THIRTY-NINTH WEEK

Student Loan Applicants Have Until July 15 To Make Requests

Students desiring to apply for educational loans under the Sutton County Educational Trust are advised that their applications for loans may be turned in by July 15, rather than by July 1 as was previously reported. Loans must be in the hands of the advisory committee by July 15 in order that the committee may consider applications before making recommendations to the trustees.

Drennan Named District Manager Of Phone Company

Billie D. Drennan, Baytown district manager for General Telephone and a native of Sonora, has been promoted to eastern division commercial superintendent and will be transferred to Texarkana effective July 1.

Drennan, who was first employed by the company as a repairman in Sonora, held various plant department jobs in Sonora until 1955 when he was transferred to Texarkana as eastern division sales engineer. Later he became district manager in Jacksonville, Texas, and in 1958 moved to Baytown.

Applicants may turn in loan requests to The Reverend Doyle W. Morton, advisory board chairman, or to Stanton Bundy, secretary. Further information concerning loans may be obtained from either of the above. Loan requests for the fall college term only will be considered by the board at its annual meeting.

McMillan To Head County Board

The Sutton County School Board, meeting in regular session Monday morning, June 29, elected W. B. McMillan president. McMillan succeeds Herbert Fields who resigned from the board in the spring.

Robert Pfluger was sworn in as a new member of the board. Other members are County Judge J. W. Elliott, Philip Jacoby, Edwin Sawyer and Stanton Bundy.

Rev. Lonnie Baker To Assume Duties At Calvary Baptist

The Rev. Lonnie Baker and his family will arrive in Sonora this week where Mr. Baker will assume duties as the first resident minister of Calvary Baptist Church.

Mr. Baker, formerly of Valera, Texas, is a graduate of Howard Payne College, Brownwood, and attended Hardin-Simmons University. He and his wife have two sons, Mike and Pat aged five and seven.

Tolliver Leads Trainer Standing At Ruidoso Down

Clayton Tolliver, who was named outstanding trainer at Ruidoso Downs, Ruidoso, New Mexico, last year, again leads the field of trainers in 1959.

Tolliver has a current trainer standing of 60 as compared to the second-place Bob Arnett's 46.

RAINS UP TO 11 INCHES LAST WEEK MAKE JUNE '59 ONE OF WETTEST

By E. B. KENG
Rainfall during the week of June 22-27 varied from 1.25 to 11 inches in the Sonora area, marking one of the wettest Junes on record. The heaviest moisture fell south and east of Sonora, with 11 inches recorded on the Joe B. Ross ranch. The E. S. Mayer ranch headquarters only 1.25 inches, but other parts of the ranch received 3.00 inches. Representative rainfall totals for the week included Travis Glasscock 2.45; Hillery Phillips 3.25; R. A. Halbert 3.40; Harold Friess 8.00; Clara Allison 3.80 J. A. Cauthorn 6.00; Harold Schwining 5.80; Edgar Glasscock 1.65; Thomas Morris 8.00; Joe Logan 2.60; and Herbert Fields 5.37.

from the Fields and Cusenbary draws below Sonora. Traffic was halted on the Sonora-Del Rio highway for several days, caused from bridge construction rather than high water.

Work was also halted on construction of flood prevention structures at Sites 9 and 10. Site 9 on the James and Nancy Hunt Thomson ranch measured 2.60 inches for the week. The rainfall dampened the fill material too much for proper compaction, but work was expected to be resumed Tuesday.

Last week's heavy rains fell almost 55 years to the day after the severe flood took 17 lives and caused heavy property damage at Ozona. Considerable anxiety that a flood might strike Sonora last week was evidenced when rains filled the waterholes in Dry Devils River and Lowrey Draw. Rainfall was light on the watershed, however, and the flood threat failed to develop.

Construction of flood prevention dams at Sites 9 and 10 has not progressed to the point that the lakes will catch any water. The early stages of construction are slow, and an opening is left in the channel to let water escape. Concrete drawdown tubes are now in place in both dams, and the embankment should rise very rapidly during the next few weeks.

Site 9 should be completed about August 1. Site 10 is larger and should be completed about November 15. Fill material is dampened and rolled into the embankment, and would be very difficult to wash out if floodwater should flow over it during construction. Floodwater flowed over a partially constructed dam near Dublin for three weeks in 1957, with practically no damage to the structure.

Construction will start on Site 11 within the next 30 days, and bids on Sites 12 and 13 will be opened on July 10. Contracts for construction of six of the eight dams planned on Dry Devils River will be awarded before December 31.

Most of the moisture fell slowly over a three day period, with only occasional showers of high intensity. The North Llano River, however, was on a sizeable rise from heavy rains on the upper part of the watershed. With a good cover of grass on most ranches, runoff was very light. Dry Devils River and Lowrey Draw barely trickled through Sonora, but gained some water

Sonora Stores To Be Closed Saturday, July 4

Sonora business houses will be closed Saturday, July 4, in observance of Independence Day. The Fourth of July is one of six business holidays to be observed by local merchants this year. Earlier holidays were New Year's Day and Memorial Day.

