A DEAD BABY.

The infant daughter of Mr. and Mrs. F. D. Moody died early Wednesday morning at the Heitman house after a week's illness.

The remains of the baby will be taken to Linn Flat for interment Thursday morning.

Her father, mother, brother, sister and many relatives and friends of the family are grieving for the brightness which has been taken from their lives by the death of this little one.

CARRANZA LOSING GROUND

Agua Prieta, Sonora, April 28.—The revolutionary movement has spread to Chihuahua, where additional Carranza forces have joined the rebels, according to press and Sonora official advices. Sonora revolutionary leaders said that it was indicated that the Carranza government was losing ground in northern Mexico without bloodshed.

CARRANZA TROOPS REVOLT

Agua Prieta, Sonora, April 28.—Approximately 4,000 Carranza troops at Parral and Jiminez, Chihuahua, revolted yesterday, according to information given out here by Elias Calles, commander of the revolutionists in the northwest.

FIGHTING IN CHIHUAHUA

El Paso, Texas, April 28.—Fighting in Chihuahua City between revolting and loyal troops was reported by Carranza officials in Juarez late last night following the establishment of wire communications as far as Terrazam, a station 30 miles north of the state capital, on the Mexican National railway.

After months of effort, the Sentinel has at last secured the services of a job printer—one of the best in the country—and will be glad again to receive orders for job work of any description which it promises shall be done speedily and well. We have been compelled to turn away most of the job work offered us for the past six months because of insufficient help, but we hope that our friends will now place orders for anything they wish in the line of printing. dwf.

JUDGE INGRAHAM DEAD

Judge George F. Ingraham, one of the city's foremost citizens, died Tuesday afternoon at his home at an advanced age. He had been in frail health for a long time, but despite this his death was a distinct shock to the community.

He was a lawyer, had served as district judge, as county judge and county treasurer, and in every position he acquitted himself with and honor.

He came to Nacogdoches many years ago when he was a young man and has been identified with every worthwhile movement known in the history of the city since he first made it his home.

He is survived by his wife, two daughters, three sons and a large number of other relatives, and to these the full sympathy of all our people goes out.

JUDGE INGRAHAM'S FUNERAL

Funeral services for Judge George F. Ingraham were conducted at the grave in Oak Grove cemetery at 4 o'clock this afternoon by Rev. J. L. Massey of the Methodist church in the presence of one of the largest concourses ever assembled to pay respect to a deceased citizen. Relatives and friends from many points in the state were present. All business houses were closed during the funeral hour as a mark of esteem and respect.

OFFICIAL VIOLATED LAW

Washington, April 27.—Charges that Louis Post, assistant secretary of labor, had violated the law "on behalf of aliens who have contempt for this government and who are trying to overthrow it" were made today before the house rules committee by Chairman Johnson of the public immigration committee.

50,000 SOLDIERS REVOLT.

Agua Prieta, Sonora, April 27.—Over 50,000 soldiers in Mexico are in revolt against the Carranza government, it was announced at military headquarters today. Nearly half this number, it is said, have joined the revolutionary forces in Sonora.

TO EXPEL INVADERS

Warsaw, April 28.—A general advance by Polish forces along an 108-mile front into the Ukraine was announced in today's statement. The movement has for its aim the expulsion of "foreign invaders," it was said. The invaders are termed bolshevik. The Poles covered 50 miles the first day of the movement, their advance lines taking them within 60 miles of Kiev.

COTTON OUTSIDE U. S.

Washington, April 28.—No large quantity of cotton with the quality of the American product can be produced outside of the United States for many years, is the conclusion of the department of Agriculture after a survey of the most promising regions for growing the staple. Even with the necessity to supply the increased world demand, new fields or larger production are not in sight.

UGHT TO BE IN JAIL

The Sentinel pleads guilty. We did it, but it was not intentional. We wouldn't even treat a republican that way, knowingly. In Monday's paper there appeared a notice of the marriage of a couple in this city, the bride coming from Timpson, but our careless reporter let his typewriter get away from him and accused her of coming from Lufkin. Now, the reporter had no reason on earth for saying such a thing about the young lady, and is all het up over his blunder. But of course any newspaper that would accuse a person of coming from Lufkin when they could possibly come from anywhere else, ought to be in jail.

A. H. Hart of Garrison was in the city Tuesday.

TROUBLOUS HIGH RENTS

New York, April 28.—Prospects of disorder in connection with the threatened rent strikes here May 1 have become sufficiently alarming to attract the attention of department of justice agents, a member of the mayor's committee on rent profiteering said today. It was announced that a department agent would confer with the committee later in an effort to prevent serious outbreaks.

