AUSTRIA SIGNS PEACE TREATY

ST. GERMAIN, Sept. 10.—Dr. Karl Renner, head of the Austrian delegation to the peace conference, signed the treaty between the Allied and Associated Powers and the Austrian republic at 10:15 this morning.

When all the delegates present were seated at the round table, Renner was introduced with the same formality that was observed when the Germans entered the hall of mirrors at Versailles June 28th. Clemenceau then arose and opened the session by asking Renner to affix his signature to the treaty and annexes, and announced that the delegates would then be called in the order in which they were named in the preamble of the document.

Renner bowed and smiled graciously as he approached the table, and bowed and smiled again to the delegates as he turned to go to his seat.

Frank L. Polk, who succeeded Secretary of State Lansing as the head of the United States delegation, signed after Renner, followed by Henry White and General Bliss.

CARDINAL MERCIER WITNESSES PARADE

NEW YORK, Sept. 10.—Cardinal Mercier, primate of Belgium, who arrived yesterday to thank the United States people for the aid given Belgium in the war, among thousands, witnessed the parade of the First Division today.

Belgium's beloved spiritual prince, guardian of the welfare of 2,500,000 Roman Catholics in the little kingdom whose first fierce resistance stayed the German avalanche. Cardinal Desideratus Mercier, was born on November 22, 1851, in Braine de'Al. leud, a village only a few miles from famous Waterloo.

Typical of the heroism of King Albert's countrymen, this physically frail, but intellectual prelate of the church stirred the whole world to admiration of his courage, when, on the first war Christmas, in 1914, with Germans everywhere in Belgium, issued his famous Pastoral letter denouncing the invader and urging his people to resist in these words:

"Germany has violated her oath. We can neither number our dead nor compute the measure of our ruins. Occupied provinces are not conquered provinces. The authority of the invader is no lawful authority. Therefore, in soul and in conscience you owe it neither respect, attachment nor obedience."

Later, in protesting against the deportation of the Belgians for forced labor, he threatened Germany with "the reprobation of the civilized world, the judgment of history and the chastisement of God."

Fifteen thousand copies of the Cardinal's letter were seized and destroyed, the printer was arrested and fined and the brave priest was kept a prisoner in his palace by order of General von Bissing "until retraction of the pastoral had been signed." The Cardinal not only refused to retract his statements but became even more defiant.

He was given his liberty, finally, and continued to use his voice and pen against the "mailed fist" in crystallizing world opinion against the Central Powers. All during the war, however, he was subjected to petty persecutions and his secretary and other aides were thrown into jail. He went through the bombardments of Antwerp and Malines and braved the perils of the common soldier.

Cardinal Mercier was created and proclaimed a member of the Sacred College on April 15, 1907. Before that he was professor in the University of Louvain, which was repeatedly pillaged and desecrated in the war. The prelate's distinguished services for Belgium throughout the war has been told in frequent news dispatches. Less is publicly known of his early record as a churchman.

The Cardinal studied at St. Romhout's College, Malines, and the diocesan seminary in the same place. He was ordained to the priesthood April 4, 1874, entered the seminary at Malines in 1877 as a professor of philosophy after taking a course in theology at the University of Louvain and five years later was called to the university as professor of Thomistic, or liberal philosophy. In 1886 Pope Leo XIII appointed him a domestic prelate, with the title of Monsignor.

He comes of a distinguished religious family, other members of which have won honors in the church. One uncle, the Rt. Rev. Adrian Croquet, born in 1818, was a pioneer missionary among the Indians for thirty-eight years in the Canadian Northwest. He died in Belgium in 1902 and it is the Cardinal's wish to visit the scene of his uncle's labors.

Cardinal Mercier's visit to the United States is largely the result of importunities from all sections of the country. As President Wilson is absent from Washington the Cardinal will pay his first respects to Cardinal Gibbons in Baltimore and visit the White House later in his tour. According to present plans the noted Belgian prelate's itinerary will include, besides the cities mentioned, Philadelphia, Pittsburgh, Scranton, Albany, Boston, Providence, Hartford, Springfield, Mass., Detroit, Cincinnati, St. Louis and Chicago.

Do You Buy Or Sell Hay At \$40.00 Per Ton?

When paying 2 cents per pound for hay do you stop and think about those "little patches" of grass that you could have saved but which you DIDN'T SAVE?

Be a seller. It is more pleasant and profitable to sell hay at \$40.00 than it is to buy at the same price.

We want to sell you a mower and rake. We'll make money when we sell and you'll make money when you buy.

Let's get together on this important matter. It's money to you, it's profit to us—but it's mighty hard on the fellow who has been selling you hay at 2 cents per pound.

Next spring will you be buying or selling hay? It's up to you.

WILSON HEADING FOR WEST TODAY

ABOARD PRESIDENT WILSON'S SPECIAL TRAIN.—The President is heading due west on one of the longest legs of his country wide tour today. The only stop scheduled is Bismark, North Dakota.

BISMARK, N. D., Sept. 10.—President Wilson told a Bismark audience that the only issues involved in his tour was the "question of war or peace." The only way to maintain peace is by a "concert of nations," a league of nations.

RAILROAD WORKERS ASK ADJUSTMENTS

WASHINGTON, Sept. 4.—Representatives of six hundred thousand members of the United Brotherhood maintenance, way and railroad shop workers asked the railroad wage board today to adjust their wages in accordance with the principles laid down by President Wilson in approving the adjustments last week.

The board said the men adhered to the president's decision that there be no increases in wages while the government is actively seeking to return economic conditions to normal, but felt inequalities in pay existing between the different railroads be corrected.

GENERAL PERSHING HAS ARRIVED HOME

NEW YORK, Sept. 8.—General Pershing is home again. Standing on the bridge of the huge Leviathan itself symbolic of victory over Germany, the commander of the greatest host ever gathered under the Stars and Stripes came slowly up the bay today. World famed, and hailed as a conquering hero should be, of face, stern, impassive, a splendid figure of a soldier, he might have been thinking, as the familiar landmarks of New York came into view of the day twenty seven months ago when he slipped secretly out of the harbor on his way to France to prepare the way for the hosts to follow.

Then the Major General came back today, a General, the fourth man since Washington to have that honor under the American flag. Amid tumultuous welcome, booming guns, shrieking whistles, roaring cheers, the Leviathan docked at 8:48.

General Pershing stepped ashore at 9:20. Waiting for him at the end of the gang plank was Secretary Baker with his stands outstretched. Behind Baker were Senator Warren, of Wyoming, Pershing's father-in-law, and Mrs. Warren, with William McAdoo former Secretary of the Treasury behind this group, General Peyton March, chief of staff, and a score of generals, members of the mayor's committee of welcome.

After the first greetings, General Pershing made this statement to the Associated Press: "There isn't anything of consequence to say in circumstances like these. It is overwhelming, overpowering. To say I am glad to be home would be superfluous. I accept this in the name of the brave fellows who came over and served to the best of their ability making our success possible."

Secretary Baker made the address of welcome, and also read a message from President Wilson, hailing Pershing's return. Pershing's son, Warren, and brother, accompanied him.

URGES ACCEPTANCE TO STABILIZE LABOR

OMAHA, Sept. 8.—A prompt acceptance of the peace treaty by the labor unions would be clear throughout the world, the President before an Omaha audience today.

The international labor organization to be set up under the treaty, said, gives labor a new bill of rights. Before the address the President was given an eight mile automobile ride, women of the Red Cross motor corps driving the party.

Leaving immediately after the address, the President speaks tonight at Sioux Falls. In his address here he said he was happy to appeal for the acceptance of the treaty, not as a representative of the party, but as a representative of the whole people. "Everyone who read the treaty," the President declared, "agreed that it contained a 'complete settlement of the matters that led this war' and contained machinery by which it will stay settled."

SMALL GINNINGS REPORTED TO DATE

WASHINGTON, Sept. 8.—Late news of the cotton crop, ranging generally from two weeks or more throughout the cotton belt, resulted in exceedingly small ginnings to date the census bureau announced today.

Only 138,993 bales were ginned prior to September 1st, which is about 87 percent under last year, ginned to date.

SPEAKING AT THE COURT HOUSE SATURDAY

There will be a man in Nacogdoches Saturday, September 13th, to speak in the county court room at 2:30 on "Raw Cotton." This will interest everyone, especially the farmers.

Everybody come and hear this gifted speaker.

THE THREE GENIES OF THE HAND GRENADE.

Part II.

(Continued From Yesterday)
Tommy decided that the voices came from the hand grenade. "Let me out!" it cracked and sputtered. "I have work to do! There is evil in the world. I belong to the Forces of Destruction, but I am against evil and for good. I am Death! I am Life! Let me out. I am the Genie of the Hand-Grenade! Pull the pin and let me out!"

