

31 Seniors To Graduate Monday Night

Thirty-one high school seniors will receive their diplomas at graduation exercises Monday night at the high school auditorium. The Class of 1952, one of the largest ever to graduate here, has had a very active year and has brought the school honors in many fields.

Baccalaureate services will be held Sunday night at the high school auditorium, and the Rev. W. H. Marshall will preach the sermon. The invocation and benediction will be given by the Rev. J. E. Eldridge. Mrs. W. T. Hardy will play the processional and recessional.

The commencement address will be made by W. W. Jackson, San Antonio insurance executive and a member of the state board of education.

Esther Chavez is valedictorian and Jack Ratliff is salutatorian. Jimmy Morrow, senior class president, will present the class gift to the school. A. E. Prugel, Lions Club president, will present the National Honor Society awards. Bryan Hunt, president of the school board is to present diplomas. The Rev. J. E. Winslow will give the invocation and benediction.

Members of the class are Bill Baldwin, Inez Chalk Baldwin, Darlene Barrow, Joe Berlanga, Mary Lou Brown, Salvador Cardona, Esther Chavez, Maria Chavez, Bobbie Drepann, Pedro Galindo, Diamantina Gomez, Irma Gomez, John S. Hamby, Tyree Hardy, Oralia Ibarra, Jayne Kiser, Darlene Lovelace, Joy Maxey, Myrtle McKee, John Mittel, Eva Lee Moore, Joe Morrison, Jimmy Morrow, Herman Peitchinsky, Jack Ratliff, Billy Savell, Harold Schwiening, Jr., Dick Stephenson, Jack Slone, Lee Roy Valiant, Carnie Sue Wyatt.

Another General Rain Sunday

Sutton County's second general rain in the last month, and one which it is hoped will be a drought-breaker, fell Sunday. An average of two inches of moisture was received over most of the county. As the News went to press Friday, the sky was overcast and a light mist was evident.

A few reports from different parts of the county include the following: Dan Cauthorn, 1.65; Frank Bond, 1; J. S. Holman, 2.5; Thomas Espy, 2.20; Joe Brown Ross, 2.5; Dave Locklin, 2.5; J. A. Ward, Jr., 1.60; Sam Karnes, 2. Along the river heavy rains, some up to 4 and 5 inches, were reported.

Some hail also was reported. Clyde Hill ran into heavy hail at the Experiment Station cutoff Saturday. The hail shattered the windshield of his car. Hill said several motorists tried to drive their cars into the brush to protect them from the hail, but the brush was too beat down to afford much protection.

Bond Issue Carries 115-18

The \$75,000 bond issue for right-of-way and fence building and moving for the Del Rio, Bond, and possibly Menard Road projects, passed Saturday by a vote of 115 to 18.

The bonds are to be sold at an interest rate not to exceed 4 per cent, and are to be supported by the levying of an ad valorem tax.

Miss Annie Duncan To Retire From Teaching; Reception Sunday

After a teaching career of twenty-seven years in the Sonora school system, Miss Annie Duncan, popular high school history teacher and librarian, will retire from the profession this week.

Miss Duncan came to Sonora in September, 1925, and had previously taught in Devine, her home town, and Hondo.

"When I first came to Sonora," she reminisced Thursday, "I thought I had come to the end of the world. I got off the train in Del Rio and came up in an old Buick that served as a bus. The first thing I saw was the old Elementary School nestled against the hills like an ancient European castle. The town had plank sidewalks in those days, and when a board broke, they just nailed a new one on top of the break. You had to watch your step or you'd break your neck."

"But," she laughed, "by the time school was out, I loved the children, the people and the town and didn't want to teach anywhere else. My opinion has never changed."

Miss Duncan was born in Devine. Her father was from St. Louis and her mother was from Covington, Kentucky. They moved to Texas after the Civil War. Miss Duncan attended school in Devine, then took her B. A. and M. A. degrees from the University of Texas. She majored in history and minored in English.

Coming out west, she knew, would be an interesting experience, and it certainly proved so the first day she came to school.

