In the collection were some colonial notes for 12 shillings and inscribed in part, "To Counterfit Is Death." Another note, issued by the Continental Congress on September 26, 1778, just 174 years ago today, states: "This bill entitles the bearer to receive 20 Spanish milled dollars or the value thereof in gold or silver according to a resolution passed by the Congress at Philadelphia."

One interesting item in the collection was a treasury note released by the Government of Texas December 10, 1838. The not, No. 3592, note would be paid in one year, but Club. said nothing about interest.

To all these people we wish to say: "Come on in and order your Cadillac today!"

Every day you wait is simply postponing, still further, the wonderful time when you can enjoy the many delightful things a Cadillac will bring you.

There is, for instance, the deep feeling of pride which comes from owning a car which is universally acknowledged to be the Standard of the World . . .

... the great satisfaction that comes from driving a car so quiet you can "whisper and be heard"; so easy to handle that driving is no conscious effort at all; so comfortable and restful that a day at its wheel is the essence of relaxation . . .

... the comforting confidence that comes from knowing your car is so soundly-engineered and so beautifullybuilt that you can keep it and enjoy it over almost

any period you may care to designate . . . and, finally, the happy knowledge that you probably paid less for your Cadillac than hundreds of thousands of people who are driving other makes of cars—for there are numerous models produced by other manufacturers which actually cost more than the lowest-priced Cadillac!

Isn't all this too much to miss for even one needless day? Owners of Cadillacs will tell you it is-out of their own experience. Time and again, people who have just moved up to Cadillac have said to us—"Why did I wait so long to enjoy all this?"

That's why we urge you to come in today and start down the happy road to Cadillac ownership. You have already missed too much—too long!

... AND WE ARE PROUD OF IT!

We are at the service of the community 4 more working days each week than the average retail store. Doing our job in serving the health needs of the community is the reason for our long hours.

Many patients visit the doctor's office during evening hours. A high percentage of the doctor's house calls are made at night. The prescription needs of these patients must be served. The most effective antibiotic . . . the most potent painkiller. . . . is of no value unless it is available to the patient, when he needs it.

We will continue our 10-day work week, just as we have done these many years past. It's our responsibility to our community . . . and we are proud of it.
