U.M.W. To Meet February 3, 1992

The United Methodist Women of the First United Methodist Church of Ranger will meet in the home of Marie Mahaffey, 1121 Young Street.

The meeting will be on Monday, February 3 at

2:30 P.M.

Alla Ray Morris will be program leader for "Shelter For Children."

Nancy Burrow and Thelma Powell will be co-hostesses.

Farm Bureau Membership Week Is February 3-7

Shown (L to R) are Eddie Clay, Office Manager of the Farm Bureau, Judge Scott Bailey, Kenneth Brown, Board Member and Dale Walker, Board Member.

County Judge Scott Bailey has signed a proclamation designating February 3-7 as "Farm Bureau Membership Week" in Eastland County.

The week is part of a statewide observance during which county Farm Bureaus will make a special effort to enroll new members, according to Charles Walker of Eastland, President of the Eastland County Farm Bureau.

Danny D. Hutton of Rising Star is Chairman of the Membership Com-

mittee which is responsible for membership acquisition and maintenance. Other committee members are Keith McDonald and Gerald Birt.

"The Texas Farm Bureau, with more than 296,000 member families, is influential in both state and national affairs on behalf of agriculture," the proclamation reads.

"Farm Bureau is a grass-roots organization. Its foundation is the county unit. There are 211 organized county Farm Bureaus in the state in-

cluding the Eastland County Farm Bureau," the proclamation states.

Charles Walker said the local county Farm Bureau has 1422 member families and is seeking to exceed that figure in 1992.

He said that the Farm Bureau is a general farm organization that seeks to improve income and living conditions of farm and ranch families. It represents the farmer and rancher at the local county courthouse, in Austin, and in the nation's capital, Washington, D.C.

in Eastland County would be considered for the time period between Dec. 20, 1991 and Jan. 14, 1992.

Eastland County was recently declared a Federal and State Disaster area, and several types of assistance are available.

VanPelt said that aid may be applied for by dialing 1-800-462-9029. He also told of three briefing meetings with information on public assistance.

The nearest one to Eastland County was scheduled for Tuesday, Jan. 28, 10 AM in the Bosque County Courthouse in Meridian, Texas.

VanPelt said the eligible applicants under the program discussed there would be state agencies, local governments or governmental entities, private organizations and Indian Tribes or organizations.

The briefing was expected to offer data on obtaining aid - and in the case of county Precincts, showing how to document work so it can be reimbursed.

The four County Commissioners made plans to attend the meeting. Personnel from the County Auditor's office also stated they would make the trip.

VanPelt asked a number of questions about the December flooding at Lake Leon. Mr. and Mrs. George Fletcher of Lake Leon were in the Courtroom, and said they and several other people were making surveys of the damage. They said some people had not asked for help, although damage to their property was severe.

Pct. 2 Commissioner Calvin Ainsworth gave a general picture of the damage. He said there were 150 mobile homes and cabins flooded, and eight "original" homes.

Water got 37 1/2 inches high in one house, he said. One home sustained about \$60,000 worth of damages. Many others had heavy damage also.

"These people didn't have insurance - you can't buy flood insurance at the Lake," Ainsworth noted.

He said he wondered how many flood victims had made calls for assistance and been turned back. He said he knew of some who tried to call, but the person who answered wouldn't recognize there had been a disaster.

Judge Scott Bailey said there had apparently been some sort of confusion between agencies as to when Eastland County

was actually declared a Disaster Area.

VanPelt indicated everything was clarified now. "There's help out there," he said. "They're just going to have to go through a process."

Commissioner Richard Robinson said, "The city (Eastland) declined when contacted said there was 'no damage.'"

"But one lady in the City had over 4 feet of water in her house. What will that do to her disaster request?"

VanPelt answered that it wouldn't do anything - that any individual could apply.

Ainsworth said that a number of people with property on Lake Leon have not been contacted - they live out of state.

VanPelt replied that FEMA will not help with vacation homes, that the application must be for primary homes. He said the definition for primary homes is that the owner must live there at least six months out of the year.

In other business, the Commissioners approved a motion to place a gate across Rd. 435 on the west side of Lake Leon.

People who own property on this remote road will have a key to the gate, but the public will no longer have access.

A letter from several landowners was presented to the court, asking that this road be closed. Also, Lake Patrolman Gary Crew told the Commissioners that the road was used mostly "for a dump ground and for beer drinkers."

He said that sometimes people had parties there and started bonfires, and that nearby cabins had been broken into several times. Closing the road to the public should help this problem, Crew said.

Another agenda item was a request brought by Pct. 4 Commission Reggie Pittman. He asked that County Employees get paid on Friday instead of Monday.

County Treasurer Ruth Hart said there was basically no problem, only that Wednesday is the cut-off day for the payday period, and she thought it should remain that way.

But she said if time sheets were brought in by Wednesday, she would have checks available Friday morning.

The Commissioners agreed to this plan, and made it effective this Friday.

Also approved was a request by County Tax

Collector Nancy Trout to renew the contract of Pritchard and Abbott for tax services. Payment to the firm will be \$22,900 for the next year.

There was considerable discussions of enforcing parking around the Courthouse. The parking time is now set at one hour, and it was reported that some individuals simply step out of the Courthouse and move their car to a new space each hour, thus dodging tickets. Sheriff Ronnie White was asked if he could begin enforcing the time limit. He said he would need to study what the ordinance said.

The matter was tabled until the next meeting, where it will probably appear on the agenda.