The three remaining holidays are Labor Day, Thanksgiving and Christmas. Merchants selected the six dates by poll conducted by the Sonora Chamber of Commerce.

Jo Addah Johnson Sonora's Duchess To Court Of Miss Mohair July 30

Miss Jo Addah Johnson

Miss Jo Addah Johnson, daughter of Mr. and Mrs. L. E. Johnson, Jr., has been selected to represent Sonora as Duchess to the court of Miss Mohair at coronation ceremonies to be held in

Kerrville July 30. The coronation is a part of the annual convention of the Texas Angora Goat Raisers Association.

J. VanderStucken Attending Camp In Michigan

Jo Bess VanderStucken left Sunday for Interlochen, Michigan where she is attending the National Music Camp. Jo Bess, the daughter of Mr. and Mrs. J. M. VanderStucken, is an outstanding musician, having been named to first chair clarinet in the All-State Band this past school year. While at Interlochen, she will receive advanced musical training under internationally known teachers and artists.

Her parents and sister, Jan, plan to join Jo Bess in late August when she will appear with both the camp band and orchestra in concerts.

Last Story Hour Success Despite Rainy Weather

In spite of damp weather 11 children participated in the Women's Club Story Hour last Wednesday morning when Mrs. Harold Scherz, Mrs. A. E. Lowe and Mrs. Myrtle Bridges were in charge of the program.

A total of more than 100 books were checked out during the morning library hours.

Children attending the Story Hour were Michael Marshall, Kathy Hardegree, Carol Gay Hargrave, Melissa Brown, Glen Owens, Eddie Smith, Gail Hamilton, Evelyn Jane Lowe, Annette Shroyer, Steve Owens and Ronnie Jones.

Sonora Put On Bracero Blacklist

Word was received this week that Sonora has been placed on the blacklist of contracting Mexican nationals for agricultural work. Reason for the blacklisting was not given but Chamber of Commerce Manager H. V. (Buzzie) Stokes, city and county officials are working with authorities in an attempt to clear up the situation.

Sutton County ranchmen are advised that if they give their mailing address as Sonora they will be unable to make new contracts or to renew existing ones, until the problem is straightened out. They are also advised to keep complete labor records of workers now under contract.

Overall High Team in last week's judging contest held in conjunction with the annual Sonora Wool and Mohair Show was the Sutton County 4-H team. Members of this year's senior team are, left to right, Claire Jones, Preston Neely, Cleve T. Jones III, and Jimmy Frank Richardson.

AN EDITORIAL 10 SECONDS TO LIVE

10 SECONDS TO LIVE
By Raymond M. Eastman, Des Moines Register and Tribune.

HE PUSHED HIS SLEEVE BACK, held his wrist close to the lighted speedometer, trying to read the time. A little after nine. Five, ten minutes after. Ought to be home in half an hour. If he'd known he had only ten seconds to live, he might have checked the time more closely. He might have done several things differently.
10 SECONDS TO LIVE. He massaged his eyes with thumb and middle finger, trying to rub out some of the sand.
9 SECONDS TO LIVE. He'd driven almost eight hours since lunch, and was beginning to feel it.
8 SECONDS TO LIVE. Lousy

driving in the rain. Light from your headlights just seems to soak in along with the water.
7 SECONDS TO LIVE. Probably need a new windshield wiper blade. Old one just spreads the water around instead of wiping clean. Get one tomorrow, or next time it rains.
6 SECONDS TO LIVE. Somebody threw a cigarette out of an oncoming car. The red glow dissolved almost before it hit the pavement.
5 SECONDS TO LIVE. He planted his heels on the floorboard, squirmed in the seat, trying for comfort.
4 SECONDS TO LIVE. At 60 miles an hour, a car covers 88 feet of pavement every second. Four seconds; 352 feet.
3 SECONDS TO LIVE. Something looked wrong, through the blurry windshield. A tentative dab at the brake stiffened into desperate pressure as he made out an old, unlighted, slow-mov-

