The Staff Road area on the South Side of the lake was hardest hit, and that FM 2214 was temporarily closed, routing traffic around the east side of the lake, over the dam.

The over-filled lake challenged the morning glory capacity to remove excess to the downside of the dam, and that area was a swirling mass of water, hurling South in the Leon.

A great deal of retaining wall damage was evident below the dam where the torrents of water washed away soil, rock

#### **Busy Monday At** Commissioners Court

Eastland County Commissioners had a busy session Monday. A number of items were discussed, with some approved.

County Judge Scott Bailey displayed three Certificates of Appreciation given to area people who had contributed much to the community.

Arlin Bint of Cisco was recognized for ten years of service to the Eastland County Appraisal Board. Mr. Bint, educator and rancher, became a Charter member of the Board when it was set up in 1981. Mr. Bint resigned his post this year.

L.E. ("Compound") Clark of Desdemona was recognized for 50 years as Election Judge and Precinct Chairman of the Democratic Party in Eastland County. L.E. Clark, rancher, is resigning from this office.

Another Certificate of Appreciation was signed for Rose Webb, artist, homemaker and musician of Strawn. She was especially for her winning quilt block placed in the Wal Mart "America the Beautiful" National Quilt.

Before they began on the agenda the Commissioners had comments on the recent rains and flooding, each one saying that roads in his Precinct were washed and muddy. Some

remained closed. Pct. 1 Commissioner Richard Robinson said he felt that the Emergency Management people should be contacted about this disaster. He said that more than 30 houses were flooded around Lake Leon, with water nine feet deep in some houses.

Pct. 2 Commissioner Calvin Ainsworth gave a report on the situation at Lake Leon. He said the water was receding, with FMM 2214 now possible. He knew of two homes that were still under water. A number of people were rescued from the Staff area on Saturday.

On another matter, Texas Extension Service District Supervisor Ron Wooley introduced Michael David (Davy) Vestal, County Extension Agent of Baylor County. He recommended Vestal be hired to fill the position of County Agent (Agriculture) left vacant by the resignation of David Tunmire November 25.

ume, and appeared to be very qualified for the job. He grew up in Baird and attended schools there. (His father is a retired Vocational Agricultural teacher, well-known for his work in the Baird School.)

David Vestal's College work includes Cisco Junior College, Tarleton State University and a Master's Degree from Texas Tech University.

The Commissioners appeared to favor the hiring of Vestal. This item will go on the agenda of a special meeting to be held Monday, Dec. 30, 10 a.m. A decision will be made at that time.

During Monday's meeting the Commissioners approved a payment of \$4,189 to the Ranger Fire Department on the 1990 Contract, to operate Emergency Services. Shawn Wells brought the request, saying that a mistake had been made in not claiming the money earlier.

Wells told the Commissioners that in neither the old or new Emergency Services Contracts does the County require the **Emergency Services unit** to submit bills - he said this was a courtesy and a sound business practice not a requirement in the

contract. The vote was 3 for, 1 against a motion to amend the budget, declare an Emergency Expenditure, and take the \$4,189 from the General Fund for the Ranger Ambulance Services, stationed at the Fire

Department. Also approved was a Resolution concerning the Texas Department of Criminal Justice Community Corrections. This is apparently a state project to encourage counties to adopt ways of keeping more prisoners in their own localities.

Richard Robinson said he had some reservations about the new plan - before taking Grant Money he would like to know more about what was required of the County.

On local jail matters, Pct. 4 Commissioner Reggie Pittman reported that 21 prisoners were in the county jail. Three were for TDC, 11 waiting trial, 2 doing County Jail time, 1 in on a Bench Warrant, and 4 on "Blue" or state warrants.

#### Special Legislative Session To Consider Redistricting

The holidays have brought on letup in the confusion surrounding the redistricting of the State.

On the contrary, this week the supreme Court threw out a settlement advocated by Dan Morales, saying that he overstepped his authority.

