

## September 10 Deadline For Filing Ceilings

### INSTRUCTIONS FOR MAKING STATEMENTS ARE AT RATIONING OFFICE

Filing stations, laundries, shoe repair shops, dry cleaners, and all others who render services either to consumers, wholesalers, or manufacturers are required by OPA regulations to file their ceiling price lists with the Local County Board before midnight of Sept. 10th.

Anyone affected by this regulation is invited to come by the office of the County Board and obtain a sample copy showing how these statements should be filed. Every consumer business, like every other business, has been mobilized on the front line of this war against inflation.

The government and our friends and neighbors need to cooperate to make price control effective. It will help all of us to maintain the security of our businesses and our homes. We are counting on every supplier of services to do his part.

Find out the ceiling price for every service supplied, why this was the price charged to each class of customer during March 1942, and if the service was not actually supplied but was offered, the offering price now becomes the selling price.

Keep all existing records showing any of the prices charged during March 1942. If a supplier of services used a price list in March, he must save it as proof of his March price. Also he should be sure not to destroy or lose any receipts, books, duplicate sales slips, or other printed matter showing his March prices. His records should be kept where they can be examined by a representative of OPA.

Prepare a statement by Sept. 1st, 1942 and file a copy of this with the Local County War Price and Rationing Board by midnight of September 10th.

These statements in general must contain an adequate description of the services a firm supplied or offered in March 1942, and the highest March prices charged for these services.

The fourth requirement is that the service supplier should now make sales slips and records as required by the regulation.

Such a sales slip might be a laundry list or a bill showing the price charged for each item. It might be the cash register ticket that is rendered when the service supplier makes a sale. It might be a receipt or a receipted bill for the money paid for the service. Regardless of the kind of sales slips or receipts that might have been given in the past, the service supplier must now give any customer who asks for it, a sales slip showing the date, the name and business address of the firm, the service sold and the price charged.

Claude Thomas Driscoll is spending a few days with his parents Mr. and Mrs. Tom Driscoll.

## FIGHTER PILOT RECEIVES WINGS

Lieutenant William Marion Elliott recently received his wings at Moore Field, advanced training school for fighter pilots. He was one of 483 Texans to graduate from seven advanced flying schools of the Gulf Coast Army Air Forces Training Center. Each man had three weeks of pre-flight instruction and nine weeks each of primary, basic and advanced training. Following tradition, wives, mothers, and sweethearts of the graduates are mailed miniatures of the wings presented the men.

## Applicants Asked For State Police

### ARMED FORCES HAVE CUT FORCE

Austin, The State Police are looking for qualified young men to help police the wartime home front. With more than 100 of his officers on leave with the armed forces, State Police Director Homer Garrison has announced the appointment of 40 Drivers License Examiners and issued a call for applicants to fill 70 vacancies in the Highway Patrol.

The license Examiners, who play a vital part in keeping down costly accidents that sap the state's productive and economic strength, will report to Camp Mabry Sept. 7 to begin a two-week training school devoted entirely to examination work. There is insufficient time, Garrison said, to give them the full seven week State Police training course.

Applications now are being taken from prospective Highway Patrolmen. A statewide examination will be held soon in each of the 13 Highway Patrol District headquarters. On Nov. 1 the 70 top-ranking applicants will begin their strenuous seven-week training course at Camp Mabry.

Peacetime requirements for Patrol applicants are still in force, Garrison noted, "because a lot of this war is being fought on the home front, and we've got to have capable men."

Applicants must be between 23 and 35 years old and not less than five feet eight inches in height. They must weigh not less than two nor more than three pounds per inch of the height at the time of appointment, have a high school education or its equivalent, and be able to pass strict physical, mental and moral scrutiny.

Application forms are available by writing to Col. Homer Garrison, Director, Department of Public Safety, Austin.

Sam Thomas and son Harold, of San Angelo, are visiting here.

### Manfredi Visits Here

Aviation Cadet Nicholas Manfredi, who made a forced landing here last month visited W. R. Barnes here Friday. Cadet Manfredi has been assigned to Ellington Field for advanced training.

## Juries Named For District Court Monday

### RENJAL MURDER CASE BEFORE GRAND JURY

Grand and petit jurors were announced last week for District Court which will open Monday morning, Judge W. C. Jackson of Fort Stockton presiding. Very few cases are on docket this term. The grand jury will take up the case of Prajediz Renjal, charged with murder. Florentine Sanchez and Mrs. Antonio Sanchez are charged with child desertion. On the civil docket is the case of the West Texas Lumber Company versus J. S. Glascock.

Grand jurors are Lea Allison, W. A. Carroll, W. H. Dameron, Lloyd Earwood, Thomas Espy, W. C. Gilmore, R. A. Halbert, R. L. Hallum, S. R. Hull, Cleve Jones, Jr., Jack Mann, Ben Mittel, Edwin Sawyer, Auther Simmons, Libb Wallace.

Petit jurors are A. B. Smithwick, Tom Bond, Claude Prater, Matt Adams, Perry Mittel, Earl Gardner, George D. Chalk, Louis Rouche, John Eaton, Dan Cauthorn, A. W. Awalt, R. C. Callan, Earl Adams, Oscar Appelt, Jr., Glenn Reeves, B. M. Halbert, Jr., J. L. Nisbet, Cashes Taylor, John Fields, Connie Crumley, Dave Locklin, Jack Wardlaw, Sam Allison, J. V. Alley, R. V. Cook, W. E. Hill, Andrew Moore, Perry Valliant, Miers Savell, Rex Baker, Aldie Garrett, E. D. Shurley, Dante Reiley, and W. D. Kring.

## Letter Received From U. S. Grant

The News received the following letter from (General) U. S. Grant, well known goat man in Sutton County.

Your bill for \$2.00 blew in this A. M. Inclosed you will find my check for the amount, better cash it at once, for the good old U. S. A. is pulling my leg for Victory Bonds often, he might get the money before you can.

Well the War is getting nearer its end every day, I believe we will close the war by Dec. 31st, 1942, we will have all the Japs and Germans and their friends killed off by that time. We are having weather here for harvesting every thing that grows, getting labor is the main trouble, and the ranchers have all the women helping them, and the women that are 2 old to labor picking fruit, all kinds of garden stuff, nuts, hops, etc., are taking care of the children, in the school buildings, and feeding the children. If we want to have something done in case of this king, call on the women and they will carry on every time.

God bless them all, they are making as much as \$5 to \$7 per day where they gather by the pound. Well, there is some politics down your way I. C. by the Texas papers, I get lots of news from Texas, as I take 3 papers from there, if I were there I would support Stevenson, and cross out O'Daniel, I would be a Democrat for the duration, at home in Oregon I am a G. O. P. and have been for 79 years, and will be the same for another 79 years. You C., I am figuring on passing on in my childhood? Well this machine is no good, it hits the wrong letter very often, and don't spell the best in the world, that's the machines fault and not mine, I should have a redheaded Stenog, but can't get them here, they are all black hair which is straight from their Indian Ancesters.

Good bye, and may you live as long as you U. won't  
And never want as long as you live.

Hale County farmers have responded to the grasshopper menace by putting out six million pounds of poison bait. This is enough poison to cover 400,000 acres. County Agricultural Agent C. B. Martin says this war on grasshoppers proves that Hale County farmers "are not going to let anything stand in the way of their producing food to win the war."

### SHIP 90,000 POUNDS RUBBER

The Texas Company of Sonora has shipped 90,000 pounds of rubber to the Rubber Reserve Co. of Dallas, according to Arthur Carroll. This large shipment of scrap rubber was enough to fill two box cars.

## Fall Gardens Should Be Planted Now

"It is time now to prepare the Victory Fall Garden," says H. C. Atchinson, County Agent. It can be planted to turnips, spinach, mustard, carrots, green onions, beets, cabbage, radishes and there is possibly time to mature irish potatoes, stringless green pod beans and english peas, according to Atchinson.

Here are some suggestions:

(1) Remove all weeds from the area to be planted—do not plow them under this late; (2) Apply barnlot fertilizer broadcast; (3) Plow 3 to 4 inches deep, thoroughly pulverizing the soil; (4) If garden is to be irrigated, apply 3 to 4 pounds of commercial fertilizer per 100 feet of row in addition to the manure, (5) Plant plenty of seed.

Spinach cannot resist hot weather even with abundant moisture and cannot stand "wet feet." Wait until cool weather cools, then plant the seed on top of a ridge or bed which is well drained.

Carrots, cabbage, turnips and beets are vegetables which will withstand light frost and may be planted as late as September 15 to 20th. Collards, onions and rutabags will withstand heavy frost but will withstand warm weather and may be planted in September.

With the coming of freezing weather in West Texas such vegetables as mustard, lettuce, beets, onions and carrots may still be grown in a frame garden. Plans can be obtained from the county agents office.

It has often been the case in West Texas that vegetables could be bought cheaper than they could be grown. However the retail stores inform us that because of transportation difficulties during the present emergency it is probable that they may not be able to get fresh vegetables this fall and winter.

Utilization comes after production. Vegetables are productive foods, high in mineral and vitamin contents. In order that the most may be gotten out of vegetables, let's look at the ones most likely to succeed in the fall garden and see what the nutritionist have to say about them:

Carrots—Excellent source of vitamin A; good source of vitamin G, and calcium.

Potatoes—In quantities most people eat, are a good year-round source of vitamin C, Bland iron.

