## Aqua Vitae

We have arranged with the managers of the Aqua Vitae Co. to get water regularly. If you suffer with rheumatism or any form of indigestion it will pay you to phone us for a trial case.

Swift Bros. & Smith, Inc.

### HARDING READS FIRST MESSAGE TO CONGRESS

Washington, April 12.—Following a custom inaugurated by George Washington, abandoned by Thomas Jefferson and revived by Woodrow Wilson, President Harding delivered his first message to congress today in person. The two houses assembled in joint session in the house chamber to hear the executive outline his views. The principal recommendations include the following:

No separate peace with Germany "on the assumption alone that this will be adequate. The wiser course would seem to be to engage under the existing treaty, assuming this can be satisfactorily accomplished by such explicit reservations and modifications as will secure our absolute freedom of indismissible commitments and safeguard all our essential interests. No helpful society of nations can be founded on justice and committed to peace until the covenants re-establishing peace are sealed by the nations which were at war."

Against the League  
Washington, April 12.—The president's first message announced he would approve a "declaratory resolution by congress with the qualifications essential to protect all our rights, which would end a technical state of war against the Central powers of Europe."  
The president declared himself unreservedly against the League of Nations, although, he said, an association of nations could not be founded until the world was at peace.

### PRESIDENT HARDING WILL TOSS FIRST BALL

Undated.—The baseball season is on. Sixteen major league teams, fortified with recruits, will cross bats today at the opening of the 1921 National American League pennant fights. In the Washington-Boston game President Harding is to toss the first ball.

### COTTON BY PARCEL POST

Possibilities of what might be done in the way of shipping by parcel post was demonstrated at Sweetwater a few days ago when a bale of cotton was brought in from the Nolan community by W. H. Hollwell, mail carrier on the Nolan motor star route. While the cotton was not designated as parcel post mail matter, it went through the routine along with the boxes of eggs, packages of butter, hatched chickens and pure lard originating in that vicinity, which markets much farm produce.

Capt. J. S. Doughtie, who is now making his home at Monroe, La., is in the city for a visit with old-time friends, and is being heartily greeted upon all sides. He says the section around Monroe is in a bad way, from a business standpoint, by reason of the almost total failure of the grain crops last year and the prevailing low price of cotton.

### DEALERS MAY CHARGE MORE FOR TEXT BOOKS

Austin, Texas, April 11.—The attorney general's department today ruled that dealers in state text books adopted for the public schools may charge more for such books than the fixed contract price. The law, however, requires depositories and publishers to charge the contract price.

### TEXAS SOLONS MAY CONVENE NEXT MONTH

Austin, Texas, April 11.—After a visit to the governor today, Speaker of the House Thomas said a special session of the legislature would not be called until at least May 15 unless some unexpected reason developed.

### OIL EXCITEMENT

M. S. Spittler, who was a visitor in Nacogdoches yesterday stated to a News reporter that the oil excitement in that city was at fever heat on account of the remarkable showing now being evidenced in a well being sunk in San Augustine county, within four miles of Chireno, the terminus of the A. & N. R. railroad in Nacogdoches county. Mr. Spittler said everything pointed to the development of a sure enough oil field and if such be the case it behooves Lufkin to wake up and lay her plans accordingly. The development of a big oil field in such close proximity and especially at the terminus of one of our railroads would mean much to Lufkin, especially in the location of the headquarters of such companies in our midst. We possess the logical location and should have them.—Lufkin News.

### THE SLUMP IN EGGS

The fact that the egg market broke in February to the lowest price since 1913, is no cause at all for poultry farmers to be discouraged, says G. W. Hervey, extension poultryman of the Missouri College of Agriculture. This drop, while not entirely unexpected, was premature. Until now the demand for eggs has exceeded the supply. The usual quantities of eggs in cold storage have not been available, and the domestic supply of eggs has not been abnormally large until now.

In fact, eggs have been imported the past month from China and the Argentine, and selling but a few cents lower per dozen than native eggs.

This sudden drop in price is due to an increased production caused by mild weather conditions.

It is probable that the market will remain low until the molting season commences next July. There is nothing to indicate, however, that eggs will not soar to a good figure again next fall.—Farm Life.

### INTERSCHOLASTIC LEAGUE

The District Interscholastic League will meet at Timpson next Friday and Saturday, the 15th and 16th. All who can do so are urged to attend, as there will be much to interest them.

### PACKERS DIVESTED OF STOCKYARD HOLDINGS

Washington, April 12.—The Department of Justice today approved the new plan under which Swift & Company and Armour & Company will divest themselves of their interests in stockyards and stockyard terminal railroads. Justice Stafford of the District of Columbia Supreme Court also approved the plan. After signing the plan, Judge Stafford said "The legal principle, of course, was up to the Department of Justice, and when the department approved the plan it was only incumbent upon me to see that the law was not violated by any of the participants. I am glad to find that such was not the case, and, therefore, I approved the plan." Under the plan the companies must deliver their stock in the yards and terminals to the Illinois Trust & Savings Bank of Chicago, within thirty days for administration by the two trustees, Henry Anderson of Richmond, Va., and George Sutherland of Salt Lake City, Utah, until it is sold, which must be within a year. The trustees are to receive a salary of \$10,000 a year each and have power to interfere in the management of any stockyard or railroad if, in the opinion of both or either, the Sherman act or the terms of the decree are violated.

### PARKER CONVICTED, GETS DEATH PENALTY

Houston, Texas, April 12.—Carl Parker was today given the death penalty for the murder of Mordie Colroy, a rent-car driver, on February 3.

### STEAMER FOUNDERS, PART CREW MISSING

Beaumont, Texas, April 12.—The Bowie Line Steamer Colonel Bowie foundered in the Gulf of Mexico Monday night with 22 men aboard, according to a wireless message. Three of the men were picked up by a British steamer.

### WESTERN UNION DELIVERS BOY ACROSS COUNTRY

During the seventy-five years or more the telegraph has been in use in America its ramifications have increased mightily. Everything, from presidential messages to flowers from home, are flashed to us arranged for via the wire.

Everyone is aware of the versatility and arduous errands required of the messenger boys who deliver these urgent missives, but few have heard of the latest tests to which his abilities have been put and the most novel service which has been attempted by telegraph.

M. E. Whiting, manager of the Western Union Telegraph Company at Bakersfield, Calif., himself was astounded when 7-year-old Johnnie Calderwood arrived from Rutland, Vt., care of the Western Union, for delivery to his parents at Oildale, a town near Bakersfield. Johnnie's Vermont relatives, after having put him on the train and duly tagging him, placed faithful trust for final delivery in the telegraph. Johnnie was promptly transmitted to Oildale, but the manager neglected to say whether he was handled as a night letter or a straight day message.

### SNOW ON APRIL 11

A Times man, in course of conversation, with S. M. (Uncle Pete) Chamness, and casually mentioning the frost of yesterday morning and the present cool spell, was informed by Mr. Chamness that a two-inch snow fell 63 years ago yesterday; he stated that trees, shrubbery, etc., was in about the same state of growth as at the present time, and all this was killed. Mr. Chamness moved to Texas from Tennessee in 1850, and located 12 miles northwest of the town of Henderson at which place he was living at the time of the above mentioned snow; and moved to Timpson on February 12, 1886. Mr. Chamness will celebrate the 79th anniversary of his birth the 20th inst.—Timpson Times, 12th.

Phillip Sanders is in Lufkin this week attending court.

### TRIPLE ALLIANCE CALLS STRIKE FOR FRIDAY

London, April 13.—Great Britain's triple alliance of labor will call its members from their posts at 10 o'clock Friday night, it was announced here today. This decision followed the inability of the National Miners Federation to reach an agreement with mine owners and the government for a settlement of the miners' strike, which began April 1. It has been estimated that if the strike is called there will be nearly 4,000,000 persons idle in England as a result. Other labor organizations may become involved in the controversy, as many other unions have sent in applications to join the strike.

### Government Issues Warning

London, April 13.—The government today issued this statement: "In the event of the threatened work the government wishes to make it clear that it will use its fullest powers to protect those workers who remain at work in any of the services essential to the life of the community. In any settlement that may be reached the government will support the position of workers remaining at work so they will not be prejudiced when compared with their positions before the stoppage."

### DISARMAMENT PLAN STARTS IN SENATE

Washington, April 13.—The first move of the present congress looking to disarmament came today with the introduction by Senator Borah, republican, Idaho, of his resolution authorizing the president to open negotiations with Great Britain and Japan looking to a reduction of future naval building by those countries and the United States.

### CHAIN OF GROCERY STORES ARE DECLARED BANKRUPT

St. Louis, April 11.—The Industrial Transportation Company, which operates about 150 retail grocery stores in Missouri, Arkansas, Louisiana and Texas, filed a voluntary petition in bankruptcy Monday in the United States district court here.

The petition lists liabilities at \$472,285, and assets at \$1,656,665, with a notation that a supplementary list of liabilities may be filed later. Real estate valued at \$670,066 is included in the assets.

The company is incorporated for \$20,000,000 under the laws of the District of Columbia, but it is explained that only a portion of this stock has been subscribed.

The company's difficulties arose, it was explained at its headquarters here, when many stockholders bought suits, particularly in Arkansas, to recover on promissory notes given in payment for stock. Many won their suits, it was added.

A Sentinel representative called on Mr. T. E. Burgess, manager of the Industrial Transportation Company for this division, and he states that the company's affairs in this district are in good condition.

Mr. Burgess received the following telegram this morning:

St. Louis, Mo., April 12, 1921. T. E. Burgess, Industrial Transportation Company, Nacogdoches, Texas.

The undersigned have been appointed receivers, Industrial Transportation Co., by federal court today. All store managers in your division have been instructed to close their stores. Sell nothing but perishable merchandise and hold all property subject to our order. Court order being forwarded today. Permit no one to interfere. Wire immediately if our possession of Industrial Transportation Co. property is interfered with and by whom.

John E. Lynch, W. W. Hall, Federal Receivers.

### NO ASYLUM

Washington, April 11.—Secretary Davis today ordered Donal J. O'Callaghan, lord mayor of Cork, to leave the United States within 60 days from date. The State Department held he is not entitled to asylum in the United States as a political refugee.

### RESOLUTION TO END STATE OF WAR

Washington, April 13.—Senator Knox of Pennsylvania today introduced in the senate his resolution to end the state of war with Germany. The measure is similar to that passed at the last session of congress and vetoed by President Wilson. The resolution, which also would end a state of war with the Austrian government, was referred to the Foreign Relations Committee without discussion. It would provide that American rights under the treaty of Versailles be respected.

### MEXICAN MINERS ARE RETURNING HOME

El Paso, Texas, April 12.—Large numbers of Mexican miners are returning to Mexico daily from Arizona and New Mexico because of the closing of the copper mines. Their transportation is furnished by the Mexican government. Fifteen hundred miners entered Juarez Monday through El Paso, bringing the total for the past ten days to 4,500, according to Antonio Corona, chief immigration officer at Juarez. The returning miners are shipped from Juarez to the interior of Mexico in long box-car trains running two and three times weekly.

### FIGHT STARTED ON COLOMBIAN TREATY

Washington, April 13.—Launching the fight against the \$25,000,000 Colombian treaty, Senator Kellogg, republican, Minnesota, told the senate today that its ratification would "place a stain upon the name and fame" of Theodore Roosevelt and would acknowledge that the United States had wronged Colombia and was now ready to make reparations therefor.

### LET BROOMCORN TAKE THE PLACE OF COTTON

Tyler, Texas, April 13.—Farmers of Smith county and other East Texas counties where they were bothered with the boll weevil last year, should not attempt to plant cotton this year as the mild winter has failed to destroy these insects. In conversation with A. L. Burge of the East Texas Chamber of Commerce the other day, a farmer stated that he had just opened a boll on one of his cotton stalks and found that it was full of weevils.

There are other crops that the farmers should try out, one being broom corn, as there is considerable shortage of this crop. It has been demonstrated that broom corn can be grown in Smith county and other East Texas counties. The manufacturers of brooms in Dallas, Fort Worth and Oklahoma would much rather buy this corn in East Texas than go to the Rio Grande valley on account of high freight rates.

### RIFLE TARGET PRACTICE

Austin, Texas, April 12.—The week of June 27th has been designated for the state rifle matches at Camp Mabry, according to Adjutant General Patton. The matches will follow immediately upon the close of the National Guard meet.

### STREET RAILWAY WINS

Washington, April 11.—The Supreme Court today affirmed the decree of the Texas District Court enjoining the City of San Antonio from enforcing a 5-cent car fare with the Universal Transfer Street Cars.

### BANK MESSENGERS ROBBED

Denver, Colo., April 13.—Two messengers for the Stock Yards National Bank were held up and robbed of approximately \$15,000 by three bandits in automobiles here Tuesday.

### PRISON INSPECTION

Houston, Texas, April 13.—The joint legislative committee investigating the Texas prison system began taking testimony here today. Inspection of nearby prison farms will follow the conclusion of the testimony.

County Attorney Audley Harris was at Garrison Monday on business.

### CHANGE OF DATE IN U. C. V. MEET

Waco, Texas, April 12.—The state reunion of the United Confederate Veterans, which had been scheduled for October 6 to 7 at Temple, will meet at Temple September 15 and 16 instead, according to a message to Adjutant Bradford Hancock of Waco from Commander E. W. Kirkpatrick of McKinney.

### TOURIST CAMPING SITES

Dallas, Texas, April 11.—Several hundred tourists camping sites are being equipped along the principal highways of Texas for the convenience of summer automobile travelers, according to word received by the Texas Chamber of Commerce from commercial organizations throughout the state.

Especially attention is being paid to the highways leading to the gulf coast, the various summer resorts of the state and the thoroughfares which traverse the Great Plains leading to Colorado. There is much tendency on the part of chambers of commerce along these various routes to cooperate with each other in building camping sites and advertising the fact to draw tourist travel through their respective towns.

### PARDONS CONSIDERED WHEN PEACE REACHED

Washington, April 13.—President Harding told a delegation which called on him today to urge the release of Eugene Debs and other prisoners convicted under the war-time espionage act that he would not act on a general amnesty for such prisoners until a state of peace is declared.

The president today approved a list of 12 new major generals and 26 new brigadiers prepared by Secretary Weeks, which will be presented to congress soon. Clarence R. Edwards, commander of 26th New England National Guard Division in France, heads the list of major generals. His name does not appear in the list sent to congress by President Wilson for confirmation, which is being held up.

### GETS \$10,000 REWARD FOR SHOOTING BANDIT

Chicago, April 13.—A reward of \$10,000 for shooting Horace Leroy Walton of St. Joseph, Mo., the bandit who took \$75,000 from an Illinois Central train last May, was paid Tuesday to Gustav Kenrick, a Chicago policeman, by postal authorities. Kenrick shot the robber after Walter A. Roberts, another policeman had been killed. Walton was only wounded but he was forced to take shelter in a house in Hyde Park, where he was killed several hours after the first fight.

Kenrick said he would give half the reward to Roberts' widow.

