FORTY-FIRST WEEK

Voters To Vote On Five Changes In Constitution

PROPOSAL TO BE SUBMITTED IN GENERAL ELECTION

Voters of Texas will pass on five proposals to change the constitution of the state at the general election in November this year, the changes ranging from constitutional authorization of payment of a \$75,000 obligation of the John Tarleton Agricultural College to a highly important amendment to put the state on a cash basis through a bond issue to wipe out the general fund deficit and require the legislature in the future to keep appropriations within the limits of expected revenue.

Texts of the five proposed Constitutional amendments, which under the constitution are required to be published in every county of the state, appear in the first publication in this county on page four of this issue of The Devil's River News. Voters are invited to make careful study of the proposals for an intelligent vote in the November election.

Perhaps the most important of the five proposed amendments is that relating to the fiscal policy of the state. This amendment, House Joint Resolution No. 1, proposes a new section to Article III of the Constitution "requiring all bills passed by the Legislature on or after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto." The amendment would further authorize the legislature to provide for the issuance, sale and retirement of serial bonds, equal in principal to the total outstanding obligations owing by the general revenue fund as of September 1, 1943, and bearing interest at the rate of 2 per cent and maturing in 20 years.

This amendment would require the Comptroller of Public Accounts to prepare in advance of each regular session of the Legislature for submission to the governor and the legislature a statement showing the financial condition of the State Treasury and an estimate of probable receipts and disbursements for the then fiscal year. The amendment would also forbid the legislature to pass appropriation bills in excess of the cash and anticipated revenue, "save in the case of emergency and imperative public necessity, and with a four-fifths vote of the total membership of each House."

House Joint Resolution No. 23 would amend the same article to authorize the lending of two-million dollars of the permanent school fund for the construction of a State office building or buildings in the city of Austin. The financing would be accomplished by a state bond issue of two-million dollars to be sold to the permanent school fund.

Another amendment, Senate Joint Resolution No. 20 would authorize accounting officers of this state to draw and pay warrants for salaries to officers of the United States Army, Navy or Marine Corps who are assigned to duties in state institutions of higher education.

House Joint Resolution No. 24 proposes an amendment which would authorize the legislature to create additional courts having exclusive or concurrent jurisdiction with the county court in civil, criminal or probate matters in counties having populations in excess of 200,000.

The amendment, Senate Joint Resolution No. 21, to pay off the \$75,000 obligation of John Tarleton College at Stephenville would authorize this appropriation for the construction of a building on the college campus pursuant to deficiency authorization by the Governor of Texas on August 31, 1937.

Just Us Club Meets At Home Of Mrs. J. S. Glasscock

The Just Us Club met Monday afternoon at the home of Mrs. J. S. Glasscock. Mrs. R. A. Halbert won high club and Mrs. Ella Wallace high guest. The cut prize went to Mrs. Rip Ward.

The living room was decorated with an assortment of summer flowers.

A salad plate was served to Mesdames E. E. Sawyer, Earl Duncan, Paul Turney, C. A. Tyler, G. H. Hall, R. A. Halbert, V. J. Glasscock, O. G. Babcock, Ella Wallace, Rip Ward, and J. A. Cauthorn.

MENARD HOST TO FIREMEN'S MEET

One of those West Texas barbecues for which Menard is famous is planned for Tuesday, August 11th, when the Hill Country Firemen's Association convenes in Menard.

The program to be given in the air-cooled Mission Theatre is based on Civilian Defense. Speakers have been selected from among the most active and best informed civilian defense workers in the state. The aim of the program committee has been to give inspiration and instruction to all. It is the prayer of all people that our enemies never reach into the Hill Country but we don't know. This program is planned to care for that if it should happen.

Two 20-minute talking pictures will be shown both related to our war effort. A large crowd of Firemen, City and County Officials as well as interested citizens are expected and Menard has made preparation for their attendance.

Speeders Ineligible For New Tires

Speeders were given a stern warning today by J. L. Nisbet, chairman of the Sutton War Price and Rationing Board, that speeding tickets issued against them by either state or local police will cause them to forfeit their eligibility for new tires or retreads.

"Abuse of tires by speeding must be stopped," Mr. Nisbet emphasized.

"We have been advised by Mark McGee, the Texas OPA Director, that carbon copies of all speeding tickets issued on the highways by the Texas Highway Patrol will be forwarded to the local board.

"We are asking city police and county officers in Sutton County to extend this same assistance to us in enforcing the vital wartime necessity for conserving rubber."

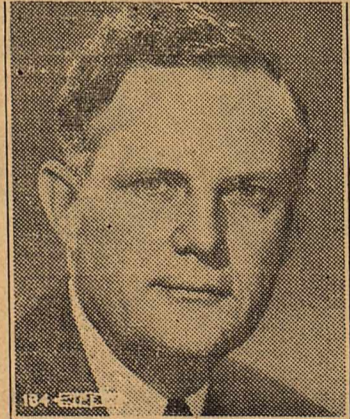

Mr. Nisbet said the local board had been requested by the state OPA office to regard speeding as an abuse of tires and as reason for voiding a person's eligibility for new tires or retreads. After such an offense, the speeder will have to give the local board conclusive proof that he is observing the 40-mile speed limit imposed by the Office of Defense Transportation, before he again can become eligible.

"OPA and ODT inspectors are beginning to take the license numbers of speeders," Mr. Nisbet said, "and those numbers will be sent to our board. A lot of city delivery trucks and even big freight line trucks and public buses still are ignoring the 40-mile limit. They may ignore it, but we are not going to. The next time those fellows apply for tires, if we find they've been speeding they will know that we mean business."

Jester Opens Runoff Fight

Opening his runoff battle for the State Railroad Commission, Beauford Jester will discuss the importance of his campaign in a radio speech to a statewide audience from his home town, Corsicana, at 9:30 p. m. Friday August 7. The talk will be carried over a fifteen station network.

"Texas oil and transportation are vitally important to our war effort," Mr. Jester said. "Most of the oil that will fly our planes, power our mechanized divisions, and fuel the ships of America and her Allies will come from Texas."

There must be no bottlenecks in Texas' oil production and transportation facilities."

A native of Corsicana, Jester is a graduate of Texas University and served from 1932 to 1935 as chairman of the University's board of regents. He interrupted his law studies to go overseas in 1917 as an Infantry captain in the 90th Division. He saw action in the St. Mihiel and Meuse-Argonne offensives. Returning to the law after the Armistice, he completed his studies and has practiced in Corsicana ever since. He taught a Sunday school class in his Methodist church since 1924, and since 1935 has been a member of the State Advisory Board of the National Youth Administration.

Recruiting Service Here

C. C. Smith has been placed in charge of Army and Navy recruiting for Sonora and Sutton County. Smith will be glad to talk to applicants at any time at his service station. Anyone interested in any phase of Navy or Army is cordially invited to see Smith.

Buy War Bonds and Stamps

T. A. Williams of San Antonio was in Sonora Wednesday. Returning with him to San Antonio was his daughter Winnie Lee who has been visiting here several weeks.

Hubert Fields has returned to Junction after a weeks vacation here.

The 10,000 tons of steel which yearly went into the furniture of barber shops and beauty shops is enough to build more than 600 light tanks.

City Hires Repair Man

D. W. Cleveland, formerly of Sweetwater and San Angelo, has been engaged by the City of Sonora as refrigerator repair and maintenance man and as relief engineer. He will assume his duties Monday.

Cleveland will bring with him one of the best equipped small machine and repair shops in West Texas. His equipment includes metal lathes and machine tools making it possible to manufacture some parts if necessary. The shop will be located in the auxiliary building atop Eaton Hill. Cleveland is married and the father of two children, and has been in the electric business for 20 years.

He set up and operated the Norge Company exhibition at the Dallas Fair in 1936 and has been employed by the Westinghouse Company.

Buy War Bonds and Stamps

Eight Men Join Local Fire Department

The Sonora Fire Department voted in eight new members Wednesday night at the regular meeting at the City Hall. The unusual procedure in extending so many new memberships at one time was justified, said Chief C. W. Taylor, by the war situation. So many men have left the department either for the armed forces or to accept war industry jobs, that at present there are only 13 men available for duty and only about half that number are able to make the ever-increasing grass fires. Grass fires represent about 60 per cent of all fire alarms.

New members of the department are George Barrow, C. C. Smith, a charter member of the old department, Artie Joy, Pat Lyles, Jack Ellingson, Wes Granger, George D. Chalk, also a charter member, and Lynn Turney.

Football To Continue In Most Areas

Commercial Transportation Is Available

Austin—Interscholastic League football will continue on schedule this fall, except in those areas where tire-rationing makes it impossible, Roy Bedichek, director of the University of Texas League headquarters, announced this week.