Turnip greens, mustard and spinach—Green leaves are especially good sources of iron, vitamin A and C; good sources of vitamin B1 and G. Some are rich in calcium. "The thinner and greener the leaf the higher its value from iron and vitamin A."

Beets and young beet tops—They are two vegetables in one. They are rich in iron and vitamins. Roots contain some vitamins B1 and G.

Cabbage—Excellent in vitamins A, B, C, and G. Generally, the greener the cabbage the richer it is in vitamins; also a good source of calcium and iron.

## Bike Rationing Quotas Cut

### VEHICLES NEEDED FOR DEFENSE WORKERS

J. L. Nisbet, chairman of the Sutton War Price and Rationing Board, received today new regulations from Washington which reduce drastically the list of persons eligible to buy new bicycles.

"These new regulations are intended to fit the bicycle rationing program to a sharply decreased supply, Mr. Nisbet explained.

"The War Production Board issued an order recently, halting the manufacture of bicycles at the end of August. That put an entirely new complexion on the rationing plans that the Office of Price Administration had drafted when it expected that output would be continued."

"The new regulations are designed to direct the limited supply of new adult bicycles into essential transportation uses."

In its new list, the Office of Price Administration defines the essential occupations that will make a person eligible for a bicycle certificate. Also, an applicant must show that he does not have available, under appropriate rationing regulations, any private means of transportation that would serve the purpose for which a bicycle is sought. In other words, if an ap-

## SYMBOL OF PATRIOTISM

MINUTE MAN FLIES HIGH.—This is the new Minute Man War Bond Flag, designed by the Treasury Department for firms and organizations which attain more than 90 percent participation in War Savings Bonds purchases by their employees or members through a systematic purchase plan. The Minute Man is emblazoned in white on a blue background, surrounded by thirteen stars, representing the Nation's thirteen founding States. When companies, labor unions,

and other organizations top the 90-percent figure, they will receive a special Minute Man Certificate of Award signed by Secretary Morgenthau, the State Administrator, and the State Chairman of the War Savings Staff, the Treasury Department announced. This certificate entitles the recipient to fly the flag, which is being manufactured in various sizes and is sold by licensed suppliers at a nominal price.

## FEED WHEAT WILL BE DISTRIBUTED BY CCC

Feed wheat will be distributed directly by the Commodity Credit Corporation or through the regular channels of trade, B. F. Vance, chairman, Texas USDA War Board announced.

Producers may have wheat deposit upon certification that it will that poultry, but purchase of wheat proper approval an identification from local county AAA committee.

"Producers who truck livestock and produce to a point outside their immediate territory may find it advantageous to bring back wheat on the return trip," the War Board chairman said.

Large distributors and processors will be required to designate the area they propose to serve, Vance said and explained that a nominal feed wheat price will be established for the point at which CCC makes delivery. Refund claims may be made by the distributors and processors if the county feed wheat price at final point of dilive is less than their feed wheat cost plus appropriate transportation cost.

Through recent Congressional action, 125,000,000 bushels of CCC wheat at 85 percent of parity price for corn, have been released for feeding purposes.

plicant for a bicycle purchase certificate has a car or motorcycle that has tires, and which could be used in the service for which a bicycle would be used, without impairing its tire eligibility, he will be ineligible for a bicycle certificate.

The fundamental requirements for eligibility is that a person is engaged directly in war work, or in some work essential to the public health and safety, but certain other qualifications must also be met.

Mrs. Jamie Glasscock of San Angelo, is visiting friends and relatives.

## Wool And Wool Goods

### FROM FIRST NATIONAL BANK OF BOSTON

As long as military demand on the scale of the past year is added to civilian requirements, wool goods mills should be able to maintain the current high rate of operations. The present backlog of unfilled orders held by mills is sufficient to keep them busy for many months without new business and it has been indicated that, in the future, Army orders will be placed more frequently than has been the case since the inauguration of approximately 80 percent of the unfilled orders for certain wove cloths held by a group of 119 firms reporting to the National Association of Wool Manufacturers.

Production of civilian goods continues under the severe, curtailments of the War Production Board's wool conservation order. Mohair, which was originally granted to manufacturers on a limited basis, has now been released completely from the restrictions applying to new wool.

Despite the present indications that the supply of all-wool clothing available for civilians will be smaller in the future, retail sales of men's clothing continue at a low level. Distributors' stocks in many areas are reported to be considerably higher than a year ago.

Domestic wools are selling at ceiling prices as a result of the unspecified in forthcoming Army orders. This new purchasing policy on the part of the Army is in the nature of a compromise with the country's wool growers who sought to have this year's entire clip taken over by the government.

## Peanut Oil Becomes U. S. Weapon

Almost five million acres of peanuts—twice as many as were produced in any single year before. That's one of the contributions U. S. Farmers are making this year toward keeping this Nation at its maximum hitting power. Most of these peanuts will go into oil—oil from which thousands of necessary items for both civilian and military purposes can be made. This chemist and hundreds of others are busy finding and improving these new potent uses for peanut oil.

## The WAR State of Mind

If we emerge VICTORIOUS from World War II, let us all acquire the "war state of mind" immediately. "War Spirit" may be even more to the point, since the mind acts positively only after emotions become aroused and hearts become stirred.

A "well, maybe I can do something tomorrow" attitude won't do! That will make the brakes of war machine drag. We must act today! To win this war, brakes must be released, the accelerator jammed down. We must become emotionally aroused. Our blood must boil. We must get "fightin' mad." The following from a religious educator lends meaning to our words:

"I never work better than when I am inspired by anger. When I am angry, I can write, pray, and preach well; for then my whole temperament is quickened my understanding sharpened, and all mundane vexations and temptations depart."

How can we help get "fightin' mad" when the Nazis and Nippies have dynamited our entire mode of living? Unmercifully blasted our peace, our home lives, our baskrolls, our method of doing business, our habits of recreation and relaxation. Unless we get "fightin' mad" in a hurry, trespassing will become more obnoxious, more deadly. Wives, children, loved ones may suffer personal assault, even a horrible death at the hands of crazed invaders, hypnotized by promises, illusions, false propaganda of delirious dictators. Freedom may become a myth. Concentration camps may mushroom in parks and playgrounds. Bars may darken school and institution windows.

Printing presses may roll-out "Fascist facts" . . . radios, bark "Berlin orders." Cold steel at our backs may force kneeling before altars, cowering below statutes of Hitler and Hirohito, Bayonets may boost arms in Nazi salute. Hearts may be torn out as skinny, half-starved children gulp feverishly at miserable, thin soup scarcely more nourishing than water. While armies of occupation grow daily more insolent, beastly, and fat, feasting on rich grain, luscious fruits, and choice livestock produced by our sweat and toil.

Let's get so "fightin' mad" we'll want to give all for freedom.

## ANOTHER FIFTH COLUMNIST

NEWS ITEM—Millions of man-hours of production are lost each month in American industry because of lowered efficiency of workers who fail to correct visual defects, asserts M. J. Julian, president of the Better Vision Institute.

## How To Display Ceiling Prices

Ceiling Price may be shown for a group of identical items on the same shelf—such as canned tomatoes.

Frankie R. Franks and Herbert V. Andrews, both of Sonora, completed applications for enlistment in the Naval Reserve through the San Angelo Navy Recruiting Substation during the past week.

Mrs. Charles Simon of Junction is visiting here with her daughter Mr. and Mrs. O. L. Ricardson.

To meet Food for Freedom goals, Childress County farmers have increased their feed average about 15 percent. They have planted kafir instead of crooked neck maize so it can be combined as a means of saving labor. The maize will be thrashed.

The Devil's River News

## I GIVE YOU TEXAS by BOYCE HOUSE

"Uncle Buck" was (for he's passed away now) the gray haired, mild mannered bailiff of Federal court. Friendly and even jolly in manner, nevertheless he could—if you gained his confidence—tell many an interesting story of bad men of the Southwest for, first and last he was an officer for 40 years.

One day, while out in a little West Texas county seat town, he ran into one of the toughest hoppers in the state. However, Uncle Buck had no official business with the man; in fact, they were rather good personal friends, considering their different stations in life. So they had something to drink—probably an ice cream soda, strawberry flavor.

The bad man—let's call him Jack—was in a talkative mood and among other topics he discussed the fate of an officer who, not long before, had attempted to arrest a notorious outlaw and was shot to death.

"He didn't go about making the arrest in the right way," Jack said.

Some months later, Uncle Buck was handed an indictment against Jack. He called two deputies and the pair walked, unannounced, into Jack's hangout and, while one pointed a sawed-off shotgun at Jack's belt-buckle, the other roughly commanded the killer to turn around and flatten out against the wall, and then he was relieved of his shooting-irons.

When Jack was marched in, he was bitter.

"I don't like the way your men treated me," he snarled at Uncle Buck. "I'll get even with you."

"Why, Uncle Buck said mildly, 'I was just carrying out your suggestion.'"

"How was that?"

"Don't you remember when we were talking out in West Texas a while back, you told me the safe way to arrest a dangerous man? Well, I had it done just the way you told me then."

Jack studied a moment, then his face lighted in a grin.

"I reckon that's one on me," he said.

