Devil's River News - Sonora, Texas, Thursday, November 7, 1957

FIFTH WEEK

No Game For Broncos Friday Night- 8-A Clashes Set At Eldorado, Junction

The Sonora Broncos will have a well-deserved rest this Friday night as they have their only open date of the 1957 football schedule. Standing in second place in District 8-A rating, the Broncos will face their one remaining opponent next Friday when they meet the Eldorado Eagles on the Eagles' home field. This will be the final meeting conference-wise with the Eagles since the Eldorado school's having been designated as Class B for the next two years.

In conference play the Broncos have two wins and one loss to their credit. They bested the Junction Eagles 49 to 12 week before last and downed the Menard Yellowjackets 32 to 13. In the conference opener, the Broncos lost to the Ozona Lions by a score of 34 to 13.

In 8-A grid play this week Junction will meet Ozona in Junction while Eldorado and Menard meet in Eldorado.

Odds And Ends

The Western Union office has been moved again. This time to Davis Insurance Agency where Louis Davis is head man.

We have just found out from John McClelland that WU's night letter is a highly efficient form of communication. It is less expensive and much more likely to reach the desired party at his home.

Now Davis Insurance closes at 5:00 p.m. like many other businesses but knowing what a hustler Louis is, we know he'll be glad to handle those night calls. Just dial 22951 any time of night and Louis will really take care of you.

Well, everybody seems to have something to say about Sputnik and Sputnik II. We have held our peace on the subject until now because, frankly, we didn't know exactly what the whole thing was about.

When Sputnik was launched we were pretty well stumped. And not having a scientific turn of mind, we simply accepted the fact that there was a ball of steel, or some similar metal, whipping around the earth where it had no business being. We figured if it collided with stars or a planet or anything else we'd either read about it in some daily paper or else it would cause such an explosion we wouldn't know about it anyway.

But then comes Sputnik II with a Russian dog named Curley aboard. Having heard of the dog star before, we weren't even inspired to curiosity. BUT comes the Russian announcement that Sputnik II is powered by a mysterious fuel and we begin to put two and two together.

Here, for the world to see is our analysis of the mechanism of Sputnik II:

The shape of the second satellite is undiscovered. We conclude that it is shaped roughly like a dumbbell (the reason for this conclusion will be explained presently). The dumbbell consists of two egg-shaped bodies, the fore body constructed of a clear vinyl-like substance, the aft body of metallic construction.

In the aft body is the Russian hound-dog, and in the fore body is the once popular Marshal Zhukov. Old "Curley", like all good Russian mongrels, knows Zhukov is a menace to the USSR and so around and around the world he yaps at the Marshal's heels while Zhukov, who knows when it's time to leave, tears through space at a tireless sprint.

Well, now we've settled, to our satisfaction at least, the mystery of this wonder fuel. As long as the vodka holds out up front and the dog food in the rear, we'll have Sputnik II with us.

Langford To Speak At A. And M. Wool Short Course

D. C. Langford, Extension Agent for Sutton County, will be a principal speaker at the A. and M. College Wool and Mohair Short Course to be held at the Experiment Station Wool and Mohair Laboratory at College Station, November 6, 7 and 8.

Langford will speak on the County Agent's part in our scheme for sheep and goat improvement, Friday morning. The College's brochure on the short course states: "Sutton County is nationally noted for its splendid wool clip. Amongst community leaders responsible for this reputation, the County Agent has played an important role. His approach to the selection of sheep and goats and the marketing of wool and mohair is therefore first hand knowledge."

Others scheduled to speak at the meeting are O. D. Butler, James Carpenter, Stanley P. Davis, L. P. Babbard, James A. Gray, Robert L. Holland, Jarvis E. Miller, Leonard Packett, R. E. Patterson, Jerry Stohrs, A. R. Thallman, T. D. Watkins, Jr., and Howard Whitney all of A. and M. College.

Soil Conservation Engineers To Report On Flood Survey Wednesday

Paul Kenner, SCD flood prevention engineer from Brownwood, and W. T. Moon, SCD assistant State Conservationist, Temple, will explain the recently completed Lowrey Draw flood plan to local county, city and SCD representatives on Wednesday, November 13.

Field work on Lowrey Draw was completed in October, and the engineers and other technicians have now rounded the data into a detailed plan for presentation to local people. One of the highlights of the meeting will be the results of plotting a 100 year frequency flood (similar to the Ozona flood) through Sonora. Kenner indicated in a brief conversation with E. B. Keng that such a flood would put flood water approximately 2 feet deep

in the Sonora Wool and Mohair Company building.

Results of the Lowrey Draw survey and the expected benefits in reduction of flood damage to Sonora will be explained at the meeting. Contour maps of the city and other preliminary information gathered, however, indicate the possibility that flood control work on Lowrey Draw alone will not reduce the total flood damage enough to make the project justify. It is expected that damages indicated from routing a 100 year frequency flood through Sonora will indicate that control on both draws is needed and justifiable, and the local people will determine whether work on both draws is desirable.

\$42 Taken, Safe Damage In Sunday Night School Burglary

Both Sonora High School and Central Elementary School were broken into Sunday night and \$42.10 in cash was taken from the vault at the high school, according to E. A. Brodhead, superintendent of schools.

