

THURBER

LAVADA FENNER

Thursday evening Mrs. W. C. Hale's accompanied 25 young people to Mingus Creek where they enjoyed a picnic. Pickles, sandwiches and fruit were had at a late hour.

On Monday afternoon a group of ladies surprised Mrs. L. J. Turnbow with a birthday party in honor of her 72nd birthday. After a delightful afternoon, cake and ice cream was served. The honoree received some lovely and useful gifts.

Saturday evening Mrs. W. M. Brown, Mr. and Mrs. C. C. Mitchell, and Mr. and Mrs. Dean Hiatt accompanied 35 boys and girls to Mingus Creek where they enjoyed a picnic.

Mrs. Frank Conn entertained with a dance at her home Monday evening. The large number attended expressed themselves as having a good time.

The Epworth league met in regular session Sunday evening at 7 o'clock. The leader, Miss Modean Livingston gave the following program. A memorial talk by Rev. W. E. Anderson. A special by Misses Laurine McKinnon, Dorothy White, Modean Livingston and Claudia Mae Anderson, Miss Wyntha Dorris read the scripture afterwards the announcements were given by the president, Miss Lavada Fenner. There were 14 present.

The Baptist W. M. U. met Monday afternoon at the home of Mrs. H. L. Foster. Mrs. T. E. Hale had charge of the Bible study lesson. Punch and cake were served those present.

Misses Urairie Irving and Lillian Brown are in Fort Worth this week visiting Miss Gwendolyn Goodman.

Mrs. Bill McMillan and children of Woodward, Okla., are visiting Mrs. McMillan, Mr. and Mrs. Theo Byes and other relatives.

George Paulowski is in Iran visiting his mother, Mrs. Delphia Paulowsky and other relatives.

Mr. and Mrs. Sid Tackett had as Monday visitors, Mrs. Henry Harrison and son of Dublin; Miss Viola Moody, Mr. and Mrs. J. M. Moody, Mrs. J. T. Moody and Mr. and Mrs. Bryan Davis of Huekaby.

Mr. and Mrs. Dave Box are visiting their daughter, Mrs. Finnis Whittington at Liberty.

Bill, Harry and Dorothy Snehold of Fort Worth visited several days last week with Lillie and H. M. Brown.

Misses Mary Gary, Crystal Harwood and Vivian Conn were Ranger visitors Tuesday.

There will be services at the Methodist church Sunday morning, at 11 o'clock. There will not be an evening service as Rev. W. E. Anderson is conducting a revival meeting at Gordon.

Mr. and Mrs. W. W. Wiggins were in Morgans Mill during the week-end.

Floyd Bolton of Mineral Wells visited Thursday with Miss Urairie Irving.

Try a Hudson before you buy.

LONE CEDAR

Some are busy harvesting oats but report it very light.

Mrs. T. B. Wheeler and children spent a week with Mrs. Mary Hemphill of Mineral Wells.

Louise Puryear and family of Weatherford were week-end guests of Mr. and Mrs. H. Brashears.

Rev. Hill of Ranger preached Sunday evening and will be back next Sunday evening 2:30 o'clock. He is also preaching at Merriman at night this week.

Elvert Maddox is reported better. He was poisoned by eating berries Saturday.

Miss Saree Graham and mother spent Wednesday with Frank Graham of Rising Star.

Miss Inez Falls was week-end guest of Miss Imogene Powell.

Mr. and Mrs. Jim Coop spent Sunday at Idus Echols home.

Try a Terraplane before you buy.

WARD'S REMODELING

Use Ward's Budget Plan...Buy the Things That You Need!

Friday and Saturday, June 8-9

SALE

Taffeta Slips

49c
Lace Trimmed

Lovely, lacy slips of rayon taffeta, bias-cut for a smooth, sleek fit. V or straight top styles in flesh, tea-rose and white.

New Gloves

Another Grand Ward Value!
White, beige, chamouise fabrics, with pique cuffs. **35c** Pair

Summer Bags

Are Low Priced at Ward's!
White! Beige!
In all wanted styles. Nicely fitted. **49c** Each

During the six years that Montgomery Ward's retail store has served the people of Ranger and the surrounding territory, the demand for Ward's merchandise has been such that it has become necessary to remodel the entire first floor of the building, placing all merchandise on display in such a manner that it is more readily accessible and the customer can more easily find just the merchandise he is seeking.

This change has been made necessary because the public has made the store so popular new facilities were necessary.

Ward customers have been so satisfied that their ever increasing number makes additional shopping convenience necessary and it was for these customers that the changes have been made, making the store more suitable for this growing trade. You can readily find whatever you want with a minimum of effort and time through the newly display arrangement and the new ideas in grouping the merchandise. It is sincerely hoped that our customers will appreciate this effort to serve them even better in the future than in the past.

Look at This Sensational Value!

3-Pc. Suite \$49.95

Garden and Yard Hints From Club Women of County

Care of shrubs through the dry summer months is perhaps the biggest problem women face in yard improvement, especially in the rural sections. The plants must have moisture to survive, and usually watering a yard in the country is more than a matter of turning on the hydrant. But fortunately there are methods we can use that make watering effective even when it is done less often. In fact supposing the beds were in proper shape to begin with, there are four points that need to be considered in summer care of shrubs; removal of annuals from shrub beds, frequent shallow cultivation, proper watering and mulching.

Removal of annuals is necessary—even though you may feel that it leaves your beds looking bare—for the annuals grow so fast that they use all of the food and moisture that the shrubs, especially if they are new and not well established, need. As a result shrubs are stunted in growth if they survive at all. If the shrub beds do look a bit bare this summer, remember that the better start shrubs have the sooner they will make an effective planting that has some permanent value the year round.