H. C. L. INCREASES

Boston, April 28.—The average cost of living for the American wage earners advanced 7 percent between November, 1919, and March, 1920, according to a report by the national industrial conference board, it was announced today. This makes the total in the increase of the cost of living 94 8-10 percent since July, 1914, and 21 percent within one year, the report said.

NO OTHER CHILL TONIC EVER GAVE SUCH SATISFACTION.

Is How Oklahoma Man Endorses Swamp Chill and Fever Tonic.

Mr. Harve Smith of Haileyville, Okla., tried various chill tonics, but found nothing that equaled Swamp Chill and Fever Tonic. He says this famous remedy never failed to cure his chills.

Thousands of others who once suffered from malaria, ague and similar ailments praise Swamp Chill Tonic as strongly as Mr. Smith. For twenty years it has been one of the never failing remedies.

Swamp chill tonic acts quickly and surely. It seldom takes more than three days to break up chills. And no purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and bowels.

There is no calomel in Swamp Chill Tonic—nothing but purely vegetable ingredients and iron. It is tasteless, and pleasant to take. Numerous physicians prescribe it regularly—they know it is the best remedy there is for malaria, ague, chills, fever, colds, grippe, etc.

Dealers everywhere recommend and sell Swamp Chill Tonic. The price is 60 cents. Try a bottle.

TRADE AT HOME

A great part of the trading away from home is done because people do not keep in touch with their home merchants. The big mail order houses of the country have swamped the entire nation with a deluge of catalogues. They have placed them in nearly every home, and the people have become so educated to consulting catalogues before making a purchase that home merchants are not considered.

People take it for granted that the home merchant will not have what they want or that he will ask several times the catalogue price for it.

Such utter lack of consideration for the home merchant work an injustice both to the home merchant and purchaser as well. The home merchant is an asset to a community. He is not a thief, a fly-by-night crook, or a grafter. The community is his permanent home. He desires to live his life there. He wants to see it grow and keep apace with progress. So it is wholly unreasonable to consider the home merchant in any other light than that of honest business. He studies his community, knows its needs and provides for them.

It may be that in some instances prices of the home merchant are higher than catalogue figures, but people must consider several features of home buying that more than overcome cheap catalogue buying.

In the first place you see what you are purchasing and have variety to choose from. You have none of the anxiety that goes with mail order buying, no freight loss, express loss, or postal loss. You pay your money to the home merchant and get the goods.

But more important still, by trading at home you keep the community money at home, and after all it is the wealth of a community that limits its progress.

Get acquainted with your home merchant. Familiarize yourself with his wares and prices. Try to realize his vital importance to your community and trade at home.

IT COULD BE WORSE

In these days for some reason or another there seems to be a staggering amount of discontent; not the kind of discontent that makes individuals better, but the kind that makes them akin to bolsheviki. On every side our government is cursed, scathed, and the men managing its affairs are held up for broadside of slander and vilification.

The writer is unprejudiced in his views. The situation that confronts the people of America is no worse today than it was in the time of Adam. The man of today is a king to compare with his forefather. Man today in the most humble condition infinitely more agreeably situated than the cave man. He is protected by law, he has schools, churches, convents, and the results of the accumulations of centuries, and lastly he has chance to achieve.

It appears just as sensible for the average healthy man of today to complain as it would be for a millionaire to beg for pennies on the streets. The stalwart man who bemoans his inability to cope with other men, assume rank with other individuals, is a man that is admitting that he is a quitter, an incompetent, envious, and not willing to accomplish his dreams. A dreamer is the finest person on earth if he will strive to realize his plans, but a dreamer who will not work will turn bolsheviki—it's just natural.

If some people would spend half the time working that they spend cursing the government and bemoaning their fate, they would be prosperous persons. Your lot might be hard on earth, but remember, it could be worse. If you are well, be thankful to God that such is the case; if you are sick, be thankful that you ain't dead.

Work is the solution of your troubles, and you ought to know what kind would suit you the best!

WORKERS SET GOOD EXAMPLE.

This scribe has long contended for the application of the doctrine of the Fatherhood of God and the Brotherhood of Man, and the Gospel of Sunshine, to all the affairs of life, and in the main has received more scoffs and cynicism than anything else. It is, therefore, pleasing to note the following, dug out by the Literary Digest, which shows a growing tendency over the country to do that very thing. In this instance it is being applied industrially and we predict that the time is coming when it will be applied commercially, and when it is, many of the ills which now oppress humanity will quickly be solved:

"Take your troubles to the Lord—he's your 'Big Boss,'" was the counsel recently received and acted upon by a body of mill workers in Wheeling, W. Va., who were on the verge of going out on a strike, and in Cleveland, Ohio, a dispute between Swift & Co. and 550 packing-house employees was settled after the strikers and the management had listened to a homily on the love of God and the necessity of returning to His teachings by John J. Walsh, conciliation commissioner of the United States Department of Labor. "We must

back to God's teachings and must have brotherly love in our hearts to make the world's great undertakings go forward," exhorted Mr. Walsh. In the West Virginia town the application of the Sermon on the Mount to the solution of modern industrial problems has been suggested to the Ohio Valley Trades and Labor Assembly by Will H. Colvey, a locally prominent business man known as the "Peace-Maker," and that body has definitely endorsed the teachings of Christ as a platform on both capital and labor can meet and agree.