Another of Uncle Buck's stories was of a different nature and dealt with a traveling evangelist. Now this revivalist was a powerful exhorter but he did like his liquor. One afternoon, he sent his man-of-all-work, a darkey, over to Paul's Saloon, to get a pint of whiskey. The negro was gone so long that it came time for the evening service. The evangelist began his sermon and was discussing the Apostles, and reached Paul.

"And what does Paul say?" the speaker shouted.

The darkey had just entered the tent and was standing at the back. Thinking the question was meant for him, he said:

"Paul done say he won't sell you another pint till you pays fuh dat last one he let you have." And that broke up the preaching.

At least that was Uncle Buck's story.

WPB Chairman Nelson appointed Under Secretary of War Patterson, Petroleum Coordinator Ickes and Price Administrator Henderson as a committee to determine whether fuel oil should be rationed in the East Coast area this winter. Because of the shortage of fuel oil in the area, Mr. Ickes prohibited the hauling of automotive gasoline by rail in 20 middle western and southwestern states in order to divert enough tank cars to carry 100,000 barrels of fuel oil daily to the rationed area. If the withdrawal of these 5,000 to 7,000 tank cars creates a shortage, rationing should be extended, Mr. Ickes said.

Mr. and Mrs. John McClelland an son of Texon spent a few days in Sonora visiting Mr. McClelland's parents Mr. and Mrs. J. T. McClelland.

JOE B. ROSS

Sonora Texas

## 39 Years Ago

Mrs. Mat Keton and Jim Graves spent a few days most pleasantly at the Jim Alford ranch last week.

Dock Simmons moved his family to the ranch this week. Dock intends buying a place for Fred so he can entertain visitors out there.

Fred Jacobson the butcher is attending to the Maverick Market.

Will Whitehead left for the Territory Monday to look after his stock interests up there.

Mr. and Mrs. Tom Savell were down from San Angelo for a few days this week visiting friends.

W. C. Page moved his family to the ranch this week.

G. W. Stephenson moved his family to the ranch this week.

W. A. Berry moved Wednesday to the Keene residence, formerly occupied by G. W. Stephenson.

Born on Sunday, April 26, 1903 to Mr. and Mrs. W. A. Miers a girl.

S. G. Tayloe and James Cornell the lawyers were in San Angelo this week on professional business.

Wes Bryson returned from a visit to his family in Brady Saturday and reports his wife and baby are doing fine.

J. J. and Eli Kuykendall who have been building tanks for G. W. Whitehead and Sons were in Sonora this week trading.

Sam Hunter who is ranching near the Cauthorn ranch, was in Sonora Tuesday for a load of lumber and supplies.

Charles Erskie started to Douglas, Arizona Tuesday accompanied by Dr Pat Sullivan and J. L. Bevine who will likely go as far as El Paso.

Mrs. Walter Whitehead and Miss Mattie Brotherton were in from the Whitehead ranch Friday visiting and attending the closing exercises of the school.

J. F. Harris was in Sonora Tuesday trading. Mr. Harris has just moved to his ranch he recently purchased from C. T. Turney and will make Sonora his trading point.

Mr. and Mrs. Abe Mayer and children came in from the ranch Friday. Mrs. Mayer and children will remain in Sonora for some time.

W. L. Locklin the sheepman was in Sonora Wednesday on his way to San Angelo with his sheep.

Mr. and Mrs. R. A. Williams were in from their Twin Hell ranch Friday shopping and visiting.

Ben Sharp was up from G. T. Sharps ranch on Dry Devil's River Sunday and reports everything doing fine.

Mr. and Mrs. R. F. Halbert and children were in from the ranch Friday to attend the school entertainment.

Mr. and Mrs. Matt Karnes were in from the ranch Friday to attend the closing exercises of the school.

Dock Word was in Sonora Saturday, on business. He has his sheep on the road to San Angelo.

Mr. and Mrs. Max Mayer entertained Wednesday night a small number of their many friends at Progressive High Five. Refreshments were served in three courses and the evening was most agreeably spent. The winners were Mrs. Cornell and Alex McGonagall.

## A LOOK AT THE BOOK BY DR. BOB JONES, JR. PRESIDENT OF BOB JONES COLLEGE

God, who is God of law and order, has set certain conditions upon the fulfillment of which depends His promise to hear and answer our prayers.

First, we must have pure hearts. "If I regard iniquity in my heart, the Lord will not hear me" (Psalm 66:18). This means that the man who continually practices sin and who has in his heart a purpose to commit sin and who clings to sin, has no claim to the ear of God.

Prayer that God promises to answer must come also from an unselfish heart. "Ye ask, and receive not, because ye ask amiss, that ye may consume it upon your lusts" (James 4:3). Man has no right to ask God for something simply to use it for the gratification of his own desire or for his own personal satisfaction.

Prayer to be heard must come from a yielded heart, a heart submissive to God's will. "If we ask anything according to His will, He heareth us" (John 5:14). A heart thus yielded will certainly be a heart that is pure and a heart that is unselfish. The life in which the will of God is foremost is a

life which has no room for impurity and selfishness.

Prayer without faith God nowhere promises to answer. A believing heart is an essential toward meeting the conditions which God places upon our access to Him with our petitions. Jesus said to His disciples, "All things, whatsoever ye shall ask in prayer, believing, ye shall receive" (Matthew 21:22).

The Lord Jesus Christ said our prayers should be in His name. "Whatsoever ye shall ask in My name, that will I do, that the Father may be glorified in the Son" (John 14:13). Only by faith in the Lord Jesus Christ are men saved. Only through His blood are sins washed away, and only in Him do we become children of God. How proper, therefore, that our prayers to our Father should be in the name and for the sake of Him who has made our sonship possible. In Christ's name we may bring our petitions to our Heavenly Father, and "He that spared not His own Son, but delivered Him up for us all, how shall He not with Him also freely give us all things?" (Romans 8:32).

The evening was the twelfth anniversary of the marriage of Mr. and Mrs. Mayer. The following were present: Mr. and Mrs. Briant, Mr. and Mrs. Patterson, Mr. and Mrs. Nichols, Mr. and Mrs. Carmichael, Mr. and Mrs. Tidwell, Mr. and Mrs. Hagerlund, Mrs. Drake, Mrs. Cornell, Mrs. McDonald, Misses Dooley, Word, Williams, Willis; Messrs Brown, Alex McGonagall.

Mr. and Mrs. D. B. Cusenbary returned from San Angelo Monday.

## Hand-Picked Crew

Ground crew members of the Army Air Forces now are literally hand-picked, for, under new Army plans, men with civilian experience as mechanics and radiomen are enlisted directly for the Air Forces and put right to work using the tools of their trade. The four mechanics above obey a "sign of the times" at Randolph Field, Texas, where they keep training planes in tiptop condition.

Clay Atchinson, county agent, was misquoted the other day as saying that the government had all the scrap iron it needed. Nothing is further from the truth, says Atchinson. One of the things that forced several steel mills to close down recently was a lack of scrap. What Atchinson DID say (at the Lions Club Tuesday) was that there was plenty of scrap iron in the United States, but that most of it was still out on the ranches. That is true.

—#(\$&)#—

Girls who are worrying about their boy friends in foreign countries are reminded of the joke appearing in the current Reader's Digest. A young lady, noticing that her sweetheart's letters were cooling, wrote him: "What have the Australian girls got that I haven't got?" His answer: "Nothing, but they have it HERE."

—#(\$&)#—

With the 2.20 inch rain which fell here Thursday morning, the total rainfall in Sutton County since January 1, rose to 13.73 inches. This is about half of the corresponding rainfall of 24.91 this time last year. The July fall was light totaling only .97. July 1, .02; 2nd, .13; 22nd, .80; and 25th, .02. For August the rain was 11th, .20; 16th, 2.07, 17th, .32; 18th, .10; 19th, .14; 22nd, .28; 30th, .47, 31st, 1 inch. Total 4.53.

—#(\$&)#—

Geronimo, famous Apache chief who gave U. S. troops fits a generation ago, has an interesting namesake in the person of the shaggiest burro in Sutton County. Formerly owned by Henry Diebitsch and now owned by Buddy Halbert, Geronimo is unusually large for his breed and has a 3 inch coat which gives him the appearance of a Yak. His picture will appear soon in this column. Speaking of wild critters, Jake Merck had an unfortunate experience with a Brahma bull Wednesday afternoon at the loading chutes. When the bull became stubborn, Merck gave him the benefit of a prod pole. The bull reacted negatively and the resultant kick caused the loss of two of Merck's teeth and severe cuts about the mouth.

## HAVE YOU PLANTED YOURS?— Time To Plant Fall Victory Gardens

College Station—Wherever possible take a day off and prepare the soil for a fall garden, urges J. F. Rosborough, horticulturist for the A. and M. College Extension Service. A home garden pays dividends.

Rosborough says that English peas, radishes and stringless green pod beans may be planted as late as September 15 for maturity before frost.

In preparing for planting all weeds should be removed from the plot-not plowed under. Next, apply barnlot manure, plowing it into the soil four or five inches. Break up any clods as small as possible so that everything will be ready for planting when the first rain comes.

Carrots, cabbage, turnips, broccoli and beets are vegetables which will withstand frost and may be planted as late as September 15. Collards, kale, onions, rape, and rutabags will withstand heavy frost and also may be planted up to September 15.

Spinach will not tolerate the heat of late summer nor can it stand "wet feet." Wait until the weather cools—from October 1 to 15—then sow the seed in top of a ridge or bed which is well drained. Where rainfall is heavy in east Texas and the Gulf coastal area, the Noble variety should be used.