At that time, the school grounds were surrounded by an old fence which was crossed by several stiles. Sheep were grazing in the yard that day, and Miss Annie had never been near one. As she started across the yard, a buck snorted at her and pawed the ground.

"I took one look at him and climbed up on the stile, scared to death. Tom Cooper and Floyd Ridley, who were seniors that year, saw the whole thing and came over and rescued me. I got quite a kidding about the incident, but I've always had a warm spot in my heart for those two boys."

Asked her opinion about present methods of teaching and curricula, Miss Annie was high in her praise of the progress made in education.

"I believe the most important things that can be taught a child, in addition to his academic subjects, are industry, honesty, dependability and good citizenship," she said. "I believe if this is done, America will take care of itself, both internally and externally."

"Parents should start this teaching, because after all, parents can make or break any school system through their attitude. I also think that every child, regardless of his wealth, should be taught to hold some kind of a job."

Miss Annie's special pets are the 'little folks' as she calls them, the elementary students whom she has never taught here. Speaking of the new building, she observed, "I was glad the little folks got the new building. They're so helpless and so susceptible to disease. They need every break they can get."

Miss Annie's plans for the future are indefinite as yet. She will live in her old home in Devine, and may go into business, as any young career woman who tires of teaching should.

UTILITIES COMPANY WINS ADVERTISING AWARD

Recognition of outstanding achievement in the field of utility advertising came to West Texas Utilities Company Friday when it was named winner of two first place national awards in the 1952 Better Copy Contest of the Public Utilities Advertising Association. The awards were announced Friday morning at the annual convention of the Association in Minneapolis, Minnesota.

A First Place Award was received for "newspaper advertising promoting the use of electric service." Also, a First Place Award was presented to the company for advertising promoting "Electrical Appliances."

These winning advertisements were produced by the company's advertising department and appeared in this and other newspapers in the company's service area.

Mr. and Mrs. L. V. Crossley of Del Rio were guests of Mrs. Crossley's sister, Mrs. Beal Freeman, here last week.

Miss Annie Duncan will be honored at a tea from 4 until 6 o'clock Sunday afternoon at the Elementary School cafeteria. Members of the Parent-Teachers Association will be hosts. All of her ex-students and friends are cordially invited to attend.

Seth Lancaster Dies Monday Of Heart Attack

Funeral services for Seth Lancaster were held here Wednesday morning at 10 o'clock from the First Baptist Church. The Rev. J. E. Eldridge officiated. Burial was in Sonora Cemetery.

Lancaster died of a heart attack at his home Monday night. He was born November 20, 1912 in Santa Anna and came to Sonora with his parents 25 years ago. He was employed in local businesses until 1945, when he bought the Club Cafe. He operated it until the time of his death.

On June 7, 1936 he married the former Miss Reba Callan, and to this union a son, Joe Richard, was born.

Lancaster is survived, besides his wife and son, by his parents, Mr. and Mrs. J. K. Lancaster, a brother, Dewitt, of Artesia, New Mexico; a sister, Francis Jo, of Sonora; two nieces and four nephews.

Pallbearers were Hillman Brown, John McClelland, M. C. Scott, Henry Greenhill, Bill McGilvray, S. M. Kerbow, R. C. Vicars and Harvey Cooper.

... Son of a gun ...

We hate to see Miss Annie Duncan end her teaching career here Monday. She has meant much to the people of this town, and, like all good teachers, taught more than just the subjects she was assigned. During her years here she made a definite imprint on the characters of the students who took her courses. She taught history, but she also taught her kids to stand on their own feet, to think for themselves, and to work for what they wanted. What more can you ask?

In the words of Ben Bernie, the old radio maestro, we wish Miss Annie "the mostest of the bestest."

The first roping of the season here is Saturday night and Sunday afternoon at the racetrack. Practice sessions every Tuesday and Thursday night this summer. All invited. The rifle shoot, barbecue and election of officers was postponed last week on account of all things, of the rain. It will be held Sunday, and don't forget, plenty of prizes.

