RAILROAD ORDERED BACK

Hon. I. D. Fairchild received two telegrams from Washington this afternoon, one from George W. Keating, attorney general of Texas, and the other from Railroad Commissioner C. E. Gilmore, stating that the supreme court had unanimously held that the interstate commerce commission was without authority to authorize taking up of the Eastern Texas railway tracks, thus sustaining the decision of the state railway commission.

This virtually means that the Eastern Texas railway will be put back in operation. That this is glad news to the people of Lufkin, Kennard and Ratcliff, goes without saying. This line of road has been suspended for several months, and the case has been fought through the higher courts of the land, much credit being due to the efforts of the law firm of Fairchild and Reddit of this city.—Lufkin News

SINGING CONVENTION

The East Texas District Singing Convention will convene next Friday night at Fairview church, four miles east of Nacogdoches on the Melrose Highway. It was reported that this convention would meet at New Hope church, but this was an error.

Dinner will be served Saturday on the church lot, and Sunday a picnic lunch will be provided for the singers who will not be able to catch the next trains. This arrangement has made on account of the convention coming to a close at noon Sunday.

This is Nacogdoches county's opportunity to show the many visitors from other counties a real nice time, so let's all turn out with well filled baskets and feast two and a half days on sacred song.

THE COUNTY MEET

The county meet will take place next Friday and Saturday. Friday will be devoted to athletic contests and Saturday to literary work. A good meeting is expected and an interesting time anticipated.

JURY COMMISSIONERS

Judge Guinn has appointed Dr. George Campbell of Douglas, Mr. Albert Brewer of Nacogdoches and Mr. D. M. McDuffie of Garrison as jury commissioners to select jurors for the next term of district court. The commissioners met Tuesday afternoon to begin their work.

TEACHERS EXAMINATION

The county superintendent announces that there will be an examination of teachers of Nacogdoches county at her office in the courthouse on Friday and Saturday, April 7th and 8th.

The approach of St. Patrick's Day gives rise to the thought that the good saint might have included hate and discord when he banished the snakes and toads from Ireland.

Read John S. Jenkins' announcement on last page. It will pay you

FOR COMMISSIONER PRECINCT 1

I hereby announce myself as a candidate for commissioner of Precinct No. 1. I was born and reared in this precinct, am 37 years of age, have had considerable experience in working on public highways and understand how roads ought to be built and maintained. I believe in practicing economy in running the county's affairs and eliminating all expense possible, and reducing taxation whenever and wherever it can be done, thereby establishing the policy of "paying as you go." If elected I promise to give such time and attention as will be necessary to make you one of the best commissioners possible.

I hope you will give my candidacy a careful consideration. In the meantime it will be my intention to see all the voters.

Respectfully yours,
Horace Spradley.

A CHESTY SCRIBE

Some of our Nacogdoches friends, we are told by the Herald, want to purchase a fire engine with sufficient capacity to pump water from the Angelina river and throw it all over Lufkin. Whenever they do that they will have the satisfaction of knowing that they have thrown water over a better town than they will ever have the pleasure of doing by keeping the old engine in Nacogdoches.—Lufkin News, 13th.

Captain G. C. Orr of Houston, representing the Volunteers of America organization allied to the Salvation Army in the character of its work, is in the city for a few days in the interest of the three charitable institutions maintained in Houston by these workers. Captain Orr states that the beneficence of the Volunteers is not confined to the immediate Houston vicinity, but any homeless and indigent old woman in the state will be taken in and cared for and any destitute girl will be given a home and employment of proper character provided for her.

W. O. W. BANQUET

There will be a banquet in honor of members of Appleby and Melrose W. O. W. transferring to this camp Tuesday night, March 21st. All Woodmen and their wives are cordially invited to attend. Music, speeches and a general good time is promised.

T. B. Floyd,
G. W. Childress,
W. P. Burrows,
15-2dwl
Committee.

From his Broadway office, the showman who has hired Jack Dempsey sends word that the fistic champion "is reputed to be receiving \$14,000 a week." When "is reputed" comes from a showman's office, "is believed" fades rapidly from the scene.

With a number of republican newspapers on record as declaring this congress one of the worst, the administration has the utmost difficulty in looking cheerful over its first year.

ARKANSAS SEEKS SLICE OF TEXAS TERRITORY

Austin, Texas, March 14.—That portion of Texas territory which the State of Arkansas seeks title to in its attempt to obtain permission from the Supreme Court of the United States to intervene in the Texas-Oklahoma boundary suit, not only includes all of the bed of the Red River but includes 56 Texas counties, constituting that portion of Texas between the Louisiana boundary and the 100th meridian and north of the 32d parallel. In this territory lies virtually all of the oil territory developed known as the North Texas oil fields, Dallas, Fort Worth, Cleburne, Texas, Hillsboro, Ennis, Breckenridge and virtually all of the important financial and industrial centers of North Texas are included in the slice of Texas territory which Arkansas modestly desires to annex.

The Texas counties on the 32d parallel forming the southern tier of counties which Arkansas desires to swallow by legal procedure, are: Taylor, Callahan, Eastland, Erath, Hood, northern portion of Bosque, Johnson, the northern half of Hill county, Ellis, the northern half of Navarro, Henderson, the extreme northern portion of Anderson and Cherokee, Smith, Bask and Panola.

Beginning at the Louisiana line the counties included in the slice which Arkansas desires to separate from Texas, in addition to those named as the southern tier of counties bordering on the 32d parallel are: Harrison, Marion, Cass, Bowie, Red River, Titus, Morris, Camp, Upshur, Gregg, Wood, Franklin, Lamar, Delta, Hopkins, Rains, Van Zandt, Kaufman, Rockwall, Hunt, Fannin, Grayson, Collin, Dallas, Ellis, Johnson, Tarrant, Parker, Wise, Montague, Clay, Jack, Palo Pinto, Stephens, Young, Archer, Wichita, Wilbarger, Baylor, Throckmorton, Shackelford, Jones, Haskell, Knox, Foard and Hardeman.

Attorney General W. A. Keating, when notified of Arkansas' modest claims to about a quarter of Texas territory, in seeking to intervene in the Texas-Oklahoma boundary suit, said that he had not been informed of this latest development in the boundary case and for that reason declined to comment on the Razorback State's attempt to thrust a legal snout into the oil resources of Texas. The attorney general very seriously doubted whether the Supreme Court would allow Arkansas to intervene in the Texas-Oklahoma boundary case at this time but was of the opinion that the Supreme Court would dispose of the Texas-Oklahoma case before passing upon Arkansas' suit for title to one of the richest portions of Texas territory.

LOAN IS EXTENDED

Washington, March 15.—A resolution introduced by Senator Lodge, republican, Massachusetts, extending for 25 years the loan of \$50,000,000 made to Austria for famine relief was adopted unanimously today by the senate and sent to the house.

MRS CROW WINS SUIT

Waco, Texas, March 15.—Judge H. M. Richey today entered an order in the case of Mrs. Inez Crow against Sheriff Bob Buchanan for \$50,000 damages growing out of the killing of her husband, Louis Crow, at Lorena, on the night of October 1st, amending a previous order suspending the transfer of the case to Bell county. Pending an appeal by the defendant on the question of authority, the judge will transfer the case on his own motion.

FIRE LOSS AT CISCO

Cisco, Texas, March 15.—An entire block in the business section here was destroyed by fire yesterday. The loss is estimated at \$180,000.

GUESTS ESCAPED FIRE

Reno, Nev., March 15.—Scores of guests escaped through upped windows in their night clothes when the Riverside Hotel, the largest here, was destroyed by fire early today. A check has been started to learn if any are missing.

Germany seems to be able to dig up some gold and hand it over to the reparations commission whenever it is a case of "must."

APPALLING DESTRUCTION IN CHICAGO CONFLAGRATION

Chicago, March 15.—A spectacular fire early today destroying a block of business buildings just outside the downtown district with a loss estimated at \$10,000,000 to \$15,000,000. Every structure in the block bounded by Van Buren, Canal and Clinton streets and Jackson boulevard, was burned, 21 in number. The Burlington building, housing the Mercantile Trust & Savings Bank, was wrecked. The firemen were fighting a dozen different fires breaking out intermittently. It was nearly 5 o'clock when the fire was brought under control. James McGovern, a fireman, was hit by a falling wall and killed. Lieutenant William Everett of an engineering company was seriously injured and an unknown number of the 100,000 spectators were hurt by falling bricks and burning timbers and sparks. The origin of the blaze was probably incendiary, said Shirey P. Higgs, city fire attorney, in announcing the arrest of an unknown man on information furnished by S. T. Schiff implicating a former employee of Schiff's Confectionery Company.

UNLUCKY THIRTEEN

Indianapolis, Ind., March 15.—Two more wives were added today to the list of the matrimonial ventures of Isiah Moore, who is under arrest here charged with bigamy and embezzlement. "I have kept a pretty good record of my marriages, and am sure there are only thirteen," said Moore. He said he neglected to include one at Denver and one at Ridge-way, Md., and could not remember the name of either.

JOYRIDE ENDS TRAGICALLY

Kalamazoo, Mich., March 15.—A slight improvement was reported today in the condition of Miss Emmaline K. Walkerneck, a Western State Normal School student, whose skull was fractured when she jumped from an automobile driven by John B. Dodge of Detroit early Sunday morning. Dodge will be arraigned in municipal court next Tuesday on charges of driving an automobile while intoxicated and possessing, transporting, and furnishing intoxicating liquors.

WANT RECOGNITION

Washington, March 15.—Recognition by the other interested governments of the rights of the United States in connection with the distribution of the German reparations was all that was sought at this time in the recent demand upon the Allied finance ministers for the payment of \$241,000,000 expenses of the American army of occupation, it was stated today by high administrative officials.

DEATH LIST GROWS

McAlester, Okla., March 15.—The death of an unidentified Mexican child last night increased to eleven the total fatalities in the tornado which struck Gowen, Okla. Several of the injured are reported in a serious condition.

ROWAN AND LUNA MUST SERVE THEIR SENTENCES

New Orleans, La., March 15.—The United States Circuit Court of Appeals yesterday affirmed the decision of the district court at Dallas in the cases against Albert L. Rowan and R. Ben Luna, convicted of complicity in the hold-up of the Jackson street postoffice substation on January 14, 1921. They were sentenced to 25 years in Leavenworth penitentiary.

URGES ROAD FUND

Washington, March 15.—The appropriation of funds sufficient to continue without interruption federal aid for a highway construction program was urged upon congress today by Williams S. Markham, representing the American Association of State Highway Officials and the American Farm Bureau Federation before the house roads committee. In making the appropriation congress should provide enough money for at least three years, he said.

According to ex-Champion Jeffries' evangelism that swearing is no sin, we can proceed to change tires without losing our religion.

SEEKING RECRUITS FOR COAST DEFENSE ARTILLERY

Lieutenant E. R. Guild of Fort Crockett, Galveston, is in the city for the purpose of enlisting men for service in the coast defense artillery branch of the army, there being 30 vacancies at this time. Recruits joining now will, immediately after passing a week's furlough, with pay, to enable them to visit homefolks if they so desire. The coast defense artillery is one of the most important branches of the service and men qualifying therein are sure of the very best treatment and broad opportunities. Practice with the big coast defense guns will begin in about a month. Recruits will be started with rifle practice on the range with the view of making crack shots of them. Automatic rifles and machine guns will be used in this training.

A force of men will be sent to the training post at Fort Monroe, Va., for further instruction. Those enlisting now will be eligible for examination for these appointments. At this school they will be taught wireless telegraphy and civil, marine and electrical engineering. Jess McLemore of this community is practically sure of receiving an appointment to Fort Monroe, where the finishing touches of a high-class soldier will be applied.

At Fort Crockett there is a battery of anti-aircraft guns mounted on tripods for the purpose of training the men to fight aerial enemies. They will also have the advantage of training with a fleet of five 60-inch searchlights mounted on Cadillac chassis. These mammoth searchlights have a brilliancy equal to 1,000,000 candle power. In fact, everything required in shore fighting will be taught the recruits.

Fort Crockett has the distinction of being the most up-to-date and best-equipped military station in the South. It is located directly on the seawall, where the healthful ocean breezes always blow, has new concrete buildings, with gymnasium, men's club and theater.

Lieutenant Guild may be found at the armory of Co. C, where he will be glad to give any further details of the service that may be desired.

BASEBALL IN EAST TEXAS

Play ball! Not right now, but a little later on—when long hot days come and the public is in need of this form of amusement. Last year Timpon had one of the fastest baseball clubs in East Texas, and the club had the loyal support of a large majority of the citizenship of the city. The games afforded much pleasure and were the means of keeping our city among the other progressive towns of East Texas.

There has been some talk of reorganizing the club and with an early start develop the strongest team in East Texas. To this end he believes they would receive the help and encouragement of almost the entire town. We have one of the best baseball parks in East Texas with an abundance of seating capacity in the grand stand.

An East Texas league comprising Timpon, Lufkin, Nacogdoches, Center, Henderson, Carthage, San Augustine, Jasper and other towns would be a fine plan. A regular schedule of games could be arranged and with the proper planning the financial side of the business would take care of itself.

Timpon has some good ball players; indeed, some would make good in the league. So let's play ball this year!—Timpon Times.

JUDGE PONDERS QUESTION

Austin, Texas, March 15.—Judge James R. Hamilton took under advisement indefinitely the matter of a motion made by the grand jury here citing for contempt of court of J. D. Copeland, police commissioner, and F. C. Reynolds, clerk of a fraternal order, alleging that the two men refused to answer questions concerning membership of themselves and others in the Ku Klux Klan when they were called before the grand jury in connection with the investigation of the killing of Peeler Clayton here last December.

As the days go by the feeling increases that the Hoover millennium has been mislaid.

BAYLOR CHORAL CLUB PRESENTS GREAT PROGRAM

Not since pre-war days have the music lovers as well as the general public of our city experienced such a rare privilege and pleasure as in listening to the delightful musical program rendered by the members of the choral club of Baylor College at the high school auditorium Saturday night. This attractive levy of college girls came to Nacogdoches under the auspices of the symphony club, and all who were in the audience realize our indebtedness to this organization for such talent being heard in the city.

Each member of the choral club seemed to impart a share of her own personality in her interpretation of songs being sung, readings and violin solos, as well as the instrumental numbers.

