Mrs. Luella O'Leary, left, checks the staple of some of her fine wool with Warehouseman Fred Earwood at shearing time on her ranch near Sonora.

Francisco Avila, captain of the shearing crew on the O'Leary Ranch, pauses with a freshly shorn fleece of fine wool. Avila has been shearing the sheer on the O'Leary Ranch for 34 years.

Shorn wool is sacked up for delivery to the warehouse after it is graded into one of three staple lengths. The sacks hold around 150 pounds of wool each.

A shearing crew gets to work on five animals at a time. This crew travels over the Texas sheep country, working until all sheep are handled. A shearer can handle about 15 animals per hour.

# Sutton County Shearing Operation Featured In Newspaper Sunday Magazine Section

Ford's big, beautiful, and buyable for '50! A look will show you why Ford was selected as "Fashion Car of the Year." One "Test Prive" shows you Ford's "Big-Car" comfort, solid roadability, and "sound-conditioned" quiet of Ford's sturdy "Life-guard" Body.

White sidewall tires and wheel trim rings optional at extra cost.

### **BIG ECONOMY**

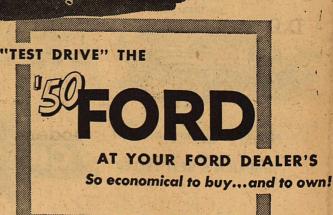

Great gas mileage—proved in the Grand Canyon Economy Run. There a Ford Six with Overdrive won from the three full-size, low-priced cars. And with Ford's low first cost, low operating cost, high resale value, it's the "Big Economy Pack-age" of its field.

### BIG POWER-V-8 or "6"

Your choice of two great economy engines, the famous 100-h.p. V-8—the only V-8 in its field or its companion-in-quality, the 95-h.p. Six.

#### **BIG SOFA-WIDE SEATS**

Soft, wide seats with the most hip and shoulder room in the low-price field. Seats that are "comfort contoured" for the utmost in big car luxury.

plate, bread and butter plate, cup and saucer. Anniversary prices from May 15 to June 17, only.

the Senate should concur it - we the fiscal year the Air Force and will still go in the red during the the Navy will buy 2,048 new airbillion dollars, according to bud-

get estimates. The cut-back, which will involve a reduction of some

200,000 federal employees, is a step in the right direction and actually should not effect the essential operation of the various departments and agencies. HIGHWAY AID BILL

Because of pressure of business was unable to attend the celebration of the completion of two farm-to-market road links connecting London and Harper last Saturday. I had accented an invitation but was forced to ask my friends there to excuse me from appearing.

Having been reared in that community, I was hopeful I could at-

Beginning in 1946, the Congress has each year provided federal funds to be used in the various states, on a matching basis, for farm-to-market and other highway construction purposes. A bill to continue this program is now pending in the House and is likely to pass within the near future. It will authorize \$150 million for the rural roads, of which Texas will benefit to the extent of about \$10

While such road projects are essentially local in character, it nust be remembered that Uncle Sam thru gasoline and road user taxes takes around a billion dollars a year from the people who use the highways. The new bill provides for a total of \$500,000,000 for assistance in all phases of interstate highway construction projects. In recommending this allowance, the committee pointed out that, according to the best evidence now available, the total number of motor vehicles registered during the year 1949, will approximate the all-time record of 44,-

## You say you have never driven a Cadillac?

Well, it's a lovely day-and there are beautiful roads to travel down and interesting places to visit-and a little dreaming never hurt a soul ... so just slide over behind the wheel. It's yours! First, you'll just want to sit for awhile, with your hand on the slender, obedient wheel-and get a close-up view of the ingrained goodness that makes this car so unmistakably ... the Standard of the World.

road has become a boulevard-and the turns and lights seem so very close together!

And the soft, easy quietness of it all! You just sit and relax-in complete contentment-and the miles go byand the miles go by ... "Oh, how I wish this car were mine!"

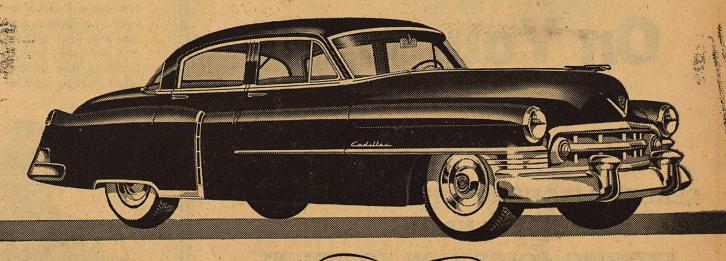

And then you turn the key, touch the soft-throated engine into action-and you're away.

The steering wheel all but reads your mind! The brakes are as soft as velvet, and immediate in their response! The

Well, it's time, we think, to stop dreaming-and lend an ear to this: the lowest-priced Cadillac costs less to buy than certain models of numerous other makes of cars; it is so enduring that it will give a lifetime of service; and it is so economical that it actually approaches the low-priced popular cars in gasoline mileage.

