LIVESTOCK MEN TO FREE THEMSELVES; HOW ABOUT COTTON GROWERS

RECENTLY in Chicago the livestock producers met with a committee of the American Farm Bureau Federation to consider a livestock marketing system that will give the farmers a say in what the prices will be. It has only recently become necessary for Secretary of Agriculture Meredith to call down the commission men of the country for discrimination in the handling of cooperative shipments as well as for their increase of commission charges on all shipments. The Secretary has fixed a scale of commission charges beyond which these commission men may not go.

The commission of \$15 or \$20 a car, however, on livestock is of rather minor importance compared to the farmers' losses from other things. The worst practice possible is the sale of the farmers' stock to a speculator, who may or may not be working with the commission firm, and the resale of the same livestock at a higher price. In this way the commission company collects two commission charges and, if financing the speculator and handling his business through their offices, takes a "rake-off" on his profits. The solution of this is for the farmers to sell their stock through their own commission houses. Read on page 12 of this issue a report of the Chicago meeting which it is shown that the farmers' commission company at Omaha has become the largest company on that market within three years, and last year turned back 50 percent of its commission charges in addition to giving the farmers a square deal and opening up new outlets.

The farmers of the country are out to free themselves from the speculators. Will the cotton farmer be the last in line?—The Progressive Farmer.

The state's deputy game, fish and oyster warden was in the city Tuesday looking over the game situation of the country. He only remained in the city one day, it is understood, but he plans to return in a short while. The warden said that he would make no charges against anyone this time for breaking the laws, but that the next time he was in the city and heard of law-breaking the guilty parties would be prosecuted.

The high school was rather crippled Wednesday when three of its teachers, because of sickness, were forced to be absent. The three unfortunate ones were Miss Barrow, Mr. Ware and Mr. Ricks. Mr. Ricks fainted, it is understood, Wednesday morning and was forced to go to his home. However, it was reported that his condition was not so bad and that probably he will be in school again Thursday. Otherwise the school is doing fine.

T. B. Force of Chireno was a business visitor in the city Tuesday.

A "REMINISCENCE" PARTY

On Saturday afternoon last Mrs. George H. Matthews complimented her daughters, Mrs. R. M. Kent of Bramwell, W. Va., and Mrs. E. R. Gregg of Rusk, Texas, with a "reminiscence" party, about twenty-five of their schoolmates and girlhood friends being present and joining in the "reminiscences" of former days, the guests being erstwhile intimate associates of the honorees. After many incidents of the past had been recounted, the hostess invited the party into the dining room, which in decorations featured the approaching holiday season. The luncheon-table's central adornment was a huge silver bowl filled with crimson salvia. Crystal candlesticks, topped with red tulle bows, together with other accessories of corresponding color in the room made the scene unusually effective.

The honorees were formerly Misses Zierla Matthews and Helena Matthews. The sisters had not seen each other for three years prior to the present visit with their parents.

The entertainment Saturday was said to have been one of the most enjoyable in the social history of Nacogdoches.

Miss Irene Clevenger Monday went to the high school to confer with Superintendent R. F. Davis about the part the Nacogdoches High School is going to play in the Red Cross drive. It was decided that the teachers in the high school would not be used in the work, neither the children, if they could be left out, but grown people outside the school would be called upon to solicit funds. Miss Clevenger is especially anxious to get everyone she can enrolled in the big drive. She said: "The object of the work not being placed in the hands of the teachers and children is because of the friction that might arise from various sources. We do not want anything to arise that might cause misunderstanding. However, we may later be forced to use children in the drive, although I do not think so now." Miss Clevenger was especially anxious that "all know no one in Nacogdoches was drawing any salary whatsoever from the funds." She expects that Nacogdoches county will go over the top.

It will be gratifying to those who bought from the girls of the local B. Y. P. U. Saturday sandwiches to learn that their money with which they bought their sandwiches went to make a sum of \$19.75 which is to be used for buying shoes for the orphans in Buckner Orphan Home. It is said that \$15 will "shoe" one orphan in the home one year, thus it will be seen that the girls Monday secured \$4.75 more than was needed to "shoe" one orphan. The overplus money, however, will be placed in the treasury of the B. Y. P. U. to be used with the fund which is being raised with which to provide shoes for two orphans in the home. The B. Y. P. U. is very enthusiastic over the work, and says that nothing gives it greater pleasure than to work in interest of the poor orphans at Dallas.

WILL NOT BE STAMPEDED

Washington, Nov. 17.—No corporation, no group of corporations, no group of individuals is going to "deliver American recognition to Mexico," it was stated authoritatively at the State Department. It was stated as a preliminary to recognition that the American government would not insist upon the abrogation of Article 27 of the Mexican constitution provided the operation of the article did not infringe the rights of Americans in Mexico. Officials added that if the operation of laws enacted under Article 27 were confiscatory or retroactive, the United States would not accord recognition. It was declared the United States was actuated solely by a desire to protect all valid interests of Americans in Mexico.

WILSON EXTENDS GREETINGS

Washington, Nov. 17.—President Wilson today sent a message to Paul Hymans, president of the League of Nations Assembly at Geneva, Switzerland, extending his personal greetings to the assembly and expressing "the hope and belief" that their labors would be of immense value to the whole civilized world. The message was an acknowledgment of one from President Hymans conveying the expression of sympathy voted by the assembly of the League of Nations last Monday.

OUR FOOD SUPPLY

Wall Street Journal: All human activities radiate from the world's food supply, and depend upon it. Our crops for this season are now made, and the official report gives assurance of ample food and feed, with a comfortable surplus to export or to carry as an insurance against the dangers of another season.

Corn and hay do not come direct to the table, but nothing could take the place of these two feed crops in the maintenance of human life and health. The corn crop this year is not only the largest in bushels, but the best in quality that has ever been produced. The quality is 7.7 percent better than the average of the last ten years.

The farm price for corn averaging 87.5c on November 1 looks like a sickening loss to the farmer when compared with \$1.334, the average of a year ago. But it must be remembered that all things are relative; although such price begin with raw materials, all other commodities must soon come down to the low level, and will offset the losses of today.

Hay, oats and barley are large crops. Kaffirs and other feed crops are records. Silos have been filled and a store of feed laid away for future use that will later come in the maintenance of the large herds of live stock, whose earnings last year amounted to \$8,000,000,000, without counting the labor of the draft animals.

White potatoes increased 15,000,000 bushels in the month, making this the second largest crop. The production of 1917 was about 5 percent larger than that of this year. Butif sweets are included there is but a million bushels difference between the two years. The potato crop is actually larger than domestic needs.

Minor grain crops, vegetables and fruits are not considered in market reports, but are of great importance in living expenses. The rice crop is 50 percent greater than the average. Beet sugar production will go far beyond other years, so too will sorghum syrup. There are 622,000 tons of cabbages, where there were but 289,000 tons last year. Onions are at least 60 percent above last season's production, and pears have established a new record. Commercial apples amounted to 35,000,000 barrels. This production is one-third more than last year, and an indictment of the greedy retailer who sells them at "two for a quarter."

Notwithstanding the severe loss suffered by the spring wheat last summer, the production of food and feed crops is reassuring. In not a single crop is there a shortage and in nearly every one there is a good-sized surplus. The figures of the crop may well inspire a Thanksgiving sermon.

Tom Clifton of Lone Star was a business visitor in the city Tuesday.

ENTOMBED MINERS RESCUED

Earlington, Ky., Nov. 17.—Ten miners were rescued today from the burning Arnold mine near here and the bodies of five others were recovered. One other person trapped in the mine is still missing. The rescue was effected by tunneling around the fire which shut off the single entry to the mine, and came 24 hours after the flames started.

STEAMER IN DISTRESS

New York, Nov. 17.—The Spanish steamer Yute, bound for Dunkirk from Baltimore, sent a wireless call for help early today 240 miles southeast of Cape May, N. J., the naval communication office announced.

WELCOME FOR EX-STUDENTS

Austin, Texas, Nov. 17.—It is assured that all former students of the University of Texas will be given a royal welcome by all who are connected with that institution on the occasion of their visit to Austin to witness the football game between the Longhorns and A. & M. on Thanksgiving Day. In order to prepare a suitable program of welcome and entertainment of thousands of expected visitors a special committee of the faculty of the university was appointed and is now working on the plans. It is to be a day of rare good fellowship and unalloyed pleasures if the committee is successful in putting into effect the plans that now are being tentatively considered. Professor F. R. Graff, chairman of the committee, said that announcement will be made in due time of the program for the eventful day. Advances have been received that special trains for the benefit of the alumni and other visitors will be run from Dallas and probably other cities of the state. With more than fifteen thousand seats for the football game taken, there is no uncertainty as to the possible size of the crowd.

GIRLS' DEATH CLEARED UP

Chicago, Nov. 17.—Police said the confessions of fifteen women's confessions of the two men held in connection with the deaths of two actresses found in Grant Park Sunday morning cleared up nearly all the details and established that the girls died from alcohol and exposure, and without violence.

