## Little League Needs \$1,000 In March To Guarantee Successful Summer

\$900 will be needed to finance an active Little League program in Sonora this year. This estimate was made at a meeting held Tuesday night, March 3.

Funds for sustaining the local Little League program are derived from three sources. Sale of signboard advertising space pays for lights, water, field maintenance, insurance and incidental equipment. Uniforms for players are purchased by sponsoring merchants. New uniforms will be provided this year and sponsors have been signed.

It is hoped that a full-time director can be engaged this year to activate and manage the League program. Officers and patrons of the League feel the service of a director will be invaluable in maintaining the high caliber of this youth program.

New officers for the program were elected at the meeting. They include Harold Scherz, president; John Bell, vice-president, and Clayton Hamilton, treasurer. These officers will investigate the possibility of hiring a manager if sufficient funds are available.

Special events planned for the week include service and breakfast for men from seven until eight o'clock Tuesday morning; a service for women at 9:30 Wednesday morning and service and breakfast for young people at eight o'clock Saturday morning. Everyone is invited to attend.

Funds for a manager's salary and other expenses must be raised this month if an ample, well-planned organization is to be in operation this summer.

All contributions, large or small, will be gratefully used by Little League and may be made to anyone at the First National Bank.

## New High Set With Hair Sale This Week

A new season high was reached in the mohair market Wednesday when the Sonora Wool and Mohair Company contracted to J. C. Weber, Jr., San Angelo, an estimated 400,000 pounds. Weber represents the Boston firm of Forte, Dupee and Sawyer Company. Adult hair brought \$1.11½ per pound and kid hair brought \$1.46½ under the terms of the contract.

Early season mohair contracting began in January with prices ranging 35 to 45 cents per pound under yesterdays sale. Some sources estimate that up to 85% of the 1959 Texas spring clip has already been sold. The remaining hair should find a ready market with some four or five foreign countries active in the market.

### C. Of C. Members, Directors Hear Progress Report Tuesday Night

In conjunction with the proposed housing development, it was moved that a letter be written to the Federal Housing Administration office in San Antonio stating the existing need here for FHA housing.

Edwin Sawyer led discussion on the proposed retirement home and reported that the three applicant cities, Eden, Bronte and Sonora, each have four months in which to vote a bond issue for financing a portion of the cost of building such a home.

Stokes discussed the barbecue

and dance to be sponsored by the organization Saturday night at the Wesley Sawyer ranch for students participating in the speech meet.

Plans for the forthcoming Quarter Horse Association convention to be held here the latter part of April were discussed and arrangements are being made for the Chamber of Commerce to entertain directors of the association and their wives.

Stokes further announced that listing of hunting leases are being made now and urged ranchmen to list their available leases with the Chamber as soon as possible. Inquiries about hunting leases are being received in the office daily.

Committees which have recently been appointed are expected to begin functioning in the very near future with the director in charge of each committee to call a meeting of his committee and talk over its problems.

A trial spraying of 50 acres of bitterweed will be made at 8:00 a.m., Tuesday, March 19, on the Alvis Johnson ranch. All ranchmen interested in observing the work are cordially invited.

The trial spraying is being made by the Byrd Aviation Service of San Antonio, represented by B. B. Willis and John Q. Oakley. American Chemical Company is furnishing the chemical, which will be Weedone L-V-6. One sixth gallon of the 2-4-D

formula in 3 gallons of diesel oil will be applied by aerial spraying.

Willis stated that good results from spraying bitterweed were obtained on the Derrick ranch near Eldorado in 1958. After the weed was killed, grass covered the area, and little bitterweed came back this year.

Plots will be established to study the kill on bitterweed, effect of growth stage, and emergence of new plants following

## Devil's River Philosopher Comes Out For The Right To Wisecrack

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River discusses jokes this week, but we don't know whether he's serious about it or not.