He said the State Executive Committee and the League Advisory Committee agreed that "no attempt will be made to enforce contracts on schools unable to travel because of tire-rationing," but added that "in many districts schedules can be maintained without appreciable use of tires, since commercial transportation is available."

Other League events — basketball, track and field, public speaking, journalism, dramatics, art, commercial and other activities—will also be continued unless travel becomes more and more restricted, he said.

"In the meantime, however, the Victory Physical Fitness Clubs, organized under the auspices of the League, are being formed in every section of the state, and the League is placing increased emphasis upon intramural activities of all kinds."

Football eligibility blanks and contracts will be mailed to member schools on August 25, Bedichek pointed out.

Use Colleges To Train War Workers Says Dr. Rainey

Austin—Use the colleges — already the training centers for the scientific, engineering and management manpower of the nation's war personnel—to develop almost every other type of worker needed, urged University of Texas President Homer P. Rainey this week.

On his return from a recent conference of educators, Dr. Rainey declared colleges and universities could go on practically a 100 per cent war basis in September if the Federal government formulates a program of action.

Such a program, the educators agreed, should include most of the following points:

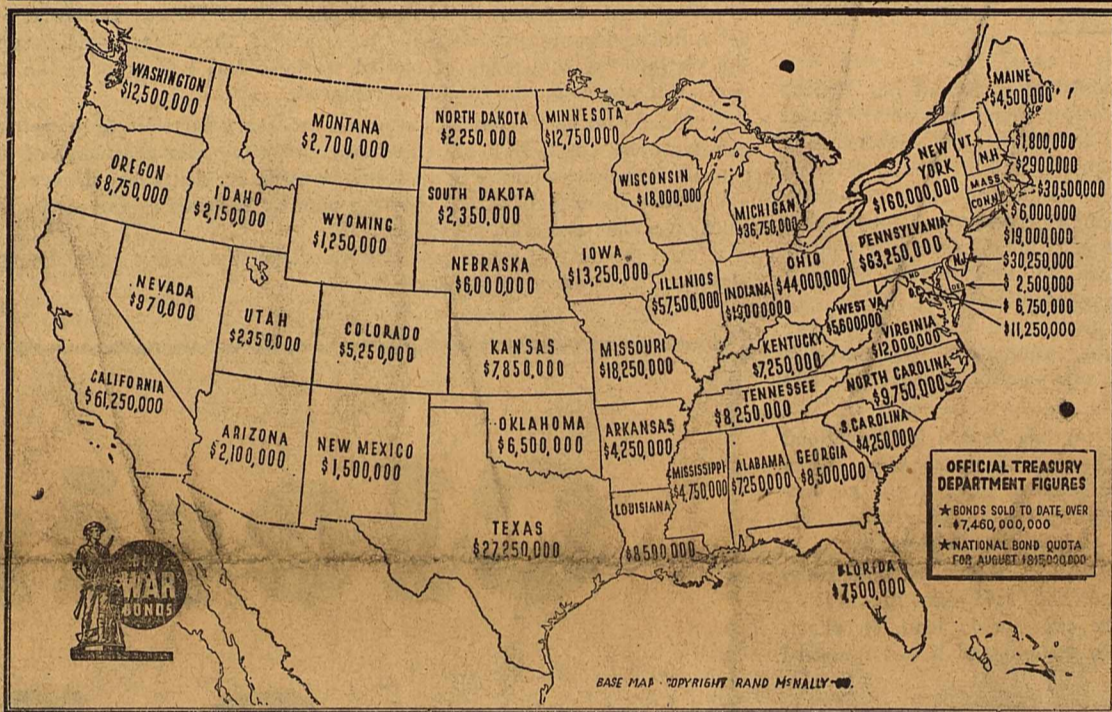

1. Direction of the universities and technical schools in the training of advanced workers in a pattern that would enable each institution to maximize its offerings.
2. Expansion of training programs in colleges for war workers who do not otherwise qualify for college credit.
3. Inclusion of more women students in training for specific war work.
4. Provision for the voluntary enlistment of nearly all college students above the sophomore year in a branch of the armed service or in a war-related production activity, according to physical and mental abilities, with the understanding that further education will be directed toward designated goals. The enlistment plan should be one in which youth would have confidence.
5. Provision at Federal expense for the training of potential leaders and skilled workers whose own financial resources will prevent their qualifying for leadership under present conditions—in other words make use of ALL of our potential leaders, not merely those who now can afford to go to college.
6. Creation in our training centers of opportunities for those who do not qualify for armed or other war service to perform some significant work looking toward peace and a period of great economic and social rehabilitation—a reservoir of strength and morale for the future.

Official U. S. Treasury War Bond Quotas for August

Washington, D. C., August 5.—While maintaining a tentative annual level of twelve billion dollars as its goal, the Treasury Department today fixed the August quota for the sale of War Bonds at \$815,000,000 as shown by the accompanying map by states.

In lowering the quota from a billion dollars in July to \$815,000,000 in August, the Treasury has given recognition to certain factors which may be expected to result in variations in sales over the 12-month period, such as the seasonal character of farm income.

These factors have been taken into account in determining each state's share for the national quota for August and will be given consideration in fixing quotas for subsequent months.

In addition to the state quotas as set out in the map there is a federal payroll allotment quota of \$9,750,000 and territorial quotas as follows: Alaska, \$760,000; Canal Zone, \$213,000; Hawaii, \$4,900,000; Puerto Rico, \$440,000, and the Virgin Islands, \$17,000.

U. S. Treasury Department

Training School For War Workers Now In Operation

Now Impossible To Get Job Without Training

Local men and women who wish to obtain training in skilled occupations so that they may make their war contribution and at the same time earn good wages, were urged today by L. L. Ruttle, manager of the San Angelo office of the United States Employment Service, to investigate the free training schools now in operation.

These schools are operated jointly by the state and federal governments for the purpose of training people for war jobs. They charge nothing for the training, and there are now openings in them for many men and women who wish to prepare themselves for well-paid wartime work, Mr. Ruttle said.

Graduates from National Defense Training schools are needed in such war industries as aircraft manufacturing, shipbuilding, munitions manufacturing and others which exist in Texas. Thousands of trainees who have gone through the free schools have been placed in these industries by the United States Employment Service. It is virtually impossible to get a war plant job without training.

Training is offered in the following subjects: Machine Shop, Aircraft Engine Mechanic, Aircraft Sheet Metal (including Riveting). Men between the ages of 18 and 65 years, and women between 18 and 45, are wanted to fill classes in these subjects.

The training period lasts from six to 12 weeks, depending on the subject and the ability of the trainee to learn it. The trainee may choose the subject in which he is most interested or in which, because of some previous training or experience, he is most likely to make good. The schools in most cases are operated on a 24-hour daily basis so that employed people may obtain training during the hours of their choice. Since these are free schools, the

Group Spends Day At Camp Allison

Doris Lou Sudduth and Veniece Carmichael of Eden were honored by Mr. and Mrs. F. J. Wood with an all day camping trip at Camp Allison Tuesday. Swimming and fishing provided entertainment during the day.

Spending the day on the river besides ones previously mentioned were Sammie Jeanne Allison, Edith Mae Babcock, Martha Jo Moore, Geraldine Morrow, Mary Burtle, Winnie Lee Williams, Marjorie Reba Nisbet, Mrs. J. L. Nisbet, Mrs. H. L. Taylor, Tina Ann Taylor, Mrs. O. G. Babcock and Nila Sudduth.

only cost to the trainee is that he must be able to support himself during the training period. In the case of boys and girls between the ages of 17 and 24, even this is sometimes not necessary, as they may be assigned to National Youth Administration war work centers where they will be boarded and paid for work performed during the training period.

Mr. Ruttle urged that any one in or near Sonora who is interested in obtaining war industry training in the subjects listed contact him at the United States Employment Service located at 7 North Chadbourne Street, San Angelo, or write Post Office Box 610, San Angelo, Texas.

Mary Neuberger Honored With A Surprise Party

Mary Lu Neuberger was honored with a surprise birthday party at the Alla-Nell Park Wednesday afternoon. Hostess were Gene Cliff Johnson and Margaret Pearl Smith.

Rummy provided entertainment for the group. Ice cold watermelon, cake and cold drinks were served. Mary Lu received gifts from Sammie Jeanne Allison, Geraldine

22nd TAGRA Meeting In Rocksprings

500 GOATS BEING SHOWN

Several hundred fine Angoras occupied the spotlight of America's mohair industry Thursday as the 22nd Annual Show and Sale of the Texas Angora Goat Raisers Association got under way at Rocksprings, capitol of the nation's goat kingdom.

A total of 270 bucks and does are entered in the sale, which will be held Friday and Saturday afternoons. About 200 Angoras are entered in the show, which began Thursday.

