### NATION'S EXPRESS BILL INCREASED \$30,000,000

Chicago, August 10.—Thirty million dollars were added to the nation's express bill when the Railroad Labor Board awarded the 80,000 employees of the American Railway Express Company an increase of 16 cents an hour. The decision is retroactive to May 1. Under the terms of the Esch-Cummings transportation act the express company is permitted to raise rates to meet the increased cost. The decision applies to all the express employees except the 2,500 shopmen who were raised 13 cents an hour by the recent railway award.

### THE U. S. ARMY

A U. S. Army recruiting Station has been opened in the City Hall, this city, for the acceptance of applicants between the ages of 18 and 35, of good moral character and physically fit. Do you know that the U. S. army is distributed in all parts of the United States and six foreign countries, and that you can choose any place or country? Why not see the world and be paid while seeing it? Also, there are many other advantages which are too numerous to mention. Call at the office in the city hall and learn something about our new peace-time army.

The army needs two automobile mechanics for service at the A. & M. College. These positions pay salaries of \$105 per month. Inquire about them.

### FIRE IN PRISON

Joliet, Ill., August 9.—Fire is raging in the Illinois penitentiary. The main shop of the chair factory is doomed, the flames have attacked the second shop of the chair factory and other buildings are ablaze.

### VISIONS ANGLO-RUSSIAN WAR OVER POLISH SITUATION

Moscow, August 10.—Russia is considering with determination the possibility of war with England over the situation which has arisen since the bolsheviks began the offensive against Warsaw. News from the Polish front is being awaited with intense interest by the people here.

### Promised Looting Privilege

London, August 10.—Entry into Warsaw of the soviets this week is expected by bolshevik sympathizers here, says the London Times, quoting its correspondent, who declares that immediately after Warsaw is taken a soviet government will be established there. The correspondent declares that the Moscow government proposes to make its own terms with bolshevik Poland, and says "it is not believed that Nikolai Lenine, the soviet premier, could stop the offensive, even if he desired, before the bolshevik armies enter Warsaw, as the soldiers have been promised the privilege of looting the city."

### Still Hopeful of Peace.

London, August 10.—"I am still hopeful of peace," were the opening words of Premier Lloyd George in an announcement in the house of commons regarding the Russo-Polish crisis. The house was crowded and tension was high in anticipation of the premier's "Peace or War" statement. As he entered he was warmly cheered. M. Krassin and M. Mameneff, the Russian soviet delegates here, sat in the strangers' gallery.

### Tightening the Tentacles

Paris, August 10.—The Russians have occupied Clechanow, thus cutting the Warsaw-Danzig railway, according to reports from the French military mission at Warsaw, received here.

### BIG DIAMOND ROBBERY

Cleveland, Ohio, August 10.—Three bandits entered Sol Bergman's jewelry store this morning, shot and seriously wounded two employees and escaped with diamonds valued at \$30,000.

### RUSO-POLISH SITUATION

London, August 7.—The Russian bolshevik armies hammering the Polish lines northeast and east of Warsaw have encountered stern resistance with the exception of the area around Brest-Litovsk, east of Warsaw. No new advances by the soviets are reported, and even there they have been limited by desperate fighting by the Poles.

### Poles Sent Note.

Warsaw, August 7.—The Polish Foreign Office has sent a note to the Allies and a special note to the United States on the actual political situation, it is learned.

### Peace Terms Wanted.

Warsaw, August 7.—The essential terms of peace Poland would accept were detailed in a note to Moscow accepting the soviet proposal to send delegates to Minsk to negotiate an armistice and peace. Poland says it is compelled to demand formal guarantees that the Polish delegates will be permitted free and direct communication with home. It was said they are ready to conclude peace upon the principle of national right and will try for such a solution of all questions as will guarantee future peace and friendly relations between Russia and her neighbors.

### Note Not Received.

Washington, August 7.—The special note on the political situation in Poland, telegraphed from Warsaw to the United States, has not been received, the State Department announced.

### STRIKERS SURRENDER

Denver, Colo., August 9.—The executive committee of the Tramway Workers Union have decided to notify the tramway officials that the strikers will return to work. The president of the union said that there were no restrictions.