Special mention should be made of the full choral numbers, which showed well-trained voices and interpretive ability. Miss Zelma Brown gave List's "Rhapsody" and other classical solos that charmed the audience. The violin numbers rendered by Miss McCull displayed unusual ability and talent. Miss Moore displayed unusual stage poise and interpretation in her readings, which were well-chosen and beautifully rendered. Last, but not least, was the rare ability as director shown by Mrs. Pierce, who herself is a gifted artist, and who complimented the audience by singing three songs, showing to advantage her lovely and well-trained voice.

The final number of the program was the "Kiss Waltz" from Faust, and the full choral interpretive ability was displayed here.

The symphony club entertainment committee displayed thoughtfulness and artistic judgment in using the Baylor colors in the lovely stage decorations.

One of the Audience.

REWARD FOR FIRST BIG WELL

We, the undersigned, each for himself and not for the other, herein and hereby promise to pay upon demand, at Nacogdoches, Texas, the amount set opposite each name, respectively, to the first party, firm, association or corporation who shall first succeed in bringing in an oil well in Nacogdoches county, during the year 1922, producing as much as five hundred barrels of oil per each 24 hours, or a total of 5,000 barrels of oil within 10 days.

It is agreed that George Meisenheimer, J. H. Buchanan, Frank Sharp, Luther Swift and Sam B. Hayter, or a majority of them, shall determine the amount of production of said oil well, and who, or a majority of said committee, shall make a written report to the president of the Chamber of Commerce of the City of Nacogdoches, and which written report, made by said committee named above, or a majority of said committee, shall be final and binding as to all parties as to the amount of production, and to whom, if anyone, the money shall be paid.

The above agreement, which is being circulated by Secretary H. L. McKnight of the chamber of commerce, has already been signed by nine contributors to the fund named above, the total subscribed by them being \$9,000, or \$1,000 each. Secretary McKnight is confident that a fund of \$15,000 or \$20,000 will be subscribed for the purpose of encouraging big oil production in the Nacogdoches field, and it is reasonable to suppose the handsome bonus will cause a thorough investigation of the oil possibilities of this section.

We shall take pleasure in publishing the name of the winner of the prize.

PROMINENT SHRINER DEAD

Tacoma, Wash., March 15.—Ellis Lewis Garretson, in 1920 imperial potentate of the Order of the Mystic Shrine of North America, died at his home here yesterday.

FATAL ARKANSAS STORM

Pine Bluff, Ark., March 15.—At least six negroes and four whites were killed in a tornado which passed through the northern portion of this (Jefferson) county yesterday.

In the latest Mexican revolution nothing was overthrown but a hat-rack.

WEEKLY SENTINEL

PRICE \$1.50 PER YEAR.

BY GILES M. HALTOM

DO YOU USE YOUR FACTS?

Educationally we seem to be in the midst of an era of testing and examining of some kind. Not only teachers and school authorities but anyone who feels so inclined may set some test or other for anyone who is willing to try his skill at answering.

There are poetry tests and history tests and general information tests; there are tests of all shades and descriptions, and tests of all degrees of difficulty. It would be folly to deny that much good can be gained from such testing. It is interesting to know which boy in school possesses more current history facts; which girl can tell the source of most quotations in poetry, and what young pupil knows the greatest number of capitals of the countries of the world.

This information about the pupils can readily be obtained; you have but to set a test and the thing is done. And in so far as such test may stimulate hundreds of other boys and girls to further efforts to acquire such information, these tests take on an additional value. The spirit of rivalry and competition which they foster is on the whole a good thing.

In giving such tests to adults, as Mr. Edison did some time ago, and as others have done before and after him, it is well to remember that such mere acquiring of facts is by no means the whole of education. The fact that it is often mistaken for education renders it necessary that we should insist strongly on it that the mere acquiring of facts may have in itself but little to do with education. What gives such information value is the use to which the holder of it may put it when there is occasion to use it. It is what you do with a fact that makes it important and worth while. Otherwise, our minds remain lumber-rooms.

It is this practice of using facts which distinguishes the educated man from him who is a mere collector of facts. A half dozen facts properly used may give the individual a new view-point on life; it may open vistas never before open to him; it may stimulate thought of a depth and scope which could never be obtained through the haphazard collection of hundreds of facts.

Facts, definite and irrefragable facts, are foundation of learning; they are the only foundation. The superstructure is thinking. That's what facts should be used for.

BY HARD WORK ALONE

It is just as the poet said "Hope springs eternal in the human breast." The hope in some way to make a fortune overnight some people will not relinquish no matter how many perils in their efforts to realize it. Year by year the list grows of those who have taken malicious advantage of this universal human hope, and year by year grows the list of those who in this way have been cheated out of their hard-earned savings.

By a myth as current in the old world as are the folk tales, America is made out to be the land of overnight fortunes. At his mother's knee the child has heard of the wonderful opportunities here in America and as a youth these tales fire his imagination. You have but to invest a few pennies, it is said, and untold dollars will come back to you. Where one's lot in life is as difficult as it is in some parts of Europe, such delusions find fertile soil.

And ever the pathetic story is the same. There is opportunity in America; more opportunity for the average man than there is anywhere else in the world. Aladdin and his wonderful lamp would produce no more abundant riches than we have produced in America. The treasures and storehouses of olden days were puny compared to those we have laid up and created. There is some truth in these stories of America's opportunities.

But our wealth is not acquired by any such mythical ways as those may believe who have no knowledge of the conditions under which these fortunes were made. They are not overnight fortunes; they did not come into being because someone invested a few dollars in a wild venture. The unfortunate victim who falls a prey to such delusion inevitably falls into the hands of pitiless sharpers and swindlers.

Our wealth is the result of work by hand and hand. It is wrested from the soil, dug up from the earth, or made out of raw materials in precisely the same way in which it is created elsewhere. It is often the result of long hours and hard work. The only difference between America and other countries is that here in greater numbers than elsewhere the average individual may find opportunity to

engage in an equal contest with those who are likewise engaged.

He has unlimited access to opportunities here which do not exist in other countries. If he will seize upon them and make the most of them, he may realize his ambitions. But as for the Ponzi and other light-fingered gentry, the more he avoids them the better.

TOO EARLY MARRIAGES

Sixteen hundred boys and 12,884 girls 15 years of age were listed as married in the last United States census. Eighty-two boys and 499 girls of the same age were recorded as widowed or divorced. While these figures are not great in comparison with the total population they are sufficiently impressive.

In earlier times marriages were contracted at ages much younger than the average now. It was not uncommon a hundred years ago for girls of 17 or 18 to marry but certainly the man in such cases was older. However, in those times a woman was old at 30. Then she put on a cap and expected to be given the deference due one who has seen a long life. At the same time not the most hopeful results could be expected from marriages in this day of those who have scarcely reached the age of discretion. The normal boy or girl is not through high school at 15 years. It is quite clear then that those who enter wedlock at that age prefer marriage to education. Perhaps they think they do not need it when married and those who will take such a step in early life probably would not be benefited by further schooling.

The percentage of married persons up to 44 years also shows an increase over the previous census. Despite the gain in divorces there is no fear of marriage, or at least not enough to produce a decreased proportion. Marriage is the normal state of normal people, but mating at 15 years is scarcely the normal action of normal youths. It is an illustration of a tendency that is not healthful.

A MARKED DIFFERENCE

The French foreign office issues figures showing that while in France the per capita of taxes last year was \$45.62 in Germany but \$13.88 was levied. It requires no argument to prove that if France, devastated, can pay such a tax, Germany, untouched by an invading army, can pay several times as much as is denoted by the figures given. The charge that Germany has sought to evade payment of reparations on the plea that she did not have the money is given force by this comparison.

Of course the Berlin government will have no money if it does not collect it from the people. That is the only source of revenue that is worthy the name. The German government has been industrious in printing paper marks but they are but "ersatz" currency and have augmented its troubles. Between the failure to levy taxes and worthless currency Germany is in a bad way, but the situation is chargeable directly to herself and constitutes no excuse for failure to meet obligations.

Germany can stand a much higher tax than France and the policy which she has pursued should not be permitted to continue. Despite protests of inability to pay, in the face of avowals of the Germans that they are destitute, it happens that Germany is able to produce some gold when finally convinced that further talk is futile. A mandate to levy taxes to an extent commensurate with annual obligations, if properly backed up, would have a beneficial effect. The Germans can do much if driven to it, but are singularly helpless if permitted to go their own way. Undoubtedly there has been too much temporizing and Germany has made the most of it.

Justice will not be satisfied until Germany pays in good coin or its equivalent. If the process holds the nation in subjection for a generation it will be but what it invited. France has right on her side in insisting that Germany should be held strictly to payment and she should be supported in her position. A nation that continually whines over the losses caused by its own deeds is not entitled to sympathy.

This movement demanding the return of George Harvey should be stopped. George, next to Charlie Chaplin and the senate, is the main reliance for the daily snicker.

London papers say Colonel Harvey talked too long. Many on this side did not know how long Colonel Harvey talked, but they are in complete accord with the London papers.

Babe Ruth's honorarium for this season will be \$50,000, it is said. And it isn't a bad deal for the Yankees' owners if he knocks out his usual quota of home runs.

IN INTEREST OF OUR SCHOOLS

The old story of calling him the "colt" after the horse had reached the mature age of ten years is familiar to us all. This was the result of habit of the farmer's family who raised the "colt." So it is with many of the citizens of Nacogdoches in speaking of the high school as "the college." This possibly is a habit or legacy of the so-called college moved from Keachi in which the writer was offered the chair in science in the fall of 1890. This use of the word "college" amuses strangers, doubtless, and does not speak well for our status educationally.

Now that we have a nearer approach to the correct use of this word in that of the Stephen F. Austin normal (though not a college), we will be in order to give up this habit and settle down to public school work in the sense of producing materials for college.

In this connection, I am taking the liberty of offering a thought or two which is done in the spirit of a citizen who has never ceased to be in full accord with educational progress ever since he laid aside the ferrula more than a dozen years ago.

Not long since, we built a nice brick building, at that time thought to be ample for the scholastic population for many years to come, but already we are beginning to figure the cost and plan for additional building or buildings to be erected on the present high school campus, possibly to contribute to the already poorly arranged buildings on this site, forgetful of the fact that Nacogdoches is growing, that her population is spreading out to a greater distance from this compact center; and overlooking the distance and the consequent cost of getting the children to and from school. We are now paying \$100 a month to haul pupils from North End building with two of its three rooms vacant. This \$100 monthly expenditure of school funds would employ another teacher capable of caring for more than the number so transported daily and possibly leave a balance to apply on the services of an additional teacher for the extra room, if it is needed, and doubtless would and could be even if the pupil-stream were encouraged to flow from the central school.

As to West End School building, only three rooms are used for classrooms. Why not make two more recitation rooms by means of folding doors or movable partitions and thus make it possible to relieve the congestion or crowded conditions reported at the central school?

Possibly there are rooms in which lumber and other plunder is stored in one or more of the central buildings that could be cleared for classrooms. This is suggested in interest of economy at this time and with a view of future needs.

We can afford to wait until the normal school is opened. This institution, in all probability, will draw a number of children from our public schools for training classes. Others in the higher grades will from choice enroll in the normal. In brief, it might develop that we would not need other buildings, and especially not on the present campus. We must from a sense of economics as well as in interest of the scholastic population abandon the idea of "college" and packing the central buildings with pupils from sheer habit.

I have not yet by any means said all that might be said on this subject. Let others speak. We may eventually need a South End, as well as an East End of two schools building or buildings, and not in the distant future, either.

J. Thos. Hall.

COMING

Lufkin is still maintaining her lead over all East Texas towns. The latest scoop is a modern, up-to-date American La France fire engine with three times the capacity of the one we have had for a long time. Our Nacogdoches friends are invited down to look it over.—Lufkin News.

Glad to know of this evidence of progressiveness on the part of our thriving sister city, and so soon as the present rush of business is over our people will probably accept the invitation to come down and look it over. In the meantime, if Lufkin should unfortunately have a real fire, a telephone message will bring the Nacogdoches Volunteer Fire Department on the run, and the conflagration will be quickly subdued. We are always neighborly.

Newspapers print only the essential things about congress, laments Representative Griffith of New York. "If I were to invite some members to go outside the city to settle a matter it would be printed on the first page in big letters." If any matter in this congress were really settled inside or out it would warrant being printed in letters a foot high.

Real Live News

THIS newspaper has its "news columns" and "advertising columns." The first tell of happenings near and far—of fires, sports, elections, accidents, marriages, deaths, great men, great events.

The Second tell of things you eat, wear and use—things you have to buy—things that are being sold to your neighbors and friends in your own town.

The news columns of this paper keep you up to-date in the world of events. This is of great importance.

But it's just as important that you know how to buy, where to buy when to buy—that you keep posted on things necessary to feed and clothe you and your family and make you comfortable and happy.

Advertising is an essential news service now.

To keep up with the news read the advertisements

Nacogdoches Iron Works

Does all kinds of Gas Engine, and Farm Machinery repair work. Located North of Electric Light Plant on Southern Pacific Tracks. PROMPT SERVICE. REASONABLE PRICES.

S. S. CLASS REPORT

The attendance at the Baptist Sunday-school was 373, the Young Men's Class, having 74 and the Young Ladies' Class 56.

The Baptist Sunday-school cordially invites you to be present with us each Sunday if you are not attending Sunday-school elsewhere. Visitors are welcome. Come and be with us next Sunday.

ATTENTION, BAPTIST WOMEN

Do you enjoy Christian fellowship? Do you enjoy inspiring talks? Do you enjoy hearing of the women's work in other churches.

Do you enjoy making plans for Christ's Kingdom work?

Then come to Jacksonville, Texas, to the Tyler-Jacksonville District meeting, April 19th and 20th. WE WANT YOU.

Mrs. John A. Reall.

A marriage license was issued Saturday to Mr. Hugh Burk and Miss Madge Christopher, who reside east of the city. Also to Mr. Ollie Dupree and Miss Emma King, of the Martinsville community.

Mrs. M. V. Wympe of Nacogdoches joined Mrs. N. E. Miller of this city today, the two ladies leaving on the noon train for Houston on a sight-seeing and pleasure trip.—Lufkin News, 10th.

WHERE ARE MY DOGS?

I wonder in what distant place Brave little Dixy's bark is heard, Where Judy frolics with happy glee, And Lady begs for bones deferred. Where is Biddy with her tricks absurd?