The Golden Rule has often been suggested as a means toward bringing capital and labor to an understanding; but in Wheeling and its vicinity it seems for the first time to have been put in practice with effective results. There it is planned to rely on this principle and on the virtue of Brotherly Love to compose all the differences which may arise between employers and the workingmen. The local press generally agree that the Christian doctrine may be found to be permanently practicable, and one paper suggests that its local enunciator be placed on the next federal industrial commission. The resolutions adopted by the labor assembly announce:

"First, be it hereby resolved that we, the duly elected delegates representing all the organized crafts of the Wheeling district, do hereby unanimously declare it to be our belief that the teachings of Christ constitute

a platform upon which all men can agree.

"Secondly, that we believe that they can be applied to modern industrial problems.

"Thirdly, that we will co-operate with those who join us in an earnest endeavor to apply His teachings in the Wheeling district.

"Fourthly, as further evidence of our sincerity we have duly appointed a committee of three to confer and decide what methods shall be pursued."

HOW MUCH MUD TAX DO YOU PAY?

Do you count the cost to you of poor roads? Do you know that every mud-hole in your road to town costs hard earned dollars and cents?

As an example, you have ten hogs ready for market and you are eager to get them there in order to get the advantage of high pork price. It rains and you are living on a poor road that becomes muddy and impassable in bad weather. The rain prevents you taking those porkers to market that day and you wait. You might wait two or three days. The market has fallen when you arrive. You are forced to sell your hogs cheaper or hold them. Holding them is taking a chance that the market will recover or go down farther.

What have you lost by being compelled to stay at home that rainy day—charge to poor roads!

How much "Mud Tax" do you pay? The same often happens in wheat, corn; anything the farmer sells in the nearby market.

Less time is spent in hauling on good roads than bad. It was found that over an unimproved road in the east the cost was 30c per ton-mile for hauling. This road was improved and the cost is 13c per ton-mile. On a poor road, a farmer hauling his produce to town is forced to sit in the driver's seat longer, taking time that may be put to more profitable use on the farm. Travel on a good road is faster, with less effort for the horse, or a lesser consumption of gasoline for a truck, than over a muddy road.

Therefore dairy farmers living on poor roads pay tremendous mud taxes for every day the farmer selling milk has to market his product and every two days or three at most the one selling butterfat must travel from farm to market.

How much "Mud Tax" do you pay?—The Dairy Farmer.

OUR FOOLISH RICH.

The rich—these people so rich that they measure their money by the tens of millions—learn with surprising slowness. They must know that they are not looked upon in the United States, or elsewhere, for that matter, with a friendly eye. Yet they want to be conspicuous for the extravagance with which they can live, the money they can burn.

A few years ago it was the Bradley-Martin hall, costing upwards of \$100,000. Then the Paris dinner given by a son of John Wanamaker set the country by the ears. Not many years later the Seeley dinner with the "Little Egypt" trimmings, gave ground for gossip and discontent and sermons.

Now the Stoeburys of Philadelphia are at it. Probably you never heard the name before, but the Stoeburys belong to one of our most terribly exclusive sets. They have been giving a series of entertainments that have made Belshazzar's feast look like a quick-lunch counter at the noon hour. The old man Stoebury is not pinched by these extravaganzas, for he is a partner with J. Pierpont Morgan in many interests and possesses a roll that looks like a bundle of oilcloth.

The saving in skirt cloth is spent in silk hose.

The man who could complain, but won't, it a real man.

The man who knows when he has enough has learned something.

Free speech is saying what you please to somebody you can lick.

What's the difference between a busted broncho and we married men?

Trying to pay the present high prices makes us all frenzied financiers.

The principal grievances of the average politician is that the other fellow is getting the money and holding the job.

The man smashed by an automobile doesn't feel a bit better because of the \$25 fine assessed against the smasher for exceeding the speed limit.

CHAMBER OF COMMERCE HEARS INTERESTING FACTS.

In an informal meeting Thursday afternoon, the Nacogdoches Chamber of Commerce was given a talk by Mr. Parker, head refinery man for the Carolina Oil Company, who told the members of the club present what Nacogdoches was about to receive, in the way of a new enterprise—a genuine oil refinery.