Tommy Thoughtful, as if moved by some powerful force, jumped out of bed, ran to the table and pulled the pin of the hand-grenade. Then, with a splitting crash, the hand-grenade was burst violently apart, and the three Genies rushed out. How Tommy could see so great and terrible a creature, he didn't know, but he DID somehow see the Genie-of-the-Hand Grenade.

The Genie's face was black, yet shining, with a terrible sort of beauty. It was angry and awful, yet it had a sort of fierce goodness all mixed up with anger and even eagerness! Robes of flame, twirling flame patterns of changing lights, white, red, blue, green. He seemed to grow until the whole room was filled with his fiery presence. The walls split apart with a loud crash. Something struck Tommy Thoughtful with a terrible force. He didn't know where he was hit, nor where he was, but he, too, seemed to pass out of the room with the rushing Genie.

And the Genie seemed to join with an army of other genies that rushed and swirled in robes of fire through leagues of air chasing before them a strange black SOMETHING that had no form, but only a feeling of hate and horror.

It all happened so quickly that Tommy couldn't tell how it was over, but the Genies caught up with this great, horrible, black THING that seemed like a terrible storm cloud without form, yet was also solid and hard to pierce as iron. With terrific force they rushed upon it and split it into a billion-billion pieces and blew it apart like dust.

Then there burst upon the world a LIGHT—great and wonderful LIGHT through which came a white-robed Angel-like figure with a green branch in her hand and with rainbows playing around her hair. Tommy thought her name must be Peace.

Tommy blinked and opened his eyes to the broad, bright shaft of sunlight pouring through the windows, in which radiance stood Mother in her white morning dress, with the sunlight making rainbows in her hair-gold hair.

Tommy didn't say anything about this wonderful dream, for he remembered his Mondamin Dream and he the next night. Tommy knew that if you talk too much and too soon about your dreams and Genies and things like that you'll frighten them away. But he went to sleep the next night with an excited feeling that something was going to happen.

(To Be Continued Tomorrow.)

RESOLUTIONS OF RESPECT.

To the Commanding General and Soldiers of W. O. W. No. 210:

With the passing of Sovereign Lee M. Wilkerson, Woodcraft has lost a faithful and devoted member; the city a worthy citizen; the county a noble man and the church a worthy supporter and patriot and the home its capture and support. With his departure we are again reminded that "in the midst of life we are in death." He is no longer here, therefore we call him dead. His voice is hushed and his appearance is no more, therefore we say he is gone, but we suddenly reminded that he is not dead but only sleeps until that great morning "When the midst shall roll in splendor, when the seal of darkness and doubt shall fall from our eyes; when the body shall rise as incorruptible as the soul and we shall know as we are known," in that city where mystery shall be no more; where parting and tears and separation and their memory shall be forever erased and where the joy eternal shall reign everlasting.

Therefore be it resolved that in the passing of our worthy sovereign Woodcraft has suffered great loss; the home a vacancy that can never be filled and the citizenship a noble and worthy associate.

Be it further resolved that a copy of this resolution be spread upon the minutes of this camp, a copy sent to the family, and a copy furnished each of the papers for publication.

BUSY DAY FOR THE PRESIDENT

(By Associated Press.)

ST. PAUL, Sept. 9.—President Wilson arrived here for a busy day, including an address at the Hidianapolis armory this afternoon, and an address at the auditorium here tonight, after which he leaves for Bismarck.

"The cost of living," President Wilson told the Minnesota legislature was due largely to a "world situation," growing out of the sacrifices and waste of war. Back of that lay the fact that the world had not yet learned what the peace status would be.

"The world is not going to settle down until it learns what part the United States will play in peace," the president said this is the only nation which has enough free capital in the near future to rehabilitate the world economically.

The legislature, in an extra session to consider the cost of living and other subjects, received the President with cheers. The President congratulated the legislature on the ratification yesterday of the federal woman suffrage amendment. The President said the nation's duty first to set the commerce of the world going by the establishment of peace. Having established the world settlement economically, he declared it imperative that an arrangement to insure that "nobody monkey with the process" set up.

FIVE KILLED IN FIGHT WITH POLICE

(By Associated Press.)

HAMMOND, Ind., Sept. 9.—Five strikers were killed and fifteen wounded today in a battle between a thousand former employees of the Standard Steel Car Co., and the police.

Two months ago two thousand workmen struck for increased wages, and improved working conditions. After a riot five weeks ago, state troops were sent. They were withdrawn two weeks ago. Yesterday, 200 workmen returned to work, causing a bad feeling among those refusing to return. Today when two hundred were on their way to work a crowd of a thousand born foreign strikers threatened them. Twenty policemen, and twenty special guards ordered the dispersal. The crowd dispersed, yelling "Scab."

Captain Strong, commanding the police, ordered the leaders arrested. The crowd attacked the police with sticks and stones. Strong says several strikers drew revolvers and fired a number of shots. The police replied, firing about seventy-five shots into the crowd, killing five and injuring about 15 strikers. Later the strike leaders were taken into custody. None of the police were hurt.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

DISCOUNTS VALUE FEDERAL ACTION

CLEVELAND, Sept. 9.—Acting President John Lewis, in a report to the convention of United Mine Workers of America, discussed the increased cost of living, and the improbability of any sweeping reduction through the "debated" federal action. He recommended the cancellation of the Washington wage agreement in the bituminous field by November 1st. The negotiation of a new wage scale will be enforced in the case of failure to reach satisfactory settlement by a general miner's strike throughout the entire jurisdiction of the United Mine Workers.

PRESIDENT ARRIVES IN KANSAS CITY

KANSAS CITY, Sept. 6.—President Wilson's party arrived here at 9:05 for a whirlwind visit to Kansas City and departed at noon for Des Moines, Iowa, where he speaks tonight.

A large crowd awaited the president at Union Station plaza, where the parade through the downtown streets started.

President Wilson appealed to a Kansas City crowd today to support the peace treaty as a charter for the new order of world affairs. When the President and Mrs. Wilson appeared on the platform of the vast auditorium, each person in the crowd, estimated at twenty thousand, arose and cheered over two minutes.

The president was cheered by a sidewalk throng during the four mile parade from the station to the hall. In his address the president covered many of the same points of the treaty that he had discussed previously. He said he had come to report to the people direct about one of the greatest documents in human history. The treaty is "Shot through with American principles put there by the common consent of the world. One of the things America had in the heart of her whole existence was arbitration and consultation be submitted for force. This is accomplished by the league of nations covenant. Nine months of discussion of any international controversy would be assured under the covenant."

Referring to the boycott provisions he said the "most conclusive" thing that could happen to a nation was "to be read out of decent society."

Massage this sweetly fragrant lotion into the face, neck and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

SENATOR REPLIES TO WILSON SPEECH

WASHINGTON, Sept. 5.—The President's declaration at Columbus yesterday that the international labor conference provided for in the peace treaty will be held here next month regardless of whether the senate ratified the peace treaty in the meantime, was attacked in the senate today by Sherman, republican of Illinois, who declared the president's declaration was a "contemptuous disregard" for law. Sherman said "public officials have been impeached for less flagrant violation of the laws of our country."

CAPTAIN OF THE COAST ARTILLERY IS HERE TODAY

Capt. Nelson Dingley, 3d, formerly commanding officer of Battery "F" 64th field artillery, which will be remembered as the company of coast artillery organized and sent out from this city during the war, arrived in the city today from Fort Crockett, Galveston, Texas, and will spend a few days in the city visiting the boys.

Capt. Dingley is a pleasant, agreeable gentleman, who entirely won the hearts of the boys while they served under him. He was always considerate of their interests, and sympathetic in their difficulties, which has endeared him to them in a way they will not soon forget, and they are very glad to have him as their guest for a few days, and are going to endeavor to make his stay pleasant and enjoyable while in the city.

EVERYTHING IN READINESS FOR OPENING OF SCHOOLS

The teachers secured for the schools of Nacogdoches Independent School District the coming year are as follows:

- Nacogdoches High School—L. B. Davis, principal; T. H. Hunt, teacher and director of athletics; W. C. Ware, science; Miss Ethel Dodd, history; Miss Ruth Barham, history and English; Miss Mayo Provence, English; Miss Grace Ball, Spanish; Miss Gracie Lightfoot, Latin; Miss Ruby Fincher, Home Economics; Mrs. Ella B. Cain, manual training; Miss Annie Cowling, mathematics.
- North End Grammar School—J. F. Bailey, principal and teacher.
- West End Grammar School—E. A. Beall, principal; Miss Mary Williams, Mrs. Robert Blackwell.
- Central Grammar School—H. H. Hall, principal; Miss Fay Hamilton, Miss Anna Belle Ferguson, Miss Elsie D. Proctor, Miss Trudie Nicholson, Miss Sarah McCall, Miss Louise Moore, Mrs. W. C. Ware, Miss Juliette Miller, Mrs. Pearl Newton.
- Colored School—E. J. Campbell, principal; Peyton Walton, Link McNeil, H. C. Carpenter, Ida Pears, Emilene Carpenter, Mary Campbell, Odie Curl, Virginia Liggins.

