## Local 4-H Boys Receive Checks

Checks in the amount of \$3,439.90 have been mailed to 4-H Club boys for wool and mohair they sold at the Fourth Annual Sonora 4-H Wool and Mohair Show. Forty-four boys representing nine West Texas counties entered wool or mohair in the show. Over 7,400 pounds of wool and mohair were sold at the show.

Boys of Sutton County carried off \$433.80 besides seventy-two dollars in premiums that had been paid them earlier. Local boys participating in the sale were: Eugene and Jerry Shurley, O. L., Jr., and Glen Richardson, Billy Shurley, Gene Alley, and Wilfred Berger. Sol Miers purchased the wool at the auction, and Louie Regland of Junction bought the mohair.

## RETURNS HOME

## Two Car Loads Of Material For Power Plant Delivered

EXPECT TILE TO BE DELIVERED SHORTLY

More materials for the new Municipal Light and Power Plant arrived this week, and work on the project is proceeding on schedule.

The Universal Electric Construction Company received a car load of power poles Tuesday. The consignment will give the company more than enough poles to complete the distribution system, and the extra poles will be sold to the city to be used as replacements or additions to the distribution system.

A car load, 30,000 pounds, of steel to be used in the power plant building was received by the city Wednesday from the Brandt Iron Works in San Antonio. This steel, intended for framework and beams for the building, is all the metal needed for the building with the exception of the window frames, delivery of which has not yet been made.

Delivery of a load of tile for the plant is expected within the next ten days. The foundations for the building having been completed, construction will begin as soon as the tile arrives.

This week the city laborers under the supervision of Alvin Morris are completing foundations for the large fuel storage tank and the three smaller "day tanks."

## SONORA ENTRIES TAKE FIVE FIRSTS AT JUNCTION

Sonora entries in the races in Junction last Thursday, Friday, and Saturday carried away five first places.

## Broncos' Prospects Reported Good For Fall Season

### SONORA ELEVEN FACES "TOUGH" GAME SCHEDULE

The Broncos, Sonora High School football team, are facing a hard schedule this fall, but their prospects are said to be good. Having lost only five players of last year's team, the team has some new boys who are expected to fill the vacancies nicely. Members of the 1940 team who graduated last spring are Buster Shroyer, O. L. Richardson, Jr., Eugene Neuberger, Odell Odom, and Dub Johnson.

Mentioned as good possibilities for the '41 team are Roy Cooper, Raymond Shroyer, Louie Andrews, Richard Boughton, Clyde Henderson, and Raleigh Gully. None of these boys played last fall.

Albert A. Murray, who has coached the Broncos the last two seasons, is now attending the A. & M. Coaching Schools at College Station, will return this month to attend the teachers' conferences and begin fall training.

Fourth on the Broncos' schedule

are the Eldorado Eagles, champions last year of this district and region. Always a good team to watch, the Eagles are reported to have good prospects this year in spite of the loss of Squibb Carruthers who has coached the Eldorado boys through many a successful season. Carruthers will be replaced by Joe Hext, formerly player at Howard Payne.

The Eldorado game, scheduled for the afternoon of October 4, may possibly be played at night if arrangements can be made for the use of portable lighting equipment and if agreement can be made with the Eldorado team.

The Broncos have not met Bronte, first on the '41 schedule, since the season of 1939 when the local boys shaded the Bronte team by 3-0.

The Ozona Lions, traditional rivals of the Broncos, are planning to have a pre-school training camp for a week or ten days.

The Rocksprings team will be coached this year by Roy White, formerly college and professional football player, who has had some experience in coaching college teams.

It's a tough schedule.

## Four Teachers Elected To Sonora School Faculties

TWO MORE RESIGNATIONS LEAVE FOUR VACANCIES

Resignations of two more teachers of the Sonora Public Schools were received this week by Noble Prentice, and four vacancies in the faculties of the schools have been filled.

Miss Helen Jones has resigned her position here to teach in the public schools of Texas City. Mr. Montgomery, instructor last year in the elementary school, has gone to Corsicana where both he and Mrs. Montgomery will teach in the Corsicana State Home.

Although he has not yet signed a contract, Roland G. Howell of Breckenridge has promised Mr. Prentice to take the position of band instructor and bookkeeping teacher in the high school. Mr. Howell, a graduate of Breckenridge High School and Abilene Christian College, taught last year in the Cross Plains schools. Howell has been a band member for nine years, a band instructor for one year.

Miss Lealyne Noble, native of Waco, has been elected instructor in speech and commerce in the high school. Miss Noble, graduate of Waco High School and Baylor University, taught last year in the schools of East Bernard.

The principal of the Elementary School has not yet been elected, but Mr. Prentice stated that the vacancy would probably be filled before Friday.

Instructor last year at Richland Springs, Miss Alene Turley will teach in the L. W. Elliott School this year. Miss Turley is a graduate of Howard Payne College. Miss Elizabeth Cranford of San Angelo will also be instructor in the L. W. Elliott school.

The principal of the L. W. Elliott School and two of the instructors for that school have yet to be selected.

## SCHOOL BOARD TO MEET

The Sonora School Board will meet in regular monthly session at the high school on the evening of Thursday, August 28, at 8:00. At this meeting a public budget hearing will be held, and the school budget for the school year 1941-42 will be adopted.

## Funeral Services Held For Mrs. Kirkland Tuesday

Mrs. Clara Kirkland, 78, pioneer Sutton County resident and operator of a ranch 20 miles south of here, died at her home at 8:15 Saturday evening. She had been seriously ill for about two weeks.