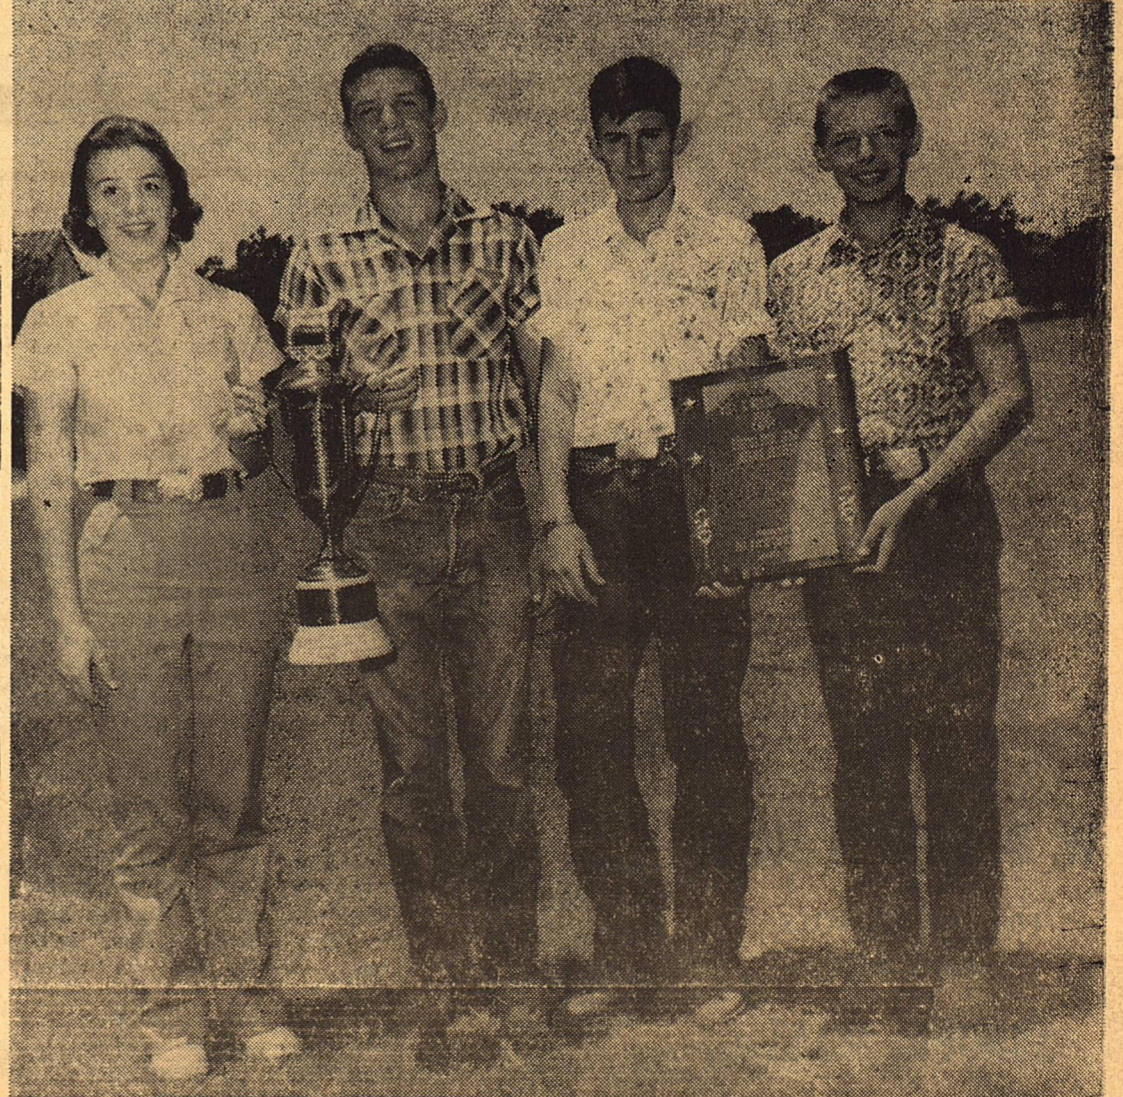

ing truck ahead.
2 SECONDS TO LIVE. Panic moved in. Turn to the left. No. Car coming. Headlights too close. Can't make it. Turn to the right.
1 SECOND TO LIVE. Horror numbed everything into slow motion. He was floating right into the rear corner of the truck bed. He opened his mouth to scream.
ZERO-NO SECONDS TO LIVE. It's happened to lots of people; maybe not just that way, but similarly. Drive too long, eyes get tired, reaction slow down. Rain, darkness, a windshield that's hard to see through. Driving too fast. A car or truck ahead that you can't see. It's happened to lots of folks.

Meeting Tuesday To Discuss Local Game Regulations

A public meeting will be held at the County Courthouse here at eight o'clock, Tuesday, July 7. Purpose of the meeting is to discuss proposed hunting, fishing and trapping regulations for Sutton County.

Edwards Plateau Soil Conservation District News

By E. B. Keng
Soil Conservation Service

Heavy rainfall which blanketed much of the Sonora area Tuesday night helped make up the deficit of 1959 rainfall. June normally about a "2 inch" month has received 3.89 inches at the Soil Conservation Service gauge on the Herbert Fields ranch.

To date in 1959 Herbert has measured 7.82 inches, which is about 80 percent of the 10 inches normally received by July 1. Rainfall has been very spotty this year, and some areas both east and west of Sonora have received above normal rainfall.

Rangeland will be greatly benefited from Tuesday's moisture, especially where 2 inches or more was measured. Many grasses are producing the first or early crop of seed, and moisture was badly needed to mature a good seed crop.

Even though Tuesday's storm was of the torrential type, ranges with a good cover of grass lost little moisture to runoff. Moisture penetration checks made on the Rip Ward ranch, where 2 inches was recorded, showed the soil to be wet 10 to 14 inches deep in good grass cover. Bare spots were wet only 4 inches deep.