Officers, directors and members of the association will hold their annual meeting Friday evening to elect new officers and discuss general business matters.

A free barbecue at noon Friday, a rodeo and horse show each afternoon, and dancing at the fairgrounds each night are listed among entertainment features of the annual event.

Texas produces about 85 per cent of the nation's mohair, and for the past few years the TSGRA's annual meeting has been held under a glow of favorable markets for the great fiber. This year, because of various conditions resulting from the war, the mohair market has been at a virtual standstill. Nevertheless, mohair growers are convinced their product will again come into the demand it reserves as a superior fiber, and they are looking forward to a successful show and sale.

Probably the smallest item in which the WPB conservation order bans use of iron and steel is the phonograph needle.

Morrow, Martha Jo Moore, Mary Burtle, Ann DeBerry, Margaret Pearl Smith, Francis Jo Lancaster, Lila D. Chalk, and Gene Cliff Johnson.

RAILROAD PASSENGER TRAVEL

There has been some loose talk to the effect that it may soon be impossible for anyone to travel on a railroad train without government permission. But that talk represents eyegeneration. The railroad passenger travel situation was recently described by Joseph B. Eastman, Director of the Office of Defense Transportation, in these words: "As the country has gone into top productivity, passenger traffic has greatly increased. At the same time, the railroads have had the burden of heavy troop movements, and the prospects are that those movements will greatly increase. On top of that, the railroads are faced with a heavy increase in traffic as the private automobile ceases to be used for inter-city travel. . . . In view of these prospects and possibilities . . . we have discouraged unnecessary convention and recreation travel. There may be less congestion than we fear, and there may be more. No one can be sure. If it becomes serious, some system of control must be established, so that those who must travel on essential business will have priority of opportunity. I hope no such system of rationing, if it can be called that, will prove necessary. The best way to avoid it is to cut travel voluntarily to the minimum."

At the present time, about the only change that has been made in railroad passenger service has been to eliminate some luxury-type lounge cars. In moving both passengers and freight, the railroads have done a job which fully deserves the adjective, "magnificent." They have completely confounded their critics. They have moved record load after record load with complete efficiency.

So, if you have a reason for going somewhere by rail, call up and make your reservation. But, as Mr. Eastman advises, there should be no unnecessary travel at a time when the bulk of our transportation resources must be devoted to war purposes. If the public will cooperate, rationing of rail travel is not likely.

WAR AND THE BANKS

The magazine "Banking" recently published a special supplement on banking's part in the war effort. The supplement was partly based on a survey made of representative banks throughout the country. And it shows that banking, due to the war, has quietly and efficiently effected an immense expansion of its services to the public and the government.

It has been commonplace for the volume of work in banks' book-keeping departments to increase 40 or 50 per cent or more. The volume of transactions handled by tellers has shown similar increases. Gigantic war industries have been swiftly built in communities where little major industry existed before—and local banks must cash thousands of pay checks weekly. And banking, like all other enterprises, has faced a difficult problem in obtaining mechanical equipment, while it has lost many employes to the military forces.

Banking has made an essentially outstanding record in War Bond sales. Of the first \$5,000,000,000 of these bonds purchased, banks sold 85 per cent. Every cent of the money received went to the government, and the banks absorbed all the selling costs. And those costs ranged from 25 cents to 61 cents per \$100 of bond maturity value.

The volume of work done by the bank, in every field, will continue to increase. The banking industry has made elaborate plans for meeting the demand, and it is preparing for any conceivable load. In short, banking's service was never vital to the nation—and it never served so well.

WATCH INDUSTRIAL ACCIDENTS

Casualties to the U. S. armed forces since Pearl Harbor have been 4,801 dead, 3,218 wounded and 36,124 missing—a total of 44,143. These figures are from the government.

SPEAKING OF BONDS

Casualties to American workers since Pearl Harbor through accidents have been 30,000 dead and 2,500,000 wounded. These figures are from the National Safety Council.

The Council offered the comparison today as evidence that accidents help the Axis in draining America's manpower that is vital to victory.

The total American accident toll since Pearl Harbor has been 60,000 killed and approximately 5,500,000 wounded, the Council said. Among the victims are thousands of skilled workers and key men in the nation's war program, who cannot be replaced.

"Casualties on the battlefield are a necessary sacrifice to perpetuate our freedom," said Ned H. Dearborn, executive vice-president of the Council. "Casualties on the home front, through accidents, are preventable and hinder the efforts of our fighting men by sabotaging the production of the weapons and materiel of war."

"It is the duty of every patriotic American to conserve manpower for victory. We must stop accidents."

A LOOK AT THE BOOK

By DR. BOB JONES, JR.

PRESIDENT OF BOB JONES COLLEGE

Cleveland, Tennessee

God came to visit Abraham and Abraham was host to God Himself. This occasion is described in the eighteenth chapter of Genesis. In the likeness of man the Lord and two angelic companions appeared to Abraham one day as he sat in the door of his tent. The hospitable patriot made them rest themselves in the shade while he washed their feet and set food before them. The visit ending Abraham went with them to bring the mon their way towards Sodom. As the two angels went on towards the condemned city, the Lord Himself lingered behind to talk over His plans with His friend, Abraham, saying, "Shall I hide from Abraham that thing which I do" (Genesis 18:17).

What a wonderful privilege to entertain the Lord! What a glorious experience to share with Him the secrets of His omniscient mind. Yet, while we envy Abraham the intimacy and fellowship of this occasion, we forget that it is a privilege which we may enjoy. "Behold I stand at the door, and knock: if any man hear my voice, and open the door, I will come in to him, and will sup with him, and he with me" (Revelation 3:20). The Lord still tells His friends the things which He is going to do. In the Word He

still declares unto us not only His plans for the world but also the things which He is preparing for those who love Him. Christ says to us, "I go to prepare a place for you. And if I go and prepare a place for you, I will come again and receive you unto Myself; that where I am, there ye may be also" (John 14:2-3). He reveals the judgments and the destruction which He will pour out on this world of iniquity and sin as He revealed to Abraham that His wrath was to be poured out in fire upon Sodom and Gomorrah.

God would not have His child ignorant of His plans. He wants us to know that the dead shall be raised again, that the throne of the Lord shall be established in this earth, that every knee shall bow, and every tongue shall confess that Christ is Lord to the glory of God the Father, that when He shall reign the redeemed shall reign with Him. As much as our finite minds can comprehend of His divine purpose and plans, He tells us and for our joy assures us that beyond all we can comprehend, "Eye hath not seen, nor ear heard, neither have entered into the heart of man, the things which God hath prepared for them that love Him" (1 Corinthians 2:9).

American women can reconcile themselves to sketchy hair-do's with the thought that there may be 160,000 more .50 caliber machine guns because we have stopped making hairpins and thus are making 16 million more pounds of steel available for war production.

Workers have been advised by OPA to watch for specials in fresh fruits and vegetables, and thus avoid using any supply of canned goods they may have on hand. The supply of tinned products will steadily decrease, due to the need for tin in war industries.

After about six weeks of inactivity the Sonora swimming pool will be opened by the city. George Smith, present owner of the pool, has agreed to allow the city to use the pool for the best of the summer for nothing. In all probability the city will purchase the pool from Smith before the next swimming season. Admission prices will remain the same and negotiations are under way to obtain the services of Coach Albert Murray as manager and lifeguard.

Tires are getting thinner mile by mile,
As the nation conserves its rubber stockpile,
Kids in want of pleasure are giving mammas fites,
So take them swimming; it only costs one two-bitses.
(Not bad for an amateur)

We don't want to start hollering about tire rationing again, but here's a law the public might be interested in:

If you are arrested by the Highway Patrol on a driving charge your name will be sent to the State Tire Rationing Board. There, the case will be reviewed and if found sufficiently serious, will be relayed to your local board. Then you don't get tires. Example: Joe Blow is eligible for tires. He is convicted of driving over the speed limit, thereby not conserving rubber. Joe later asks the local board for a tire and is turned down. The fact that he is otherwise eligible becomes so unimportant that it is not worth talking about any more.

