### 1992 Wheat Acreage Reduction Set at 5 Percent

The U.S. Department of Agriculture is requiring a 5-percent acreage reduction for the 1992 Wheat Program, according to Jerry Harris, Chairman of the Texas State ASC Committee. This compares to the 15 percent acreage reduction required for the current wheat crop.

"This level was chosen to maintain competitiveness in world markets while balancing the risks of excessive supplies or possible shortages," Harris said.

Wheat producers who comply with the acreage reduction requirement

will be eligible for target price protection at \$4.00 per bushel, the same as this year. Harris said the program will not have a paid land diversion.

The 1991/92 wheat crop is projected at 2.0 billion bushels, down 26 percent from last year's 2.7 billion-bushel harvest. The decline reflects an 8-million-acre reduction in planted area and lower yields. "This year, decisions to plant fewer acres were based on higher acreage reduction requirements, new flexibility provisions in the 1990 farm legislation, and lower wheat prices," the ASCS official said.

### RAINS BRING RELIEF OVER WEEKEND

Scattered rains brought relief from the July heat last weekend. Maybe these rains weren't exactly drouth-breakers, but they helped dry-land peanuts, grass on the ranchers and hayfields. Most places in the county got some rainfall, with the Lake Cisco and Gorman areas showing totals of around 3 inches.

By Friday around 3:15 p.m. clouds rolled into the county from the southwest. Heavy downpours hit Cisco and West of Eastland "like a wall of water," one resident said. A number of motorists caught on Highway 80 west of Eastland had to pull to the side of the road until the rain passed. There was some wind in the cloud but no hail.

Cisco and the Cisco Lake area got an inch or more in that rain. Eastland did not get as much, and the rain stopped abruptly about 4 miles south of I-20.

Another good rain came to the county late Saturday night. It covered a more general area, bringing

about an inch of rain to many places. Then on Sunday there were some scattered showers and heavy rains from Gorman and Carbon to Kokomo.

Rainfall totals around the county through Sunday were:

Cisco: 2.25 to 3 inches. More than 3 northeast of town. The Pump Station at Lake Cisco caught 3 inches, and the Lake rose about 3 in. Lake Cisco has been holding its own quite well this summer, with no noticeable drop.

Carbon: Around 2.50 in. Eastland: 1.25 inches.

Eastland Water Supply Dist. Pump Station: .40 on an inch. Rain was also light at Lake Leon but the Lake is full.

Ranger: West of town, .75 on the west side of town. About .20 of this came Sunday.

Rising Star: 1.50-2 in. in the town and vicinity.

Gorman: 2 inches Sunday, 1.50 in area at other times.

By Monday the clouds had all drifted to the east, and it looked like the rains were over for awhile.

### College Students Must Meet Requirements of the TASP

AUSTIN, July 29, 1991 - College students who have not met requirements of the Texas Academic Skills Program (TASP) can begin registering today for an additional summertime administration of the TASP Test.

August 17 will be the last time students can take the test before the fall semester begins.

This additional date was authorized by the Texas Higher Education Coordinating Board to provide another opportunity for students to meet TASP requirements and continue their college education. State law requires students to pass all sections of the test before enrolling in upper division courses beyond 60 semester credit hours.

"We want to allow students every reasonable chance to meet the requirements of this important educational program," said Kenneth H. Ashworth, commissioner of higher education. "We want students to have the skills they need to get everything they can out of their college experience."

The TASP Test is required of all students entering Texas public colleges and universities. The test helps the institu-

tions identify students needing additional help in reading, mathematics, and writing to do college-level work. Students can register for the Aug. 17 administration of the test only by calling 1-512-926-8746 between 8 a.m. and 7 p.m. on July 30, 31 and August 1, 2, 5, 6, and 7.

The test will be offered at six sites: El Paso Community College; Texas Tech University, Lubbock; Collin County Community College, Plano; Houston Community College; University of Texas at San Antonio; and University of Texas-Pan American.

