## Duke Wilson To Run For School Board

The candidacy of Duke Wilson was announced this week for a place on the local school board in the election Saturday. Wilson's name was entered by Mrs. Frank Potmeci, who presented a petition signed by eight local citizens asking that his name be placed on the ballot.

Those signing the petition were Frank Potmeci, John A. Martin, Jr., Pat Lyles, Boyd Lovelace, T. R. Chappell, L. E. Johnson, Jr., M. C. Scott and W. J. Fields, Jr.

School board members whose names had already been entered on the ballot for reelection are Frank Bond and Mrs. Joe M. Vander Stucken. Bond is secretary of the board and Mrs. Vander Stucken was recently appointed to fill the unexpired term of Mrs. George H. Neill.

Voters Saturday will strike out one of the three names printed on the ballot. Both places are for three-year terms.

Mrs. Duke Wilson stated Wednesday that she wished to make it clear that there was no personal issue involved in her husband's making the race, but that she and others feel that he would make a better school board member than Frank Bond since he has children in school and Bond does not.

As secretary of the board, Bond has the responsibility of overseeing school finances, including handling the bond issue and bids when the new elementary school was built, signing checks and other details.

Voting will take place at the courthouse and Edwin Sawyer is election judge.

## Fifteenth Annual Lions Club Wool, Mohair Show Rules Announced

The Fifteenth Annual Wool & Mohair Show, sponsored by the Sonora Lions Club, will be held June 25 and 26, 1952 at the Sonora Wool & Mohair Company Warehouse.

The severe drought covering the West Texas area will probably influence the quality and quantity of wool and mohair at this year's show, but all exhibitors are being encouraged to participate in the show because it is felt that the drought has left most of them in about the same condition.

Two new classes in the adult division for bags of aged fine wool ram fleeces have been set up with the Sonora Wool and Mohair Company furnishing \$200 in prize money. There will be a class for eight months bags and a class for twelve months bags. Bags of wool from ram lambs are not eligible to compete in either class. Eight months wool shall not have over nine months growth and twelve months wool must not have over thirteen months growth. There is no limit on the number of fleeces per bag for either twelve or eight months wool in the ram classes but the bags must be fully packed.

Special attention is also being called to a rule change in the mohair division of the show for both junior and adult exhibitors. All kid fleeces must be 32's or finer in grade and from Spring Kids, to compete in the kid classes. This rule change became necessary because too many entries in the kid classes could not be disposed of as kid hair because they were too low in grade.

All wool and mohair classes in the junior division will be the same as last years, and the junior judging contest will be made up of the same classes that were in last years contest. Each county will be allowed to enter one 4-H club team and each F. F. A. Chapter will be allowed to enter one team in the judging contest. A team may compete in all divisions of the contest or in any of the individual divisions, but a team must compete in all divisions of the judging contest in order to be eligible to win the over-all high team and over-all high individual awards.

Banners will be awarded the during the next fiscal year.

Local authorities who choose to obtain public housing projects are in no wise to blame. The fault is in Congress and the Administration for establishing the policy of having the government go into this sort of business.

The individual apartments in these public housing projects rent for about one-third of what they would rent if they were open to the general public on a competitive basis. Thus, the taxpayers pay about one-third of the rent bills for these tenants each month, and that will go on for 40 years.

### A VISIT TO TEXAS

It is difficult to get away from Washington during these times when so much important legislation is pending. However, while the House was in recess, I was able to fly down to the district recently in response to some invitations, and was enabled to visit a brother-in-law who is seriously ill.

I addressed a large audience at the Masonic Hall in Melvin where a joint Masonic-Public School celebration was held attended by lodge members, the local school faculty, school board, their families and visitors. Hon. E. L. Allison, City Recorder and retired school teacher introduced me. Venerable and respected he taught school for more than 40 years, and was teacher at a one-teacher rural school attended by my older brothers and my oldest sister before I was born.

You will look a long time before you find a more hospitable place than Melvin or a finer class of American citizens.

It was my pleasure to be the principal speaker at the annual stockholders meeting of the San Saba National Farm Loan Association, held at the High School gym there. That Association, with Mr. Perry Hardin as Secretary-Treasurer and Mr. A. F. Wood as President, has made an excellent record of service to farmers and ranchmen in that area. More than 300 people attended the annual meeting and program.

I also attended an earlier meeting of the Directors of the Sheep & Goat Raisers' Association, held at San Saba, where many current problems peculiar to farmers and ranchmen were discussed.