Cabbage and lettuce planted from seed in September should be thinned in October or early November when the plants are about three inches high, and a spacing of 12 inches allowed.

With the coming of freezes in West Texas prepare a frame garden about six by 20 feet in which greens, lettuce, beets, onions and carrots can be grown.

See your county agricultural agents for details.

Fred Earwood and Vestal Askew returned last week from a TSGRA meeting in Salt Lake City.

Mrs. S. A. Thomas and children J. W. and Guy Gilbert spent a few days here visiting Mrs. Thomas parents Mh, and Mrs. J. W. Trainor.

## Happy Birthday

## BLUEBONNETS AMONG HARDIEST FLOWERS

College Station—Persons who desire to beautify their yards or flower beds with Texas' state flower next year should plant bluebonnets now. To grow and bloom successfully, bluebonnets should be planted in a sunny, well drained spot, says Sadie Hatfield, specialist in landscape gardening of the Texas A. and M. College Extension Service.

Bluebonnets do not like to be disturbed by cultivation. They can be transplanted, but it is better to plant them where they are to grow. In parts of the state where it is too cold during the winter months for them to grow in the open, they should be started in flats, cold frames, or small pots and set in the open as soon as the ground thaws.

The state flower is very resistant to cold and will thrive during spring freezes.

Mrs. W. S. Ezell of Smithville is visiting in the home of Mr. and Mrs. T. W. Sandherr.

## Ranchers Urged To Sell Old Ewes

### PELTS NEEDED FOR COLD WEATHER CLOTHING

Sutton County is being called on to help clothe aviators and other fighting forces stationed in cold climates in clothes made of shearing pelts with wool from 1-2 to 1 inch in length. It is estimated that the Army will need over fifteen million shearings within the next eighteen months. That volume is not in sight through normal marketing practices. But there are thousands of old ewes wearing pelts that will qualify.

The increased demand for cheap meat (for sausage, etc.) together with good prices for shearings make it possible for the market to handle above the normal volume of canner ewes.

Now is the time for ranchmen to cull the ewes to the bone. Old ewes will not produce much wool of combing length and that short wool has little place in Army goods. Ewes with enough age on them to affect their health and strength adversely will not do much at raising lambs.

Commission men are on the lookout for thousands of old ewes from this section. Ranchmen should keep in touch with the commission men and market all the old spreaders and broken mouth ewes in order that our fighting forces can do their share in winning this war and at the same time the ranchmen's flock will be kept at a high rate of production.

## —Markets—

San Antonio, August 31:

Sheep: Estimated salable and total receipts 900. Available supplies of sheep and goats sold readily at fully steady prices. Most of the freshly shorn Angora goats ranged from \$3.50-4.25, more desirable kind largely \$4.25. Some Cutter to Common slaughter ewes with No. 2 and 3 pelts sold at 03.75. A shipment of aged feeder wethers turned at 04.60. Other classes were virtually lacking.

Hogs: Estimated salable and total receipts 400. The small supplies of butcher hogs and packing sows met a broad and active demand. Prices developed at mostly 15 cents higher levels, as compared with last Friday's average. Top and bulk for Good and Choice 180-270 pound butchers was \$14.15. Some comparable grade 160-180 pound hogs made \$13.65-14.00 and a few 140-160 pound turner at 613.25-13.75. Most packing sows scaling under 450 pounds sold at \$13.00-13.15. Feeder pigs bulked at \$13.00-13.50.

Cattle: Estimated salable and total receipts 400; Calves 900. Sharply curtailed marketing of all cattle and calves left receipts materially under trade requirements and all interests were buying freely for numbers. Consequently trading was on a catch-bid basis at uneven and sharply higher prices, instances as much as \$1.00 over last week's close. A small lot of Common Mexican steers sold at 79.50 and represented the day's crop.

The scattering of beef cows consisted of Common and Medium grades selling at 08.00-9.00, while most Canners and Cutters made 05.50-7.50, a few light offerings from -5.00 down. Odd head of sausage bulls ranged from \$9.75. Available offerings brought \$11.50-12.50 and others sold mostly at \$9.50-11.00, with Culls at \$8.00-9.00.

## Sulfa Success In Treating Pink Bag

### ROBERT MILLER REPORTS QUICK RECOVERIES

From Sheep & Goat Raisers

In the sheep barn during the recent San Angelo Sheep Show and Sale the ranchmen discussed numerous problems, one of which was the treating of ewes with pink bag infection. Robert Miller of Davis, California, Professor and sheep breeder, declared that he had met with good success in caring for this trouble in ewes through the use of Sulfanilamide. His recommendation is this: "Two 15-grain tablets three times daily to the affected ewe for two straight days, and thereafter two 15-grain tablets once a day until the animal is well recovered." It was emphasized that the tablet treatment must be started before the ewe is too far gone, in order for the treatment to be a success. Professor Miller told the ranchmen that the Sulfanilamide tablets were selling at 25 cents a dozen in California. However, some of the ranchmen standing around declared that they had paid as high as \$4 for 25 tablets in Texas drug stores, for a Sulfanilamide or a similar sulphur product, which was declared by Professor Miller to be too high. One or two ranchmen assert they had already tried this blue or pink bag remedy and found it excellent.

## HE EATS A TON A YEAR

College Station—Johnny Doughboy is a husky young fellow and he does a stiff day's work. That's why he eats a lot more than Mr. Average Citizen.

That's another good reason why the nation's farmers are producing vastly-increased amounts of food in the Food for Freedom program.

The Texas USDA War Board points out that records of the U. S. Army Quartermaster Corps and the Department of Agriculture indicate that:

Every day a soldier drinks more than a quart of milk in some form or other. A civilian drinks less than a quart in two days.

Every day a soldier eats almost seven pounds of food. That's three pounds more than a civilian eats.

Every day a soldier eats 9 eggs. A civilian eats fewer than 6 eggs a week.

Every week a soldier puts away 5 1-2 pounds of meat, poultry and fish. A civilian eats less than 3 pounds.

Every year a soldier eats 1 1-4 tons of food. A civilian eats less than 3-4 of a ton.

Every year a soldier eats 2485 pounds of food. A civilian eats 1406 pounds. It takes half a ton more to keep the soldier fit.

## SONORA-OZONA IN NON-CONFERENCE TILT

A non-conference, early-season practice game with the Sonora Bronchos, in addition to the annual Armistice Day battle with that team, has been arranged for September 26, by the Ozona High School Lion's mentors, it was announced this week. The Sonora-Ozona conference game will be played in Sonora Nov. 11.

The Sonora practice tilt will be played in Ozona, bringing to three the total number of home games now scheduled. Eldorado and Menard are the other two opponents who will be entertained on the local grid.

## TRENCH SILOS— Latest Developments In Trench Silo Construction Given By A & M Man

### Agricultural Com. Addresses TSGRA Directors Sept. 9th

Fred T. Earwood, President of the Texas Sheep and Goat Raisers' Association announced today that State Commissioner of Agriculture J. E. McDonald, will address Directors and stockmen attending the Association's quarterly Directors meeting, September 9, in Mineral Wells.

Directors, their wives, and visiting stockmen will be entertained during their visit in Mineral Wells by a dance on the night of Sept. 6, in the air-conditioned Baker Hotel, Jack Amlung and his orchestra furnish the music. Directors and visitors will also be entertained at a barbecue on the J. R. C. Mosley ranch following their morning business session on Sept. 9.

The Association has 160 Directors, located throughout the Southwest. It is believed many of them will be in Mineral Wells for the meeting. Many stockmen from the Palo Pinto County are expected to attend. Problems concerning wool, mohair, ceilings, labor, etc, will be discussed.

## Men In Armed Forces May Buy New Autos

### ORDER SO RESTRICTED ITS WORTHLESS

Members of the armed forces of the United States are eligible to purchase new passenger automobiles, J. L. Nisbet, chairman of the Sutton War Price and Rationing Board, announced today, if they can provide proof that a car is needed for transportation between residence and post of duty or on official military business where no practical means of transportation exists and where no military vehicle can be supplied for their use.

Nisbet said this is the purpose of Amendment No. 12 to the new passenger automobile regulations. That amendment parallels a change made recently in the tire rationing regulations, to make Army and Navy personnel eligible for recapped tires under the same conditions of necessity.

The War and Navy Department recommended such action in both instances.

Nisbet explained that a member of the armed services, in order

College Station—Drainage is one of the most important factors in building a trench silo, according to E. R. Eudaly, dairyman of the A. and M. College Extension Service.

A trench silo on a hillside provides easy drainage at the depth desired, both depth and drainage may be obtained by piling the excavated soil on the banks. On level ground the trench should be constructed above the ground unless it can be dug down to a strata of sand or gravel which would provide drainage. Above-ground construction calls for parrell levees of dirt. Height and width will depend upon the number of livestock to be fed, but capacity in no way affects preservation of the feed, Eudaly says.

If the floor of the surface level trench gets muddy cover it with rock, gravel, sand, brick or concrete. Such covering improves the bottom of any trench. Trench walls should slope at least one foot in four but if they cave slope the walls two feet in four. Walls may be made permanent by lining them with rock, brick, plaster or concrete.

When a trench is opened a slice at least four inches in thickness must be taken off the exposed end daily to prevent spoilage. As this involves possible wastage, Eudaly suggests that it is better to have a small trench than one which is too large. With a small container two or more slices may be taken off daily if that much feed is needed.

