## FIREMAN PUTS OUT OWN FIRE BEFORE FIREMEN ARRIVE

Firemen were called out Tuesday night at ten-fifteen o'clock only to find that one of the members of the fire department had brought his fire to the station to extinguish it. The emergency car belonging to Tommy Smith, and being driven by his wife, caught on fire in front of Lyles and Rape. Mrs. Smith ran about a block home, and told her husband, who asked her to turn in the alarm and he would see if he could put the fire out. Smith drove the car to the fire station and had the fire out before the alarm could be sounded. It is understood from reliable sources that Firemen all over town are drinking coffee at the expense of Smith.

A TIDELANDS BILL topped the legislative calendar in the House last week, so far as Texas is concerned. On the first test vote it became apparent that the vast majority of the Members recognize the need for correction of the confusion and injustices brought about by Supreme Court decisions. By a vote of 270 to 92, the House decided to take the bill up and final passage by a comparable margin was assured.

The bill would wipe out the rank injustices done by the Supreme Court in the Texas case when the high court, by a vote of 4 to 3, brushed aside the solemn agreement between Texas and the Federal Government whereby Texas was admitted to statehood with its boundaries defined as extending 10 1/2 miles from the coast seaward. Other coastal states extend out for a distance of three miles. In other decision the Court stripped California, Louisiana, and all coastal areas of oil rights under tideland and submerged surfaces. This novel policy was directly contrary to prior decisions and custom and usage that had been universally recognized for 150 years.

ACTUALLY THE FIGHT against tidelands legislation now stems primarily from special interests which hope to preempt leases under submerged lands for nominal sums and get rich at public expense. Many of them, courting the favor of the Administration, have already filed for leases and the Big Grab is on. The passage of the tidelands bill would play havoc with their playhouse.

Unless the Supreme Court's outrageous decisions are corrected by Congress it is feared that the next step, using these decisions as precedents, may be for the Federal Government to eventually lay claim to all petroleum deposits everywhere, along with all other minerals under the ground.

But even with strong House approval, the tidelands legislation has a rough and rugged road to travel before it is finally enacted. It must be approved by the Senate, and will then face a Presidential veto, according to all indications. President Truman vetoed a similar measure a few years ago. The House should be able to override a veto handsily, but it may not be so easy in the Senate.

ACTUALLY THE FIGHT against tidelands legislation now stems primarily from special interests which hope to preempt leases under submerged lands for nominal sums and get rich at public expense. Many of them, courting the favor of the Administration, have already filed for leases and the Big Grab is on. The passage of the tidelands bill would play havoc with their playhouse.

Unless the Supreme Court's outrageous decisions are corrected by Congress it is feared that the next step, using these decisions as precedents, may be for the Federal Government to eventually lay claim to all petroleum deposits everywhere, along with all other minerals under the ground.

It must be approved by the Senate, and will then face a Presidential veto, according to all indications. President Truman vetoed a similar measure a few years ago. The House should be able to override a veto handsily, but it may not be so easy in the Senate.

THE ECONOMY DRIVE which has been doing some good in the House this year got a set-back last week when a conference report on an appropriation bill increased the number of public housing units to be begun during the next year from 5,000 in the original House action to 50,000 by the Senate.

The House voted, however, to recommit the conference report for further study by the Conference Committee. But it was a close squeeze, the vote for recommitment being 188 to 186. I joined with 8 other Texans in voting to recommit. With the Senate approval of the 50,000 units and the close vote in the House, chances for scaling down the public housing program this year are not very encouraging.

It will be recalled that when public housing was approved by Congress two years ago, the House version squeezed by with a five-vote margin. The mammoth public housing program calls for 800,000 units to be built by Uncle Sam's income" tenants at low rentals, and then rented to so-called "low income" tenants at low rentals. These are designed mostly for the big cities, and the ultimate cost will run around \$20 billion outside of totalitarian countries it would make the Federal Government about the biggest landlord in the world, and is believed by many to be the strongest single evidence of state socialism upon its history.

