

## Threats Sent Prosecutors of Bates and Bailey

### PEEPING THRU THE KNOTHOLE

with BILL MAYES

Although we claim, emphatically, that we never make predictions on elections, ball games, the weather or what juries will do, we are, at 8:14 a. m., going to venture this prediction: The Times-Elks game may be rained out this afternoon. The reason we say that is because the Times has not played a game for three weeks to a day, we need rain, we have had two games rained off only one. Those are our reasons for the prediction. And, besides, it looks like rain, and we have long since become resigned to the belief that we will not get to play another ball game this year.

Along about this time each year baseball begins to wane and football is coming into its ascendancy, which our dictionary says is "a governing or controlling power or influence."

This Saturday the Bulldogs and the Yellowjackets from Stephenville meet in the first clash of the season, while Eastland will be playing Decatur in Eastland and the Lobos will be playing Gorman at the Big Dam city. Winters is to play in Abilene Friday afternoon and Mineral Wells is to visit Breckenridge to find out what kind of a team the Dynamo City will have this year.

Jumping from the soft ball to football and back again, we might mention the Breckenridge All-Stars finished up their season yesterday afternoon, by winning two straight games from Ranger teams and tying the third, which went four innings, with Frank Hicks, southpaw speed baller, twirling the entire 14 innings for Breckenridge. The teams the All-Stars played were called the Robinson Grocery team, the Ramblers and the Ranger All-Stars, though all three teams were patched-up affairs, which is no alibi. Against Hicks' pitching no team is scheduled to make any tremendous score unless he leaves the game and a third baseman is loaned to the Ramblers, as was done in Breckenridge.

Which leads us up to the point that the Twilight league was a good thing in Ranger, though it did start a wee bit late, making the season last too far into the fall. Next year the league, if any, should be organized sometime late in May so the season can be finished early. As it is it may die instead of end, because it is getting to be increasingly hard to play a game before dark.

And now back to football. The Ranger Junior College should have a better team this year, though they lost several of their lettermen.

In the meantime they have secured the cream of the crop of high school players who graduated last June in this neck of the woods and the prospects for an excellent team are making Tricky Ward wear a big smile on his face. And now we have to quit early to help count the remainder of the votes in the church contest, which ended Saturday and for which a count has been in progress, off and on, since that time. We will try to write more tomorrow, or the next day.

### Three Bands Will Play At the Fair

The Ranger High School Band and the Lone Star Band will help to furnish the entertainment for the Eastland County Fair this week, in addition to the program to be presented by the American Legion Tickville Band.

The Lone Star Band is to play in the parade to be staged at 11 o'clock Thursday morning and will play for the street dance to be given Saturday night.

The High School Band is to meet this evening at the high school at 5:45, leaving for Eastland at 6 o'clock to take part on the program. It will play on the square and on the platform prior to the program by the Tickville Band.

A number of cars are needed to take the musicians to Eastland and anyone who has a car in which one or more of the band boys can be requested to be in front of the high school at 5:45.

### AX CLAIMED 26 VICTIMS

BERLIN.—In Germany, in the first half year of the Hitler regime, 26 persons were executed by the ax. Some executions were for political reasons, others for criminal reasons. It is reported that murders have greatly decreased since the death penalty.

### Reich Scientist To Teach in U. S.

Denying rumors that he had left Germany because of persecution of the Jews, Max Wertheimer, world-famous psychologist and philosopher, is shown above as he arrived in New York. A former professor at the University of Berlin, he'll teach and lecture in this country.

### POLICE SEEK SWINDLERS OF TEXAS RANCHER

FORT WORTH, Sept. 20.—Police today sought two confidence men as the perpetrators of a robbery here in which Ely Marlin, Throckmorton rancher, was robbed of \$5,200, all in \$100 bills.

Detectives listed Marlin on the records as the victim of a confidence game and said that what had at first been described as a daring daylight holdup was a coup by which the fleecers obtained the money.

Officers found a fake money-making machine in a hotel room in which Marlin said he talked with the two men yesterday. After talking with the men he went to the bank, he told officers, to withdraw the money to close a deal. One of the men accompanied him and waited outside. As he emerged from the bank, he said, the man threatened him with a pistol, took the money and fled.