"If you have only five head of cattle," Eudaly explains, "I suggest that you make the trench three feet wide at the top, two or two and one half at the bottom, and three feet deep. It may be as long as you want it, depending upon the amount of feed to be buried. The more livestock you have the wider and deeper the trench can be made."

to establish eligibility to buy a new car, must present to the local War Price and Rationing Board a statement from his commanding officer showing:

1. No other practicable means of transportation are available.
2. The automobile will be used for necessary transportation between residence and post of duty, or on official military business but not to transfer applicant from post to post.
3. No quarters can be provided for the applicant at his post of duty or where his work is to be performed, or the applicant's duties require frequent travel.

# Army and Navy Enlistment News

Voluntary enlistment in the United States Navy continued to smash records in south Texas during August, with the report to the area's headquarters in Houston that 3,438 men during that month had entered the Naval service.

"This is the third consecutive month that the Houston district has bettered its monthly records in the number of men joining the Navy," Lt. J. F. Beebe, Officer-in-Charge said Tuesday. It was indicated the mark would place the Houston area high among, if not on top of, the Navy recruiting stations of the nation.

The record-smashing August figure includes enlistments in Class V-5 of the Naval Reserve, the flight-training program leading to commissioned officer status, and in Class V-7, the program for potential deck and engineering officers.

"Men interested in the Naval service must remember," Lt. Beebe said, "that even though they have received their induction notice under selective service, they can volunteer for the Navy up to the moment of induction."

Randolph Field—There's a place in the Army Air Forces at Randolph, Kelly and Brooks fields for the man who is accustomed to working with tools.

Recent appointment of technicians to the field of their choice to which procurement officers at the three stations in the San Antonio area began large-scale enlistment of automobile, farm, truck, tractor or maintenance mechanics, radio operators or repairmen, sheet metal workers, welders, service repairmen, appliance servicemen, armorers or gunsmiths, electricians and instrument makers or repairmen.

In the new Army Air Forces mechanics enlistment program, being conducted throughout the Gulf Coast Army Air Forces Training Center under the direction of Major General H. R. Harmon, Commanding Officer, men between the ages of 18 and 45 are being given the opportunity to become aircraft mechanics or radio operators, getting their training "on the job," thus serving their country where they're most needed and preparing themselves for a career in the limitless future of aviation.

Under the new program, inter-

ested men first will apply without obligation to the field of their choice, either in person, or by letter, to the following technician procurement officers:

Randolph Field: Major Thomas H. Royder, post headquarters building;

Kelly Field: Lt. Ralph W. Bergstorm, 309th School Squadron;

Brooks Field: Capt. John M. Flatten, post recruiting office.

From these officers, qualified applicants will receive letters which will insure proper earmarking of enlistment papers at the San Antonio recruiting office.

The men then will be processed at a reception center and returned to the field of their choice to which they first applied, after they have completed routine tests and preliminaries, requiring only a few days.

At Randolph, Kelly and Brooks fields, the accepted technicians will undergo a short basic military training routine after which they will be placed on duty as mechanics learning as they work.

In this specialized branch of the Army Air Forces, it is expected that many of the new technicians soon will qualify for non-commissioned officer ratings with accompanying pay increases. The more able may also earn flying status which carries a 50 percent increase in pay.

Applicants who communicate with any of the above listed technician procurement officers are asked to include name, age, address and complete details of mechanical experience.

Captain Kenneth B. Sherouse and Technical Sergeant John F. Rohloff of the Army Air Forces will be in San Angelo on Sept. 7, 8, and 9th for the purpose of interviewing mechanics and technicians for the Army Air Forces. All men who work with tools, large or small, are urged to apply for information or interview with them or other recruiting personnel at the U. S. Army Recruiting Office, Post Office Building, San Angelo, Texas.

The United States Army Air Forces has an immediate opening for thousands of skilled mechanics and technicians for service in the Air Corps, the War Department announced recently. To keep pace with the material procurement program of the nation, the Army Air Forces need aircraft mechanics, armorers, radio mechanics, radio operators, metal workers, and welders.

There are 118 trades closely allied to the above named general headings which will qualify an applicant for enlistment. These trained men, or specialists, will be enlisted in the United States Army Air Force and their services are designed to supply all branches of the Air Force with professional scientific and technical personnel vitally needed at once, chiefly for maintenance work as a stop-gap until the training of the Nation begins to turn out graduates in sufficient numbers. A special application for stating a man's main and secondary occupational qualification may be obtained at any Army Recruiting Office.

All applicants must be citizens of the United States between the

ages of 18 and 44 inclusive and obtain a clearance from their local Selective Service Boards. They must meet the current physical standards of the Army, and must present proof of their technical skills through past experience, employment and training, and pass the United States Employment Service Trade Test.

In view of their skills, it is expected that most of these men will shortly receive non-commissioned officer or technician ratings, and rapid promotion may be expected. Specialists in the Air Force who volunteer and are assigned to air combat duty will be on a flying status with a 50 percent increase in pay.

Pay scales range from \$50.00 a month for Private to \$138.00 a month for Master Sergeant. In addition there are family allowances for men with dependents. The Army pays all a soldier's expenses, including quarters, food, clothing, medical care, and on the job training.

For enlistment in the Air Forces, men should be able to qualify if they are experienced in any of the following listed trades, or allied trades: airplane mechanic, diesel mechanic, instrument makers and repairmen, watch and clock makers, electricians, welders of any type, jewelers, radio mechanics and servicemen, or competent radio amateurs, radio operators and telegraph operators, etc.

Enterprising Panhandle farmers, with the help of their wives, have made "slip covers" to protect their tractors from the weather. The covers are made from old wagon sheets and other discarded materials.

## HARDEMAN TO SPEAK AT LIONS TEACHERS NIGHT TUESDAY

Dorsey Hardeman of San Angelo will be the principal speaker at the Lions Club Teacher's night, Tuesday night at 7:30 at the Methodist Church. The event, an annual one, is held each year in September to introduce the school faculties to the public. The remainder of the program, in the hands of H. V. Stokes, E. D. Shurley, and E. D. Stringer, has not been completed.

"They say that in China you can buy a wife for five dollars." "Why that's frightful." "Oh I don't know. A good wife may be worth it."

Corp. Louie Trainer of Good-fellow Field is spending several days in Sonora visiting his parents, Mr. and Mrs. J. W. Trainer.

Lt. A. F. Moffett of Fort Blanding Georigit is here for a few days visiting his wife, Mrs. Moffett.

THE COLD FIGURES ABOVE barely hint at the three years of fighting sacrifice which the British people have devoted to smashing the Axis. British income tax starts on an income of \$440. The standard rate is 50%; with surtax it rises to 97½%. War Savings include nearly \$200,000,000 which Britons have voluntarily lent their Government without interest. The growth of British war production has to be shown by percentages based on 100 rather than by actual figures which are secret. The chart shows only a few examples of the restrictions placed by law on the supply of consumer goods—and even the limited supplies permitted are not always available to the shopper. Many foods not rationed are completely unobtainable. Thus the whole people contributes to victory.

## Methodist Church To Celebrate 50th Anniversary September 13th

Rev. Alfred Wells To Hold Revival

On Sunday, September 13th the Methodist Church is to celebrate its 50th Anniversary. The first religious service in Sonora was held in the old Morris home across from the Court House by a Methodist Circuit Rider. It was 50 years ago that the first church was built. In connection with this celebration Rev. Alfred Wells of Dallas, Texas, an evangelist, will be the preacher for a ten day meeting. The revival starts with the celebration just as the church was started 50 years ago with a meeting. It was the custom in those days for neighboring churches or ministers to start new churches by such a procedure. The Methodist Church of Sonora was started in this way by a minister stationed in Ozona.

To Hold Meeting

Rev. Alfred Wells

Rev. Alfred Wells is well known all over this state and Louisiana as one of the most effective preachers of evangelism the Methodist Church has. He has an appeal that attracts people who care to think and all those who have an interest in the finer things of life. He also does his own singing. He is a fine leader of young people and children. The present pastor has had him in other churches of his and he comes highly recommended. Rev. Wells will speak the first time after the noon barbecue on the Court House lawn, close to the spot where the first religious service was held in this city. All people and all churches are invited to attend this service and share the dinner together. This event is a historical event of the town and the Methodist Church desires to stress the importance of it and make every person in town welcomed that day to all of its services and activities including the barbecue.

## Halbert Home Scene Of Party

Mr. and Mrs. R. A. Halbert entertained the Friday Night Bridge Club last Friday evening.

Mrs. A. C. Elliott and G. A. Wynn won high scores. The bingo prizes were won by Mrs. L. E. Johnson, and Collier Shurlay.

Mixed flowers decorated the room.

A fried chicken dinner was served to Messrs and Mesdames A. C. Elliott, P. J. Taylor; Mrs. L. E. Johnson, Mrs. R. C. Vicars, Mrs. Belle Steen, Miss Ada Steen, G. A. Wynn, and Collier Shurlay.

## Just Us Club Meets With Mrs. G. H. Hall

Mrs. G. H. Hall entertained the Just Us Club Tuesday afternoon at her home.

Mrs. G. H. Davis won high club and Mrs. I. B. Boughton received the guest prize, Mrs. J. A. Cauthorn won the cut prize.