New grass seedlings in old fields and on rangeland were greatly benefited from the moisture. Seedlings must have frequent showers to survive during hot weather, until a deep root system can be established.

Guests in the home of Mr. and Mrs. R. S. Teaff are his brother, P. L. Teaff and sons, Norman and Perry, of San Diego and Mrs. Kenney Robertson and baby daughter of Chula Vista, Calif. Mrs. Louis Gardine, who spent the past two weeks with them has returned to her home in Springfield, Mo.

Ralph Copeland, who is attending summer school at Baylor University, Waco, will spend this weekend at home with his mother, Mrs. Gay Copeland.

Mr. and Mrs. Roy Cooper will leave Thursday for Newton, Kansas, for a visit with Mrs. Cooper's parents, Mr. and Mrs. J. S. Whittemore. A. C. Hart accompanied them to Canton, Kansas, where he will join Mrs. Hart, Nancy and Peggy.

YOUR MINISTER SAYS

By Rev. Allan Guthrie
"Continue in what you have learned" (II Timothy 3:14).

Striking up a conversation with his seatmate in a crowded cross-country bus, a minister discovered that the man was not only drunk, but very anxious to argue about morals with a minister. He knew his Bible too. He told of years of instruction in a Sunday School and of the life of his godly parents. His trouble was not a lack of good teaching; it was lack of applying what he knew to his own way of life. He denied none of the basic truths of Christian theology. He just refused to love by them. Learning, in his case, did not carry over into experience. It is easy to say that his teaching was faulty, that is should have been presented so that it would carry over. Yet there is a real sense in which each of us is responsible for using what we know, that is, continuing in it. Jesus says the man who does not do what he knows builds a house on shifting and uncertain sand.

Tom Elaine Espy had as her guests during the weekend Shannon Ratliff, of Eldorado and W. L. Whitehead of Del Rio. Mary Sue Hanks of Houston is also a guest in the Espy home.

Recent guests in the home of Mr. and Mrs. G. H. Neill were Mrs. Alice E. Cooper of San Antonio and Mr. and Mrs. Paul F. Law of Georgetown.

Jan Keng, who has been a guest of her parents, Mr. and Mrs. E. B. Keng for the past two weeks, left unday for Brownwood where she is a counselor and lifeguard at Lake Brownwood Christian Retreat, a S church camp.

Highway Safety Is Your Business

We all wonder what contributes to the "speed mania" of the person behind the wheel on the open road. Yet it's not so surprising.

The vacation and holiday traveler wants to get to his destination in time for a last minute swim in the lake, or the baseball game, or just a few casts of the old fishing rod before dark.

This same traveler got a late afternoon start, he stopped en route to visit friends or relatives and he must "make up that time," by crowding it a little. Just a little you understand, he's not going to take any chances.

What our "hurry driving" motorist friend fails to realize is that hundreds of thousands of other vacation and holiday travelers have added their vehicles to the normal highway traffic load.

We wonder if this friend of ours who is "making up time" on the highway knows that... Safety is everybody's job. Traffic safety is teamwork. Each individual driver must ask himself, "Can You Stop In Time?" He can if he will take time to Slow Down and Live.

"You can criticize a man about almost anything except his driving," is a statement we all must admit to be true.

Calmly you can reason with most men that they have picked the wrong profession, they have selected the wrong section of the city in which to buy or build a home, they should save more of their wages or they should wear Bermuda Shorts in summer.

But tell a man he operates an automobile carelessly... WOW... he is ready not only to argue, but to fight if necessary.

Without exception every motorist believes that an accident is something that might happen to some other fellow but "not to me."

When you ask the average motorist, "Can You Stop In Time?" And, according to the Texas Safety Association, he will reply, "Certainly, and under any conditions." If you ask him to "Slow Down and Live," he'll reply "That's for the other fellow."

Our job is to show every motorist that highway safety is EVERYBODY'S BUSINESS... Slow Down and Live.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

AUSTIN, Tex. At it again, for the third time this year, Legislators go into the second special session wearier, but wiser.

Midnight wind-up of the second session brought show-down votes indicating what each house will and will not accept in the way of a tax program. Next conference committee on taxes will know that the line of compromise must be more finely drawn between Senate and House thinking.

In addressing the new session, Gov. Price Daniel reminded lawmakers of the "up against it" state of things. "Every function of state government depends on enactment of an appropriation bill before Sept. 1 with a tax bill to support it," said the governor.

State's fiscal year and present appropriations run out Aug. 31. Unless a new appropriation bill can go into effect the next day, the whole state operation—including hospitals, schools, employe salaries and pensions—will stop.

This is unthinkable, of course. No lawmaker could go home and face the voters with things in such a state.

But there's another pinching factor which the governor emphasized. Cost of deficit financing plus loss of potential tax income means that each day's delay costs the state an estimated \$200,000. Despite this, the House took a four-day weekend and the Senate, 3½ days.

But some lawmakers seemed to feel the delays, deadlocks and head-knocking were not necessarily expensive wasted motion, but milestones along the long, hard road to democratic compromise.