KEEPING SUGAR PRICES UP

According to a New York newspaper, American bankers have decided to advance money to Cuban sugar growers to help them hold their crop back from the market in order to compel an increase in the price of sugar.

If bankers in this country are lending support to any such movement they are woefully out of touch with public sentiment and with the principles that have guided the government and banking organizations throughout the country. Secretary of the Treasury Houston declared some time ago that it was not the business of the government either to aid in holding prices up or to depress them. The American Bankers' Association at a recent meeting condemned any effort to use government money arbitrarily to hold up or force down prices or otherwise "interfere with normal economic influences." The bankers also condemned speculative hoarding in agriculture or other industries.

The country is tired of profiteers and their ways and the people by economy and thrift have so lessened the demand for commodities that there has been a general lowering of prices in spite of the efforts of some forces to keep them up. Only a short-sighted business man will overlook the wisdom of moving with the trend of the times.—Toledo Blade.

A local firm Monday night set 20 big rat traps in their store, and were gratified Tuesday morning to go to these traps and find 17 healthy rats. The firm paid \$4.09 for the traps and the first night's catch of 17 rats looks as if the money was well spent. It would be well if more Nacogdoches people would interest themselves in the extermination of the rat.

Hon. Edgar Thompson left Tuesday night for Houston, where he will remain one day before going to Waco, where he will attend to some important business.

MAY RESUME THRONE

Athens, Greece, Nov. 17.—"Constantine is our rightful king," former Premier Gounaris, leader of the successful party in the recent Greek elections, told a correspondent today, "and we expect him back as soon as a plebiscite can be held showing that the people want him."

Queen Mother is Regent

Athens, Nov. 17.—Queen mother Olga of Greece will probably assume the regency today, it was learned this forenoon. The queen mother is the widow of the late King George, who was assassinated at Salonika in 1915. Admiral Coundouriotis is the present regent.

INVITED TO MEXICO

Brownsville, Nov. 17.—Senator Harding's reply to an invitation to visit Mexico during his Southern trip will probably be determined within the next 24 hours as he travels on his special train from Brownsville to New Orleans. The president-elect leaves Brownsville at the end of a nine day vacation and will reach New Orleans at 10 o'clock tomorrow morning and during his five-hour stay will address the New Orleans Association of Commerce. If the steamer's course is changed to permit a call at Vera Cruz, the announcement is expected before he reaches the Louisiana port. There were no indications before his departure as to whether he would accept the invitation, which came yesterday from Mexican officials.

TERRACING DEMONSTRATION

To the Farmers: Below will be found a list of places and dates for five terracing demonstrations to be given by Mr. C. L. Beason, one of the best soil experts in the South.

These demonstrations are to be given under the direction of the Nacogdoches County Farm Bureau and are free to the public.

In addition to the actual building of terraces with the Martin Ditcher, lectures will be given on the general subject of soils and soil building.

Come to the demonstration nearest practical study of the best method of conserving your soils, and of rebuilding the worn-out places in your fields.

Labor and material is too high to spend in any but a productive soil. The price of farm products is too high to try to grow them on thin, worn-out soils.

The fertility of your soil might be very aptly compared to your bank account. At least there is a very close relation between the two.

Demonstrations will be held on Monday, November 22, at C. B. Patton's farm, 8 miles east of Nacogdoches, near Melrose.

Tuesday, November 23, A. J. Tucker's farm, 1 1/2 miles west of Chireno.

Wednesday, November 24, George Hagan's farm, 1 1/2 miles south of Sacul.

Friday, November 25, Nat Public School Grounds.

Saturday, November 26, Tom Maroney's farm, 3 miles east of Nacogdoches.

H. L. McKnight.

In a few days more the much-talked of, much-boasted and written-about football game between Nacogdoches and Lufkin will be played. Last year the score was 37 to 6, and it is thought the score will be in favor of the Nacogdoches team. The boys here this year have been losing no time in preparing themselves for this game, and they do not fear anyone. They had the misfortune of losing the last game, and that makes the only one lost this year. Then it is an admitted fact that the visiting team won the game more by chance than superior playing. Everyone is going to Lufkin Thanksgiving, and all are planning to have the time of their lives.

F. N. Thompson, the driller for Dr. Ellington in the Etoile region, has been on the sick list for the past few days, rendering him unable to serve the drilling contracts he has. The machinery for drilling is on the way, and when it arrives, Messrs. Thompson and Ellington expect to begin intensive drilling.

NO CASH WILL BE USED IN THIS BUSINESS

Rochester, N. Y., Nov. 16.—A large business house with headquarters in this city has undertaken to conduct its affairs entirely without the use of money. Instead of currency, it intends to use checks, trade acceptances and travel checks to make payments of every kind, including its payroll. As the concern deals with more than 800,000 individual customers the result of the experiment will be watched with interest.

The company's reason for adopting this system is given as an effort to demonstrate a means of ending the epidemic of payroll robberies and "to show that modern business may be conducted most efficiently without the use of 'small change,' thus leaving the nation's money where it belongs, in the banks, to serve as the basis of credit."

The announcement says that even car fares, hotel bills and railroad fares for the company's force of several hundred salesmen, and other sundries are to be paid by checks. All petty items, even to one-cent postage stamps will be paid henceforth by check and "no currency of any amount or denomination is to be carried in form as company property." To meet a payroll of its factory, the company has offered to employees either a regular pay check or the option of receiving a deposit slip showing that his earnings for the week have been deposited to his credit in a local bank. This plan is expected by the house to prove popular with the thrifty class of employees and to increase the volume of bank deposits. Executive employees who have no banking account have been advised to start one at once.

WOMEN'S PROGRESS

The International Council of Women has just recently held its first full meeting since 1914; it met in Christiania, Norway, in the main parliament building. All of the 22 countries which affiliated with the organization in 1914, except Germany and Italy, were represented. New councils from Uruguay, Russia, Iceland, Ukraine and Mexico had been formed in the six-year interval and were duly admitted to the international league.

Reports made by the various committees showed steady advancement of the women in political rights, legal status, social consciousness and international thinking. In 23 countries women have been granted full political freedom. It was estimated that there are 100,000,000 women voters in the world today. Under the League of Nations women have voted in every plebiscite taken since the Versailles peace conference. Women, too, are eligible to any offices in the League.

Another forward step of particular note is found in the new marriage law of Sweden which lays down the maximum of equal rights and responsibilities of husband and wife in relations to each other and to their children. Both are made liable for the support of the family. The new interpretation of that phrase makes it clear that the work of the wife and mother in the home is to be considered as contributing to the support of the family exactly as is the husband's work in business, trade or profession outside the home.—Shreveport Journal.

NURSE TRAINING SCHOOL

Austin, Texas, Nov. 17.—In answer to the demand for public health nurses in many counties of the state, the University of Texas established during the past session a department of public health nursing, in which the third course is now being given. The course as offered covers three months of theoretical instruction at the university and two months of practical field work. Tuition in the course is free, and requirements of admission differ somewhat from those of regular university entrance. At present eight graduate nurses are enrolled for the theoretical course which will fit them for public health work. Miss Jane Duffey, director of the work, reports that excellent progress is being made, but that it is impossible to supply the demand from counties in the state for public health nurses.

WEEKLY SENTINEL

PRICE \$1.50 PER YEAR.

BY GILES M. HALTOM

"WITHOUT A BANKING PANIC"

New York Journal of Commerce; It is being remarked in many a quarters where price revisions are under discussion that the present is probably the first occasion on which the country has passed through a period of economic and industrial reorganization "without a banking panic." In former days the economic structures simply proceeded to grow steadily until inflation reached its logical result and then there was a breakdown. Failures followed and there was a sharp collapse of the price mechanism. The result was what is called, "deflation" but it brought with it much ruin and at times an almost total stoppage of ordinary business.

The features of present readjustment, which differ from former periods of a similar sort, are seen in the fact that the banking mechanism has faithfully and effectively supported sound institutions and enterprises up to the last, and has never failed them. The total volume of credit today is larger than it has been at any time. What the banking system has done of recent months has been to eliminate the speculative credit which was responsible for the undue advance prices, thereby bringing about a restoration of prices to a footing of normal exchange. There has never been a time when business of a legitimate sort could not get the accommodation it needed, or when the depositor could not obtain what he was entitled to at the bank.

There is no system of banking which can finance an indefinite speculative advance of prices, and if there were it would be the greatest curse to humanity that could be devised. What is needed everywhere is a system of banking that will both afford the support legitimate business needs and at the same time refuse support to speculative undertakings which seek only to advance prices to the consumer. Up to a short time ago it was supposed that present arrangements would permit only the former course of action. Recent events show that the contrary is the case. This result is a disappointment to some, but the benefit to the community as a whole is the greater notwithstanding. No more valuable service could be rendered by any banking system than the furnishing of conditions that will permit a readjustment without the familiar concomitant of panic and failure.

