STARTS ERRAND OF MERCY

We have been hearing for the last week or so that some ex-employees of the city have proof of malfeasance in office on the part of one city officials. The city council has invited a statement of these charges, the Devil's River News has invited a statement of these charges, and so has the San Angelo Standard Times. But none is forthcoming. Yet, plenty of chacha continues to circulate about what's going to happen.

We say present the charges or stop the conversation. Or, as our old Indian friend put it, "Make-um fire with that smoke.' -&\$%#-

James Wilson had a nice surprise this week, when he was informed that an electric refrigerator he entered in a Philco contest was judged the oldest in the San Angelo trade territory, thereby entitling him to a new \$450 box. To be eligible for the contest the model number and serial number had to be in evidence and this requirement disqualified two older refrigerators in Sonora, according to Nelson Stubblefield, local Philco dealer.

Electric refrigerators were first manufactured in this country in 1926. Wilson's was made about four years later.

-&\$%#-Our football prognosticator,, Ed Mayer, Jr., hit 7 out of 11 guesses last week, and since he now has a batting average of about .630, we will give him another shot at tomorrow's games. Here are his

Carnival Nets \$1,657 For School Classes

The Sonora High School and Elementary School classes and organizations cleared \$1,657.14 on the annual Halloween Carnival put on last Wednesday night under the direction of the Student Council.

Nancy Bryan Hunt, daughter of Mr. and Mrs. Bryan Hunt, was named queen of the carnival. The queen's race was sponsored by the Student Council. Princesses were Carnie Sue Wyatt, Lu Lomax,

Ora Crites and Patsy Hardesty.
Winners of the grand prizes in the costume contests were Bennie Bill and Kirby Lee Babb, dressed as Raggedy Ann and Raggedy Andy dolls, and Albert and Alfred Sykes, dressed as Halloween spirits.

Other contest winners were Gil Allison, Janet Morrison, Mary John Espy, Roland Moore, Cleve T. Jones, III, Sarah Lou Hardy, Johnny Fields, Fletcher Ballard, Eileen Schwiening, Lomalee Bridges, Roger Fawcett, Nancy Wilson, J. Wray Campbell, Charles Copher, Marilyn Valliant and Juanita An-

EDWAR VALLIANT RECEIVES HIGHEST SCOUTING AWARD

Scoutmaster Lea Roy Aldwell praised Valliant's Scout work, emphasizing the work he has done in camping and training Tenderfoot Scouts. Valliant is a member of Troop 19, which is sponsored by the Sonora Lions Club.

Dr. and Mrs. Charles F. Browne have as their guests Mrs. Browne's parents, Mr. and Mrs. K. A. Reeder

last week attending the SMU-Tex- tuberculosis association from Nov.

An Interesting Sidelight-

An interesting sidelight of the recent Castilleja murder trial was a nocturnal sojourn Tuesday by Castilleja's attorney, Clayton Bray, to the home of one of the state witnesses, Mrs. Jesus Gonzales, in an effort to "induce" Mrs. Gonzales to reverse her testimony.

CONTRACTOR DE CONTRACTOR D

Being totally unacquainted with the finer points of the law, we suppose it is perfectly all right for Mrs. Gonzales to say what she wants to, since it's a free country. And it is certainly of no concern to us how or where Mr. Bray spends his evenings.

What positively intrigues us is Mr. Bray's unique method of attempting to "induce" Mrs. Gonzales to change her testimony. Let us digress for just a moment to bring a few post-trial developments up to date:

1. During the trial which resulted in a verdict of guilty for Castilleja and the assessment of a 50-year prison term, Mrs. Gonzales testified that she was out one night in a parked truck with Castilleja when her husband and her husband's brother (who was later shot to death by Castilleja) surprised them.

2. Sunday afternoon, November 4, Castilleja wrote Mrs. Gonzales a letter urging her to go to Mr. Bray and state that the man who was with her in the truck was not Castilleja.

And so it came about that on Tuesday night, November 6, Mr. Bray journeyed over to see if Mrs. Gonzales was ready to accede to the convicted's wishes and change her story. She was not. So Mr. Bray attempted to "persuade" her by making the following statement:

"If you don't do what Ben said, I'm going to get you 50-years in prison just like

Mrs. Gonzales then replied, "Well, did you think you can get a lady in prison if she hasn't done any killing?"

And Mr. Bray answered: I'll show you. You're going to see it. That's if you don't change your mind."

As we stated before, we are not well versed in the law, but we do remember a word in the English language, "suborn." Looking it up in our dictionary, we find that it means "to bribe or procure a person unlawfully to commit some act of wickedness, usually perjury."

