NUMBER 23

GAS COMPANY GIVES REPORT ON GATE RATE

AUSTIN, June 13.—The Lone Star Gas company today opened its attack on the order of the state railroad commission for a gate rate reduction from 42 to 32 cents a 1000 cubic feet. The commission rested yesterday after the full order setting out its findings on the company's property and earnings had been read to jurors. D. A. Hulcy, Dallas, assistant to the president of the gas company, was first witness for the company. He produced records on which the company claimed the 40 cent rate applied for the year 1933 resulted in a return of only 6.01 per cent on the investment. If it had been required to operate on the 32 cent rate, he said the earnings would have been less than four per cent. The commission order purports to allow a return of 6 per cent. The commission, however, values at \$46,000,000 property the company values at \$70,000,000.

Old Settlers To Have a Pageant At Breck Reunion

BRECKENRIDGE, June 13.—Special scenes depicting early historical periods in the settlement of Stephens county will be introduced as a special feature number in the big pageant, "March of Time," to be presented at Buckaroo stadium next Friday night in connection with the Pioneer Day celebration. C. L. McClung and Bob Martin, producers, announced Monday. Carroll McConnell of Mineral Wells, well known historical writer, is now working on the scene which will portray the arrival and settlement of numbers of pioneer families who broke the trail through to this western area years and years ago. The scenes will bring out the names of prominent old pioneers and well known settlers and the narrative of the scene will be broadcast over the loud speaking system by Mr. McClung. This scene alone will be well worth the price of admission, many Breckenridge citizens said Monday morning. Another feature of the Friday night's pageant will be a special narrative number to be introduced into the Spanish-American war scene. This special narrative is being written in Breckenridge now by Frank S. Roberts. Commander of T. C. Garrity Camp No. 34, U. S. W. V. and Mr. McClung will also broadcast this narrative over the loud speaker during the showing of the Spanish-American war episode. The episode to do with the World War will be in charge of Bernice Coles Post, American Legion, of Breckenridge, and Commander D. M. Boles will appoint a chairman to arrange chapters and conduct this episode under the direction of Mr. McClung and Mr. Martin. Other episodes and features of the pageant will be announced Tuesday, Messrs. Martin and McClung said Monday.

REVENUE LAW REVISION IS BEING PLANNED

WASHINGTON, June 13.—The administration has under contemplation a "new deal" revision of the revenue laws including coordination of federal and state taxation systems, it was learned today. The subject is being studied along several lines with the aim of modernizing the tax structures of the nation. The study will probably be the basis for legislation in the next congress. Three major purposes are involved: 1. Abolition of the present inefficient overlapping of state and federal revenue sources. 2. Revenue increases without drastic revision of the present rate structure. 3. Strengthening of collection methods, possibly along the lines of the British system.

It's Safe to Let This Man Ride

A new era of more rides for hitch hikers and more safety for motorists is heralded by the sign which Wilson Jennings, Paris, Tenn., adventurer, bears here. When he left Memphis for San Diego, Calif., he soon learned that autoists mistrust thumbers. So when he catches a ride, he enters the car handcuffed and tenders the key to the driver, to allay any fear that he's a robber.

Kokomo to Have Preaching Sunday

Rev. Ephraim D. Conway will preach at Kokomo Saturday night, Sunday morning and Sunday night. Sermon subjects are as follows: First service, "Singing in the Night," second service, after the Sunday school hour, "God's Eternal Wisdom," third service, Sunday night, "Crossing Hell on Rotten Bridges." Commencing Monday, June 18, to June 29, the pastor will be in the Texas pastors' school at Southern Methodist university, Dallas. In the absence of Rev. Conway in the fourth Sunday appointment at Flatwood, Rev. Collins of Olden will preach Sunday morning and Sunday night of June 24.

Colony Home Is Destroyed By Fire

Mr. and Mrs. Reid Killough of the Colony community lost their home and contents by fire Tuesday afternoon. The fire started in the kitchen fire, and fanned by a stiff breeze, spread rapidly, destroying home, rabbit hutches, chicken coops and the storm cellar within a few minutes time. The people of the community are expressing their sympathy in a substantial way with canned goods, clothing, bedding, etc. Mr. Killough stepped on a nail Oct. 15, and has been on crutches for eight months. They are at the home of Mr. and Mrs. Bud Smith until a house can be secured and moved to their farm.

Baird Will Stage Roque Tournament

The Baird Roque Club has announced a roque tournament to be held in Baird on June 19, to which roque teams of this section are invited. An entrance fee of 25 cents for each player will be charged and the winning team will be given a prize, as will the consolation winners.

Mrs. Olivia Dionne In Serious Condition

NORTH BAY, Ont., June 13.—Mrs. Olivia Dionne, young mother who gave birth to quintuplets 17 days ago, was reported in a serious condition today. The quintuplets, however, still thrived despite predictions at their birth that all of them could not live. CALF ESCAPED RIVER RAYMOND, Wash.—A three-hour-old calf fell in the Willapa River, battled the current and scrambled safely ashore 100 yards downstream.

ALLRED TELLS VOTERS ABOUT RACE ISSUES

James V. Allred, attorney general of Texas and candidate for governor, spoke in Ranger Tuesday night before a large crowd of voters and outlined the principal planks in his platform and discussed the issues of the campaign. The meeting was opened by Judge W. S. Adamson, who introduced Dr. Harry A. Logsdon, who introduced the speaker. Jimmie Allred discussed at length only some of the major issues of the present campaign, but discussed them in a clearcut, fearless way, giving his views on each issue touched upon. He mentioned no names of opposing candidates and indulged in no "mud slinging," saying he was leaving that to the other candidates by stating that he "would not get down on that level with them."

Former Rangerite Is Dead at Tulsa

K. C. Jones today received word of the death of Mrs. Martha Zoe Wolf, 33, wife of Edward C. Wolf, formerly of Ranger, at her home in Tulsa, Okla., last Sunday. The decedent came to Ranger a bride and lived here with her husband for about four years, leaving in 1925. She is survived by her husband, her mother and one daughter, Marilyn Jean, 6. She was a daughter of Mr. and Mrs. M. D. Redic of Tulsa. While in Ranger Mr. Wolf was an employe of Frick-Reid Supply company and has been in the purchasing department of the Barnsdall Oil company at Tulsa for a number of years.

Mineral Wells Will Have Bathing Revue

Ranger has been requested to enter several contestants in the annual bathing beauty review at the Baker pool at Mineral Wells, which is to be conducted on Wednesday, July 4th. The letter to the chamber of commerce, signed by J. Munroe Sweeney, assistant manager, urged Ranger to send four to six contestants.

Bids Opened On Breck Post Office

WASHINGTON, June 13.—H. W. Underhill, construction company, Wichita, Kansas, today was apparently low bidder for construction of the Breckenridge post office. The firm submitted bids of \$62,461 and \$62,481.

Cases Affirmed By Appeals Court

AUSTIN, Tex., June 13.—Proceedings today in the court of criminal appeals here today were: Affirmed: S. D. Vowell from Johnson county; Perry Thompson from Johnson; S. D. Dick, from Johnson, and Dewey Tidwell from Johnson (two cases).

WILL CLARIFY FEATURES OF RECOVERY ACT

WASHINGTON, June 13.—President Roosevelt's proposal for machinery to cope with widespread industrial disputes were sent to congressional leaders today for quick legislative enactment. The proposals are intended to clarify collective bargaining features of the industrial recovery act and give management and employes equal representation on boards for industries threatened with industrial strife. Increasing threats of a strike in the nation's vast steel industry sped to a climax today with peace negotiations under way at Washington and union leaders converging on Pittsburgh for a walkout call. The strike, called for June 16, anniversary of the NRA, would effect probably the entire industry if pressed vigorously. The threat of violence and of a serious effect on the national program lies in the strike situation. In Washington President Roosevelt was believed ready for emergency action, but only if the strike could not be averted without intervention. Residents of Venice, Calif., want to separate from Los Angeles, having caught the disease from the Hollywood stars.

SPONSORED PET SHOW

BANTAM, Conn.—Teachers at the Bantam public school sponsored a pet show among the pupils, but were glad when it was over. Among the exhibits were bees, turtles, rabbits, a trout, a polly-worm, young goose, frogs, pigeons, white rats, a rooster, chickens and dogs and cats.

Debtor Nations Not to Pay All Debts In Goods

WASHINGTON, June 13.—A warning that the way has not been opened to debtor countries to pay the total of their war debts to the United States in goods and services was sounded by the White House today. Apparently fearing the note dispatched to Great Britain by Secretary of State Hull, suggesting that Britain make some proposal for at least partial payment of her debts in goods or services, might be misinterpreted, the White House said this country was in no position nor did it propose to accept full payment of the debt in goods or in services. Such procedure, it was stated, would be economically impossible.

DARROW BOARD MEMBER QUILTS OFFICE TODAY

WASHINGTON, June 13.—W. O. Thompson, member of the Darrow review board, resigned today and charged NRA daily reveals more clearly a marked trend toward fascism in America. In a long letter to President Roosevelt, Thompson set forth again this opposition to NRA. He assumed full responsibility for writing the supplementary report filed with the first board study, which held there was no hope for the small business man under the present code setup, he said. He attacked Recovery Administrator Hugh S. Johnson's executive order on a new price fixing policy and said the Darrow report, without his knowledge endorsed the change. The trend of the NRA has been and continues to be the encouragement and development of monopoly capitalism in the United States, he said.

County Candidates Announce Itinerary

Candidates for county and precinct offices have announced the following speaking itinerary. In the event that these appointments interfere materially with local programs the candidates will be glad to make such changes in their plans as are possible if notified in time. The candidates will appreciate it if interested citizens will make arrangements for the speaking in their community. Mangum, June 15, 8:30 p. m.; Dan Horn, June 18, 8:30 p. m.; Dothan, June 21, 8:30 p. m.; Carbon, June 23, 3:00 p. m.; Okra, June 23, 8:30 p. m.; Morton Valley, June 25, 8:30 p. m.; Alameda, June 28, 8:30 p. m.; Desdemona, June 30, 8:30 p. m.; Scranton, July 6, 8:30 p. m.; Gorman, July 7, 3:00 p. m.; Kokomo, July 7, 8:30 p. m.; Cook, July 8, 8:30 p. m.; Staff, July 12, 8:30 p. m.; Nimrod, July 13, 8:30 p. m.; Ring Star, July 14, 3:00 p. m.; Pleasant Hill, July 14, 8:30 p. m.; Pioneer, July 16, 8:30 p. m.; Long Branch, July 19, 8:30 p. m.; Oidgen, July 20, 8:30 p. m.; Colony, July 21, 8:30 p. m.; Ranger, July 24, 8:30 p. m.; Cisco, July 26, 8:30 p. m.; Eastland, July 27, 8:30 p. m.

Good Card Made Out For Fights Saturday Night

Tigh Billy McEuin, popular wrestler, is to make his appearance in the Elks arena again Saturday night after a long absence, being matched with Curley Stringer of Oklahoma City. McEuin, who hails from Fort Worth, is a 180-pounder, while Stringer weighs in at 175. Another heavyweight wrestling match will be on the card. Jack Hendrix of Dallas, 175 pounder, meeting Pat Swanson, 180, of Fort Worth in the other main match. Billie and Dorothy Stringer, 50 and 65 pounds, respectively, will put on an exhibition wrestling match. A six round boxing bout between Bill Donowho and Hillis Houston will fill out the fight card for Saturday night. Donowho, popular Ranger boxer weighs 147 pounds, while Houston tips the scales at exactly the same figure. This promises to be one of the fastest, snappiest boxing bouts seen in the local arena in some time.

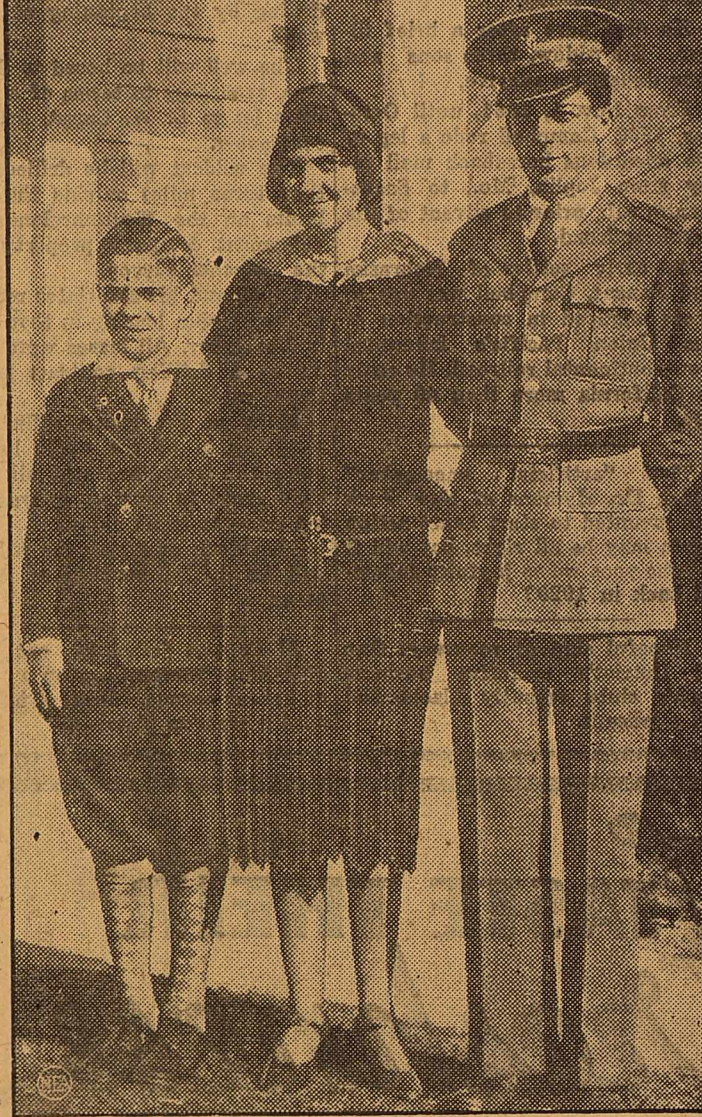

Let Contract For Morton Valley School Building

The contract for the erection of the new Morton Valley school house involving an approximated cost of \$21,000 was let Tuesday night by the school trustees to W. R. Truss of Abilene. Sale of the bonds which were put on the market a few days ago will make start of the work in the coming ten days possible, county superintendent B. E. McGlamery said Thursday. Contract for part of the school equipment was made by the trustees two weeks ago to several different concerns. TIM REEVES, Adjutant.

Kills Mother and Brother With Ax

Huntsville, Texas, June 14. Raymond Hamilton, a disconsolate young gunman, awoke today in the state penitentiary death house and found himself only a few steps from the electric chair in which a jury with a minister as its foreman, said he must die for his crime. The 20-year-old killer was sentenced to death last night by a Walker county jury. The site of the cold gray interior of the building built of steel and cement, with its rows of cells hardly as large as an ordinary clothes closets, stripped him of his swaggering, boastful attitude. Hamilton's attorneys announced they would seek a new trial or appeal the decision. String Instrument Players to Meet For Organization. The players of stringed musical instruments and the lovers of stringed instrument music are invited to meet at the home of S. C. Hunt, 304 North Daugherty street, Eastland, Saturday, June 16th, at 8:00 p. m., for the purpose of organizing what is to be known as the T-P Sunshine String Instrument convention. The announcement by a committee calling the meeting states that all are invited and welcome. County Schools Are Paid \$8,640. The county school depository at Ranger is in receipt of \$8,640, the payment of the eleventh dollar of the state \$16 per capita apportionment to Eastland county schools. Of this amount approximately \$2,400 will go to the rural schools and \$6,200 to independent schools. Upkeep of the county school administration office is furnished by this state per capita money as fifty cents of each \$16 is paid to the county administrative office. Eastland, with its 1200 pupils pays \$600; Ranger \$850 and Cisco \$700. The three towns together pay about \$2150, or practically one-half of the \$4300 running expense of the county administrative department. The rural schools pay annually \$1300. It was August of last year that the county had received an amount equal to that which has been paid by the state up to this time of the year. Five dollars of the sixteen dollars is yet due. Missionary To Japan For Seven Years Is Visitor. Joe J. Mickle, Jr., son of Mr. and Mrs. Joe J. Mickle of Eastland, who with his family is expected in Eastland Friday from Japan where he has been for the past seven years engaged in missionary work. Mr. Mickle made a leisurely trip home and visited various countries enroute. Scout Troop 9 To Go Swimming. Scoutmaster Raymond Steele asks that all members of Troop 9 report at the scout hall Friday evening at 7:30 for a swimming party at Willows pool. All scouts are reminded to bring bathing suits. SOPHIE TUCKER HEROINE. LONDON, June 14.—Sophie Tucker, the American blue singer, was the heroine of a street accident today when she risked her life to save a child from under the wheels of an automobile. Fawn Is Born In City Hall Park. Born to Mr. and Mrs. Deer, City Hall park, early this morning, a fawn, as yet unnamed. Both mother and child are reported to be doing nicely. City firemen, in the absence of Fire Chief C. A. Murphy, were a little undecided just what to do with the young fawn or what name to give it, but it was reported to be in a healthy looking condition and expected to thrive and grow rapidly.