Funeral services were held Monday at the residence at 3:00 o'clock. Rev. L. K. Brown of the Sonora Methodist Church officiated. Mrs. Kirkland had assumed active management of her well-stocked ranch when her husband died in 1935. She had no immediate relatives.

A native of Blanco County, Mrs. Kirkland was a daughter of a native German who lived to be nearly 100 years old. The father came to Texas in 1848 from Germany and settled on a farm in Blanco County. She was born there on February 12, 1863 and was married to E. M. Kirkland 56 years ago. They lived for 13 years on Copperas Creek before coming to Sutton County in 1903.

Pallbearers were B. W. Hutcherson, J. D. Lowrey, L. W. Elliott, Alvis Johnson, Paul Turney, Ben L. Wheat, Dan Cauthorn and Tom Sandherr.

Interment was held in the Sonora Cemetery.

## SCYMALEEN ISAACS

Mr. and Mrs. Harold Isaacs are the parents of a daughter born August 10, in a San Angelo hospital. The baby has been named Scymaleen. Mr. and Mrs. J. F. Isaacs of Eldorado and Mr. and Mrs. H. P. Largent are grandparents and Mrs. Lucy Plevans of McCamey and Mrs. A. L. Isaacs of Eldorado are great grandmothers. The mother and baby are doing nicely.

## Non-Permit Trucks Reported Operating In Sonora Section

"Hot trucks are operating in this section. Ranchers who ship their livestock on "hot," or non-permit trucks make themselves liable for suit.

All trucks hauling for hire are required by law to obtain permits from the State Railroad Commission. Trucks operated without such licenses are termed "hot."

Sid E. Caskey, inspector for the State Railroad Commission, reports that he has received notice from state headquarters that trucks not licensed by the Railroad Commission are operating in this section. Inspector Caskey was in Sonora Friday checking on the local truckers and making an effort to warn ranchers of the risk of doing business with unlicensed freighters.

All the local truck operators, whose rate cards are posted in Sonora, are permit operators, Mr. Caskey stated.

"Hot" truck operators are usually itinerants who offer to haul freight—in this instance, livestock—at cut-throat rates. But doing business with such an operator is not good business.

If the truck should have an accident, the shipper is jointly liable with the trucker for suit, Mr. Caskey stated. The shipper also makes himself liable for a \$200 fine for shipping with an unlicensed operator.

Caskey related an incident that happened at Granbury, Texas, a few weeks ago. A rancher there shipped a load of livestock to San Antonio by a non-permit operator, he said. En route to San Antonio the truck ran over and killed two young boys. Suit has been filed against the trucker and the rancher jointly. The rancher, of course, will have to bear the entire expense of the suit.

It is advisable, Mr. Caskey said, to do business with freighters of established reputations who are known to be licensed by the Railroad Commission. Doing business with itinerant, non-permit truckers is a "bad risk."

## LIGHTFOOTS TO AMERICAN LEGION CONFERENCE

Mr. and Mrs. Gene Lightfoot represented Sonora at the State Convention of the American Legion of American Legion Auxiliaries in Fort Worth which was held over the week-end. Mr. and Mrs. Lightfoot attended Saturday and Sunday an returned home late Monday evening.

Headquarters for the American Legion was in the Texas Hotel and for the Auxiliary in the Blackstone Hotel.

Officers were elected and lectures were given.

Mr. and Mrs. Lightfoot were accompanied by their son, Jimmy.