### MISSIONARY DIES

Tokio, April 13.—Rev. J. C. Brand, for 31 years a missionary in Japan for the American Baptist Mission Society, died at his home in Tokio after and illness of a year.

Born in Scotland 72 years ago, Mr. Brand went to the United States while a young man and came out to Japan to work in the mission field in 1890. Most of his work was done in Tokio, where he founded the Shiba Baptist church.

### BELIEVED FRUIT RUINED

Bryan, Texas, April 13.—There was a light freeze and heavy frost here Monday morning, but the excessive moisture in the ground saved the garden and field crops from any great damage. The fruit crop of the county was very badly damaged by the cold spell of a week ago, and it is thought this one will practically wind up the peach and plum crop.

### THE ROWAN CASE

Abilene, Texas, April 11.—District Attorney Cunningham indicated Saturday that the trial of Albert Rowan in connection with the death of a Dallas postal clerk in the substation robbery, scheduled to be tried here on a change of venue, would be taken up the third week of the term of the court, which begins April 13. This would place the trial about May 2.

**PUT THE TURK OUT OF EUROPE FOREVER LET GREECE HAVE CONSTANTINOPLE**

This is the month when Greece celebrates the One Hundredth anniversary of her independence, while her armies advance victoriously in those frontiers whence he invaded Europe five hundred years ago.

America was not yet on the map when the Hellenic Empire of Constantinople fell on that ill fated day of May 29th, 1453. The Greek struggle for national independence had begun since that time, and found its best expression in the great revolution of 1821 to 1827, which culminated in the establishment of the Greek state.

Fifteen generations of Greeks felt during five long centuries the oppression, the barbarism and the atrocities of the most backward race that ever took possession of the most classic land of Europe. That this nation was not extinguished under the Turk during those terrible years, when Greek boys were snatched away from their homes to swell the hosts of the Janissaries, while Greek maidens were sold into slavery in the public markets, and when the life of a Christian was worth less than that of a dog, is one of the wonders of human history; but that the Greek nation has succeeded, not only in preserving its language and traditions and culture and religion, but in overthrowing the yoke of the barbarian, is one of the marvels of national vitality, which no other people has ever shown, or will ever be able to show.

Today, almost five hundred years after the fall of Constantinople and a hundred years from the Hellenic revolution of 1821, the victorious Greek armies are battling beyond the old capital of Eski Shehir and beyond the Black Fortress of Karahissar, while from the Gulf of ancient Nicomedia renamed Ismid by the Turks, to the shores of the Black Sea, and all along the Chatalja line Greek soldiers, assisted by Greek warships, surround the Holy City of Constantinople, where the heart of the Turkish government has almost ceased to beat.

Removed is from Stamboul the last vestige of Turkish power, and if there still is a Sultan and a Turkish guard in Constantinople, their prestige is non-existent and their authority dead. Christian Europe, civilized Europe, was late in fulfilling its duty to Christendom and Civilization; but finally she did, and the overthrow of Turkish power in Europe will stand forever as one of the highest accomplishments of the last war, for the victorious outcome of which America has so generously contributed.

The Ottoman Empire lay prostrate; Arabia is an independent kingdom; Palestine is free; Mesopotamia no longer pays tribute to Constantinople; Syria is an autonomous State; Thrace and the Aegean Islands, Macedonia and Epirus have rejoined their Greek Motherland, even Albania is forming an independent state. There is left Armenia, still bleeding under the Turkish scimitar, and never to be free unless Turkey is eliminated from Constantinople and reduced to the status of a small state whose rule will be confined to Turks alone.

The Greek armies fighting in the interior of Asia Minor, are still fighting the battles of civilization against the hordes of barbarous Asia. They go forward fully convinced that a race which has remained in the most beautiful spot of Eastern Europe for five centuries continuously destroying all that is best in civilization; without the capacity of producing either culture, or art, or beauty, is not a race fit to govern a much more superior peoples. That was the issue at Thermopylae and Salamis between Athens and Persia, and that is the issue today between Greece and the Turks.

It is thanks to the Greek valor at Marathon that Europe is not submerged under the waves of Asiatic barbarism; it is thanks to the millennial struggles of the Byzantine Empire against Turk and Saracen, that Europe was saved from submission to the invaders of the East.

And it is to the valor of the Greek troops fighting today in Asia Minor that the final liquidation of the Ottoman Empire is being accomplished under our eyes.

The Turk has fallen and Greece is back in her old colonies, in the cities built by Greeks, in the fields developed by the Greeks, in the temples and churches that marked the advance of the race under both the pagan and Christian civilization.

For one thousand years Constantinople as the center of the Greek Byzantine Empire has served Europe and upheld the banner of Western

Culture against the Barbarians of East and North. For five hundred years the Turk remained in Constantinople and the Near East as a butchering, demoralizing, incompetent, reactionary and uncivilized intruder, a foreigner to the civilization of Europe and in enemy of liberty and progress.

Now his turn to go has come, and the Greek army is accomplishing the job. But between the victories of the Greek army and nation, and the utter elimination of the Turk from all power in the Near East, stands the diplomacy of Europe and the selfishness of a few politicians, who are jealous of the Hellenic triumphs.

It is the time for American enlightened and liberal opinion, to raise the voice of justice for this valorous people, whose armies fight since the dawn of history the battles of our own civilization.

For five long centuries the Turk has remained in Europe only to spread discontent and terrorism and misery. He had a long chance to make good and he did not. Greece now comes forward and asks for a chance to once more develop her old national home-land. Shall this chance, which was afforded the unspeakable Turk be denied to Hellas?

It is up to American opinion to say the word. It is up to us to repeat the familiar American slogan: Put the Turk out of Europe forever. Let Greece have Constantinople.

**LIQUOR AND THE LAW**

An age-old battle still goes on. Liquor is, as usual, arrayed against the law. It has always been; it will always be. When the manufacture and sale was permitted it was sold at times and in places forbidden by law. It has always gathered about it lawless attractions, agencies and associates. It flaunted its transgressions in the face of organized society. It mocked at statutes and defied the officers of the law—when it did not corrupt and debauch them.

It offended against law and decency and virtue and peace and social order and good government, until the people, as a means of self-protection and in exercise of their inherent right of self-defense, struck it down; but even as it dies it manifests its contempt for the rules of that society whose laws it has violated, whose units it has corrupted and whose regulations it has always been defied.

In the midst of primeval forests and in hidden gorges, and in private houses, in the center of populous cities and even in the basements of churches, set apart and dedicated to the worship of God, the devotees of liquor, prompted by a crazy thirst, or by desire for sordid gain at any cost, or by both, have installed material and equipment wherewith to brew the debauching and often deadly beverage against which the law has pronounced its solemn canon.

Liquor defies the law. It plants itself in opposition to the will of the people, which the national court of last resort has declared was constitutionally and legally enacted into law, and to it refuses obedience.

The question presented is, shall the law rule or liquor rule? Shall the law prevail or shall the people confess their impotence to enforce their own decree?

If society is to be safe, if respect for the law is to be maintained, if the people are to continue in the efficient and only agency of governmental power, there can be but one answer to the question, and that is that the allied forces of liquor, the banded and organized enemies of the law and order, must be crushed and scattered.

The time for dilly-dallying and sentimentalizing has passed. The time has come to vindicate the law in its might and its majesty, thereby teach the votaries of the still and the mash tub, the premeditated, deliberate, contemptuous criminal violators of law that this is a land where law, not liquor, rules.—Houston Chronicle.

**SHOULD BE COMMENDED**

Governor Neff needs to be commended rather than censured for vetoing the West Texas A. & M. appropriation bill. There are several reasons for vetoing the bill, some of which are: The Democratic convention that nominated Neff went on record as opposing the proposition; the state collect just so much revenue each year, and the governor, in vetoing the A. & M. bill, as well as some other bills, did not do so primarily because he opposed the bills, but in order that the state's expenditures should not exceed the receipts. The state of Texas has just certain sources of revenue, principally from taxation, and to increase the expenditures beyond the receipts means raising the tax rate to meet such increased expenditures. A state ought to run pretty much like an individual its affairs. No individual can long keep his head above the water if his expenses are greater than his revenues.

That has been very clearly demonstrated during the present financially and industrially depressed period. The governor is exercising common sense in the affairs of the government, and the people should commend him for it. There is much criticism in the West Texas section against the governor's veto of the A. & M. bill, but on sober reflection the fairness cannot but concede the justness of the governor's attitude.—Jacksonville Progress.

**NACOGDOCHES TRADITIONS**

Back in the fifties, or in other words, back in the times about the decade of 1850 to 1860, there was an incorporated school organization here, called the Nacogdoches University. The laws of Texas authorized it, in elaborate form. It owned lands and incidental property, and it had a big board of trustees, composed of the very best men available. They proposed to inaugurate a superior educational institute upon the liberal donations and privileges contributed by the state laws.

This old original scholastic institution had high aims or purposes. But they had no school building, except a mere improvised old dwelling located on the ground now occupied by the Methodist parsonage. This old makeshift school house now stands in the rear of the Methodist church and parsonage, having been moved back for private use. It should be venerated for its great age, its variety of past uses during its long existence, and as a sacred old land mark, where school boys named Dock Burrows, Lawrence Taylor, John Orton, John Rusk, John Nelson, Ed Whitaker, Joe Mayfield and others who have long since passed away were students. Dr. W. L. M. Smith's cultured father was principal.

And there was no such a thing as a school campus. The present campus grounds were then vacant. They were owned by the University and carefully designed and laid off for a great future. But everywhere ground was open space, or wild woods, and called the commons.

The board of trustees were intent upon success. They built the old brick that is now a wing of the main building of the present High School which is the successor to the Nacogdoches University. John H. Cato was the brick contractor and Francis Rusk

the carpenter. Cato moved to Houston where he lived till his death, after a long useful life. The Rusche family are here yet.

This new brick edifice was the pride of the people. Colonel John Forbes a distinguished San Jacinto veteran was one of the trustees and being a scholarly Englishman was selected to clear off and beautify the school grounds. He took a bunch of negro axmen and put them to felling the grove of beautiful native trees, including red oaks, elms, sweet gums, pines, dog woods, etc. Word went to town as to what was doing and great indignation was aroused. Interested parties strongly objected. A halt followed.

But there are a few trees spared. They all were beauties. "Woodman, spare that tree, Touch not a single bough, In youth it shaded me And I'll defend it now."

There is a big fuss going on now in San Antonio about the city authorities cutting all the pretty trees, growing in nature's form, along the picturesque San Antonio River which runs in the very heart of the city in a wonderful and peculiar shape. It is said to run through everybody's back yard. It runs alongside of the courthouse and in front of the Alamo, and in a peculiar and tortuous course, through the noted Brackenridge park, one of the city's greatest attractions. Trees, trees, trees, are there, contributing to this make the park the pride of the city and the admiration of all beholders.

Nacogdoches has experienced vicissitudes in this line. But the days when the big pecan trees, and elms and water oaks and all such, were abundant in town are gone. So are the trees. The cemetery is transformed so that Oak Grove is a name only. And oh, the big every where cedars that once towered above the tallest houses in town, all gone, and the people who knew the trees are following in like manner. Those surviving could almost be numbered on the fingers of one person.

It is told in history that the ancient Druids worshiped trees. Their example is not unworthy of emulation.

The tall timbers so abundant in East Texas have no kindred west of the Colorado. There is but one pine in San Antonio, and it was planted in a front yard on Pine street. It

would not be called a tree is located in an East Texas forest, but called a scrubby sapling. The timbers in the western part of Texas are very different from those in the east, being more dwarfed and scrubby, and also of different species. No such thing as a big old hickory of towering red oak, or black walnut or sweet gum can be found—but strange varieties grow in many localities.

J.E.M.

**DANGER AHEAD**

The president has pardoned a Pennsylvania man, convicted of bootlegging. Well, what could you expect? If all Pennsylvania bootleggers are convicted and compelled to serve their sentences, Pennsylvania would go democratic.—George M. Bailey in Houston Post.

**FURTHER STORM NEWS**

The News mentioned in yesterday's paper that considerable damage was done by the storm at Rusk and in that vicinity, but had not learned all the story. Besides the valuable timber that was blown down, fruit and shade trees, out-houses, etc., it was learned today that practically all bridges in that section of the country are gone. Along the highway from Lufkin to Tyler all bridges have disappeared, and it was said by a gentleman from Jacksonville, who is considered conservative in his estimate, that at least \$150,000 will be required to replace the bridges alone. No lives were lost but parties reaching Lufkin over the Cotton Belt say they saw many drowned cattle along the right of way. —Lufkin News, 9th.

**Special Mill Work**

**For Your House or Business Building**

We are manufacturers of stock and special Millwork, such as Sash and Doors, Mantels, Staircases, Wainscoting, Built-in Cabinets, Buffets and Bookcases; Church Windows and Doors, Altars and Pews; Store Fronts, Cabinets and Shelving.

WHOLESALE ONLY

IN BUSINESS SINCE THE CIVIL WAR.  
SHREVEPORT, LA.

**A Fund of Information That You Should Have**

**DISRAELI**, who for six years was prime minister of England, said: "It has been my observation that the most successful man in any undertaking, is the man who has the most information."

It doesn't require any particular information just to go out and buy something. But to buy the best of that something at a price that is satisfactory to you—that is a successful purchase. And to make successful purchases you must have information.

Advertising gives you just that kind of information. It tells you where to go in order to get the best of anything you want at a fair price.

That is why it is a paying proposition for the man or woman who handles a pocket book to study the advertisements in this newspaper—regularly—everyday.

To those who use it properly, newspaper advertising is a source of economy and satisfaction that never runs dry. It is a watch-dog of dollars—a guarantee of satisfaction.

If you would learn the facts about the things you need to make you comfortable and happy,

# THE "OLD RELIABLE" THEDFORD'S BLACK-DRAUGHT

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Theford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Theford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Theford's Black-Draught is a standard household remedy with a record of over seventy years of successful use. Every one occasionally needs something to help cleanse the system of impurities. Try Black-Draught. Insist upon Theford's, the genuine.

At all druggists. U. 79

## FOUR BILLION NEEDED FOR NEXT FISCAL YEAR

Washington, April 7.—Suggestions for means of raising \$4,000,000,000 revenue necessary to conduct the national government for the next fiscal year will be sent to congress early next week by Secretary Mellon, it was said today. The discussion of the sources which may be tapped by the new tax program will be concluded probably Saturday. It was stated that thus far a definite decision had been reached on only one question, namely, the excess profit tax.

## EVEN A NORMAL CROP WOULD BE A BURDEN

Dallas, Texas, April 7.—P. L. Downs, chairman of the agricultural committee of the Texas Bankers' Association, who is co-operating very closely with the Texas Farm Bureau Federation in the formation of its Cotton Growers' Co-operative Marketing Association, has sent out the following appeal for a marked decrease in cotton acreage:

"The records show that we are going to have a heavy carry-over of ten million bales of cotton, or more. Should our growers plan to market even a normal crop of twelve million bales this year, from all evidences before us now, the country will have to carry into the following year another ten million bales or more. In such case, what is to become of it? What is to become of the farming, the mercantile, and banking interests of the South? It would simply be a suicidal policy to produce even another normal crop in the face of the present conditions. The mills in this country and the spinners abroad cannot use it, and have not the money to buy it."