"We've crossed a lot of bridges we don't have to cross again,"

said Rep. Don Kennard of Fort Worth.

NO SURRENDER—Legislature was thrown into another session when the House rejected, 117-to-23, a conference committee tax bill that was largely based on Senate thinking.

Senate approved, 19-to-12. Some House members were indignant that three of the five House appointees signed the conference committee report which House opponents called a "complete surrender" to Senate wishes.

House passed a tax bill that was divided about 50-50 between taxes on business and selective sales taxes. Senate pared back the business taxes to about 18 per cent, added new or heavier sales taxes to make up the difference.

Conference committee proposed a bill that would have raised \$177,066,000 with essentially the same levies approved by the Senate plus a temporary hike from \$1 to \$2 in drivers licenses.

Appropriations conference committee was reportedly deadlocked and never made a report.

After the new session opened, most of the same taxing and spending bills were introduced again, including the twice-killed abandoned property bill.

House quickly re-passed the same appropriation bill it had passed before. Most bills are expected to follow the same pattern they did in the last special session—up to the point where the conference committees start working out differences.

ONE MADE IT—Only major money bill to make the grade is the bookkeeping bill, passed by both Houses and signed into law by the governor.

Effect of the law is to change accounting procedures so that an

New State Law To Go Into Effect On August 11

The Texas Department of Public Safety reminded today a new State law—designed to take the joy out of illegal joy-riding—will go into effect August 11.

The new statute, passed by the regular session of the Legislature and signed into law recently by Governor Price Daniel, carries penalties up to three years in prison for driving a person's vehicle with his permission.

Heretofore, the offense was a misdemeanor unless it could be proved that the "job-rider" intended to keep the vehicle. This made it universally difficult to conduct a felony prosecution, according to Department officials. The new law divided the "without consent" statute into

estimated \$28,000,000 more will be credited to the state's general fund when the fiscal year runs out Aug. 31.

It means that much less that has to be raised to balance the books.

STUDENT FEE BILL BACK—Rep. W. S. Heatley, Jr. of Paducah re-introduced a bill to let colleges require students to pay up to \$30 a semester for various campus services.

Bill passed the House last session, but died in the Senate on the last day. Sen. William S. Fly of Victoria was Senate sponsor.

Heatley, Fly and other supporters pointed to the crying need for new money and said college presidents were urging the bill. Opponents said there were better places to get money than from working-their-way college students who would rather do without the football tickets, parking spaces, etc., covered by the fee.

two classes, based on the value of the vehicle "borrowed." The taking of a vehicle valued at less than \$200 without the owner's consent still will be considered a misdemeanor, with charge in penalty. But if the value of the vehicle taken is more than \$200, the offense is a felony with possible heavier penalties ranging up to three years in prison.

Ann Morris spent the weekend in Sonora with her parents, Mr. and Mrs. R. S. Teaff. She was accompanied back to Austin by Carolyn McLaury and Alice Lee Daughtrey who will be her guests two weeks.

Mr. Tax-payer:

Which of these pipes will your city use?

Texas-made Lone Star cast iron pressure pipe will last over a hundred years!

The use of cheap substitutes, such as foreign made cement-asbestos pipe, is wasteful and means probable replacement in a very few years. (This pipe was taken from a Texas city's water system. Photo is unretouched.)

Officials of most Texas municipalities know that when they buy and install cast iron pipe they are helping to support the American economy and the high standard of living we all enjoy. They are buying products made in America for use by Americans. They are not fooled by the slightly lower initial cost of foreign goods because they realize that this "paper savings" will be more than offset by the cost of excessive maintenance.

Domestic cast iron pressure pipe is time-honored, centuries-proved, and is backed by strong, resourceful American companies that will be in business for years on end to guarantee their product.

Really, who backs foreign-made pipe? Who answers for it when it fails? To whom will the few all-advised pipe-buyers look for the answers to these questions when trouble develops? Were they penny wise and pound foolish?

Take a look at some of these important factors back of the initial price tag, then pick up the telephone and call the first city official you think of and tell him you appreciate his good judgment in buying American-made cast iron pipe with your tax dollars. If he has been buying Lone Star pipe, tell him that we, too, appreciate the business!

ABC IS PLANNING TO REPLACE LAWRENCE WELK'S Wednesday night show starting in July with a series of summertime pop concerts. Series may include remote pickups of outdoor concerts from Philadelphia's Robin Hood Dell and New York's Lewisohn Stadium...

Joan Crawford... may star

CBS IS MORE THAN A LITTLE PLEASED at having signed Red Skelton's two sponsors to renew the comedian for the fifth straight year. Renewal is especially gratifying to Skelton in a year when Milton Berle, George Burns and other comedians have lost their sponsors... Captain of Detectives, the New Robert Taylor series, has been scheduled by ABC for 10 P.M. Fridays, starting in the fall, with 77 Sunset Strip moving into the 9-to-10 period... Hope (Mother) Emerson is leaving the Peter Gunn series to join the cast of the upcoming Dennis O'Keefe Show...