On Sunday afternoon before my return to Washington, upon the invitation of Rev. Taylor Henley, it was my pleasure to attend the groundbreaking ceremony of the magnificent new church building to be constructed at 14th and Oakes Streets in San Angelo.

first four over-all high teams and the members of the first four teams will receive medals. The over-all high individual will receive a trophy cup and the first seven over-all high individuals will receive medals. Banners will also be awarded the first four teams in each division of the judging contest and the three high individuals of each division will receive medals.

Trophy cups will be awarded the junior exhibitors of the grand champion bag of wool; the grand champion bag of mohair; the grand champion fleece of wool; and the grand champion fleece of mohair.

All of the above trophy cups and medals are being presented by Nathan's Jewelers of San Angelo and the banners are being presented by the Sheep and Goat Raisers Magazine, Texas Sheep & Goat Raisers Association, Edwards Plateau Soil Conservation District, and by donation from the various breed associations.

The Sonora National Farm Loan Association presents the most coveted trophy of all in the junior division for group participation. This is a rotating trophy and must be won by a club or chapter three times before it become the permanent property of the club or chapter. The name of the winner will be engraved on the trophy each year and the top four club or chapters will receive banners to keep permanently. The winner of the group participation award will be determined in the following manner. Total team score, judging contest plus entries plus exhibitors plus exhibitors awards plus record book awards. A standard point system has been set up allowing a certain number of points for bag entries, single fleece entries, exhibitors, etc. The group ending up with the greatest number of points wins the trophy cup.

A standard record book designed especially for the Sonora Wool and Mohair Show is being used this year. The book is designed so that records can be easily transferred to it from either F. F. A. project records books or the 4-H Club Sheep Production record book. A standard record book for the show was adopted because it was difficult for the judges to place records which were not made out in the same manner. All exhibitors having bag entries in the junior division must also enter a record book.

Catalogues, entry tags, and record books are available at the present time and may be obtained by writing the County Agent, at Sonora, Texas.

### MARINE RECRUITER TO BE IN SONORA FRIDAY

T-Sgt. Wesley Ward, in charge of the Marine Corps recruiting office in San Angelo, will visit the Sonora Post Office Friday, April 4, to accept applications from volunteers for the April 15 "Buddy Squad." The "Buddy Squad" members leave out together, go through "boot" together and come home on 10 days' "boot leave" together.

Should sufficient number of men volunteer from Sonora, the squad members will leave out directly from their hometown for final exams at San Antonio, with transportation paid by the Marine Corps. To be eligible for the squad, men must be between the ages of 17-29 years. The 17-year olds must be able to obtain their parents' or guardians' consent. Men cannot be sent overseas near combat areas until after their 18th birthday.

A new 6-year enlistment in the Regulars is available for non-veterans to choose from these days, in addition to the old offers of 3 or 4 years. Also, there is an "indefinite" Reserve enlistment where the men serve 24 months on active duty and are then returned home on inactive status.

### American Legion To Reorganize

A meeting will be held Friday night, April 11, at the Courthouse at 7:30 o'clock to reorganize the American Legion in Sonora.

Sid A. Lowery, department service officer from San Antonio was here last week contacting ex-servicemen and reported that he thought enough were interested to reorganize the Sam C. Merck post here.

Lowery stated that representatives from the state American Legion office will be here to explain benefits of reorganization. All ex-servicemen are cordially invited to attend.

## Sonora Elected President School At State Student Council Meet

The Sonora High School Student Council, under the leadership of its president, Jack Ratliff, and its sponsor, Norman S. Davis, was elected President of the Texas Association of Student Councils at the Corpus Christi convention on March 27, 29. Sonora was selected over two hundred other high school student councils throughout the state. The convention was attended by over 1600 student delegates.

The Sonora High School Council, which has served as Vice-President of the TASC the past year, was nominated to the post of president by a Denton delegate, Tex Dutton, and carried out its "political" campaign for the chair with such novel vote-winning ideas as posters, campaign buttons, signs, folders, pamphlets, and speeches. The three-day affair was culminated in Sonora's election over Amarillo by a close margin of only three votes for honor of serving as president for the association for the coming year and presiding over the annual convention to be next year at Lubbock. The meeting was spiced with such recreational activities as dances, picnics, and most important of all a special air show by the Navy. Delegates at the convention saw such unusual sights as the JATO take off of a heavy seaplane at the Corpus Christi Naval Air Station. They also enjoyed eating "navy chow."