From the foregoing list it will be noted that all of the schools of Nacogdoches this year will have a strong faculty the coming term, in fact a much stronger one than was expected by some. Supt. Davis says that the biggest difficulty they have had to overcome is the shortage in getting a place for the teachers to stay, and that not nearly all of them have succeeded in getting a place yet. Should anyone be able to accommodate one or more teachers they would confer a favor by letting Mr. Davis know. Probably the next biggest difficulty encountered will be in the matter of finances. Many of the salaries of the teachers has been raised, and as a consequence the school will face a several thousand dollar shortage.

The first week of the school, which is Institute Week, will begin Monday, Sept. 15th. The opening of the schools proper will occur Sept. 22nd. Supt. Davis says that the school books are coming in, and that everything will be in readiness for the beginning of school.

NEW DEPARTMENT FOR THE HIGH SCHOOL

A new department will be opened in the schools this year, which is vocational agriculture. Principal Lynn B. Davis spent the entire summer in school preparing for this work, and will have charge of this department. The work will be real scientific agriculture, and because this is an agricultural country, should prove very profitable. All high school boys will get the same character of training that they would get in the A. & M. College. Aid for this work is given under the Smith-Hughes law, which makes the work possible on such an extensive scale. This department will extend great opportunity to boys that want to be farmers. It will be a real agricultural department under the government. A government inspector will visit the department about twice a month, to see that the work is kept up to the proper standard. plot of ground will be secured work by the boarding students, while the home boys will have individual plots at home, which must be at least an acre each. The government man will inspect each of the plots. Supt. Davis says that this will be a very effective way of reducing the high cost of living, as the boys will grow much stuff that would not otherwise be grown.

Mr. Ware, who will have charge of the science department, comes from Ouachita College, of Arkadelphia, Ark., and was formerly Professor of Science in the Rusk Academy. This department has previously been in the hands of Mrs. J. M. Marshall, and has held a very high rating. Prof. Davis says that we are indeed fortunate in getting such a man to keep up the standard and high rating in this work.

OVER 100 TRANSFERS TO THIS DISTRICT MADE

Supt. Davis says the prospects were never brighter for a greater work. More than 100 transfers to this district for the purpose of entering the high school have been made to date. Many have moved here and bought homes for the purpose of putting their children in the school, which speaks well for the Nacogdoches school. The great problem in this connection is housing the students and teachers, and Prof. Davis will appreciate any help rendered in this difficulty, as stated before.

Nacogdoches schools have always had a very high rating, and have become prominent in the educational affairs of the state, and it is indeed gratifying to know that the standard will not only be kept up, but will be made better in the coming term.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, . . . and the pains were very severe. A friend told me I had tried everything else, why not Cardui? . . . I did, and soon saw it was helping me. . . . After 12 bottles, I am strong and well."

TAKE CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

TON SPARKS DIED HERE EARLY THIS MORNING

Mr. Tom Sparks of the Caro community died in the hospital here this morning at 8 o'clock, following an operation several days ago. The remains of Mr. Sparks will be laid to rest in the cemetery at North Church tomorrow, the services being conducted by Rev. C. A. Westbrook at the cemetery at 2 p. m. Mr. Sparks was a member of no church.

Mr. Sparks is a farmer, son of Allen Sparks, who lives near Mahl. He is a well known and prosperous farmer of his community. It will be remembered that Mr. Sparks lost his wife in January. He married again late this summer, and leaves a wife with nine children, five of whom are his own, and four belonging to his wife, besides his parents and several brothers.

It was with much pain and knowledge of loss that Mr. Sparks' many friends learned of his death this morning. He was 42 years of age, just entering into the prime of life, and it is sad indeed for him to have to go just at this time, and leave his wife and children alone, but it is not for mortal man to defy the law of the immortal.

DISTRICT COURT.

About the only thing of prominence to come before the court yesterday was two hotly contested divorce suits.

One was a white couple, Latham vs. Latham. This couple had been married 38 years, had much property, and several grand children. The other was Haggie Fields vs. Doc Fields, colored. Both divorces were granted.

The grand jury will finish its work of returning indictments this morning and will go into recess, probably meeting again later in the session of court.

Feel Old?

Overwork, worry, anxiety or sorrow undermines strength and health. These causes contribute to kidney trouble, and weak or diseased kidneys make one feel old in middle age.

Foley Kidney Pills

help weak, overworked or diseased kidneys and bladder so that the system is free from waste and poisonous matter that causes one to feel old, tired, languid. They banish backache, rheumatic pains, sore muscles, stiff joints.

Mrs. J. B. Miller, Syracuse, N. Y., writes: "For many years I suffered with kidney trouble and rheumatism. I had a severe backache and felt miserable and all played out. I got to a place where I had to do something. After taking two bottles of Foley Kidney Pills I can say my backache is gone, and when I used to lay awake at night with rheumatic pains I can now sleep in comfort and enjoy a good night's rest."

AMERICANS REFUSED MEXICAN PERMITS

LAREDO, Sept. 6.—Many Americans were refused permits to enter the Tampico section of Mexico when they declined to waive the responsibility of the Mexican government of any bodily harm that might befall them.

The Mexican consul has just received instructions for the attachment of this waiver to all applications for permits to enter the Tampico section where a number of Americans and other foreigners were attacked by bandits recently.

AMERICAN MISSION CONSTANTINOPLE

CONSTANTINOPLE, Sept. 6.—An American mission under Major General Harbord to study the situation in the Near East arrived here in the interest of increased, respecting the possible acceptance by the United States of a mandate in Armenia, or of the Ottoman empire including Constantinople, or regarding whether Great Britain will share the burden. Americans here favor a blanket mandate giving control politically against future big wars, including a civil government and developing commerce on a big scale.

VIRGINIA MINERS RESORT VIOLENCE

CHARLESTON, VA., Sept. 6.—Five hundred miners who left Oak Grove today to march across the mountains to Coal River, where they said they intended to enforce unionization in the mines, were joined at Racine, on the little coal river by three thousand more men, according to word received by Governor J. Holt Cornwell. All are said to be armed according to information the co-operators of Guyan field yesterday unloaded a carload of machine guns at 3 different places in Logan county as a means of preparation to meet the miners from Kanawha and coal river fields. The governor last night ineffectively pleaded with the miners not to use violence, in asking them to return home.

TROUBLE BETWEEN BRITISH GERMAN

COLOGNE, Sept. 6.—Serious disturbances between German and British troops at Euskirchen, 20 miles southwest of here has resulted in a soldier being badly injured. The leader of the Germans, named Kupler was court martialed and sentenced to death and the tow fined a hundred thousand marks.

GARRISON LOCALS.

From The News. Mr. W. P. Paul of the Athens Brick & Tile Co., the new purchasers of the brick yard, arrived in town the forepart of the week to take over the management of the enterprise as soon as some little details can be worked out and full delivery of the property made. In the meantime Mr. Faulk is sending out a car load of the shale to the Athens factory for a test as to the best uses of the clays found here.

Dr. K. C. Deason was up from Nacogdoches Saturday afternoon.

Miss Claude Lewis visited Nacogdoches Saturday.

George Tinkle made a business visit to Nacogdoches Saturday.

Mrs. W. Y. Garrison and daughters Mrs. R. B. Walthall and Mrs. S. W. Wornack, were up from Nacogdoches Friday visiting old friends.

Joe D. Garrison and family came up from Nacogdoches Sunday for a little visit to relatives and friends in town.

H. J. Stockman of the Silas community was in town Sunday, coming to meet his wife and daughter, who were returning from Nacogdoches where the young lady had been attending the business college.

Miss Bessie Fay Yarbrough was carried to the sanitarium at Nacogdoches Friday of last week where she underwent an operation for appendicitis. The many friends of the young lady will be pleased to learn that she stood the operation nicely and has since been doing well, giving hope that she will be able to return home in a few days. Her parents Mr. and Mrs. R. H. Yarbrough, and the family physician, Dr. Turner, accompanied her to the sanitarium.

GERMANS REPLY TO ALLIED NOTE

BERLIN, Sept. 5.—The German reply to the note of the Allies regarding representation of Austria in the German reichstag says that the peace delegation informed the Allies May 27th that Germany had no intention to modify the Austro-German boundary by violence, but could not undertake to oppose the German-Austrian spontaneous desire for union with Germany.

