His picture, with crutches, appeared on some 500,000 letters of appeal sent out in February by the Texas Society. Since then, he has learned to walk alone for a few steps. He is demonstrating his skill here for Martin Ricker, executive director of the Society; his mother, Mrs. W. E. Bales, Jr., who is kneeling, and Mrs. Betty Massey, therapist. The letters which used his signature brought in approximately \$182,000 which will be used throughout the state for the benefit of handicapped youngsters.

## Range Tour Set July 27 Texas Leading

A route for the tour at the Range Conservation Field Day to be held on Friday, July 27, was mapped last Tuesday by the program committee of the Association of Hill County Soil Conservation Districts. A trip to the site of the field day was made by Roy Willmann, O. J. Erlud and Robert Wenzel of Comfort and H. O. Schulze and Henry Kothmann of Mason. Schulze is chairman of the association and Kothmann will be master of ceremonies at the field day. The grass judging contest on the program will be held on the Stewart Ranch west of Round Mountain in the Pedernales soil conservation district.

While the Administration has repeatedly appealed to the nation's consumers to help combat inflation by putting off buying whenever they can, Federal government has been making such purchases as 68,000,000 can openers since the start of the Korean campaign a year ago. There are about a million and half men in the Army.

This is brought out in a recent report by the taxation and legislation department of the West Texas Chamber of Commerce.

The report points out that the President has told business men to avoid piling up inventories, to increase efficiency wherever possible, and to keep prices down; that he has asked employers to conserve manpower and urged all to work harder and longer, and to forego wage increases or more profits.

The Federal Bureau of Investigation obviously does not want to play on the nation's anti-inflation team, the report states.

Some examples of Federal purchasing goods:

Army Ordnance recently purchases 6,000,000 gallons of paint in quart and gallon cans. This was a full year's requirement, but the Army sought delivery in 60 days. This huge order for paint in civilian-size cans, rather than in 5-gallon cans, was criticized by paint suppliers and admitted as unwise by the Army.

The Army set up a requirement of 4,639,000 web belts for 1951. This is three belts per man, although only one is issued per man per year. Its 1951 requirement for combat boots was set up at 11,753,000 pairs, although the total consumption was estimated 4,800,000 pairs.

Last January the Quartermaster Service bought 5,000,000 pounds of oleomargarine at 25 1/2 cents a pound. At the very same time the Department of Agriculture was selling 5,500,000 pounds of surplus butter to Italy at 15 cents a pound.

Reports of the Byrd committee show that the number of civilian employees on the Federal payrolls had jumped 2,184,681 on December 31, 1950 to 2,409,121 as of April 30, an increase of 224,440 in four months. This means that the Government has been filling new positions at the rate of 1,870 per day in the month.

Recently an official of the new Defense Transportation Administration reported that agency is

## 15 Patients In Hospital Since Opening July 1

Fifteen patients have been received at Lillian M. Hudspeth Memorial Hospital since its opening July 1, and eight have been dismissed, according to hospital authorities.

The first patient was Ronnie Mittel of Eldorado. He was admitted Sunday night, July 1, and has since gone home. He was a patient of Dr. Charles F. Browne. The first patient from Sutton County was Mrs. Ben F. Meckel, wife of one of the directors of the hospital. Mrs. Meckel has also been dismissed from the hospital.

Dr. George Hoffman of Galveston had the distinction of delivering the first baby at the hospital, when he brought Yolanda Martinez into the world Tuesday night. The seven-pound, six-ounce girl is the daughter of Mr. and Mrs. Jesus Martinez. Martinez is employed at the hospital. Dr. Hoffman is substituting for Dr. J. F. Howell, who is on vacation.

Other babies born at the hospital this week were Halina Paczowski, nine-pounds four-ounces daughter of Mr. and Mrs. Alex Paczowski, Polish displaced persons employed on the Ed. Mayfield ranch and Robert Marvin Williford, son of Mr. and Mrs. Ben Williford. The baby weighed nine pounds, 14 1/2 ounces.

Other patients received since the hospital opened are Mrs. A. J. Smith, Mrs. Belle Glascock, Mrs. Joab Cambell of Eldorado, Mrs. Josie McDonald, John Wesley Joy, Mrs. Lucy Almaguir, and Secundo Ramos.

In cooperation with the hospital, the Sonora Lions Club is sponsoring a blood donor list. A card file is being compiled giving the name and blood type of possible blood donors. Anyone wishing to take part in this program may come to the hospital and have his blood typed free of charge, according to William Burge, administrator.