At the commencement of the meeting, Secretary McKnight called the meeting together and told those present what the purpose of the meeting was. He told everyone that he wanted all to be perfectly at home during the meeting, and to ask all the questions that was necessary for all to get a clear idea of the new enterprise. Mr. Parker from the first, assured all that he was no speaker, but the interest that he created when he stated that a refinery would be completed here within in ninety days, more than counterbalanced whatever disposition he might have had for public speaking, as far as interesting his listeners was concerned.

Mr. Parker indulged in no niceties in making his speech. He launched out into the details of what the company is planning to do in a business-like directness and no one had any difficulty in understanding what he meant. He told the men present what kind of oil was to be found in Nacogdoches county, and told them that the oil found in Nacogdoches county made the best lubricating oil to be found in the United States. He told how the oil would be shipped from here in barrels thereby increasing the value of Nacogdoches shipping. The returns of a 100-barrel well for one month was discussed fully. Mr. Parker said that such a well should return for one month about \$17,000. When asked about the output of the company's wells in this county he said that he could not give any estimate, but he thought the wells were producing from 2 to 10 barrels per day, and that the company had 20 wells completed. Rips are running all the time, he said, to get the 100 wells drilled by the end of the year. The oil would be transported from the wells by car, he said. The smallness of the wells would not permit the laying of a pipe line. Mr. Parker said the money the company would pay out to employees would exceed \$4,000 per month, and that 10 or 12 men would be employed, and that they would be high-class employees commanding good salaries. He said the refined oil from the Nacogdoches county wells would be sold direct to the consumer. Ten or 15 grades of oil can be produced from the wells of this county, was one of his statements, and that after the refinery was gotten into action 100 percent other grades of oil could be manufactured. Many by-products could, and would, be manufactured. The capacity of the refinery would be increased later, Mr. Parker said, if the production of the county warranted it.

Mr. Parker went into special details on the price that the oil from Nacogdoches county wells would command, and explained why the company came to Nacogdoches to build the refinery, concluding by telling the members of the C. of C. present that he "had been over the entire world, almost, in pursuit of the oil game, and never have I seen better prospects anywhere than right here in Nacogdoches county." Mr. Parker has had wide experience in Europe in the oil business, as well as such experience in the United States.

Mr. Parker told all details connected with the refinery business, told what effect it would have on the business of the city, the oil development of the county, and assured all the members present that the refinery certainly would not detract from the civic beauty of the city. He told the men to whom he was speaking that the reason that he had consented to make them a talk on the subject was that he thought the enterprise was something that the business men of the city should know about. He was shown every courtesy by the Nacogdoches business men present, and at the conclusion of his speech he was assured that the Nacogdoches Chamber of Commerce thoroughly appreciated what the company was planning to do in Nacogdoches.

The business men present were: R. C. Monk, Sam Stripling, Allan Seale, W. S. Davis, Blum Mast, June C. Harris, A. H. Smith, Herbert Schmidt, J. M. Weeks, Carl Monk, John Perkins, I. D. Parmley, J. H. Brantley, J. R. McKinney, Capt. I. L. Sturdevant, Tom Baker, Ben Tucker, V. L. Perry, W. D. Ambrose, H. L. McKnight, Ben T. Wilson, Tom Floyd.

The refinery that is coming here, a thing that any town could well feel proud of, is only in keeping with the many other progressive things that are coming here in the near future. Nacogdoches county is beginning to grow!

DANIEL-JACOBS

Mr. Virgie Daniel and Miss Florie Jacobs, members of well-to-do families of Woden, were married at 7:30 Wednesday night at the office of Justice of the Peace Frank D. Huston by that official.

It was a pretty wedding, witnessed by several spectators who chanced to be at the courthouse at that time, and the happy couple were heartily congratulated by those present.

The ceremony, as said by Judge Huston in a most solemn and impressive manner, closely resembled the ritual of the Episcopal church, and his concluding words were a prayer, a benediction and a blessing uttered in feeling language. Immediately after the ceremony the bridal couple re-entered their auto and returned to Woden.

For A Severe Cold

"Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to anyone suffering with throat or lung troubles. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelley, Earlville, N. Y. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup and they do not object to taking it. Sold by Stripling, Haselwood & Co.

J. D. Davis of Douglass was in the city Thursday on business. Mr. Davis is planning the early erection, as soon as he can get the machinery, of a good size saw mill at Douglass.

There is a considerable amount of timber around Douglass which has escaped the larger mills, and Mr. Davis thinks it would pay him liberally to put up a mill and cut this timber. Other mills in the county are doing a splendid business cutting lumber for the unprecedented building boom the entire nation is undergoing since the war.