Besides the actual loss of money, an estimated \$500 in damages was sustained through broken doors and damage to the high school safe. The burglars evidently hoped to make off with the receipts from the Halloween Carnival and the football game but such receipts are always placed in the bank's night depository, Brodhead said.

The high school safe was badly damaged and will have to be replaced at an approximate cost of \$400. Repairs to several doors will amount to between \$100 and \$150, it was estimated. Losses were covered by insurance.

Sutton County Sheriff Wess Hill theorizes that the robbery must have been done by a person or persons familiar with the school and its administration, since only windows and doors leading to the offices or tool rooms were disturbed. A wrecking bar used to pry open the safe door was taken from its customary place beneath the seat of the school truck.

Hill said he believed the elementary school was broken into first and that when it was discovered that the vault in Principal Rex Lowe's office could not be forced, the person or persons involved went on to the high school building. Tools were taken from the janitor's store rooms and from the industrial arts shop. They were left at the site of the robbery, after the safe had been opened and the money, which is for the school's year-book fund, removed.

This is the second time in recent years that the school has been burglarized.

Business Houses To Close Monday

Sonora business houses will be closed Monday, November 11, in observance of Veterans' Day. Veterans' Day has been designated as one of the six legal holidays to be observed throughout the nation each year. Others include Christmas, Independence Day, Labor Day, Thanksgiving and New Years.

Most business houses will observe the holidays as will the Post Office and bank. The school will not be closed but will maintain its regular schedule.

Addah Wardlaw Chosen Queen Of Annual Halloween Carnival

Queen of the 1957 Halloween Carnival is Addah Wardlaw, daughter of Mr. and Mrs. Jack Wardlaw. Addah, a senior at Sonora High School, was escorted by Jim Ray (Butch) Baker. She declared the annual carnival opened after her presentation and coronation by Student Council President Freddie Fields.

Addah Wardlaw was chosen to serve as Queen of the Halloween Carnival Thursday night. Addah, escorted by Butch Baker, was crowned by Freddy Fields, president of the Sonora High School Student Council which sponsored the coronation.

Other candidates were Edwina Hawkins, escorted by Bobby Joe Smith; Jo Ann Capps, escorted by Albert Sykes; Jo Ella Archer, escorted by Johnny Fields, and Barbara Wright, escorted by David Archer.

Cars bearing the five candidates led the parade from the courthouse to the presentation platform on Concho Street. Following the cars were more than 200 children in costume.

Gross receipts from the carnival were \$2,292.69 with the double raffle sponsored by the Junior Class taking in \$566.00 for first place attraction-wise. The Seniors' concession stand grossed \$377.76.

Other booths included the fish pond and country store, a string pull, rifle shoot, teddy bear throw, sponge toss, talent show, fortune telling booth, cake walk, bean guess and bingo.

1 Killed 3 Injured In One-Car Crash

Lowell Stenson, 21 year old employee of R. H. Fulton Company was killed instantly from injuries sustained in a one-car crash seven miles south of Ft. McKavitt on FM 864 Saturday night. The accident occurred when the 1955 Pontiac sedan in which Stenson was riding left the highway and overturned several times.

Others injured in the accident were Alice Maria Sosa, age 19 of Sonora driver of the car, James R. Clark age 25 of Eldorado, Arkansas, and Charlene McClanahan age 16, of Sonora. Clark and

County Votes FOR All 3 Amendments

Sutton County Voters, water conscious and with the recent drought still firmly imprinted in their minds, voted favorably Tuesday for a \$200 million water bond issue.

Two other amendments, both involving tax increases to support more retirement and pension benefits, also carried with nearly a three to one majority.

Precinct four defeated all three amendments by a three to one vote against the legislation which will increase the Lone Star States' taxes by more than 210 million dollars the first year.

Contract Let On Extension Of Ranch Road 1691

A contract for the construction of grading, structures, base and surfacing on Ranch Road 1691 in Sutton County was awarded in Austin this week, J. A. Snell, District Highway Engineer at San Angelo has announced. The firm of C. C. Booth, Stephenville, Texas submitted the low bid of \$70,722.47 on the project which runs from the present end of Ranch Road 1691, 4.7 miles southeast of Sonora, southeast 4.2 miles, a distance of 4.2 miles.

Resident Engineer Robert A. McCulloch of Sonora will be in charge of the project for the Highway Department, and it is estimated that the work will take 60 days to complete.

Miss Sosa are in critical condition in Hudspheth Hospital while Miss McClanahan sustained only minor injuries.

Ground Observers Urged To Be Alert For Sputniks, Texnicks And Planes

With Sputnik II circulating the universe and strange lights being reported in Texas and elsewhere, Sonora Ground Observers are urged to report any unusual objects seen when on duty.

The schedule of ground observers in printed each week in the Devil's River News, and it is important that each person report planes or unusual objects on his day of duty. Calls should be placed to the San Antonio

Filter Center immediately by dialing the local operator and reporting "Aircraft Flash-Sonora 22341. Any observer not having an instruction sheet for reporting planes should call E. B. Keng, chief observer, for a sheet.

All planes, except small local planes, should be reported to San Antonio. Large planes and formations are particularly important.