Cooper Pierce, who has been spending a month's vacation in Mississippi, returned to the city Tuesday.

## Neff For Governor

### What Their Neighbors Think, As Expressed By Their Ballots

The following clippings show how Messrs. Neff and Bailey voted in the recent primary. Ought not the judgment of their neighbors be about the best evidence we have as to the fitness of the two men?

#### Neff Carried Home County and Ward; Bailey Lost in His.

Waco, Texas, August 3.—The final returns from the recent election in McLennan and Cooke counties reveal some interesting facts with reference to the standing of the two gubernatorial candidates with their home people.

Neff carried his ward, his home city and his county by an overwhelming majority. In the Eagle Springs community, where Neff was born, near the line between McLennan and Coryell counties, he received all the votes cast except one. At McGregor, where he grew to young manhood, Neff received practically 90 percent of the entire vote. At Moody, which is the home of Mrs. Edna O. Patterson, Neff received more votes than his three opponents combined.

The returns from Cooke county show that Bailey did not even carry his own ward, his home city or his county.

The reader will note that Neff carried Moody over all the candidates. This is the home of Patterson, the slayer of whom Neff defended and about which Mr. Neff's opponents have sought to make such a fuss over. Evidently Mr. Neff is held in pretty high regard in Moody and this ought to be good evidence that there is nothing to these charges.

"My countrymen, Texas wants the open shop and Texas wants twice two to equal four. This is my platform.

By golly, Texas has already got the open shop and twice two still equals four. Query; Find the issue.

No Pan-German militarist smarting under defeat could be more contemptuously critical of American accomplishments at home and abroad during the past seven years under

the home counties and precincts of recent primary. Ought not the judgment of their neighbors be about the best evidence we have as to the fitness of the two men?

#### Cooke County Endorses Neff and Declares Bailey Non-Resident

Gainesville, Texas, August 2.—Among the resolutions adopted by the Cooke County Democratic convention Saturday was the following: We endorse the candidacy of the Hon. Pat M. Neff for Governor of Texas and commend him to the Democratic voters of Cooke county.

We regret and condemn the attacks heretofore made by J. W. Bailey upon the Democratic party and especially the one upon the administration of Woodrow Wilson. These attacks, in our judgment, were uncalled for and give aid and comfort to our political enemies and lessen the chances of the success of our party in the coming national election.

It is our judgment that J. W. Bailey is not a resident of Texas or eligible to the office of governor, and we believe he is not a resident of this town and county and has no lawful right to take part in our primaries or elections.

Democratic administration than J. W. Bailey of Washington, D. C.

It is said that one of the places of interest pointed out to sight-seers in Washington, D. C., is the palatial home of Joseph W. Bailey, the great corporation lawyer. Perhaps visitors are now being told that this gentleman is spending his summer vacation running for governor of Texas. Next summer he may run for governor of Kentucky, where he really owns property.

### POLES STRIKING BACK

Warsaw, August 11.—The concentration and regrouping of Polish soldiers for an extensive counter-stroke on the entire Warsaw front is reported by the newspapers. It is planned to begin the movement within the next few days. Military men express the opinion that this is a propitious time to strike back in an effort to drive off the soviets, who are endeavoring to encircle the capital.

### Russians Cut Railroad

Paris, August 11.—The Russians are now occupying a stretch of 24 miles of the direct railroad line between Warsaw and Danzig and a large force is pushing across the Danzig corridor to cut the remaining railroad, according to the French Foreign Office. The action held by the Russians is between Clechanow and Miawa.

### Will Help Fight Bolsheviki.

Paris, August 11.—France has decided to recognize General Baron Peter Wrangel as head of the govern-

ment of South Russia. The announcement said the recognition implied the rendering to General Wrangel of all possible military assistance.

### AGED MELROSE MAN DIES

Mr. Allen Seale, affectionately known as "Uncle Al," died at the home of his son, Mr. Elwood Seale, in Melrose Tuesday night. Mr. Seale was 90 years of age, and is survived by three sons, Elwood, Hunter and Oscar, the last named being a resident of Eastland.