HAMILTON IN DEATH ROW AWAITING FATE

Held as the ax murderer of his brother, Robert, 14, left, and his mother, Mrs. Carrie L. Payne, center, Louis R. Payne, 21, right, is watched closely in his Los Angeles county jail to prevent suicide. The boddies, terribly mangled, were found in th family's luxurious home after the youth, rushing into a police station, admitted the killings, blaming 'dizzy spells.' The father, Lucius F. Payne, utilities executive, rushed by plane from St. Louis to the scene of the tragedy.

Texas Farmers Get Production Credit Loans Approved

HOUSTON.—Over 6,800 Texas farmers and stockmen had arranged to borrow \$2,183,000 from their co-operatively managed production credit associations by June 5 and \$1,850,000 had been paid out to finance the production and marketing of their crops and livestock, according to figures made available here today by Tully C. Garner, president of the Production Credit corporation of Houston. Most of the balance of \$393,000 is being advanced to farmers who are obtaining their loans in installments during the season, Mr. Garner said. As the season progresses, it was pointed out, a larger proportion of the farmers and stockmen borrowing from production credit associations in Texas are obtaining loans for financing their livestock operations or for general farm purposes, such as for purchase of machinery and equipment, and for financing repairs and improvements. This trend toward livestock and general purpose loans is reflected in a gradual increase in the size of loans, he said. Stockmen and farmers borrowing from these newly organized, short-term institutions, partially owned and operated by the farmer-borrowers, are able to reduce their interest charges materially as loans now being made bear interest at the low rate of 5 per cent per year, and that only for the time the borrower actually has use of the money.

Eastland Man Is Highly Honored

Herbert Reed of Eastland has received notice of his appointment as Deputy Grand Chancellor of the Knights of Pythias of Texas. The notice was accompanied by Mr. Reed's commission signed by T. M. Gooch Jr., of Fort Worth, Grand Chancellor, Texas Knights of Pythias. Floyd Jones of Breckenridge has been named District Deputy Grand Chancellor.

Former Eastland Editor Approved For Postmaster

R. K. Phillips, publisher of the Weatherford Democrat, and formerly engaged for four years in the newspaper business in Eastland, has been recommended by Congressman Fritz Lanham for postmaster at Weatherford. He was recommended over 22 other applicants and was given a high rating by the United States Civil Service Commission. Maybe the G. O. P. could get somewhere with its new policies, if the party waited until the president ran out of embarrass-ing ideas. TIM REEVES, Adjutant.

Spanish American War Veterans Will Attend Reunion

Sam McKimmon Camp, Spanish War Veterans, will go to Breckenridge for the old settlers' reunion and pageant Friday, June 15. They will meet at the Legion hall here in Ranger at 9 a. m. and go over in a body, arriving in Breckenridge in time for the morning parade.

Legislators Say Special Session to Be In September

AUSTIN.—Legislators visiting Austin invariably answer "September" when queried about the likely time for another legislative session. They do not profess to have information from the governor more than her statement that she will call a session if needed to prevent hunger. Present available relief funds are expected to last into September. They do give reasons for thinking they will not be called into another session before September. Rep. Bob Long, Wichita Falls, is noted for plain speaking. He said that a session before the primary election would defeat too many members who seek re-election. He is not a candidate for re-election. He predicted that the members who are asking re-election would bitterly oppose a session before election day. Legislators seem unanimous in the expectation that creation of a new oil and gas commission will be submitted. Long's view is that the only thing that can prevent it is the federal government earlier taking over control of oil regulation. A bill to create such a commission passed the house at the regular session of the 43rd legislature. It was killed in the senate after Rep. Gordon Burns, Huntsville, opponent of the bill, had been seriously injured by jubilating lobbyists for the bill. Another 30-day special session will give the 43rd legislature an all-time record for number of days in session. It began with a regular session of 143 days, ending June 1, 1933. A 30-day called session was begun on Sept. 14, 1933. A second called session which began on Jan. 29, 1934, ended Feb. 27. The 41st legislature had more called sessions, five in all, but the total number of days in session was less.

Let Contract For Morton Valley School Building

The contract for the erection of the new Morton Valley school house involving an approximated cost of \$21,000 was let Tuesday night by the school trustees to W. R. Truss of Abilene. Sale of the bonds which were put on the market a few days ago will make start of the work in the coming ten days possible, county superintendent B. E. McGlamery said Thursday. Contract for part of the school equipment was made by the trustees two weeks ago to several different concerns. TIM REEVES, Adjutant.

Rail Debts Grip Connecticut Towns

HARTFORD, Conn.—When the railroad boom gripped the country following the Civil War, 35 Connecticut towns and cities cast traditional Yankee shrewdness to the winds and plunged headlong into a total debt of \$5,277,008.

More than 60 years afterwards, nine of these communities still are endeavoring to wipe out the balance of the initial indebtedness—\$586,000. Many towns have paid the amount of their debts many times over in interest charges and will pass the "headache" on to at least another generation.

Connecticut communities literally stumbled over each other to "get in on the ground floor." Every town wanted to be "on the line" and municipalities voted themselves into debt with a lavish hand.

The automobile struck the first staggering blow and busses landed the knockout wallop. Branch lines gradually were suspended, or taken over by larger companies and all the communities had left with the debts.

The state finally had to come to the rescue and finance a portion of the debt annually, which it has done for 30 years. One town, which boned itself for \$1,047,000, still owes \$415,000. It

Old Pony Express Rider Is Dead

STOCKTON, Cal.—William Campbell, last of the valiant Pony Express riders, rode with his comrades again today.

He died here after a brief illness. His widow, three sons and four daughters survive.

From Nov. 1, 1861, until October, 1862, Campbell rode a leg of the hazardous horseback mail relay from Joplin, Mo., to Sacramento, Cal., prior to advent of the steam railroad.

An early settler of Nebraska and Kansas, Campbell was one of those engaged in construction of the Union Pacific's inaugural transcontinental railroad. He came to California more than 40 years ago.

That "artificial pacemaker" which Dr. Hymans of New York has invented to start heart action again may be all right, but will it set the pace we so joyfully followed back in 1929?

Hopeful sign of recovery: One of Detroit's exclusive business men's clubs recently blackballed an applicant.

Houston May Have A Wildcat Well In Her Front Yard

HOUSTON.—Preparations for drilling of a wildcat oil well practically in Houston's front yard were under way here today.

The test will be financed by the Loring Oil company of Pittsburgh and plans were to rig up and start drilling by the beginning of next week.

The well will be bored to 6,000 feet, according to terms of a contract let to L. W. Capps, drilling contractor.

The wildcat will be drilled less than three miles outside the city limits on the Westmoreland Development company property in the Swisher survey.

Capps and his associates revealed they began leasing in that area in November. All leases were taken on a drilling contract basis, Capps said.

Many of the leases called for spudding in of the well before June 15. Operators said all possible speed in rigging up was being made to avoid delay.

The block on which the wildcat will be drilled consists of 5,772 acres.

Al Capone failed to get out of Atlanta penitentiary on a writ of habeas corpus. Now, if he had used a wooden pistol—

NRA Indexes Old Newspaper Files

AUSTIN.—Early Texas newspapers were used here for an NRA compilation of historical data. Files of papers were indexed, forming the largest division of the historical survey.

The work was directed by Prof. J. Evetts Haey of the University of Texas. Employment was given 250 persons gathering information. Besides newspaper files, county records and other sources were studied.

Transcriptions of many records were made. These have been filed in local libraries and in the library of the University of Texas.

Card indexes make 5,000 references available to researchers.

Feast On World's Largest Shortcake

LEBANON, Ore.—The "world's largest" strawberry shortcake was served to 8,000 visitors attending the annual Strawberry Fair here.

The cake, produced in a Lebanon bakery, was 15 feet long and 12 feet wide. It weight 4,035 pounds.

Ingredients included 1,600 pounds of strawberries, 325 pounds of flour, 75 pounds of shortening, 225 pounds of sugar, 15 pounds of baking powder, six pounds of salt, two quarts of vanilla, 110 quarts of milk, 200 quarts of cream, 8 quarts of whipping cream, 750 eggs.

The completed cake was carried on a truck during the parade. It

Wants Money's Worth In Dog Registration

FORT WORTH.—With an eye for business, Assistant District Attorney Cecil C. Rotsch wanted to get the most for his money when he wanted to register his dog.

The cost of registration with the American Kennel Club was \$2, and the number of letters in the dog's name could not exceed 25, Rotsch was told. So he thought for a week about what to name his pet.

Finally he thought of a name that contained exactly 25 letters—Lady Judith Patricia Cozette.

He calls her Judy for short.

Outlook Is Bright For French Wines

PARIS.—General conditions are favorable for another wine crop of high quality.

The latter part of May was marked by a comparative absence of rain. Earlier in the spring the downpours and low temperatures caused fears of mildew.

With a normal summer, France is expected to have another "grande annee" similar to that of 1933, and barring freakish weather which cut production last autumn, a larger crop.

DOE SEEN NEAR CLEVELAND

MENTOR, O.—In a field near this east shore suburb, less than 20 miles from Cleveland's public square, a large doe was sighted by Vernon Jewell and Louis Cowary.

Two Kidnaped In Davenport, Iowa

DAVENPORT, Iowa, June 14.—Policemen Elmer Schlueter and Al Schultze, secretary of the local Western League baseball club, were kidnaped today by three men.

Police reported that the three men were seen fleeing in an automobile about 12 miles west of town, the two still covered by guns. Schlueter was kidnaped when he attempted to talk to the men. They pushed him into the car and drove down the street toward the ball park. In front of the park they encountered Schultze and forced him into the car.

McAllen Physician Finds Honest Man

McALLEN.—Dr. W. E. Whigham, McAllen physician, brought forth his candidate for the object of Diogenes' reputed search—an honest man.

Dr. Whigham practiced in Pendleton, Texas, about 20 years ago. When he left that town a few of his patients owed him for professional services.

Recently the doctor received a note from Pendleton which said: "I have owed you a bill for 20 years. I want to pay it. I have not forgotten the debt. Please tell me the amount."

Dr. Whigham immediately advised his former patient that the amount was \$10.

FARM PAPER STARTED

MILWAUKEE Wis.—The Catholic Farmer has been started here as a supplement to The Catholic Herald, official weekly newspaper of the archdiocese of Milwaukee. The publication, edited by Joseph M. Sevenich, former farm columnist of The Herald, was authorized by Archbishop Samuel A. Strich of Milwaukee. The first issue appeared in May.

FINED FOR DRIVING AUTO

WATERBURY, Conn.—Two men were fined \$100 and costs each for driving the same automobile while intoxicated. Judge Edward A. Mascola was unable to determine whether Fred Ziegler or Dudley Tompkins was at the wheel and found them both guilty. He remitted \$90 of the fine, however.

COULDN'T BUDGE HIM

WATERBURY, Conn.—Chris Harmon's hound dog likes riding so much he sat contentedly in the rear seat of his master's automobile while thieves drove it away.

CHARTER IS GRANTED
AUSTIN, June 14.—The secretary of state today granted a charter to the Sher-Rite Oil company, Cisco, incorporated at a capital stock of \$10,000. The incorporators were K. E. Sherman, H. H. Nunnally and F. A. Ritterhaus.

BABY MOOSE FAMILY PET
ST. GEORGE, Me.—The Earle Barter family pet is a baby moose. Only three days old when found in the woods near here, it is now a husky youngster that consumes six quarts of milk daily.

Forest Fire Cut Down Assessments

SALEM, Ore.—The great Willamette River forest fire of 1933 resulted in a decline of assessed valuation of timber in Tillamook County, Oregon, from \$15,169,180 to \$6,841,970, the state tax commission announced.

Tillamook formerly contained more timber than any other county of Oregon, Washington or Idaho.

More Work Less Direct Relief Is Plank In Ringold Platform

"MORE WORK, LESS DIRECT RELIEF"

To the Citizens of Eastland County, the 106th Legislative District:

My Friends and My Neighbors: I have lived among you for 15 years; have tried at all times to help in every worth while cause that meant for a better commun-

ity. If you approve of the kind of citizen I am and feel that I am capable of representing you in the State Legislature, I will be profoundly grateful for your support and will do my best to be of service to Eastland county.

In asking for this office, I am not unmindful of the fact that the law-making body of the State is

one of the most important offices in the State and should be filled by capable men who have the interest of all the people at heart.

I am 55 years old, was reared on a farm in Grenada County, Mississippi. Am now, and have always been a Democrat. I have lived in Eastland county 15 years. Am a property owner and taxpayer in Ranger. I hereby give you my views on some matters that I consider most important at this time.

I favor fewer laws and better obedience of the ones we have. I favor the reduction of taxes by reducing the cost of government; abolishing unnecessary offices and reducing the number of employees to what is necessary to do efficient work.

I favor an income tax for the support of public schools and take some of the burden off of real estate.

I favor the exemption of homesteads up to \$3,000.00 value from all ad valorem taxes except for school and city purposes.

I favor an old age pension of \$15.00 per month for needy people above 65 years of age.

I favor the continuance of \$16 per capita of school apportionment and adjustment of teachers' salaries in order that no teacher should receive a salary of less than \$60.00 per month.

I favor a flat rate of registration of automobiles of \$3.00 on light cars and \$5.00 on heavy cars, and all car and truck money to go to the county for the building and maintenance of county roads.

I favor the Federal and State government using its credit to help every American citizen to own their homes; lending them money at low rate of interest and allowing from 20 to 25 years for the repayment of same.

I believe we should provide more work for the unemployed thereby taking them off of Direct Relief.

I believe labor should be paid wages that will enable them to properly support their families.

I favor a law that will enable counties, cities and school districts to adjust their present bonded in-

debtedness to what they are able to pay and that they never be allowed to bond themselves for more than 10 per cent of their taxable value.

If elected your representative, I promise to be on the job at all times and to do my best to be of service to Eastland County.

E. A. RINGOLD.
(Political Adv.)

DESDEMONA

Special Correspondent

Mr. and Mrs. J. W. Harrison and two small children, of Ranger, came down Sunday and visited her sister, Mrs. W. E. Barron, and family, and her mother, Mrs. R. K. Glanton.

Style McEntire drove down to Comanche Sunday and spent the day with his parents. He was accompanied by his aunt and cousin, Mrs. J. A. Goforth and son, Otis Goforth.

Mr. and Mrs. I. N. Williams drove out to Big Spring Friday on business. While there they spent a short time with their friends, Mr. and Mrs. G. C. Graves and family. The Graves family were successful and prominent citizens of Desdemona for a number of years before they moved to Big Spring. Their many friends here will be glad to know they are doing well in Big Spring. Their daughters, Misses Nova Lynn and Emma Joe, have good schools for this year.

Mrs. John C. Spradley and two children, of Longview, came in Wednesday and will make a two weeks visit with her parents, Mr. and Mrs. S. T. Stover, and her grandmother, Mrs. Louise Lookingbill.

Miss Emma Ganaway returned several days ago from Stephenville where she had visited friends for a week.

Mr. and Mrs. Joe Merrill and son, Joe Jr., accompanied by Mr. and Mrs. Plummer Ashburn, drove up to Ranger on business Saturday.

Miss Minyon Whitworth, after a short visit with her parents, Mr. and Mrs. W. H. Whitworth, returned to Stephenville on Monday of last week and is taking some special training for primary teachers at John Tarleton college.

Miss Mollie O'Rear returned Tuesday night from Eastland. She was quite ill when she came home but is now able to be up.

Mrs. J. E. Derrick and her daughter, Mrs. Style McEntire and baby, left Tuesday for Waco, Reagan and a few other places, where they will visit relatives.

Leslie B. Covington and Randle M. Covington, two brothers from Breckenridge who have been here the past two weeks, taking the places of Magnolia employees who are away on vacations, returned Monday night from a few days visit at their home.

Mr. and Mrs. Joe Merrill, Mr. and Mrs. Claud Lee, Mrs. Plummer Ashburn and Mrs. Mattie Henry, drove up to Cisco Sunday afternoon.

William Howell, son of Rev. and Mrs. Z. L. Howell, who has just returned from S. M. U. at Dallas, filled the pulpit at the Gorman Methodist church Sunday morning and night in the absence of the pastor.

On Wednesday of last week a

number of members of the Methodist Missionary Society went to Breckenridge and attended the meeting of the Cisco District Missionary Society. Quite a large crowd from the various towns in the district attended. Mrs. W. E. Barron, who is district corresponding secretary, presided over the meeting as the highest office in the district. Reports were given by the presidents of the different societies and grades were given on the reports. Members of Desdemona society were delighted when it was announced that Desdemona was among the number making the standard of excellence for this quarter. Mrs. I. N. Williams, as president, gave the Desdemona report. Those attending from here were Mrs. W. E. Barron, Gifford Acrea, Charles Lee, Z. L. Howell, G. S. Bruce, I. N. Williams, and Miss Lois Howell.

Mrs. Dora Cotton returned Tuesday from Coleman, where she had been visiting one of her daughters and is again with her daughter, Mrs. W. H. Davis, for a while before returning to Dalhart.

Rev. and Mrs. W. M. Ford, accompanied by Mr. and Mrs. Shelby Salyer and Miss Oleta Britt and Miss Capitola Browning, went to

Graham Sunday and attended a Sunday school convention of the Church of God.

Mr. and Mrs. Horace Lane and little daughter, Bobbie Jean, visited her brother in Fort Worth Friday.

Mr. and Mrs. Roy Ashburn and daughter, Anita, and Ed Huffman, drove down to Fort Worth on business Thursday.

Dr. P. M. Kuykendall of Ranger was here on professional business Wednesday.

Mr. and Mrs. Aaron Henslee left Tuesday for Longview, where he will work for his brother, Joe Henslee, in an auto repair shop. Their many friends regret to lose these young people from our town but hope business may improve here so that they may find it to their interest to return.