Frequent shallow cultivation is quite as important as watering because it puts the soil in shape to receive and to hold the moisture applied. Like a sponge, a loose soil take up water and holds it, but like a brick, a baked crust of soil sheds water and dries out quickly. So, after every rain as soon as the top soil will crumble, it should be stirred about one to two inches deep with a rake—I say a rake because there's no danger of your working too deep with it. Remember this shallow cultivation is meant to conserve moisture—not to stimulate the plant. The ground should be stirred often enough that a crust never forms and that a dust mulch is kept on top—that will mean every three to ten days—depending on the soil and amount of rainfall. Though it is necessary to work the soil after every rain, it should not be dug while wet because it may sour and it gets cloddy and loses moisture.

Everybody realizes the necessity of watering—but it really is surprising how many folks do not water right. It's possible to do more harm than good at watering. Whatever method we use, to be effective, must get the water down into the soil far enough that the

roots are encouraged to go deep for a drink. You may use a system of sub-irrigation so the water never reaches the top soil, or you may pour water down by the root of a plant through a pipe inserted for the purpose, or you may round out a depression in the soil around the plant and apply bucketsful of water, watching it soak in two or three times until the soil there seems to have drunk in all it wants. At any rate, when you water, soak the plants. A little bit of water put on top will cause the plant rootlets to come to top of the ground for water—which condition means that the hot sun or the dry winds or the winter freezes will kill the plant easily. Instead of dabbling on a little water each day, save your water, your energy and your plants by watering thoroughly every week or ten days, and cultivating properly as already indicated. Unless you have a gardner whose sole duty is to look after the yard, plants should not be watered more than they need or cultivated deeper than one or two inches, for such treatment would stimulate a sappy growth that could not stand the reverses of sum and wind and freeze. For most of us, the best policy is to withhold any cultivation, fertilization, pruning or watering after September that might encourage fall growth, so that the spring and Manner growth will have a change to harden and mature before first freezes.

The fourth thing to consider in summer care is mulching. With soils that lose moisture quickly or that have a tendency to crust over quickly a good mulch should be used. After the bed has been watered and cultivated, a three or four inch layer of leaves, straw, pine needles, moss, etc., or an inch layer of leaf mold or well rotted fertilizer can be spread all over the top of the beds. This mulch is meant to prevent the excessive evaporation of moisture from the soil, it performs the same duty that the dust mulch does, but since a dust mulch is hard to keep on some soils, a mulch of other materials becomes necessary. Incidentally, as the mulch disintegrates, it makes a fine addition to the soil itself.

There is no hokus-pokus way of having a lovely yard—but the simplest methods patiently applied bring happy results. Summer is the time to test a good gardner; but if you adhere strictly to removal of all annuals from shrub beds, frequent shallow cultivation, SOAKING plants when they need water, and applying a special mulch to soils that lose moisture

readily, you can qualify with the best.

Removal of annuals from rose garden and shrub beds is necessary because the annuals grow fast and use all the food and moisture that the shrubs and roses need, choking the plants out and stunting them, sometimes killing out the valuable plants. You feel as I have felt, the yard looks bare, but it is better to look bare for a season and get the good growth needed for the shrubs and roses. The annuals can be planted in a bed to themselves and have the flower garden along with the permanent plants. This is the experience Mrs. Genie Ford, yard improvement cooperator of the Romney home demonstration club.

Grass Lawn Without Using Bermuda Grass

Running mesquite grass is quite as good as Bermuda for a lawn. It has the advantage of being more drought resistant, grows more closely to the ground, requires less frequent mowing and is easier to get rid of when or if it should get into the fields or garden. Since the reasons given for not using Bermuda grass are that it take water, mowing and gets into the fields, there is no reason now for not having a grass lawn. Miss Hallie Hill, yard demonstrator of Okra, has put the mesquite grass on the yard and it grows well in this county, being a native grass. There are two mesquite grasses, the curly mesquite which grows in bunches, and not flat. The running mesquite grass is sometimes called Buffalo grass. Carpet grass, or San Augustine grass, makes good lawns, but is rather coarse in texture. It is good in the shade and stands drought just fairly well.

The mesquite grass roots should be started in the yard in the fall when the rains start, this in order to get a good start or good root system before spring and summer.

Three Chicago women lost a total of 32 pounds on a 30-day haman and skim-milk diet. They'd better watch one another, or one could gain the entire weight back in less time.

WHAT CAUSES EPILEPSY? IS THERE A CURE?

The gardens are very good now but are very much in need of rain.

Mrs. J. A. Caraway was in Ranger Monday.

Mrs. N. P. Raney and children took supper with Mrs. D. B. Raney Tuesday night.

Messrs. W. H. Bradford and Frank Bargeley are attending court in Breckenridge this week.

W. H. Bradford has purchased a new thresher and tractor.

Messrs. Tom Flow and Dick Coon of Frankell shocked grain part of this week for A. O. Templeton.

Dick Coon moved to Frankell last week.

Mrs. N. P. Raney and Mrs. A. O. Templeton visited in the home of Mrs. H. L. Caraway of the White Flat community and canned beans and potatoes Monday.

Prize Winner to See Frontier Days

CHEYENNE, Wyo.—Mrs. Caroline Miller, 1934 winner of the Pulitzer best-novel prize, will be a visitor at the Cheyenne Frontier days in July, she has announced.