GET A MOVE ON YOU

To care only for one's own pleasure and prosperity is selfish. We should all care, also, for the pleasure and prosperity of our neighbor, our town, our community and nation. We all have a work to do and a duty to perform in this world, because God will ed it so, and we cannot perform that work an dhat duty by emulating the example of old Dog Tray, who basked in the sunshine and bit fleas all day long and came around to the back door to whine for a handout of grub. Go to church on Sunday and help the parson put good thoughts and ideas in to the community flock. Join the local chamber of commerce and help boost for your town and county. The more the community grows and prospers the more you grow and prosper. The more the town gets educated and grows out of provincialism the less provincial you will be.

You have got to work and fight in this old world and you will never get anywhere, much less to heaven. The very hope of immortality sprang from breaking hearts. Nations rise through mists of tears. Behind every song there lurks a sigh. The Virgin Mother is known as our Lady of Pain. The teachings of Christ are hallowed by the blood of self-sacrifice. The first breath of life and the last gasp are drawn in suffering; and between the cradle and the grave lies a bleak Sahara we have all got to cross.

So get busy now while your brain is clear and your muscles taut, and shoulder your burden and your cross. You cannot whine out from under it nor wish it back on someone else. We cannot pick ourselves up by our embroidered bootstraps and hop blithely astride a millenium built to order by either of the campaign committees, but we can grease the running gears by spreading the Gospel of God and the Brotherhood of Man, and putting our shoulders to the wheel of public progress.

NO LAWLESSNESS!

The Progressive Farmer laments the outbreaks of lawlessness that have resulted in burning cotton gins and compresses in some parts of the South. We must have no lawlessness.

We have a righteous and dignified cause, and we must fight a clean battle.

The ginners and compress men are not to blame for low prices. Wherever some fool disgraces our cause by lawlessness, we must purge our record by helping bring the guilty person to justice. There is no other course worthy of the honorable record and clean reputation which generations of sturdy and honest Southern farmers have handed down to us of today.

We must keep this record untarnished.—Progressive Farmer.

HOW SCIENCE WILL HELP US

From the Lynn Item
Guests on Marconi's yacht, cruising in the Mediterranean danced to the wireless music of an orchestra playing in London.

Well, well. This opens up possibilities, doesn't it?
If you see a man and a maid check-dancing along Main street in your village, it may be that they have suddenly caught the wireless output of some Broadway cabaret.

If Mrs. Jones of Kennelbunkport drops the breakfast dishes and spends the day with Mrs. Brown at the continuous movies, it may be that her husband's dinner is prepared by wireless, conveyed from Mrs. Robinson's cooker at Yuma.

If the Rev. Mr. Psaltrey rebukes your absence from the morning service, you can claim that you caught it by choirless.

Maybe blowouts and punctures will all be promptly repaired by tireless, conveyed from Akron.

And maybe, at some time in the future, political campaigns will be conducted by liir-less!

HOW NACOGDOCHES VOTED

Following is the official count of the vote cast in Nacogdoches county on the 2d inst., which was not available for publication until Saturday morning.

Neff, Democrat, 1,882.
Culbertson, Lily White Republican, 193.

Capers, Black-and-Tan Republican, 257.

McGregor, American, 368.
Rhodes, Socialist, 69.
School-tax amendment—For 1,108, against, 1,145.

City Tax Amendment—For, 882; against, 1,424.
Fee Amendment—For, 772; against, 1,546.

All the democratic candidates for county offices received about the same vote as the gubernatorial candidate, as did also the democratic presidential electors.

The socialist vote has been erroneously published as 449, when, in fact, it was but 69, as shown in the official returns.

COURTESY PAYS

Have you ever written a telegram and been tempted to cut out the word "please" in order to reduce the toll? The same thought undoubtedly flashes across the minds of thousands of other Americans in a single year. But they let the word stand and they pay the bill! The cost of the word "please" in telegraph tolls in the United States is estimated to be \$1,000,000 a year. Was there ever a better lesson in the value of good breeding and courtesy? Business men have found that the word "please" is worth all it costs. It gets results. And the telegraph companies say that it is being increasingly used. When you want a thing done, it always pays to ask for it in a courteous manner. You instantly gain the other person's good will.

It is about as cheap to buy hair as hair restorer.

Every divorce suit ought to be cleaned before it is pressed.

Platonic love is another of the dangerous "unloaded guns."

50 Years Ago

a young man who practiced medicine in a rural district became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. This was Dr. Pierce who afterward moved to Buffalo, N. Y. He made up his mind to place some of his medicines before the public, and he put up what he called his "Favorite Prescription," and placed it with the druggists in every state in the Union.

For fifty years Dr. Pierce's Favorite Prescription has sold more largely throughout the United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to. It is now sold by druggists in tablet form as well as liquid.

HOUSTON, TEXAS.—"Doctor Pierce's Favorite Prescription is an excellent medicine. I have taken it for feminine troubles and when run-down, weak and nervous, and it was very quick in building me up and relieving me of my trouble. I always felt better."—MRS. H. E. WILLIAMS, 2424 Freeman Street.

The cost plus system is a graft and theft system that ought to be abolished. In nine cases out of ten there is more plus than cost.

There are two reasons why people do not mind their own business. One is they have no business to mind, and the other is they have no mind.

Before a girl marries she prays that she may make him a good wife, and after marriage she asks the Lord to make him a better husband and sometimes He does.

We do love to walk around in a hardware store once in a while, just to look at the many things we can never find when he wants them at home.

The Argentine republic congress has just passed a bill to pension newspaper men. By golly, we always heard that Buenos Ayres was a fine big city. Wonder how much a ticket to there costs?

Communism is the age-old dream of lazy weaklings that they can get something for nothing. And besides, who in blazes wants to be in partnership with the riffraff that is clamoring for communism?

Uncle Joe Cannon slipped and broke his arm while down in the cellar a few days ago, and the question now is, what has he got hid away down in that cellar that makes folks fall down and step on themselves, and break their arms, and everything?

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic acid.

I-MAN FLAG—THE PRESIDENT'S

From the National Geographic Bulletin

Washington, Nov. 13.—Most folk know of some of the perquisites that will accrue to the next president of the United States, such as a band which is at his disposal—the Marine Band—and the White House conservatories which provide the first Lady of the Land with flowers, but it is not so generally known that one of the honors bestowed upon the chief executive is a special flag.

This flag is not seen frequently. It does not float over the White House. Its use is reserved, for the most part, for occasions when the president appears in his ex-officio function as commander-in-chief of the army and navy.

The President's Flag consists of the coat-of-arms as they appear on the president's seal, against a blue background, and flanked with four stars. Its history and use are described in the monograph on "Flags of the World" of the National Geographic Society as follows:

"When the president visits a vessel of the United States, the President's Flag is broken at the main the moment he reaches the deck and is kept flying as long as he is on board. If the vessel can do so, a national salute of 21 guns is fired as soon as possible after his arrival on board. Upon departure, another salute of 21 guns is fired, the Presidents Flag being lowered with the last gun of the salute.

"When the president is embarked in a boat he usually directs that his flag be displayed from the staff in the bow of his barge. When he passes in a boat flying his flag, vessels of the navy parade the full gullard, four ruffles are given on the drum, four flourishes are sounded on the bugle, the National Anthem is played by the band, and officers and men salute. When the president is embarked in a ship flying his flag, all saluting ships, on meeting her at sea or elsewhere, and all naval batteries, fire a national salute on passing.

"Previous to the present order there were two designs displayed on flags and on colors to be used by the commander in chief of the army and navy. The navy design was of an earlier date than that of the army, and consisted of the coat-of-arms of the United States, as shown in the Great Seal, upon a blue background. This happened to be almost identical with the infantry colors. The president's colors were designed to be different from the infantry's colors, and consisted of a blue ground with a large crimson star, outlined heavily with white. Withing the star are to be seen the coat-of-arms of the United States, and outside the star within its angles were powdered small stars to the number of the states in the Union.

"The double display of flags and colors at the Grand Army review in 1915 caused considerable comment, and as a result the suggestion was made to the president that the navy flag might be fittingly made distinctive from the infantry colors by the addition of four stars—one in each corner. The flags of an admiral and of a general bear four stars, as a sign of command. The president approved of the idea, but directed that the coat of arms, as shown on the president's seal, be used upon the president's personal flag and colors."

It is estimated that our women spend millions of dollars each year for cosmetics, and much more than they used to be. Well, if they go over with the powder all the broad expanse now which did not use to show at all.

Its Just Like a Street Car

From the Chicago News
In the political band wagon not many men are getting up to give women seats.

To abort a cold and prevent complications take

COTTON IS CHIEF— BUT YOU NEED HOGS

COTTON should remain the chief money crop of the South and of the average farmer, but the most economical production of cotton or any other crop can only be obtained on rich soil. Therefore, the growing of other crops, particularly legumes, is essential to economical cotton production. But when legumes and other feeds are grown, even when the legumes are grown to increase the organic matter and nitrogen in the soil, livestock are essential, because they offer the most economical method of disposing of these crops without the removal of the plant foods they contain from the farm.