Everybody in town was in a state from midnight Tuesday until late Wednesday afternoon while half the Army Air Corps flew in to extricate a lone fledgling, Nicholas Manfredi, who became lost Tuesday night and landed on the Ozona highway at the city limits. Manfredi's commanding officer, Major L. Van Mullen, Captain J. C. Herrington, Lt. Davis, and Technical Sgt. Don Kirkpatrick arrived Wednesday. Everything was ready for a takeoff Wednesday morning, but Manfredi's plane developed motor trouble and Lt. Davis and Sgt. Kirkpatrick flew up from Randolph Field to make repairs. Everything was now in order and Major Van Mullen took off from the infield of the race track. His ship failed to clear the fences at the east end of the track and the wheel supports knocked down two rails. The ship had enough flying speed to remain in the air. Lt. Davis took off without incident, and Captain Herrington, who was taking Manfredi home, took off from the highway safely. All three ships refueled at Goodfellow Field then proceeded to their base at Randolph Field. Before the arrival of the Army mechanic, who is incidentally a nephew of Joe Logan and whose home is in Junction, several locals were attempting the repair job. However, most of these got stuck trying to get the lid off the gas tank and little was accomplished. It was all very enlightening; we heard one lady describe the wand-like air speed indicator as "that machine gun." A certain gentleman who is well known in Sonora for his windies was regaling a group of gullibles with tales of his powers as an airplane axle welder. "In the old days," he recounted, "a plane might break an axle taking off. Naturally it couldn't land so they would always call me in. I would get up on top of a long pole and the pilot would fly around me in tight circles while I welded the axle." Some people.

Here are a few last minute notes about everything. The pictures taken of the airplanes Wednesday were overexposed, hence no pictures. . . . Don't know why we took them anyway. Everybody in West Texas was there. . . . Ranchers in the Devil's River water shed may get individual aerial maps of their ranches at the County Agent's office, according to Miss Dessie Parsons. . . . the city has hired an expert refrigerator repair man (see story on page 1) . . . Louie Smith is in an Abilene hospital for a sinus operation. . . . The American Legionnaires made their scrap record quota with 400 to spare. Records are still being accepted at the Sonora Motor Co., however. . . . Buckshot, fast little quarter horse owned by F. A. Moody of Rocksprings, was destroyed Wednesday at the race track after it was discovered that he would not recover from a bloodstream infection. Buckshot was badly cut in a Phoenix, Arizona race when he tried to break through the rail. The wounds became infected.

Texas Farmers Contribute Share For Production

AGRICULTURE MAKES THE GRADE

College Station — America's farmers are giving their answer to Hitler by producing in greater abundance than ever before. B. F. Vance, chairman of the Texas USDA War Board, said in commenting on the recent USDA crop report.

"Here in Texas we've talked a lot about what our farmers are doing in agricultural production," the USDA official said. "I think the crop report is ample evidence that Texas farmers aren't the only

Previous agricultural production ones who are getting the food production job done in a big way.

Records for a number of crops are being broken by this year's production, Vance pointed out. He mentioned particularly the record plantings and indicated production of barley, flaxseed, rice, sugar beets, dry beans, soybeans and peanuts.

Texas farmers have contributed their share towards getting these production records, Vance pointed out, especially in rice and peanuts, two of the principal food crops which Texas farmers were asked to increase.

Market Reports

San Antonio, Texas, Monday, August 3. — Sheep: Estimated salable and total receipts 300. Light supplies in the sheep division Monday sold generally steady. A few small lots Medium to Choice spring lambs cashed at \$9.50 to \$10.50. Cull shorn ewes cleared \$2.50-3.25. Common and Medium No. 3 pelt aged wethers claimed \$4.75-5.25. Slaughter goats developed at \$3.50-4.00.

Cattle: Estimated salable and total receipts Cattle 1650. Calves 400. Slaughter steers and yearlings sales ruled generally steady in Monday's business. Loadlots Medium grade mature grass steers ranged from \$11.00-12.00 and a load Medium to low good short feds cashed at \$12.50. Common and Medium yearlings changed hands at \$8.75-11.00.

Cow sales appeared steady to weak with instances 25 cents lower. Common and Medium kinds cleared \$7.00-8.75, few Good \$9.00-9.15. Canners and Cutters ranged from \$5.00-7.00. Bulls carried a firm trend, most common to Good sausage styles \$8.00-9.85. Killer calves of Good and Choice quality sold weak to mostly 25 cents lower and lower grades occasionally 50 cents down. Good and Choice kinds cashed at \$11.00-12.00, few \$12.25-12.50. Common and Medium lots turned \$8.75-11.00 and culls \$6.75-8.75.

Stocker calves ruled generally steady. Good and Choice steer calves earned \$11.25-12.75 with Common and Medium at \$8.50-11.00. A few Medium and Good heifers cleared at \$11.00.

Hogs: Estimated salable and total receipts 600. The week's initial session in the San Antonio Hog division appeared moderately active under comparatively small supplies. Prices rule mainly 15 cents higher than last week Friday with a top listed at \$14.00 for Good and Choice 180-270 lb. butchers. Comparable grade 160-180 lbs. turned at \$13.50-14.00 while scattered lots 140-160 earned \$13.25-13.50. Sows scaling 450 lbs. and under turned mainly at \$12.75-13.00. Feeder pigs held fully steady at \$13.00-13.25. Good and Choice 130-140 lbs. were quotable to \$13.50.

Chicken Featured As Victory Special

There is still plenty of time to take advantage of the attractive price of broilers and fryers, which local merchants are featuring as a Victory Food Special until July 25 in co-operation with the Agricultural Marketing Administration, according to H. Brelsford, Jr., Supervisor, Area 5.

Broiler and fryer campaign merchandising is designed to encourage increased consumption of poultry meat at the time of the year when quantities sold by farmers are large and prices to consumers are lower than usual.

Here are some suggestions from the Bureau of Home Economics, USDA, for preparing good fried chicken:

"Cut chicken into serving portions as you like. With large fryers, it's a good idea to separate thigh from drum-stick and to cut the breast in two or more pieces. Salt and pepper each piece of chicken and roll each piece in flour—or egg and fine bread crumbs or corn meal.

"Put the thicker pieces first into a thick frying pan with half an inch or more of fat that is hot but not smoking. Leave space around each piece so the fat can bubble up around it. Cover the pan to keep the fat from splattering. Turn each piece when it is brown.

"For tender juicy chicken—cooked to the bone but brown on the outside—keep heat under the frying pan moderate. Thickest pieces of a 3-pounder will need from 20 to 25 minutes cooking. Take chicken out of frying pan as soon as it's done. To keep it hot after it's cooked, lay the pieces on absorbent paper to drain. . . . put in a heated pan or crock.

"To broil chicken, break the joints and remove the wing tips—for easy eating. Coat the chicken with melted fat. Sprinkle with salt and pepper. Sprinkle with flour or not as you like.

"Start cooking the broiler skin side away from the heat. Turn the chicken several times as it browns and baste frequently with pan drippings. Keep heat of the broiling oven moderate. A 2-pound chicken will need from 35 to 45 minutes to cook evenly to the bone.

"Serve hot off the grid, with pan drippings poured over the broiler to blend with the rich juice in the meat itself. Garnish with toast points and a sprig of green."

Release Of Autos Provided In New Regulations

An automobile dealer who has an eligible customer ready to buy certain type automobiles that the dealer cannot deliver because they are caught in a government "pool" may now be able to get the car released, J. L. Nisbet, chairman of the Sutton County War Price and Rationing Board, announced today.

"Release of automobiles from the government reserve pool in exchange for others of lower price or greater passenger capacity is provided in an amendment to the new passenger car rationing regulations," Mr. Nisbet explained.

"Generally, the cars that are acceptable as substitutes are the smaller, more economically operated vehicles with greater passenger capacity than those to be withdrawn. "Thus, the car to be substituted may be one of the same body type as the one withdrawn by the pool, provided it has a lower list price. Or it may be a four-

State Stallions Available For Lease Now

Austin—In order to help meet the growing demand for saddle and draft horses and mules, Texas farmers and stockmen who need a stallion or jack should make application immediately to the Jack and Stallion Division of the State Department of Agriculture, Austin.

The department issued that statement today with the announcement that there are now several of the state-owned jacks and stallions available. The stallions include Belgian, Percheron, and saddle types.

The animals may be leased by stockmen or farmers for \$30 yearly, with the remuneration to be derived from breeding fees. The fee limit is \$10. The animals will be delivered to the leasor free of charge by the department.

Curtailed supplies of rubber and gasoline is expected to bring about a greater demand for horses and mules, and thereby increase the demand for the services of the state-owned jacks and stallions. It is estimated that the state animals have already increased the wealth of the state by about 93,000,000, although since its creation in 1934, the Jack and Stallion Division has never cost the people of the state a penny for its upkeep and administration.

In total war there are no trifles. Interesting proof of this is the fact that by eliminating manufacture of blackhead squeezers we shall save 110,000 pounds of steel.

door sedan, while the car to be removed is some other body style. Similarly, it may be a two-door sedan, to substitute for a four-door sedan.

Mr. Nisbet explained that a dealer may apply to the OPA in Washington for permission to remove the desired automobile from the government pool, offering to turn in as a substitute a car that is better suited to the purposes for which the pool was created. These applications go direct to the OPA in Washington, and not to the local War Price and Rationing Board, but the local board has information available for advising dealers on the proper manner for submitting the application.