Comm. Reggie Pittman gave a report on the current jail population. He said that 20 were in the jail, with 3 for TDC, 14 awaiting trial, and 3 on a blue warrant (State).

Of this number 8 had been held less than 30 days, he said. Two had been held more than 30 days, 1 over 60 days, and 3 over 90 days.

Sheriff White said the jail hadn't leaked since the last roof repair. He also said that some inmates had repainted the office of the new County Agent Davy Vestal, and it looked good. New venetian blinds have been put on the windows of that office.

CHERISHES FRIENDS

Mrs. Lee Bailey, a native of the Cisco area and widow of the late Rev. Lee Bailey who pastored churches in this area, now makes her home in Abilene, but reports that she cherishes her many Eastland County friends.

Leap Into A Healthy 1992

"A Conference on Cancer...and You" hosted by The Anderson Network M.D. Anderson Cancer Center

The Anderson Network is a volunteer organization of over 650 current and former patients of the U.T.M.D. Anderson Cancer Center in Houston who "have been there" and who want to help by reaching out to other cancer patients, their friends, family members and all concerned about the cancer situation.

On this special Leap Year Saturday, February 29, 1992 the Anderson Network is hosting "A Conference on Cancer...and You" for all cancer patients, family members, friends and the general public. It will be a day long event where all will become informed on the cancers common in men and women, on preventative nutrition and cancer awareness, screening and self-examination, coping strategies for cancer patients as well as friends and family members, communication techniques between you and your doctor, and the day will conclude with a humorous session on wellness.

Throughout the day, there will be plenty of time to interact with others, ask questions of experts, enjoy a nutritious lunch and just generally have a relaxing, informative enlightening and healthy day.

The conference presenters coming to Eastland are from M.D. Anderson Cancer Center in Houston and include Dr. Richard Theriault, a specialist in medical oncology, Charlotte Martin, MSW, social worker, and Mari-

lyn Tompkins, BSN, MSN and Mary Hernandez, BSN, clinical specialists in cancer prevention and detection. Members and staff of the Anderson Network will round out the agenda by participating in panels and discussions.

"A Conference on Cancer...and You" will be held Saturday, February 29, 1992 at the 1st Baptist Church, 405 South Seaman, Eastland. Pre-registration is requested as space is limited. To reserve your place, call the Anderson Network office in Houston-1-800-345-6324. Registration fees are only \$5.00 per person and cover the full day's activities, lunch and materials.

Becky McIntire, R.N. will be the local coordinator for the event. Assisting her will be Kay Meeks, Sherry Wright, Lesa Oswalt, R.N. and other Eastland County members of the Polo On The Prairie Committee.

As an added bonus to the day, Mary Hernandez, BSN, will be available to talk with and advise patients, nurses, technicians and any others concerned on matters involving interstitial care. Ms. Hernandez has a vast background and is widely recognized as an expert in this area. She is also bilingual for any whose primary language is Spanish. Please indicate your interest in this session so that it can be scheduled into the day's agenda.

Call the office early! LEAP into this rare opportunity to share in the knowledge and expertise of world renowned medical specialists. It is a day for you - a day that may well save your life!

She reads the Cisco Press regularly and looks forward to it twice a week. She is presently making her home with a daughter and friend might want to remember her with cards

OFFICIAL PROCLAMATION

BY

Scott Bailey, COUNTY JUDGE

Eastland County

Eastland, Texas

Greetings:

The Texas Farm Bureau, with more than 296,000 member families, is influential in both state and national affairs on behalf of agriculture.

Farm Bureau is a grass-roots organization. Its foundation is the county unit. There are 211 organized county Farm Bureaus in the state, including the Eastland County Farm Bureau, which has 1422 member families.

Because agriculture is important to our county, state and nation, and because the Farm Bureau is an important voice of agriculture, I, Scott Bailey, County Judge of Eastland County, do hereby designate February 3-7, as FARM BUREAU MEMBERSHIP WEEK in Eastland County, and urge our citizens to give due recognition to its worthy efforts.

Official recognition thereof, I hereby affix my signature this day of January, 1992.

Scott Bailey
Eastland County Judge

FAMILY COMMUNITY LEADERSHIP FORUM

Please join us for the second of a series of Family Community Leadership training workshops scheduled February 11th in Hamilton, Texas! Family Community Leadership is a cooperative program of the Texas Agricultural Extension Service, the Texas Extension Homemakers Association and Family Community Leadership alumni.

The goal of FCL is to be a catalyst for developing and empowering effective family and community leaders through a comprehensive training program that provides a variety of learning opportunities. It is targeted to women, but open to anyone interested in developing their leadership potential.

Setting the stage for

leadership development training will be a keynote presentation "Tips for Survival", by Dr. Lynne Thibodeaux, Assistant Director for 4-H and Youth, Texas Agricultural Extension Service. Dr. Thibodeaux is well known for her fast moving, motivational presentations which have been presented by numerous professional and lay audiences in the state and nation.

Following her presentation, FCL participants will have the opportunity to gain leadership skills through four workshops led by area FCL trainers.

The workshops are: Make Your World A Better Place, One Step Away (becoming actively involved in public policy decision making), Managing Conflict Creatively, and Motivating Yourself & Others.

Persons wishing to at-

tend need to pre-register immediately by contacting, Janet Thomas, County Extension Agent-HE at 629-2222 for the pre-registration form. Cost is \$10.00 which includes luncheon and refreshment breaks.