This is why the Southern farmer, even the cotton grower, should increase rather than decrease his hog crop.—The Progressive Farmer.

NACOGDOCHES NEGRO 100 YEARS OF AGE

He is a little, old, gray, tottering negro that carries a peculiar walking stick, and seems to derive a great deal of enjoyment from wrinking. His name is Fred Ross, and he is 100 years of age.

Fred lives in Nacogdoches, has been living here almost all his life, and he thinks that Nacogdoches' atmosphere is certainly conducive to health. He says that he remembers General Houston "before he won Texas from Mexico," knew General Rusk and a number of other prominent men of Texas history. When asked if he knew Lee, Jackson and some other prominent Confederate generals, he said that he never had the pleasure of seeing any of them, although he well remembered some of their exploits during the civil war.

Fred, as stated before, is 100 years of age, is in good health, has a good memory, is a good reader, has three children, he says are doing well, and he himself is quite happy. He can tell some interesting things of the past in which he has had the good fortune to live through a long time—longer by far than a majority of us will live, perhaps—and he is always happy, he says, to tell of some of the things he has seen and experienced in early days.

Students interested in history will find him interesting to talk to. He is small of stature, weighs about 100 pounds, walks very slowly, and with difficulty, has an abundance of gray beard, and a cheerful disposition.

A MIXED COURT

The newly elected commissioners court over in San Augustine county will be somewhat mixed, politically speaking, as two members of the court won on the American party ticket, one on the Democratic ticket, and one as an independent, while the county judge took no active part in politics. It is said that Neff and McGregor ran neck and neck. Lufkin News.

Of course the farmers do not relish the slump in the price of their products, but they have one advantage over the rest of us—they can eat 'em, and 'taters, squash, wheat, corn, turnips and boiled spare ribs with greens taste just as well under deflation as under inflation.

LITTELL'S

LITTELL'S LIQUID SULPHUR COMPOUND

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely. Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites. In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00
JAMES F. BALLARD, Prop. St. Louis, MO.

BANKS TAKE STOCK IN EXPORT CORPORATION

Fort Worth, Texas, Nov. 12.—The Fort Worth banks have subscribed 3 percent of their capital to the Southern Export Corporation recently organized at New Orleans. Every bank in the city subscribed the allotted amount.

MALARIA AND AGUE BROKEN UP IN THREE DAYS

Swamp Chill and Fever Tonic Brings Relief to Thousands

Don't keep on suffering from those awful chills—that horrible shivering and shaking—that burning fever.

Go to your druggist or general store this very day and get a bottle of Swamp Chill and Fever Tonic—the famous, never-failing remedy that's been relieving the suffering for years and years.

For the small sum of 60 cents you get a sure-shot remedy that quickly drives out all the malaria—and drives it away to stay! That's why so many leading physicians prescribe Swamp Chill Tonic as the best malaria remedy there is.

Swamp Chill Tonic contains no calomel. It is tasteless, easy to take, and has no unpleasant after-effects. No purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and bowels. Get well immediately by getting a bottle of Swamp Chill Tonic today.

NACOGDOCHES VS. HOUSTON AN EXCITING GAME

Promptly at 3 o'clock Thursday afternoon on the high school gridiron, the home boys met the Houston Heights team in what was generally characterized as one of the hardest fought games ever staged on the Nacogdoches field.

From the very start the situation was tense, and everyone present looked for a hotly contested struggle. In the first quarter, the home boys were equal to the occasion, and the Houston delegation did not win a score. Never did boys tackle and guard, team-work and plan as the home boys did in that memorable first quarter. Sherrill Sullivan and Frank Shofner were the bravest of the brave. These two Nacogdoches players were always seen where the fight was the thickest. Sullivan won the admiration of the spectators by the wholly indifferent manner he used in running broadside into some of the "beefies" from Houston, always throwing them with crashing force to mother earth. Shofner was wounded in the face in some manner while playing, but he kept bravely at his post of duty and did everything in his power to impel the game. But Shofner and Sullivan were not the only ones in the game who were playing hard—there were Summers, who did some good playing; Hagan, who made the Houstonites respect him; Parrish who defended his position in the game with a skill and endurance that won universal applause from the spectators; Brown who while small as compared with the "beefies" showed them that lots of vim is often put into small packages. Thompson and Smith gave a good account of themselves during the game.

In the second quarter the home boys lost to the visitors, the Houstonites making one touchdown. The visitors fought hard for this, and won it more by chance than by scientific playing.

In the third quarter the score was again left unchanged, the home boys doubling up and playing like wildcats fed on dynamite. Neither side scored, and excitement grew exceedingly tense when the last quarter drew near—the quarter to decide the winner of the game.

The fourth quarter resulted disastrously for the home team, Brudder of the Houston team getting in another touchdown for the visitors. This made the second touchdown for Brudder in the game. During the last quarter, the home boys, all of them, Nacogdoches rooters say, won a touchdown, but it was so strenuously disputed that the home boys did not get credit for it.

When the conclusion of the game arrived, the boys on both sides of the contest left the field, hot, tired, some limping, some bleeding, but all highly satisfied with the bunch of clean sport enjoyed. Golub suffered a broken collar bone, this being about the only serious accident of the day. It is understood that Sullivan was knocked out during the game, but his injuries were not serious, as he was soon able to continue playing as well as ever. Sullivan put one of the Houston players, "hors-de-combat," and the young man was "hobbling" considerably Thursday night when he left Nacogdoches with his squad for Houston.

Coach T. H. Hunt Thursday night at the Redland Hotel said that he was greatly disappointed with the result of the game, but that Nacogdoches could take a defeat as cheerfully as anyone. Mr. Hunt was deeply affected with the loss, and refused to talk very much about it. He has worked untiringly all the season to get the boys in shape to meet any antagonist, and so far, they had not met one defeat. This being the case, he of course felt a bit discouraged over the first defeat.

The score was 12 to 0 in favor of Houston.

GERMANY CAN COME BACK IN TWENTY-FIVE YEARS

Chicago, Nov. 15.—Germany in another twenty-five years can rise and again threaten the world is the belief of General Georges Nivelle, commander in chief of the French armies three years ago. General Nivelle was in Chicago as a representative of France at the centenary celebration of the Pilgrims' arrival at Plymouth Rock.

"They still have their aggressiveness and they are hot-headed today as they sit drinking humble beer in the taverns and the Allies' heel irks them," General Nivelle said.

General Nivelle in Chicago is the guest of Major General Leonard Wood and witnessed his first football contest this afternoon when he attended the Perdue-Northwestern game.

If It Is a Bilious Attack
Take three of Chamberlain's Tablets and a quick cure is certain. Sold by Stripling, Haselwood & Co.

THE SAME DAGGER KILLED FATHER AND DAUGHTER

Chicago, Nov. 15.—The body of Theodora Sanders, who killed herself when her love was scorned by Harry Garver, Chicago commercial expert, was taken to the girl's home in Laredo, Texas, tonight.

Mrs. Ruby Campbell, a girlhood friend of Miss Sanders, accompanied the body.

Mrs. Campbell told of a chain of coincidences in the death of Miss Sanders and her father. Mrs. Campbell said Miss Sanders' father was killed in a quarrel in Mexico City. The dagger with which the girl killed herself was taken from her father's body when he was found slain. The father was killed on his 29th birthday and Miss Sanders was 29 the day she took her own life while talking to her former lover in the Fort Dearborn Hotel.

PROHIBITION WILL CONTINUE

While recent rulings by courts and prohibition commissioners on various phases of the Volstead act have had the tendency to loosen its enforcement somewhat, the country may rest assured that there will be no important modification of the law by the next congress.

The returns from the recent congressional election show that the dry majority will be overwhelming. The results clearly indicate the temper of the people with regard to the liquor issue.

Two-hundred and sixty-eight members of congress who voted for the Volstead act were re-elected, including Mr. Volstead himself, whose defeat the liquor interests would have paid almost anything to encompass. Only two members who voted for the act were defeated, while 37 who voted against it were retired to private life by their constituents.

Another significant feature of the congressional returns was that in nearly every case of where the issue was drawn, the dry candidate ran ahead of his ticket, while the wet candidate ran behind his ticket.

Seldom have the people given so clear a mandate to their legislators as they have given on the prohibition amendment and its enforcement. In the face of such a demand, modification is out of the question, and a more rigid enforcement is likely in those centers which have heretofore made little effort to comply with the law, hoping that it would be repealed. Neither party made prohibition an issue, but it is the established policy of the country, beyond the shadow of a doubt.—Houston Post.