"Instead of planting so much cotton, the safe and sane thing to do is to encourage and urge each and every farmer in your section to plant more food and feedstuff for both man and beast and plant only such amount of cotton as he or his family can successfully work, without having to hire high-priced labor."

## WANT FEDERAL PROTECTION

Joplin, Mo., April 8.—An appeal has been made for federal protection growing out of the ejection from Harrison, Ark., Wednesday of five railway union brotherhood officials, who went there in connection with the strike on the Missouri & North Arkansas railway, it was announced here last night by M. C. Carey, Port Huron, Mich., representing the Brotherhood of Railway Conductors.

According to Carey, who was one of the men forced to leave town, the appeal was contained in a telegram, the contents of which were not made public.

## 6 KILLED, 30 INJURED IN RAILROAD WRECK

Somerset, Ky., April 7.—Two persons were killed and thirty injured, four fatally, in a wreck of the Royal Palm Limited, northbound on the Southern Railway, at New River, Tenn., Wednesday. A special train bearing the dead and injured arrived here at 8:30 o'clock last night.

Four died on the train and in a hospital here.

A number of the injured are not expected to live.

## ARM IS BROKEN IN A DANGEROUS PLUNGE

Mr. R. S. Powers, 23, cashier for Armour & Company in this city, had an exceedingly narrow escape from fatal disaster Wednesday night about 7 o'clock. At the boarding house of Mrs. Gus Nelson, where he makes his home, he was leaning against the banister of the second story porch talking to friends below, when the railing broke, precipitating the young man headforemost to the ground some 15 feet beneath, narrowly missing the cement walk and badly breaking his right wrist, the bones of which "leaped" under the impact of the fall, making an ugly and painful wound.

Mr. Powers was picked up, unconscious, and taken to his room. Surgical aid was quickly summoned, and the fracture reduced, but it will be some time before he can resume work. His former home was in Paris, Texas, where his people reside.

## THE SMALLEST BIBLE

Green Bay, Wis., April 8.—Probably one of the smallest Bibles ever printed is in the possession of George J. Minor of this city. The Bible was presented to Mr. Minor by an old Scottish woodsman, who spent years in the north woods in exchange for a meal.

The miniature book contains 875 pages and is one eighth inches wide, one quarter of an inch thick and three quarters of an inch long. The Bible contains both the New and the Old Testaments, aside from a wood cut and two or three pages devoted to introductory matter and a facsimile of both house of Bryce, printed over the signature of King James and Queen Elizabeth.

A small gold case houses the Bible. The case is in fair condition, though worn from its constant use. A small space on the front of the case once held a magnifying glass through which could be seen the front cover of the Bible bearing the words "Holy Bible." The scripture can be read with the naked eye, provided the eyesight is good.

Cotton exports last year exceeded those of any other commodity and were valued at \$1,136,408,916.

## SURE THAT ANIMALS DREAM

Eminent Authorities Have Gone on Record, Though It Has Been Subject of Dispute.

Aristotle's history of animals declares that horses, oxen, sheep, goats, dogs and all viviparous quadrupeds dream. Pliny, in his natural history specifies the same animals. Buffon describes the dreams of animals. Macnish calls attention to the fact that horses neigh and rear in their sleep, and affirms that cows and sheep, especially at the period of rearing their young, dream.

Darwin, in the "Descent of Man," says that "dogs, cats, horses and probably all the higher animals, even birds, as is stated on good authority, have vivid dreams, and this is shown by their movements and voice."

George John Romanes, in his "Mental Evolution in Animals," says that the fact that dogs dream is proverbial, and quotes Seneca and Lucretius, and furnishes proof from Dr. Lauder Lindsay, an eminent authority, that horses dream. Rechelein holds that the bullfinch dreams, and gives a case where the dream took on the character of a nightmare, and the bird fell from its perch, and four great authorities say that dreaming becomes so vivid as to lead to somnambulism. Guer gives a case of somnambulant watch dog which prowled in search of imaginary strangers or fowls, and exhibited toward them a whole series of pantomimic actions, including barking. Dryden says: "The little birds in dreams the songs repeat."

## SHREWD IDEA IN POLITICS

Pictures of Presidential Candidates on Letter Heads Was a Popular Thing in 1840.

Back in the early days of the republic it was considered a fine idea to decorate paper with the portraits of presidential candidates. In this way the letter writer showed not only his preference, but tried to influence his correspondents for his candidate, remarks the New York Sun. A fine example of this sort of political propaganda was unearthed recently in New York. It dates back to 1840, when William Henry Harrison was running for president on the Whig ticket against Martin Van Buren, Democrat.

The letterhead shows the two sides of the gold medal awarded by congress to General Harrison for his services in the War of 1812. The picture to the left shows a medallion portrait of General Harrison, while the one at the right depicts the Goddess of Liberty, armed with a spear, placing a wreath of laurel on an Indian's head. This latter was intended as a compliment to the general for his success in fighting against the British and Indians.

Under the pictures of the two sides of the medal is a copy of the resolution of congress conferring the medals on General Harrison and Isaac Shelby, "late governor of Kentucky."

## Improvised Gun Has Kick

The Burma government forbids the natives to have guns in their possession, and prohibits trading in arrows and ammunition. But the native's ingenuity enables him to get around this. He will find a piece of gaspipe somewhere, fit a rude stock to it and a crude primer and hammer, and will use safety matches in lieu of powder. He cuts off the heads of about two boxes of matches and puts them into the improvised barrel. He then rams his shot home and is ready for business.

And let me tell you, if you never tried to shoot with such a gun, don't ever do so. Why, an express rifle is about as kickless as a .22 caliber Flobert compared with this improvised shotgun! I tried shooting one once upon a time and the thing almost kicked my shoulder off.—National Geographic Bulletin.

## HE HAD LEARNED SOMETHING

Christmas Incident That Shows the Way of a Modern Maid With Her Victim.

He was a very nervous young man, but he was rather nice, and Elsie thought he was worth encouraging. She allowed him to take her to tea, she deliberately chucked the supper in his eye at "Hunt the Slipper," and she gave him a dance or two. Once or twice she sat down under the mistletoe, but he didn't seem to notice that.

At last when they were alone in a corner of a room, she stood long and insistently under the mistletoe hanging from a curtain pole of the bay window.

Then, very nervously, he pecked her face. She, of course, protested mildly; but as they seated themselves once more, most respectfully on a couple of chairs, she kept the conversation on mistletoe.

At length he ventured: "It is—a nice Christmas custom, hanging up mistletoe, but I wonder why they always hang it over doors, windows or chandeliers?"

"Because it's not necessary to have any out on the stairs or in any other dark places," she murmured softly.

## A Slow voyage to the Sea.

A block of wood was cast into the Yellowstone river 11 years ago by a citizen of Glendive, Mont. It is slowly drifting to the sea. The inscription made upon it by the man who started it has been added to by two other persons, who picked it up and started it again on its way. It was last seen at Washburn, N. D.

## SUFFRAGE SUSTAINED BY SUPREME COURT

Nashville, Tenn., April 11.—The Tennessee Supreme Court Saturday sustained the legality of the process by which Governor Roberts certified to the Federal State Department the ratification of the woman's suffrage amendment by the state legislature. The court affirmed the action of Chief Justice Lansden in issuing the writs under which the governor acted.

## 67TH CONGRESS IS CONVENED AT NOON

Washington, April 11.—The Sixty-seventh congress assembled at noon today at the call of the president for its first session, which is expected to continue until fall.

## SHRINERS ELECT

Dallas, Texas, April 11.—Frank H. Cromwell or Ararat Temple, Kansas City, Mo., was elected president of the Shrine Directors Association of North America Saturday. Kansas City was chosen as the next convention city.

## A NEW COTTON BELT

Buenos Aires, April 11.—Those interested in cotton cultivation say that there is a potential cotton belt in northern Argentina, southern Paraguay and Bolivia as large as the cotton belt of the United States. Cotton growing in South America is still in its infancy.

## DIFFERENCES STILL ACUTE

London, April 11.—The London Times warned its readers against expectations that the strike negotiations would proceed smoothly. That work would be resumed immediately, as the fundamental differences between the two sides were still acute.

## ABOLISH LABOR BOARD

Washington, April 11.—Representative Tinscher, republican, Kansas, today introduced a bill to abolish the Railroad Labor Board and placing its duties under the Interstate Commerce Commission.

## I. W. W. CHARGES STICK

Washington, April 11.—The Supreme Court today reviewed the conviction of William Haywood and more than 79 other I. W. W. members charged with the conspiracy to obstruct war activities.

## WANTS "TEETH" IN IT

Washington, April 11.—Secretary Davis today urged legislation to put "teeth" in the Labor Department's efforts to conciliate disputes.

Renew your health by purifying your system with

Quick and delightful relief for biliousness, colds, constipation, headaches, and stomach, liver and blood troubles.  
The genuine are sold only in 35c packages. Beware of imitations.

## LOOK FOR IMPORTANT FINDS

Archeologists Believed on Verge of Great Discoveries in Districts of Central America.

Important medical and economical discoveries that will be of great value to the modern life of the peoples of the world are on the verge of being made at the present time in several districts of Central America by American archeologists.

This prophecy was made by Prof. William Gates, president of the Maya society, in an address delivered at the meeting, at Johns Hopkins university, of the Archeological Institute of America, the Philological association and the Maya society.

Prof. Gates brought forth in his talk the fact that in Central America there has recently been discovered the evidences of an ancient race of people, with a civilization as old and as cultured as that of the ancient Egyptians.

The plans of an eminent group of American archeologists for further exploration of the remains of this ancient race were dwelt on by the speaker. These workers, he declared, hold forth the promise of the American people of a new region, rich with archeological material, the surface of which has yet only been scratched.

Among the most important discoveries expected to be made there are the unearthing of further native medical works, some of which are already in the hands of the Maya society, that will add valuable specific pharmacopoeia and medical knowledge to that society in this country.

## HAT BOTHERED "UNCLE JOE"

Veteran Legislator Objected to "Plug," But Was Finally Persuaded to Don It Temporarily.

In 1901 Representative Cannon was living at the Cochran hotel, and the evening before the inauguration, L. White Busbey, now his private secretary, but at that time correspondent of the Chicago Inter Ocean, entered Mr. Cannon's room at the hotel and found the venerable legislator standing before a mirror and swearing over a plug hat with which he was practicing.

"I tell you I won't wear the d—n thing," ejaculated Uncle Joe explosively. "I never wore one in my life and I won't begin now."

"But, Mr. Cannon," suggested Busbey amiably, "if you don't wear it you will attract more attention in the parade than the president, and you don't want to do that."

"How's that?" snapped Uncle Joe. "Why," exclaimed Busbey, "you will be the only man in the carriage that won't be wearing a silk hat, and you will be too conspicuous."

At that comment Miss Cannon, the daughter whose devotion to her father was so well known, entered the room. "Father will wear the hat, Mr. Busbey," said Miss Cannon gently. "You needn't worry."

Uncle Joe dutifully wore that hat the next day. He wore it again at the funeral of McKinley. These are said to be the only times in his life he has worn a silk hat.—Washington Letter in Boston Transcript.

## Beavers' Remarkable Work

A single colony of beaver are capable of constructing a dam 12 feet high and a quarter of a mile long. Such a dam was recently discovered by a state game warden. In a secluded spot along Taylor's creek, Bayfield county, Wis. The beaver house at the center of the dam, 16 feet high and 40 feet broad at the base, the sleeping apartment inside the house, was exceptionally spacious for a beaver home, being large enough for a tall man to lie down at full length. The floor was found to be covered with a dry substance and was as clean as a whistle. Large quantities of food were found stored for cold weather use. Nine beavers, the parents and their children, were found living comfortably in the house, the result of their engineering feat.

## Explaining the "Ring Finger."

Of all the men, both young and old, who place engagement rings on the fingers of their brides-to-be, it is almost an absolute certainty that not one-tenth of them knows why he places the ring on the ring finger of the left hand. Of course, the answer could be: "Everybody's doin' it." The custom of placing the ring upon the fourth finger seems undoubtedly to owe its origin to the fancy that a special nerve, or vein, ran directly from this finger to the heart. Macrobius, in his Saturnalia, alludes to the belief in the following words: "Because of this nerve, the newly betrothed places the ring on this finger of his spouse, as though it were a representation of the heart." This information, he asserts, was derived from an Egyptian priest.

## Preachers' Sons.

I know the age-old fibes concerning preachers' sons and deacons' daughters, but have no great concern respecting them. (The writer is one of them.) It is true that much, and much too much is expected of them. They are constantly in the eye of the members of the congregation, and little allowance is made for their shortcomings. Trivial offenses are magnified, and they are rarely treated with real justice. Yet in a long life I have known many preachers' sons, and there have been very few "black sheep" among them. In nine cases out of ten they have proved to be high-minded, honorable and respected citizens.—Melville E. Stone in Collier's Weekly.

## Why We Are Strong for Willard

We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber Batteries.

Nacogdoches Battery Co  
Corner Main and North Streets  
PHONE NO. 8.

## Willard Batteries

## SUNDAY NIGHT'S FROST DID LITTLE DAMAGE

Dallas, Texas, April 11.—The heavy frost which formed last night in low places in North Texas and as far south as San Antonio did not damage fruit because of the heavy foliage, according to the local weather bureau. The frost extended to East Texas and North Louisiana. The thermometer registered 24 degrees above zero at Amarillo and Abilene, it was reported.

## A GEORGIA FARMER GUILTY OF MURDER

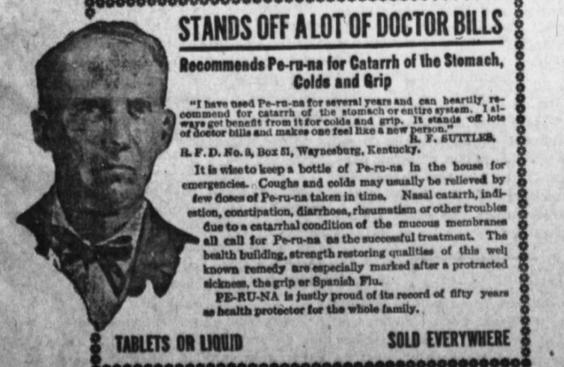

Covington, Ga., April 9.—A jury in the Newton County Superior Court here today found John Williams guilty of the murder of a negro farm hand to conceal the peonage conditions on his plantation. The jury recommended mercy. The verdict under Georgia law automatically carries life imprisonment. Judge Atcheson had taken a definite stand, and after repeating to Williams the verdict, added, "The verdict of the jury is the sentence of the court." A motion for a new trial will immediately occur.