This and that. The Cubs had a boat race last Saturday at Camp Sol Mayer. An Eldorado boy won first. They've had more rain up there, so their kids must be more nautically inclined. The Lions Club plans to do something about slowing trucks down on the main drag. Either route them around the main drag or get them to take it easy. Delfina Brown graduates from San Angelo College Thursday night.

The city has been spraying with DDT but it won't do much good unless the good citizens cooperate by cleaning up their premises. We can think of some shining examples including the area right behind our garage, but we're going to tend to it Sunday.

Our favorite branch of the Texas Gov't., the Highway Dept., recently completed an extensive decorating program for all state cars except Highway Patrol cars. On the door of each car is a giant decalcomania with a Texas flag (in colors) in the center and "Texas Highway Department" scattered around the edges. Very attractive.

Launch Move to Impeach President

WASHINGTON, D. C. — Rep. George H. Bender, (R) Ohio, launched a new GOP move to impeach President Truman for seizing the steel industry, by introducing a resolution in the House calling for the appointment of an 11-member House Committee to report whether the President should be impeached.

Bomer Gist To Move To Taft

Bomer Gist, minister of the Church of Christ, will leave in June to take charge of the Church of Christ at Taft. He and Mrs. Gist, their son, H. B., 13, and their daughter, Virginia Ann, 6, plan to move when school is out.

Mr. Gist came to Sonora in 1948 from Portales, N. M., where he established a Department of the Bible at the University of Easter New Mexico. The department offers a master's degree to students majoring in Bible.

Mr. Gist was born and raised in San Antonio and took his bachelor of arts degree from Abilene Christian College. Commenting on leaving Sonora, he said, "Mrs. Gist and I leave here after four most pleasant years. We have never enjoyed living anywhere as much as we have in Sonora and we hope to return someday."

Mr. and Mrs. G. E. Smith have as their guest, his mother, Mrs. Mary Smith of Miles. Last weekend, the Smith's visited Mrs. Smith's brother and family, Mr. and Mrs. R. C. Luckie in Eunice, N. M.

Edwards Gun Club Plans Beef Shoot

The Edwards County Gun Club is sponsoring a Beef Shoot in Rocksprings, Sunday, June 1, commencing at 1:30 o'clock. The shoot will be held at the club range five miles south of Rocksprings on State Highway Number 55.

There will be ladies', men's and junior boys' iron sight target events, ladies' and men's pistol target events, clay disc target events (break the disc at 100 yards using iron sights and you get a prize package of beef) and luck target events. Prizes to winners in the various events will be packages of grain-fed beef, each weighing approximately ten pounds. The food and cold drink concession will be under the auspices of the Women's Auxiliary of the Edwards County Memorial Hospital.

The sponsors welcome all area pistol and rifle shooters to attend this shoot. There will be fun for the entire family and events tailored to the liking of fans, boosters and enthusiasts. In case of rain the shoot will be postponed one week.

RED CROSS AID TO VICTIMS OF MARCH 21 TORNADOES NEARS MILLION DOLLAR MARK

ABOVE—The refrigerator and washing machine are all that remain in the splintered ruins of G. R. Nelson's newly remodeled home near Lonoke, Arkansas, after tornadoes struck in this and six other southern states March 21. The twisters destroyed 1,044 homes, caused other losses to 4,510 families, killed 214 persons, injured 2,000 others of whom 636 needed hospitalization. The Nelson's young daughter was one of hundreds for whom Red Cross paid medical bills.

BELOW—Made possible by a \$4,023 Red Cross building award, the Nelson's new four-room home now is almost ready for the \$693 of essential furniture also bought for the family by the Red Cross. Meeting actual needs, not losses, Red Cross is adding 775 families in rebuilding homes and additional hundreds are receiving awards—outright grants, not loans—to pay for household goods, medical bills, and other needs. Expenditures now are nearing the million dollar mark.

In these days of continuing danger, the Nation has been called upon to muster every element of its strength to assure its national existence. American young women are dedicating themselves to this purpose in serving in the Armed Forces of their country. Today we mobilize for peace and American womanhood loyalty has answered the call. Since September 1951 more than 8,000 of the country's finest young women have joined the Armed Forces, according to a recent report of the Advisory Committee on Women in the Services to Assistant Secretary of Defense Anna M. Rosenberg.