It looks to us like Mr. Bray's method of attempting to "persuade" or "induce" Mrs. Gonzales to change her testimony is closely akin to attempted subornation. It also occurs to us that it is most peculiar behavior for a man who has seemingly devoted much of his time in the interests of the Latin-American people on the local scene.

And finally, we feel that such methods of attempted persuasion are indeed unbecoming the dignity and integrity of the legal profession.

But, as we say, we are not well versed in the law.

Twelve Matches Sunday At Gun Club Barbecue

Twelve shooting matches are on tap Sunday at the Sutton Count Rifle and Pistol Club's turkey shoot and barbecue. The public is cordially invited to attend.

Matches will be held for small and large bore rifles, pistols and shotguns. Two trap shoots are also scheduled.

Barbecue will be served at 12:30 o'clock and the first shoot is scheduled at 1:30. Special attraction will be the deer shoot put on by G. E. Ellis. In this match life-size targets in the shape of deer will be used. Ellis is offering \$30 worth of ammunition as prizes.

Twelve turkeys are offered as prizes in the other matches and no person may win more than one

Proceeds of this and other shoots will be used to construct the clubhouse and storage rooms. Construction of the storage room and rest rooms will start this week.

A Message of Importance * * * To Every Automobile Driver * * * In The State of Texas

HERE'S WHAT YOU SHOULD KNOW ABOUT THE NEW TEXAS "SAFETY RESPONSIBILITY LAW"

- Enforcement Begins January 1, 1952. On this date, the new Safety Responsibility Law, as passed by the Legislature, goes into effect. This law was designed to protect you against financially irresponsible drivers and owners of motor vehicles involved in accidents. It affects all drivers and motor vehicle owners (except Federal, State, County and City-owned cars).
- What Must You Do After An Accident? Under existing laws, you must file a written report to the Department of Public Safety if your car is involved in an accident where there is a death, an injury or property damage in excess of \$25. Under the new law, a written report must be filed within ten days if your car is in an accident resulting in death, injury or property damage in excess of \$100.
- You Don't Have to Carry Liability Insurance, But . . . If you are not insured against bodily injury and property damage liability, you must be able to deposit with the Department of Public Safety security equal to the estimated damage, not exceeding \$15,000.00, to cover all claims growing out of an accident anywhere in Texas in which you or your motor vehicle were involved. If you cannot establish financial responsibility for the future, your driver's license and your motor vehicle license plates are automatically suspended.
- It's Easy to Establish Financial Responsibility with a motor vehicle liability insurance policy. If you do not now have such a policy, call your local insurance agent today. He is a qualified insurance counselor who will be happy to advise you concerning your needs.
- What is the Minimum of Your Liability? The law permits each driver to establish 5 the following minimum limits of liability: up to \$5,000.00 for injuries sustained by one person; up to \$10,000.00 for all personal injuries resulting from one accident, and up to \$5,000.00 for property damage. You do not have to establish such liability but it is the easiest way.

AIR FORCE TAKING MEN WITH DEPENDENTS

To clarify the question in the minds of a lot of young men of military age, the Air Force still accepts for voluntary enlistment men with as many as tmo dependents, M-Sgt. Winston B. Murray, Army and Air force Recruiter in San Angelo announced today. The term "dependent" is not qualified and may be a person related in any manner.

The young man with dependents who enters the Air Force will receive extra pay for them, in the form of an allowance which is not taxable. One dependents entitles the Airman to \$45.00 extra per month and two dependents entitles him to \$67.50 per month. Should the Airman's dependents increase to three or more after he is in the service his allowance shall be \$85.00 per month.

All Airmen with bonafide dependents may be authorized to live off the Air Base with them, except while in basic training or while attending some types of schools, and will be paid \$1.05 per day in lieu of rations when so doint.

Young men contemplating entering the military service, including those with dependents, should contact M-Sgt. Murry at 15 E. Concho St. in San Angelo for complete information about the many op-portunities offered by the U. S.

FORTIFIED WITH DEPENDABLE VITAMINA

Red Chain Vita-Range Nuggets

MEANS A BETTER CALF AND LAMB CROP

Here Is The Evidence

Mr. R. E. Fatheree of Hamilton, Texas says:

"Last spring I personally conducted a sheep feeding test, using Red Chain Vita-Range Nuggets in comparison with cottonseed cake. From 50 ewes fed on Red Chain Vita-Range Nuggets I got 57 lambs and the ewes sheared an average of 9.9 pounds of wool. In an adjoining pasture 37 ewes fed on cottonseed cake produced only 29 lambs and the ewes sheared only 8 pounds of wool. You can see why I like Red Chain Vita-Range

Mr. J. M. Corder of Sanderson, Texas says:
"No other teed has ever given me the results I get from
Red Chain Vita-Range Nuggets. I feed both cattle and
sheep and find that Red Chain Vita-Range Nuggets
works equally well on both. They give me better conditioned mother animals and bigger and better calves
and lambs. After using Red Chain for the past several
years I highly recommend it to any rancher".

