondragon, called the intellectual leader of the coup that resulted in the overthrow and death of President Francisco I. Madero on Feb. 22, 1913, has returned to Mexico.

One report has it that the former federal general, one of Victoriano Huerta's ministers of war, has landed in the Verta Cruz region, after proceeding from the United States via Havana. Another is that, discouraged by the quick end that befell his former comrade, ex-general Aureliano Blanquet, killed a short time after he joined the Diaz adherents last month Mondragon crossed into Mexico at a point near El Paso and journeyed south with the object of conferring with the former federal General Felipe Angeles, who is now campaigning with Villa.

The conference is reported to have been unsatisfactory, one version being that Villa refused to listen to offers Mondragon then is said to have returned and threatened to shoot the emissary. Mondragon then is said to have recrossed into Texas.

## FORMER KING OF GREECE IN FINANCIAL STRAITS

(By Associated Press)  
PARIS, June 25.—Former King Constantine of Greece, who is living in Switzerland is having financial difficulties, according to Geneva advices. The former German emperor has supplied Constantine with funds, but this subsidy is now cut off. It is reported that Constantine is seeking recognition from the present Greek government.

## STRIKE OF TEAMSTERS CAUSES BLOCKADE TRUCK IN N. Y.

(By Associated Press)  
NEW YORK, June 25.—A strike of 3700 teamsters, porters and chauffeurs employed by produce dealers for higher wages is causing railroad and steamship terminals to be blocked with an accumulation of more than fifteen hundred carloads of fruits and vegetables, considerable of which has already spoiled.

## SERIOUS RIOTING OCCURS IN HAMBURG

(By Associated Press)  
COPENHAGEN, June 25.—Serious rioting occurred in Hamburg Monday and Tuesday when mobs attacked food preserving factories, alleging that the bodies of dogs and cats were found there. The managers were dragged into the streets and roughly handled. A number of persons were killed and wounded when the mob tried to disarm the troops and later opened fire.

## GERMANY SLOW ANNOUNCE PLANS

(By Associated Press)  
Germany is proving slow in making known her plans to the peace conference regarding representation at the formal signing of the treaty, and conference circles are reported somewhat uneasy over the lack of official advices from Germany, as the arrangements for the ceremony are being held up.

It is still hoped in Paris that the treaty will be signed Friday, but everything depends manifestly on the arrival of the German delegates.

The new Italian delegation, headed by Tommaso Tittoni is expected to arrive in Paris Friday to resume activities regarding the Austrian treaty. Several important matters of the Austrian treaty are being held up pending their arrival.

France and the other associated powers have prepared eventualities should the Germans fail to carry out the treaty. Formal approval by the supreme council has been given the plan for Belgian priority in reparations to the extent of five hundred million dollars.

## ALL AMERICAN CONGRESS SUFFRAGISTS PROPOSED

(By Associated Press)  
NEW YORK, June 25.—An All American congress of women suffragists is proposed by Alicia Morean, president of the National Womens Union of the Argentine. Her proposal has been received here by Mrs. Carrie Chapman Catt, president of the International Woman Suffrage Association.

Mrs. Catt has not yet acted on the suggestion, but it is announced that she will soon do. Signora Morean proposes that a Pan-American conference be held in Buenos Aires in July, 1921 for the study of the civil and political status of women.

"It is proposed," says Signora Morean, "that we concentrate our energies on a general movement throughout the Americas in behalf of our ideals, being confident that the cooperation of the delegates of the various countries will encourage the discussion of the different problems relating to the position of women and will be the means of bringing forward suggestions for the ultimate solution of such difficulties.

We hope that our sisters in the United States of America will give us their active support; the world-wide prestige won by the part they have played in the movement and the result attained makes them stand out as an example among the democratic institutions, and will be a sure sign of ultimate success of our work."

Behind this conference, adds Signora Morean, looms a larger hope of a Pan-American organization, "which would stimulate mutual help among the all feminist associations."

## KING SAYS SPAIN ADHERES TO LEAGUE OF NATIONS

(By Associated Press)  
MADRID, June 25.—In a throne speech yesterday King Alfonso affirmed unalterable concord between Spain and the Vatican, and expressed joy over the news of the certain advent of peace. After stating that Spain recognized the independence of Poland, Czecho-Slovakia and Finland, the king said that Spain adhered to the principle of the league of nations, and had the honor to be included in the provisory committee of that organization.

## HIGH TAX ON WHISKEY INCREASES POTHEEN MAKERS

(By Associated Press)  
DUBLIN, June 25.—The high tax on whiskey has increased the activity of the Irish potheen makers and the hunt by police and excise agents for illicit stills is constantly maintained. During the past year the official report shows that 412 illicit distilling plants were discovered by the customs and excise officers in Ireland and only 2 in Scotland.

## Do You Buy Or Sell Hay At \$40.00 Per Ton?

When paying 2 cents per pound for hay do you stop and think about those "little patches" of grass that you could have saved but which you DIDN'T SAVE?

Be a seller. It is more pleasant and profitable to sell hay at \$40.00 than it is to buy at the same price.

We want to sell you a mower and rake. We'll make money when we sell and you'll make money when you buy.

Let's get together on this important matter. It's money to you, it's profit to us—but it's mighty hard on the fellow who has been selling you hay at 2 cents per pound.

Next spring will you be buying or selling hay?

It's up to you.

## ULTIMATUM MAY BE SENT TO GERMANY

(By Associated Press.)  
PARIS, June 25.—An ultimatum demanding the appointment of plenipotentiaries within a certain number of hours will be sent the German government at Weimar unless the Allied powers are advised soon regarding the new German delegates.

President Poincare will give an official dinner to the peace plenipotentiaries Thursday night. It was originally planned for the night the treaty was signed, but the uncertainty of this date has caused a change of the plans.

## NO OFFICIAL WORD FROM GERMANY

(By Associated Press)  
PARIS, June 25.—Up to four-forty-five this afternoon no official word has been received regarding Germany's plans with regard to the formal signing of the treaty. Peace conference leaders are undisguisedly perplexed over the situation.

## NUMBER OF SOLDIERS ARRESTED AT WEIMAR

(By Associated Press)

The Sentinel can secure a report of the Willard-Dempsey fight which will take place on July 4th by half-grounds, rounds or any other way desired in any amount desired if local fans are interested enough to make contributions to a fund for the purpose. If some of the enthusiasts will take the initiative it should be easy enough to secure enough contributions to secure the entire report, which is furnished free with the exception of the telegraph tolls.

Both the house and senate have voted to repeal the daylight saving law, which will end next October. Personally we have no objection to the law, but we have found it a long time between meals sometimes.

The American Federation of Labor at Atlantic City seems to be adopting some pretty sensible resolutions—one among their number being to fire Burleson.

Anticipating the immense public enthusiasm which will seek expression on Independence Day in celebrating the triumph of liberty in the International war and the return of our conquering heroes, most of whom we expect home by that time, the State Fire Marshal S. W. English earnestly appeals to the citizens of this state to keep this patriotic fervor and enthusiasm within safe and sane channels. Read a communication from him elsewhere in this paper today.

Lord Northcliffe has inaugurated a five-day week on his newspapers. It will be all right if he will raise salaries accordingly. There is no way to make leisure glorious if you are broke.—Geo. Bailey in Houston Post.