Second Extension Granted Tire And Tube Sellers

John Lee Nisbet, chairman of the Sutton War Price and Ration Board, announced today that automobile tire and tube sellers have been granted an extension of time from July 2 to August 1, in which to file with the local board an inventory of all tires and tubes, both new and used, that were on hand as of June 30.

"This is the second extension of time granted for this report," Mr. Nisbet explained, "because of the late arrival of the necessary forms."

These reports must be filed by all persons who sell new or used tires and tubes and retreaded or recapped tires of whatever kind, not mounted on a vehicle. The purpose of the inventory is to provide a fund of information to assist in charting the future course of rationing.

"Similar reports must be made by each tire seller in each calen-

Burning Wheat Stubble Causes Soil Erosion

College Station—Burning wheat stubble may subject the soil to serious wind erosion and result in loss of AAA payments, the State AAA Committee advised Texas wheat growers this week.

Reports have reached the committee that stubble burning is being practiced extensively in some areas, Charlie L. Thomas, committeeman and wheat grower from Pampa, declared.

AAA regulations provide that if a farmer permits his land to become a serious wind or water erosion hazard, the county AAA committee may withhold payments on the farm Thomas explained. Burning wheat stubble lays the land open for wind erosion damage.

"Dry weather this winter might result in serious wind erosion damage on fields which have been burned over," he continued.

Weather conditions during harvest last year required that an abnormally heavy stubble and matted wheat stalks be left on the ground, Thomas said, so that some farmers found they could not work the land at all without burning. Good harvest conditions this year resulted in a normal stubble which can be plowed under.

Thomas reminded farmers of the tremendous wind erosion damage their land suffered in past years. He urged them to consider the costs they would bear in damaged land and loss of AAA payments if the stubble burning resulted in creating a wind erosion hazard.

ACCUSED BY ARMY AIR CORPS

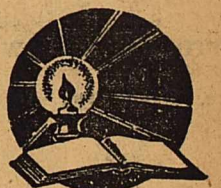

J. T. Patrick, manager of the local ice plant, was accepted at Goodfellow Field and was sworn in the same day. Patrick is now waiting call.

Wayne White will continue to operate the ice house.

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas authorizing the Legislature to appropriate Seventy-five Thousand (\$75,000) Dollars or so much thereof as may be necessary to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 21st, 1937.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new section, as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000) Dollars, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31st, 1937."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at the next general election to be held on the first Tuesday after the first Monday in November, A. D., 1942, at which all ballots shall have printed thereon: "For the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agricultural College;" and

"Against the constitutional amendment authorizing the Legislature to pay for building constructed for John Tarleton Agricultural College."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expenses of publication and election for such amendment shall be paid out of proper appropriation made by law.

H. J. R. No. 24

A JOINT RESOLUTION

proposing an Amendment to Article V of the Constitution of Texas by providing that the Legislature shall have the power by local or general law, in counties having a population in excess of two hundred thousand (200,000) inhabitants to create other courts having exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters; fixing the time for an election therefor; prescribing the form of ballot; providing for a proclamation of such election and the advertisement thereof; and making an appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

G. A. WYNN

ATTORNEY-AT-LAW

Fire, Windstorm, Auto

—and—

Insurance

OFFICE: Sutton Co. Courthouse

Section 1. Article V of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 22-a and reading as follows:

"Section 22-a. The Legislature shall have the power, by local or general law (without the necessity of advertising any such local law), in counties having a population in excess of two hundred thousand (200,000) inhabitants according to the then last Federal Census, to create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at a special election to be held on the first Tuesday after the first Monday in November, 1942, at which time all voters favoring such proposed Amendment shall have written or printed on their ballots the following:

"For the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

Those voters opposed to such Amendment shall have written or printed on their ballots the following:

"Against the Amendment to the Constitution, providing that the Legislature may in certain counties create other courts having either exclusive jurisdiction or concurrent jurisdiction with the county court in civil, criminal or probate matters."

If it appears from the returns of said election that a majority of the votes cast is in favor of the Amendment, the same shall become part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have it published as required by the Constitution and existing laws of this State.

Sec. 4. The sum of Ten Thousand Dollars (\$10,000) or so much thereof as may be necessary is hereby appropriated out of the State Treasury not otherwise appropriated to pay the expenses of said publication and election.

S. J. R. No. 20

A JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas by amending Section 33 of Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as to read as follows:

"Section 33. The accounting officers of this State shall neither draw nor pay a warrant upon the Treasury in favor of any person, for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the Officers Reserve Corps of the United States, nor to enlisted men of the National Guard, the National Guard Reserve, and the Organized Reserves of the United States, nor to retired officers of

the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy, and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw any pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

"Against the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Each voter shall scratch out one of said clauses on the ballots, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election, and have the same published as required by the Constitution and laws of this State, and the sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated from any funds in the State Treasury, not otherwise appropriated to defray the expenses of printing said proclamation and of holding said election.

H. J. R. No. 1

A JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1945, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot, providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and an estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing the fund accounts to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted at any Special Session of the Legislature and at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House,

no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such finding thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation to within the revenue, either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballots, the words:

"For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words:

"Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00), or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

H. J. R. No. 23

A JOINT RESOLUTION

proposing an Amendment to Article 3 of the Constitution of the State of Texas authorizing the lending of Two Million Dollars (\$2,000,000) of the Permanent School Fund for the construction of a State office building or buildings; providing for repayment to the Permanent School Fund; providing for the submission of this Amendment to the voters of this State; and providing for the necessary proclamation and expense of publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article 3 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as Section 49-b, which shall read as follows:

"Section 49-b. The Legislature may provide by law for the issuance of not more than Two Million Dollars (\$2,000,000) in bonds or obligations of the State of Texas to the Permanent School Fund for the construction in the City of Austin of a State office building or buildings, and the State Board of Education is hereby directed to invest

not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund therein. Such bonds shall be executed on behalf of the State of Texas by the Governor and Comptroller, and shall bear a rate of interest not to exceed three (3) per cent per annum, payable annually; they shall be of such denomination as may be prescribed by law, and shall be payable in not to exceed twenty-five (25) equal installments beginning one (1) year from date of issuance; and the State Treasurer is hereby authorized and directed to set aside into a special fund annually at the beginning of each fiscal year until all of said bonds shall have been paid off and discharged, a sufficient amount of the first moneys coming into the Treasury for the use and benefit of the General Revenue Fund not otherwise heretofore obligated to the payment of bonds and interest, a sufficient amount to pay the interest becoming due and the bonds maturing during such fiscal year. From said Fund, the Treasurer shall pay the interest on said bonds as it comes due, to the credit of the Available School Fund; and shall pay off said bonds as they become due and deposit the amounts so paid to the credit of the Permanent School Fund. The power hereby granted to issue bonds is expressly limited to the amount stated and to five (5) years from and after the adoption of this grant by the people."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas at an election to be held on the third day of November, 1942, at which election all voters favoring such proposed Amendment shall write or have printed on their ballots the words:

"For the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Those voters opposing said Amendment shall write or have printed on their ballots the words:

"Against the Amendment to the Constitution of the State of Texas authorizing the investment of not more than Two Million Dollars (\$2,000,000) of the Permanent School Fund in bonds of the State of Texas to be issued for the construction of a State office building or buildings and providing for the repayment of the said sum of money to the Permanent School Fund."

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State.

Sec. 4. The sum of Eight Thousand Dollars (\$8,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election.

Shurley Ranch Scene Of Party

Mr. and Mrs. E. D. Shurley honored Mr. and Mrs. Frank Weaver of Snyder, with a barbecue supper and bridge party at their home Friday evening.

Appointments and gifts carried out a ranch theme.

High score for the evening was held by Mrs. George H. Neill and I. B. Boughton. Mrs. I. B. Boughton won the cut prize. Mrs. Shurley presented the honorees with a gift.

Attending the party were Messrs. and Mesdames R. A. Halbert, L. E. Johnson, Collier Shurley, Clay Puckett, Lea Allison, Rip Ward, Bryan Hunt, George H. Neill, Wallace Dameron, I. B. Boughton, Cleve Jones, Jr., Edwin Sawyer, W. P. Truitt, Dan Cauthorn, J. L. Nisbet, W. R. Cusenbary, A. A. Murray, George Wynn, Ada Steen, Mrs. O. G. Babcock, Edith Mae Babcock, Sonny Shurley, and Albert Ward.

CARD OF THANKS

I wish to thank the fire department and all those who assisted in extinguishing the grass fire at my ranch last Saturday.

Your help was deeply appreciated.

Jack Wardlaw

Mr. and Mrs. Bryan Hunt and children and Mr. and Mrs. George H. Neill and children are spending a few days fishing at Camp Matt on Buchanan Lake.