BASIS OF REPRESENTATION

State laws concerning the basis of representation in primary conventions are explained by M. H. Wolfe of Dallas, chairman of the State Democratic Committee, in the following statement:

"In order to clearly interpret the action of the State Executive committee covering the matter at the recent meeting I will ask that all election officers take special notice that the basis of representation in electing delegates at the precinct conventions to be held May 1 will be one delegate for each twenty-five voters or major fraction thereof cast for the Democratic candidate for governor at the last general election held in November, 1918, while the basis of representation for the County Convention and the State convention will be the same respectively as those provided by law governing the County and State Conventions held following general primary elections.

"The difference being that the precinct conventions held May 1 will be based on the votes cast in the general elections held in November, while the County and State conventions will be based on the votes cast in the primary election held in July."

An Alto man reports that a peculiar situation exists in that city as a result of the Overall movement which struck Alto, it seems with full force during the past few days. The gentleman said that it was a common sight to see a man in Alto dressed in a cheap pair of overalls, and to set that off, have on, also, a \$15 silk shirt. Everyone over there, he says, had the fever.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this." Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial. J. 71

NACOGDOCHES TRADITIONS

The recent calamitous tornado at Melrose recalls to memory a similar destructive storm that occurred at the same village about the year 1853. The one in 1853 had its strongest center about 400 yards further to the west than did the recent storm. At that time Major B. Hardeman had a big storm-house well stocked located on the hillside fronting the big road on the north side, and a new two-story dwelling facing the store, located on the hill top south of the road. This section was then the most popular part of the village, and it seemed to be the target of the tornado. It is now not equal to what it was then. The Hardeman store and dwelling were both absolutely demolished, and all their contents blown away—dry goods, clothing, bedding, etc., were lodged upon tall trees, distributed in various fashions like bunting. One of the freaks of fate was the escape of a babe in an old fashioned cradle, left unharmed and unsheltered upon the floor of the Hardeman dwelling. That babe now resides in the town of Nacogdoches. His name is B. F. Hardeman. The fine cotton gin of Major Hardeman, located higher up the hill to the west of the store was destroyed, but the old style lever for the press screw, which was operated by a horse in a circular exploit ridden by Uncle Bill, a crippled negro colored man, at a dangerous speed, was not blown down. The old goat continued to walk up and down the two towering levers with staid meif lone after the storm. North of Hardeman's store about 100 yards, near a spring, stood Melrose academy, a spacious log house, that served for schools, churches and public gatherings. At the time of the storm school was in session. The teacher's name was Stallings. He saw the danger and opened the floor and led the children underneath for safety. One boy named Balch did not go under the floor, but rushed out to go home. He was picked up by the wind and carried about 100 yards and let down unharmed. Another boy named Mel Barron rushed after him but a heavy plate from the roof fell on him and killed him. The sensation caused by this storm was very great. The eastern part of Melrose was not so greatly damaged. It was not so much in the lead then as it had been for many years since.

Several severe tornadoes and cyclones have visited the vicinity of Nacogdoches since then about two miles eastward, on the Woden road. One of these storms killed a little son of Mrs. Tom Partoin and swept the earth clean, houses, fences, trees. This was about the year 1890. Two or three years after this there was another storm passed over some of the same ground, crossing the Melrose road at the two mile post. The tall trees were thinned out and trimmed up, making the dense woods look like new ground.

Several destructive storms have devastated the woods in older times in the Henry Hoya lands. It would seem fitting to call such winds holy terrors. A soldier from the recent war who was on the front over there said that when the miles upon miles of big guns were furiously operating, it reminded him of a cyclone, both in sound and in sight, and also, in fright.

COUNTY POLITICS.

With the summer elections little more than two months distant, we must not be surprised at the appearance of the politician with his smooth smile and his fervent handshake. Politics form one of the most fascinating games played by the office seeker. A game the successful playing of which demands more faculties than perhaps any other entered by politicians. It is surprising to find how many friends one has during these political periods; it is surprising to find what excellent conversationalists some people are whom we once thought dull and heavy; during the whole time we are deeply impressed with our importance and with the tremendous importance of the county offices. We suddenly learn what a glorious thing it is to exercise the right of franchise; how great is democracy.

Seriously, the efficient control of county affairs depends almost, if not absolutely, upon the caliber of the men who are elected to the different offices of the county; and the character of the service received will necessarily depend on the man elected for the office under consideration. And in order for the voter to cast an intelligent vote it is necessary for the friends of the candidate to put forward their qualifications, even though many times the candidates themselves keenly regret this necessity.

We are willing to give each man a hearing, but we do wish that they would remember that most of us have

EMBARGO RAISED

New York, April 24.—The New York Central railroad announced today that the embargo on west-bound freight had been lifted, thus releasing large quantities of merchandise for western purchasers.

OIL ACTIVITY IN ETOILE VICINITY BEGINNING

It is reported that considerable interest is being aroused in the vicinity of Etouille just now off he possible oil that community might have. Leasing parties have been getting all the acreage they possibly can during the past few weeks, and it is reported that large companies are casting longing eyes in that direction. Etouille it apparently situated for oil, being not far from Oil Springs, and in a country that, from the specifications of a geologist for an oil country, is indicative for all kinds of oil.

