Community Thanksgiving Services Will Be Held Wednesday Evening

Community Thanksgiving services will be held at 7:30 Wednesday night, November 23, at Program (CROP) and the Church of the Good Shepherd, mainder for use of the Ministerial with the Rev. Alanson Brown, Alliance. Everyone is cordially invited to attend this special worship service. The Rev. Allan Guthrie, pastor of the host church, has announced that a nursery will be provided for small children.

District Make It Yourself With Wool Contest To Be Held Here December 3

Sonora will be the scene of the District Make It Yourself With Wool contest finals on Saturday afternoon, December 3. Mrs. Edwin Jackson of Eldorado, district chairman, and Mrs. A. E. Prugel, Sutton County chairman, have announced completion of plans for the event in which girls from six counties will model woolen garments they have made. The style show will be held in the elementary school auditorium at two o'clock Saturday afternoon and will be followed by a tea honoring contestants in the cafeteria. Two Sonora High School girls, Lue Smith and Alta Lee McKenzie, will represent Sutton County in the contest. They will compete with entrants from Schleicher, Crockett, Edwards, Val Verde and Kinney Counties. District winners will be eligible to compete in the state contest and state winners will go on to national competition. Mrs. Marion Elliott will be commentator for the district show. Awards including lengths of woolen material will be given winners. Jetty Young of Sonora was a district winner last year. The contest, of which Mrs. S. M. Harvick of Ozona is state chairman, is sponsored by the Women's Auxiliary to the National Wool Growers Association, the Ladies Auxiliary of the Texas Sheep and Goat Raisers Association and the American Wool Council.

GRAVESIDE RITES HELD FOR LARREMORE INFANT NOV. 18

Graveside funeral rites for Jerry David Larremore, one-month-old son of Mr. and Mrs. Jerry Larremore of Odessa, were held Thursday afternoon, November 18. Mr. Kenneth Arrington, Church of Christ minister, officiated. The infant died Tuesday morning, November 16, of acute virus pneumonia. Mrs. Larremore is the former Miss Daon Locklin of Sonora.

Odds And Ends

We think about now a little tribute is due the Broncos and their coaches. They have had a wonderful season. It has been a winning season, true, but more important it has been a season of co-operation and high team spirit. Still more important these boys have made for our school system the reputation of clean sportsmanship and have consequently earned the respect of their opponents.

Soon we'll be hearing the announcement of choices for All-District teams. Many of the daily papers name their own choices for district and state honors. We are, therefore, exercising our prerogatives and naming our All-Bronco team.

Our honors go to these: Ends: Augustin Chavez, Charlie Howell, Arthur Bermea, David Archer and Sam Caldwell. Tackles: Steve Fish, Douglas Wood, Louis Perez and Pat Castro. Guards: Jimmy Cahill, Domingo Gutierrez, Bob Nevill and Jaime Flores. Centers: Curt Schwiening and Preston Neely. Backs: Lester Schmidt, Bobby Sosa, Herman Moore, Primo Gonzales, Johnny Fields, George Roberson, Julio Samaniego, Johnny Morris and Ram Castillo.

Sonora merchants in the downtown district will join in a special Christmas shopping season preview Thursday, December 1, under the auspices of the retail sales committee of the Sonora Chamber of Commerce. The preview, in the form of a general open house, will run from three o'clock in the afternoon until seven o'clock at night, and will give participating Sonora merchants the opportunity to display and show their Christmas stock to the adult and high school buying public. Business houses will be specially decorated and will display their Christmas stock for the inspection of their guests. Merchants and employees will be hosts for the occasion and visitors will register at each store for prizes to be awarded in the evening. At 6:30 the street program will begin with the band playing a

concert of holiday music. It is planned to have a high school chorus sing a program of Christmas music. At seven o'clock Mayor A. E. Prugel will officially proclaim the 1960 Christmas shopping season open and the Christmas street lights will be turned on for the first time this year.