An assortment of flowers decorated the living room. A salad course was served.

Members present were Mesdames J. F. Howell, G. H. Davis, R. A. Halbert, Libb Wallace, Rip Ward, J. A. Cauthorn and C. A. Tyler; guests present were, Mesdames I. B. Boughton, S. M. Loeffler, W. D. Wallace, J. H. Trainer, and J. L. Nisbet.

## Mrs. Speed Entertains Club

Mrs. Beamon Speed was hostess to the Firemans Wives Bridge Club Wednesday evening. Mrs. Lee Patrick won high club and Mrs. L. E. Holland high guest.

Chocolate cake and ice cream was served to Mesdames: Lee Patrick, S. M. Loeffler, L. E. Holland, George D. Chalk, Pat Carroll, A. H. Adkins, Jack Ellingson, Erwin Willman, Mat Adams, George Barrow and Ardena Speed.

## CAST OF "THE DESPERADOES" AGAIN ON LOCATION

After two weeks of filming interiors at Columbia studios, the cast of the important all-technical feature, "The Desperados" left this week to make exterior shots at the companys San Fernando ranch. The group recently returned from three weeks on location at Kanab, Utah. Top spots in this film version of the late Courtney Riley Cooper's last novel, "The Pioneers," are filled by Randolph Scott, Glenn Ford, Evelyn Keyes and Claire Trevor. Edgar Buchanan is featured and Guinn 'Big Boy' Williams and Bernard Nadell have important roles. Just before leaving on the second location trek, Director Charles Vidor also signed Porter Hall, Chester Clute, Ethan Laidlow and Glenn Strange to the cast of this panoramic drama, telling the story of early settlers in this country's great Northwest.

Mr. and Mrs. Grady Lowrey and daughter Doris of Del Rio spent a few days here visiting Mr. Lowrey's parents Mr. and Mrs. J. D. Lowrey.

## Schweining-Cain Wedding Read

Miss Margaret Schweinig became the bride of Dayton Cain of Wichita Falls, May 2nd in Lawton, Oklahoma. The ceremony was officiated by the Justice of the Peace.

Attending the wedding were Sgt. and Mrs. L. D. Holman, J. D. Holman and Mildred Reed all of Burkburnet.

The bride wore a dress of Navy blue with red accessories. Mrs. Cain, daughter of Mr. and Mrs. Alfred Schweining of Sonora graduated from Sonora High School and has been attending T. S. C. W. in Denton. She will receive her degree this year.

Mr. Cain, son of Mr. and Mrs. E. B. Cain of Wichita Falls, attended Wichita Schools and defense school in Denton.

He is now employed with an oil company in Wichita Falls.

## Baptist W. M. S. Meets At Church

The Womens Missionary Society met Wednesday at the Baptist Church for their regular Bible study. Mrs. Alfred Cooper taught the lesson. Members present were Mesdames Lee Hart, L. H. McGhee, H. J. Long, W. E. Wright, L. R. Nichols, J. K. Lancaster, O. C. Webb, Frank Lee, and Eugene Durham. The new president Mrs. Lawrence Nichols will preside at the business meeting next week. All of the women of the church are urged to come and help make this a "banner year for the W. M. S."

Mr. and Mrs. George Trainer, Jr. and children of Goose Creek have been visiting here with Mr. Trainer's mother Mrs. George Trainer, Sr.

## Congratulations

Mr. and Mrs. Hugh Shaw, former Sonorans, now of Borger are the parents of a 6 pound 8 ounce baby girl. The baby, named Sherrilyn Kay, was born August 27.

Born August 31 to Mr. and Mrs. Jack Whitley was a boy weighing 7 pounds 4 ounces. He has been named Jeffrey O'Neil.

### CASUAL ENSEMBLE

Get away from that "uniform look" in a distinctive ensemble that is at once feminine, casual and easy to wear. This New York creation for city and country wear, features a softly tailored jacket of gun club check wool; a dress of natural gabardine.

## The Home Front

By Mrs. Julia Kiene

Westinghouse Home Economist

### Safety Firsts

WAR has brought home the necessity of an "ounce of prevention." Here's hoping the new housekeeping habits we form will stick with us afterward. The following will save time, money and trouble.

Mrs. Kiene

Pull out plugs on electric heating appliances when you finish using them — it saves electricity. Tighten up loose electrical connections — they may cause radio interference and sluggish operation of lamps and appliances. Do not attach lamps and appliances to a lighting fixture by a dangling cord — it leads to overloaded circuits and may cause a fuse to "blow." Besides, you may hit the cord and knock over the appliance.

Never use a substitute for a fuse. Fuses are safety devices, and makeshifts are no protection. Before replacing a fuse, find out what the trouble is. Whether it's an overloaded circuit, defective

wiring or short circuit, rectify the fault first, then replace the fuse. Always use the correct size.

Makeshift wiring is an expensive attempted economy. If you need a longer cord, let an electrician lengthen it for you. It's dangerous to try splicing it yourself. Don't run an extension cord under a rug, but if you must, be sure the cord is flat, not round. Never nail cords to wall or floor—it's safer to install extra outlets.

Chow Mein on Steamed Rice  
Buttered Peas  
Fruit Salad  
Rolls - Butter  
\*Sugarless Cake  
Milk - Coffee

\*Sugarless Cake Recipe  
2 1/4 cups sifted cake flour  
2 1/2 teaspoons baking powder  
1/4 teaspoon of salt  
1/2 cup butter or other shortening

Sift flour with baking powder and salt. Cream shortening with orange rind. Add syrup, gradually, beating well. Add 1/4 of the flour, beat until smooth and well blended. Add eggs one at a time beating well after each. Add remaining flour alternately, with milk, beating well after each addition. Add vanilla. Pour into two 8-inch greased and floured cake pans.

## CARROLL BEAUTY FOR "SHALL I TELL 'EM?"

Beryl Wallace, star of the current Earl Carroll revue on the west coast, checked in at the Columbia Studios yesterday, for her role in "Shall I Tell 'Em" Bert Gordon, the Mad Russian of radio fame, has the top comedy role in this laugh film, and Margaret Lindsey and John Beal share the romantic leads. Miss Wallace's only previous appearance in pictures was in the screen production "A Night at Earl Carroll's."

Mary Jane Evans of San Angelo is visiting here with Mr. and Mrs. L. E. Johnson.

 Training Union 7:45  
 Evening Worship 8:30

The St. Johns Episcopal  
 11:00 — The second Sunday of each month for morning prayer.  
 Rev. H. Evans Moreland

The Methodist Church

Mens Bible Class 9:30 a. m.  
 Sunday School 9:45 a. m.  
 Morning Worship 10:50 a. m.  
 League Service 7:30 p. m.  
 Evening Worship 8:30 p. m.  
 W. S. C. S. (Wednesday) 3: p. m.

Our church calls to the attention of all members the change of time for all day services. With school starting the majority of members present on August 23rd voted that we go back to the regular fall and winter schedules. The above schedule will hold for the rest of the year except the night service. As the days get shorter the evening time will be changed but will remain at 8:30 until about the first of October.

We want to call attention to every members and friend the time of our revival. It starts the 13th and ends the 23rd of this month. The Rev. Alfred Wells of Dallas will be the preacher. No better preacher for the period could be secured. You have a treat in store for you. Everyone in the community is cordially invited to attend all services.

The Womens Society of Christian Service will meet at the Methodist Church Wednesday afternoon at 4 o'clock for a regular business session.

## JEFF DONNELL TO LEAD IN "THE FRIGHTENING STIFF"

Jeff Donnell, Columbia's promising young Summer Theater discovery, drew her third important part yesterday, when she was named the chief feminine supporting role in the Loretta Young-Brian Adherne starrer, "The Frightened Stiff." Director Richard Wallace simultaneously added William Wright to the cast of this new comedy-mystery, which goes before the cameras next week, with Sam Bischoff producing. Miss Donnell played her first screen role in the company's "My Sister Eileen," and upon completion of her sequences in the Rosalind Russell-Brian Adherne starrer, began work at once on "The Boogie Man Will Get You." This is the horror-mystery film with Boris Karloff and Peter Lorre in top spots.

Jean Hartenridge of Marshall was a guest of Libby Jo Wallace for 10 days.

## A Week of the War . . .

War Production Chairman Nelson announced the War Production Board is reating every project in the war program to secure the "maximum impact on the enemy now." Combat planes, particularly bombers, are at the top of this new list, Mr. Nelson said.

Chairman Nelson reported the U. S. is now producing munitions three and a half times the rate in November 1941, the month before Pearl Harbor. July production forecasts made at the beginning of July. "The big job ahead of us right now is to bring our program into balance and make sure that

we use our materials and facilities as widely as possible," he said. "This means that we must redouble our efforts, particularly on the low spots, if we are to make our goals by the year's end."

Aircraft production increased 11 percent in July over June output, Mr. Nelson said. Although combat plane production rose 6 percent, it was not up to expectations. He also reported: overall ordnance production in July increased 26 percent over June output, and was very close to schedules; production of medium tanks was 35 percent greater than in the previous month and considerably ahead of sche-

dules; light tanks up 15 percent also were ahead of schedules; anti-aircraft guns exceeded schedules by "a wide margin;" merchant ships were up 6 percent and "nearly on schedule for the month;" deliveries of major combat vessels were ahead of those in June and "considerably ahead of forecasts."