\$500 Reward

I will pay \$500.00 to any person furnishing information leading to the arrest and conviction of anyone stealing any kind of livestock from any ranch in which I am interested.

MISS JAMIE TRAINER, Editor

Executive Board Of P. T. A. Meets

The P. T. A. had a meeting of the executive board July 28 at the home of Mrs. Aeron Hamilton, to outline the work for the coming year. It was decided that the study for next year would be the war situation. Mrs. Dave Locklin made a report on summer round up work.

Attending the meeting were Mrs. Dave Locklin, Mrs. Vernon Hamilton, Ben Cusenbary, G. H. Davis, J. L. Nisbet, Earl Lomax, Mr. and Mrs. E. D. Stringer.

Lewis-Harris Wedding Read

Miss Naomi Harris became the bride of Wilson Lewis in San Angelo Tuesday evening July 27. The ceremony was read at the home of Dr. K. P. Barton, pastor of the First Methodist Church.

The bride wore a beige cable knit suit with brown and white accessories and a shoulder corsage of red and white carnations. Attendants at the wedding were Miss Polly Hurley, Mrs. Ernest Johnson and Ross Roper.

Mrs. Lewis is the daughter of Mr. and Mrs. T. E. Harris of Katemcy. She is a graduate of Mason High School and San Angelo Business College. Mrs. Lewis lived here, with her aunt and uncle Mr. and Mrs. J. D. Lowry, for several years and worked for the Nisbet Insurance Agency and Elliott Brothers. For the past year she has been employed as bookkeeper at Hemphill Wells.

Mr. Lewis, son of Mr. and Mrs. G. H. Lewis of Goldwithe, is a graduate of Mullin High School and Daniel Baker College. He was football coach at Miles last year and is now employed at Concho Field in San Angelo.

Mrs. Hubert Fields Hostess To Club

Mrs. Hubert Fields was hostess to the Firemen's Wives Bridge Club Wednesday evening at her home.

Mrs. C. W. Taylor won high club and Mrs. S. M. Loeffler high guest. Mrs. J. H. Trainer won high cut.

A sandwich plate with punch was served.

Attending the party were Mesdames Mat Adams, G. G. Bennett, J. H. Brasher, Lee Patrick, Beamon Speed, C. W. Taylor, J. H. Trainer, Erwin Willman, Lewis Rouché, William Henry, S. M. Loeffler, Ford Stanstill of San Angelo, L. E. Holland, Pat Carroll and O. C. Ogden.

Congratulations

Mr. and Mrs. San Thomas of San Angelo, formerly of Sonora, are the parents of a 7 1-2 pound boy, Guy Gilbert, born August 1 in a San Angelo hospital. He is the third son for Mr. and Mrs. Thomas.

Mr. and Mrs. Russell Franks are the parents of a six pound boy born July 30 in a San Angelo hospital. The baby has been named Wesley Shaw.

ST. JOHN'S EPISCOPAL

Evening services will be held at St. John's Episcopal Church Sunday evening at 8:45 O'clock. The Rev. H. Evans Moreland of Christ Episcopal Church in San Antonio will conduct evening Prayer. Rev. Moreland succeeds Rev. F. M. Brasier, who has retired. After August, regular morning services will be held at St. John's the second Sunday in each month.

Mr. and Mrs. Ford Stansill and daughter Pat Ann of San Angelo, are visiting here with Mrs. L. H. McGhee.

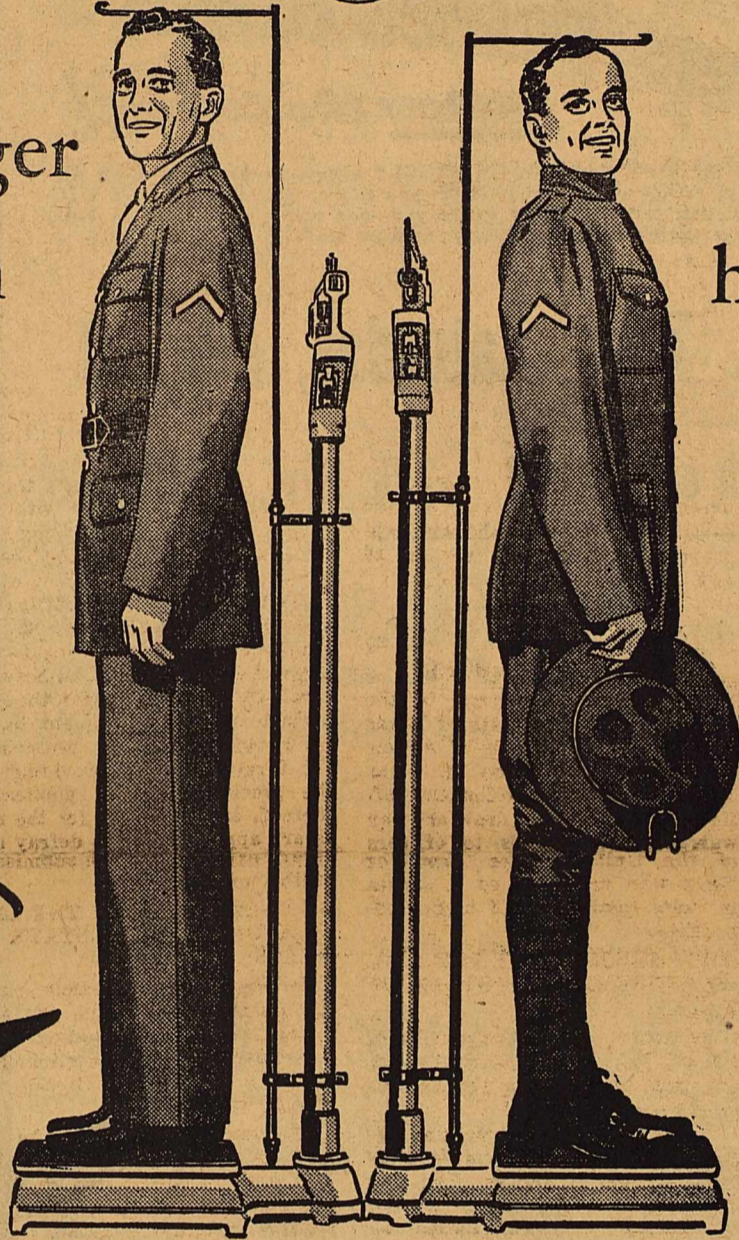

The meeting at Camp Allison will continue each evening this week through Sunday evening. So far in the meeting the people have been interested and the services have been well attended. A group from Sonora have attended every service.

Sunday we will have the regular morning service at the church. Sunday evening the training Union will meet at 7:45 at the church and there will be no church services.

Nila Sudduth, Doris Lou Sudduth, and Veniece Carmichael, from Eden, are visiting Mr. and Mrs. F. J. Wood.

Bill's a bigger man than

his dad was in '17

1 INCH TALLER - 10 LBS. HEAVIER!

...and ELECTRIC POWER, too, has grown to Meet the Wartime Needs of 1942!

Plenty of Electricity on Hand

WASHINGTON, July 22. (AP)—J. A. Krug, chief of the power branch of the War Production Board, expressed confidence today that war production would not be crippled by a shortage of electric power.

"We have sufficient electric power," he said, "to meet all the requirements of war production and for essential civilian needs, if used wisely—as far as we can see ahead."

WAR DEPARTMENT figures show that today's average soldier is nearly an inch taller and ten pounds heavier than in 1917—a great gain for one generation and a real tribute to the men of science and the men of industry who helped build Bill's husky frame.

We're glad electric service had a hand in it.

Food experts discovered new vitamins and better diets for Bill; doctors developed new serums, drugs and healing techniques; and electric research worked out new and better ways to refrigerate... preserve... his food so it would be fresher, safer, cheaper.

Even before Bill was born, electric servants freed his mother of much household drudgery—so that she and her children might be healthier and happier.

At the same time that the electric industry was helping Bill to develop into a stronger, healthier man than his dad, it also was expand-

ing to provide the power vitally needed in 1942. In back of Bill today is plenty of electricity for building tanks and planes, guns and ships... power to run the factories making weapons with which Bill will win the war!

