East Cisco Baptist Plans Ordination

Davis, Minister of Youth and Music of East Cisco Baptist Church will be the new ordinate. "Baptists and many other denominations hold to the Biblical concept of the 'priesthood of the believer.' Because of this all true believers are looked upon as 'ministers," says Bro Young, Pastor of East Cisco. Bro. Young adds "the ordination service of a believer, such as Bro. Paul, is an affirmation that he has received a 'calling' from God to preach His Word." Because of Bro. Paul's calling and spiritual gifts, his title will change to "Associate Pastor." His roles as Minister to Youth and Minister of Music will not change. All ordained Baptist Ministers are invited to participate on the ordaining council.

County Food Pantry Needs Items

The Eastland County Resources meeting April 13 brought news of community service activities.

A Food Pantry volunteer stated that the Pantry was "extremely low" on canned meat and fruit.

Other especially needed items were canned tomatoes, potatoes, carrots and mixed vegetables. Also, peanut butter, macaroni and spaghetti were in short supply.

She also said that certain staples are always needed: crackers, cornbread mix, beans and rice.

Persons wishing to

donate any of these items may bring them to the trailer at 204 N. Lamar. just northeast of the jail. The Pantry is open Monday, Wednesday and Fri-

day afternoons, 1 - 5 p.m. Food is stocked there for distribution to the needy in Eastland County. Seasonal clothing is also kept.

In other reports, Resources Director Patricia Hardin reviewed the CPR training presented at Eastland High School the week of March 20.

She again thanked the sponsors: Eastland Memorial Hospital, Advance Home Care, Shonda's

Steinberger Home **Burns In Cisco**

Monday, Martin Steinberger went to work, but since it was a school holiday, Virginia, his wife, and their five children were at home. Four of the children were playing outside and a daughter was inside with Virginia. They smelled smoke coming from the living room, and found that their home was on fire. There wasn't even time for them to get their shoes as Mrs. Steinberger made sure the children were safe, then went to a telephone to call the Fire Department.

Three trucks and twelve or fifteen Cisco Volunteer Fire Dept. firemen arrived around 1 p.m. to find the wood frame and rock house completely ablaze. With the flames so completely consuming the home and no hydrant nearly for trucks to connect to, firemen had no choice but to watch the fire burn itself down.

The family stayed overnight at the Oak Motel The Steinbergers are in need of household items linens and clothes. The Cisco Ministerial Associa-

tion Steinberger Aid Fund has been set up by members of the Cisco Ministerial Association. Contributions may be made at the First National Bank in Cisco. Household items or clothes may be left at Calvary Baptist Church, or call 442-2183 or 442-3676

The Steinberger children are: Crystai 11. Joshua 10, Samuel 7, La Toya 6 and Adrian 4

Alan is employed by the Texas Department of Transportation and has been active throughout the years in local youth organizations, school and church functions. Alan states, "Having served for the last three years as a Trustee gives me the experience and insight to plan for the future of Ranger Schools. A trustee should be informed of laws and policies, the facts behind each issue and be

prepared to make tough and sometimes unpopular decisions that are in the best interests of the students, staff and taxpayers. A trustee should help to create an atmosphere of openess, honesty, and fiscal responsibility and I feel that a great deal of progress has been made in these areas in the last three years. Many positives things are happening at RISD and I am looking forward to the opportunity to serve as a trustee for another term."

Ninth Annual Polo On The Prairie At Musselman Bros. Lazy 3 Ranch In Albany On Saturday, April 22

Houston-Aunique West Texas fundraiser has been recognized as one of the best special events in a five-state area.

Polo on the Prairie, an annual event benefiting The University of Texas M.D. Anderson Cancer Center in Houston, has received an Award of Excellence from the Council for the Advancement and Support of Education (CASE), a professional educational organization dedicated to helping organizations with all aspects of their advancement activities.

The CASE awards represent the finest in communications and fundraising activities in Texas, New Mexico, Oklahoma, Louisiana and Arkansas. Polo on the Prairie was recognized among nearly 100 entries in the Development Projects and Special Events category.

Julie Goudie and Jane Fuller, staff coordinators of the event, accepted the award on behalf of M.D. Anderson and the Polo volunteer committee during the District IV CASE conference in Fort Worth April 3rd.

