SIXTY SIXTH YEAR

Sonora, Texas, Friday, January 27, 1956

SIXTEENTH WEEK

## ODDS & ENDS

It's certainly good to see Tom Darrow and talk with him. He has had a wonderful two years and we'll have an interview with him next week for sure. We were all set for this week but shortage of space would have forced us to condense an account we feel would suffer from condensation. We hope to do it justice next week.

Everyone was very happy with the results of Saturday's 4-H Show. We thought it was an excellent show and are proud of the job our kids are doing in breeding such fine animals.

Clayton Hamilton is still accepting contribution for 4-H work.

D. C. Langford and his 4-H Clubbers asked us to say "thank you" to everyone who helped in any way. Especially to the contributors, the Chinese auction participants, the judges, and the auctioneer.

And now to a very serious subject. We have had it called to our attention several times recently that bb guns are proving a hazard in certain parts of town.

As I believe we have mentioned before, the discharging of any kind of firearms within the corporate limits of any city constitutes a breach of state, county and city law.

Now every kid wants a bb gun and what a kid wants, his parents want for him. However, we cannot give a kid a gun and think the gift ends there for with such a gift goes the responsibility on the part of the parent to instruct his child in the proper use of firearms.

The gun club has a wonderful range where kids can be taught how to handle a gun and can shoot to their hearts' content. That's one of the main reasons the club built the range.

Two cowboys were talking. One said, "My name's Tex." Second one, "You from Texas?" Answered the first one: "Nope, from Louisiana, but who wants to be called Louise."

## Basketball Game Will Benefit March Of Dimes

In answer to the challenge of the VA class and Army Reserve Unit, Sonora men have organized their basketball team and the two teams will meet Wednesday night, February 1, in the high school gymnasium.

The VA Whirlwinds are so confident of their chances that they have not engaged a coach. Team members are Charles Lee Haines, Charles Davenport, Tommy Smith, Jim Skinner, Cleveland Nance, Joe Seale, Charles Miller, Bobby Joe Granger, Sid Awalt and Jackie Sharp.

Playing for the Sonora Cyclones will be Wilfred Berger, J. W. Pepper, Jr., Earl Smith, Mack Owens, Al Brown, Jay Spears, Charles Lamb, Oliver Wuest, Herman (Twinkletoes) Moore, Harold Garrett, Jack Kerbow, N. J. Moore, Leon Neeley, W. W. Renfro and George Hamilton. Cyclone Coach Clayton Hamilton said, "We plan to use strategy and plenty of manpower in our game." Game time is eight o'clock.

## Mothers March Monday Night

By Mrs. Norman S. Davis  
On Monday night, January 30, Sonora mothers will march as many thousands of our nation's mothers have marched during the month of January. This all important occasion is a part of the annual March of Dimes campaign to help combat infantile paralysis.

Be generous as you offer your gift. Won't you help the mothers who make this drive by leaving your porch light on from 7 to 8 p.m. the night of January 30? This will help to light the way for them to make a door to door canvass; and, in a broader sense, your light will make a brighter future possible for some person whose life might be quite dark otherwise.

The mother who calls at your door will be aware that you might already have made a donation. Try to have a contribution ready for her. Keep this mathematical fact in mind as you answer your door bell on the night of January 30-if only one dime were collected from each house in Sonora, the amount would exceed \$80.00.

## Poll Taxes Paid So Far Only 525

Number of poll taxes bought so far this year numbered 525 on January 25, just six days before the January 31 deadline. While leading the number of poll taxes for 1954, the 525 represented only slightly more than half of the 1,035 paid during 1951, the last general election year.

Aside from the presidential election this year we have elections scheduled for filling several city and county offices. Offices vacant this year are: Sheriff, Tax Assessor-Collector; District Attorney, County Attorney, City Commissioners for Precincts 1 and 3, and Constable.

Ranchmen should make tentative plans now to work some deferred grazing or pasture resting into their 1956 management program.