A newspaper in order to command a great influence must have a great individuality. That individuality may not always be at the front, but its force though latent must be where it can be called out on short notice. The Courier-Journal is the best modern example. The Courier-Journal and its editor were one and the same thing. For nearly a half century Watterson's paper was the oracle of Kentucky. The dynamic force and unvalued genius of the editor were daily things to reckon with, and in no paper since the Civil War was there displayed such marvelous evidence of the power of one man's pen. Does any one believe that the Courier-Journal with Watterson concealed and his individuality buried would have exercised the same influence though its editorials had been the same? Certainly not. Individuality counts in every department of life, from the President of the United States down to the most obscure precinct official, and from the highest corporation manager to the retail merchant. What Christ said would have been just as true if the author had never been known, but without the life of Christ little attention would have been paid to what he said.—Rusk Co. News.

Today is the "Juneteenth" the day that all the negroes celebrate—and they are celebrating in Nacogdoches today. The dusky citizens of this city had arranged a big program in advance and there are hundreds of visitors of their race here today helping celebrate. About the only thing we have noticed lacking in the way of their celebration, is that they have no watermelons to complete their feasting.

Now some of us want to know what Parsling will do with a bodyguard of three thousand picked men. Possibly he intends to invade Germany and force the delegates to sign the peace treaty.

The majority of the German warships interned by the Allies at Scapa Flow were sunk by their German crews Saturday, with the German flag flying at the masthead as they went down. Well, the Allies were going to sink them anyhow, and the Germans saved us the trouble, so why not take the optimistic view.

It is now believed that if the republicans keep up the action they have been taking lately that a third party will be the result. Possibly this will succeed in bringing the mouthing leaders to their senses. Folly always demands its price.

The senate is again getting on the war path—if they have ever been off. Now comes a radical proposal for the senate to declare the war ended. The end is not yet in sight—we mean of the war, and of Lodge, Borah and the others.

Ain't it awful Mabel, when you think of all the fruits and vegetables raised around Jacksonville, and then go into a grocery store and see canned goods galore from Baltimore, Maryland, or some other seaport. Here's a bug, Mr. Moneyed Man—a canning factory in Jacksonville would pay bigger dividends than a mid-Texas oil well.—Jacksonville Progress.

It is passing strange that the fruit growing belt of this section of the state has no more canning factories than it has. As the Jacksonville paper says, a canning factory would pay there. And it would also pay in other East Texas towns. However, this section has many things that will have to be better advertised before they are developed.

The Lufkin News has been having troubles of its own the past few days. First, Charlie Bonner, the machine operator of The News, has been appointed postmaster of that city, and has vacated his chair at the machine, and secondly the telegraph operators of that city have gone out on a strike, and consequently the paper is not getting their telegraph service.—Nacogdoches Sentinel.

The News has been having troubles of its own here of late, but has learned that under adversity one may soon become accustomed to conditions, and adjust themselves to circumstances.

An I. W. W. prisoner in Leavenworth wrote a letter to another member of that organization advising them to use machine guns to get their fellow members out of prison. It is about time that some strenuous punishment was meted out to the members of this anarchistic band—for instance deporting them to Russia or Mexico.—Nacogdoches Sentinel.

We are in favor of using machine guns in getting the rest of the bunch in prison.—Livingston Enterprise.

If the rains keep up the cotton crop in Nacogdoches county is going to be cut short this year, the boll weevils getting the squares as soon as they come out. Announcement was carried in this paper several days ago that a meeting would be held in the court house of this city Saturday the 28th for the purpose of advising farmers how to poison their cotton if the rains continued. Looks like the cotton will have to be poisoned.

The dispatches now indicate that Germany is easing up a little in their fierce denunciation of the peace treaty. Along with the announcement is carried the reports that the Allied armies are ready to invade Germany on a moment's notice, and that British battle-ships are ready to sail for Germany. Possibly the two events have connection—and Germany may yet change her mind.

The Center Champion reports that a young man in that city was whipped by a coach whip snake the other day. The snake is reported to have took hold of his pants leg and proceeded to remind him of the days of old when his father was compelled to inform him that he was still the boss.

An American patrol is guarding the Mexican border, together with a fleet of airplanes. Good way to use our surplus war material.

A postmistress in a Pennsylvania town recently received twenty chicks in her office, and seeing that they needed feeding has been taking care of them awaiting the owner's calling for them, which he has never done, and the fair postmistress is wondering if she will receive her claim for their feed from the United States government. It is probable that she will—a country that is feeding nations should not object to feeding a few chicks.

Several days ago The Sentinel had something to say about the Lufkin News having troubles of its own. Now it comes our time to own up that the News has not been alone in its troubles. The Sentinel has almost had to close up the job printing department the past week in order to issue the newspaper, on account of a shortage in printers—and the end is not yet.

It is announced that the convicts in Texas are increasing. This is rather surprising in view of the work being done to lessen crime in the state, and the laws passed to this effect.

General Angeles is said to be trying to find a reason for the Americans invading Mexico last Sunday. He says that his troops were ordered and cautioned not to fire into El Paso, and that for that reason, they advanced down the river. No use telling him that a half dozen people were killed in El Paso just the same—the Mexican line of reason is beyond hope.

The B. P. O. E. of Nacogdoches is planning for a great time on July fourth, as a result of a campaign for new members. Already more than 80 applications for membership have been taken, and it is predicted that one hundred will have been secured by the 4th of July. The Elks throughout the country are making drives for new members, and it is possible that a similar effort will be attempted in Lufkin.—Lufkin News.

While the human habitation of the globe has come to expect almost anything in the way of surprises, not a few of us would have believed that the priests would go on a strike. Such has been the case in Italy, however, where many of them are demanding an amelioration of their financial condition. It is to be hoped that their constituents will not get contrary and try to do without them.

There is smallpox in 75 Texas counties at the present time. We have not the information at hand as to Nacogdoches county, but it is known that there are some cases in the county. The city health officer some time ago requested that all who had not been vaccinated do so immediately, and if you have not done so now would be a pretty good time.

Jacksonville is concerned as to why tomatoes are not selling for more than 75c a crate. We can't answer the question, but we imagine that the retail consumers of Nacogdoches could use a few of them at that price.

The Sour Lake Signal asks the following: "Do you think it will rain today?" It wouldn't do to ask a question like that in Nacogdoches at the present time—unless you had an airplane handy.

More than 1,500,000 children have received military instruction in the public schools of Mexico within the past three years. Villa may yet take hope.

If the rains we have been having lately do not convince a few Nacogdoches citizens that we need some sidewalks, we will have to give up our campaign in despair.

It has come to light that some of the airplanes are not fit for ocean travel. Taking this announced fact as an excuse, the airplane editor of The News will be content to fly around in this immediate locality in his own machine, and not attempt any trans-Atlantic flights. It's true we may be tempted to swing out as far as Nacogdoches, merely to see how these folks are getting along, but outside of this, it would be our good pleasure to remain at home.—Lufkin News.

Nine cats of tomatoes were shipped from Cushing last week. The cars contain 896 crates and sold from 75c to \$1.00 a crate, making a car worth 6 or 8 hundred dollars. It is estimated that something over \$10,000 has been brought Cushing from this source, proving quite a nice industry for the town.

**EAST TEXAS PRESS**

It is proposed to build a barbed wire fence along the Mexican border. Might be cheaper and quite as effective to place a scare crow holding a cake of soap and a bath towel every five miles.—Carthage Register.

When this is done it might also prove feasible to gather up all the Bolsheviks and I. W. W.'s in this country and start them toward the border.

Those Americans who insist that Villa is a nice man struggling for a free Mexico are uneasy for fear he will kill some Americans, as a testimonial of his distinguished consideration.—Dallas-Galveston News.

But now comes Villa surprising us all by announcing that he will not kill any Americans as a reprisal—which means that if we were in Mexico we wouldn't be there long after this announcement was made.