Students must bring a money order for \$65 on the day of the test. They will also need a completed TASP registration form and two forms of identification, one of which has a photograph of the student. Some students may qualify for waivers, available from the student financial aid office of the institution they plan to attend, to cover part of the cost of the test.

Test results will be mailed to the students on or about Sept. 7, 1991.

For more information, contact the Coordinating Board's TASP office at 512/483-6330.

### ATTENTION MASONS

Ranger Lodge 738 will have a Stated Meeting, Thursday, August 1st at 7:30 P.M. All Master Masons are urged to Attend.

### NEW STUDENTS REGISTER

The new Elementary students need to register the week of August 12-16.

That is not including kindergarten.

## County Law Enforcement Assoc. Meeting

There was a full house at this month's Eastland County Law Enforcement Association meeting.

The meeting was held at the Budget Host restaurant and will be there on a continuing basis.

Constable W. T. Harris, 1st Vice President of the Association, presided over the meeting in the absence of President Judge J.V. Heysler.

Rev. John Clinton of Cisco voiced the opening prayer, giving thanks for all of our blessings and the meal.

After the meal, the previous minutes were read and approved and then several items discussed were ways to raise funds for the organization, and membership dues, that were past due.

## Parenting Education Coalition Meeting Set For July 31

The Eastland County Parenting Education Coalition will meet Wednesday, July 31st at Noon at K-Bob's Restaurant.

The Parenting Education Coalition provides an opportunity for people, organizations, churches, and agencies who are concerned about families to coordinate parenting education efforts in the county.

Any person who would like to attend is welcomed.

Many of the things discussed brought about a lot of laughter from those present. But there always seems to be an underlying

concern among the various departments of law enforcement of how they can help one another, and work together.

weights brought to the 3.15 weigh in reflected better fishing overall.

The final results for the top ten were 1st fish 13.05 pounds Bob and Joe Bob Moore. These gentlemen also landed second place big bass 5.07. 2nd place overall with 5 fish, 12.31, Chuck Burgess and Tommy Maynard; 3rd-4 fish, 11.70, Bobby Maynard and Terry Wilson & 3rd Big Bass 4.00; 4th-5 fish, 10.07, Bud Wood and Butch Willingham; 5th-9.81 Turner and Edwards; 6th-Miller and Charanza, 8.68; 7th-Works & Erwin, 8.56; 8th-James Fullen and B.J. Johnson, 8.34, 9th-Davis and Manly, 8.20, and 10th- Dykes & Gandy, 8.08. The Big Bass of the day a nice 6.60 went to the seventh place team of Works and Erwin.

The top teams reported crankbaits, jigs, worms, and spinner baits in dead timber and green weeds to be producing best.

The unofficial overall standing for the top five are 1st-Oliver & McCain, 316.06; 2nd-Davis & Manley, 307.61; 3rd-Dyers & White, 297.82; 4th-Maynard & Wilson, 280.29; and 5th-Works and Erwin, 254.02.

Locally there is also the following teams: Burgess and Maynard 221.48, 8th; Moore & Moore, 202.22, 11th; Fullen & Johnson, 145.32, 17th; and Wood & Willingham, 18th.

It was announced after weigh-ins Sunday that the top 20 after the final tournament at Brownwood August the Eleventh will be giving to Lake Texoma for the classic. This is due to no one being eligible for the 5 wild card spots.

Anglers did not report any major damage to their boats as is the case many times during events at Leon. However Eastland was given a couple of black marks from out of town visitors. Two cases of theft were reported Saturday night, one angler lost a spare tire, while another had two depth finders stolen. This is tragic, but the worst of it all was one motel clerk actually requested that one team check out of his motel.

Why, as reported by the anglers was because they were fishermen. This is not an attitude which reflects Eastland and the surrounding area. But it will be one these gentlemen pass along about our area.

Lake Leon has already had 3 major events which have hosted over 250 anglers. Most of these are visitors to Eastland, Cisco and Ranger. These persons buy food, gas, room & board, clothing, and more. Lets all attempt to make visitors welcome, after all most dollars spent here go around 3 times and one bad trip could affect many dollars for our area.

