Odds And Ends

We've said it before. We'll say it again. When Sonorans make up their minds to do something they do it bigger and better and quicker than anyone else. Mr. Green, Texas Aeronautical Association field man, termed Sonora's airport "perfect". Green knows of no other strip which, when a pilot finishes his landing run, puts him within four blocks of the downtown business section.

We've said it before. We'll say it again. We think there's never been such wholehearted enthusiasm in a local project. A spirit of cooperation has prevailed from the beginning between city and county in their efforts to build a strip without affecting existing tax structures.

We know of only three objections to the project and we feel that if they would consider such aspects as lives saved in medical emergencies, increased tempo in our oil and gas development, and an emergency landing strip for distressed aircraft, their objections would be less strenuous.

The local Oil Information Committee has worked for several weeks making plans for our Kickoff Celebration to be held October 12. Free barbecue will be provided for 2,800 people. The program includes an outstanding speaker in V. J. McCoy. A parade of oil field equipment and a dance. We urge everyone in the county to support this celebration with their attendance. Few of us realize the importance of oil to our economy.

O.I.C. Plans To Serve 2,500 For Oil Progress Week Kickoff

BRONCOS LOSE TO BADGERS 25-21 IN THRILLER FRIDAY NIGHT

The Sonora Broncos handed the McCamey Badgers a surprise package Friday night by holding the Class AA Badgers to a 25 to 21 margin. Until the last few minutes of play the Broncos had held the lead exhibiting a team spirit and determination which won them the respect and admiration of all spectators.

Head Coach Joe Turner described the game as the roughest and toughest since the Bi-District game last year. Turner said he used every player and each team members gave everything he had. He had high praise for every man.

Describing his team's work Turner said, "Our offense looked better and our defensive line play was excellent. We have a glaring weakness that we hope to overcome with this week's workout. Our team is like the

Broncos of old, they came back with fire and fury and asked for harder workouts in order to improve themselves."

It was strictly all-out team play from the opening gun to the final shot, and it was wholehearted cooperation that set up scoring plays by Allen Wall, Sam Galindo and John Ed Neville. Vivian Vasquez, Wall and Galindo were responsible for the conversion points.

Sonora chalked up 15 first downs to McCamey's 18 and completed one out of three pass attempts. McCamey completed nine of 22 tries.

Sonora's Kickoff Celebration for Oil Progress Week is scheduled for Saturday, October 12, according to Carl J. Cahill and Wesley C. Young, chairmen of the local Oil Information Com-

mittee, with crowds in excess of 2,500 expected to view the equipment parade and attend the free barbecue at Bronco Stadium and the dance to follow.

Cahill and Young, with their various committee members, have arranged for V. J. McCoy, public relation director of Shell Oil Co., Houston, widely known as an outstanding speaker, to be present. Ranchmen and other individuals have contributed barbecue to serve 2,800. Business houses and private persons have underwritten other expenses with over \$1,500 in cash donations.

The festivities will begin at five o'clock Saturday afternoon with a parade of oil field equipment through downtown Sonora. Barbecue will be served at six o'clock at Bronco Stadium with 12 serving lines set up to permit feeding of 2,500 person in a half hour.

The Rancho Square Dance Club has planned a dance to follow the barbecue and program. Music will be furnished by out of town band. The school board had made available for the dance the school gym and tennis courts.

The Kickoff Celebration has drawn wide attention and major oil companies from all over the state have accepted invitations to have representatives present.

Other activities scheduled for Oil Progress Week include the movie, "Barrel Number One" to be shown at the schools. "Twenty-four Hour Progress", a short feature to be shown nightly at the Bronco Theater and "Natural Gas To The North" to be seen by Lions Tuesday, October 8. The Committee has sponsored a local essay contest for high school juniors and seniors with first place winner to receive a portable typewriter presented by the Devil River News.

Sponsoring Local Essay Contest

The local Oil Information Committee is sponsoring an essay contest in conjunction with its observance of Oil Progress Week. Open to high school juniors and seniors, the contest is for the best essay written on this year's subject "What Free Enterprise Means to Oil Progress".

Winner of the contest in Sonora will receive a portable typewriter to be presented by The Devil's River News and the winning essay is eligible for statewide and nationwide competition.

Heating Checkup

City Fire Marshall John A. Martin, Jr., this week urged citizens to check their heating equipment for the fall and winter. In a statement Martin said, "since cold weather is now on us, it is necessary to check all flues, stove pipes, all gas piping, connections and appliances before we start using them for the winter. If there is a floor furnace in your home, by all means remember to get all dust and accumulations of lint out of the pit before starting the fall fire."