This is the season of the year when the owner of a garden becomes diffusively generous with lettuce to his friends and acquaintances, and to anybody who will take it.—Alto Herald.

Also it is the time of the year when the farmer or gardener becomes a calamity howler in regard to the weather. If we ever knew of a crop that wasn't either cut short by a drought, or two much rain, or something else at this time of the year we do not remember it. This is peculiar because a crop in East Texas rarely ever fails.

If you have a friend running for office, tell him his chances are good, otherwise he will think you are lying to him.—Mt. Enterprise Progress.

This same line of talk also causes many men to run for office, and incidentally to become broke, sadder and

wiser.

For want of legitimate argument, or reason for opposing, some people resort to the cowardly practice of accusing the paper of "policy" when they cannot agree with it on an issue or discussion. It is a pity that they didn't also have a "policy" of some kind. In so far as The News goes we make the proposition to give the same publicity to any argument offering, on any stand we may take from time to time, and invite a free and open discussion of public issues, and it is a duty we owe to our readers to do so, but in discharging this duty we shall never be arrogant or dismiss the subject with a finality that settles it. We are likely, in fact we do—get on the wrong track some times, but we proceed upon the theory that it is better to try and fail than never try, so come on in; the water's fine.—Garrison News.

It is right for every newspaper and every individual to have a "policy." That policy should be one of honest conception of duty and righteousness, dealing with the world as you would have it deal with you, and ever so conduct your relations in the affairs of men that you shall never have cause to regret any policy that you have assumed.

Our Zeppelin melons have not appeared in the market yet. These are the melons that Texas reserves for her own delectable democrats. The early melons we are shipping to the north at this time are designed to reduce republican majorities.—Houston Post.

# World War Is Over

(By Associated Press.)

WEIMAR, June 23.—It is officially announced that Germany will sign the peace treaty.

PARIS, June 23.—The German government at Weimar has formally communicated its willingness to sign the peace terms unconditionally, the French foreign office announced this afternoon. The day of the formal signing is uncertain. It will possibly occur Tuesday, but more likely Wednesday.

The Italian delegates have been authorized to sign the treaty on behalf of Italy, thus removing the question which was feared might delay peace.

The German note of acceptance was couched in language insisting that the condition are a peace of violence.

PARIS, June 23.—Germany again requested an additional two days for signing the peace treaty. The Council of Four refused.

The request for additional time declared that cabinet changes and generally disturbed conditions caused the difficulty in completing arrangements.

The German answer reached the peace conference this afternoon. The contents are unrevealed.

The German note to which the Council of Four replied Sunday definitely rejecting the suggestions for an alteration of the treaty, declared that the Germans regard the terms as impracticable, and the signature given under duress of protests against the clauses concerning reparations, for fetters of colonies and others, asserting that the terms could not be fulfilled, and that Germany cannot be responsible for what may occur. The note concluded, saying that the Germans would sign with reservations relative to surrendering those alleged guilty of crimes and the admission of the guilt of Germany in causing the war.

The council then declared that the time for discussion was past and that Germany must accept or reject the treaty as it was.

The peace Treaty of Versailles is the fruit of about five months of conferences in which delegations from thirty-two Allied countries and Germany participated. The five leading nations, the United States, Great Britain, France, Italy and Japan were represented at Paris by five delegates each, while the delegations of other nations and British dominions were composed of from one to three men.

The representatives of the United States were President Wilson; Secretary of State Robert Lansing; Henry White, formerly American Ambassador at Rome and Paris; Colonel Edward M. House and General Tasker H. Bliss.

Georges Clemenceau, Premier of France, was chairman of the Peace Conference.

At first a Supreme Council or a Council of Ten was organized so as to include two representatives each from Great Britain, France, the United States, Italy and Japan. Subsequently this council was divided in two parts—a Council of Four, composed of President Wilson and Premiers Lloyd George, Clemenceau and Orlando; and a Council of Foreign Ministers.

The Conference of the Allied Delegations convened officially on January 18 to draw up the terms to be submitted when completed to the German Delegation. President Wilson had arrived in France on December 13 and had visited England, Italy and parts of France.

One of the first acts of the Conference was to send a proposal to all Russian factions to meet on the Prince's Islands to endeavor to compose the Russian internal situation but this plan was rejected by the Russians. Various factions which were disputing over territory in different sections of Europe were directed by the Peace Conference to discontinue their conflicts.

The first step toward the actual drafting of the Treaty occurred on January 24 when the Conference agreed to the plan for organization of a League of Nations and a committee was appointed to draw up a covenant. By January 30 the Confer-

ence had adopted the plan of governing colonies and backward nations through mandatories issued to various nations, subject to the direction and approval of the League of Nations.

The covenant of the League of Nations was completed on February 14. On the following day President Wilson left France for the United States. He returned to France arriving there March 13. In his absence the Council of Ten had continued its work despite an attempt to assassinate Premier Clemenceau.

A report of the International Labor Legislation Committee was adopted April 11. Reparation demands to be made on Germany were approved April 14 and the Germans were invited on April 16 to send their delegation to Versailles to receive the treaty. The peace conference next considered the treaty with Austria. The Italian Delegation insisted upon obtaining control of the formerly Austrian city of the Treaty was made public that day. It was also announced that the United States and Great Britain had future German aggression. The manner in which the Germans received the treaty was described as insolent. Numerous German leaders declared they would not sign it and a week of mourning was decreed by the German government, but the decree was virtually unheeded.

Thereafter the German Delegates submitted various notes to the Council of Four asking for concessions or criticizing the terms proposed in the treaty submitted to them. On May 16 it was announced that the German treaty would become effective when ratified by Germany and three of the Allied or Associated Powers.

The German reply to the first form of the peace treaty was presented to the Allied delegates on May 28 and this was followed by several counter-proposals.

Meanwhile the Austrian Delegates had arrived at St. Germain and on June 2 the terms of the peace treaty with Austria as drawn by the Allies of Fiume, but on April 23 President Wilson gave out a statement that Fiume could not be given to Italy. On the next day Premier Orlando returned to Rome and for more than a week thereafter the Italian delegates were absent, but returned on May 7 in time to participate in the conference with the German Delegates.

A revised covenant of the League of Nations intended to conform in respect to the Monroe Doctrine to objection raised in America was adopted by the Peace Conference on April 8. Geneva was selected as the seat of the League.

Shantung was disposed of on April 30 when the Council of Three voted to turn it over to the Japanese on assurances that it would be given later to the Chinese.

The Germans, headed by Count Brockdorff-Rantzau, arrived in Versailles and presented their credentials to the Allied Delegates on May 1.

The Peace Treaty was presented to the Germans at Versailles on May 7, the anniversary of the sinking of the Lusitania, and an official summary

of the terms was published in Berlin by Maximilian Harden, tending to show Germany's responsibility for the war. The telegram was dated July 13th, 1914, and states that no evidence was produced to show the Serbian government responsible for the murder.

### SUFFRAGE RESOLUTION INTRODUCED IN LEGISLATURE TODAY

(By Associated Press)

AUSTIN, June 23.—A resolution proposing ratification of the federal woman suffrage amendment was introduced in a special session of the 36th legislature, which convened today. It was referred to the house committee on constitutional amendments. Early action is anticipated in both houses.

Mr. James Robinett received a message stating that her brother, Jesse McClain had safely arrived from overseas and expects to be with his mother in a few days.

Without a single change in membership from that of the regular session, the Thirty-sixth Texas legislature convened here today in its second called session with a quorum present in both houses. There have been no deaths or resignation of members since the regular session.

