THIRTY-SEVENTH WEEK

Odds And Ends

The editor of the Montello (Wisconsin) Tribune recently answered some questions he had received from readers of his weekly newspaper. Here are some of the questions and the editor's answers:

Q. Why don't you have funny papers?

A. We think we have the funniest paper in Wisconsin right now.

Q. Why don't you have an "Advice to the Lovelorn" column, like Abby Lane?

A. None of our readers have any such problems.

Q. Why do you have all those misprints?

A. They're the most entertaining part of the whole paper.

Q. Why didn't you publish the poem I sent you?

A. It was a lousy poem.

Q. Why do you always say "ke" when referring to yourself in the paper?

A. We want our readers to think they're outnumbered.

Q. Why don't you put out a bigger paper, like the Milwaukee Journal?

A. We plan on it as soon as the population of Montello equals that of Milwaukee.

Q. What would you give me for writing a weekly column of moral homespun philosophy?

A. A poke in the eye with a sharp stick.

Q. Why don't you write an editorial and tell those guys on the city council what they can do to improve the town?

A. Why don't you go down to the next meeting and tell 'em yourself.

Q. Why don't you print more letters to the editor?

A. Why don't you write me one? And sign it with your name, please—don't be chicken.

Q. Why do you devote space to such trivialities as "Joe Smith is feeling poorly this week?"

A. Because good old Joe has many pals who are concerned over his health, even if you are not. Who knows, somebody might read this item and send Joe a bottle of sympathy.

TSGRA Directors Meet In Big Lake Next Saturday

The summer quarterly directors meeting of the Texas Sheep and Goat Raisers Association will be held in Big Lake Saturday, June 25, according to the Association President, Lucius M. Stephens of Lometa. All directors are urged to be present and members, prospective members, and friends of the association are cordially invited.

Heading the list of important matters to be discussed are wool and mohair marketing, lamb imports, and ranch labor.

"The increasing shortage of sheep shearers and tentative plans to relieve the problem by encouraging counties to conduct shearing schools will be considered by the directors," Stephens said.

All aspects of the ranch labor problem will be discussed in the TSGRA Ranch Labor Committee.

New Mexico Authority To Speak At Wool Show Thursday Morning

A noted authority in the field of sheep and wool will be the main speaker at the wool school to be held in conjunction with the 23rd annual Wool and Mohair Show scheduled for Wednesday and Thursday, June 22 and 23.

4 FIRES WEDNESDAY KEEP FIREMEN BUSY

Sonora firemen were kept hopping Wednesday as they answered four alarms. The first, about mid-morning, was a grass fire behind the house under construction for Mrs. C. E. Stites in Castle Heights. Later in the morning, the fire broke out again between the Stites location and that of the Norman W. Roussetts. At the same time, a grass fire 13 miles south on Highway 277 was reported.

In the late afternoon another alarm was turned in, that one, another grass fire, was on a vacant lot on West Third Street.

No damage was reported from any of the fires.

James M. Baggett Buried At Ozona Thursday Morning

Funeral services were held at the First Methodist Church in Ozona Thursday morning for James M. Baggett, 79, longtime Crockett County resident and ranchman. Baggett died at his home Tuesday evening.

He had been a resident of Crockett County since 1899 when he moved to West Texas from Bell County.

Survivors include his wife; three daughters, Mrs. Jerry Pace and Mrs. Hiram Brown, both of Austin, and Mrs. N. E. Smith of Lamar, Colorado; a son, James Baggett of Ozona, and a brother, Will R. Baggett of Ozona.