And plucky Foxy holds at bay A cat by naughty urchins spurred— Where are the dogs of yesterday. Princes were these, and undeterred— Gave faith and loyalty away— Surely some spot in heaven's gird. Now live the dogs of yesterday.

This beautiful bit of sentiment was given me by a dear old friend, and hardly needs a signature. The children of yesterday remember Uncle Frank Robbins and love him still. Contributor.

CITY TAKES OVER LIGHT PLANT

At a meeting of the City Council Monday the light plant was formally taken over by the city, all indebtedness held against the plant by local citizens, who patriotically furnished the money about two years ago to install the plant, was paid off.

San Augustine has one of the best light plants in this section of East Texas, furnishing a twenty-four hour current and 100 percent service, and the city is to be congratulated upon securing this handsome revenue producer.—San Augustine Tribune, 9th.

Try the Sentinel Want Ads.

"Buffalo Bill, where do you get saddles and pads for your Rough Riders?"

From Waco, Texas, made by Tom Padgett Co.—Over fifty years in business—they don't hurt your horse.

(Padgett's ads have been carried in the Sentinel papers for over thirty years.)

Why Suffer?

Cardui "Did Wonders for Me," Declares This Lady.

"I suffered for a long time with womanly weakness," says Mrs. J. R. Simpson, of 57 Spruce St., Asheville, N. C. "I finally got to the place where it was an effort for me to go. I would have bearing-down pains in my side and back—especially severe across my back, and down in my side. There was a great deal of soreness. I was nervous and easily upset."

TAKE

CARDUI

The Woman's Tonic

"I heard of Cardui and decided to use it," continues Mrs. Simpson. "I saw shortly it was benefiting me, so I kept it up and it did wonders for me. And since then I have been glad to praise Cardui. It is the best woman's tonic made. Weak women need a tonic. Thousands and thousands, like Mrs. Simpson, have found Cardui of benefit to them. Try Cardui for your trouble."

ALL DRUGGISTS

WILL INSTALL WIRELESS

Hutchinson, Kan., March 13.—Following Hutchinson's recent isolation from the outside world, members of the board of trade met Saturday and pooled \$2,500 for the purpose of purchasing and installing a high-powered radio station. During the recent storm one of the amateur stations demonstrated its capacity by picking up news items from the station at Dallas, Texas.

JUDGE HAS RETURNED

Oklmulgee, Okla., March 13.—Judge H. R. Christopher of the Oklahoma County Superior Court is here today to resume his seat on the bench, having returned here yesterday from Chicago, where he went from Coyle, Oklahoma, a month ago today.

"FATTY" AGAIN ON TRIAL

San Francisco, Cal., March 13.—Roscoe Arbuckle this morning faced his third trial for the alleged killing of Virginia Rappé, the motion picture actress. He arrived yesterday from Los Angeles and spent most of the day in conference with his counsel.

Sheriff Woodlan went to Shreveport Saturday night and returned with Gus Morris, for whom he has been searching nearly a year on a charge of making liquor. Gus is in jail.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid of Salicylicacid.

AGRICULTURAL CONDITIONS IN TEXAS

Dallas, Texas, March 13.—The agricultural outlook has been greatly improved by good rains and snows covering the state during the last week in February and the first week in March. Good rains and heavy snows in West and Southwest Texas have broken a prolonged drouth, and have been a benefit to farmers, although causing some loss and suffering to cattle, sheep and goats. The rains have put a good season in the ground and have enabled farmers to break the land where plowing had been delayed on account of dry weather, and to plant corn and spring oats, and some cotton in South Texas.

The fruit and truck crops have sustained practically no damage from the recent freeze.

Corn

It appears probable that the acreage planted in corn this year will be slightly greater than the 1921 acreage of 6,277,000 acres. An increased acreage in grain sorghums and other forage crops is reported, chiefly in West Texas counties.

Wheat and Oats

Sixty counties show a reduction in the wheat acreage of about 17 percent. In 1921 the state had 2,081,000 acres in wheat; a decrease of 363,500 acres is estimated. Much of the wheat failed to come up on account of drouth, and a considerable portion of this acreage will be planted in other crops, especially cotton. The oats acreage, amounting to 1,865,000 acres last year, will be decreased 3 to 5 percent, according to reports from sixty counties. Like wheat, much of the crop failed to grow and the land will be replanted in other crops; a considerable acreage in spring oats is probable.

Cotton

Ninety-four counties indicate an approximate increase of 5 percent in the acreage. If a proportionate increase is made in counties that have not submitted reports, the increase will approach 10 percent. Eighteen counties place the acreage at about the same as that of last year. Nineteen counties estimate a decrease of 205,000 acres, with fifty-eight counties report an estimated increase of 676,000 acres. It is altogether possible that the increase in the 200 cotton growing counties will total 1,000,000 acres.

A mild winter has been favorable to the survival of the boll weevil, and early reports already indicate that serious damage to the cotton crop may be expected from this source. Early planting of the best selected and tested seed, in well-prepared soil, and continued careful cultivation through the growing season, with the use of calcium arsenate, in proper quantities, are recommended as a means of checking the damage that may be expected.

IRA MARTIN KILLED AT RUSK

Ira Martin, a young man, was shot and instantly killed in Mosely's drug store at Rusk, last Wednesday morning. Mr. Will Haney, a prominent farmer of this section, doing the shooting.

Eye witnesses state that Martin was standing at the fountain drinking when Mr. Haney walked in and pulled a pistol from his pocket and fired two shots, one entering the body just below the heart and the other just above the hip. Martin lived only a few moments after the shooting.

From reports current on the street, Martin is a son-in-law of Mr. Haney and had taken his wife to Oklahoma and deserted her there with a small baby and Mrs. Martin returned home a few days ago to her parents but did not tell of the desertion until Tuesday. It is also reported that Martin had a gun on him when killed.—Alto Herald.

Nacogdoches escaped a disastrous fire Wednesday night by the timely discovery by Night Watchman Biggs of a blaze in the Queen Theater about 2:15. Quick work saved the building and probably the entire block. The fire started at the front of the room, near the ticket-taker's stand, and a space about 14 inches square was burned in the floor. Mr. Biggs rushed to the fire station and turned in an alarm and the fire boys were soon on the job, with the usual happy result. Beyond the burning of the small hole in the floor no damage was done. The usual volley of pistol shots was sent out as an alarm, and some careless person sent a bullet through a plateglass window at Stripling, Haselwood & Company's drug store, boring a hole through the pane and shattering the inner glass. If you feel it necessary to shoot off your pistol whenever a fire starts, it would be the part of safety to direct the shot upward; otherwise there is danger of injuring some person or property.

If Washington had red hair, as is claimed by a Harvard Professor, that may account for his fighting spirit.

Quality

PENN'S

spells quality.

Why?

Because—

Penn's is packed airtight in the patented new container—the quality is sealed in.

So Penn's is always fresh—an entirely new idea for chewing tobacco.

Have you ever really chewed fresh tobacco?

Buy Penn's the next time. Try it. Notice the fine condition—fresh—Penn's.

PENN'S CHEWING TOBACCO

The American Mastic

METHODIST NEWS

The services held at the Methodist church last Sunday, were very inspiring and helpful, and those who had availed themselves of the privilege of attending, were very fortunate indeed; for the entire program of the day was made up of songs, addresses, and a sermon that were calculated to deepen the religious fervor of the Christian and appeal to the sinner to seek the day of Life Everlasting.

The solo rendered by Miss Miller of Baylor University, was sung with deep feeling and was greatly enjoyed by the audience.

Our new superintendent, Mr. E. E. Price, took charge of the Sunday-school and his message was an appeal to the whole church for their co-operation and help in his work. The sermon by the pastor, with his text from Rev. 3:8, and his theme, "Christ, the Open Door," was a message needed in this hour, as an inspiration for a Christian life, and in the interest of saving souls, and in winning workers for the Master.

Miss Mayne, District League Secretary, from Lufkin, and Miss Snow, president of the Lufkin Epworth League were with us for all services of the day, and the messages they gave inspired us to attempt greater things in our Leagues, in our Church, and Sunday-school.

The League topic was "Habits," and members of the Intermediate League gave numbers of good habits that every Leaguer should cultivate. Delegates from both Leagues were elected to go to the Institute which meets in Lufkin on March 17th and 18th, and they are looking forward to a most profitable and enjoyable meeting at that time.

Reporter.

CALL FOR BANK STATEMENTS

Washington, March 13.—The comptroller of the currency today issued a call for a statement of the condition of all national banks at the close of business March 10th.

Announcement that Jeffries, former champion prize fighter, is to become an evangelist may be viewed as an uplift or a downpull—depending on what is thought of evangelists.

How's Your Appetite? Headache? Weak?

Good Looks Follow Good Health

Saratoga, Texas.—"A year ago I tried several different medicines, but kept getting worse, and felt that I never would have good health again. I became so poor and weak I could hardly do my housework. I suffered from loss of appetite, headache, constipation, shortness of breath, also functional disturbances. Sometimes I would have spells of indigestion and weak sick spells and thought I would die. I never expected to be well any more. At last I wrote to Dr. Pierce and he advised me to take Dr. Pierce's Favorite Prescription, Golden Medical Discovery and Pleasant Pellets (sold by druggists) and now I can truthfully say I am in better health than I have been for several years. I advise all women suffering as I did to take Dr. Pierce's medicines. If there are any medicines on earth that will help women who are broken-down in health, these will."—Mrs. Winnie Comer.

Write Dr. Pierce, president Invalids' Hotel, Buffalo, N. Y., for free advice.

MIRRORS FROM PLATE GLASS

Process is a Somewhat Complicated One and Calls for a High Degree of Skill.

Mirrors are made from plate glass. The proper ingredients are mixed together and melted in large pots. The molten mass is then poured out on great iron tables and a heavy roller flattens out the glass to the desired thickness. The sheets are then annealed, which consists of heating them slowly in various chambers kept at different temperatures. This is for the purpose of relieving unnatural strain in the formed glass, which makes it extremely brittle, so that a mere touch is sometimes sufficient to cause the plate to break. After the glass has been cut to the proper size the sheets are polished by rubbing over the surface pads or small disks until the finished product is about half the thickness of the original. The glass is then ready to be used for show windows, or can be made into mirrors.

The back of the sheet of plate glass is "silvered." In the early processes this did not mean what the word indicates, for no silver was used, but a mixture of tin and mercury. The high cost of mercury and the danger of mercurial poisoning brought about its replacement by silver, which is used in the form of lunar caustic. While silver is an expensive metal, the amount required to coat even a large mirror is so small that the cost is of no moment.

UNIVERSAL FOOD IN TROPICS

Many Varieties of the Bread Fruit Tree Are Scattered Throughout Southern Lands.

It is of interest to note the flour and biscuit of the tropics. There are a dozen different bread fruit trees scattered throughout tropical regions. One of the flours, made from the bread fruit tree of tropical America known as the yuca, is a regular article of commerce in the New York market. It is only sold in cartons at elite groceries, is quite a pure article, of a dingy, grayish-white color, and a slightly alkaline and hardly agreeable taste. In cooking that alkalinity and acidity are mostly driven out. In its fresh form it is in shape elongated like a giant plantain, and for drying and conversion into flour is cut down before ripening so that it has, like a green banana, not a semblance of sweetness. But the same fruit, allowed to ripen fully, then sun dried, becomes almost as sweet as a Smyrna fig. This tree-grown cake bread is eaten dried thus, and along with the tree-growing flour forms the chief food for millions in the tropics.—New York Herald.

A Covert Thrust.

The following double-meaning poem is attributed to Dean Swift. Read the lines first as they are printed; then read them as they are numbered.

- 1—The pomp of courts and pride of kings
- 3—I prize above all earthly things
- 5—I love my country, but my king
- 7—Above all men his praise I'll sing
- 9—The royal banners are displayed
- 11—And may success the standard aid
- 2—I fain would banish far from hence
- 4—The Rights of Man and Common Sense
- 6—Destruction to that odious name
- 8—The plague of Princes, Thomas Paine
- 10—Defeat and ruin seize the cause
- 12—Of France, her liberty, and her laws.

Odd-Mannered Flower.

Perhaps the witch-hazel thinks its simple little yellow blossoms would not compare favorably with the gorgeousness of fall chrysanthemums—perhaps it wants to be original—at all events, not until "mum" and other varieties of autumn flowers are gone, and even the leaves of the witch-hazel itself have fallen, do the witch-hazel flowers appear.

Very late in October, or more likely in November, you will find the cheerful little yellow blossoms growing right beside the last year's seed pods. These little urn-shaped seed pods split when first comes, and the four seeds contained in each pod hop out onto the ground, where they will take root and grow in the spring.—Christian Science Monitor.

Mistletoe Brains.

One of the most curious illustrations of the working of intelligence in plants is offered by the mistletoe, whose sticky berry, finding lodgment on a tree branch, throws out a tiny rootlet, which tries to pierce the bark and thus obtain a foothold. If the bark is too tough, the rootlet swings the berry over to a fresh spot, and makes another trial. In this way such a berry has been known to make five jumps in two nights and three days. On one occasion a number of them were discovered by a botanist in the act of vainly journeying along a telegraph wire, trying to find a place to grow.—Milwaukee Sentinel.

Educated.

"Your friend seems rather uncouth. I don't like to leave him alone in the parlor."

"Why not?"

"He may spit on the axminster rug."

"No danger. He never spits on the floor unless there's sawdust."—Louisville Courier-Journal.

GOES BACK TO OLD EGYPT

Legend of Cinderella, Almost Universal, Believed to Have Come From Ancient Memphis.

Cinderella and the legend surrounding her glass slipper is believed to have originally come from ancient Memphis. In the ruins of this buried city lies the pyramid of Rhodopis, who lived at Naucratis, and was incomparably beautiful and chaste. One day when Rhodopis was bathing an eagle flew through the open ceiling of her bathroom and plucked from her maid's hands the sandal which she was just about to lace about her mistress' foot.

The eagle then flew to Memphis, where the king was administering justice in one of the courts of the palace, and, hovering above the king, dropped the sandal, which fell into the folds of the king's garment. He examined the sandal and found it so small and lovely that he bade his servants search all Egypt till they should find the woman whom it would fit.