The house carried over the organization of the regular session. Speaker R. E. Thomason of El Paso is presiding, and the chairman of the committees expected to have work early in the session are Appropriations, Thomas of Denton; privilege, suffrage and election, Vaughan of Hunt; penitentiaries, Page of McLennan.

The senate held a caucus last night to select officers for the present session, and with Lieutenant Governor W. A. Johnson presiding, the senate took up its organization today. Chairman of senate committees corresponding with those mentioned in the house are: Finance, Westbrook of Wolfe City; privilege and election, Buchanan of Snyder; penitentiaries, Carlock of Fort Worth.

The house appropriation committee and the senate finance committee have been here for some time working on the appropriation bills, but the proposed measure are not all completed. However, enough work has been done to enable the legislature to take up consideration of part of the appropriations, while the committees complete their work.

### 47 KNOWN DEAD FROM TORNADO YESTERDAY

(By Associated Press)

EVANSVILLE, Minn., June 23.—Forty-seven known dead, 160 injured, property valued at six million dollars was destroyed in a tornado Sunday which swept Fergus Falls. Relief work is under way. There is a possibility that the dead number 60, when the ruins of the Grand hotel are explored, as it is known that many bodies were buried.

LONDON, June 23.—Although it is reported that six Germans were killed and ten wounded when the boats of the German fleet in Scapa Flow were fired upon after the German fleet scuttled, the Daily Mail says that others were probably drowned, some possibly reached the Orkney islands.

### GERMANS WILL NOT DIVULGE ATTITUDE

HOWEVER TREND OF SENTIMENT CONTINUES IN FAVOR OF SIGNING THE TREATY

(By Associated Press)

While the trend of the German sentiment is declared in peace conference advices as continuing strong favorable to signing the treaty, it is becoming apparent that the Germans will not divulge their attitude officially before making an effort to obtain a modification of the terms. They wish to know definitely what they are signing and asked whether Clemenceau's covering note on reparations and other phases is considered a part of the document, and binding upon all parties. They also asked if the Allies would agree to admit Germany to the league of nations and consent to limit Germany's indemnity to a hundred billion marks, and strike our requirement for the surrender of the former German emperor.

The cabinet situation is uncertain. It is definitely known that the Scheidemann government has resigned, but whether a successor has been chosen is doubtful. It seems probable that the ministerial crisis was caused by the necessity of quickly deciding an attitude on the peace question.

The request of an extension of time beyond Monday to reach a final decision, Paris dispatches indicate, under the circumstances of the request will be favorably received.

Hon. W. E. Thomason left yesterday morning for Austin to attend the special session of the legislature.

### THE STRIKE'S LESSON.

Dallas Craftsman.

The labor situation in Dallas is again normal.

The strike of the building trades to enforce a recognition of the Linemen's union and the eight-hour day by the Texas Power Company has been called off.

The men arrested in connection with the killing of Gus Fisher a strike breaker, are still in jail, but expect to be released soon on bail.

The strike cost union labor much prestige that it had been years in attaining, and considerably more than a hundred thousand dollars in lost wages.

The Craftsman advised against the strike. We were sorry it was precipitated, we are glad it has ended, and we hope that in future union labor will not allow itself to be swept from its feet by professional labor spellbinders who would starve to death if it were not for the trouble they are able to foment between workers and employers.

Wrong may flourish for a time but it is right that endures forever. The principle underlying union labor is right and it will eventually prevail throughout the world. But the time will not be shortened by compulsory methods and violence. Labor unions should and do stand for construction—not destruction. They should cultivate Love for their fellow man and eradicate from their hearts Envy, and Jealousy and Hate. The strike in Dallas was one of destruction. It had for its purpose the ruination of every man and every man's business, be he friend or foe, who stood in their way. And that's why the strike was a failure. A naturally sympathetic public was transformed overnight into an enemy whose power and influence were so great and ramifying that it swept all before it.

Dallas unionism needs reforming and reorganizing. For years Dallas has been noted far and near as the Mecca for grafters and "easy money-getters" that prey on the public purse, using the name of union labor to further their unholy and hellish purposes. It is more than intimated that there have been instances where the unions have been tricked by "leaders" for money considerations. The business men know they have been fleeced by these poltroons. Labor unions ought to realize that they can't make much progress without the friendship of business, therefore it is the duty, and should be the aim of the unions, to protect their friends in business from the periodical onslaughts of unprincipled wolves wearing union clothing.

Let us start anew and endeavor to create that confidence and respect in Dallas for organized labor it is entitled to as an institution that builds materially and promotes happiness and contentment in the world, teaching and striving for Justice and Equal Opportunity for all men. It can be done and must be done if labor is to attain its goal.

Throttle the Grafter, kick out the Professional Disturber, deal fairly and honorably with your employer and the fellow who works at your side, remembering always that God is ever on the side of Right, and that Victory is certain wherever His shield is displayed.

Porto Rico cigars are practically out of the United States market as the result of a strike of cigar makers and tobacco workers, which has been on since the first of January. Nacogdoches is neglecting a wonderful opportunity in tobacco growing. The lands in this part of the county are ideal for raising tobacco, but there is not enough acreage planted for any large tobacco concern to introduce this brand on the market. However, a local cigar factory continues to produce a superior article.

Miss Laura Clay, veteran suffrage worker of the south, and president of the Kentucky Equal Rights Association, has resigned her work, giving as a reason that the Susan B. Anthony resolution adopted by congress takes away state rights and gives control of state elections to federal authority. One woman that doesn't believe the ends justify the means.

After June 30th the two-cent stamp will again assume its former authority and carry a letter to any part of the United States. The government announces that it will trade the two-cent stamp for all three cent stamps, postcards or envelopes out, at face value, or redeem them.

We have had no report on the contents of the Lufkin standpipe recently, but it is reasonable to presume that it is still running over.

Mrs. Walter Gintz and two children left Sunday for Belleville, Ill., to visit Mr. Gintz's parents.

### GERMANY SIGNS.

There doesn't seem to be any further doubt about the German government signing the peace terms, and it is announced that this happy event will take place either today or tomorrow.

A sigh of relief is expressed all over the entire world. The world is weary of war and is also weary of dickerings with the Germans. All have wanted it settled as soon as possible, and the settlement has been attended with great difficulties.

Much praise has been given the American nations for unbridling its vast resources in the service of mankind and humanity. Its youth has again saw service under the banner that has never known defeat. The map of Europe has again been changed, and forces have been launched in an effort to prevent further wars and aggression. But the nation and world relaxed after the armistice was signed, and some of these things have been forgotten. Our part was done, and we wanted to wind it up.

The peace treaty may be accepted by the American nation and the entire world as satisfactory. It has taken many months in the making, and has represented the combined effort and study of the greatest minds and experts of all the Allied and Associated powers. It has been studied, changed and revised. Every angle has come in for its share of consideration. It is as near perfect as the number of nations participating could agree to. And in the final consideration, let us hope that the United States senate will consider this fact before they attempt to make another treaty.

### THE RELIGIOUS TURK IS NOW VERY MUCH DISCOURAGED

(By Associated Press.)  
CONSTANTINOPLE, June 25.—The religious Turk is very much discouraged. The mosques are not as well patronized as formerly for Mahomet is blamed for the loss of the war. Turks whose dogs were taken away from them and dumped on an island in the Marmora Sea to starve with tens of thousands of other Constantinople mongrels some years ago see in Turkey's present plight a just judgment from Mahomet. Those who prophesied at the time that the wholesale massacre of the dogs would bring bad luck to Turkey are now wagging their heads sagely and recalling their prophecies.