How to spot an expert

An expert makes hard work easier.

When it comes to hauling, a GMC truck is your expert — for this very sound reason:

GMC — as the world's largest exclusive manufacturer of commercial vehicles — concerns itself 100% with the development of new and better ways to transport goods.

Each model is the careful answer to specific, tough hauling problems.

The new GMC "302" engine is a

case in point. In addition to being America's highest-compression standard gasoline truck engine — it packs more horsepower for its weight than any other on the road! The result is savings in useless "dead weight" by as much as 500 pounds over other engines of equal horsepower.

It's this kind of expert engineering that makes you sure of one thing: whatever model you select at our showroom — panel or pickup, stake rack or platform — you'll have an expert on your next job!

ALWAYS BE CAREFUL DRIVING

White sidewalls optional at extra cost.

It gives this old familiar sign new meaning

WOULD you be interested in getting one gallon free with each tankful of gasoline you buy?

Then we can tell you this: It will certainly be worth your while to read this brief story of Buick's new Airpower carburetor.

Truth is—a skillful driver can just about double the bonus we mention, if he makes the most of what this year's ROADMASTER has to offer.

The reason you can get such a bonus traces to a pair of simple facts:

- (1) It's a mixture of gasoline and air that gives you power.
- (2) Buick engineers have come up with a four-barrel automatic carburetor that lets you use more gallons of air per gallon of fuel.

Most of the time, only two of these barrels are needed—and they feed such a thrifty mixture that you use less gasoline at 40 mph than you'd formerly use at 30.

But—when you want a quick burst of eager power—you can double the air supply as well as the gasoline feed—and come up with the highest horsepower that Buick's Fireball 8 Engine ever delivered.

Of course, any man who's buying a car as fine as a ROADMASTER wants a lot more than extra miles from a tankful of gas.

He wants the distinction of extra room, extra comfort, richer fabrics and all the other refinements that make a car truly fine.

He wants to ride with solid security, confident poise and lordly silence.

And, while he may not admit it, he yearns for a car that's full of fun.

All this, we promise you, and more will be yours when you take the responsive wheel of a ROADMASTER.

How about doing that—soon?

Equipment, accessories, trim and models are subject to change without notice.

Mr. and Mrs. Truman Hines, Mr. and Mrs. Van Hardesty and Mr. and Mrs. H. M. Smith attended the opening of the new Wm. Cameron store in Junction last week.

He who would serve the Lord must be both diligent in his business and fervent in spirit. "not slothful in business; fervent in spirit; serving the Lord" (Romans 12:11), is the admonition of the writer of the Book of Romans. Often a man is diligent about the task he must perform, but there is no warmth and fervor and love for the task; and such service must always be limited and uninspired and unenjoyed by the laborer. A nurse, hired to look after children, may be very careful to perform her task well and very diligent to see that she does her duty; but a mother, loving her children and happy with them and thrilled with the opportunity of caring for them, has a fervency in spirit which glorifies and hangs an aura of beauty and of blessing over the most menial task in the home. Our Lord speaks of the difference between the shepherd and the hireling in the moment of crisis when the wolf comes. The shepherd He declares, "giveth his life for the sheep" (John 10:11); but the hireling fleeth, because he is an hireling, and careth not for the sheep" (John 10:13). Diligence may manifest itself under ordinary routine, but it takes fervency to glorify such routine and to meet the crisis when it comes. The really useful servant of God

is the one who is always abounding in the work of the Lord and who at the same time prays without ceasing. If "the plowing of the wicked is sin" (Proverbs 21:4), then by the same rule, any task of God's man infused with His spirit and steeped in prayer becomes a sacred task and real service for the Lord. A man cannot pray about a godless act, and a man cannot be unceasing in prayer unless he is truly abounding in the work of the Lord. To serve God and serve Him right, there must be devotion and affection for Him and a warmth of heart which leads instinctively to prayer; and at the same time, there must be no slothfulness in business. One must be both diligent and fervent truly to serve the Lord. Without both, the service is incomplete and can never merit the Master's "Well done." Mr. and Mrs. J. C. Norris spent last weekend in Houston visiting their sons, Woodrow and J. C. Jr., and families. Bomer Gist, Church of Christ minister, was in Taft last Sunday night to preach the baccalaureate. Gerald O. Fruzia of Abilene conducted services here Sunday in Mr. Gist's absence. Attend SOME Church Sunday.