## BATTLE IN DUBLIN

Dublin, April 11.—A battle raged for 20 minutes around the Northwestern Hotel when civilians, armed with bombs and firearms, fiercely attacked the hotel, where the government auxiliaries are quartered. One of the assaulting party was killed and several wounded.

## NO "PULLERS" ALLOWED

St. Louis, April 11.—T "pullers" ordinance forbidding merchants to accost persons on the streets in soliciting their patronage, has been passed by the board of aldermen. Violators are liable to fines from \$25 to \$500. The ordinance does not affect labor union pickets, or licensed peddlers.

**STANDS OFF A LOT OF DOCTOR BILLS**  
Recommends Pe-ru-na for Catarrh of the Stomach, Colds and Grip

"I have used Pe-ru-na for several years and can heartily recommend it for catarrh of the stomach or entire system. I always get benefit from it for colds and grip. It stands off lots of doctor bills and makes one feel like a new person."  
R. F. BUTLER, R. F. D. No. 4, Box 21, Wayneburg, Kentucky.

It is wise to keep a bottle of Pe-ru-na in the house for emergencies. Coughs and colds may usually be relieved by a few doses of Pe-ru-na taken in time. Nasal catarrh, indigestion, constipation, diarrhoea, rheumatism or other troubles all call for Pe-ru-na as the successful treatment. The health building, strength restoring qualities of this well known remedy are especially marked after a protracted sickness, the grip or Spanish Flu.

PE-RU-NA is justly proud of its record of fifty years as health protector for the whole family.

TABLETS OR LIQUID SOLD EVERYWHERE

BY GILES M. HALTOM

LEARY OF LEE

O. E. Lee, the young man arrested at Lufkin and brought back to the Nacogdoches jail charged with uttering a spurious draft on a Yonkers, N. Y., bank, claims to have been in the overseas service of the United States, but in relating the story he got his wires pretty badly crossed. Lee is appealing for help and sympathy as an ex-soldier, and some of our citizens and the officers of the American Legion became interested in his case. Commander W. B. Bates of the local post visited the young man in prison and quizzed him in regard to his army record, and was given some rather startling details of the youth's service. Lee alleged that he landed in France in September, 1917, as a member of the Sixth Company, 5th regiment, 32nd division, and Mr. Bates discovered a wide discrepancy between these statements and the real facts. In the first place, the first overseas contingent of American Expeditionary forces did not land in France until January, 1918. The young man showed his ignorance of military affairs by naming his company as the "Sixth", whereas a company is always designated by a letter of the alphabet instead of a numeral. Furthermore, the Fifth regiment did not form a unit of the Thirty-second division. Other statements were made which added in discounting the story, and, according to Mr. Bates and other army men who have heard him talk, young Lee made it very clear that he had never known military service.

The members of the American Legion stand ready at all times to extend legitimate aid to any ex-soldier who is in trouble, but call attention to the fact that many men are traveling over the country soliciting help as whilom soldiers who are in nowise entitled to consideration on that account. All of us are disposed to go the limit for one of our soldier boys, and this state of mind is the working ground for many fraudulent applications. The American Legion has requested the Sentinel to warn the people of this, and to ask that all applications for relief be referred to the officers of the Legion, who will make investigations as to the merits of each individual case and thus circumvent the dishonest efforts of the unworthy. All applications for bona fide soldiers will receive the consideration they deserve, but frauds will be eliminated as far as possible. And very few fraudulent cases will get by the Legion officers' investigations. The worthy will receive assistance; the pretenders will, wherever possible, be sent to jail for false representations.

In this connection it might be well to mention that District Attorney Bates says that in all the numerous felony cases which have been brought up at the three district courts he has attended as prosecutor since his induction into office, only one ex-soldier has been involved. The man who has made a good soldier is pretty apt to be a good citizen. Of course there are instances when a former service man needs help, and every such case should meet with a prompt response; but these occasions are rare.

THE GUIDE BOOK POSTOFFICE

Postmaster General Hays wants to put the postoffice more completely in touch with the public. Professor Cleland of Williams College has thought of one way for doing this. He would have the postoffices all over the country made the sources of information concerning points of interest in their own immediate locality and the adjacent country.

Professor Cleland, like most Americans, deprecates the fact that many of the country's famous points either have no marking at all, or are so inadequately marked that it is hard for the traveler to locate them. Yet there is no section of the country without some such place, interesting for their historic association or distinguished for their beauty. If the traveler, stopping at the local postoffice, could be accurately directed to these spots, and briefly told about them, it would add to the interest and value of his trip, and he would acquire new interest in and respect for the history of this country. The postoffice being a natural point of inquiry, it is especially suited to this purpose.—Ex.

The town of West Stockbridge, Massachusetts, is so healthful that no physician can be induced to settle there. The selectmen are raising a special purse for a physician who will agree to live in the town.

The old battleship Kearsarge is being transformed into a floating crane.

REMEMBER THIS

When Abraham Lincoln was a young man he ran for the legislature in Illinois, and was badly swamped. He next entered business, and spent 17 years of his life paying up the debts of a worthless partner. He was in love with a beautiful woman to whom he was engaged—then she died. Later he married a woman who was a constant burden to him. Entering politics again, he ran for congress and again was badly defeated. He then tried to get an appointment in the United States Land Office, but failed. He became a candidate for the United States senate, and was badly defeated. In 1856 he became a candidate for the vice-presidency and was once more defeated. In 1856 he was defeated by Douglas. One failure after another—bad failures—great set backs. In face of all this he eventually became one of the greatest men in America, whose memory is honored and loved throughout the world. When you contemplate the effect of a series of set backs like this doesn't it make you feel kind of small to become discouraged, just because you think you are having a hard time in life.—Exchange.

EGG-LAYING CONTEST

Murphysboro, Ill., April 11.—Four hundred hens have been entered to date in a three year national egg laying contest starting here Nov. 1. The race is regarded in Illinois as the first of its sort ever held.

The contest was planned and will be conducted by Paul Arndt, high school instructor of vocational education here, and his class of forty boys. Wide interest has been aroused among poultry men and eighty breeders from widely scattered sections have registered a pen of five hens each.

Training the boys have had, according to Carl Colvin, state superintendent of Vocational Agriculture, will assure breeders that their poultry will receive the best attention. Business men of Murphysboro and poultry raisers of the vicinity have underwritten the race for \$1,000.

The boys will market the eggs, providing chicken feed in return with out cost. A market has already been arranged for in St. Louis. The privilege of selling the eggs, it is believed, will entirely offset the cost of the contest.

Trap nests will be used to avoid any possibility that the hen that does the cackling gets undue credit for laying the egg. Poultry houses of the latest type are being erected by the high school boys on the school grounds.

Breeders who send their hens to Murphysboro for the first year of the contest will be privileged to enter a relay of fresh birds the second year.

RICE FOR THE STARVING

Houston, Texas, April 11.—Soon a shipload of rice, Texas' own product, will be placed on an ocean-going steamer and sent to the children of Armenia, over whom famine has crept like a withering fire. The vessel will depart from this port, loaded with rice purchased with funds secured in the state by Near East Relief workers, carrying on their work in South Texas under the leadership of Mrs. Anna Waller, secretary, with headquarters at 811½ Main street, this city.

"We have not yet obtained enough rice to make the cargo necessary to fill a freighter of the size we intend to dispatch to Constantinople. We need many tons of rice. Although Houston helped us wonderfully in our campaign, its citizens could not be expected to donate all the money necessary to purchase the entire cargo. We are still in need of many tons of these little white grains that, when properly prepared, will bring smiles to little "Methuselah-like" faces that bear mute testimony of indescribable suffering," Mrs. Waller stated.

"One of our workers," she said, "reports some of the children walk seven miles every day to obtain food and then walk back. A seven-mile 'hike' is mere play for American Boy Scouts, but to a little starving child in the Near East it means long weary hours of tramping through mud and snow, dragging a pain-racked, half clad body and nothing but the hope of getting food could sustain them through such an ordeal. By donating to this cause the citizens of Texas help the rice farmers as well as provide the cheapest and most nutritious food for these children.

"Everyone who buys a bag of rice for Armenia will have the satisfaction of knowing not only that he has saved life, but has also helped revive life in a great Southern industry. That is the reason I think every citizen of Texas should unite in helping as the necessary funds for the purchase of this cargo," Mrs. Waller announced.

REFUSED TO TAKE CHANCES

Fortune Teller's Prediction Caused Crews of Two Vessels to Desert the Boats at Quebec.

From time immemorial superstitions of sailors, with few exceptions, have naturally been associated with things of the sea, notably the belief which marks departure from port on Friday as a certain omen of bad luck. St. Elmo's fire, the bo'sun fish, whistling for the wind in a calm, the presence of a priest on board ship, all these deal with actual elements of sea life that played a great part among such legends. The Flying Dutchman legend was also born of the sea; likewise the ghostly crew coming from the wreck of a sunken ship to haunt the crew of the vessel which caused their loss.

A more annoying variety of superstition was revealed the other day by the action of the crews of two American tugs who deserted their boats at Quebec. Before these two boats left Detroit bound for New York a fortune teller predicted the doom of one of the boats before it finished its voyage. This prophecy so worked on the sensibilities of the members of the two crews that they struck on reaching Quebec. Old salts might sniff at such a prophecy as this as being of the fresh-water brand and not worthy to be enrolled in the ancient and honorable company of deep-sea superstitions, but the prophecy worked its evil upon the tug owners. The loss of their crews made a real thing of it.

ALUMINUM TO REPLACE WOOD

Increased Production of the Metal Will Relieve Drain Upon the Country's Vanishing Forests.

One of the greatest consumers of wood is the shipping box. For this purpose no fewer than 6,000,000 cords were used last year. Viewed from any standpoint, it is a gigantic draft upon our forest resources.

Unquestionably before long metal will largely take the place of wood for the making of shipping cases. Which means, of course, aluminum, or an alloy thereof. Aluminum, relatively speaking, is a cheap metal now, but it is destined to be vastly cheaper.

When one considers that aluminum constitutes more than 7 per cent of the entire crust of the earth, it seems absurd that there should be lack of it for any and all purposes useful to mankind.

The next generation may live in apartment houses built wholly of aluminum and travel in aluminum trains and steamships. But the matter of most immediate importance is the relief which cheap aluminum may give to the drain upon our vanishing forests.

Canada Admits Hindoo Woman.

The first Hindoo woman and the first Hindoo boy who ever entered Vancouver or British Columbia, Canada, to make the province their home, arrived recently on the Empress of Japan. There are thousands of Hindoos living in the province, engaged in working in the woods or in operating sawmills. Some of them have made much money. For a long time the government refused admission to Hindoo women, but recently this ban was lifted. The new arrival was the first woman to take advantage of it. Her husband went to India from Vancouver three years ago, to pay a visit to his home. He had made money and intended to remain in India, but when the ban on women was lifted he decided to return where opportunities were greater. He brought his wife and two-year-old son. The father intends to send the boy to the public schools of Vancouver.

Recovered Coin After Fifty Years.

Fifty years ago when the foundations were being laid for the Washington statue in front of Independence hall, in Philadelphia, John Nash, then a policeman, threw a 2-cent piece into the hole being dug for the foundations. Recently when some changes were being made to the statue, Nash recalled the incident and stirred up the dirt and uncovered the coin. It will be hung in Independence hall. Incidentally, Mr. Nash recalled that 2 cents had a buying capacity at that time treble that of today.

Smoke Injures Galvanized Iron.

Galvanized iron has been found by a German chemist to be unsuitable for roofing much exposed to smoke. Sulphur dioxide, though, having little effect when dry, causes rapid deterioration in presence of moisture, and a mixture of sulphur and carbon dioxide is very corrosive, though moist carbon dioxide alone has slight action. The microscope shows in the corroded galvanized iron minute ferric oxide, due to galvanic action or actual solution of the zinc coating.

Before and After.

"Before and after pictures," said an opera singer at a Philadelphia musical, "afford some very striking contrasts. This is especially true of before and after pictures of marriage. A man sat with pipe and book and an \$18 bottle of hooch before the radiator one night while his wife turned a three-year-old dress. The man laid down his book and tossed off his fifth drink of hooch. His wife looked up at him calmly, and said: "George, when you proposed to me you said you were not worthy to undo the latches of my shoes." "George stared at her in amazement. "Well, what of it?" he snarled. "Nothing," she answered; "only I will say for you that whatever else you were, you weren't a liar."

QUAINT OLD-WORLD CUSTOMS

Whitsuntide Superstition in Parts of England—Annual "Cheese Rolling" in Small Village.

An old superstition still lingers in some parts of England, notably Derbyshire, and induces people to rise unusually early on Whitsuntide morning in order that they may see the sun rise, for they frankly believe that whatsoever request is proffered the Almighty at that particular moment is certain to be granted.

The county of Northampton celebrates an old custom, dating from the time of Queen Elizabeth, once in 20 years. The scene of it is the village of Carby.

Very early on White Monday, bands of men are stationed at the by-ways of the parish, who demand toll of all pedestrians. Should they refuse, they are seized, hoisted on a stout pole, and carried to the village amidst the cheers and jeers of the spectators.

The origin of the "cheese rolling" which takes place yearly in the quiet little village of Birdlip, in the Cheltenham district, is lost, like many more, in the mists of antiquity, but local sentiment forbids it dying out. A substantial round cheese is set rolling down a steep hill with all the young and active members of the population in hot pursuit. Before it can be captured many of the men are rolling after, but the cheese evades the majority of them, and usually falls to the lot of one of the company who has managed to keep his feet.

BEAR MOST POWERFUL BEAST

Easily King of Them All, as Far as His Physical Strength Can Be Estimated.

A man rowing does one-third as much work as an ox plowing.

An ox plowing does a little more than half the work of an average cart-horse hauling a ton of coal.

A camel carrying 500 pounds on its back is nearly equal to two average horses, while an elephant, which will bear a load of half a ton or lift a log of oak of the same weight, is worth in muscular power rather more than three good camels.

The lion, usually known as the king of beasts, is by no means the strongest. Its strength is estimated as that of six men only, while that of a full-grown Indian tiger is a third greater.

Neither of these animals is equal in muscular power to the bear tribe, of which the polar and the grizzly are the strongest. A grizzly weighing about 1,000 pounds has been seen to carry a steer weighing 800 pounds up a steep mountain-side for over half a mile. Its strength is at least twice that of a lion.

A gorilla four feet six inches in height has the strength of four strong men. It can bend double a pair of 12-bore gun barrels in its paw.

The African buffalo and the Indian gaur—or wild ox—are the two largest and most powerful of the buffalo tribe. It is doubtful if 12 men could hold a gaur, which stands as much as six feet high, and is over eight feet in length.

Isinglass.

Isinglass is the dried swimming bladders of several varieties of fish. The amount of gelatin in isinglass is from 80 to 93 per cent and even more. It is prepared by tearing the air bladder or sound from the back of the fish, from which it has been loosened by striking several blows with a wooden club, then washing in cold water. The black outer skin is removed with a knife, again washed and spread on a board to dry in the open air, with the white shiny skin turned outward. To prevent shriveling or shrinking the bladders must be fastened to a drying board. The best quality of isinglass comes from sounds that are dried in the sun. After drying the sound is again moistened with warm water and the interior shiny skin is removed by hammering or rubbing. Finally it is rolled between two polished iron rollers.