Sonora Sweeps Over Menard With 32 - 6 Victory Here Friday Night

Slow Drizzle Leaves .40 To 2.90 Over County

Slow drizzle and light rain covered the Sonora area from Saturday night through Wednesday, with rainfall varying from .40 to over 3.00 inches. The heaviest rainfall occurred south and west of Sonora with Roy Valliant receiving 2.25; Lee Fawcett 2.90; Edgar Shurley 2.65 and Edwin Mayer 2.00. Thelma Espy, southeast of Sonora, measured .40 for the three day total.

Representative precipitation for the current rain, only partially complete, are as follows: Ben Meckel 1.80; Fred Earwood .60; Elmer Wilson .80 to 1.30; Dan Cauthorn 1.60; Wool Warehouse 1.65 (36.30 for year); Joe Brown Ross .80 (over 47 for year); Wesley Sykes .60; Ben Cusenbary .80; V. J. Glasscock 1.00; John Ward 2.21 (over 41 for year); W. F. Berger 2.60 (over 47 for year); Tom Davis 2.52 (over 37 for year); G. H. Davis 1.60; Leonard Gibbs 1.05 (25 for year).

Sonora's Broncos cinched their claim to second-place in District 8-A football Friday night by overwhelming the Menard Yellowjackets 32 to 6. Menard, with no wins and but one tie to their credit, thus dropped into the cellar spot.

But the Yellowjackets showed a surprisingly strong passing offense, completing nine out of 17 tries while the Broncos completed but one out of seven.

Wingback Eddie Sosa and Fullback Allen Wall led the scoring for the Broncos with two touchdowns each. Sosa drew first blood from the nine yardline after the Sonora eleven had advanced from the Menard 47. Wall carried for the extra point. Again in the first quarter, End

John Ed Neville was on the receiving end of a pass off the arm of Wall and carried it across from the Menard four. The try for conversion failed.

In the second period of play, Wall scored from the Menard two. The attempt for the PAT was good and the half-time score was Sonora 19 - Menard 0.

In the third quarter, Menard's MacWilliams scored the Yellowjackets' only touchdown, going over the right side of the Bronco line from the Sonora three, but the attempt to kick the extra point was blocked by fast work on the part of Blacking Back Vivian Vasquez.

Eddie Sosa did the honors on the Broncos' next TD, carrying from the Yellowjacket six yard-

line. Wall ran the extra point to raise the Broncos' score to 26 to 6.

In the final period of play, Tailback Sam Galindo made good the Sonora team's last score drive, carrying over from the Menard four.

Statistics: First Downs, Sonora 22, Menard 17; Yards gained rushing, Sonora 362, Menard 239; Yard Passing, Menard 92, Sonora 10; Punts, Sonora 3 for 36 yards, Menard one for 49 yards. Each team lost the ball once on fumbles. Sonora intercepted five Menard passes. The Menard team was penalized 2 time for a total of 30 yards while Sonora was penalized 4 time for a total of 50 yards.

HOW do you get the most fun and enjoyment out of leisure fishing hours?

Simply stated, I think the only answer to that question is, "Be sure to always give the fish an even break in your selection of equipment."

The angler who goes out after bream and black bass with out-sized line on a heavy-duty reel is either a "meat" fisherman or a rank novice who needs to pick up some piscatorial pointers.

Personally, I have always thought little of the idea of attempting to rate on a "pound for pound" basis the fighting ability of various types of fish. Any fish that has taken a barbed lure almost instantly realizes that he has made a mistake and begins to fight for his freedom. If he happens to be a moderate-sized bream that has attached himself to the end of a fly line, he'll put up a worthy gigantic battle. And many an ardent deep sea fisherman has late in life discovered new thrills in fishing for smaller stuff—with lighter lines and equipment.

It goes without saying that with lighter equipment you are going to lose some fish. Here again, it gets to the question of whether you are after meat or fishing for fun. With the true sportsman, it's never a question of how "fast" he can boat his catch, but how skillfully he can handle and maneuver the fish. Keep him away from rocks and snags and bring him in slowly, after giving him a fighting chance to regain his freedom.

A big string of fish brings pride to the heart of any angler—but the guy with the biggest smile is the one who had the most fun fishing.

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

The Edwards Plateau SCD is purchasing a rotary brush mower for use by ranchmen in the District. The machine can be pulled by a farm tractor, and will cut

brush up to two inches in diameter.

The rotary brush mower will be equally useful to mow weeds in fields seeded to grass, and to cut tall weeds around water troughs, pens, etc. Delivery is expected within the next two weeks, and the machine will be ready for use when needed in the spring. A small rental charge will be made on the mower to provide for maintenance and eventual replacement.

LOCAL NEWS BRIEFS

Mr. and Mrs. R. S. Teaff left Tuesday for Bristo, Okla. where they will attend the funeral services for his father, P. L. Teaff.

Mr. and Mrs. Seth Prater have returned from Mason where they visited Mrs. Prater's brother, J. Amerine, who is sick.

Mr. and Mrs. Carl Cahill received word Monday of his mother's death. They left for Topeka, Kansas where they will attend the funeral services.

The Edwards Plateau SCD trial area at the Herbert Fields ranch has made excellent recovery this year, and will be stocked during the winter and early spring.

Five bulls averaging 535 pounds, 100 nanny kids weighing 42 pounds each, and 80 ewes

weighing 83 pounds each were put on the area about October 15. They will be grazed until about April 1, which will make the equivalent of 25-30 animal units per section yearlong. The live-

stock will be weighed out in the spring to determine gains. Observations will also be made on bitterweed losses, kinds of forage grazed, and other factors. Both native and introduced

grasses made good growth and matured seed this year. With normal rainfall in 1957 the Trial Area should show remarkable progress, despite the severe drought damage.