Rhodopis was found in Naucratis and carried to the king, who married her. She died after a few months' happiness, and the disconsolate king had one of the costliest pyramids of antiquity built in her memory. In the first century B. C. the priests of Memphis were wont to exhibit a sandal in a crystal shrine which, they declared, once belonged to Rhodopis, miraculously preserved through many centuries. The sarcophagus and the mummy of Rhodopis have entirely vanished and her pyramid is little more than a ruin, but her legend lives in every land.

FAMOUS "LION OF LUCERNE"

Thorvaldsen's Masterpiece Commemorates the Heroism of the Swiss Guards in Paris in 1792.

The well-known monument called the "Lion of Lucerne," erected near Lucerne, in 1821, commemorates the tragic fate of the Swiss guards in the French Revolution when in their devotion to duty they were sacrificed to the bullets of the Marcellins and the pikes of the mob, August 10, 1792.

This infantry regiment, the "Gardas Suisses," had been originally a Swiss mercenary regiment in the Wars of Religion; but for their own good conduct at the combat of Arques they were incorporated in the permanent establishment of the Maison du Roi, by Henry IV, (Henry of Navarre), in 1580, and in the guards in 1615. The French guards sided openly with the constitutional movement at the Revolution, and were disbanded, but the Swiss guards remained faithful to their trust.

This monument was the work of Bertel Thorvaldsen (1770-1844), a Danish sculptor, noted for his statues of Christ and the apostles, and for his efforts at classical sculpture. He was the son of an Icelandic who had settled in Denmark, and was born at Copenhagen. There he lies buried under a bed of roses in the courtyard of the museum he endowed.

But is it Worth it?

This is a remedy of an English woman for taking off superfluous ounces from the face that has become too fat through overeating and lack of exercise.

To begin with, of course, she recommends mild dieting and plenty of walking and lots of water to drink every day. This is to cut down superfluous fat all over the body.

One good exercise is this: Open the mouth and work the jaw vigorously, first to the right, then to the left, then backward, then forward. Do this persistently.

Then draw the cheeks in between the teeth and puff them out hard and full. Then, with the teeth shut tight, stroke the cheeks with the palms of the hands gently upward from the chin tip to forehead. Don't do any of the stroking exercises too rapidly or vigorously, but do them for a long time, persistently, slowly. You will get the best results in this way.

American Time Signals Best.

The English freely admit that the system of telegraphic time signals adopted by the naval observatory at Washington is much to be preferred to that in use at Greenwich for supplying Great Britain with standard time.

At Greenwich a signal is sent out at noon, whereas at Washington a series of signals is used, beginning five minutes before noon. During these five minutes every tick of the observatory clock is electrically transmitted, except the twenty-ninth second of each minute, the last five seconds of the first four minutes, and at last ten seconds of the fifth minute. After this final ten seconds break, the noon signal is given. In this manner the middle of each minute is clearly indicated, and yet more clearly the instant of noon. The length of the series facilitates the regulation of clocks and chronometers.

Fifty Men and One Elephant.

Interesting tests were once made to determine the respective pulling power of horses, men and elephants. Two horses, weighing 1,600 pounds each, together pulled 3,750 pounds, or 550 pounds more than their combined weight. One elephant, weighing 12,000 pounds, pulled 3,750 pounds, or 3,250 pounds less than his weight. Fifty men, aggregating about 7,500 pounds in weight, pulled 3,750 pounds, or just as much as the single elephant. But, like the horses, they pulled more than their own weight. One hundred men pulled 12,000 pounds.

Why They Wear Out

Every battery has two kinds of wear—the natural slow wear due to use, and the more rapid wear that comes from abuse.

Keep the proper amount of water in your battery by putting in a little every two weeks. Test with the hydrometer to make sure there's enough charge. Come in to Battery Headquarters at the first faint sign of trouble.

Then your battery will wear out slowly and gradually, giving you uninterrupted service at lowest cost per month and per mile.

CHORAL CLUB MEMBERS AT BAPTIST SUNDAY-SCHOOL

At the Baptist church Sunday morning at the close of the Sunday-school hour the Baylor College Choral Club of Belton gave a few numbers that were very enjoyable.

After prayer and Scripture reading by the Rev. Mr. Dollahite, for a brief moment Miss Pipkin spoke on Baylor College, Miss Zelma Brown, pianist, gave one number. The Choral Club gave several numbers that were charming, one of especial mention being "Eye Hath Not Seen, Ear Hath Not Heard."

The gifted young violinist, Miss Lois McCall, played one difficult number.

Owing to the lateness of the hour, the solo to have been given by Mrs. Fieck was omitted.

Standing room was at a premium, the church being filled to overflowing.

HARGIS FOR COLLECTOR

T. A. (Thad) Hargis of Martinsville offers today as a candidate for tax collector of Nacogdoche county.

Mr. Hargis was born and reared in this county and has resided here all his life. He has taught school for ten years, six of these being in the same community where he was reared. He has always done what he could for the upbuilding of the educational and other interests of the county. He is a young man of fine ability and is well qualified for discharging satisfactorily the duties of the office to which he aspires.

Mr. Hargis asks the voters to investigate his record as a man and a citizen, and if they find it satisfactory he solicits their support.

COMMISSIONER, PRECINCT No. 1

Mr. M. S. (Matt) Muckleroy today announces his candidacy for commissioner of Precinct No. 1. He has served heretofore as commissioner, and has devoted much time to road building, being entirely familiar with that important work in all its phases. He is too well known to our people to require commendation from anyone, and comes before the people upon his own merits. He would appreciate your vote and influence.

THANKS HIS NEIGHBORS

We wish to extend our sincere thanks to those of our neighbors who exerted themselves in an effort to save our dwelling and contents from destruction by fire recently in the Dorr community. Though the house and all of its furnishings were practically a total loss, it was not because of lack of hard work on the part of those who so manfully came to the rescue. We will not forget their kindness.

J. W. Summers and Family.

Mayor Middlebrook of Nacogdoches was a prominent visitor in the city yesterday, taking the measure of our new fire fighting apparatus during its demonstration of throwing three streams of water over the majestic standpipe. Mr. Middlebrook has been a frequent visitor to the city, and was the recipient of a hearty welcome at the hands of our city officials and his many friends as well.—Lufkin News, 8th.

The trouble is that the example Bluebird gave of what can happen to a man over women will be so generally disregarded.

A BUNCOMBE BONUS

With a little hurrah as possible Chairman Fordney of the ways and means committee has presented a so-called bonus bill to the house of representatives.

—And there is hereby authorized to be appropriated out of any moneys in the treasury not otherwise appropriated amounts sufficient to defray such expenditures.

The bill is a fraud upon the face of it. If passed by congress it will probably be vetoed by the executive, who has said he wants the whole plan delayed unless a tax on sales is levied.

Thus the whole bonus plan approaches an inglorious conclusion. If there were any real courage or intellectual honesty in congress as a body the soldiers' demands would have been settled fairly and fearlessly long ago.

CONGRESS MARKING TIME

Cordull Hull, chairman of the democratic national committee, has called attention to one thing which republicans themselves should use in their efforts to get the majority of this congress down to business.

Instead of holding back the republican congress, President Wilson did his utmost to get it to work. He pleaded with it to start to work at once to revise taxes and to aid in lowering the cost of living.

Vesuvius is again in eruption and congress yet.

How quiet it seems in the world without a conference on anywhere.

We have yet to hear that London's poor got some crumbs of the cake or something.

Bank robbers and stick up men seem to be the only inhabitants who find money plentiful and easy to get.

At income tax time the people act collectively—and Uncle Sam does the collecting.

For a climate that never was represented to be that way at all, California has had considerable of it.

It may be true that he never told a lie, but George didn't have to make out an income tax blank.—Atlanta Journal.

If Harding is an elephant to Harvey, it would be interesting to know what kind of an animal Harvey is to Harding.

After a year of the Harding administration the average man is just beginning to understand what was meant by "normalcy."

There are three candidates for senator in Michigan already, which, if each spends the customary amount, explains why business is reported improving there.

So many locks of Washington's hair have turned up that he might have been thought careless in giving it away, had he not worn a wig. Perhaps that is the reason he wore the wig.

ERROR COMMITTED BY MANY

Grave Mistake to Leave Business Position in a General Cloud of Unpleasant Feeling.

The man or woman of small ambition and smaller achievement feels that it is his privilege and pleasure always to leave a position he is "quitting" in a cloud of unpleasant feeling.

The man or woman with ambition knows that the world of business is a small place. Merely from a selfish point of view it is essential to maintain pleasant relations even with those who, you feel, have treated you unjustly.

THOUGHT NOT REALLY RAPID

Mind Moves Comparatively Slowly, Notwithstanding Expression That Has Become Common.

"As quick as thought" is an expression much used to denote the speed of action, but, like so many popular expressions, this one is misleading.

Two Kinds of Thinkers.

There are two kinds of people in the world—word people and fact people. The former deal in words and phrases and form their judgments on opinions and beliefs.

To Utilize Waste Time.

A system in vogue in a few New York department stores to utilize the spare time of their employees when customers are few is to hold meetings of a semi-social character, in which part or the whole of their forces participate.

How Man Spoils the Air.

"Windows open more would keep doctors from the door." A very large quantity of fresh air is spoiled and rendered foul by the act of breathing.

NOT REALLY WOMAN'S FAULT

Time-Honored Joke That She is Always Late for an Appointment is Explained.

"The Woman's Side of the Story" this should be called. From time in the beginning the haughty male has laughed against the once so much meeker half, and above all for her habit of being late.

But these were slanders ever. No, she was late without exception. And she had her reasons.

"Man's natural habitat," says Genevieve, "is the street corner, the curbstone club, Woman's is the home. Man stares. Woman is stared at. Man blunders. Woman blushes. A man can stand on the curb for an hour or more without embarrassment. But a woman is conspicuous, no matter where she is and a veritable cynosure when alone.

FEW WALKERS IN AUSTRALIA

In That Respect Country is Much Like Our Own West of Some Years Ago.

There was once a gay French humorist, Max O'Reil, who arrived in Australia on a hot day and straightway declared that the chief occupation of the people was holding up lamp posts.

How Black Cats Got Bad Repute.

The origin of the superstitious aversion to black cats is believed to date back 800 years to the Sevennes mountain district of France. At that time one William, abbot of a monastery beside the river Herault, and before then a warrior in the Crusades, decided to build a bridge across the swift, mountain stream.

Fly Has Natural Trap.

A peculiar traplike appendage, called a mask, enables the young dragon fly to capture the mosquito wrigger on which it feeds.

He Was Stumped.

Back in an inland town in Illinois in the early days there was a justice of the peace who was very nearsighted.

Sweet Odors.

Sweet and aromatic odors have always been in request among mankind. Eastern nations especially have ever been noted for their intense love of perfumes.

The Lure of Office.

Senator Snortworthy says the greatest hardship of public life is the fact that it keeps him away from his home town and his old friends.

FAMOUS WRITERS OF HUMOR

Americans Who Made Their Names Celebrated Were Essentially Men of Highest Character.

"Bill Nye," our own Edgar Wilson Nye, leaped into fame while writing humorous sketches for the Laramie Boomerang, of which he was editor.

William T. Adams was the noted "Oliver Optic," who wrote more than a thousand stories.

Under the name of Artemus Ward, Charles F. Brown made a worldwide reputation as a lecturer and humorist. He was an inimitable wag; his humor was irrepressible and kept all about him in a constant state of merriment.

Henry W. Shaw was the "Josh Billings" of humor and homely philosophy.

One Who Can Describe Clearly Proper Way of Tying Knot is Master of Language.

TEST FOR WRITERS OF PROSE

One Who Can Describe Clearly Proper Way of Tying Knot is Master of Language.

Ropes more than any other subject are, I think, a test of a man's power of exposition in prose. If you can describe clearly the proper way of making this or that knot, then you are a master of the English tongue.

But if any man should seek to save his life on a dark night in a sudden gust of wind by this description he would lose it. He would drown.

A Note by Wordsworth.

Treasures are never exhausted; only, sometimes, there is a painful dearth of treasure seekers.

Not long ago a book buyer, rummaging in a second hand store at Oxford, unearthed a copy of Coleridge's Biographia Literaria, which he bought for \$4.31.

Old Friends.

The bride's mother had her doubts about the feasibility of letting Pickle, the South Carolina cook, wait on the door during the arrival of wedding guests.

Frogs in Rocks and Trees.

Attention may be invited to the astonishing longevity of the popular delusion, to which even educated persons at the present day give credence, that living frogs, toads and other animals are sometimes discovered in hermetically sealed cavities in tree trunks and rocks.

Domestic Stuff.

"Oh, goodness gracious mercy, I'm most distracted! I've looked for it everywhere and I simply can't find it! I've called Mrs. Worrylotte.

Told at the Dinner Table.

Bobby—Yesir, and that graffe's neck was—why, it was as long as daddy's neck, and—daddy's neck and— His Mother—Bobby, haven't I told you I don't know how many times, you mustn't exaggerate so!—Wayside Tales.

DAMAGE DONE BY ICE STORM

Destruction of Trees is Incomparably the Worst Part of the Wholesale Devastation.

One of the most distressing consequences of an ice storm is the irremediable damage done to trees. The telephone and telegraph poles can be replaced. Wires can be restrung.

Yet in a single night the careful solicitude, the care and nurture of the trees is destroyed.

Other ephemeral things, such as telephone service, trolley schedules and trains will resume their accustomed routine within a day or two after the skies clear.

HOW CHARCOAL IS MADE

Method of Burning is Much the Same, No Matter Where the Process is Carried On.

The usual method of making or "burning" charcoal is to build up a cone-shaped pile of wood, about twelve feet in height and ten to forty feet in diameter—leaving a central hole or chimney; then to burn it from above downward, and from the outside inward.

Cat Took Nap in Limousine.

The cat that looked at a king was only slightly more ambitious than a Hyde Park tabby that took possession of a limousine standing by the curb, remarks the Chicago Post.

Seen Larger Near Horizon.

The United States naval observatory says: "The sun and moon seem larger near the horizon because of an optical illusion. The horizon appears to be more distant than the zenith because the eye, in looking toward the horizon, rests upon many objects by the way.

What Hidden Virtue is in These Things that it is Granted them to Sew Themselves with the Wind, and to Grapple the Earth with its Unmitigable Stubbornness, and to Flourish in spite of obstacles, and never to suffer blight beneath any sun or shade, but always to mock their enemies with the same wicked luxuriance? It is truly a mystery and also a symbol.