WHAT THE PROGRAM amounts to is a policy of having the Federal Government subsidize the bills for the occupants of the public housing units. In other words, tax money would be appropriated each year to help 800,000 tenants pay their bills because they will be getting bargain rent bills below cost and below market rates. The units

## Know Your Grasses

CANADIAN WILD RYE

Canada wildrye, a native of the Edwards Plateau, is a cool season bunch grass. Growth begins in the cool season and seedheads ripen before hot summer weather sets in. The mature seedheads are awned and nodding.

Like other cool season plants, Canada wildrye provides green forage during the winter months at a time when warm season grasses, like bluestems and grammas, are dry. During early spring and late fall, livestock relish these tender green shoots. Because of this, it is one of the first grasses to go out with heavy grazing. After maturity the stems and leaves become harsh and dry, and at this time the grass is somewhat unpalatable.

Economic value of Canada wildrye is shown by its ability to furnish green feed during cool seasons, and its ability to germinate readily and make quick rapid growth.

W. L. Davis, Edgar Glasscock and Stanton Bundy have had excellent results from planting seed harvested in the district.

Under continued abusive use, Canada wildrye will be confined to shrub thickets and rock crevices. Resting pastures, and other good range management practices, will bring this grass out into the open.

Miss Johnnie Johnson returned home this week from a vacation in Junction where she visited in the home of Mr. and Mrs. Preston Prater and family.

OPS PLACING CANNED VEGETABLES UNDER PRICE REGULATIONS

The Office of Price Stabilization is placing the billion dollar canned vegetable industry under ceiling price regulation, the Fort Worth District OPS office says. The regulation will permit price adjustments for changes in raw materials' cost. The regulation, to be effective August 5, first affects canned peas. Other major vegetable packs will be regulated later. Base period for figuring costs, the District Office says, will be the first 60 days of the 1948 pack, and this will result in some price decreases as well as increases.

Special pricing provisions are made for grower-owned cooperatives, grower-processors and processors who buy raw materials on open-end contracts. Processor-wholesalers and processor-retailers are given different treatment. Packers and processors in this area who want further information can get it from the Fort Worth District OPS Office.

The Office of Price Stabilization has taken steps to assure enough supplies in five flood-stricken states, designated "distress areas", by easing price regulations on livestock, the Fort Worth District Office announces. The emergency regulation will be in effect for 30 days ending August 23.

Beef prices posting suspended, OPS Pending final action by Congress on price control legislation, the Office of Price Stabilization has suspended until further notice the requirement that meat retailers post ceiling prices of beef cuts, says the Fort Worth District OPS Office, Posting was due August 1. This act in no way changes the requirement that all retail prices for beef be listed in the tray in which cuts are displayed, and that these prices be at or below ceilings, the District Office said.

OPS also amended the retail beef price regulation to limit the fat content of pre-ground hamburger to 25 per cent instead of 30 per cent as first provided and to permit, under certain conditions, the sale of lean pre-ground beef with fat content of 12 per cent or less. The lean pre-ground beef will have above that for hamburger, the District Office explained.

A memo from the U.S.A.

We Americans don't get mad easy.

But when we do, look out!

We pitch in and turn out guns, tanks, planes and ships faster than anybody on earth.

But nobody boots us into line. No commissars. No bayonets. No slave labor. We just get to work - because we've got something to work for... our liberties and our individual freedoms.

And back of our men and machines is electric power - as much as all the rest of the world has.

It's steady, dependable power - the kind produced only by free men - the kind that helped perform production miracles in World War II. Today, the business-managed electric companies have doubled the supply of electric power available before that war - and they're stepping it up all the time.

Yessir, we have power - with more on the way - and we know how to use it. That's a good thing for everybody to remember right now. And it's a good thing for some people here at home to remember that America's tremendous electric power was developed by the free enterprise system which has made America greater than any other nation.

### QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION

Q - I am a veteran of World War I and would like to know if there is any limit for filing a claim for compensation for disability caused by war service?

A - There is no time limit set for filing claim for compensation under existing legislation.

Q - Why is it that I can't get a reply to a letter I wrote to the Veterans Administration several months ago?