### Defense Counsel Says Coy Oakley Innocent of Murder

SULPHUR SPRINGS, Texas, Sept. 20.—Defense counsel for Coy Oakley, on trial here in connection with the slaying of 3-year-old Bernice Clayton in a religious ritual, today sought to show the young man had no part in the actual "laying on of hands" as the "faith cure" was called.

Coy prayed while his brother, Paul, sentenced to 50 years in prison in the slaying, performed the ceremony, the defense sought to show.

### REPORT SAYS TEXAS RELIEF COSTING MUCH

AUSTIN, Sept. 20.—Work of the Texas relief commission in administering relief funds was complicated today by Dr. Aubrey Williams, regional representative of the federal emergency relief administration.

He estimated, however, the cost of administering relief is approximately 9.3 per cent, as compared to the national average of 8.1 per cent.

Williams estimated the total relief fund needed in Texas between now and March 1 at about \$14,000,000 or an average monthly expenditure of \$2,200,000 of both state and federal funds. About 6 per cent of the total amount would be needed for administration, he said.

### METHODIST IS WINNER OF THE CHURCH PRIZE

Though the voting was heavy on the last day, the Methodist church came out ahead in the Prosperity Club campaign to keep the lead they had maintained for some time.

The Catholic church and Church of Christ, which have been in and out of first places, were the real contestants, with the heavy vote swung on the last day putting the Church of Christ in the lead. The counters, who had a hard job, noticed that many of the votes had been withheld until the last day as many showed signs of being carried in pockets and in purses for some time. This was particularly true of the votes counted today and it was evident that many had kept back votes until the last to swell the total for their churches.

The standing of the churches at the last count, which marks the end of the contest, was as follows:

Methodist	895,315
Church of Christ	697,270
Catholic	693,103
Central Baptist	464,370
First Baptist	363,625
Presbyterian	296,560
Seventh Day	75,375

The votes have all been collected, counted, tabulated and the tickets placed in a sealed container in the Times office, where they will be kept until after the presentation of the checks and will then be destroyed. A careful check has been made of all votes in order to assure fairness to all and it is hoped that everyone will be satisfied with the outcome.

The amounts to be presented to each church are as follows:

Capital prize	\$75.00
Second prize	37.50
Third prize	25.00
Fourth prize	15.00
Fifth prize	10.00
Sixth prize	5.00
Seventh prize	2.50

### Compliance Board Will Meet Today

L. H. Flewelen, temporary chairman of the compliance board of Ranger, has called a meeting of the members, to be held in the office of the chamber of commerce this afternoon at 5 o'clock.

The board is to meet, with Flewelen as chairman, and will then elect a permanent chairman. As soon as the chairman is elected the cards, provided for that purpose, will be filled out, giving the names of each of the members. These cards are to be mailed to the National Recovery Administration, where they will be kept for reference.

The board will probably be called to meet in regular session soon after the selection of a chairman.

### Rotarians Hear of Committee Duties

H. C. "Andy" Anderson had charge of the program of the Rotary club today, giving an interesting talk on the duties of the club service committee.

He pointed out that the life of a club depends on the membership and classification committees and that the roster should be made up of filled and unfilled classifications and an effort made to keep all classifications filled.

He pointed out the advantages of fellowship, good programs and the other duties of the committee that go toward making a good club. He concluded by asking the cooperation of every member in order that the president could make this one of the best years in the club's history.

### Slowness of Clerks In Getting Returns Is Quite a Puzzle

AUSTIN.—Why county officials are so slow in sending election returns to secretary of state has been a puzzle here for a number of years.

Now the valid reason in many cases may have been found. The explanation here is that county officials have grown so accustomed to getting a fee for every public service performed it takes a fee to move many of them. No fee is provided for transmitting the returns.

### QUADRUPLETS ENTER COLLEGE

They may not look it, but Roberta, Mary, Leota and Mona Keyes, left to right above, are quadruplets—said to be the only living quadruplets in the United States to reach maturity. The 18-year-old sisters of Hollis, Okla., dressed identically, are pictured as they entered Baylor University at Waco, Texas, the other day.

### Famous American Legion Tickville Band of Ranger To Open the County Fair With Program At 7:30 Tonight

The famous American Legion Tickville Band of Ranger, directed by Dr. H. A. Logsdon, will be the feature on the Ranger program tonight opening Eastland county's seventh annual fair. The program opens at 7:30 tonight with a concert by the Eastland band. At 8:00 o'clock the program will be turned over to representatives from Ranger. As last year a grandstand has been erected on the vacant lot just east of the Texas State Bank building and from this the programs will be presented.