"SORORITY BOARD WINNER"

The Sorority Board at their annual meeting selected this all cotton suit as the Number One Fashion in which they would like to go back to school. The Sorority Board is made up of the Presidents of the various Sororities at Southern Methodist University. Each year they meet to assist the Manufacturer in styling a Back-to-School Line. They were very enthusiastic in their reception of the new cotton Fall materials shown. They liked the casual look and the low budget cost and upkeep of these new fabrics. The above style is made in Milton C. Blum's two ply all cotton suiting. The Manufacturer is Clock-Wise Fashions of Dallas, Texas. The Designer, Mr. Philip Mentessana.

Eighteen Models of Other Makes of Cars Cost More!

Official price lists show that there are eighteen different models of American motor cars, produced by five separate automotive manufacturers, which actually cost more than the lowest-priced Cadillac—when similarly equipped. If you find this difficult to believe—then you're in good company! For the record also shows that, during the past few years, literally hundreds of thousands of motorists have taken title to these costlier models. And there can be little doubt that many of them did so simply because they failed to realize how relatively modest the cost of a Cadillac can be. They simply assumed that *exclusive in quality means exclusive in price!* And it is doubtful if a single misunderstanding ever cost so many motorists so much! It cost them, first of all, the satisfaction of *owning* a Cadillac! For there is no substitute for the sense of pride and well-being that comes from owning a motor car that is universally recognized as the "Standard of the World." It cost them, too, the pleasure of *driving* a Cadillac! And this, beyond any question, is the greatest penalty of all! For in missing out on the many thrills to be found behind its wheel—they're missing out on motoring's finest rewards. And, of course, it also cost them Cadillac's many *long-range* economies—its almost unbelievable gasoline mileage, its unsurpassed dependability, and its legendary long life. We know that *you* wouldn't want to make such a costly mistake in the selection of your next car. But you'd better be careful—because there are *eighteen different ways to make it!* So when the time comes—*investigate!* And if you pay the *price* of a Cadillac—be sure that you *get one!*

TEEN TOPICS
By TINA BURL

Don't reveal your beau appeal! Spring is here—and with it the gayest, most intriguing fad that's hit the teen-age world in a month of Saturday night dates.

The "gimmick" is a gold pin in the form of a question mark, affixed to ribbon streamers. There are different ribbon colors and each has a hidden meaning which, if you are in the know, reveals the state of the teen-age lassie's heart. For instance, if she is wearing a blue ribbon, it means she's "sworn off men"—if she is flaunting a pink ribbon, "she's got a beau" . . . but we won't reveal any more of the code, because the gals aren't telling the guys, and in schools all over the country, where the fad is spreading like wildfire, the boys are mystified and intrigued.

The "Beau Appeal" is being sold, for 25¢, in dime stores. It comes on a card which shows the secret code—and a girl may choose her color to reveal her true heart condition . . . or to fool the public . . . or just to add an attractive accessory note to her sweater or dress.

QUESTIONS AND ANSWERS FROM VETERANS ADMINISTRATION

Q - I'm going to school under the GI Bill, and my entitlement will run out a couple of weeks before the end of my course. Will I have to pay for the rest of the course myself?

A - No. So long as your GI entitlement carries you past the mid-way point of your term or semester, you will be permitted to finish that term or semester under the GI Bill, even though you haven't any more entitlement.

Q - May I join with a non-veteran in starting a business, and get a GI loan to finance my share?

A - Yes. However, the guarantee cannot extend to any portion of the loan which may constitute all or part of the non-veteran's contribution to the business.

Q - I'm a totally disabled veteran of Korea and my disabilities are service-connected. May I apply for the new insurance for disabled veterans who served since Korea? If so, may I have my premiums waived because of my total disability?