EXTENSION HOMEMAKERS LEADER TRAINING

The February E. H. Club Program is "Ideas for Reuse and Recycling". The program will be presented by Janet Thomas, County Extension Agent-Home Economics, to club program leaders on.....

Date: Friday, January 31, 1992.

Time: 10 a.m.

Place: T.U. Electric-Reddy Room, Eastland.

The program will demonstrate a variety of gift and decoration items that can be used to recycle common items in the home we often throw away.

E. H. COUNCIL Extension Homemakers Council will meet on Wednesday, February 5th at 2 p.m. in the T.U. Reddy Room in Eastland.

Prior to Council, the Extension Homemakers Council Standing Com-

mittees will meet to plan the 1992 program of work. Mrs. Dois Hodges is Council Chairman and urges every club to be represented.

POSITIVE ACTION FOR YOUTH CONFERENCE

Our youth and the future of our nation are at risk! Thirteen percent (13%) of U.S. high school graduates read and write at or below sixth grade level. One out of every 3 Texas students drop out of school. Many of these as early as 9th grade. Pregnancy is the reason for many of the girls to drop out. Texas leads the nation in teenage pregnancy numbers. One of every five abortions in Texas was for a teenager in 1987.

Youth need.....

- * Leisure time activities

- * Non-academic education

- * Community involvement

- * Opportunities for applying knowledge and developing leadership skills

- * Central places and central people

To address these issues and inform public leaders and parents, there will be a Positive Action For Youth Conference sponsored on February 28th & 29th. The P.A.Y. Confer-

ence is being sponsored by the Eastland County Positive Action for Youth Coalition.

The Conference will be held at the Eastland High School facilities and is free.

You do need to pre-register and sign a "commitment card" that you will attend the entire conference. Pre-registration is due February 14 and cards may be secured from Mrs. Janet Thomas, County Extension Agent, at the Eastland County Extension Service Office in the Courthouse Basement. The telephone number is 629-2222.

RECIPE FOR THE WEEK

Hawaiian Banana Nut Bread

3 cups flour
2 cups sugar
1 t. soda
1 t. salt
1 t. cinnamon
1 cup nuts
3 eggs, beaten
2 cups mashed bananas
2 t. vanilla
(8 oz.) can crushed pineapple
Combine dry ingredients; stir in nuts, and set aside.

Combine the remaining ingredients; add to dry ingredients, stirring just until batter is moistened. Spoon batter into 2 greased and floured loaf pans.

Bake at 350 degrees for

Flu Season

Flu season came early in much of North America, and a second surge may be on the way.

"People who caught influenza earlier in the season could get it again, especially if a different strain hits," said Dr. W. Paul Glezen of the Influenza Research Center at Baylor College of Medicine in Houston. "But people who have been vaccinated are likely to be protected. The two influenza A viruses circulating are similar to those included in the current vaccine."

Flu season generally peaks in late January or early February, but an unusually early round peaked in November.

Those most at risk for potentially fatal flu complications are the elderly and people with heart disease, lung disease,

asthma, chronic bronchitis, diabetes, chronic kidney disease, chronic anemia, sickle cell anemia and immune-system disorders.

"It is still not too late for people in the high-risk groups to get flu shots," Glezen said. "Such patients can be protected by taking the prescription drug amantadine during the 14 days it takes for the vaccine to provide full protection."

Most of the influenza this season has been type A, and the symptoms and duration of an influenza A attack can be minimized by amantadine.

Influenza usually strikes suddenly and brings fever, generalized muscle pain, weakness and a dry, hacking cough.

Flu sufferers should get plenty of rest and drink lots of liquids, Glezen said.

Adults may take aspirin or an aspirin substitute to reduce fever and pain, but people younger than 21 should use only aspirin-free products.

Aspirin has been associated with Reye's syndrome, a flu and chicken pox complication that can cause vomiting, convulsions, brain damage and even death in children, said Glezen, an epidemiologist and pediatrician.

As bad as this current season has been, it pales by comparison with the 1918 worldwide flu epidemic that afflicted 500 million people and killed 20 million. More than half a million died in the U.S.

The 1918 epidemic killed more people in less time than any other disease in modern history. It ranks with the Black Death of the 14th Century as one of the few events in recorded history to reduce the earth's population by as much as 1 percent.

The Movie "Hook" To Show Friday At Majestic Theatre In Eastland

The TriStar Pictures release "Hook" will show at the Majestic Theatre in Eastland from Friday, Jan. 31 through Monday, Feb. 3. This comedy-drama-fantasy is rated PG and admission will be \$3 at the box office.

"Hook" stars Dustin Hoffman, Robin Williams, Julia Roberts and Bob Hoskins.

It is basically the story of the mythical Peter Pan after he grows up and goes back to Nevernever Land. It is directed by Steven Spielberg, and probably shows a number of facets of his character.

It appears that the adult and ever childlike Spielberg has woven a Peter Pan for the 90's - complete with a respect for family bonding. Robin

Williams is impishly delightful as Peter Pan, and Dustin Hoffman is sinister enough as Captain Hook.

The musical score by John Williams is beautiful, and the sets are opulent. The fantasy darts around through the "real" world and Nevernever Land as the grown-up Peter Pan learns how to be a child again. Meeting up again with the Lost Boys and Tinkerbell gives Peter the chance to redeem his life.

This picture is getting good reviews from critics and is drawing fans across the country.

In new AIDS study published in the British journal Nature, a bioengineered antibody prevented infection in two chimpanzees that were exposed to the HIV virus. Scientists hope that the antibody technique may someday prevent transmission of the virus from pregnant women to their babies.