Mrs. Miller, whose prize winning novel, "Lamp in His Bosom" won her a \$1,000 award said that all her life she has wanted to attend the rodeo at Cheyenne, and now intends to do so.

She will be accompanied from Baxley, Ga., by her husband and two sons.

Relief Activities Depended on Sale of Relief Bonds

AUSTIN—State relief activities will require about \$700,000 more for June with only about \$100,000 on hand, relief officials told the state bond commission, so a single offer received for the remaining \$3,750,000 state relief bonds was accepted. A bonus of \$22,875 was given for the bonds above the face value.

Medical Men Ponder Over Strange Case

ALBANY, N. Y.—A case described as one of the most unusual in medical history continues to puzzle surgeons here.

Frederick McCredie, a machinist, accidentally was struck on the head with a hammer by a fellow-worker in 1925. He appeared to be unhurt. One month later, however, he was found wandering along the streets, unable to remember his identity, or recognize his wife and children.

Gradually his memory returned, but he discovered he had forgotten his trade completely!

NO ONE VOTED IN PRECINCT

BURNS, Ore.—No one came to vote in the Alvord precinct in the southern part of Harney county during the primary election held recently, so Mr. and Mrs. Walter Anderson, chairman of the election board, sealed up their empty ballot box and returned it. They decided not to count their own two votes.

RANGER, TEXAS, FRIDAY, JUNE 8, 1934

NUMBER 22

DROUTH GOES OVER NATIONS OF THE WORLD

Drouth of unprecedented proportions extended over much of the civilized world today, bringing in its wake wholesale crop ruination and loss of life to humans and animals.

Unofficial estimates placed damage in the United States to date at more than \$1,000,000,000.

Dried up crops in India, Russia, the Balkan States, and parts of Asia testified to the effect of the prolonged dry spell.

Fields of Colorado and Nebraska and Montana soaked up as much as two inches of rain over the weekend—rain which arrived too late to aid scorched crops. States in the Great Lakes region remained dry and the record heat wave continued.

Thirty-One Filed For State Offices Subject to Primary

HOUSTON, June 4.—Thirty-one candidates have filed today with the State Democratic executive committee for places on the Democratic Primary ticket to be voted on July 28.

Three candidates, two for governor and one for lieutenant governor, who already have announced have not yet filed with the secretary of the executive committee, Miss Bertha Kunz.

They are Edgar Witt, Waco, and E. K. Russell, Red River county, candidates for governor, and Walter Woodull of Houston, candidate for lieutenant governor.

Miss Kunz said those who expect to be candidates on the Democratic ticket at the primary will have until midnight, June 4, to file their intentions.

Notice of a call meeting will be issued shortly after that date for an official meeting of the executive committee to meet in Austin on June 16. On that date the committee will prepare the primary for balloting.

Five candidates already have filed for the governor. They are C. C. McDonald of Wichita Falls; Tom F. Hunter of Wichita Falls; Maury Hughes of Dallas; Clint Small of Amarillo, and James V. Allred of Wichita Falls.

For lieutenant governor, four candidates have filed. They are R. M. Johnson, Palestine; Ben F. Berkeley, Alpine; John Hornsby, Austin, and James P. (Jimmie) Rogers of Houston.

Four persons have filed with the secretary for the position of State Railroad commissioner. They are Lon A. Smith of Austin; John Pundt of Dallas; H. O. Johnson of Houston, and Jas. L. McNeese of Dallas county.

Only one has filed for the place of superintendent of public instruction. He is L. A. Woods of Austin.

Charley Lockhart will be unopposed on the ticket.

Three names will appear on the ballot for the position of comptroller of public accounts. They are George H. Sheppard of Austin; J. J. Patterson of Dallas county, and Dolph B. Tillison of Henderson county.

The attorney general's office will be sought by four persons: Walter Woodward, Coleman; J. F. Hare, Bexar county; Clyde E. Smith, Woodville, and William McGraw, Dallas.

Walter E. Jones, Gregg county, has been the only one to file for the office of general land commissioner.

W. C. Morrow, Travis county, will be unopposed for the bench in the court of criminal appeals.

Three have filed for United Senator. They are Jos. W. Bailey, Jr., of Dallas; Tom Connolly of Marlin, and Guy B. Fisher.

The position of associate justice of the supreme court will be sought by James W. McClendon, Travis county, and John H. Sharp, also of Travis county.

Two men seek the office of commissioner of agriculture. They are Fred D. Davis, Travis county, and J. E. McDonald, also of Travis county.

Other candidates may file before the closing deadline, Miss Kunz said, but she believed all who intended to file had done so, with the exception of Russell, Witt and Woodull.

Filing fee of all candidates for state offices to be voted upon by qualified voters of the state is \$100 each.

WORLD PULLS FOR QUINTUPLETS IN FIGHT FOR LIFE

Critical Stage Is Near For Crops In Drouth Area

WASHINGTON.—Weather during the next two weeks will just about tell the story for many of the principal crops of the country, now suffering from drouth and intense heat.

Both winter and spring wheat are entering the most critical stage of their growth right now, according to J. B. Kincer of the U. S. weather bureau. Already badly damaged, these crops must have rainfall before the middle of June if they are to make anything like a satisfactory yield.

Pastures and hay crops are already scorched in many places, and small feed grains such as oats and barley must get rain within a few days if rain is to do any good, says Kincer.

Corn still has a chance. The principal damage to corn so far has been the delay of germination. Rains within the next week or 10 days could help the corn crop. Ordinarily the last half of June and the month of July is the critical time for corn. However, delay of germination beyond the middle of June endangers the corn crop from an early frost this fall.