Dear editor:  
It's a long way from this bitterweed ranch out here to Bolivia in South America and I don't know any more about what's going on down there than the Bolivians know about what's going on out here, but it seems to me anybody who'd riot over what a magazine says is hard up for something to riot about.

As I understand it, a U. S. magazine quoted some anonymous person in the foreign service as saying the only way to solve Bolivia's problems was to abolish Bolivia, and the Bolivians rioted.

What I'd like to know is, what are they complaining about? U.S. magazines are always suggesting the way to solve the farm problem in this country is to abolish a lot of us ranchers, but you don't hear of any of us rioting about it, do you? Oh, maybe somebody did throw an egg at Sec. Benson once, but that's not rioting.

In the first place, we don't take magazine articles that seriously. In the second place, abolishing a lot of us ranchers might be an improvement, come to think of it, but you don't want to carry this line of thinking too far. It's possible you might improve banking by abolishing some bankers, you might improve teaching by abolishing some teachers, you might improve children by abolishing some parents, you might improve newspapers by abolishing some editors, you might improve Congress by . . . as you see, this thing can get out of hand.

I understand that some thinkers have pointed out that the suggestion that Bolivia be abolished was just a wisecrack in the first place, and this, they say, emphasizes the great care people should exercise these days in deciding what to joke about.

I don't look at it that way.

When a country is in such a fix it's lost its sense of humor, that's no argument the rest of the world ought to tread lightly when talking about it. That's an argument that maybe the country is headed for abolishment anyway, on its own.

If the ranchers of this country got mad every time somebody joked about them and rioted, there wouldn't be much pear burning done.

Although understand when I'm not burning pear, that's no sign I'm mad. In fact, as a rule, I'm a lot madder burning pear than not burning pear.

Yours faithfully,  
J. A.

## YOUR MINISTER SAYS

By Rev. Wm. Mitschke  
There is a Persian legend that tells of a Master who went into a great hall. The room was brilliantly lighted and splendidly decorated. The tables were laden with food. Many guests were there, but no one was eating. Someone had tied sticks to everyone's arms so that no one could bend an elbow. They could touch the food but could not bring it to their mouths. They began to quarrel, hit, and kill one another. The Master left,

sadly distressed.  
The Master went into another room, as brilliantly lit, as splendidly decorated, and with just as much food. Here, too, the arms had been tied so that they could touch the food but could not bend their elbows to feed themselves. Yet all were eating happily. They had learned that while they could not bring the food to their own mouths, they could all feed one another.

There is the difference in our world; men fighting and killing

as sin has made it, or men helping one another as God would have it. We do lope in a world that is a great banquet hall. It is lighted and decorated as only God could do it. It has resources to feed all the people of the world. But too often the chief concern is, "What can I get for myself?"

John has written a passage in the Bible which reads, "Beloved, if God so loved us, we ought also to love one another." God does love us! If you want to see that love in its greatest manifestation then look to the cross of Christ. Let what happened on Good Friday, Christ's death for you which shows to you God's great love, be your motivation to love one another.

"Beloved, if God so loved us, we ought also to love one another." I John 4:11.

## HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

AUSTIN, TEX.—If you can't beat it, don't knock it.

That sentiment, in varying forms, is being often expressed by legislators struggling to write tax bills to fill the yawning holes in the state's money supply.

People who come before the Legislature to oppose a money-raising proposal usually get a tart invitation to come up with a better one.

Opponents of a tobacco tax plan got short shift before the House Committee. "If you come criticizing don't you think you should come up with some solution to the tax problem?" asked Rep. H. J. Blanchard of Lubbock.

Similarly, anyone who comes to push a money-spending bill is challenged to produce a money-making bill to match it.

Rep. Don Gladden of Fort Worth drew cheers from fellow House members when he criticized the approach of a teachers' letter writing campaign. Gladden said the teachers had been instructed to ask for higher pay but make no statement on what taxes they would favor.