New drug, gamma interferon, seems effective for youngsters with chronic granulomatous disease that cripples the immune system, the *New England Journal of Medicine* reports. Therapy seems to boost the immune system to fight infection, and may help others with immunity problems.

Work-site health programs more than pay for themselves in reduced health claims, plus higher morale, lower absenteeism and improved productivity, the *Journal of the American Medical Association* reported. Nationwide savings could be in the billions.

Dieters don't have to count their calories as long as they watch their fat intake, says a professor of nutrition at Cornell University. Most people can eat all the low-fat, high carbohydrate foods they want.

Watching your weight? You'll find the help you need - from appetite suppressants to diet drinks - at Walmart Pharmacy Hwy 80 East, Eastland, 629-3347.

February Is Heart Month

How do you mend a broken heart?

If the problem is medical, not romantic, the solution may be somewhere between the lab and the work bench where DeBakey Heart Center scientists and engineers are building better devices for broken hearts.

Dr. George P. Noon, professor of surgery at Baylor College of Medicine in Houston, said physicians seek heart-assist devices that will not tie patients to equipment or require costly monitoring in cardiac care units.

"We want a small, implantable device that can be used safely in patients who require temporary assistance until their hearts heal," Noon said.

"For longer term—a lifetime or until a donor organ becomes available for transplant—we want an enclosed device not tethered to an external power source that can be implanted, providing partial or total support of the cardiovascular system."

Either goal is a tall order. "We have been working since the 1960s to develop devices, but it is very slow and very difficult," Noon said. "We outline the criteria and engineers design what we want. But the devices do not work the same in animals as they do in the lab."

Working with NASA engineers, DeBakey Heart Center scientists have developed a steady-flow pump that could

provide temporary help for the heart's own pumping action.

Noon said the device "works well since it contains no valves where blood clots can form. But the device can damage blood cells making clinical trails for patients a long way off."

Heart Center researchers are also working on an electrically driven artificial heart as well as cable-driven and magnetically-driven centrifugal pumps to provide temporary assistance to the heart's left ventricle, the major blood-pumping chamber.

"The search continues," Noon said. "We hope one

of the devices we are working on will be successful."

In the meantime, broken hearts are still being mended with a variety of heart-assist devices. "The differences is the amount of time each can be used and the amount of support each provides," Noon said.

Transplantation is currently the best long-term solution for mending medically broken hearts. "But, we will never have enough donor hearts available to treat all the patients who need one," Noon said. "We need something we can take off the shelf and implant."

Keeping an eye on Texas

In-state college expenses lower

Tuition and related fees for Texas residents were lower than the national average in the academic year 1990-91 for students attending two- or four-year institutions within the state.

Institution Type	Texas*	U.S.
2-year public	\$482	\$884
2-year private	\$3,263	\$5,003
4-year public	\$989	\$1,809
4-year private	\$5,892	\$9,391

* Texas numbers computed by the Comptroller's Office.

HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

A Rio Grande Valley district judge ruled last week that Texas discriminates against Mexican-Americans in college funding and gave legislators 16 months to find a remedy.

Meanwhile, Lt. Gov. Bob Bullock reversed his call for a state income tax, saying he would not work for a tax increase next session.

In other events last week:

- House Speaker Gib Lewis pleaded no contest to two minor charges and paid \$2,000 in fines, in exchange for prosecutors dropping two ethics charges on which he faced trial this week.

- The National Women's Political Caucus touted Gov. Ann Richards as a potential candidate for vice president; Richards pushed the wreath away again, but rumors persist she wants it.

- Former Gov. Mark

White resigned from a Houston hospital board and his law firm in the wake of a conflict of interest scandal and personal financial problems.

Judge Overrules

In striking down the Texas university and college funding system as unconstitutional, Judge Ben Euresti Jr. said it denies Mexican-Americans equal opportunity.

Texas Atty. Gen. Dan Morales, who unsuccessfully defended the state, afterwards said he also thinks the state discriminates against minorities in its funding system.

The jury determined Texas didn't give Hispanics equal access to the University of Texas and Texas A&M, but found no discrimination against Hispanics in distribution of higher education funds. Euresti overruled the jury on the discrimination question.

The ruling, issued in a

lawsuit filed by League of United Latin American Citizens, comes at a time when many state officials believe the Texas Supreme Court will soon throw out the Legislature's reform of public school finance.

Unhappy with federal judges who rewrote the Legislature's redistricting law, -v. Richards lashed out last week against judicial meddling, and included a warning to Texas Supreme Court justices that the Legislature may let them write a new school funding law if they strike the reform.

Lost Tax Dollars?

In case that happens, some of the state's largest businesses sought relief to insure the return of school property tax dollars they expect to pay by Jan. 31.

But State District Judge Scott McCown took only 15 minutes to reject their request to delay collection and use of those taxes.

State law holds that once a tax is paid, it cannot be refunded; the pre-emptory challenge to the new tax might get businesses past that stopper.

Homeowners and businesses which paid school property taxes in '91 in order to receive a federal income tax deduction will lose the tax money, even if it is declared collected illegally, income tax deduction will be out of luck.

Lewis Avoids Trial

Speaker Lewis took the no contest deal to avoid the public embarrassment

of a trial, and 18 months jail term if found guilty, but afterwards he claimed to have been railroaded by political foes.

The indictments against Lewis came out of a probe into lawmaker-lobbyist relationships by Travis County District Attorney Ronnie Earle.