Devil's River Philosopher Claims World Has Caught Up With Him, It's Now Short Of Capital Too

Editor's note: The Devil's River Philosopher on his bitter weed ranch on Devil's River claims the world is catching up with him, but catching up hardly seems the right phase.

Dear editor: I know a lot of people think I'm backward, either opposed to progress or unable to achieve any, but I can't be held responsible for other people's ignorance, and would like to point out that in some respects I'm ahead of my time.

For example, I was reading in a newspaper last night which I picked up in Sonora the other day - somebody had dropped it on the street and while I can't go around picking up after other people, I made an exception in this case for all I knew, the Russians had changed dictators again and I thought I ought to keep posted, although which dictator is dictating in Russia is about as important to me as which tire went flat first when all four are down - as I say, I was reading in this paper where some of the heavier thinkers in Washington are worried because they've discovered there's a world-wide shortage of capital now afflicting mankind.

They said this as serious situation and something ought to be done about it.

What this means is that the world has finally caught up with me. I've had a shortage of capital out here on this ranch ever since I can remember. If the world is just now reaching that stage, it's been years behind me.

However, I'd like to suggest to the thinkers in Washington that the situation isn't as bad as they imagine. I mean, a shortage of capital isn't the worst thing on earth, and if it is, a lot of people are sure making the most of a bad situation. Sit down right now and run up in your mind the number of people you know who aren't bothered by a shortage of capital. One of the hardest things on earth to do is to find somebody who isn't a little short on the stuff, whether it's your neighbor or a business man in town or a big corporation. Everybody needs a little more capital.

But the world needn't worry too much about this. I know people who have lived very sat-

isfactory lives and been short of capital 99 percent of the time. In fact, if Washington is gonna worry because me and the rest of the world are short on capital, it's got an everlasting job.

Yours faithfully,
J. A.

ACOUSTICON'S FREE GIFT FOR THE HARD OF HEARING

We recently investigated a simple, new and inexpensive telephone attachment that can help anyone hear better on the telephone, whether they use a hearing aid or not.

We have diverted some of our advertising money for the purchase of these telephone aids to give away ABSOLUTELY FREE.

This is a frank move on our part to gain the good will of anyone having a hearing problem. We would prefer, for purely economic reasons, that only the hard of hearing ask for them. Just fill out and mail the coupon.

ASOUSTICON-HAMMER-41 W. TWOHIG
SAN ANGELO, TEXAS

Gentlemen:

Please send me the telephone attachment for Hard of Hearing people. I understand that there is no cost or obligation.

THE NEW ROCKETS ARE HERE...BRINGING YOU

OLDSmobility

...THE NEW WAY OF GOING PLACES IN THE ROCKET AGE!

Four-Beam Headlamps Increase night-driving safety, reduce glare.

FOR 1958... OLDSMOBILE CREATES A NEW CLASS OF CARS!

New, more efficient Rocket Engine gives you outstanding performance. Remarkable improvements in carburetion offer you up to 20% greater fuel economy.

New Trans-Portable Radio* serves as your regular car radio, but can also be unlocked and used as a lightweight, 160-hour battery-powered, transistor portable.

Dual-Range Power Heater* delivers the exact amount of heat or ventilation exactly where and when you want it. You push a button and power does the work!

NEW-MATIC RIDE® (A TRUE AIR SUSPENSION) TURNS ROUGH ROADS INTO HIGHWAYS OF SMOOTHNESS

In the 1958 Oldsmobile you'll find most everything you've ever wanted in a motorcar—outstanding styling; smart, tasteful design; delightful new features; alert new Rocket Engine performance; supreme comfort; daring new colors and fabrics. And most important of all, you'll find real down-to-earth operating economy! As never before, Oldsmobile for '58 gives you true big-car size, big-car comfort and handling, big-car smartness—combined with budget-car thrift. Once you Rocket-Test the '58 Olds, you'll know for sure, that from its safer Four-Beam Headlamps to its sparkling Twin Blades—it's the biggest value in Oldsmobile's 60-year history!

*Optional at extra cost.

Every month Electricity helps you wash and dry enough clothes to outfit a P.T.A. meeting

The more... The merrier...

If you take advantage of your home laundry as much as the average homemaker, you wash and dry enough clothing in a month's time to dress 60 people or more! And think of all your household linens besides! That's the kind of help electricity gives us which we're likely to take for granted.

What else do you use that helps so much to do so many things — yet costs so little?

West Texas Utilities Company

Electricity costs so little — you can afford to use a lot of it!

IT'S A FACT—In homes served by WTU the average cost of a kilowatt hour of electric service is 20% LESS than it was 10 years ago.

Episcopal Bazaar Held Wednesday On Church Lawn

The Woman's Guild of St. John's Episcopal Church held their annual bazaar on the church lawn Wednesday, November 6. A turkey dinner, prepared by Guild members, was served in the Parish House.

Booths arranged on the lawn included parcel post booth, rug gallery, white elephant sale, book booth, gift booth and country store.

Proceeds from the bazaar had not been determined at press time.