THE LADY FROM OKLAHOMA

From the New York Times
A woman, Miss Alice Robinson, no longer on the sunny side of 60, has overturned a democratic plurality of 3,916 in the second Oklahoma congressional district and relegated to private life the veteran W. W. Hastings. Miss Robinson was a political novice, and had been well known until a few months ago as president of the Anti-Suffrage Association of Oklahoma. There is nothing stranger in the republican landslide than the successful venture of this redoubtable woman, who had been told that the second district was a democratic Gibraltar and that she would waste her time in campaigning against an old favorite. From her "cafeteria" in Muskogee, where no uniformed soldier or sailor had to pay for a meal during the war, she will be translated to the chamber of the house of representatives at the capital to make laws for her country and an age when most women are knitting in a cozy corner and watching the world go by. But Miss Robinson is made of sterner stuff. She was a pioneer in the Old Indian Territory long before the race for homesteads known as the opening of Oklahoma to entry. Her childhood was spent on the frontier, and her character was formed by its rough life, hazards and hardships. For her there was a second school of experience when the homesteaders overran Oklahoma and a Commonwealth of traders, soil tillers and adventurers was quickly formed.

For a Disordered Stomach
When the stomach fails to perform its functions the bowels become deranged, the liver and kidneys congested. The important thing is to restore the stomach and liver to a healthy condition and for this purpose Chamberlain's Tablets are excellent. Give them a trial. They cost only a quarter. Sold by Stripling, Haselwood & Co.

Mrs. H. T. Mast and son returned Saturday afternoon from Shreveport and Boyce, Louisiana, where they had been visiting relatives and friends.

NACOGDOCHES TRADITIONS

It is a pleasant pastime, spell it pass-time, for old-timers to recall past-times, long past. For instance, the unveiling ceremonies of General Thos. J. Rusk's monument, which is now standing in the venerable old Nacogdoches cemetery, located centrally in the old town and now called Oak Grove cemetery.

This occurred about a quarter of a century ago and was a notable event for the historic old town. It also attracted the attention of people at far distances, and quite a number of noteworthy people came to do honor to the occasion. Judge Peyton F. Edwards of El Paso, on the far western border of Texas, appeared by special invitation as orator of the day.

It was a labor of love with Judge Edwards. The site of the monument was closely adjacent to his childhood home, the residence of his father General Haden H. Edwards. The cemetery adjoins the Edwards homestead on the north and beyond this further north was a most beautiful park of native trees, where preparations were made for the assembly of the large crowd of attendants, and for the eulogistic speaking. The late W. P. Mims, of worthy memory, was mayor, and did his full duty, for which he was well fitted. Other leading citizens lent their aid.

Judge Edwards was at his best, and he was well fitted for the work, because of his personal relations with the family of General Rusk and his great respect for the general, and acquaintance with his public career and his eminent ability and merits. His speech was truly grand. One impressive point he made was that if General Rusk had lived he had a most favorable opportunity to become the next Democratic president of the United States. The dissensions and alignments of the leading parties taken into consideration, justified this view. Rusk occupied a political stand to place him in favor.

Governor Hubbard of Tyler, famous for oratory, was present and made a speech of superb merit.

Jesse W. Sparks of Murfreesboro, Tenn., came all the way back to do honor to his boyhood home and association with the Rusk boys, and his veneration for the great general.

His speech was a real take, being of a unique type, depicting Rusk's domestic affairs and lovable character at home.

Sparks was born and reared at Nacogdoches. His ancestors were Texas heroes, and he himself a military officer of note in the Confederate army. After this war he married and raised a family at Murfreesboro, Tenn., where he was a man of distinction, and came near being governor of Tennessee. He was a half-brother of J. J. Millard. At the home of General Rusk's death, Thomas J.

FARMERS SHOULD ORGANIZE AND EMPLOY BUSINESS EXPERTS

While the farmers of the country have not gone very far in organization and co-operation they have tried it sufficiently to prove to themselves that it is the one and only way by which the farmer can get fair prices for his products. The farmers are experts on production, but cannot be expected to know all the ins and outs of the marketing game. They can, however, by acting together, employ efficient business managers and salesmen to represent them in the markets of the country and to sell their produce for them at such prices as to make farming profitable.

The farmer unorganized has paid a heavy toll to the commission men and others who perform the distribution function of farm products. Unorganized, they have also got the worst of the bargain with the railroads and usually with legislatures and congress. Organized, they can employ the most scientific traffic men, standard experts, lawyers, tax authorities and other economists who will fight their battles for them. It is not the owners of organized capital who are so efficient in their dealings with railroads and other organizations, but it is the men they employ with the money at hand. The farmers can now take a leaf from the books of these successful business organizations and employ their own hired men who are the equal of any in the country.—The Progressive Farmer.

THANKSGIVING FOOTBALL AT A. & M. COLLEGE

Anstine, Texas, Nov. 15.—It is announced by the Athletic Council of the University of Texas that cash receipts from advance sale of tickets for the Texas-A. & M. game on Thanksgiving day have already exceeded \$17,000. This does not take into account more than 3,000 tickets issued to university students on their blanket tax receipts.

All grandstand seats, which were reserved for alumni, have been sold for more than two weeks, all boxes taken, and practically all seats in the student rooting sections. Seats remaining are at the end of the field, and are being sold out rapidly.

Serious Results from Colds

Colds not only cause a tremendous financial loss but also serious injury to every one who contracts them because they lower the vitality and prepare the system for the more serious diseases. It is not at all unusual for people who have serious lung trouble to say "I had a hard cold last winter." Why not take Chamberlain's Cough Remedy and cure your cold now you can. Sold by Stripling, Haselwood & Co.

CHILDREN TRAMPLED TO DEATH

New York, Nov. 15.—A crusade for stricter enforcement of the city ordinance forbidding motion picture proprietors to sell tickets to minors unless accompanied by their parents or guardians was started by the police today as a result of a panic on the Lower East Side last night, when six children were trampled to death in a mad rush following a false fire alarm. The proprietor and janitor of the theater were arrested after the tragedy charged with manslaughter. Early today the charge was changed to criminal negligence and they were held without bail for arraignment tomorrow. Most of the twelve other youngsters seriously injured were said to be in a critical condition early today. The panic occurred when some of the patrons noticed curling shadows and smelled the odor of smoke. They yelled fire, and all dashed for liberty. The janitor starting a fire in the furnace caused the smoke.

WRANGLER DEFEATED

Constantinople, Nov. 15.—The army of General Wrangel, the anti-bolshevik leader in South Russia, has been wiped out and a number of his generals have committed suicide. A mob in Sebastopol has pillaged the American Red Cross.

Sebastopol Has Fallen

Paris, Nov. 15.—Sebastopol has fallen. The Russian bolsheviks occupied the city last night, according to official information received by the French Foreign Office.

HARDING IS STORM-BOUND

Point Isabel, Texas, Nov. 15.—President-elect Harding's vacation was broken up and the roadways to the outside world are temporarily blocked by the worst storm in the history of this section of the Gulf Coast, but he has planned another attempt to get into Brownsville today in comfort for the remaining two days of his visit to Texas. He has already said good-bye once to the frail seaside cottage which housed him through three days of wind and cold, but his efforts to get away came to grief when his special train, narrow-gauge and gasoline propelled, broke down just outside of Point Isabel, and after four hours on the wind-swept prairie returned after dark last night. The train is held for another try about noon today. It offers the only avenue of departure. The roads are impassable for automobiles.

IS YOUR HEALTH GRADUALLY SLIPPING?

Interesting Experience of a Texas Lady Who Declares That if More Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health:

"Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all.

"I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish.

"I was . . . nervous and easily upset.

I couldn't rest well at night and was . . . just lifeless.

"I heard of Cardui and after reading I decided I had some female trouble that was pulling me down. I sent for Cardui and began it . . .

"In a very short while after I began the Cardui Home Treatment I saw an improvement and it wasn't long until I was all right—good appetite, splendid rest and much stronger so that I easily did my house work.

"Later I took a bottle of Cardui as a tonic, I can recommend Cardui and gladly do so, for if more women knew, I would save a great deal of worry and sickness."

The enthusiastic praise of thousands of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

TREASURY DEPARTMENT PLANS THRIFT COURSE FOR SCHOOLS

Washington, Nov. 13.—Officials of the savings division of the treasury department conferred Friday with a number of educators regarding plans of making the principle of the saving and investment of money a permanent and compulsory part of the American public curriculum and for the use of government savings securities as the practical medium for applying those principles.

The conference will continue tomorrow and the committee of educators appointed at the National Education Association convention at Salt Lake City last July, will confer with Secretary Houston during its stay in Washington.

PRICES COMING DOWN

Minneapolis, Minn., Nov. 11.—For the first time in almost four years flour sold under the \$10 a barrel mark at the mills here today. Quotations on family patents broke 35c to 75c today, making today's range of prices \$9.65 @ 10.00 a barrel. Yesterday's sharp decline in wheat was given as the cause.

Sugar Takes Tumble.

New York, Nov. 11.—Raw sugar dropped to 6 1/4c a pound, a new low mark for the season, in the sugar market here today. The price reflects heavy slack in the demand and is a loss of more than 17c from the highest of the season's quotations last May. Trading was dull.