The Mosque of Ahmed I is deserted. The Germans when they left carried off all the precious rugs and the faithful refuse to enter the mosque on the ground that it has been profaned and is unclean. More than 300 deaths from cholera took place in this mosque during the war.

The Howling Dervishes in particular declare that there is no hope for Turkey unless the "Great Prophet, Wilson" intervenes. Recently the American Red Cross Mission for Rumania stopped off at Constantinople and, while waiting for their boat to coal, visited the Howling Dervishes.

With hot coals in his mouth and with high priests sticking knives through their cheeks in time-honored fashion, the high priest called down the blessings of Mahomet upon America and maledictions upon all the enemies of Turkey. A young Turk translated the Head Howler's lamentations and blessings.

Memet VI, the Sultan, has not lost faith in Mahomet, however. Each Friday morning he visits the Yildex Mosque to pray. His visit is a ceremony attended not only by thousands of Turkish onlookers and guards but also by hundreds of Allied officers all equipped with cameras of every size and description.

American army officers and Red Cross girls now find it easy to visit the mosques. St. Sophia is open to all comers and the American army man is not forced even to take off his shoes. He merely slips them into a pair of huge slippers and shuffles about on the precious carpets which are aligned in the general direction of Mecca.

### BORDER SITUATION APPEARS QUIET

EL PASO, June 20.—With Mexican federal troops moving toward the districts where Americans are known to be located, and the announcement in Washington that the Mexican government will make every effort to protect the Americans, the situation on the border appeared unusually quiet today.

### GERMANS ARE TO SIGN THURSDAY

PRESIDENT HAS ORDERED THE TRANSPORT GEORGE WASHINGTON MADE READY.

The signing of the peace treaty with Germany will probably take place Thursday, Paris advices indicate. There is some doubt about the date because of absence of word regarding the new German representatives at Versailles.

President Wilson has ordered the transport George Washington held at Brest for his departure home. He has agreed to remain in Paris until the treaty is signed. Final arrangements for the ceremony are being made at Versailles by Premier Clemenceau who has announced his intention to resign when the treaty is ratified.

Work on the Austrian treaty was resumed in the peace conference today, and their intention of hurrying the completion of the document is evident.

The council has referred the question of the sinking of the German warships at Scapa Flow to a commission to determine whether the armistice conditions were violated.

Tommaso Tottoni, the new foreign minister of Italy will be the leading Italian delegate to the peace conference, according to Rome advices.

### TEXAS SENATE COMMENDS ACTION

ALSO INTRODUCE ANOTHER RESOLUTION REGARDING SELLING SUPPLIES MEXICANS

AUSTIN, June 24.—The United States government has been commended for its expressed determination to protect our citizens in Mexico, by a resolution adopted in the senate today. Army officers are especially commended for their efforts to protect life and property along the border.

Another resolution asking that citizens of the United States be permitted to sell supplies both to the government and the Angeles factions of Northern Mexico, was referred to a committee.

A substitute for the house resolution proposing ratification of the federal woman suffrage amendment was tabled, 81 to 31.

### POLICE AND SOLDIERS EXCHANGE SHOTS WITH MOB

BERLIN, June 24.—Police and soldiers, who intervened in food riots in the northern suburbs today exchanged shots with mobs of men and women. There were no casualties. A number of shops were plundered. Mannheim reports say eleven persons were killed, and thirty-seven wounded during rioting Sunday. Two

### GERMANS SAY NATION VIOLATED

(By Associated Press.)  
BERLIN, June 24.—Addressing the German national assembly at Weimar Friday, regarding the unconditional acceptance of the treaty, Dr. Gustav Bauer, premier, said "A defeated nation is being violated body and soul, to the horror of the world. Let us sign, but our hope to the last breath is that this attempt against our honor may recoil against the authors."

### GERMANS BURN CAPTURED FRENCH FLAGS OF 1870

(By Associated Press.)  
PARIS, June 24.—News of the burning of certain French battle flags by the Germans has been received here. It is presumed that they are flags taken from the French in 1870.

The peace conference opinion is apparently unanimous that this is a distinct violation of the treaty, as the document stipulated that the flags be returned to France by Germany. A commission will probably be appointed to consider action.

### PROPOSAL LEGISLATURE MAKE RECLAMATION APPROPRIATION

(By Associated Press.)  
AUSTIN, June 25.—A proposal that the legislature appropriate \$25,000 to be supplemented by \$30,000 raised by owners of land affected and \$25,000 from the United States reclamation service, for a topographical survey of the Rio Grande Valley was made to the house appropriations committee by a delegation of citizens from the border. The committee stated that the survey is necessary for the intelligent construction and use of irrigation canals for lands which lie away from the river, and that many of the canal projects have gone into the hands of receivers, which makes it necessary that the farmers using them give up the operation.

James Hayes Quarles, secretary of the Texas board of water engineers, explained to the appropriation committee the treaty between the United States and Mexico concerning a dam across the Rio Grande. He is of the opinion that Mexico will co-operate with the United States in efforts to preserve the storm water of the river.

### TEXAS SENATOR DEFENDS LEAGUE

SENATOR SHEPPARD SAYS OBJECTION WAR MAKING POWER LEAGUE GROUNDLESS

(By Associated Press.)  
WASHINGTON, June 20.—Supporting the league of nations, Senator Sheppard, democrat, of Texas, told the senate today that objection to any war making power of the league was entirely groundless. The covenant only pledges the member nations to co-operate in repelling invasion, he said, "but confers no powers on the league" in that regard.

"Viewing the covenant as a whole," said the Texas senator, "it may well be characterized as the most effective instrument for the maintenance of peace and the prevention of war the heart and brain of man have yet produced. It has not attempted the impossible; it is based on a clear recognition of the fact that we have not yet reached that stage where war may be entirely suppressed. It makes war remote, however, by organizing the public opinion and the moral force of civilization in one great international unit pledged to the peaceful settlement of international controversies.

"But we are told that the United States should not enter an arrangement of this kind because our geographical situation and inherent strength make us independent of foreign broils and they say this with fifty thousand American graves in foreign soil bearing tragic testimony to the effect of a European situation on this republic.

"They tell us that if we subscribe to this covenant we do so as a matter of favor to other nations; that they need us but we do not need them. I tell you there was never a time when it was more necessary for the civilized nations to stand together for the peace and liberty of the world than now. Was neither this or the piling of armaments on armaments until the peoples backs are broken from the strain.

The covenant offers the firmest barriers against war humanity has yet known. It builds fresher and stronger foundations for the civilization and progress of mankind. It is the mightiest advance toward a higher existence and a better day since the cry of the angels in the skies of Bethlehem for peace on earth, good will to men."

### INSULAR GOVERNMENT TO REIMBURSE FEDERAL GOVERNMENT MONEY EXPENDED

(By Associated Press.)  
SAN JUAN, P. R., June 25.—Governor Yager has approved the joint resolution passed by the legislature providing that the Insular government will reimburse the Federal government to the extent of 70 percent of money expended in the harbor development provided that this sum does not exceed \$1,200,000 and provision is made that the refunding is not to commence until after the work has been completed.

This act was made necessary owing to the fact that the expenses of dredging the harbor and reclaiming the low lands along the shore will probably cost double the amount estimated four years ago.

When in Washington, two months ago, Governor Yager was assured that the Federal government would undertake the dredging work as soon as possible after the Insular government provided for meeting the increased expenses of the work.

### FALL SCHEIDMANN GOVERNMENT HUNS

(By Associated Press.)  
PARIS, June 20.—The fall of the Scheidmann government of Germany is confirmed through military advices from Weimar and Berlin.