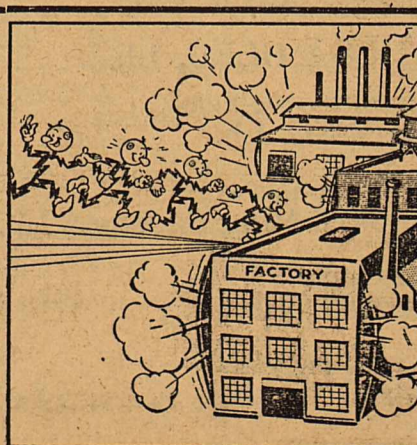

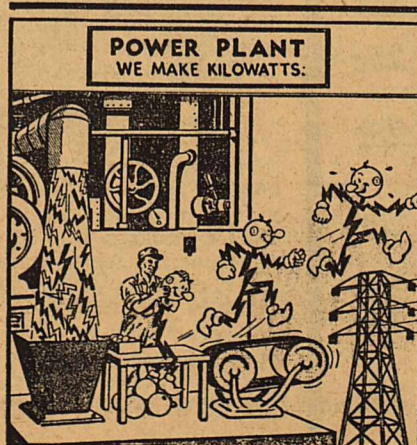

Actually, this country now has five times more electric power than we had in 1917.

And over 90 per cent of ALL the nation's commercially generated electricity is being provided by companies like this institution... companies that developed the American way, free to work and create things that men and women want and need for everybody's benefit.

This company "grew up" that way—organized by a few men with foresight to see West Texas' great need for ample, cheap electric power. Today it represents the savings of thousands of small stockholders, operating under good business management, regulated by the government, paying taxes, and providing excellent service at low cost.

West Texas Utilities Company

INVEST IN AMERICA! Buy War Bonds and Stamps

Just a word to my friends, the citizenship of the 86th Representative District, to tell you how much I appreciate the confidence you have shown in giving me the nomination for Representative again this year. Conditions made it impossible for me to visit each community as I hoped to do.

We have a big job ahead, and one that will tax our resources and endurance to the utmost as time goes on. There is much to be done in adjusting our local and State government to war conditions, without adding to the tax burden. We must carefully measure the cost of complete victory and not be wanting in any particular. The key to success in total war is total preparation.

I shall be glad to have your suggestions and to know when I can be of service, home address, Rocksprings, Texas, and when the State Legislature is in session, "Capitol Station, Austin, Texas."

Respectfully,

CLAUD GILMER,
Rocksprings, Texas.

According to the dictionary, this odd symbol comes from a Greek word meaning "recipe." It is familiar to everyone because it appears on all prescription blanks. It is the common symbol for a medical prescription.

Through the many years of usage, the R-x symbol has come to mean something else—it means, among all good druggists and pharmacists, excellence and painstaking care in the filling of doctors' prescriptions. The Sonora Drug takes pride in its prescription department, it takes the extra care necessary to prevent mistakes which may mean a life. No matter how small or simple the prescription may appear, our pharmacists leave nothing to guesswork, nothing to chance. Have your next prescription filled by the Sonora Drug Company.

Victory Begins In The Home

We received a bulletin, from the Consumer Division Office of Price Administration, Washington, D. C., which contained material on sugar for war time canning.

Your home fruit canning this year must help save the Nation's fruit crop. No fruit must go to waste this year because food is a weapon of war.

Your home fruit canning must help feed our nation and our Allies. Every jar of home-canned fruit leaves a can of commercially packed fruit for our armed forces and for our Allies. Every jar of fruit put up at home leaves a little

more freight space to carry war materials.

Your home canning this year must also conserve the nation's sugar supply. Our sugar supplies must be used carefully. Submarine warfare and the need for ships to carry war materials mean that imports of sugar will be far below normal. Every boatload of sugar that is shipped in endangers the lives of American seamen. Ask only for as much as you really need.

How much sugar can I get for canning is a question commonly asked. You will get 1 pound of sugar for every 4 quarts of finished fruit you are putting up. If you live in town the maximum is

6 pounds. If you live in the country the maximum is 9 pounds. You may can as much fruit as your family needs. If you wish to make a small supply of jams, jellies and fruit butters you may have an additional pound of sugar for each person in your family.

To get sugar for canning you apply to your rationing board for a certificate for sugar for home canning. With this certificate you can buy sugar at any store. Under exceptional circumstances, and at discretion of the local rationing boards, applications for sugar for canning may be handled by mail.

When you go before the rationing board be prepared to answer these three questions: 1. How many quarts of fruit did you can last year? 2. How many quarts of fruit do you plan to can this year? 3. How many quarts of last year's fruit do you still have on your pantry shelf? Always keep a record of the fruit you can with your rationed sugar because your rationing board will ask for it when you apply for more sugar.

The Consumer Division Office of Price Administration have given these figures that will help you to plan your sugar needs for canning fruit this year. For 1 quart of canned peaches, you will need about 10 to 12 peaches or 2 1-2 to 3 pounds. One bushel of peaches will can about 18 quarts; For one quart of canned pears you will need 5 to 6 pears, or about 2 pounds. One bushel will can about 30 quarts; For one quart of canned plums, you will need 26 to 32 plums or about 2 pounds. A bushel of plums will can about 30 quarts; For one quart of finished fruit, you will need about 7 to 8 apples or about 2 1-2 pounds. One bushel of apples will can about 20 quarts; For one quart of berries, you will need about 5 cups or 1 1-2 pounds of hulled berries. One crate will can about 20 quarts; For one quart of cherries, you will need about 2 to 2 1-2 pounds of unpitted, unsweetened cherries. One bushel of cherries will can about 25 quarts.

Supplies of glass jars, tin cans, jar rubber, and closures are expected to be adequate for this year. Make the best possible use of yours. Be sure that they are really well filled with fruit.

Here are a few tips on how to "stretch your sugar for canning." Add a small amount of sugar to the fruits own juices, instead of mixing the usual sugar and syrup. Fruits naturally contain a great deal of water, and you can make the best use of your sugar by sweetening this fruit rather than by adding more water in the form of a syrup.

Heat the slightly sweetened fruit carefully in a sauce pan. This draws out the juices, shrinks the fruit, and drives out the air, making it possible to pack generous amounts of fruits in each jar. There should be enough juice to cover the fruit completely. Honey may be used to replace up to half the sugar called for in canning, and corn syrup up to one-third.

Fruit juices are not provided for in sugar rationing allowances, but they may be bottled or put up in jars with little or no sugar. When sweet and tart juices are mixed together, no sugar is needed. Fruit for juice is processed at simmering rather than at boiling temperatures to keep the natural fruit flavors.

Men Experienced In Radio Needed In Signal Corps

MAKE \$1400 A YEAR WHILE IN SCHOOL

"Men between 16 and 100 years old with some technical radio experience can serve in the Army Signal Corps as civilian Junior Repairmen Trainees and make \$1,400 a year while attending school," Paul H. Figg, manager, Tenth U. S. Civil Service district, announced today.

Licensed radio operators with two years of experience, radio mechanics, telephone repairmen, and radio electricians with sufficient amount of experience can qualify for this position.

The six months training course includes advanced instruction eight hours a day in the fundamentals of overhaul, maintenance, repair and inspection of Signal Corps equipment such as radio, telephone, telegraph, and power and light.

Upon completing the course, the trainee repairman will be eligible for civil service appointment to positions of junior repairman, Signal Corp equipment, \$1,620 a year. Opportunities for advancement depend upon individual efficiency and ability.

In connection with this training program, opportunity will be open to a large number of young men to enter the enlisted reserve of the Signal Corps.

Specific information about this position may be obtained at any first or second class post office, or from the manager, Tenth U. S. Civil Service district, New Orleans, La.

Dud Tom and Ben Robinson, well known stockmen of San Angelo, were in Sonora Tuesday on a business trip. —39—

R. H. Martin the Assessor returned from a trip to the Owensville neighborhood. Deputy Sheriff, Albert Owen accompanied him.

Do's And Don'ts Of Milking Explained

College Station—the blood circulation of a dairy cow is a primary factor in the milk she gives. Recent experimental work, says G. G. Gibson, assistant dairyman of the Texas A&M College Extension Service, shows that 400 gallons of blood passes through the udder for every gallon of milk a cow produces. Multiply this by the day's yield and the immense amount of a cow's heart does to fill her share of the nation's milk bottles is apparent.

Most milkers have noticed upon sitting down that the udder did not appear to be full. Soon, however, it fills up because "the cow let down her milk." The business of "letting down" happens this way: A stimulus associated with milking is carried by the sensory nerve to the brain, which sends a message to the pituitary gland, which releases a hormone which is carried by the blood to the udder. This causes contraction of the muscle fiber in the secretory tissues of the udder, forcing the milk into the lower part so it can be drawn out.

Thus the cow's job. But the cowman's collaboration also is important. Among do's and don'ts in extracting all of the cow's milk, Gibson suggests: Regularity -- milking at the same time night and morning; a good milker must be able to get along with cows, otherwise poor production results, and do nothing to stimulate milk let-down any considerable time in advance of milking. Otherwise the hormone which has been secreted in the blood streams will be dissipated and the edge gone from the cow's ability to force down her milk.

Selecting Best Peaches Important

YELLOW FREESTONE SPECIES BEST CANNING PEACH

College Station—The best peaches are those which ripen on the tree.