Following the program to be presented by Ranger, Carbon will put on a program. In addition to this there will be plenty of boxing, wrestling and other amusement.

Workmen today were adding the finishing touches to the midway, located on East Commerce street and which will be brilliantly lighted and crowded with numerous devices to entertain and amuse the crowds. The midway this year will be much better than any time heretofore. There will be a greater number of features and arrangements are more complete. It will be open tonight.

It was stated at noon today that by opening time tonight all exhibits would be in place, all decorations up and everything in readiness for the show's opening.

Thursday night the program will be in charge of Cisco representatives and will be in the following order as outlined in the fair catalogue.

7:30—Opening by Eastland Band, Midway.  
8:00—Cisco program.  
9:00—Old Fiddlers' Contest.  
10:00—Square Dance.

### THIRTEEN ARE INDICTED IN MAIL ROBBERY

FORT WORTH, Sept. 20.—Thirteen men and women were under indictments in connection with the \$72,000 mail robbery here last February, it was learned today.

The indictments were returned yesterday by a federal grand jury at Amrillo.

Five of the accused are under arrest here. They are M. D. Howard, Claude Hill, O. D. Stevens, W. D. May, and W. T. Howard. Federal authorities refused to name the other eight, pending their arrest.

ARTIFICIAL LUNG SAVES BOY  
ABERDEEN, Scotland.—Artificial "lungs"—a respirator designed by Dr. Robert G. Henderson of Aberdeen City Hospital—saved the life of a ten-year-old boy, it is claimed. The boy was suffering from infantile paralysis and was believed to be dying.

TOWN BURNED SCRIP  
CHICO, Calif.—Citizens gathered here with gaiety the other day—and burned up \$15,000. The currency was "scrip" used in Chico's business channels during the bank moratorium.

### REVISED CODE FOR RETAIL STORES MADE

WASHINGTON, Sept. 20.—A revised code of fair practice for the retail trades, providing price protection and stop-loss provisions, was made public today by NRA officials.

Officials who prepared the code, which will be discussed further before being presented finally to President Roosevelt for his approval, said the document could not be considered a price fixing measure.

It entitles prices, however, to the extent of checking predatory price cutting.

The code in its new form prohibits the selling of any merchandise, with certain exceptions, below a minimum price which is described as "the wholesale delivered price—with the addition of a charge of 10 per cent."

"Wholesale delivered price" was defined as "the lowest gross billing price, as of any date within 30 days prior to the date of resale, made to any retailer in the given market area less only such discounts as are extended to all retailers and plus delivery costs paid by the retailer."

### Wallace Tells of Inflation, Price Fixing in Address

CHICAGO, Sept. 20.—Secretary of Agriculture Wallace, in an address which had been read and approved by President Roosevelt, today gave the nation the administration views on inflation and price fixing.

The secretary declared inflation is not a cure-all, and that attempts to fix prices without control of production were dangerous and "doomed to failure."

"There is danger," Wallace warned, "that the optimism, price fixing and inflation will off a them tend to increase, rather than reduce the lack of balance of our creditor position, our high tariff, our surplus acres and excess stocks of fundamental goods."

### Pres. Roosevelt Pays a Tribute To Boy Scouts

Following is an extract from the address of President Roosevelt as given to the New York Civic Boy Scout camp:

"This spring, because of my scout training, I took a leaf out of the notebook of scouting in order to take care of a lot of boys who are a bit older than you are—boys who had graduated from high school and some of them from college, but who had not been able to get work for a year or two or three years.

"And we started in this country, modeling it to a large extent after scouting, a civilian conservation corps, and today there are two or three hundred thousand older boys in various parts of this country in these civilian conservation camps, taking care of forests, preventing fires, stopping soil erosion and doing a thousand other tasks that the country needs.

"And I am told that in these camps—of course, when you get a camp of 200,000 boys together some of them naturally develop into leaders—and I am told that the boys who have had scout training are coming forward more rapidly than any others and are becoming the leaders of a great many of these civilian conservation camps.

"It is a pretty fine tribute to what scouting has done throughout the country.

"I am glad, too, to see that you have adopted the NRA insignia. We are going to number about 130,000,000 people before we get through.