Yes, it's time to go into action-and to make this car your own!

THE AIR FORCE AND NAVAL AIR FORCE were aided by the House when the giant appropria-

to a talk on Soil Conservation by Tom Darrow, Work Unit Conser-vationist, Soil Conservation Service. Darrow described the Soil Conservation District, comparing it with businessmen's organizations in which all members work together to accomplish a common end. He stated Sonora and the surrounding area was based on a grass economy. Businessmen and individuals living in Sonora are directly affected by conditions and problems that affect ranchers in the area. The club was shown colored pictures, arranged by Andre Truden, SCS, illustrating acc mplishments of ranchers and some of the problems they are and with in the Edwards Plateau Scil Conservation District.

# Why some people hever win at CANASTA!

Why do they always lose? Because they have no plan for winning. They don't think ahead. So, when their opponent suddenly "goes out," they're left holding cards that count against them.

Some people, too, can never save money-even though they make as much as the next guy who has plenty tucked away.

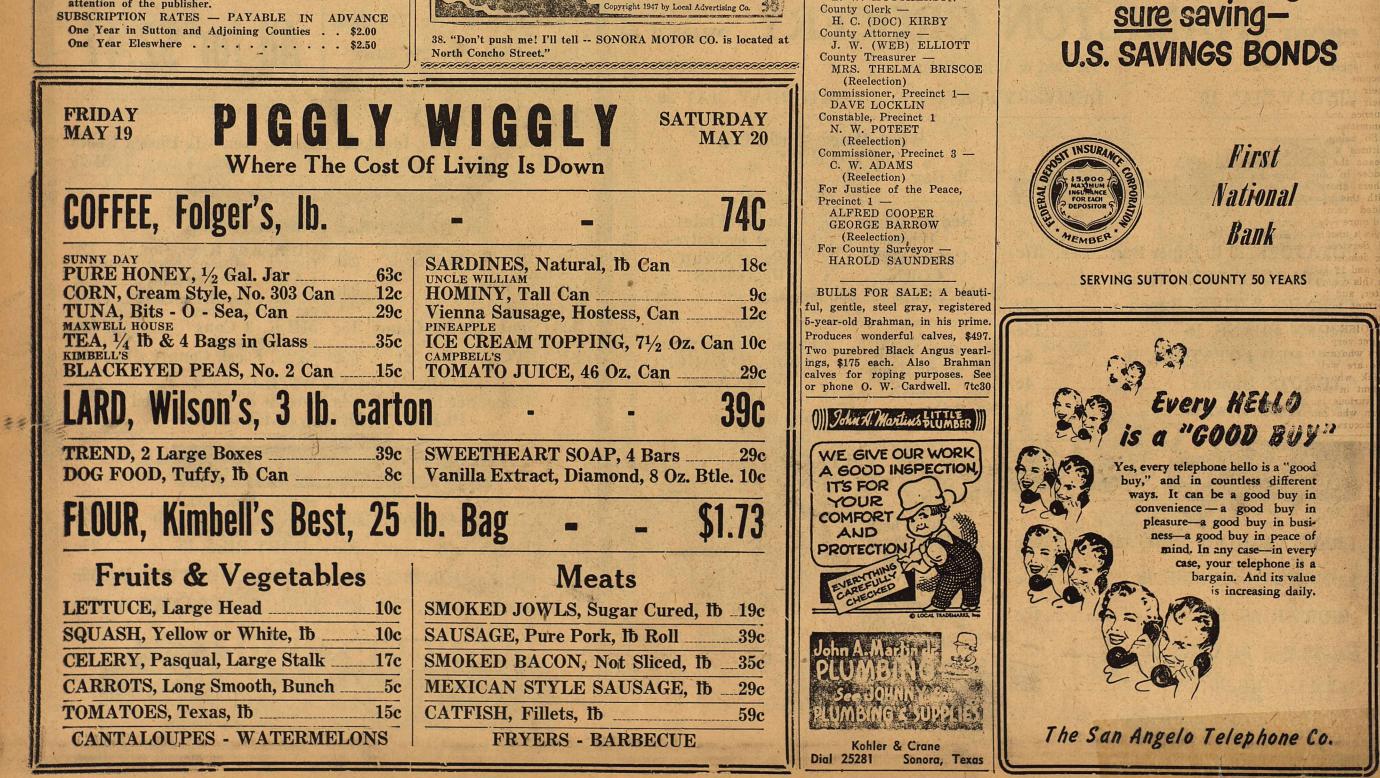

Trouble is, they have no plan for saving. And when the next guy's retired with children in college, they may still be trying to make ends meet.

Fortunately, if you're one of these people, there's still time to sign up for one of the easiest plans ever invented for saving money regularly-the Payroll Savings Plan.

Just tell the cashier where you work to put you down for so much. Then, like millions of others, you'll have money automatically set aside each payday. And it will grow fast—by  $\frac{1}{3}$  in ten short years.

So, before you know it, you'll be talking about sending your children to college-and choosing a garden spot for later years.

Automatic saving is