Arab Puts Comfort First.

The beautiful villas that remain in Algeria are Moorish villas, for the Arab does not care for things artistic and comfortable that other races of the earth demand. If he were given a house he would first remove the doors and burn them; he would next drive a hook into the facade to hitch his mule to, and then he would abandon the chimney-place inside the house and build his fire in the middle of the room, deddling all the walls with smoke. His personal ideas of comfort come first.

The Algerians are not like the French. They are different in manners, customs, habits and morals, says Charles Divin in the Century. Even the Arab remarks it, and calls all people who come from France "Parisian Romans."

No Respector of Persons.

Law enforcement is no respector of persons, as a young woman stenographer in the office of Charles J. Orblison, federal prohibition director, can testify.

This young woman ordered some wine of pepsin from her druggist. The druggist considered the order and her record on previous orders. "Young woman," he said, "I cannot sell you any wine or pepsin. You are using too much. We are under strict orders from the prohibition director to watch carefully our sales on wine of pepsin."—Indianapolis News.

OKLAHOMA MAN NOW ENDORSES IT

Welch, Aged 66, Tells Hoy Wonderfully Tanlac Built Him Up

"The way Tanlac fixed me up two years ago is something I will always remember," said J. T. Welch, well-known retired business man of Fort Gibson, Okla. Mr. Welch has been a resident of Fort Gibson for twenty years, was town marshal at one time and is one of the most prominent citizens of that town.

"I was snot what one would call exactly sick, but am getting along in years and felt my usual good health and strength slipping away. My appetite failed and what little I did eat seemed to do me no good. I suffered from a sluggish liver and constipation, became very weak and nervous; in fact was so weak I couldn't walk a few steps, especially upstairs, without giving out completely. My condition seemed to get worse and I became greatly disturbed about my poor state of health.

"In looking around to find something to set me right I got hold of Tanlac and it struck the spot exactly. My appetite picked up almost from the start, and in a little while my strength and energy came back to me and I was feeling fine. Since then I've been in good shape, and now I can run up the stairway if necessary and it doesn't tire me, either. I don't mind walking all day, for I feel good and can enjoy it. I'm in good condition in every way and am glad to say a good word for Tanlac."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Company and Swift Bros. & Smith and in Garrison by the Dale Drug Company and all leading druggists.

GOOD EATS

Bill of Fare for the Haltom and Davis Homes, from the Good Eats Home and garden of the proprietor. Divide this equally, but don't fall out like the cat and rat did.

List

Irish Potatoes, Two cartons. Pig Jowls, 2 pieces. Onions, 10. Mustard Greens, 1 bucketful. Wanted to send the salt and pepper, but I suppose editors keep plenty, so it would be useless. Serve tomorrow (10th). Better the day, better the deed. J. T. Lucas, Sacul, Texas.

The above, inscribed upon a card, and addressed to the publishers of the Redland Herald and the Daily Sentinel, reached us Saturday, along with the items mentioned thereon.

Following directions, these "good eats" appeared upon the tables of the addressees at Sunday's dinner. If anyone in Texas had a more appetizing and altogether satisfying Sunday dinner we want to hear from him. Eat it, pig jowls and mustard greens have everything else in the eating line backed off the map, and when reinforced with new Irish potatoes and this year's onions, we defy any man to improve upon them. Lucas knows where to touch an editor where he lives, and in this instance he surpassed all previous performances. We haven't seen Bro. Davis today, and it may be that he is "laid up". Some folks can't turn loose a good thing, you know. Anyhow, thanks to Mr. Lucas.

Threaten American Industry.

Spain is one of the greatest iron ore centers of the world, shipping ore heavily to other European countries, as well as to the United States, and while it has some large iron and steel works, its output of the finished product has never been commensurate with its ore developments. Now, however, there is a well-defined project of the Krupp to set up a great branch at Bilbao, Spain, to manufacture agricultural machinery for the purpose of driving out of the market American companies who now have a large share of this business.

The 157 Varieties.

Of the 157 varieties of passenger cars made in the United States, thirty-five come from Michigan. Indiana is next with twenty-three, Ohio has twenty-two, New York fifteen and Pennsylvania and Illinois are tied at ten each. There are 122 automobile manufacturing concerns outside of Michigan.

Persons who believe they will be charged with evading the selective draft, but who did not actually do so, may escape the odium of being publicly branded as deserters unjustly by communicating all the facts of the case to Adjutant General Harris without delay.

President Harding has received a permanent pass to a chain of moving pictures in Washington. The pass is a badge of gold but under the law the war tax of ten percent must be paid.

\$100.00 IN CASH PRIZES

For Best Bales of the Watson Acala Cotton

Nacogdoches, Texas, April 14, To Our Farmer Friends:

To stimulate the growing of a better staple of cotton in our county, the Nacogdoches Chamber of Commerce will pay the following prizes: First Prize—For the best bale of Acala Cotton grown from seed bought through the Farm Bureau, \$50 in cash.

Second Prize—For the second best bale of Acala Cotton grown from seed bought through the Farm Bureau, \$30 in cash.

Third Prize—For the third best bale of Acala Cotton grown from seed bought through the Farm Bureau, \$20 in cash.

This contest is open to any farmer in the county who grows Acala from seed introduced by the Farm Bureau.

The details of the contest will be announced later. Judging will be done by disinterested parties competent to make a just and correct award.

A limited quantity of seed can be had through the county farm bureau. If you want to enter this contest, act quickly, before the seed are all taken. Signed,

T. E. Baker, Chairman, board of directors.

H. L. McKnight, Sec'y-Mgr.

DIVERSIFICATION BUILDING UP THE COMMUNITY

During these days of worry over the price of cotton and the many problems concerning the marketing of same, the following clipping from the Nordheim View, a progressive publication in DeWitt county, comes as a cooling breeze in an otherwise scorching desert:

"Saturday was egg day for Yorktown, and it seemed as if everybody that was in town had a bunch of eggs to sell. The truck of the Yorktown Produce Company was kept busy from noon until night hauling eggs from the business houses to their plant. Diversification is what is building up this community and bringing prosperity where otherwise there would be hard times. There are any number of farmers in this vicinity who make their chickens pay for their groceries. In fact there are a number of farmers who do not have to plant a lock of cotton as their cows, hogs and chickens bring them a handsome revenue the year round."

Proper diversification and living at home when practiced in any agricultural community will prove of great value in solving local problems.

It seems from this clipping that there are a number of farmers in DeWitt county who are free from the shackles of King Cotton and do not have to plant a lock of cotton if they do not want to.

Wonder how many all-cotton farmers can so declare their independence? It must be a grand feeling to be able to say "I do not have to plant cotton, but will plant cotton only when the price will yield me a reasonable profit above the cost of production."

A CARD OF THANKS

We wish to thank all of our friends for the kindness shown us at the funeral of our dear son, Private Felix H. Briley, who was laid to rest in Oak Grove cemetery April 7.

We especially thank the American Legion for their services; also the ladies for their beautiful floral offerings.

Accept our thanks. M. and Mrs. F. G. Briley and Children.

SPECIAL SERVICES

Following is a program of the special services to be held at Trinity church next Sunday, 17th inst.

10 a. m.—Song service and Sunday school. 11 a. m.—Preaching. 2:30 p. m.—Singing conducted by Prof. Battle. 4 p. m.—An address by Rev. S. D. Dollahite. 7:45 p. m.—Preaching by A. T. Garrard, Pastor.

An air flight to high altitude as prescribed by an army physician resulted in restoring the power of speech to a former soldier who for eight months had been unable to speak above a whisper.

Kansas had 87 public health centers for children in 1920, in which 9,930 cases were enrolled. They also cared for 1,500 prenatal cases.

# MAYER & SCHMIDT, INC.

## MEETING OF LIVESTOCK ASSOCIATION

On Thursday, April 7, the Nacogdoches County Purebred Livestock Association held its quarterly meeting at the Chamber of Commerce rooms.

The condition of the weather and roads considered the attendance was very gratifying to those in charge.

The meeting opened at 11 a. m. with an address from President W. B. Wortham, who spoke of the future of the livestock industry in East Texas, and called attention to the great progress being made in breeding better animals of all kinds, and especially hogs and cattle.

President Wortham was followed by B. K. King of Douglass who discussed the first purebred show held in the county last November.

He pointed out that the showing made was a surprise to everyone and that it merely served to show what the county could do if we only made a serious effort. Mr. King stated that he thought we ought to have another and a larger exhibit this fall and promised if the show was held to have some exhibits from his farm.

T. J. Lloyd discussed "Why I Grow Hogs Instead of Cotton." He pointed out the advantages that hogs offer as a "money crop" against cotton. Mr. Lloyd has found from experience that a winter and spring grazing crop can be had from fall sown oats and that when the peanuts are ready to follow the oats, pork can be produced profitably under the present conditions. He is a strong believer in good blood and has introduced into his herd some of the best blood lines to be found in Texas.

Capt. H. H. Cooper discussed the "Creamery Check as a Means of Staying Out of Debt." He gave examples of certain of his patrons who have not only kept out of debt by selling cream, but who have bought and paid for farms at the same time.

Will Wisener of Douglass made a very helpful talk on "Peanuts and Pigs." Mr. Wisener is one of our best livestock men and is ready at all times to defend good blood as the basis of hog raising.

Att. Pruitt of Shady Grove told how he started 18 years ago without means of any kind and that by constant attention to a few cows he has become owner of 700 acres of land and that his place is stocked with 11 milk cows

and hogs to supply the entire farm. In discussing his experience, Mr. Pruitt gives full credit to his wife for the greater part of his success. He states that without the aid of his cows it would have been impossible for him to have bought and paid for the land he now owns.

George T. McNess, superintendent of the Experimental Station, made a very interesting and helpful talk on the velvet bean. He pointed out that the best varieties for our section are the "Osceola," and the Georgia 90 day variety. The "fuzzy" kind known as the "Florida" will not ripen in this climate. Mr. McNess stated:

Some very interesting talks were made by our business men and bankers, among them being H. F. Tucker and Capt. I. L. Sturdevant. Both these gentlemen pointed out the need of progress in better livestock, better seed, better methods of marketing and each pledged the support of the bank to such a movement. Mr. Wynne of the Nacogdoches State Bank was called away and did not have opportunity to speak.

Interesting and helpful talks were made by quite a number of prominent farmers present, among them being J. T. Anderson, Frank Powers, M. Faulkner of Appleby, Commissioner A. B. Stoddard and others.

Quite a number of the speakers brought out the great value of velvet beans as a forage crop and also as a soil builder. The opinion was expressed by everyone that the acreage of velvet beans in the county would be increased this season to twenty times the amount grown in any previous year.

President Wortham extended an urgent invitation to the Livestock Association to again hold its annual barbecue and picnic on "Blossom Hill Farm," 16 miles north of the city.

A very pleasant and profitable social hour was enjoyed from 12:30 to 1:20 during which sandwiches, cakes coffee and cigars were served.

In Hungary service as a soldier at the front is to receive recognition. The missing leg of empty sleeve will be a tax receipt, and bullet wounds will materially cut down tax assessments under new tax bills introduced in the Hungarian Parliament by the minister of finance.

FOR SALE—Good milk cow with young calf. W. N. Stivers. 14-2wp

## NOTICE

### SHERIFF'S SALE

The State of Texas, County of Nacogdoches:

By virtue of an Order of Sale, issued out of the Honorable District Court of Nacogdoches county, on the 8th day of April, A. D. 1921, by the Clerk thereof in the case of Mrs. Lizzie Grimes versus S. E. Birdwell, J. E. Harrell and David Partin, No. 6062, and to me, as Sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in May, A. D. 1921, it being the 3rd day of said month, before the Court House door of said Nacogdoches county, in the City of Nacogdoches, the following described property, to-wit:

70 acres of land situated in Nacogdoches county, Texas, and beginning at the N. E. corner of a 173 acre tract of land formerly owned by S. P. Wortham, thence S with the E. bdy line of said 173 acre tract, 950 vrs, to the S. E. corner of same; thence W. with the S. bdy line of said 173 acre tract 416 1-5 vrs to corner on S. bdy line; thence N. 950 vrs to corner of the North boundary line of said 173 acre tract of land; thence E. with the N. bdy line of said 173 acre tract of land 416 1-5 vrs to the place of beginning, containing 70 acres of land off of the east side of the 173 acre tract of land levied on as the property of S. E. Birdwell and J. E. Harrell, Jr., to satisfy a judgment amounting to \$1,012.21 in favor of Mrs. Lizzie Grimes, a femme-sole, and costs of suit.

Given under my hand this 11th day of April, A. D. 1921.

G. W. L. Woodlan, Sheriff,  
By V. E. Boothe, Deputy.

14-3w.

### BOYS AND GIRLS! IT'S UP TO YOU

Do you ever stop to think that your future lies before you—that it is up to you whether you make a success or failure? With youth and health you have the power within you to possess the blessing of a practical knowledge, the joy of achievement, the content of success but only thru intelligent effort. If you have within you the love of higher things and better days; if you have ambition, energy and determination, we can train

you in business methods, Bookkeeping, Stenography, Penmanship, Cotton Classing, Business Administration and Finance, Telegraphy, etc., and secure for you a good position. You can get this big start toward the success you want to make of your life in a few months' time and at a small cost to yourself.

You have no time to lose. The spring and summer months should be used in securing a practical knowledge, that you may accept a good paying position when the busy fall season begins.

In our years of experience in teaching, we have helped thousands of young persons unfold and blossom into greater usefulness, awaken to the responsibilities of business life and crown their efforts with success. What we have done for 40,000 others we can do for you. The Business World is seeking everywhere for young men and women who are properly trained in business, to do the work the business office demands. Use your youth in the pursuit of knowledge. We can give you no better advice than to join our large industrious band of students; they are here from many different states and are going out daily as graduates into splendid positions secured thru our free Employment Bureau.

Our large catalogue containing the statements of young people who have traveled the road we are advising you to travel will be interesting reading to you. The letters from business firms with whom they are now engaged will be encouraging to you. And our low tuition rates and credit plans, together with the short time taken to complete the course will be a pleasant surprise to you. We also teach by correspondence. Fill in your name and address, clip and mail today for free catalogue.

TYLER COMMERCIAL COLLEGE  
TYLER, TEXAS.

### A CARD OF THANKS

We wish to extend our sincere thanks to those of our friends who came to us with words of condolence and sympathy for the death of our husband and father, Benjamin R. Scogin. Their comforting ministrations will never be forgotten.  
Mrs. B. R. Scogin and Children.

YES, MR. WISE, WE WILL BE GLAD TO GIVE THIS MATTER OUR PROMPT ATTENTION -

**CAREFUL MANAGEMENT OF YOUR BANKING BUSINESS**

Have You Ever Considered How The Successful Men of today Attained Their Financial Independence?