To top off the honor of Sonora's being elected president of the Student Council Association, Norman S. Davis was also elected to the post of "Principal to serve on the TASC Executive Committee." This committee plans such council activities as the annual workshop and the annual convention.

The Sonora Student Council delegates who attended the Corpus Christi Convention include: President, Jack Ratliff; Vice-President, Jimmy Morrow; Secretary, Carmie Sue Wyatt; Treasurer, Bobby Scott; Billy Savell, Bobbie Drennan, Rita Renfro, Joe D. Ross, Billy Scott, and Davis.

Jack Ratliff was honored at the convention and so honored Sonora High School with his task of acting as secretary to the sponsor's business meeting. Jack also showed some of the many reasons why Sonora won the presidency by giving two speeches—one to 1,400 delegates at the General Business session and the other as the speaker who gave response to the Mayor of Corpus Christi's welcoming speech. Jack spoke for the entire association in this response.

Other officers who were elected at the convention were: Vice-President, Midland High School; Secretary, Lubbock High; and Parliamentarian, Brownwood.

Nancy Neill, daughter of Mr. and Mrs. George H. Neill, is expected home over the Easter holidays from Hockaday in Dallas.

Mrs. R. V. Cook and Mrs. Wanda Smith and daughter spent the weekend in San Angelo visiting Mrs. Cook's parents, Mr. and Mrs. J. W. Turner.

Mrs. Eulice Adams of Marothon was here last week visiting her mother, Mrs. B. M. Babb and her brother and family, Mr. and Mrs. Bennie Babb.

## Cattlemen Blast Govt. Controls

Southwestern cattlemen fired a blast at price controls and governmental regulation as they closed their meetings at the 75th annual convention of the Texas and Southwestern Cattle Raisers Association.

More than 2,000 members and guests from the southwestern beef-producing area were in attendance at the convention which was held in Hotel Texas March 17-19.

At their closing business session members passed a strongly worded resolution which reaffirmed the Association's stand against controls. Price controls are a nuisance, impede production and hurt producers, processors and consumers, the resolution stated.

Other major resolutions concerned need for vigilance against the spread of foot and mouth disease from Canada, called for a more practical agreement for use of Mexican labor, and urged action to prevent possible spread of anthrax through shipment of livestock products, such as bone meal, which have not been sterilized.

Jack Roach, Amarillo rancher, was elected president of the Association. He succeeds Ray Willoughby of San Angelo who has served two terms. New first vice-president is J. M. Crews, Childress banker and rancher. Named as second vice-president is R. J. Kleberg, Jr., of the King Ranch of Kingville.

Two new directors were named—Len Mertz of San Angelo and Norman Moser of DeKalb. In the election of officers, Henry Bell of Fort Worth was re-elected secretary-manager of the Association, Joe Montague was re-elected counsel, and Ernest Duke was re-elected assistant secretary.

RANCHMEN DISCUSS LAMB MARKETING PROBLEM - West Texas ranchmen, members of the Texas Sheep and Goat Raisers' Association lamb committee, discuss with Congressman O. C. Fisher, right center with dark rimmed glasses, the uncomfortable situation in which lamb feeders and feeder lamb producers find themselves. Fisher flew from Washington to meet with the directors of the Association during their recent quarterly meeting in San Saba. Ranchmen recommended a revision of the OPS ruling on lamb grading. The present confused grading is lowering the lamb market. Left to right are: Clint Shirley, Fort Worth commissioner, who spoke to the growers regarding the adverse OPS effect; A. McD. Gilliat, Boerne; Alvis Belcher, Brackettville; Floyd McMullan, San Angelo; Harry Curtis, Brady (standing in dark suit); R. J. Rich, lamb feeder of Illinois; E. L. Williams, San Angelo, TS & GRA Secretary; Aubrey DeLong, Mertzon, lamb committee chairman; Conrad Hokekamp, Junction; O. C. Fisher, San Angelo; Joseph Briscoe, Jr., Uvalde. Seated in second row, Willie B. Wilson, San Angelo (leaning forward); and Cecil Brown, San Saba.

## City Commission Reelected By 36-Vote Margin

In one of the lightest votes cast in a city election in recent years, Alfred Schwiening was reelected mayor and A. B. Hightower and Artie Joy were reelected commissioners.