Following this a drawing will be held at which time gifts will be presented by merchants to names selected from a list of those registering in the individual stores.

SANTA DUE DECEMBER 3
A special holiday treat for the children is planned for Saturday night, December 3, at the municipal airport. Santa Claus will arrive by plane for a visit with Sonora youngsters. A musical program will herald Santa's approach and he will distribute candies to children present.

340 Deer, 70 Turkey In Lockers With Season Less Than Week Old

Mrs. Mack Cauthorn still holds the season record for heaviest deer turned in to local check stations with her 140 1/2 pound, 15 point buck killed on the opening day of the season. Leader in con-

tests for the largest number of points is Raymond York of San Angelo whose 16-point buck was also bagged on opening day. As of Tuesday morning 340 deer, including 18 does, had been

turned in at local storage houses. Also in storage are about 70 turkeys. On November 24, 1959 only 163 deer, including 14 does, and 30 turkeys had been put on storage.

Broncos Bow To Wink In Bi-District Play Friday

The Sonora Broncos met defeat by the slender margin of 13 to 12 at the hands of the Wink Wildcats last Friday night in McCamey. It was a hard-fought game as the score would indicate, with the conversion kick off the toe of Wink back Curtis Robinson spelling victory for the Wildcats. It was the Wildcats who scored first in the second quarter after a scoreless first period. The initial touchdown came as a climax to a 40-yard drive by the Wildcats resulting from a Sonora fumble on their own 40. A long pass from Quarterback Dean Bates to End Bobby Mills brought the Wink eleven to the Bronco one yardline. Bates scored on a keeper on the next play. The conversion pass failed. On the resulting kickoff, Ram

Castillo returned it 24 yards to the Bronco 43. Ten plays later Julio Samaniego carried over for the Bronco's first tally. The try for bonus point was short and to the right. In the third quarter Sonora took the lead after the Horse-thieves had killed the Wildcats efforts on the offense. A punt by Wink was swooped up by Castillo on the Wink 35 and he carried it over the goalline after a forceful block by Bobby Sosa left a clear field. The pass attempt for two extra points was incomplete. It was the third quarter which saw Wink make their final touchdown and kick the all-important extra point. It was fullback Jimmy Morgan who carried the 11 yards into the end zone for the lat touchdown of

the night. Statistically, Sonora led in the game, racking up 12 first downs to Wink's 10 and gaining 144 yards rushing to the Wildcats' 93. In the passing department, Wink totaled 112 yards to Sonora's 55. The wildcats completed four of eight passing tries while the Broncos connected with eight of 15 attempted. Sonora intercepted one Wink pass while Wink scored no interception. In the fumble department, Sonora lost three to Wink's one while four Sonora kicks averaged 26 yards. Five Wink kicks went an average 31.6 yards. The Broncos were penalized five times for a total yardage of 45 and Wink was penalized five times for 43.5 yds. Wink will meet Plains in regional competition this weekend.

Sonora Flood Protection Project Due Completion Early In 1961

Construction of 13 structures on Dry Devil's River and Lowrey Draw, designed to reduce flood damage in Sonora by 96 percent, is rapidly nearing completion. The last three dams, two on the Ben Mittel ranch and one on the R. D. Johnson ranch, are scheduled for completion shortly after the first of the year. Site 4 should be completed in January, Site 1 in February, and the last structure-Site 3 should be completed in March or April. The three structures will control some 48 square miles of drainage area, and impound some 12,000 acre feet of floodwater.