Chicago, Ill., Nov. 11.—Canned tomatoes sold at 7 cents a can in department stores here today. A year ago the same size and grade brought three times that much.

Wheat, Corn and Oats Decline
Chicago, Nov. 11.—Lowest prices in four years prevailed Tuesday for all options of wheat, corn and oats on the Chicago board of trade. The new prices represented declines of 6 to 7 cents for wheat and 2 or 3 cents for corn and oats under Monday's prices. Wheat was 33 to 39 cents lower Tuesday than it was a week ago, and corn quotations are less than one half of what they were six months ago. The December option in wheat closed Tuesday at \$1.77 to \$1.78, December corn 78 cents and December oats 49 cents.

MEN TO BE LAID OFF

Altoona, Pa., Nov. 13.—Announcement was made at Pennsylvania railroad offices here yesterday that 1,300 in the Altoona shops, or ten percent of the force, will be laid off November 16. All departments are affected.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and sniffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

CONGRESS STARTS WHERE IT LEFT OFF LAST JUNE

Washington, Nov. 11.—When congress meets next month it will resume where it stopped the first of last June, and all legislation continues as though there had been no adjournment. With state legislatures legislative dies with the session, unless the congress itself ends.

The session in December will be the beginning of the third session of the sixty-sixth congress. The new, or sixty-seventh congress, does not begin until after the 4th of March next, following the inauguration of the new president.

Therefore all legislation remains active throughout the congress if not defeated or passed in the meantime.

MONEYLESS AND DESPARATE

Chicago, Nov. 12.—The testimony given Coroner Hoffman today revealed Theodora Sanders' last desperate effort to obtain financial aid which would have permitted her to remain near the man she loved before she stabbed herself to death last Tuesday. Her hotel bills were overdue, so she decided to pawn her only article of jewelry, a diamond stickpin, rather than return to her home in Laredo, Texas. A diamond broker related how she visited his office Monday, pathetically eager to dispose of the pin. The diamond had a flaw and he could not buy it. She cried, and later visited the offices of three other diamond brokers, none of whom would buy. She appealed to the elevator operator as she left the building. The coroner announced that he would continue the inquiry until a full investigation was completed.

DOUBLE DANGER SIGNALS

San Antonio, Texas, Nov. 10.—The next legislatures will be asked to pass a bill requiring that railroads maintain a double system of danger signals at crossings and compelling drivers to stop, look and listen before crossing grade crossings. The measure has been drafted by E. B. Pate of San Antonio, and is a direct result of the crossing accident near New Braunfels in June last year, when seven San Antonians were killed. Mr. Pate is a friend of all those meeting death in the accident. Copies of the measure have been sent to Governor Hobby and a copy will be furnished each member of the legislature before the session.

WORKINGMEN DISAGREE

Washington, Nov. 12.—Jurisdictional disagreements between the various international unions are considered the most pressing problem confronting the executive council of the American Federation of Labor, which convened yesterday in regular fall session. The members of the executive council expected to attend the meeting include Gomers, president, and Morrison, secretary.

HUNGER STRIKERS EAT

Cork, Nov. 13.—The hunger strike of the nine Irish prisoners in the Cork jail was called off yesterday, the 94th day of the strike.

TEXAS BAPTISTS

El Paso, Texas, Nov. 13.—Reports read at the Baptist General Convention today disclosed that there are 37,000 Baptist churches and 700 Baptist Sunday-schools in Texas, and 50,000 students enrolled in the 115 Baptist Colleges of the South.

BAXTER DUNCAN POST THANKS ITS FRIENDS

The committee in charge of the Armistice Day program, along with the entire membership of the post, desires to sincerely thank each and everyone who contributed in time, money or otherwise toward making this program the success it was.

We are extremely grateful to Mr. Hunt, coach, and members of the high school football team for the game played with Houston Heights, whereby the proceeds of the game above the actual expenses were donated to the American Legion. We doubly appreciate their generosity, and only wish that they might have been victorious over Houston Heights.

We thank the business men of the city who furnished the lunch and Miss Robinson and her class of domestic science girls who prepared and served same to all ex-soldiers present. They are to be complimented in the selection and manner in which this fine lunch was served.

We especially wish to thank the members of the Nacogdoches band for the splendid music which they rendered. This band went a long way toward making the day a success.

The Legion wishes to thank all the Elks for their hospitality; also Mr. J. H. Brantley, who admitted free of charge all ex-soldiers to his show. We appreciate the equipment to make and serve coffee furnished by Mr. Fred Fezell of the City Bakery.

We are indeed grateful to Mr. Storey of Tyler, national committeeman from this district, who delivered our memorial address.

We, too, thank each member of this post who helped carry out the program, and trust that you will lend your efforts and co-operation in the future in making this post the largest in proportion to the ex-soldiers it serves of any in the state.

Watch us grow!
Baxter Duncan Post, No. 86,
American Legion Committee.

BLACK HAND ACTIVITIES IN SOUTHERN LOUISIANA

Lake Charles, La., Nov. 13.—Printed "Black-hand" letters, addressed to bankers and millers, have been picked up in Crowley, Welsh, Jennings, and Vinton, La., and are thought to have been dropped off an early morning train.

The messages printed on bond paper, read as follows:
"We demand \$10 a barrel for our rice or hell will pick up in thirty days. We are 800 strong and are getting stronger every day. Come clean. Signed—Black-hand."

A federal agent has been sent to Welsh, and arrests are shortly expected.

CONDITION OF SUGAR CANE CROP IN LOUISIANA 71

New Orleans, Nov. 13.—Conditions of sugar cane in Louisiana was 71 percent normal on November 1, according to a report issued yesterday by Lionel Jones, agricultural statistician for the department of agriculture. The condition compares with 72 percent last year, and 78 percent the nine year average. It forecasts a yield of 181,931 short tons of sugar, 60,000 above last year.

MAJOR LITTLEFIELD DEAD

Austin, Texas, Nov. 10.—Major George W. Littlefield, pioneer Texan and millionaire and retired banker of Austin died today after a lingering illness. He was about 78 years old and in his youth served as a member of Terry's Texas Rangers. He won his title in the Civil War. Up until a year ago Major Littlefield was a member of the board of regents of the University of Texas and presented the university with its library in addition to endowing a chair in Southern history.

At the time of his death he owned ranch lands in Texas and New Mexico.

You Need Strength

to overcome the cough, colds and other chest ailments of winter. Restore healthy circulation, throw out the mucus, tone up the nerves and fight the stagnation of catarrh. These winter ailments will have no terrors.

USED BY THOUSANDS

Aids digestion, regulates the bowels, clears away all catarrhal inflammation. It builds up the strength by enabling the organs concerned to properly do their work. Thousands testify to its value after protracted sickness, an attack of Grip or Spanish influenza.

The ideal medicine in the home for every day ill.

TABLETS OR LIQUID

BIG DAY IN 'DOCHES ARMISTICE DAY

Armistice Day was a big day in Nacogdoches. People from all parts of the county were here, and they were ready for fun and frolic. Many ex-soldier boys from all parts of the county and other places were present in the city, mingling with their former companions in arms and enjoying the festivities of the day.

The beginning of the day's program was at 10:30 when the Nacogdoches band, now an efficient organization, met on Main street in front of the postoffice and rendered a few snappy pieces, receiving in the end warm applause from the crowd.

After the band had concluded its musical program, Mr. Storey of the American Legion Chapter at Tyler made a very interesting talk, explaining the purpose of the day's work, telling of some of the things accomplished by the American Legion, some of the things the American Legion was planning to accomplish in the future, and its present place in American life. Mr. Storey said the American Legion was going to teach everyone in America to respect America, and show all in America if they did not respect America "they could go back to the land from whence they came."

Mr. Storey concluded his talk by saying that he was especially delighted to be in Nacogdoches, and that the day's visit here was going to be one of pleasure and profit to him.

At the conclusion of Mr. Storey's speech, Attorney W. B. Bates made a talk in which he said Nacogdoches was indeed glad to have Mr. Storey with it in the day's celebration. He also made mention of some of the patriotic things connected with the celebration and concluded his talk by asking a minister to return thanks to the Almighty God for the blessings of peace which the land is now enjoying. Father McCarthy of the Catholic church was the minister to return the thanks.

At the conclusion of the speaking program, the band started a snappy selection and headed for the courthouse at which place a sumptuous dinner had been prepared. At 12 o'clock all the ex-soldier boys had been invited to the feast, including everyone, and all greatly enjoyed the delicious viands. The crowd then dispersed, all getting ready for the big football game which was to be played between Nacogdoches and Houston.

At 2:30 o'clock in the afternoon Attorney S. M. Adams, after the local band had played two or three selections in front of the Stone Fort National Bank on Main street, mounted a lamppost foundation nearby and proceeded to tell the crowd present just what was "on" for the remainder of the day. Then everyone followed the band to the High School, where other things of interest were in store for them. A full account of the football game is to be found in another part of the paper.