It is believed this assures the signing of the treaty by Germany, as Phillipps Scheidmann, the premier, is understood to be the chief opponent of the acceptance of the revised peace terms.

### STRIKE OF PRIESTS IN ROME IS WITHOUT PRECEDENT

### 3,000 MILES ROADS BE CONSTRUCTED TEXAS THIS YEAR

(By Associated Press.)

AUSTIN, June 20.—Approximately 3,000 miles of surfaced road will be constructed in Texas this year, according to the estimate of the state highway department. The estimate is based upon a calculation that \$40,000,000 will be available for road building during the year, and the average cost per mile will be \$13,000.

Some of this road has been constructed; new contracts are being made now, and some is awaiting the outcome of bond issue elections.

It is estimated by the highway department that within the next three years \$100,000,000 will be spent on Texas roads. This money will come from county bond issues and state and federal aid. There also is pending a constitutional amendment which proposes to authorize the issuance of \$75,000,000 in road bonds by the state.

Considerable road not under the jurisdiction of the highway department will be constructed, but this department is urging that discharged soldiers be employed in road work whenever practical. The department now has several former soldiers on its staff.

Did you know that up in the piney woods of East Texas, near Center a real oil field has been brought in, and that it bids fair to rival the sensational developments in North and West Texas?—Beaumont Journal.

There are many that believe that East Texas harbors a number of rich oil veins underground. For many years there has been evidence of oil in this section, but until recently nothing but shallow wells have been developed. In Nacogdoches county, out at Oil City shallow wells have been in operation for many years, as they have in other parts of this section.

### PUBLIC NOW TOLD ALL ABOUT TANLAC

Authorities Now Show Just What That Medicine Really Is.

In a recent issue of this paper announcement was made that Tanlac now has the largest sale of any medicine of its kind in the world, and that more than twelve million bottles had been sold during the past four years.

These are unusual figures, and the question naturally arises in the mind of the reader why this phenomenal success and why has this preparation so far outstripped all other medicines of its kind. It is only natural therefore that the manufacturers should offer some explanation to satisfy public interest.

In the first place, Tanlac is manufactured in one of the largest and most modernly equipped laboratories in this country. Its formula is purely ethical and complies with all national and state pure food and drug laws. Altogether there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

Many of these ingredients have been individually known and used since civilization first began, and some of them have been used and prescribed by leading physicians everywhere, but until they were brought together in proper proportion and association as in the Tanlac formula, humanity had not heretofore realized their full value and effect.

In referring to one of the most important ingredients of Tanlac, the Encyclopedia Britannica says: "It has long been the source of the most valuable tonic medicines that have ever been discovered." In referring to others of the general tonic drugs contained in Tanlac the 13th Edition of Potter's Therapeutics, a standard medical text book, states that "they impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in describing the physiological action of still another of the ingredients of Tanlac which is of value in treating what is commonly known as "a run-down condition" uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which because of their influence upon the appetite, digestion, assimilation and elimination improve the nutrition and vital activity of all the tissues and organs of the body, and produce that state of general tonic which is called health.

In discussing another ingredient the Encyclopedia Britannica says: "It is one of the most efficient of that class of substances which act upon the stomach so as to invigorate digestion and thereby increase the general nutrition. It is used in dyspepsia, cholera, anemia and various other diseases in which the tone of the stomach and alimentary canal is deficient." Concerning still another ingredient this same standard authority says: "It causes dilation of the gastric blood vessels, increases secretion of the gastric juice, and causes greater activity in the movements of the muscular layers in the walls of the stomach. It also tends to lessen the sensibility of the stomach, and so may relieve gastric pain."

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required. Dyspepsia, tonic gut hysteria, an intermittent fever are among the many affections in which it has proven useful."

There are certain other ingredients described in the Dispensary and in other standard medical text books as having a beneficial action upon the organs of secretion, whose proper functioning results in the purification of the blood streams passing through them. In this manner objectionable and poisonous ingredients of the blood are removed, and the entire system is invigorated and vitalized.

Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must therefore have a far-reaching and most beneficial effect upon the entire system.

Although Tanlac's claim for supremacy are abundantly supported by the world's leading authorities, it is the people themselves who have really made Tanlac what it is. Millions upon millions have used it, and have told other millions what it has done for them. That is why Tanlac has become the real sensation of the drug trade in this country, and that is also

why it is the most widely talked-of medicine in the world today.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co. and Swift Bros. & Smith.

### BLOOD PURIFICATION VERY NECESSARY DURING SUMMER

J. J. Armstrong Took Special Care of Himself During the Summer Months.

It was very necessary that Mr. Armstrong be physically "right" in order that he would get the most out of his work.

This is to certify that I used Rogers' mineral earth (now known as Saxa) externally and internally. I was suffering with a breaking out on my feet and hands. They were swollen and itching. I used the mineral in the dry form, dusting on the affected parts of my feet and hands, and I found that I was greatly benefited. I placed about a teaspoon full of the earth in a half gallon pitcher and mixed it thoroughly, and, after settling, I drank freely of the water. This was the only blood purifier I used, and in a short time I was restored to my health. It is also good for kidney troubles, and used dry it is good to cure piles. Respectfully,

J. J. ARMSTRONG, Sr.

SAXA PRODUCTS CO. Houston, Tex.

A cotton firm with headquarters in New York is offering to buy cotton from the 1919 crop, agreeing to pay 30 cents per pound. They state in their advertisement that cotton may be worth this much this fall, or it may be worth more this fall, and we do not believe Texas farmers will contract their cotton at any such price. Cotton should be selling for forty cents per pound today.—Times.

None of us can successfully predict what cotton will be selling at. The present prices seem high at first thought, but when all things are taken into consideration it is not as high as other things in proportion. We will venture to assert, however, that if the rains keep up and the boll weevil is not exterminated, that the chances are that the price of cotton will be pretty high next year.

It has not possibly occurred to you, but a reporter for the paper heard one man arranging Saturday for his winter supply of wood. There is method in such a madness for the reason that wood can be bought cheaper now than later on in the season, and the wood dealer has more time to haul it and store it on your premises. If you have not already arranged for your next season's supply of wood now is the best time to do it.—Lufkin News.

Sound advice. Even for those of us who find it financially difficult to make the arrangement it will pay us in the long run to stint ourselves a little, and thereby save not only money, but much inconvenience and delay.

Some genuine showers fell over the Jacksonville country yesterday. They will prove most stimulating to the weed crop in the city, and will add materially to the activities of the boll weevils in the cotton patches round about.—Jacksonville Progress.

And if the weed crop in Nacogdoches assumes much larger proportions it is going to be some pretty strenuous work clearing it up. We would advise that all get busy with the hoe and rake immediately, but it would not do in the face of the present erratic weather conditions prevailing, so we will have to reserve it until later. We haven't the official figures, but if it hasn't rained every day in Nacogdoches the past month then we are badly mistaken.

### TO COMMENCE WORK ON ROADS IN NEAR FUTURE

It is believed that work will be commenced on the highways to be built in Nacogdoches county in the very near future. The bonds, amounting to \$800,000 have been sold, and approved by the state. They will probably have to be approved again when printed, and all that remains is the survey of the roads contemplated, which will have to be made before the work can be begun.

### DISCHARGED ITALIANS WANT PASSAGE TO THE STATES

ROME, June 25.—Discharged members of the American Expeditionary Force of Italian extraction have been besieging Consul Francis Keen's office here recently requesting passage back to the United States on the grounds of being United States citizens and of having served in the United States army. Employees of the office attending to the lot of these discharged soldiers immediately demand to see their discharge papers. After examining it they indicate to the men that they have waived the responsibility of the government in providing transportation when they received their discharge, for there is one clause on the back of the paper which clearly explains that procedure.