Rev. and Mrs. Z. C. Chambliss were in Ranger on business Saturday.

County Commissioner Gifford Gray was here on business Thursday.

Rev. and Mrs. Z. L. Howell had with them Thursday almost their entire family. Two daughters, Mrs. Melvin Bradford and Mrs. Reid McNatt came from Greenville Wednesday and brought with their sister, Miss Ruth Howell, who

teaches there, and also their two brothers, William and Robert, who were at S. M. U. at Dallas. Another daughter, Mrs. V. C. Moser and young son, came from Lometa, so with Miss Lois Howell, there was quite a family reunion.

BANKBOOKS BOUGHT GOODS WATERBURY, Conn.—By agreeing to accept bankbooks of a suspended local bank in payment for merchandise, approximately \$30,000 extra trade was reported by local merchants in one week.

CLAIM COMMUTING RECORD NORWALK, Conn.—Friends of George A. ... believe he has set a record for commuting. During the 64 years he traveled daily to and from New York, it was estimated he rode more than 1,500,000 miles. He began commuting when he was 19 and retired from business at 83.

CHEVROLET'S

newest creation is here!

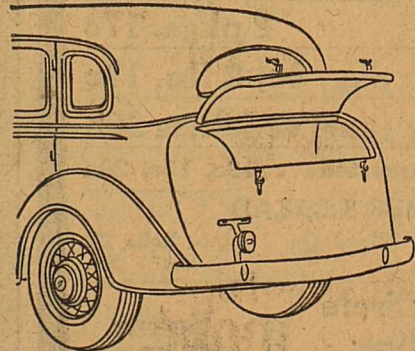

Presenting

THE 4-DOOR SPORT SEDAN

CHEVROLET Chevrolet proudly presents the new Sport Sedan as the most beautiful model ever built by any manufacturer of low-priced cars. On a long chassis embodying Chevrolet's combination of exclusive features—enclosed Knee-Action, an 80-mile-an-hour, 80-horsepower engine, cable-controlled

brakes, and all the rest—is mounted a body that combines five-passenger capacity, exceptional luggage space, and more de luxe touches than we have space to tell about. If appearance and convenience come first with you, and you wish to stay in the low-price field—here, beyond a doubt, is your car.

PEOPLE who have an eye for handsome lines will admire the way the spacious trunk merges into the body lines. And make no mistake about it—handsome as this trunk is, it is a decidedly practical feature.

FACTS AND FIGURES WHICH THE PEOPLE SHOULD KNOW

There is a campaign on in Texas—one of the most important of the years. Major and minor posts will be filled. A legislature will be elected. Judges of major and minor courts will be chosen by the people. There is a lot of rot distributed in all campaigns. There is a lot of "wild talk and wild guessing." There is a lot of "mis-information" handed out to the voters of the commonwealth. Well, Texans should be told the truth. They should be given the real facts as to law enforcement and the records established by those who serve them in high or low place. This newspaper seeks to place all the facts and figures before the public. This editorial is placed in the files as well as in the records and spread before the people. The law requires that each clerk report to the attorney general the number of criminal cases filed in the various district courts of the state and the disposition made of the cases. In addition the attorney general is required by law to prepare and publish in his biennial report the information obtained through the reports of the clerk.

In the biennial report for the period beginning Sept. 1, 1930, and ending Aug. 31, 1932, at pages 126-134 there is tabulated and printed the information that came to Attorney General James V. Allred. He made a splendid job of it, according to well informed lawyers and laymen of Texas. In the summary of the report, at page 134, it appears that during the period mentioned there were 10,780 trials, 10,117 convictions and 633 acquittals. It also appears from the report that the total number of indictments filed were 20,403, of which 9625 were dismissed in the district courts, leaving as above stated 10,780 cases tried. Of the cases tried 8 per cent reached the court of criminal appeals on appeal. During the same period mentioned above there were filed in the court of criminal appeals 1733 cases, appeals from the trial courts, of which appeals 1271 were decided in favor of the state, either by affirmance or by dismissal of the appeal, and 462 cases were reversed and returned to the trial courts for retrial.

A summary of the figures is to the effect that of the appeals filed in the court of criminal appeals for the two years mentioned "26 per cent were reversed for new trial." The total reversals compared with the number of convictions in the trial courts during the period of comparison amounted to two and one-half per cent, which is vastly different from the impression conveyed to the public from many sources—"that most cases of conviction are reversed." The figures also show that such 26 per cent of the reversals of the cases appealed amounted to two and one-half per cent of the cases in which there were convictions in the lower courts.

"Justice is sacred and not the judge." And the facts and the figures given in this news editorial should be read and then thoroughly digested by the voters of the commonwealth. "Justice is sacred" and accuracy should be the thing on the part of lawyers and laymen and practical politicians "who are peddlers of promises" as well as those of the fourth estate who spread information for the edification as well as the education of the reading public.

COTTON GINNERS ARE TO BE GIVEN A HEARING BY UNCLE SAM

Washington has made the announcement that a series of 12 hearings in various areas in the cotton belt on the proposed ginning industry are to be held. Their purpose is to acquaint cotton growers and gin operators with the proposed terms of the agreement as suggested by state associations of ginners. The first will be held at Dallas, June 11, for all of Texas except the upper Rio Grande and irrigated areas of the state; El Paso, June 14, for New Mexico and the upper Rio Grande and irrigated sections of Texas.

There are thousands of cotton ginners in the Southwest. They are said to be on the rack. They are facing financial losses like all others in the agricultural and business world. The Bankhead act calls for the marketing of 10,000,000 bales of cotton of the crop of 1934. Cottonseed oil millers are interested in their own side of the industry. Cotton ginners are interested. Producers are interested. Buyers are interested. Exporters are interested. All have self interests involved in the big play. Business is business and every man does his level best to protect his own.

I note that over in Jugoslavia a duel was recently fought—not with pistols as one of the participants, an Army officer, wished, but at a table, as his civilian opponents who had the choice of weapons demanded. The Army officer vindicated his honor by eating and drinking his opponent under the table. This kind of duel would be very popular in this country if tried. No doubt many duels of this nature could be started everywhere in this country and dueling would become very common.

Quite a number of small cities in England make it a practice to levy charges for parking automobiles in public streets. This is one method of raising money that our law-makers evidently have overlooked. They might try it out, as about everything but the air we breathe is now taxed.

When a politician tells you what to do, then is the time to stop, look and listen. You may get stung again.

Relief Costs Will Be Reduced By State Commission

Registration costs were again earmarked for reduction throughout the State, it was learned today from Director Marie Dresden of the Texas Relief Commission.

An immediate saving of \$3,500 monthly in State relief expenses is to be accomplished through a new "classification of position" system going into effect immediately.

Employees of the Relief Commission will receive wage reductions under the new system excepting those now receiving minimum wages under the law.

Pay reductions, initiated in the interest of administrative economy, will be based on an appropriate wage scale, arrived at out of consideration of the duties performed by employees, thus bringing all employees doing the same kind of work into the same classification.

Plans for installing the system were discussed recently in New Orleans and in Kansas City where Federal Emergency Relief representatives conferred to discuss administrative problems touching six southern states. These representatives considered the feasibility of putting this "position plan" into effect elsewhere to insure a uniform system of employee pay-rating and duty classification.

All persons in the State relief service performing the same duties will be placed under the same work classification and receive the same pay.

Under the new set-up the administration will establish a set scale of service values, which will eliminate promotion except on basis of merit.

The establishment of the rate of pay for each separate classification of work will be determined from the minimum wage code requirement prevailing for that class of work.

The new program will be effective in two weeks in counties and today in central office.

Each relief employee in Texas has filled out forms containing personal history, the employee's ideas concerning scope of his duties and his supervisors' check-up, thus assuring accuracy in determining the actual field covered by each employee and percent of time spent on each task during an average day. This information will enable the administration to properly classify each employee according to types of duties actually performed in the regular course of his work.

The State is to be divided into areas. These are designated according to population and relief load. The relief load of the county is the number of relief rolls in relation to the population census of the county. The division of the counties into these areas will make possible the comparison of like situations. Group classifications of positions then can be obtained.

The system embraces a model organization chart which will be used in county administrative offices. On this chart will be mapped the definitions of duties of each employee. The necessary duties of each position will be clearly outlined under each work classification.

The only exception to be made to the system will be where the county has certain exceptional conditions prompting the State administration to modify the plan in that area.

This program will ultimately save the State approximately \$65,000.00 each month.

Other savings instituted during the first sixty days of Director Dresden's administration are \$35,000.00 monthly through adoption of stringent purchasing policy and \$180,000.00 monthly by reduction and elimination of unnecessary personnel throughout Texas, making a total saving of \$275,000.00 monthly.

Pumper Wells to Aid Rangers In Fighting Fires

WASHINGTON.—By means of "pumper" wells, forest fire fighters in the dry, sandy plains of northern Michigan are able to play water on a blaze within 10 minutes after their arrival, according to a report by W. F. Ramsdell, professor at the Ann Arbor school

of forestry, to the American Tree Association.

The technique for rapid sinking of "pumper" wells was worked out in 1931 and 1932 by Director Albert Stewart and members of the Michigan Forest Experiment Station of Roscommon. However, the magic of bringing water to dry, sandy surfaces in eight to 10 minutes was mastered only after months of experimentation and it was necessary to invent and construct special tools and perfect various steps in the operation to reduce the time requirement.

CCC Aided Work
When the CCC was started in 1933, the report said, further steps were taken in the development of this new and revolutionary use of water for forest fire suppression.

Realizing the possibilities of the Forest Station's pioneer work, ECW officials placed "Ground Water Survey" on the approved work list, and during 1933, eight crews of CCC men from seven state camps tested and mapped 1,423,590 acres of high hazard territory for presence of ground water which might be used in fighting fires.

The completed survey resulted in the preparation of a map showing the water table level and territory within which emergency wells may be drilled for use.

Although surface water was available only to about three per cent of the area mapped, it was found that ground water could be used on approximately 60 per cent.

Pumper Crew

A pumper crew's equipment consists of a light truck with a 250-gallon tank of water, four-inch diameter well casing, well point with high capacity screen, gasoline force pump, hose with washing nozzle, and small tools.

Using water from the supply tank, it was explained, the casing first is "washed in", or jetted with the force pump to a depth of six to eight feet below the water table. The well point then is dropped in the casing, the casing pulled, and the well made ready for pumping.

Approximately 90 per cent of the wells will furnish 45 gallons

or more of water per minute, which is enough to meet the capacity of most pumper units. However, for practical use on fires, the water table must lie within 22 feet of the ground surface.

Houston Exported 5,879 Bales During The Month of May

HOUSTON.—Cotton exports from Port Houston for the week ending May 26 totaled 5,879 bales, the Houston Cotton exchange reported.

Consignees in Spain took 2,785 bales, while Italian millers ordered the remaining 3,094 bales.

Seasonal shipments from Port Houston totaled 2,122,295 bales at the week's close. At a corresponding date in the 1932-33 season, Port Houston had shipped 2,090,023 bales.

Polk County Will Ship Tomatoes

LIVINGSTON, Texas.—Polk county will ship more than 200 cars of tomatoes this season. Tomatoes are growing rapidly and will be ready within a few weeks, reports said.

Besides bringing thousands of dollars from the sale of the tomatoes, the marketing of the crop will give employment to several hundred men, women and girls who will work in the packing sheds, growers said.

Quanah Plans A July 4th Reunion

QUANAH, Tex.—Northwest Texas' greatest Fourth of July attraction—a free rodeo and barbecue and old settlers' reunion—will be revived next month.

Organization has been completed for staging again this celebration, which in years past attracted as many as 10,000 persons from throughout this section of the state.

Republicans are calling for a "square deal" now—let the Democrats try getting around that.

Bryan Has New City Playground

BRYAN.—Bryan's city commission leased the property of the Bryon Country club, named it the Bryan Municipal playground, and chose a committee, to work out details for operation of the new enterprise.

The city will operate the property as a place of amusement and recreation for the entire citizenship, upon payment of fees "with-

in the reach of all" or by virtue of annual membership.
G. H. Higginbotham, former Texas Aggie football star, was named overseer of the playground.

CANARY, 16, WINS PRIZE

ASHTABULA, O.—A contest to find the oldest canary in this city, sponsored by the Ashtabula Star-Beacon, has found one 16-year-old bird, "Goldy," pet of Mrs. Ernest Johnson. Despite his years, the bird sings lustily, takes his bath regularly. The canvass disclosed several other birds 14 and 15 years old.

Fire Alarms Cost Breckenridge \$5.86

BRECKENRIDGE, Tex.—It may be different in your city, but everytime a fire alarm—true or false—is turned in here it costs the city \$5.86.

This is the cost of answering the alarm and not putting out the fire, Fire Chief Roy Caswell said. If there is a fire, of course, the cost mounts in proportion to the size of the conflagration.

This is National Park Year, but don't go parking just anywhere, because of that.

FARM NEWS

By J. F. ROSEBOROUGH, Extension Horticulturist
Sub-Irrigation Hints
 Do not turn the water on so that it will run a large volume of water into the sub-irrigation tile. It is impossible for the soil to take the water up quickly. A small stream will seep out slowly and cover a wider area than where pressure is put in the tile with lots of water. Remember that coal oil does not go up a lamp wick quickly, and neither can you force a large volume into concrete tile to spread through the soil at a rapid rate.

GARDEN A B C's
 The correct use of the vitamin alphabet proves as important a part in good health as the letter alphabet in correct spelling. The proper use of both alphabets is a mark of intelligence. The garden supplies the following vitamins:
 Vitamin A, the anti-infective vitamin necessary for health and vigor and a good appetite, is found in spinach, mustard greens.
 Vitamin B, the anti-beri-beri vitamin which protects the body from nervous diseases, promotes appetite, digestion and growth, is found in corn, peas, rice, carrots and spinach.
 Vitamin C, the anti-scurvitic vitamin which protects the body from scurvy, and keeps teeth and bones in good condition, is found in cabbage, lettuce, onions, spinach, tomatoes, celery and strawberries.
 Vitamin D, the cheapest of all the essentials to health, is obtained from ample sunlight and air.
 Vitamin E, the anti-sterility vitamin, is found in lettuce, beans, corn and peas.
 Vitamin G, the anti-pellagic vitamin, is found in spinach, potatoes, turnip greens, and tomatoes.

Save Your Own Garden Seed
 I know of a superb kind of English pea that has been "in the family" for forty years. It is unnamed but seed have been saved each year and it is highly prized because it is prolific and has an unusual flavor. It is true that home selection and saving of seed results in having plants adapted to local conditions.
 I know some gardeners in Texas who sell a considerable quantity of seed to their neighbors who know that particular strain or variety.

How to Save Seed
 Beans and Peas. Mark a few of the best plants, allowing the pods to ripen for seed. When the entire crop is matured, harvest the beans and treat the seed with high-life (carbon disulphide). A pint of high-life will treat a barrel (fifty gallons) of peas or beans in the pod. Pour the high-life into an open pan and place the pan on top of the beans in the barrel. Use a cover on the barrel while fumigating. Keep the lid on the barrel for twelve hours, open and ventilate, then store the beans or peas, shelled or in the hull, in a dry place until planting time.
 Cucumbers and Squash. Select fruits of desired characteristics and allow to ripen fully on vine. Split the ripe fruit, scrape out the seed and pulp and wash seed until clear, noting off the refuse and light floating seed. Spread out the washed seed in the sunshine, not over two seed deep in thickness. Dry from two to five days. Be sure seed are dry before storing.

Tomatoes. Cut tomatoes in halves, place in a barrel and allow to ferment for two days. The seed will settle to the bottom and the pulp will rise to the surface. Stir the mixture twice daily. On the second day pour off pulp and wash seed, spread out and dry.
Beet Pickle
 Johnnie Foster, farm food supply cooperator of the Flatwood 4H Club, has used and likes the following recipe for pickling beets. It is time to get the beets before they are large and stringy. The beets should be young, tender, practically free from cracks, peeled and with defects trimmed, uniform in size and color. Sort the beets, putting those on uniform size together. Cut the tops leaving about two inches of the stem and the roots on, until after cooking. Steam under fifteen pounds pressure fifteen to twenty minutes or boil until skins will slip off. Peel, trim and drop while hot into spiced vinegar which has previously been prepared and hot.
Spiced Vinegar
 1 gallon of four per cent vinegar, five cups sugar and five teaspoons mixed spices.
 The spices in bag. Mix sugar, vinegar and spices. Let simmer about half an hour for the spices to infuse. Drop hot beets in and let boil three minutes. Remove spiced bag, pack jars with beets and cover with hot vinegar. Seal immediately and place where they will cool quickly. Poor color may be due to: 1. Lack of color in raw stock. 2. Steaming at low temperature. 3. Slow handling from steaming to sealing cans. 4. Slow cooling.

MEXICAN FASCISTS ORGANIZE
JUAREZ, Mex.—Mexico's fascist organization, the "Golden Shirts," has extended to Chihuahua. Gen. Nicholas Rodriguez, Mexico City leader, has appointed his brother, Joaquin Rodriguez, Juarez, as director of organization and propaganda in Chihuahua.

Texas Leads Nation In Road Building Under Federal Aid

HOUSTON, Tex.—Texas led the nation in the number of men employed directly on federal aid highway projects at the close of May, according to a report received here from Public Works Administrator Harold Ickes. The number totaled 18,875 during the month.