Donors Asked To Deliver Animals To Locker Plant

One hundred two goats have been donated by Sutton County ranchmen and other individuals and firms to provide barbecue for an expected 2,800 persons at the Kickoff Celebration for Oil Progress Week. This week the Oil Information Committee requested that those persons who have contributed animals deliver them to the Sonora Food Locker as soon as it is convenient.

The following have promised goats or kids for the event: C. T. Jones, Sr., Harold Saunders, Jr., W. B. McMillan, D. C. O. Wilson, Sam Allison, Dan Cauthorn, Annella Stites, John Cauthorn, E. S. Mayer and Son, Aldwell Brothers, Gay Copeland,

On Monday Leslie Jones of Fort McKavett took advantage of the strip's nearness to town to fly in on a business trip. Dr. C. W. Livingston made the Lions Club meeting Tuesday by flying in from the Experiment Station.

AW, PLEASE MOM!

Sixteen little boys aged eight to eleven are pretty unhappy this week. You see they're all set to be Cub Scouts and they can't be Cub Scouts—there aren't enough Den Mothers to go around.

Mrs. R. S. Teaff tells us that there are three full dens of eight boys each rarin' to go, all organized, and with Den Mothers. But the other two dens, of eight boys each, are all rarin' to go but no Den Mothers.

And Mrs. Teaff, herself in charge of eight Cubs, says the job's not near so bad as it's painted. Activities are planned out in the handbook, each mother has one helper, it's only a once-a-week job, and no more than eight boys are allowed to a den.

If you have a small Cub, or a free afternoon, or an empty garage, call Mrs. Teaff and tell her you'll be glad to keep these kids from being disappointed.

Broncos Meet Coahoma Bulldogs Here 8 P.M. Friday

Joe Turner and his Sonora Broncos play hosts to the Bulldogs from Coahoma here Friday night for the Broncos' second home game of the year.

The Coahoma eleven, while a Class B team, are big. It was the Bulldogs who last year gave Sonora's Bi-District Champions a real battle in preseason play.

Probable starters for the Broncos will be: Ends, Freddie Fields

and John Ed Neville; Tackles, Junior Castro and Bill Fish; Guards, Dan Cauthorn and Gene Brodhead; Center, Wallace Anthony; Backs, Vivian Vasquez, Allen Wall, Eddie Sosa and Sam Galindo.

For the Bulldogs: Ends B. Myrick and B. Spears; Tackles, C. R. Wright and B. Null; Guards, D. Stokes and M. Roberts; Center, M. Kinemer; Backs, D. Barr H. Harrington, D. White and M. Robinson.

Airstrip Busy Even Though Not Completed

Proof positive of the need for an airport came this week with three planes using the strip which is still under construction. First to land on the new field was Tyree Hardy, son of Dr. and Mrs. W. T. Hardy. Young Hardy flew in from San Antonio Sunday for a visit with his parents.

The present structure, located just south of the new intersection of the Ozona and San Angelo highways, is 22 feet wide with a four-foot sidewalk. Specifications call for the renovated bridge to have a 44-foot roadway and two four-foot sidewalks.

Bridge Over Dry Devil's River Due Widening

Receipt of bids for the widening of the existing bridge over Dry Devil's River on U. S. Highways 290 and 277 is scheduled for October letting, according to R. A. McCulloch, resident engineer of the Texas Highway Department.

Claire Jones Shows Winning 4-H Record Book

Claire Jones, Sutton County 4-H girl, exhibited the first place record book in District 6 of the Texas 4-H Club. Claire's record book, the first district winner shown by a girl, will be entered in statewide competition for the Texas Sheep and Goat Raisers Award at Texas A. & M. College in Bryan.

Winner of the statewide competition will receive an all-expense paid trip to the National 4-H Conference and the Chicago International Livestock Exposition.

Edwin S. Mayer, chairman of the board of The Wool Bureau, Inc., and J. K. Sexton, board member and president of the American Wool Council, discuss wool affairs during the fall meeting of the bureau's executive committee. At the meeting the bureau's expanded advertising and sales promotion activities as well as wool fiber research programs were discussed.

Rev. Allen Guthrie Accepts Call As Minister Of Church Of Good Shepherd

The Reverend Allan Guthrie of Gladewater has accepted a call to assume pastoral duties at the Church of the Good Shepherd, Presbyterian Church, in

of the Kilgore Schools and Austin College, Sherman. He attended Union Theological Seminary, Richmond, Virginia and received his degree in theology from Austin Presbyterian Seminary in Austin.