Katherine Taylor Becomes Bride Of Fred A. Adkins

Miss Katherine Taylor, daughter of Mr. and Mrs. J. M. Taylor, became the bride of Fred Allen Adkins, son of Mr. and Mrs. A. H. Adkins, in the First Baptist Church in Taft, Wednesday, October 23, with the Rev. Britton performing the rites.

Mrs. Adkins attended Sonora High School and Business College at Corpus Christi. Her husband is a graduate of Sonora High School, served in the Air Force four years and attended San Angelo Business College. The couple will make their home in Sonora where Adkins owns and operates 'Frosty Freds.'

HONORED ON BIRTHDAY

Ronnie Baltazar was honored on his fourth birthday with a circus party at the Parish House Sunday afternoon. A pinata in the form of a circus tent was enjoyed and the birthday cake represented a merry-go-round. Sandwiches, cookies, cake and punch were served.

Prize winners included Sylvia Sanchez, M. Victoria Guerra and Robert Ramos. Twenty guests were present.

Mrs. Earl Lomax of Avant is in Sonora this week visiting friends.

THE WOMEN'S PAGE

Devil's River News - Sonora, Texas, Thursday, November 7, 1957

MRS. TRAINER HOSTESS TO TUESDAY CLUB

Mrs. Louie Trainer was hostess to the Tuesday Night Bridge Club in her home this week. The table was covered with a green lace cloth and centered with an arrangement of fall flowers flanked by red tapers. Other decorations were in keeping with the season. Cookies and coffee were served.

High score prizes went to Mrs. P. J. Taylor and Mrs. Katherine Linthicum. Mrs. Henry Decker won the slam prize and Mrs. Ernest McClelland won the bingo prize.

Others who attended included Meses. R. G. Nance, R. C. Vicars, L. E. Johnson, Sr., L. E. Johnson, Jr., Belle Steen, John Bell, Earl Duncan and Miss Annella Stites.

MRS. PETERSON HOSTESS TO PASTIME CLUB

Mrs. Karen Peterson entertained the Pastime Club in her home last Thursday afternoon. The Halloween theme was carried out in the decorating scheme and arrangements of roses were featured. A dessert plate and coffee were served.

Mrs. C. E. Stites won the high score and Mrs. Auther Simmons won the traveling prize.

Others who attended included Meses. Joe Berger, Maysie Brown, O. G. Babcock, Robert Rees, R. B. Kelley, R. V. Cook, Lee Labenske, Ella Wallace, J. A. Cauthorn, and J. W. Trainer.

Mrs. Monnie Elliott of Henderson is making a visit to her sons and their families, Mr. and Mrs. Marion Elliott and children and Mr. and Mrs. J. W. Elliott.

Safe Driving Can Mean Lower Taxes County Divisions

Interested in lower taxes? Then try playing it "safe" for a year.

The economic loss from accidents in Texas, last year, cost us more than 300-million dollars.

For this amount, we could have operated all state supported schools from the first grade through college levels. We would still have enough left over to take care of our eleemosynary and correctional institutions. Plus, state parks, monuments and museums.

The loss is equal to more than one-third of the state's entire budget for a year.

CARD OF THANKS

We are truly grateful to the many friends who did so much for us during our recent sorrow. We were indeed comforted by your expressions of kindness and sympathy.

The family of Mrs. Jeff Merck.

Seniors Honored By Bronco Band At Menard Game

In special half-time activities at the Sonora-Menard games last week, seven senior members of the Bronco Band were honored for their service to the band. White mum corsages were presented to Rex Ann Baker, Nancy Hart, Jan Vander Stucken, Roy Jean Pope, Jan Keng, Yvonne Davis and Tom Elaine Espy.

As a part of the special feature, the band's specialty number, "When the Saints Go Marching In", was presented and a spectacular fire baton exhibition was performed by Drum Major Jan Keng and Twirlers Florrie Mae Minnick, Rex Ann Baker, Tom Elaine Espy and Jo Ann Capps.

G.A.'S MEET TUESDAY

The G.A.'s met at the Baptist Church Tuesday afternoon with Barbara Gatlin presiding. Mrs. H. K. Lee opened the meeting with a prayer and the G. A. Allegiance was given by Janie Hill. G. A. Ideals was given by Gloria Bolt and the G. A. watchword was given by Dorothy Harris. Janie Hill conducted the program with Mrs. Lee, Linda Harris, Nancy Anthony and Dorothy Harris taking parts. Mrs. McKenzie led the dismissal prayer.

Mr. and Mrs. H. B. Darcy of Monterrey, Calif. spent the week in Sonora the guests of Mr. and Mrs. Arthur Carroll. Mrs. Darcy and Mrs. Carroll are sisters.

Miss Jo McClelland and Leslie Huling of San Angelo spent the weekend in Sonora the guests of Mr. and Mrs. Ernest McClelland.

FOR LADIES ONLY

And especially for ladies who enjoy luxury at no extra cost, we always have on hand a complete line of DuBarry cosmetics. This is the only line of beauty aids compounded on formulas based on actual scientific research and offers everything from the glamour make-ups for a special evening to complexion safeguards to give you that important well-groomed look.

And for the extra touch, to put you in the spirit for any occasion, choose from Helena Rubenstein's six delicate colognes; Command Performance, White Magnolia, Heaven Sent, Five O'Clock, Apple Blossom Time, and the new Moonlight Mist.