The cotton belt has had excellent weather for the most part. Alabama, Georgia and South Carolina had more than normal rainfall in May, while parts of Texas and Oklahoma were deficient. In no large section has excess rainfall been harmful to cotton or sufficient to encourage exceptional boll weevil development.

In areas covered and moisture deficiency this drouth surpasses any on record for the United States. The only other one to which this could be compared is the one in 1894, which occurred early in the season. Recent drouths, such as the one in 1930, have occurred considerably later than the present one.

Court of Honor To Be On Friday For Three Troops

Announcement was made today that a court of honor for troops 9 and 10 of Ranger and troop 32 of Olden would be held at the Fire Station park in Ranger next Friday night, June 8, with Guy N. Quirl, scout executive of the Comanche Trail council presiding.

All scouts of the three troops, the troop committeemen and the parents of the scouts are invited to be present. The scouts have been urged to have their tests passed and ready for the court of honor Friday.

In the old days a horse would run away and hit a pedestrian. Now motorists first hit pedestrians and then run away.

New York society held a charity party, and a case of champagne disappeared. Now the poor will have to go without their wine.

With the world tensely watching, the mother and her quintuplets shown above are waging a gallant fight for life in their log cabin home at Corbeil, Ont., where the five children were born to Mrs. Olivia Dionne, 24, wife of Ernest Dionne, 31-year-old Canadian farmer. Physicians had declared that it would be a near-miracle if they lived a day, but they have gained steadily under the devoted care of the village doctor and nurses. Combined weight of the quintet at birth was 13 pounds 6 ounces. They have been named Cecile, Yvonne, Emily, Annette, and Marie.

At right is shown the father with five of the six children born previously to the Dionnes—Pauline, 1, on his lap; Daniel, 2; Ernest, 7; Therese, 5; and Rose, 6.

Cotton Seed Mills Under Citation By Government

WASHINGTON, June 4.—Three leading cotton seed crushers associations, representing almost all crushing mills in the industry, were under citation today by the federal trade commission charges of attempting to fix prices and hinder competition in purchasing cotton seed.

The associations were the National Cotton Seed Products association, the Texas Cotton Seed Crushers association, the Oklahoma Cotton Seed Crushers association.

The trade commission charged them with holding frequent meetings to exchange information and formulate agreements of purchase prices for cotton seed.

Sixteen Counties Get Drouth Relief

AUSTIN, June 4.—Sixteen counties were designated for expenditure of special drouth and hurricane relief funds today by Director Harry Hopkins.

The counties were in two groups 1, Dallam, Hartley, Moore, Oldham, Sherman, Potter and Deaf Smith; 2, Bailey, Hansford, Carson, Hutchinson, Ochiltree, Parmer, Lipscomb, Randall and Roberts.

Special relief work in the first group will be directed by the agricultural adjustment administration. The counties were selected by the U. S. Department of Agriculture.

A man in Berlin, Germany, kicked about the street railway service, so he got railroaded to jail for four weeks.

GAS RATE SUIT OUTCOME IS IN BALANCE

AUSTIN, June 5.—The fate of the state's suit to enforce lower natural gas rates set by the state railroad commission hung in the balance again today.

District Judge Charles Wheeler, declaring "I am one small man trying to decide a big question," asked attorneys for the state and the Lone Star Gas company to give him all the assistance possible. He deferred a ruling to hear from them again this afternoon.

The points worrying Judge Wheeler, he said, was whether the attorney general has any constitutional or statutory power to maintain the injunctive suit in the public interest.

Unless such provision exists, Judge Wheeler told the attorneys today there was no hope for the state to stay in court.

Naval Conversation To Start June 15th

WASHINGTON, June 4.—Preliminary international navy conversations to pave the way for the 1935 conference, will start in London about June 15, the state department announced today.

Gavel Was Made From Famous Wood

FORT WORTH.—The gavel which President M. E. Dodd used to call the Southern Baptist convention into sessions was made from wood brought from the Holy Land.

The head of the gavel was made of balsam wood from the banks of the Jordan River and the handle was of olive wood from the Mount of Olives at Jerusalem. It has been used at every Southern Baptist convention since 1872 when it was presented to the association by the then president of the order.

Calendar of June Political Dates

The month of June has a number of important political dates that should be remembered by voters and candidates alike. The political calendar for the month is as follows:

June 4—Last day for filing on party primary ballot for state and district offices.

June 11—State executive committee meets at Austin and prepares ballot.

June 16—Last day of filing on primary ballot for county offices.

June 18—County committee meets to determine order of names on primary ballot, estimate the cost of holding the election and apportion this expense among the candidates, and appoint a committee to prepare the ballot.

June 25—On or before this date candidates must pay ballot fees.

June 28—First day for candidates to file first statement of campaign expenses.

Texans Graduate From Arkansas U.

LITTLE ROCK, Ark.—Several Texas students will be among those who will be graduated from the University of Arkansas School of Medicine in exercises here June 6.

They are Noel Akers, Dallas; Stanley Cox, Groesbeck, and Sam Ellis, Waco.

Other members of the class will serve internships in Texas hospitals. They include Peel Allison, Conway, Ark., who will go to the Scott and White hospital, at Temple; William Thurman Inabnett, Waldo, Ark., St. Paul's hospital, Dallas, and Robert B. Green, who will go to Memorial hospital, San Antonio.

RANGER VISITOR

J. W. Phelps of Carbon, Texas, was a pleasant caller at the Times office Friday of last week. Mr. Phelps has just returned from Louisiana where he was called to the bedside of a son who was dangerously cut with a pocket knife. According to Mr. Phelps the son will recover.