Mr. Seale is an uncle of Mr. Allan Seale of this city. The deceased came to Texas in 1872 from Alabama, and has resided ever since at Melrose. He has been a man all his life commanding the greatest respect and esteem among his contemporaries.

Funeral rites were held Wednesday afternoon at the Melrose cemetery, Rev. A. T. Gerrard officiating. A large crowd was in attendance, among them being many Nacogdoches people. The Sentinel joins in expressions of sympathy to the bereaved relatives.

#### POLES LOSING GROUND ON ALL BATTLE FRONTS

Undated—Russian bolshevik attacks apparently have broken the Polish lines near the East Prussian frontier and their patrols have swept forward in an encircling movement north of Warsaw. In the center of the Polish front the soviets seem to have torn a great gap in the defenses of Warsaw. Przasnysk, 41 miles north of Warsaw, has been occupied by the bolshevik advance guards and they are reported approaching Mlaw, to the west, and Ciechanow, to the southeast. Seemingly the soviet horsemen are encountering little opposition. The Polish lines south of Ostrov to the west of Brest-Litovsk were also forced to back up, and the enemy have entered Sokolow and are reported fighting east of Siedlec.

#### Have Established Soviets

London, August 9.—The bolshevik military authorities have established soviets in the parts of Eastern Galicia under their occupation, it is stated in an authoritative dispatch received here.

#### Government Leaving Warsaw

London, August 9.—The Polish government is leaving Warsaw, the capital, it is asserted in a wireless dispatch picked up here. Kalisz is said to be the new location. This is 150 miles west-southwest of Warsaw, close to the old German border.

#### Facing the Menace

Hythe, England, August 9.—How to save Western Europe from the bolsheviks was the burden of the discussion at a conference between Premiers Lloyd George and Millerand, and although the final decision was still pending this afternoon, the chief weapons will probably be a blockade and the establishment of a defensive

line in Poland. It is stated that the Allies, although loath to admit it, now feel that there is little hope of saving Warsaw, and the question of the defense of Poland no longer is the sole issue; the main problem is the defense of Western Europe.

#### Will Deal With Crisis.

Hythe, England, August 9.—The Allies have reached an agreement for dealing with the Russo-Polish crisis. It will include a reimposition of the blockade, but no Allied troops will be employed.

#### American Note Received.

Paris, August 9.—The American note regarding the Russian situation was being delivered to the French Foreign Office today, it was learned from authoritative quarters.

#### FAMOUS MARINE RETIRED

New York, August 9.—Sergeant Dan Daly, undoubtedly the best known man in all the services with the exception of Sergeant York of Argonne fame, was placed on the inactive list of the Marine Corps Reserve last week. Daly won two Medals of Honor for valor in the Boxer Rebellion and in the capture of Fort Riviere in Haiti, and is said to be the only man in all the services who holds two Medals of Honor. In the World War his feats of exceptional bravery won for him the Medaille Militaire and the Croix de Guerre from France, and the Distinguished Service Cross from General Pershing. His passing from the active list to accept a position with a prominent banking house here removes from the marines their most picturesque of the old-school soldiers.

Fred Buckner returned Sunday from a several weeks' stay in Wharton county to his home in Melrose.

#### Child Cured of Bowel Trouble

A child of Floyd Osborn, Notary Public of Dunganon, Va., was taken with bowel trouble. Mr. Osborn gave it Chamberlain's Colic and Diarrhoea Remedy and it quickly recovered. In speaking of this remedy he says "It is the best I ever used."

Mr. Sam Hayter was in the city Monday morning with a sack full of cotton bolls which he said had dropped in a nearby field. The cotton was examined by some bystanders, and a large percent of the bolls were found to be rotten. This presents a discouraging situation, and if cotton goes to rotting on the stalk and falling off, the cotton crop will be very much shortened. However, some of the bolls examined were found to be sound having been thrown off the stalk because of the volume of fruit on the cotton plant. This reminds that cotton men say that if the farmer wants the best price for his cotton this year he must gather it as fast as it opens. Cotton the least bit damaged this year will not command a good price, so the cotton man say. The market is already supplied with that kind of cotton.