## County Receives Credit For 16 Men Other Than Draftees

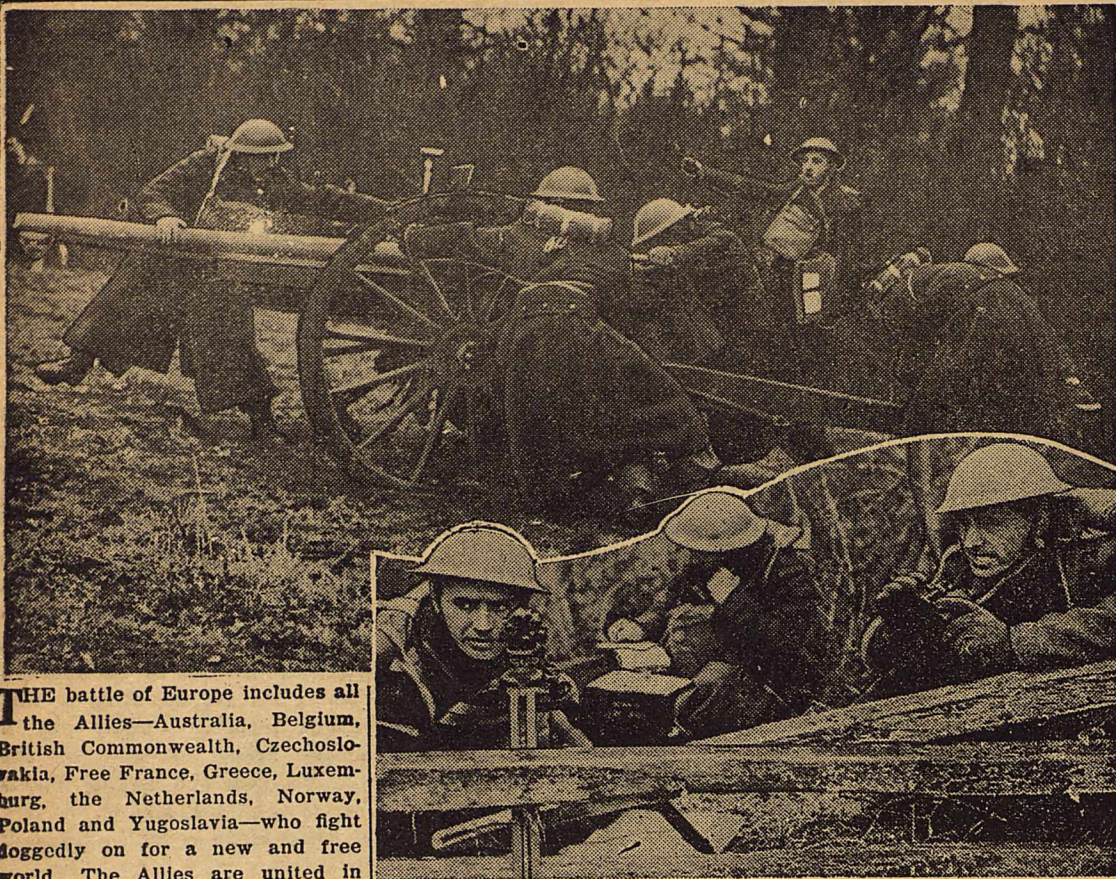

The local draft board has received notice that all Sutton County men serving in the armed forces of the United States are credited to the county's quota of draftees, even though the men were not inducted through the draft board here.

Sixteen Sutton County men, other than draftees, are now serving in the army, navy, and marine corps as volunteers, reserve officers, or cadets. They are: DeWitt Blanton, Jessie Kring, Jr., Roland Earl McWilliams, Lea Roy Aldwell, John Lewis Barnes, Hollis Brickner, David Guerrero Ramirez, Savell Lee Sharp, Roy Putnam Ward, John William Hull, and Thomas Blanton Thorp of the army; Lloyd Howard McGhee and Sidney Stephenson of the navy, and Frank Swallow, John Frederick Nichols, Jr. of the Marine Corps.

Mrs. B. W. Hutcherson, James Ed, Nonie and Rex returned Monday night from a two-week's tour through the northern states and Canada. They visited Mrs. Hutcherson's sister in Seattle, Wash.

## Fighting for a New Europe

THE battle of Europe includes all the Allies—Australia, Belgium, British Commonwealth, Czechoslovakia, Free France, Greece, Luxembourg, the Netherlands, Norway, Poland and Yugoslavia—who fight doggedly on for a new and free world. The Allies are united in their effort, a struggle to which their energies, their lives and their liberties are devoted.

A Czechoslovak gunner crew (at top) and an observation unit are shown in action somewhere in England. Their grim tenseness shows their determination... there will again be a Free Europe.

Mr. and Mrs. Jimmy Nunley left Monday for Sandusky, O., where they will make their home. Mr. Nunley is going to work on a defense job.

Mr. and Mrs. Harold West Evans, and Miss Mable Barnum of Ingram, who is visiting Mr. and Mrs. Evans, were visitors in Piedras Negras last week.

Mr. and Mrs. O. K. Rankhorn and children of Robstown are visiting Mr. and Mrs. O. V. Rankhorn. Betty Jean Rankhorn, who had been visiting them, returned home.

Mrs. Mary Evans and Mrs. Ban Odom were in San Angelo, Saturday. Mrs. Evans is visiting her sister, Mrs. Lem Johnson.

Mrs. Lum Hines is visiting her parents, Mr. and Mrs. R. A. Halbert. Lt. and Mrs. Hines are stationed in Georgia.

Miss Libby Jo Wallace returned to Marshall with Miss Jean Harkrider for a week's visit.

Billy and Homer Ackins of Dallas are visiting in the home of Mr. and Mrs. H. L. Taylor.

Mrs. Edna Wheat Bean of Pipe Creek is visiting her sister, Mrs. Ed Mayfield.

Mr. and Mrs. S. Whitsett of Seguin paid a short visit to Clay Atchison Saturday evening.

## Good Manners On The Highway Important, Too

Would you fight another guest for a seat at a party? Would you push the person ahead of you at a wedding reception? Would you shout at a woman to get out of your way on a dance floor?

Of course you wouldn't. Your manners are better than that. And the Texas Safety Association says if you were just as courteous on the highway, there would be a lot fewer accidents.

Here are six ways to show motor manners:

1. When some driver insists on the right-of-way, let him have it.

All these new taxes are making 2. Watch out for the driver who tries to beat the traffic light. Let him risk his life to save a few seconds, but don't risk yours.

3. When a driver passes on a hill, or misjudges the distance ahead, slow down and let him get back in line.

4. If a driver behind is over-anxious to get around you, pull over and let him pass before he takes a chance and involves you in an accident, too.

5. At night, dim your lights for approaching cars.

6. Don't expect the right thing from the other fellow. Always give him a break, even when he's wrong. You dig pretty deeply into your pocket, aren't they? But you pay them willingly because they are

## Personals

Mr. and Mrs. C. A. Tyler had as their guests last week Mrs. J. M. Lee of Hugo, Oklahoma, and J. F. Welch and son, Frank, of Sherman. Mr. Lee will spend several weeks. Mr. Welch and Mrs. Lee are a brother and sister of Mrs. Tyler.

Mr. and Mrs. George Barrow and children and Lavelle Meckel spent the week-end in San Antonio.

for a good cause—defense of our American way of life from an aggressor.

But do you know what accidents cost the people of the United States, even in peacetime? And the money isn't spent for a cause... every cent of it is wasted. Here is our accident tax bill for last year, as announced by the Texas Safety Commission:

- \$113 per second!
- \$9,500,000 per day.
- \$3,500,000,000 for the year!

Can you afford to pay your share of this tax bill?