Success in business is due, in large degree, to the careful management of your banking business.

An account with this bank assures absolute safety for your money—also careful and prompt attention to the details of your banking business.

STRENGTH SERVICE  
**THE STONE FORT NATIONAL BANK**  
NACOGDOCHES, TEXAS.

**Special for This Week**

**FIVE GALLONS of the best COAL OIL for 65c**

I have the remainder of A. G. BRIGHT'S TIRE AND TUBE STOCK that is being sold out at actual WHOLESALE COST.

**ELMO BRIGHT**

## HOMES NEEDED FOR 1,240,000 FAMILIES

New Orleans, April 7.—That there is at present a definite shortage of homes in the United States for about 1,240,000 families was the declaration yesterday of Edwin H. Brown, Minneapolis architect, in an address delivered at the second day's session here of the annual convention of the Southern Pine Association.

The speaker stated that the demand at present was for small homes and that the great problem before lumbermen and architects was to see that the need was supplied without sacrificing convenience, appearance and general adaptability. Without concerted efforts toward building the right kind of houses in a brief space of time, Mr. Brown said, a million structures of makeshift design would be sprinkled throughout the country.

## FIVE BROTHERS WHO FOUGHT FOR CONFEDERACY

Richmond, Va., April 7.—Five brothers, all of whom served in the Confederate army, recently attended a reunion of their comrades in Christiansburg. They are Adolph Moore, 83, of Spanishburg, W. Va.; Mansfield M. Moore, 83, of Cambrai, Va.; O. M. Moore, 78, of Elliston, Va.; E. T. Moore, 75, of Bradshaw, Va.; and Benjamin Moore, 73, of Shawsville, Va.

The two oldest of the Moore brothers have about seventy descendants each and the third is childless. They are probably the only five brothers, natives of Virginia, still living, who served in the Civil War.

## THE GREAT SEAL OF SOUTHERN CONFEDERACY

Washington, April 11.—The whereabouts of the official seal of the Confederacy, an unsolved mystery for more than half a century, probably will remain forever unknown. James Jones, aged negro employee in the Senate office building, said to be the only person with a knowledge of where the seal was buried, died Saturday without disclosing the secret. Jones was serving as a servant of Jefferson Davis, president of the Confederacy, when Davis was captured. As the story goes, Jones buried the seal before the federal authorities could obtain possession of the Confederate leader's effects, and to his death never revealed the spot.

## ROBBERY WAS GENUINE

Chicago, April 7.—While scores of pedestrians gazed on what they believed to be a movie robber and fifty railway and postal employees stood around with their hands in the air, five armed bandits seized three sacks of mail at the Dearborn street railway station late yesterday and escaped in a black automobile.

The on-lookers and mail clerks realized the robbery was genuine when one of the bandits became excited and shot at a policeman.

Postal authorities said a sack of registered mail containing \$50,000 was missing. The robbers spent the afternoon playing ball in front of the station.

## SAVINGS AND SAVERS

New York, April 9.—Despite the fact that 28.9 percent of the world's savings are in this country and that the average depositor in the United States has a greater sum to his credit than his European neighbors, only 8 percent of the total number of world's savers are Americans.

Authority for this statement in the Savings Banks Association in the state of New York, which has made an extensive investigation of savings banks throughout the world. In proportion to population, said a statement issued today, a number of foreign countries exceed the United States in number of depositors.

"European people, through centuries of struggle for mere existence," said Dr. H. H. Wheaton, executive manager of the association, "have been trained to the most rigid economy, while Americans have found life a comparatively easy matter. The average American family, until recently, made its expenditures on the plan: 'Pay expenses first and save what's left—if there is anything.'"

Dr. Wheaton said that in France, one out of every five inhabitants has a savings account. In his opinion the economy of the French people has been their protection against the "death thrusts of centuries."

## IN PROHIBITION TIMES!

Luling, Texas, April 8.—After killing a big four foot rattler Monday morning, Trammel Mooney decided that its mate ought to be somewhere near and set out to hunt for it Tuesday. He killed the second big diamond-back that afternoon and found it to be 56 inches in length, with 11 rattles and a button.

## OUTLOOK BAD FOR INDUSTRIAL BRITAIN

London, April 7.—Leaders of the miners' union who conferred with Prime Minister Lloyd George, today refused to order the pumpmen and engineers at the mines affected by the coal strike back to work pending negotiations with the mine owners. The miners and employers did not meet today as a result of the refusal. Leaders of the Transport Workers Federation, which had already decided to support the miners, met today but adjourned until 4 o'clock this afternoon in order to learn the result of the conference of the miners with the prime minister before deciding what form this support will take. The Railwaymen's Union also awaited the result of this conference. An official statement issued by the miners' representative said "negotiations have broken down."

## Will Support Miners

London, April 7.—The National Union of Railwaymen today unanimously decided to support the coal miners' strike.

## UNION MEN DEPORTED GOVERNOR TAKES HAND

Little Rock, Ark., April 8.—Governor McKee announced today that the state authorities will begin immediately an investigation of the situation resulting from the strike of employees of the Missouri & North Kansas railroad and the deportation of several union executives from Harrison Wednesday night. The governor's announcement followed his receipt of a telegram from Chicago signed by the heads of 17 unions declaring the men ejected from Harrison were here in the lawful performance of their duty as brotherhood representatives, and that their deportation was effected unlawfully and by an armed mob.

## HARDING'S BIG BED

Grand Rapids, Mich., April 9.—President Harding will sleep in a bed five feet wide and eight feet long, six inches wider and one foot, eight inches longer than a standard size bed. The bed, rushed through by a furniture company here on a special order, has been sent to Washington, where it will be set up in the president's room in the White House.

Special designers were employed in making the bed.

## UTOPIA AT LAST!

Chanassen, Minn., April 7.—Declaring peace officers unnecessary in this town, voters in the recent municipal election refused to ballot for constable or justice of the peace and as a result Chanassen has neither of these officials now.

## LABOR LEADER IN PEN

Ossining, N. Y., April 8.—Robert P. Brindell, former president of the New York Building Trades Council, and one of the highest paid labor leaders in the United States, was put to work yesterday pushing a handroller over the lawn at Sing Sing prison, where he has just begun a five year sentence for extortion from builders.

## MEXICO'S TRAFFIC PLIGHT

Mexico City, April 8.—Congestion on the Mexican railroads has reached a critical stage. The commercial and industrial interests of the country have appealed to the government to take extraordinary steps to relieve the situation.

## PROFESSOR OF CHURNING

Edmonton, Alta., April 9.—Such degrees as "Doctor of Cheese-making," and "Bachelor of Butter-churning," may be conferred upon graduates of the University of Alberta. A professorship in butter and cheese-making has been added to the faculty. The post has been tendered to C. P. Marker, provincial dairy commissioner, whose achievements have given him an international reputation in scientific dairying.

For years Mr. Marker has been preaching the gospel of scientific dairying.

## SHRINE OF "MIRACLE MAN"

New York, April 9.—Thousands of Knights of Columbus in the United States and Canada, will join in a pilgrimage on April 17 to the crypt of St. Joseph on Cote-des-Neiges at Montreal, where they will pay homage to Frere Andre, sacristan of the shrine and known as Canada's "miracle man."

Frere Andre's shrine stands opposite the seminary of the Holy Cross on the outskirts of Montreal. Inside it are clusters of crutches and bandages left by pilgrims who came for healing.

## WOUNDED SOLDIERS ARRIVE IN GREECE

Athens, April 8.—Wounded Greek soldiers are arriving in such numbers from the Smyrna and Brussa fronts that the sanitary authorities of this country are unable to care for them properly. Two thousand injured men arrived at Piraeus Thursday, where they found inadequate hospital facilities. Queen Sophie has appealed to the American Red Cross at Paris for nurses. Four classes of doctors have been called by the government.

## CHAMBERS OF COMMERCE IN NATIONAL MEET

Dallas, Texas, April 9.—James Z. George, chairman of the Texas Chamber of Commerce Division of the National Association of Commercial Societies, announced that a meeting of all state chambers of commerce will be held at Atlantic City, N. J., April 26 to plan co-operation with Secretary of Commerce Hoover and the chambers of commerce of the United States for restoring industrial and economic conditions back to normal.

## SUIT IS FILED IN HUGE LAND CLAIM

Washington, April 9.—Claim to 14,000,000 acres of land in Texas and Oklahoma, including the cities of Tulsa and Oklahoma City and practically the entire Burkburnett oil field, was filed in the Supreme Court today on behalf of the Cherokee Indian Nation supported by a government patent issued by President Van Buren and certified as authentic by the Interior Department. The claim is in the form of a petition for permission to intervene in the Red River oil lands case, an original suit between Texas and Oklahoma involving jurisdiction of valuable oil fields along the common boundary. John M. Taylor, a grandnephew of Zachary Taylor and attorney for the Cherokee Nation, filed the motion. He said the patent was discovered accidentally among the papers of a deceased chief of the tribe.

## Has No Legal Status

Oklahoma City, April 9.—Attorney General Freeling today expressed doubt that the Cherokee Indian Nation can lay claim to the 14,000,000 acres of land indicated in the petition filed in the United States Supreme Court today because it has no official record or legal status as a nation. He said, however, that it might be possible for individual descendants of members of the nation to support the petition.

## DECAYING CIVILIZATION

Reval, Estonia, April 7.—Dr. Morris Zucker, known here as a leader and organizer of the Communist party in the United States, whose home is in Brooklyn, on arrival here today from Moscow after five months in Russia, said: "The decaying civilization of soviet Russia is the worst sort of tyranny in the world. Conditions are steadily growing worse. What little foreign trade Russia is able to obtain is no help to the people, who everywhere are victims of tyranny and go about in a hopeless attitude because of the great and constant Red terror."

## MAKES WOODEN LEGS

York, S. C., April 7.—Dr. W. E. Irwin, 84, oldest white male citizen of this city makes wooden legs. The doctor lost his own right leg by a shell in the war between the states. He built a wooden leg according to his own notions and he has been making them for other people ever since.

## NEFF'S LIBELER APPEALS

Austin, Texas, April 7.—Fisher Allsup, who was convicted of libel in the county court in connection with statements affecting "the reputation of Pat Neff," governor, filed an appeal to the Court of Criminal Appeals today.

## ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Drugists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetatechloride of Salicylicacid.

## FRESH PROPOSITIONS IN REPARATIONS

Paris, April 8.—It was semi-officially announced here today that a fresh proposition on reparations was expected from Germany. Unconfirmed reports state that Germany is making another effort to interest the United States in the question by negotiations between Karl Bergman, undersecretary of the treasury, and Rowland Boyden, formerly American unofficial representative on the Allied Reparations Commission. Boyden is now in Vienna en route to Constantinople, it is understood.

## BABY IS DROWNED IN BUCKET OF WATER

Lockhart, Texas, April 7.—The 11-month-old baby of Enton Honzolak was drowned in a bucket of water at Dilsworth Tuesday. While the mother was outside the house feeding the chickens the lad sat on the side of a half-filled bucket playing in the water. When the mother returned she found the child headforemost in the bucket, dead.

## MENACE OF STRIKE HOVERS OVER BRITAIN

London, April 8.—Great Britain is face-to-face with an industrial crisis of unprecedented proportions. The National Union of Railwaymen and the Federation of Transport Workers decided to strike in support of the miners, who have been out all the week. The hope that the miners and owners of the coal pits might meet government officials and discuss a means of settling the strike was blasted shortly after noon when it was announced that the miners refused to meet the employers, basing their refusal on the fact that the mine owners had accepted the government's proposal for a conference on the condition that the striking pumpmen and engineers would return to work immediately pending negotiations.

## Explain Refusal

London, April 8.—The answer of the miners was that the condition proposing that the safety of the miners must first be discussed prevented the resumption of negotiations.

## Armed Protection Promised

London, April 8.—Premier Lloyd George announced in the house of commons today that it was the intention of the British government to issue an appeal for volunteers for transport and other essential services in view of the prospective "triple alliance" strike. He said a royal proclamation would call up the army and navy reserves.

## WANTS NO FOOLISHNESS

Washington, April 7.—Attorney General Daugherty today sounded a general warning to the business that the Department of Justice will countenance no violation of the law. He announced that investigation of illegal practices in building materials and trade would be undertaken immediately throughout the country where necessary.

## LONG DIVORCE SUIT

Leith, N. D., April 7.—Fifteen years ago William Kincaid of Leith started a divorce action in Ohio. The case, after sessions in three courts, has just ended in a decree for him. A son 8 years old when the action was started is now married.

## WAR ON BAD TASTES IN GIRL'S ADORNMENT

St. Louis, Mo., April 11.—Rouge and extreme fashions in dress have been put under the ban by girl students at Soldan High School here. Their new "unwritten law" governing personal adornment is being adhered to rigidly, according to Mrs. E. C. Bristol, dean of girls.

The movement was started by the "Big Sisters," an organization of about 200 girls at the institution, who protested against what they declared was a growing want of personal taste. After other societies gave endorsement, the remainder of the student body fell in line.

In addition to warring on exaggerated styles and manufactured complexions, the girls have reduced the size of their hair puffs.

## ARMED BANDITS ROB FORT WORTH CASHIER

Fort Worth, Texas, April 11.—Two armed bandits waylaid Cashier Feeney of the Texas & Pacific passenger depot on Main street as he started to a bank at 11 o'clock this morning. They fired several shots at him, grabbed his satchel containing \$4,000 in cash and escaped. Special Officer Clark, who was with Feeney at the time, pursued and fired many shots at the fleeing pair.

## ABANDON HOPE FOR MISSING BALLOONISTS

Washington, April 9.—Hope has practically been abandoned by the navy department that the five men who left the Pensacola Fla., air station in free balloon-A-5604 March 22 will ever be found alive, according to an announcement made at the department yesterday. The search has not been entirely abandoned, the statement said, but little hope is entertained that either the men or the balloon will be found.

A board of investigation has been ordered convened at the naval air station at Pensacola to inquire into all the circumstances connected with the flight and the subsequent loss of personnel and material. Captain F. H. Christy, commandant at the station, reported to the department.

The flight was duly authorized, the report said, for purposes of instruction in night flying, four students being carried in addition to Chief Quartermaster G. K. Wilkinson, who was in charge.

## Empty Balloon Found

Panama City, April 9.—The naval balloon missing with five men since it left the Pensacola naval station March 22, was picked up in the gulf late Friday by a fishing boat and brought here. No trace of the crew was found.

## INTERNAL DISCORD MAY PREVENT GREAT STRIKE

London, April 9.—The recruiting of volunteer workers and safety units was energetically begun by the government today and other plans were perfected to meet the threat of a widespread industrial tie-up next week, involving approximately 2,000,000 workers. Meanwhile, however, reports from various parts of England, Scotland and Wales indicate that the "triple alliance" executive board may have more to do than the mere issuance of a strike decree and cessation of work by railwaymen, transport workers and miners. Word comes from Glasgow, Liverpool, Cardiff, Edinburgh and other important centers that the rank and file of the union men are challenging the right of the railwaymen's executive body to call a strike without balloting by the men. Some of the local bodies are also opposed to the "triple alliance" strike.