A - You may apply for the new insurance and, at the same time, you may apply for a waiver of premiums. But be sure you include application, and continue to pay the required premium with your premiums until VA notifies you whether the waiver has been granted. Then if the waiver is granted, premiums paid under that waiver will be refunded.

Q - Does the new insurance for veterans who served since Korea pay dividends?

A - No; it earns no dividends. But its premiums are lower than other forms of Government life insurance which do pay dividends.

Mrs. Pearl Crites, Mrs. B. H. Crites and son, Norman, of Graford were guests Monday and Tuesday of Mr. and Mrs. J. A. Letsinger and Mr. and Mrs. W. O. Crites.

YOUR HEALTH

How much is a year of health protection worth to you? How much is it worth to you to have maintained a staff of experts to control flies, mosquitoes, rats, and disease-bearing vermin. How much is it worth to conduct those well child conferences and supervise immunizations in your town? How much is it worth to you

to know that your food supply is protected and that it is fit for human consumption? How much are the tuberculosis chest x-ray services, and the state's venereal disease control organization worth? How much is it worth to insure that your city water supply isn't full of contamination? Those public health nurses who teach expectant mothers how to handle

themselves and their new babies—what are their services worth to you as an individual? Would you say all this is worth more per year than the cost of a single pack of cigarettes? That's exactly what Texans are paying for health services today—20 cents a year per capita. And there are many other services besides those mentioned. It isn't enough to pay for the

sort of health protection State Health Officer Geo. W. Cox would like to see Texans have. Out of every tax dollar collected in this state, about one cent is spent on the protection of public health. "Too much economy in health work is dangerous," the health official cautioned.

All But Impossible to Believe!

It is very difficult to believe—but, each month, there are literally thousands of people who pay as much for their motor cars as it would cost them to buy Cadillacs . . . and, yet, they don't get Cadillacs.

As we said, this is very hard to believe—but the reasons for it make it more or less understandable.

In the first place, a great many people simply don't know what a Cadillac costs. They don't understand that the lowest-priced Cadillac actually costs less than certain models produced by numerous other manufacturers.

They only know that Cadillac is the world's most renowned motor car—and they assume, from this, that it must also be exclusively priced.

Too, some people get discouraged because they can't walk in and order a Cadillac and get immediate delivery—as they can with so many other makes of cars.

This, too, is largely due to a failure to get all the facts and think them through to the inevitable conclusion.

You have to wait a while for a Cadillac because so many people want one—and want it so badly that they are willing to wait for it. And that, in turn, is because Cadillac is recognized everywhere as the Standard of the World.

So if you want a Cadillac—and research indicates that a vast percentage of motorists do—come in and talk with us about it.

We'll give you the facts concerning comparative costs. And we will also talk frankly with you about delivery dates, so you may know about what to anticipate.

You really owe it to yourself to do this. For, surely, you don't want to pay the price of a Cadillac—and still not get one!

If we already have your order for a Cadillac—stand firm in your conviction—for each day brings you closer to your heart's desire.

It is true, of course, that you can get quicker delivery on other makes of cars. But, in all the world, there is no other car like Cadillac.

So be patient—and you will have your reward!

Brownies Given Picnic
Members of the Brownies were given a picnic May 9 at Simmons Park by the troop mothers, Mrs. Walter Anthony, Mrs. Frank Reed, and Mrs. A. L. Bolt.
The girls roasted weiners and tasted marshmallows. They also played games and practiced making trail signs.

W. S. C. S. To Install New Officers

The Friendship and Ruby Louise Circle of the Woman's Society of Christian Service met last Wednesday at the home of Mrs. H. M. Smith. Mrs. Smith was assisted by D. C. Langford.

Mrs. Herbert Fields was study leader on the subject: "The Family of Christian Concern." Mrs. Robert Kelley, Jr., was worship leader and Mrs. J. T. Sellman and Mrs. Rose Thorp were also on the program.

It was announced that installation of officers will be held May 21 at 3:30 o'clock in the sanctuary of the Methodist Church. Mrs. Floyd Henderson of Ozona, district president of the WSCS, will install the new officers. Mrs. Hugh Tandy, also of Ozona, will sing.

