TWELFTH WEEK

Substation 14's 37-Year Weather Record Yields Area Climate, Range Information

Sonora area farmers and ranchers can reduce their risks by learning more about changing climatic conditions and rainfall and by taking advantage of rain which does fall, according to a report from the Experiment Station.

In the 37 year record at Sub-

station 14, the average annual rainfall is 21.8 inches with 53 percent of the years below average. Highest annual rainfall was 41.5 inches in 1935 and the lowest was 6.1 inches in 1951. Based on past records 25 percent of the coming years will have rainfall below 17.2 inches.

By learning more about the climate and rainfall ranchers can plan ahead for several years planning for a series of bad years by accumulating cash and feed reserves during the good years, the report adds.

Also they can plant drought-resistant varieties of crops and forage, balance the stocking rate with forage produced, use tillage practices which conserve moisture, cull livestock severely when forage is short, and be able to shift with changing moisture conditions without extreme sacrifices in profit.

Airport Building Nears Completion, Fuel Pumps In

Work continued on the city-county airport this week as an office building neared completion and other facilities were installed. The office building is of asbestos shingle exterior construction with paneled interior. The building also houses washroom facilities and two-way radio equipment which is to be purchased soon will be installed in the office.

Fuel tanks and pumps are permanently installed and overnight tie-downs also available for transient aircraft.

Inquiries are received almost daily as to the availability of space for construction of privately owned hangars. A specific policy on this matter has not been formulated as yet but general policy is to encourage such construction.

Lots Available In Old Cemetery

Mrs. Mae B. Sawyer, chairman of the cemetery committee, has announced that persons desiring lots in the old cemetery contact her or members of the committee.

Servicing on the committee are Mrs. Jane Hamilton, Mrs. C. E. Stites, Mrs. George A. Wynn, Alvis Jonson, Joe Berger, Jack Kerbow and Miss Nann Karnes.

Money Spent In Sonora Stays In Sonora Benefiting You, Your Family, Your Town

This is an age of competition, an age where the things that survive in the business world are the things that must prove their merit. Anything that is useless or inefficient soon loses out in the strenuous race for supremacy. So when we look at our successful

business establishments in Sonora we are looking at those that have proven their merit and a right to our patronage and consideration.

The business field, in small towns especially, is not exclusive to anybody. The game is open to anyone who wants to enter and cares to risk the necessary capital. Nobody faces fiercer competition on every hand than the small town merchant. A dissatisfied customer does not have to trade with him and he knows it. There are the competing stores across the street or next door or in other towns within a very short distance. So the small town businessman must find a way to meet these conditions and the only way possible is through service, goods and prices that do satisfy customers.

Most people expect and receive accommodation from the home merchant they would never receive from a city store or a mail order concern. Just this feature of accommodation should be a strong point in favor of the home merchant, but that is not all. There are the churches, the schools, the various public activities that are only possible because the home merchant and businessman is doing a successful business. There is no way that a prosperous town can be maintained and at the same time have a large part of the commerce of the town sent elsewhere.

People do not realize what it means to spend money out of town. Of course a little of it would not matter, but when it begins to mount up to thousands of dollars per month then it is easy to see the vast damage to the town caused by the loss of this liquid capital. Banks find their business curtailed, merchants cannot carry the stock they should, money becomes "tight", and everybody finds it scarce because it has been sent away to the benefit of the citizens of some other city.

Sonora merchants have their capital invested in Sonora and they show us by service rendered that they deserve our patronage.

Perhaps the biggest story of 1957 and the one with the farthest reaching effects was the breaking of the seven-year drought with torrential spring rains. With the rains so beneficial to ranchers came the inevitable damage which pointed up the need for flood prevention measures. A project for Lowrey Draw was approved early in the year and later, for Dry Devil's River. The Sutton County courthouse (arrow) is shown here in a picture taken across flood swollen Dry Devil's River in May.

