NOLAN COUNTY NEWS that John B. Stribling. noted Rotan hereford breeder, is believed to have established another record for Hereford history Thursday when a month old calf of Bonny Lucy 10th sold to Jack Frost of White Hat Ranch for \$1,150 at the Stribling-Ellsworth dispersion sale.

Stribling had set a number of previous records, once in 1940 when paid for an open heifer, the highest ever paid for such an animal, and again in 1938 when he sold a half interest in Advanxiety for \$7,-500, which was more than had been paid for the full ownership of a bull in many years.

Frost also bought the calf's mother, Bonny Lucy 10th, paying \$800.

The top bull of the sale was Advanxiety 25th, 20-months od herd bull, purchased by C. C. Sanders of Big Lake for \$1,500.

Up to 2:30 p. m. Thursday, cows which had gone through the ring had averaged \$625.

Only a few of the bulls had been sold up to that hour. The 111 Cattle Company of Safford, Arizona, was the heaviest buyer in the early stages of the sale. There were 45 animals, 13 bulls and 32 cows and heifers, to be sold.

* * * A LOAN OF \$40,000 to "complete a section of the system" has been made by the Rural Electrification Administration to the Bandera Electric Cooperative, Inc., according to announcement from REA headquarters in Washington this week.

Announcement of the loan stated that "the borrower previously has been allotted \$537,000 to build 621 miles of line to serve 1,590 members in Bandera, Uvalde, Real, Medina, Kerr, and Kendall Counties, and \$5,000 to finance house wiring and plumbing installations."-Uvalder Leader-News.

You've Got a Newspaper

By HENRY BEETLE HOUGH

Editor of the Vineyard Gazette, Edgartown, Mass. and author of the widely-read book, 'Country Editor'

Did you ever stand across the street and watch church dinner. A good dinner has the people who go into the weekly newspaper office? already been planned and will be Some of them are old, some are children, and most cooked by good cooks. Families do of them are just ordinary citizens, men and women not have to bring a covere dish but of the town. They are not principally customers, just their good spirits for some such as a store would have, but they go into the wholesome good times together newspaper office or printshop on a variety of er- and for a program made up of rands—with items of news which may concern births, music and the reports of our marriages or deaths, with changes of address for achievements of the conference the mailing of the paper, with problems to talk year we will make at the conferover with the tditor, and with notices of articles ence in San Antonio on the 22nd. los and found.

You can go into the newspaper office yourself, clude the service. We will have the any time you like, and what you have to say will, the chances are a hundred to one, have some bearing upon what appears in the paper next week. This is a privilege you have which the people of hundreds of thousands of small towns in the world do not have. You've got a newspaper, and the freedom which surrounds this newspaper is mainly

As a general rule, it is what goes into a weekly newspaper that come out, In the long run, the community looks into the prnited pages of its own newspaper as into a mirror, and that is what makes the paper so important. If you do not like what you see in the printed pages, the fault is partly yours, for you have not taken the trouble to put anything in-an item, a vote, an idea, a memory, something said, or something done.

In one sense of the word the weekly paper is not published at all. It grows. It sends out roots, and the roots bring in whatever they can find of proper nourishment. The paper belongs, just as the church and school belong: Just like them, it is part and parcel of the organic process of democracy-not democracy in theory, or written about in some professor's book, but real democracy, in the street, in the homes, in the business places, among men, women and children.

This is National Newspaper Week, and some people may think the idea is a dodge to help the newspapers. But it is not. It is far from being that. It is an effort to help people understand what their newspapers are, and how they can get more value from them for their town and for themselves.

No newspaper in the world is as close to the people as your weekly newspaper is to your town. At other times in the history of the world, this might not seem important. There are a great many services which the newspapers strive to perform, but perhaps there is no need to mention them now. Just this simple fact is the greatest fact of all. You've got a newspaper, to speak for you, to report for you, to represent you.

This does not mean that you have to be one of the citizens going into the newspaper office, although that is a good place to go when you have something on your mind. The vote that you cast The net scholastics for state apportionment on election day is something which goes into the paper, not by itself, individually, but collectively.

The work that you do gets into the paper, too, and if you look carefully you will see that the pages of the weekly newspaper are a kind of a free market place. They are a market place for the thoughts of citizens, and a channel of communication, and in a modest way, enlightenment. Your town ca do things through its newspaper, and you can, too, as an individual, in your own right, because-unlike so many submerged and darkened souls on the surface of this aching world—you've got a newspaper.

Why can't we be like that old bird?

Collier's in a recent issue told f a loan shark case in Dallas: "For nine years, the victim had paid \$2.25 a week for a loan of \$20, corrowed to settle a hospital bill. Never having been allowed to apply a cent to the principal, he still owed the \$20, although he had paid a total of \$1,063, or 5,265 per cent interest.

A tramp knocked at the back door and the lady of the house said, "You seem to be an able-bodied man; you ought to be strong enough to work." And he replied. "I know, mum. And you seem to beautiful enough to go on the stage, but evidently you prefer the simple life." She said, "Step into the kitchen and I'll see if I can't stir up a meal for you."

One for the old joke contest: Two neighbor women had an argument. One claimed she had loaned the other a pitcher and, when it was returned, it was cracked. The other woman said, "In the first place, I returned the pitcher in good condition; in the second place it was cracked when I borrowed it; and in the third place I didn't borrow it at all.

Having heard that farmers are dissatisfied at the price paid for milk they produce because of the butterfat grading of distributors, Rep. Virgil Goodman, chairman of an investigating committee, declares, "We want to know if this situation is true," and he invites all farmers who are dissatisfied to write him the facts and get their neighbors to do likewise. The letters will be kept confidential, he adds. Goodman's address is Route 1, Box 423, Fort Worth.

Mr. and Mrs. Edgar Reese left Wednesday to attend the football game in Forth Worth Saturday. They will also visit in Dallas.