"We are very proud of this award because it is an acknowledgement of all the lard work and dedication that goes into making Polo possible each year," noted Mary Anne McCloud, co-chair of the event. "Since our first polo match in 1987, we have been able to fulfill needs in patient care, research and outreach programs at M.D. Anderson and hosted more than 8,000

"This event not only funds important cancer programs, but also helps to increase the awareness of M.D. Anderson in West Texas," added McCloud. "The West Texas community get: involved each year, but M.D. Anderson is also vell represented by a group of physicians and researchers who make the annual trip from

In 198C, Henry Musselman, a native of Albany and an amateur polo player, had a dream to build a regulation polo field on his ranch, where a special match would be played each year to benefit the cancer center. He shared his vision with his mother-in-law, Mary Anne McCloud, and, together they began working to make the dream a

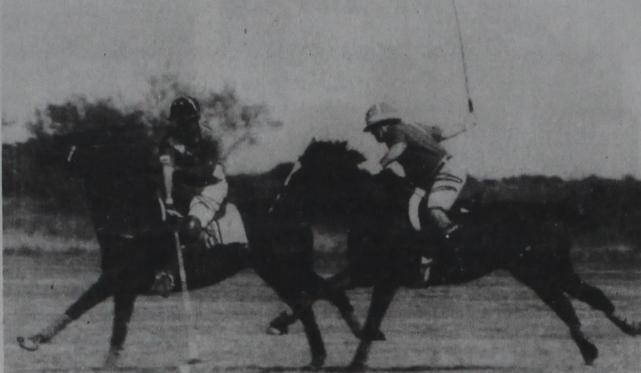

In April 1986, after spending over five years sowing coastal Bermuda onto a dry prairie roughly the size of nine football fields, friends from the area were invited to come and observe a polo match for fun. This "trial run" attracted players from

several Texas cities and a group of Polo enthusiasts from as far away as London, England. And, the tradition of Polo on the Prairie was born.

The 9th Annual Polo on the Prairie will once again take place on the Musselman Brothers Lazy 3 Ranch in Albany, Texas, on Saturday, April 22. The pen. McCloud of Eastland and Musselman of Midland spearhead the planning efforts as members of The University Cancer Foundation Board of Visitors, a group of community leaders who assist M.D. Anderson with private fundraising and community awareness

programs. To receive additional information about Polo on the Prairie, call M.D. Anderson's Development Office, 1-800-525-5841.

The Quick and The Dead To Show At Majestic

"The Quick and the Dead," a new TriStar western, has a collection of gunslingers. But one interesting thing about this movie is that the major gunslinger is a woman, Ellen, played by Sharon Stone.

She's a mysterious young woman who rides into Redemption, with a six-gun strapped to her hip and revenge burning in her heart. She's come to kill the ruler of this town, the man who made her life as desolate as the desert she's just ridden

ATriStar Pictures presentation, "The Quick and the Dead" also stars popular Australian actor Russell Crowe and Academy Award nominee Leonardo DiCaprio.

The picture is rated R, obviously because of realism and violence. It will begin at the Majestic at 7:30 p.m. Friday, April 21, and show at the same time nightly through Monday, April 24.

Admission will be \$3.50 at the box office, with balcony seats available at \$5 to persons over 21.

"We've tried to make a straight-forward, fastpaced action film," Director Raimi says. "Our goal is to entertain. It's a tale of Old West, but with a female protagonist. That's what primarily intrigued nons which cause volem

Hints For Healthy Parenting

Are you a hurried parent who could benefit from hints on how to build confidence in our children? If so, read on. The parenting tips that follow provide a fresh perspective, an opportunity to build on your own positive parenting skills so that when difficult issues arise, you already have a strong foundation to build

1. Be Positive: Look for ways to give compliments, give hugs, and remember to laugh with your child.

Child's Strong Points: Praise special, unique traits in your child, help your child understand that nobody's perfect and that's OK and help your child understand that everyone is good at something and not so good at other things.

3. Give Your Time: As parents, you are all probably short on time and may feel overwhelmed with all your responsibilities. However, it's important for you to know that the best gift is to give your child regular, undivided attention. Also, if you are

Businesses Can Now Apply For Economic Injury Disaster Loans

By M. Davy Vestal County Extension Agent-Ag

Businesses depending on farmers and ranchers in Brown, Callahan, Coleman, Eastland, Jones. Shackelford and Taylor Counties can now apply for low interest. Economic Injury Disaster Loans from the U.S. Small Business Administration (SBA). These loans are available to help businesses meet normal operating expenses that cannot be met due to the effects of a disaster. Tornadoes, excessive rain and

experiencing guilt, you need to work through that 2. Emphasize Your and work on specific times to be with your children. You could begin by scheduling monthly "dates" together.

hail which occurred on May 29, 1994 caused many farmers and ranchers to experience reduced incomes which may have had an adverse economic

effect on businesses depending upon these producers. Farmers and ranchers are not eligible for this loan program but may be eligible for disaster assistance through other Federal agencies.