The matter must go back to Ligislators, and Governor Ann Richards Thursday called for a Special Session of the State Legislatures to convene Jan. 22.

If State lawmakers approve the plan, the redrawing of lines will be set in motion.

Affected are State House Districts, U.S. Congressional Districts, State Senate District 22, and Stae Board of Education Districts.

Most noticable for

Eastland County will be the 65th State Rep. District, Bob Turner representing, and the 17th U.S. Congresional District, Charles Stenholm representing.

Legislators have suggested that the filing date for offices may have to be moved up from Jan. 2 to Jan. 10. It is not specified whether this would apply only to state and national offices involved in the redistricting, or would also include county offices not affected by the changes.

The latest court battles over redrawing districts was brought about when certain minority groups, and in some cases Republicans, objected to lines drawn by the predominately Democratic State Legislature.

One of the most frustrating realities for both the citizens of this great Country and their representatives in Congress is dealing with the size of our federal government. Without trying to determine which way to point the blaming finger towards the citizens who demand more services and support, the legislators who make unrealistic promises, or the bureaucrats who enlarge their territory and lose touch with the imposition government makes on private citizens — the fact is that our government has reached proportions which few find manageable or even understandable.

Nowhere is that reality more true than in the area of the federal budget, debt and deficit.

Which one of us can 'emergency - long term really grasp the enormity of a \$1 trillion budget? How important is a #350 billion annual deficit? How do we comprehend an accumulated debt which will pass the \$4 trillion mark by September 1992?

It's hard to imagine what 4 trillion of anything is. Did you know that with \$4 trillion, we could paper all of Abilene corner-tocorner with \$100 bills and still have \$1 trillion to hand out to every man, woman and child in the city — \$10.8 million per person!

It would take the U.S. Bureau of Printing and Engraving and the U.S. Mint, working together at their present pace, more than 1200 years to print and coin \$4 trillion.

If four million workers each worked at the average industrial wage from age 18 to nearly 80, they would have to pool their total life savings to come up with \$4 trillion.

The enormity of the enough of the debt-innumbers is mind-boggling and yet we must find a way to deal with those numbers. Why? Because the numbers do not represent money the govern-

improvements, education ment has collected and and preventative health then spent. That \$4 trillion is the build-up of care were minor, almost irrelevant portions of that spending beyond our nadebt accumulation.

In addition to this \$4 Our federal spending trillion debt, we are fachabits are analogous to ing the equivalents of what happens in a housefamily emergencies: A hold where credit card use health care system which and loan accumulation the public is demanding outpace income. The fambe changed, a savings and ily which repeatedly deloan crisis, and an econcides to "Buy Now, Pay omy which is recovering Later" soon finds itself on from recession far more a treadmill which leads slowly than we would nowhere. Rapidly their hope. On top of all of that, interest payments reach many Members propose a proportion where all the spending for new profamily can do is pay for grams — the equivalent the interest, never actuof a new car or TV for the ally reducing the principle. It goes without sayfamily. Is all hopelessness and ing that at this point in the family's economic life,

loss? Absolutely not. We do not need to wring our hands with depression and helplessness. But we do need to seriously face this problem head-on before we ruin the lives or our children and grandchildren. It is estimated that every member of the younger generation now entering the work force today will be forced to relinquish an additional \$200,000 in taxes over their lifetimes just to pay for the debt we have accu-

mulated to this point. Those of us who are middle-aged and older must bear the responsibility of our actions. It took our Nation more than 200 years to reach a \$1 trillion debt. We are increasing the mortgage on future generations at the rate of about \$400 million each day. We dare not place even more on our children's backs.

I believe we can tackle the debt problem with a three-pronged approach.

First, I believe our irresponsible behavior proves that we must have a more powerful tool to enforce Making the problem budget. This Constitutional backstop will ensure adherence to a longterm deficit reduction plan by reminding us there is a day of accounting not far around the corner.