Dr. J. D. Ellington of this city, it is understood, closed Friday a deal which involved approximately 4,000 acres of land around Etouille. The doctor has been endeavoring to get the land for some time, but only succeeded Friday. Parties who have talked with Dr. Ellington about the prospects around the Etouille region say that he is enthusiastic over the situation, and he says that at present three large companies are bartering with him in an effort to land drilling contracts on the acreage he has leased. It is thought a yet he has not given drilling contracts to anyone.

Sales and Service

The largest Automobile Corporation in America is the General Motor Company. Among the well known cars that they make are the Chevrolet, Buick, Oldsmobile, Oakland, Cadillac, and others. Of all the cars that they make the one made in the largest numbers is the Chevrolet. Sixteen hundred cars a day is the maximum daily output of the combined Chevrolet factories. There is only one other factory that exceeds that output.

In many parts of Texas the Chevrolet outsells any other car—bar none. In those sections the people have just as good sense as in Nacogdoches county. The Chevrolet has never been given the real service due it. Any motor car trouble usually results from putting off adjustments that should be regularly attended to. In most cases the cause can be traced to the carelessness of the owner and lack of interest by the dealer. When the Chevrolet Motor representative first approached us the first question asked was "can you give Chevrolet service?" This means a Chevrolet trained mechanic and an ordinary stock of parts.

We are jealous of our reputation that we have on service. Without bragging we can safely say that the Lee Motor Company has set the pace in Nacogdoches county for service. We refer to our Nash Service and Dodge Brothers Service. Chevrolet Service will be handled in the same thorough and Efficient manner.

Remember the Chevrolet has the famous valve-in-head motor.

WHY WE SHOULD

SAY FELLOWS—I am through
with these Mail Order houses. Some-
time ago I ordered a pair of shoes
from one of my favorite mail order
houses. The shoes looked fine on ar-
rival and I just figured that I had
saved some money, but after wearing
the shoes a few times the lining
came loose, and when I put my foot
in the shoe the lining was so loose
and uncomfortable that I could hard-
ly stand it. And as I had been in a
rain recently, the tacks were begin-
ning to come out.

I threw those shoes away and went
to one of the stores at home for a
pair of shoes. I had to pay more but
the shoes were good, showing no de-
fects at all. So I say buy at home and
see what you are getting.

COTTON MILL FOR NACOGDOCHES

NACOGDOCHES SHOULD BE DEVELOPED, SAYS THE CHAMBER OF COMMERCE

Following a parade of the Nacogdoches streets in the afternoon the courthouse was well filled Friday night by an enthusiastic crowd of Nacogdoches people ready to discuss business concerning Nacogdoches. Discussions were quiet but with a meaning. The gist of the remarks was how Nacogdoches could be developed.

H. L. McKnight, secretary of the Nacogdoches Chamber of Commerce, called the meeting together and said that its purpose was for the people to come together and discuss how the Nacogdoches Chamber of Commerce should be conducted in order to do Nacogdoches county the greatest amount of good. At the conclusion of his speech, he invited an informal discussion named.

Capt. L. L. Sturdevant was the first speaker, and he mentioned the sprinkling and transportation services being accorded the city. Ben Tucker also made a few remarks offering solutions to some of the problems of this nature confronting the city. Rev. C. D. Atwell, J. O. Ray, H. C. Hatchel, Carl Monk, W. S. Davis, I. D. Parmley, R. O. Ferguson, J. F. Perritte, and J. R. McKinney discussed informally the plans of the payment of Nacogdoches' debts. J. R. McKinney, city official, said that the city had been offered new sprinkling apparatus free of charge, besides good compensation in salaries, to men who would contract to do the city's sprinkling.

Following the discussion of the city's sprinkling system, H. L. McKnight and Allan Seale advanced ideas about Nacogdoches being advertised over the state and the United States. Mr. Seale seriously proposed to the business men present that they could get together and erect a cotton mill in Nacogdoches costing \$200,000. Plans were then discussed how the farmers of the county could be interested in helping bring the cotton mill here by Henry Schmidt. Mr. Schmidt discussed in a very clear cut way just what a cotton mill would mean to Nacogdoches. He further urged war on some of the kinds of cotton being planted in the county and said that the business men of Nacogdoches should co-operate with each other in seeing that the farmers of the county obtained and planted better cotton seed.

Proposals for a building and loan association in Nacogdoches, sidewalk building, home building and lighting matters were discussed informally but cleared by R. O. Ferguson, Clyde Sterall and Tom Summers. The house was unanimous in a vote put before it that an early meeting be planned for the establishment of a building and loan association in Nacogdoches.