"And when you come right down to it, the NRA is based on the same fundamentals that scouting is based on. In other words, trying to do something for the other fellow and not trying to do somebody.

"It is based on co-operation—you know what that means. It is based on the spirit of service, and it is going to work just as scouting is working."

### Judge Guarded In Bailey Trial

Federal Judge E. S. Vaught, above, is presiding at the trial of Harvey J. Bailey and 11 others at Oklahoma City on a charge of kidnaping Charles F. Urschel, oil millionaire, for whose release \$200,000 is said to have been paid. The federal building was under heavy guard as the trial began.

### RETAIL PRICE PROBE TO BE STARTED SOON

WASHINGTON, Sept. 20.—The most ambitious investigation of retail prices in America was planned today as part of the NRA program.

Protection of consumers against runaway prices and the setting up of a wholesome supervision of price trends were the objectives.

The research will be extended to some 1,500 items sold daily in cross roads stores and metropolitan markets. More than 400 cities will be covered by the survey, with emphasis on a true representation of what is happening in the retail field. For the present the undertaking will be on an emergency basis. The long range aspect of the plan contemplates a permanent organization in 12 to 20 key points, with every one of the more than 400 representative towns and cities reporting retail price trends at least once a month.

### New Mexico and Idaho Join The Parade for Repeal

Idaho and New Mexico joined the repeal parade today, putting the wet cause within five states of final success. They were the 30th and 31st successive states to approve the repeal amendment.

New Mexico voted approximately 3 to 1 to repeal the 18th amendment. The Idaho majority was narrower.

National repeal leaders believed they would be assured of the ratification of 39 states, three more than they need, Nov. 7, when five states pass on the issue. These states are Ohio, Pennsylvania, North and South Carolina, Utah and Kentucky. Virginia votes Oct. 3 and Florida Oct. 10.

### INFLATION TO BE ASKED OF ROOSEVELT

WASHINGTON, Sept. 20.—President Roosevelt will be glad to see and talk with representatives of southern cotton growers who have been urging inflation, the white house announced today.

The growers must await their turn in seeing the president, it was indicated. Because of his cold Mr. Roosevelt is two days behind his schedule of appointments.

TEXARKANA, Texas, Sept. 20. Congressman Wright Patman, democrat, Texas, advocate of the soldiers' bonus, today urged inflation as a means of increasing purchasing power and as a stimulant to the NRA.

### HYDE'S SON IS GUARDED AFTER THREAT

Shannons Go To Courthouse In Armored Car Guarded By Machine Guns.

OKLAHOMA CITY, Sept. 20.—The terrorizing messages by which kidnapers of Urschel forced payment of the biggest ransom in American history—\$200,000—were read to a federal court jury today in trial of 12 alleged conspirators.

The isolated, heavily guarded courtroom itself was in terror because of two new sensational gangland threats hurled at three defendants, the millionaire oil man, Urschel, and government attorneys.

The threats came from Harvey Bailey, notorious desperado, accused as plotter of the crime or his cellmate, Albert Bates, and from George (Machine Gun) Kelly, one of the alleged abductors who is a fugitive.

An armored car was used to bring R. G. Shannon, his wife and their son from jail to the court building, where 16 officers, armed with machine guns, kept a steady vigil.

Little Herbert Hyde, Jr., son of the chief prosecutor, was in a secret hiding place under guard of federal agents, because of a threat to kidnap him, "to cool his father off."

Eight officers, armed with machine guns, escorted the armored steel car inside which the Shannons will hereafter be taken to and from court for fear Kelly will suddenly appear and try to get vengeance on them for "talking."

During the day government witnesses established that Mrs. Katherine Kelly, fugitive with Kelly, bought the machine gun used when Urschel was taken the night of July 22, by two men identified as Kelly and Bates.

District Attorney Hyde read from the original ransom note, which the kidnapers forced Urschel to write. It was a fervent plea to come to his rescue and an admission his life was in danger.

### Burglary Case Continued; Two Others Heard

The case of the State of Texas vs. Robert Thompson, charged with burglary, was called for trial by Judge Geo. L. Davenport of the 91st District Court Wednesday morning and continued to Oct. 15th because of a motion filed by the defense showing the absence of material witnesses. Fines of \$25 each were entered against witnesses absent without apparent cause.