What Hidden Virtue is in These Things that it is Granted them to Sew Themselves with the Wind, and to Grapple the Earth with its Unmitigable Stubbornness, and to Flourish in spite of obstacles, and never to suffer blight beneath any sun or shade, but always to mock their enemies with the same wicked luxuriance? It is truly a mystery and also a symbol.

What Hidden Virtue is in These Things that it is Granted them to Sew Themselves with the Wind, and to Grapple the Earth with its Unmitigable Stubbornness, and to Flourish in spite of obstacles, and never to suffer blight beneath any sun or shade, but always to mock their enemies with the same wicked luxuriance? It is truly a mystery and also a symbol.

CHRISTMAS TREES WILL LAST

Little Danger That in Years to Come the Children Will Be Deprived of Joy.

Don't join any gloom group that may be trying to form a society for the prevention of cruelty to Christmas trees, advises a writer in the Kansas City Star.

The forests are there to be had, and if, as we utilize the trees, we make it possible by replanting for our children and our children's children to have trees, there is no reason for not having Christmas trees as well as all the lumber we need.

That is the way the scientific forester, the man who grows trees like the farmer grows wheat, looks at this matter of Christmas trees.

While there is still some regrettable foolish cutting of spruce and fir for the Christmas tree market in northern states, many Christmas trees are now a by-product of the forests.

Christmas trees are also being raised in nurseries. Baby spruce and fir trees are planted by man so that the babies and children of man can have Christmas trees in their nurseries. And a Christmas tree is usually between the ages of five and ten years, just about the age of the child who enjoys Christmas most.

Other ephemeral things, such as telephone service, trolley schedules and trains will resume their accustomed routine within a day or two after the skies clear.

Only the shattered trunk of the trees untimely cut down by the ice will remain as a reminder.

It takes a generation of man to grow a fine tree.

DON'T SWALLOW THEIR YOUNG

Popular Idea Concerning Snakes is Not Born Out by the Observations of Scientists.

Snakes don't swallow their young. The ventral scales on a female snake are controlled by a muscle just behind the head. Ordinarily they are horizontal, but when the mother snake seems danger she contracts the muscle on the back of her neck, which immediately brings the scales to a vertical position.

It requires careful and skilled dissection to detect the pouch, because the skin shrinks when a snake is killed. When the poison gland is removed it tightens the skin under the neck, and the youngsters can't get into the pouch. In the female snake, between the pharynx and the gullet, there is a peculiar, lid-like valve, and anything passing this valve can't possibly return.

Cat Took Nap in Limousine.

The cat that looked at a king was only slightly more ambitious than a Hyde Park tabby that took possession of a limousine standing by the curb, remarks the Chicago Post. The cat, a bedraggled stray, was pussyfooting through the rain of one of the recent cold days, evidently in search of a comfortable place for a nap.

Seen Larger Near Horizon.

The United States naval observatory says: "The sun and moon seem larger near the horizon because of an optical illusion. The horizon appears to be more distant than the zenith because the eye, in looking toward the horizon, rests upon many objects by the way.

Old Friends.

The bride's mother had her doubts about the feasibility of letting Pickle, the South Carolina cook, wait on the door during the arrival of wedding guests. True, she made the best sweet potato pie ever, but she knew so little of formal northern customs. However, there seemed no alternative. Pickle ushered the guests quite solemnly and wordlessly in. However, near the last there came a family friend who was a frequent visitor. On opening the door and seeing of all the through the first familiar face, Pickle broke into a loud pean of welcome.

Domestic Stuff.

"Oh, goodness gracious mercy, I'm most distracted! I've looked for it everywhere and I simply can't find it! I've called Mrs. Worrylotte.

Told at the Dinner Table.

Bobby—Yesir, and that graffe's neck was—why, it was as long as daddy's neck, and—daddy's neck and— His Mother—Bobby, haven't I told you I don't know how many times, you mustn't exaggerate so!—Wayside Tales.

Frogs in Rocks and Trees.

Attention may be invited to the astonishing longevity of the popular delusion, to which even educated persons at the present day give credence, that living frogs, toads and other animals are sometimes discovered in hermetically sealed cavities in tree trunks and rocks.

WAS NOT HIS LUCKY DAY

Trolley Car Patron Got into Trouble When He Attempted to Get Away With Umbrella.

Young Bob McIntosh had always prided himself on his honesty and uprightness, but it was a rainy night when he saw an umbrella apparently deserted on a seat in the trolley car. He picked it up and examined it. It could not be very valuable, it was hardly worth while turning it in to the motorman of the one-man car and—

—the walk from the trolley to the home of young Bob McIntosh was a good four blocks in the pouring rain.

"As the car neared the street, says the New York Sun, the honest young man looked around, and seeing that none of his fellow passengers was noticing him he picked up the umbrella and walked up to the motorman's platform. There with the glances of one with a guilty conscience he conversed with the pilot until the car drew up at his street.

"Well, good night!" said young Bob McIntosh as he lightly stepped from the car and raised his umbrella.

"Good night!" quoth the motorman, but as Bob made his way across puddles to the curb he noticed that the car had not continued on its way; indeed, even the door had not yet been closed. He had started down the street to his home when a mighty "Hey!" made him turn.

"How far are you going to go with that umbrella, young man?" shouted the motorman. "This time it happened to be mine," said that worthy, as he slammed the door shut and shot the car forward.

ADAM AND EVE GO SHOPPING

Writer Has Drawn Liberally on His Imagination in Describing Remarkable Excursion.

Let us imagine our escapee ancestors attempting an eleven-o'clock stroll through Drang's ten-story department store. Can we not hear the tense ejaculations of our first mother before the mountains of unknown things, woods, satins, silks, chaises, organizes and muslins, piled ceiling high before her? Even Adam, who has a reputation as a namer of things, might well drop all his Miltonic airs of superiority, and say for once in some dainty form of Edenic language:

"Eve, dear, I certainly am out of soundings. I can find names easily enough for birds, beasts and fishes, but all this" (with a gesture of most hopeless) "is out of my zone. Yet I am sure it is all intended for your use; for I'm thinking no man would gear himself up in any of this duff"—if one may help him to a word.

Then Eve, if true to her old Edenic form, would retort:

"But Adam, dear, you can't deny that it is all most tempting, and I am going to pick out right away some of that soft, cloudy stuff, the color of a sunrise; I'm sure it would be much prettier than fig leaves for a dress."—North American Review.

There's a Difference.

Few people of the United States can play games. Many can contest a game for the satisfaction of beating an adversary, or to get exercise, but actually to play a game is a different matter. Sporting editors, judging by their writings, must be the most serious of men, and their earnestness is often amusing. The defeat of a college football team recently called forth a lugubrious utterance from a correspondent who evidently felt that the educational institution had received a blow from which its scholastic reputation of a century and a half would hardly be able to save it. The writer asserted that the football trainers of this institution were paid insufficiently, and after talking the authorities to task, reached his climax in these significant words: "A young, inexperienced coach has been asked to assume the responsibility of the team, who could be hired at a salary no greater than the average professor in the college receives." In the present state of American school athletic affairs this might be considered an extremely high compliment.—Christian Science Monitor.

When the World is Filled.

A member of the Royal Geographic society in England estimates that the fertile lands of the globe amount to 28,000,000 square miles, the steppes to 14,000,000, and the deserts to 1,000,000. Fixing 207 persons to the square mile for fertile lands, ten for steppes and one for deserts as the greatest population that the earth could properly nourish, he arrives at the conclusion that when the number of inhabitants reaches about 6,000,000,000 our planet will be peopled to its full capacity.

If the rate of increase shown by recent census statistics should be uniformly maintained, it is shown that the globe would be fully peopled about the year 2072. But such calculations do not allow for unknown sources of error, and therefore cannot be taken too literally.

His Different Nature.

"My brother," said the solemn person, "are you so living in this world that you will wear a golden crown in the hereafter?"

"I'm trying to," said Mr. Peckton, "but I never could wear a fancy cloth hat without feeling dreadfully conspicuous, and uncomfortable. If I should win a golden crown I'm afraid I never would get used to it."—Birmingham Age-Herald.

WHERE FOX SHOWS CUNNING

Reynard Always Refuses to Run Faster Than the Dog Will Drive Him, for a Purpose.

An Englishman who had once seen an American fox running before a hound wrote that the American fox is much slower than its English cousin. As a matter of fact, the Englishman's assertion, which by the way appeared in an encyclopedia, is really a tribute to the superior cunning of the American fox. Reynard, says Mr. Charles D. Stewart in the Atlantic Monthly, could have run a good deal faster had he thought it wise to do it.

A fox surprised by a hound in a small patch of wood will run across the open at astonishing speed. Then he will only slow up but may even sit down on some convenient elevation and look back. He keeps his wits about him; he wants to see what is going on. When the hound has struck his stride the fox will soon gauge it and lead him a chase. Anyone who sees the chase and knows that the hound is slow becomes an admirer of the witty Reynard and will be likely to say that the fox is running slowly just to tease the dog. Indeed, many entertaining writers have said so; but a veteran hunter would not so interpret the action of the fox. He well knows that when a fox gets half a mile or so ahead of him and skulks along at a set distance out of sight, it is not doing it to tease him. The fox is not so human as that. The plain fact is that the fox will not retreat before a dog any faster than the dog drives him. That is because it is naturally cunning.

HOW RUSKIN PAINTED PINE

English Writer Quick to Perceive the Rugged Beauty of the Northern Forest Monarch.

The impressions on most people's minds must have been received more from pictures than reality, so far as I can judge; so ragged they think the pine; whereas its chief character is green and full roundness. It stands compact, like one of its own cones, slightly curved on its sides, finished and quaint as a carved tree in some Elizabethan garden; and instead of being wild in expression, forms the content of all forest scenery; for other trees show their trunks and twisting boughs; but the pine, growing either in luxuriant mass or in happy isolation, allows no branch to be seen. Summit behind summit rise its pyramidal ranges, or down to the very grass sweep the circles of its boughs; so that there is nothing but green cone and green carpet. Nor is it only softer, but in one sense more cheerful than other foliage; for it casts only a pyramidal shadow. Lowland forest arches overhead, and cheques the ground with darkness; but the pine, growing in scattered groups, leaves the glades between emerald bright.—"Modern Painters," John Ruskin.

Valuable Cow.

Some years ago the last remaining farmer in a prosperous New York suburb bequeathed to his son his only property, 16 acres of land, a ramshackle barn and one cow. The young recipient had no money to develop the land, and was at a loss to know what to do with his cow, whose habits he did not understand. He finally decided to keep her as a remembrance of his father, and she grazed away contentedly.

Ten years later there came an opportunity to dispose of the land at \$1,000 a lot, or \$102,000 for the whole. Based on this valuation, the taxes during the ten years would have amounted to something like \$18,000, whereas, because of the cow, the property had been given a farm classification, and had been taxed during the period only \$1,000.—Wall Street Journal.

The Cure.

A very little girl sat on the plush couch in the hotel lobby violently swinging her feet. Back and forth they swung with vigor. A nice-faced lady sat down next to the child and watched her for a moment. Then she asked very gently why the little girl didn't put her feet on the floor.

With painstaking care and patience the little girl explained by gestures that if she held her feet on the floor she couldn't sit on the couch, and if she sat back comfortably her feet didn't reach the floor.

"Dear me," said the lady, very kindly, "what are you going to do?"

"Grow," answered the child nonchalantly, and continued swinging her feet.—Chicago Journal.

Saved by Mankind.

The ginkgo tree, which is a native of China, long ago ceased to exist as a "wild" tree. But it has been cultivated in many countries, and is hardy and persistent wherever it is planted in the temperate zone. The ginkgo is one of the few species that have been saved from extinction by man as an offset to the many species, vegetable and animal, that have been exterminated by him. The ginkgo flourishes in the northern part of the United States, and is favored for park planting. Because of its unique two-lobed leaves it is sometimes called the "maidenhair tree."

Siam, Siam!

He (walking by a graveyard)— Wouldn't it be terrible if all the dead should come to life again?

She (yawning)—No, hum. I certainly wish one of them would.—American Legion Weekly.

YOUNG LADY, YOUNG MAN HOW WILL YOU USE YOUR MONEY AND TIME

It is just as important to be able to take care of your money after you get it as it is to be able to get it. We had a great time while it lasted. We made more money in 1919 and 1920 than ever before in our lives. We spent it with the recklessness that always follows "easy money." We bought things we didn't need, generally going into debt for them, and paid prices entirely beyond reason. We loaded ourselves up with things we couldn't use, and debts we couldn't pay. During 1921, we struggled to get out of our bad situation. We fought hard, and the fight is over and the end is in sight. Every great authority on business says we are getting back to normal. As the European nations are getting along in the process of re-adjustment they have to buy our products and to pay what they owe us. Capital in this country is seeking investment, and when money is at work, prosperity follows because money at work means industrial activity and industrial activity means large buying power on the part of working people. Beyond question, prosperity is with us, and wise people, both young and old, will get ready for it. New oil fields are being developed every day right in our midst. Building is going on everywhere. Charters are being issued for large corporations. The tomato, berry, fruit, and many other valuable crops will be money in a short time. Every young man and woman ought to know that the big opportunities in prosperous times go to those who are best trained to serve them. Business training makes the difference between small earning power and large earning power.

We are entering a period in which a thorough business education is more necessary than ever. You must have some special ability you can offer that will enable you to put it over. You must also get your training as soon as possible and in a thorough and practical manner.

The Tyler Commercial College, Tyler, Texas, the largest and most progressive Commercial school in the country, located in the most healthful part of the state, being the highest point between the Red River and the Gulf is ready at all times to give you a thorough business education. You can't afford not to investigate our courses of general business, general banking, general railroad, bookkeeping, business finance, shorthand, cotton, telegraphy and wireless telegraphy and telephony. The only school in the South giving six complete business courses. Fill in and mail coupon for large free catalogue.

NAME ADDRESS

NACOGDOCHES TRADITIONS

There are many events of the olden days here that it is not safe to put into print, but are very interesting topics for ordinary talk, and are quite frequently so used and whether of a social or of a business character.

Business failures and successes are among such. San Antonio, so-and-so, came to town from Dark Corner, and began business by attending to a livery stable, doing any dirty work necessary. He evolved into larger fields and wound up at the head of a big railroad. Billy Buckenort was nobody from nowhere. But he clerked in a shabby store, like a low-down hiring. He is now one of the biggest merchants in a big town. You know them both. You know others like them.