ROCKY ROAD—Overall, the tax picture is still "all shook up." Rep. Jamie Clements' bill to remove the tax exemption on cigarettes sold on military bases was sent by the House Taxation Committee to Atty. Gen. Will Wilson. Question to Wilson is whether the state can collect a tax from a federal agency.

A proposed liquor tax hike suddenly gained redoubled potency when the sponsor, Rep. Pete LaValle tacked on an amendment that would legalize liquor-by-the-drink sales. Gov. Daniel, who had urged the original bill, promptly protested. Bill was sent to subcommittee for study.

House Appropriations Committee apparently is taking note of the Tax Committee's rocky road. It is reportedly doing some painful paring of spending requests.

WIDE OPEN FIELD—Meanwhile, many more "little tax" ideas are swirling about. Most apparently are aimed at avoiding a bitter deadlock over a new "big tax."

Rep Rufus Kilpatrick of Beaumont introduced a bill to tax gross receipts of scrap metal sales, and Rep. W. T. Oliver, Port Neches, a five per cent gross receipts tax on advertising sold by newspapers, radio and TV stations and billboards. Oliver also is said to be considering taxes on phonograph records and parking lots.

Other possibilities being discussed are (1) a 1.5 per cent general sales tax, exempting food, feed and fertilizer, by Rep. Frates Seeligson of San Antonio, (2) an across-the-board increase in the omnibus tax system which includes almost all present levies, (3) a registration fee for airplanes, similar to auto licensing.

Rep. Homer Koliba of Columbus said he would prefer to raise money through legalized liquor-by-the-drink and horse racing, heavily taxed, than by a general sales tax.

HIGH VOLTAGE ISSUE—House State Affairs Committee will take on a supercharged issue March 16—the long struggle between private utilities and REA co-ops.

REAs are seeking a law that would assure their being able to continue to operate in a one-central area after it is annexed by a city. Under the measure sponsored by Rep. Alonso Jamison of Denton, the co-ops could serve old customers and recruit new ones for a period of 10 years. After this, a municipal franchise would be required.

Private power companies, offering stiff opposition, say the non-tax-paying co-ops want to spread through the cities, socialize the power industry. Co-ops retort they are the ones being swallowed up-by spreading cities.

## Congratulations

## Chevy stops quickest... goes farthest on a gallon!

Chevy showed the best brakes of the leading low-priced three in a test of repeated stops at highway speeds conducted and certified by NASCAR\*. Chevy also won over the other two in a NASCAR economy run—with the highest gas mileage for 6's and V8's at cruising speeds of just over 55 miles an hour.

Here's a car that knows how to get the most out of a gallon. And it's the only car in its field to bring you hydraulic valve lifters in all popular engines—6 and V8. This means smoother, quieter performance for you. There are many other advances just as fundamental as the efficiency of Chevrolet's engines and the depend-

ability of its new brakes (with more lining area than any other low-priced car). But why not stop by your dealer's and let Chevy do its own sweet talking!

**HOSPITAL AUXILIARY MEETS AT MORTON HOME**

The theme of the program for Monday afternoon was "Known by Our Deeds" when the Hospital Auxiliary met in the home of the Rev. and Mrs. Doyle Morton. Mrs. J. F. Howell, president, opened and closed the meeting with a verse of scripture. Mrs. Morton led a prayer.

One of the interesting facts brought out was that the Texas Association of Hospitals, organized in 1943, was the first of its kind in the United States. It now has 97 member auxiliaries, the local auxiliary being organized in 1953 and affiliated. Mrs. G. M. Owens explained the significance of the organization emblem.

During the business session committee chairmen made reports on sewing done, magazines and books taken to the hospital, visits made and flowers given. The Auxiliary voted to have a silver tea in the month of April.

The meeting was closed with the Lord's Prayer in unison and Mrs. Clift Epps assisted Mrs. Morton in serving pie and coffee to fourteen members.