Swope Bros., San Antonio, are constructing the dam at Site 1, and Lyles and Davis, Childress, are building structures at Sites 3 and 4. Lyles and Davis also built structures at Sites 5 and 6 on the ranch owned by Mrs. Pearl Martin. Sites 1, 4 and 6, and Site 8 on the G. H. Davis ranch are covered with topsoil, and will be mulched and seeded next spring. Site 2 on the Homer Byrd ranch, Site 3 (Ben Mittel), Site 5 (Pearl Martin), and Site 7 on the Ben Meckel ranch are blanketed with rock and will not require seeding. The annual inspection of completed sites was made last week

by Judge J. W. Elliott and E. B. Keng, SCS. All of the structures are in good condition and require no maintenance. If a good cover of vegetation can be established on soil-covered structures, maintenance is expected to be very minor. The Agricultural Research Service (experimental branch of USDA) is expected to start a comprehensive study in connection with structures on Lowrey Draw. Studies will be made to determine runoff water from rangeland, water loss in stream channels, and effect of recharge water on the underground water level.

HIGH LIGHTS AND SIDELIGHTS FROM THE STATE CAPITOL

By Vern Sanford
AUSTIN, TEXAS: Shell-shocked and exhausted from one of the hardest-fought general elections in decades, Texans now can get a second wind and turn to new issues and decisions.

Some of the significant decisions ahead grow out of decisions made at the polls earlier this month. As a result of Sen. Lyndon B. Johnson's election to the vice-presidency his senate seat will become vacant on or before Jan. 20. It's a highly coveted position, seldom up for grabs, since the winner of a six-year term can be fairly sure of holding it for life.

It is likely that the race for Johnson's post will be the first special election in Texas history to have a run-off. A 1957 law, called the Pool Bill, provided that in special elections for congressional vacancies, there shall be a run-off if no candidate receives a majority of the votes in the first polling. Previously, special elections had been on a high man wins basis.

Many possible candidates are mentioned. Among them: John Connally of Fort Worth, Jack Cox of Breckenridge, Martin Dies, Sr. of Lufkin, Congressman Joe Kilgore of McAllen, Wright Morrow of Houston, Lt. Gov. Ben Ramsey, John Ben Sheppard of Odessa, John G. Tower, Johnson's Republican opponent in the general election, Atty. Gen. Will Wilson and Congressman Jim Wright of Weatherford.

It is unlikely that any candi-

date will make a public announcement until Senator Johnson officially resigns and Gov. Price Daniel sets the date for the special election. Under the law, the governor must call the election in no less than 60 days and not later than 90 days from the time the vacancy occurs.

If Congress is in session at the time the vacancy occurs, it would also be the governor's duty to name an interim senator to serve until a successor is elected. Governor Daniel already has said that former Sen William Blakely would have first chance at such an appointment.

When the vacancy will occur depends entirely on Senator Johnson. There is speculation that he will not lay aside his senatorial toga until he takes the oath as vice-president (Jan. 20). Many feel that his presence and assistance in organizing the Senate prior to that date would help get the incoming Democratic administration off to a good start.

OKAYED AMENDMENTS POSE PROBLEM—On the purely state level, voters' approval of four constitutional amendments during the general election pose some new decisions and issues for the state legislators next January. Among them:

1. **MORE PAY**—From Where? By constitutional amendment, voters have, for the first time in history, put members of the Texas Legislature on an annual salary.

They will be entitled to \$4,800 a year, whether in session or not. They also are to get \$12 a day

expenses for 120 days of a regular session and for each day of any special sessions called thereafter. This replaces the old \$25 a day pay plan.

Question is where to get the money. State's general revenue fund is, according to State Treasurer Jesse James' latest report, \$60,535.63 in the red. By the time the next session starts, this figure is expected to be higher.

So, legislators will have to turn their attention quickly to a means of finding money somewhere if they're going to meet their own grocery bills.

2. LOAN COMPANY REGULATION—Passage of Amendment Four dumps in the Legislature's lap the tremendous job of passing laws to regulate lending practices in Texas.

Some lawmakers gloomily and privately predict that it will result in a worse fight than trying to pass a new tax bill.

Previously, the Constitution limited legal interest rates to 10 per cent. This provision was repealed.