#### Catarh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarh Medicine was prescribed by one of the best physicians in this country for years; it is composed of some of the best juices known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarh Medicine is what produces such wonderful results in catarh conditions. Send for testimonials. Free. F. J. CHENEY & CO., Props., Toledo, O. All Druggists. Hall's Family Tonic for constipation.

#### Chamberlain's Colic and Diarrhoea Remedy.

This is unquestionably one of the most successful medicines in use for bowel complaints. A few doses of it will cure an ordinary case of diarrhoea. It has been used in nine epidemics of dysentery with perfect success. It can always be depended upon to give relief in cases of colic and cholera morbus. When reduced with water and sweetened it is pleasant to take. Every family should keep this on hand. Stripling, Haselwood & Co.

#### DALLAS ICE DEALERS CLASSED AS PROFITEERS

Dallas, Texas, August 5.—Ice dealers today were warned by federal officers that the price of ice must be reduced to 60 cents per 100 pounds for Thursday or face charges of profiteering. A majority of the dealers are asking 80 cents per hundred.

#### Has Never Seen Their Equal.

"I have used Chamberlain's Tablets for stomach trouble, biliousness and constipation off and on for the past ten years and I have never seen their equal. They strengthened my digestion, relieved me of headaches and had a mild pleasant action on my bowels. I take pleasure in recommending them" writes H. D. F. Parmenter, Cidersville, Ohio. Stripling, Haselwood & Co.

#### THE ROBUCK CASE

Mrs. Samantha Robuck, who was charged with the murder of her husband, was reinticted last week by the grand jury of San Augustine county and the case transferred to Nacogdoches county for trial. The woman had been convicted and sentenced to 35 years in the penitentiary, but the case was reversed and remanded upon the grounds that she should have been indicted as an accomplice instead of a principal, and this was done by the San Augustine grand jury.

Grate Williams, who was convicted of the murder, is now serving a life sentence for his part in the crime.

#### Cured of Stomach Trouble and Constipation.

Rachel Cribley of Beaver Dam, Ohio, was sick for two years with stomach trouble and constipation, taking one medicine after another with only temporary relief. "My neighbor spoke so enthusiastically of Chamberlain's Tablets" she says, "that I procured a bottle of them at a drug store to try. A few days treatment convinced me that they were just what I needed. I continued their use for several weeks and they cured me." Stripling, Haselwood & Co.

Dave Greer of Appleby was in the city Monday.

**THEY ARE HERE**

The goods that we advertised last week arrived sooner than we expected them to. We opened them up and sold a lot of them last Saturday, several who bought shoes from us last year came in and invested. Now we know that if we sold you shoes last year, that you will be sure to come to us this year, but if you were not one of our customers last year we know we will have to show you and we can do it. Don't wait until we run out of sizes, come in while the stock is complete and leave the disappointment for the other fellow. You will pay more if you wait until we can't fit you, as it is impossible for us to get any more at the prices we bought these for. We went to market early so that we could get them at the price we did and if you will come early you will get the price. C. W. Butt. 12-1.

## NACOGDOCHES MAN DIES AT JACKSONVILLE

News was received in the city early Tuesday morning that Mr. John Fulmer of Jacksonville, a former Nacogdoches county man, died at his home in Jacksonville some time Tuesday night, and that his remains would arrive here Wednesday afternoon for burial in the Shady Grove cemetery. The Jacksonville Masons requested the Nacogdoches Masons to bury Mr. Fulmer, and preparations are being made by the Nacogdoches lodge to comply with this request.

Mr. Fulmer was a middle-aged man, had a wife and several children who survive him and has been living in the Jacksonville community for several years. He was well known here and has a host of friends.

The fire department responded to alarm at 10:30 this morning, but failed to extinguish a blaze which destroyed a residence in about one block of what is known as the K. Morgan store, the property belonging to Mrs. Ida Cottingham, who resides in Nacogdoches. The house, it was said, was occupied by two families.—Lufkin News, 10th.

## FEEL NEED OF GRUMBLING

Complaints Absolutely a Source of Enjoyment to Great Mass of Human Beings.