What You As An Individual Can Do To Help Combat Threat Of Delinquency

By Judge Sarah T. Hughes
 .Ed. Note: This is one of a series of articles on the state's growing problem of juvenile delinquency by one of Texas' foremost authorities on the subject, District Judge Sarah T. Hughes of Dallas, who has handled more than 25,000 juvenile and family relations cases, along with an even greater number of other civil cases in 22 years on the bench. "Family law is probably the most important phase of the law," says this internationally known jurist, whose work has been honored throughout the U. S. and in Europe and Asia as well, and whose name was put in nomination for vice-president of the United States in 1952. A discussion of a different aspect of the problem will appear every other week.)

We are no longer trying to revenge ourselves upon erring youngsters as they did, not so long ago—1828—in New Jersey when they hanged a 13-year-old boy for theft. We are trying, first to rescue the children, and, second, to protect society.

This is not to say that children should never be punished. A good old-fashioned spanking sometimes gets results in inculcating the "old-fashioned" eternal virtues so much needed.

But society has another role toward children who have to grow up in the drastically changed conditions society has created for them as compared to the old-fashioned days. It is to try to provide other and counteracting conditions tending to prevent delinquency, to try to rehabilitate the delinquents, and to protect ourselves as well.

What you, as a member of the community, as a church and club member as an individual, can do about the first aim includes more than you might think. It is to help create a climate of public opinion in which more means will be provided to take care of the idle time our society has forced upon children . . . to provide constructive outlets for their energies instead of destructive. It is to volunteer for work in these projects—scouts, campfire, junior achievement, teen canteens, playgrounds, club and church jobs, church youth groups, and similar character-building work, and recreational organizations.

You help in the development of public opinion—and your dollars in support of Community Chest and United Fund drives—are also needed for another means of preventing delinquency. We do not have nearly enough child guidance clinics, family counsel-

ing services, vocational advisers or similar agencies where trained psychological workers can often do some positive steering in the right direction which may turn a potential delinquent into a prospective good citizen.

Next, how do you as an individual, as a member of the community, do these two things which help discharge the community's responsibility in the effort to prevent delinquency? You can be quite a force in (1) developing public opinion; so how do you go about it?

Conversations with friends is a potent method. Bring your idea of the need into the conversation; ask your friends to urge their friends to spread the idea.

Talks to clubs is another method. Clubs are always looking for a speaker and a subject, and many of us have opportunities to make such talks.

You can also "speak out at meetings" at every opportunity for floor discussion of possible projects for your church or club. General topics often present a similar chance to speak from the floor on this, also.

(2) The time and energy of many more individuals are greatly needed for work as adult leaders in youth groups. You can volunteer to serve in one of the numerous such organizations crying for help on every hand. Forget about training—the need is for PEOPLE far more than it is for trained people.

You can even teach without previous training. To help relieve the great shortage of teachers, Texas authorities are issuing temporary certificates to enable you to teach during the time that you are taking a television course in your own home on teaching methods.

You can be a personal friend to children you know or can become acquainted with, talking to them, LISTENING to them, giving them jobs . . .

My next article will discuss what you and other members of the community can do to help discharge the community's responsibility in rehabilitating delinquent children.

Mr. and Mrs. Mack Owens have had as their guests for the past week, his parents, Mr. and Mrs. S. O. Owens of Hart Camp.

Mrs. W. R. Drennan will return home this weekend after spending the week with her son and family, Mr. and Mrs. Billie Dee Drennan in Jacksonville.

Mrs. Harry Meador of Dallas is the guest of her son-in-law and daughter, Mr. and Mrs. Bill Stewart, Susan, Billy Ann and Mike.

Lea Roy Aldwell To Matriculate At Episcopal Seminary

Lea Roy Aldwell of Sonora, who is attending the Episcopal Seminary of the Southwest in Austin, will take part in the seminary's annual matriculation ceremony October 28.

Principal speaker will be the Right Reverend John E. Hines, D.D., of Houston, Bishop of Texas and president of the seminary's board of trustees. Prominent lay and church leaders in the Southwest will attend.

The matriculation ceremony is derived from the medieval custom of receiving new students into the fellowship, or family life, of a college or university. Each new student declares his conviction of a call to the ministry and submits himself to the discipline of the seminary and its life of prayer and study.

Aldwell, 42, is a senior. He received his bachelor of science degree in agriculture administration from Texas A. and M. and his master's degree in agriculture economics from Oregon State College, and taught in the Sonora public schools. His mother, Mrs. Roy E. Aldwell, lives in Sonora.

Aldwell served in the army from 1942 to 1946, and was discharged with the rank of captain. He was formerly a rancher.

The seminarian assists at St. Mary's mission church in Eldorado, which is under the direction of the Reverend Alanson Brown of Sonora.

DEVIL'S RIVER NEWS

Proved and approved around the world and now it's here for you... the 58 FORD

One look tells you... there's nothing newer in the world!

You'll ride in a new world of style in the 58 Ford

- New deep-curved styling
- New Interceptor V-8 power
- New Cruise-O-Matic Drive
- New Ford-Aire Suspension
- New Magic-Circle Steering

The 58 Ford is the newest car in the world—the only car ever to meet a world-wide test and win world-wide approval before its public premiere.