Under the new provision the Legislature has the responsibility to (1) license and regulate lenders, (2) prevent misleading advertising, (3) fix and limit maximum charges and (4) impose effective penalties for violations.

Atty. Gen. Will Wilson, elated over the passage of the amendment, warned that "the loan sharks will pitch their final battle in the Legislature to try to eliminate the penalties and to develop loopholes".

3. LAND PROGRAM PICKS UP—Since the voters gave it permission Nov. 8 to pay higher interest on its bonds, the Veterans Land Board is getting ready to do a bigger business.

Maximum interest the board can pay on the bonds it sells was raised from 3 to 3.5 per cent. With this easing of restrictions, the board expects to be able to sell more bonds and have more money available to loan veterans for land purchases.

According to the constitutional amendment setting up the program, no new loans are supposed to be made after Dec. 1, 1965.

SCHOOL GOALS SET—Knowing it will be a tough job in this debt-ridden era, Texas school people are, nevertheless, setting their sights on a \$100,000,000 improvement program.

At an Austin meeting of educators, legislators and interested citizens, Governor Daniel promised his support to the effort to pass a bill to raise teachers salaries.

This is one of the main items of the \$100,000,000 Hale-Aikin recommendations. This program resulted from a study begun in 1957. It sat on the shelf during the last legislature because of the acute money shortage.

A Challenge To Texans

(A guest editorial by Walter H. Richer, executive director of the Texas Rehabilitation Center, Gonzales Warm Springs Foundation.)

One of the most frustrating experiences a person can have is to find himself paralyzed, helpless, and dependent. This is true of the paraplegic—someone paralyzed from the waist down. It is even more true of the quadriplegic—a person paralyzed in all four extremities. Certainly it is also true of the hemiplegic—the stroke victim with one side immobilized.

You can be sure that it is true of adults as well as children, although, somewhat strangely, the handicapped adult has never evoked the interest and sympathy accorded to the crippled child.

There are an estimated 20 to 30 thousands of such severely disabled persons in Texas. Less than two per cent of the civilian paraplegics alone, if we can believe one qualified spokesman for the handicapped, have received rehabilitation services.

Another authoritative source, following a survey of rehabilitation in Texas, observed that the

needs of disabled Texans are "far beyond the reach of present resources and programs."

The majority of these neglected and forgotten citizens can be restored through the various disciplines of rehabilitation to partial or even complete self-sufficiency. Many can become qualified for gainful employment. Others, by acquiring a measure of independence, can relieve other members of their families for employment.

The practical economic aspects of intensive rehabilitation, costly though it may seem, are inescapable. More important, however, are the humanitarian benefits—and they are without limit.

It seems urgent, even imperative considering the needs and the potential results, and all thoughtful, concerned Texans

lend a hand to programs of intensive, long-term care for our severely handicapped fellow citizens. Adults as well as children.

This appeal is specifically for assistance for the non-profit, non-sectarian program at the Texas Rehabilitation Center, Gonzales Warm Springs Foundation. It treats young and old alike and many different types of disabilities. It is one of very few such in-patient facilities in the Southwest.

The charity portion of the Center's program runs between \$25,000 and \$30,000 per month—a difficult burden for a few to carry, a relatively simple one if many pitch in to help.

A long list of seriously handicapped Texans are waiting to be admitted. Almost without exception, they will need a great deal

SAYS

By Rev. Allan Guthrie

True prayer makes one come into the very presence of God, who is infinite in His goodness. In the light of His holiness we see plainly our sins, both great and small. Our first need, therefore, is to confess our faults.

Only if many Texans support this program will the needs of these applicants—and others shackled to wheel and chair—be properly served. Your contribution mailed to TRC, Gonzales, Texas, will be profoundly appreciated.

One of the great confessions is that composed in the year 1552 for the newly formed Church in England.