Burge also requested the cooperation of the public in observing visiting hours. We do not want to seem arbitrary about visiting hours, "he said," but for the welfare of the patient and for the efficiency of the personnel, we feel they should be observed."

Visiting hours are from 2 until 4 o'clock each afternoon and from 6 until 9 o'clock each night.

## QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION

Q - I am a Spanish-American War veteran. How can I establish my eligibility for VA outpatient treatment under Public Law 791, enacted this past April?

A - Eligibility may be established in one of the following ways: (a) presentation of your honorable discharge certificate showing your service was within the dates set up in the law; (b) if you are now getting VA benefits, presentation of a form letter which VA sent you; (c) presentation of a VA letter notifying you of a VA award; or (d) verifying your service and C-number assignment through the normal procedure of filing a VA form for outpatient treatment.

Q - Are veterans of the Korean campaign eligible for VA grants for specially designed "wheelchair housing," or is the benefit limited to World War II veterans?

A - Grants for "wheelchair homes," are available to eligible veterans of the Korean hostilities. The benefit is not limited to World War II veterans; it extends to all veterans, of war and peacetime, who meet the requirements.

Q - Could I begin a GI Bill correspondence school course before the July 25 cut-off date, and later switch to a classroom course in the same field?

A - No. VA regulations prohibit such a post-cut-off-date switch. You may, however, continue in an advanced correspondence course, once you complete the one you are now planning to take-provided it's in the same field and that you have enough GI Bill entitlement remaining.

## Returns From New York

## Rifle Club To Give Barbecue, Shoot July 22

The Sutton County Rifle and Pistol Club is giving a free barbecue and shoot Sunday, July 22, at 1 o'clock at the range on the Stanley Mayfield ranch.

Both members of the club and their families and those interested in the club are cordially invited to attend, according to Shelley Lowe, secretary.

Only soft drinks and coffee will be served at the barbecue, as National Rifle Association Rules, in the interest of safety, expressly forbid the presence of alcoholic beverages on the NRA rifle range.

## PARDON OUR GAUDINESS! THE NEWSPRINT WAS LATE

The explanation for the gaudy poster paper used in printing this week's Devil's River News lies in the fact that the newsprint shipment was delayed and did not arrive in time for the first press run Wednesday.

## SERVICES HELD JULY 2 FOR SONORAN'S FATHER

Funeral services for W. K. Hardeman, 80, father of Mrs. H. M. Smith of Sonora, were held July 2, from the Delia Community Church. Mr. Hardeman passed away at his home in Delia June 30.

Born in Ellis County, he had lived in Limestone County most of his life. Before his retirement some years ago he was a druggist and was also postmaster in Delia. He was a member of the Methodist Church.

He is survived by his wife, nine children, ten grandchildren and five great-grandchildren.

Services were conducted by the Rev. Harry Harris of Houston, and burial was in Hubbard.

## WEST TEXAS C OF C MEET HERE TODAY

## Cattle Problems From Breeding To Marketing Beset The Ranchman

Related problems ranging from breeding and herd management to marketing are perennial with Texas beef cattle producers. During 1950, however, animal husbandmen if the Texas A. & M. College Extension Service sought to familiarize producers with means to simplify major problems through practical demonstrations coupled with free use of visual aids. In the field of herd improvement alone, 35 type demonstrations were conducted with the objective of encouraging farmers and stockmen to select for breeding animals which had proved consistent producers of the largest amount of high-priced cuts.

Market grade demonstrations were given at the annual agents' conference held in mid year at College Station in association with processes of fattening and finishing cattle for market. Steers and calves representative of the USDA official market grades were selected for the purpose and the county agricultural agents permitted to grade them. Official Production and Marketing Administration graders present did the official grading on live weight, carcass basis. Subsequently 14 Beef Cattle grading demonstrations were held on ranches where all classes including weaners, calves, steers, cows, bulls and stags were graded with farmers participating. Through these programs farmers and stockmen are becoming increasingly familiar with reasons for variations in buying prices for cattle places on market. Meanwhile, market days were held for 4-H Club boys with the same type of program being presented.

Feeding minerals to beef cattle was emphasized by the animal husbandmen throughout the year; bulletin No. 174, "Minerals for Beef Cattle," being revised and made available to producers meanwhile. This subject was presented at 25 livestock clinics throughout the year with the Extension Service veterinarian and entomologist participating, and given wide publicity through press and magazines.