Here's a car so new, so beautiful it made eyes pop from Paris to Pakistan . . . a car so rugged it proved its mettle in a road test around the entire world! What's more, it did it on surprisingly little gas—thanks to new Precision Fuel Induction. Come in and let us show you the world's most beautiful new bargain!

You'll be ahead with Ford's new Interceptor V-8 and Precision Fuel Induction. There's nothing newer than these engines that give you up to 300 hp. Smoother power! From less gas! One secret is Precision Fuel Induction, a wonderful new carburetion, fuel feeding, and combustion system.

You'll get up to 15% more gas savings with new Cruise-O-Matic Drive teamed with the new Interceptor V-8. New D1 position, used for all normal driving, lets you move smoothly, automatically—with just a touch of your toe—from solid-feeling take-offs right up to highway cruising speeds.

You'll ride on a cloud instead of a spring with Ford-Aire Suspension. Four air pillows literally soak up the bumps! And Ford's new air suspension relieves the car every time someone steps inside or luggage is loaded. An extra cost option, you get all this at traditionally low Ford prices!

You'll steer with a feather touch with Ford's new Magic-Circle Steering. Nothing rolls like a ball, and that's the secret of Ford's handling ease. Free-moving steel balls in the steering mechanism are virtually friction-free—give you the closest thing yet to "power steering"! Come in and try it!

Come in today... Action Test America's only world-proved car!

58 FORD

Too Many Deer

Game management officials are in some disagreement about reducing the deer population in some areas.

In Kerr County, for example, game commission biologists found that the land is overstocked and overgrazed. They recommended that hunters be permitted to kill doe as well as buck deer this season.

Kerr County commissioners rejected this proposal, and the state commission held with the Kerr County group, so there will be no legal doe shooting in the county this year.

There is a strong likelihood, say the biologists, that many Kerr County deer will die of starvation this winter.

There is a different situation in the Engeling area of Anderson County where, on a block of land owned by the state commission, permits will be issued to kill 100 deer of either sex.

Gal Wardens?

Maybe Texas is going to have female game wardens. This notion has been put forward by Sportsmen's Clubs of Texas.

Pickrel in Texas

Did you know you can catch chain pickrel in Texas? You can. That would be at Caddo Lake, where this relative of the northern pike and the majestic muskellunge abounds.

The pickrel lives in quiet, weedy waters and grows to 26 inches or so, and four pounds. A hungry citizen of Caddo's cypress swamps, the pickrel will strike practically anything that moves. He especially likes flashy underwater lures and noisy topwater baits.

A mystery is where the pickrel goes in midsummer, but a good guess is that he seeks a deep, cool place and remains practically dormant. But in the Fall he perks up, and by November he is really ready for something to eat.

The pickrel, by the way, is a good eating fish. Skin him, remove bones, cut into narrow strips, dip in batter, and fry until well done.

Skier-Fishermen

After trouble between fishermen and water skiers on a California Lake, the U. S. Forest Service has set up some restrictions.

Anglers and skiers have agreed to these regulations: Fishermen have the lake all to themselves on Saturdays, with no skiers allowed. Skiing is permitted from 10 a.m. to 4 p.m. other days, with boundaries marked by buoys.

Well, nobody wants to be regulated, but regulation will come to our Texas lakes if the fishermen and skiers can't get along with each other. They can because all it takes is courtesy, thoughtfulness and consideration of the other fellow.

Saturday, October 17, 1926

Miss Ada Steen arrived home this week from a visit to friends in San Antonio.

31 YEARS AGO

Mrs. W. A. Miers and daughters, Dixie, Addah and Jo Nell arrived home Thursday from Temple, where Jo Nell had her tonsils removed.

Mrs. Edith Bond and son, Tom A. Bond, left for Sanderson this week where they will visit Mrs. Bond's sister, Mrs. Robert Duncan.

Mr. and Mrs. W. C. Bryson arrived home this week from a visit to friends and relatives in Brady, Comanche and Fort Worth.

County Judge Alvis Johnson, and Commissioners Joe F. Logan, Roy Hudspeth, and D. Q. Adams attended Commissioners Court Monday.

ELDORADO 25 SONORA 0-

In the first time since athletic relations were started by the two schools, Eldorado defeated Sonora in a game of football.

The game was not won by good playing of the Eldorado team, but by the lack of playing on the part of the Sonora team. For some reason the boys did not have the old fighting spirit.

On Oct. 22 or 23 we will play Eldorado a return game here, and the boys and coach have forgotten everything but "BEAT ELDORADO", and the team can do it. Come out and see Eldorado go down in defeat.

Mrs. J. Arthur McDonald and daughter, of Del Rio, are the guests of Mrs. Josie McDonald, of the McDonald Hotel, this week.

Mrs. Roy E. Aldwell arrived home Sunday from a few weeks visit to friends and relatives in Del Rio. She was accompanied home by her sister, Mrs. A. B. Whitehead.

George B. Hamilton, who is at-

tending the Schreiner Institute at Kerrville, spent Saturday and Sunday here visiting his parents, Mr. and Mrs. Geo. Hamilton.