GOOD HEALTH BONDS

Austin, Texas, Nov. 15.—"Bonds of Good Health" will be sold in Texas during the Christmas seal campaign, with "interest payable in improved community health." This is a statement made today by the Texas Public Health Association, which is directing the sale of 20,000,000 Christmas Seals in the Lone Star State.

The bonds are printed like those issued by corporations or governmental divisions, with coupons attached. They are issued in amounts of five, twenty-five, fifty, one hundred, and one thousand dollars in place of a similar amount of Christmas seals.

During the 1919 Christmas seal sale several banks and individuals bought \$1,000 worth of seals, and this year tuberculosis workers expect to sell a large amount of the \$1,000 bonds and those of smaller denominations. They will be given in lieu of the little stamps of health, to those who give large sums to the anti-tuberculosis cause and who cannot use a great amount of the seals.

A coupon for each month of the year is attached to the "health bond" telling twelve activities of the state and local anti-tuberculosis associations in "the Crusade of the Double Barred Cross," as this better health campaign is called.

The intensive sale of Christmas seals will begin on December 1st all over the United States; and the Texas Public Health Association and its local anti-tuberculosis societies expect to sell \$200,000 worth of the little seals and the health bonds. Ninety-five percent of this money will remain in Texas for health work among the Texas people.

Master Burrell Crawford celebrated his 9th birthday Saturday by giving a dining to six of his young friends. It was a merry occasion, and Burrell's guests hope he will have many returns on his natal day.

What's Inside

Inside your battery box are rubber jars.

Inside the jars is the solution.

In the solution are the positive and negative plates that supply current.

The job of Threaded Rubber Insulation is to keep the plates insulated and yet permit free flow of current for starter, lights and ignition. Threaded Rubber Insulation is the kind selected by 152 manufacturers of passenger cars and motor trucks.

ANOTHER WORLD WAR IS PREDICTED IN WARSAW

Warsaw, Nov. 13.—The declaration that war between Germany and Poland would be inevitable if the plebiscite to be held in the Upper Silesia gives that region to Germany was made today in the Gazette Poranna in discussing the plebiscite. The newspaper is the organ of the national democrats whose leader is John Domb-ski, under secretary of foreign affairs. The Gazette Poranna predicts that another world war would result with France and Belgium joining Poland and Great Britain siding with Germany. It adds:

"If England should enter this war it would mean, perhaps, the end of British world power."

STEEL MEN DECLARE WAR ON "OPEN SHOP"

Washington, Nov. 13.—Representatives of the labor organizations that participated in the steel strike last spring were in Washington yesterday at the call of President Gomers, of the American Federation of Labor to confer with the federation's executive council which is holding its regular fall meeting here.

Officers of the federation, it was said, planned to discuss with the leaders of the steel workers, measures for opposing reductions in wages and attempts to restore "open shop." It also was expected that plans would be laid for re-organizing and strengthening the labor bodies in the steel trade.

EFFORTS AT RESCUE

Sault Ste. Marie, Mich., Nov. 15.—The tug Iowa was fighting her way early today through the storm-tossed waters of Lake Superior toward Pancake Shoals to rescue part of the crew of the steel freighter Francis Widlat, wrecked during one of the severest storms of the lake's history. Captain Arthur Forbes, commander of the stricken vessel, and some of the members of the crew were picked up last night by the steamer Livingstone.

WHILE ALL THE ELECTION RETURNS

While all the election returns of Angelina county of last Tuesday's election is not yet in, still enough is known now to confirm the fact that the 15 cent road tax carried by a substantial majority. This will help materially to offset the election of Mr. Harding to the presidency of the United States. Just as the News said Saturday, when the complete vote of Angelina county is ascertained it will be published in this paper, for there are quite a number who would like to see it.—Lufkin News.

NACOGDOCHES, TEXAS.

Fordson TRADE MARK Farm Tractor

The after-service that goes with the Fordson Tractor is second to none. Fordson dealers are located in every community with stocks of repairs and parts and employing skilled mechanics who know just how the Fordson should be repaired and taken care of to do its best work.

The Fordson service means that your Tractor can be kept busy every working day during the entire year; that Fordson repairmen are ready to show you how to get the best results from your Tractor.

Fordson service insures you against delay in getting parts. It is your protection. It is a protection now being enjoyed by more than 100,000 Fordson farmers in the United States.

Let us tell you all about the Fordson Tractor and Fordson service. Let us demonstrate the Fordson on your own farm. Come in and let us prove everything we say.

BEN T. WILSON FORD

South Side P. O. Square Nacogdoches, Texas

Dr. Will H. Bruce, Osteopathic Physician, Redland Hotel.

J. B. Christopher of Alazan was in the city Wednesday on business.

W. H. Finley of Douglass was in the city Friday.

H. J. Craddock of Mayotown was a business visitor in the city Saturday.

T. Carlton of Chireno was a business visitor in the city Saturday.

Mrs. T. J. Young of Mayotown was a shopping visitor in the city Saturday.

Richard Stripling left Saturday for Dallas, where he will attend to business matters.

Mrs. Marcus Smith of Tyler is a week-end guest of Mrs. Robert Lindsey.

Mr. R. B. Walthall left this afternoon for Austin, where he will spend several days on business.

Mrs. John Durst of Tyler, in company with her daughter, Mrs. Tom Bonner, is visiting here sister, Mrs. E. V. Davidson.

Frank Tucker of the Mann Oil Company left Saturday for Fort Worth, where he will stay for a few days attending to oil business.

Henry Newman of Trinity was in the city Wednesday night on his way home, having spent several days visiting in the Etoile community with relatives and friends.

Ora Poland, one of the Nacogdoches High School students for the past three years, left Saturday for Fort Worth, where he will join his parents, who are living there. Ora will enter school there, and he expects to graduate this year. He is a splendid young fellow, has excellent qualities, and has many friends in Nacogdoches who regret to see him leave.

Rev. R. Emery, who recently resigned as pastor of the Christian church of this city, has accepted a call from the church at Cooper and will leave early in December for his new charge. Mr. Emery is an earnest and able minister, a convincing speaker and a progressive citizen, and any community will be fortunate that numbers him and his estimable family among its residents. The Sentinel wishes him success and prosperity in his new home, and heartily commends him to the people of Cooper.

NACOGDOCHES COTTON GINNED

There were ginned in Nacogdoches county to November 1, 1920, as reported from Washington, 14,951 bales from the crop of 1920, as compared with 4,913 bales ginned to the same date last year from the crop of 1919.

MARRIED

Paul Mettauer passed through Nacogdoches Thursday on his way to Chireno, having been spending his honeymoon in Houston and other South Texas towns. Mr. Mettauer was married in Lufkin Thursday at 11 o'clock, and from there went to Houston. The bride was Miss Fannie Day of Lufkin.

Mr. Mettauer was well known in Nacogdoches, having been a resident of this county at Chireno all his life.

A HOME DEMONSTRATION OF RED CROSS WORK

Opportunity was presented Friday for the Red Cross to show an example of the good work which it is continually performing.

Dr. Pennington reported to the local chapter a case of need at Poo which brought prompt relief. A family of nine children was recently left motherless, the oldest being a girl 12 years old. They were living in a floorless tent, scantily attired and ill-fed. Some of the children were sick, and there were absolutely none of the things which a sick child should have. The father is a teamster employed by one of the sawmills of the community, and was obliged to leave the little ones to their own resources while he was at work. His earnings were too meager to enable him to provide better quarters or proper food and clothing for his children. It was a case calling for prompt and adequate relief.

As soon as it was reported, the Red Cross got busy. A supply of groceries and sufficient seasonable clothing for all was at once taken to the family. Mr. Blum Mast donated the rent of a nearby farmhouse he owns, and they were moved into it and now enjoying comfortable quarters.

The Nacogdoches State Bank

at Nacogdoches, State of Texas, at the close of business on the 8th day of September, 1920, published in The Sentinel, a newspaper printed and published at Nacogdoches, State of Texas, on the 14th day of September, 1920.

Judge Marshall reports that the road work is progressing nicely, and that the Nacogdoches-Douglass road will soon be completed. The judge, while speaking about the bridges on the Nacogdoches-Douglass road, said that they would be remedied in the near future. The bridges at present time are not in the best condition, and the motorist should be extremely careful in passing over them.

USE "DIAMOND DYES"

Dye right! Don't risk material. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into old garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods.
Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has "Diamond Dyes Color Card"—16 rich colors.

OBITUARY

Departed this life November 6th, 1920, William H. Murphey, born November 2, 1841, age 79 years and 4 days.

The subject of this sketch was born in Limestone county, Alabama, and came to this state and county in company with his parents, Caroline C. and John L. Murphey, in November, 1848, and had resided in Nacogdoches county almost continuously to the day of his death.