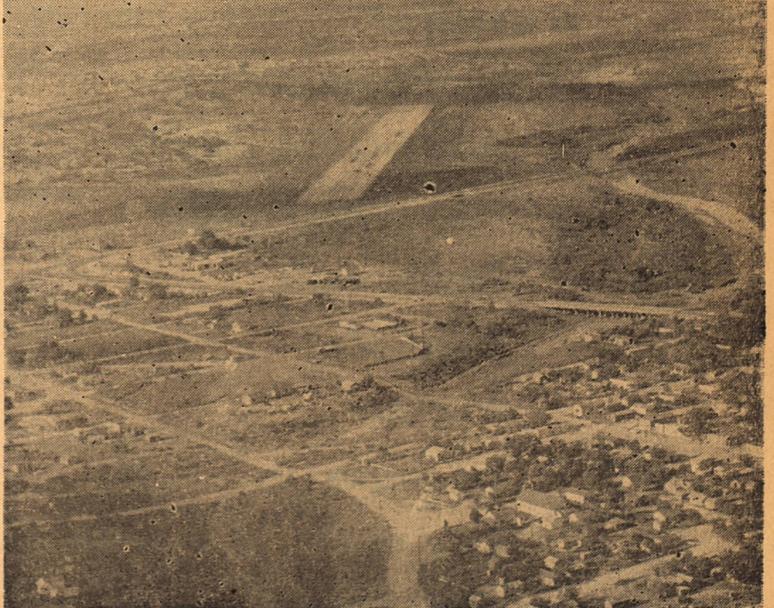

Sutton County's oil and gas potential was nearing development with the beginning of construction of two major pipelines in 1957. Pioneer Gathering System began work on theirs with forty miles of pipe arriving by railroad car. Here workers unload the pipe on the company's warehouse lot.

Realization of a long-felt need came with the construction in 1957 of an airport to serve Sonora and Sutton County. Instances such as the one pictured at left brought out the urgency of the need. The plane pictured taxied down the highway to Sharp's Drive Inn for refueling.

The picture below shows the new city-county airport in the early stages of construction. The strip now has a full caliche topping and paving of the runway will begin when weather permits in the spring. Newest improvements are described in a news story on this page.

In Your Home Stores You're the Boss

... to the stores in other towns

you're just gravy

YOU rank FIRST around here . . . your wants and needs are the blueprint for your home business men when making all of their plans . . . YOUR wishes rule their decisions on the kind, quality and prices of the goods and services they offer.

Because YOU are the day-to-day customer who keeps this town's economy going . . . the one who MUST be pleased and satisfied.

The MORE you trade with your home merchants, the better they can tell what YOU like and need . . . and the better able they will be to offer WHAT YOU WANT WHEN YOU WANT IT.

ON THE OTHER HAND . . . in other towns . . . you are NOT one of the folks the business people in those towns are most interested in serving.

True, they like to see you coming . . . because none of the profit made off you has to be spent helping to run YOUR school, pay YOUR preacher, or contribute to the support of YOUR community.

Which makes your business real gravy to them . . . but you are still the customer most likely to get the chipped dish . . . not because maybe you live too far away to bring it back . . . but because the BEST is for their regular customers who keep the ball bouncing for them.

Trade where YOUR needs come first

*It Pays to Buy
where you Live*

By Rev. Doyle Morton
"And she brought forth her first born son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn. And there were in the same country shepherds abiding in the field, keeping watch over their flock by night. And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them; and they were afraid. And the angel said into

them, Fear not: for, bring you good tidings of joy, which shall be to all. For unto you is born this day in the city of David a Saviour, which is Christ the Lord. And this shall be a sign unto you; Ye shall find the babe wrapped in swaddling clothes, lying in a manger. And suddenly there was with the angel a multitude of the heavenly host praising God, and saying, Glory to God in the highest, and on earth peace, good will toward men." Luke 2:7-14

G. T. RODES HOSTS TO HIGH SCHOOL PLAY CAST

Mr. and Mrs. G. T. Rode were hosts with a buffet supper in their home last Thursday night honoring students who produced "The Glass Menagerie". Traditional Yuletide decorations were featured and humorous speaking and carol singing composed the entertainment.

Attending were Carolyn Hall, Sarah Hardy, Mary Wilson, Betty Sue Fields, Frank Joe Potmesil, Butch Baker, Nancy Hart, Loma Lea Bridges, Gene McCarver, Mrs. John Fields, Patsy and Gail Rode. Out-of-town guests were Mr. and Mrs. Fred Miller. Mr. Miller is drama instructor at Trinity University. Also Bobby Morgeinstern, Jerry Phillips, Babi Hartman and Bill Ployhar, all students at Trinity University, San Antonio.

"Now when Jesus was born in Bethlehem of Judea in the days of Herod the kind, behold, there came wise men from the east to Jerusalem, saying, Where is he that is born King of the Jews? For we have seen his star in the east, and are come to worship him. . . . And, lo, the star, which they saw in the east went before them, till it came and stood over where the young child was. When they saw the star, they rejoiced with exceeding great joy.

"And when they were come into the house, they saw the young child with Mary his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, and frankincense, and myrrh." Matthew 2:1-2, 9-11.