On the other side of life you have seen graduates of law schools go to the bad. You have seen all kinds of instances of business failures, made by men of apparently big calibre, if you have lived long enough, and you will yet see others. They are to be found everywhere.

It would require columns of space to list the many past failures here in the mercantile line. Sawmills, cigar and what-nots collapsed.

The two biggest dealers in general merchandise here just before the Civil War began, went broke. The first big firm after the war went broke. They were preceded followed by one after another in a long list, which is still growing. Such a list in print would amaze you and recall forgotten ventures.

It would probably surprise most people to learn that physicians who practiced for years and years, nearly all leave small estates when they die. People think the profession is a bonanza, but just look back and try to count or name the doctors who died rich. They may have appeared prosperous in life, but they were hard up, and they generally opposed having their sons become doctors, and failures. Among the doctors who are apparently flourishing in Nacogdoches there are three or four only who are men of good properties, and these few will say that they made it on the side by trading. And as to lawyers, they

THE FOUR-POWER PACT MEANS WAR, NOT PEACE

Washington, March 9.—The Democratic senators are today hearing an intensely human story of the manner in which President Wilson was affected by the four-power treaty. When he saw its text he was overcome with emotion. He burst into tears and exclaimed:

"My God, gentlemen, this does not mean peace, it means war."

For some time the Democratic senators have known of Mr. Wilson's opposition to the four-power treaty. He has apparently considered it so dangerous that he has let his associates communicate his views to senate members although he has not yet broken his self-imposed ban on presidential silence by a public statement.

The senators who supported the last administration consider that Mr. Wilson gave his health and almost his life to advance the cause of peace. They are deeply moved by the picture of him breaking down at the view of a four-power pact which he recognizes as an instrument of war. This incident has added to those influences which have transferred such a large number of democrats to the ranks of the irreconcilables that the defeat of the four-power alliance seems certain.

MOVIES MAKE SUCCESS OF "PAY-AS-YOU-LEAVE" PLAN

Bend, Ore., March 10.—That the "pay as you leave" plan adopted here Monday by two motion picture theaters, is resulting in bigger houses and at least as large revenue as formerly was the declaration Thursday of J. B. Sparks, manager of the theater. It is optional with each patron now how much he shall pay, or whether he pays at all.

THE BONUS FIGHT

Washington, March 9.—Republican leaders have disclosed that they are considering a plan to put the bonus bill through the house under a suspension of the rules, which would shut out amendments and limit debate to 40 minutes. Under this plan a two-thirds vote would be necessary to pass the measure, but leaders believe this majority could be obtained with votes to spare.

MAKES NO DIFFERENCE

London, March 9.—The decision of the United States not to participate in the Genoa conference will not affect the date and plans of the conference so far as Great Britain is concerned, it was stated officially today.

WORLD'S OIL OUTPUT

New York, March 9.—The world's production of petroleum last year, as estimated in the weekly summary of the American Petroleum Institute, was 759,030,000 barrels. This was about 64,000,000 increase over the previous year.

GERMANY DISAPPOINTED

Berlin, March 10.—Universal disappointment, but a ready understanding of the motives which prompted the United States to decline to participate in the Genoa conference, marked the comment of the German press on the American government's reply to Italy.

PANHANDLE STORM-SWEPT

Dallas, Texas, March 9.—Weather reports say a blinding snowstorm swept the Panhandle of Texas and Eastern New Mexico last night and this morning. The snowfall at Amarillo was three inches and the lowest temperature for 24 hours at 7 this morning was 24 degrees above zero. Abilene reported a high south wind reaching a velocity of 60 miles an hour. The blowing of the wind began yesterday.

Fort Worth reports snow in Northwest Texas last night, with heavy rains over the plains.

THAT BONUS FLIMFLAM

Washington, March 10.—Comptroller of the Currency Crissinger announced yesterday that in the event of enactment of soldier bonus legislation providing for payment of adjusted service certificates he would advise national banks to decline to accept the certificates as security for loans. Mr. Crissinger described the proposed plan of issuing certificates as "the worst kind of frozen credit."

Misses Bernice Birdwell and Grace Hornbuckle, and Messrs. Pearson Chandler and James Ammons, four of the promising young teachers of the county, left Monday for Denton, where they will take a three-months' course in the North Texas State Institute preparing themselves for advancement in their vocation.

UNIVERSITY PROFESSOR FOR CENTRALIZING OF POWER

Austin, Texas, March 9.—Dr. C. S. Potts law professor of the University of Texas, stated at the conference on citizenship, education and home welfare now being held here, that law enforcement by local juries, judges and sheriffs and county attorneys is an impossibility. Unless changed, he declared, the state will gradually work out a state police force from its present ranger force. Unless the state does this, the nation will work out a national police force for protection of citizens. In fact, he added, a step in that direction has already been taken by the federal government in the consideration given the Dyer bill to place the regulation of lynchings in the hands of the government at Washington.

Potts favored centralizing of authority and power in the governor of the state; that the present so-called bunch of boards and offices does not function as a government; that centralizing these heads under the chief executive is the only way in which the state government can function efficiently. In his opinion, judicial department members should not be elected, neither should county authorities, but should be appointed by the governor.

EMBEZZLEMENT CHARGED TO LEGION COMMANDER

Austin, Texas, March 9.—Dr. Guy O. Shirey of Fort Worth, former state commander of the American Legion of Texas, was named in a complaint charging the embezzlement of over \$50 filed in Justice M. M. Johnson's court today. The complaint was sworn to by Constable Hamby before County Attorney Hornsby, who in turn filed the charges in the justice's court. Immediately after the filing of the complaint Justice Johnson issued a warrant for Shirey's arrest. Major Wayne B. Davis, the present state commander of the legion, was present when the complaint was filed. While no specific amount was named in the complaint, it is said the complaint grew out of a shortage in American Legion trust funds in connection with the tubercular hospital at Kerrville last year.

ARKANSAS SENATOR RAPS FOUR POWER TREATY

Washington, March 10.—The four-power treaty was declared to be of British and Japanese origin by Senator Robinson, democrat, of Arkansas, in a speech in the senate yesterday opposing ratification.

"It was conceived by the brain of Balfour and written by the hand of Tokugawa," the senator charged.

This statement was made after Senator Robinson had compelled Senators Lodge and Underwood, both of whom signed the treaty, to confess they did not know who wrote it.

LIFE-TERM PRISONER BURNED IN EXPLOSION

Huntsville, Texas, March 10.—Fred Absolon, life-term prisoner from Harris county, is believed to be fatally burned as the result of an explosion in the prison machine shop here yesterday.

Absolon's injuries consist of burns about the face, hands and arms. Prison physicians say he can not live.

Absolon was brought here from Harris county to begin serving his term last May 8, following his conviction for the death of E. L. Kirby, cashier of the Blue Ridge State Bank at Blue Ridge, Texas, an oil town near Houston. The bank was robbed at the time.

WIRING FOR RADIO PHONES

Philadelphia, Pa., March 9.—The popularity of the radio phone was reflected today in an advertisement appearing in the newspapers in which a local builder announces that a million dollars worth of houses he is building will be wired for radio telephones.

Weather Reports by Radio
Chicago, March 9.—The local weather bureau is completing plans for broadcasting weather reports by radio.

Market Reports by Radio
Galesburg, Ill., March 9.—Many farmers of Knox county have radio sets and take the market reports from Chicago, sent out daily.

FT. WORTH THEATER ROBBED

Fort Worth, Texas, March 11.—Two bandits entering the Palace Theater in the heart of the business district at 6 o'clock this morning tied and gagged two negro porters, knocked the combination off of the safe and escaped with \$850 cash.

Emma Goldman, who is now in Sweden, seems to be edging toward the United States.

PRESIDENT'S PARTY ARRIVES AT ST. AUGUSTINE, FLA.

St. Augustine, Fla., March 10.—President and Mrs. Harding and their party arrived here at 2 o'clock Thursday afternoon from Washington for a week's vacation.

The president was greeted at the station by city and county officials, representatives of the civic organizations and a reception committee. He was accorded an ovation at the station and along the route to his hotel.

Secretary of War Weeks, who has been on a vacation at Miami, joined the president here.

The trip from Washington was uneventful. During a short stop at Jacksonville the president shook hands with several persons in the crowd about his private car.

The president has declined all invitations to speak.

\$400,000 FOR FORT WORTH HELIUM PLANT PROVIDED

Washington, March 10.—An appropriation of \$400,000 for operation of the government's helium plant at Fort Worth, Texas, during the coming fiscal year has been recommended by the house committee, which framed the army appropriation bill. Last year's bill carried \$250,000 for the plant.

SEEK STOLEN CARS

Ballinger, Tex., March 11.—Officers from different Texas cities and towns are seeking the recovery of information about stolen automobiles, the result of the alleged confession of Rex Lewis at Belton Thursday, which local authorities say uncovered an organized band of motor car thieves. Lewis implicated 20 men, the officers say, including Jack Gordon of Ballinger, who, with Lewis, is charged with disposing of stolen property.

NEEDS THE MONEY

Paris, March 11.—A demand from the United States that \$241,000,000 for its expenses in connection with the occupation of the Rhineland be paid before any reparations were paid was presented to the Allied finance ministers at their meeting yesterday.

HUNTING "RATTLESNAKE OIL"

San Antonio, Texas, March 11.—After finding where a huge still had been operating in "Robbers Cave," one of the many underground caverns in the hills northwest of San Antonio, federal prohibition agents are preparing to search for rattlesnake infested caves in quest of "rattlesnake oil," which they say has been issuing from them in quart bottles.

LANDIS TO VISIT TEXAS

Austin, Texas, March 11.—Baseball Commissioner Landis will enter Texas between March 20th and 25th on a tour of the Southern Major League training camps, he advised Governor Neff in a letter received yesterday. Landis accepted Neff's invitation to visit Texas and said he "hoped to have the good fortune of meeting up with your own good self."

SCORNS NOBILITY TITLE

Chicago, March 11.—Cyril Woodward Chubbly Armstrong, a self-made Chicago lawyer whose struggle for a living has been only moderately successful, today was informed he was the sole heir to an English earldom. The news had little effect upon him. He calmly informed reporters that he already possessed the greatest title in the world—that of an American citizen—and desired no other.

It is difficult to speak with reserve on the way reservations occupy the mind of the senate.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

25 cents buys a bottle of "Danderine" at any drug store. After one application you can not find a particle of dandruff or a falling hair. Besides, every hair shows new life, vigor, brightness, more color and abundance. **MOTHER! MOVE**

MANY STOLEN CARS TRACED AND FOUND

Marshall, Texas, March 9.—Seventy-nine autos are believed to have been located and returned to their owners since men were arrested at Waskom a few weeks ago, in their flight from Marshall with two cars. Trying to reach Louisiana, they were headed off at Waskom. Deputy Sheriff Johnson went to Louisiana Sunday night and found two cars about six miles north of Arcadia. One he brought to Shreveport, and the second he brought to its owner, Sam Williams, in Marshall.

Two stolen cars have been brought back to Marshall the last week. The men under arrest have told the officers where a number of stolen cars can be found in Texas.

ROTHBLUM RETURNED FROM ARKANSAS

Dallas, Texas, March 11.—Philip Rothblum, who was kidnaped from his home here and flogged by unidentified men Monday night, returned to Dallas today from Little Rock with Captain of Detectives Moffitt, who was sent to Arkansas to serve a grand jury summons on him. Mrs. Rothblum also returned voluntarily after Moffitt assured them of police protection. At police headquarters Rothblum said he believed he would be able to identify the assailants. Mrs. Rothblum previously said she believed she could identify one man. Fourteen witnesses besides Rothblum go before the grand jury today.

LIVERY MUST SERVE

New Orleans, La., March 11.—The United States Circuit Court of Appeals yesterday affirmed the conviction and sentence of William Livery, former president of the Little Motor Car Company, convicted in February, 1921, at Dallas for using the mails to defraud. He was sentenced to five years at Leavenworth.

UNIVERSITY HOUSE MOTHERS

Austin, Texas, March 10.—"It was for the purpose of building up a home-like atmosphere for University of Texas girls that the University House Mothers were organized," said Miss Lucy J. Newton, dean of women, "and the plan has been very successful in regard to the needs of the students."

The organization was revived in October, 1921. It grew out of an association formed by the late Mrs. Helen Marr Kirby, who called the members together in order to instruct them about University regulations regarding students in rooming houses and private homes. The only women eligible to membership are those whose homes are on the list approved by university authorities, showing that they have fulfilled the requirements of the institution. There are now 43 members of the organization. The officers are: President, Mrs. A. P. Pierce; vice president, Mrs. A. E. Stelfox; secretary, Mrs. M. Muckleroy; treasurer, Mrs. L. M. Throop.

As part of the activities of the House Mothers, lectures have been arranged by the university medical staff, the physical training faculty, and the home economics department. All chaperones of fraternities, societies and other rooming houses are invited to participate. The organization has also endeavored to co-operate with the Texas Congress of Mothers and Parent-Teacher Association.

SENSATIONAL BANK ROBBERY

San Antonio, Texas, March 11.—The arresting of a woman and an all night search by a hundred armed men in the cedar brakes near Brecken were over night developments of a sensational \$75,000 bank robbery of the New Braunfels State Bank. The woman's husband was put in the Comal county jail Friday afternoon for investigation. When she stepped from a bus in the Plaza Friday evening, after returning from San Antonio, she was also arrested. A car carrying the loot and robbers was trailed to Smithson Valley. In the dense forest of the cedar grove and hill during the night officers of San Antonio, New Braunfels and Austin, aided by a hundred deputies, stalked the hills and valleys in the hope of finding the bandits. It is believed the bandits abandoned the car and are on foot making their way through the sparsely settled country to the railroad hoping to make their get away.

MONEY HERE SOON

Austin, Texas, March 10.—The Kansas bond house which loaned the state prison system approximately \$700,000 will deposit \$300,000 with the state treasury within the next few days, it is announced.

GAS PRICE INCREASE

New Orleans, La., March 10.—Gasoline will go up two cents a gallon within 60 days, was the prophecy here yesterday of W. H. Gray, president of the National Association of Independent Producers, attending the convention of the Western Refiners' Association.