At these livestock clinics the Extension veterinarian demonstrated the approved method of administering phenothiazine for control of stomach worms, together with outlines of prevention methods, diagnosis and treatment of the more common diseases. His field work also included demonstrations of the proper use of the emasculator which he encouraged where screw worms were prevalent, and the painless method of dehorning.

During the round of clinics the entomologist gave instructions on the proper use of new insecticides for control of external parasites. To make this information readily available, slides showing the life cycles of harmful insects together with the time for the most effective application of control were prepared. At the same time publications were kept up to date and made available in all counties, while the press and the radio cooperated freely in publicizing the most effective insect control practices. In the more general field of livestock work, two blueprints of ranch corrals and one of a trailer

steers were released by the Extension Service.

During the year members of Texas boys' 4-H clubs who fed steers under the supervision of county agricultural agents for exhibit at major livestock shows made history in the number of grand champion award won. These included the Texas State Fair; International Livestock Exposition at Chicago (where the State Fair winner repeated); Centennial American Royal at Kansas City; and Houston and San Antonio fat stock shows. In the feeding routine, the basic ration followed Extension Service bulletin "Guide for Feeding Beef Calves."

To aid in fattening cattle for market a new publication, "Creep Feeding Beef Calves," was prepared, and a set of aid slides, "Selection and Care of the Beef Calf," was revised in order to further assist county agricultural agents in training 4-H Club members in choosing and developing calves. The series was shown 230 times to 6,198 persons. An addition to the four set of slides, "Fitting the Beef Calf for the Show," was released in October and shown 34 times to 897 persons before the end of the report year, November 30.

Those visiting the Lem E. Johnsons this week and weekend were Mr. and Mrs. James Yantice and son of Oklahoma City, Okla., Mr. and Mrs. C. H. Evans, Jr. and daughter of Austin, and Mrs. Mary Evans of San Angelo.

Mrs. Guida Rose of Del Rio was here this week on business.

GASOLINE & DIESEL TRUCKS

1/2 TO 20 TONS

YOU want a truck that has plenty of heft for the pay load—but the right kind of power is the clincher.

That's why so many truckers turn to GMC for swift performers that can pack home the pay load.

For in these broad-shouldered carriers—chassis and engine are yoked together to form a perfect team for hauling, a team that's built for keeps!

The result is a great line of trucks—from nimble 1/2- to 2-tonners with horsepower unsurpassed in their class, up to brawny Diesels with two-cycle efficiency that has made them first in sales in the nation.

That's why—whether your cargo is

compact or bulky, liquid or solid, grain or cement—if you load it on a GMC, you deliver it faster at less cost per mile!

As your GMC dealer, we can give you the long-time benefits of the right combination of axle, engine, transmission and frame for the loads you have to work—skilfully engineered by the world's largest exclusive manufacturer of commercial vehicles.

The Ruby Louise and Friendship Circles of the W. S. C. S. met Wednesday in the home of Mrs. W. R. Cusenbary.

Mrs. E. A. Brodhead discussed the rural church and its place in the community. Mrs. E. E. Sawyer gave a talk on rural America. The next meeting of the two groups will be held next Wednesday at the home of Mrs. Norman S. Davis. Cakes, coffee and fruit were served to thirteen members.

**Big Springs - A district Livestock Market Grading Field Demonstration-one of five scheduled for Texas-will be held here Friday, July 13.**

Purpose of the meeting is to acquaint farmers, ranchers and packers or processors with the changes in grading of slaughter cattle, in connection with OPS price changes. It is designed to familiarize cattlemen and buyers with the new grading system.

Sponsored jointly by the Extension Service, the Big Spring Livestock Auction Company and the Chamber of Commerce, the field demonstration will begin at 1:00 p. m. in the sales arena of the Big Spring auction company, east of town. It will be the only such demonstration held in the Extension Service district No. 6.

Experts will demonstrate, on live cattle, the recent changes in U. S. grading of slaughter animals including steers, heifers, bulls, calves, stags, canners and cutters. Following the demonstration a practice grading session will be held with attending stockmen doing the grading. A hat will be awarded by the Big Spring chamber of commerce to the "Judge" making the best grading score.

Farmers, ranchers, packers and processors throughout the area from Big Spring to El Paso and Ozona are invited to see the demonstration.