It was also announced that the organization has bought a set of new dishes for the church.

Coffee and hot rolls were served to twenty members and one guest, Mrs. Molly Teague.

Mrs. C. H. Prater attended the Ivy Family reunion at Lake Brownwood last weekend. Among those present were Norman Chesser and D. E. Ivy, survivors of the Bataan death march. They have recently published a book, "Of Rice And Men."

Mr. and Mrs. Edgar Shurley have as their guest, Mrs. Shurley's mother, Mrs. Margaret Tipton of Tyler.

30,000 Cattle Saved

United States Air Force officials had a Flying-Boxcar-sized problem on their hands last month when planes were made available to participate in emergency-conceived "Operation Haylift," but a means could not be found to move the urgently needed baled hay into the giant ships.
Learning of the problem, an Elko, Nevada farm equipment dealer came to the rescue with a Farmhand Hydraulic Loader mounted on a tractor. Result was the entire operation turned out highly successful as the loader raised the bales to the 9-foot high plane doorways, and a hydraulic push-off device neatly deposited the bales, 8 at a time, into the interior of the plane. Two men did the job in a quick, efficient manner as seen in the above picture; the flying boxcars took off on schedule; over 74 tons of 80-pound bales were handled in one peak day; and an estimated 30,000 head of beef cattle, valued at six million dollars, were saved from starvation in the worst snow accumulation in 60 years.

LOOK WHERE YOU ARE GOING

By W. H. Marshall

Look where you are going because you will inevitably go where you are looking. Where your attention is, there is also your destiny.

Attention is the key of life. What ever you really give your attention to, you become. Whatever you really concentrate upon will come into your life. We grow into the thing that fills our thoughts, as inevitably as the stream merges into the ocean at last.

The Bible says that as a man thinketh in his heart, so is he. It does not say simply as a man thinketh, but as he thinketh in his HEART, and this means THINKING WITH INTEREST OR FEELING.

It has been said that we grow like the things we admire; but since we are certain to think a good deal about what we really admire, this is only another way of saying that we become the thing to which we give our attention. If you give too much attention to yourself you become selfish. If you are forever finding fault with others you yourself will soon have all the faults you are finding in others. You become what you give your attention to. You can not play with mud without getting some on you. But some folk never find that out until it is too late. Look Where You Are Going!

CHRYSLER SARATOGA 6-PASSENGER SEDAN

ITS NEW KIND OF HORSEPOWER IS SOMETHING TO FEEL!

With its 180 HP V-8 engine, on 125 1/2 inches of wheelbase, many people think the Saratoga is the best Chrysler car of all.

We invite you to take the wheel and feel what happens! There's a new sense of easy power, of reserve power that make driving a new experience.

Its revolutionary combustion chamber develops more of the power in each charge of fuel than other engines can do. One result is performance, even on non-pre-

mium fuel, such as you have never felt. Another result is new economy. It's an engine that scarcely forms carbon at all. It creates less heat. It will last much longer, stay younger on the way!

And with Chrysler full-time Power Steering*, you steer with one-fifth the usual effort... drive with five times the usual control! With Power Brakes you need up to two-thirds less foot pressure... and still stop in many feet less than other cars can do.

Yes, behind Chrysler's new engine you'll find a new kind of car. Won't you come in and feel what we mean?

*NOTE: Power Steering standard on Crown Imperial. Available, extra, on any new Chrysler.

A FAULTY GRADING SYSTEM of lambs under OPS regulations is being reviewed by the Department of Agriculture. Fort Worth stockyards buyers have complained for some time—as have some growers—about the methods used in grading lamb carcasses. There is a lot of difference in the price that is paid for lamb and for yearlings. That difference runs into a lot of money. Yet, under present government grading practices, buyers insist animals that a year ago would have been graded as lambs are in many instances graded as yearlings today.

Many of us joined in urging the Meat Grading Service to return to the system of "break jointing" old crop lambs and yearlings to determine which is lamb and which is mutton. The present severe grading practices are depressing the markets and causing severe hardship for growers and feeders. In conferences, again, last week with the USDA, we were assured the subject upon which the complaints are based will be promptly investigated.