> Secondly, I believe any new spending by the Congress must be done on a pay-as-you-go-basis. Whether you are a conservative who believes that a balanced budget

and smaller government are intrinsically preferable or you are a liberal who wants to get on with the business of caring for our citizens' needs through new programs, it is imperative that everyone recognizes debt-reduction must come first. Any spending bills must be paid for through reductions in other existing programs. If taxes are increased - something which I resist - that money must be devoted to deficit reduction, not new programs. Furthermore, we must take on those formerly "untouchable" areas such as entitlement

Thirdly, we must streamline the federal government, improving our self-management, avoiding duplication and reducing overhead costs. These things must be done in both the Executive Branch (the various departments and agencies) and in the Legislative Branch (Congress). Government streamlining must be done both for budgetary reasons and so that citizens feel they can work with their government, not be overwhelmed

spending.

In many ways, the 1990's will feel like the hangover from the extended debt party of the 1980's. We will pay for national overindulgence now and over many years to come. As William Siedman, former chairman of the FDIC, said at a recent budget committee hearing, "When you've been on a bender, no amount of Tabasco sauce and tomato juice is going to make it better." You just have to face the headache and get

on with the day. There are tough questions to be faced. Are you willing to postpone the COLA in your federal benefits for a year? Will you agree to requiring seniors who make over \$60,000 or \$100,000 a year to pay a greater portion of

#### Stenholm Encourages Use of Congressional Budget **Tracking System**

In an effort to encourage fiscal responsibility, Congressman Charles Stenholm has endorsed a Congressional Budget Tracking System that will enable Members of the House of Representatives to determine the net impact of their cosponsored bills on the federal deficit.

With number one indicating the highest spending Member, Stenholm ranked 422 out of 435 Members in cosponsored spending. The net spending effect of legislation cosponsored by Stenholm would be \$2.65 billion. "The Congressional

budget tracking system brings accountability to the system," said Stenholm. "Hopefully, it will encourage Members to weigh the benefits of a bill against its cost before signing on as cosponsor, instead of cosponsoring every good idea they hear about without considering the overall budget pic-

Stenholm was second

only to Representative Mel Hancock (R-MO) in cosponsoring spending cuts. Stenholm's cosponsored legislation would cut \$4.67 billion in spending. The legislation includes: H.R. 1755, repeal of the Davis-Bacon Act, an antiquated labor law which inflates federal construction costs; H.R. 2643, Spending Priority Reform Act of 1991 which would eliminate several wasteful spending projects; and H.R. 2336, Income Dependent Education Assistance which encourages repayments to a student loan program.

The Congressman has cosponsored \$7.3 billion in spending. Those bills include: H.R. 1753, Omnibus Adoption Act of 1991 which establishes grant programs for pregnant women and children in need of adoptive families-\$243 million; H.R. 967, Older Americans Freedom to Work Act which would eliminate the tax penalty on working social security recipients—\$5.4 billion; and H.R. 3, Veteran's Compensation Act which would increase disability benefits-\$651 million.

Stenholm has been working as an advisor to the National Taxpayers Union (NTU) as they set up a computerized data base designed to provide a running tally of the cost of every major spending or saving initiative. Members interested in cosponsoring legislation will have the benefit of knowing the costs prior to their lending support to the bill. Ultimately, NTU intends to include Members' votes in the rating system.

"Spending in itself is not bad," said Stenholm. "What I hope we accomplish with this tracking system is an opportunity for lawmakers to consider whether the spending they are supporting is justified or could be used in a better way."

#### Free Eye Care Program Starts In January

Austin, TX, December, 1991 - A program to provide free eye examinations to low-income working people and their families gets underway in Texas in January.

The program, called VISION USA, is being sponsored by the Texas Optometric Association and is part of a nationwide effort initiated by the American Optometric Association.