Mr. and Mrs. J. R. Hudson were here over the weekend from Abilene visiting the Tommy Seals.

### THIS TASTES GOOD IN TEXAS

**Peach Ice Cream**  
Put ice cream can in freezer tub. Pack tub 2-3 full of crushed ice - 4 parts ice to 1 part salt. (A 1-lb coffee can is handy for measuring)  
Pour in 1 1/2 qts. light cream 1 quart milk  
Stir in 1 1/2 cups sugar 1/4 teaspoon salt 2 1/2 teaspoons vanilla 1/2 teaspoon almond flavoring  
Beat and add 4 eggs  
Add 4 cups mashed peaches mixed well with 1 1/2 cups sugar  
Adjust lid and crank. Pour cold water over ice until it trickles out of the overflow hole. Finish packing ice and salt into ice tub. Turn crank slowly 6 to 8 minutes; rapidly for remaining 5 to 7 minutes - adding ice and salt as needed. Drain off brine, remove crank and lid. To hold a couple of hours, remove dasher; plug lid with twist of waxed paper; pack freezer tub with salt and ice; cover with newspaper and burlap.

**Our WASHINGTON Letter**

By Congressman **O. C. FISHER**

COMMUNISM, socialism and democracy should be defined in such simple terms that every one can understand clearly the difference between them, is the thought of a Librarian of Eldorado as expressed in an answer to one of the questionnaires I sent out. It's a thought-provoker, and perhaps you would like to try your hand at delving into the subject.

about this, wrote the Librarian. "I would like to find definitions, explanations and examples of democracy so detailed, yet so plain and simple that every child at least from the sixth grade up could read it with understanding and appreciation. They need to know clearly the difference between democracy, communism, and socialism.

"They need, along with all the rest of us, to recognize principles, ideas and laws that are democratic or communistic.

"I would like to find material just that simple and in quantity for every student at a nominal price. This is a big bill, I know, but we need to work toward it."

There were several other suggestions along this same line. I am going to attempt to collect some ideas on the subject, and would be glad to receive any suggestions from interested people. Two or three years ago the House had published a pamphlet entitled "A Hundred Things You should Know About Communism", which has proven very informative and

popular in schools and elsewhere. \*\*\*\*\*  
In a talk I made at Coleman on July 4 I discussed the preparedness program and our stake in world events as they are shaping up. It has been said that Russia can out-produce us but she cannot out-produce us. The Soviets, while lagging for behind us in productive capacity and know-how nevertheless are making strides in production, particularly of military equipment to which a large part of their manpower and economy is devoted.

A few examples will illustrate some of our own strides in post-war production progress. Our steel capacity is up by 13 percent and is four times that of Russia. Our proven oil reserves have been upped by 1/4, and our production is about seven times that of the Soviets.

Our aluminum production will soon be much higher than the peak of World War II.

Our electricity production has been increased by 65 percent.

Our chemical industry has doubled its capacity.

In Agriculture, today we find four million farm tractors in use compared with only 2 1/2 million at the end of the war.

American ingenuity under our system of competitive free enterprise has made our nation the envy of the world. With one-sixth of the population of the world and one-seventh of the land area, we have about one-half of the industrial productive capacity of the entire world.

Many experts believe that the shortage of steel, oil and uranium are the principal reasons why Russia does not make positive war. In other words, she is deterred by our great productive capacity. It is therefore important that we strive to maintain that advantage by progressing ourselves and preventing the Reds from getting to sources of raw materials which she sorely needs if her lagging productive capacity is to be ample to support a global war.

**Defense is your job, too!**

Searching our coastal waters for unidentified submarines, this Navy blimp pilot is constantly on the alert to protect American shores. His blimp carries the most effective airborne detection gear in the world, enabling him to pinpoint and track a target even when it is submerged. And he is doing a vitally important job in defense of America.

Defense is your job, too. And one of the best ways for you to do your part is by keeping yourself and your country economically strong. Buy U. S. Defense\* Bonds now and regularly. Go to the pay office where you work and sign up for the Payroll Savings Plan or join the Bond-A-Month Plan where you bank. But don't put it off—do it today!

**The U. S. Defense Bonds you buy give you personal financial independence**

Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own automatically goes on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not \$25—but as much as \$33.33—if you just hold it the extra ten years! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's, too, buy U. S. Defense Bonds now!

**\*U. S. Savings Bonds are Defense Bonds**

Buy them regularly!