### The War Front

General MacArthur's headquarters in Australia reported allied fighter pilots using new tactics shot down at least 13 Japanese planes, and probably 15 or more, out of an enemy fleet of 47 which attacked Darwin. No allied planes were lost. The Navy reported the Marines' hold on at least three of the Solomon islands is now well established. When 700 Japanese

counter-attacked on one of the islands 670 were killed and the other 30 taken prisoners, Pacific Fleet Commander Nimitz reported. The Marines losses were 28 killed and 72 wounded. Admiral Nimitz also announced a force of Marines made a successful landing on Makin Island, killed 80 Japanese, wrecked various installations, and then withdrew.

U. S. Army Headquarters, European Theateh, announced arrival in Britain of the largest U. S. convoy of the war, with more men and material for the American air forces which had already begun precision bombing by daylight of Nazi-occupied Europe. U. S. flying fortresses bombed the Nazi transportation system at Amiens and Abbeville. In a battle over the North Sea, four flying fortresses shot down three German fighters and damaged nine others, while all the U. S. planes returned safely. A U. S. Ranger Battalion joined with Canadian and British forces in a nine-hour raid on Dieppe, France. The Navy reported U. S. submarines operating in the Aleutians and in the Far East sank a cruiser or destroyer and damaged a transport, and damaged another cargo ship. The torpedoing of seven more United Nations merchantmen by enemy submarines was announced.

### Foreign Relations

President Roosevelt and Secretary of the State Hull sent messages of solidarity to Brazil as that country became the first South American nation to declare war on Germany and Italy. The President said Wendell L. Wilkie will tour Europe and the Near East as his special representative in order to

correct the impression in those places that U. S. production is not all it should be. Mr. Wilkie will carry messages from the President to foreign leaders, including Premier Stalin. The President issued a statement that the perpetrators of "barbaric" acts in occupied countries "will have to stand in the courts of law" in the same countries in which barbarism now rages and answer in those courts for their crimes.

### Army and Navy

The War Department said it will inaugurate this fall a voluntary preinduction training program utilizing existing facilities of schools and colleges to meet present and future needs for properly trained personnel in the Armed Forces. Out of every 100 men inducted into the Army, about 63 are assigned to duties requiring specialized training, the Department said. The Army said it is organizing and training Port Battalions (composed mostly of former stevedores) for duty overseas to insure prompt handling of U. S. military equipment for forces stationed throughout the world. The Department said checks in payment of allowances to dependents of enlisted men of the Army, covering the first applications to be approved, will go out shortly after September 1.

The Navy announced recruiting of enlisted personnel of the Women's Naval Reserve will begin September 11, and training will start October 9 at the University of Wisconsin, Indiana University and Oklahoma A. and M. College.

Selective Service Director Hershey said draft boards will begin calling men with dependents before Christmas. He said single men with "secondary" dependents, such as aged or crippled relatives, will be called first; married men whose wives work, next; then men with dependent wives; and finally men who have wives and children. He

said the reservoir of 1-A men throughout the country is "practically exhausted." Selective Service headquarters said Class 1-B (men fit for limited military service only) will be eliminated, and beginning September 1, all registrants who are not totally disqualified will be reclassified in 1-A, while those not suited for any military service will be placed in 4-F. In the case of men reclassified in 1-A, the Army will determine oftar induction whether they will be assigned to full or limited service.

### Stabilization of Farm Prices

Secretary of Agriculture Wickard said he would approve a plan of livestock ceiling prices which "must not permit abnormal profits to anyone in the industry at the expense of the producers or consumers." Mr. Wickard also said he now favors repeal of the provision of the price control act "that prohibits ceilings on processed farm products if the ceiling price reflects a farm price of less than 110 percent of parity." He said farm prices "have reached parity on an average." The WPB Food Requirements Committee asked the armed forces, the Lend-Lease Administration, and the War Production Board to collaborate in working out a program for allocation of all Government meat purchases as equitably as possible among federally inspected packers. The Agricultural Marketing Administration bought \$137,900,000 worth of foodstuffs during July for the United Nations and other requirements, including 80,000 pounds of dehydrated beef.

Rationing  
Tire quotas will have to follow a downward trend the rest of this year to keep within the amount of rubber earmarked by the WPB for the purpose, the Office of Price

## Science In The News

By ORSON D. MUNN, L.H.B., L.L.B., Sc.D.

Editor, Scientific American

Soap stands for cleanliness, sanitation, health, and civilized living; it is indispensable to human comfort. But soap has other values which become especially apparent in wartime, values which send carload lots of soap to many of our war production plants.

Some of the new artificial rubber factories use enough soap to supply the homes of a small city.

In the processing of both artificial and reclaimed rubber, common soap is employed variously as a dispersing, lubricating, stabilizing, and wetting agent. In synthetic rubbers of the butadiene type the ingredients are emulsified in soapy water. In a widely used method for the utilization of reclaimed rubber, scrap rubber is ground up and mixed with ten per cent of soap. Then water is added gradually while the mixture is being cooked and stirred to make a latex which is almost, if not quite, equal to the original.

At present, however, the largest industrial consumer of soap is the textile industry, where soap finds application in almost every process of converting raw materials into finished fabrics—in scouring raw wool, in felting, in bleaching and cleaning rayon and cotton goods, in dyeing, as a softening or filling agent, and in shower-proofing. Raw wool, cotton, and silk may contain as much as twenty to fifty per cent of dirt, which must be removed by repeated soap baths. More washings with soap and water are required as the woven fabric goes through printing processes.

Soap baths also enter many metal manufacturing routines. Steel ball bearings are thoroughly scrubbed in rotating drums; metal parts to be plated are first cleansed in a simple soap bath; and so on. As a lubricant to reduce friction and heat in wire drawing, tube drawing, and metal rolling under terrific pressure, it has been found

that simple soap solutions stand up better than oils and greases, a characteristic which has become more useful under the stress of today's hurry-up methods.

The flotation method of concentrating ores, which permits economical working of sources of essential minerals formerly considered useless, is calling for increasing amounts of soap. Soap has been successfully used in the flotation of scheelite (tungsten-bearing ore), hematite (iron ore), cinnabar (mercury ore), apatite (natural phosphate of lime), and others.

Because soap will penetrate many materials and carry other substances with it, it is a standard ingredient of compositions used to impart suppleness and finish to leather products. Leather dressings, leather cleansers, shoe polishes, etc., usually contain large proportions of soap. Leathers for a great variety of military uses are now treated with colloidal graphite, carried in a soap suspension, to increase their resistance to heat and moisture.

Since soap lowers surface tension, soapy water will cover a considerably greater area than an equal amount of pure water. This property of soap makes it an essential ingredient of insecticide sprays, more important now than ever on farms and victory gardens. Thousands of tons of soap are thus used, in conjunction with mineral and vegetable poisons, to spread the liquid over more area. Here soap does double duty because it also blocks the breathing tubes of its insect victims.

The uses described here by no means exhaust the long list of industrial processes where soap is used for other than cleansing reasons, but they serve to indicate the importance of this well-known material in little-known fields.

**Lumber Under Control**  
WPB has replaced its temporary "freeze" order on softwood construction lumber with a permanent control on the distribution and use of all types of softwood lumber. The new WPB order, M-208, puts purchase orders into four classes, with automatic priority ratings granted, according to uses of the lumber.

**Equipment Control Tightened**  
Effective August 27, many types or industrial equipment can be purchased only on a priority rating of A-1-C or higher, instead of the A-9 rating which formerly was sufficient. This amendment to WPB Order L-123 covers passenger and freight elevators, fans, compresses, pumps, electric motors over one horse power and other types of general equipment. The amendment, however, permits production and delivery, prior to October 1, 1942, of equipment ordered before August 27 on an A-9 or higher rating.

**Increased Oil Shipments Sought**  
With shipments of oil to the eastern states clocked August 22 at 817,980 barrels daily, a slight drop from the peak of 830,000 barrels recorded the previous week, due to washed-out railroad bridges, ODT officials and representatives of the petroleum industry announced further plans to increase shipments from the Southwest in solid trainload lots. Instructions have been sent to small shippers of oil on routing their cars by the most expeditious routes. The Office of Petroleum Coordinator for War also has banned use of tank cars for moving gasoline in the Southwest and Midwest, so additional cars will be released for eastern traffic. An estimated 70,000 tank cars now are carrying oil to the east, in solid trainload movements of 50 or more cars. Appointment of W. M. Kent, of Homer, La., as assistant deputy associate director of ODT, to handle oil shipments from Louisiana, Arkansas, and East Texas, has been announced. Mr. Kent's office will be at Shreveport, La.

**Extra Tires For Lumber Industry**  
Texas logging and lumber trucks have been given a special supplement quota of 1,389 tires for the month of August, OPA State Director Mark McGee announced. Most of the special allotment will be distributed in 27 Texas counties where logging and sawmill activity now are at a wartime peak.

**Awards For Scrap Dealers**  
Recognition of outstanding service to the war effort will be awarded to leading scrap dealers in the form of emblems. WPB's Conservation Division will present the emblems on the basis of the scrap dealers' cooperation with WPB policies and on evidence that tonnage deliveries of scrap from the yards are one-third above deliveries for the first part of the year. First awards are scheduled for September 1. Monthly awards will be made thereafter during 1942.

