PTA President Urges Cooperation In Traffic Safety

By Mrs. E. D. Shurley
Response to the drive for greater traffic safety in Sonora has been most gratifying. The three areas, education, engineering and enforcement, pointed out by Sergeant J. Ross Kemp, Department of Public Safety, as a means of approaching the problem have been attacked with as much success as could be expected in the short time since the initial meeting of the Citizens' Committee for Safety Control in December.

Letters have gone out from the safety education committee urging the cooperation of adults, and a program of safe driving is under way in the high school, executed by the Student Council and sponsored by the PTA.

The City Commission, during

the holidays, marked crosswalks around the school campus and erected signs designating them. In a meeting in January they voted to employ a city marshal whose duties will include enforcement of city traffic laws; the County Commission voted their support to the program by agreeing to help with the financing of such a project. Sonora Trucker Named To Receive "Hobbs Knight Of The Road" Award

E. C. Hopf of Sonora, driver for Southern Plaza Express, Dallas, was named to receive the Hobbs Knight of the Road Award in Austin earlier this month.

The award is for truck drivers' or inter-city bus drivers' acts of courtesy. The act of courtesy performed must either be witnessed, reported and/or investigated by a Patrolman of the Texas Department of Public Safety to determine if it is worthy of nomination of the award.

The Awards Board, J. O. Musick, general manager of the Texas Safety Association, and Homer Garrison, Jr., Director of the Texas Department of Public Safety, evaluate each recommendation individually before accepting or rejecting it.

Hopf was named to receive the award for assisting a motorist with car trouble. A rod had broken loose in the engine as this woman and her son and daughter were traveling on U. S. Highway 290. Hopf stopped and took them into the next town to summon help.

The Awards Program is co-sponsored by the Texas Safety Association, the Texas Depart-

ment of Public Safety and Hobbs Trailers, Fort Worth truck-trailer manufacturing company.

One Time Or Other Driver Education - What Is It?

By J. O. Musick
General Manager
Texas Safety Association

Is a Driver Education course, in today's public school curriculum, a frill, or is it legitimate? This question is frequently asked of educators, legislators, law officers, safety professionals and of anyone else who may have a sound reason for his answers.

From at least two responsible quarters, Adlai E. Stevenson and Dr. Milton Eisenhower, opinions have been voiced against DE courses in public schools.

Dr. Eisenhower lumped driver education in with the so-called frill courses.

Mr. Stevenson would leave the responsibility of driver education in the hands of parents—or chance.

Frankly, one can't very well quarrel with either of these distinguished gentlemen's arguments since they are, after all, only opinions.

At the other end of this traffic problem seesaw are persons who are equally opinionated in their views on driver education.

One such person is President Eisenhower, whose own seven-point Highway Safety Action program calls for complete driver education courses for high school students.

In Texas, state support for DE courses in public schools is being sought by the leaders of the Texas Education Agency, Congress of Parents and Teachers Association, Texas Department of Public Safety, Texas Police Association, National Safety Council, Texas Safety Association and numerous

Devil's River Philosopher Says Balancing U.S. Budget Is Like Balancing The Family Budget

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River must have budgetary problems of his own, his letter this week indicates.

Dear editor:

I don't know how President Eisenhower handled his son when he was growing up, but if he handled him like he's suggesting Congress be handled, I take my hat off to him.

As I understand an article I read in a newspaper last night, Ike has drawn up a balanced budget for the next 12 months and has informed Congress if it wants to spend more money than the budget allows, it ought to add enough taxes to cover the extra cost.

This is a splendid idea for families—I don't know about Congress, what Congress does is not always limited to reason on account of the people—but I don't know of anybody who has succeeded in making it work.

Say you have a couple of kids and you draw up a budget, carefully including so many pairs of shoes, so many pairs of pants, so many dresses, coats, jackets, etc., and for the first month or

two everything is in balance, until your son comes in with the toes busted out of his shoes at least six weeks before they were supposed to play out.

Maybe Ike could do it, but all the parents I know who say, "Look here, son, a new pair of shoes at this stage of the year wasn't included in the budget, if you want another pair you'll have to find the money for them"—well, most parents just can't bring this off.

And it doesn't have to be something as necessary as a pair of shoes. Say your daughter comes in with the announcement she's been nominated as a candidate for class queen and has to have a new fancy dress for the campaign, the average father would be run out of the house if he suggested it wasn't included in the budget and she'll have to find the money herself for the new outfit.

That's the problem Ike is up against with Congress. And the problem Congress is up against isn't that Congress just likes to spend the money, it's just that people like to have these things.

I suggest that's the way it works. In my case, I don't have any trouble balancing my budget on paper, but my ten-year-old pickup hasn't got any appreciation for figures and is liable to blow a gasket any day and throw my budget head over heels. And I think Congress has found

other civic and educational groups.