At the opening of the morning session Judge Davenport also called the cases of the State of Texas vs. Joe Ferguson and the State of Texas vs. Geo. Hamilton, neither of the defendants appearing in court bond was ordered forfeited in each case.

Other cases disposed of in the 91st District Court this week were Ethel Fehl Jarrell vs. J. N. Jarrell, suit for divorce in which judgment was granted the plaintiff at the same time restoring her maiden name, Ethel Fehl; and Beatrice Yancey vs. L. D. Yancey, suit for divorce, in which judgment was allowed the plaintiff, restoring her maiden name, Beatrice Turner.

ANOTHER MILESTONE WHIZZES BY

When you are traveling fast and have no speedometer, one way of gauging your speed is to watch the milestones along the road and see how rapidly they are whizzing by you.

One of the handiest milestones now available for Uncle Sam's children is that provided by the banking business.

Less than a year ago finance was still the sacred mystery of the old days, a realm which ordinary mortals might not criticize and into which a mere public servant might not venture without first removing his hat.

Today we find responsible government officials declaring that it may soon be necessary for Uncle Sam to assume virtual control of the whole banking industry.

The R. F. C., it is pointed out, is ready to invest a billion dollars in stock of banking institutions. In this way it could get a 25 per cent ownership in American bank capital, and would have an important voice in the control of most of the nation's banking resources.

It would, of course, take the seventh son of a seventh son to say right now whether all of this will actually be done. But the mere fact that the administration is talking about it is immensely significant. . . . Do you see that milestone whizzing past?

Now it is easy to find good reasons for opposing this proposed step. The principal reason that will occur to most people, probably, is that we have no guarantee whatever that the scheme would work out well. No one, that is, knows whether Uncle Sam is qualified to run the banking business. He might make a fine hash of things.

But any question of this kind has got to be considered against its proper background; and the proper background for this one is the simple fact that the existing system has been working very badly indeed for quite a long time. Bank depositors and stockholders have lost a great deal of money, and trade has not had the credit facilities it should have had. We may be moving at a frightening pace, but we had plenty to be afraid of when we were standing still.

NRA VICTORY RALLIES

In eight Texas cities, achievements of the national recovery program are signaled in rallies Wednesday night of this week.

Texas has responded in a way comparable with the best in any other part of the nation toward the NRA and Blue Eagle campaign. The rallies are of direct interest and concern to all who have become members of the vast Blue Eagle corps; to all of those signed up as consumers pledged to support those who support the president; and of particular interest to many thousands whose labors helped put across the NRA drive.

Texas, in these rallies, takes stock of the greatest achievements since the war spirit concentrated efforts of everybody into one giant undertaking.

It may be that heaven will protect the poor working girl. But who will protect the guy she is working for?—Dodd Vernon in Edinburg Valley Review.

DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

J. T. CROSSLEY, advertising director of the Portland (Oregon) Morning Oregonian, says:

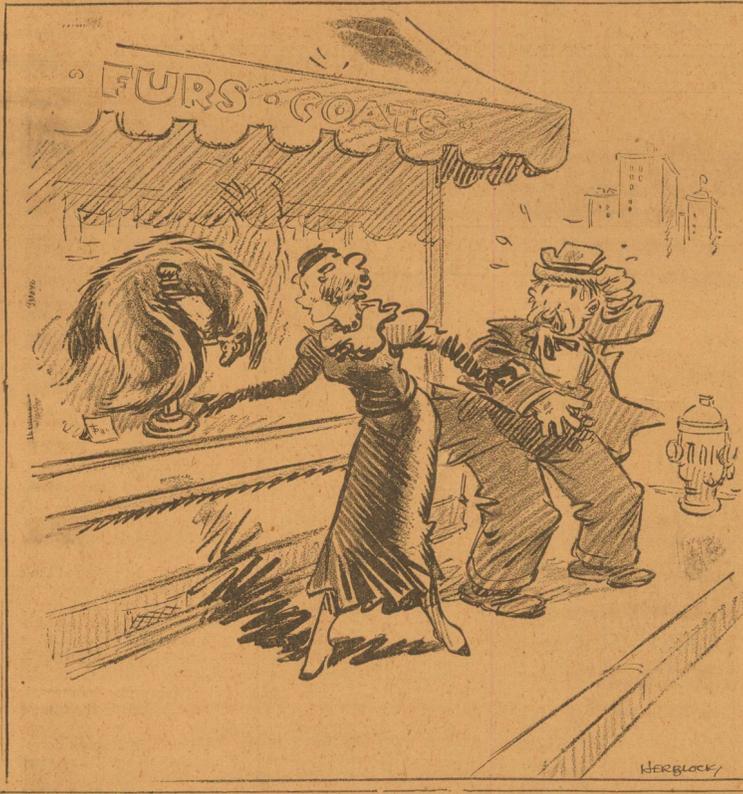

THAT before a merchant or a manufacturer goes into business he must be properly financed. That is, he must know just where the cost of his merchandise or his raw materials, his rent, his payrolls, his fixed charges, are coming from. He cannot hope to be successful otherwise.

One of the necessary costs of operation is his advertising expenditure, because advertising in one form or another is absolutely necessary if he is to dispose of his stock. Yet in spite of these obvious truths, all too few business houses look this far ahead. They content themselves with renting a place in which to do business and with putting in as little stock as they believe they can get along with. When it comes to advertising, there is no money left for it, and the struggle then begins to move the goods they have on hand.

Intelligent foresight would have suggested advertising as an integral part of the operating expenses—a part just as important as the sales force. The path of business failure is strawn with the remains of businesses, large and small, that "didn't have any money left for advertising."

Part of the work of every newspaper advertising department concerns itself with showing business men, who should know the facts already, how necessary to the very life of their business is advertising. This does not mean large space necessarily, but it does mean intelligent use of space, based on a regular schedule.

THE HUNTING SEASON OPENS

OLDEN

At a regular business meeting of the Olden Parent-Teacher association, Thursday, Sept. 14, a membership drive was inaugurated. Mrs. Collins and Mrs. Smith, leaders of the two sides, chose their followers for the big drive. The side which is successful in obtaining the most new members on or before next regular meeting date, Sept. 28, will be entertained and banqueted by the losing side. Much interest in the drive is being manifested and to date both sides have reported many new members. Open meeting will be held Friday night Sept. 29 and everyone is invited to attend. It is thought the P.-T. A. year here will be highly successful and many novel entertainments are planned for the season. It is the hope of the Olden P.-T. A. to create more community interest through closer social contacts and through loyal support of its members this can easily be done.

school junior class enjoyed a sunrise breakfast at Butler Springs Saturday morning. Principal Pickens, sponsor of the class was a guest at the breakfast. The senior class of the Olden high school elected Sidney Sapulver president, Catherine Stanton secretary, and Mary Ford reporter for this year. The rose was selected for the class flower and in line with the NRA their class motto is "We Do Our Part." Fourteen members constitute the graduating class of 34 here this year, Sidney Sapulver, Clyde Hunter, Earl Connell, D. M. Collins, Roy Britt, G. W. Williams, Carvey Fullen, Catherine Stanton, Hazel Woods, Mary Ford, Mary Lily Young, Ruby Curry, Faye Dick, and Mildred Kirby. Sup. Henry Collins was elected class sponsor by a unanimous vote. A musicale was enjoyed at the home of Mr. and Mrs. Jordan in west Olden Monday night. Mrs. Carl Rehn of Fort Worth visited her aunt, Mrs. L. V. Ford and family here last week. Mr. and Mrs. Hulsey have been enjoying a visit by their son and

his wife from East Texas. Victor Hand, left Sunday for Arlington, where he will attend school this fall and winter. He will study electrical engineering. Jack Stephens left Monday for Pampa, expecting to be gone several days. Mrs. A. M. Harrison will open the Tri-Me cafe here within the next few days. She is well known here, and formerly operated the Tri-Me cafe here before moving to Ranger. Since leaving Olden, Mrs. Harrison suffered the loss of her husband, who was also well known and liked here. She will be welcomed back by many old friends. Mr. and Mrs. Dixie Tate and Mrs. Will Stephens of Stephenville were week-end guests of Mr. and Mrs. Jack Stephens in Olden. Mr. and Mrs. S. J. Clark lost their chickens Sunday night when thieves entered their premises and took them sometime during the night. Baldrige Crawford, Lloyd Woods and Aubrey Gooden are working near Okra at this time. Jack Stanton returned from Houston several days ago.