"Almighty and most merciful

Father, we have erred and strayed from Thy ways like lost sheep. We have followed too much the devices and desires of our own hearts. We have offended against Thy holy laws. We have left undone those things which we ought to have done; and we have done those things which we ought not to have done; and there is no health in us. But Thou, O Lord, have mercy upon us, miserable offenders. Spare Thou those, O God, who confess their faults. Restore Thou those who are penitent, according to Thy promises declared unto mankind in Christ Jesus our Lord. And grant, O merciful Father, for His sake, that we may hereafter live a godly, righteous, and sober life, to the glory of Thy holy Name."

Devil's River Philosopher Proves A Stumbling Block In The Very First Step Toward Moving Forward

Editor's Note: The Devil's River Philosopher on his bitter-weed ranch on Devil's River seems to be dragging his feet on a new idea, his letter this week indicates.

Dear editor:

Here it is only two weeks after the country has elected a new President and some things have already moved forward.

For example, the mail service—not the mail service generally, it's about where it always was and I don't have any complaints about it, but a particular idea for the mail service.

As I understand it, the post office department in Washington is experimenting with a new type of mail delivery in which you write a letter on a special piece of paper, fold it into an envelope, drop it in a machine. The machine then opens it, looks at it, finds out where it's going, transmits it electronically to its destination, then tears up the original. On the receiving end, another machine reproduces it, seals it, and hands it over to the local post office for delivery.

I have been thinking about this system and I have my doubts. In the first place, if the machines can deliver a letter from New York to the Sonora post office, it won't be long before somebody wanting to move even further forward will figure out how to have it delivered electronically to my mail box, and I'm having

trouble enough keeping my present mail box propped up without having to maintain an electronic brain machine alongside it.

In the second place, I don't ever remember having received a letter on any day that I'd have been any better off or more informed if it had gotten to me two days earlier. Very few people have any thoughts or messages to convey to me that are that important. And I don't know of anybody, congressman, governor, sheriff, newspaper editor, who would be any better off or any more informed finding out what I think two days earlier than he can find out now. I take the position that if it takes me a week to think up an idea, anybody waiting on it can wait an extra day and not be hurt. In some cases he could never hear and be just as well off. And this things works vice versa.

It may be important to get a guided missile to its destination in thirty minutes, but very few thoughts are that devastating.

I think this country ought to move forward, even if it has to go around me to do it, but electronic-mail service may not be in that category. I'm not interested in this country's spending money to get my monthly bills to me two days earlier than I'm getting them now.

Yours faithfully,
J. A.

LITTLE COLONEL By Bob McKinley

I Give You Texas

By Boyce House
Back in the 1940's, I met a man who was reputed to be one of Texas' richest. He was an oil man and went in for raising and racing thoroughbreds. His ranch was a showplace with graveled roads, concrete crossings over streams and a fence high enough to keep the deer in and the hunters out. His home was a modest place as far as architecture went, although very attractive within, but the barn was a huge place with, I was told, \$30,000 worth of copper in the gutters and pipes; and no doubt the cost of the other features was in proportion.

The second time I saw him, he was seated in his box at the new Orleans track where some of his entries—including an Irish horse for which he had reputedly paid \$70,000—were racing. He didn't rise but he put out a hand which I pumped up and down and a smile like a glint of sunshine on a rocky Vermont hill lighted up his features for a moment.

A mutual acquaintance said afterward, "You've made a hit with him."
"I have?" was my doubtful reply. "His manner didn't seem to me to be very warm."

"Oh, "the other responded, "that was very cordial for him." After thinking about it, I decided that a man with millions of dollars has to hold others at arm's-length to keep them from "getting to him"; and what a lonely life a man must lead when he can not know whether an individual who seems happy to see him is interested in him for himself or for what he hopes to get

out of him. And all his millions could not save him when he drove his automobile into the path of an onrushing train. * * *

I once made a mistake (in fact I've made several)—which resulted in my missing a big news story. One Sunday afternoon before reporting for work on the Fort Worth Star-Telegram, I was driving around town and decided to motor to Grapevine, 29 miles away, but looked up at a clock and saw I had only a few minutes before time to go to work.