At the end of May, the bureau of public roads reported, Texas had 506 public works highway projects advertised for contract. Of this number, 494 had been awarded to contract.
 Of the projects advertised, \$21,121,000 or 87.1 per cent represented PWA funds allotted the state under the NRA, the report revealed.
 The estimated total cost of the work advertised for contract was given at \$23,651,000. Of the 494 Texas highway projects awarded to contract, \$20,669,000 represented PWA funds, or 85.3 per cent.
 Further check of public works highway building progress in Texas by the bureau showed 282 projects under construction and 177 completed.
 Work under construction represented \$15,016,000 of PWA money, while projects completed represented \$3,864,000 from that agency.
 The estimated total cost of work under construction was placed at \$16,374,000, while total cost of completed work was estimated at \$4,758,000.
 The federal aid highway program, including work under way and completed in the entire country involved 90 per cent of the \$400,000,000 PWA road fund at the close of the month, the report showed.

Fort Worth Traffic Officer Gave Clyde Speeding Ticket
FORT WORTH, Tex.—Motorcycle Officer T. J. McDaniel is thanking his lucky star, his courteous approach and Bonnie Parker's hesitancy for his life.
 McDaniel has learned, he said, he gave Clyde Barrow, erstwhile Southwest desperado a ticket for speeding here April 29, a month before Barrow and Parker were killed in Louisiana.
 A Dallas informant, who knew Barrow, McDaniel said, told him Bonnie's gun was trained on him as he wrote out the summons. McDaniel said there was no doubt that it was Barrow although at the time he had no idea it was.
 The car had been stolen that day in Dallas, he said. The driver gave his name as "Harry Rose of Dallas" and signed the ticket at the officer's request. The ticket was never answered.
 Darkness prevented possible recognition of Barrow, the officer said.

BEE CAUSED CRASH
CINCINNATI.—A bee that buzzed into her automobile and stung her caused Mrs. Laura Hagen, 27, to lose control of her machine. Mrs. Hagen was cut and bruised when the car crashed into a pole.

Kansas Finds Its Land In Demand

DODGE CITY, Kan.—Every available acre of grazing land in the Blue Stem region of Kansas, known as the largest summer cattle pasture in the country, is under lease this year, according to cattlemen. Drought conditions in other parts of the country largely were responsible for heavy rentals.

Formerly known as the Flint Hills before the name was changed three years ago to give a more appropriate connotation, the pasture extends along a strip 75 miles wide, 150 miles north from the Oklahoma boundary.
 The grass stand is considered the richest in the United States. Last year more than 800,000 head of cattle, bred under precarious conditions in Texas and New Mexico, were fattened on it.
 Every year in April and May thousands of lean cattle are rounded up in the southern states and transported by rail to the region. In late summer another round-up is held and the grass-fattened stock is shipped to market, usually in August and September.

The section is sparsely populated, although along its borders towns and farming communities are numerous.
 The blue stem grass begins spreading its green over the Flint Hills in April and quickly develops into pasture growth.
 Unpastured, it frequently grows knee deep and in sloughs often grows stirrup high.

Frog Hunters Get a Two Pound Bass
FORT WORTH.—A frisky two-pound bass took a high leap into the air in the Trinity River as Roy Simpson and J. J. Colleenback rowed up the river, seeking bullfrogs.
 The bass landed in their boat, making their catch for the day "one bass and no frogs."

Amarillo Men Turn to Handicraft
AMARILLO, Tex.—Amarillo business men are spending their leisure time in building bird cages, finely polished cabinets and other handicraft.
 Doctors, lawyers, bankers, merchants and others have organized a Home Workshop Club.
 This spring they exhibited a 12-room bird house built for the city zoo, hand-made dominoes, tables, and even silver belts.

PUPILS SET RECORD
FORT WORTH.—Due to the vigilance of schoolboy patrols, Fort Worth has gone through its third consecutive year without an automobile fatality to pupils. Only two or three minor accidents occurred during the last school year.

The 1934 Oklahoma Campaign Taking On Circus Trend

By FRANK McNAUGHTON
United Press Staff Correspondent
OKLAHOMA CITY.—Oklahoma's 1934 political campaign would have been worth millions to P. T. Barnum.

Combining all the elements of jazz, slapstick comedy, oratory good and bad, weird economic theories, and bizarre campaign tactics, the political sideshows are presenting hilarious entertainment for the people.

For weeks, Gov. W. H. "Alfalfa Bill" Murray has been "off the reservation," touring the country.

In Don Quixote fashion, he has tackled a score of political adversaries, launching his own ticket for major state offices.

Lieut. Gov. Robert Burns, enemy of Murray, has a blaring, 130-piece band to do his trumpeting in the gubernatorial race and Corporation Commissioner J. C. (Iron Jack) Walton has revived his brass band of 1922 fame for his campaign.

Attorney General J. Berry King, another gubernatorial aspirant, uses a phonograph mounted on his automobile and several records of jazz, crowd-gathering tunes.

Dr. George Long, Tulsa dentist-brother of Louisiana's Kingfish, has a sound truck, and camp outfit to tour the state in whirlwind fashion. His party sleeps in a tent while on the road.

Campbell Russell, former Corporation Commissioner and Democratic candidate for Congressman, uses a "half pint" car and loud speaker in a dynamic tour.

State Senator Tom Waldrep, a Democratic candidate for lieutenant-governor, passes out heavily perfumed campaign cards and carries a road show with him.

Two "Will Rogers" are running for congress-at-large, both democrats, one the teacher incumbent, the other a rustic truck driver. Neither are comedians.

Gomer Smith, another candidate for governor, is the pioneer user of noise-devices to drum up a crowd. Ever since he was defeated for the United States Senate two years ago he has been "driving along the section lines" with a phonograph and loud-speaker device, speaking to as few as 20 farmers and as many as several thousand, at a time.

GOOSE SPREAD RELIGION
WILLIAMS BAY, Wis.—A wild goose, one of the winged missionaries used by Jack Miner. Kingsville, Ontario, naturalist, to spread the Gospel, was found here recently by Walter L. Everson. A tag on the bird's leg dated in the spring of 1930 bore Miner's name and address and the scriptural message, "With God all things are possible." Miner informed Everson that he attaches similar tags to hundreds of fowl that visit his sanctuary.

Another tragic effect of this long drouth is that there won't be very many double headers toward the end of the baseball season.

No one could have done better keeping those Canadian quintuplets alive than old Dr. Dafee, says his brother specialist. Turning down that \$50,000 World Fair contract was a heroic deed in itself.

After a hard weeks work in the OIL FIELDS

Men... Man! How good does one of those good beds at the Hilton Hotel feel after a hard week's work in the field? Yes, we have many friends who spend the week in the oil fields garnering "Texas Liquid Gold" and spend the week-ends in one of our modern hotels, resting, relaxing and enjoying "Hilton Hospitality" to the fullest extent. We are always mighty glad to see these boys and do everything we can to make their "week-ends" pleasant ones. Next time you are away from home, look for a Hilton... we know you'll enjoy your stay with us.

WHAT HAS HAPPENED
John Hunter Yates multi-millionaire and is desirous of enjoying the rest of his life...

NOW GO ON WITH THE STORY
Blossom came in to the table and Zukowski rose. Yates' tone was not overly warm.

The trio proved to be a gay party. Zukowski, with his knowledge of Paris, had them visiting the little cafes that hide away...

The great Zukowski symphony rumbled and roared, cried and laughed. The finale built in crescendo...

then suddenly grasped her to him, crushing her in his arms. His lips found hers in a fierce, passionate kiss.

"No—don't! It's a charming habit. And you mustn't be impatient with Tony. He has a wonderful gift. He'll be a great man some day."

"Tonight," said Yates sadly, "I'd gladly change places with Zukowski. Because he can make up tunes."

"For what?"
Yates smiled. "For putting it

New Requirements To Practice Law Is To Go Into Effect

AUSTIN.—New requirements for the right to practice law in Texas will become effective July 15. To be eligible to law examinations after that time, applicants will have to present high school diploma, a state teaching certificate, a certificate of passing college entrance examinations, or a certificate of completion of two years pre-law studies in a school of equal standing with the University of Texas.

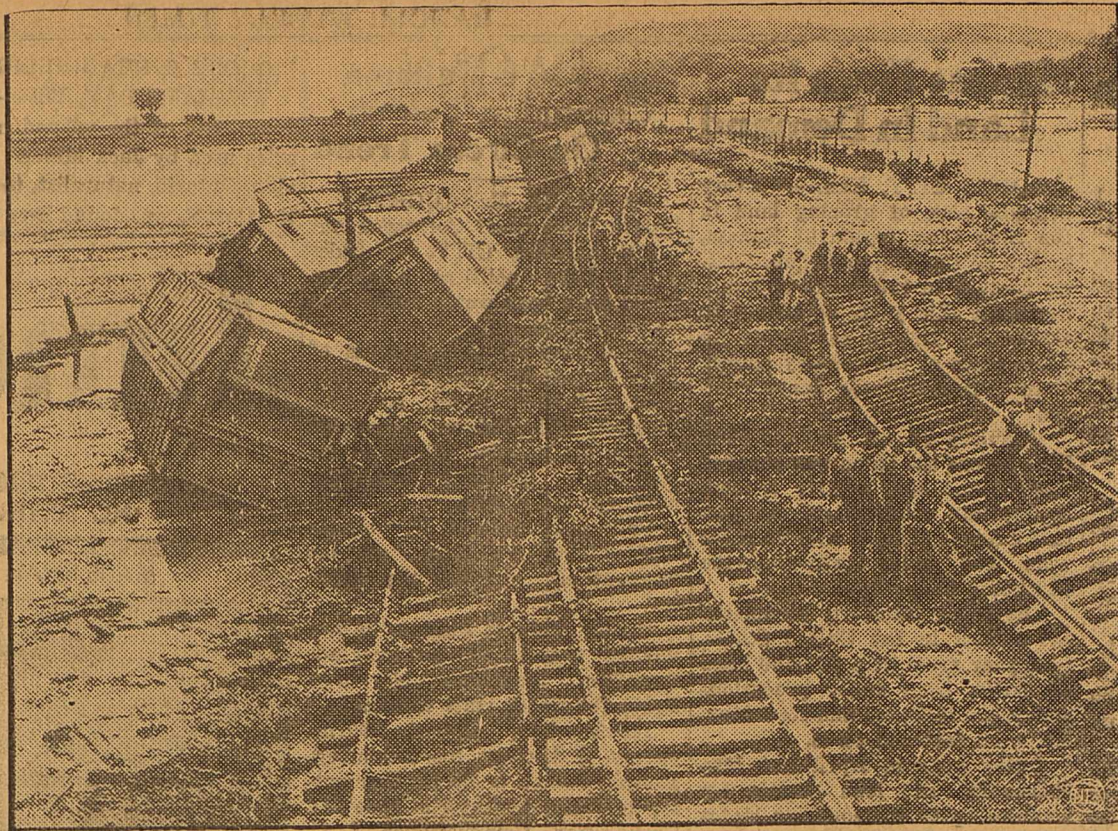

Graduates of the law schools of the University of Texas, Baylor, S. M. U., Jefferson university, San Antonio School of Law, San Antonio Public School of Law and Dallas School of Law can be admitted to practice without examination.

Those who take examinations face a board of five lawyers, appointed biennially by the supreme court. Examinations are written. They are held in February, June and October.

Moursund was appointed to fill a vacancy caused when John Bickett, San Antonio, was appointed chief justice of the Fourth Court of Civil Appeals.

TRY A WANT AD

Iowa Farmers Prayed for Rain—and Got a Flood

Prayers of Iowa farmers for rain were answered a hundredfold when the heavens gushed and damaging floods swept the state, parched by months of drouth. Here is a remarkable picture of the toll taken by the deluge, the wreck of a train caused by washout of tracks near Council Bluffs, Ia., when Honey creek became a raging torrent overnight. With cars spilled from the rails and flood debris littering the tracks, workmen are toiling to reopen the way for trains.

Funny how the same people who object to brain trusts in Washington would yell if there here a lack of any in their own businesses.

The astronomer who discovered the planet Pluto has taken a bride. No sooner does a man start stargazing than he finds a woman beside him.

KEENE N. H.—To avoid crowding of court dockets, parking law violators may pay a fine of 50 cents to the police in lieu of appearing in court.

Eleven Holidays Are Recognized By State of Texas

AUSTIN.—Monday was a holiday for state department employees. They will have a delayed observance of Jefferson Davis' birthday. His natal anniversary June 3, is a state holiday by act. Falling on Sunday this year, the holiday will be observed on Monday.

May 30, widely observed as Memorial Day in northern states, is not a Texas holiday. Some state departments closed for it; others did not. State higher courts held regular sessions.

There are only 11 state holidays. They are designated by legislative act. They are: Jan. 1, New Year; Jan. 19, Robert E. Lee's birthday; Feb. 22, Washington's birthday; March 2, Texas Independence Day; April 21, San Jacinto Day; June 3, Jefferson Davis' birthday; July 4, Independence Day; First Monday in September, Labor Day; Oct. 12, Columbus Day; Nov. 11, Armistice Day; and Dec. 25, Christmas.

Thanksgiving Day is not a state holiday by law. It is so designated by a governor's proclamation.

Beside the official holidays, the legislature also has designated Aug. 12 and Nov. 3 as "special days" without making them holidays.

Aug. 12 is "Texas Pioneer's Day," and Nov. 3 is "Father of

Ford Led Sales Of Passenger Cars

Ford led all other makes in sales of passenger cars during the first four months of 1934, according to official tabulations of motor vehicle registrations throughout the United States just issued by R. I. Polk & Co.

Total Ford registrations of new passenger cars in the four month period aggregated 362,788 units out of a total of 552,316 new cars of all makes registered in the United States in this period.

The Ford total of registration of passenger cars, commercial cars and trucks during the same four month period was also in the lead. Ford's percentage of the total business in May was increasing according to advance reports compiled by Polk in 106 leading cities in key points throughout the country.

"Full Feeling" After Meals

Here is how Theodor's Back-Draught proved helpful to Mr. Archie W. Brown, of Fort Green, Fla.: "I have taken Back-Draught when I have felt dull from over-eating or eating too hurriedly, he writes. 'Small doses right after meals rid me of gases and heavy feeling. I am a great believer in Back-Draught.'"

Theodor's BACK-DRAUGHT Purely Vegetable Laxative "CHILDREN LIKE THE TASTE"

It was for you and only for you. (Posed by Elissa Landi and Joseph Schildkraut)

money of John Hunter Yates had brought the Zukowski sympathy to an admiring world. Yates and Blossom were in the wings of the stage as Zukowski bowed to the applauding audience. "If we go over now we'll get killed in the rush," Blossom took Yates' arm. "Let's sneak away and see him tomorrow."

"And break his heart? Besides, there's a dinner for the critics at midnight. I think we're expected. Blossom seemed urgent. 'Let's get out of it.' 'I thought,' said Yates, surprised, 'you looked forward to it.' 'No,' Blossom was nervous. 'We're seeing too much of Zukowski. He's beginning to get on my nerves. Think, talks, breathes nothing but music. A bore. . . . But Zukowski, primming over with enthusiasm, rushed up. 'You're disappointed—I can tell by your face! You didn't like the finale! Not bold enough—not enough prestissimo—let's get away from here—come with me. He took their arms and hustled them to his dressing room. He shut the door and turned to them quickly. 'Well? Tell me quick! Tell me quick!' Yates smiled. 'Didn't the audience tell you?' Zukowski scowled. 'To the devil with the audience. Half the time they don't know what they like or why they applaud. This is your concert as much as mine. You made it possible.' He clutched at Yates' hand. 'How can I ever repay you, my friend?'

"You repaid me tonight with your success. Next to creating something yourself, I suppose, comes the thrill of helping it along. He shrugged. 'Midwife to the arts.' Zukowski turned eagerly to Blossom. 'And you, Blossom—what did you think?' 'It was wonderful, Tony. I congratulate you both.' 'We've got to celebrate tonight! After the dinner—' Zukowski almost shouted. 'I'm sorry,' said Blossom, 'but you'll have to count me out.' 'Zukowski was dismayed. 'Oh, no! Impossible without you.' 'I'm sorry, I can't. I have a headache—simply splitting. Maybe the excitement, . . . and anyway, I had nothing to do with it. I'd be an outsider, really.' Blossom turned to Yates. 'But you must go.' 'No, no. If you're not feeling well, I'll take you home. I'll order the car. Yates walked off to summon his chauffeur. Blossom avoided Zukowski's eyes. 'A great triumph, Tony.' 'No, . . . a failure. . . . He walked over to her and reached for her hands. 'Why did you say you had nothing to do with it when you had everything to do with it? As far as I was concerned, you were the only one in the theatre tonight. It was for you and only for you. . . . He looked at her for a moment.

RANGER IN 1930 (Continued)
May 12 ten animals were added to the fire station zoo, which was being built and stocked by the firemen during their spare time. The animals included two foxes, a raccoon and seven wild ducks. The park and zoo was beginning to attract much attention, and was being visited daily by numbers of people.

May 14, the school board met and elected teachers for the Ranger High School, Ranger Junior College and the ward schools for the next year.

June 15, Melvin Dunson, 17, of Ranger, was fatally shot and Oscar Privett was arrested and signed a confession. In the signed statement he said he and Dunson had quarreled the night before and in the morning he had asked Melvin to go with him to find a vacant home. When they got to the intersection of the Texas & Pacific and Jake Hamon railroads, the two lads again quarreled and Privett shot Dunson twice, after Dunson had struck at him and missed.