## OKLAHOMA WINS IN BOUNDARY SUIT

Washington, April 11.—The boundary between Oklahoma and Texas follows the south bank of Red River, the Supreme Court held today, basing its decision upon the treaty of 1819 between the United States and Spain and citing the negotiations between Secretary of State Adams and the Spanish envoy when Texas was a part of Mexico.

## Where is The South Bank?

Austin, Texas, April 11.—Assistant Attorney General Taylor said today: "The question now occurs as to just where the south bank of Red River is located."

## STRIKE THREATENED ON READING SYSTEM

Philadelphia, April 8.—Thirty-five representatives of 10,000 shop employees of the Reading System today refused to accept the 18 percent reduction in wages proposed by General Manager Falck of the system.

## "SWAMP CHILL TONIC DOES THE WORK!"

### Arkansas Merchant Highly Praises Famous Old Remedy

J. W. Mustain, Dealer in General Merchandise, Old Grand Grille, Ark., sells a lot of Swamp Chill Tonic and Fever Tonic. The reason he sells a lot is expressed in a letter he recently wrote us, which says: "Swamp Chill Tonic sure does the work. I certainly want to thank you for your fair dealings." John C. Rogers, Center, Tex., says: "I have sold your Swamp Chill Tonic for years and it is my favorite tonic. I always recommend it, because of its fine laxative properties." Dealer C. E. Miller, Bernice, La., says: "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill Tonic to one of any other kind. After a customer has used it once he or she will use no other kind." Thousands of other dealers in many different towns and cities strongly recommend Swamp Chill Tonic to their customers as the very best malaria remedy on the market. 60 cents a bottle—get one today. D-208

## GERMAN EX-EMPRESS DIED THIS MORNING

Doorn, Holland, April 11.—Former Empress Augusta Victoria of Germany died at 6 o'clock this morning.

By a strange coincidence the former empress died just one year after she suffered her first serious heart attack. She was stricken with what at the time was believed a fatal attack while preparing to enter the house at Doorn on April 11, 1920. Attacks of the fatal malady recurred, each sapping her vitality. When her son, Joachim committed suicide last July she was in such a serious condition that the news of his death was kept from her for a long time, and it is said she never learned her son killed himself. Former Emperor William and Prince Adalbert were at her bedside when the end came. Funeral services will be held at the house of Doorn tomorrow, attended only by members of her family. The remains will be taken to Potsdam Wednesday for another funeral service there, according to present plans.

## SOME ANCIENT SHELLS

Marlton, N. J., April 11.—Shells declared to be fifteen million years old have been discovered in the marl pits of this town by Professor John H. Ruckman, federal geologist and engineer. The discoveries, it is said, give Marlton the greatest range of such specimens in the world, extending from the period when shell fish represented the only animal life, until the epoch which probably directly preceded the appearance of man.

Giant lizards and huge animals long extinct are among the specimens which have been unearthed from marl deposits in this section. The most recent discoveries of Professor Ruckman, it is said, upset the calculations of the age of the marl deposits in New Jersey, and are believed to be the oldest remains of prehistoric life on earth.

## RECRUIT CAVALRY

Dallas, Texas, April 11.—Plans for recruiting to fill the places of men whose enlistments are expiring in the First Cavalry Brigade, Texas National Guard, were made at a meeting of guard officers here today.

# FROST PROOF CABBAGE PLANTS

EARLY JERSEY WAKEFIELD AND FLAT DUTCH

Large well rooted plants ready for delivery.

100 Plants for . . . 40c  
500 Plants for . . . \$1.50

**D. L. JAMES**

TELEPHONE No. 451 POSTOFFICE BOX 869  
NACOGDOCHES, TEXAS.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Little's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00  
JAMES F. BALLARD, Prop., St. Louis, MO.

I have a very fine thoroughbred Jack, shipped to me from the northwest, will stand at my barn at Appleby, Texas. Price \$5 cash and \$10 when colt is foaled.

A visit to my barn will convince. Respectfully,  
J. J. Boyett. 31-wtf

The 6-week-old baby of Mr. and Mrs. Garland White of Fairview, died at 8 o'clock Friday night, April 8, 1921, after a brief illness. Interment was made Saturday afternoon in the Fairview cemetery in the presence of many sorrowing and sympathizing friends.

District Clerk Ivan Prince spent Sunday with home folks at Garrison.

Editor Carl Thorn of the Cushing Journal was a business visitor to the city Friday.

Mr. Leslie Williams of Garrison was a business visitor in the city Wednesday night.

Plant less cotton but use good seed. We have genuine Mebane Triumph seed at \$2 per bushel. Mayer & Schmidt. 24-4w

Dr. J. B. Smith and daughter, Mrs. Kennedy, of Crockett are here for a visit with the family of their relative, Mr. A. H. Smith.

Mrs. Giles Haltom returned Friday from Houston, where she had been for a visit with her daughter, Mrs. Joe Gibbs.

Children who have worms are pale, sickly and peevish. A dose or two of White's Cream Vermifuge will clear them out and restore the rosy cheeks and cheerful spirits. Sold by Stripling, Haselwood & Co. b

Mrs. J. A. Norris of Houston, formerly of this city, is here for a visit with old-time friends, and is the guest of Mrs. C. Heitman and Mrs. Charlie Spies.

Cotton planting time! Genuine Triumph cotton seed. A full car load at only \$2 per bushel. Mayer & Schmidt. 24-4w

Mr. and Mrs. M. V. Whitbred are rejoicing over the arrival at their home Wednesday afternoon at 3 o'clock of a fine 11-pound boy. Mother and babe are doing nicely.

Plant Mebane cotton seed. None better, at the low price of \$2 per bushel. Mayer & Schmidt. 24-4w

LOST—Squirrel gray Jersey cow and yearling calf. Cow had on halter, Has tag in one ear. Likely drifting toward Swift. Will pay \$10 reward for return. Dr. J. M. Rogers, Etowah, Texas. 10-wtf

Two thousand, five hundred and three oil wells were completed east of the Rocky Mountains during January.

Let me coach you by mail for the Texas Teachers Examination. My method is something new, and I guarantee satisfaction. Eleven years experience. Terms reasonable. Write at once for particulars. C. Applegate, Gary, Texas. 31-3wp

### ALLEGED BANK SWINDLER NOW RESTS IN JAIL

They are at it again! When will crooks learn they cannot pull off their swindling stunts in Nacogdoches and get by with them?

Tuesday a young man of good appearance dropped into a local bank and deposited a draft purporting to be drawn on a Yonkers, N. Y., bank. Tuesday night he succeeded in passing checks against his deposit on two of our business men, one for \$20 and the other for \$5. The stranger, who gave his name as E. O. Lee, represented himself as being interested in the oil business, and talked with several of our people about his plans, casually mentioned that he was going to Lufkin on the night train.

In the meantime an official of our bank telegraphed to Yonkers, and in due course received the reply that the man had no account with the bank named. The sheriff's department was notified of the would-be swindler's performance, and Chief Deputy Boothe telephoned the sheriff at Lufkin, giving a description of the man wanted. In a short time he was notified his man had been arrested and was being held for the Nacogdoches officers. It seems the Angelina Sheriff caught the man while he was in a bank, presumably with the intention of administering a dose of antifit to that institution's roll.

Sheriff Woodlan went to Lufkin on the local Wednesday and returned at night with his prisoner, who now languishes in jail, where he will be accorded the seclusion necessary for a proper contemplation of his sins—until the next term of district court.

We congratulate the shrewdly upon its quick work in handling the case.

Apply Ballard's Snow Liniment to joints that ache. It relieves bone ache, muscle ache and neuralgia pain. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Stripling, Haselwood & Co. b

County Superintendent Exier Lewis has appointed Miss Era May Snelling as her secretary, the young lady entering upon the discharge of her duties the first of the week.

As clear as the purest water is Liquid Borozone, yet it is the most powerful healing remedy for flesh wounds, sores, burns and scalds that medical science has ever produced. Try it. Price 30c, 60c and \$1.20. Sold by Stripling, Haselwood & Co. b

### LAND FOR LEASE

My place of 394 acres is for lease. Situated 9 miles south of Nacogdoches on T. & N. O. railroad. See me at the farm. T. J. Phillips. 7-2wp

The mild cathartic action of Herbine is well liked by ladies. It purifies the system without griping or sickening the stomach. Sold by Stripling, Haselwood & Co. b

### A SURPRISE WEDDING

Monday morning at 10 o'clock the Tribune office was the scene of a surprise wedding when Rev. Frank Platt in his most solemn and impressive manner performed the ceremony that united Mr. R. L. Thomas and Miss Julia Hays as man and wife.

Some one God knows how long ago inaugurated the custom of saying something good about people when they marry, but printers of all others realize that most of the sweet things said about them are but piffle, so since both the bride and groom are printers in this particular case, and the writer is a printer, we are going for once in life to cut out the soft stuff and merely say that here's hoping that they have few quarrels, live long and happily together, making good and useful citizens wherever they cast their lot.—San Augustine Tribune, 2nd.

Messrs. Frank Sherman and Guy Black of Rusk arrived in the city Monday. Mr. Sherman is one of the largest road contractors in East Texas and will build extensively for Nacogdoches county, having at present 80 teams at work on our road construction enterprises.

Mr. Claud Lee, late of Mayer & Schmidt's, has secured a desirable position with a big Fort Worth shoe firm and will locate in that city. Mrs. Lee left Sunday to join him. Many friends in this city wish them success in their new home.

### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

### McCLAIN-AIKEN

Mr. Jesse M. McClain and Miss Maple Aiken were married Saturday afternoon at the Baptist parsonage in this city, Rev. S. D. Dollahite officiating, in the presence of a few friends.

It was a surprise wedding, not even the families of the couple being taken into their confidence until shortly before it was solemnized.

The groom is a well-known young man of this city, at present employed by the Carolina Oil Company at Oil Springs.

The bride is a popular and deserving young woman, admired for her many attractive qualities, and has the best wishes of a wide circle of friends for her future happiness, and in these good-wishes the Sentinel joins most heartily.

The young couple will make Nacogdoches their home.

### JUNIOR-SENIOR RECEPTION

Last night, April 8, when the many, many couples of young people entered the home of Mr. and Mrs. C. A. Langford, it was if they were entering fairyland. There were four rooms and the reception hall decorated, the Senior room being decorated in orange and white, the class colors, while the Junior room was adorned with green and white, their class colors. At first the crowd went here and there admiring and chatting with their various friends, but soon the couples paired off, conversations came first, and then the hall was cleared for Miss Mary Donegan's dance, which was done quite gracefully and seemed to please everyone, as she was escorted. Then to the conversations again, after which Mrs. Gee sang a solo greatly enjoyed by all. The reading of Miss Doris Wright was very good, causing a great deal of laughter.

And then came the flower contest. Each person was provided with a slip of paper which were written questions which could be answered with names of flowers. This contest caused a great deal of merriment, and when the winners were announced they proved to be Aaron Cox and Miss Pauline Buckner. The prizes were two lovely bouquets. After all had subsided from this contest, Miss Mildred Beall and Miss Abbie Wheeler favored those present with a duet, which was greatly appreciated. Then Miss Gramling, who seems to have a gift for music, favored the audience with a solo. Miss Thelma Potts followed this with a reading, which was rendered with a great deal of expression.

Refreshments were first served to the Seniors and consisted of pressed chicken with mayonnaise dressing, olives and apricot ice. In the ices of the seniors there were small bottles with slips in them, giving the fortune of each individual.

After all had been served, Albert Eiland called for order. He then proceeded to read some jokes, which were really clever and caused quite a bit of amusement. Last, but certainly not least, came the toast of the junior president, Eugene Thomas. He made a few well-chosen remarks concerning the junior and senior classes. Then the senior president, Roland Jones, Jr., came forward and made a reply. The senior president spoke of "Old 'Doches High" in glowing terms and spoke of the separation of the seniors from it. This ended the grand event of the year, and as each left they expressed themselves as having had a wonderful time.

Miss Ruth Martin of the Weeks Ice Cream Factory, received a severe cut on her right wrist Friday afternoon. She placed her hand on the glass of a door, which was hard to close, and pressed against the pane until it broke, her hand passing through the shattered glass and a very painful gash was the result. Three stitches were required to close the wound. There was a profuse flow of blood before the surgeon arrived, from the effects of which she is very weak. It is hoped, however, she will soon be herself again.

### When Grandmother Was a Girl

Hoop skirts were worn by those who first asked the druggist for, and insisted on having the genuine Golden Medical Discovery put up by Dr. Pierce over 50 years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were over fifty years ago. Nearly a million bottles were sold last year. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package tablets.

### CHARTER No. 1284 OFFICIAL STATEMENT OF THE FINANCIAL CONDITION OF THE

## Nacogdoches State Bank

at Nacogdoches, State of Texas, at the close of business on the 21 day of February, 1921, published in the Nacogdoches Sentinel, a newspaper printed and published at Nacogdoches, State of Texas, on the 28th day of February, 1921.

RESOURCES

F. R. Penman,  
J. W. Millard,  
Directors.

### THE STAR MARKET NOW IS ATTRACTIVE PLACE

A reporter dropped into the Star Market Friday morning and took a look over the new quarters, formerly the location of the City Market. He found everything neat as a pin, the walls newly calomined, a new marble top table added, the premises scrubbed and furnished to the last degree of neatness, indications or scrupulous sanitary conditions being apparent in every nook and cranny. Additional show cases have been provided for the display of wares, and a huge refrigerator installed to take care of the perishable goods. This market is trying its best to meet the demands of the local trade, its stock comprising about everything likely to be called for. It will handle the highest grades of meats, including pork and beef of all cuts, dressed poultry, sausage in link and bulk, block chili, fish, oysters in season, vegetables, etc.

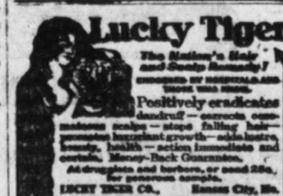

D. T. Peterson is manager, with Scott Mills as meat-cutter, John King as butcher and Odie Peterson looking after the delivery work, which latter feature, it is wished to emphasize, for the intention is to serve patrons "right now."

As before stated the consolidated businesses will be conducted under the name and style of "The Star Market," and the old phone number, 159, will be retained. Call that number when you wish good meats, courteous service and the quickest delivery in town.

A torpid liver needs an overhauling with Herbine. Its benefits are immediately apparent. Energy takes the place of laziness, appetite returns, and the hour of rest brings with it sound, refreshing sleep. Price 60c. Sold by Stripling, Haselwood & Co.

County Superintendent Exier Lewis received her commission from Austin Friday morning, and the much-prized document, tastily framed, now occupies a permanent place in her office at the courthouse. Miss Lewis is very proud of the distinction of being the county's first woman superintendent.