CAMP ON LLANO

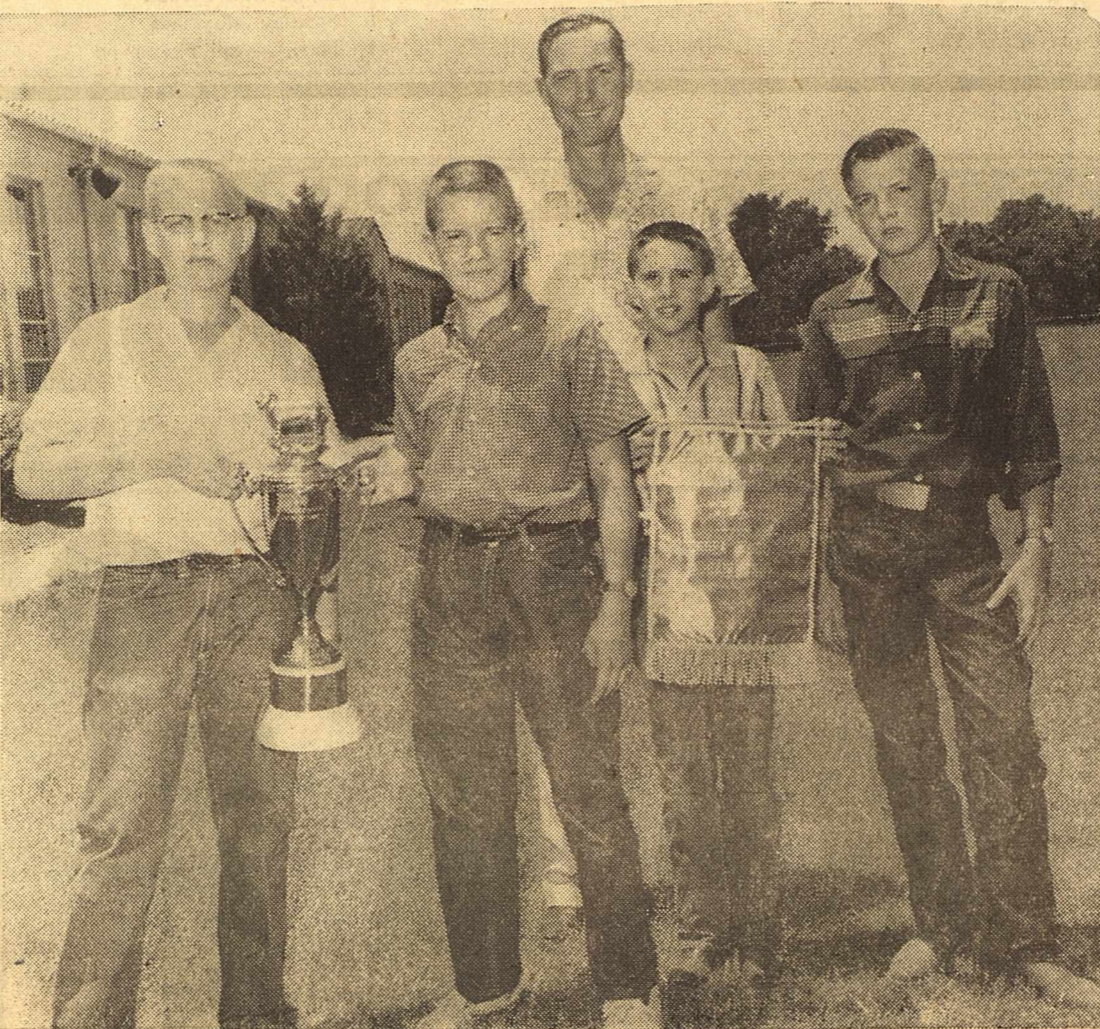

Several from Sonora enjoyed a camping and fishing trip to the North Llano last weekend and the first of the week. Those making the trip were Mr. and Mrs. Jackie Sharp and Kathy, Mr. and Mrs. Jerrel Young and daughter, Viola Adams, Oscar Adams, Mrs. Willie Andrews, Mrs. J. M. Huling of San Angelo, Mrs. W. A. Ezell of Barnhart, Mrs. Bill White of Ganado, Miss Nann Karnes, Mrs. Hub Hale, Mrs. Marguerite Turney, Mrs. Carra Simmons, Mrs. Earl Duncan, Mrs. Ernest McClelland, Mrs. Annie Sharp, Mr. and Mrs. Gomer Minnick, Willis Dean Minnick, Bill Karnes, Dick Karnes, Bill McClelland, Alice Lee Duncan, Nancy Prugel and Mr. and Mrs. Bill Turney.