How quiet it seems in the world without a conference on anywhere.

"Ladies and gentlemen, you will get something new when Willie Jones eats a whole bowl of Kellogg's Corn Flakes because that's the only kind he will eat a whole bowl of!"

It's a treat to sit down to a bowl of Kellogg's Corn Flakes

You'll agree that you never ate such delicious, such satisfying cereal as Kellogg's Corn Flakes! Those big, sunny-brown "sweet-hearts-of-the-corn" are so fascinating in flavor and so crispy and crunchy that you don't wonder the children are thrilled to eat them!

Compare Kellogg's with imitations to realize their quality, their appetizing appeal, their wonder-crispness! Kellogg's are never tough or leathery or hard to eat! Each heaping spoonful of Kellogg's is even more joyous and satisfying than the last!

Be sure that you get Kellogg's—the delicious Corn Flakes in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Toasted Corn Flakes! NONE ARE GENUINE WITHOUT IT!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Morning Flakes. Comes inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.

Kellogg's TOASTED CORN FLAKES

Also makers of KELLOGG'S KRISPIES and KELLOGG'S BRAN, cooked and krumbed

Kellogg's CORN FLAKES

Also makers of KELLOGG'S KRISPIES and KELLOGG'S BRAN, cooked and krumbed

EXTERMINATE THE FLY GIVES REMEDY FOR INFLUENZA

Austin, Texas, March 10.—The common house-fly is the chief cause of typhoid fever and it also transmits such diseases as tuberculosis, dysentery, anthrax, cholera and diarrhea, states, D. E. Breed, Executive Secretary, Texas Public Health Association.

Flies thrive in such places as cess pools, manure deposits, decomposing vegetable matter, etc. It takes the eggs a week to hatch so their breeding places should be removed or disinfected at least every five or six days.

To secure comfort as well as protection against infection by flies and other insects every one should see that his house is properly screened so that they cannot gain admittance to the home. It is much better to screen the house and prevent their entrance than it is to try to kill them with swatters after they have gained entrance. If the breeding places of flies are destroyed and houses properly screened the spread of many diseases will be materially lessened.

Now is the time to start the campaign against the fly as his army at this time is very small. However the fly increases so rapidly that unless we wage an unremitting campaign against him from this time until every house, town and county is free from this pest, our earlier efforts will have been in vain.

PANHANDLE DIGGING OUT

Amarillo, Texas, March 10.—Following one of the most severe snow storms in recent years, which yesterday and last night swept the entire Panhandle of Texas, Eastern New Mexico and Western Oklahoma, this section is digging out today. The snow fall ranged from four to seven inches in different parts of this territory.

The temperature ranged from 20 to 25 degrees, the lowest points being reached last night. The storm had passed this morning, and with clear weather and rising temperature the snow is melting rapidly. A high wind accompanied the snow and drifts have greatly interfered with traffic. Livestock did not suffer, due to the short duration of the storm and generally high temperature.

Organizers of third-party movements never seem to have any doubt about their ability to run the government.

CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels when you have Dizzy Headaches, Colds, Biliousness, Indigestion, or Upset, Acid Stomach is candy-like "Cascarets." One or two tonight will empty your stomach completely by morning, and you will feel splendid "They work while you sleep." Cascarets never stir you up or gripe like Salts, Pills, Calomel or Oil and they cost only ten cents a box. Children love Cascarets too.

LUFKIN'S FIRE ENGINE VISITS NACOGDOCHES

Our people were interested and impressed Wednesday afternoon by an unexpected visit from Lufkin's new and splendid La France fire engine, which came up, making the 21-mile trip in 44 minutes, and gave a demonstration which indicated that our sister city had "something good" in the way of fire-fighting apparatus. It is a beauty, and evidently as efficient as it is attractive.

Those accompanying the machine were City Manager Humason of Lufkin, together with Fire Chief W. L. Jones, E. B. Satterfield, S. H. Kerr, D. F. Harrell, Carl Berry and J. C. Sanders, all members of the Lufkin Fire Department.

While we are not envious, we still would like to have a machine as good as Lufkin's—and perhaps we will in the near future.

THANKS TO FIRE COMPANY

I wish in this manner to express my heartfelt thanks to the members of Nacogdoches Fire Company for their prompt and efficient work in extinguishing the fire in the Queen Theater Wednesday night, thereby saving not only my property but probably the whole block from destruction. The town owes these gentlemen a debt of gratitude which it will be hard to pay. Again tendering my thanks, I remain,

Gratefully,
James H. Brantley,
Manager Queen Theater

J. F. CRAWFORD

News has reached the city of the death of his home at Etouffe Wednesday of Mr. John F. Crawford, one of the oldest and most respected citizens of the county.

Mr. Crawford was born in Georgia 50 years ago and moved to this county soon after the War Between the States, through which he had fought as a brave Confederate soldier.

Deceased leaves a wife and nine children. Mr. John Crawford of this city being one of his sons, and the others residing in the Etouffe community.

Interment was made Thursday in the Etouffe cemetery, Rev. Mr. Murray of the Baptist church conducting the services.

The Sentinel joins in sympathy for the bereaved ones.

IF STOMACH IS BAD / LIFT DIAPEPAIN END GAS, INDIGESTION

"Papa's Diapain" has proven itself the surest relief for indigestion, gases, flatulences, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs on a few cents at drug store. Millions helped annually.

FOR SALE—Seven head of good mules, cash or good note. Herman Sullivan, Appleby, Texas. 10-3dw2p

H. J. Chandler of the Owl Garage will start the erection of a new structure 36x48 feet on the Belton Reid lot just south of the creek on Fredonia street, within a week or so in order to give him a garage with room enough to accommodate his increasing trade. Mr. Chandler expects to have one of the best equipped repair departments in this section when his new building is ready and will be able to do repairing of automobiles of every description.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

CANE GROWERS MEET

A fair-sized crowd met in the county court room at 2 o'clock Thursday afternoon to consider the plan for co-operation of the cane growers of the county in a plan to standardize syrup production.

Commissioner W. B. McKnight introduced Mr. D. M. Strange of the State Department of Agriculture, who explained the importance of standardization, and told how the syrup industry might be placed on a solid foundation and made one of the most remunerative of "side crops."

Messrs. R. C. Monk, T. J. Maroney, T. E. Baker, L. B. Mast and Paul Perkins were chosen as delegates to a mass meeting at Jacksonville at 10 o'clock Friday morning, at which an expert will give the benefit of his experience.

There is a great future for the syrup makers of this section if they will adopt business ideas and co-operate in the work.

H. W. Barclay who resides at the Confederate Home at Austin, arrived Friday night for an eight or ten days' visit at the Hugh Davis home. Mr. Barclay served in the Civil War for four years, and on May 21, will be 83 years of age. Asked as to what he thought of the bonus bill now pending before congress he said, "We are all American citizens and the government is part of us. When duty calls every American should and is ready to fight for Uncle Sam to the limit. To those who were called to duty in the World War and returned safe, I think the pay of \$30 per month would have satisfied me, but for those who were wounded and disabled the government should provide handsomely."

ELECTRIC LIGHT BONDS SOLD; CASH IS RECEIVED

The bond issue of \$30,000 recently voted by the people of Timpson for the purpose of installing a municipal light plant, has been sold and this morning the city treasurer received the cash from the purchasers.

The bonds were sold for par and were purchased by Caldwell & Company of Nashville, Tenn. The deal was closed several days ago, but announcement of the fact was not made until after the money was received, as often some technicality arises after sale and the deal does not go through.

The city council will hold a meeting tomorrow night at which time plans will be made for active work on the construction of the plant.—Timpson Times.

CHAMBER OF COMMERCE

The Board of Directors of the Chamber of Commerce met Friday morning at 10 o'clock for their regular weekly session. The following members reported present: Messrs. Oscar Matthers, R. L. Perry, H. P. Schmidt, J. J. Baker, J. B. Atkins, A. H. Smith, W. C. Fouts, Holloway Muller, Guy Stripling, J. N. Thomas, F. R. Penman, Link Summers and W. D. Ambrose.

Immediately after the meeting was called to order a plan was introduced to subscribe a bonus for the first deep flowing well brought in in the county. The plan was received with enthusiasm; and it was decided to have a "pep" meeting in favor of this at some time in the near future.

After the reading of a letter from Mr. Hall of the Lufkin Chamber of Commerce concerning the setting of a date for a Nacogdoches-Lufkin celebration to be held over the opening of the bridge across the Angelina, the board decided to put off a definite setting of the date until a larger attendance of the board could be had.

Mr. J. B. Atkins was then called on to discuss a "Trades Day" for Nacogdoches. A motion to have a Trades Day and to appoint Mr. Atkins as chairman of a committee of his own choosing to arrange the details was unanimously carried.

The meeting adjourned promptly at 11 o'clock.

Dr. Will H. Bruce, Osteopathic Physician, Redland Hotel.

BRING IN YOUR PRANUTS. WE WILL PAY YOU ALL THEY ARE WORTH AND PROBABLY MORE THAN YOU CAN GET AT SOME OTHER PLACE. NACOGDOCHES OIL MILL. 26-3dw4t

Mrs. E. A. Holcombe of Diboll, was here Friday en route to Dallas.

CATARRHAL DEAFNESS

Is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh. **HALL'S CATARRH MEDICINE** has been successful in the treatment of Catarrh the over forty years.

Sold by all druggists.
F. J. Cheney & Co., Toledo, O.

MOTHER! OPEN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Your little one will love the "fruity" taste of "California Fig Syrup" even if constipated, bilious, irritable, feverish, or full of cold. A teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California" Fig Syrup handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California" Fig Syrup which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Mr. D. M. Strange of Commerce, representative of the State Department of Agriculture, was in the city Thursday to attend the meeting called for the purpose of interesting growers in the standardization of cane syrup. A meeting was held at the courthouse at 2 o'clock, a report of which will be published tomorrow.

Not a particle of dandruff can be found after the first application of **KESSIDE**—it restores falling hair and heals scalp sores. You will be pleased with the quick results obtained. Sold by J. W. Kennedy. 1

"The Young Ladies' Hiking Club" has been organized and members will take long early morning walks as a healthful recreation. Fred Lightfoot will give them instruction in the art or science of walking for health. Five young ladies and two boys, chaperoned by Mrs. Brammer of the Redland Hotel, took a seven-mile hike this morning, returning in time for breakfast and reporting an enjoyable time.

CURE THAT ITCH with Lufkin Remedy. It'll cure you secretly, pleasantly, with no loss of time. \$1.00 per bottle at your Druggist. 3

Some one with a penchant for the bright things of this world decided that Judge Middlebrook's automobile spot light was about the most desirable article he craved, and he forthwith made away with it while the automobile was standing near J. Doug Morgan's show Friday night.

Mrs. John Durst of Tyler was a visitor in the city at the noon hour, being en route to Nacogdoches to visit relatives and friends.—Lufkin News, 8th.

Opals Growing on Trees.
Opals grow on trees in one of the latest discoveries of science. Such "stones" are now on exhibition in the American Museum of Natural History, New York. These "opals" were grown in Humboldt county, Nevada, several thousand years ago, by the slow processes of nature. They were formed from trees which were evidently uprooted and buried in a swamp during some earthquake. The trees, many feet under water, became water-logged, and then became petrified. The swamp water had become heavily charged with a solution of silica, which acted upon and changed the nature of the wood, while preserving its structure. In course of time the wood became "opal," and can scarcely be distinguished from the genuine article.—Lealle's Weekly.

Merely a Good Story.
Wars produce many stories of fiction, some of which the oftener they are told the more they are believed to be true. The Civil war was no exception to this rule, and the story of the apple tree is one of these fictions based on a slight foundation of fact. There was, indeed, an apple orchard on one side of the hill occupied by the Confederate forces. Running diagonally up the hill was a wagon road, which, at one point, ran very near one of the trees, so that the wheels of the vehicles had on that side cut off the roots of the tree, leaving a little embankment. General Babcock, of my staff, reported to me that when he first met General Lee he was sitting on this embankment, with his feet in the road below, and his back resting against the tree. The story had no other foundation than that. Like many other good stories, it would be very good if it was only true.—Memoirs of Ulysses S. Grant.

DYE SKIRT, COAT DRAPERIES WITH "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

BAPTISTS RAISE \$30,000,000 CASH

ALL GENERAL WORK STRENGTHENED BY 75 MILLION CAMPAIGN, IT IS SHOWN.

WHERE THE MONEY GOES

Some That Have Been Appropriated To Various Objects Set Forth By Headquarters Office At Nashville, Tenn.

Mr. E. Gill, Baptist representative in Europe, on left and J. W. Bayliff of All Russian Baptist Union.

From the beginning of the Baptist 75 Million Campaign to January, 1932, a total of \$30,356,519.41 had been paid in to objects fostered by the Campaign. It is announced by the general headquarters office at Nashville. Of this amount \$28,199,971.16 came in through the payment of regular Campaign subscriptions and the remaining \$2,156,548.26 in special contributions.

Regular receipts from the various states follow: Ala., \$1,805,184.76; Ark., \$714,682.09; D. C., \$428,980.01; Fla., \$469,752.53; Ga., \$8,999,174.10; Ill., \$288,376.18; Ky., \$2,187,688.15; La., \$967,891.18; Md., \$398,517.48; Miss., \$1,243,546.59; Mo., \$1,189,754.79; N. C., \$146,328.97; N. C., \$2,211,741.59; Okla., \$446,828.85; S. C., \$2,632,840.53; Tenn., \$1,797,483.10; Tex., \$5,182,868.81; Va., \$8,573,885. More than 250,000 baptisms were reported by Southern Baptist churches last year.

How Money Was Distributed.
Seven general objects of the Association were embraced in the Campaign program, and from the regular Campaign contributions those objects have received the following amounts, according to a compilation by the headquarters office: Foreign missions, \$5,484,012.53; home missions, \$3,682,840.57; state missions in the seventeen states and local work in the District of Columbia, \$4,854,812.88; Christian education, \$7,192,462.79; Baptist hospitals, \$2,004,999.18; orphanages, \$2,108,787.32; and Relief and Aid to the Board, which ministers to aged dependent ministers and their families, \$799,156.99.