"When I came in, the city editor said, "You're ahead of time."

I looked at the clock on the wall and saw it was a full hour before I was supposed to be there. I had mis-read the first clock and would have had time to make the Grapevine drive.

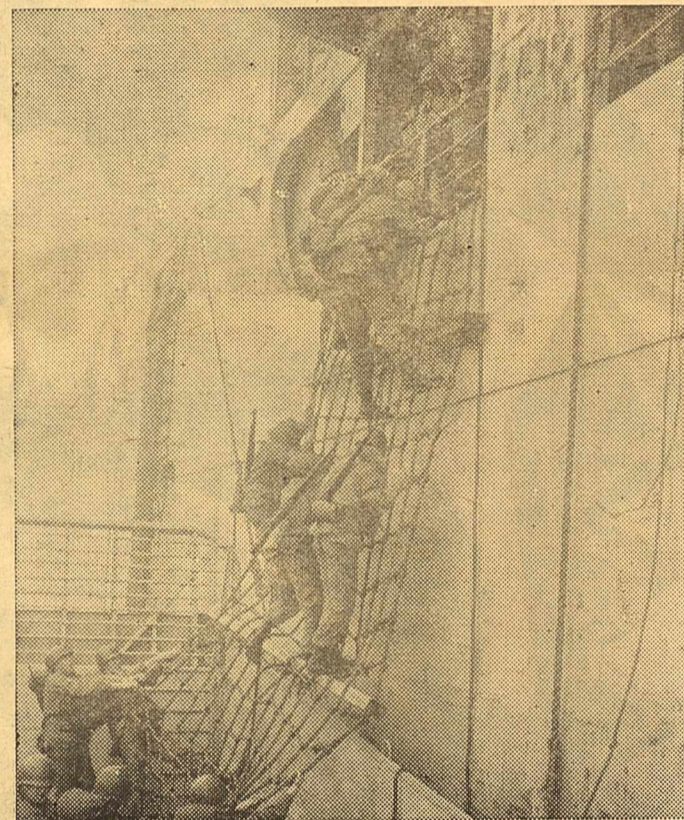

And if I had done so, I would have been right on top of a sensational crime as I learned when, in a little while, the telephone rang and the city editor was advised that, on a side road near the highway to Grapevine, two State highway patrolmen had been shot to death.

The slayers, it turned out, were Clyde Barrow and Bonnie Parker.

So, because I mis-read the time by an hour, I failed to be in the vicinity when the crime was committed—and so missed covering the story as practically an eye-witness.

On the other hand, had I been out there, Clyde and Bonnie, as they fled, might have added a third name to the list of victims.

692 Licenses Issued Hospitals In Past 9 Months

Fishing without a license continues to top the list of game and fish violations in the State. Wardens filed against 178 persons in September for failing to have the required fishing license, according to J. B. Phillips, assistant director law enforcement, Texas Game and Fish Commission.

This is a slight drop from the 198 arrests made the same month in 1959, but a big increase when compared to the 29 persons found fishing without licenses in Sept. 1956.

Game wardens apprehended 123 persons last month for game law violations. Twenty-five of these were hunting in closed season, 17 were hunting from automobiles, 12 failed to plug their guns for three shells and 10 were hunting

Devil's River Philosopher Wants A Few Points Cleared Up About Who's To Work Harder Next Year

Editor's Note: The Devil's River Philosopher on his bitterweed ranch on Devil's River is not letting the election outcome bother him, his letter this week indicates.

Dear editor: Now that the election is over there are a few things I'd like to get cleared up before the inauguration in January.

The winner, as well as the loser, kept hammering all through the campaign that we've all got to go forward, not backward, we can't stand still.

I've never seen two candidates agree more on the idea that everybody has got to stop loafing and start working.