Last week, Earle said the probe, which cost thousands of tax dollars, was worth it because Lewis was finally removed from office. "The clear winner is the public," Earle said.

Earle, an Austin political fixture, was elected chief prosecutor in the '70s when Gov. Ann Richards served as a Travis County Commissioner.

Bullet Train Gift Rapped

Texas Railroad Commission chairman Lena Guerrero, a Richards appointee, came under heavy fire last week for accepting \$10,000 from a partner in the bullet train syndicate which last week won a \$5 billion state contract.

Dallas oilman Barry Williamson, her Republican opponent, said she should "give a complete accounting of all contributions she had asked for or gotten from high-speed rail interests."

Guerrero said the gift did not influence her vote, that she had gotten political contributions from project opponents, and

that "Unlike Mr. Williamson, I do not have the personal wealth to draw on to finance my campaign."

Other Highlights

- Watchdog group Public Citizen asked the Texas Ethics Commission to monitor political gifts made by lobbyists to candidates for speaker of the Texas House of Representatives.

- Former U. S. Atty. Gen. Edwin Meese, speaking in Dallas, called for less federal court interference in state prisons.

"Some of the most outrageous rulings have been here in Texas," he said, urging tougher punishments for lawbreakers.

- The man sentenced to death for raping and killing an elderly nun, who was given a 30 day reprieve by Gov. Ann Richards, will get a pardon and parole board hearing this week.

The prosecutor, Potter County DA Danny Hill, accused Richards of pressuring the board into granting a commutation.

- Gay rights activists asked the State Board of Education to require public school textbook publishers to reveal homosexual and bisexual historical figures.

Fishing Outdoors

by Terry L. Wilson

New Largemouth State Record 18.23

Anglers Choice Team's from the Northwest Region will be heading to Lake Colorado City in West Texas February 15 & 16, 1992. Currently Eastland County will be represented by 7 teams and a possible 10. That's an excellent representation for our population in this county.

The lake is set just south of I-20 with a major creek coming into this power plant lake from under I-20. The size is small just about 2/3 the size of Lake Leon. But there are some similar features, the main lake area has some 50 to 60 fee water with large rocks. Mid-lake boast some cattails and salt

cedars mixed with boat docks. The creek areas are flooded salt cedars with a defined creek channel.

Past reports for largemouth bass are excellent when both generators are running. The extra heat helps, but the big plus here is the increased current. Bass up to 10 pounds are caught at this oasis in the desert with good stringers of 2 pound fish available.

Late February and March are the big bite times by the reports we have gathered. Top baits are jigs, crankbaits and Rat-L-Traps fished at a variety of depths.

Anglers heading to Colorado City best hang on to their rods due to the presence of Red Fish or Red Drum in the lake. As

the accompanying photo shows they get pretty big even inland. This one caught by B. J. Johnson this past weekend tipped the scales at 12.62 pounds. It took B. J. about 8 minutes to land this unusual 3 dot on one side and two dot on the other Red Fish. And despite what some anglers may say these babes do have some mean teeth, and I have the marks to prove it.

Of course the big news in the bassin world is the new state record largemouth bass caught at Lake (no surprise) Fork last Friday. This fish set a new mark of 18.23 pounds pending certification. The two anglers who landed this giant were reported to have been crappie fishing with minnows. Ain't that the way it goes.

CHIROPRACTIC FOR BETTER HEALTH

DR. STEPHEN G. BARRY

CHIROPRACTOR

MEDICAL RESEARCH SUPPORTS CHIROPRACTIC

The *British Medical Journal* reports that Chiropractic treatment of low back pain, which affects 75 million Americans, is superior to the standard regimen administered by medical doctors.

The study, published in the summer of 1990, indicated that chiropractic manipulation can relieve severe back pain quicker and at lower cost than medical treatment. Chiropractic patients experienced less pain and disability and missed fewer days work.

At Barry Chiropractic Clinic we are committed to not only getting

you free of back pain but treating those conditions which cause your pain. No symptom can be more depressing than persistent back pain. Don't delay treatment when help is readily available.

In the interest of better health from the office of:

NOTICE

Brazos Electric Power Cooperative, Inc., hereby gives notice that on January 17, 1992, it filed with the Public Utility Commission of Texas an APPLICATION FOR A CERTIFICATE OF CONVENIENCE AND NECESSITY FOR PROPOSED GENERATING FACILITIES for two 104 MW simple cycle gas-fired combustion turbines. Brazos Electric's site of choice, and the only site involved in the Application, is Brazos Electric's existing R. W. Miller Plant site on Lake Palo Pinto in Palo Pinto County, Texas, as shown on the map published herewith. The Rural Electrification Administration, which must approve the project, is reviewing two alternate locations: Brazos Electric's existing plant sites in Bell and Parker Counties. The estimated expense associated with the project is \$65,332,000. A copy of the filing is available for inspection at Brazos Electric's offices at 2404 La Salle Avenue, Waco, Texas or at the Commission in Austin.

Persons with questions about the project should contact William B. Townsend, Jr., at Brazos Electric at (817)750-6377. Persons who wish to intervene in the proceeding or comment upon the action sought, should contact the Public Utility Commission of Texas, at 7800 Shoal Creek Blvd., Austin, Texas 78757, or call the Public Utility Commission Public Information Office at (512)458-0256, or (512)458-0221 for the telecommunications device for the deaf. The deadline for intervention in the proceeding will be 60 days after the final publication of this notice.