Nuggets".

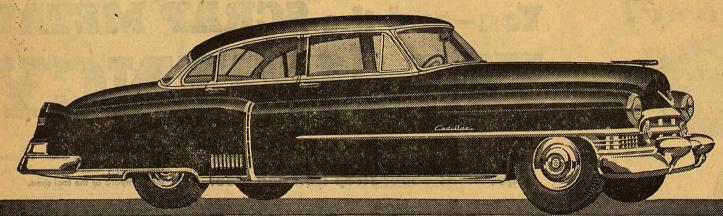

Mr. Ray Roberts, Gage Ranch, Marfa, Texas, says:
"I have fed Red Chain Vita-Range Nuggets for the past
two years and like it better than any feed I have ever
used. I especially like the Vitamin A fortified feed for
heifers as I find my heifers calve better and all my
mother cows give more milk, which means bigger and
better calves at market time".

Sonora Wool & Mohair Company

Typewriter Repair At News Office

All But Impossible to Believe!

Standard equipment, accessories and trim illustrated are subject to change without notice.

It is very difficult to believe—but, each month, there are literally thousands of people who pay as much for their motor cars as it would cost them to buy Cadillacs... and, yet, they don't get Cadillacs.

As we said, this is very hard to believe—but the reasons for it make it more or less understandable.

In the first place, a great many people simply don't know what a Cadillac costs. They don't understand that the lowest-priced Cadillac actually costs less than certain models produced by numerous other manufacturers.

They only know that Cadillac is the world's most renowned motor car—and they assume, from this, that it must also be exclusively priced.

Too, some people get discouraged because they can't walk in and order a Cadillac and get immediate delivery—as they can with so many other makes of cars.

This, too, is largely due to a failure to get all the facts and think them through to the inevitable conclusion.

You have to wait a while for a Cadillac because so many people want one—and want it so badly that they are

willing to wait for it. And that, in turn, is because Cadillac is recognized everywhere as the Standard of the World.

So if you want a Cadillac—and research indicates that a vast percentage of motorists do—come in and talk with us about it.

We'll give you the facts concerning comparative costs. And we will also talk frankly with you about delivery dates, so you may know about what to anticipate.

You really owe it to yourself to do this. For, surely, you don't want to pay the price of a Cadillac—and still not get one!

If we already have your order for a Cadillac—stand firm in your conviction—for each day brings you closer to your heart's desire.

It is true, of course, that you can get quicker delivery on other makes of cars. But, in all the world, there is no other car like Cadillac.

so be patient—and you will have your reward!

ANSWERS every farmer should have to questions about scrap iron and steel

Q. Why is iron and steel scrap a matter of importance to farmers?

A. Steel for our Country's defense program and civilian economy is being produced at the highest annual rate ever . . . and this will be greatly increased in 1952. Farm machinery and equipment needs must come from this over-all supply. As steel production increases the need for scrap increases.

Q. How does scrap figure in the production of steel?

A. One pound of scrap is needed to make two pounds of steel.

Q. Is scrap getting scarce?

A. Yes, the supply of scrap at the steel mills and foundries is not increasing fast enough to meet the needs of expanding steel production. Yet, there are millions of tons of idle iron and steel scrap, in small amounts, on farms throughout the country.

Q. What if the needed scrap isn't obtained?

A. That will mean a serious loss of steel production...fewer products will be made of steel. It will mean more shortages of civilian products. Defense needs come first.

Q. Why not use pig iron instead of A. Every ton of scrap conserves ap-

proximately 2 tons of iron ore, 1 ton of coal, nearly 1/2 ton of limestone and many other vital natural resources—to say nothing of transportation facilities. Besides, there are not enough blast furnaces to produce the iron needed to maintain production.

Q. How can more scrap be furnished?

A. By everybody pitching in—as we always do in every emergency—and searching out all possible sources of scrap. Manufacturers of all kinds of products are conducting scrap drives. Old ships are being salvaged . . . scrap is being obtained from countless sources including farms.

Q. What is farm scrap? A. It is any worn out, obsolete, unrepairable equipment, tools or other objects made of metal. It may be resting and rusting in fence corners, in the fields, the barnyard or the tool shed.

Q. What should be done with farm scrap?

A. Sec ... every bit of scrap gets to the scrap dealer located nearest to you. He will break it up into sizes used by the steel mills and foundries. He'll classify the metals then ship the scrap in carload lots. If you do not know the name of your local scrap dealer, consult your local implement dealer for this information.