Teresa Brewer... summer replacement

NBC CHANGED ITS MIND ABOUT EXPANDING Bat Masterson to a full-hour series. Show will continue as a half-hour entry and will be seen next season on Thursday nights at 8... It's definite now for Tony Bennett, Teresa Brewer and the Four Lads to star each week as Perry Como's summer replacement starting in mid-June... Elvis Presley's first public appearance after leaving the Army early next spring will be a closed-circuit theater TV show expected to draw some 1,000,000 paying customers... TV's many Westerns are running out of villains. Charles Horvath, who was killed as a bad guy on Zorro last year, turns up as a villain on the same show in late-June... CBS has scheduled Space, new Ziv science-fiction series, for Wednesdays at 8:30 next season... Capping the steady climb of the Chet Huntley-David Brinkley news show, Texaco has signed to sponsor the series every weekday night on NBC.

Must Learn Shapes Of Traffic Signs

What safety warning is on a triangle traffic sign? An amazing number of Texas motorists do not know the answer to this question.

Many drivers who have been driving for years do not know or have forgotten—that traffic signs have easily identifiable shapes.

Prospective drivers must learn the shapes of traffic signs for their driving examinations, but they soon forget their meaning; however, with today's hazardous traffic conditions, each driver owes it to himself to know and remember as many things as possible that will lessen the chances of an accident. It may not seem important, but the ability to recognize the types of sign shapes, at a glance, is a safety feature we should all add to our driving habits.

Here are the six basic sign shapes: octagon, which means stop; round, first railroad crossing warning; white crossbuck, last railroad warning; diamond, warning of dangerous or unusual conditions ahead; triangle, yield right of way; and, rectangle, which states such law as speed limits, passing regulations and similar laws.

Traffic signs are designed to warn both motorists and pedestrians of traffic laws and of dangers that lie ahead, thus offering preventive measures for the protection of all.

Devil's River Philosopher Offers Advice To Washington Officials Who Don't Have Time To Think

Editor's Note: The Devil's River Philosopher on his bitter-wood ranch on Devil's River probably is misinterpreting the news again, or at least twisting it around to fit his own convenience. Dear editor:

President Eisenhower was making a speech in Washington the other day and he said one of the troubles many of the men in government have encountered is the lack of time to do enough thinking. High officials of government tell me they don't have enough opportunity for contemplation," he said, and announced he was going to try to figure

out some way to remedy this.

I am afraid though he is going to run into some snags. Take the high officials in the State Department, the ones concerned with foreign policy.

Now if I had the job of studying about the present state of the world and figuring out an answer, I believe I'd get too busy doing something else to think about it too. For six weeks now the foreign ministers of the leading nations of the world have been meeting in Geneva to try to figure out what the leaders of the world's governments could talk about at a summit meeting. So far they haven't gotten anywhere, every time they bring something up, Russia throws a monkey wrench in it, and it's at a time like that, if I was over there, I'd get too busy to think too.

When you stop and consider what would happen to the world if an atomic, hydrogen, chemical, bacteria war broke out, it's not hard to get so busy doing something else you don't have time to think about it.

I have hit on a system out here on my bitterweek ranch however which might come in handy to high government officials. When I have a knotty problem facing me, like going up one fence line and down another in my pickup, I find I'd rather think about it than do it. A lot of people think I'm lazy because I let my ranch run down, but me and President Eisenhower know if the world needs anything it needs more thinking.

I guess there are some people who haven't got time to think, but frequently when a man doesn't think, it's not for lack of time. Thinking is hard work and you're not going to catch me taking the easy way out riding a pickup under a hot sun.

Yours faithfully,
J. A.

St. Lawrence Seaway Stamp To Be Issued

The Post Office Department will issue a four-cent St. Lawrence Seaway Opening commemorative stamp through the Massena, New York, post office on June 26. A stamp identical in design, except for the necessary differences in caption and denomination, is being released simultaneously at Ottawa, Canada. The Canadian stamp will be the five-cent denomination.

The stamp will be 0.84 by 1.44 inches in dimension, arranged horizontally and will be printed in red and blue on white. Reproduced on the stamp are the emblems of both nations, the maple leaf for Canada, and the eagle for the United States, enclosed in interlocking links superimposed over a background of the Great Lakes. Across the top of the stamp is the wording "St. Lawrence Seaway" and across the bottom "United States".

Collectors desiring first-day cancellations of the stamp may send addressed envelopes, together with remittance to cover the cost of the stamps to be affixed, to the Postmaster, Massena, New York.

More car than this Impala Sport Coupe is hard to find at any price.

clings to curves like a cat on a carpet!

the travel-lovin' Chevrolet

Nothing else but a dyed-in-the-wool sports car like the Corvette can take a turn with such solid assurance!

It's easy to see where Chevrolet gets its road sense. With big coil springs at every wheel, a firm, wider stance and all of its pounds distributed with painstaking care, Chevy's born with it.

The only thing that may be hard to understand is how it can offer the ride it does, along with so many other luxury-car virtues, and still compete in the low-price field.