PITCHER MADE RECORD

By United Press

FT. DODGE, Ia.—Stanley Nelson, pitcher for Olson's Jewelers former national champion diamond ball team, hurled his team to a 10 victory over the People's Oil squad here, not allowing a run or a hit. Not a single batter opposing him reached first base. He struck out 11.

IT TAKES HEALTHY NERVES TO BE A SHARPSHOOTER

THREE TIMES HIGH MAN on the U. S. International Dewar .22-calibre rifle team, and former U. S. small bore champion, Virgil Richard is professional shooter for Remington Arms Co., Inc. He always has to be a brilliant marksman—regardless of sun, wind, or rain. There is no question about his knowing the secret of healthy nerves!

DURING THE DAY'S SHOOTING, and later around the evening fire, Camels add to the pleasure of your outing. As Virgil Richard says, "Camels are a much milder cigarette and they never interfere with my nervous control, no matter how much I smoke."

IT IS MORE FUN TO KNOW
Camels are made from finer, MORE EXPENSIVE TOBACCOS than any other popular brand.

Steady Smokers turn to Camels

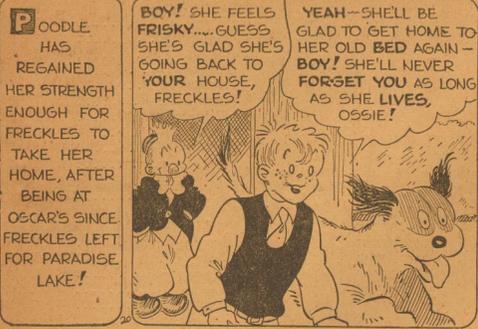

VIRGIL RICHARD, in discussing smoking and shooting, says: "People often ask me if a professional sharpshooter can smoke as much as he wants. I've been enjoying cigarettes for years, without difficulty in keeping my nerves in shape for making record scores in tournament shooting events. That's because I have long been a Camel smoker. I have experimented with all the popular brands, and I find Camels are better for steady

smoking. They're a much milder cigarette, and they never interfere with my nervous control, no matter how much I smoke."
Switch to Camels. You'll like the remarkable mildness . . . the fine, rich flavor of Camel's costlier tobaccos. You'll have satisfying proof that Camels do not interfere with healthy nerves.

FRECKLES and HIS FRIENDS—By Blosser

OUT OUR WAY

For the LOVE of EVE by Lucy Walling

BEGIN HERE TODAY EVE BAYLESS, pretty assistant to EARLE BARNES, advertising manager of Bibb's department store, marries DICK REECE, a construction superintendent. Dick is sent to take charge of a construction job in the Adirondacks. It will require at least a year to complete but Eve refuses to give up her work and go with him.

MONA ALLEN, copy writer, dislikes Eve and is constantly causing trouble at the office. She is responsible for several mistakes for which Eve is blamed. Mona is friendly with THERON REECE who continues to force unwelcome attentions on Eve. Unknown to Dick, Eve has been playing the stock market, borrowing money from her mother and sister. She loses this, as well as all her own savings and \$400 Dick left in the bank.

ALL day Sunday Eve stayed in the apartment. She felt tired and spent after the nerve-racking experiences of the night before. There was no doubt in her mind that Mona Allen was responsible for what had happened—Mona whose invitation to Eve to take dinner with her had seemed so friendly!

At first, angrily, Eve tried to think how she could make the other girl pay for her tricks. Gradually, however, Eve came to consider the matter more calmly. By Monday morning she had decided that it would be best to ignore the whole affair. No doubt Mona had an alibi well rehearsed and would be only too glad to recite it, her blue eyes wide open and looking completely innocent as she did so.

"I'm not going to be put on the defensive for an attack she made on me," Eve told Arlene, after relating all that had happened Saturday night. But it was Mona herself who brought up the subject. She entered the office, removed her hat and a moment later was beside Eve's desk. "Whatever became of you Saturday night?" she demanded. "I was so worried! The boy friend and I met a man he knew who invited us to have a drink. We were in a booth at the opposite end of the room and when we came back Reece told us you had gone. In a way I don't blame you. That place is an awful frost. I'd never had gone there if I'd known what it was like!"

"Just Make Yourself at Home"

It's an old expression, but it's typical of the warm, friendly atmosphere at the Crazy Water Hotel.