It is true that light stocking alone will result in some range improvement, but a period of complete rest will give even greater benefits. It is an accepted fact that livestock prefer certain choice grasses over some of the less desirable grasses. Choice plants have been thinned out by drought and long, continuous use on most ranches to the point where remaining plants are badly needed to reestablish a seed source.

On most ranches light stocking will provide enough animals to keep the choice grasses heavily grazed, which prevents their recovery and spread. Inferior or less palatable grasses, on the other hand, are barely touched, if stocking is light enough. These grasses become strong and robust and give further competition to the choice grasses.

Grazing habits of livestock enter the picture, also. Sheep are characteristically "spot grazers." Light stocking with sheep simply results in smaller hazard spots, such as shallow ridges, southeast corners, and bed grounds. Complete rest is necessary to let the hazard spots regain cover and vigor. Goats have a great habit of "topping" seed from choice plants such as side-oats and hairy grama, bluestems and green sprangletop. Goats graze more uniformly and let more grass grow, but a few goats in a pasture can harvest all of the seed the limited stand of choice grasses can produce.

The use of a deferred-rotation system of grazing during the growing season is rapidly gaining favor with ranchmen. Under this system livestock are "doubled up" on a pasture for a 30 to 40 day period, then moved to a fresh pasture. Livestock moves should be based on the rainfall as well as the condition of the livestock and range. Livestock are usually moved to a fresh pasture immediately following a grass producing rain. This assures fast recovery of the pasture vacated, as well as choice forage production in the newly stocked pasture.

Better use is thus made of less palatable grasses, such as curly-mesquite, threeaw and oak browse. Livestock do not remain in a pasture long enough to "beat out" vegetation on bed grounds and southeast corners and create hazard areas. Weak spots in the completely rested pastures have an opportunity to "hair over," catch rainfall and produce forage. Choice grasses get a break and recover vigor which enables them to spread and successfully compete with less desirable grasses.

Ranchmen can get financial assistance on deferred grazing under the Sutton County ASC program. Cost-sharing rates per acre for 1956 are 25c for three months rest; 33c for four months rest; 42c for five months rest; and 50c for six months rest. Any of these periods may be used between March 15 and November 1. Ranchmen can defer one pasture three months in the spring; another pasture three months during the summer; and a third pasture three months during the fall, if they so desire.

With the great need for deferred grazing further aggravated by the continuing drought, we hope that many ranchmen will practice deferred grazing during 1956.

Que por derecho les corresponde hablar, yo diria que los padres que hablen el ingles correcto se los ensenen sus hijos que eso desde luego ya es una ventaja, para ellos cuando esten de edad escolar porque se les facilita mas para hacerse entender pero muchas personas les ensenan un ingles mediocre, que lejos de hacerles utiles una pesadilla para los profesores porque batallan mas para quitarles el ingles mal ensenado que para ensenarles el bueno.

Desde luego la idima oficial de este gran pais es el ingles y desde luego es lo que les corresponde hablar como ciudadanos de el porque dominando la lengua oficial del pais en que vivimos es la manera de, concernos y con prendemos mas bien olvidar el espanol seria una torpesa porque ya por heransia paterna nos corresponde, deberiamos aprenderla correcta en lugar de olvidarla porque el hablar dos idiomas universales.

**WHEN WINTER WINDS BLOW**

When old-times squint at the sky when cattle start milling and bawling it means just one thing... the first "norther" of the year is blowin' in. It's the beginning of winter... a critical time for the brood cows. They're building next spring's calf and maintaining their own bodies, too!

Cows need help to stay in shape and drop strong calves next spring. They need carbohydrates for heat and energy, bodybuilding protein, vitamins and minerals. Purina Range Checkers are a welcome sight to cattle braving winter's cold. See us next time you're in town for more information about easy-to-feed Range Checkers... they have what cows need for health and reproduction.

**Nothing without wings climbs like a '56 Chevrolet!**

The new '56 Chevrolet handles hills like they aren't even there! Aim it up a steep grade . . . and you'll see why it's the Pikes Peak record breaker!