He was a Confederate soldier, a member of the Masonic fraternity and member of the Presbyterian church at Rock Springs congregation, located about 8 1/2 miles northwest of the city of Nacogdoches. His remains were laid to rest in the Rock Springs cemetery at 3 o'clock Sunday afternoon, surrounded by his heart-broken wife and a large concourse of friends. He leaves a wife and four children, two sons and two daughters, to each of whom this writer extends his most heart-felt condolence. The exercises at the church and cemetery were conducted by Brother James Sharp, at the request of the deceased.

Thus has the will of God been done, and we humbly bow to His supreme power and righteous will.

By One Who Loved Him.

FOR SALE

I will sell at a bargain 1 riding plow, complete; two large brake plows 1 planter, 1 fertilizer distributor, 1 middlebuster stock, 1 section harrow, 2 side harrows and many other small farm tools. See Scott Mills at the Star Market, Nacogdoches, Texas. 11-2w.

Hon. W. E. Thomason gives out the information that the "boys" who have been going out quail hunting recently must not repeat this offense against the state game laws. The state commissioner of game, fish and oysters, has found out in some fashion about the local hunting of recent date, and he has taken the liberty to send to Nacogdoches county a special deputy game warden. Mr. Thomason said "I love to hunt as well as anyone, but we must respect the law."

ITCH!

Money back without question if HUNT'S Salve fails in the treatment of ITCH, ECZEMA, RINGWORM, TETTER or other itching skin disease. Try a 75 cent box at our risk.
Stripling, Hazelwood & Co.

A MAN is judged by the company he keeps; likewise a business is judged by the books it uses. The foundation of any successful business is in the accounting department. Are your books modern and kept in the modern way? If not, now is the time to get right. **Order a Loose Leaf Outfit Now.**

WINNIPEG MAN HAS GAINED 25 POUNDS

All His Troubles Were Overcome and He feels Fine Since Taking Tanlac.

"I have gained twenty-five pounds by taking Tanlac and never felt better," said E. J. Coleman, well-known painter and decorator of 195 Michigan Ave., Winnipeg, Man.

"About a year I had double pneumonia," said Mr. Coleman, "and it left me a wreck. I was too weak to walk by myself and my stomach was in such a bad shape that I could hardly eat enough to keep a bird alive. My nerves were so shattered that I almost collapsed when a friend one day unexpectedly slapped me on the back. It was out of the question for me to sleep at night—I was afraid to be alone in the dark and had to have someone in the room with me all the time. My kidneys were so out of order that I had a pain across my back nearly all the time and I lost so much weight I actually looked like a frame."

"I had taken so much medicine with out getting better that I was discouraged and when my folks bought me a bottle of Tanlac I didn't want to take it; but finally I tried it, and to my surprise I began to improve right away. Now I am on my fourth bottle and I am so well that I can do as hard a day's work as any man. I eat heartily of anything I want and never have the slightest pain of trouble of any sort whatsoever now. As long as I live I'll never be able to praise Tanlac enough for what it has done for me."

Tanlac is sold in Nacogdoches by Swift Bros. & Smith, Stripling, Haselwood & Co., and in Garrison by the Dale Drug Co.

DON'T SHIRK YOUR DUTY

You would be a very unnatural parent if you did not want to give your boy or girl the very best educational advantages that are in your power, a very thoughtful parent if you sent him to the first school that mailed you a catalogue, and an unpardonable parent if you entered him in school without first investigating its location, sanitation, equipment, character of student body, faculty, system of discipline, and above all the moral surroundings. Yours is the duty of investigation, comparison and ultimate decision.

Your boy or girl is the hope of your life. In him or her is centered your most cherished ambitions. His or her worth to you cannot be measured in dollars and cents, but his or her value must be measured by the training which he receives in home and in school.

Our 236 page catalogue will tell you of America's largest business university which has over 30,000 students from thirty-nine different states and eight foreign countries. It will tell you of the endorsements by the best business men, ministers, lawyers, and bankers. It will give you the experience of young people who came to us with limited means, and after a short time in our school, what their success has been. We know you are bound to be interested, so ask us to furnish you the proof. Our large, beautifully illustrated catalogue is free, if you will fill out this coupon and mail it to the Tyler Commercial College, Tyler, Texas.

THE CRACK O' DOOM FOR NASTY CALOMEL

Folks Abandoning old Drug for "Dodson's Liver Tone."

Here in South Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you lose a day.

Calomel is mercury! When it comes into contact with sour bile, it crashes into it, breaking it up. Then is when you feel that awful nausea and cramping. If you are sluggish, if your liver is torpid and bowels constipated or you have headaches, dizziness coated tongue, if breath is bad or stomach is sour, just try a spoonful of harmless Dodson's Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful of it, and if it doesn't straighten you right up and make you feel fine and vigorous, go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it cannot salivate and make you sick.

PREACHING AT TRINITY There will be preaching at Trinity church next Saturday and Sunday. We hope to begin the new association year with a good congregation. A warm welcome is extended to all. Frank Powers.

We Are Not Giving Anything Away

We do not wish to leave the impression with our customers and friends that we are giving anything away or offering false bargains to lure you to our door. We are simply staying abreast of the times, buying goods on today's market and selling them on a very close margin of profit.

Extra heavy Sheets, 72x90, with seam, formerly sold for \$1.50, special 3 for \$2.00

Thomas & Richardson

Always First to Name Low Prices

IN LOVING MEMORY

The death angel entered the home of our brother, S. W. Holbrook, on November 11, 1920, and took from that home little Bessie, aged 13 years. The remains were laid to rest in the Barnes cemetery in the presence of a large concourse of sorrowing relatives and friends.

It was hard to give her up, but God knows best. She paid the debt that all must pay at some time. Typhoid fever was the malady which caused her death. She bore up well for about three weeks, when the Lord called her home. We believe now that she is in the arms of the blessed Redeemer, who said, "Suffer little children to come unto me."

Bessie is gone. Her place is vacant and her smiling face will be missed, her sweet singing voice will be heard no more at church.

She was an obedient and kindly child and sincerely loved by her associates. Weep not, dear parents and loved ones; we can meet her again, if we live right, where peace will reign forever. Her sufferings are ended.

There will be a vacant chair in that home, but turn your eyes heavenward and you will find Bessie.
S. H. Davis.

LEASES AND DRILLING CONTRACTS

Want about one thousand acres for drilling contract on lease basis. Will pay dollar per acre cash and begin drilling as soon as weather permits. Lease to be placed in escrow until operations begin. Can also handle a few leases on commercial basis. Submit your proposition, large or small. R. B. Humphrey, 301-2 Slaughter Building, Dallas, Texas. Phone U3801 or X2813. 17-3dwlp

HUNTING NOTICE

There will be no hunting allowed on my place. J. Y. Baugh. 13-2d2dp.

"Cold in the Head"

Is an acute attack of Nasal Catarrh. Those subject to frequent "cold in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the System, cleanse the Blood and render them less liable to colds. Repeated attacks of Acute Catarrh may lead to Chronic Catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System, thus reducing the inflammation and restoring normal conditions. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

NACOGDOCHES OIL NEWS

There are now three points of interest in the oil fields of Nacogdoches county. They embrace the fields of Oil Springs, Woden and Chireno, the three places in which the most drilling being done. Etolle is promising some interest, and drilling will commence there in a few days.

If the bowels do not act regularly, assist them with an occasional dose of Herbine. It is a fine bowel tonic and laxative. Price 60c. Sold by Stripling, Haselwood & Co.

Mr. W. E. Putman, representing the Fort Worth Well Machinery & Supply Company, is in the city and called at the Sentinel office Tuesday morning. It is possible his concern may establish a branch house in Nacogdoches, which would be a valuable addition to our business enterprises.

Felix Shirley of Omaha, Neb., is in the city visiting his brother, B. S. Shirley. Mr. Felix Shirley has been absent from Nacogdoches county 31 years, being formerly a Shady Grove man. He is in the contracting business in Nebraska. Mr. Glen Shirley of Winona, Texas, is also visiting Mr. B. S. Shirley in order to be here with his long-absent brother, whom the Shirley family thought for many years was dead because of his protracted silence.

Rusty nail wounds, festering sores, burns and scalds heal rapidly when Liquid Borozone is applied. It is both antiseptic and healing. Price 30c, 60c and \$1.20. Sold by Stripling, Haselwood & Co.

BOX SUPPER

There will be a box supper and small entertainment at the Linn Flat school house Thanksgiving night, November 25. Ladies bring rice boxes; men pockets full of money. Everybody is invited. Linn Flat Teacher.

Rubbed into the skin for rheumatism, neuralgia, contracted muscles, sprains or lameness. Ballard's Snow Lintment goes right through the flesh to the bone, easing pain and removing the cause. It is a powerful pain relief. Three sizes, 30c, 60c, and \$1.20 per bottle. Sold by Stripling, Haselwood & Co.

Mrs. Irene Wilson of Chireno was in the city Monday.

Paul Mettauer of Chireno was in the city Monday on business.

Robert Mettauer of Chireno was in the city Monday on business.

Mrs. Reggie Wilson of Chireno was in the city Monday.