Mr. and Mrs. A. F. Kasper has had as their guests, Mr. and Mrs. J. C. Kasper of San Antonio, who spent a week with them. Also visiting the Kaspers were Misses Mary Louise and Imogene Leifeste of Mason.

Mr. and Mrs. Hubert Fields have returned after a two weeks vacation. They visited Mr. and Mrs. J. R. Fields and were accompanied by them to Arkansas, where they visited in Fayetteville and Hot Springs.

## "ASK US ANOTHER"

## COME ON

...try your hand at this electric quiz

Q. How much out of each dollar of living expense does the average West Texas family spend for Electric Service?

A. In most homes less than two cents. This not only lights the house—it also runs the appliances. Washes and irons clothes, cleans the rugs, runs the radio and the refrigerator, toasts the bread, etc. The average family in this country spends about 21 times as much for food as for electricity; 11 times as much for housing; 8 times as much for clothing; and 5 times as much for transportation.

Q. Mrs. Jones says that household electric rates have been cut about in half during the last 10-15 years. Mrs. Smith says they are about the same as they used to be. Who is right?

A. Mrs. Jones is right. Your electric rate today is about half as much as it was just a few years ago. Today you get about twice as much electricity for the same money.

Q. What has made reduction in electric rates possible?

A. The American way of business operation of Your Electric Servant. Just as business operation of automobile factories has succeeded in giving us today a better automobile for less money than 10-15 years ago, so has business operation of this company succeeded in bringing better service to more and more people at less and less cost.

Q. What do we mean by "business operation?"

A. Business Operation means employment of men and women trained and experienced in rendering service free from the influence of political control. Our organization of more than 1,000 people average around 10 years of experience with this company alone. Department heads, providing leadership and guidance in all work, have been with the company from 15 to 25 years. The training of all has been centered on serving YOU better at lower cost. They are not dependent on political votes to hold their jobs.

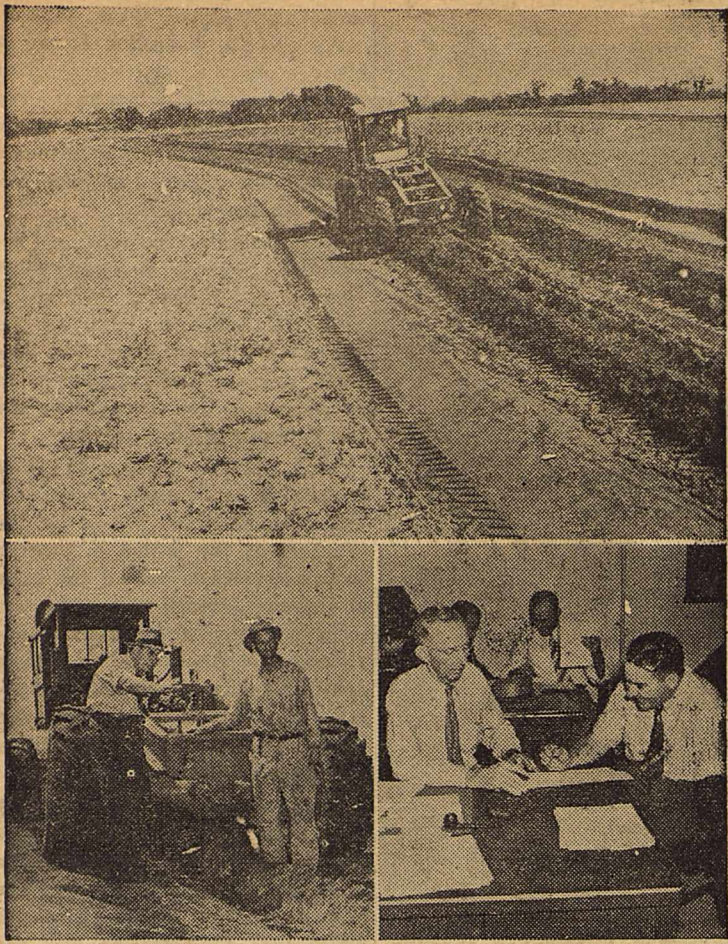

Letters from the People:

... "Today a fully equipped electric home may be enjoyed on a modest budget. Our home now uses two and a half times as much service as we used to, for which we pay considerably less money. Thanks to the West Texas Utilities for better-than-ever service and for the taxes you pay and the jobs you create."

**SUMMARY: This Week In Defense**

President Roosevelt and Britain's Prime Minister Churchill held a series of secret conferences at sea and jointly issued a declaration of national politics calling for:

No territorial "aggrandizement," no territorial changes not in accord with the will of the people concerned, right of all peoples to choose their form of government, equal access to the raw materials of the world needed for prosperity, international cooperation for improved living standards, safety to all nations within their own borders from fear and want, freedom of the seas, disarmament and other measures to lighten "the crushing burden" of armaments.

Assistant Secretary of State Berle, speaking in Washington, said "it is the plan of this Government, when the tides of barbarity shall be rolled back, to turn the full measure of its economic strength to bringing help, relief and sustenance to the many countries now cold and hungry."

**PRODUCTION—**

OPM Director Knudsen, speaking in New York, said that by next July defense production will be at its peak and "after that America can write its own ticket on war material and it can be twice anybody else's ticket." To do this, however, small communities and manufacturers must be willing to band together to seek defense work, he said.

William Batt, deputy production director, speaking in New York, said the Government and large corporations are more anxious to give work to small contractors now than a few months ago because of the great pressure of work today.