How the city was going to house the new refinery plant's employees' families who are soon to be brought to Nacogdoches was discussed quietly but earnestly by Tom Summers, lumberman, June Harris, lawyer; Henry Schmidt, capitalist; E. M. Hall and John Perkins, business men. Nacogdoches is woefully short of residential buildings and every effort is going to be made to try to relieve the situation, according to the sentiments of the men at the meeting.

Superintendent of the Nacogdoches public schools, R. F. Davis, concluded these remarks with an outline talk on how the Nacogdoches Chamber of Commerce could do better "team work" with its secretary and city in accomplishing desired results. He branched from this subject to a few forceful remarks on the Stephen P. Austin Normal, suggesting that men be employed to make the proposed site for the normal more beautiful than it is now. Mr. Davis was endorsed for his remarks by the audience by loud cheers.

Mr. Davis was followed by Mr. Jacob Embry, who is creating plans for the launching of a new bank in Nacogdoches, and who expressed his genuine admiration of Nacogdoches. Mr. Embry is a new-comer who is planning to make his home in Nacogdoches. He caused a ripple of approval last night when he smilingly said that he earnestly believed that Nacogdoches "was a doggone good place in which to live."

This was followed by a talk on the organization of a livestock association and the improvement of livestock in Nacogdoches by E. C. Avey, I. D. Parmley and Jacob Embry, and the trend of their remarks indicated that action in this direction will be commenced in a short while.

The meeting adjourned after a three hours conference with plans for another meeting in the near future.

INSTRUCTIONS FOR HOLDING DEMOCRATIC PRECINCT, COUNTY AND STATE CONVENTIONS.

From State Democratic Executive Committee.

1. The County Democratic Executive Committee in the several counties will meet promptly and appoint chairmen to hold the various precinct conventions and fix the time and place of the meeting, between the hours of 10 o'clock a. m. and 8 o'clock p. m. on the first Saturday in May.

2. The qualified Democratic voters of each voting precinct in the several counties will assemble on the first Saturday in May and hold a primary convention to elect delegates to the County Convention, which shall be held on the first Tuesday after the first Saturday in May.

3. The precinct conventions shall be presided over by a chairman who shall have been previously appointed by the County Executive Committee of the Democratic party, and who shall be a qualified Democratic voter in said election precinct.

4. Before transacting any business the chairman shall cause to be made a list of the qualified Democratic voters present and no person shall be allowed to participate in the business of such convention until it is made to appear that he or she is a qualified Democratic voter in said precinct, from a certified list of qualified voters, the same as required in conducting a general election, save and except that under the primary election laws of Texas women shall be entitled to the same rights and privilege as men in voting in primaries.

5. The officers of said convention shall keep a written record of the proceedings, including a list of the delegates elected to the County Convention, which records shall constitute the returns from said convention to the County Convention. The same shall be signed officially and sealed up and transmitted by the officers thereof to the chairman of the County Democratic Executive Committee.

6. The County Democratic Executive Committee of the several counties in Texas will provide for the holding of said convention and other necessary requirements thereof. At the said County Convention delegates will be elected to the State Democratic Convention to be held on the 25th day of May, A. D. 1920, at Dallas, Texas. A written record of the proceedings of the said County Convention must be kept, including a list of the delegates to the State Democratic Convention, which must be certified to, officially, by the officers of the said County Convention and forwarded promptly to the chairman of the State Democratic Executive Committee.

7. Where the County Chairman of the Executive Committee has resigned for any reason, it is the duty of the County Executive Committee to meet and elect a chairman.

8. Where the precinct chairman appointed to preside at the precinct convention is absent or fails or refuses to act, the qualified Democratic voters of the precinct assembled at the time and place as provided and directed shall elect a chairman and proceed as by law.

9. The basis of representation for the County Convention and the State Convention shall be named, respectively as those provided by law with respect to the County Conventions and State Conventions to be held following general primary elections.

M. H. Wolfe,

Chairman State Democratic Executive Committee.

Dr. A. J. Queen reports that he is getting along with his oil well preparations out at Melrose splendidly, and that within a few days he will be able to begin drilling operation without any hitches or holdups. The doctor suffered a misfortune during the Melrose storm, the tornado blowing down his derrick and causing him a good deal of delay. But the derrick is almost completed now, and as most of the machinery has arrived here, there will be nothing to prevent drilling activity to commence at once. Dr. Queen is busy getting everything in shape for the great venture.

Careful Mothers Insist on Foley's Foley's Honey and Tar Compound has been used in so many homes for so many years that mothers everywhere know that this standard family medicine contains no opiates or other ingredients that are injurious to children or adults. Children like it and it does them good. For coughs, colds, croup, whooping cough. Sold by Stripling, Haselwood & Co. f

SCHOOL TERM CLOSURES

Miss Essie B. Lilly, who has taught a most successful term of school at Hickory Flat, closed her school Friday night with a program which elicited the warmest encomiums from a crowded house.