August 4, 1991 the Stephenville Bass Club will be hosting their Open Tournament at Lake Granbury.

Till next cast, carry plenty of fluids and sunscreen during these hot Texas days. Good Fishing.

Old wives' tale come true: doctors at Coombe Lying-In Hospital in Dublin, Ireland, found that it does indeed take longer to deliver a large baby than a small one - an average 7.7 hours of labor for a 10-pound type vs. 3.8 hours for those under 5 1/2 pounds.

Constant dieting is probably unhealthy, say scientists at the University of Pennsylvania. Centers for Disease Control in Atlanta suggest that lack of exercise is more of a health problem than obesity. With exercise, health improves and weight may do down, too.

**HYPERACTIVITY MYTH**

Several experts agree that recent research seems to discount the popular myth that childhood hyperactivity is linked to consumption of sugar or sugar-sweetened foods.

The importance of proper research design, particularly the use of a placebo, was emphasized by Dr. Esther Wender, chief of behavioral pediatrics at Long Island Jewish Medical Center. Wender said there is a strong belief in the relationship between the food we ingest and whatever we experience in the immediate aftermath. Since this belief is so powerful, a placebo is needed to help detect the real underlying reaction.

One controlled study conducted in 1984 targeted children whose parents reported that children had adverse reactions to sugar. This was a good method because the subjects who are most likely to show any type of reaction were selected.

Twenty-one children were given sucrose, glucose or a saccharin placebo, activity levels and performance were then measured.

Results indicated that motor activity decreased with sugar, both glucose and sucrose. It did not increase as predicted; it decreased, according to Wender.

After reviewing several other sugar/behavior studies, Dr. Wender and concluded that though parents and other caregivers report that children's behavior deteriorate soon after ingestion of sugar foods, under laboratory conditions such acute response is not generally seen.

Another Forum speaker who agreed with this assessment was Dr. Henry Anderson, who examined the issue of high intensity sweeteners and behavior. He said that sweetness is not in excess in our diet. It's not a bad thing. Educators have to put into perspective where the nutritive and non-nutritive sweeteners fit, and there's a place for both without confusing the public, according to Anderson.

Cisco Press - Eastland Telegram - Ranger Times  
Thursday, August 1, 1991

The issue of high intensity sweeteners and behavior is essentially a non-issue as is sugar and hyperactivity issue, Anderson concluded. Other published research confirms the views of Wender and Anderson.

Dr. Lee Rosen, Colorado State University, examined the effects of sugar on behavior of 45 preschool and elementary school children. The children consumed a breakfast that included a drink containing either sucrose or a placebo (aspartame). When activity levels and cognitive performance were measured and recorded, no association between sugar consumption and major changes in the children's behavior was found.

With a growing number of studies showing similar results, why do many parents and teachers seem to cling to the notion that sweetened foods adversely affect behavior? Rosen believes that parents might attribute their kids' activeness to sugar on holidays like Hallow-

een and Christmas. When in fact, children are more likely excited about the holiday. It also is important to properly define the problem, Rosen said. "Hyperactivity is such a catch-all category for kids' behavior. It's hard to specify who is hyperactive and what may cause it."

**Letter To The Editor**

Dear Editor,  
I am writing to let Eastland County residents know of a worthwhile non-profit organization that is seeking volunteers and donations to help reach its' goals. My wife and I have recently been appointed as representatives and spokespersons for the grassroots movement known as Folks Against Guns.

This group was started by everyday folks, just like you and me, who were concerned about the soaring violent crime rate and the easy availability of deadly weapons. Outraged by all the accidental tragedies and prevent-

able killings that occur daily in our towns and homes, these people decided to oppose the madness of private gun ownership. Dana and I had debated whether or not to come out publicly in support of this group, knowing that we might lose some friends over the matter. The tragic murder-suicide of an elderly Cisco couple earlier this month was what made us face the urgent need for saner, more restrictive gun laws.