Mr. Guthrie was for two years assistant pastor at the First Presbyterian Church in Gladewater for three years. He is married to the former Miss Margary Woodward of San Angelo. They have one child.

Mr. Guthrie will be the first resident minister of the Church of the Good Shepherd which was formally organized by the Presbytery of Mid-Texas in June of this year. He and his family will occupy the former Prugel residence which the church has purchased to serve as a manse.

The congregation plans to begin its capital fund drive the first week in October. The Labenske property in north Sonora has been purchased as a future building site. The congregation hopes to be able to start a building program within 12 to 18 months.

Airport Construction Snowballs But Funds Beginning To Run Low

In continuing their efforts to avoid a bond issue to finance the City-County Airport project, municipal and county governments have stretched their budgets as far as possible. City commitments to date cover costs of moving West Texas Utilities Company power lines off the runway site, and paying for the site itself.

The County is contributing to the pot construction of runways and parking areas and paving the runway as early in the spring as the weather permits.

Thus, it has become necessary to raise the remainder of the required funds by public subscription. The approximately \$7,500 needed to complete the project will be used for purchase of

necessary radio and other equipment, fencing, safety devices and buildings.

The Airport Committee had previously turned down several offers to contribute to the project but this week it was discovered that a fund drive would be necessary. In a period of less than an hour Tuesday, Committee members raised over \$1,500 for

this purpose. Business houses and individuals were responsible for the majority of the early contributions.

At this point the Committee feels that in counting on the generosity of Sutton County people they will encounter no difficulties in completing financing of the project.

Devil's River Philosopher Wants More People To Get Up On The International Language Level

Editor's Note: The Devil's River Philosopher on his bitter-wood ranch on Devil's River apparently doesn't understand the difference between international and local language, his letter this week indicates.

I never was so flabbergasted in my life. I was standing there by my fence looking over into my neighbor's pasture, understand, I wasn't coveting it, I've got sense enough to know more land means more work although if put to it I believe I could work as little on two ranches as one, when my neighbor walked up and handed me a newspaper and said, "Here, I understand you like to read these things."

Sure, I admit it, I like to read newspapers, and if a lot of other people didn't too, where would you and me be, especial-

ly you, Mr. Buddy.

So I thanked him and took the paper and went back home and sat down and read it.

The main thing that caught my attention was an article on guided missiles. As I understand it, a guided missile is something you shoot into space, duck, and wonder where it's going. It's sort of like sending a man to Congress—you can aim him in the right direction, but you never know where he'll land and it's sometimes hard to track him even when he's still in flight—but what really interested me was the way the governments of the world describe the accomplishments of their missiles.

For example, Russia says she has flown a guided missile "a huge distance." The U. S. comes right back and says we've flown one "many miles through space." England says hers has gone "an unrevealed distance through her majesty's atmosphere."

Now this is a system of language I admire, and what I want

to know is why can't you and me have access to the same arrangement?

For instance, say I come in about dark after a day I claim-d I spent on my tractor and my wife asks me how much plowing I got done.

"Quite a bit," I say, but my wife, who is ignorant of the international situation, ain't satisfied, and starts pinning me down on exactly how much. A thing like that will ruin your supper.

But she's not by herself. Try using international language on your banker when he asks you how much you already owe when you're after a loan. What do you think the internal revenue collector would say when he asks you how much income you made last year and you said, "well, several dollars," or "an unrevealed amount"?

I'll tell you, this world would be a lot more comfortable, as far as I'm concerned, if more people got up on the international language level.

Yours faithfully,
J. A.

POWER

Cosden gasoline has it!
Power to spare
when you need it there...
for fast get-away or hard, steady driving.

If you're missing part of the power you bought in your car, try a tank of Cosden Premium Ethyl. Notice the smooth, positive way your engine takes hold on a quick get-away. That's a reliable measure. So is Cosden's knock-free performance... or the extra mileage in every drop. The difference is built-in... at one of the world's most modern refineries.

If your car requires less than a Premium gasoline, Cosden Higher Octane Regular, too, gives you bonus power for real mile-saving economy. Either grade—regular or premium—offers new performance, extra mileage, and improved get-away power. Fill up and find out!

BRONCO STADIUM

SONORA vs COAHOMA

Weighing in at 150, Vivian Vasquez is back at his old stand in the Bronco backfield this year in No. 61 jersey. A top-notch blocking back, Vasquez is a senior letterman who was named to all-district team last year.

VIVIAN VASQUEZ

BOBBY SMITH

Bobby (Teddy Bear) Smith is the 170-pound tackle who is doing a standout job at right tackle for the Broncos. A junior, Smith saw plenty of service last year. He wears number 65 jersey.