Cold Weather, Wind-Chill Pose Hypothermia Danger

Although the main weather events of early winter this year have been record rains and flooding in parts of Texas, the danger of life-threatening cold should not be ignored. Officials at the Texas Department of Health (TDH) warn that even during comparatively mild winters, some cold weather-related deaths occur.

Last year, at least eight Texans died because of hypothermia, severe loss of body heat, because of weather conditions.

Dr. Diane M. Simpson, TDH Associate Commissioner for Disease Prevention, said that while extreme or extended cold is dangerous to anyone, some people are more likely to suffer hypothermia than are others.

Small children are endangered because their

bodies radiate heat faster than the bodies of adults. People who are sick, and those taking certain prescription drugs or alcohol may lack resistance to low temperatures. Homeless people who are unable to find temporary shelter also are at risk.

However, Dr. Simpson said that the group most susceptible to hypothermia is the elderly population. Death certificates at the TDH Bureau of Vital Statistics from 1981 through 1990 show that 61 of the 109 Texans who died from cold weather conditions were 55 or older.

Several factors combine to make cold hazardous for people as they age. Often, an older person's metabolism is slower than that of a younger person, or the person may already be in poor health and

taking medications.

The elderly may not perceive and respond to cold as readily as younger people, since the body's natural alarm system, the shivering reflex, lessens with age. In addition, older people with low incomes may set their thermostats lower than should, in efforts to reduce heating bills.

"These tendencies, plus the fact that many of the elderly live alone, set the stage for tragedies every year, even in Texas' temperate climate," Dr. Simpson said.

She explained that hypothermia begins when a person's deep body temperature falls below 95 degrees Fahrenheit, less than four degrees below normal.

She said, "Because the temperature drop may be gradual, and since an

early sign of hyperthermia is mental confusion, the victim may stay unaware of an emergency. Drowsiness, coma and death can occur while the victim remains oblivious to any problem."

Besides confusion and drowsiness, symptoms of hypothermia may be slurred speech, falling blood pressure, shallow breathing and pinkish tint to the skin. Anyone believed to have these symptoms because of cold temperatures is in immediate danger.

"We urge everyone to check on their elderly friends and relatives, especially during cold weather. Any symptoms of hypothermia should be taken seriously," Dr. Simpson stressed.

She added that no one, at any age should ever underestimate weather changes. People who have to be outside in cold weather should wear loose-fitting, layered clothing, gloves and face covering to block wind-

Railroad Commission Proposes New System To Regulate Gas Production In Texas

In a historic regulatory action, the Railroad Commission on Monday proposed significant revisions to the current system of natural gas production in Texas. Commission chairman Lena Guerrero and Commissioners James E. (Jim) Nugent and Robert Krueger voted to adopt several measures to ensure the viability of future natural gas supplies for Texas and the United States.

"Texas has almost one-fourth of proved natural gas reserves in the United States," Guerrero said. "Our decision should maximize gas recovery, prevent waste of this precious natural resource, and open new markets for Texas gas," she said.

As adopted, the Commission action:

1) Laid the groundwork for consideration of a new statewide natural gas proration system, by approving for publication and public comment a proposed Statewide Rule 29 governing how market demand for Texas gas is determined and how production limits are set. The biggest change in the proposed rule would assign allowable production of natural gas to wells on an annual basis, rather than monthly under the current system.

Nugent sponsored the proposed new gas proration rule. "Our current gas proration rules are antiquated, complex, and in-

need of a major overhaul," Nugent said. "What we've done is a solid step forward in making sure we have all the gas we need for the future." He has repeatedly stressed the need to simplify a regulatory process that he says hinders rather than helps producers in producing and finding markets for gas.

2) Proposed interim measures as improvements to the current gas proration system. These changes are intended to match market demand for gas more closely with gas production. Specifically, the Commission would eliminate the current monthly nomination system for gas, in which gas purchasers estimate the volume of gas needed to supply their regular markets; that is, market demand. Instead, the Commission itself, using its own statistical data, would determine the lawful market demand for natural gas produced in Texas.

Further, the proposed interim changes would eliminate a series of automatic adjustments to gas allowances in the present rules—the so-called al-

phabet allowances. The proposed interim measures are scheduled for further Commission action in February, with a tentative implementation date of March 1.

3) Instructed Commission staff to develop a plan to inform industry and state and federal officials of the gas rule changes. "I can tell you from my experience in Congress that elected officials at every level, in both producing and consuming states, are vitally concerned about natural gas supplies and their applications," Krueger said. "Our action is a signal to the nation that Texas has taken the lead in promoting the use of this cleanburning fuel."

4) Instructed Commission staff to formulate a plan to create new markets for Texas natural gas. NWE want to encourage the demand for Texas natural gas across the United States," Guerrero said. "We believe that gas consumption will increase substantially in this decade. Our goal is to help other Americans recognize the economic and environmental advantages of natural gas and look to Texas for dependable supplies."

chill. Wind-chill is a term for the cooling effect wind has on the skin. Not only can wind-chill cause rapid heat loss from the body, but it also can cause frostbite—actual freezing of tissues. A strong wind, even in moderately cool weather, can cause a wind-chill far below freezing.

The National Weather Service uses the following table to estimate wind-chill when the air temperature and wind speed are known. To determine wind-chill, read down the column below the outside air temperature (top line of the table) to the right of the measured wind speed (left column).

SMALL BUSINESS Q & A

Most Powerful Word in English language

From CYNERGETICS

Recently, I made a minor change to one of my long-running ads, and suddenly, store traffic is up 30%. Wow!