Folks Against Guns has only three purposes: First, the group supports and works for legislation on a state and county level that will require the licensing of all firearms and provide mandatory jail sentences for violations. Secondly, we provide information and materials to interested organizations in an attempt to educate the public and reveal the weak logic of the pro gun lobby, such as the NRA. Last, we are helping state and local chapters to introduce bills that will create a timetable for removal of all guns from

private ownership by the turn of the century. Our members include law enforcement officials, farmers, housewives, students and good honest folks like you and me. Dana and I are both excited about the progress made on the national level to ban assault style rifles but know that more needs to be done at the state and local level. We need your help and support to be successful. If you are interested in joining or making a donation, please write to:

Folks Against Guns

Sincerely,

Combine pepper and 1 tablespoon canola oil. Pour over sirloin and set aside. Heat remaining oil in heavy skillet and brown crushed garlic, remove. Deglaze skillet with bouillon and madeira, reduce to approximately 4 tablespoons or until thick and remove from heat. Return meat and vegetables to liquid; combine and allow to soak. Beat 2 ounces Roquefort cheese and butter in small bowl until smooth. Spread over pizza shell. Spoon meat and vegetable mixture over bottom of pizza and top with remaining 2 ounces cheese and parsley. Bake according to pizza shell instructions. 4 servings.

## Keeping Up With Our Folks

629-3420 By Weems Dykes

**CISCO**  
Bruce Knox of Cisco and wife, Debra, and daughter, Dalynn visited Bruce's mother Betty Reid and grandmother Merle Smith in Eastland recently. Bruce works for EBAA Iron Inc. of Lake Olden, and Debra works for Canterbury Villa of Cisco. Little chubby Dalynn, pretty as she could be, certainly was the center of attraction.

Mrs. Gail Summers wife of Rev. Dick Summers of First Christian Church, is visiting her parents, Mr. and Mrs. Jack Thompson and family in Tampa, Florida for a few weeks. Rev. Summers and son, Daniel, are staying home keeping things going. He remarked to me that the rain came just in time to save his grass on the

parsonage lawn and also at the church. Daniel will be a senior this year at Cisco High School and is active in athletics. Son, Shane Summers, is a student at East Texas State College, plays football and is President of the student body. He plans to work toward a Masters Degree while at ETSC.

Shane's wife, Allison, has her B.S. degree and works in the Accounting Department at ETSC, and will continue so until Shane receives his masters degree.

Rev. Summers also told me about going to help L. Williams celebrate his 90th birthday, Sunday, July 28. Mrs. Williams served as church organist. Ninety years old! I forgot to ask Rev. Summers if he found out his secret of longevity.

It was good to hear a fellow minister so optimistic about the work in the church and the athletic program in the school. Thank you, Dick, you made my day.

**EASTLAND**  
I always like to see a family eating together, Earland Rhonda Hernandez and their son Joseph, nine years old, and daughter, Meagan, one year of age, eating at Kens as a family group, which is almost a thing of the past in our age of hustle and bustle. One parent beginning the day going in one direction and the other in another direction, and the children to school or the baby sitter. In the twenties it was a rarity not to have all the family sit down together to break bread together. Remember the good old days? The wood stove, the fireplace, the old out house? Or an iron heated, brick or rock wrapped in cloth, at the foot of the bed to keep your feet warm for a good nights sleep without somnifex etc. P.S. Earl is an employee at Goodyear in general maintenance. Sorry I got off on the good old days.

Mrs. Bobbie Aker of Eastland visited her son Kim and wife Peggy in Austin recently. Jim teaches PE in the primary school and Peggy special education for the Austin school system. Bobbie and Peggy helped Jim celebrate his birthday by taking him for a meal and movie.

Bobbie is one of the fine employees at Eastland Senior Center.

Mary Dury has her son,

Boyd Ellis Sybesma, of Miami Florida visiting her. Boyd worked for a foundry in Florida and was also in the construction business. Mary does baby sitting and also house cleaning plus other work to help people. Boyd is looking for a job and is here for an extended visit.