YOUR MINISTER SAYS

By Rev. Allan Guthrie
"We love, because He first loved us . . . And this commandment we have from Him, that he who loves God should love his brother also." (I John 4: 19-21.)
"As each has received a gift, employ it for one another." (I Peter 4: 10)
After years of teaching, writing, and preaching, Albert Schweitzer, who is among the greatest men alive today and the great missionary of the Church, records in an autobiography his decision to study medicine and go out to serve the people of Africa with the ministry of loving hands. After years of giving himself in words, he longed to give his whole life in the labor of love. Turning his back on the world's acclaim, he set out to give the rest of his years and earnings to the needy natives of Africa.
A reporter asked, "the grand doctor" what ordinary persons

LOCAL NEWS BRIEFS

Mr. and Mrs. Lea Allison and Mr. and Mrs. Buster Allison spent last weekend in San Antonio visiting Pascal who is attending school there.

Mr. and Mrs. S. M. Kerbow and children of San Angelo were in Sonora attending the Halloween Carnival.

could do in their daily life to help cure the ills of the world. Dr. Schweitzer replied that each of us must give some time to his fellowman, doing some little thing for those who have need of help, something which we will get no pay, only the privilege of doing it. And Dr. Schweitzer is right. The Bible teaches that the person who is truly religious is the person who gives of his time, talents, money—and yes, even his whole life in service to other people. And we give ourselves best in the little every-day things of life.

We read that Jesus went about doing good. And He says, "Go ye and do likewise."

A NEW KIND OF CAR IS BORN!

Tomorrow at Your Pontiac Dealer's!

BOLDEST ADVANCE

IN 50 YEARS!

THE GOLDEN JUBILEE CAR!

It's a revolution on wheels—boldly planned from the very beginning as a Golden Anniversary showpiece for Pontiac and General Motors.

This one you really must see—here is a car unlike any you have ever known! This Golden Jubilee Pontiac is actually an all-new breed of cars—in four brilliant series and 16 sleek models covering virtually every price bracket.

In all of them you'll find engineering advances so daringly different yet so basically sound that they will trigger the next big change in automobile design. You'll find a few of these ideas illustrated here, but even they can't begin to tell the full story.

Why not be among the first to discover the newest. When you meet this bold new Pontiac, you're in for a driving thrill that is impossible to duplicate in cars of conventional design. So make it a point to see your Pontiac dealer soon and prove to yourself that no car in history ever left yesterday so far behind!

Aero-Frame STABILITY

Here is the biggest basic construction change since the early days of motoring. Pontiac's revolutionary new frame design is lighter, stronger, more stable than the conventional box type used on other cars.

Quadra-Poise ROADABILITY

Only the wheels know where the bumps are! Pontiac's new suspension geometry ends dive, sway and bounce to bring you the smoothest ride, easiest handling you've ever known!

Circles-of-Steel SAFETY

Pontiac's completely new body construction surrounds you with girder steel protection—above, below, fore and aft. Now you can drive with wonderful new peace of mind!

Tempest 395 PERFORMANCE

Try Pontiac's new jeweled-action response! Scores of exclusive engineering innovations make Pontiac's hefty power plant a miracle of smoothness . . . and you can choose from four horsepower ratings including Tri-Power Carburetion* and Fuel Injection*.

Ever-Level Air Ride*

The most perfect suspension system ever designed—and Pontiac's revolutionary Aero-Frame is specifically designed for it! Air cushions on all four wheels literally float you over the bumps . . . keep the car perfectly level regardless of load or road!
*An extra-cost option.

A Tribute To Our Football Team

Look at those husky lads as they romp out on the field! There, ladies and gentlemen, is a coordinated machine of mind and muscle! There is an aggregation of America's finest young manhood! Speed? Power? Drive? Surprise plays? Our team has everything . . . and that is why our boys give a good accounting of themselves no matter who the opposition is! From our fine football teams have come some of today's most successful and respected citizens. Time marches on and each team produces its stalwart heroes. This year our team is one of our finest. Give it the applause it deserves.

Rice-Arkansas Tilt Will Be Telecast Saturday P.M.

A live telecast of the Rice-Arkansas football game on Saturday will highlight the Humble Company's coverage of Southwest Conference football. In addition, there will be broadcasts of four games.

The Rice-Arkansas game will be telecast from Rice Stadium in Houston. Kern Tips and Alec Chesor will describe all the action and color beginning at 1:45 p.m. over KCTV, San Angelo.

The game will also be broadcast by Bob Walker and John Smith. Radio time will be 1:45 p.m. over KONO, San Antonio-860.

The Texas-Baylor game will be broadcast from Austin by Ves Box and Dave Smith. Radio time will be 1:45 p.m. over KENS, San Antonio-680 and KGKL, San Angelo-960.

The Texas Tech-Tulsa game will be broadcast from Lubbock by Dave Russell and Jack Dale. Radio time will be 1:45 p.m. over KFYO, Lubbock-950.

The Texas A. and M.-SMU game will be broadcast from College Station by Eddie Barker and Eddie Hill. Broadcast time will be 9:45 p.m. over WOAI, San Antonio-1200.

Coach and Mrs. Royce Franklin have as their guest, Mrs. Franklin's mother, Mrs. Driver of Nacogdoches.

Johnson and Danny Sullivan of San Angelo, Sam Montgomery of San Antonio, Larry Wells of Fredericksburg, George James of Ozona and Harry Darcy of Monterey, California, and Cullen Luttrell, Fred Campbell, Collier Shurley and Joe Brown Ross all of Sonora.