Only 36 votes were cast in the election Tuesday at the City Hall. Those receiving write-in votes were Lea Roy Aldwell, who received two for mayor, and Wesley Sawyer, Edwin Sawyer and George E. Smith, who received one each for commissioner.

### REV. MORRIS ELLIOTT TO PREACH HERE TUESDAY

The Rev. Morris Elliott, rector of Emmanuel Episcopal Church, San Angelo, will be the guest preacher at services at St. John's here on Tuesday evening, April 8, the Rev. J. E. Winslow, rector announced this week.

The Rev. Mr. Elliott is one of the outstanding preachers of the Episcopal Church in Texas, and has many friends in Sonora. Services will begin at 7:30 o'clock. The public is welcome.

**Our WASHINGTON Letter**

By Congressman O. C. FISHER

AMERICAN TAGPAYERS got a break last week when an economy-minded House cut three quarters of a billion dollars from the President's budget request for funds to run some 27 agencies during the next fiscal year. Some of us would have liked to abolish some of those bureaus altogether. There was also a mandatory reduction in personnel. It was one of the biggest budget cut backs in the history of these sprawling agencies. The bill now goes to the Senate.

The most controversial issue debated was an amendment which I offered to prohibit more than 5,000 new public housing units to be started during the next fiscal year. The President had requested 75,000. The House committee recommending 25,000.

With support spearheaded by the House Liberals, the public housing issue has cropped up periodically for several years. It has been described as a good example of the creeping type of socialism which gnaws away at Free Enterprise and gets the government deeper into a Welfare State activity and at the same time deeper and deeper in debt.

After a hard fight, my amendment was adopted on a roll call vote by a margin of 192-to-168. We lost only three votes in the Texas delegation. If this cut back can be maintained it will eventually save the American taxpayers a total of \$348,400,000 by reducing the new units by 20,000.

Actually, in Federal subsidies and net loss in local taxes (all public housing projects are tax-exempt by local cities), these new housing units over the 40-year period of the loans, for which income tax-exempt bonds are sold, cost the taxpayers a total of \$18,920 each - and the cost to build them runs about \$10,000 for each dwelling unit.

It will be recalled that in 1949, by a majority of only five, the House approved the current public housing program whereby the government, through local housing authorities, may build up to \$81,000 units over a six year period. I voted against it. The total cost would run well over \$20 billion. But each year the Congress must pass on the number of new units that may be constructed, not to exceed 165,000. My amendment would hold it to the 5,000 figure.

### Report On Irrigation Wells Shows Cost At \$4 To \$5,000

It costs between \$4,000 and \$5,000 to develop and equip a new irrigation well on the High Plains of Texas, according to a study just published by the Texas Agricultural Experiment Station.

The averages are based on installation and operation costs reported during 1947, 1948 and 1949 in a study of a yearly average of 176 wells in Lubbock, Hockley, Hale, Floyd and Swisher Counties. Present costs may be somewhat higher than during the period of the study.

Installation costs included the drilling, casing and spillway for the well, which averaged \$1,272. Purchase and operating costs are given for four types of power units used to pump irrigation wells. These were electric engines, small and large automobile engines and industrial engines. Respective initial costs during the period of this study were \$720, \$485, \$782 and \$1,320.

An average of 126 acre-feet of water was pumped per well each year of the study. The cost per acre-foot varied with the type of power used and whether the unit was operated with electricity, butane, gasoline or natural gas. Price ranges are shown for each kind of fuel.

The study, reported in Bulletin 745, briefs the historical development of irrigation from wells on the Texas High Plains. About 1,860,000 acres of Plains land were irrigated in 1950 from about 14,000 wells. Most of this development has taken place since 1934, with the greatest expansion since 1945. Well drilling continued at a rapid rate during 1951.

Cooperating in the study were the Department of Agricultural Economics and Sociology of the Texas Station and the Bureau of Agricultural Economics of the U. S. Department of Agriculture.

Copies of Bulletin 745 may be obtained from the Publications Office, Texas Agricultural Experiment Station, College Station, Texas.