FOR SALE—Boilers, engine and saw mill machinery. Always some good used machinery on hand. J. M. Hacker, Box 579, Beaumont, Texas. dwtf-Th.

**Lucky Tiger**  
The Nation's Best and Safest Remedy for Catarrh of the Bladder, Prostate, and Uterus. Positively eradicates Catarrh—cures cystitis, gonorrhea, and all urinary ailments. It is a powerful blood purifier and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions. All druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

## The Bugs and Insects That Are Eating Up Your Garden

Now that you have your garden truck up do not let the insects eat it up.

Spray your plants with Arsenate Lead.

You can't afford not to do this for if you do you will lose your early vegetables.

We have the poison and sprays.

Also a full line of Garden and Field Seed.

**Stripling, Haselwood & Co.**

N. M. Neely of Neely was a business visitor in the city Monday.

C. B. Watkins and D. M. Kelly of Douglass were in the city Tuesday.

District Attorney W. B. Bates is in Lufkin this week attending court.

Editor Jack Dearing of the Garrison News was a genial visitor at the Sentinel office Monday afternoon.

A big school entertainment will be given at Hickory Flat school Friday night, according to Miss Exier Lewis, county superintendent.

County Attorney Audley Harris returned Sunday from Rusk and Jacksonville, where he had been on legal business.

C. C. Watson, Jess Bates, Audley Harris, F. P. Marshall and Harry Kiley were visitors in Cushing Monday to the justice court.

Wade Walters made a trip to Douglass Monday, going to serve a citation. Mr. Walters reported the crops at Douglass doing fine.

Mrs. Hollis Mast and little son, Travis, arrived in the city Monday from Boyce, La., where they had been visiting relatives.

Hugh Byrd, Everett Moore, Will Atkinson, Tom Seale and Lena James, all of the Chireno community, were in the city Monday.

Mr. Dan Hodges of Appleby was in the city Tuesday, reporting that the fruit in his section was not damaged very badly, he thought.

W. T. Orton left the city Wednesday for the southeastern part of the county, where he will inspect some ties with Mr. Walker, official tie inspector for the H. E. & W. T.

John Gilmore of Lufkin was in the city Wednesday, declaring that Lufkin was "the best town in the United States, including Nacogdoches. There are more than 75 homes going up in Lufkin now!" Mr. Gilmore said.

Mr. E. T. Hand of the City Shoe Shop has just completed a cozy 4-room bungalow on South Fredonia street and will occupy it as soon as the weather will permit him to move his household effects.

Henry Mast says the automobile business in Nacogdoches is coming fine; that he is now selling a car a week. "Business is not like it was a short time ago," Mr. Mast said.

Charlie Jameson of the oil fields near Chireno was in the city Monday, reporting that he had finished four wells and was about to bring in his fifth.

Rev. Mr. Thompson of Dallas will begin a revival meeting at the West End Tabernacle Friday night of next week, the 22nd inst. Everybody in the city is invited to take part in the services.

Mr. and Mrs. Joe Ivey left Monday afternoon for Laredo, Texas, where they will visit relatives. Mr. Ivey will visit in Mexico while absent. Mr. Atkins will fill his place at Stripling, Haselwood & Co.'s drug store.

### FIFTH SUNDAY MEETING

The Gospel Mission Baptist church Fifth Sunday Meeting will convene with Hopewell Baptist church at Swift, Texas, beginning Thursday night, May 27th.

Introductory sermon by James F. Dew.

Question Friday 9 o'clock, "Are We Saved by Good Works? If not, Why?" by W. H. Ingram, T. H. Hornea and R. A. Wilkerson.

Second—"When did the Christian or Gospel Dispensation Begin, by Whom and What Were the Requirements," by C. A. Smith, S. A. Acrey and G. E. King.

Third—"When, Where, and by Whom was the Church of God Set Up?" by Ben M. Bogard, H. L. Kitinur and C. P. Spivey.

Fourth—"Did Christ Give His Church a Complete Government?" by C. D. Herndon, Hutson Hall and F. M. Richard.

Fifth—"Is the Church of Christ an Executive or a Legislative Body?" by G. T. Taylor, U. W. Jarrell and J. W. Reppond.

Sixth—"What are the Differences Between Associated Bodies and Associational Bodies?" by T. H. Irwin, T. N. Cochran, W. W. Eaves.

Seventh—"When did the Associational Bodies Begin with Missionary Baptist?" by A. S. Poindexter, W. H. Little and C. M. Deer.

Eighth—"Can the Church of Jesus Christ delegate Their Power to Their Associational Bodies in Such a Way as to give them Authority to Send Out Missionaries Under the Commission of Mathew 28:19:20:21? If not, Who Has the Scriptural Right to Send Them Out?" by James F. Dew, R. R. Frederic and Preston Bateman.

Ninth—"Do We as Gospel Mission Baptists Accept the First Article Laid Down in J. M. Pendleton's Manual?" by J. L. Davis, J. R. Knight, R. L. Smallwood.

Tenth—"Is the Holy Spirit the Only General Director Placed in the Church of God?" by A. A. Hensler and W. M. Webb.

Preaching by appointment from time to time. Questions may be asked any time concerning the program. All Baptists are invited to come and be with us and take part. Everyone will be treated with courtesy. Bro. A. S. Poindexter is expected to come and be with the church and preach Tuesday and Wednesday nights before.

Trains will be met Thursday and Friday.

COMMITTEE—G. T. Taylor, W. A. Cureton, J. L. Hargis, Clark Herrington, W. W. Eaves, H. T. Chandler.

### FARMERS AND MERCHANTS

When you want to sell your cotton do not fail to see us or phone us. It will profit you. We are in the market for all grades and always pay the full market prices. Our differences in grades are better than anywhere else. Find out yourselves.

G. Wustenbecker & Co., Hayter Building, Nacogdoches, Texas.

12-2dw1.

### CHAMBERLAIN'S TABLETS ARE JUST WHAT YOU NEED.

When bilious. When constipated. When you have no appetite. When your digestion is impaired. When your liver is torpid. When you feel dull and stupid after eating.

When you have headache. They will improve your appetite, cleanse and invigorate your stomach, regulate your bowels and make you feel "fine as a fiddle." They are easy to take and agreeable in effect. Sold by Stripling, Haselwood & Co.

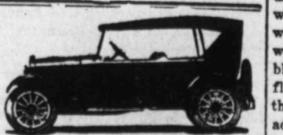

### THE REST ROOM COMMITTEE

Wishes to announce that the rest room is furnished except they would like a baby's bed, a sanitary couch, and a stand suitable for a water cooler. If they can get hold of these things the Rest Room will be ready for occupancy Saturday.

Anyone having any of the above things will be doing the whole county a favor to donate them. Please ring Mrs. Ellis Gaston, Chairman. Publicity Committee.

Mr. S. Mintz of Dallas arrived Tuesday afternoon for a visit with Nacogdoches friends and to look after business matters. He says he refuses to be weaned from the old town, which he regards as the best ever.

Merely to obtain practice at climbing hand over hand, a fifteen-year old boy ascended a suspension cable of Brooklyn bridge with the skill of a sailor until he reached the tower three hundred feet above the water. Arraigned on a charge of disorderly conduct he was remanded to the children's court.

**G. A. NELSON**  
At Mast Motor Co's.

Has everything in Auto Tops of 1921 model. Gypsy Rear Curtains of the latest style, with French Bevel Plate Glass for rear curtain. Back Strap an all other repair material needed for auto tops, of the best that money can buy

### STORM DAMAGE

Here's something for old-time weather observers to ponder over. It was put up to the writer this morning by one who lived long in the land. He says that possibly the oldest inhabitant does not recall that the moon ever "quartered" on Friday before today. He also had something to say about the scarcity of jaybirds on Friday, and linking these events together, he is of the opinion that weather conditions for the next few weeks will be altogether unfavorable. Just what the "quartering" of the moon and the jaybirds have to do with the weather is beyond the philosophy of the weather editor of this paper, but he is free to admit that something is radically wrong with the elements. Take yesterday afternoon for example. Was there ever a rain more uncalled for than that which fell in this vicinity? From all reports available the rain was general all over East Texas, the train crew of the Cotton Belt from Tyler to Lufkin saying that they never saw such a deluge. It is reported also that the wind attained cyclonic proportions at Rusk and in that locality much property damage was done, although no lives were lost. Vast areas of virgin timber were blown down, fruit and shade trees were uprooted, out-houses were blown away, and the whole country flooded with water. At one home in the town of Rusk, where massive trees adorned the front yard, after the disturbance these trees were strewn about the entrance to the home in such a way that one could not enter the front door.—Lufkin News, 8th.

Henry Johnson, colored, of Mayo, was brought to town Monday by Deputy Sheriff McGuire and landed in jail on a charge of stealing 24 nickels. Henry had traded off four of the coins for tobacco, hence the officer recovered but 20 nickels of the sum pilfered. But that is enough to make a whole lot of trouble for him.

Some of our people report a slight frost Monday morning. It is not thought it was heavy enough to damage vegetation, however.

Sam Watkins of Linn Flat was in the city Tuesday.

## You've Got to Do What You Say You Will

There's a story about a storekeeper who had a sign in front of his house "Fresh eggs 35c." Some people stopped and asked for a dozen eggs. When they handed the storekeeper 35c he said, "No, the eggs are 70c." They protested; they said your sign reads 35c. "Oh, that's only advertising," replied the storekeeper.

That's what some people think about a guarantee. "It's only advertising." They think advertising is something to get people into the store—then you can do as you wish.

It's all wrong; a successful store has to live up to its advertising; people won't come again and again unless you do exactly what you say you'll do.

We handle a standard line in all departments, ladies' ready to wear, men's clothing, shoes, hats; in fact we say "money back" on every thing we sell if you aren't satisfied and you are the one who decides what your satisfaction should be.

## Thomas & Richardson

P. S. Just received a large shipment of dainty organdy and gingham dresses in all of spring's choicest colors.

### BENJAMIN RAMSEY SCOGIN

Benjamin Ramsey ("Uncle Ben") Scogin, beloved of all who knew him, died at his home at Leesville, La., at 3:30 a. m. Monday, April 11, 1921, aged 74 years 5 months and 6 days.

Mr. Scogin was born in Alabama and came to Nacogdoches county about 1858, making this his home continuously until three years ago, when he moved to Leesville.

He was married to Miss Susie Buckanans of this county, by whom he is survived, together with three children, Gabe Scogin of Texas City, Texas, and James Scogin of Leesville, La., and Mrs. A. J. Campbell of Cushing, Messrs. Arch and J. R. Buchanan of this city are brothers-in-law.

He joined the Baptist church thirty years ago, and became a Mason about the same time, and in his relations with both he was unflinchingly consistent.

Interment was made Wednesday afternoon in the North Church cemetery, the religious service being conducted by Rev. S. D. Dollahite of the Nacogdoches Baptist church, and the members of the Masonic lodge conducted the solemn funeral rites of the order.

From all sections of the county old-time friends and acquaintances came to pay their tribute to a good man and a good citizen, the attendance being one of the largest of recent years. In the passing of "Uncle Ben" Scogin, many of our people feel that they have lost a friend.

### RELIEVES RHEUMATIC PAINS.

"I am subject to rheumatism and when I have a spell of it one or two applications of Chamberlain's Liniment relieves the pain and makes rest and sleep possible I would not think of doing without it." Writes Mrs. C. Owsley, Moberly, Mo. Sold by Stripling, Haselwood & Co.

Mr. O. G. Bright is having a splendid cafe put in on East Main street, which he thinks he will have finished in a few days. Mr. H. T. Hatch is doing the work, and is assisted by Mr. Hillard Stone. Mr. Bright plans to run the cafe day and night. He will have a plate glass front and is planning, he says, to place a large sign out in front of his business "that will be a feature in Nacogdoches."

Try the Sentinel want ads.

### FOR A SEVERE COLD

"Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never had an opportunity to recommend this medicine to anyone suffering from throat or lung trouble. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelly, Earville, N. Y. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup so they do not object to taking it. Sold by Stripling, Haselwood & Co.

The funeral of Uncle Ben Scogin was held and interment made at North Church at 2:30 Tuesday afternoon. Services were under direction of the Masons and there was an unusually large attendance from the city as well as from outside communities, attesting in strong terms the esteem in which deceased was held in this county.

Much building activity is reported in Nacogdoches. Such reports are refreshing; all East Texas towns should enter upon a building program on a large scale. Of course none of our sister cities will measure up to Lufkin in the building line, but improvements are desired from any section of the country.—Lufkin News.

### THEY SPEAK WELL OF IT

"I frequently hear Chamberlain's Cough Remedy praised by friends and acquaintances which only tends to strengthen my good opinion of it," writes Mrs. Fred Arter, Zanesville, Ohio. Try it when you have a cough or cold and see for yourself what an excellent medicine it is.—Sold by Stripling, Haselwood & Co.

Mrs. M. W. P'Pool returned Tuesday from a visit at the old home at Edwards, Miss. She was accompanied by her mother-in-law, Mrs. E. S. P'Pool of Hattiesburg and also Miss Ruth Roach of Vicksburg, who will be her guests for some time.

To cleanse the blood, strengthen the kidneys and regulate the stomach, liver and bowels, Prickly Ash Bitters is a remedy that has proved its worth. It promotes activity in body and brain. Price \$1.25 per bottle.—Stripling, Haselwood & Co. Special Agents.

### SCHOOL CENSUS REPORTS

County Superintendent Exier Lewis states that six of the school districts of the county have failed thus far to send in their scholastic census reports, as required by law and this failure is delaying her report to the state educational department, which is past due. The attention of the delinquent trustees is directed to this matter with the hope that they may attend to it at once.

After a long winter the system becomes filled with impurities caused by dry, strong winds. In hot weather these impurities cause sickness. Get rid of them now by taking Prickly Ash Bitters. It is the remedy that mer use for purifying the blood, liver and bowels and putting the body in shape for summer work. Price \$1.25 per bottle.—Stripling, Haselwood & Co. Special Agents.

After a sojourn of nearly four years in the government sanitarium at Hot Springs, S. D., "Uncle Frank" Robbins returned Monday to Nacogdoches, his old home. His stay at the famous resort relieved him entirely from the ills of chronic rheumatism, of which he had been a victim for years. The restoration of this good man to health is a source of the greatest gratification to his many friends in this community and county, and they rejoice with him in his freedom from the excruciating malady with which he was afflicted. Mr. Robbins relates some interesting experiences of his stay at the sanitarium, and regards South Dakota as one of the greatest of all countries.

A "system regulator" is a medicine that purifies and strengthens the liver, kidneys, stomach and bowels. Prickly Ash Bitters is one of the best of these. It drives out unhealthy conditions, promotes activity of brain and body, restores good appetite, sound sleep and cheerful spirits. Price \$1.25 per bottle.—Stripling, Haselwood & Co. Special Agents.

Mr. and Mrs. N. C. Neeley and daughter, Miss Nettie, of Neely, accompanied by Mrs. Amand Fox of the same neighborhood, were visitors in the city Monday and favored the Sentinel with an appreciated call.