The association is currently sponsoring a program to import labor for Texas ranch work from the British West Indies. Tully Pratt of Brackettville, committee chairman, urges those interested in contracting these laborers, available to association members and prospective members, to attend the meeting.

Committees will meet at ten o'clock Saturday morning at the Reagan County High School and the general business meeting will convene in the school auditorium at 1:30 that afternoon.

Highlighting the entertainment will be a leg of lamb supper and dance Friday evening and a lamb and goat barbecue at noon Saturday, all to be held at the Country Club.

23rd Annual Wool & Mohair Show To Start Wednesday

Top spot in the overall high teams at last year's wool show was won by the junior team of the Sutton County 4-H team. Members of the team are, left to right, John Friess, Dick McMillan, Coach D. C. Langford, Libb Mills Wallace and Jack David Wardlaw.

The Sonora Lions Club's 23rd annual Wool and Mohair Show will get underway here Wednesday, June 22, with entries of wool and mohair due in the warehouse of the Sonora Wool and Mohair Company by five o'clock Tuesday afternoon, June 21.

Exact number of entries received to date were not available but are running behind last year. Chief reason for this is early sales of mohair at unusually high prices and the currently inactive state of the wool market.

The precise number of 4-H

and FFA judging teams to participate in the judging events is not known but is expected to be considerably higher than in past years.

Every year since 1949 the Sutton County Club has received the trophy as the best all round club, and has five times been over-all high team, although Ozona FFA and Crockett County 4-H top honors team-wise in 1957 and 1958.

Overall high individual awards have been won locally by Oscar Carpenter in 1950, Carlos Loeffler in 1953, Gene Brodhead in 1956 and Claire Jones in 1957.

Junior championships for bags of wool have stayed consistently in the county since 1949 with Connie Mack Locklin, Nancy Hunt (now Mrs. James Powell), Claire and Cleve T. Jones, Curt Schwiening, Jr., Joe and John Friess and Dick McMillan (twice) showing the championship bags.

As for wool single fleeces, junior championships have gone to Nancy Hunt in 1950, Rodney Davis in 1952, Connie Mack Locklin in 1953 and 1954 Jan Vander Stucken in 1956, Anna Rose Glascock (now Mrs. Billy Gillet) in 1957 and Jack Wardlaw in 1959.

Since 1949, when Joe David Ross exhibited the junior grand championship mohair fleece, the award has gone out of the county, four times to Menard County, twice to Kimble County, twice to Bandera County, once to Harper and once to Medina.

Judging teams winners for the past four years have been: Livestock: Sutton County 1956 (Gene Brodhead, Rodney Davis, Jack Baker); Bandera County 1957; Upton County 1958, and Crockett County 1959.

Wool: 1956 Crockett County; 1957 Upton County; 1958 three-way tie between Kimble, Bandera and Crockett Counties; 1959 Crockett County.

Mohair: 1956 Sutton County (Gene Brodhead, Claire Jones, Jack Baker); 1957 Upton County; 1958 Bandera County; 1959 Sutton County (Claire Jones, Jimmy Richardson, Preston Neely).

Range Management: 1956 Eldorado; 1957 Ozona; 1958 Schleicher County; 1959 Ozona.

Last year's adult championship awards went to Armer Earwood, wool fleece; Dave Locklin, bag of wool; and Howard Hay of Bandera, mohair fleece.

LIONS ROAR

A report on the Sonora Wool and Mohair Show to be held here next week was heard at Tuesday's meeting of the Sonora Lions Club. County Agent D. C. Langford announced committee memberships and told of the national wool and mohair judging contest which will be held here annually beginning with next year's wool show.

There will be no Tuesday meeting of the club but the club will meet at the school cafeteria next Thursday at 11:30 for the awards luncheon.

Guests present were Pete Logan of Sonora, Bill Weaver of Snyder, Dr. Harry Clause of Houston, Edgar Reese of Greggton and George Hamilton of Aurora, Colorado.

Wool Incentive Rates To Be Named

The national average for the 1959 wool payment incentive program will be announced sometime the latter part of this month, according to Mrs. Marie K. Ellis, Sutton County ASC Office manager. Mrs. Ellis says payment statements will be made up as soon as the average is announced and checks will be issued in mid-July.