May 18 the baculaureate sermon for the Ranger Junior College pairn, with house numbers being purchased by each member of the club. The campaign had been waged for two years.

May 18 the baculaureate sermon for the Ranger Junior College was delivered. Rev. H. H. Stephens, who was to deliver the sermon, was ill and unable to do so.

May 19 plans were announced for conducting a summer school of the Ranger High School and the Ranger Junior College.

May 20, W. D. Conway was elected a director of the West Texas Chamber of Commerce for the year, at a meeting of directors of the Chamber of Commerce.

May 22 the population figures for Eastland county were announced by the census bureau, the total population being listed at 33,981.

May 25 Ira McKee, who had a gun battle with a Ranger officer a few weeks before, when both men emptied their guns at 10 feet without either being hurt, was arrested near Atlanta, Texas, and returned to Lamesa, where he was wanted in connection with a filling station robbery and murder.

May 25 the Oil Belt Sheep and Goat Raisers association announced plans for their annual meeting and barbecue.

May 25 commencement services for the graduates of Ranger High school were held with Dr. W. F. Ledlow as the principal speaker. There were 55 in the graduating class.

May 26 the 25th anniversary of the ordination of Rev. M. J. Collins of St. Rita's church was celebrated with a banquet with a large number of people present.

June 1 state aid for junior colleges was unanimously adopted at a meeting of the West Texas Chamber of Commerce at Abilene, the resolution being offered by R. F. Holloway. W. D. Conway, Edw. R. Maher, Walter Murray and Wayne C. Hickey were active in behalf of the resolution.

June 1 word was received in Ranger that Thomas L. Blanton, who had been elected in a special election to fill the vacancy caused by the death of Congressman R. Q. Lee of Cisco, would be seated immediately. Mrs. Lee, widow of the deceased congressman, was a candidate for the place, carrying Eastland county by a majority of 36 votes.

June 2, Odell Ivy, 15, was fatally injured when he fell 40 feet from an oil derrick near his home on Eastland Hill. He and several other boys were playing around the derrick when the accident happened.

June 3 Elwood Brown, 17, of Wiles, was a patient in a local hospital, suffering from a rattlesnake bite, the first reported in this section in some time.

June 4 a 700-barrel well was reported to have come in south of Ranger when the Mook-Texas No. 11, Minnie Sibley came in. Several other wells and a gasser had been reported in the vicinity. The well was drilled to 3,400 feet.

June 5 Jim Ingram and Patrolman Bratton captured the last of a number of prisoners who escaped two years before from the "escape proof" Stephens county jail atop the new courthouse, and he was turned over to Stephens county officers.

7,500,000 Rats Killed as Result Of CWA Projects

WASHINGTON.—More than 7,500,000 rats were destroyed as a result of Civil Works Administration projects carried on from Dec. 15 to March 29 in Georgia, Alabama, and Texas, reports the Bureau of Biological Survey, U. S. Department of Agriculture. The rats were killed through poisoning and trapping operations supervised by the biological survey in a cooperative campaign for control of typhus fever conducted with the Bureau of the Public Health Service of the Department of the Treasury, and the state health departments.

The effect of the campaign in controlling typhus fever will not become apparent until late in the year, but biological survey officials estimate that the rat riddance alone represents an economic saving of more than 12 times its cost. "Rat damage to produce and property," says James Silver, regional supervisor of rodent control, "is conceded to average \$2 a year per rat in many cases where complete results were obtained during the CWA campaign, a number of years may elapse before reinfestation occurs, but on the average seven months of rat riddance may be relied upon. The destruction of 7,500,000 of these rodents, resulting in freedom from rats for an average of seven months, thus represents an economic saving of

They Play Hard!
When They Buy Drinks, Insist That It Be **Birley's California ORANGEADE** 5c
Drink Stands & Groceries Bottled by **Oakwood Jersey Dairy** Ranger

approximately \$8,750,000. Costs of the rat control in the three States totaled \$672,962, including wages for nearly 10,000 men employed for a total of 1,112,323 hours.

Typhus-Fever Control Main Object
The prime object of the anti-rat campaign, officials point out, was to control typhus fever. To this end it was necessary to eliminate rats, which serve as hosts for fleas that carry the disease organism. These rodents become infected from fleas and develop symptoms of typhus fever, but they rarely, if ever, die of the disease. Rats in turn infect other fleas, which remain capable of transmitting typhus fever to other rats and to man.

Rod Squill Used for Poison
The CWA workers, explains the biological survey, first treated all premises in the typhus-fever areas with baits containing red squill—an effective rat poison that does not seriously menace the lives of other animals. This raticide, perfected by the Department of Agriculture, is objectionable to most animals and in addition acts as an emetic, but rats eat it readily when it is mixed with a suitable food and, as they are unable to vomit, it causes their death.

Using red-quill baits, the workers treated 355,133 premises in 70 counties of Georgia, 279,801 premises in 21 counties of Alabama, and 112,674 in 45 Texas counties. They distributed more than three and a half million rats in Georgia, more than two million in Alabama, and nearly one and a quarter million in Texas—a total of approximately 6,904,000 rats poisoned.

"This estimate," says Mr. Silver, who has had long experience in rat control, "is very conservative. We first made a calculation based on the number of poisoned rats actually found in one county of Alabama and this calculation was cut practically in half to arrive at the final estimate quoted." The workers also conducted trapping operations, but almost exclusively to clean up premises where rats remained after poisoning. By actual count it was found that 623,000 rats were thus caught with traps, in addition to those poisoned, on less than a third of the total premises treated. Added to the estimate of rats poisoned, this figure makes the total estimate of rats destroyed 7,527,000.

\$150 BURNED IN POCKET
HAVERHILL, Mass.—Although he was only slightly injured when his clothing was fired by burning grease, Americo Sardello, a chef, lost \$150 in his pocket. The money was burned beyond use.

Hurricane Season Watched by Folks In South Texas

McALLEN, Tex.—The hurricane season on the Gulf of Mexico has come again, with its annual threat of death, injuries, and property damage.

Until November the destructive winds can be expected any time. Shippers keep an extra close check on weather predictions. Merchants and residents along the coast keep boards ready to put over windows. Farmers look anxiously every morning to see if storms are threatening their crops.

September is the most dangerous month, although hurricanes occur any time from June to November.

Last year's big storm, which killed 44 persons, injured 1,500, and caused property damage estimated at \$12,000,000, took place in September. The 1900 hurricane, which swept over Haiti and Cuba, struck the Texas coast at Galveston, and traversed the midwestern states, St. Lawrence Valley, Nova Scotia, New Brunswick and Iceland, also was a September storm.

Hurricanes, utterly uncontrollable, generally "run wild." A few characteristics are common, however, to all Gulf hurricanes.

All hurricanes are vast whirlwinds, circular in shape, which rotate counter-clockwise. In genuinely developed hurricanes there is an "eye" or center, usually from 5 to 25 miles across, in which there is absolute calm. Around this calm, however, whirls a terrific wind, which may develop a speed of 140 miles an hour. No storm is called a hurricane until the wind exceeds 75 miles an hour.

While the winds are whirling about the center of the hurricane, the entire storm area progresses at a rate averaging around 12 miles an hour.

Weather bureau records show Florida and Texas to be the chief victims of hurricanes, with Florida leading.

During the half century from 1878 to 1928 Florida had 32 hurricanes, Texas 24, and Louisiana 16. During the same period a total of 127 hurricanes struck the coasts of Texas, Louisiana, Mississippi, Florida, Alabama, Georgia and the Carolinas. Fifty-one of these blew in September.

Florida has an average of one hurricane in every 1.3 years. The Texas average is one in every 2.1 years.

COLONY

Special Correspondent

Mrs. Clarence Obyrant and children, Betty and Bobby, of Winters, are visiting C. E. Hathcock and family.

Colony and Oakley played ball Sunday on the Colony field. The score was 14 to 9 in favor of Colony. They will play again next Sunday afternoon.

Master Bob Smith of Breckenridge returned home Monday after spending a week with his cousins, Willie Dee and Wesley Poyner.

Farmers are busy cutting grain and the women are busy canning berries.

Miss Mae Bowen of Eastland spent the week-end with her parents, Mr. and Mrs. O. C. Bowen.

Mrs. W. L. Mills was a business visitor to Eastland Monday. Mr. Mills' condition remains about the same.

Mr. and Mrs. Clayton Lusby of Abilene made their sister, Mrs. K. F. Kirk, a short visit last week.

A number of out-of-town and Ranger relatives spent Sunday with Mr. and Mrs. H. B. Groce.

Mrs. Roscoe Russell of Cleburne visited her brother, W. L. Mills, one day last week.

OAK GROVE

The drought continues in this community and crops conditions are distressing. Stock water has dried up in the small tanks and is getting low in the larger ones.

Tom Greer's baby was reported to be real sick last week and Miss Julia Parker is still on the sick list. Otherwise the health of the community is very good.

Mr. and Mrs. Bob Hastings of Shady Grove spent Sunday night and Monday in the home of Rev. and Mrs. J. E. Canaday and canned a fine lot of berries during the day.

William Clyde Maynard and Miss Daphne Cox were happily united in marriage on Tuesday, June 5, at 8 p. m., at the home of Rev. J. E. Canaday with the Rev. Canaday performing the ceremony. Mr. Maynard is the son of Mr. and Mrs. W. T. Maynard of this community and Mrs. Maynard is the daughter of Mr. and Mrs. John Cox of Sidney. The young couple was accompanied by Mrs. Deward Maynard and Miss Nadine Vines. We join their many friends in wishing them happiness and prosperity.

LACASA

Everyone is nearly through cutting and combining their grain and the threshers are starting soon.

Mr. and Mrs. J. B. Jones left Saturday morning for their home in Mexico.

Mr. and Mrs. H. L. Caraway visited in Ranger Monday.

Miss Nolie Raney visited her sister, Mrs. D. W. Mitchell of Ellaville this past week-end.

A. J. Beck has moved back in this community.

Mrs. N. P. Raney, Mrs. D. B. Raney and Nolie Raney visited in the home of Grandmother Bargsley Tuesday afternoon.

Mrs. J. M. Ware and Ofer Caraway went to Ranger on business Tuesday.

E. R. Bradford and wife of Graham spent last Thursday night with his sister, Mrs. N. P. Raney.

Mrs. H. L. Caraway spent Saturday in the home of Mr. and Mrs. B. E. Newham.

A. O. Tompkins brought his new tractor and thresher into Frankell Tuesday morning.

Distillers soon may produce an odorless whisky, which is good news for late husbands and reckless drivers.

CALLS ALL-BRAN NATIONAL NATURAL LAXATIVE

Delicious Cereal Checked His Constipation

Here is an unsolicited letter from Mr. Daniels:

"For many years I have been habitually constipated, and have used all sorts of laxatives. So, in fairness to Kellogg's ALL-BRAN, I heartily claim it to be a most wonderful remedy for constipation.

"Need I tell you that I have long since ceased using laxatives? Kellogg's ALL-BRAN is the National Natural Laxative. If it were used by every family in the United States for breakfast, we would have a much healthier race of people."—Mr. John Daniels, 1090 Third St., North Bergen, N. J.

Tests show Kellogg's ALL-BRAN furnishes "bulk" to exercise the intestines and vitamin B to help tone the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Isn't this food much pleasanter than risking pills and drugs? Two table-spoonfuls daily are usually sufficient. If not relieved this way, see your doctor.

Get the red-and-green package at your grocer's. Made by Kellogg in Battle Creek.

Time For Tagging Cotton Extended

WASHINGTON.—Under the terms of a regulation signed today by the commissioner of internal revenue and approved by the secretary of the treasury, cotton harvested and ginned prior to June 1, 1934, may be "transported, sold, purchased or opened at any time prior to July 1, 1934, even though a bale tag is not attached."

The Bankhead act, requires that no cotton shall be permitted to move beyond the boundaries of the county where produced to which a bale tag issued under the provisions of the act is not attached. The commissioner of internal revenue may, with the approval of the secretary of the treasury, issue regulations permitting the transportation, sale, purchase or opening of bales without bale tags attached.

The extension of time for tagging old cotton was granted upon the recommendation of the agricultural adjustment administration which has been designated by the secretary of the treasury to identify and tag cotton produced prior to the current season. Such cotton is not subject to the tax imposed by the Bankhead act on the 1934 crop.

Cotton produced in 1934 will require either an exemption certificate upon which a bale tag may be procured, or a tax of 50 per cent of its value must be paid before such cotton can be sold.

Applications for bale tags for cotton produced prior to June 1, 1934, are being prepared by the agricultural adjustment administration and will be dispatched to county agents in the cotton counties within the next week or 10 days, it was announced.

Persons holding cotton produced and ginned prior to June 1, 1934,

will be required to execute one of the forms provided to obtain the necessary bale tags. When the applications are completed, representatives of the government will issue the bale tags and supervise the attachment of such tags to the cotton produced and ginned prior to June 1, 1934.

It is estimated by the agricultural adjustment administration that there exists approximately eight million bales of cotton in warehouses, at consuming establishments and elsewhere that are eligible to obtain these bale tags. Of this amount, it is estimated that approximately 800,000 bales are located on farms.

Complete details as to the method of obtaining and executing applications for bale tags and regulations governing their issuance will be announced next week, it was stated at the agricultural adjustment administration.

The regulations to be issued will provide that cotton produced prior to June 1, 1934, and located at consuming establishments may be opened and put into manufacture without a bale tag being attached and the holders of such cotton will not be required to make applications for tags.

Kerrville Taxes Show an Increase

KERRVILLE, Texas.—Improved business conditions here are reflected in tax payments by Kerrville citizens.

More than 74 per cent of current city taxes have been paid, whereas only 57 per cent had been collected at the same time last year.

Citizens have paid in over 71 per cent of school taxes, compared to 55 per cent a year ago.

Up to six times as much delinquent taxes were being paid.

OKRA

Rev. W. S. Fisher of Sipe Springs will hold services at the Methodist church Saturday night and Sunday. Everyone is invited to attend.

A large crowd was present at singing here Sunday night. Committees were appointed to see the business men in connection with the singing convention which will meet here the second Sunday in July.

Herman Harold and Bobbie Jay Claborn are spending the week with their sister, Mrs. Carl Baker of Strawn.

Mr. and Mrs. Claud Harris spent Sunday afternoon with Mr. and Mrs. Fred Scott.

Mr. and Mrs. Ed McCleskey and family of Eastland and Mr. and Mrs. Herman Gregg spent Sunday with Mr. and Mrs. Will Medford.

Mrs. Jane Maxwell has returned from Midland where she has been visiting Mrs. John Roberts, who is ill.

Mr. and Mrs. Milam Morgan visited Mr. and Mrs. W. R. Laird Sunday.

Mr. and Mrs. Willis McClenahan of Blake were visiting relatives here Sunday.

Charles and Merlyn Smith of Big Spring and Mr. and Mrs. Fate Brown and little daughter, Erlene visited Mr. and Mrs. H. D. Maxwell and Mrs. Darl Hayes Sunday.

Miss Dorothy Jones of Pioneer spent the week-end with relatives here.

Okra baseball team played New Hope Sunday afternoon at New Hope. Scores were ten and fourteen in Okra's favor.

Miss Lavern Claborn spent Monday, Tuesday and Wednesday with Mr. and Mrs. R. D. Maxwell Jr.

Miss Ruby Nell Been of Long Branch visited Miss Willa Fay Alford Monday.

Mr. Bruce Erving and Miss Merle Murry were married Sunday. Their many friends wish them happiness.

Mr. and Mrs. C. L. McCollum visited Mr. and Mrs. J. G. Stuteville of near Cisco Sunday.

Mrs. Maxine Crisp entertained with a miscellaneous shower for Mrs. Ross Fussell Tuesday afternoon. Mrs. Fussell, who was formerly Miss Mary Milford, received several lovely and useful gifts.

Mrs. Alma Murry and sons were visitors in Eastland and Gorman Tuesday afternoon.

Misses Maxine Maxwell and Martha Rhea Hill visited Miss Wynogene Medford Sunday.

Public Schools Are Aid To Recovery

HOUSTON.—Public schools are due great credit for the intelligence with whom the American people have viewed the serious economic conditions of the depression, President H. Y. Benedict of the University of Texas said here.

If the majority of the people had not had the benefits of public schools, Dr. Benedict said, they would have "busted the works."

Speaking at the annual commencement exercises of the Houston public schools, Dr. Benedict said he believed the public schools, "from top to bottom," are doing a fine job.

FIRST PRESBYTERIAN CHURCH
L. B. Gray, Pastor
Sunday school, 9:45 a. m.; S. B. Baker, superintendent. Fine attendance last Sunday. Make it larger today.

Morning worship, 11 a. m. Father's Day will be observed, with a talk on "Hello, Dad; You're the Best Man in the World!"

Evening worship, 8:15 p. m. Sermon theme, "The Master's Mind."

Christian Endeavor, 7:30 p. m., led by Buford Anderson.

Ladies' Auxiliary, Monday, 3 p. m.

Midweek devotions, Wednesday, 8:15 p. m.

The Little White Church on the Hill invites you to participate in its services and its labor of love. Come, with your coats off, in this hot weather, if you like. Be comfortable, and worship in peace. Religion should make it easier to bear the burdens of life, and it does!

RATTLERS INVADE TOWNS
RENO, Nev.—Exceptional dryness throughout Nevada has resulted in rattlers seeking water from various communities. The rattlers have appeared in larger numbers this year than ever before.