Low-income workers can sign up for the free eye care by calling 1-800-766-4466 in January, crumb mixture for top- chair of the VISION USA

This is the second year the VISION USA program has been offered nationally. Last year, more than 8,000 AOA-member optometrists across the country donated their services and nearly 40,000 people received the free eye care.

In Texas, almost 300 optometrists donated free eye care to low-income workers and their fami-

"Almost 90 percent of the people we examined throughout the country in last year's VISION USA program had eye health or vision problems," Dr. Carman-Merrifield said.

For over 15 percent, this was their first eye exam ever. And that group included middle-aged adults. It shows what a great need there is for a program like VISION

Based on that experience, Dr. Carman-Merrifield said "it's evident that many people in low-income families are not doing as well as they could at work or in school because of uncorrected vi-

Morticia (Angelica Huston) entertains her children Wednesday (Christina Ricci) and Pugsley (Jimmy Workman) with a frightening bedtime story in Paramount Pictures "The Addams Family." This picture will open at the Majestic Friday, Dec. 27, and show nightly at 7:30 through Monday, Dec. 30. Tickets will be \$3 at the box office, with the picture rated PG-13.

"The Addams Family" is based on cartoon characters created by Charles Addams - lovable, eccentric beings who manage to be a tightly knit family. This new movie is rated in the No. 2 slot in box-office appeal nationwide. Holiday fun with a different twist.

It is said that this taxing the rich and helping the poor. That is an error because many retired people are living on Social Security and a small amount of savings. Many of these people are on no company retirement and are having a hard time making ends meet.

Many of us do not have a company retirement and the moves of the government is eating up our savings. It seems that the welfare people are living better than we are.

There is a feeling of disgust at the antics and the job that is being done by our elected officials. The general public is saying that they will vote against any and all elected officials who are now in office from the city to the national government.

for this tied aid proposal. are high reelection rates

I believe it is clearly to our advantage to adopt a foreign aid policy that helps the United States. Please be assured that I will not support any foreign aid measure unless I am convinced it meets these requirements as well as reflects sound fiscal policy.

welfare system is burdened by waste and abuse. We've poured billions of dollars into programs that haven't created the incentive to work, and consequently, we have second cans to be cut while we and third generations of continue to support wastewelfare recipients. I will ful foreign aid expendinot support any program tures. Congress of the **United States** House of Representatives

Thank you for taking the time to inform me about your feelings of frustration concerning the way things are operating these days. I do appreciate your concern.

You mentioned a number of issues in your letter that I would like to address. The term limit proposal advocates a limit on Congressional terms to bring more new faces into Congress and theoretically make Congress more responsive to popular wishes.

It is my belief that these are worthy goals. There is not enough competition in House elections and Congress would be benefited by the input of more new faces. However, these term limit proposals miss the mark by addressing the results rather than the causes. The problems are uncompetitive races, public indifference and cynicism and high campaign costs. The results

and low turnover.

Addressing results does not reverse or eliminate the symptoms which brought them. In fact it creates new problems. Term limits are in effect limits on the choices available to voters. They would rob the Congress of the experience which is every I agree that the present bit as essential to its smooth functioning as a newcomer's enthusiasm.

the best of intentions has been misused by corrupt local elites.

It is my belief that foreign aid must be subjected to rigorous scrutiny to prevent waste, fraud and abuse. In addition, it should not even be considered unless it meets the following two criteria. One, aid must clearly promote or protect our national security. Two, aid must meet an overwhelming or exceptional human need. I believe that current standards for

distribution of aid are far

high costs for the taxpayer. I trust that I have addressed your concerns. I remain, as always.

OVER THE Tevere, by the Castel S. Angelo and on to Citta Del Vaticano (Vatican City), central for the Catholics, home of St. world's Peter's, the world's largest church, and its Sistine Chapel, a part of the Vatican Museums. This was our second Roman day, and it could be done on your own, but the tour buses, though numerous, are the efficient, and with a group, you probably cover more territory than one would otherwise.