One is as likely to grumble against the people one injures as against the people who injure one. One has to grumble at something or other. A man who can find nothing to complain about simply does not know how to enjoy himself, the New Statesman (London) observes.

Now wouldn't your life be exceedingly flat with nothing whatever to grumble at? That is why people like to read letters in the paper, and also helps to explain the huge circulation of one of the notorious weekly papers. The editor was clever enough to see that most people dearly love their grievances, and that if you give them a platform for their grievances you will sell more copies than if you give them only a platform for your own ideals.

We do not mean to say that the mass of human beings are devoid of ideals, but we fear that on ordinary occasions they are a great deal more interested in their complaints. It is just the same with regard to their health. They are much less likely to boast how well they are feeling than how ill they are feeling. A liver complaint means far more to a man than the best digestion. If you allow him he will describe his symptoms—the taste in his mouth, the sudden loss of vision, and what happens if he eats stewed plums. And he tells you all this in no humility but with the vanity of a peacock.

The vanity of an invalid far surpasses any vanity known in healthy men and women. This, perhaps, one of the compensations of ill health. It gives one something to complain about.

## FORESAW CONQUEST OF AIR

But Brother-in-Law of Oliver Cromwell Had Some Ideas That Appear Crude Today.

John Wilkins, who married Robina, sister of Oliver Cromwell, in 1656, had original ideas on flying. He set forth his theories in a book in which he discussed four possible varieties of aviation: By spirits or angels, by the help of fowls, by wings fastened immediately to the body, and by a flying chariot.

Wilkins wrote that the fourth way seemed to him "much more useful than the rest; and that is by a flying chariot, which may be so contrived as to carry a man within it; and though the strength of a spring might perhaps be serviceable for the motion of this engine, yet it were better to have it assisted by the labor of some intelligent mover. And, therefore, if it were made big enough to carry sundry persons together, then each of them in their several turn might successfully labor in the causing of this motion."

Wilkins was one of the founders of the Royal Society. He believed it should be "easy to frame an instrument wherein anyone may sit and give such motion unto it as shall convey him aloft through the air."

**Another Crafty Fox.**

A reader of the Companion tells us the following story of a clever American fox to match a recently published anecdote of a clever English fox. On a November day, he says, a neighbor of his saw a flock of ducks on the opposite side of a small creek that runs into Shinneck bay.

While trying to get nearer to the ducks, meanwhile keeping himself well hidden and watching them very cautiously through the grass, he was amazed to see a fox that had waded out about forty feet from shore. It was attracting the ducks by gently waving its tail. In a few minutes it would unquestionably have caught a duck had the man not shot it.—Youth's Companion.

**Optimism.**

Old Lute Lathers is a great fellow to look on the bright side of things said a gaunt Missourian, whom the Forester notes. He was riding to a town on a load of hay the other day when the roads were so muddy that one wheel dropped into a chuck hole the hay slued, and Lute rolled off and landed on his head in a deep puddle.

"Well, sir," said he, when they had dragged him out, "these 'ere mud roads don't bruise you up like a rock road does. If that had been a hard surfaced road, it would have plumb broke my neck."—Youth's Companion.

**Rush-Pith Lens Cleaner.**

Almost any ordinary medium that can be used is likely to smear and even scratch a lens in the cleaning. A very perfect lens cleaner can be made by using the medulla or pith of such plants as sunflower, rush or elder, says the Scientific American. Strips of the dry pith are cut and these are fastened with an adhesive to a piece of cork. The pith may be arranged in rows with small spaces in between. The lens is rubbed gently with the novel cleaner and all marks disappear.

**Mexico's Fashionable Drive.**

The parade ground of Mexico City is the Avenida de San Francisco. This short street extends from the Mexican White House to the Alameda and is only about 24 feet from curb to curb. Here, at the approach of twilight, every smart equipage in the capital comes down the one side of the street and on the other side moves a procession of a slow walk while everybody looks at everybody else.

## ANOTHER TRIUMPH FOR AUTO

Southwest's Most Dreaded Spot, Death Valley, Has Been Made Safe for Travelers.