**AGRICULTURE—**

Agriculture Secretary Wickard

announced there is no prospect of food rationing in "the foreseeable future" although the nation may have to depend more on some foods than others. He said there are 17 per cent more cattle on feed for market in the 11 cornbelt states than a year ago and the corn crop will exceed last year's by nearly 150,000,000 bushels.

In a letter to Mr. Wickard, the President said "increases in the production of vital foods and feeds is reassuring because food is a weapon against Hitlerism just as much as munitions . . ."

The CCC agreed to furlough enrollees so they might help harvest where labor shortages exist. The work would be voluntary and the enrollees would receive the prevailing wage. Congress passed a measure forbidding the Government to dispose of any cotton or wheat now in its bins except for domestic and foreign relief, export or lease-lend aid. The bill also permits farmers to use excess wheat for food or feed without penalty and extends 85 per cent parity loans to peanut growers.

**AIR—**

The OPM announced 1,460 military planes were produced in July. War Under Secretary Patterson, dedicating a new plane factory, said the monthly output of combat planes increased 114 per cent in the last nine months and production of other military planes increased 105 per cent. Speaking at the same ceremonies, Chief of Army Air Corps Grett said that American planes abroad have had "great success."

**ARMY—**

Congress approved an 18-month extension of service for selectees, reserve officers and National Guardsmen and voted to increase by \$10 the monthly basic pay of all except officers after the first year of service.

The Senate committee investigating the defense program issued a report stating that costs of the Army's \$1,000,000,000 camp construction program were "unduly and unnecessarily high" because of lack of planning. War Under Secretary Patterson replied that despite cold weather, labor and material shortages and other "almost insurmountable difficulties" the camps were ready before the time set for troop arrival and the American Army "is now the best housed Army in the world."

**ECONOMIC DEFENSE—**

The Economics Defense Board, composed of Vice-President Wallace and ranking Cabinet officers, met for the first time and outlined two undisclosed projects to coordinate and strengthen the nation's economic defense. The National Resources Planning Board issued a booklet, "After Defense—What?" calling upon public and private agencies to start immediate planning to prevent chaos after the emergency. The Board stated that if adequate post-defense employment plans were not ready and another depression allowed to set in, the nation could lose everything it is now striving to defend.

**LABOR—**

A WPA survey showed unemployment declined 300,000 in July to 5,600,000—nearly 4,000,000 less than last July. The Bureau of Employment Security reported job placements of persons under 21 years increased 78 per cent in the past year. The Bureau also reported placements of Negroes are 47 per cent higher than six months ago. The Committee on Fair Employment Practice announced Army, Navy and Maritime Commission contracts now contain clauses prohibiting hiring discrimination because of race, creed, color or national origin.

The War Department announced defense strikes increased from 24 involving 14,000 workers last week, to 28 strikes involving 21,700 men as of August 15. The U. S. Conciliation Service settled 26 disputes. Acting Navy Secretary Bard said the strikes at the Federal Shipbuilding Company, Kearny, N. J., causes a daily loss of more than 200,000 man-hours of work on vitally needed combat ships.

The President suspended the eight-hour day for mechanics and laborers of the War Department working on airfields, troop housing and similar projects in order to rush completion.

**PRICES AND PRIORITIES—**

The OPACS set ceiling prices three and one-half cents a pound in raw sugar, duty paid at New York, three-tenths of a cent under August 11 prices, and advised consumers not to pay more than present retail prices, and advised consumers not to pay more than present retail prices under any circumstances. Ceiling prices on ray-

on will be set shortly, the agency said.

OPM placed steel under full priority control, asked all pig-iron producers to set aside two per cent of September out-put, and prohibited further manufacture of white wall auto tires to conserve rubber and zinc.

**INFLATION CONTROL—**

The President gave the Governors of the Federal Reserve System control over installment buying to prevent a volume of easy credit to consumers so large it would cause inflation by increasing the demand for goods at a time the supply is growing less. The Governors an-

nounced regulations regarding down-payments, length of loans and types of credit would restrict installment buying of autos, refrigerators, washing machines, vacuum cleaners and other durable goods but would not affect charge accounts at grocery and department stores.

**OIL—**

Defense Petroleum Coordinator Ickes said the first full week of the 7-to-7 "curfew" for 100,000 East coast gas stations showed virtually 100 per cent cooperation with little employment loss but sales in the Eastern States were 13 per cent higher than this time

last year. He said "rigid steps" will have to be taken to restrict gasoline sales.

**LICENSE PLATE METAL—**

The OPACS requested State motor vehicle officials to require motorists to hand in their 1941 license plates when they get 1942 tags. The OPACS arranged for metal for the new tags because time was too short to seek substitutes but stated no sheet steel would be available for 1943 tags.

## I Give You TEXAS

More about a boyhood hero, William Jennings Bryan.

Bryan's contribution to the cause of religion was immeasurable. He assailed Bob Ingersoll, the agnostic, for "the cold and cheerless doctrine, 'I don't know.'" And to the question, "If a man die, shall he live again?" Bryan made answer:

"Christ gave us proof of immortality—and yet it would hardly seem necessary that one should rise from the dead to prove that the grave is not the end. To every created thing, God has given a tongue that proclaims a future life.

"If He touches the cold and pulseless heart of the buried acorn and causes it to burst forth from its prison walls, will He leave neglected the earth and the soul of men made in the image of His son? If He designs to stoop and whisper to the rosebush, whose withered blossoms float upon the autumn breeze, the sweet assurance of another springtime, will He refuse the words of hope and cheer to the sons of men when the frost of winter comes? If matter, mute inanimate, though changed by the forces of nature into a multitude of forms, can never die, will the spirit of man suffer annihilation after it has paid a brief visit, like a royal guest, to this tenement of clay? No, I am as sure that I shall live again as I am that I live today.