WEEKLY SENTINEL

BALTIMORE & GIBBS, PUBLISHERS

Fighting the high cost of living by striking for higher wages is like hitting a punching ball—every time you hit it comes back, and the harder you hit the harder it returns.

From the present view one gets of the school campus in this city, it would seem that the official game this year will be hide and seek.

In 1920: No, Nacogdoches is not a monkey colony because those human shaped animals are living in trees, she is just a little shy of rent houses, that's all.

The more the automobile replaces the horse, the faster the weeds and grass grow. But then the more automobiles, the lazier become the human family.

Hired help is so scarce on the farms of Kansas that the farmers are reported stealing each other's hands. An opportunity for the Kansas law makers, if they are akin to their Texas brethren.

Prices have suffered another drop in New York. Nacogdoches won her reputation for sociability and sympathetic hospitality when prices were going up. She is as cold as a wedge and an isolated hermit when they go down.

Senator Lodge will report the peace treaty to the senate tomorrow. No doubt the duty will be a painful one to that gentleman, and we wouldn't be surprised if about the only thing he will submit will be the reservations.

Nacogdoches entertained royalty, or rather royalty entertained Nacogdoches this week in the form of a black negro prince from the heart of Africa. Now every negro in Nacogdoches is engaged in trying to trace his ancestors—if he is black.

There is nothing to the life of single blessedness. The married man gets all the blessings and the next door roomer steals the comfort.

About the only place for the lowly nicker these days is in the church basket.

And also there is only one place for the copper colored coin we used to call a cent and which won't even buy a "cent" now, is to weigh yourself to see how much you have lost since the nation went dry and the cost of living went to Mars.

Herbert Hoover, who is said to have been the virtual dictator of Europe, will sail tomorrow for the United States. There are several dictators in this country, among them being the big packers, the foreign relations committee and our old friend Hon. H. C. L., and we won't have any objection to placing them all in a ring and letting them fight it out—but then the foreign relations committee would want to be the referee.

Another thing we would like to know is what became of all the rent houses while the soldier boys were in France? There is something peculiar about this proposition that we can't understand, unless it be that they are bringing a flock of immigrants back with them, including several of the Parisian specie of the better half.

El Universal, a newspaper of Mexico City prints a dispatch under a Washington date line, quoting Secretary Lansing as saying that Capt. D. W. McNabb was on the Mexican side of the Rio Grande in his airplane when he was fired upon by Mexicans, and that he would make no recommendations in the matter. Americans are not the only enterprising newspaper men in the world.

A manifesto issued in Mexico announces that patriotic women are displeased at the way the men are conducting the affairs of life in Mexico, and that they will take up man's burden before they will see the fatherland made unworthy. If the Mexican female of the specie have any of the propensities of their American sisters the greasers had better begin to scatter.

France is contemplating presenting America with the special train used by General Pershing in France as a souvenir, and it is stated that any indication by American officials that it would be appreciated would result in its immediate presentation. First may we inquire if its crew are immune to strikes, and second, some body will likely have to assure the Director-General of Railroads that he will not have to take care of it.

MOTHER'S SMILE

What a sacred and beautiful thing to remember in the maturity of years is mother's smile. In the dim vista of memory there stands out the look of whother when she smiled down through a veil of tears at your childish inquiry, as her heart racked with pain. And again will any unseer force erase from your mind the smile that mother gave you when you joined the colors and left to fight for freedom's cause what untold agony lay in that mother-heart, and what spirit of sacrifice gleamed through that smile. Or perhaps when you left home, or when you were married and mother had to give you up?

A true mother is worshipped by her children as the holiest mortal thing in the world, and what depth or meaning that mother smile contains; what springs of joy flowing through a fountain of sadness, that gives it expression; What else is there in the world like it—that mother smile?

What crown of holiness there seems to be resting on her head what radiance of tenderness and love when mother smiles? The smile of the reveller may lead men to destruction, but the smile of mother is a benediction of love and holiness.

And will the cells of memory ever forget that sweet smile that rested on mother's lips as she departed into the unknown to receive the crown of life? No, wherever man's life or occupation, or habits, or desires, or even chance may take him, no matter into what depths of the maelstrom of life, there is always a place in the memory of man for mother and always mother's smile. And it is not until we ripen into maturity that we learn, as James Whitcomb Riley says: "We are not always glad when we smile,

For the heart in a tempest of pain May live in the guise of a laugh in the eyes, As the rainbow may live in the rain."

It is said that exchange may be effected by which students of Mexico will enter the University of Texas and students of the University will enter Mexico for a furtherance of their studies. Texas students are not all white-livered, but we doubt if there are many of them that care to go further than a border state to get all the Mexican education they want.

President Wilson is urging acceptance of the peace treaty in order that labor conditions may become settled quicker thereby. There are some men—and some of them have in some way managed to land in the senate—that would rather hoist the red flag and let the whole country turn bolsheviki than submit to the tenets of Wilsonian philosophy.

Tom Campbell, former Governor of Texas is endorsing William Jennings Bryan for president next term. We have already heard from Ferguson and Bailey—isn't there some other relic of ancient Texas politics we might dig up for an expression on the subject?

A minimum price for the farmer of the south to dispose of their 1914 cotton crop will be discussed at the meeting of the south's cotton growers, in New Orleans in the near future. It is refreshing to hear some discussion of the "minimum" price or something, after all the "maximum" prices we have had to pay recently.

America has gotten to be so looked upon by European nations as the foster parent of the universe that it seems as if every nation under the sun—always excepting Mexico—wants us to guarantee protection against every other nation.

Evidently the Mexicans consider that they own the air above them straight to Heaven, from the way they shoot at American aviators. But they are mistaken—they own the earth clean on down to the other place.

A conspiracy to flood the land with worthless securities has been uncovered in Chicago. Texas is floating worthless oil securities now, and about the only oasis is Mexico—and every thing is worthless there.

About Nacogdoches' only hope of getting rid of all the old buildings of the city, it would seem, would be a cold hard winter, and a fuel shortage, a desperate citizenry and an abundance of axes.

To get a handsome set of kitchenware absolutely free if you buy a MAJESTIC range next week, is an offer worth investigation. Visit our special demonstration during the week commencing Sept. 15 to 20, and we will show you this fine ware which is an out and out gift. Cason, Monk & Co.

RAILROAD MAN IS OUT WITH FACTS

So Badly Rundown He Had To Quit Work—Gains Twenty Pounds on Tanlac

"Tanlac has not only relieved me of a case of stomach trouble that made me miserable for three or four years, but I have actually gained twenty pounds in weight besides," said Charles O. Schwendel, of 3115 Vliet street, Milwaukee, Wis., recently. Mr. Schwendel is night watchman in the yards of the Chicago, Milwaukee & St. Paul Railroad and has lived in Milwaukee all his life.

"Nothing I would eat agreed with me," he continued, and the sight or smell of food would nauseate me. Right after eating I would have terrible pains in my stomach. I would bloat up with gas and suffer with pains around my heart. At times this gas would almost cut off my breath and would make me so weak I could hardly stand and when I would bend over to throw a switch I would pitch forward on my hands and knees. I couldn't sleep more than two hours a day and just had to force myself to work.

"I tried everything I heard of, but got no better. Then I laid off from work for some time trying to rest up. One of my neighbors persuaded me to try Tanlac and it has made me feel like a new man. I am eating again and everything I want without the least trouble from it, and I sleep like a log. I haven't had a pain or an ache of any kind and will always have a good word to say for Tanlac."

MR. SAM STRIPLING AND MISS WRIGHT MARRIED

Mr. Sam Stripling and Miss Josie Wright were married in Dallas last night at 9:30, according to a telegram received in the city this morning. The message did not state any of the particulars, simply that they were married.

Mr. Stripling is the senior member of the firm of Stripling, Haselwood & Co., druggists of this city, and too well known to need introduction. He has long been a prominent business man of this city, always found in the ranks of the progressive and working for the upbuilding of the city, a man of striking personality, and high moral worth.

Miss Wright is a sister of Mr. Stripling's first wife, who died several years ago. Since then she has been making her home in Nacogdoches, and taking care of Mr. Stripling's children. She is formerly of Henderson. She is a beautiful accomplished young woman, in every way fitted to reign as a graceful queen over the home she has been chosen to preside.

It is presumed that after a bridal tour the couple will come on back to Nacogdoches, where they will make their home as in the past. The Sentinel joins the host of friends of both in extending congratulations and good wishes, and trusts that the future may hold much happiness and prosperity in store for them in their new relationship.