Death valley, once the terror of the traveler in the Southwest and the last resting place of many early-day prospectors, is being made safe for travel both day and night.

This erstwhile barrier to human progress has been conquered by the automobile. Its trackless wastes of sand has been sign-posted and its hidden water holes marked by Uncle Sam. Not content with merely making the desert easy to cross for travelers in daylight, the Automobile Club of Southern California is going farther and is placing signs in such manner that the rays of the headlights from passing machines will fall upon them and guide the night tourist as safely and surely as the day traveler.

The Automobile club also will sign-post all lateral routes of the famous Death valley district. Included in the sign posting being done will be a complete set of road signs directing tourists to picturesque Palm canyon, on the edge of the desert—one of the most unique spots in the world.

This oasis in the sandy wastes is to be made a national monument by the government. Its distinctive feature is the presence of ancient palms of weird beauty, standing in straight rows, apparently planted by the hand of man, but antedating history of the first human beings in this section.

## NOT ALL DUE TO COMEDIAN

Part of Laughable Entertainment Was Being Furnished by Original Tenants of Barn.

Speaker Sweet said the other day in the New York state legislature at Albany:

"Because an agitator gets a lot of newspaper space it does not necessarily mean that he is a great man. Newspaper space may mean something else. It reminds me of a story.

"A rich man hired a comedian to entertain the workers on his estate one evening. The entertainment was staged in the barn, and it went well, almost too well. The comedian, in fact, had hardly got under way when the barn began to shake with shouts of laughter. Soon the laughter became so uproarious that the rich man rose and said:

"'Friends, I know how difficult it is to restrain our mirth when Mr. Backchat is on the stage, but really, you know, if we don't hold ourselves in just a little the performance will hardly be over by midnight.'

"Then a burly plowman rose in his turn.

"'Excuse me, boss,' he said; 'it ain't Mr. Backchat we're laughin' at, but somebody left the door open and all the pigs have got in, and they're nearly pushin' us off our seats.'"

**Blue-Jay Ways.**

Last spring a pair of blue jays nested in the crotch of a maple just below my study window. What a time they had of nest building! The female insisted on building in a crotch below, while the male thought a crotch higher up afforded a more advantageous location. They talked and scolded, building first in one place then in the other. In the end the female had her way, and the makeshift bunch of twigs and brush was collected. The birds were silent for weeks, tending strictly to family cares; the half of which the male bird assumed without a murmur or complaint. All summer long they were silent, but toward fall they joined their voices with those of the other jays in the neighborhood. It was a new slant on blue jay methods, and hereafter I shall regard the birds with a wee bit more appreciation.—Christian Science Monitor.

**Poor Father.**

Marian is eleven years old and thinks that she is old enough to stop having her hair bobbed and let it grow out and be braided as do the other little girls in her class. But her mother has different ideas. So, of course, there is an argument every time hair cutting time arrives. Last time mother brought forth a new argument. "I want your hair to be pretty and thick when you grow up," she said, "and there is nothing which makes your hair grow better than to cut it often."

Marian's eyes opened wide. "Then why don't you begin it on father?" she said. "He says himself that he is getting bald."

**Flowers.**

To dream of picking flowers signifies future fortune. Of holding, seeing or smelling them in season means pleasure, but if out of season, obstacles and lack of success. If the flowers are white the obstacles will be less; if yellow, they will be painful, and if red, they foretell the painter's serious illness. If you dream of being bedecked with flowers it means a short happiness is coming to you. If you dream of buying them you will hear some good news.—Chicago American.

**No Imitations for Her.**

A young physician took his best girl to a local picture house. Advertisements were being thrown on the screen, among them this one: "Make them happy with a photograph of yourself at Christmas. Our shop, etc."

The young man turned to his girl with the facetious remark, "Would a photo of me make you happy?"

She shook her head. "I don't like imitations," she pouted. "I'm used to receiving real things."

He was a son of Mr. and Mrs. G. W. Collins, well known people residing near Nacogdoches, by whom he is survived, together with two sisters and several brothers. His wife and baby boy also survive him, and to the family the sincerest sympathy of a wide circle of friends goes out.