A - In all probability, your letter is one of many that does not give sufficient information to identify you. In many instances, research must be made before the writer is identified, the claim on, and a reply sent out. It is estimated that 20 per cent of all letters received by VA do not give sufficient information for identification.

Q - May I change the beneficiary to my NSLI by a last will or testament?

A - No. A change of beneficiary must be made by written notice to the VA over the signature of the insured, and shall not be binding on VA unless received and indorsed on the policy by VA. An original designation of beneficiary

may be made by last will or testament.

Q - I was wounded in World War II and would like to know if my compensation check is subject to seizure by creditors?

A - No.

# May we suggest a Sitting?

No doubt about it—you'll make a mighty handsome picture in a strapping new '51 Buick.

But it isn't the way you look, but the way you feel that's really important.

We'd like you to discover a Buick's ease and comfort, a Buick's power and performance, a Buick's steadiness and control—just to see if maybe you have been missing a travel treat.

We'd like you to discover what a valve-in-head engine, as Buick builds it—gingered with Fireball combustion—can mean in pulse-pounding thrill and in big miles-per-gallon figures.

We'd like you to learn what coil springs on all four wheels—not just in front—can do in the matter of smoothing a

rough road and keeping you on an ever-level keel.

We'd like you to see what generous roadweight and a rigid torque-tube mean in solid steadiness of ride—what Dynaflo Drive\* does for you in downright comfort and convenience—what a breeze it is to handle so big and roomy and impressive a car.

Most of all, we'd like you to note the

easy-to-take price tags our cars wear—what a whale of a lot more automobile you get for your money in today's Buicks than you'll get elsewhere.

So—come in for a sitting soon, won't you? Whether you try a SPECIAL, SUPER or ROADMASTER, you'll find it the top buy in its field—and a beauty from any angle.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on ROADMASTER, optional at extra cost on other Series.

### No other car provides all this:

- DYNAFLOW DRIVE\* • FIREBALL ENGINE
- 4-WHEEL COIL SPRINGING • DUAL VENTILATION
- PUSH-BAR FOREFRONT • TORQUE-TUBE DRIVE

Australian Wool Drops 5 Per Cent

An expected reduction in Australia's wool production will reduce the world supply of wool, which is already critically short. The 1951-52 wool output in that country may be down to 1,120 million pounds, about 5 per cent below the 1950-51 output.

According to information received by USDA from Australia, the reduction is attributed to a drop in sheep numbers and some decline in yield per animal. Contributing to the drop have been sheep drowning, pests, diseases, decreased lambing, and emergency shearing in the states of Queensland and New South Wales, where more than half of Australia's sheep are located; and near-drought conditions, bushfires burning out millions of acres of grasslands in Queensland, and a generally poor feed and pasture outlook over part of Australia as winter approaches.

Use toasted enriched hamburger buns to make excellent open-face sandwiches as well as to shelter burgers. Here these good buns are topped with creamed chipped beef and kernel corn.

When you buy hamburger buns at your baker's for summer picnics, get an extra supply of these thrifty breads to make tempting sandwiches for the family lunch.

Big brown sandwich buns are delicious toasted and topped with creamed fillings of various types. Spoon creamed chipped beef combined with kernel corn liberally over the buns for a flavorful and quick-to-fix main dish. Another good topping is creamed tuna with green peas, or a golden cheese sauce garnished with bacon. This type of menu is easy to complete with a cooked fresh vegetable or salad, milk, and cookies for dessert.

Hamburger buns are popular with children and add interesting variety to the day's servings of enriched breads. These are important, you know, for their contribution of protein, essential B-vitamins, food iron, and food energy.