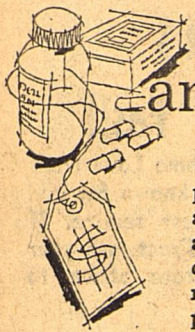

We use the word *compete* only in the sense of price. For with a ride as special as Chevy's, real competitors are hard to come by. There's a world of difference between Chevrolet's coil springs at all four wheels and the leaf springs that most other cars still use. Take a Chevy down a snaky back road and you'll feel the difference in the sure way it holds through curves and shoots over rough spots with hardly a ripple.

This one's really made to travel and loves every minute of it.

Aerial Spraying On Halbert Ranch Indicates Good Mesquite Tree Kill

R. A. Halbert has recently completed aerial spraying about 1400 acres of mesquite-infested rangeland.

A mixture of 2-4-5-T, diesel oil, and water was used at a total cost of \$2.62 per acre. About 95 percent of the mesquite trees in the sprayed area show a complete defoliation of leaves. Eventual kill of the root and bud zones of the trees will not be known for two to three years.

All of the sprayed trees now defoliated will probably be killed back to the ground, while root and bud kills may not be more than 40 or 50 percent. Re-sprouts from the base may occur from about 60 percent of the trees next year, with additional trees sprouting the second year. Experimental sprayings with 2-4-5-T on the Spur Station have resulted in 95 percent kills, while other spraying trials on the same station have given poor results.

At the present time spraying with 2-4-5-T is only a control measure for mesquite, and the treatment may have to be repeated every five to seven years for best results. Continued research is being conducted in an effort to find a more dependable chemical for controlling mesquite.

Mesquite trees are a hindrance not only to normal livestock operations, but also to range improvement. The ground moisture lost through mesquite trees is often the main factor preventing the growth and improvement of range plants. Approximately 2500 pounds of water is required to produce a pound of mesquite dry matter, while a pound of dry grass is produced from only 400 to 600 pounds of water.

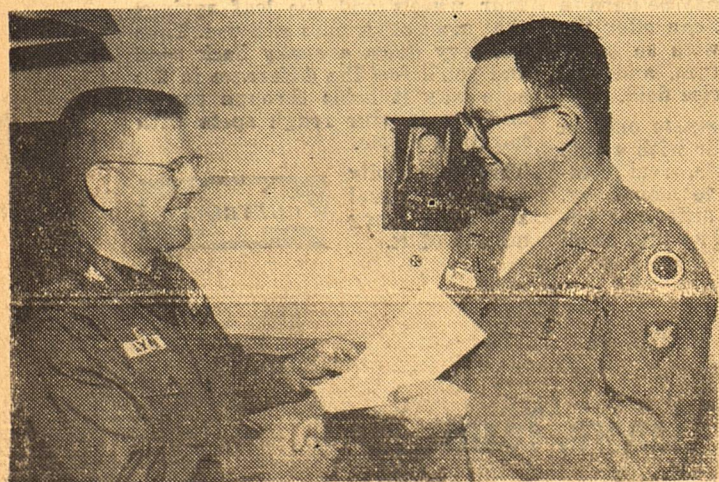

David L. Smith Gets 3rd Promotion Since Serving In Korea

David L. Smith, son of Mr. and Mrs. Arthur C. Smith of Sonora, has received his third promotion in nine months with the U. S. Army in Korea.

Smith, an Army trained administrative assistant, received the orders promoting him to the grade of Specialist First Class from Colonel Harry E. Lyman, Adjutant General of the I U.S. Corps, the largest tactical corps in the Free World.

Sp/5 Smith is a 1953 graduate of Greenville Senior High School and received his degree from East Texas State Teachers College at Commerce in 1957. He entered the Army in October 1957 and received basic training at Fort Chaffee, Arkansas. Later he graduated from both the Fort Chaffee Clerical School at Fort Benjamin Harrison, Indiana. He was ordered to Korea in July 1958 and reported to his new assignment in August.

Gillespie Fair Set July 3-5

A genuine "old time Fourth of July celebration" has been scheduled at the Gillespie County Fair Grounds in Fredericksburg for July 3, 4 and 5.

Horse races will be each afternoon's feature attraction, but there will also be baseball games, brass band music and other features. Raising of the new 49-star United States flag will be a feature on the afternoon of the Fourth. State Senator Louis Crump of San Saba will deliver the address after which Boy Scout troops will raise the new flag to the band's playing of the national anthem.

Another new feature will be a horse show, approved by the American Quarter Horse Show Association.

