### Uncommonly good cooks use clean, modern gas

Why does gas cook cleaner? When you turn off a gas range it's off. Cooking stops. There's no hangover heat to cause scorching, burning and boilovers. Broiling is cleaner, too, because you can keep the broiler door closed. The flame consumes the smoke. And with a gas range, all burner

parts can be washed easily. Even the oven and broiler doors come off on many models. Uncommonly good suggestion: see the modern gas ranges now on sale at your favorite Gas Appliance Dealers - or Lone Star Gas. Super Chef Gas Range Sale

### **Social Security** Is Tightening Up **Proof Regulation**

"We are tightening up on our age proof requirements effective November 22," announces R. R. Tuley, Jr., Ablene district manager for the Social Security Administra-

He added that completion of a study, conducted on a random basis for the past several months, has led to this change. Heretofore, almost any proof of age that was recorded five or more years before a claims application was filed would suffice. Now, the best and oldest evidence in existence must be secured. "First, we must find and use any evidence established before the claimant reached his 5th birthday, or be able to show that no such evidence exists," Tuley said. "Failing that, the same search is made for evidence recorded before the applicant reached age 11." "If there is no record as to age or birth prior to age 11, then the two oldest records made after that date will be used," he stated.

Among sources that must e explored are city, county, or state birth records, infant baptismal records of certain churches, early school records. 1900 or 1910 census records, hospital or medical records dating back to early childhood, etc., according to Tuley. Prior to about 1920, only a small percentage of births were

recorded promptly in Texas. He added that the study just completed indicated that about 5% of the aged applicants using recent proofs set up wrong ages, with about two out of every three such changes being to the benefit of the applicant. Applicants benefited when the early proof made them older than they now thought they were by either geting additional checks or higher amounts or both.

"So, when you file for your social security from now on, bring the oldest possible proof; if you have no old proof, we'll help you try to locate some,'

We are proud that we were privileged to have had a part in the construction and furnishing of this new building which is a credit to the officers, directors and members of this outstanding Veterans of Foreign Wars organization.

We salute you on this noteworthy achievement and know your open house will be a notable success. Best wishes to Post No. 4136 for continued growth and progress in the years to come!