Sales receipts for wool and unshorn lambs sold during the 1960 marketing year (April 1, 1960 through March 31, 1961) may be turned into the office at any time.

YOUR MINISTER SAYS

By Rev. Doyle W. Morton
 "Honor thy father and thy mother" is an ageless command-

ment for the Jews. It was practiced to a great extent even before given the Ten Command-

ments. Our Western World has commercialized Father's Day. We hear more about the "gifts for Dad" than we do about "honoring Father". We need to honor our father, as well as present gifts to him. Of course, this places responsibility upon the father. He must be honorable before great honor can be bestowed upon him. This is a commandment with a promise. "Honor thy father and thy mother: that thy days may be long upon the land which the Lord thy God giveth thee". Exodus 20:12. The Interpreter's Bible says "The reward for such piety as is here commanded is a stable society in which health and long life can be enjoyed". The family is a basic unit in Christianity and in America. We should do all in our power to strengthen the family. The father should be honored because he is honorable.

Devil's River Philosopher Finds Business Men Don't Keep Posted On The Latest Economic Trends

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River apparently doesn't have a full understanding of what the price index is, his letter this week indicates.

Dear editor:

One trouble with this country is that not enough business people keep up with the economic trends.

For example, I read in a copy of a newspaper day before yesterday that living costs rose four-tenths of one per cent in April, as reflected by the consumers price index, a set of figures put out by the U. S. government.

As a result of this, the article explained, nearly a million workers in the auto, farm equipment and related parts industries got an automatic 2-cent-an-hour pay raise. Their contracts call for adjustments based on the government's consumers price index.

Well, now, I figured, I'm in the auto and farm equipment business, so to speak, especially the parts end of it, so naturally I concluded I was supposed to get a pay raise too, and since nobody pays me by the hour out here on this bitterweed ranch, the only way I could see how to get a pay increase was to raise the price of things I sell.

I don't know how long it takes for a hen to lay a dozen eggs, but I figured on the basis of that 2-cents-an-hour boost the others were getting, me and my hens would settle for 2-cents-a-dozen increase, which ought to be cheap enough, so I automatically marked up the price that much, and took some to town.

Like I said, the trouble with this country is not enough business people keep up with the economic trends. I couldn't find an egg dealer in this part of the state who'd ever heard of the government's consumers price index. When I said the price of my eggs is now 2 cents a dozen higher, they looked at me like they thought I was crazy.

What I figure is we've got a lot of business people in this country who don't keep up with the economic trends, or else they're still using the same price index they had pasted on their office walls twenty-five years ago.

You've got a printing press somewhere there in The Devil's River News office, haven't you? How about printing up a bunch of these new price indexes and distributing them around the country?

Yours faithfully,
J. A.

LOCAL NEWS BRIEFS Rotary Lawn Mower

Can Be Lethal Weapon

Dorr Scherz, Larry Bob Moore and Mike St. Clair are attending Baseball Camp near Meridian for three weeks. They were accompanied there Sunday by Harold Scherz.

Mr. and Mrs. L. C. Newell have returned from a vacation trip to Oklahoma, Ohio, Illinois, and Kentucky. They visited with their son-in-law and daughter, Mr. and Mrs. M. H. Denman in Hominy, Oklahoma, and with their son, Grant F. Newell, in Manchester, Ohio.

Mr. and Mrs. Ralph Finklea, Sr., of Raymondville are visiting their sons and families, Mr. and Mrs. Ralph Finklea, Jr., and Mr. and Mrs. Lawrence Finklea, Bill, Larry and Marsha.

Did you know a rotary power lawn mower blade travels at speeds up to 150 miles per hour and is capable of throwing sticks, stones, or other objects at comparable speeds? Imagine what would happen if you were hit by one of these fast-flying objects.

Power lawn mowers are now in the majority both in town and among farm people. Along with their increased use has been a closely related increase in accidents involving both operators and bystanders. Most accidents have been due to carelessness or lack of knowledge on the part of

the individual.

W. L. Ulich, extension agricultural engineer, offers these suggestions on how to operate your rotary power lawn mower safely and efficiently.