"Oh," reply the men "but my commanding officer did not explain that to me when I asked for a discharge." "That will do old-timer," retorts the consul general's assistants "Your commanding officer certainly told you that and now we can do nothing about it." The men in every case secured their discharges to visit their parents or other relatives here for an indefinite period and thereby waive right to return transportation.

A member of the Interstate Commerce Commission announces that it will be necessary to raise freight rates again if the railroads continue to operate as they are now being operated. Well, we suppose Jones will continue to pay the freight, as he always does, and Jones wouldn't object so much about paying the freight, if he gets improved service with the increased rates.—Tyler Courier Times.

And according to this announcement the freight is coming pretty high. Many people have been expecting the bottom to fall out of the prices of everything, and they are receiving some pretty severe jolts.

"Why is your wife no longer your leading lady?" "She couldn't support me in the style I had been accustomed to," replied Yorick Hamm, the eminent actor.—Louisville Courier Journal.

The patriotic people are becoming tired of the political swashbucklers at the senate. The United States senate, which ought to be the most respectable deliberative body in the world, is little less than a political theatre where envy and craft and cunning and chicanery are indulged at the expense of patriotism and statesmanship.—Rusk County News.

It is possible that when President Wilson gets back to the United States and takes the stump in favor of the league of nations, that the popular flow of criticism of the attitude of the senate will take such proportions as to wake up a few of the narrow-minded culprits. Let us hope.

The general impression is that if one German government doesn't sign the peace treaty another will. Another one is believed to be about as good as any.—Galveston News.

And that isn't saying much further either. It is likely that the Allies will have to take military steps in the long run anyway, in forcing the Germans to comply with their demands.

### A LAND BARGAIN

About 275 acres of fine agricultural land 4 miles from Nacogdoches on good road and fronting on railroad. 65 acres ready for cultivation, balance good timber. Everlasting running water and fine well of soft water. Good 4 room house and new barn, also 2 room tenant house. This place is close to school and a real bargain. Good title. Until withdrawn from the market, I will sell for \$20.00 per acre on good terms.

### TEXAN KILLED WHEN PLANE FELL TODAY

MINEOLA, N. Y., June 24.—Lieutenant Shelley M. Watson, Rogers, Texas, and M. Ireland, civilian mechanic of Westbury, were killed today when their machine fell several hundred feet in Rye beach. The plane burned, and the bodies were charred beyond recognition.

In an elevator at Rosenthal's the other day one man inquired of another where he could lease a two-story furnished home. Three women riding in the elevator giggled. "So it's that big a joke?" asked the stranger. "It's more than a joke it's an impossibility," answered one of the women.—Beaumont Journal.

The situation described above in Beaumont applies also to Nacogdoches—as well as most of the other East Texas towns. The Journal goes ahead and describing one of the causes says that building is a permanent investment and investors who are not certain that present price levels will continue, are inclined to "wait awhile longer." However we have every assurance that the prices will continue, and those citizens who have property and are waiting to build the houses will be missing enough high rent to make up the difference in the cost of

### BISHOP OF LONDON CANT LIVE ON \$50.00 PER YEAR

(By Associated Press.)  
LONDON, June 25.—The Bishop of London, Dr. Ingram, with a salary of \$50,000, finds that he cannot keep up both of the residences which go with his position, and proposes to rent or sell his town house. The Bishop's town house is situated in St. James Square, about the most aristocratic area of London. It was once the home of the Earl of Warwick and the church bought it some two centuries ago.

The other residence is Fulham Palace, which is across the Thames from the suburb of Putney, where the Oxford-Cambridge boat races start.

The Bishop explained to a diocesan conference that \$32,500 of his income went for income tax, super-tax, municipal taxes and insurance. That left him only \$17,500 to maintain these two establishments and to keep a motor, and the minimum of ten servants absolutely needed for Fulham Palace alone.

### DON'T SUFFER FROM MALARIA OR AGUE A MINUTE LONGER

Swamp Chill and Fever Tonic Will Bring You Quick Sure Relief.

For twenty years this famous tonic has been the one effective remedy for malaria, chills, ague, fever, colds, grippe, etc. Thousand swear by it. It seldom takes over three days to break up malaria chills with Swamp Chill and Fever Tonic. And no purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and bowels. This is one advantage it has over other chill tonics.

Swamp Chill Tonic contains no calomel. It is tasteless, and pleasant to take. It is prescribed by leading physicians as the best chill and fever remedy there is. That's because it contains exactly the right ingredients for such ailments.

Swamp Chill and Fever Tonic has given such universal satisfaction and has grown so steadily in popular favor that it can now be purchased practically everywhere. The price is 60 cents a bottle. Go get one from your dealer today, and see for yourself what a really wonderful malaria remedy this tonic is.

Senator Lodge explains that "I have come to the conclusion that we ought not to press the Knox resolution at this moment, because nothing should be allowed to interfere with the appropriation bills before July 1."

That explanation is about as plausible as some the Germans gave to account for their retreats, and it is prompted by pretty much the same motive. It is an effort to dull the mind of the country to the fact that the introduction of the Knox resolution was a blunder, and the further fact that the blunder was expanded to the proportions of a disaster by keeping the resolution alive after the opportunity to exert any influence on the peace conference had passed away, and until the discussion of it could have had no other effect than that of inciting the Germans to reject the treaty. The eagerness of Senator Knox to blind the country to the maladroitness of his leadership is easily understandable. But one will have some difficulty in understanding how he should expect the country to accept an explanation of such transparent falsity.—Galveston News.

ELABORATE PLANS MADE STATE S. S. CONVENTION

(By Associated Press)

GALVESTON, Tex., June 23.—Elaborate plans were made by local committees for the entertainment of the delegates to the state Sunday school convention, which opened a three-day session here yesterday.

The convention is the first held in southeast Texas for fifteen years. Prominent church workers from over the state and many from nearby states are attending.

Visiting ministers and laymen occupied pulpits in the churches of Galveston yesterday.

Addresses and conferences were on the program for today, among the subjects to be discussed being a victory construction campaign of the schools to increase their efficiency and membership.

### THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills. Over 350,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound which we are continually publishing attest to its virtue.

## GERMAN FEELING MORE FAVORABLE

ALTHOUGH GERMAN DELEGATION DECIDELY OPPOSED TO REVISED TERMS.

German feeling toward the peace treaty appears more favorable, although the peace delegation headed by Count von Brockdorff Rantzau is represented as decidedly opposed to accepting the revised Allied terms.

Latest Weimar dispatches, where the German cabinet and the national assembly is considering the treaty, reflect a different view point. The majority socialists are at present the dominant political force of Germany, and is declared more favorably inclined toward the treaty, while the clericals and democrats of the left wing are reported swinging in the same direction.

One Berlin report represents the people as resigned to only desiring to see the treaty signed and the suspense ended.

## UNIVERSAL PEACE NEAR

It is possible that the treaty of peace between the German empire and the Allies will be signed between Saturday and Monday. The Boy Scouts have been asked to have bonfires the night of the day peace is assured. This will be done in every nation on earth by the Scouts. We want merchants and others who have old boxes and trash that can make a good fire to place the stuff where the boys can get it on Saturday and Monday any time it is needed. We also hope that every whistle, bell and noise making instrument will be used for thirty minutes when the signals are given that peace has been signed.

Every Boy Scout is requested to be at the meeting Friday night to organize for the "Peace Stunt" and to plan for the big summer hike. Be on time.