Ever level off a mountain with your foot? Nothing to it. Just point this new '56 Chevy uphill and ease down on the gas.

In the merest fraction of a second you sense that big bore V8 lengthening out its stride. And up you go with a quiet rush of power (hydraulic-hushed valve lifters now in all engines—V8 or 6) that makes a mountain seem as flat as a road-map!

For nothing without wings climbs like a '56 Chevrolet! This is the car, you know, that broke the Pikes Peak record. The car that conquered towering grades and vicious switchback turns to prove its superior performance, handling ease and cornering ability.

These are built-in qualities that mean more driving pleasure and safety for you. You can also have such safety features as seat belts, with or without shoulder harness, and instrument panel padding at extra cost.

You've a choice of 19 frisky new Chevrolets all with Fisher Body and with horsepower ranging up to 205. Drop in, when you have a chance, and drive the new record breaker!

"I REMEMBER" BY THE OLDTIMERS

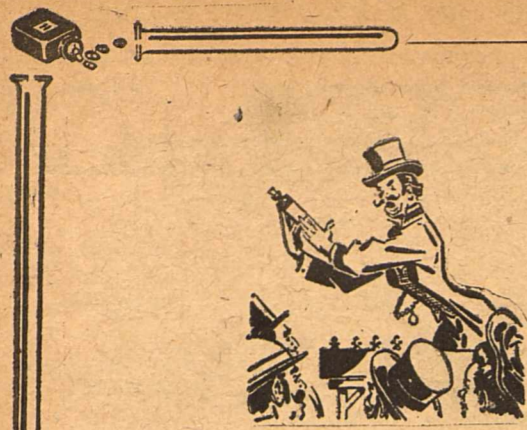

From Mrs. Lena Carter, Galena, Kansas: I remember early days in Texas. I was born in Opelika, Ala., in 1870, a child of the blue and the grey. My father came to Texas in 1874 and a year later called for us to come to our new home near Marlin, Texas. Father put in a big shop, making wagons, buggies, plows and other things used in those days. They hired Negroes on the plantations, had cotton pickings until midnight on moonlight nights, then had a big supper and dance until sunrise. My father later sold out and came to Ft. Worth when the T. & P. railroad was coming in. He took a contract putting in stone culverts. The Indians were still making raids here and there. We finally settled in Weatherford, Texas. I remember the Indian chief marrying a white girl the Comanches had stolen from Weatherford during a raid when the girl was but four years old. She had grown up among the Indians and thought she was one of them. They raised two fine girls, both of whom were educated in Dallas. Once a fire broke out in the Dallas school. One of the girls was rescued by a young man who later married her.

#### LIONS ROAR

Sixty-five members were present at Tuesday's Lions Club meeting at the basement of the Methodist Church. Luncheon was served by members of the Methodist Adult Women's Sunday School class.

Lion Norman S. Davis announced the Ground Observer Corps meeting for Thursday night, urging as many as possible to attend. Lion D. C. Langford expressed thanks to all who attended the 4-H Show and Sale.

The Reverend Al Brown, chairman of the Community Welfare Council, reported on activities of the council for the six months period since its organization in June of 1955. Active members of the council are now The First Methodist Church, St. John's Episcopal Church, First Baptist Church, Lions Club, Sonora Women's Club and the City of So-

nora. Rev. Brown announced an expenditure of \$88.30 for transient welfare, serving about 30 people. In the Council's Christmas Sharing program, about 12 people were reached.

He again stressed the importance of merchants referring all "touches" to the Sheriff's office for verification.

The Council is set up to take care of local needs. No local needs arose in 1955 but the Council is currently helping in one hospital case through the purchase of medicines in order to relieve the hospital of some of the burden.

Following reports, a movie, "The Second Hundred Years," a film of American industrial growth, was shown.

Mr. and Mrs. Stanley Mayfield were in San Angelo last weekend visiting her mother, Mrs. John Cranford, who is ill.