In a general way, I agree with this, but in a specific way, I have my doubts. Well, I really don't have my doubts, I know blamed well I'm not going to work any harder in 1961 than I'm working right now.

What I want understood is that Mr. Kennedy was committing himself to work harder, not me.

I'm all in favor of the President, Congress, the cabinet, the General Staff, etc., working harder, of the defense plants working harder, the scientists working harder, the schools working harder, even the pupils working harder, probably the tax collectors working harder, but I have reviewed my situation out here on this bitterweed ranch and have come to the conclusion that there's not a thing I can do around here by working harder to keep a guided missile from mis-firing, a satellite launching from fizzling, an atomic submarine from bumping into the North Pole, Fidel Castro from talking on his television, Congo tribes from fighting each other, Khrushchev from pulling off his shoe in public, etc.

However, understand, I will not hold back. I will do what I can, and wish to announce I have selected the field of foreign prestige. I intend to work harder on my prestige abroad. I have found from years of trying that it may be easier to build up your prestige with somebody on the other side of the earth than across the fence. If at any time next year it looks like I'm not going forward, I will appreciate your remembering that I'm working on my foreign prestige and I can do it just as well sitting down as riding a horse. I would like to say in this connection though that my prestige is not at an

at night.

"It is evident that some people are determined to hunt and fish without respect for laws which have been established to preserve our game and fish," said Phillips. "They don't realize that by their very acts of illegal hunting and fishing, they are hurting themselves as well as those who do respect our game laws."

According to Phillips, the good sportsmen (those who realize the need for game and fish laws) have always been a great help to wardens, by reporting violators and suspicious activities. "They are wise in doing this. These individuals, along with the landowners, should be congratulated for this great service. Once again, as the hunting season arrives, violators can expect an ever-growing pressure as wardens and all good sportsmen join together to promote game law enforcement in Texas."

Football Banquet Slated December 14 Brumbe'low Speaker

Bronco Booster Club President Louis Davis announced Tuesday that the date for the football banquet has been set for Wednesday night, December 14, at the school cafeteria. Speaker will be Mike Brumbe'low, former TCU grid star and Director of Athletics of Texas Western College now with El Paso Natural Gas Company.

Members of the A and B high school teams and their coaches will be honor guests. All members of the Booster Club are expected to be present. Tickets for members will be \$3.00 per plate and reservations must be made in advance. Reservations may be made and tickets purchased from any of the following officers of the club: Louis Davis, W. B. McMillan, E. B. Keng, John R. McClelland, Dr. J. F. Howell, Pat Brown and John Fields.

Davis also reported that the club is taking on promotion of attendance at basketball games this season. Booster Club members feel the team has fine prospects for the season and plans are being made to film at least one home cage game.

LET US FORD DEALERS SHOW YOU THE MOST MAINTENANCE-FREE FORD IN HISTORY

With all of its flash and T-Bird dash, the new Ford is so maintenance-free it can save you hundreds of dollars in operating costs alone and end most bothersome servicing.

And Ford's performance rates high, with Wide-Tread design and a choice of 4 great engines. Remember, too, each part of '61 Fords, except tires, is dealer warranted against defects in materials or workmanship for 12 months or 12,000 miles, whichever comes first. Normal maintenance service or routine replacement of parts such as filters, spark plugs, condensers, ignition points are not covered.

BECAUSE IT'S BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

BEAUTIFULLY PROPORTIONED TO THE CLASSIC FORD LOOK
This medal was presented by the International fashion authority Centro per l'Alta Moda Italiana, to the 1961 Ford for functional expression of classic beauty.

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF—HERE'S HOW

Lubricates itself. You'll normally go 30,000 miles without a chassis lubrication.

Cleans its own oil. You'll go 4,000 miles between changes.

Adjusts its own brakes. New Track Size brakes adjust themselves automatically.

Guards its own muffler. Ford mufflers normally last three times as long as ordinary mufflers.

Protects its own body. All vital underbody parts are processed to resist rust.