**Livestock Ceilings Planned**  
Assuring livestock producers that anything in the way of surprise action will be avoided, OPA has announced that definite plans are in progress for placing a price ceiling on live hogs and similar action is contemplated soon on cattle prices. Working out of ceilings will be undertaken in close consultation with producers, and completed plans will be submitted to the Secretary of Agriculture for concurrence. With a strong demand for beef cattle in prospect, the market will be more stable, as compared with other years, and feeders who buy carefully may look forward to the coming year with confidence.

**Guide For War Volunteers**  
An official guide to help people of all ages and occupations to get more than "ankle deep" into the nation's war effort has been published by the Office of Civilian Defense. The booklet, entitled "What Can I Do?" may be obtained from state and local defense councils or from the Office of Civilian Defense in Washington. The first official compilation of volunteer war work opportunities, OCD's booklet outlines work for women, for boys and girls, for citizens living in "target areas" and for members of specific trades and professions.

**Home Made Dresses Controlled**  
WPB's new limitation order, L-153, effects the same conservation of materials in women's dresses and other garments made at home as those set up for ready-made garments in order L-85. The

new order applies to paper patterns used by the home dress-makers. The more severe measurement restrictions on wool garments ordered by L-85 for ready-made garments are not included in the pattern order, as manufacturers can not know for what material the pattern will be used.

**Radio Campaign Planned**  
Beginning September 14 and continuing through October 26, the Federal Government will conduct a national radio campaign designed to inform the people of the facts of the nation's war effort. Announced by the Office of War Information, the program was described as the most important ever undertaken in this country. All radio stations will be sent news transcripts featuring such news commentators as William Shire, Walter Winchell, John Gunther, Lowell Thomas and Raymond Gram Swing. These commentators will report war effort facts on 14 of the major United Nations, including England, Russia, China, Greece and the Fighting French.

**Bicycle Quotas Announced**  
September rationing quotas for new adult bicycles for the six-state Southwestern OPA region have been announced as follows: Arkansas, 443; Kansas, 1152; Louisiana, 961; Missouri, 1960; Oklahoma, 962; and Texas, 2968.

**Rubber Shrinks Again**  
Tightening up still further on the use of vital rubber supplies, WPB has prohibited sale and use of elastic fabric, rubber yarn and elastic thread except in nine specified health and industrial articles,

including gas masks, goggles, surgical stockings and artificial limbs. Use of rubber fabric and thread even in these items is forbidden after September 9 except on permission granted by WPB on specific application. Other health items, including supports for abdomen, back and breast, can no longer be made with rubber fabric or thread. Consumption of crude rubber, latex, reclaimed rubber and scrap rubber is all civilian products henceforth will be permitted only on specific allocations by WPB's Director General for Operations.

**New Typewriter Rental Banned**  
A ban on rental of new typewriters and used non-portable typewriters made since January 1, 1935, has been issued by OPA. All used machines in this classification that are now rented must be returned to dealers by Sept. 15. This action was necessitated by slow public response to the Treasury Department's drive to buy 300,000 used typewriters from their owners to fill urgent needs of the Army, Navy and other government agencies. The new OPA order also placed a three-month limit on rentals of standard typewriters made before Jan. 1, 1935, and all used portables. Although so-called "stripped" portable machines and obsolete typewriters are released by the new OPA order for unrestricted sale, all other sales are governed by rationing regulations.

**Share-A-Truck Plan Urged**  
With a September truck allotment for Texas of 18,459, almost six thousand below the August OPA rationing quota, Mark McGee, State OPA Director, urges all farmers to plan speedy adoption of "share-a-truck" plans to insure movement of fall crops. This plan already is being used successfully in Ellis County, he said, and will be presented at Lubbock on September 8 to a committee of local war price and rationing boards of 21 South Plains counties and representatives of 15,000 farmers in that region.

**Peanut Loading Ceiling Raised**  
An adjustment from 50 cents to

**Sugar Loosening Up; Bicycles Harder To Obtain**

New retail or wholesale business that have opened up since rationing went into effect last April 28 may now obtain allowable sugar inventories under an amendment of the sugar rationing regulations, J. L. Nisbet, chairman of the Sutton War Price and Rationing Board, announced today.

"A new retailer will be given an initial allowable inventory of one pound of sugar for each \$1 of gross sales he estimates will be made during the first week of his operation," Mr. Nisbet explained. "The retailer's estimated gross sales should include all commodities such as meats, groceries, fruits, vegetables and canned goods." The allowable inventory of a new wholesaler, he said, will be the customary minimum shipping unit in which sugar is delivered to wholesalers in his territory, plus the amount of sugar the wholesaler estimates he will sell during the first two calendar weeks of his operation.

"Our office has been advised by the Office of Price Administration to make certain that persons making application for new wholesale or retail sugar allowances are actually opening businesses," Mr. Nisbet added. Within 10 days after the completion of the first two full months of operation, the new retailer or wholesaler must mail or deliver in person a written report to his local board, Mr. Nisbet said, and in the case of the retailer, this report must show his average weekly sales. The wholesaler must report his actual sale of sugar for the two-week period. If the board finds the initial allowable was too large, it may reduce the size by requesting the retailer or wholesaler to turn in stamps or certi-

75 cents a ton as the maximum charge for loading peanuts in and out of warehouses operating under contracts with agencies designated by the Agricultural Marketing Association has been announced by OPA.

ificates for cancellation; and if the original inventory was too small, this may be increased by the issuance of a certificate.

When work in U. S. Forest Service nurseries were discontinued in the Texas Panhandle, 96,000 young trees were distributed among 11 counties. Mansford County alone received 7,000 for 30 windbreaks.

WHEN I drop into Sam Abernethy's store, I usually come away with something worth rememberin'.

Sam's our town's most successful storekeeper and he's not one to do much talking, unless he figures he's really got something to say.

Last evenin' he said plenty.

Stranger was in the store. And Ben Ryder, Homer Bentley and some others were talkin' about the scrap collection when this feller sort of horned in...

"I hear these scrap collections are a lot a bunk," he says. "Fact of the matter is, this junk they're gatherin' ain't no use for makin' steel. Just a waste of time gettin' it together..."

At that point Sam steps in.

"Jest a minute," he says, fixing him with a cold and steely eye. "May I inquire where you got them so-called facts?"

The stranger hems and haws, and Sam advances on him grim and unsmilin'.

"Name your authority, sir," he says. And he wasn't kiddin'! "Tell

us, where did you get all this inside, private information?"

Well, sir, I never saw Sam so mad since Lem Martin's dog chased the cat into the pickle barrel. And I guess I never saw a man crawfish out of a place fast as that fellow did.

Thinking it over afterwards, I came to the conclusion that Sam's got the real system for handling folks who throw facts and figures around free and easy like.

F'rinstance, I've noticed there's some pretty fancy fact and figure jugglin' done by some of those who oppose the right enjoyed by millions of decent people to drink a friendly glass of beer when they want to.

Lately I've been asking these folks the same kind of questions that Sam asked that rumor-mongerin' stranger. Try it yourself, next time you hear anybody making derogatory remarks—whether it's against the war effort... or just against beer.

Farm families in Wilbarger Co. have delivered 66 carloads of scrap metals for delivery to war smelters. The county extension agents, W. W. Evans and Nannie Hill, say the "human chain system of communication" proved equally effective in the recent collection of scrap rubber.

"I'm going to see a doctor about my wife. I don't like the way she looks."

"I'll go along with you. I don't like the looks of my wife, either."

Mrs. J. F. Howell and children, Franklin, Jr. and Marguerite, spent last Friday in San Angelo.

### Phenothiazine Kills Internal Parasites of Livestock

Phenothiazine may be given in capsules or pellets, or mixed as powder in feed, or by drench methods shown above.

SCRAWNY sheep, cattle, horses, poultry, and swine, victims of internal parasites that sap normal growth, are transformed into normal healthy animals by dosing with phenothiazine, a new synthetic chemical drug, veterinarians advise.

Diseases of farm animals, many of them due to gastro-intestinal "worms," cost the country more than \$200,000,000 a year, a loss which phenothiazine is helping to reduce substantially. In fact, the last annual report of the Secretary of Agriculture states that the findings of investigators of the Bureau of Animal Industry have been confirmed by workers elsewhere in the United States and abroad, "with indications that phenothiazine will become the most valuable treatment yet known for the removal of internal parasites from domestic animals."

The new worm remedy offers one all-important advantage to

stock raisers with large herds and flocks—it kills many more of the common varieties of internal parasites than former drugs, the majority of which were effective against but a single kind. With phenothiazine, therefore, it usually is unnecessary to make individual diagnoses where large numbers of animals are concerned.

Manufacturers of stock remedies and veterinary supplies are receiving phenothiazine from Du Pont in an unmodified powder form. It may be mixed with feed or given to animals as a drench, which is the preferred method in many areas. The worm-killer also is made into capsules and pellets by various stock remedy concerns. Since certain precautions should be taken against overdosing, it is advisable to have a veterinarian administer phenothiazine. The drug has been consistently reported to have a high degree of efficiency.

#### More Rain Please

A Swedish farmer who wanted to make his permanent home in this country appeared for his naturalization papers.

Inquirer: "Are you satisfied with the general conditions of this country?"

Swede: "Yah, Sure."

Inquirer: "And does this government of ours suit you?"

Swede: "Well, Yah, mostly, only I lak see more rain."

Jo Beth Taylor will attend school this year at, Our Lady of the Lake.