Here's what I did: I offered all new customers a FREE BONUS!

I'm so excited about these results, now I'm wondering ... In what other ways can I use this FREE! concept to make my ads pull even better?

A FREE! is probably the most over-used word in advertising. It is also probably the most powerful.

Think about it. A FREE! bonus gives customers that extra nudge to respond to your ad. Everyone loves the idea of getting something for nothing.

Over the years, we've uncovered four secrets to making FREE! give-aways draw the best response from customers:

- Clearly establish the value of your FREE! bonus. The customer must immediately recognize what he would have to pay for this same bonus elsewhere.

- Give it away without any strings attached.

- Limit the availability. For example, restrict distribution to only a select group of people. Or, establish a firm deadline. If you can combine restricted distribution with a deadline, so much the better.

- Explain why you are so willing to give a valuable gift away FREE! Customers are naturally skeptical. Even though you're giving it away FREE!, they must be convinced there is no catch.

We've seen some brilliant adaptations of the FREE! concept:

- Pat's Ski & Sport Shop in Redondo Beach has set aside one corner of the shop for FREE! information. The corner is stacked with FREE! brochures, booklets and pamphlets on nearly every aspect of skiing and most outdoor sports.

A customer can walk in and avail himself of any of these FREE gifts ... without being hassled by a salesperson

and without spending a dime at the store. It's no surprise then that ski and sports enthusiasts in the neighborhood swear by Pat's.

Miner's, a lumber and hardware store in Grover City, has FREE! tools for its customers.

A customer can walk in and borrow FREE! gardening tools, wallpaper hanging tools, or plumbing tools.

Think about the impact on a customer who wants to buy, say, wallpaper. At other stores, he must buy the wallpaper plus the tools required to hang it. Once he's done

with his wallpapering project, he'll probably never need the tools again.

At Miner's, on the other hand, he buys the wallpaper and simply borrows all the tools he needs, FREE!

The Earthling Bookstore in Santa Barbara provides FREE entertainment in the evenings for their bookstore browsers. Customers sit around a fireplace, hitch their legs up, absorb the live soft music, and read an entire book for FREE!, if they so desire. Earthling is growing ... adding and expanding stores even during the current recession!

© 1992 Cynergetics

Cynergetics is a company that uses the word FREE! profusely. Right now, they are offering their \$4-Report, "How To Gain A Substantial Edge Over Your Competition," FREE to readers of this newspaper.

Send a long, self-addressed stamped envelope before February 28th to: Cynergetics, 1308 Broad Street, Dept. DD, Suite 45, San Luis Obispo, CA 93401.

Customer In Fool's Clothing

Like it or not, your customers are walking billboards.

Long after you've completed the sale, the memory of how you treated them lingers on.

So, don't sell them a bill of goods

just because you're hungry for a sale. Don't convince them to buy something even though you know it may be inappropriate for them.

Be sure everything your customer buys from you puts him in a good light.

Marion Watson

BRECKENRIDGE - Marion "Pete" Watson, 62, of Breckenridge died Friday, January 24, 1992 in Hendrick Medical Center in Abilene.

Funeral services were held Monday, January 27, 1992 at 2 p.m. at Morehart Mortuary, Reverend Charles West, pastor of Bethany Baptist Church, officiated. Burial followed in Eastland Cemetery under the direction of Morehart Mortuary.

He was born on February 13, 1929, in Eastland. He grew up in Eastland and attended schools there. He moved to Breckenridge in 1962 from Eastland. He had worked for Brown Ford-Mercury Company as a mechanic for 30 years. He married Jean Price in Breckenridge on April 27, 1964. He was a member of Bethany Baptist Church.

Survivors include his wife, Jean Watson of Breckenridge; one daughter, Sharon Kay Beaver of Euless; two stepsons, Richard Glen Price and Nolan Louis Price both of

Abilene; three brothers, John Watson of Henderson, Edison Watson of Eastland and Calvin Watson of Bossier, Louisiana; one sister, Mary Gray of Richardson; one grandson and four step grandchildren. He was preceded in death by his parents and two sisters.

The family requests that memorials be made to West Texas Rehabilitation Center.

Ira. E. Maupin

RANGER - Ira E. "Red" Maupin, 61, of Ranger died Saturday evening in an Eastland nursing home.

Services were held at 11:00 A.M. Tuesday at Edwards Funeral Home Chapel in Ranger with Rev. Jerry Speer officiating. Mr. Maupin will lie in state at Bell Cypert Seale Funeral Home Snyder, Texas from 4:00 P.M.

Tuesday until afternoon Wednesday. Graveside services were held at 2 p.m. Wednesday at the Ira Cemetery in Ira with the Rev. C.J. Smith officiating.

Mr. Maupin was born October 1, 1930 in Neches, Texas. Was married to Bea Oldren April 14, 1955, was a member of the Church of Christ. He had served in the U.S. Army during the Korean Conflict.

Mr. Maupin was a member of the Snyder American Legion, V.F.W. and Lions Club. He had worked for Jones Equipment, Maybee Oil Co., Sweetwater Pump and Supply, Wilcat Oil and Supply, Trico Oilfield Supply and Stewart Tank and Supply.

Mr. Maupin has lived in the Ranger area since 1981.

Survivors include his wife, Bea Maupin of Ranger; a daughter, Shelly Yates of Deming, N.M.; his mother Susie D. Wymer of Ranger; and three grandchildren.

Addie Reed

COMANCHE - Addie Reed, 94, died Saturday, January 25, 1992 in an Abilene hospital.