Certainly Michelangelo's ceiling in the Chapel was the highlight for us, but there's so much more, even for non-Catholics. And his Pieta (now protected by shatter-proof glass) in the Basilica is a thing of beauty, virtually impossible photograph. We stayed with the tour in the morning, and came back on our own in the afternoon to be able to spend more time at the things we wanted to inspect closer.

An independent state, with postage money, and own self-government since 1929, the Vatican has been the home for 265 Popes. Originally the site of Circus Neronianus where legend has it that Nero had St. Peter the Apostle crucified and his body was buried nearby. Constantine built a basilica

on the spot; it fell into disrepair; and in the 1500s Julius II began the construction of the new basilica which took 176 years to complete. At age 70 Michelangelo designed the dome, which was completed after his death. The square, known to most by New Year's Eve televised masses, is a virtual museum of colonnades, obelisk, fountains, statues, outside and into the church. This Pieta, one of four done by Michelangelo (this one at age 25), is possibly his most famous piece; on the knees of the immortally young Virgin lies the body of Christ who seems asleep. The center aisle of the church is marked with the sizes of other large

churches of the world, proving that St. Peter's is the largest. Our picture of Amy standing by the giant holy water fountain by Bernini, with its two cherubs, shows the massive proportions of this beautiful piece.

The Sistine is an in-use chapel of worship although on weekday mornings it is packed with tourists, who have bought tickets to visit. It is the site of Papal election by the College of Cardinals following the death of a Pope. From one of its windows is affixed a chimney to signal progress, through smoke, on the selection of the next Pope.

It is of course an unbelievable thing of beauty; with frescoes on the walls, tapestries, all done by leading artists of the day, and then the ceiling, now being there's restored to its original brilliance.

The young Michelangelo started the project in May, 1508 and finished it on Nov. 2, 1512, following the Old Testament, particularly Genesis. Shown are God dividing light from dark, creation of the sun and moon, dividing the earth from the waters, creation of man, of Eve, the fall of man, the sacrifice of Jonah, the deluge and the drunkenness of Noah. The portraits of 12 prophets and the Sibyls are in the triangular spaces between the curved main paintings. In all, truly a thing of beauty, but a question by another helped put tourist perspective: "Why all the nakedness?"

Some 23 years later Michelangelo spent six more years doing the magnificent Last Judgement on the wall above the main altar.

The Vatican also offers probably one of the world's foremost picture galleries, libraries, and its museums display the wealth of the Catholic church. The 4 1/2 miles of corridors actually take you through five major museums: the Raphael Rooms, ancient and modern sculpture, tapestries, displays of high-dollar gifts to the Popes from world notables and countries, with lots of gold and precious jewels in crowns, thrones every imaginable form of decorative art. Do mortals not find it hard to keep the mind and focus on worship in such a place?

Thursday, December 26, 1991 Social Security Payment Increases For 1992

A 3.7 percent cost-ofliving adjustment will affect the amount of Social Security and Supplemental Security Income (SSI) payment received in January.

This changes raises the maximum Social Security retirement benefits to \$1,088 a month and the Federal SSI payment to \$422 a month for an individual and \$633 a month for a couple.

The tax rate for Social Security remains unchanged at 7.65 percent for 1992 increase from each for employees and Social Security tax, increases from \$53,400 to \$55,500. The wage base for the Medicare portion of the Social Security tax increase from \$125,000 to

\$130,200.

Benefits increase are made annually based on the change in the consumer price index as measured from the third quarter of one year to the third quarter of the following year.

Other changes announced by the Social Security Administration include new limits on the amount of money a beneficiary can earn and still receive full Social Security benefits. The limits \$7,080 to \$7,440 for beneemployer. However, the ficiaries under 65; from wage base, the amount of \$9,720 to \$10,200 for earning subject to the people 65 to 69. The earning limits do not apply to people 70 and older.