People get acquainted here, because so many of them come back year after year to drink Crazy Mineral Water and take a course of Crazy Mineral Baths. They enjoy meeting their old friends just as you will. . . . But more than that, you too can get back "in condition" for another year just through drinking Crazy Mineral Water and enjoying those baths under the supervision of trained masseurs.

This year all the facilities of the Crazy Water Hotel, including a large, comfortable room, all your meals, mineral baths, and all the Crazy Water you can drink served to you in your room or at the noted Crazy Water bar may be your for as low as \$20.00 per week.

## DERRICK SHADOWS

By V. MARIE STEPHENS

We have here the making of a man . . .

You have given him to us . . . with his knees skinned and his hair tousled and his big eyes opened wide in wonderment.

You have given him to us in his first infancy . . . the trying period of exchange; from tender home training to tough school existence.

He must learn to fight without tears . . . to give without thanks . . . to forget injuries.

We are the teachers.

To us you have said:

"He is now yours. It is up to you to train him,

Teach him, \_\_\_\_\_

Prepare him, \_\_\_\_\_

Love him, \_\_\_\_\_

You are the mothers.

Yesterday you said, "He is yours."

Today you call us or visit us or write us . . .

You ask us why, and tell us how, and wish we wouldn't, and hope we will.

You fuss at us, and quarrel with us, and pat Johnny on the head, and brush away Bobby's tears.

Ours? My dear mother-of-a-child . . . in a way he is lost to you.

He is no longer yours. He has folded his baby tent and crept away in the night.

We are the teachers . . . at least, we are supposing we are the teachers, and putting ourselves in the schoolroom for the day.

We are facing irate mothers whose young sons have been spanked or ill-treated.

We are trying to explain why Billy can't learn, and Jackie can't spell, and Tommy can't read.

And we are trying to make you see that they belong in the world now. Youth learns so quickly . . . don't hamper him. Let him take it on his soft little chin . . . learn to kick back.

Leave us alone . . . let us make a man of your boy . . . year by year . . . day by day. You have given him to us . . . let us have him.

Let's cut his hair a little shorter . . . harden his fists . . . put something inside him besides his childish self.

Give us a chance . . . we have here the making of a man.

## Junior College and High School

Jewelle Judd, Editor

Junior College Aids Students in Both Vision and Skill

From the beginning Ranger Junior college has attempted to give its students both a vision of the world in which they found themselves and an initial skill whereby they can become producers. It does not desire to give them a permanently satisfying vision or modify the other. Many of them, we realize, will not desire to continue permanently in the line of work in which they started; they need, however, to have something that they can definitely do to enable them to obtain a start and a start is about all any educational institution can hope to give.

High school graduates appear to divide themselves readily into three somewhat distinct divisions; those who are book minded, who, if they have the opportunity, can successfully take advantage of university training, those who are manual-minded, and will obtain their greatest satisfaction from the industrial work taught in our vocational school; and those who are the one nor the other, but who will make up the greatest bulk of our productively industrial citizens.

Several great universities, outstanding institutes of technology, and several fine liberal art colleges have been provided for the first two groups. But for the third group nothing had been provided and it was for this group that the junior college feels itself particularly responsible.

Since educational tradition seems to have decreed that only the academic minded are educationally worth while duplication in

## BRECK TEAM WINS TWO AND TIES ONE GAME

The Breckenridge All-Stars, playing three games in one afternoon, defeated Robinson Grocery 4 to 0; won from the Ramblers 2 to 1 and tied the Ranger All-Stars 2 to 2 in four innings. The first two games went five innings each.

All three Ranger teams were make-shift affairs, being made up mostly from the few players supposed to be on the team and those who could be collected from the crowd. No team on the field had its entire strength out.

Hicks, Breckenridge southpaw, went the entire route, pitching 14 innings before the contests were called on account of darkness.

The box scores of the three games.

Wednesday, Elks vs. Times.  
Thursday, Rotary vs. Barbers.  
Friday, Prairie vs. Rotary.

The Legion, only team to defeat the Magnolia teams in the Twilight league this season, went down in defeat before the Lions Tuesday afternoon, the Lions winning by a score of 14 to 10.

Wagner started pitching for the Lions and allowed three hits and seven runs and was relieved by Larson, who finished the four-inning game. The Legion made three runs and five hits off Larson.

Hatley, pitching for the Legion, allowed eight hits and 14 runs in the four innings, both teams making seven errors.

The game placed the two teams in a tie for position in the standing column of the league.