Eddie Sosa is the 145-pound wingback who is doing yeoman service in the Bronco backfield this year. Moved to the backfield this year from his last year's duty on the line, Sosa is proving a menace to the opposition. A senior, Sosa wears No. 55 jersey, and won honorable mention all-district.

New Rod Material

Strange and wonderful things turn up as the scientists of this day and age pursue knowledge.

A good example is the new fishing rod material developed by the genius-type workers on guided missiles.

The stuff is called Missillite, which Conolon now is using to make rods that are reputed to be stronger than glass. The new material is a combination of fiberglass and resin.

Another innovation of Conolon is the guide that is anchored to the rod at one side only. The advantage is in greater flexibility of the rod.

"Splat" Fishing
 One of the outdoors magazines recently published a yarn about "splat" fishing, which is much the same thing we know as skitter fishing. East Texans in particular have been familiar with it for years.

Anyway, these "splat" fishermen used a stout cane pole and a shortish, heavy line. Fishing from a boat at night, in very shallow water right along the bank, they used a longshak hook baited with pork rind. One of their tricks was to run a rubber band from the eye of the hood to the barb, making it practically weedless.

They dropped the bait out on shore, then pulled it in so that it plopped into the inches-deep

water. When the bass took it they horsed him right in, taking no chance on losing him in the brush.

The system, with many variations, work—as many old-timers in Texas and elsewhere know very well. It is a form of what you call "meat" fishing, as opposed to "sport" fishing.

Sometimes sport fishing pays off, sometimes it doesn't. When it fails, a man will be tempted to go after fish by whatever means.

The other afternoon, I wished for one of those skittering rigs. The weather was warm, so I figured the bass might be congregated where a spring-fed stream empties cool water into the river.

No fish responded, but I saw a big bass splash twice by an old stump, not 20 feet from where I was fishing from the bank. I dropped a topwater lure on the spot, and the bass took it immediately—took it under the stump where my four-pound spinning line wasn't anything like enough to pull him out.

If I'd been skittering, of course, it would have been a different story. Or maybe if I had been in a boat, casting into the bank with a bait-casting outfit, it would have been all right.

CREDIT AS I HAVE BEEN DOING IT.

To me this is truly the letter edged in black because after fighting for nine years to charge to every one and carry their account without fussing much and without adding a carrying charge, I have had to give up. Effective October 1, I am going to put my business on a cash basis except to those with approved credit. At the same time, I must start adding one per cent interest per month to every account that is sixty days old or older.

There are many reasons why I am going to take this step; mainly because I have to borrow money to operate on, Feed companies are shipping feed out collect, and it costs a great deal of money to send statements out, especially when they are ignored.

I wish to apologize for having to do the above, but; I can see no other way to do it. I sincerely hope that this will not inconvenience my customers too much and if I can be of any help on an account, please feel free to call on me.

Please do not get mad at me if this doesn't fit you. It doesn't apply to many of my customers, but to those that it does fit, I want to say, I am forced to put this plan in effect so that I can operate more efficiently in hopes that I will be able to give better service at a cheaper price.

Sincerely yours,

Herbert Fields

Plug Shotguns Warden Johnson Warns Hunters

Hunters of Sutton County were warned today against hunting with shotguns holding more than three cartridges, two in the magazine and one in the barrel. The warning came from Game Warden Nolan W. Johnson.

This regulation applies to both quail and migratory waterfowl this year, the warden said.

"Most shotguns come from the factory equipped with a wooden plug which can be inserted in the magazine," Warden Johnson said. "If your gun has not been plugged already, either take it by a sporting goods store and have it plugged or buy a plug.

A piece of wooden dowel also can be used to plug the guns, he said.

No PTA Meeting In October

The executive board of the PTA completed plans for the years work at a meeting held last week.

Theme of the year is "Operation and Cooperation." A membership drive is being conducted and will continue through October under direction of Mrs. A. E. Lowe and Mrs. E. A. Brodhead and Mrs. Billy Galbraith.

Highlight of the year's work will be entertainment of district delegates conference at a two-day meeting in March for more than 200 executive workers and members.

Members will attend the October "Mental Health Workshop" in San Angelo instead of the regular meeting for this month.

LIONS ROAR

Head Coach Joe Turner spoke to the Sonora Lions Club this week at their regular Tuesday meeting at the Methodist Church. Turner explained the basics of the game of football laying particular stress on his preferred single wing formation.

Lions President Clayton Hamilton expressed appreciation for cooperation in the auction sale. He announced the final total at \$3,249.50.

A petition to congressmen of the district urging early approval of El Diablo Dam was presented for signing.