#### WHIPLASH TREATMENT BEGINS WITH EARLY CARE

Whiplash injuries commonly result when someone is rear-ended by another vehicle. The force of the impact causes your head to be "whipped" backward and forward in fractions of a second.

Fortunately, most whiplash injuries do not cause life threatening damage. Nevertheless, once the muscles have been overstretched, they often go into spasm in an attempt to protect themselves from further injury.

Occasionally a patient comes to my office complaining of headaches, back, neck or shoulder pain after an accident that occurred several weeks or months earlier. This is often the case when a

patient receives no care, inadequate care or improper care immediately following an accident.

Chiropractic training, which requires a minimum of six years, includes the latest research-proven and clinically tested programs for treating a variety of pain syndromes and musculoskeletal injuries.

Little is known about how growing children absorb calcium from foods and deposit it into healthy bones. Previous studies were performed more than 40 years ago and do not represent growth or dietary patterns of American children today.

Abrams is working on a study that will help fill this "calcium gap" by measuring calcium absorption and skeletal formation of young girls. Girls were chosen for the study because women are more susceptible to bone loss in later years.

The study will follow 50 white and 50 black volunteers between the ages of 5 and 15. Abrams will look at the amount of calcium

There is no cure, but Abrams believes that understanding calcium needs and bone growth during childhood can lead to its prevention.

Remove the commer-

cialism from Christmas and the business world would collapse, remove Santa Claus from Christmas and the little children would be deprived of a long awaited friend, remove the bright and colored lights from the homes and churches and zens would feel a sense of drab darkness, remove the music and hymns and songs of Christmas and the heart and spirit would suffer a great loss, remove the N.T. Christmas Story from Christmas and humanity would suffer its greatest loss, for without the story of the birth of the Christ child, his teach-

ings as the Son of God, His death on Calvary's cross for the sins of mankind and Jesus' resurrection from the grave giving man hope of eternal life beyond the grave, man would never know that Jesus was the Son of God, the Wonderful Counselor, the Might God, The Everlasting Father, the Prince of Peace and the divider of history into B.C., before Christ and A.D. - the year

of our Lord. Go tell the Christmas story, but better still, live

RANGER

Some of the greatest people you see eating at Ken's, Ramonas, K-Bobs Steak House and other places that serve food are citizens of Ranger who eat in Eastland, not because Ranger doesn't have good food places to eat at, but because there is more of a sense of romanticism in just getting out of town where you live, husband taking the wife out for a good meal which she didn't have to fix nor wash the dishes, friends joining other friends just to break bread together in fellowship and being able to eat a meal out of town without having to travel too far.

Two of my goods from Ranger that I see eating good food here on the week end are Mr. and Mrs. King of King Insurance Agency and other Ranger citizens that I know.

Just remember you'll see Eastland folks eating businesses and from the in Ranger and Cisco and Eastland Court House vice versa for it seems and the travelers and citi- people just like to eat no matter where it is.

#### Men In Service

Navy Petty Officer 2nd Class Edward D. Eller, son of Billie M. Hohenstein of 708 Schultz, Albany, recently returned from a six-month deployment to the Western Pacific, Indian Ocean and Arabian Gulf.

Eller serves aboard the guided missile cruiser USS Long Beach, homported in San Diego. Eller's ship was part of Battle Group Foxtrot, an eight ship task group centered around the Navy's newest nuclear powered aircraft carrier,

USS Abraham Lincoln. Eller participated in Operation Fiery Vigil which evacuated more than 17,000 Americans from the Philippines after the eruption of Mount Pinatubo. The battle group also spent more than three months on station in the Arabian Gulf joining the multinational peace keeping force of Operation Desert Storm.

Battle Group Foxtrot operated with forces from France, Great Britain, Japan, Kuwait, Saudi Arabia and several other Gulf states to support United Nations resolutions in the region. The group also worked with the navies of Thailand, Malaysia and Singapore. Additionally, while off the coast of Japan, the battle Anniversary