Services were held at 2:30 p.m. Tuesday, January 28, 1992 at Hall & Chaney Funeral Home Chapel with the Rev. Jackie Auvenshine officiating. Burial was in Sardis Cemetery.

Miss Reed was a lifetime resident of Comanche County. She was a

cook in a nursing home and a restaurant.

She was a member of Hasse Baptist Church where she was secretary for 38 years and taught Sunday School for many years.

Survivors include several cousins, Ned Parks of Eastland, Mildred Zschiesche and Augie Stark, both of Comanche, and Dale Brownlee and Mabel Tilley, both of De Leon.

William M. Jones

EASTLAND - William Morris Jones, 71, of Eastland, passed away Friday, January 24, 1992 at the Baylor Medical Center in Dallas.

Funeral services were held at 2 p.m. Monday, January 27, 1992 in the First Baptist Church of Eastland with Dr. Robert Jeffress and Rev. Haston Brewer officiating, under the direction of Bakker Funeral Home of Eastland. Graveside funeral services were held at 2 p.m. Tuesday, January 28, 1992 at the

Rosemount Cemetery in Commerce, Texas.

Mr. Jones was born and grew up in Commerce, Texas, he graduated from Commerce High School in 1937 and from East Texas State University at Commerce in 1941. He married Minna Veda Rex on March 14, 1942 in Commerce. After serving with the Army Air Corp in WWII, Mr. Jones received his Master's Degree from ETSU in 1946. After living in Gladewater for a short time, he and his wife moved to Eastland in 1949. In Eastland Mr. Jones was employed at Fullen Mtr. Co. as parts manager, bookkeeper and sales. He retired as Sales Manager in June of 1990. He was a member of the First Baptist Church of Eastland.

Survivors include his wife, Minna Veda of Eastland; two sons, Bill Jones of Baton Rouge, La., and Mike Jones of Dallas; one daughter, Cathy Hoes of Rowlette, two brothers, Edward Jones of Downey, Ca., and W.C. Jones of Norwalk, Ca.; one sister, Marie Jimison of Colton, Ca. He is also survived by 9 grandchildren and 1 great-grandson.

Harris Methodist Erath County Hospital

Prostate problems can make you uncomfortable and can be stressful. You do not have to live with these problems. Get the facts about Prostate problems plus a free screening.

WHEN: Fri., February 21, 1992
TIME: 2-5 PM

WHERE: Harris Methodist Erath County Hospital Community Room, Stephenville
WHAT: Call 965-1599 for reservations/appointment

Dr. Avi Deshmukh,
Board Certified Urologist,
will be conducting the screening.

MAMMOGRAPHY CAN SAVE YOUR LIFE!!

If you are a healthy woman over 40 who never has had a mammogram, The American Cancer Society recommends that you have this simple life saving procedure now. Since one woman in ten develops breast cancer at some point in her lifetime, the urgency is real.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination. These images are then interpreted by a Board Certified Radiologist, and a report is sent to your own doctor. It takes only a few minutes, and can detect incipient breast cancer as small as the period at the end of this sentence.

Early detection (18 months sooner than a lump can be felt) not only permits treatment before the problem becomes serious, but the cure rate is over 90%. Mammography cannot only save your life, but help you avoid the need for disfiguring surgery too.

You don't need to have been a previous patient of ours to receive this screening, but you do need to make an appointment at a time convenient to you.

PHONE NOW:

Rescue Line For Women

Ruth Stewart, M.Ed.

Q. How can I get my child to do (or not do) something?

A. One way to motivate a child is to give rewards. To get a child to stop sucking her thumb her parents gave her a small surprise when she went for seven days without sucking her thumb. After 30 days they gave her a larger one.

For older children a task sheet can be posted and the reward could be written beside it. When the child accomplishes the task, be sure to follow through.

LIEUTENANT GOVERNOR CALLS FOR RESOLUTION OF PRODUCTS LIABILITY ISSUE

Lieutenant Governor Bob Bullock has pledged his commitment to resolving the long-standing fight over products liability by asking all parties to meet on a regular basis until the next legislative session in an effort to solve the issue.

Speaking to members of the Texas Chamber of Commerce at their annual conference, Bullock called product liability one of the most important issues facing the next legislature convening in January 1993.

"Products liability is an issue I would like to see settled next session," the lieutenant governor said. "The legislature, and the Texas Senate in particular, have been criticized for not passing a products liability law, and I've been criticized for not getting a bill through last session."

Bullock noted that the fight has been going on in the Texas Legislature since 1977. There have been 55 products liability bills introduced, and only two have passed. He said he found it strange to be blamed for not accomplishing in his first four months in office what others had not been able to complete in 15 years.

"To get the issue to the

forefront, I have asked all sides of this issue to meet monthly from now until the session begins," Bullock said. "I sat in on the first meeting and I thought it was a very productive one."

The lieutenant governor stressed his determination to resolve the issue this session.

"I told them that if they couldn't come to an agreement, my staff will write a bill," he said.

Past products liability bills have been written to try to clarify for manufacturers and consumers alike what their responsibilities are, without reducing protection for consumers.

Bullock also said he would like for the two sides in the battle for trucking deregulation, rates and regulatory authority to "sit down and talk... but to date I have not been successful in bringing them to the table."

Acknowledging that the big battle of 1993 will be finding money to run the state, Bullock promised to oppose any increases in taxes next session, short of a court ordered mandate for education — an issue now before the Supreme Court.