## Crucifixion and Resurrection Dramatized on "Greatest Story"

The two traditional Easter season programs, "The Crucifixion" and "The Resurrection," will again be dramatized on "The Greatest Story Ever Told," radio's most honored program, on Palm Sunday, April 6, and Easter Sunday, April 13. The program will be heard over the entire ABC radio network at 5:30 p.m. (EST). This is the sixth Easter that these programs are offered to the public, and each year these presentations, as well as the regular weekly broadcasts, gain increased listeners and appreciation. —33—  
Most unusual among radio programs in many respects, there is no commercial announcement at any time on this program, except for sponsor identification required by law. Neither are actor, director, writer, or music credits ever given, so that the program is entirely in the spirit of a sincere public service. It is not surprising, therefore, that this sincerity in presenting a radio program has brought it more honors than any other radio offering. —33—

**OVER THE ROAD or OVER THE ROUGH - you can't beat a GMC!**

**KNOW** why, more and more, GMC's are becoming first choice of so many cost-watching truck operators in every type of hauling?  
One of the big reasons, they will tell you, is they can always get a GMC that's exactly "engineed" for their particular kind of work.  
There is no need for a GMC owner to strain away with an underpowered truck—or lose profit to a gas eater unsuited to its job.  
That's because GMC builds the widest range of truck engines in the industry—GMC famed valve-in-head gasoline engines from 100 to 200 H.P.—GMC exclusive 2-cycle Diesels from 110 to 225 H.P.  
And it's the kind of power you don't have to pamper!  
Each GMC engine is specially lubricated against wear, specially ventilated against acid-forming fumes even when idling—specially designed for truck duty!  
Why not let us recommend the GMC truck, tractor or six-wheeler perfectly powered for your job? It will be a real truck all the way—exactly the right combination of engine, axle, transmission and frame blended by the world's largest exclusive manufacturer of commercial vehicles!

**ELLIOTT MOTOR COMPANY**

You'll do better on a used truck with your GMC dealer.

IF all the owners of America's electric light and power companies walked by your house single file...  
the passing parade would go on day and night for THREE YEARS!

Housewives... teachers... farmers... doctors... truck drivers... ranchmen... people from all walks of life and from all parts of the country. Each has an interest in America's business-managed, tax-paying electric light and power companies like the West Texas Utilities Company.  
Seventy-five million people are indirect owners—through their life insurance policies and savings bank account. For banks and insurance companies, which want to invest your money wisely, put much of it into these same electric companies.  
Three million are direct owners. They've invested part of their savings in electric company securities.  
What affects these companies affects nearly everyone—your friends, your neighbors, and you!

**NEW FLAVOR FOR AN OLD FAVORITE**

Favorite though it is, broiled chicken can become monotonous unless varied with other foods and seasonings. Lively way to perk up the bland flavor is to baste while cooking with a zesty tomato sauce. Served atop fluffy rice with a green vegetable, relishes and rolls, broilers make a festive meal.

Broiled the usual way and basted frequently with deviled tomato sauce, the chicken takes on subtle and delicious added flavor. And for further tang, cold beer makes a smooth and satisfying beverage to complement this main dish.

Adaptable for serving to the small family or a large group, broilers are the smallest size chicken sold for cooking. One will generally serve two to four persons, allowing about 1/2 pound for each serving.

**Deviled Tomato Sauce**

1/2 cup ketchup  
 3 tablespoons Worcestershire  
 2 tablespoons vinegar  
 2 tablespoons sugar  
 Dash tabasco  
 Mince onion to taste

Mix all ingredients well. Use to baste chicken broilers, spreading lightly on surface of meat about every 5 to 10 minutes until chicken is cooked and brown.

Drive Wheels Power Spaced

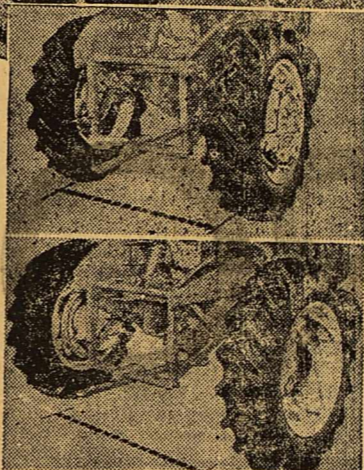

An exclusive feature on the tractor shown above, is the changing of wheel tread spacing which permits the spacing of wheel tread to any position you select.

In the barn yard or on the job it's safe, simple and convenient. By easing three eccentrics, the power of the engine slides the wheel disc on spiral rails in the rim. Adjustable stops check the spacings and lock the wheel in place.

Without loss of time, increased earnings are made with economical row spacings, which conserves the properties in the soil by using every available inch of the field for productive growth.