Women do not like to look older than they really are. Neither do men. Both sexes are subject to kidney troubles, and kidney troubles makes the middle aged look old. TEXAS MAN TREATED FOR CANCER

Col. W. A. Poage, Member of State Legislature, After Giving Up All Hope, Says He is Cured.

The recent death by cancer of an intimate friend caused Col. W. A. Poage, 180 Lyle, Ave., Waco, Texas, member of the Texas State Legislature, to make the following statement:

"I feel that I am permanently cured of my cancer trouble. In August, 1917, I came to your place in Kansas City suffering with a bad cancer on my face. I had almost given up all hope, for I had been treated by some of the best doctors in Texas, and had grown steadily worse under their treatment. I suffered a great deal of pain. Two weeks after you began to treat me, I grew better, and in three months felt that I was entirely cured. The day I went to you was the best day of my life."

The above was written to Dr. O. A. Johnson, Suite 560, 1324 Main St., Kansas City, Mo., the physician who treated Col. Poage so successfully. Dr. Johnson is perhaps the best informed man in the United States today on cancer. He conducts a large institution for the treatment of cancer, in connection with which is also maintained a laboratory for scientific cancer research. Thousands of cases have been investigated and treated in the past twenty years. This treatment is entirely non-surgical. Purely medicinal measures only, are employed; that is, external applications to destroy the cancer and intestinal medication to purify the blood.

Dr. Johnson has published a most interesting book called "Cancer Truths," being a statement of his theories and experiences in treating cancer. This book will be sent gladly to any cancer sufferer, or if you have a friend afflicted with that dis-

FINE CORN EXHIBIT.

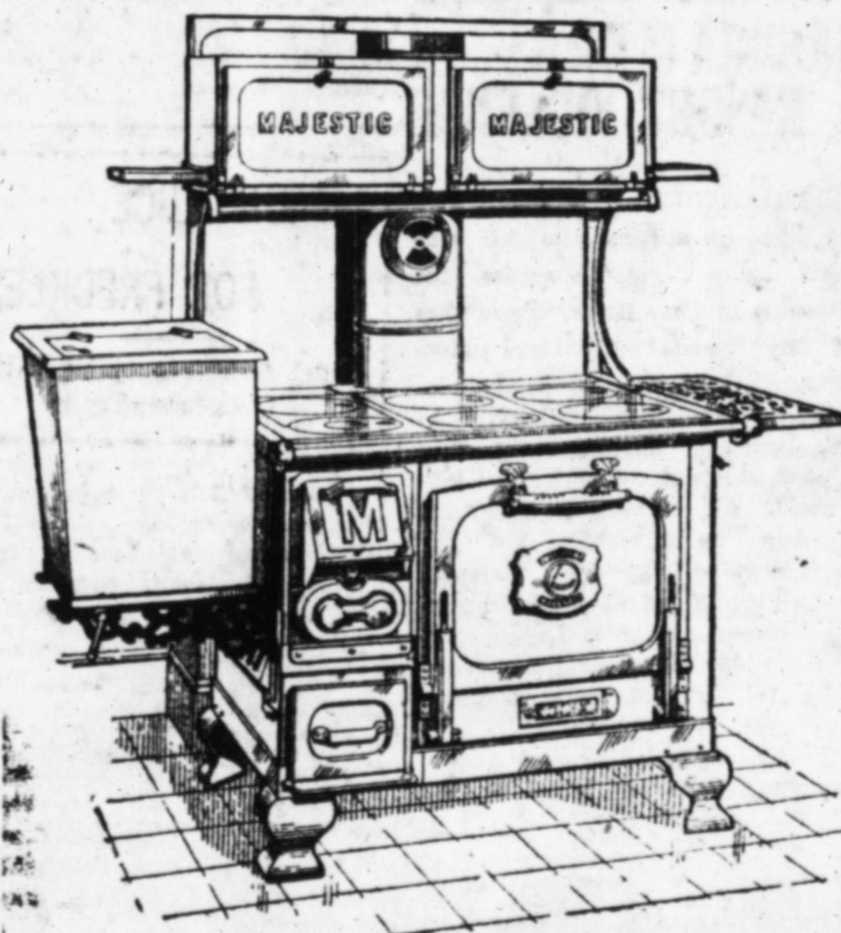

Mr. Jas. D. Greer, the county dem-

onstration agent, was exhibiting some corn on the streets here yesterday that is worthy of mention.

Mr. Greer had with him 2 ears of corn nearly 26 inches long. Both ears contained 3050 grains. Mr. Greer says that he has some even larger and better than this which he will exhibit later.

Mr. Greer has none of the corn to sell, but will supply a small quantity to Nacogdoches county farmers without charge who are interested, and who will take care of it for seed only. He says that this is a demonstration that a person can do almost anything he wants to with corn in this country, if he will just have the patience to do it.

It's MAJESTIC range bargain week at Cason, Monk & Co.'s store next week. Don't fail to take advantage of this special offer.

THE BARGAIN

AND IT'S WELL WORTH YOUR WHILE.

Through special arrangements with the manufacturers, and during this Bargain Week only, a beautiful, useful and substantial set of Cooking Ware will be given with every Majestic Range sold. This ware is good ware (not cheap ware) it's worth a lot to you. Come and see for yourself.

AND REMEMBER—

The price of a Majestic Range this week will not be increased, and there will hardly be a great reduction for years to come, if ever, but there may be an increase soon.

TWO NEW AND IMPORTANT FEATURES

The Wonderful Unseen Riveting

Yes, it's rivet-tight, just like the old Majestic, but the rivets clinch inside of nicked parts, leaving nickel smooth as glass, and there are no big, bulky bot-heads on the inside. And, remember, rivets hold tight; bolts with only 1 or 2 threads holding are bound to work loose and cause no end of trouble. The Majestic is smooth inside and outside—it's a striking beauty—more than skin deep.

If you haven't a MAJESTIC, avail yourself of this opportunity to get acquainted with this wonderful range—know the inside of ranges.

Oh, Joy! Top Needs No Blacking

A smooth, highly polished cooking top, burnished blue, not only adds to the beauty of the Majestic, but absolutely eliminates the work, dirt, and worry of trying to keep the range looking nice—just an occasional thin coat of paraffine retains its beautiful velvet blue color.

Great Majestic Range BARGAIN WEEK

SPECIAL DEMONSTRATION AND BARGAIN SALE OF

Majestic Ranges

AT OUR STORE—ONE WEEK ONLY

Sept. 15th to 20th

TO BE TRULY ECONOMICAL THERE SHOULD BE A MAJESTIC IN YOUR KITCHEN

Economy is not merely spending the least money—buying a range at too low a price is indeed false economy. The first cost is not the only cost—the little additional first cost of a Majestic is nothing compared with its economy of fuel, durability and satisfactory service.

Nearly a million Majestic Ranges, now economically, scientifically and satisfactorily serving millions and millions of people, civilians and soldiers, is proof positive of their superiority over all others.

There is only the best. The public has judged. The Majestic is recognized as the standard of all ranges. The construction, material, workmanship and beauty of this wonderful range is unequaled, and it embodies important features possessed by no other range.

Your Opportunity is Here—

At our store—during our Majestic Bargain Week. It's your chance to get acquainted with real facts about ranges. We assure you it will be worth your while to investigate.

EAST TEXAS Cotton Mill Association

TIMPSON, TEXAS

Authorized Capital, \$200,000.00

TRUSTEES

DR. T. F. WHITESIDE, Chairman; C. C. MURRAY, J. A. MOSES, T. P. RUTHERFORD, V. H. MCKEE, F. R. BUSSEY, J. F. WILLIS

How much difference should there be between the price that the mill pays for the cotton and what the farmer gets for it?

The North Carolina mills paid about \$15,000,000.00 more for their cotton last year than the farmer received for it.

Getting down to a unit basis, the farmer who grew the bale of cotton lacked about \$11.50 getting what it was worth to the mill.

There should be at least 500 cotton mills in Texas and there are only 18. Texas is a large producer of raw cotton. Great Britain and Japan buy raw cotton in Texas and manufacture it into cloth and sell it back to us. Neither of these countries grow cotton. Isn't it queer that where all the raw materials are there are no mills to manufacture it? There is even plenty of lignite coal being mined on the land opposite our mill site here.

The Texas mills have a great advantage over the New England mills in that they are nearer the great southern markets. The Panama canal has placed these markets in our very door.

Neither will the labor question be so great now. Many skilled textile operatives will now come from Europe to this country.

Many faulty ideas have been set up as to why a mill in Texas would not be successful; but we have 18 in the state now operating successfully. We happen to know that the little mill in Brenham, Texas, in one year spent \$175,000 for improvements and then declared a very satisfactory dividend. Also we are informed the Itasta Mills paid 75 percent dividend on every dollar invested last year.