CARRIES FUND FOR RELIEF AND RECOVERY

WASHINGTON, June 4.—The deficiency bill, carrying \$1,172,000,000 for relief and recovery, passed the house today, completing disposal of that chapter of the "must legislative list" as drawn several weeks ago. The vote was 309 to 45.

The bill now goes to the senate, where a fight will be made to boost relief and public works appropriations to \$5,000,000,000.

The measure, in addition to its direct appropriation, authorizes the president to use unobligated RFC and PWA balances, estimated at \$5,000,000,000 for relief purposes. The president could use this money for drouth relief if he wished.

The measure provides approximately \$900,000,000 for the President to use as he sees fit for relief programs. In addition it carries congressional earmarked funds of \$176,000,000 for public highways and public building construction.

LANGUAGES DIDN'T HALT THIS DALLAS WOMAN

DALLAS.—Mrs. E. M. Duncan found languages no barrier in her academic path to a master of arts degree at Southern Methodist university. In her study of Ruy Barrosa, Mrs. Duncan is using five languages—English, French, German, Latin and Greek.

CO-EDS WEAR SANDALS

NEW ORLEANS, La.—Newcomb co-eds are enthusiastically wearing modern adaptations of primitive sandals. Entranced by the comfort of the open footwear, the college misses also claim that they permit slipping into classes late without attracting attention of professors.

Postoffice officials point out that an aviation executive made nearly \$10,000,000 on a \$253 start—and a chance to make good.

Huge Telescope Mirror Was Not Broken As Claimed

FT. DAVIS, Texas.— Reports that the big mirror glass for the McDonald observatory to be erected near here on Mount Locke had been broken and ruined in the grinding process were incorrect, according to a letter reaching Ft. Davis from Dr. Otto Struve, director of McDonald and Yerkes observatories.

There was some damage, it is understood, around the edges of the 80-inch, two and one-half ton disk.

"In inspected the glass disk for the mirror," Dr. Struve said in the letter, "and found that while almost perfect, it would be necessary to reheat it and to anneal it a second time. This will require about four months."

The annealing process reduces brittleness and increases softness.

"The disk," the eminent astronomer continued, "could probably be used as it is. We are merely using the maximum degree of caution in order to obtain the best glass disk that has ever been produced."

Dr. Struve added that the steel dome of the observatory has been partly erected at Cleveland, O., by the steel contractors and that construction on the mountain here will be started in June.

It has been the intention of the contractors to erect the dome on the manufacturing site so as to get its every rivet hole and curve fabricated and fitted accurately before bringing the steel to this remote place where it would be difficult to remedy faults. Thus every piece will have been fitted and every hole bored before arriving here to go into the completed structure.

A book giving the full names of all the initial federal bureaus is titled the Manual of Emergency Recovery Agencies and Facilities—and now another book will have to explain the MERAF.

TOOK PILLS FOR YEARS THEN CEREAL BROUGHT RELIEF

Kellogg's ALL-BRAN Corrected His Constipation

If you are troubled by common constipation, read this letter:

"Just a word in appreciation of what your ALL-BRAN has done for my health. For years, I had been dopping myself with pills and other dopes for constipation.

"I decided to try Kellogg's ALL-BRAN. Now I am in good health, and haven't taken a drop of medicine for six months."—Thos. F. Little, 564 E. Wheeling St., Lancaster, Ohio.

Headaches, loss of appetite and energy, sleeplessness—any one of these may be caused by common constipation. Yet this condition can be corrected, usually, by eating a delicious cereal.

Tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to help promote regularity. ALL-BRAN also furnishes iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. How much safer than patent medicines! Two tablespoons of ALL-BRAN daily are usually sufficient. Chronic cases, with each meal.

If seriously ill, see your doctor. ALL-BRAN makes no claim to be a "cure-all."

Serve as a cereal or use in cooking. At all grocers in the red-and-green package. Get ALL-BRAN, and not a part-bran product. Made by Kellogg in Battle Creek.

SISTERS UNDER THE SKIN

Starring **Elissa Landi** FRANK MORGAN — JOSEPH SCHILDKRAUT

Substitution by arrangement with COLUMBIA PICTURES.

WHAT HAS HAPPENED
John Hunter Yates, multi-millionaire, resigns as head of his huge industries that he might devote the rest of his life—he is 49—to doing the things he has always wanted to do. He is a music lover and takes piano lessons from Zukowski, handsome young composer and pianist. Yates' wife, society dowager, is not the type to begin seeking adventure at her stage of life, as the bent of Yates. She discourages him. At a huge dinner Mrs. Yates is holding, which is to feature a full-length play by the Players Guild, Yates accidentally meets Blossom Bailey, beautiful young actress. She mistakes Yates for her waiter and asks him to help her go to the bathroom. She impulsively kisses Blossom when the script's directions call for it.

NOW GO ON WITH THE STORY
Blossom Bailey sat on the edge of her bed pulling up a shimmering silk stocking over her leg, smooth and white in the late morning light. Gilda Gordon, her roommate—for even the expenses of a cheap, little furnished room must be shared when an actress is "between shows"—stared at Blossom quizzically, then repeated the play's lines, reading from the script in front of her on the coverlet. She finished reading, then turned back to Blossom.

"Now, for Pete's sake, will you tell me what's so hard about that and why you blew up in your lines last night at the Yates' affair?" Blossom stared at the ceiling.

"Funnest darn thing happened to me. I was out there in the garden, running over my lines, and I got one of the waiters to hold the script and cue me. Well—everything went along fine till we got up to this speech."