"When I was in Cairo, I secured a few grains of wheat that had slumbered for more than 3,000 years in an Egyptian tomb. As I looked at them, this thought came into my mind: If one of these grains of wheat had been planted on the bank of the Nile the year after it grew and all its lineal descendants had been planted and replanted from that time on, its posterity would feed the teeming millions of the world.

"There is in the grain of wheat an invisible something which has power to discard the body that we see and, from earth and air, fashion a new body so like the old that we cannot tell the one from the other. And if the grain of wheat can thus pass unimpaird through 3,000 resurrections, I shall not doubt that my soul has power to clothe itself in a new body, suited

to its new existence, when this earthly frame has crumbled into dust."

Over Texas: A garage in Dallas advertises, "If it rains before Sunday, we'll re-wash our car free." . . . Although the Legislature passed the biggest tax bill in history, the deficit keeps on growing because appropriations were even higher. The deficit, now \$30,000,000, will be \$52,000,000 in 1943—unless new sources of revenue are found.

When one of us grandchildren visited Grandma and the log cabin, there always was a visit to Uncle Grover's too. Uncle Grover lived three miles away and the sand made walking slow but the trip would have been worthwhile if there had been only the ham that Mrs. Mack served. She was my uncle's mother-in-law and, therefore, strictly speaking, was not related to me but she would have felt deeply hurt if I had visited the county and hadn't had a serving of that ham. (I would have regretted it too.) The ham was sliced thin, cooked until it was almost as crisp as bacon and it had a slightly-sweet flavor. The chow-chow (some benighted people call it piccalilli, I believe) that she made was likewise a work of art. Once, I ate a whole quart jar of it—however, it took me nearly all of one day.

After a day or two at Uncle Grover's, there would come a trip to Piggott, the county seat. First, however, you walked to Greenway. Greenway might have become a great metropolis (like Piggott) if it had been chosen as the county seat. But on the day of the voting, a hog drowned on Greenway's main street and, the news spreading abroad (probably Piggott adherents did the spreading), the voters rejected Greenway. There you boarded the train for Piggott. The fare was only a dime and the distance just three miles and so the young traveler was no more than comfortably seated and hardly had time to buy a souvenir from the news-butcher

## Order Numbers Of July 1 Registrants

Below are the order numbers of the selective service registrants who registered here on July 1, having attained the age of twenty-one between the October registration and the first of July.

Last registrant from Sonora was Felix Martinez, Order No. 91. Leo Brown, draft board clerk, explained that the order numbers of the July registrants started with the eighteenth number after 91, were intergrated with each eighteenth consecutive number.

## Defense Stamps To Be Sold In Retail Stores

Washington, D. C.—Defense Savings Stamps soon will be on sale in retail stores throughout the country.

Secretary Morgenthau announced the extension of Defense Savings Stamps sales to retail outlets everywhere after a meeting at the Treasury Department today (Tuesday, August 12), when executives of associations represent-

ing more than a million stores pledged immediate participation of their members in the Defense Savings Program. Stamps will go on sale very shortly in department stores, grocery, drug, variety, furniture, hardware, and all other types of retail outlets.

I would like to correspond with someone in or near Sonora who needs a piano and could pay as much as \$1.50 per week. To such a person I have a beautiful, small size spinet piano, latest model now stored in your vicinity, that I will sell at a great sacrifice in price rather than haul it back to San Antonio. For full information as to where piano may be seen, write or wire L. R. Keese, Credit Manager, San Antonio Music Company, 316 W. Commerce Street, San Antonio, Texas.

At the meeting the retailers endorsed full participation in "Retailers for Defense" Week, September 15 to 20, when the stores of every state will concentrate their efforts to enlist customers to buy Defense Savings Bonds. Before that time, most stores from coast to coast are expected to have Defense Stamps on sale.

The leaders of the retailers' associations met with Secretary Morgenthau and Treasury officials to project the plan for initiating the nationwide store effort. The Secretary expressed his appreciation of the cooperation extended by the retail organizations, saying:

"The Defense Savings Program is gaining momentum every day. The splendid spirit shown by the retailers of the nation in putting their associations behind the sales of Defense Savings Stamps is sure to have a stimulating effect in advancing the whole program. It is another indication of the American determination to proceed wholeheartedly toward success in our National Defense effort.

"The thanks of the Treasury and of the Government are due the leaders of retail industry and to their member stores all over the nation for the enthusiasm with which they are entering into the plans for 'Retailers for Defense' Week, and for the continuous activity pledged in the sale of Defense Savings Stamps."

Stamps will be sold in the retail stores at convenient points, the representatives of the retail associations explained. Defense Savings posters will be displayed, and store clerks will help to interest customers in the Defense Savings Program.

## Sonora May Boast Another Home Built For Alvin Smithwick

A well landscaped yard surrounds the recently completed home of Mr. and Mrs. Alvin Smithwick. It is of a bungalow type consisting of four rooms and a bath and is painted white on the exterior with brown trimmings.

A very modern living room is the first room that one enters and is hung in pink horizontally-striper paper with a dark pink and gold forming the design. Maroon furnishing adds a very modern touch to the room. Small tables and occasional chairs complete the room.

From the front room, one may enter into the hall or the kitchen. The small halls are covered in a large floral design paper of pink and gold.

In one bedroom, the owners chose a blue and white theme. Light blue paper covers the walls and the bed spread and curtains are blue. Around a small dressing table is hung a dark blue drape with a pink floral design.

The other room is papered with a light cream paper with a small floral design with a green spray carrying out the scheme. Mahogany furniture is used in this bed room.