Our salesmen will be in your community soon and we want every farmer and others to buy that possibly can.

FREE SCHOLARSHIP IN THE SCHOOL OF YOUR CHOICE

The Tyler Commercial College of Tyler, Texas, is positively the only business college in the state which teaches a thorough course of practical modern bookkeeping and business training. Other schools teach theoretical bookkeeping; some of them call it actual business, but it is not. The commercial room of the Tyler Commercial College is a community of business houses, of various kinds, banks, wholesale, commission, real estate, retail, insurance, etc. Each student is engaged in real, active business, learning to do by doing. Every entry made by the student during his entire course is created by an actual sale or purchase, it may be grain, it may be groceries, dry goods, real estate or stock in a corporation, but the transaction is really performed and every paper required in the transaction, whether check, note, draft, receipt, mortgage, deed or what not, is filled out by the student. Partnership contracts are drawn up and agreed upon between the parties forming the company. Articles of incorporation are drawn up. Through these practical methods the student learns business as well as bookkeeping, they learn how to meet one another face to face and transact business in a business way, instead of copying theoretical transactions from a text book as is done in every other commercial school in the state. It takes more teachers and better teachers to teach our system. When a student learns to do a thing by actually doing it, he learns it thoroughly, and with our practical face to face business methods we are able to give the student a thorough course of bookkeeping and business training in less time than he could possibly get the theory, or so-called practical bookkeeping alone in other schools.

We will give a free scholarship in the school of your choice to anyone finding another school teaching both bookkeeping and business through practical business transactions as we do. Similar practical methods are used in teaching shorthand, cotton ginning, telegraphy and business finance, calculator, and motion picture operating. We believe in teaching in the school room that which you must do when going into the business world, and it is this policy that has made the Tyler Commercial College of Tyler, Texas, the largest school of the kind in America.

Write for large free catalogue explaining the original methods of teaching and securing positions. There is a reason for our school drawing patronage from thirty-nine different states and seven foreign countries. Investigate it, the best is none too good for you, for you must use this education for life, and its quality measures your success.

If your child is pale and sickly, gawks at the nose, starts in the sleep and grinds the teeth while sleeping, for these parasites will be found in White's Cream Vermifuge. TEXAS SWEET POTATO CROP EXCEPTIONALLY GOOD

AUSTIN, Sept. 10.—The Texas Sweet potato crop exceptionally good this year, the division of markets announced, after making an investigation.

A number of new potato curing plants have been erected in the state, and the officials predict the sweet potato will form a substantial portion of winter rations for Texas.

FIFTY-FOUR STATE BANKS GRANTED CHARTER THIS YEAR

AUSTIN, Sept. 10.—The department of insurance and banking has granted charters to fifty-four state banks since the first of the year, and more than 100 applications for charters have been handled. Many of these are pending.

For the past sixty days, says Commissioner Briggs, applications have been coming in at the rate of one a day, and the department has never been so pressed with business.

Each new banking project submitted to the department must be investigated personally by an inspector. In addition to this, each of the 125 state banks must be inspected quarterly. Up to September 1st, there were only nineteen bank examiners, and they were forced to work Sundays and overtime to get around, Mr. Briggs said.

NOTICE.

I will be compelled to raise the rural telephone rate on October the 1st, on account of the high cost of living, and high operating expenses.

I have tried to avoid this raise, but find it impossible or else I would have to shut down altogether on the first. I will assure the public that when conditions justify I will reduce the rate to the original.

Now I am going to ask every one that is behind with me with their dues, to be kind enough to send it in to me so I can keep the exchange going, please do this. Thanks.

Respectfully,
J. J. BOYETT, Appleby, Texas.

DISTRICT COURT.

Nothing was done in the district court yesterday of interest. Several divorce cases came before the court but none were granted. Judge Guinn returned to his home in Rusk and District Attorney W. E. O'Quinn to his home in Lufkin.

The court will take up the jury civil business Monday. The first case to come before the court will be Johnson vs. Hall, followed by Hall vs. Hayter.

CHICKEN PIE DINNER.

The Woodmen Circle is going to give a chicken pie dinner next Saturday, Sept. 13th.

If there are any of the Woodmen's wives who would like to donate a pie it would be appreciated. The proceeds will go for the benefit of the Circle and the W. O. W.

Everybody come and get your dinner at the Woodmen Hall Saturday.

During the week commencing Sept. 15th to 20th a handsome set of cooking utensils will be given away free to every purchaser of a MAJESTIC range. This is an out and out gift, and the price of the MAJESTIC remains the same as always. See them while you are at the special demonstration next week. Cason, Monk & Co.

The foreign relations committee seems to have a ward on hand—which perhaps will furnish a new subject for discussion. Demonstrations have been held by Egyptian nationals in the cities of that country, and it is said that the cause of the demonstrations was a telegram from the head of the Egyptian delegation in Paris stating that the foreign relations committee of the United States had declared that Egypt should be independent. And yet the esteemed committee is very much opposed to President Wilson mixing in European politics.

Experience in thousands of homes has proved that the MAJESTIC is the one range that gives real satisfaction and cuts down the cost of living. An expert from the MAJESTIC factory will be at our store during the week commencing Sept. 15th to 20th, and he will show you why the MAJESTIC is the only range for you. Cason, Monk & Co.

DEPARTURE FROM ORDINARY IN HANDLING RURAL SCHOOLS

AUSTIN, Sept. 10.—A departure from the ordinary in the handling of rural schools was made recently with the organization of the first district under a new law. This district is in Travis county and embraces Pflugerville and four smaller schools. The system to be used is very similar to the ward school system of the cities. Ward schools will be maintained at the four smaller places and at Pflugerville, which also will have a high school, where graduates from the ward schools will attend. It is affiliated with the University of Texas. The district voted a \$47,000 bond issue to carry out the plan.

BOLSHEVIKI!

Sledge hammers were used by the Bolsheviki in murdering Russians at one place in that country. The whole world revolts at such a horrible and ghastly crime, in which over a thousand were murdered and mutilated.

It is a sad thing, as well as a horrible one, when an apparently civilized government can degenerate in a short course of two or three years, to such a state of barbarity that the officials of its government can commit an act of wholesale slaughter that would be repulsive to an African cannibal or a Turkish fiend, and would make them go away back and pray to whatever sort of god he had, to forgive him should he commit such an act.

Russia has descended from a powerful nation, one respected throughout the earth to a land of crime and stench; a land of fanatics and lunatics; a land of misery and desolation, one that causes the entire world to view its boundaries with contempt. All the pity of the gaze of the world upon such a scene has long since disappeared.

The cold horrors of that frozen land has chilled the heart of humanity. The name of "bolsheviki," or common people, as it means, has been adopted by the nations of the earth as the epitome of all that is anarchistic, horrible and unholy. It has become a by-word to be applied as an insult. Thus it is with great rejoicing that we note that the anti-bolshevistic element seems to be getting the upper hand in that vast frozen land where religion and home and love has been desecrated and cast aside.

A dispatch says that if Dante Alighieri lived in Florence today he might be inspired to write another "Inferno" with shoes as the prime cause of evil. Also we presume that if Diogenes lived in these days, he would carry a full equipment of star days somebody will have to go on the honest man, instead of his lantern. For married men only: Don't you feel little these latter days when you request your wife to economize and she returns by showing you where she saved ten dollars by buying a hundred dollar coat suit at a sale, and points out to you where you could realize a dollar and forty-nine cents by buying your next summer's straw hat now.

A PECULIAR ANIMAL.

Man demands the best in his animals, in his machinery, in his land, and in truth in everything which he uses to serve himself; his stock must be registered—it doesn't matter about his child—his machinery must be in smooth running order, his implements in perfect shape. And yet it is a peculiar thing that this same human animal we call man cares so little about the best in himself—pays so little attention to the things that make him best, physically, mentally and otherwise.

There are certain laws of diet and exercise that nature demands to produce the best physical type, and yet man is living in the dark ages in the chemistry of food. There is a certain amount of physical exercise that must be taken to insure the proper functioning of the human body, and still the sedentary man goes from his work straight home and, regarding exercise or physical exertion with impunity.

Man admits that he uses but one-tenth of his brain power, and after he is thirty years old you can't tell him anything, he knows it all. Education, learning, is a thing for the school days, and you must learn a trade and nothing else, or you will be a pack at all trade and good at none. An occasional departrue produces a genius and man says he is born that way, or else luck favors him. If the average man uses one-tenth of his mind he becomes ten times as great as the normal man.

But there are also many of us who use so much of our mental faculties and pay so little attention to our physical self. A genius in industry at 45 who has to direct his forces from the bedside, or from a sanitarium, can hardly be called a success.