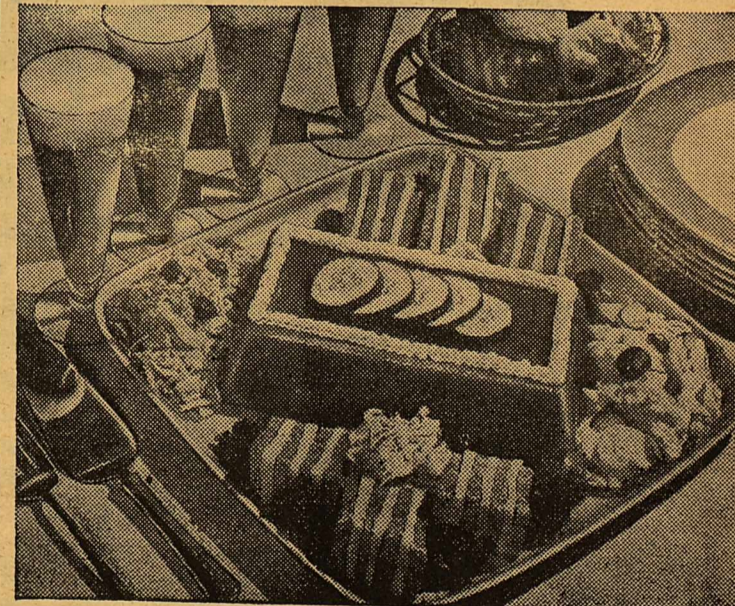

When you bake yeast rolls, plan to shape part of the dough into hamburger buns for sandwich meals.

CHIPPED BEEF TOASTWICHES

- 2 tablespoons shortening
- 1/2 cup chipped beef
- 1/2 cup milk
- 3/4 cup cooked kernel corn
- 1/4 cup chipped beef
- Sandwich buns, split and toasted

Melt shortening in top of double boiler. Add flour and gradually pour in milk. Add kernel corn. Stir constantly until thickened. Rinse chipped beef with boiling water and add to cream sauce. Cook over double boiler 10 minutes. Serve hot over split, toasted sandwich buns. Makes 4 servings.

KEEP COOL IN HOT WEATHER

Keep cool in the kitchen these hot days and depend on the refrigerator for delicious and attractive meals. Coax listless summertime appetites with a supper of jellied tomato aspic, crisp cole slaw, zesty potato salad, rolls, spiced ham and cheese slices and refreshing beer.

Cook in the cool of the morning and make the aspic and salads then. Put into the refrigerator along with spiced ham and cheese to chill. At serving time, unmold the aspic on a large platter and garnish with salad dressing and sliced cucumbers. Surround with mounds of cole slaw and potato salad and alternating slices of spiced ham and cheese secured with skewers or picks. Serve with tall glasses of chilled beer and a basket of rolls for a cool and completely satisfying hot weather meal.

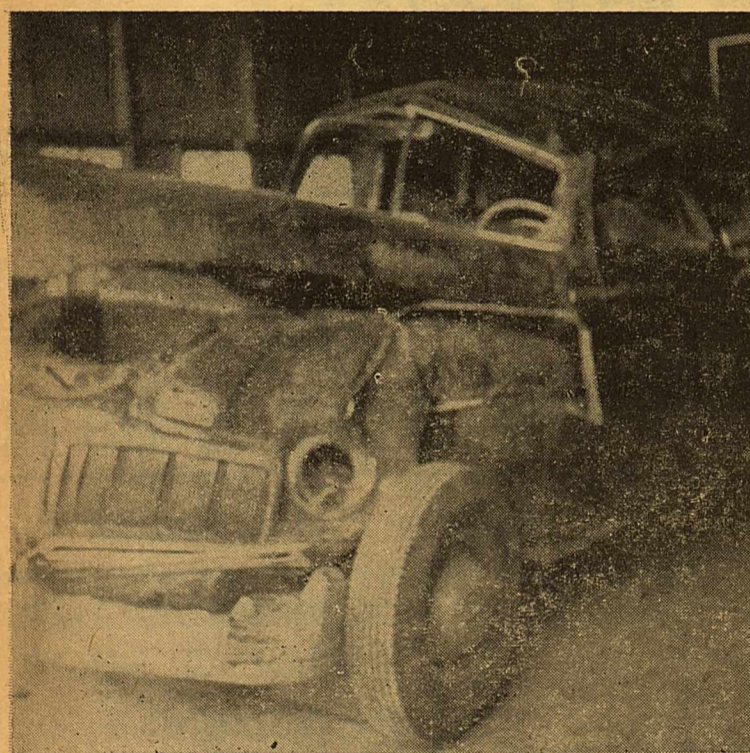

Jellied Tomato Aspic  
1 teaspoon salt  
Few drops tabasco  
1/2 teaspoon Worcestershire