Q. What else can I do about farm scrap?

A. Support the scrap drive organized in your locality. Work with your local Scrap Mobilization Committee in getting the scrap started back to the steel mills and foundries through the local scrap dealer.

You'll be helping your country-and yourself!

••• Copper, Brass, Bronze and Lead Scrap are needed too! •••••••••• This advertisement is a contribution, in the national interest, by

Vegetable Beef Pie

Truly a meal-in-a-dish is this hearty beef stew topped with a golden biscuit crust that invites you to cut on the dotted line.

Beef stew is always a specialty in restaurants that cater to men. Why not make it a specialty at home, adding a cover of flaky biscuit?

Biscuit topping dresses up beef stew and also makes it more economical. Roll the biscuit dough out to fit the size of your casserole. Then, with times of a fork, press squares, or other design, into biscuit dough before baking. The result is a professional look for your casser-

ole dish at no extra cost!

Four people can eat heartily of Vegetable Beef Pie for as little as 30 cents a serving. It's a wonderful way to get essential food values, since enriched biscuit has protein, B-vitamins and food iron

to add to those of meat.

Accompany Vegetable Beef Pie with a tossed green salad garnished with tomato wedges, and cold milk, and the main part of your meal is complete. For dessert, plan on fresh pears and Camembert

VEGETABLE BEEF PIE

3 tablespoons fat or suet
1 pound boneless beef stew
(cut in 1½ inch cubes)
1 cup water
1 cup sliced carrots (6 medium)
¼ cup enriched flour

Melt fat or suet in stewing kettle. Brown beef well. Add water, cover and simmer 1 hour. Add carrots, cover and simmer ½ hour longer. Mix together flour, salt and pepper and make into paste with a little of the vegetable liquid and water. Stir into kettle. Add remaining liquid and Worcestershire sauce and cook until thickened, stirring constantly.

2 cups sifted enriched flour 3 teaspoons baking powder 1 teaspoon salt Turn out on lightly floured board or pastry cloth and knead gently 30 seconds.

Sift together flour, baking powder and selt. Cut or rub in shortening until mixture is crumbly. Add milk to make a soft dough.

It has a Way with Women

COMETIMES we think that too little attention is given to the fair sex in automobile advertising.

After all, it's the woman of the house who has to do most of the shopping, which involves getting into tight places at the curb. And it's surprising what tight spots a Buick can fit into at a turn of the wheel.

It's the woman who likes complete freedom from things that it takes an engineer to operate—and a complete and utter freedom from mechanical complications is exactly what makes Dynaflow Drive* such a joy.

It's the woman who has an eye for style and fine fabrics-and a nose for economy. On both counts, a Buick is

90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves -made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dispute between employes and the railroads.

More Than 90% of Employes Accept Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employes—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

Less Than 10% Refuse But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages

over other workers. In all, there are about 270,000 operating employes. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half-132,000 to be exact-are in these three unions. More than half-about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employes are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer? They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the

Brotherhood of Railroad Trainmen signed

a complete agreement carrying out the

principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?

Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$.34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be re-ceiving an increase of 19½ cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases? The White House Agreement includes an 'escalator' clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases
—April and July, 1951—have already been
paid to the 90% of railroad employes covered by signed agreements.

What About the 40-Hour Week?

The White House Agreement calls for the establishment of the 40-hour week in principle, for employes in yard service. The employes can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?

The continued quibbling of the leaders of the three unions has to do principally with rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority dis-

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an inter-divisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse.

Rules Can Be Arbitrated

The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed

With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employes.

Defense is your job, too!

TUST one minute before this picture was taken you would have seen nothing here but waving grass, pine trees, and blue sky. For in only 60 seconds this alert Marine gun crew has landed by helicopter, set up its 75mm howitzer, and is ready to fire!

Precision training and maneuvering like this means that these men stand ready at a moment's notice to protect you and America. That they're doing their job for defense.

But, defense is your job, too! And one of the best ways to do your job is by buying Defense* Bonds regularly. For by buying bonds you help build the great American economic strength that backs up our armed forces. And at the same time you put your money in the world's safest place. For Defense Bonds are as safe as America!

The U.S. Defense Bonds you buy give you personal financial independence

Remember that when you're buying Defense Bonds you're building a personal reserve of cash savings. Money that will some day buy you a house or educate your children, or support you when you retire. Remember, too, that if you don't save regularly, you generally don't save at all. So go to your company's pay office—now—and sign up to buy Defense Bonds through the Payroll Savings Plan.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own automatically goes on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not \$25-but as much as \$33.33-if you just hold it the extra ten years! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's, too, buy U.S. Defense Bonds now!

*U. S. Sayings Bonds are Defense Bonds Buy them regularly!