Man is also to a great extent unmindful of the immortal forces within him, and very many of us wait until we are ready to die before we begin to think about the Great Beyond.

Thus it is that man demands perfection in his animal and inanimate tools and neglects the perfection of himself. But we are learning; the world is growing better and stronger each succeeding generation, as it has done from time immemorial, and will until the end.

You may polish up a bonehead and wash a pin head in gold, but neither will stand the gaff.

THE FIGHT BEGINS.

Senator Hitchcock sounded the battle cry yesterday in the senate when he addressed that body in favor of the ratification of the peace treaty and the league of nations, without amendment. The senator declared that the treaty opponents "crawl on the ground with microscopes searching for pitfalls" in the league of nations and overlook its substantial benefits. This is probably the prelude to the real battle that is to come.

In the same connection it is noted that President Wilson leaves on his speaking tour in favor of the same cause, and also that before he left he called Senator Hitchcock into conference with him at the White House, presumably to discuss the final plans for the fight for the treaty's ratification.

All of these matters promise to prove interesting in view of the fact that it has been pretty generally conceded that the treaty and league would never be ratified until changed. President Wilson has a powerful personality, a marvelous determination and a clear conception of duty, which the world is already familiar with, as well as his uncanny force of will power. While he has quite a number of opponents he has a vast following among the rank and file of the common mass. It is to appeal to this mass that he goes on the speaking tour. To arouse them from their lethargic spirit into action—action that will result in nothing short of the ratification of the treaty without any amendment whatsoever.

Texas is a vast democratic state Nacogdoches county is a democratic county as is the city of Nacogdoches. All of us therefore, are supporting the administration and interested in the success of the present battle, but there is little we can do for it, as the support needed must necessarily come from the republican following.

The country is tired of the eternal rant of Senators Borah, Lodge, Knox et al, and it is possible that a reaction may ensue. They have made themselves not only repellant to the democrats, but to many of their own party as well, and doubtless the fall of their regime is near at hand, although this is too good to hope for. In the meantime we shall see what we shall see.

MEXICAN MUDDLE

A special investigator of the American government makes public the information that President Carranza of Mexico gave his support to a proposed invasion of the United States during last year. The United States went into the world war to protect our rights, and on less provocation than we are getting from the Mexican government, and if we don't take some decisive steps pretty soon we can hardly blame the Mexicans from saying that we are afraid to do anything, even though we know that is not the reason.

It will be remembered that there were also some European nations that made some slanderous remarks about Uncle Sam being "too proud to fight," and were taught a lesson to their contrary.

There are many that believe the day is not far distant when the United States will have to attempt a military occupation of Mexico, as she has some parts of Germany now, and establish a protectorate in Mexico, as in much the same manner of the Cuban government. It is an established fact, from outside evidence, that Mexico is no more capable of self-government than is Cuba, if as much.

The Mexicans seem to be more brazen and more impudent and more disrespectful each day, and it is certain that some decisive measure must be taken, not only to protect American interests and American citizens in Mexico, but on the border also.

The newspapers in Mexico are endeavoring to do all in their power to improve the situation as well as forces in the United States. The Sentinel received a copy of a Mexican magazine the other day, published in Mexican with the English translation much of which was devoted to propaganda in regard to the friendliness of the two countries. But they are powerless to really benefit the situation because the Carranza government does not heed them, and is in opposition to the policies they declaim.

REDUCING THE COST OF LIVING

A wiseacre says that there are too many people trying to reduce the high cost of living with a pen and not enough with the hoe. Possibly so, but there are many that wouldn't know what to do with a hoe if they had one. In this connection it is worthy of note that the high school this year is adopting a plan that will assist materially in reducing the high cost of living. An agricultural branch will be added, in which each student will cultivate at least an acre. The work will be carried on under the supervision of the government, and a government man will inspect them about twice a month. In this way the work will be kept up, and it will be done right.

ANOTHER FAD COMING.

Listen to this: The latest fad of the fashionable women of London and Paris is to have their photographs taken in bed. Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. THE THREE GENIES OF THE HAND GRENADE.

Part III.

Sure enough! Deep in the night Tommy heard a sweet, mellow, almost singing, sound that seemed to fill the room.

"Let me out! Let me out! I am the Genie-of-the-Second-Hand-Grenade!"

Tommy knew where to look this time, but what he saw surprised him. On his table stood a rich-yellow long-necked squash very like a hand-grenade in shape. Tommy jumped out of bed, ran to the table. How was he to pull the pin? There was a vine! He laid his finger on the vine. It seemed to be quivering as if with some great force and, actually it was growing on a vine! Right there in his room it was growing! And the vine was growing out of the United States School Garden Army Manual! Tommy laughed right out!

"Pluck the fruit from the vine hummed the voice, "then I can go forth."

Tommy pulled the squash from the vine. It seemed there was a great force quivering in the squash, but not bursting out. Only a soft, deep, strong, humming music filled

the room. Then there rose from the neck of the squash-grenade a beautiful being. He had a pale, yet dark skin, and dark, softly shining brown eyes. His head was wrapped in a fold of a golden-yellow turban, his robe was deep, rich yellow, and all patterned over with squash-shaped shadings of golden-yellow touched with green.

"I am Sunshine! I am Earth- I am Life!" said the Genie in a golden voice that filled the room with music. Packed in the little yellow hand-grenade of your table were powerful forces of earth and air. Your labors and the labors of thousands and thousands of United States School Garden Army soldiers are storing up great forces like that all over the land. You and your fellow gardener soldiers will free us—the Genies of the Earth, to fill the world with plenty."

Then the gold and yellow clad Genie seemed to grow and grow and fill the room until the walls fell away as a squash blossom does from the growing squash, and Tommy and the Genies swept out across the moonlit land. As they passed through the air they were joined by other genies. Some were in robes of rich crimson, some of dark garnet, some

of brown, some of green, some of gold, some of purple. Tommy recognized the spirits of his vegetable friends.

On and on they swept, with a force as great as, yet very different from, the force of the First Genie. They were chasing a SOMETHING pale, white, ghostly, cloud-like, from which came a ghost-like wailing, like voices of children. But they overcame the Cloud, and blew their laughing music upon it, and it scattered like mist before the sun. Out of it came, rattling to earth, a skeleton-like figure, which fell away into dust; but as the sunlight struck the dust, there rose from it the figure of a beautiful, motherly woman, all in robes of soft golden, sunlight yellow, who carried a great horn of plenty, filled with colored vegetables and fruits.

"Look in my eyes," said the woman. "I am PLENTY. I come to take the place of Famine!" and in her eyes Tommy saw a magic vision. The Genies store magic power in the hand of the first happy beams of the sun he saw, all over the land, millions of United States School Garden Army soldiers coming out of their homes into their gardens to help the great grenader.

PLANE ATTACKED ON THE AMERICAN SIDE

WASHINGTON, Sept. 4.—The American army airplane fired upon by Mexicans Tuesday "was at no time over Mexican territory," the war department was informed today by Major General Dickman, commanding the southern department.

Mexican officials claim the machine crossed the international boundary lines before the Mexicans opened fire, wounding Captain D. W. McNabb. The Mexican government has expressed regret over the attack and promised satisfactory adjustment.

PICKED UP IN LUFKIN.

Here it is in a nut shell: Will Moore a young white man about twenty-one years of age, was arrested here Saturday on a charge of obtaining recognition at a bank in Nacogdoches it is said, and having a check honored for \$214.00—even money. As related to a News reporter, the check belonged to the father of the young man, and after a trip to Shreveport, and a return to Lufkin, Deputy Sheriff C. C. Mathis, who had been solicited to look into the matter, placed the young man under arrest, and the sheriff of Nacogdoches county was here yesterday and took the young man mentioned to Nacogdoches county to answer whatever charges may be preferred against him. It is rather a peculiar circumstance when filial relationship is taken into account and just what the outcome will be remains to be seen.

—Lufkin News.

After the young man was returned here yesterday, his father agreed to pay all the expenses, all matters were properly attended to, and the young man was released.

EAST TEXAS HOSPITAL READY FOR STATE INSANE, AT RUSK

AUSTIN, Sept. 8.—Governor Hobbs Saturday sent notification by wire to the county judges of the various counties in Texas notifying them that the East Texas Hospital for the Insane at Rusk has been completed and patients are now being received. The county judges are instructed to transfer insane patients in the county jails to the new asylum, it being said that the institution is prepared to take care of patients at the rate of 75 per week.

Statistics gathered by the governor from the various county judges of the state disclose that there are a present confined in the jails a total of 278 insane patients, divided as follows: Ninety-four white men, 49 white women, 71 negro men, 63 negro women, 6 Mexicans.

