OFFICAL MEMORANDUM

ALLAN, SHIVERS Governor of Texas

AUSTIN, TEXAS

As we take inventory of our blessings and our accomplishments in this, our 104th year of Statehood, we view with satisfaction the progress that has been made in education, the basis of which is our public school system.

The little red school house which was the symbol of public educatend to defer before they can se- tion a century ago expanded into a network of elementary and high cure prior approval for carrying schools, junior colleges and state colleges.

It has been a great cooperative venture. Both state and local governments have made their contribution. We like to believe that through their joint efforts the opportunities afforded our children for a sound basic education are not excelled anywhere. If we are justified in this conclusion it is only because our citizens have shown a personal interest in education and because public-spirited men and women have been willing to devote their lives to the teaching of our youth.

It is of paramount importance that this civic interest be strengthened and that those in the teaching profession be supported and emourafternoon with local citizens as entry is Neka-Bo by Ho Bo and aged in their effort. One of the best ways of accomplishing these rejudges, and one-act plays will be James Hunt has nomonated Miss sults is for each citizen to know the public school system. The best

THEREFORE, I as Governor of Texas, do hereby designate the week