To obtain an application or receive additional information, interested business owners may call the SBA toll-free at 1-800-366-6303 or TDD 817-267-4688 for the hearing impaired. The deadline for filing applications is September 11, 1995. Due to the tornadoes,

excessive rain and hail, many producers experienced crop losses and were notable to purchase goods and services at normal levels. Businesses that are dependent upon these producers may have experienced decreased sales, reduced gross profit margins, increased accounts receivable or difficulty in moving inventories at normal levels. To the extent these problems have caused the business difficulty in meeting its normal obligations, these loans may be of assistance. The loan can help a

business meet installments on long-term debt, accounts payable and overhead expenses that would have been met had the disaster not occurred Refinancing of long-term debt, however, is not eligible under this program. The loan is designed for those businesses with substantial disaster-related needs and is intended to supplement monies the business owner can provide from

Loans may be approved for up to \$1,500,000 for actual disaster-related financial needs of the business. Interest rates are four percent (4%) and terms may extend to thirty (30) years, depending upon the repayment ability of the individual applicant. To qualify, businesses must be small by SBA's size standard. Businesses which can meet their financial needs through other sources are not eligible.

AUSTIN - The Texas House approved a bill that would retool the state's welfare system and establish

alimony Rep. Harvey Hilderbran, R-Kerrville, said his bill creates time limits, requires responsibility in work and clamps down on benefits for those who have children out of wedlock while on welfare.

State Comptroller John Sharp praised Hilderbran's bill, saying the measure would "free Texas taxpayers from the upward spiral of public assistance costs and needy Texans from the downward cycle of dependency." Sharp's office helped develop the legislation.

Hilderbran's bill would: Require welfare recipients to

Scn. Judith Zaffirini, D-Laredo, sponsor of the companion bill, said she would not object if an alimony amendment were added to the bill. Alimony bills have gained Senate approval during each of the past five legislative sessions, but each has failed in the House.

In the House bill, courts would be allowed to order payments to either spouse in a divorce case, provided they were married at least 10 years and the spouse seeking payments lacked the means to meet minimum needs.

Making Deadbeats Pay

The importance of being carnest about parental duties rose again in bills sponsored by Scn. Chris Harris, R-Arlington, which passed without debate in the Senate last

The bills would apply to a parent who is at least 90 days behind in paying child support, and who has failed to make good on past-due support under a payment plan, he

Judges presently only have the authority to jail non-paying parents, and this bill gives them an option, Harris added.

Drug Board Belly-Up State legislators last week recommended dissolving the Texas Commission on Drug and Alcohol Abuse due to "gross mismanagement, waste and possible theft" of public funds.

Members of the House and Senate Investigative Committees voted 9-0 for receivership after Col. James Wilson, director of the Department of Public Safety told them that conditions at the agency warrant the move.

The agency which funds hundreds of local drug and alcohol treatment providers serves more than 61,000 Texans, employs 271 people and has an annual budget of about \$186 million.

In a letter to Gov. George W. Bush, Wilson noted an "absence of fiscal and management controls" in the agency and that audits of 23 treatment providers reveal widespread noncompliance with TCADA contracts.

The next step takes place this week, when the Legislative Audit Committee votes on the recommendation. If the committee votes in fa-

vor of receivership, the recommendation would be sent on to Gov.

Bush for approval. **Budget Shuffling Begins**

House and Senate members put their heads together last week, beginning the work in conference committee to find common ground on a state appropriations bill for

The Senate-approved version of the state budget, totaling \$80.2 billion, would pump more money into education and welfare, while the House's more conservative spending bill would come to \$77.6 billion and dedicate more funding

Bush Snaps Back at EPA If there was ever any doubt of Gov. Bush's belief that Texas can do a better job of regulating itself than the federal government, it was crascd last week.

Bush didn't take kindly to an EPA official's unsolicited comment regarding Texas' vehicle emissions testing program.

When Mary Nichols, the Environmental Protection Agency's assistant administrator for air and radiation, sent him a letter warning that an emissions-testing bill pending in the state Senate would not meet federal law, the governor fired back a letter saying it was "uncalled for and totally inappropriate ... for a federal agency to inject itself into our state legislative debate." Other Highlights

■ The Senate approved a bill allowing doctors and dentists to make credit contracts with patients and charge up to 18 percent interest. The bill by Sen. Frank Madla, D-San Antonio, has moved to the House for consideration.

A bill requiring state health officials to notify, with or without consent, the partner of a person with the AIDS virus, has been tentatively approved by the House. The measure is by Rep. Paul Sadler, D-Henderson.