"What happened then?" "Then he took the stage direction seriously. He started to play the scene—till I howled. He had the funniest look in his eye. I slapped his face and got away. But it must have upset me at that. Because when I got to playing the scene on the stage I couldn't remember a word."

Gilda's tone was ironical. "Since when do you get thrown off by a kiss?" "It wasn't that... but the fellow acted funny. I was a little scared. He said I looked like a ghost and I reminded him of a painting. And then, to top it off, he tried to tell me he was John Hunter Yates himself."

"— I thought they grew in the streets here." (Poised by Elissa Landi and Frank Morgan)

"The phone buzzed insistently. Gilda jumped from bed and lifted the receiver. "Hello... Yes... well, I don't know... I'll see... Who's calling?" "What?... Gilda covered the mouthpiece and turned to Blossom. "It's somebody claims he's Yates—wants to talk to you. Are you in?"

"No! It's that screw waiter. How'd you like that for gall? Where did he get my phone number?" "Tell him I died. Tell him I don't speak English very good. Tell him Blossom stopped suddenly as her eyes took in a picture on the front page of the morning newspaper. "Wait! Gilda!" Blossom jumped from the bed, shoving the paper in front of Gilda. "Look!"

There on the front page was a photo of Yates, supplemented by a story announcing his resignation. "That's him! The WAITER," she exclaimed. "The one that kissed me last night!"

"Gilda was tense with excitement. "The guy who said he was Yates?" "He is Yates—that's his picture! I've struck oil! It's a gusher! Gimme that phone!" She grabbed the phone, and her voice became suddenly dulcet. "Yes... This is Blossom Bailey. How do you do?"

"Fine, thank you, Mr. Yates... How did you get my phone number, Mr. Yates?... Stage manager?... Well, that's one I owe him, I guess. Gosh, Mr. Yates, I meant to call you myself today and apologize for the way I acted last night... I don't mean on the stage—I mean in the garden. I couldn't sleep a wink all night, thinking about it. I thought it was just someone—you know, someone getting ideas... That's mighty nice of you, Mr. Yates, but I'll never forgive myself. I should have known who it was. But I guess I'm still wet behind the ears or something... What?... You're glad I am? Why?... Well, gee, that's a funny way of looking at it... No, I didn't... Well, thanks, anyway. You're terribly sweet... Yes... Yes... Surely... Of course... Yes... At six?... Yes... The Ritz?... Certainly... At six." She hung up, then turned away from the phone.

Gilda, exploding with excitement, blurted out what she had to say. "He said he called me up because I slapped his face when he kissed me."

"Huh?" "He said if I hadn't slapped him he wouldn't have called me up."

"How do you like that?" "He asked me if I'd ever heard of a character called 'He who gets slapped.'"

"The show that ran here a few years ago? Maybe he wants to put it on again—maybe he wants you to play in it. What else did he say?"

"TO BE CONTINUED"

Nine In Race For Representative

Six candidates have filed for representative from the 106th district which is composed solely of Eastland county, and three for florial representative from the 107th district, which is composed of Eastland and Callahan counties. Those filing for the 106th district: E. M. Threatt, Eastland; George Davison, Jr., Eastland; J. M. Munn, Eastland; Joe Parker, Gorman; Ed T. Cox, Sr., Eastland, and Oscar Lyerla, Eastland. Those filing for the 107th: Cecil Lotief, Cross Plains, the present incumbent; D. L. Kinnaird, Eastland, and Ed Curry, Pioneer. All filings were with County Democratic Chairman Earl Conner Jr., and were made in time to be assured a place on the Democratic ballot. The time for filing expired Monday.

Texas Flag Was Specified In a Legislative Act

AUSTIN.—The state legislature has taken official action on most of the patriotic and sentimental observances. Exact dimensions of the Texas Lone Star flag are specified by an act of the legislature in 1933. The same act directs that it shall be flown with the white above the red. The Lone Star became an official Texas symbol in 1839 when it was made the central part of a coat of arms adopted by the Republic of Texas. An oak wreath is used in this coat of arms, but the legislature in 1919 made the pecan the state tree. The bluebonnet, or buffalo clover, became the state flower by act in 1901; in 1927 the mockingbird was made the state bird. "Texas Our Texas" was adopted as a state song by the legislature in 1930 and the same year "Friendship" was made the state motto.

Weekly Sunday School Lesson JESUS ON THE CROSS

Text: Matt. 27:33-49 The International Uniform Sunday School Lesson for June 10.

BY WM. E. GILROY, D. D., Editor of Advance

OUR lesson deals with the most significant event in all history—the death of Jesus on the cross. The crucifixion of Jesus was not an isolated tragedy in human history. Its significance lies in some measure in the fact that there is so much of tragedy in human life that this one outstanding event in the agony and death of the man of supreme gentleness and goodness is symbolic of the suffering of the innocent from tyranny and evil.

It was not only Jesus, but humanity, that was crucified upon the cross, and humanity continues to be crucified by the sins and cruelties of its own perpetration. But there is a deeper significance in the crucifixion of Jesus. The story of Jesus and his life work did not end on the cross. In a sense, his life work had only attained its climax, for henceforth his influence was not simply to be that of a teacher instructing little groups on the mountain side or speaking to multitudes in the fields and highways.

His influence was to be that of a living spirit, everywhere present, guiding men and strengthening them as they sought to live in the light of his teaching and carry on his work in the world.

IN the hour of his death Jesus could indeed say, "I have overcome the world."