CAT COMMITTED SUICIDE
ROCKVILLE, Conn.—Refusing to eat and drink after her mistress, Mrs. Ann Regan died, a pet cat deliberately walked in the path of an automobile and was killed.

MESSAGE SENT TO DEAD
QUINCY, Mass.—A message from California relatives to Maria Dj Tullio, "lying in Mt. Wollaston Cemetery," was received at a local telegraph office and placed on the woman's grave.

Expert Traces the Evolution of The Entire Bird Family

WASHINGTON.—Although it was a complicated job to trace the evolution of bird from the grotesque, toothed flying creature of 150,000,000 years ago to the toothless little songbird of today, Dr. Alexander Wetmore, assistant secretary of the Smithsonian Institution, has succeeded in classifying their family trees.

On the basis of recent researches, Dr. Wetmore has introduced a number of changes from previous bird classifications. He has divided the class into two sub-classes, five super-orders, 34 orders, 42 sub-orders, 25 super-families and 61 families.

Originally Had Teeth
Complicated as the bird's family tree appears, the secretary pointed out, it is comparatively simple to that of the reptiles and mammals, since its evolution has been confined to narrower lines. He believes that near the end of the Cretaceous geological period when reptiles began to vanish, all birds probably had teeth which gradually disappeared as the group entered the Tertiary period.

The first great flock of ancestral birds, Dr. Wetmore revealed, were the Archaeopteryx, which included such winged reptiles as the Archaeopteryx and Archaeornis. Following them came the toothed birds of the New World—the first true birds recognized by fragmentary fossil records. They

included the Hesperornis, Hageria and the Ichthyornis.

Ostrich Family Most Primitive
Representing a long advance, the various creatures of the ostrich family were classed as the most primitive of living birds. Near them were placed the extant moas and close ahead such curious creatures as kiwis and penguins—true birds but not of the typical modern bird-pattern.

Ranked as the highest branch of bird evolution, the great sub-order of passerines or songbirds was placed at the top of the family tree in the classification. This group includes 50 families ranging from larks to finches and buntings.

ARCTIC MUSEUM PLANNED
LENINGRAD.—An "Arctic Museum" is to be opened here shortly. It will feature flora and fauna of the far north and will illustrate the life and activities of the Eskimos and the progress of Soviet science in bringing civilization to polar tribes.

Weight Reduced From 180 to 137
"Wonderful," She Says
Here's today's story of a woman who knew she carried too much fat and decided the right way to get rid of it—just a few words that wise fat folks should heed—worth reading.

"I use Kruschen Salts to reduce. It's wonderful. Take it daily and eat what I want and still lose. I did weigh 180, now 137. Want to get down to 125." Mrs. Leonard Bass, Ft. Atkinson, Wis., Feb. 6, 1934.

When you take one half teaspoonful of Kruschen in a glass of hot water—you not only lose in weight but you put healthy activity into your whole body—you feel younger and look it—get it at Paramount Pharmacy, or any drug store in the world.

HOW WOMEN CAN WIN MEN AND MEN WIN
The Favor of Other Men
Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, dimpled, full eyes, bad breath, bad taste, gas, dizziness, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gums and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move on the tail end of your bowels and that doesn't take away enough of the decayed poison. Cathartics won't help at all.

Only a free flow of your bile juice will stop this decay. Bile in your bowels. The free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. If you would bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today, 25¢ at drug stores. Refuse "something just as good," for it may cripple, loosen teeth or scald rectum. Ask for Carter's Little Liver Pills by name and get what you ask for. © 1935, C.M. Co.

SALEM

Special Correspondent
Bro. Rippitoe preached here Sunday evening.

Mr. and Mrs. W. H. Sparger and Mrs. Oren Sparger visited Mr. and Mrs. John Fonville Sunday evening.

Mrs. Carrie Stacker of Shallow-water, Texas, has been here visiting her sisters, Mrs. John Fonville and Mrs. Carl Perring. Mrs. Stacker formerly lived here.

Mr. and Mrs. Jess L. Hughes visited Ed Lee Sunday and attended singing at Alameda.

Mr. and Mrs. Ruford Bunton of Alameda have moved to this community.

Mr. and Mrs. Troy Melton and Lawrence Hughes attended the musical at the home of Miss Pearl Grubert Friday night.

Mr. and Mrs. George Love visited her sister and husband, Mr. and Mrs. Bob Underwood, Sunday.

Mr. and Mrs. Otto Beaver drove over to Gorman on business Tuesday.

Mr. and Mrs. Earl Redwine and Mr. and Mrs. Roy Dunlap visited Ha Redwine Sunday.

Mr. and Mrs. Zelvin Fonville visited his parents, Mr. and Mrs. John Fonville, Sunday.

Bonnie Fay Highsmith visited Earl Redwine and family from Sunday until Tuesday.

Mrs. Oren Sparger has returned to her home after visiting W. H. Sparger for the past two weeks.

Tobe Johnson visited John Cameron Sunday.

Remember next Sunday night is singing night here.

Mr. and Mrs. Ha Redwine spent Saturday night with Roy Dunlap.

We had a large crowd out to Sunday school Sunday.

Mrs. Earl Redwine visited Mrs. Highsmith Tuesday.

Mrs. Callie Dunlap visited Mrs. Earl Redwine Monday evening.

Mr. and Mrs. George Love visited Mr. and Mrs. Jess L. Hughes Saturday.

Mont Manchester is spending a few days with Lawrence Hughes.

There was a musical at the home of Laton Rogers Wednesday night.

George Hughes and Mont Manchester will start a meeting here June 22 at the Church of Christ.

Mrs. I. C. Redwine visited Mrs. Jess L. Hughes Wednesday evening.

YOUTH IS JUNIOR POLICEMAN

GALION, O.—Police Chief Frank Cook has recommended Bobby Thomas, school boy safety patrol member, as a "junior" policeman. Here's why: A hardware merchant told Bobby one noon that a knife was missing after a boy had been in his store. Young Thomas produced both the boy and knife within a half hour.

Try a WANT-AD!

Why Let Your Skin Age?
Protect your skin with this new wonderful Face Powder and let MELLO-GLO give you that youthful bloom. Made by a new French process—stays on longer, prevents large pores, beautifies your complexion. VOLUME I.

RANGER, TEXAS, FRIDAY, JUNE 15, 1934

NUMBER 23

TWO WITHDRAW FROM RACE AT LAST MINUTE

AUSTIN, June 11.—J. F. Hair, San Antonio, withdrew from the race for attorney general in a communication to the state democratic executive committee, which met here today to draw up the ballot for the primary election July 28.

A committee vote on whether prohibition repeal should be submitted to referendum, probably was avoided when it was decided all resolutions shall go to a committee of five and not be presented to the whole committee.

Roy F. Tennant, holding the proxy of Will St. John, of Cisco, had a resolution prepared calling for submission of repeal. Tennant is manager of the Central Texas campaign for Maury Hughes, Dallas, candidate for governor.

KILGORE, Texas, June 11.—R. D. Parker, prohibition enforcement officer for the Texas Railroad commission, today wired the state democratic executive committee to omit his name from the primary ballot as a candidate for railroad commissioner.

Application for a place on the ballot for Parker was filed last week by 40 of his friends, who acted in hopes he would take part in the race.

Parker previously had declared he would not seek the office, and his telegram to the committee today re-affirmed that statement.

Administration's Hold On Congress Approaches Test

WASHINGTON, June 12.—The administration's holdover congress approached a vital test in the house today when the scope of the housing program was challenged in a fight which may delay adjournment.

The senate was ready to take up the permanent appropriations bill after approving the silver proposal and rejecting the bonus.

Despite charges by Harry L. Hopkins, federal relief administrator and the national emergency council that the housing bill, as reported to the house, was "unsatisfactory" the group decided to bring it up today without the revisions.

King Prajadhipok of Siam went to England for another operation on his eye. Perhaps he feared America's new eye opener.

Christian Church Revival to Start Sunday, June 17

Rev. H. B. Johnson, pastor of the First Christian church of Ranger, has announced a revival meeting, which will be held at the church beginning Sunday evening, June 17. The services Sunday evening will be conducted by the pastor and Rev. Forester will arrive in time for the services Monday, and will conduct the revival.

Every member of the church has been urged to take an active part in helping to make the revival a success and the following committees have been appointed for the revival:

Entertainment committee—Mrs. Donald Smith, chairman; Mrs. Jack Blackwell, Mrs. Sam Gamble, Mrs. Nath Pirkle, and Mrs. A. J. Bartrug.

Music committee—E. T. Walton, chairman; Hal Hunter, Mrs. V. V. Cooper Jr., and Mrs. H. S. Von Roeder.

Finance committee—J. C. Carothers, chairman; H. C. Anderson, Ernest Glazner, T. D. Martin, and Jack Blackwell.

Young folk meetings—Mrs. R. A. Steele, chairman; others to be named later.

Meeting strangers and visitors—H. C. Anderson, chairman; R. F. Holloway, Mrs. H. S. Von Roeder, Mrs. E. T. Walton, Mrs. Hal Hunter, Mrs. H. B. Johnson, Fred Hughes.

Other committees are to be appointed later. All who have been appointed on committees, the pastor said Saturday, are expected to work at their jobs in order to assure the success of the revival.

National Planning Board to Draft Greater New Deal

WASHINGTON, June 12.—The national planning board within a few weeks will submit the draft of the first steps in translating President Roosevelt's proposed "greater new deal" from words to blue prints.

Little known, but officially recognized as a vital unit of the recovery administration, this board has been engaged in research on which the government may base its future policies.

Its work promises to bring a step nearer realization the President's ideas for planned progress for the nation. Its report will be submitted to President Roosevelt and Secretary of the Interior Ickes, jointly.

British prison libraries are barring American murder stories. But England better not try taking such books away from children.

DARROW BOARD MAKES SECOND NRA REPORT

WASHINGTON, June 12.—The unofficial text of the Darrow board's second report, a new attack on national recovery administration of small business, was revealed today.

The second Darrow report also charged that the retail code was offered after it had been approved by the industry and before it was submitted to President Roosevelt for signature.

The document levels its strongest criticism against the retail trade code. The board took sarcastic notice of the recent NRA order regarding price-fixing and continued its attack on the administration of Gen. Hugh S. Johnson.

Morton Valley to Have Revival Meet Beginning Sunday

The Morton Valley Baptist church announces their summer revival meeting beginning next Sunday night, June 17, and continuing through July 1. Services will be held twice daily, at 10 a. m. and at 8 p. m. Rev. A. A. Davis of Carbon will do the preaching, while the singing will be under the direction of the Rippeoe brothers, well known singers of this section of the country.

The Morton Valley Baptists extend a cordial invitation to all neighboring towns and communities to be in attendance upon these services.

Mother of T. A. Watt Dies at DeQueen

Word has been received by Mrs. C. A. Murphy that Mrs. T. C. Watt, mother of T. A. Watt of Ranger, passed away at her home at DeQueen, Ark., Friday of last week after an extended illness. Services were conducted at DeQueen Sunday afternoon at 1 o'clock. Mr. Watt, wife and little daughter, who were at the bedside of her illness, will return home early this week.

Body of Girl Found On Tracks; Murder Suspected

HEARNE, Texas, June 12.—The mutilated body of a young girl struck by a Missouri Pacific train was said to contain bullet wounds.

Officers believed the girl was slain and her body placed on the tracks.

A young boy who had accompanied the girl and who was questioned yesterday said the girl was Helen Dexter of Central City, Ky.

After being questioned the boy and girl were released. Efforts to find her after the girl's body was struck by the train today were unavailing.

U. N. Whitehall Died at Ft. Worth

Word was received by Judge and Mrs. J. N. McFatter late Saturday afternoon that U. N. Whitehall died at his home in Fort Worth Saturday afternoon at 3:50 o'clock.

Details of when the services were to be held were not learned by the McFatters.

The decedent is well known in Ranger, having been in the construction business for a number of years.

Sept. 12 Fixed As Shady Grove Fall Fair Date

SHADY GROVE, June 12.—September 12 was tentatively set as the date for the Shady Grove community fair this year at a meeting of the community council group Saturday evening. The meeting was held at the school building.

A general committee was named to consist of Wayne Thurman, Mrs. Frank Ziehr, Miss Willie Word, Charlie Wende and Edgar Altom. This group will direct the organization for the fair.

County Agent J. C. Patterson made a brief talk on keeping farm records and accounts and he and Vocational Instructor J. M. Bird, Cisco, distributed record books to the farmers.

Bird discussed the foot rot disease found to have affected small grains in this territory, doing particular damage to wheat, oats and barley.

Present were the following members of the council: Mr. and Mrs. John McKinney, Mr. and Mrs. J. Graves, Wayne Thurman, Bobbie Thurman, Obbie Thurman, J. C. Thurman, Avery Holt, Albert Schorr, Mr. and Mrs. Frank Ziehr and Willfred Ziehr.

Oil Districts Change Orders Been Rescinded

CISCO, June 9.—An executive order which was issued as of May 1, requiring certain administrative changes in the Abilene and Eastland conservation districts of the oil and gas division of the state railroad commission has been rescinded, and the organization and personnel of these districts have reverted to the status of prior to that date.

The announcement was made by W. J. Carden, of the Abilene district, I. J. Killough of the Eastland district, and Luther Belew of Eastland. These three are deputy oil and gas supervisors.

The rescinded order, they said, affected other conservation and proration districts of the state, also. It never went into effect, however.

Oil operators, they announced, will therefore send to Mr. Carden at Abilene such papers as relate to conservation phases of the oil and gas administration in the Abilene district and to Mr. Killough at Eastland such papers as relate to conservation regulations in the Eastland area.

The local relief office today announced that another old clothes drive would be staged in Ranger beginning on next Monday.

All churches and organizations in the town as well as the Boy Scouts were urged to aid in the work and the cooperation of the citizens of the town was requested.

Anything in the line of old clothing would be appreciated, it was stated, and just because the clothing is somewhat worn need not keep anyone from donating it to the cause, the announcement said. Anyone who has anything that can be contributed can call the local relief office and a truck will be sent out for the clothing.

Old Clothes Drive Will Be Staged In Ranger Next Week

The local relief office today announced that another old clothes drive would be staged in Ranger beginning on next Monday.

All churches and organizations in the town as well as the Boy Scouts were urged to aid in the work and the cooperation of the citizens of the town was requested.

Anything in the line of old clothing would be appreciated, it was stated, and just because the clothing is somewhat worn need not keep anyone from donating it to the cause, the announcement said. Anyone who has anything that can be contributed can call the local relief office and a truck will be sent out for the clothing.

Negroes of Ranger Plan Celebration

The negroes of Ranger are planning a big time for Tuesday, June 19, when a big barbecue and picnic has been planned. The affair is to be held in the Hodges Oak Park.

A negro baseball game between a Ranger team and a team from Weatherford is scheduled for the afternoon and a dance is planned for the night, according to announcements made today.

The white friends are cordially invited to visit the picnic and to see the baseball game in the afternoon.

BABY MOOSE FAMILY PET

ST. GEORGE, Me.—The Earle Barter family pet is a baby moose. Only three days old when found in the woods near here, it is now a husky youngster that consumes six quarts of milk daily.

PROCEEDINGS IN COURT OF CIVIL APPEALS

The following proceedings were had in the Court of Civil Appeals for the Eleventh Supreme Judicial District of Texas:

Robertson, Haskell; Franklin Fire Insurance Co. vs. Dee Singletary, Scurry; James Shaw, banking commissioner, vs. Tom Harrell, et al.; Eastland; Lone Star Gas Co. vs. J. W. Birdwell, et al., Palo Pinto.

Cases to be Submitted Friday, June 15.—A. J. Smith Jr., vs. Stamford Gin Co., et al.; Jones; J. E. Lindsey, et al. vs. Realty Trust Co., Haskell; J. A. Shipley, et al. vs. Frances Louise Wyatt, Howard; Panhandle & Santa Fe Ry. Co. vs. Cadmus Brown, Fisher; Texas Life Insurance Co. vs. Mrs. Verna Plunkett, Baylor.

Phil-Pe-Co Club To Have Second Golf Tournament

RISING STAR, June 12.—The second annual invitation golf tournament of Phil-Pe-Co Country club, located midway between Rising Star and Cross Plains, will be held Friday, Saturday and Sunday, June 22, 23 and 24. Club officials here expect a big entry from all over West Texas.

Gid Faircloth, Ranger, is defending champion, and Bill McMahon, Cisco, was medalist in 1933. Both have signified their intention to enter the 1934 tournament in defense of their honors. J. T. Hammett, Rising Star youth who was medalist in the West Texas tournament at Big Spring, and semi-finalist in the Ranger tournament, will lead the local contestants.

Fishing and bathing, in Lake Phillips, along which the golf course is laid out, will be features of the play during the three days of the tournament.

France to Default War Debt Payment

PARIS, France, June 12.—France decided officially today to default on its \$59,000,000 war debt installment due the United States June 15.

The decision was reached at a cabinet meeting over which the president presided.

Elks Installed Officers at Last Regular Meeting

State notables in Elksdom installed officers of Ranger Lodge No. 1373 at the last regular meeting, which was attended by members from Dallas, Fort Worth, Breckenridge, Eastland and Cisco.

George Lauder milk of Dallas, newly elected president of the Texas State Elks association, presided as representative of the Grand Lodge and was assisted by H. F. Spellman, Fort Worth; Charles Mangold, past state president, Dallas; W. B. Mason, vice president of the State Elks association, Breckenridge; W. R. Dudley, Jr., state secretary, Dallas; J. D. Carter, past exalted ruler, Ft. Worth; J. B. Heister, Ranger; Tom Valles, Breckenridge, and Earl Swoveland, Ranger.