SAM R. ELLISON of San Saba, was given an award by the Secretary of Agriculture last week for his outstanding work in San Saba County as a Supervisor for the Farmers Home Administration.

Accompanied to the Capitol by Mrs. Ellison, San Saba's Supervisor listened to a speech by the President and others during preliminaries preceding the presentation. "For exceedingly wise planning, and effective leadership in the development of improved living for FHA families and the achievement of a sound and profitable agriculture in San Saba County", was the description given to Mr. Ellison's service which resulted in the citation.

For these awards, only 9 County Supervisors over the Nation were chosen, three of them Texans. The recognition given Mr. Ellison was very evidently well deserved. During the past year he has handled 146 disaster loans for the farmers of San Saba County. Those farmers could not obtain loans elsewhere.

Named Eisenhower's Successor

Gen. Matthew B. Ridgway was named successor to Gen. Eisenhower as Supreme Allied Commander in Europe. President Truman made the announcement after the North Atlantic Council Meeting in Paris approved the choice of Ridgway for the NATO job which Gen. Eisenhower is relinquishing to seek the GOP presidential nomination.

THIS TASTES GOOD IN TEXAS

Frozen Orange—Pineapple Salad
1 cup pineapple juice
2 tablespoons flour
1/2 cup butter
1-8 cup sugar
1 egg
1-16 teaspoon salt
2 tablespoons lemon juice
4 slices pineapple, cut fine
2 oranges
1/4 cup nuts
10 marshmallows
8 maraschino cherries
1 pint whipped cream
Make a paste of flour and pineapple juice, then gradually add remainder of juice. Add butter, sugar, and salt. Cook in top of double boiler for approximately 10 minutes. Then add the egg, slightly beaten. Continue to cook for a few minutes, stirring continually; then cool and add lemon juice. Add pineapple, oranges, nuts, marshmallows and cherries; then fold in the whipped cream. Pour into freezing tray and allow to freeze. 6 to 8 servings.

"Every one of those loans will be paid back, with interest", says Mr. Ellison. And that has been the record for years of the Farmers Home Administration in its loan program. It has made many landowners out of tenants, and is one of the best managed agencies in the government.

IN BITING WIND AND COLD AND SNOW... his numb fingers bent around an M-1 rifle... this soldier is living with the same hardships suffered by General Washington's troops at Valley Forge 174 years ago.

His equipment is immeasurably better than any those first Yankees could have dreamed of. His chances of survival are equally improved. But, like them, he is doing a grim, hard job for the defense of his country.

Defense is your job, too. It is your job to maintain and support America's economic strength as this soldier is supporting her military strength.

It's an easy job...and one of the best ways to do it is by buying United States Defense Bonds regularly. For with bonds and other forms of savings you are making yourself and your country stable and strong. And America must be kept strong—economically as well as militarily. For we must always remember... in this cold-warring world, *peace is only for the strong!*

The U. S. Defense Bonds you buy give you personal financial independence.

Don't forget that bonds are now a better buy than ever. Because now every Series E Bond you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Peace is for the strong... Buy U.S. Defense Bonds now!

Now-choice of FIVE Great Engines

New 1952 Ford F-7 is powered with the completely new LOW-FRICTION 145-h.p. V-8!

in Ford Trucks for '52!

3 NEW Low-Friction engines!
Gas savings up to 14%!

Ordinarily, engine friction alone can steal as much as 30% of the power your engine develops. Ford's new short piston stroke cuts piston travel, reduces gas sacrificed to engine friction, delivers more of the power developed! These three new engines, PLUS the famous 239 cu. in. V-8 (now 106 h.p.), the 112-h.p. BIG SIX, the new Courier Custom Delivery, mean that there's a Ford Truck that's exactly right for your kind of job—at a rock-bottom per-mile running cost!

Availability of equipment, accessories and trim as illustrated is dependent on material supply conditions. F.D.A.F.

Completely PROVED under toughest conditions!
High-compression punch with regular gas!