A blue Dutch scene on a white background is used to paper the bath room. White fixtures and curtains are used.

One of the most attractive rooms in the Smithwick home is the kitchen. A red and white theme is used throughout this room. The paper has a small red house design and the white fixtures are trimmed with red handles. The cabinet work is white with red interiors. A small breakfast nook is part of the kitchen. In this, Mrs. Smithwick has furnished with a white table trimmed in red and red leather chairs.

Shades in this home are of harmonizing colors and the indirect light fixtures add a touch of beauty that one first notices.

**BROADWAY & HOLLYWOOD**

By Lee O. Lyon

It is Lewis Stone, the head of that happy Hardy family, to whom we pause and listen. Lewis Stone has been around Hollywood almost as long as movies have been made. He has had a ringside seat at the passing parade and speaks with authority.

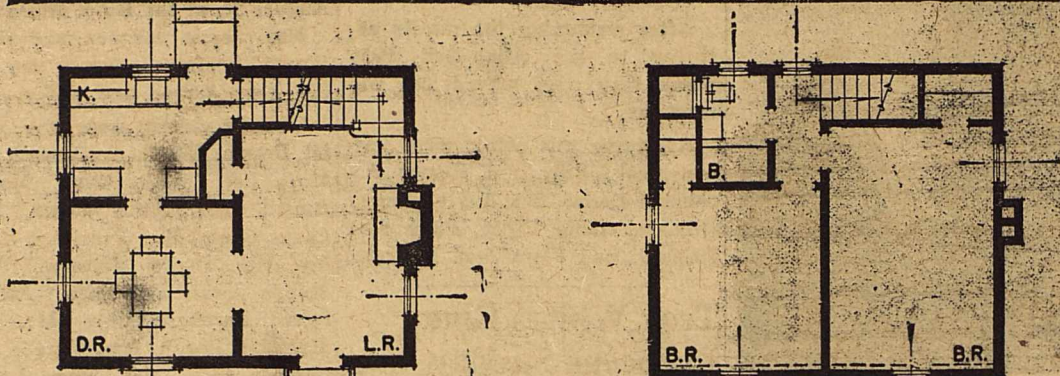

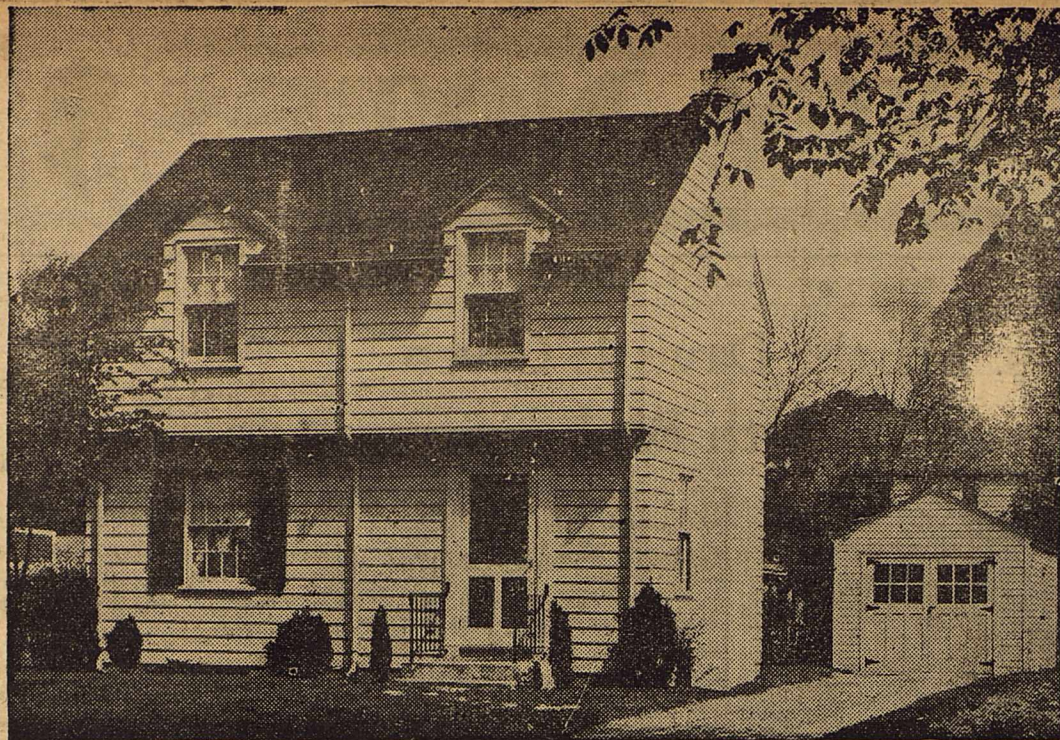

Stone says that Hollywood players are concerned with material things, are not interested in night clubs, gaiety and frivolity. They're hard working people who when not before the cameras are busily engaged into other worthwhile pursuits. Hugh Herbert is president of a Chamber of Commerce. Edward Arnold heads the Screen Actors' Guild and is a leader in other movements. Jean Hersholt busies himself with relief projects. Melvyn Douglas holds a public office. Frank Morgan has a successful business. William Powell is a thriving realtor, and Lewis Stone, himself, heads the Sheriff's Reserves, a group of men who stand ready to help out in any emergency. This ought to convince you, if you have doubts, that Hollywoodians are serious, hard working folk like you and yours truly.