The officers installed were Wm. N. McDonald, exalted ruler; C. J. Moore, esteemed leading knight; Dr. W. L. Downtain, esteemed loyal knight; Dr. A. P. Shirey, esteemed lecturing knight; W. A. Lieth, secretary; Harry Henry, esquire; J. B. Heister, chaplain; S. Golden, filer and John Ducker, organist.

The total revenue was allocated as follows: To state highways, \$27,517,371; to local roads, \$111,109,158; to state and county roads, bond payments, \$58,972,767; to city streets, \$3,334,180; to costs of collection and administration, \$2,727,801; and to other than highway purposes, \$55,742,173.

Gasoline tax receipts in Texas amounted to \$28,479,350 being the tax paid on 711,983,752 gallons of gasoline taxed at 4 cents a gallon.

If you ever feel your brain has become rusty, remember there's enough iron in your body to make four large-sized nails.

Professor Einstein at Watch Hill for While

WATCH HILL, R. I.—Among the celebrities summering at this resort overlooking Long Island Sound is Prof. Albert Einstein, exiled German scientist, who at his leisure is delving further into the mysteries of the universe—and fiddling.

The visitor, whom Dr. Einstein would rather not see, may find the noted physicist in his cottage, "The Studio," playing his beloved fiddle in his shirt sleeves.

Dr. Einstein is delighted with the scenic beauty of Watch Hill. He plans to buy a sailboat, in which event he may be a spectator at one of America's Cup Races, to be sailed not so many miles from here.

The professor will remain until October, when he will return to Princeton, N. J.

Mexican Resident Of State 100 Years

WICHITA FALLS, Tex.—When Jose M. Pena died here, Texas lost possibly its only citizen who was older than the state itself.

Pena's exact age was not known but it was over 100 years. Pena, born in Mexico, came here while Texas still was a part of Mexico.

Political Announcements

This paper is authorized to announce the following candidates for office, subject to the Democratic Primary Election, July 28, 1934:

For County Judge: W. D. R. OWEN
CLYDE L. GARRETT

For County School Superintendent: CLAIRBORNE ELDRIDGE
T. C. WILLIAMS

For County Treasurer: JOHN WHITE
MRS. MAE HARRISON
MRS. (FRANCES) THORNTON
COOPER

For Sheriff: VIRGE FOSTER

For Representative, 106th District: GEORGE A. DAVISSON, Jr.

For Commissioner, Precinct No. 1: HENRY DAVENPORT

State Gasoline Tax Returns Were Up During 1933

WASHINGTON—State gasoline taxes in the calendar year 1933 yielded a revenue of more than \$519,000,000 as compared with \$514,138,900 in 1932 according to reports collected from state authorities by the Bureau of Public Roads, U. S. Department of Agriculture. This figure does not include tax returns from the Federal gasoline tax.

Consumption of gasoline exceeded 14 billion gallons and was slightly less in 1933 than in the previous year. The weighted average tax rate was 3.65 cents per gallon. There was a noticeable increase in the diversion of funds to other than highway purposes and also an increase in funds allocated to local roads.

The total revenue was allocated as follows: To state highways, \$27,517,371; to local roads, \$111,109,158; to state and county roads, bond payments, \$58,972,767; to city streets, \$3,334,180; to costs of collection and administration, \$2,727,801; and to other than highway purposes, \$55,742,173.

Two Men Are Unidentified By Companion

MIAMI, Okla., June 12.—A young officer and two unidentified gunmen were slain today in a battle on Main street.

Jack Dunaway, 33, merchant policeman, was killed as he walked up to an automobile to which he and two companions had pursued suspicious characters. The shooting began without warning as he asked:

"What's going on here, boys?"

The gunmen, one about 35 and the other 25, were believed to be from Muskogee and Cookson Hills sections. Their companion at the car, who gave his name as Frank Sinn, said he was from Webber Falls, but denied he knew either of the victims.

Fingerprints were taken and sent to Oklahoma City for classification in an effort to identify the men. Sinn refused to talk except to say he had been an unwilling companion of theirs.

Officers believed the two men killed intended to rob a drug store. They entered the store a few minutes before the shooting and looked the place over.

Young John Jacob Astor says life is difficult for him because of his riches. If pressed further, he might agree that it would be a bit more difficult without his riches.

Geo. Davisson Is A Candidate For Representative

To the People of Eastland County:

Upon the solicitation of many friends and after due consideration, I herewith respectfully submit to the people of the 106th Legislative District of the State of Texas my candidacy for membership in the House of Representatives, the Forty-Fourth Legislature.

My conception of Democratic government revolves about responsibility in office, responsibility both to the electorate and to the principles and precepts of government, fostered by the State and National Constitution and rendered practicable by considerations of public policy.

I shall not at length set out a complete statement of the policies of government which I hold to be sound but shall do so from time to time during the progress of my campaign. I believe that the people of my district are entitled to know my position upon all important issues facing the people of Texas. At this time I shall mention only a few of my policies.

I am unequivocally opposed to the levying of a general sales tax. I believe in the reduction of the ad valorem tax and its abolition for State purposes when intangible property may be seized upon to bear its rightful share of the costs of government. I believe that tax measures applicable to intangible property will be capable of being passed by the Legislature should the constitutional amendment permitting the reclassification of property for purposes of taxation be adopted in November of this year.

It is to be remembered that if all ad valorem taxes for both State and local purposes should be abandoned, the wealthy man's skyscraper and the rich man's urban property would be tax free and would be placed in the same category as tax exempt securities.

In the establishment of this government public education was regarded as one of the most essential elements to its preservation. In accordance with that principle I believe that the public school fund should be allowed to retain those revenues which are at present directed into the educational maintenance fund of the State.

In regard to what I consider for the benefit of labor, I wish to mention that I am in hearty support of compulsory unemployment insurance to be taken out for the benefit of the workers by employers. For in this way industry will be made to carry on its shoulders during harder times the men whom it profitably "uses" during better times.

I believe that every man is entitled to voice his personal sentiments in the operation of his government, but I believe that no one is entitled to dictate or to direct the destiny of the government by his own hand. When the right to speak exceeds the bounds of petition it transcends liberty and becomes license. For this reason I believe that the lobby before the Texas Legislature should be controlled and regulated.

I believe that every member of either branch of the Legislature should be required to disclose the source of every retainer's fee and every source of any character of compensation from a corporation or business interest of the State. I do not hereby repudiate past legislators nor stigmatize the integrity of their membership. I set forth these principles only because I believe they are conducive to honest, intelligent and impartial administration.

I will at all times welcome the advise and dictates of my constituents and will respect, without qualification, their wishes.

I am in favor of integrated administrative reorganization to the end that duplication and high costs of operation should be eliminated and in its stead efficiency, economy, and wise business policies supplanted.

I do not further detail my position in this announcement. During the progress of my campaign I shall speak freely upon the issues involved and frankly discuss with the people my position and my conception of the policies of government.

Above all things I believe in the honesty of public office. Integrity is the highest attribute of man; it is the most noble feature of an officer; it is the most necessary principle of democratic preservation.

Relief Costs Will Be Reduced By State Commission

Administration costs were again earmarked for reduction throughout the State, it was learned today from Director Marie Dresden of the Texas Relief Commission.

An immediate saving of \$3,500 monthly in State relief expenses is to be accomplished through a new "classification of position" system going into effect immediately.

Employees of the Relief Commission will receive wage reductions under the new system excepting those now receiving minimum wages under the law.

Plans for installing the system were discussed recently in New Orleans and in Kansas City where Federal Emergency Relief representatives conferred to discuss administrative problems touching six southern states.

Under the new set-up the administration will establish a set scale of service values, which will eliminate promotion except on basis of merit.

The establishment of the rate of pay for each separate classification.

Plans for installing the system were discussed recently in New Orleans and in Kansas City where Federal Emergency Relief representatives conferred to discuss administrative problems touching six southern states.

Under the new set-up the administration will establish a set scale of service values, which will eliminate promotion except on basis of merit.

Relief Costs Will Be Reduced By State Commission

Administration costs were again earmarked for reduction throughout the State, it was learned today from Director Marie Dresden of the Texas Relief Commission.

An immediate saving of \$3,500 monthly in State relief expenses is to be accomplished through a new "classification of position" system going into effect immediately.

Employees of the Relief Commission will receive wage reductions under the new system excepting those now receiving minimum wages under the law.

Car Registrations Show An Increase

AUSTIN.—New passenger car registrations in Texas made another favorable showing during May, according to the University of Texas Bureau of Business Research. Seventeen counties representing all major sections of the state had a total of 5,599 registrations, against 5,425 in April and 3,760 in May, 1933, gains of 3.1

and 50 per cent respectively. In past years there has usually been a decline in sales from April to May.

Total sales during the first five months of the year were 21,766, compared with 13,276 during the corresponding period last year, a gain of 64 per cent.

Other savings instituted during the first sixty days of Director Dresden's administration are \$35,000.00 monthly through adoption of astringent purchasing policy and \$180,000.00 monthly by reduction and elimination of unnecessary personnel throughout Texas, making a total saving of \$275,000.00 monthly.

The system embraces a model organization chart which will be used in county administrative offices. On this chart will be mapped the definitions of duties of each employee. The necessary duties of each position will be clearly outlined under each work classification.

The only exception to be made to the system will be where the county has certain exceptional conditions prompting the State administration to modify the plan in that area.

This program will ultimately save the State approximately \$65,000.00 each month.

Monthly Pains Relieved

Women who take CARDUI have found that severe monthly pains have been relieved and that by continued use of it for a reasonable length of time their strength has been renewed and their general health improved.

"I am glad to speak a few words for Cardui, the medicine I have taken for a weak, run-down condition, for bad pains in my side and back and for irregular periods," writes Mrs. Roy Chandler, of Cassetta, Ala. "Cardui straightened me out and I felt 100 per cent better. It certainly helped me."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

LONE CEDAR

Mrs. Emma Kirsch of Los Angeles, Calif., is visiting her uncle, P. T. Falls and aunts, Mrs. Joe Hunt and Miss Nannie Falls.

Billy Ogden, Kenneth Falls, Tony Wheeler, are spending Friday and Saturday on Colorado fishing.

Mrs. Joe Brashears and son visited with Mr. and Mrs. H. Brashears Tuesday.

Mrs. Fannie Alford of Abilene is visiting her son, B. F. Alford.

Mrs. Frank Graham and children of Rising Star spent Sunday with Mrs. Lizzie Graham.

Mr. and Mrs. Edd Westbrook of Staff spent Thursday with Mrs. R. A. Parker.

Mrs. Hazel Watton returned to her work at Payne and Lovett Hospital after spending a week with home folks.

Rev. Hill filled his appointment here Sunday evening, but will preach at 11 o'clock next Sunday.

Sorry to hear of Ray Phillips being in the hospital at Baird. We remember Ray as the son of Mr. and Mrs. Olen Phillips, who once lived in this community. We wish you a speedy recovery, Ray.

Order For Five Pounds Ant Eggs Puzzling Agent

HOUSTON.—City Purchasing Agent George Eddy is wondering where he might find five pounds of ant eggs in order to fill a requisition filed in his office.

The requisition was from the Herman Park zoo here and requested that the eggs be purchased immediately.

"Now why," asked Eddy, "would anyone want ant eggs? And where does anyone expect to find five pounds of them?"

Zoo attendants did not suggest where Eddy should hunt for the eggs, or why five pounds of them were wanted—immediately.

Complexities of Modern Law In Gate Rate Case

AUSTIN.—Complexity of modern law procedure is illustrated in present natural gas rate litigation. Pleadings became so numerous and so bulky that the judge and six attorneys at one time were trying unsuccessfully to find a particular plea. At another time, the judge read impatiently for 10 minutes. Then he asked for a simple language statement of what was meant. "There is so much repetition," he said, "that I am confused."

Pleadings in the case include the states' original petition, two amended original petitions, a supplemental and an amended supplemental petition. For each of these documents there was a corresponding defense answer, amendments or supplement.

Jurors will be saved much of the confusion. They will be asked to decide special issues which will be submitted to them in question form.

RED CROSS NAMED HEIR

NORWALK, Ohio.—The will of the late G. S. Erlsten, a Baltimore and Ohio railroad baggage master who died recently in Willard, Ohio, revealed him as the "perfect investor." Nearly all of his carefully saved estate of \$30,429 was invested in government bonds and postal savings certificates. He left \$26,000 of his estate to the American Red Cross.

80 WALKS TO CHURCH

CHARDON, O.—Mer 80 years seldom deter Miss Mary Morgan, of Montville Township from walking four miles to church each Sunday. She lives alone.

You're The Loser

WHEN you allow Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.

Why Allow Pain to rob you of Health, Friends, Happiness, Money? DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively. Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want to go back to disagreeable, slow acting medicines.

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes? As a household remedy I have never found anything that equalled Dr. Miles Anti-Pain Pills. Mrs. Silas D. Keller, Penfield, Pa. I never found anything that was so good to stop pain as Dr. Miles Anti-Pain Pills. I have told many about them and I find they are all using them.

I have been using Dr. Miles Anti-Pain Pills for years. I keep them on hand all the time. I can certainly recommend them for pain. Mrs. Martha Lacy, Davenport, Iowa. I have used quite a lot of Dr. Miles Anti-Pain Pills. They are fine pills to stop pain. Mrs. J. L. Kester, Shicksping, Pa.

Your Anti-Pain Pills have been a wonderful help to me. I have used them for three years and always keep them on hand. Mrs. E. Pierce, Lapwai, Idaho. I have used quite a lot of Dr. Miles Anti-Pain Pills. They are fine pills to stop pain. Mrs. J. L. Kester, Shicksping, Pa.

RANGER

Attending Life Saving Institute
Clarence McKinney, assistant scoutmaster of Troop No. 1, Brownwood, is attending a seven-day Red Cross Life Saving Institute being conducted in Eureka Springs, Ark. After attending this institute and taking the necessary examinations, McKinney will become a regular life saving examiner, and can give instructions to others in both Junior and Senior Red Cross Life Saving. He will go with the Boy Scouts of the Comanche Trail area to the annual camp near Richland Springs in July, as one of the supervisors in water activities during the two weeks the camp is held.

Camp Billy Gibbons
Scout officials are looking forward to having one of the best water front activity programs that the Scouts of the Comanche Trail Council have ever had the opportunity of participating in. The activities this year will be under the supervision of Cliff Pouncy and Clarence McKinney, who are both well versed in Red Cross Life Saving and First Air work. Both will hold examiner's certificates.

All Scouts are being urged to bring their canoes and boats to camp this year as specialization courses will be given in camp this year.

The camp dates have been announced several times but for fear some have missed same—will give them again—first period begins with lunch July 10, closes with breakfast July 17—second period begins with lunch July 18, closes with breakfast July 25. Camp fees \$5.50 for one week—\$10.00 for two weeks.

Troop No. 1 Wins First Place
Troop No. 1, Brownwood, took first place in the Boy Scout swimming meet held at Lakewood swimming pool Friday night in connection with the formal opening of the pool for the summer. Troop No. 7 won second place. Troop No. 1, also won the diving, contests which were staged.

A demonstration of Life Saving was put on by Clarence McKinney, Red Cross life saving examiner. Hilton Gilliam gave a demonstration of fancy diving.

The scouts will stage another swimming meet on July 4.

Troop No. 2 on Hike
Scoutmaster Dan Gill and 14 of his scouts hiked to Lakewood late Friday afternoon. They took their supper and bedding with them. Several were participants in the swimming meet held there that night. All passed swimming tests, and some passed fire building tests. They spent the night in the open, and hiked back to town after having breakfast there.

KOKOMO

KOKOMO—We are having some very hot and dry weather at the present.

Mrs. Lela Leach and Opal Faye who has spent several months with her son, Ward Mangum and family of Arizona have returned home.

Little David Goodwin of Lone Star community spent the weekend with his grandparents, Mr. and Mrs. C. D. Everton and family.

A few from here were Eastland and Gorman visitors Saturday.

Mr. and Mrs. H. C. Wharton of Alameda were visiting in this community Sunday.

Cleo Everton is spending a few days with his brother, Cyrus of near Eastland.

David and Jeff Jones have returned to their home in Woodson after several days visit with relatives.

There was music enjoyed in the home of Mr. and Mrs. Jess Hendricks one night last week.

Miss Eunice Rotan of Alameda has been visiting with her aunt, Mr. and Mrs. Jack Rebble and family.

Ova Lee and Ressie V. McDonald visited Miss Allen Rodgers on Wednesday of last week.

Several from here attended Trade's Day in Eastland Monday of last week.

On next Saturday night, Sunday and Sunday night is the appointment for Rev. Ephram D. Conway. All are invited to these services.

There was a large crowd out for singing Sunday afternoon.

Everyone remember that Sunday, June 24, is the way for the annual all-day singing. Everyone is invited, and bring plenty of lunch to spread.

DAYTON VOTES FOR SEWER
DAYTON, Texas.—Work on a new sanitary sewer system for Dayton will be started within the near future. Money for the work was raised when citizens voted at a special election to authorize issuance of \$30,000 in revenue bonds.

National Forests Hired 5,000 More Men In Six Weeks

WASHINGTON.—The Forest Service has increased the number of employees on its rolls on PWA projects in the National Forests by nearly 5,000 men in the last six weeks, it was announced today at the U. S. Department of Agriculture. A summary of reports from all ten forest regions shows that 13,953 were on the rolls May 21.