What Money Has Done.
These funds represent an advance ranging from 200 to 300 per cent in the contributions of Southern Baptists to their general missionary, educational and benevolent work, prior to the inauguration of the Campaign, and have enabled the boards and other agencies to greatly extend their services in all departments. In addition to sending out more than 150 new missionaries since the Campaign began, and providing many church buildings, mission residences, schools, theological seminaries, publishing houses, hospitals and the like on the older fields the Foreign Mission Board has been enabled to open work in the new fields of Spain, Yugo-Slavia, Hungary, Roumania and Southern Russia in Europe, and Palestine, Syria and Liberia in Asia, and Dr. Everett Gill, for many years a missionary in Italy, but more recently a pastor in Kansas City, has been named special European representative to supervise the greatly expanded work on that continent. Dr. Gill is giving much of his time to distributing Baptist relief funds in Russia and otherwise looking after the interests of the denomination there.

Home Work Enlarged.
Among the outstanding accomplishments of the Home Mission Board are the aiding of more than 1,000 churches with loans and gifts for church buildings, completion of the big tuberculosis sanatorium at El Paso, enlargement of the work in Cuba and the Canal Zone, strengthening of the 31 mountain mission schools and the development of all eleven departments of the work of the Board. In all seventeen states of the Southern Baptist Convention the state mission work has been greatly extended, the number of Baptist hospitals in the South has been increased from eleven to twenty-three, all of the older eighteen Baptist orphanages have been aided in material ways and two new ones have been established, while the number of aged dependent ministers and their families has been doubled and the amount of aid given them increased 100 per cent.

Collections Are Pushed.
While the collections so far represent a big gain over the contributions of Southern Baptists to their work before the Campaign, the sum collected is not all that is due and in all the South an effort is being made to collect as much more as possible by the close of the Convention year. May it be that none of the work may suffer.

Mr. Bowie Flowers of Houston is visiting his family in Nacogdoches.

Mrs. E. H. Jackson of Diboll was shopping in this city Saturday.

J. J. Frederick of Garrison was a visitor in the city Saturday.

Mrs. C. L. Martin of Grand Saline is the guest of Mrs. Riley Henson.

Mrs. Arthur Sweetland of Lufkin is the guest of Mrs. Charlie Williams.

Mrs. John Durst of Tyler is the guest of her sister, Mrs. E. V. Davidson.

Mrs. J. B. Lilly of Appleby was among the Saturday visitors of Nacogdoches.

County Treasurer J. F. Floyd has been under the weather for the past few days but refuses to give up.

Mr. John Sloan is spending the week-end with his son, Mr. J. M. Sloan.

Mr. Frank King, a traveling salesman of Rusk, was in town today calling on his trade.

Miss Daisy Bergman of Corrigan, Texas, spent the week-end visiting the family of Mr. R. O. Hale.

Born—To Mr. and Mrs. B. Windom, Sunday, March 12, a girl. Mother and babe are doing nicely.

Mrs. J. J. Retiner, Mrs. Margerite Francis and Mrs. Aggie Kerr, of Lufkin, were Saturday visitors to Nacogdoches.

Sellers Jinkins was convicted in district court Wednesday of manufacturing liquor and sentenced to one year in the penitentiary.

Albert Fenton, the white man tried in district court Thursday on a charge of selling liquor, was convicted and given one year in the penitentiary.

Mr. John Crawford returned Thursday from Etouffe, where he had been called by the death of his father, Mr. John F. Crawford.

Mrs. J. F. Mills left Friday for Houston, where she was called to the bedside of her daughter, Mrs. J. J. Jinkins.

Mr. Dunning Rideout of Marysville, Cal., is here for a brief visit with his aunt, Mrs. Phoebe Rideout, president of the Yuba Oil Company.

The Baxter Hotel is being improved by a new five-foot brick front, which will add much to its attractiveness. Mr. Littleton Herrin is doing the work.

Leon Crain, representing the Hanslar-Barden Tire & Rubber Company of Houston, has been in the city the past few days visiting among his friends and the trade in his line.

Miss Emma Gaston is in Beaumont attending her brothers, Albert and Robert Gaston and Mrs. Robert Gaston, who are all suffering with the ravages of the flu.

Miss Rosalie Mast closed her school at Mayo Friday afternoon and has returned to her home in this city for a short vacation, after which she expects to enter one of the normal schools for additional preparation.

Mr. and Mrs. H. K. Harrelson of Dallas arrived in the city Sunday and Mr. Harrelson, who is relief operator for the Western Union Telegraph Company, will take the place of Manager Avey while the latter is off on a two-weeks' vacation—building fences and engineering a plow, he says.

LITTELL'S

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle. Large size \$1.00.

TRACED TO GAME OF TENNIS

Origin of Common Phrase, "From Pillar to Post," Believed to Have Been Solved.

To tennis we owe the phrase "to drive from pillar to post," though its exact meaning has not been traced. Ernest Weekly writes in the Cornhill Magazine, London. The allusion is to the driving of the tennis ball, and the earlier order, found to Lydgata, was "from post to pillar." This was inverted to facilitate the stock rhyme with "loosed." In the old play "Liberty and Fraternity" (1602), a character is described as—

Every minute too, like a tennis ball, from pillar to post. In John Marston's comedy "What You Will," the phrase is used of buffed and shuffling, the context suggesting that the "pillar" and "post" were names given to the two ends of the court. The following explanation has occurred to me as possible. It is known that modern games have developed from simple beginnings; for example, five was originally played against any convenient wall, and the "pepper box" of a modern five court imitates one of the buttresses of Eton college chapel. Tennis is supposed to have sprung from a rudimentary ball game played with simple apparatus in the courtyards and mansions and castles. The entrance gate and the front door would naturally be adopted as the two ends of the court, the pillars of the one and the posts of the other serving as boundaries.

They'd Met Before.

My first attempt proving a failure I embarked a second time upon the matrimonial sea. We returned from our honeymoon by way of a little town where my new husband had business interests. That afternoon, much to my surprise, I met an old school mate of mine on the street. She made me promise that we would dine with her the next evening.

"I'm a newly wed, too," she explained, "and I want you to meet Harry."

For me a most delicious dinner was spoiled. Harry proved to be my first husband! I experienced the most embarrassing moment of my life when my friend exclaimed, "O, you're acquainted!"—Chicago Tribune.

Italy Trains Blind Soldiers.

Italy has about 1,500 blind soldiers. All of these are being trained for useful employment. In addition to having lost their sight, a number of these unfortunate soldiers are without arms or legs. Several ingenious devices have been invented to assist the armless blind soldiers to read. One of these consists of a little pocket battery and a belt encircling the chest and containing small bellies. The device plays a record that causes a sufficient audible to prick for each letter and so the blind man reads.

Oranges for Marmalade.

Women who are in the habit of making orange marmalade—this is just time of year for doing it—will be interested to know that the crop of big oranges in the Seville consular district, is very full and of magnificent quality, though only about 75 per cent as plentiful as that of last year. Most of it goes to the marmalade manufacturers in Dundee, but about 10,000 half chests are available for other markets.

His Collection.

There is a curious game played by educators, which consists in sending questionnaires to some hundreds, or some thousands, of school children and tabulating their replies for the enlightenment of the general public. The precise purport of this game has never been defined; but its popularity impels us to envy the leisure that educators seem to enjoy. A few years ago 1,214 little Californians were asked if they made collections of any kind, and if so, what did they collect? The answers were such as might have been expected, with one exception. A small and innocently ironic boy wrote that he collected "bits of advice." His board was the only one that pleased curiosity.—Agnes Repplier, in Atlantic Monthly.

Chinese Barber.

The Chinese are not accustomed to tipping the barber. As a matter of fact the Chinese barber is very modest in his prices, and his patrons can obtain a hair cut, a head shave, a face shave, and in addition have his shoulders and back massaged, all for a sum total of less than 5 cents. The straight razor used by Chinese barbers is a triangular shaped blade with straight handle, folding up as does the American straight razor. The blades are made from old rails or any other crude steel which has outlived its usefulness in other directions.

Charge for Fuse Replacement.

It has been the general custom among the electrical companies of this country to make free replacement of the fuses which are blown out from time to time but there is now a general tendency among these corporations to make a charge for this service. It is necessary to have men ready at all hours, especially at night, to answer calls so that the service may be restored with the least possible delay and the expense of this has been found to be a burden which it is now proposed to relieve themselves of by making a charge. Some companies which hesitate to take this step are urging their patrons to lay in a supply of fuses which are sold by the company at cost and in case of a blow-out they can make the removal themselves.—Pittsburg.

JAPANESE AVERSE TO CHANGE

Idea That They Would Take Kindly to American-Built Houses Proved to Be Wrong.

With the double hope of business success and social service, a certain firm in Japan some years ago began the importation of American-made morable houses on a large scale. The houses, the firm believed, would offer very comfortable and cozy little homes at reasonable prices to the salary-earning classes at Nippon and would bring about a great improvement in the domestic life of the Japanese.

The enterprise, well-meaning as it undoubtedly was, turned out to be a failure. It was like an overzealous but enlightened missionary trying to impose the dogmas of Christianity on heathens, regardless of the latter's ideas, temperament and history. The Japanese have their own customs, modes of living and traditions, which, irrespective of whether they be good or bad, are dear to their hearts and hard to give up in a fortnight. Homes are the most basic of institutions, and house construction is the result of centuries of home life to a nation. To try to induce the Japanese to give up their houses immediately and dwell in the American-made houses is like trying to urge them to give up all Japanese ways of feeling, believing and thinking, and to adopt occidental ways of behavior. It is preposterous.—East and West News.

The Artist's Choice.

In the career of every artist there comes a supreme moment when he or she must choose between two services—the service of art or the service of self. While the artist is actually studying and qualifying, this choice is hardly offered; he is all artist then, because he is learning and trying to grasp and achieve a command of his art; the artist is always a learner, and the true learner is in some degree an artist. But with achievement and mastery come recognition and applause, come opportunity and power. The artist has become a master, a teacher, endowed with that subtle quality that lays the world at his bidding, when he may either make his followers glorify him or glorify his art. The choice is between serving his art or making it serve him. For the artist who remains true there can be no choice; he must go on serving and learning.—Elson Young.

The Joy of Living.

I have never had much money, but I have always enjoyed the things at hand. I have become so familiar with the face of Nature that it is as the face of an old friend and I know and love it in every mood. My years have been full of joy, but they have been years of simplicity and economy. I have never said myself with anything and the bloom is still on my life.

I have kept young because I have kept free from worldly and selfish ambitions. If I had been miserly and grasping, I would have been old and unhappy long ago. There is nothing like love to keep you young—love for your fellow man and for Nature—and love is Nature's final law. Someone once asked me how I had kept so young and I answered that I had been born young and had never thrown my youth away.—John Burroughs.

It is Hard to Be Accurate.

Can you exactly describe what you see? If you can, you are cleverer than most persons. A book recently published in Paris relates that at a meeting of scientific men two of them suddenly began to quarrel. Under pretense of obtaining legal evidence the president of the meeting asked everyone present to write an exact report of what had happened. The quarrel was a pure piece of acting arranged to test the powers of observation of the men present.

Though the assembly was composed entirely of jurists, psychologists and doctors, only one report contained less than 20 per cent of error; 15 reports had more than 50 per cent wrong; and in 34 reports from 10 to 15 per cent of the details were wholly imaginary. When men of science can so err we can understand how easily the ordinary man can go astray. The story shows why lawyers value circumstantial evidence so highly.—Youth's Companion.

Hard Luck.

"I was born too early," heighed. "What's the matter?" "I had to wear overalls when they were a badge of hard labor, and now that wearin' 'em is fashionable I'm out of the game."

Foch Saved the Day.

M. Poincare, as president of the French academy, had the task of welcoming Marshal Foch when that soldier was a member of the academy and, in the course of his remarks said:

"Field Marshal Foch was on the point of moving back his heavy artillery and besting a retreat. You rushed to Vlamertinghe and summoned him to you. 'If we make known your weakness,' you declared, 'we shall be carried away like a wisp of straw. Keep at all costs your first corps where it is; I will myself attack on the right and on the left with French troops.' As you spoke you took a sheet of paper to the desk; hastily you scribbled four lines in which you made clear your thought and you handed the note to the field marshal. He read it, thought a moment, called a staff officer, and said to him: 'Go and carry out this order.' Disaster was averted."

CALOMEL SALIVATES EVEN WHEN CAREFUL

Treacherous Drug can not be Trusted and Next Dose May Start Trouble

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury, quicksilver!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back to your druggist and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

Pure bred single comb White Leghorn eggs, Barron strain, 50 cents per setting. Mrs. Lizzie Rucker, Swift, Texas. 16-wtf

FOR COMMISSIONER PRECINCT 3

To the Lady and Gentlemen Voters of Precinct No. 3:

I desire to announce myself as a candidate for commissioner subject to the action of the democratic primaries. To those who are not personally acquainted with me and also those who know me, I ask your favorable consideration. If elected I will do my best not to betray your confidence in me.

Respectfully,
L. S. (Sylvester) McDuffie.

S. S. ATTENDANCE

A Sunday-school report of the Central Grammar School for March 12:

| Teacher | Number | Pc'tg. |
|----------------|--------|--------|
| Miss Henderson | 30 | 88 3-4 |
| Mrs. Hall | 32 | 75 1-4 |
| Miss Mettauer | 28 | 71 |
| Miss Hamilton | 30 | 69 3-4 |
| Miss Wright | 26 | 67 3-4 |
| H. H. Hall | 24 | 66 2-4 |
| Miss Nicholson | 28 | 62 |
| Mrs. Parsons | 19 | 55 |
| Mrs. Newton | 16 | 55 |
| Mrs. Perkins | 22 | 57 |
| Mrs. Roquemore | 9 | 31 |

Please help by sending your children to Sunday-school.

Sheriff Woodlan was called to Sacul Monday to investigate burglarious activities occurring at that place Sunday night. The general store of Mr. Tom White was entered and \$225, mostly in checks, stolen. Three other stores were entered, but nothing was taken from these so far as could be determined. The thieves left no clue. The sheriff will return to Sacul Wednesday to continue his investigations.

The capers of an electric light in the home of Attorney J. C. Harris but 10:30 Monday night caused an alarm to be turned in and the fire company to hurry to the scene. The wire from a bulb to the ceiling was burned off and the occupants of the home considerably disturbed by the incident. The throwing of a switch averted further trouble and the danger was over when the fire boys arrived.

Office hours 10 a. m. to 5 p. m. Telephone 551.