Emlyn Williams has crowded more into his thirty odd years than most men do in a lifetime. He's an actor, a playwright and producer and his versatile talents have made him as well-known in this country as in his native England. He's a good-looking chap, too, as you'll discover, girls, when you see him as a scoundrel in "The Stars Look Down," a picture you'll never much look at. There's a school of thought that insists on romance with its screen stories. "We've Got to Have a Love Story," they cry. Yet how do they account for those two Academy Awards which Spencer Tracy has earned for roles that didn't have the slightest suggestion of boy meets girl?

With treaties and pacts having been torn to shreds by whims, we can't expect the pledge of a beautiful girl to remain single for a specified time to be maintained. When M-G-M chose 12 stunning young ladies from more than 2,000 beauties for roles in "Ziegfeld Girl," these fortunate twelve organized a Ziegfeld Girls Club with each member solemnly pledging she would not wed for a year or longer. Irma Wilson broke the pledge by marrying Ted Baker, head of American Airlines. Then Nina Bissell married a childhood sweetheart. Now Elaine Brandeis and Peter Potter are on the verge. If nations don't mean what they say, why should we, the girls reason. And we can't think of any better reasoning, can you?

Before "The Big Store" was chosen as the new title of the new Marx Brothers comedy, Groucho suggested they call it "The Philadelphia Stars." "Maybe then," he reasoned, "we could get Hepburn for a salesgirl."

**HOLLYWOODATA:** The horse Robert Taylor rides in "Billy the Kid" is his own, he having bought and trained it for movie work. In "Bargain Basement," the Marx Brothers become private detectives who run wild in a department store. Robert Sterling, one of the most promising young leading men, has his most important role in M-G-M's "The Get-Away." This is the film in which Donna Reed, the year's outstanding "find" makes her screen bow.

**FIRST FLOOR PLAN SECOND FLOOR PLAN**

This inexpensive two-story house is well suited to the needs of the average small family. It has a neat and unpretentious appearance. The exterior design is a simple expression of the interior plan. Downstairs are the living room, dining room, and kitchen, while upstairs are two bedrooms and a bath. In the North Central section of the country, this property is valued at \$5,800 and was financed with a mortgage of \$5,200 insured by the Federal Housing Administration. Average monthly payments on a 25-year mortgage of this amount, exclusive of local taxes and hazard insurance, total approximately \$30. The cost of a similar property in another locality will vary.

**SIDEWALK SUPERVISORS "WORKING" ON BANK BUILDING**

Members of the Sidewalk Supervisors' Club are pictured above "supervising" work on the Mercantile National Bank in Dallas. Officials noted when construction started that pedestrians took a lot of interest in the work. "If they want to watch, they'll watch in comfort," was the conclusion. Result was a 50-foot "upper deck" with seats and canopy. A 26-foot extension has since been added.

**George W. Cox Advises On Typhus Fever Prevention**

Austin, Aug. 21.—The prevalence of typhus fever in Texas during the last week was almost three hundred per cent higher than the seven year median for the disease at this time of the year, according to Dr. Geo. W. Cox, State Health Officer. Whereas we could normally expect thirteen cases of typhus fever during the first week in August, actually thirty-eight cases were reported and the number continues to increase.

The rat is the animal host for the insect vector which spreads typhus fever, and since dry, hot weather favors the increase of fleas among the rat population, the possibilities of typhus transmission are thus increased.

Old World typhus fever has a high death rate, while the type we have in Texas, sometimes called Brill's disease, has a much lower death rate. Typhus occurs most frequently among persons who work or live in rat-infested buildings. It was this fact that led to the discovery that rats are the carriers or transmitters of the disease. It appears that the rat suffers attacks of typhus fever and that the fleas harbored by the sick rat bite man, and thus human infection results.

Although typhus is not commonly fatal, it cannot be considered lightly. The intense headache, the high fever, and the great mental depression are its most common-peace features. In common with seasickness, the patient's greatest fear is that he is not going to die. The illness generally lasts about two weeks.

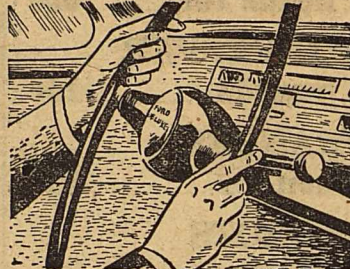

The control of typhus fever is primarily dependant upon the extermination of rats. Trapping and poisoning are helpful in exterminating them, but the best results are obtained by starving them. Rat proofing of buildings where food is stored is the surest method of exterminating this pest.

**How to become A SKILLED DRIVER**

By RAY W. SHERMAN  
Courtesy of the FORD GOOD DRIVERS LEAGUE

**HOLDING THE WHEEL**

Your left hand should be above the center and your right hand just below the center, or in other words, like the position of the hands on a clock at 10-20. This position gives you the best control—it enables you to put your arms, shoulders and all your strength into steering if you have to.

A hand at the bottom of the wheel has no power. Try it and see! With today's good roads, many drivers forget the importance of gripping the wheel correctly and let their hands sort of lie in their laps while the cars roll. But it's a dangerous habit. A tire can blow. In that case you've got to fight the wheel, whereas if you were in the right position, all you'd need to do would be to tighten your grip and ride it out.

Chicago. —If you have a psychic sense of danger, you probably have recognized that you are living right plump in the middle of the most dangerous season of the year (June, July, and August).

Winter with its icy sidewalks and slippery streets can't begin to match the accident hazards of exterminating rats by starvation. The State Department of Health and the U. S. Department of Agriculture will be glad to assist the communities in their program of the summer, says the new edition of Accident Facts, the National Safety Council's annual statistical volume.

The average for accidental deaths during 1940 was 264 per day. In the spring months accident