Emergency employees on Forest Service projects come usually from communities adjacent to National Forests. The increase in numbers at this time is due to the usual expansion of spring activities, such as planting, road building, and measures for prevention of forest fires. The Public Works activities in forestry were adopted last summer as an emergency relief measure, provided for under the Industrial Recovery Act, and at the peak of the season near the end of 1933, enrollment passed the 15,000 mark. About 9,000 were employed during the winter. The Public Works projects are being conducted separately from, and in addition to those assigned to the Civilian Conservation Corps.

Public Works activities under direction of the Forest Service include three classes—forest development work, forest improvement, and research. The development work includes building of forest development roads and trails, for which \$10,000,000 was allotted from Public Works funds last year. Many of the trails are truck trails, facilitating both the development of broader public use of the forests and their protection from fire. People who visit or tour the national forests this year will find greatly extended facilities for travel.

Workers in the forest improvement division, for which an emergency fund of \$15,982,745 was provided, are being employed at planting, insect and disease control, timber stand improvement, estimating timber resources, revegetation of forest ranges, rodent control, eradication of plants poisonous to livestock, erection of

buildings, development of water supplies for public camps and many other activities.

Recent increases in forest employment are largely in the Northern Rocky Mountain and Intermountain regions, with some gains in portions of the Eastern and Lake States region. Decreases in some of the regions have already taken place, where circumstances called for rapid use of allotments or completion of projects during favorable weather early last winter. Allotments of recovery forest work funds for the year will soon be entirely exhausted in some districts.

Two Hours From Garden to Can Is Canning Program

SAN MARCOS, Texas.—"Two hours from the garden to the can" is the slogan adopted by the new \$2,500 relief canning kitchen here.

Nearly 85,000 shining tin cans are stacked in the kitchen awaiting farmers' produce. The canning plant has a daily output of 1,000 to 1,500 cans.

A farmer who hauls his produce to the plant will receive about 45 per cent of his vegetables, canned, in payment. He will be returned about 40 per cent of his canned meat.

The remainder is turned over to the Texas relief commission's commissary for distribution to destitute persons.

Commodity clerks estimate the farmer will net more for his produce at the canning kitchen than at commercial markets. He will receive, for example, about \$2 per bushel for roasting ears and about \$1 per bushel for tomatoes.

A bushel of roasting ears is sufficient for 43 cans of corn. The farmer will receive about 20 cans, each worth approximately 10 cents on the market.

LARGEST POLITICAL SIGN

HOUSTON.—What is believed to be the largest political sign in Texas hangs on the side of a hotel building here announcing senatorial campaign headquarters for Joe Bailey.

The sign is six stories high, four feet wide.

DIDN'T LIVE THERE

NORWALK, Conn.—Although

Dimitri Mamercheff and his wife returned to their native Bulgaria, they conscientiously wrote the common council asking that their \$2 personal tax be abated. The bill had followed them to Sofia.

NORWALK, Conn.—Bankrupt Referee John Keogh was among the creditors of Samuel J. Kantor when he recently filed a petition in bankruptcy. Keogh was listed for \$13,000.

Why Not A Spring Vacation?

Are you one whose vitality is always lowest in the spring? Do you have what you term "a snappy case of spring fever?" You're probably just run-down and worn-out after a hard winter. What you'd better do is stop right now, rest awhile, and get in trim to carry on for another year.

CRAZY WATER HOTEL

A Hotel With A Homelike Atmosphere

Offers these distinctive features that make for the good, old SOLID COMFORT that's so necessary to complete rest and relaxation.

- *A friendly, restful influence that puts you immediately at your ease.
- *Light, airy outside rooms furnished and equipped with a thought for comfort first.
- *Invigorating, rebuilding mineral baths under courteous, trained masseurs.
- *Crazy Mineral Water at the noted Crazy Bar, or served to you in your room.
- *Food that dazzles even jaded appetites.
- *A spacious, but cheerful lobby and drinking pavilion.
- *Recreational activities, planned by the staff that is always ready to render "service with a smile."

The beautiful CRAZY WATER HOTEL, nestled in the foothills of the Palo Pinto Mountains is easily reached by paved highway or by rail. Write for full information about our treatment plan.

THE HOME OF CRAZY WATER

Mineral Wells, Texas

Henry Love, Mgr.

Mountains, streams and shady woods . . . gay night life or rest and relaxation . . . complete freedom from care and worry. No matter what your idea of a vacation may be, you will find the ideal place in Magnolia.

Your car will run better on

Mobilgas and Mobiloil

FREE ROAD MAPS

New 1934 Road Maps of Texas, Oklahoma, Arkansas, Louisiana, and New Mexico are now ready at all Magnolia Stations and Dealers. Drive in and ask for a set. They're FREE!

LUBRITE

(Formerly Magnolia Motor Oil)

The quality of Lubrite is second only to world-famous Mobiloil. Thousands of motorists have found that Lubrite lasts longer and protects their motors better than many other motor oils selling at a higher price.

If you want a good quality motor oil costing less than Mobiloil . . . ask for Lubrite.

THERE are hundreds of vacation spots in the Southwest which can be reached in a few hours driving over paved highways. Any Magnolia Station or Dealer can provide you with new 1934 road maps.

Mobilgas and Mobiloil will give you smoother performance and freedom from annoying motor troubles. You will thrill to the power and speed of Mobilgas. The tough, heat-resisting qualities of Mobiloil will protect your motor regardless of how fast you drive. That's why it's the World's Largest Selling Motor Oil.

From coast to coast, ask for Mobilgas and Mobiloil at the sign of the "Flying Red Horse" . . . emblem of Socony-Vacuum.

Mrs. Cooper Is A Candidate For County Treasurer

To the Voters of Eastland County:

I have never asked for any public office before, but I am announcing for the office of County Treasurer, subject to the action of the Democratic primaries, first election to be held July 28.

Being mindful of the task it is to meet the many voters of our county, and time being too short to canvas the county as I would like to do, and knowing that I will fail to see many of you, I take this method of letting you know that I am in the race and solicit your vote, your support and influence for the above mentioned office. I am married and have a small son 6 years old to support. We are living with my mother, Mrs. H. D. Holbrook, in Eastland. My husband, Thornton Cooper, was reared in this county, is an ex-service man of the late World War, is totally and permanently disabled, and has been for the past three and a half years in a Veteran's Administration Hospital. I was reared in this county, having taught school here for eight years. Have also had experience in the Tax Collector's office. I am qualified to do the work properly in the office of County Treasurer and promise if you favor me with your vote, support and influence, and if elected, will render you prompt, efficient service at all times.

Hoping to meet as many of you as I can, and again thanking you for your support, I am,

Respectfully yours,
Mrs. (Frances) Thornton Cooper.

Doctor Tells of Thirteen Born at The Same Time

CHICAGO, June 11.—Medical records were brought forth today by Dr. Charles E. M. Fischer, prominent research authority, to prove his contention that the Dionne quintuplets would have been "nothing to get excited about" years ago.

"In those days they really had big families," Dr. Fischer said. "Records tell of the Marquis de Trazegines of France, who was one of 13 children, all born at one time."

Dr. Fischer's records also listed a case of an Italian woman who gave birth to nine children in her first confinement and 11 in her next. The 20 children were a happy, healthy lot.

Quadruplets Born To An Iowa Couple

SAC CITY, Ia., June 11.—How to support nine children, including newly born quadruplets, on \$16 a week, was the problem facing Larry Wycoff and his wife today.

Mrs. Wycoff, who does not believe in large families, rested comfortably and listened to the lusty squals of the four youngest additions to the family.

The doctor who delivered the babies by lamplight Saturday night in the three-room cottage, said all had a good chance of survival.

School Fund Swelled One Dollar a Pupil

AUSTIN, June 11.—State school Superintendent L. A. Woods today announced payment of another dollar per pupil to school districts on the \$16 apportionment. Today's payment raises the total sum paid to \$11.

Galveston Awaits Season's First Bale

GALVESTON.—Galveston cotton men are awaiting arrival of the season's first bale of cotton, expected sometime in the near future.

Last season the first bale of cotton, weighing 518 pounds, reached the island on June 13, from Mississippi, Texas. It was purchased by Renfert and Helmbrecht for 10 cents a pound, plus a substantial premium.

Houston received its first bale last season on June 12.

Nearly all insects respond to kind treatment, says a scientist. So the next time you see a fly, pat it.

Conditions are getting so bad out west that many farmers are beginning to doubt there ever was a flood, even in Biblical times.

MOSQUITO OR CHIGGER

Bites may cause serious infection. Don't scratch! Get a bottle of BROWN'S LOTION. Just dab it on. Stops itching instantly and prevents infection. Sold and guaranteed by Oil City Pharmacy.

Pontiac Operations Are Satisfactory C.P. Simmons Says

Pontiac operations this year have been on a highly satisfactory basis, according to C. P. Simmons. Production has been far above last year with two months out of the first five breaking all monthly production records since 1929.

It was the production of 14,891 cars in March and 15,063 in April, both record breaking months, that gave to Pontiac dealers throughout the country the cars that made it possible to show the general increase in sales.

"Although figures for the month of May are not available," said Mr. Simmons, "sales reports compiled at the factory show that more Pontiacs were delivered in April than in March, that April of 1933 and that the first four months this year have been ahead of the same period of a year ago."

"The enthusiastic manner in which the motoring public has bought Pontiacs this year is very pleasing. It shows clearly that the American people have regained their faith in the business future of the country."

"Pontiac engineers sensed keenly the desire of the public for size, comfort, power and economy when they designed the 1934 car," continued Mr. Simmons. "Although the wheelbase is a generous 117 1/4 inches, its smooth, enclosed kneecap front springs give to its occupants the riding qualities of 130 inches of wheelbase. The powerful engine is said by engineers and other experts to be the smoothest straight eight in the world, while its fuel economy has been increased ten per cent."

WOMAN, 101, HONORED

LE HAVRE.—Mrs. Florina Cau, mother of Doctor Cau of this town, has just been given the red ribbon of the Legion of Honor. Mrs. Cau is 101 and has been a school teacher for 54 years.

SUNDAY SCHOOL LESSON

Matthew 28:1-20 THE GREAT COMMISSION

A radiant early Sabbath dawn; a group of sad-faced women with spices and oil began the slow ascent of the hill to the new grave where the body of Christ had been placed the previous Friday by Joseph and Nicodemus. This was April 9, A. D. 30.

They conversed in low tones among themselves as to how they might complete the embalming of the body of Jesus, a process left unfinished by the men as the Jewish Sabbath came on at sunset on Friday. Misery crept into their voices as not only Christ but all of Christianity seemed to be dead and laid in the grave with Him. Then who would roll the great stone away from the door of the sepulchre for them?

Awe-inspiring surprise greeted them. An angel of shining countenance and white raiment had rolled the stone away "and sat upon it." "He is risen" was the glad message he gave them and which still rings down through the ages in the hearts of men who believe.

"Come, see the place where the Lord lay" were the words which convinced them that truly Christ had arisen from the grave.

"And they departed quickly from the sepulchre with fear and great joy and did run to bring his disciples word." As they ran they met the risen Lord and He spoke kindly, "Be not afraid." Then as he so many times before in healing people, to prevent hysteria, gave them something definite to do, "Go tell my brethren, that they go into Galilee and there they shall see me."

The 11 disciples went at once to the mountain designated by Jesus.

Possibly it was Kuhn Hattin, the Mount of the Beatitudes, as that would be the central and most accessible place. There "they worshipped him, but some doubted."

But Jesus spoke to them in a firmer, more commanding tone than ever before, giving them the Great Commission. He first stated His authority and then the first word is "Go." It could not ring true through the years and as long as time shall last without infinite power and authority back of it.

The indivisible oneness of God, a fundamental truth was asserted stronger than any definition when he said, "Baptizing them in the name of the Father, and of the Son, and of the Holy Ghost," God, the Father; God, the Son; God, the Holy Spirit; Blessed Trinity.

"And, lo, I am with you always, even unto the end of the world," were the words in the beautiful, comforting promise which is full of His gentle, kindly, divine personality.

It was this promise that has held and comforted believers through the ages. Without this assurance the disciples could not have faced the unbelieving mob of that day; nor the martyrs have faced death. Without it we cannot live in the true sense of the word and we would not dare to die.

We love our friends and are proud of any greatness in their lives but Jesus is the supreme friend. He will not just visit us but lo, He is with us always and all power and authority in heaven and earth are His to command.

What a comforting lesson for women of today. Women were commonly held in very low opinion in that day. But Jesus first appeared to women and comforted them, "Fear not."

They were out early to minister

to his body and worried about who should roll the stone away. They didn't stop with a "it can't be done," but went straight on to find that an angel had done their task. Many mothers in Christ today go forward with heavy burdens and know that none but the sympathizing Jesus could help them to carry on.

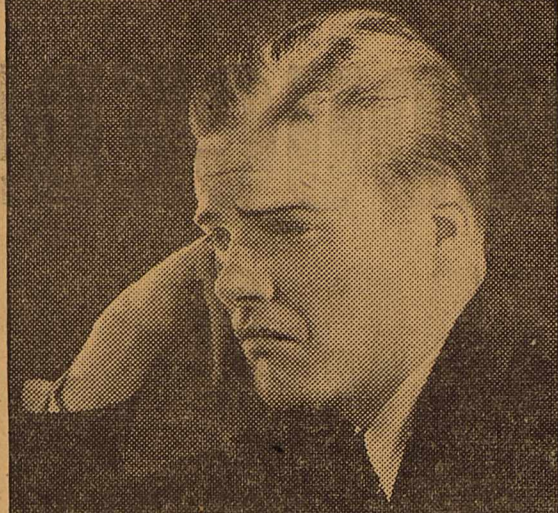

Is this divine personality, loved through the ages, calling you to a more definite surrender today? Have you given Him your love and adoration and withheld your life? He says "Come unto me" then "Go and teach." Disobedience imperils your peace of soul, joy of heart and Christ-like power and invites the chastising rod of God on you and yours.

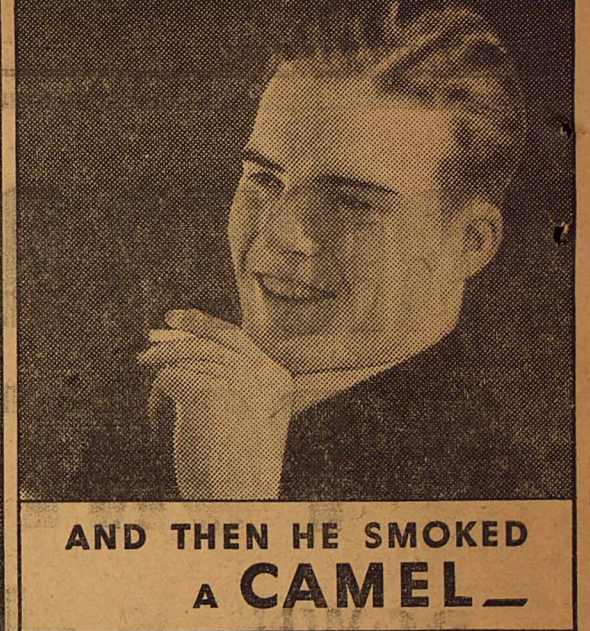

On the other hand obedience brings "that peace which passeth all understanding" and brings power to grow day by day more in His blessed image.

URN DISCOVERY IMPORTANT CINCINNATI, O.—The finding of urn burials by a University of Cincinnati excavation party in Asia Minor was described today as the "most important discovery of the archaeologists," by Dr. William R. Semple, one of the sponsors of the expedition. Dr. Semple was notified of the discovery in a cablegram, which said 14 incinerator urns had been found.

Douglas Fairbanks has acquired a monocle in England, which Mary Pickford now can put first among her reasons for wanting a divorce.

PLAYED OUT!

AND THEN HE SMOKED A CAMEL

GOING DOWN...When your flow of energy ebbs...then smoke a Camel. It is a proven fact that Camels quickly turn you back to normal. Smoke them all you want. Camel's costlier tobaccos never upset your nerves!

"Get a LIFT with a Camel!"

A Hollywood song writer was divorced when his wife testified he moved 22 times in 22 months. Why, she had no chance to do her spring housecleaning!

A man in Georgia tried six times to commit suicide and was unsuccessful. What can you expect of a who hasn't made a success of life in the first place?

SEMINARY 100 YEARS OLD By United Press MONTPELIER, Vt. — Montpelier Seminary celebrated its 100th Commencement this month.

THE OPEN DOOR

SERVICE

Goes with Everything We Sell

AT ALL Humble Service Stations, you will find products for every car and prices for every purse. The products are honest products and the prices are fair prices under the N R A code for the petroleum industry. You have an open choice of products, but Humble Service goes with what you choose. This service is yours; it has been worked out to be helpful to you; stations have been specially designed and equipped and men carefully trained to render Humble Service. But you are the judge. So we ask you to tell us what you think. We invite criticism; we invite suggestion; the door is open to both.

THE HUMBLE OIL & REFINING COMPANY

LET HUMBLE TOURING SERVICE help you plan your week-end and vacation trips this summer. This coupon will bring you prompt and full information on routes to any part of the United States, Canada, or Mexico, without cost or obligation.

HUMBLE TOURING SERVICE
HUMBLE BUILDING, HOUSTON, TEXAS

Gentlemen: I am planning to travel by automobile to _____
Please send me plainly marked road map and information regarding roads, routes, and places to see en route.