This is the first time over a long period of time that the jails will have been emptied of insane patients.

DISTRICT COURT.

In the case of Jno. Matthews, et al vs. Henry Harris, et al, a temporary injunction was perpetuated. Jno. Matthews represents the Melrose telephone company, and in this case it is alleged that the defendant tacked a telephone line on to the Blankenship line, this line being a private line and that the law provides that lines must be connected at a switchboard. The following divorce suits have been granted at this term of court to date, some ten or twelve being tried yesterday:

OCT. 11TH SWINE BREEDERS DAY AT DALLAS STATE FAIR

Annual meeting of the Texas Swine Breeder's Association, livestock pavillion, Dallas Fair grounds, October 11th, 8:00 p. m. There will be a supper prepared served in the Livestock Restaurant to those wishing it, at \$1.50 a plate.

Be sure and attend the meeting because a great many things of vital importance to the hog men of this state will be discussed. This meeting will be strictly business, without any preliminaries or literary program. All voting is by secret ballot and those that can not come have the right to give their proxy to some other member in their county. Everybody invited.

A Texas Swine Breeders Special Sept. 2th, from Dallas at 4:30 p. m. via M. K. & T. railroad to Des Moines, Iowa, to the National Swine Show. The National Swine Show is the greatest hog show on earth and the Association believes it will pay every hog man in the state to go see the best animals living in the world today.

It is our idea to all go together from Dallas, leaving the afternoon of the 2th, arriving in Des Moines the afternoon of the 29th, and attend the Poland China show on the 30th, and the Duroc Jersey show on the 1st of October. No man can produce the best until he knows what the best looks like.

It is also being arranged to have extension swine men from all the northern states meet in Des Moines. Wherever it is possible it is advised to buy good breeding hogs in Texas, but where they are not available in sufficient numbers, we think it most desirable that you buy good registered animals from the northern states.

Please write me at once, sending \$5.94 if you want me to engage a lower Pullman reservation and \$4.77 for an upper Pullman reservation. We will also have hotel reservations made for you in Des Moines if you wish; no advance payment necessary.

EDWIN HOUSTON, Sec. Texas Swine Breeders Association, San Antonio Chamber of Commerce.

REACTION HIGH PRICE LEVELS

WASHINGTON, Sept. 5.—A reaction from high price levels established during the war has set in, the Federal Reserve Board's review of business conditions for August says. Not only some foodstuffs are declining in cost to the consumer, but the price of wearing apparel, such as textiles and shoes is also effected.

"Business continues at an extremely high level." Confidence of a satisfaction solution of wage and price problems is reported from all sections of the country.

BOLSHEVIKI EXECUTE OVER A THOUSAND

CONSTANTINOPLE, Sept. 4.—Over a thousand persons were executed by the Bolsheviki before their evacuation of Yekaterino-Slav in southern Russia, according to a dispatch quoting a physician present at the opening of the pits into which bodies were thrown after their execution. The physician declares that the victims' hands were crushed with hammers, and the bodies badly mutilated. Many were found with broken legs and ribs caused by sledge hammer blows.

MARRIED AT METHODIST PARSONAGE SATURDAY NIGHT

Mr. Joseph Johnson and Miss Mamie Wilson were married at the Methodist parsonage Saturday evening. Rev. J. L. Massey, pastor of the Methodist church officiating. The happy young couple left Saturday night for Houston, where they will spend a few days, returning home probably tomorrow, after which they will reside at the home of Mr. and Mrs. John Teutsch.

Only a few immediate relatives and the wedding came as quite a surprise to the many friends of the young people in the city.

Mr. Johnson is a son of Rev. M. C. Johnson, pastor of the Main Street Presbyterian church in this city, and is employed with the Ford Service Station in this city. He is an admirable young man, competent in his line of high moral integrity and worth and is universally popular with those who know him.

Miss Wilson is the daughter of Mr. Benton Wilson of this city. She is a beautiful, accomplished young woman, well known and popular with those who know her, and a friend of all who come in contact with her. She is a true representative of grace's womanhood, and will make a fitting life companion to the young man she has chosen.

That they may ever be happy in the new relationship, and that love and prosperity and worthiness may ever be theirs, is the wish of The Sentinel in joining the many friends of the contracting parties in extending congratulations.

REAL AFRICAN PRINCE IN NACOGDOCHES TODAY

Nacogdoches is not to be outdone by the eastern cities while the royalty of Europe is visiting the United States. The old city has within her confines today a real African prince son of one of the former Kings of an African tribe in the dusky country he hails from British East Africa.

The Prince was born in the interior of Africa, in Ungoro, British East Africa. His father was the king of this little country. The Prince was educated in Oxford, England, and speaks the French, Italian and German languages, as well as all of the different dialects and languages of his own country. He says that he learned the various languages while visiting in the various countries. He was with the Bowmans in England for ten years. He is 43 years of age having been born in 1876.

Prince Rega has his passports from England, and credentials from the British consul at Washington, to prove his identity. He is a preacher and will lecture at the Colored Methodist church tonight, giving stereopticon views in illustration. He will also preach at the same church at 11 o'clock service in the morning. The lecture begins tonight at 8:45 and special seats will be reserved for white people.

TWO DAYS EXTENSION OF TIME GRANTED AUSTRIANS

PARIS, Sept. 4.—The Supreme Council of the peace conference has decided to grant an extension of two days to the Austrian delegates.

The Austrian delegation asked the peace conference to extend the time for answering the terms two days, which request being granted, will make the answer due Sept. 9th.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Doesn't hurt a bit. Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

PURVIS SPRADLEY DIED HERE SUNDAY MORNING

William Purvis Spradley, son of Mr. and Mrs. John Spradley, died in the hospital here Sunday morning at 1:30 o'clock, following an illness of something of something over two weeks. Purvis was 17 years of age. He is survived by three brothers Horace Cole Williams, who is making his home in Florida, L. Cole of Garrison, and Charles Cole; one sister, Dora Cole, of El Paso, all of whom will arrive in the city today, to attend the funeral service, which will be held in Oak Grove cemetery this afternoon at 3:30 o'clock, Rev. C. A. Westbrook, pastor of the Baptist church, conducting the service.

Purvis was born in this city Oct. 25, 1902, and has lived here all of his life. His parents, Mr. and Mrs. Spradley, were very fond of him, and loved him so deeply that it is nearly breaking their hearts to give him up. It was a sad death, in which the young fellow prayed to his Maker with fervent prayers long before his death to be spared and run his course on mortal earth. He died with this prayer on his lips, passing out into the Great Unknown into the land of promise, before his time and against his will.

Purvis had a great ambition, a longing desire to do something of usefulness on this earth, and it was his desire to be a writer. The editor has seen some of his work, and it was exceptionally good for one of his age. Below is reproduced a little poem that is being read at his funeral, and which was published in this paper March 21st, 1918:

THE VOICE OF SONG.
Singing through the night,
Ages of delight;
The song holds its own.
Calm the summer sea,
Wild the turbulent storm,
You will constantly hear the voice of song.

Through village and country,
Foreign lands divine;
World of happiness and delight,
Constant wandering with the throng
You will hear the voice of song.
Terrors absolute reign,
Horror wild and terrible,
Cannot drown the voice of song;
Strangers wandering through distant lands,

Their hearts will lighten as they hear
The calm, sweet voice of song.
Wander far, and wander near,
The world is wide and long,
But wherever you abide,
You will hear the voice of song.
In the trees the winds sing,
On the earth animals sing,
And the joyous happy world,
Letters its vengeance of mighty,
With the voice of song.

It calms the old age,
Sweetens the path of the new,
Makes life a dream,
Makes you and I strong.
In simplicity's faith,
Our paths may be far apart,
We may part never to meet again,
We will constantly be reminded
Of each other by the voice of song;
Sadness may be felt,
Bad news center around,
All our world will brighten,
At the voice of song.

It calms the old age,
Sweetens the path of the new,
Makes life a dream,
Makes you and I strong.
In simplicity's faith,
Our paths may be far apart,
We may part never to meet again,
We will be constantly reminded
Of each other by the voice of song;
Sadness may be felt,
Bad news center around,
All our world will brighten,
At the voice of song.

Power's strong and numerous,
Against us may abide,
But the voice of song,
With us constantly will abide.
But the Reaper of men spares not
nor listens to any plea, as he stalks
abroad in the land of the living, and
the frost of death may be visited
upon the fairest flower. Mortal man
can but accept the inevitable, and
gain comfort from the knowledge
that death is not the end of life, but
a place of transition to the glories of
the realm beyond, where only im-
mortals may enter; where mortal
clay takes on immortality, and where
the corruptible flesh is changed to
incorruptibility.