Compound Your Earnings With Dividend Reinvestment

Albert Einstein once observed that the most powerful force is not atomic energy but the compounding money. Compounding occurs when investors put the interest and dividends earned on investments back into their investments. This technique allows investments to grow more quickly than if investors were to take their earnings in cash.

Compounding is familiar to many mutual fund shareholders, who often take advantage of a mutual fund service called automatic reinvestment. With this service, the mutual fund uses a fund's dividends and capital gains to purchase more fund shares for the investor's account. In essence, investors begin earning dividends and capital gains on top of dividends and capital gains.

However, many people who own common stock are unaware that they, too, can put the power of compounding to work through automatic reinvestment. Typically, these investors simply pocket their quarterly dividend checks. What they may not know is that many publicly owned companies offer plans that allow shareholders to reinvest their dividends into additional shares of stock.

These plans are usually easy to join, requiring only the share-holder's approval. Investors typically must own at least one share of a company's stock to participate in dividend reinvestment, and some companies may charge a small fee for this service.

To illustrate how dividend reinvestment works, suppose you are due a \$100 dividend on stock that you own. Rather than sending

you a check, the company will use your dividend to purchase additional shares. To compute how many shares your dividend can buy, the company uses the average trading price of your stock on the dividend pay date. In this example, assume the average price is 10.1250. With dividend reinvestment, your dividend would be used to add 9.8765 shares to your account (\$100 divided by 10.1250). This is all handled automat-

It's not uncommon for individuals who reinvest dividends for years to accumulate more shares through reinvestment than they originally purchased. Not only is dividend reinvestment a great way to compound your investment, it's also a means of dollar-cost averaging. Put simply, dollar-cost averaging is regularly investing the same amount of money in a stock or mutual fund. In this way, investors continuously build their investment while averaging out the ups and downs in the price of a stock or mutual fund.

ically by the company.

If dividend reinvestment interests you, first select a stock that you would like to own for a long time. Make sure the company has a favorable history of dividend payments and find out if it offers dividend reinvestment. After you've made your purchase, call the company and ask for its dividend reinvestment package. Usually a simple application will start you on

Remember, however, that even though you don't receive your dividends in cash, you still owe income tax on them. Be sure to keep accurate records of dividends reinvested. This will become part of your cost basis and is not taxed if you eventually sell your shares.

Reinvesting your mutual fund and stock earnings: You don't have to be Einstein to see how this basic technique can help compound the value of your financial future.

drama in the nation.

Where can you find years ago, and its sopuexplosive entertainment, song, dance, and a romantic tale of the real Old West? It's all in "TEXAS," the musical drama played nightly except Sunday each summer under the stars in the Palo Duro Canyon State Park near Amarillo and Canyon, Texas.

"TEXAS" turns 30 years old in 1995, and exciting new additions to the show promise to dazzle even the most faithful audience members. From June 7 through August 19, new special effects, choreography, costumes, and fireworks will highlight this anniversary bash.

According to Director Neil Hess, "even though the basic script never changes, it's important to keep the show fresh for our repeat visitors and thrilling to first timers. I'm most excited about changes planned in both overtures. We're re-mixing music for these scenes, which will have a multicultural flavor. Colorful new costumes will portray the vast contributions Hispanic and Native American settlers made to the Panhandle area."

Other exciting additions include a new artificial oak tree that will now this prize since the show's burn when lightning crashes into it during the famous "TEXAS" storm scene, a new church for the dream scene, and spectacular new banners that will add colorful action both in front of the theatre and in the show. Finally, the already natural beauty of the breathtaking fireworks finale will be expanded each night adding to the anniversary celebration.

Showtime is 8:30 p.m., time to sit back and enjoy what has become an internationally acclaimed musical drama. It all begins with the stirring sounds of a long bugle from high atop the canyon wall. Nature slowly brings down the lights. Two horsemen, bearing American and Texas flags, appear on the canyon rim, then a cast of 80 performers bring "TEXAS" to life onstage beneath a towering 600 foot canyon wall.

For the next two and a half hours, spellbound visitors watch as cowboys ride the range, Indians leap from rocks, and magnificent song and dance fill the stage. This western tale pits farmer against rancher. Gun shots ring out as the conflict builds and the fight for progress moves steadily forward with the approaching railroad. Mother Nature's temper and romantic young love add spice to this story of bravery and determination set in the late 1800's.

State of the art technical effects make it all possible. Spectators are riveted when a prairie fire leaps onto the stage and a stimulated thunderstorm sends them searching under their seats for umbrellas. Light and sound combine again when a roaring locomotive appears headed straight for the audience. Later, thousands of star strobes sparkle against the colorful canyon walls as horses and riders gallop across the canyon floor proudly carrying the six flags that have flown over Texas.