This is the miracle of all history, that in seeming defeat spiritual lives and forces accomplish their real triumph. We have expressed it in various ways that sum up the observation of history: "The blood of the martyrs is the seed of the Church," "Bread cast upon the waters returns after

is not important that the world's largest brewery makes BUDWEISER, but it is important that the demand for BUDWEISER built the world's largest brewery.

Mrs. Ruth Owen to Make Greenland Trip

COPENHAGEN.— Mrs. Ruth Bryan Owen, United States minister to Denmark, probably accompanied by Fanny Hurst, will visit Greenland in August. The trip will be made aboard the Danish inspection ship, Disko, which will start from Copenhagen. Dagaard Jensen, chief of the Greenlandic Trading company, will accompany Mrs. Owen, who will stay in Greenland for six weeks.

Mrs. Hurst is expected to visit Copenhagen some time this summer, and if she arrives before the Disko sails she will join Mrs. Owen on the trip. On her return from Greenland Mrs. Owen will go to the United States for an autumn visit. The Irish Free State has taken a step closer toward being a republic by abolishing the senate. There's an idea for us, only here we'd have to abolish the house, too.

The clean Center Leaves are the mildest leaves

THESE ARE THE MILDEST LEAVES— THEY COST MORE— They Taste Better

They Taste Better

They Taste Better

It's toasted

As you can see from this picture—Lucky's fine, smooth tobacco quality doesn't just happen—for we use only the clean center leaves! Only the clean center leaves—for the center leaves are the mildest leaves—they cost more—they taste better. Then—

"It's toasted"—for throat protection. And every Lucky is fully packed with these choice tobaccos—made round and firm—free from loose ends—that's why Luckies "keep in condition"—do not dry out. Luckies are always in all-ways kind to your throat.

Hairy Tribe of Wild Men Reported Near Vancouver

VANCOUVER, B. C.—Reports that a tribe of wildmen known as "Sasquatch," a race of ferocious hairy giants, who dwelt in caves in British Columbia years ago, still are roaming the rocky wilds near Vancouver, have been revived here.

The tribe was believed to have become extinct 30 years ago, but during the last year it frequently has been reported that survivors have been seen prowling near scattered settlements around Vancouver. The wildmen are described as "hairy giants, nine feet tall, with a ferocious appearance and demeanor."

Seen by Woman
Mrs. James Caufield, living on a farm near Harrison, B. C., is the latest to report seeing one of the giants.

Mrs. Caufield relates that she was washing clothes in a river when she heard a buzzing sound similar to that made by a hummingbird.

"I turned my head," she said, "but instead of a bird there stood the most terrible thing I ever saw in my life. I thought I'd die for the thing that made the funny noise was a big man covered with hair from head to foot. He was looking at me and I couldn't help looking at him. I guessed he was a Sasquatch so I covered my eyes with my hand, for the Indians say that if a Sasquatch catches your eye you are in his power. They hypnotize you. I felt faint and as I backed away to get to the house I tripped and fell. As he came nearer I screamed and fainted."

Screams Brought Husband
Mrs. Caufield's screams brought her husband running out of the house just in time to see the giant run off into the bush.

On another occasion two canoists reported that the giant saw them paddling down a river and started hurling rocks at them.

THIS CURIOUS WORLD By William Ferguson

CREATURES WHICH CAN SEE IN THE DARK HAVE NO SPECIAL SENSE OF SIGHT. THEIR EYES MERELY OPEN WIDE ENOUGH TO ADMIT MORE LIGHT THAN DO THOSE OF HUMANS.

IF THE SUN WERE A LITTLE LARGER, OR A LITTLE NEARER... OR THE MOON A BIT SMALLER, OR FARTHER AWAY, WE COULD HAVE NO TOTAL ECLIPSES OF THE SUN.

THE sun and the moon appear to us to be almost exactly the same size, but of course we know that such is not the case. The moon has a diameter of only 2160 miles, while the sun measures 864,000 miles across, but it is about 387 times farther away than the moon.

TO GET DEGREE
BOSTON.—For the fourth successive year, a daughter of President Daniel L. Marsh of Boston University will get a degree from that institution this year. Madeleine is the 1934 graduate.

Twenty-five of President Roosevelt's 49 advisors, says the famous editor, Gene Howe, are "yes" men. Still, he won't deny that they're all "know" men.

In 64 years the world won't have enough iron to meet its needs, says a German chemist. But chemicals are fast replacing cannon already.

Milk and Cream Consumption Down

WASHINGTON.—Americans are drinking less milk and cream, an Agriculture Department report indicates.

Consumption in cities and towns last year was estimated at 3,629,470,000 gallons compared to 3,731,743,000 gallons in 1932, 3,739,645,000 gallons in 1931 and 3,782,042,000 gallons in 1930.

Per capita consumption declined from 40 gallons in 1931 and 1932 to 38.8 gallons last year. The decreases occurred chiefly in the North Atlantic states where about four per cent less milk and cream was used than in 1932. Consumption decreased 3.5 per cent in South Central states, three per cent in South Atlantic and about two per cent in North Central.

SHE LOST FAT High Blood Pressure

Here's Today's Live News For Fat Women—And Men, Too, Read It—Please

"I have been taking Kruschen Salts for nearly a year for my health, and for high blood pressure and rheumatism and it helped both. My blood pressure was as high as 290 when I started to take Kruschen. I weighed 255 and now I weigh 214 that is losing 41 lbs., in about nine months and I feel fine. Wouldn't go without Kruschen Salts in the house." Mrs. W. Eckoff, Saginaw, Mich.

Besides melting away ugly, excess fat Kruschen constantly keeps the bowels regular and free from waste that is always apt to poison the system.