Always disconnect spark plug wire before working on the blade.

A clean sharp blade does a better cutting job and requires less power.

Never operate mower with safety shields removed.

Make sure all rocks and debris are removed from the area before close mowing.

Do not refill the gasoline tank when engine is hot or running.

Run mower as slow as possible to do good work.

Keep children and pets away from mowers.

Always be certain of sure footing when mowing on steep slopes.

Never leave engine running when mower is unattended.

Make sure mower is steady and under control before starting engine.

Always be aware of the hazards involved when you are using a power mower. Don't get caught napping.

Driver Attitude Large Factor In Traffic Accidents

Driver attitude plays the leading role in a high percentage of traffic accidents.

Driver attitudes are not in-born, but are created and many times can be corrected if caught in time.

In dealing with traffic violators and in accident investigations police officers frequently find a driver who normally is a gentleman and considerate of others. Behind a steering wheel, however, he is transformed into a self-appointed daredevil - - - always in a hurry.

Here is a list of faulty driver attitudes.

1. Over-confidence - assuming that everyone else will do just the right thing at the right time.
2. Pride in his past driving record-puffing up over his no-ticket, no-accident record.

3. Faith in his experience-convinced that his experience will get him through. However, experience develops bad habits as well as good.

4. False estimates-relying on guesses, estimates and fiction instead of facts.

5. Self-righteousness-judging his own actions and deciding in favor of himself.

6. Impatience-taking chances and using poor judgment.

Of course, these are only a few of the many problem-attitudes which plague drivers, but they seem to be the ones that crop up most frequently.

Drivers should remember to expect only the best from themselves - - - and the worst from other motorists.

Lots of parents would have a car if the kids didn't have drivers licenses.

Sure is a difference between good, sound reasons and reasons that sound good.

Safety is as simple as ABC- Always Be Careful.

Births Outnumber Deaths In Texas For Last Year

Births outpaced deaths by a ratio of 3.5 in Texas last year, provisional State Department of Health figures show.

The Department's section on records and statistics counted a total of 248,700 births for 1959, as against 73,753 deaths. That's an increase of 174,947 births over deaths during the 12-month period.

The 1959 births represents an increase of 3,194 over the 245,606 births recorded during 1958. State Health Department statisticians described the 1958 birth rate as the "lowest in several years," but do not speculate as to the reason.

The 1958-1959 death rate remained fairly constant, with an increase of only 310 between the 1959 figure and the 73,443 deaths registered in 1958.

The 1959 excess of births over deaths represents a natural population increase of 1.9 per cent, the Department pointed out.

The Department said that in the 10-year period between April 1950 and April 1960, there had been 2,351,464 births registered, compared with 683,244 deaths, for an excess of 1,668,220 births over deaths during the decade.

Disregarding immigrations and migrations, this represents a natural population increase of 21.6 percent over the 1950 Texas population of 7,711,194—contrasted to an increase in population from births alone of 20.2 per cent for the preceding decade between 1940-1950, the Department said.

A mental retardation research and evaluation center will shortly be opened within the Texas Medical Center in Houston, under auspices of the Texas State Department of Health, Baylor University College of Medicine, and the U. S. Children's Bureau.

Complete physical and psychological examinations will be made of all children accepted for service, sponsors said. The clinic's staff will consist of a medical director, medical social worker, psychologist, and a public health nurse.

Project sponsors said funds amounting to some \$65,000 to \$75,000 annually are presently on hand to operate the clinic for five years, after which its future will be contingent on the availability of additional money.

Kindness is a language the mute can speak and the deaf can hear.

It's pretty hard to convince the kids that the shortage of teachers is a calamity.

The typical family man has a billfold full of pictures and no money.

Safety sign: "Watch out for school children - especially if they're driving."

If it's true that a fool and his money are soon parted-then tell us how they got together in the first place?

Paradise is not a locality-it's a state of mind.

All of the visitors were impressed with the size and beauty of the cave, even though many of the more beautiful parts are not yet open for inspection. A tremendous amount of work has been done by the owners in opening and developing paths through the cave.