Mrs. Wyonea White of Hubbard, Texas was a guest in the home of her brother, Rev. W. E. Halenbeck and wife Stella during the camp meeting at Camp Inspiration Church of God. She is the widow of Rev. Ed White of Hubbard. She grew up in Eastland.

Mrs. Bonnie Kincaid had her grandsons, Nick Kincaid of Wylie, Texas and Aubrey Kincaid III of Fort Worth visit her recently. Grandmas always seem to know how to meet the insatiable appetites of growing children. The Kincaid name is well known in the real estate industry.

**RANGER**  
Saturday, July 20, Mrs. Ruby Saint celebrated her birthday and was honored with the presence of her four daughters, Sandra Pevehouse, Ann Williams, Linda James and Carolyn Fordham and their children. No matter your age, a birthday celebration is always a boost to your morale, and especially where grandchildren are present. Congratulations and best wishes for many more.

Since Rev. Jasper Massee has retired from Second Baptist Church of Ranger he let me know, "he had Bible and will preach." He and his wife, Mary Lee, enjoy visiting and filling the pulpit whenever needed. July 14, they had a delightful time filling the pulpit in Mingus, Texas at First Baptist Church and on July 21, they filled it at the First Baptist Church of Olden. Bro. Jasper reports both Sundays as times of blessings and divine worship. He'll fill the pulpit in any church where needed regardless of denomination.

Cody Sharp of Eastland and David Chancellor of Ranger are industrious youth who will enroll in Ranger High School this fall, this summer they were busy mowing lawns and other odd jobs. They believe in Eastland County unity and have girl friends in Cisco.

John Pennington, teacher of fifth grade in Ranger Elementary School has been busy this summer restoring a house to the Pennington standards so some nice people who need to rent a home can have the best.

Had a nice visit with Johnny and Opal King in their Insurance Agency in Ranger last week. They have some lovely antiques in their agency that are worth your viewing, two small pews from the Presbyterian Church, a lovely

### Eastland County Bass Club

#### HORTON WINS AT LAKE CISCO

The Eastland County Bass Club sponsored nightjackpot held on Lake Cisco was won by Gary Horton who had one fish that weighed 4.10 pounds.

In second place with one fish weighing 1.63 pounds was Gary Owens. There were a total of 14 anglers who fished this special jackpot and they reported that fishing was very tough and the bad weather that came through the area right after dark didn't help any.

The next ECBC sponsored evening jackpot will be held on Lake Leon Wednesday, July 31. Headquarters will be a Chock-O-Block with fishing hours from 6 to 9 p.m. These jackpots are open to anyone who wants to come fish with us.

Club members are reminded that our next club meeting will be on Thursday, Aug. 1, at the Eastland National Bank and will start at 7:30 p.m. All members are urged to attend because plans will be finalized for the garage sale the club members will have on Saturday, Aug. 3, at the Lawrence Brothers parking lot. This garage sale will be from 8 a.m. to 5 p.m. and promises to have a little bit of everything. Anyone wanting more information about this garage sale can call Will Johnson at 442-4132.

Congratulations to Bob and Joe Bob Moore for winning the Anglers Choice Team Tournament held on Lake Leon on Sunday, July 28. They beat a field of 20 teams and three out of the four places paid were won by

Margaret Allison weighed six pounds and four ounces and was 19 inches in length. Janice Nichole weighed six pounds and six ounces and was 20 inches long.

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

## "You could dig up more than you bargained for."

Willard Weaver  
Distribution Coordinator

Hi, I'm Willard Weaver and I work for TU Electric. You may not know, but often there are power lines buried underground, as well as overhead... sometimes even in your own yard! I'm telling you this because every year a number of serious injuries or deaths are caused by people accidentally digging into buried power lines.

**Electrical safety is a priority.**

These types of accidents can easily be avoided. If people would just think before they dig. Know the location of underground electric lines before you dig. If you're not sure, call us at TU Electric.

We care about your safety.