The work of this efficient young teacher is represented by the patrons of the Hickory Flat school as being far above the ordinary, and they consider themselves fortunate in being able to command her services.

Interesting talks were made by County Superintendent Layton and Judge F. P. Marshall.

A contest over the admission to probate, the will of Rebecca Ross, deceased, an erstwhile wealthy negress of this county, was heard in County Judge Marshall's court Saturday morning. The contestants were represented by Former U. S. Attorney W. H. Atwell of Dallas and the contestees by Judges S. M. Adams and S. W. Blount of this city. The woman had left property of considerable value in Dallas and Harris counties. Judge Marshall admitted the instrument to probate, a victory for the contestees.

MUSCLES FELT AS IF
TIED IN KNOTS.

Hudson says "It is Simply Wonderful What Tanlac Did For Me."
If anyone had told me that Tanlac could do for me what it has done I would not have believed them," said C. R. Hudson of Knoxville, Ill. "It freed me from rheumatism after twelve years of awful suffering," he continued, "and my stomach trouble is also gone."
"I was in such bad shape that I could scarcely digest a thing, and any solids would give me such cramps in my stomach that I could hardly stand them. Gas would form and affect my heart so bad that I would faint and have to lie down. The rheumatism made my legs swell and the muscles felt like they were tied in knots. I couldn't straighten my right leg at all and it pained me so that I could find no rest. At night it was especially bad and I simply rolled from one side of the bed to the other unable to get any sleep. Not being able to work any more I rented my farm and moved to town. I tried about every sort of medicine I ever heard of but got worse all the time."
"One day I heard some people talking about how much good Tanlac had done them and I decided to try it, and the way it took hold was simply wonderful. I can now eat anything I want, my rheumatism is all gone and I sleep like a log all night. I feel as strong and well as I ever did and I am going back to the farm able to do as much work as I did years ago. If anyone wants to know about Tanlac send them to me."
Tanlac is sold in Nacogdoches by Swift Bros. & Smith and Stripling, Haselwood & Co., and in Garrison by the Dale Drug Co.

FARM FOR SALE—This farm contains 182 acres, 125 acres in cultivation, 100 acres good bottom land. Balance all good level upland. Good stock and hog pastures separate with plenty of good everlasting water. There are three dwellings on this place. One of them was built last year, costing four thousand dollars (\$4,000).
If you are looking for a bargain in a farm see me at once. Ed King, Woden, Texas. Phone 9016. 24-4dw1

Clothing as Cheap as Ever

"Most people seem to think that clothes prices are high. Measured in the number of dollars it takes to purchase a suit they are. But measured in the prices of things which the producer has to sell, or in the wages paid for service performed they are no higher than they were before the war. In many instances, as a matter of fact, they are not so high.

"Compare clothes prices, for instance, with that of corn, the great American money crop. In 1914 the Iowa farmer had to haul fifty bushels of corn to market in order to get the money to pay for a \$25 suit of clothes. Now he can get a \$60 suit and a \$10 pair of shoes for his fifty bushels of corn.

"The price of cotton in the fall of 1914 was down to 6 cents a pound for a time, but that's hardly a fair comparison. Let's go back to Nov. 1, 1913, when the average farm price was 13c a pound. The farmer then had to market 193 pounds of cotton to pay for a \$25 suit. On Nov. 1, 1919 the average farm price was 36.5c a pound and the grower could pay for a \$60 suit by selling only 165 pounds of cotton.

YOU CAN'T GO WRONG ON OUR CLOTHES. We'll give you your money's worth or we'll give your money back.

BOUR-DAVIS

You will like the Bour-Davis at first glance, because few cars have ever approached it in beautiful lines, finish, upholstery and equipment. The Bour-Davis is built in the South by men who were pioneers in the automobile business and who have made a most careful study of Southern road conditions and designed the Bour-Davis to meet them.

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers, you can lift off any hard corn, soft corn or corn between the toes, and the hard skin calluses from the bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

If it is a farm you want, large or small, see Ed King, Woden, Texas. 22-6dlw.

I HOPE—My friends will be pleased to know that I am again able to fill my place as their doctor when they can't do better. I thank you. Dr. R. P. Lockey. 27-4d2w

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monocyclic-acidester of Salicylicacid.

"FIDDLE-FIT"

Keep Liver and Bowels Clean and Active with "Cascarets"

Sick headache, biliousness, coated tongue, sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will have you feeling clear, rosy and as fit as a fiddle by morning. They work while you sleep.

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.

For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.

Sold everywhere in tablet or liquid form.

CALOMEL

Calomel is a dangerous drug. It is mercury—quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards. ©