1 medium onion, sliced  
4 cups tomato juice  
2 envelopes plain gelatine  
1/2 cup cold water  
2 tablespoons vinegar

Add seasonings and onion to tomato juice; simmer 10 minutes. Soften gelatine in water. Remove onion from tomato juice; add vinegar. Dissolve gelatine in hot tomato juice. Pour into mold and chill until firm. Serves 8. Serve for a hot weather supper with cole slaw, potato salad, sliced spiced ham and cheese and tall glasses of cold beer.

Note: Recipe ingredients may be cut in half to serve 4 if desired.

### Senate Passes Old Age Pension Increase Bill

The Senate has passed a bill which, if the States take full advantage of it, will increase old age pensions \$3 a month beginning October 1.

The bill is in the form of an

amendment to the Social Security Act sponsored by Senator Earnest W. McFarland of Arizona, Senators Tom Connally and Lyndon B. Johnson of Texas, and 20 other Senators. It must still be approved by the House.

The \$3 monthly increase would also apply to payments to the blind. Federal contribution to States for aid to dependent children

would be increased an average of \$2 per month per recipient.

"These small increases are overdue and are more than justified by the rising cost of living," Senator Connally declared. "When the bill was before the Finance Committee, I urged and voted for increases of \$5 a month for the aged and the blind and of \$3 a month for dependent children. Average old age assistance payments in Texas in May were only \$32.74, which is obviously not enough to live on."

The bill as passed by the Senate included a provision requiring the States to maintain their present payment so that the full amount of the increased federal contributions would be passed along to the recipients.

In the case of Texas, this should mean a \$3 a month increase for 90 per cent of the 222,155 old persons receiving pensions; if the Texas Department of Public Welfare makes appropriate adjustments in its standards of judging needs. Ten per cent of the pensioners are already receiving the

The bill also makes it possible for Texas to give a \$4-a-month increase to recipients of aid to dependent children by increasing the state payment only by \$1 a month. This would bring the average payment up from a little less than \$12 a month to about \$16 a month. Under the present law, the State puts up \$3 and the federal government \$9. Under the Senate Bill, if the State put up \$4, the federal government would put up \$12.

### LITTLE KOREAN PREFERS THE ARMY—The plight of hundreds of orphans and homeless children is one of the heart-rending tragedies attending the Communist invasion of Korea.

American Soldiers in all branches of the Armed Forces have provided food and shelter for these pitiable waifs.

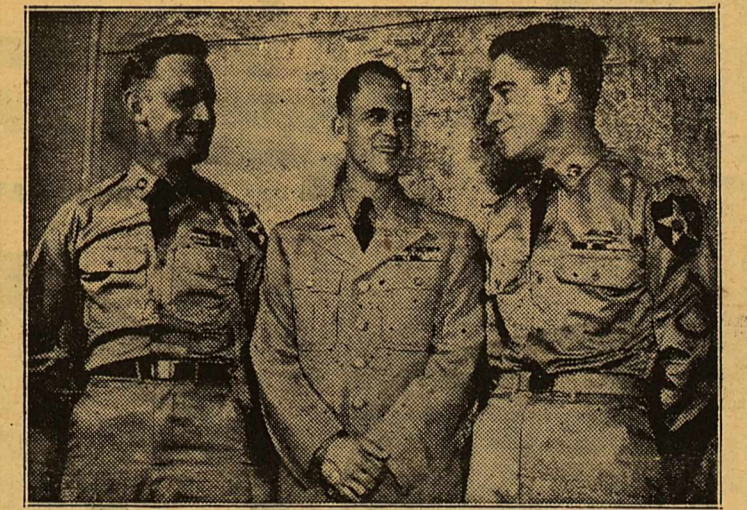

This photograph, made in Korea early in June, furnishes the wordless story of a little child abandoned in a village last winter. She was found by 1st Lt. William Doernbach, of Egg Harbor, N. J., and later turned over to an orphanage. Recently she ran away from the asylum and rejoined Lt. Doernbach in Seoul. Here he comforts her with the assurance that she will be cared for in a place more to her liking.