The Anti's argue that DE courses only clutter a curriculum in which more emphasis is needed on science and other academic teachings.

To which the Pro's ask: What good will it do to provide only scientific and academic courses if, in the face of today's increasing traffic problem, our youths make short use of their lives because of killing themselves in motorcides?

Frill-claimers point out that the expense involved in DE courses for state supported schools is too great—even at the estimated costs of \$35 to \$40 per pupil.

DE supporters answer that the costs are too great without the courses the Texas Safety Association places Lone Star traffic accidents costs at near \$275-million, for 1958).

"What's wrong with Stevenson's viewpoint?" ask some cri-

tics. "Why can't I teach my own children to drive?"

"That is how we got on to the horns of this traffic dilemma in the first place," is the answer. "The vast majority of parents aren't qualified to teach youngsters how to drive."

So it goes. What is the answer? Or answers?

It is doubtful if any one group knows, but this much we can see, the annual traffic toll in Texas (which is 2,500 or more) and throughout the nation (near 40,000) is far too great in costs and human suffering.

What's more, population increases and upward trends in car buying indicate our traffic problems will become more acute before they improve.

Too, we know that the largest percentage of traffic accidents occur in the 20-24 age group. Thus indicating that our young people are learning to drive more by accident than by parental instruction.

YOUR MINISTER SAYS

By Rev. Doyle W. Morton

As we begin the period of Lent, we ask ourselves what we should do during this time. It is, according to one definition, "a season of penitence and self-denial." Another definition is "not sacrifice—but devotion." It is a time of self-denial, but from this should come deeper devotion. Unless the self-denial leads to meaning it is lost. Self-denial leads to self-examination. Self-examination is more than self-condemnation. We must see ourselves by the side of the Master, knowing that if we keep by his side, he will give us something of his wonderful nature. Lent is not an unhappy season, for it leads to Easter, which is a joy to all Christians. It is a time when we deny ourselves so we can have more time and greater resources for living as followers of Christ. It is a time to examine ourselves and repent of our sins and failures, but this self-examination is done in the light of the Master, who can make us more than we are. It is a time when we study a little more about Jesus and deepen the fellowship with him. As we do this we prepare ourselves for the miracle of Easter, a miracle in which Christ comes alive in our hearts.

GOES AND GOES AND GOES ON A GALLON!

Biscayne 4-Door Sedan shows the Fisher Body beauty of Chevrolet's lowest priced series for '59.

CHEVY'S NEW HI-THRIFT 6

More miles are back in a gallon of regular-grade gas—up to 10% more—and Chevy's new Hi-Thrift 6 engine puts them there. It also gives you more "git" in the speeds you drive the most.

Here's an engine that always seems able to coax extra miles out of a tank of regular-grade gas. In fact, if you're one of those drivers who keep tab on things like gas mileage, you'll soon see for yourself that this new Hi-Thrift 6 gets up to 10% more miles a gallon.

Another thing you'll like about this 135-h.p. 6 is the

extra pep it gives you for passing and climbing hills. This is due to higher torque at normal speeds.

It may be hard to believe anything that looks and moves like this '59 Chevy can be such a stickler for economy. But—whether you pick the Hi-Thrift 6 or a vim-packed V8—this is just one more reason Chevy's the car that's wanted for all its worth. Stop by your dealer's and see.

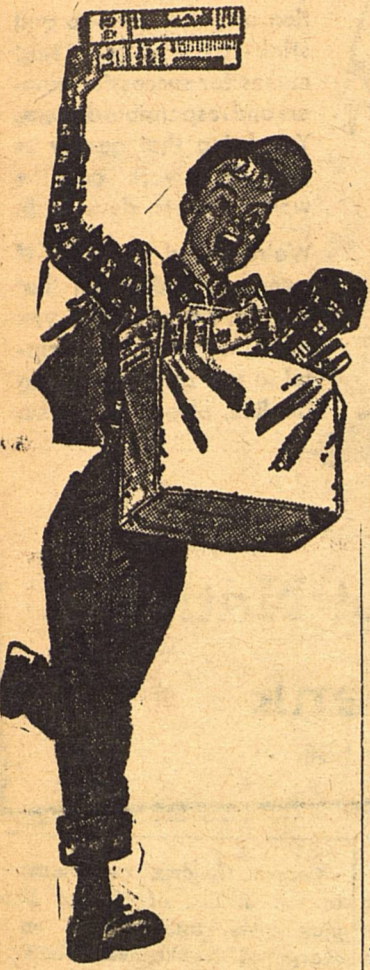

The smart switch is to the '59 Chevy!