Fat folks should give Kruschen a month's trial—it never disappoints—you'll feel so much better after taking one inexpensive jar which you can get at Paramount Pharmacy or any drugstore in the world—keeps you cooler in hot weather.

Western consumers used about .75 per cent more more and cream.

Silver Sentence Is Commuted to Fifteen Years

AUSTIN, June 5.—The life sentence of J. R. Silver, convicted of robbery and assault in the slaying of Roscoe Wilson, treasurer of the Majestic Theatre in Fort Worth, today was commuted to 15 years by Gov. Miriam A. Ferguson.

Silver will be released from the penitentiary July 11, 1936, by virtue of today's clemency. Wilson was slain and robbed of \$3,900 in January, 1927. Silver was convicted in February of that year and sentenced to death. Former governor Dan Moody commuted the death penalty to life in prison.

Rusk Citizens Are Still Excited As Well Still Flows

RUSK, Texas, June 5.—Rusk citizens and hundreds of oil men and others who have crowded this community since a well came in Sunday, continued their activities today.

They seemed little perturbed over the fact that first estimates of production from the Wood No. 1, New Birmingham Development company, were too large.

Their interest seemed to lie in the thought that, regardless of the quantity of flow from the test well, a new field had been discovered. First reports were that the producer was flowing the rate of from 10,000 to 12,000 barrels daily. Actually the flow was later revealed to be in the neighborhood of 25 barrels per hour.

TWINS SET RECORD

DALLAS, Tex.—Dorothy and Doris McCommas, 19, are setting a new academic record for twins at Southern Methodist University. Alike in their personal habits, the twins also sit in the same classes in identical courses, and make practically the same grades. They belong to the same sorority, Kappa Alpha Theta, and take their evenings out together.

GEESE SET UP HOME

BEND Ore.—Two honker geese, seldom seen near the habitat of man, have established their home on Bend's scenic mirror pond and have set up housekeeping. Six newly hatched offspring have added to the "homelike" atmosphere. It is believed they are the first ever hatched within the local city limits.

Telephone directories, a London court decrees, are works of literature—except that the plot is always the same.

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pep...Vigor...Vitality
Medical authorities agree that your kidneys contain 15 MILES of tiny tubes of filters which help to purify the blood and keep you healthy.
If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness.
If kidneys don't empty 3 pints every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney sufferers for over 40 years. They give quick relief and will help to wash out the 15 MILES of kidney tubes.
But don't take chances with strong drugs or so-called "kidney cures" that claim to fix you up in 15 minutes, for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable relief that contain no "dope" or habit-forming drugs. Be sure you get DOAN'S PILLS at your druggist. © 1934, Foster-Milburn Co.

Why Not A Spring Vacation?

Are you one whose vitality is always lowest in the spring? Do you have what you term "a snappy case of spring fever?" You're probably just run-down and worn-out after a hard winter. What you'd better do is stop right now, rest awhile, and get in trim to carry on for another year.

CRAZY WATER HOTEL

A Hotel With A Homelike Atmosphere

Offers these distinctive features that make for the good, old SOLID COMFORT that's so necessary to complete rest and relaxation.

- *A friendly, restful influence that puts you immediately at your ease.
- *Light, airy outside rooms furnished and equipped with a thoughtful for comfort first.
- *Invigorating, rebuilding mineral baths under courteous, trained masseurs.
- *Crazy Mineral Water, at the noted Crazy Bar, or served to you in your room.
- *Food that dazzles even jaded appetites.
- *A spacious, but cheerful lobby and drinking pavilion.
- *Recreational activities, planned by the staff that is always ready to render "service with a smile."

The beautiful CRAZY WATER HOTEL, nestled in the foothills of the Palo Pinto Mountains is easily reached by paved highway or by rail. Write for full information about our treatment plan.

Experience of Camel smokers is now Explained

From a famous research laboratory in New York comes a basic discovery that throws new light on our past knowledge about cigarettes. It embodies an "energizing effect" ... a harmless restoration of the flow of natural body energy... a delightful relief from fatigue and irritability. When you smoke a Camel you enjoy an increase in your flow of energy. And this benefit you get from smoking Camels can be enjoyed all through the day... without upsetting your nerves.

WORN OUT...and then he smoked a Camel!

Let CAMELS increase Your Flow of ENERGY

Tired? Light a Camel. And as you enjoy its cool, pleasing fragrance, you feel a new flow of energy... a cheering "lift" ... a quick and delightful "energizing" effect.

tired, "all in," smoke a Camel and see what happens. That tired feeling slips away. You're ready again for work and fun. Camels have helped your own body to help itself and bring you back in "pep" and energy.

IT'S YOUR OWN NATURAL ENERGY RELEASED

AND CAMELS NEVER JANGLE YOUR NERVES!

You've probably noticed this yourself and have wondered why and how it happened. The "lift" you get from Camels is a release of your own natural energy... your latent energy made easily and harmlessly available. So when you're feeling run-down,

You can smoke just as many of these delightful Camels as you want. You can increase your flow of energy over and over again. And you need never worry about your nerves. For remember: Camel's costlier tobaccos never get on your nerves.

CAMELS Costlier Tobaccos never get on your Nerves

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand.

WHO HASN'T FELT "dog-tired" after work... with a long evening ahead... and dinner time still an hour away? That's just one of the many, many times during the day when you will want to light up a Camel—for restoring your flow of healthful energy. You'll like Camels—a matchless blend of costlier tobaccos!

Copyright, 1934, R. J. Reynolds Tobacco Company

"Get a LIFT with a Camel!"