Thousands of Korean children have been rescued by American Armed Forces. Every effort has been made to provide the waifs with food and shelter, and still further provision has been made for their welfare.

**THREE GENERAL OFFICERS KOREAN CASUALTIES**—Left to right: Maj. Gen. William F. Dean, Lt. Gen. Walton H. Walker, Maj. Gen. Bryant E. Moore. Gen. Dean, commanding the 24th Division, was reported missing in action at Taejon, July 21, 1950. Gen. Walker, commanding general of the Eighth Army, was killed in a jeep accident at Seoul, December 23, 1950. Gen. Moore, commanding the IX Corps, died from a heart attack following a helicopter crash in the Han river, February 24, 1951.

### MEDAL OF HONOR AWARDS FOR HEROISM IN KOREA

**HONORED AT WHITE HOUSE PRESENTATION**—Three Medal of Honor winners in the Korean conflict received their awards from the President at a ceremony on Armed Forces Day. Left to right, M/Sgt. Ernest R. Kouma, Dwight, Neb.; 1st Lt. Carl H. Dodd, Kenvir, Ky.; and Sgt. John A. Pittman, Tallula, Miss.

In the first 10 months of the fighting in Korea 14 men were cited for the Medal of Honor and at this time several others in the Army, Navy, Marines and Air Force have been recommended but the awards have not been published. In an adjoining column are the names of all those thus far presented. At ceremonies in the Pentagon an award was made posthumously to Cpl. Mitchell Red Cloud, Jr., an American Indian from Friendship, Wis., the Medal being accepted by Mrs. Nellie Red Cloud, the hero's mother. He lost his life while serving in the Infantry. In World War II he was a member of the Carlson Raiders in the Marines.

Lt. (j.g.) Thomas J. Hudner, of Fall River, Mass., is the Navy's first winner of the Medal of Honor for action in Korea. Lt. Hudner, a pilot attached to the USS Leyte, risked his life in an attempt to rescue a fellow aviator, Ensign Jesse Leroy Brown, first Negro officer to lose his life in any United States war.

Ensign Brown was also the first Negro Naval aviator. His home was in Hattiesburg, Miss., where his widow and small child reside.

Lt. Hudner was graduated from the U. S. Naval Academy in 1946. He is unmarried. His parents reside in Fall River. His previous decorations include the Air Medal and a Gold Star in lieu of the second Air Medal.

### MARINES' RECORD ON KOREAN FRONT

United States Marines have fought up and down the Korean peninsula from Pusan nearly to the Yalu River since entering the conflict on August 7, 1950. The 1st Provisional Marine Brigade, reinforced, with its supporting aviation, joined the battle in the dark days of the Nakdong River, as the first group of Leathernecks to arrive. The brigade joined the 1st Marine Division, reinforced, for the daring amphibious assault at Inchon, September 15, 1950, which rolled over Seoul and eventually led to collapse of the Korean Communist resistance.

The U. S. Marines next landed at Wonsan and advanced to the Chosin Reservoir where they had to break out of a Chinese Communist trap. Redeployed to South Korea, they have taken part in Operation Killer and subsequent moves under 8th Army direction designed to destroy Chinese Communist fighting forces which invaded Korea.

Searching our coastal waters for unidentified submarines, this Navy blimp pilot is constantly on the alert to protect American shores. His blimp carries the most effective airborne detection gear in the world, enabling him to pinpoint and track a target even when it is submerged. And he is doing a vitally important job in defense of America.

Defense is your job, too. And one of the best ways for you to do your part is by keeping yourself and your country economically strong. Buy U. S. Defense Bonds now and regularly. Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own automatically goes on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not \$25—but as much as \$33.33—if you just hold it the extra ten years! A \$37.50 bond pays \$66.66. And so on.