AUSTIN, June 19.—Included in the cases on the docket now before the federal district court for the western district are several indictments charging evasion of the draft laws and the San Antonio brewery cases, in which it is alleged officials of San Antonio, brewing concerns made false incomes tax returns on money loaned former Governor Ferguson.

## PLAN FURTHER OPPOSITION LEAGUE

CONFERENCE ALSO CONSIDERS RESOLUTION TO DECLARE THE WAR ENDED.

WASHINGTON, June 19.—Plans to force a showdown on the league of nations in a debate before signing the peace treaty were further considered today at conferences of the league of nations' opponents. Several proposals are under consideration.

It is not considered likely that a definite course will be decided until tomorrow. One plan suggested calls for a test vote on the Knox resolution to serve notice that the senate cannot accept the league covenant as it is incorporated in the treaty. Another suggests the passage of a resolution declaring the war ended.

## VISCOUNT NORTHCLEFFE REPORTED PROGRESSING O. K.

## VOLUNTEERS WANTED FOR UNITED STATES ARMY

James M. Burton and Ben F. Rickard, representing the Dallas recruiting station, are in town today recruiting for all branches of the U. S. army. Now is your chance to see France and the Rhine. An assignment can be obtained in any foreign country where American troops are stationed, as follows: Hawaii, Philippine Islands, China, Alaska, Siberia, Panama and France. The army offers the best chance for travel and education that has ever been open in its history. There are many schools open in France for American soldiers, including the University of Paris. The soldier that goes to France will have the opportunity of attending the schools. You will learn to speak French; you will have a chance to visit the battlefields your brothers fought on. After four months service in France, soldiers are given leave to visit the famous places of Europe, such as Aix les Bains, Paris, Versailles and many of the ancient and historic places of France. Enlist, boys, see Chateau Thierry, the Argonne, Sedan and St. Mihiel. Millionaires are paying thousands of dollars to visit these places. You can rub shoulders with these birds, and it won't cost you a cent, besides you will be drawing your \$33.00 per. Ask the boys that have come back, ask them what they would take for their knowledge of Europe, and remember the Boches have been licked, and you won't have the hardships the boys of 1918 had. They are shipping every day, the quota will soon be filled. Mary Jane will be waiting for you when you get back, so let's ship off for the shores of sunny France. Apply at the postoffice between the 19th and 20th, or at the army recruiting station 1017 Main street, Dallas, Tex.

## ITALIANS INSTRUCTED MAKE SETTLEMENT

(By Associated Press.)  
PARIS, June 20.—The Italian peace delegation has been directed from Rome to accept the proposition for a settlement of the Dalmation controversy made by Clemenceau, Lloyd George and President Wilson, according to Reuter's Paris office.

Miss Helen Smith of Rusk and Miss Lucius Sharp of Cushing, who have been visiting Miss Mildred Beall have returned home.

## ADVANCES DATE SELECTION THE CIVILIAN RIFLE TEAM

(By Associated Press)  
AUSTIN, June 19.—Governor W. P. Hobby has advanced from July 16 to July 1 the date for selection of a civilian rifle team to represent the state in the national rifle matches.

The adjutant general's department has decided to supply the team with rifles and ammunition for practice, and the selection of the team's personnel will be made earlier to allow additional time for practice.

There will also be selected from the members of the Texas national guard a team to participate in the event, which will be held this year August 25 to 30 on the navy rifle range at Caldwell, N. J.

## COLUMBIA REFINING COMPANY PUTTING IN FILLING STATION

The Columbian Refining Co., recently organized in Houston, has just purchased the property where the Barnett Motor Co., is now located, and announced that they will have a nice building to be used as a filling station constructed. The building will be completed in 60 days.

This company is putting up stations like this all over the state. Many local capitalists have purchased stock in the company.

## MESSRS. BAKER AND WILLIAMS BUY ORTON & SPEARS STORE

A deal was closed yesterday by which Mr. J. J. Baker and Mr. E. B. Williams take over the Orton & Spears dry goods store, formerly owned by Mr. Lake Orton and Mr. J. A. Spears. Messrs. Baker and Williams are late of the firm of Tucker, Hayter & Co. and have been in the dry goods business a long time, thus insuring that they will conduct a first-class establishment and keep it up to its present standard.

And while the business interests of the town regret to lose Messrs. Orton & Spears these gentlemen no doubt have other interests or are contemplating other interests that will keep them for us.

The Jacksonville Progress announces that that city has not been able to get its park cleaned up, and the T. & N. O. employees have finally offered to do it. Nacogdoches could do better than that by the T. & N. O. employees were they here.

# FORD OWNERS

## Beware of Counterfeit Parts

There are hundreds of concerns over the country who make counterfeit parts for Ford Cars. They have no interest in the Ford Car and consequently do not have any regard for quality. They make parts to be sold for less money because they make them cheaper. Always remember when buying parts for your car to ask for the GENUINE. We have appointed service dealers in every town in Nacogdoches county work directly under us and who handle only genuine Ford Parts. We have supplied them with the standard price lists and the regular Ford Signs.

## Look For The Standard Ford Sign

Standard Ford signs are displayed by the garages in Nacogdoches county who handle only genuine Ford parts. LOOK FOR THEM.

# ORDER YOUR FORD NOW -- TODAY

During the months of March and April we advised prospective Ford buyers to get in line for a Ford car while they could get quick delivery. Some took our advice and are now getting the pleasure out of their cars. Others did not and are now on the waiting list with possibly two or three months between them and the car they want. Today we again advise you to

## PLACE YOUR ORDER NOW

You can't go wrong and if you wait another month it will probably take us from four to six months to get a car for you.

Orders placed now will probably be filled with the first

## Chronic Constipation.

Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of food. If you will drink an abundance of water, eat raw fruits and take lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the moist mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system, and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect: Give them a trial. Stripling, Haselwood & Co.

Several days ago The Sentinel had something to say about the Lufkin News having troubles of its own. Now it comes our time to own up that the News has not been alone in its troubles. The Sentinel has almost had to close up the job printing department the past week in order to issue the newspaper, on account of a shortage in printers—and the end is not yet.—Nacogdoches Sentinel.

It is said that one should never "trouble trouble until trouble troubles you," and it really seems that such a time has come to pass among employing printers in this section. The wonder is that some of the papers are doing as well as they are, and while the farmers are having all kinds of trouble with the rain, they should keep in mind the fact that all is not smooth sailing for the fellow in town.—Lufkin News.

## SOME VALUATION.

We all make 'em. The following article under the caption "Valuation Stirrs Farmers," appearing in a large state paper yesterday—read it and see what Nacogdoches county land is worth:

NACOGDOCHES, Texas, June 24.—From the number of real estate owners in town Monday it appears that a large majority of this class of citizens are in grief. The county commissioners are sitting this week as a board of equalization and have notified the land owners to come in and show cause why increase in taxes should not be made. Up to a few years ago land in this county was worth devotional exercises at the local Catholic church. He is assisted by several priests.

## SAYS LEAGUE OF NATIONS MEANS DOMINATION VATICAN

WASHINGTON, June 20.—Warning that the league of nations may end on nations may end the separation of the church and state and bring the civilized world under the domination of the Vatican, was given the senate today by Senator Sherman, republican, of Illinois, who declared the Roman Catholic church was represented in the league assembly by twenty-four votes out of forty-five.

Make a regular habit of eating slowly, masticate your food thoroughly and you may have no further trouble. If you should, take one of Chamberlain's Tablets immediately after supper.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like pain in the stomach, and bowels, colic and diarrhoea require prompt treatment and in such instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now, it may save life.