Dispelling any doubt on that point, J. F. Rosborough, horticulturist of the Texas A&M College Extension Service, then tells those seeking the best canning peaches to choose J. H. Hale, Elberta, or a similar yellow freestone species. These varieties hold their shape well when canned, have a firm texture, and a positive flavor. Their skins are easily removed, and there is no more flesh and less seed than with many other sorts.

An easy way to remove the skin of peaches preparatory to canning is to place them in a cloth sack and hold them in boiling water for a few minutes, or until the skin slips easily. Then dip them into cold water before peeling.

Frank is another variety which will be ripe soon. It is a yellow clingstone which Rosborough says, is "excellent for desserts because of its sweetness. The Indian, a clingstone species with a red and white mottled flesh, is suggested for peach pickling. Because of its firm texture it retains shape after pickling. Firmness is essential in any type of peach used in the canning method. For preserving, however, choose those which are soft when pressed with the thumb. They are a little sweeter and this flavor is imparted to the preserves. For ice cream, choose those bordering in softness.

Looking to next year's crop, Rosborough suggests removing all weeds and vegetation, now, and leaving the soil plowed and in the pink of condition for the remainder of the summer

Yes, Mrs. Consumer, year in and year out you'll find PIGGLY WIGGLY always keeps prices down with the greatest savings to you! ON THE HOME FRONT

The U. S. overall output of planes, tanks, ships, guns and ammunition during June was nearly three times that of last November, the month before Pearl Harbor, War Production Chairman Nelson reported. Mr. Nelson stated however, "Too much boasting about production progress is altogether premature—the biggest part of the job is still ahead." Any letup now, he said, "would mean years more of war and hundreds of thousands more lives."

Chairman Nelson, as an index of the Nation's productive effort, estimated that approximately 36 per cent of the U. S.'s record breaking income during the first six months of this year went into military channels. This compares, he said, to the 50 to 75 per cent of total income being spent by Great Britain and Germany.

The War Production Board announced it will concentrate production of civilian goods in certain plants and regions as much as possible. The Board said, as a general rule, small plants will be kept in civilian production and large plants will be required to suspend civilian production. Civilian production will be restricted or suspended in regions where labor is urgently needed in war plants or where power shortages are likely to occur.

Rationing—

Price Administrator Henderson reported gasoline coupon counterfeiters had been peddling bogus ration books in the East and stated these "saboteurs attacking our war program" will be prosecuted promptly and vigorously. All persons found to be in possession of the counterfeit books, he said, are liable to have their regularly issued books either revoked or withheld. Because of delays in obtaining gasoline rationing coupon books, the OPA said service stations may sell gasoline on a "coupon credit" basis until midnight July 31.

The OPA increased tire and tube quotas for August and said 90,000 bicycles will be made available for rationing in August as compared with 45,000 in July. The Office said only trucks engaged in services essential to the war effort or public health and safety will be entitled to recapped or new tires after July 28 under a drastic revision of the tire rationing regulations. The OPA published names and addresses of Field Representatives who may be called upon by tire dealers, recappers, truck operators and other users of tires for aid in solving problems arising under the rationing regulations.

Maximum Prices and Rents—
Price Administrator Henderson reported "Government controls of prices and rents, where they are in effect, are doing a good job of holding down prices, but uncontrolled food prices are showing a definite inflationary tendency." He said, "The total cost of food to city families advanced by 1.3 per cent between May 15 and June 15, continuing the steady upward price trend of the previous 14 months and offsetting the benefits of price control on all foodstuffs covered by the general regulation."

Mr. Henderson said housewives and other members of the buying public will acquire the legal right, beginning July 31, to bring civil suits for damages against any store keeper who charges more than OPA regulations permit. The purchaser is entitled to recover \$50 in damages plus attorney's fees or triple the amount of the overcharge plus attorney's fees, whichever is larger. Similar suits may be filed in defense rental areas against landlords who collect rents in excess of those permitted by OPA orders. The Office reported it has resigned 370 areas as Defense Rental Areas and by August 1 rent regulations will become effective in 94 of these areas.

Agriculture Secretary Wickard announced a price adjustment and subsidy program designed to ease the temporary shortage of meats in Eastern states and some parts of the Mid-West. The OPA livestock and meat packing industries to maintain a supply of meats in all normal trade channels rather than concentrate shipments to large cities where ceiling prices are relatively high.

Hitler today is the greatest slave master in history, cracking the whip of terror over millions of foreign workers dragged into the Reich either by force, threats, or extravagant promises, rarely kept.

Albert A. Murray is attending the Texas High School Coaches Association at Abilene this week.

Power Generators Wanted By U. S. Signal Corps

College Station—County USDA War Boards are conducting a search for small power generating plants for the U. S. Army Signal Corps. B. F. Vance, chairman of the Texas USDA War Board, has announced.

The plants are needed for operating communications equipment, especially at remote bases where current is not available from established plants, the War Board official said.

Types of power plants (both engine and generator) needed include gasoline, diesel, kerosene or fuel oil driven motors, operating 110- to 220-volt generators, AC only. Equipment of these types can be used in capacities from 500 watts to 25 kilowatts and larger.

The boards are being asked to locate plants not now in use and to advise the state board, Vance said. All negotiations in connection with inspection and approval for purchase will be handled by the Army Signal Corps directly with the owner.

THE STATE OF TEXAS To: Mrs. Earline Smith

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 7th day of September, A. D., 1942, at or before 10 o'clock A. M. before the Honorable District Court of Sutton County, at the

Court House in Sonora, Texas.

Said plaintiff's petition was filed on the 20th day of July, 1942. The file number of said suit being No. 936.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

The names of the parties in said suit are:

G. W. Smith as plaintiff, and Mrs. Earline Smith, as defendant.

The nature of said suit being substantially as follows, to-wit: A suit for divorce, the said petition alleging that plaintiff has been for a period of twelve months an actual bonafide inhabitant of the State of Texas, and has resided in said County of Sutton for six months next preceding the filing of said suit; that plaintiff and defendant were married at Del Rio, Texas, on or about January 28, 1941, and lived together at Sonora, Texas, until on or about November 18th, 1941, when they were separated; that during the time plaintiff and defendant lived together plaintiff was affectionate and kind to defendant and always provided for her support but defendant commenced a course of unkind, harsh and cruel treatment toward plaintiff after marriage which continued until they were separated as aforesaid and that defendant has been guilty of such cruel treatment against plaintiff of such a nature as to render their living together insupportable; that there were no children born of said marriage and no community property has been accumulated to be divided. Plaintiff prays the court that defendant be cited to appear and answer said petition and for judgment dissolving said marriage, for costs of suit and for such other and further relief special and general in law and in equity that he may be justly entitled to receive.

Issued this the 23rd day of July, 1942.

Given under my hand and seal of said Court, at office in Sonora, Texas, this the 23rd day of July, A. D., 1942.

Seal J. D. Lowry, Clerk District Court, Sutton County, Texas

Fire Insurance Rates Decreases

INSURANCE COSTS TODAY ARE LOWEST OF ANY TIME

Austin—A sweeping, statewide reduction in fire insurance rates, announced today by Marvin Hall, State Fire Insurance Commissioner, will result in an estimated saving of \$3,200,000 to Texas policy holders during the next 12 months. The new rates involved in today's order by the Board of Insurance Commissioners, will become effective on fire insurance policies written after August 1, 1942.

The broad reduction affects many classes of insured property, and in case of dwellings amounts to as much as a 25 per cent saving in future insurance costs.

A few classes of property will receive increases in rates due to unusually heavy losses experienced in these classes during the past few years, Hall said.

"The revision of rates in today's order," Commissioner Hall added, "has resulted from an exhaustive study of fire losses experienced in these classes. The Board of Insurance Commissioners is continuing a study of loss experience in other classes with a view of determining whether other reductions may be justified. In addition, the Board is giving serious consideration to the subject of broadening the coverage of insurance policies to give the policy holder added protection."

"Recently the Board urged companies to reduce their operating costs in order that this saving also might be passed on to the public. Cooperation of both companies and agents to this end has been splendid. The agents, as a whole, are due particular credit in the unselfish attitude displayed in a willingness to see all savings possible passed on to the insurance buyers."

The greatest saving in any class will apply to dwellings. This benefit, estimated to exceed \$2,625,000 within the next twelve months, will reach more individual property owners than any other class. Premiums on insured dwellings last year accounted for approximately

SIGNS of the TIMES

These Mean Hot Weather

Our complete line of thermos jugs and bottles now on display in our front window are certainly signs of the times. What better treat

on a fishing or camping trip or on a long, hot, auto ride, than a cool drink from one of these containers. Nor are these containers strictly a hot weather proposition. They'll keep a liquid just as hot in the winter as they will cool in summer. Ideal for football games.