July 4 Deadline For Applications To County 4-H Camp

By D. C. LANGFORD

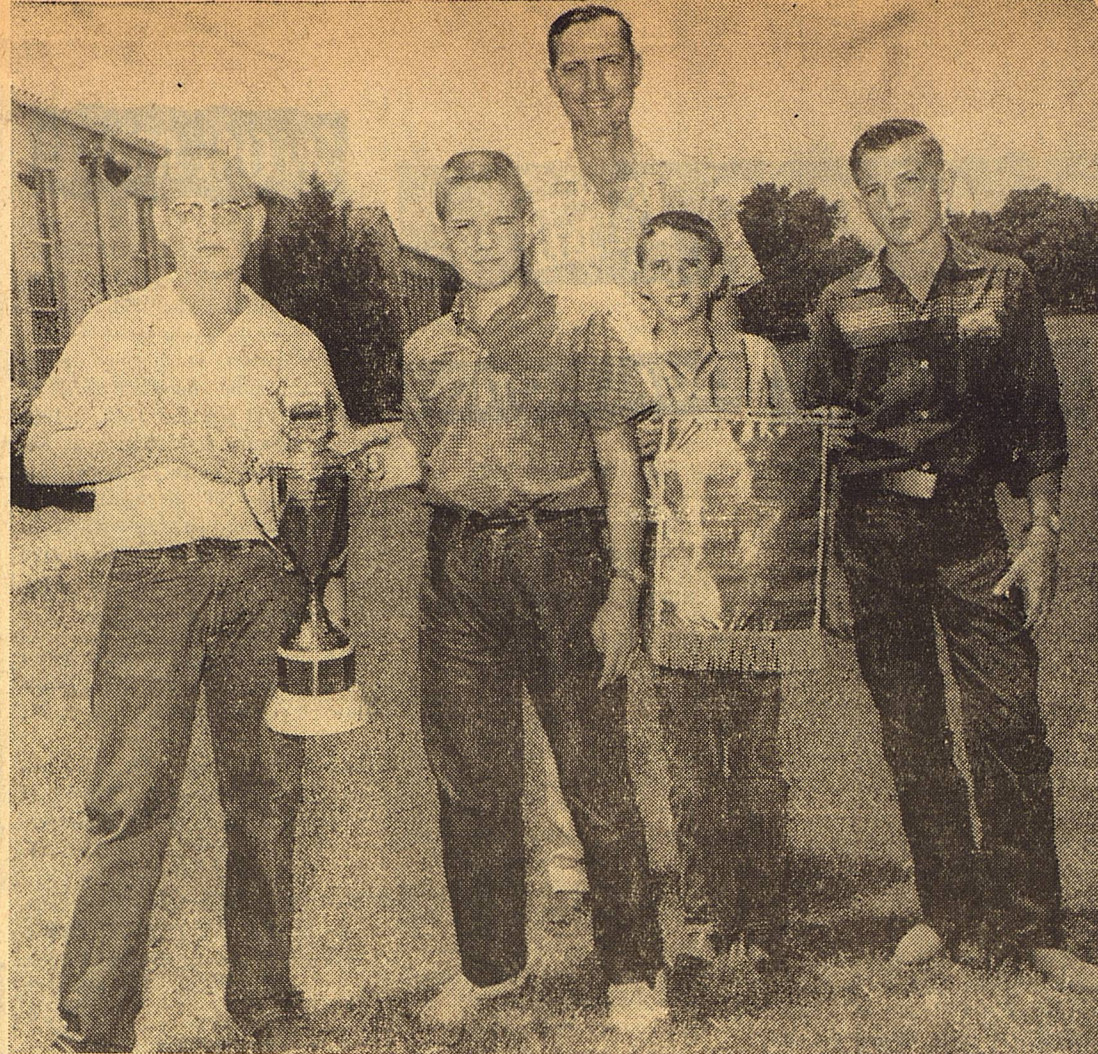

The County 4H Camp will be held at the A. O. Baker ranch on Devil's River July 6 through July 9. All 4H members desiring to attend this camp should contact County Agent D. C. Langford not later than Saturday, July 4.

The group will meet at the court house at 8:00 a.m. on Monday, July 6, to leave for camp.

CHAMBER OF COMMERCE COMMENTS

Chamber OF COMERCE COMts **SO this is July, 1959. The ground is soggy, the turf is green, prices are good, our town is building and, dear mothers, one third of the summer vacation is past. July is a month famous for family reunions, picnics, vacations, chiggers and watermelons. May yours be most pleasant. **We had a nice visit from Ralph Duncan, manager community services, West Texas Chamber of Commerce, this week. Mr. Duncan plans to attend a Community Forum in Sonora this late summer at which a work program for the Chamber of Commerce will be set up. Chamber of Commerce projects come from Committee planning.

And speaking of projects, the two most discussed with us is for a city wide clean up, paint up, weed cutting program with

Top spot in the overall high teams was the junior team of the Sutton County 4-H Club. Members of the team are, left to right, John Paul Friess, Dick McMillan, Coach D. C. Langford, Libb Mills Wallace and Jack David Wardlaw.

Rocksprings Sets Annual Reunion For All Day July 4

Rocksprings will hold its annual Old Settlers' Wrangle on July 4. The program will get underway at 9:30 Saturday morning with the coronation of the Old Settlers' Queen to be followed by the grand parade at ten o'clock.

A barbecue lunch will be served to Old Settlers at noon at the Park Building and reception, program and presentation of awards will be held from 2:30 to 4:30.