Drive wheels that are power spaced in less than five minutes are a feature of tractors manufactured by Allis-Chalmers and designed for the CA and WD agricultural models.

**THINKING OUT LOUD**

By W. H. Marshall

Your thoughts are but steps you have not yet taken toward the fulfillment of some desire. Be careful of your desires.

If a man will not let God forgive him his sins, he will find it hard to forgive his neighbor his sins.

If a man is not generous toward

his church, he will not be apt to be generous in his judgement of others.

If your neighbor has weeds in his backyard, look for them only after you have cleaned up your own backyard.

Don't ask God for anything if you are in debt to Him.

You had better keep at least one eye on yourself - there might be somebody watching you with two

eyes. About the time you think you are clever you might be surprised to learn that you were stupid.

We grow big only when we are able to laugh at ourselves.

You would be surprised to know how well the world can get along without you.

An old tin cup was never meant to be a drinking fountain, but I drank from the old tin cup.

Yes, I could see when I visited her that she was a bit old-fashioned, but when she prayed for me and my church I could not keep back the tears.

Miss Jane Neill, of the University of Texas, and her guest, Miss Joan Kaufman of San Antonio are home this week. They are visiting in the home of Mr. and Mrs. George H. Neill.

**Want a lot of mileage for your money?**

WE'LL admit that the price tags of automobiles—all automobiles—are not what they used to be.

But it's just as true today as ever before that some price tags are lower than others, and some cars cost less to own than others.

So let's see how a Buick SPECIAL fits into the picture.

Take first cost. If you put the price tag of this Buick against price tags of cars that have always been tagged as belonging in "the low-priced field"—you'll find that, in actual dollars, a Buick's surprisingly close to these cars of lesser size and horsepower.

But that's just the beginning.

What you're getting here is Buick quality—this SPECIAL comes down the

same assembly line as SUPERS and ROADMASTERS.

Its heft tells you it has extra sturdiness in frame and structure.

Its Fireball Engine delivers extra power. It is an eight, a valve-in-head, with high compression, and the miles you can get from a gallon of gas make it a thrifty performer.

You get Buick's Million Dollar Ride, which protects you—and the car—from jars and jolts.

Even the tires are bigger—which, any tire man will tell you, lengthens their wear.

And if you pay a bit extra for Dynaflo Drive\* you're easing the strain on the engine, the rear end, the tires—and eliminating clutch repair bills.

So when we talk about "mileage for your money" we're talking about the miles you'll get from your car—including the unused miles that are what you have to sell when you trade it in.

Maybe that's why Buick's doing so well in the present market. Why not come in and see what a great car this is for you?

Equipment, accessories, trim and models are subject to change without notice. Wheel Covers standard on ROADMASTER, optional at extra cost on other Series. White sidewalls optional at extra cost when available. \*Standard on ROADMASTER, optional at extra cost on other Series.

## Ever go "over the side"?

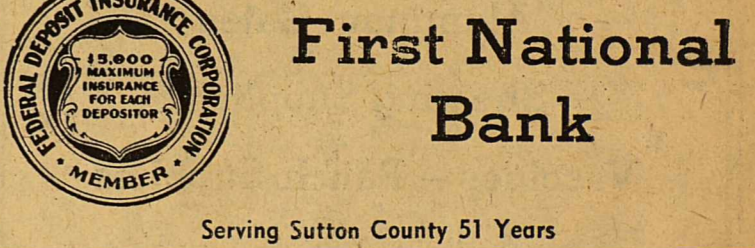

IT ISN'T EASY with the roll of the transport and the clumsy sway of your heavy full field pack. And, at the foot of the landing net, the risky drop into the cold, crowded landing craft bobbing in the choppy sea.  
Then, finally there's the tense, terrible run toward an angry beach and a destiny you cannot even guess.  
It's all very serious and dangerous and hard. Yet thousands of American youngsters have done it—and are ready to do it again, if need be, in defense of our country and you.  
But defense is your job, too. And you can do your job, in an important way, by buying U.S. Defense Bonds.

For these bonds make you and your family secure at home. They provide the economic stability that's needed behind our effective military power. And they help keep America at peace because they help make America strong...in a world where peace is only for the strong.  
So, for the sake of the boys on the landing nets—and for your own family's security—invest your savings in United States Defense Bonds now!

The U. S. Defense Bonds you buy give you personal financial independence  
Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

## PEACE IS FOR THE STRONG... BUY U.S. DEFENSE BONDS NOW!
